At the morning service at St. George's, last Sunday, a hymn for those in peril on the sea was sung. As Miss Davis and her father were at that time on the Atlantic, we suppose it was for their safety. All seemed to join in the lines oft repeated:

"I'll cheer us when we cry to thee For those who peril on the sea."
The Hamilton Spectator says:—The Goderich SIGNAL is writing up the bluff city as a summer resort, and as an inducement to visitors to go there says:

"Here you get rich, pure, creamy milk, golden butter with the scent of the clover in it, and eggs so newly laid that you can hear the hen cackling yet." Just come up and try 'em.

The following despairing wail regarding the "muddy town" arrives from the Clinton News Era:—"This has been a magnificent week for gathering local news. It has every day rained more or less—particularly more, and the streets are not quite knee deep in mud, so that moving around has been the most pleasant thing imaginable."

SO-CALLED LECTURE.—The gratuitous social under the auspices of the Women's Missionary Society of North Street Methodist church was on Monday evening last. After a somewhat interesting lecture was delivered by Rev. Mr. Howard. A short address given on the occasion by Rev. also field.

GODERICH.—The Goderich Signal last week gave a very fine description of its town and the many advantages it possesses as a summer resort. Numerous engravings of the principal hotels and a practical glimpse of "the square" are given, and unlike the pictures in the big dailies they are correct. The article is a good one and, we believe, perfectly correct. [Editor Rectifier.]

Judgment reserved.

Rev. J. H. Howard, who has been filling the pulpit of the Methodist Church of Canada here during Rev. J. Wakefield's rest from preaching, left on Thursday for Toronto, to prepare himself for his duties in the North-west.

F. Scribe " " Geo. Stevens.
Treasurer " " N. Campbell.

Representative to Grand Encampment, Patrick N. Campbell.

Rev. D. J. Macdonnell, of Toronto, preached in Knox church on Sunday last, morning and evening. His sermons were practical and pointed, admirably conceived, and delivered with an earnestness that sent them home to the minds and hearts of his hearers. His reading of the Scriptures, too, was very expressive. He also paid a visit to the Sunday school and gave an address. Mr. Macdonnell does not appear to be in robust health just now. He greatly admires the situation and scenery of Goderich. He was the guest of Rev. Dr. Ure.

THE EX-CANADIAN PREMIER ON THE ALLAN LINE.—In presenting an address to Captain Smith, of the Circassian, the Hon. Alex. Mackenzie, in the course of his remarks, said that he had seen and speak the views of at least all Canadians when I say that we are proud of the Allan line of Canadian steamships, and that no money was ever better spent than which the company received from the Government to carry the mails and aid in securing a first-class steam communication with England. [The Liverpool Journal of Commerce.]

There was a downward tendency in eggs on Saturday morning last. D. C. Strachan, the purveyor-general to the Beatty boats at this port, was the victim of the "drop," owing to a cheese box containing 25 dozen of hen-fruit, losing its bottom and dropping the eggs. The box was being passed up on the boat when the smash occurred, and great was the amount thereof. After the tumbled few of the eggs were fit for practical purposes, and a dorkie was detailed to clear the debris off the dock. The break of the 25 dozen yolk-holders was a bad one, and all the king's horses and all the king's men couldn't put humpty dumpy together again.

BICYCLISTS FROM CINCINNATI.—Frank L. Sargent and John W. Innes, of Cincinnati, rode into town on Friday last on their trusty bicycles. They travelled by rail to Detroit, and from that point struck out by wheel on the proposed Canadian route of the Chicago bicyclists.

They report the course a good one, and were so enraptured with Goderich, that they remained over a day or two longer than they had at first planned. Mr. Innes said he had written several letters to friends across the line describing Goderich and its splendid roads, the most glowing terms. Our boys took an occasional spin with their Cincinnati brethren of the bicycle, and made the strangers feel that they were among friends.

Charles Warton, an acrobat, met death at Milwaukee while practicing a doubtful somersault.

THE OLDEST CANARY.—Thomas Hood, street inspector of this town, writes the following characteristic sketch of a canary which died on Wednesday at the great age of 17 years.—"Hughie, my pet canary, who was perhaps the oldest bird in town, died this morning at 6.30. He burst from his shell in 1866, and before he learnt a note the dim of battle was sounding—the battle of the Bayfield road. Since then he has never been one hour from his cage, and never for 17 years has he taken one peck from home. Always liberal in song, but conservative in habits, he paid for every seed he cracked, and left no debt behind him. Where is the man or bird who will not mourn for Hughie?—THOS. HOOD.

