On any day of the week, excepting Wednesday, a "rush" order for poster work, etc., reaching the Reporter office in the morning will be completed and returned on the evening train.

THE EXAMINATIONS

The departmental examinations will take place on the following dates:—Art school examination, April 23rd to 25th; kindergarten, June 18th and 19th; Entrance, June 24th to 26th; Junior Matriculation, June 29th to July 3rd; Junior leaving, Part II, July 2nd to 13th; Commercial diploma, June 29th and 30th; Honor Matriculation or senior leaving, July 2nd to 13th.

ORATORY AT SMITH'S FALLS

In reporting the Senator Frost banquet at Smith's Falls, the News says:—

There were some brilliant flights of oratory during the evening. Mr. Donavon, of Athens, is eloquent and flowery. He has a good voice, a pleasing manner, and his well chosen remarks were an evidence of his ability to "rise to the occasion." He is a credit to Athens, a credit to himself, and a valuable citizen of a great province.

HIGH PRESSURE DAYS

Men and women alike have to work incessantly with brain and hand to hold their own nowadays. Never were the demands of business, the wants of the family, the requirements of society, more numerous. The first effect of the praiseworthy effort to keep up with all these things is commonly seen in a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of both body and brain, and in extreme cases in complete nervous prostration. It is clearly seen that what is needed is what will sustain the system, give vigor and tone to the nerves, and keep the digestive and assimilative functions healthy and active. From personal knowledge, we can recommend Hood's Sarsaparilla for this purpose. It acts on all vital organs, builds up the whole system, and fits men and women for these high pressure days.

THE FARMERS' ASSOCIATION

An organization bearing the above name was organized at a meeting of farmers held in Toronto last September, and it is being extended all over the province. It may fairly be regarded as a successor to the Patrons of Industry, but, having in mind the rock upon which that society was wrecked, the new association will endeavor to keep absolutely free from all party entanglements. The following resolutions were passed at the time when the central organization was formed and will help to give an idea of the reasons for the association's existence:—

"That, while deeming it inadvisable to establish a political party, we believe it is for the welfare of the country that there should be an organization ready to bring its influence to secure and promote the interests of the farmers in matters of legislation and otherwise."

"The granting of public money to private and corporate interests in the form of bonuses and bounties is unjust to the masses of people, and should be forthwith discontinued."

"The Association believes it is in the interest of an agricultural country like Canada that there should be the strictest of public regulation of transportation, and that a Commission with power to fix rates, with right of speedy appeal to one court on questions of law only, and not to any political tribunal, should be established without further delay."

"Owing to the present condition of our assessment laws, agriculture has been made to bear an unequal burden of taxation. We therefore declare that our laws should be so amended that the property of railroads and other public service corporations should be assessed for the same proportion of value as the property of private property-owners and taxation thus placed on a juster and more equal basis."

"The Association emphatically protests against any increase in the tariff. It is declared that these resolutions clearly show that this Association exists solely for the purpose of enabling farmers to bring their influence to bear upon the Legislature or Parliament for the purpose of shaping legislation in the interests of the whole people, and that it should, therefore, have the active support and assistance of every true patriot and, more particularly, of the farmers of Canada."

PREACHER'S WIFE ELOPES

South McAllister, I.T., March 27.—Confined with the vilest female criminals of the territory in the federal jail at this place is Mrs. Daniel Earl, wife of a leading preacher of the Dominion of Canada. Mrs. Earl was bound over at Antlers in the sum of \$1,000. She came with her nine year old son to Little Oklahoma City for the latter's health, staying with the husband's brother, Dr. S. H. Earl. It is charged that she recently eloped with a Holiness preacher, F. A. Morgan, who was arrested and is now in jail. Mrs. Earl says her relations with Morgan were entirely Platonic.

PARISH OF LANSDOWNE REAR

Divine service will be held in Trinity Church, Lansdowne Rear, on Good Friday at 10:30 a. m., and at Christ Church, Athens, at 3:00 p. m. On Easter Sunday there will be celebrations of the Holy Eucharist at Christ Church, Athens, at 9 a. m., and at Trinity Church, Lansdowne Rear, at 11 a. m., with sermon. Even-song at Christ Church, Athens, with sermon, at 7 p. m.

The Annual Vestry Meeting will be held at Christ Church, Athens, on Monday, at 7:30 p. m., and at Trinity Church, Lansdowne Rear, on Tuesday, at 7:30 p. m. After the vestry meeting at Trinity Church, there will be a meeting of the congregation to elect a delegate to the diocesan synod for the next three years.

The children of the Sunday-school are requested to return their mite boxes on Easter Sunday.

JUST THE CHEESE

Miss Halladay has received the following reply to the letter of enquiry she sent to England by the cheese-route:—

KINGSTON-ON-THEAMES, 3/19, '03.
Miss E. Halladay,
Elgin, Ont.

Dear Madam,—We have received your note placed in bottle, October 4th, '02. Quality is excellent; cut up beautifully; creamv, and is delicious in flavor. Dominion cheese is far superior to American and New Zealand make. English cheddar commands higher price, because it is scarcer, not superior in quality.

We paid 64s. per cwt. on Jan. 9; now it is worth 72s.; sells at 8d. per lb.

Yours very truly
J. B. Thomas,
Manager Nuthalls & Sons.

LEAGUE BASEBALL

We are pleased to learn that the importance of physical culture is recognized by the young men of Athens, and that, with a view to promoting it and obtaining wholesome recreation, they intend forming a baseball club for this season. A meeting for this purpose will be held in Lamb's hall this (Wednesday) evening, to which all interested in the matter are invited.

The business of the meeting will be organization, the election of officers, and the providing of a fund for defraying the expenses of the club. This last order of business is one in which the business men and other prominent residents of the village may well take an interest. For a village to possess a reputation for physical culture is almost as desirable as a reputation for superior mental endowment; and when the two may be combined, as in this instance, those loyal to the fair name and fame of Athens should endeavor to consummate the union.

