Only Thing That Matters.
The only thing that matters is final success, said Premier Clemenceau, in the great speech wherewith he beat down factional opposition and virtual treason to France in the Chamber of Deputies. No more inspiring words could be given to a world which hangs between hope and fear and tries to suppress its anguish as the terrible struggle fluctuates between the Marne and the Oise.
The only thing that matters is final success!

graphically upon what would happen after defeat of the Allies by Germany. We talk of the inconvenience of dark nights, food restrictions, trade limitations, high taxes, sacrifices asked of us, of comfort, of luxury, of art, of music, of freedom, in the narrow individual sense, what do they matter? We visualize in our slightest souls the fierce passions that flame along the battle front, the blood that stains the ground, the mutilation that sickens the heart, the death that smites with its pallid blight the youth of the chief nations of the earth, including our own, alas; what does it matter? The only thing that matters is final success! The present and the future of the world are staked upon the issue. If the Allies should be beaten and Germany should rule over England, France, America, Italy, as she tries to-day over Belgium, Serbia, Russia, what would it all matter? Heaven or the dead? Would it not be better for them?

But if the crime of the ages be punished by direct defeat, if the ravaging assault of despotic greed upon freedom, right and civilization be hurled back with utter calamity upon the Teuton rebels against God, what else will matter? If the world be made for the children of to-day and their children a land of light, wherein through cycles of safety the atmosphere of freedom for racial and personal evolution shall be warmed by the sun of peace, then what will matter as to the cost? Who will count the money, the pain, the tears, the blood, the lives! All sacrifices will be consecrated in memory as the glorious price paid to Heaven for the triumph of good. Success! That is what we require. It is the only thing we need or need care about. Success for itself, success as a vindication, success as a debt we owe to the present and the future, to eternal justice! Success as the reward we must win from Providence through our absolute devotion and total abnegation of selfish desires and aims! Let every one take this lesson to his soul: The Only Thing That Matters Is Final Success!

An intelligent Frenchman was studying the English language. 'When I discovered that if I was quick I was fast,' said he, 'that if I was tied I was fast, and if I spent too freely I was fast, I was discouraged! But when I came across the sentence, "The first one won one prize" I was tempted to give up trying to learn English.'

Curing Skin Troubles.
THERE ARE ALWAYS DUE TO BAD BLOOD WHICH MUST BE ENRICHED AND PURIFIED.
So many people, both men and women, suffer from skin troubles, such as eczema, blotches, pimples and irritations that a word of advice is necessary. It is a great mistake for those suffering from troubles of this kind to smear themselves with greasy cosmetics. Often they could not do otherwise, for the greasy cheap

When there are pimples or eruptions, or an irritating or itching rash a soothing basic solution may help to allay the irritation, but of course that does not cure the trouble. Skin complaints come from an impure condition of the blood and will continue until the blood is thoroughly purified. It is well known that Dr. Williams' Pink Pills have effected the best results in many forms of skin disorders and blemishes. This is due to the fact that these pills make new, rich blood, and this new blood attacks the impurities that give rise to skin troubles and disperses them. Dr. Williams' Pink Pills cure skin disorders from within the system—the only sure way. Mrs. W. Ritchie, Parkburg, Sask., says:—'Two years ago I was attacked with eczema on my hands. I tried almost everything that was advised, but as the trouble was growing worse, I consulted a doctor and took his treatment for sometime with no better results. By this time my hands were a mass of sores and I began to despair of finding a cure. A friend recently advised me to try Dr. Williams' Pink Pills, and I decided to do so. After using two boxes I could see an improvement, and I got a further supply. I used altogether eight boxes by which time every trace of the eczema had disappeared and there has not been a single symptom of the trouble since that time. I gladly recommend Dr. Williams' Pink Pills for troubles of this kind.'

It should be added that Dr. Williams' Pink Pills have a beneficial effect upon the general health. They increase the appetite and energy and cure all diseases that arise from impure blood. Rheumatism, dizziness, headache, nervousness, indigestion, etc., are cured by the use of the pills. A youth named Damm got married. His father sent a telegram message: 'Accept congratulations of the whole Damm family.'

I was cured of Bronchitis and asthma by MINARD'S LINIMENT. MRS. A. LIVINGSTONE. I was cured of a severe attack of Rheumatism by MINARD'S LINIMENT. MRS. B. E. I. Mahone Bay. JOHN MADER I was cured of a severely sprained leg by MINARD'S LINIMENT. JOSHUA A. WYNACHT. Bidgewater.