DOMINION DAY IN GODERICH.—The celebration of the 16th anniversary of the confederation of the British North American Provinces will be celebrated in Goderich on Monday, July 2d, with due loyalty. The programme for the day will consist of brethren's procession, athletic games, bicycle races, lake excursions, a lacrosse match between Goderich and Clinton, the summer exhibition of the Horticultural society, a grand concert in the evening, and the finest fireworks display ever exhibited in Huron. Single fares to Goderich and return from all points, and special train arrangements have been made to give visitors an opportunity to see the entire day's doings. For particulars see programmes.

The Wheelman's Paradise.
From the Chicago Herald.
A correspondent of the "Herald" writes the following regarding the contemplated Canadian tour of the bicyclists of this country, and describes a Canuck city in glowing terms. He says:—"Goderich, Ont., on the route of the Canadian tourists in July, is a wheelman's paradise, and is fully described by 'Huronian' as the prettiest town in Canada. Not only are all the streets gravelled, but also the approaches from the surrounding country. The run from London, via Lucan, Exeter and Bayfield, sixty-five miles, is the finest day's ride to be had in Canada; 'sand-papers' gravel, boulevard-like roads, and no hills worth mentioning en route. On arrival at Goderich the visitor finds himself on the 'Square,' which will, however, be more apt to give him the impression of a circle octagon in shape, and having the eight principal streets radiating from it. In the center, surrounded by a shady park, stands the court house. The distance around the circle is about one-third of a mile, broad and smooth, making a fine course. Many elegant rupa and drives stretch out from the town, notably to Point Farm summer resort, six miles north, where there is an elevation 250 feet above the lake, from which a view, unsurpassed in Canada, is obtained. The numerous summer resorts surrounding the town unsurpassed roads lead, and, in point of scenery, good roads and excellent accommodations, Goderich well deserve its reputation.

"Everybody rides a fine machine in Canada, because they cost much less than on this side. What the Americans pay \$175 for, which buys a full-necked imported, or American machine, the Canadians pay but \$110. For this reason there are no American machines in Canada, and the advent of the Americans into that country on the bicycle tour from Detroit to Niagara Falls is looked forward to with much interest in the prospect of a comparison of machines. This trip is looked forward to with anticipation on the part of wheelmen, striding American machines, they claiming the superior workmanship and fitting of the home machine will outlast the English bicycles, which have hitherto been most popular in this country."

Cosmetics the Role and not the Exception in New York—Faintly by the Fair sex of all ages.

"To what class of people do we sell the most cosmetics?" said the assistant of an up-town druggist, repeating the inquiry of the Star reporter.

"Oh, yes," replied the young clerk, as he arranged a mammoth necktie by the aid of a glass in the show case.

"Their name is legion. Many of them, however, send their maids or servants to make their purchases, because, like the principals in doubtful horse trades, they do not want to appear in the transaction."

"Plenty of them. Much of our trade is with young girls not yet out of their teens, and in all walks of life, from the little maid in tenement districts to the young lady just coming out into society in Fifth avenue."

"The homey one," replied the clerk, emphatically. Seeing a look of incredulity upon the reporter's face he continued: "It's so; I am not tracing you a bit. The prettier they are the harder they are to please."

Treasures of Classic Lore.

Theodore Martin, whom the Queen of England knighted, in honor of his excellent literary work, has written a remarkably brilliant and entertaining volume on "Horace," in the well known series of "Ancient Classics for English Readers."

"Do you have many customers of this kind?" "Their name is legion. Many of them, however, send their maids or servants to make their purchases, because, like the principals in doubtful horse trades, they do not want to appear in the transaction."

The Family Doctor.

Try cranberries for malaria. Try a sun bath for rheumatism. Try a clam broth for a weak stomach.

Try taking cod liver oil in tomato catsup if you want to make it palatable. Try snuffing powdered borax up the nostrils for catarrhal "cold in the head."

Try breathing the fumes of turpentine or carbolic acid to relieve whooping cough. Try a cloth wrung out from cold water and put about the neck at night for sore throat.

Here is a terrible warning to young men—"A young gent of Lindsay" says the Post, "went to Dr. Coulter on Tuesday and complained of a sharp pain in his left arm."