An attempt will be made to form a league composed of clubs in the following places: Athens, Brockville, Westport, Lyndhurst, Frankville and Elgin. This should not be difficult, as already some of these teams have organized for the season. A league schedule, the power vested in the executive, the respect accorded the rulings of league officials, are all factors that add to the interest of a match and that will help to make the game popular with all classes.

Let there be a large attendance this evening. You do not have to be able to pitch a curve or bat a ball in order to be eligible for membership in the club. If you would like to see a good ball club organized here, lend the favor of your countenance at the meeting this evening.

Boys' Easter Suits

It don't seem like Easter to the average boy unless he has a new suit to wear.

Let us fit out the Boy with his Easter Clothes Suit or Top Coat, or both.

Handsome and beautiful lines in Russian Blouse, Sailor Blouse, Vestee, Norfolk two and three piece suits, in blue, black, grey and a host of neat and dressy new patterns of tweeds, chevots and worsteds, handsome and well tailored garments.

Boys' two piece suits from \$1.00 to \$5.50.
Boys' three piece suits from \$2.00 to \$8.50.
Caps, Shirts, Ties to complete the outfit.

OBITUARY

Respecting the death of Mr. E. Fair's mother, recorded in last week's Reporter, the Gananoque Journal says: On Sunday morning at ten o'clock Mrs. Hester Fair, wife of the late John Fair, Dulcemane, was called to her eternal home. She was loved and respected by all who knew her. She was kind-hearted and a good friend to the poor or needy and there are many who have been heard to say: "She has been as a mother to me." She was a consistent member of the Church of England. The remains were taken to her home at Dulcemane on Monday afternoon and on Tuesday were followed by a large number of relatives and friends to St. John's church, where Rev. Mr. Leech conducted the last sad rites, after which the body was placed in the vault. She leaves to mourn her loss three sons and one daughter, who with her many other friends have the heartfelt sympathy of all in their sorrow.

FUTURE OF CHEESE

Prof. Robertson was before the agricultural committee at Ottawa to tell what the department is doing in the way of developing the cheese trade in Canada, particularly in reply to the argument that we have about reached our limit in the way of a market for our cheese exports in Great Britain. He said that if the makers keep on producing a fine article we can double our present exports in the next ten or fifteen years. Regarding the carriage of cheese and other perishable food products to the seaboard, Prof. Robertson said the three requisite conditions were safety, regularity and reasonable rates. These were met by the Canadian railways, and it costs hardly any more to send cheese from Ontario to London than from Ayrshire to London.

INTERNATIONAL LESSON NO. 11. APRIL 12, 1903

The Resurrection.—1 Cor. 15: 20, 21, 50-57

Commentary—After proving the resurrection of Christ from the Scriptures (vs. 1-12) and from eye-witnesses (vs. 13-17), Paul offers a strong argument by showing the results of the contrary doctrine: 1. The whole gospel would be a failure and preaching and faith vain (v. 14). This is clear because, (1) if Christ has not been raised from the dead He cannot keep His promises. 2. He cannot be a present Saviour from sin. 3. He cannot be proved to be the Son of God. "It is His power over death, His continued existence, His ever living, that completes the proof that He is a divine Saviour." There has been no atonement for sins. There can be no second coming. 1. Christ's resurrection affirmed.—vs. 20, 21.

22. Now is Christ risen—"Paul begins this famous chapter with a restating of the proofs of the resurrection of Christ. He brings witness after witness, even 500 at one time who during the forty days between the resurrection and the ascension, saw Jesus, touched Him, heard him talk, ate with him, walked with him at different times in various places, and many of these witnesses were familiar acquaintances. 21. By man—It pleased God that in some way humanity should within itself, however aided with divinity, work out its own destiny, both for death and life, in Adam and in Christ." Came death—compare Romans v. 12-19 with the narrative in Gen. iii. By man...the resurrection—Mortality came by Adam, immortality by Christ. So sure as all have been subject to the same death by Adam, so sure shall all be raised again by Christ Jesus.—Clarke.

22. The incorruptible body (vs. 50-57). This is the body that Paul clearly states that man in his present condition cannot enter the portals of eternal glory. Flesh and blood—Man in his present state of frailty and mortality, with a body that is fragile and weak, cannot inherit—His nature is not capable of enduring the "eternal weight of glory." In order to be able to inherit the eternal mansions, man must be immortal. Kingdom of God—Heaven; appropriately called the Kingdom because He will reign there in undivided and perfect glory forever.—Barney, New Testament, etc.—Our ordinary flesh and blood is by its very nature destined to corruption. It is not with such frail and mortal bodies that we can be partners of the incorruptible life.—Lias.

51, 52. A mystery—A truth not known before, and even now that it is revealed to us, it is not by reason to fathom. We—That is, the whole body of Christians who are candidates for the glorious resurrection. The use of the word "we" in this connection does not prove, as some seem to think, that the apostle expected to be alive at the coming of Christ. Not all asleep—We shall not all die. All be changed—Those who are alive at the day of judgment shall be changed so that their bodies will become spiritual bodies like the bodies of those who shall be raised from the dead. 53, 54. This corruptible—The mortal body is not destroyed and again created, but it is "clothed upon" with immortality. "It receives an addition of qualities which it does not possess before." It is written—in Isaiah xvi. 8. Swallowed up—Death is here personified and represented as a devouring being, swallowing up all the generations of men, and by the resurrection of the body and the destruction of the empire of death, God is represented as swallowing him up.—Clarke. In victory—The victory of death and the grave will be complete. The changed body will be (1) incorruptible, (2) glorious, (3) powerful, (4) a spiritual body, (5) one like the body of the glorified Christ. What a time of victory that will be for the righteous!

