Nearly Eighteen Thousand Men Will Speedily Be Mobilized in Texas to Guard Against Raids by Mexicans -Diaz to Announce Policy. in Statement Today.

WASHINGTON. March 11 .- De. spatch of two additional regiments of American infantry to Eagle Pass and Laredo, Texas, to allay fears of raids by Mexicans, and the appearance here of Gen. Fellx Diaz and friends, with a new plan to solve the Mexican problem, were the chief developments to day in the Mexican situation.

The troops were ordered to the border at the request of Senator Sheppard and Representative Gardner. The latter told the president there was a good deal of cash in the border banks and Americans wanted to be protected against any sudden raid or invasion which might result from sensational overnight developments at any time in the Mexican situation. Mr. Gardner also said much cattle had disappeared lately and residents believed Mexicans were responsible.

Statement By Diaz. Gen. Diaz and his friends here said they were not yet prepared to announce their purposes, but would do so in a statement tomorrow. Members of the party included Pedro Del Villar. who was before the senate foreign relations committee last week and was reported to have asked support for a counter-revolutionary movement. The Mexicans denied today that they were seeking support or sanction for any revolutionary movement, saying their idea chiefly was a campaign of information about Mexico, and to acquaint Washington with the personality of Gen. Diaz, so that his part in subsequent events in Mexico might be judged from a study at close range.

Just what their plans are for the redivulged, but it was learned that they seeking the elimination of Gen. Muerta, and are not allied in any way with the Constitutionalists.

A Large Muster. Members of the party, said Sanator Root, met Gen. Diaz on the latter's visit to Washington last week, and that Diaz came to Washington at the invitation of Senator Fall. Whether the senators are fully acquainted as yet with the plans of the Diaz group

OTTAWA, March 11 .- There was a curious flow of cross currents in the house today in the debate precipitated by Mr. Knowles, the Liberal member for Moose Jaw, who, upon a motion to go into supply, presented a resolution demanding the immediate abolition of the custom duties upon agricultural implements. The prime minister quite properly stated that all tariff announcements must await the delivery of the budget speech by the minister of finance, and, therefore, characterized the resolution as calling for a want of confidence vote in the government. At the same time he went further and plainly intimated that he had little sypmathy with the resolution, which, if adopted, meant that the Canadian market would become a slaughter market for the American manufac-

Special Committee on School Building Will Justify Superintendent Bishop - Overworking of Employes and Lack of Discipline Responsible for Adverse Finding.

Supt. Bishop will be completely vinlicated by the special committee of the board of education. The committee will hold a public sittin next week and adopt a series of resolutions entirely exonerating Mr. Bishop and ecommending that his authority be more clearly established over the subheads of the department, and that he be provided with any additional assistance which he deems necessary. The members of the sub-commit tees spent two hours delving into the methods of the department on Monday after the committee adjourned. They looked over matters which had ariser in relation to the Kimberley contracts. On Tuesday afternoon, and again vesterday afternoon, they followed up the investigations in the different offices in Supt. Bishop's department.

Officials Overworked. The consensus of opinion was that the officials had been working faith fully, but that owing to the wording of the bylaws under which Supt. Bishop had to direct the department, the discipline had been lax and insufficiently centralized. Also that the recent phenomenal growth of the city had overloaded the department staff with work It was lso demonstrated that the prolonged investigations before Judge Winchester into the past board of education methods of letting contracts

Conservative Plan of Workmen's Compensation Suggested by Manufacturers.

The Canadian Manufacturers' Asso members of the legislature outlining their proposal regarding workmen's

The proposal, as explained in the letter, was that the whole matter of workmen's compensation should be handled thru a government commission. The commission was to adjust all claims according to certain schedules laid down in the act and to collect the necessary funds by levying on employers in accordance with the hazard of their business. For this reason the association proposed that the employers be divided into groups or classes, constituting in effect mutual insurance societies. A careful study of the systems of other countries had convinced the association that something of this kind was the only satisfactory solution.

