## THOSE STOLEN LETTERS.

A LIBEL SUIT THREATENED AGAINST THE WORLD.

Introduction of the Torrens Land Transfer System into Canada—The Harbor Works and the Esplanade—The Factory Act—Special Dispatch to the World.

OTTAWA, April 12.—After routine, Mr. Dalton McGee introduced a bill to facilitate the transfer of land in the Northwest. He explained that the measure introduced had been in the hands of the government for some time, and that the principal provision being that the owners of the land will hold the government certificates of their ownership, and when they sell their land these certificates will be renewed by the government in the names of the purchasers, without the trouble of a deed, and the title will be clear and unassailable. It is proposed to establish a head office at Regina, the chief office to be known as the registry office.

Mr. Blake approved of the bill, which he said was similar to the one submitted by Mr. Mills in the last parliament. The measure will greatly reduce the legal expense of transfers.

Mr. Small introduced a bill to increase the harbor accommodation of Toronto, extend the esplanade, and control the use and management thereof. It has not yet been decided whether the measure will be treated as a public or private one.

Mr. Costigan moved the house into committee to consider a resolution to consolidate and amend the acts respecting the inland revenue, and the receipt of the same.

Several articles have been sent in to the committee to be considered. They are: a bill to amend the act respecting the inland revenue, and the receipt of the same; a bill to amend the act respecting the inland revenue, and the receipt of the same; a bill to amend the act respecting the inland revenue, and the receipt of the same.

## NEW UNBRIKEN.

The Legislature Assembles Under the New Government.

PARLIAMENTS, APR. 13.—The legislature assembled this afternoon. The speech from the throne was read, and the government program was announced. The government has a full program of legislation, and the session is expected to be a busy one.

## INVINCIBLES ON TRIAL.

FURTHER TESTIMONY RELAYED TO THE ALLIANCE MEMBERS.

Evidence for the Crown all in—Carey identifies Number One—Opening of the Case for the Defence.

DUBLIN, April 12.—At the Brady trial today Carey was cross-examined, and the information elicited that Carey was plotting the murder of a member of a sodality which received the sacrament at stated periods. Carey said he was promised pardon before he determined to testify against his fellow-conspirators. The photograph was handed to Carey, which the witness identified as that of a man known as "No. 1."

Kavanaugh, who drew the car in which the murderers rode, repeated his former evidence. His testimony showed that it was Brady who directed him where to drive and who designated the place for him to wait for the murderers.

Joseph Smith, the prisoner who turned informer, repeated the story of his detour in the Phoenix park, as related by Carey at the hearing. Smith said he was sworn in as an invincible, and that the invincibles' design for recognizing each other was the holding of a knife in the palm of the hand.

John Cook, insurance agent, has been on trial at the Elgin sittings for bookkeeping the money of Geo. Clark, a broker. Cook admitted a photograph to show that Clark's money was being crooked. Cook was found guilty.

Spring freshets on the Maitland river yesterday resulted in the destruction of a large flock of geese, and the loss of many ducks. The water was so high that the birds were unable to find food, and many perished.

## DRS. CLARKE AND TUCKER.

THE ONION OF TORONTO AND THE OTHER OF OTTAWA.

The Antipathy Between the Canadian With a Libel Suit—When the Antipathy Superseded Him to Say.

Boston, April 12.—Dr. Tucker, the government agent of New South Wales, who is inspecting the insane asylums of this country, visited the Toronto, Ontario, asylum, and afterwards spoke of the deficiencies and defects in the management of the institution. Daniel Clarke, superintendent of the asylum, thereupon sent a circular to every asylum in the country warning them against Tucker.

Dr. Tucker is not as he represents, an agent of the government of New South Wales, but a private physician. He is a man of high standing in his profession, and his visit to the Toronto asylum was a matter of public interest.

## INDIGNANT SCHOOL TEACHERS.

They Meet in Session and Protest Against Mr. Charlton's Intent.

A meeting of public and private school teachers of this city was held in Temperance hall, Temperance street, last evening, for the purpose of discussing Mr. Charlton's bill in relation to "offences against the person," recently passed in the house of commons.

The second clause, unlike the first and third, which are of general application, deals specially with the members of the teaching profession, and appears to single them out particularly as more culpable and originally inclined than the gentlemen of the older vocations, divinity, law, and medicine.

Mr. Ellis thought that the case was parallel to calling a faithful dog by a bad name with a view of hanging him. The education of the profession he thought, as well as its sense of honor would bear comparison with that of hanging him.

## THE SCARE AT OTTAWA.

MEMBERS FOR THE SUBJECT OF THE FEAR OF LOSS.