55-57. The sting—Quoted from Hosea xlii. 14. Death is here represented as having a sting. O feroceous death—The R. V. also transposes the two members of this verse. Sting... sin—"Death could not have entered into the world sin had not entered first, and it is by sin that we are armed death with its destroying force; by sin both body and soul are slain." The law—That which gives sin its power is the fact that it is the transgression of the righteous law of an all-wise and all-holy being. III. The church admonished (v. 55). 58. Therefore—We come now to the conclusion of this wonderful chapter. Steadfast—Be settled and firm in your faith in the resurrection, which some (v. 12) are endeavoring to overthrow. Unmovable—"Let nothing move you away from the hope of the gospel, which is given unto you." Always abounding—"Steadfast means positive, intrinsic firmness; unmovable implies resistance to the mightiest outward pressures and fiercest onsets; abounding means energetic action." Work of the Lord—"That which the Lord required; all the duties of Christians. The conversion of sinners and the upbuilding of the church. Ye know—Christians are a positive people. They do not live in uncertainty and doubt.

Thoughts—"The one point which is most distinctly the peculiarity of Christian teaching as to the future state is the resurrection of the body. It has been said that Christianity is the only religion which takes serious account of the body, or does it any honor, or regards holiness as possible in connection with it. It is all a pure matter of revelation, and a pure question of faith. Now that the truth has been announced, various natural analogies may be im-

agined and pressed into service; but certainly they never suggested it. Reason, unaided, never dreamed of the resurrection.

PRACTICAL SURVEY. The doctrine of the resurrection of the body is distinctively a revelation of the Bible and Christianity. Heathen religion and philosophy contained intimations of a future life for the spirit, but contained no hint of a resurrection for the body. Hence the doctrine of the resurrection from the dead was taught by an apostle seemed foolishness to the heathen world.

Importance of the resurrection of Christ to the Christian system. The apostle bases his argument for the resurrection of all upon the resurrection of Christ. Indeed, this is the keystone of Christianity. Blot out the victory of Christ over the grave, and the whole system falls to the ground. The apostle urges this thought by various considerations. (a) The positive evidence of Christ's resurrection from the dead (vs. 3-8). This evidence would be sufficient to establish any fact in any just tribunal in the world. (b) He then argues that to admit the resurrection of Christ is to admit the possibility of a resurrection for all (vs. 12-13). (c) He then argues that if Christ be not risen preaching is in vain, faith is vain and he and others who preach of Christ's power to save were false witnesses (vs. 17-17). Only a living Christ can save men. He lives, therefore He can save (1th. vii. 25) (d) "Then they also which are fallen asleep in Christ are perished." (v. 18). Their hope for the future was a delusion, their triumph a fantasy. Our hope of meeting again with them a dream. (e) "If in this life only, we have hope, we are of all men most miserable," most to be commiserated.

Hope through the resurrection of Christ of a resurrection for all His people. "But now is Christ risen." (v. 20). The effect of Christ's resurrection upon His disciples is illustrated in John xx. 20. They were "glad when they saw the Lord." Hope revived, despair fled, faith reasserted itself and they were "glad." The joyous note of v. 20 was constantly kept before the church by the apostles. (a) It was a central thought in their preaching. (b) In Paul's life it was the inspiration which enabled him to count all things but loss for Christ, and to endure the daily death of the apostolic ministry. (c) In view of separation by death, believers were comforted by the hope of a resurrection at the coming of the Lord. (d) Were the saints passing through patient endurance in view of the glory which was to be theirs at the appearing of Jesus Christ. (e) The saints are urged to persevere in the Christian race by the hope that at His coming He "shall change our vile body that it may be fashioned like unto His glorious body." This hope has been and is the joy and the inspiration of the church of Christ in the earth.

Victory in view of the resurrection. If in one particular sin and Satan keep the people of God under their power, salvation is incomplete. Sin must not only be destroyed but its consequences as well. This shall be accomplished in Christ. "The last enemy that shall be destroyed is death" (v. 26). Then shall every saint of God exclaim, "O death, where is thy sting? O grave, where is thy victory?" (v. 55). Seeing this triumph from afar, God's people may now be

Mrs. Anderson, a prominent society woman of Jacksonville, Fla., daughter of Recorder of Deeds, West, says:

"There are but few wives and mothers who have not at times endured agonies and such pain as only women know of. I wish such women knew the value of Lydia E. Pinkham's Vegetable Compound. It is a remarkable medicine, different in action from any other I ever knew and thoroughly reliable.

"I have seen cases where women doctored for years without permanent benefit who were cured in less than three months after taking your Vegetable Compound, while others who were chronic and incurable came out cured, happy, and in perfect health after a thorough treatment with this medicine. I have never used it myself without gaining great benefit. It restores my strength and appetite, and tones up the entire system. Your medicine has been tried and found true, hence I fully endorse it." Mrs. R. A. ANDERSON, 255 Washington St., Jacksonville, Fla.—agent for original of above testimonial proving genuineness cannot be produced.

The experience and testimony of some of the most noted women of America go to prove, beyond a question, that Lydia E. Pinkham's Vegetable Compound will correct all such trouble at once by removing the cause, and restoring the organs to a healthy and normal condition.

FIGHTING OFF ADVANCING AGE.

It is generally considered that American women have increased in vitality the last half century, and this is conspicuous in women over forty-five.

The well-kept matron of 1903 is fuller of figure and much brighter of eye than the matron of 1850. She has reached the age limit about ten years, and she can make that ten years. The first step must be to take account of one's health, and especially of the heart.

MUNYON'S REMEDIES. Munyon's Cough Cure stops coughs, night sweats, always soreness and speedily heals the lungs. Price 25c.

Munyon's Kidney Cure speedily cures all cases of kidney disease, and all forms of kidney disease. Price 25c.

Munyon's Headache Cure stops headache in three minutes. Price 25c.

FREE MEDICAL ADVICE. Personal letters addressed to Prof. Munyon, Philadelphia, U.S.A., containing details of sickness, will be answered promptly, and free advice as to treatment will be given.

Shaping Our Own Destiny

The intuition of the moral sentiment is an insight of the perfection of the laws of the soul. These laws execute themselves. They are out of time, out of space, and not subject to circumstance. Thus, in the soul of man there is a justice whose retributions are instant and entire.