Seeing is believing. Read the testimonials in the pamphlet on Dr. Van Buren's Kidney Cure, then buy a bottle and relieve yourself of all those distressing pains.

Mr. T. Ginn, carpenter, St. Thomas, says my wife has long been troubled with Constipation, she has used a great many so-called cures, but without doing her any lasting good.

As a BRAIN AND NERVE RESTORATIVE the use of DR. WHEELER'S SERRAVALLO'S TONIC is highly recommended...

Character in Smoking.

It's twenty years, said a cigar dealer, now since I began to sell tobacco, and in that time I have closely studied the characters of my patrons, forming my conclusions from the kind of company they keep.

"If a man smokes his cigar only enough to keep it lighted and relishes taking it from between his lips to cast a whirling curl of blue smoke into the air, set him down as an easy-going fellow, who cares little for how the world goes and no more for himself."

"If the cigar goes out frequently the man has a whole soul disposition, is a devil-may-care sort of fellow, with a lively brain, a glib tongue, and generally a fine fund of anecdotes and yarns."

Household Hints.

Never put pickles in a jar that has had food in it. Beware of a salt will make rusty flutious as smooth as glass.

It will rest you wonderfully to change your seat in the room occasionally if you have a long day's sewing to do. Tough meat may be made as tender as any by the addition of a little vinegar to the water when it is put on to boil.

An attack of indigestion caused by eating nuts, will be immediately relieved and cured by the simple remedy, salt. Medical men recommend that salt should be used with nuts, especially when eaten at night.

Daughters, Wives, Mothers, look to your health! The many painful and weakening diseases from which you suffer despairing of a cure, can be remedied by that unailing regulator and unailing tonic—Burdock Blood-Bitters.

Aphorisms of Oliver Wendell Holmes.

Travelers change their opinions, not their characters. Put not your trust in money, but put your money in trust.

The scientific discovery of man is the most difficult of all branches of knowledge. Controversy equalizes fools and wise men in the same way—and the fools know it.

God bless all good women! To their soft hand and pitying hearts we must all come at last.

I find the great thing in this world is not so much where we stand as in what direction we are moving. When a strong brain is weighed with a true heart, it seems to me like balancing a bubble against a wedge of gold.

There are a good many real miseries in life that we cannot help smiling at, but they are the smiles that make wrinkles not dimples.

Memory is a net. One finds it full of fish when he takes it from the boat, but a dozen miles of water have run through it without sticking.

It is the sense of the ridiculous, is one side of an impossible nature, it is itself; but if that is all there is in a man, he had better have been an ape and stood at the head of his profession at once.

Why should a man whose blood is warm within? Sit like his grandsire cut in alabaster? Or let his hair grow rusty, scant and thin.

For all disorders of the Stomach, Liver and Kidneys, Dr. Carson's Stomach Bitters are unsurpassed. They strengthen the whole muscular system, give a healthy complexion, bring back the keen edge of appetite and arouse into healthy action the whole physical energy of the human frame.

Simply miraculous is all I can say of the effect of Dr. Van Buren's Kidney Cure in my case. An elderly lady writes this from Antigonish, N. S., who had suffered from pains in the back for twenty years.

Every bottle of the "FOUNTAIN OF HEALTH" bears the written guarantee of the proprietors—all that is recommended to do it must accomplish, or the money will be refunded.

Skill in the workshop. — To do good work the mechanic must have good health. If long hours of confinement in close rooms have enfeebled his hand or dimmed his sight, let him at once, and before some organic trouble appears, take plenty of Hop Bitters.

Well Rewarded. — A liberal reward will be paid to any party who will produce a case of Liver, Kidney or Stomach complaint that Electric Bitters will not speedily cure.

Mr. Wm. Payne, Station Master C. V. R., Sheldon, was cured of Dyspepsia by Dr. Carson's Stomach Bitters when all other remedies failed.

As the frosts of winter vanish under the caloric influence of the sun's rays, so does Bright's Disease, Dropsy, stone in the Kidneys and Bladder, and Inflammation of the Kidneys, leave the body upon the administration of Dr. Van Buren's Kidney Cure.

Excited Thousands. — All over the land are going into ecstasy over Dr. King's New Discovery for Consumption. Their unlooked for recovery by the timely use of this great Life Saving remedy, causes them to go nearly wild in its praise.