The Lonesome Folks Back Home.
They are lonesome tonight, the folks back home. For the boy who is 'Over There,' And their eyes grow dim, as they fill with tears. When they recall his vacant chair. All they were proud when he marched away. Looking so brave and tall, Ready and eager to do his bit, As he waved his country's call.

folks back home. For the boy who is 'Over There,' They would not have him stay away. When the call to the colors came. Not had they fifty more, they say. They would want them to do the same. Indeed, they would go themselves if they could. His trials and dangers to share. But they're lonesome tonight, the folks back home. For the boy who is 'Over There,' And many a lad, as he faces the foe, Is uncompassed about far more than he knows. By a mother's prayers to the God above. Who is Mercy and Justice and Infinite Love. For the God of the lonesome folks back home Is the same God 'Over There.'

The Kaiser's Cup.
The Kaiser's gold 'cup' of won by an American yacht in 1915, has been broken up, the pieces to have been sold as gold metal for the benefit of the Red Cross. The junk man says it is worth \$36 as pewter of poor quality, says the Boston Record. Item by item, the spurious metal of the Hun has been revealed, as the stress of war has pierced the veneer of gold and polish which so long fooled the world. Maybe this cup was a deliberate cheat to the 'fool Yankee' by the contemporary Hohenzollern—a spider of intrigue who played at honor with loaded dice. The Kaiser's 'cup' was a product of German Kultur as manifested in German trade, a bumby manufactured in a German shop for a lump sum which might with impunity be dipped out of a few thousand dollars. It seemed such a safe bet! Who would question the word of a Prussian ruler? Who would probe beneath the gilded surface of a Hohenzollern gift? But time, the magician, has wrought wonders. The mighty ruler by divine right, lie, cheat and other lake prizes? Why, what else has he ever done? He has offered the dups in the Kaiserland the glittering trophy of world domination, and has offered them graves in France. He has offered the world Kultur and has spread over it a blanket of dishonor. He has offered his word and has stabbed his

Avoid Loss of Sleep.
A frequent cause of nervousness in many people is loss of sleep. It gives rise to headaches and neuralgia, and is mainly responsible for other distressing ailments. The man or woman whose sleep is unduly disturbed as the result of heavy mental work, or night watching at the bedside of the sick, or through irregular hours of employment, should endeavor to secure a little refreshing sleep whenever possible in order to make up for the loss sustained. For not only will headaches and other ailments develop from sleeplessness but the nervous system will soon become considerably deranged as a consequence. So be careful upon this point. Go to bed early. Sleep well.

An Opportunity for Men of N. S. to Perform Service to Men Overseas.
MEN IN EVERY TOWN AND VILLAGE IN N. S. ARE URGED TO VOLUNTEER NOW, FOR GREAT RED CROSS 'DRIVER,' JULY 8TH TO 15TH.
July 8-15 is Red Cross week in Nova Scotia—the week in which the great 'Mothering' organization of the crimson ensign will go to the people of this province and appeal to them to give—give—give good measure, press on down the highway, and give—their best. The Red Cross organization must augment its treasury if our men are to be ministered to in the vitally important Red Cross way. We'll know what a human, kindly, efficacious way that is. How it is felt in the hospitals and many another needy place where men are marshalled for the defence of the right. It is a 'way' which may be likened to the touch of a healing, soft, sympathetic hand at the clasp of such a hand, strong and true.
Then shall not the whole people of Nova Scotia give a loyal, generous answer back. Especially should our men who are at home rally to this call—they know well the magnificent work the women of the province have done, are doing for the Red Cross. Let them follow suit—let them get right in now; ORGANIZE, and anticipate the campaign week by a 'campaign of education' so that when the week comes round the money will pour in from people who have been given no quarter for refusal. Let them co-operate by every way in which cooperation can be given, in this work for the Red Cross—\$250,000 is Nova Scotia's quota. Let them go out, like men, and get it. Their sons and brothers have gone out to get something tremendously more valuable than money—gone out to kill tyranny. Gone out to defend freedom and the rights of the weak.
The job of the man at home who cannot fight that grimmer battle, in plain—it is that of standing by and working at home. The Red Cross treasury must be augmented. Let the men get to work—NOW.

A Birthday.
(By Walt Mason.)
Some empty years ago to-day I showed up on this planet, where northern streamlets dash their way between tall hills of granite. I'm growing old in count of years, that much I am allowing; let I am chipper as the steers that Adam used for plowing. If you'd convince me I am old, you'd have to bring the papers; for I am gay, my step is bold, and I cut fancy capers. Men often say, 'you look so young! Your youth is scarce, ly civil; the rest of us by age are stung—why don't you bend a shrivel?' And I reply, 'The world's a joke, and life a transient flurry, and all our troubles end in smoke, so I refuse to worry. To me care looks like twenty cents, I throw it to the laces; my worry ages dimes and cents, and puts them in their homes. Oh, worry will not heal a sore, there is no talm in weeping; so while you fellows walk the floor, I put in nine hours sleeping. And here I am all sound and hale, and fit and pert and able; I take a gallop by the tail and throw it o'er the stable.' To-day I celebrate my birth with flares and Roman candles, while slight rockets round the earth, brought forth by Teuton vandals. If tears would down a rivulet, I'd make a moist beginning; but not one ill to be healed by weep, and so I keep on grinning.