He who does a good deed is instantly enabled. He who does a mean deed is by the action itself contracted. He who puts off impurity thereby puts on purity. If a man is at heart just, then in so far as he is God; the safety of God, the immortality of God, the majesty of God, do enter into that man with justice.

Evil is merely private, not absolute; it is like cold, which is the privation of heat. All evil is so much death or nonentity. Benevolence is absolute and real. So much benevolence as a man hath, so much life hath he. For all things proceed out of this same spirit, which is differently named love, justice, temperance, in its different applications, just as the ocean receives different names on the several shores which it washes.—Emerson.

Canada produces one bushel of wheat to thirty bushels grown elsewhere in the world. Notwithstanding this fact, Canada is by far the largest exporter of agricultural implements in the world, her population being taken into consideration. During the past seven years the exports of Canadian implements have reached the vast total of ten millions of dollars, or equal to the export of twenty million bushels of wheat grown in the great Northwest at fifty cents per bushel.

Elkins at the Races. N. Y. Press. When Senator Elkins was in college he liked to see the races. One day he and his chum slipped off together from school, and on the way to the track came across their professor, who said in surprise: "Young gentlemen, what does this mean? You should be at your lessons."

"Ah! Then you must have used a two-headed coin, or tried the gambler's plan of heads I win, tails you lose."

"No, sir; it was a fair toss," said young Elkins. "What did you throw up?" "I threw a lump of coal up. If it stopped up we went to school; if it came down we went to the races, and here we are, sir."

The Markets.

Toronto Farmers' Market. April 4.—The receipts of grain at the street yesterday were small, owing to wet morning. Wheat, steady at 100 bushels of red winter selling at 71-1-2, and 100 bushels of goose at 65c. Barley firmer, 100 bushels selling at 43-1-2 to 44c. Oats are firm, with sales of 100 bushels at 35 to 37c.

Hay dull, only a few loads being received, and prices unchanged. Straw is nominal. Dressed hogs are unchanged. Light brought \$8.25 to \$8.40, and heavy \$8. Following is the range of quotations: Wheat, white, bushel, 69 to 73c; red, 70 to 71-1-2; spring, 68 to 70c; goose, 65 to 66c; oats, 35 to 37c; peas, 75 to 78c; hay, timothy, per ton, \$12 to \$15; do., mixed, per ton, \$8 to \$9; straw, per ton, \$7.50 to \$8; apples, per bush., \$1 to \$1.75; dressed hogs, per cwt., \$8 to \$8.40; eggs, new laid, per dozen, 12-1-2 to 13c; butter, dairy, per lb., 17 to 20c; do., creamery, 21 to 25c; chickens, per lb., 12 to 14c; ducks, per lb., 10 to 13c; turkeys, per lb., 17 to 20c; potatoes, per bag, \$1.20 to \$1.25.

Trade is fair, chiefly in small lots out of store. Red clover, \$6.50 to \$8 per bush.; alfalfa, \$6 to \$8.50; timothy \$2 to \$3.

Toronto Dairy Markets. Butter—The market is quiet and featureless, with fair demand for choice qualities, which are firm. We quote as follows: Fresh, large rolls, 17 to 18c; finest, 1-lb. prints, 18 to 19c; poorer grades, rolls and tubs, 14 to 16c; creamery prints, 21-1-2 to 22c; solids, fresh made, 19 to 20c, held 18-1-2c.

Eggs—Receipts are fair, and the demand good, sales at 11 to 11-1-2c per dozen.

Cheese—Market firm. We quote: Finest 13-1-4 to 14c; twins, 14 to 14-1-4c.

Toronto Live Stock Market. Export cattle, choice, per cwt. \$1.50 to \$1.65; do., medium, 1.40 to 1.55; do., low, 1.30 to 1.45; inferior cows, 1.25 to 1.35; butchers' cattle, choice, 3.25 to 3.45; butchers' cattle, fat, 2.75 to 3.15; do., common, 2.00 to 2.70; bulls, export, heavy, 3.50 to 4.25; do., light, 3.00 to 3.50; feeders, short-keep, 2.00 to 2.50; do., medium, 3.00 to 3.50; do., long, 2.50 to 3.00; stockers, choice, 3.25 to 3.40; Stockers, common, 2.75 to 3.10; milk cows, each, 25.00 to 50.00; sheep, ewe, per cwt., 4.00 to 4.60; butchers' sheep, 3.50 to 4.00; grain-fed ewes, wethers, 6.00 to 6.25; grain-fed lambs, 5.00 to 5.50; calves, per head, 2.00 to 10.00; calves, best, per cwt., 9.00 to 9.50; Hogs, light, per cwt., 6.37 1/2 to 6.00; Hogs, fat, per cwt., 6.37 1/2 to 6.00.

Hides, Wool, Tallow, Etc. Hides—The market is quiet at unchanged prices. Dealers pay 75c for No. 1 green cows, 65c for No. 2, and 55c for No. 3. Cured, dull, at 75c for cows. At country points green hides are 5c lower than above prices. Calveskins—Offerings are fair. Skins up to 14 lbs. bring 10c for No. 1, and 8c for No. 2. Above this weight prices are 1c lower.

Sheepskins—The offerings are moderate, and prices rule firm at 85c to \$1.10.

Tallow—The market is quiet, with outside advices reporting an easier feeling. Fleece is quoted here at 15 1/2 to 16c for washed; at 8 1/2c for unwashed. Pulled supers were quoted at 15 1/2 to 16c, and extras at 18 1/2c to 19c.

Where Burns' Mother Died. Bolton is a small parish in East Lothian, quite close to the county town of Haddington. In Bolton churchyard is the resting place of both Gilbert Burns and his mother. Gilbert was factor of an estate there, Leannoxie, and he and his family, along with his mother, lived at a cottage named Grant's Bannock, at the side of the public road leading from Haddington to Bolton, a cottage now demolished. Over the grave is erected a plain but substantial stone, surrounded by a massive iron railing.