Now that there is a reliable remedy for kidney troubles, half the terrors attached to these complaints have been removed. For this let all be thankful, and to Dr. Van Buren's Kidney Cure award all praise for having thus removed a hitherto considered fatal disease from our path.

Thousands are being cured of Catarrh every year with Hall's Catarrh Cure, that the doctors had given up and said could not be cured. 75 cents a bottle. Sold by George Rhyms, sole agent for Goderich.

A Heartly Recommendation. — Jacob A. Empey, of Cambridgeport, states that he has taken Burdock Blood Bitters with great benefit in an lingering complaint and adds that he would gladly recommend it to all.

How He Registered.

Those who have been at a railroad eating house, and seen the engineers, firemen and brakemen come in and wash the smut of their honest faces, will appreciate the following story:

A freight train came along and stopped at a junction eating-house, a few nights since, after midnight, and the hands went in for a cup of coffee and a sandwich. The fireman of the engine was breaking a sandwich in two, and leaving big black marks from his thumbs and fingers on the cover of the sandwich.

"Say, has old Nate, the fireman of the Mogul engine been in here lately?" The clerk yawned, rubbed his eyes, and while he held a coffee cup under the faucet to replenish it for the conductor, he said:

"Yes, he was in here night before last. He just came in and registered on the towel, and went west."

It was a polite way of saying Nate had come in and washed his face.—Peck's Sun.

Physicians are often startled by remarkable discoveries. The fact that Dr. King's New Discovery for Consumption and all Throat and Lung diseases is daily curing patients that they have given up to die, is startling them to realize their sense of duty, and examine into the merits of this wonderful discovery, resulting in hundreds of our best Physicians using it in their practice.

A cubic inch of gold is worth \$210; a cubic foot, \$362,380; a cubic yard, \$97,797,762. This is valuing it at \$18 an ounce. At the commencement of the Christian era, there was in the world \$427,000,000 in gold. This had diminished to \$57,000,000 at the time America was discovered, when it began to increase.

The amount of gold in use is estimated to be \$6,000,000,000.

An Experiment with Salt.

Do you want to grow salt, and, at the same time, have an interesting, handsome ornament? The proceeding is a novel chemical experiment that may be tried by anyone.

Put in a goblet one tablespoonful of salt and one tablespoonful of bluing; fill the goblet two-thirds full of water and set in a position where it will have plenty of warmth and sunlight. In a little while sparkling crystals will commence forming on the outside of the glass, and it is both a novel and interesting sight to watch it gradually growing day by day, until the outside of the goblet is entirely covered over with beautiful white crystals.

Another variation of this beautiful experiment would be to take a goblet with the base broken off and fasten it in the center of a thin piece of board, which may be round, square or oblong. After the crystals have formed on the glass, set it on a tiny wall bracket, and place a bright holiday or birthday card in front of it; this will hide the base on which no crystals will form.

In the history of medicines no preparation has received such universal commendation for the alleviation it affords, and the permanent cure it effects in kidney diseases, as Dr. Van Buren's Kidney Cure.

Mr. M. E. Allison, Hutchinson, Kan., saved his life by a simple Trial Bottle of Dr. King's New Discovery, for Consumption, which caused him to procure a large bottle, that completely cured him, when Doctors, change of climate and everything else had failed.

WHAT'S IN A NAME?

The Seaforth Episcopo gave its opinion on the house of refuge question last week. The article on the subject read like a Telegram editorial, as it was definitely stated that "much could be said on both sides."

That a necessity exists for the establishment of some proper place where the aged poor and infirm may be properly attended to in their need, is admitted by the Episcopo, but that journal would prefer to have it called a hospital.

NECESSITY FOR ORGANIZATION.

The recent election of Hon. James Young in Brant, proves conclusively what can be achieved by perfect organization, and a clear presentation of the public issues to the electorate.

"Keep up your party organizations. Aid in the distribution of Reform newspapers, and remember that if there is one voter left off the list on the Reform side which ought to have been on, it is not only a vote lost to the Reform party, but it is a relative gain to the Tory party."

The Hamilton Spectator man has done us the honor of reading our descriptive article of Goderich for the second time, and again quotes from it.

THE WEST HURON PETITION

The appeal from the decision of Mr. Justice Cameron in re the preliminary objections raised by Mr. M. C. Cameron to the trial of the petition against his return for West Huron, was heard before the Supreme Court on Monday last.