The Whole Way From Halifax to Ottawa to be Strictly Guarded—Departure of the Marquis to Meet Her Royal Highness.

OTTAWA, April 12.—It is understood tonight that in view of recent threatening letters received by Lord Lorne, extra precautions will be taken all along the line of railway between Halifax and Ottawa on the route of the princess to the capital.

Along the intercolonial railway and the Grand Trunk, track masters will be stationed at points along the line of a quarter mile's distance. A pilot engine will also go in advance of the vice-regal train.

FOR THE FARMERS.

An era of railway monopoly has been inaugurated in Canada—a monopoly the most gigantic in the world, where for extent of territory affected, length of railway and number of systems involved, or power of the monopoly to seriously injure the people who have to submit to it.

Why was Gordon Brown deposed from the management of the Globe? For political reasons we are told. Perhaps it was so, but that same anti-protection policy of Gordon Brown's is being re-nounced in the Globe as of old.

During some years past several French Roman Catholic clergymen have been laboring with great energy to promote the settlement of their fellow-countrymen in northern districts.

In our sporting column this morning we give a list of the lacrosse team that is to visit England, Scotland and Ireland, as a delectable treat.

Two climatic events of considerable importance are already considered as settled for 1910. First, that there are to be no spring floods of any consequence in Manitoba this season.

west and south the limits of the dominion are already fixed. And if more territory were to be acquired, it will have to be by pushing towards the north pole.

CLIQUE OF THE LOTTERY CRUSADE. Sixty prosecutions were brought by the county crown attorney in the Toronto police court for advertising by posters or in newspapers, and for receiving and selling tickets in connection with the London lottery and similar schemes projected in Detroit and Ottawa.

The cases dismissed were only disposed of after sharp fight, and the police magistrate, who could entertain no personal doubts that all the accused were implicated, evidently felt himself constrained to give them the benefit of any legal doubt as to their technical culpability under the statute.

The general result of the prosecutions—24 solid convictions, in which the full penalty was imposed—simply vindicates the authority of the law against this most insidious and mischievous species of gambling—and the actual and prospective pecuniary loss inflicted on the lottery agents prosecuted in Toronto may be estimated as follows:

24 convictions—Fines, \$100 each \$2,400.00
24 convictions—Costs, \$25 each 600.00
Total \$3,000.00

It is for the farmers of Canada to say whether this shall be so or not. And it is the duty of the local and independent press to instruct the farmers on this point. The leading organs of the party will not do it— dare not do it—as they are tied up to the monopoly. The Globe is the organ of the Grand Trunk; the Mail is of the Pacific syndicate. They dare not open their mouths.

It is a reproach to our police that they should not perform all the duties they are sworn to perform and paid for performing. We are satisfied there are plenty of good men on the force who would not be slow to act, and the citizens can only hold them in commendable acquiescence.

In another column we publish the provisions of a bill for the suppression of conspiracies and the punishment of conspirators in Canada. We do not know whether the government is merely taking time by the forelock, or whether there is any reason for believing that plots are hatching in Canada.

Suppose the plan were tried of pushing settlement northward step by step, gradually and tentatively, the colonists making homes for themselves as they found the ground to be such as they could conquer and hold. Mining is practicable where agriculture is not, and if there be really large mineral wealth north, and capital of being brought out to the front, capitalists would invest, and work for many men would be created.

THE WEST TORONTO BOOM

A SPLENDID FIELD OF SPECULATION ON THE HUMBER

The New Suburb of the City—Pleasure Grounds and Fine Waters—The Westward March of the City—The Sale on Saturday.

One of the most picturesque of suburban properties—that of the Belmont and Iron company—just this side of the Humber and immediately adjoining High park, west Toronto, will be offered for sale by Messrs. McFarlane & Co., at their rooms, 47 Yonge street, on Saturday (tomorrow) at 2 and 7.30 p.m.

The property consists of 200 acres in all, lying between the Humber and the park, and extending from the lake shore to Bloor street.

Seventy acres have been cut up into building lots, each from 25 to 44 feet front and 90 to 110 feet depth.

The locality has long been a favorite resort for picnicking parties, and its fine sandy beach possesses excellent facilities for boating, fishing and bathing.

It has been suggestively described as the old orchard of Canada. A pavilion on the lake front may be erected and a brass band is organized for musical entertainments during the approaching season.

The character of the place as a popular summer resort is, however, not by any means its chief claim to public attention at this time.

The sale offers special inducements to artisans, from the fact that the Belmont and Iron company's factory, covering upwards of an acre and employing at present 300 men, is located on the business of the property.