Beefsteak Pudding. Line a pudding basin with a plain crust made of chopped suet and flour mixed with water and simply rolled out an inch thick; cut up a pound of round steak and sprinkle with flour, pepper and salt; chop a small onion fine, put all into the lined dish, add a cup of water, cover over with a suet crust, and tie it in a well-floured cloth. Have a saucepan of water boiling rapidly and put the basin in, the opening downwards, leaving the lid off the saucepan, and let it boil two and a half hours, adding water if it boils away. Serve with a rich gravy.—Chicago Herald.

Wants to Cultivate Lobster Beds. Robinson Crusoe's island, Juan Fernandez, is surrounded by lobster beds so productive that a big fortune awaits some man who will start a canning establishment there. So, at least, says Juan Calasoff, a native of Chile, who now lives on the island, and has just come to the United States in search of the capital needed for the enterprise. The island has 180 inhabitants, but none of them has sufficient means to gather the rich harvest of lobsters that the nine months' open season makes possible.

Whale's Appetite. A whale's appetite is phenomenal, says the Chicago News. His chief diet consists of earthfish. He has simply to open his mouth and paddle along leisurely in order to take in jellyfish by the wagonload. Such is the method adopted by the whale-hone whale. The species of whale, if the contrary, captures huge squid, weighing often several tons. Like his brother, the whalebone whale, he must be constantly on the look-out for food, otherwise he would starve. As many as fourteen seals have been taken from a 20-foot "killer." Other fishes of enormous appetites are not uncommon. The bluefish, for example, thrives on sardines and other small fish. Assuming that one bluefish eats ten small fish a day it has been figured that it requires ten thousand million sardines to feed the one thousand million bluefish on our coasts every summer. Most curious of all eaters is the hydrus, a strange creature that can be turned inside out without impairing its appetite or its power to eat.

Geo. C. Chalker Tells What Dodd's Kidney Pills Did for Him.

Took Him From His Bed, Made Him a Well Man Able and Willing to Do a Fair Day's Work.

Housey's Rapids, Ont., March 23.—As every city, town and village in Canada seems to be giving its evidence as to the wonderful cures resulting from Dodd's Kidney Pills, there is no reason Housey's Rapids should not be in line. People here have kidney troubles just the same as elsewhere, and like others they have used Dodd's Kidney Pills and been cured.

One of the most remarkable cures was that of Geo. C. Chalker. He says: "I am cured of my Kidney Complaint. I have no doubt about it in the least. I weigh ten pounds more than I did twenty months ago, catch do a fair day's work every day, and I am clear of my old enemy, lame back, heavy, aching arms, dull bloated eyes—yes, it is all gone, purged out by Dodd's Kidney Pills."

"No one can realize the relief except those who have been through it all. I was so bad I could not work hard, but was compelled to make a living. My feet so bad they would seem to float. I felt tired all the time, my arms felt useless at times and so very heavy. At last I was laid up and could do no work. When I was induced to try Dodd's Kidney Pills, and you see the result. It only took six boxes to cure me completely."

And Mr. Chalker is only one of many in this neighborhood who charge their good health up to Dodd's Kidney Pills.

One of His Pills. Either—So you are going to marry Mr. Tilton, Bertha? Why, it will be most seem if we were relatives, wouldn't it? You know, Mr. Tilton wanted to marry me.

Bertha—Yes, Henry often laughs about his early indiscretion, as he calls it. He said the other night he couldn't understand what he ever saw in you. But, of course, he exaggerates, dear.—Boston Transcript.

New Joke From Scotland. A train travelling on a small branch railway in the Highlands suddenly came to a standstill. One of the passengers poked his head out of the window to ascertain the cause and just caught the guard as he passed under the window on his way to the engine.

"What are we stopping?" he inquired. "Hoot, mon, ye manna just bide a wee; the watter's gone all the hool."—Glasgow Ballie.

CALIFORNIA WEALTH. The reports made by the savings banks of San Francisco recently show deposits of \$156,817,637. This immense sum exceeds the record of all former years, and represents about \$850 per capita. As this is more than three times the average savings bank deposit per capita for the whole United States, it is certainly a good showing. Nor is it confined to San Francisco. The returns from the banks of the State, save National banks, show an aggregate increase of assets for the year of \$55,376,024. This exceeds the highest former record of gain by \$24,744,071, a very satisfactory state of affairs.

California is not simply a land for the tourist, but for the investor and the farmer. Perhaps no other farmers enjoy so large an income as California farmers. A rate per cent on their investments that would satisfy the eastern farmer is a very meagre here. Fruit farming has always been profitable; fortunes have been made in oranges, and the great yield of alfalfa makes dairying a paying industry.

Land is lower in price than it will ever be again, and rates from the east over Southern Pacific lines are now based on a fare of \$38 to Chicago, so that it is a good time to see the State. This rate will expire June 15th. Write F. B. Choate, General Agent, Southern Pacific, Detroit, Mich.

Nervous, Weak Men.

Thousands of young and middle-aged men are usually swept to a premature grave through EARLY INDISSOLUTION, EXCESSIVE, AND BLOOD-DISEASES. If you have any of the following symptoms consult us before it is too late. Are you nervous and weak, despondent and gloomy, specks before the eyes with dark circles under them, weak back, kidneys irritable, palpitation of the heart, wasteful dreams and losses, sediment in urine, pimples on the face, swollen eyes, hollow cheeks, careworn expression, poor memory, listless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, weak manhood, stunted organs, premature decay, bone pains, hair loose, nose throat, etc. Our New Method Treatment will cure you.

MEN'S LIFE BLOOD

Nothing can be more demoralizing to young and middle-aged men than enervation at night or secret drains through the urine. They unfit a man for business, married life or social happiness. No matter whether caused by evil habits in youth, natural weakness or sexual excesses, our New Method Treatment will positively cure you. CURES GUARANTEED. NO CURE, NO PAY.

No Names Used Without Written Consent.

