# ATTENTION! Sick Women

To do your duty during these trying times your health should be your first consideration. These two women tell how they found health.

Hellam, Pa.—"I took Lydia E. Pinkham's Vegetable Compound for female troubles and a displacement. I felt all run down and was very weak. I had been treated by a physician without results, so decided to give Lydia E. Pinkham's Vegetable Compound a trial, and felt better right away. I am keeping house since last April and doing all my housework, where before I was unable to do any work. Lydia E. Pinkham's Vegetable Compound is certainly the best medicine a woman can take when in this condition. I give you permission to publish this letter."—Mrs. E. R. CRUMLING, R. No. 1, Hellam, Pa.

Lowell, Mich.—"I suffered from cramps and dragging down pains, was irregular and had female weakness and displacement. I began to take Lydia E. Pinkham's Vegetable Compound which gave me relief at once and restored my health. I should like to recommend Lydia E. Pinkham's remedies to all suffering women who are troubled in a similar way."—Mrs. ELISE HEIM, R. No. 6, Box 83, Lowell, Mich.

**The Quality Goes Clear Through**

**Quality from the Polish in**

Quality in the Gray-Dort does not begin and end on the outside. True, the Gray-Dort has a fine appearance—pleasing lines, handsome finish, smartness. But these are only parts of its goodness.

Get right down into the car. Examine the details of the body, the frame, the motor, the transmission, the accessories. There you will find sincerity of workmanship, genius of design and honesty of materials, of which the appearance is the outward and visible sign.

The quality of the Gray-Dort was not attained in a day. For 65 years the Gray plant in Chatham has been building vehicles widely reputed for serviceability and beauty. For 30 years the Dort plant in Flint, Michigan, has paralleled this.

The Gray-Dort car is the combined effort of these two great organizations. Into it they have put all the knowledge gained in a lifetime building carriages. They have placed on it the same mark of character, backed it with the same integrity. And in the hands of several thousand Canadian motorists, the Gray-Dort has proved worthy.

The new Gray-Dort embodies all the good features that won instant success for former models. The 4-cylinder motor is a triumph of smooth, economical speed and power. The chassis is sturdy and quiet. The springs are long. The upholstery is deep. The equipment is absolutely complete from electric starting and lighting to the tools. New lines of beauty have been given this model. The five-passenger touring car is \$1,125; the three-passenger four-seater is \$995; the Gray-Dort special, beautifully finished and with extra details of equipment, is \$1,255 above the list. All prices are f.o.b. Chatham.

**WAITING TO CONTRIBUTE**

Four Farmers Who Are Ready to do Their Bit.

Last Sunday in a small country town the people gathered for worship as usual. The clergyman, who officiated, was a stranger to the congregation. He had a good story to tell of how the Gospel of Christ was proving itself a great asset of our race in this present time of great need, and by way of illustration, he told the story of the work of the Y. M. C. A. for our boys in summer camps and winter barracks and naval ports in Canada and in Britain; also the work that is being done in France from the sea port town right up to the front trenches. Then he expressed the hope that his hearers would not see this very practical form of Christianity suffer through lack of funds to do their very best work.

The service closed, and four farmers waited at the door to speak to the man who had made that appeal. They all wanted to make their contributions "right away to assist in this work. The preacher could only protest that he had not any authority whatever to receive contributions—"The canvass will be made on the 7th, 8th and 9th of May, and you will be asked to make your contribution then." The amounts pressed upon that clergyman by those four farmers, totalled \$74.00 and this is only one illustration of what may be expected in every section of our province when the canvassing teams set forth to gather in returns for the Y. M. C. A. work overseas. Let everyone help.

**The Best Insurance You Can Put on Your Buildings**

is the protection that good paint guarantees. Fire Insurance does not prevent fire—it only partly reimburses you for loss sustained, should fire destroy your property. Fire may never happen. On the other hand, the use of good paint actually prevents a loss from decay which is not just a possibility, but an absolute certainty. The destructive effects of weather, upon buildings that lack proper paint protection, go on every second of the day and night.

**MARTIN-SENOUR "100% PURE" PAINT**

is the greatest known protector of all building material against time and weather, because it is made only of pure White Lead, Pure Zinc Oxide, and Pure Linseed Oil. You would not think of letting your Fire Insurance Policies lapse in order to save the yearly premiums. It would be even poorer economy to let your Paint Protection Policy lapse by neglecting to repaint your increasingly valuable buildings this season. When you do paint use Martin Senour "100% Pure" Paint. It spreads easier, covers more surface, and protects longer than most other makes.

Ask for copies of "Farmer's Color Set" and "Town and Country Homes". Many good painting hints in each.

SAVE FOOD

In a time needing food economy many people are not getting all the nourishment they might from their food. It is not how much you eat, but much you assimilate, that does you good.

The addition of a small teaspoonful of Bovril to the diet as a peptogenic before meals leads to more thorough digestion and assimilation and thus saves food, for you need less.