By this time the Tory party in Ontario will be satisfied that they made a grievous error when they contested the election of the Provincial Treasurer, Hon. James Young, in Brant.

The following is a report of the meeting appointed to be held in Wolratec society rooms to discuss the North West marriage question on Tuesday evening last.

St. Albans.

An accident—a little boy about six years of age, son of Mr. Archibald Scott, met with rather a serious accident on Friday last.

He got possession of a whip and making his way into the stable made a dead set upon one of the horses. The animal, to show its displeasure of such treatment, kicked, striking the child on the face and cutting his upper lip clear through.

Wawona.

Colborne.

The thunder storm and rain of Monday did not prevent a very large attendance at the tea-meeting held in the pretty brick B. C. church, known as Zion.

The former pastor of the congregation. The tea-meeting was a complete success. The ladies of the section had a generous supply of excellent refreshments on hand, and the waiters were active and obliging.

After the tea, which was served in the basement, the people adjourned to hear the addresses. Rev. T. J. Sabine, the pastor, occupied the chair.

Rev. Mr. Sanderson was the first speaker, and delivered a short address on having an aim in life, full of good suggestions. Thos. McGillicuddy, of Goderich, followed in a half-hour's address to the people and pastor, pointing out mutual relations of each, and also the relations of the church to those outside of her.

Rev. T. Broad gave some good advice all around in a speech on the elements of a successful congregation, occupying one hour. He also paid a touching farewell to his old friends, ere he left for Texas, to seek a restoration to health. The choir sang a number of anthems and hymns in a most commendable manner, and gives promise of being one of the best in the country.

The choir has been organized only three months. The receipts of the tea-meeting, etc., in favor of the organ fund, amounted to \$22.75, clearing off the debt on the organ, and leaving a surplus of \$12.75 for the Sunday school.

An additional \$6 was realized by a social on Tuesday, at which the Sunday school children had free admittance. Zion church is out of debt on both building and organ, and has a surplus in its Sunday school fund, and is in a position to pay its pastor's salary promptly.

The proprietor of a Detroit newspaper lottery scheme was recently fined at Detroit, and was threatened prosecution in Michigan if he went on with his lottery.

Being thus closed out of both Canada and Michigan, he hit upon the scheme of chartering a steamboat, upon which he embarked his tickets, wheels, committee, referees, and bottle-holders, and set sail for Lake Erie, upon the bosom of "last waterstretch" the drawing came off last Wednesday. Leeburn.

The sacramental services of the Presbyterian church were largely attended last Sunday. Rev. J. A. Turnbull, B. A., LL.B., conducted the exercises. His remarks were very appropriate to the occasion.

Ashfield.

On Saturday, June 16th, a large number of the Ashfield teachers met in Cherry Grove school house, to discuss the scheme of getting up a picnic on the lake shore. After an harmonious discussion of the subject it was decided to hold the picnic at Kintail on July 2nd.

Carlow.

PICNIC.—The teachers of S. S. Nos. 1, and 3, of Colborne held a union picnic in Gowery, on Friday, June 15th, which was a grand success. Owing to the showery weather of the previous week, with anxious hearts the pupils of both sections watched and hoped for a fine day, and they waited in vain for a pleasanter day for a picnic could scarcely have come.

tation; there is no more appropriate place in the county than in this village. Here is a short description of the grounds, &c. The grounds where the games will take place, comprise about three acres of level land situated on the south side of the river, and commanding a fine view of the harbor, lake, river and village.

Sault Ste Marie, Mich., is just across the river from the village of the same name in Canada. The distance can be made in fifteen minutes by a boat. When a resident of the former place desires to send a letter to a friend in Sault Ste. Marie, Ont., he directs it, prepaying the postage and puts it in the postoffice on the American side; then, in order to reach the postoffice on the Canadian side, which is about one mile distant, the letters go to Detroit through the United States mails, cross from Detroit to Windsor, where they enter the Canadian mails, and are sent over Canadian routes back to the Sault, reaching the Canadian office there in about ten days from the time they started—ten days to go one mile. But when one is in a hurry he goes across the river himself and talks to the other fellow; he doesn't write.

SCROFULA

and all scrofulous diseases, Sores, Erysipelas, Eczema, Blebs, Ringworms, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves to self a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores. "Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me. Yours respectfully, Mrs. ANN O'BRIAN." 148 Sullivan St., New York, June 14, 1882.