W. A. Muir, of Lima, O., says: 'I was one of the countless victims of early vice at 15 years of age. The drains on my system were weakening my brain as well as my sexual and nervous system. For ten years I tried scores of doctors, electric belts and patent medicines. Some helped me none cured. I was giving up in despair, in fact, contemplating suicide when a friend advised me as a last resort to give the New Method Treatment of Drs. K. & K. a fair trial. Without confidence I consented and in three months I was a cured man. I was cured seven years ago—an married and happy. I heartily recommend Drs. K. & K. to my afflicted fellow men.'

FROM THE OLD LAND

Mrs. Cockill, of Liversedge, Yorkshire, Eng., a daughter of Mrs. Dr. Giles, of Athens, was reminded of her old home by seeing in a Manchester paper a letter written by Miss Eva Halladay, of Elgin, (published in the Reporter recently), which crossed the ocean, embedded in the centre of a cheese. After referring to the letter, Mrs. Cockill writes as follows:—

"In a Reporter I received some time ago I saw that we were having very severe weather here. You will be surprised to hear that we have not really had more than 8 or 10 degrees of frost this winter, but we feel it much more than in Canada, as it is so damp. When I get Canadian papers it often amuses me; reports are so different from what things really are.

THIS ORIGINAL DOCUMENT IN THE VENERY POOR CONDITION OF THE

RUSSIAN CONSUL SHOT BY AN ALBANIAN SOLDIER

Who Was Immediately Killed by Members of the Guard.

Constantinople, April 6.—Details of the attack on M. St. Cherbina, Russian Consul at Mitrovitza, show that it was made by an Albanian soldier, a relative of whom had been killed in the fighting at Mitrovitza. The Consul, who was accompanied by a Turkish escort, was on his way to inspect the batteries which finally repulsed the Albanians, who attacked Mitrovitza, when a bullet from the powder magazine deliberately shot M. St. Cherbina in the back. The bullet traversed the spinal region and inflicted a serious wound. The entry also fired at the Consul's Kavass (military courier), but missed him. The other soldiers of the guard then hurried up and shot the Albanian soldier, inflicting mortal wounds.

The Grand Vizier yesterday called on the Russian Ambassador at Constantinople and expressed regret at the attack on M. St. Cherbina. The palace officials and the Turkish Foreign Office also conveyed their regrets to the Ambassador.

Turkey Acts. Paris, April 6.—The French Foreign Office has been officially advised that the Sultan of Turkey has ordered a division of troops to the scene of the recent outbreaks of Albanians. Official advice says that the attacking party at Mitrovitza numbered two thousand men, representing the element opposing the plan of reforms which the powers jointly formulated and which Turkey accepted. The officials here consider that the Albanian opposition to the reforms created a serious complication, and they accept the Sultan's

Commons to consider the question of municipal trading. At Chicago President Roosevelt made an important address, dealing in part with the Monroe doctrine and the foreign policy of the United States.

Germany's offer to send troops into Holland to assist in maintaining order in view of railway strikes has created some uneasiness in the smaller country.

Lady Marjorie Gordon, the daughter of the Earl and Countess of Aberdeen, has announced her candidature for the Senoel Board at Methlick, Aberdeenshire.

A statement by Mr. Brodick, Secretary for War, that it is impossible to arm the volunteer artillery with modern guns has aroused the indignation of the British volunteers and the public.

In the House of Commons yesterday Prime Minister Balfour announced that the budget would be introduced on April 23rd, and the Irish Land Bill would come up on second reading the following week.

A despatch to the Neue Freie Presse from Belgrade says that owing to the making of Turkish troops on the old Serbian frontier Serbia is increasing her frontier garrisons, and is considering the question of mobilizing her reserves.

The Canadian Pacific has taken over the Lake Champlain line of its recent purchases from the Elders, Dempster Line, and will take control of the others as they arrive. The Montreal will be the first to sail, leaving on the ninth for Montreal from London by way of Avonmouth.

Regarding the British Government's bill as to the sale of adulterated butter, now before the British Commons, merchants say the export trade of Canada and Australia will benefit, inasmuch as they send dry butters, which will be largely used for adding moisture as permitted in the new bill. Irish butter will suffer.

Russia has addressed another note of admonition to Bulgaria. The communication is in the nature of a personal warning to Prince Ferdinand not to provoke Turkey. The report that the czar has presented a battery of eight guns to the Prince of Montenegro is not credited.

While despondent from sickness Henry Heller, a New York workman, twisted a towel around his neck and hanged himself to a hook. His 12-year-old son raised his father's feet to a window sill, whereupon Heller kicked the child to the side. While the boy lay headless upon the floor the father struggled to death.

Queen Alexandra arrived at Copenhagen last evening from London. Her Majesty was received at the station by King Christian, the Dowager Empress of Russia, and all the members of the Danish Royal family.

THE CHURCH FOLLOWS. Missionaries of All Creeds Going to West Africa. London, April 6.—Both the Catholic and Protestant missionary societies, which have their headquarters in London, are hastening their preparations to occupy the ground brought within the reach of the Church by the occupation of Kano and Sokoto by the British troops. This part of British West Africa carries the authority of the British Government to the most northern part of the West African Protectorate and opens to evangelization a native population of 25,000,000. Ten million of these belong to the dominant caste called "Fulani," and 15,000,000 to a subjugated and partially enslaved order called "Haussas." Both peoples are chiefly Mohammedans, but the Haussas whose conversion dates only from their subjugation at the opening of the nineteenth century, are half-hearted proselytes,

and it is thought that they can readily be brought under the influence of the Christian religion. It is stated that the Fulani ruler with a cruelty unsurpassed in the annals of barbarism and it required the severest chastisement at the hands of the British army to curb their fanaticism. Letters from British soldiers state that the ruling tribe wiped out whole tribes of Haussas and burned scores of villages whenever they were seized by a thirst for excitement. The missionaries naturally expect the quickest results from their labors among the Haussas, but look gradually to overcome the fierceness and fanaticism of the Fulani.