Ringworm on Child's Head
Caused Great Distress and Spread to Neck and Ears—Cure Was Speedily Effectuated When Right Treatment Was Recommended.
There is no disease of the skin more obstinate than ringworm, and the mother who writes this letter does so fully realizing what it will mean to her situation, and to know that the cure is permanent.
Mrs. D. Stebbins, Grand Bend, Ont., writes: 'I am going to tell you of my experience with Dr. Chase's Ointment. My little girl had some corns out on her head which looked like ringworms. They were spreading fast, and I tried home treatment, but nothing helped her. I took her to the doctor, and he opened some of the sores, which were as big as the yoke of a ox. The nurse he gave me to put on was very severe, and the poor child would cry for an hour or more after its application. For six weeks it continued to spread all over her head, and came down to her neck and ears. She suffered terribly. At last some kind ladies told me about Dr. Chase's Ointment, so I got a box, and the first time I put it on she was relieved of pain, and the second time the swelling was all gone. Before we had finished the first box the sores were nearly all gone. I have told all the people around here about your Ointment, and I cannot praise it too much. It is now two years since my little girl was troubled in this way, and it never came back, so you can see she is completely cured. You are at liberty to use this statement for the benefit of others who may be suffering in a similar manner.'
Joseph Brennan, J.P., endorses this statement as follows: 'This is to certify that I am personally acquainted with Mrs. D. Stebbins of Grand Bend, Ont., and believe her statement with reference to Dr. Chase's Ointment to be true and correct.'
Dr. Chase's Ointment, 25 cents a tin, all druggists. For those who cannot get it, send for it to the manufacturer, Dr. J. C. Chase, 100 N. 2nd St., St. Louis, Mo. Be sure you get the genuine. Do not be misled by cheap imitations. The name of the drug store is on the wrapper, and so I keep on grinning.

HAVE YOU BEEN TO DOC NATURE, WAR STRAIN SPECIALIST!
Danville, Alberta
On Lake Louise
recreation behind the firing lines; and every train should bring visitors to Vancouver's apple-wine, Banff, Alberta, trout stream New Brunswick with its golf links at St. Andrews-by-the-Sea, to the silvery lakes and streams of Quebec and Ontario, to the Canadian Pacific Rockies, and their thousands of square miles of Alpine parks, where trails lead up to the glaciers, and where thousands visit the summer hotels at Banff, Lake Louise, Field and Glacier. The stream of tourist traffic flows out to Vancouver Island and on to Alaska, the Land of the Midnight Sun.
In some of our conditions, Canada still retains good service for passengers on her railways. Life has become simpler, and one has to be content sometimes with an upper berth while the revolutions of the Food Board are being observed on the dining cars, but the health resort is necessarily a luxury. Number travel promises to be as active as ever.

THE ACADIAN.

WOLFVILLE, N. S., JUNE 28, 1918.

Editorial Brevities.

So serious a physical defect as the loss of a leg will not keep out of the army a man who can do special work and is anxious for service. Augustus Cody, a one-legged man who was twice turned down by an American draft board, persisted in his efforts, and finally convinced the military authorities that his ability to operate two hoisting machines at once made him a particularly desirable recruit. Now a soldier in uniform, he has been assigned to work in connection with aeroplane production. The moral is plain. Let no man who believes he can be of practical assistance at this time despair because a recruiting officer turns him down. Convince him or some other that the country needs you.

THE ACADIAN had a pleasant call on Tuesday from a representative of the Food Board, from Ottawa, who is making a tour of the provinces investigating conditions. It is the intention of the Board, he says, to enforce its regulations in every particular. Municipal fish markets are being organized in all the leading cities, and the Board intends soon to make regulations with reference to food prices. He expressed that the chief difficulty was to get the people to study the regulations, and that the necessity of conserving white wheat flour extremely urgent, advising everyone to use as little wheat flour as possible, substituting such things as oatmeal, rye, barley and corn flour, making the most of potatoes, beans, rice, vegetables and fruit.

A Big Crop is Hoped For.

All hopes centre on the 1918 crop of North America. Of all crops the wheat crop is the most vital. The Canadian wheat crop estimates for 1918, issued by the Census and Statistical Branch, put the increased wheat area at 1,324,950 acres and 425,600 acre increase in oats. Unofficial estimates from those in close touch with conditions in the West place the increased wheat acreage at over 4,000,000 acres in the Prairie Provinces alone. Given rain there will be an immense grain crop in the West, in fact increased grain crops throughout the Dominion. The only anxiety then will be as to the harvest. Where are the men to come from? Some will come from the United States, no doubt, because their harvest operations are over earlier than ours, but it is said that 50,000 men will be needed in the West alone. People of towns will have to organize their affairs so as to get out on the farms when the time comes. Otherwise the harvest will be only partially saved and every grain of foodstuff will be wasted. The acreage in Canada is the highest ever recorded.