All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. P. Wilds of 75 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known writer on the Boston Herald, B. W. BALL, of Rochester, N.H., writes, June 7, 1882: "Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a complete cure. I consider it a magnificent remedy for all blood diseases."

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality. It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.

Fun and Fancy.

If a two wheeled wagon is a bicycle, and a three wheeled wagon a tricycle, what would you call a five wheeled one? A vehicle, of course.

"What is so rare as a day in June?" Well, now and then a day in April is decidedly undone, and some of the March days are really raw.

"Whistlers are always good-natured," says a philosopher. Everybody knows that it is the folks that have to listen to the whistling that get ugly.

"The best conductor of electricity at present known is silver." The best conductor into "society" at present known is gold. It used to be brains.

The merchant who advertises "new novelties" is soon to be married to the lady who furnishes "table board." The ceremony will be conducted by the clergyman who occasionally speaks of the "eternity of everlasting life."

An ex-prize fighter never dies. When he leaves the ring he opens a saloon and outlives all his friends. And he knocks many more men out of time in his latter calling than he ever did in the former.

A young man, while out hunting for his father's pig, accosted an Irishman as follows: "Have you seen a stray pig about here?" Pat responded: "Faix, how could I tell a stray pig from any other."

A clergyman recently asked a girl concerning her intended: "Is he in his conversation and carriage consistent Christian?" She replied: "In his conversation he is very pious; but I never saw him in his carriage."

"You make me think," John Williams said, dropping on a sofa beside a pretty girl one Sunday evening, "of a bank whereupon the wild thyme grows." "Do I?" she murmured. "It is so nice, but that is a step in the hall, and unless you can drop out of the front window before I cease speaking, you'll have a little wild time with him, my own, for he loves you not." His descent was rapid.

Just down by the stream where the bracken grows rank she placed her easel, and sat by it sketching from nature.

"Please, ma'am, is that the you're drawing that cow in the pasture?" "Why, yes, my little man; but I didn't know you were looking." "Og, if that's me," continued the boy, "mindful of the artist's confusion, you put me on the wrong side of the cow and I'll get kicked over."

On one occasion when Sir Walter Scott was in Ireland, he came to a gate he could not open. At that moment a shoemaker had come up and opened it for him. "I wished to make him a present, intending to give him sixpence; he found, he had only a shilling. 'Here, my boy,' said he, 'is a shilling, and remember that you owe me sixpence.' 'Oh,' said the shoemaker, 'may your honor live till I pay you.'" "How," remarked Sir Walter, afterwards, "could anyone pay a more delicate compliment? It simply meant the familiarity."

Who is that angry-looking man? That, my son, is a reporter. Do reporters always look mad? Not always. What all that one? He has been to a church supper. Was he invited? Oh, yes. Five of the prettiest girls in the parish urged him to go. "I should think he would have liked that."

"He did. And each of these girls wanted him to give 'em table a special mention." "Did he get any supper?" "Of course he did. He bought a five cent sandwich for a quarter and ate it after the rest got through."

"Where is he going now?" "He is going to the office to write that the parish church supper last night was a most agreeable success. The lovely faces of the fair maidens in attendance on the tables were only rivaled by the charming liberality with which they dispensed the finest of viands."

"Are reporters ever sarcastic?" "No, my son, never."—[Ex.]

Maj. Shurtz. Gen. Sherman had some shirfs made at a furnishing store in Washington, and the cutter a few weeks later met the General with a friend walking down the avenue. The general remembered the face, but could not locate him, and the cutter greeted him with: "Good morning, General. How are you to-day?"

The General stopped, shook hands, and the cutter, perceiving that the General's mind needed refreshing, said quietly: "Made your shirfs."

"Oh, I beg pardon," said the General quickly, and, turning to the gentleman with whom he was walking, he said: "Ah, Col., allow me to introduce you to my friend, Major Shurtz."

Words of Wisdom. Those who school others oft should school themselves. No hope so bright but in the beginning of its own fulfilment. To be poor, and to seem poor is a certain method never to rise. Labor is of three great evils—irksomeness, vice and poverty.

The truly wise man should have no keeper of his secret but himself. Knowledge is the treasure, but judgment the treasurer of a wise man.