A despatch from Rome says the Vatican is maturing an extended plan for the evangelization of the new protectorate. It is proposed to dispatch an experienced staff of missionaries to organize religious and educational work in the territory already cleared by British troops.

MANY NEW LAWS ASKED. Annual Resolutions of Trades Congress Presented. Toronto report.—The annual conference between representatives of the Dominion Trades Congress and trades unions generally and the members of the Ontario Government took place yesterday, when the resolutions passed at the Berlin meeting were presented and supported in brief speeches. Premier Ross received the party, in company with Hon. John Dryden, Hon. J. R. Stratton and Hon. E. R. Latchford. Mr. Robert Glockling, Secretary of the Bureau of Labor, introduced the party, which included Messrs. Harry Obermeyer, Hamilton; Joseph T. Marks, London; A. H. Kennedy, Arthur Calow, K. A. McGee, F. J. Wilson, W. A. Douglas, J. O. Sanderson, Samuel Moore, John G. O'Donoghue, solicitor; Richard Southwell, Walter Cox, John King, J. Hudson, H. N. Allan, F. E. Beckitt, W. J. Middleton and James Wilson.

Mr. Marks presented the resolution asking for a law empowering municipalities to compel street railway companies to install electric lighting through each open car for the purpose of enabling conductors to perform their duties with greater safety. In reply Mr. Stratton Mr. Marks said he presumed the Bureau was to apply this rule only to cars built for the future.

Mr. Moore presented the resolution asking that more factory inspectors be appointed.

Mr. Obermeyer protested against the retention or confiscation of drawbacks, or percentage of wages withheld on the export of goods. He urged that the Government should restrict the terms of rules formulated by employers.

Mr. Wilson urged the abolition of the contract system in the manufacture of convict-made brooms or other articles. They had been led a year ago to believe that it would be provided that the products of the Central Prison be stamped with their respective marks. Mr. Stratton explained that the present contract had a couple of years to run yet, and when it expired he thought the views of the department could be met on this point.

Resolution No. 5, presented by Mr. Moore, urged legislation prohibiting the reaping of walls and ceilings without removing the old paper, which was a menace to public health, breeding germs of every conceivable disease.

Mr. Stratton, who is charged with the health department, said that something would be done in this matter.

Liability of Unions. Mr. O'Donoghue, as solicitor, presented the last resolution, which suggested amendments to the law relating to trades unions. The resolution proposed amendments providing that no trade union shall be liable for damages for any act of omission or commission under any strike or lock-out or dispute unless the union is a concerning party in the wrongful act. It was also provided that no trade union shall be enjoined from communicating with other employees or persons, or in other words, picketing, except by an unlawful act. It shall therefore be liable. Mr. O'Donoghue urged that the present legal procedure gave the unions much annoyance from injunctions, which, he said, were granted altogether too easily, and he instanced the sheet metal workers' case as an expensive case in point, it having already hung over since September, with no prospect of trial before September 1st.

He urged the union funds to be for a specific purpose, for sick and other benefits, and maintained that they should be free from molestation. He criticized the justice of the Police Court as being unfair to trade unions. In answer to Mr. Latchford, he said the Taff Vale decision had not been made use of here, but as the law was uncertain, they wanted it made clear so that it could not apply.

Mr. W. A. Douglas presented a resolution favoring the single tax, after which Mr. J. H. Kennedy urged the companies employed at the Agricultural College.

Premier Ross expressed careful consideration of the various points presented.

AFTER THE CHARLTONS. Bogus Estate Swindler Laying Wires for That Family. St. John, N. B., April 6.—Adam J. Charlton, of St. David street, with the aid of Chief of Police Clark, thinks he has stopped a game of fraud, being played by some persons in Boston.

About a fortnight ago, Mr. Charlton received a postcard, dated Boston, stating that a legacy of \$100,000,000 had been left the Charlton family, and if Mr. Charlton would call in person on Judge J. J. Feeley, Room 19, 99 Milk street, Boston, he would receive information regarding it. The card was signed by Mr. Fred-

ley. Mr. Charlton gave the card to Chief of Police Clark, who sent it, with a letter, to the chief of police at Boston.

A couple of days ago Chief Clark received an answer from the Boston chief, who said that one of his officers had looked into the matter, and that J. J. Feeley, of Milk street, gave out a statement that he did not place very much credence in the Charlton fortune case, and that he did not have very much time to both write and answer, that not long ago a man called at his office and gave his name as Fredley and said he wished to have the heirs of the Charltons looked up and that was all that was done in the matter. He Feeley, did not take any stock in the matter and is not connected in the case at all.

MR. SIFTON'S PARTY BUSY. They Have Already Begun Investigations at the British Museum. London cable.—The Minister of the Interior has lost no time in his preparation of the British side of the Alaskan question.

Immediately on the arrival of Mr. Sifton and party, Sir John Anderson, the official head of the Colonial Office, and Sir Charles D. Cameron, the Alaskan and colonial offices would facilitate as much as possible Mr. Sifton's investigations.

Orders were issued giving the party freedom of the archives in the British Museum. The treatment accorded investigators at the British Museum when under official aegis, is in marked contrast to the manner in which they are treated when pursuing investigations on their own account. Nothing could exceed the courtesy and kindness with which Mr. Sifton's officials were received at the Museum, the services of two of the most experienced clerks being placed at their disposal.

A SERIOUS SITUATION. Foreign Sailors Landed at Santo Domingo. Cape Haytien, Hayti, April 6.—The situation in the capital of Santo Domingo is very critical. The commander of the United States cruiser Atlanta, which has arrived at Santo Domingo from this port, yesterday landed a detachment of fifty blue-jackets to guard the United States consulate in that city. A shell fired last night by the Dominican cruiser Presidente Vasquez, fell on the German consulate. The damage done, however, was small, as the projectile happily did not burst.

A battle lasting three hours took place yesterday morning between the Government troops and the revolutionists on the banks of the River Ozama, which flows into the Caribbean Sea at Santo Domingo. A wounded man was killed or wounded.