Conserving and Preserving Eggs.

The Poultry Department of the Agricultural College has issued a bulletin on the above subject which contains information of value to every householder in the Province. The different methods of preserving eggs and how to prepare the solutions are freely explained in this bulletin. Persons requiring information on this subject should make application for this bulletin at once. This bulletin is free and applications should be addressed to 'The Poultry Department,' Agricultural College, Truro, N. S.

The fourth U. S. Liberty Loan will be for \$6,000,000,000 and is likely to be floated in October.

Simple Herbs Cure Serious Troubles

MANY of the diseases of womanhood may be prevented with care. Unusual excitement—mental or physical—disturbs the delicate balance of woman's sensitive nerves, and upsets her whole system. At the first indication of nervousness or irregularity, take

A Lesson For Canada.

Bolshevik doctrines have brought Russia down from one of the greatest food producing countries on the globe to a condition of starvation. Drunk with liberty, which they did not understand, filled with idealistic notions about the equality of man, and lacking individual initiative, production in Russia has practically ceased, according to the evidence reaching the outside world. Transportation and distribution is so disorganized that even were the peasants of the land producing their usual amount of foodstuffs, the people in the manufacturing population would still be without the necessary food supplies to sustain them in safety and comfort. Unless the people of Russia steady down and organize themselves or allow other authorities to organize them, there is the possibility of one of the most stupendous disasters to a nation and a great people that ever occurred in history. Without authority for whom they have fear and respect, the Russian peasant seems to be without motive or initiative. We read of peasants in their anger against the property holding class of late aristocratic regime, destroying not only the personal effects of the nobility and the owning class, but the very crops which they had themselves under the former social organization produced for the nation at large. In their re-action against property owning, they have destroyed the goose that laid the golden eggs. We read of peasants in certain villages having gone to such extremes as to seize the cattle of the local land owner, now deposited, fly them alive and turn them loose. Without the old motive of compulsion to cultivate the land for the land-owner, now that the land has reverted to the peasants and they themselves are the owners, they have neglected to work and to produce the necessities of life. To such a pass is the nation drifting that recent dispatches have reported that the so-called Government of present-day Russia is sending plenipotentiaries to China, the formerly depleted and so-called decadent neighbor to the east, to make arrangements for provisions to tide them over next winter. It is difficult to imagine China, one of the most densely populated areas in the world, living largely on rice and very meagre fare, having sufficient surplus to feed 150,000,000 people in starving Russia.

Bolshevism is sometimes quoted in this country as an ideal, worthy of imitation. The pass to which Russia has drifted is a warning that Bolshevism and insanity are not very far apart. The nation that will meet the storm of this war the best, is the nation that organizes most efficiently and disciplines itself most strictly. Production must be carried on to a limit of our power. Destructive criticism and petty fault-finding are weaknesses and dangers. Unity of purpose and committed leadership is essential. It is a case of a strong pull and a pull altogether. Men must be found for the army, for munition making and for food production. Non-essential industries must provide men for essential industries. Women in this country must take the places of men to the limit of their power when called upon. Farmers must recognize the necessities of war and the public in general must unite to save the harvest of 1918.

Well Satisfied With Baby's Own Tablets.

Once a mother has used Baby's Own Tablets for her little ones she will use nothing else. Experience teaches her that the Tablets are the very best medicine she can give her baby. They are a gentle laxative; mild but thorough in action, and never fail to banish constipation, colic, colds or any other of the many minor ailments of childhood. Concerning them Mrs. J. Die, Charent, St. Leon, Que., writes:—'My baby cried continually and nothing seemed to help her till I began using Baby's Own Tablets. These Tablets soon set her right and now I would not be without them.' The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

War Saving Stamps.

An Ottawa despatch of June 14th says:—War saving stamps, which have been bringing millions to the United States Treasury for some time past, are to be introduced to the Canadian public. The Government has now in contemplation the inauguration of the system of public saving and new source of revenue. In the United States war saving stamps may be purchased for small amounts. They are given in lieu of change in stores and shops, and are sold on the streets. The purchaser pastes them in a book, and when he has secured a sufficient number, he may exchange them for a war certificate of a value to a certain percentage in excess of the price paid for the stamps.

Notice.

The Starr's Point Plein Ground, owned by Percy Starr, and the farm road leading to them owned by Arthur Starr, will be closed to the public for twenty-four hours, from 6 o'clock Wednesday morning, July 3rd, 1918.

ARTHUR STARR.