When a man resists sin on human motives only, he will not hold out long. After his blood, that which a man can next give out of himself is a heart.

Nature has thrown a veil of modest beauty over maidenhood and meekness. Knavery is supple and can bend, but honesty is firm and upright and yields not.

Ah, how unjust to nature and to himself is a thoughtless, thankless, inconsistent man.

The man who cannot blush and has no feelings of fear, has reached the acme of impudence.

He who observes the speaker more than the sound of words will seldom meet with disappointments.

He that wants good sense is unhappy in having learning, for he has thereby many ways of exposing himself.

Thousands will at once form a positive opinion of a subject on the aspect seen at their standpoint, whose one will walk around and scan it on all sides.

Praise not people to their faces, to the end that they may pay thee in the same coin. This is so thin a cowboy that it may with little difficulty be seen through; it is rarely strong enough to catch flies of any magnitude.

When you travel from vice to virtue you ride on a corduroy road and get many a bump; but when you go from virtue to vice it is just as easy as it is to slide down hill.

A really good man had rather be deceived than be suspicious; had rather forgo his own right than run the venture of doing even a hard thing.

McGregor's Speedy Cure. From the many remarkable cures wrought by using McGregor's Speedy Cure for Dyspepsia, Indigestion, Constipation and Affection of the Liver, and from the immense sale of it without any advertising, we have concluded to place it extensively on the market, so that those who suffer may have a perfect cure. Men of Genius: How they won their Honors. Isaac Newton wrote his "Chronology" fifteen times over before he was satisfied with it. Edward Gibbon wrote out his "Memoir" nine times. Sir Matthew Hale studied for many years at the rate of sixteen hours a day and when wearied with the study of the law, he would recreate himself with philosophy, and the study of mathematics, and wrote his contentions when on his circuits. David Hume wrote thirteen hours a day while preparing his "History of England."

Montesquieu, speaking of one part of his writings, said to a friend—"You will read it in a few hours; but I assure you it has cost me so much labour that it has whitened my hair." Lord Bacon left behind him many manuscripts entitled "Sudden thoughts set down for use."

Wm. Harvey, an indefatigable labourer, spent not less than eight long years of investigation and research before he published his views of the circulation of the blood. Cicero boasted that his philosophical studies had never interfered with the services he owed the public, and he only employed such hours to them as others gave to their pleasures and pastimes. Daguesseau, one of the great chancellors of France, by carefully working up his odd bits of time, wrote a bulky and able volume in the successive intervals of waiting for dinner.

Success Born of Failure.

Among the many notable successes born of failure, the following will be familiarly remembered: Curran, the famous Irish orator, trembled at his first speech, before a small company, and became panic stricken and dumb. Months afterwards he charmed all with his eloquence.

Thackeray carried his "Vanity Fair" to nearly a score of publishers before it was accepted. He used to say laughingly that it was amusing how little he earned when in his early days he wrote carefully and how much he received for poor work when he had acquired a name.

"Uncle Tom's Cabin" was declined again and again, till finally it was published by John P. Jewett, at the earnest solicitation of his wife.

Tom Hood's "Song of the Shirt" was thrown into the waste basket.

No success has ever come without repeated struggles and failures.

With the greatest care the housewife will occasionally spill a little grease on the kitchen floor. When possible, the best is immediately to pour over it cold water, to cool the grease and prevent its penetrating the wood.

Serape oil is that is possible, rub thickly with soap, and wash off with boiling water.

When dry, fold three thicknesses of brown wrapping paper, lay over the spot, and place on it a hot smoothing iron; this will draw much of the grease into the paper then wash again with soap and hot water. This will take out so much of the spot that it will hardly be noticed if daily washed off as it draws out of the wood, for every particle has to come out at the top of the boards, and the more persistently one works at it, the sooner it will disappear.

London is regarded as the banner Canada Methodist conference. It contains the largest membership and sustains the ministry on a larger scale of remuneration than any of the other conferences.

Geographically speaking Toronto conferences is the largest, as all the foreign ministers are under its care.

A San Francisco professor spells "etoto" as follows: "Ghooapthieghtiteoia," and declares it to be correct according to the following rule: "Gh stand for p, as you will find from the last letter in his cough. Ough stands for o, as in dough. Pth stands for t, as in phthisis. Eigh stands for a, as in again. To stands for u, as in you, and a stands for u, as in u, as in u.