President Vasquez demanded the surrender of Santo Domingo City, but the revolutionists are disposed to resist up to the last moment.

ALBANIANS IN REVOLT ATTACKED THE TURKS.

They Were Repulsed With Great Loss After Heavy Fighting.

Constantinople, April 6.—Details of the disturbances in North Albania show the revolt which has broken out there is a very serious disturbance. Several thousand armed Albanians surrounded the town of Vucosteen, on the Mitrovitza-Uskub Railroad, March 29, and demanded the surrender of eleven Servian gendarmes who had been enlisted in accordance with the reform plans. The Governor surrendered the Servians, who were bound and taken to Pristina, after having been maltreated. A number of the Servian inhabitants and bands of Albanians later surrounded Mitrovitza, and serious fighting ensued with the Turkish garrison, consisting of three thousand troops. The fighting continued until March 30, when the Albanians were repulsed, with great loss. Heavy reinforcements have been ordered from the vilayet of Aidin, Asia Minor, and from places, to suppress the rebellion.

The Albanian rising has caused a panic among the Christians of Old Servia, who are fleeing towards Serbia.

A panic has occurred at Prilep in consequence of the growing fanaticism of the Albanians against the Christians. The latter have closed their shops and schools, and are preparing to seek refuge at Moharrad. Numbers of Christians have been murdered in the Prilep district during the past few days.

Considerable apprehension is felt at the Russian embassy for the safety of M. Strohobina, consul of Russia at Mitrovitza. The outbreak made a great impression at the palace. The Sultan was intensely exercised, and measures were immediately taken to watch the two Albanian battalions belonging to the Imperial guard on duty at the Yildiz Kiosk in order to prevent disorder at the palace.

The Russian ambassador at Constantinople has been instructed to protest to the Turkish Government against the insubordination of the Albanians.

Fears Well Grounded. A despatch to the Neue Freie Presse from Belgrade, Servia, says M. Stelobina, the Russian Consul at Mitrovitza, has been wounded in the back.

"HORSE DINNER" COST JUST \$200 A PLATE.

New York Pastor Denounces the Criminal Folly and Extravagance.

New York, April 6.—That the equatorial banquet at Sherry's on Saturday night, at which C. K. G. Billings was the host, eclipsed all dinner innovations is freely admitted. The frequenters of Delmonico's, the Waldorf, the Cafe Martin and every other place in town where epicures most do congregate, all agree that this was the most remarkable dinner party ever given in the metropolis.

The actual use of mettlesome horses as chairs for the dinners was "the limit."

A new floor was laid in the big banquet room. Portable troughs were installed, mounting blocks built and covered with red velvet and rustic scenery provided. It took two scores of mechanics three days to transform the banquet hall to a rural barnyard and stable with cost-titigious conservatory. The cost is estimated at about \$200 a cover, though the edibles and liquids did not cost more than \$15 per capita.

Speaking of social extravagances of this sort, the Rev. Donald Sage Mackay predicted that the career of extravagance in living, which he said New Yorkers had been following for the last five years, will end in social and moral catastrophe.

"Nowhere is the complex life of luxurious, pleasure seeking extravagance so visible as in this metropolis of the new world. Everywhere the drags are off and the wheels of commerce and society are running wild. When the stoppage will come—as come it must—how it will come—no one can tell."

"Already the shrewd, hard-headed men in Wall street are scenting the approaching danger from the commercial standpoint. They tell us that the limit of over capitalization and headstrong speculation is reached, and the reaction, unless it comes gradually, will spell panic from the Atlantic to the Pacific."

"There can be no life of worthy thought where existence is loaded down with the vulgarities of luxury. The two most illiterate classes in society to-day are the abject poor, who by necessity must think of the needs of the body, and, therefore, can think of nothing else, and the idle rich, who by choice devote every hour of the day to the trivial problem of what they shall eat and what they shall drink and wherewithal they shall be clothed."

"New York becomes every evening a vast Vanity Fair, where irrational and too often degraded pleasures lure men and women by the thousand to its gilded shrine, and before that shrine high thinking and plain living are nightly immolated."

EVANS WANTS HIS SHARE. Claims He Was Left Out in Bicycle Combine.

SOMETHING ABOUT THE DEAL. Toronto report.—A suit arising out of the formation of the Canada Cycle and Motor Company is being tried before Mr. Justice Britton in the non-jury high court. Fred S. Evans, who started the Canada Typograph Company in Windsor, which turned out the first typetting machines in Canada, is the plaintiff. He is suing Robert M. Jaffray, editor of the Galt Reporter; Senator Cox, E. E. Ryckman, Warren Y. Soper, Senator L. Melvin Jones, Chester B. Massey, J. H. Houser, and Mrs. Susie Massey, executors and executrix of the late W. E. H. Massey. Evans claims that in 1889 he and Jaffray formulated a big scheme to buy up all the bicycle factories in Canada, they to divide equally what profits were made. Six bicycle concerns went into the combination, viz: the Welland Vale, Gould, Lozier, Massey-Harris and the E. & D. The latter bicycle was manufactured by Evans' typograph factory. The price which was agreed to be paid for the six factories was \$300,000. Then the Canada Cycle and Motor Company was formed and took over the affairs of the Evans-Jaffray combination. Jaffray was paid \$9,000 for his share, but Evans' action is to get half Jaffray's \$20,000, or a like amount from the Canada Cycle and Motor Company, as if Jaffray took the \$20,000 as his own share.

Mr. Evans, in his evidence said that through his efforts Senator Saurd and William Hendrie agreed to invest \$100,000 in the new company. Mr. Jaffray then secured options on the Gendron, Welland Vale and Gould properties, while the Massey-Harris Company wanted \$500,000 cash for their bicycle business, and refused to go into the new concern. The defendants paid \$300,000 for the properties, which they afterwards sold to the Canada Cycle and Motor Company for \$2,500,000 preferred stock and \$1,000,000 common stock.

Mr. Evans stated that Senator Cox objected to him as a promoter because of his connection with the Typograph Company, and that he