Modest at First.
is pointed out in the letter that manifestly such a system as that proposed by the manufacturers could no at the start embrace all employers and workmen, because the undertaking would be too vast. The proposition was at the beginning to leave out the farmers, to leave them as they are under the present law and not to inflict upon them what the association considers the injustice of individual liability. It was proposed to begin with manufacturers, builders, railroads and other hazardous and highly or-ganized industries and establish a sysrailroads tem which could be extended later to

"Unjust, Oppressive."
The letter states that instead of the proposition of the manufacturers' association, the commissioner proposes in his draft act three different kinds of new law-one for the manufacturers, etc., another for railroads and a third for the farmers, "the last being

Not one.

The residents of Toronto and York

A NEW DISCOVERY.

A NEW DISCOVERY.

Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation are sadly out of gear and need reconstruction.

A Big Sale For "Peg."

That the charming comedy, "Peg o' My Heart," with Elsa Ryan, are going to receive a great welcome at the Alexandra Theatre next week, is evinced by the great advance sale, which opened yesterday morning. All day long the box office men were busy selling tickets.

The enormous success of "Peg o' My Heart" in New York and other cities is unquestionably due to its cleanliness and absence from all discussions of social sin or the everlasting capital and labor question. Peg is an elfish little human being, with a child's naive ways and a child's innocent outlook on life. She is brought sketch. Kubelik Tonight.

Tonight's recital by Jan Kubelik at Massey Hall will afford a rare opportunity for his many admirers in Toronto. Not since Eugene Ysaye reappeared here last season have lovers of the violin had a chance to hear a full recital program by any of the leading virtuosi, and tonight's concert will exemplify the art of Mr. Kubelik in all its many-sided brilliancies. "A small man with a large soul" accurately describes Jan Kubelik. The Bohemian violinist weighs a little over one hundred pounds, but he is a big man in the truest sense with a mind as broad and alert and rane as his eye is clear and bright. It is a soft, white hand with which he draws a bow across the strings of his wonderful "Emperor" Stradivarius—the strings that sing and speak so many things, but when used for greeting purposes that hand has a warm, courteous clasp, that indicates at once the volatile, impulsive temperament of the man behind the artist. Judging by newspaper reports their progress has been a succession of triumphs. The distinguished couple are now on their way east from the Pacific coast. In San Francisco they were forced to give four concerts instead of the one originally billed.

The New York Philharmonic Concert. When the New York Philharmonic Or-chestra visited Toronto last season it was heard by a great many people; but those who were not fortunate enough to attend the concerts regretted they had not done so. For the next day every prominent music critic in Toronto came out with a glowing encomium of their wonderful per fection of interpretation and technique, merits in which they could challenge comparison with the greatest orchestras in the world. Not less enthusiastic were

PLANKED FISH

LANKED FISH—If possible secure a fish from the great lakes, for these men who know all there is to know about fish, declare them the finest of all.

Secure a plank not less than two-thirds of an inch in thickness and shaped to fit in your fish platter. Oak is considered the best wood to have the plank cut from as it is thought to give a peculiarly good flavor to the fish in cooking. This plank must be heated and well oiled or buttered. Butter the fish too, on both sides and season liberally with lemon, pepper and salt. Now tack the fish upon the plank, skin side ppermost so the delicate juices will not be dried away. Use good sized tacks or small nails, but do not force them too far into the wood, as you must pull them out directly the fish is cooked.

Now put the plank and its fish close to the coals or broiler blaze and baste it when it looks dry or shows a little scorch. Twenty minutes is ample time to cook a three pound white fish. Place the plank on a fish platter, draw out the nails and garnish the dish with whipped potatoes put around the fish in rosets or rows. Replace the dish in the oven until the potatoes are delicately browned. Sprinkle minced parsley over the whole and send to the table with quarters of lemon. This may sound elaborate. but it furnishes the principal dish of the meal and is the finest way known in which to serve fish. Cress may be used in preference to the parsley and egg sauce rather than lemon and butter, but the richer sauce only detracts from the delicate flavor of the fish.

To bake fish-Make an oyster stuffing, using butter to furnish rich-Fill the interior of the fish and sew it up. Brush over with olive or salad oil er melted butter and dredge with flour. Place in a baking pan with a rack under the fish to prevent it sticking fast. Add a cup of water, cover closely and bake fifteen minutes for each pound of fish's weight. When about done remove the cover to permit browning, dredge a very little more flour on and serve it as soon as the flour covering is crisp and brown. White sauce for fish-Melt one tablespoon of butter, and blend one

tablespoon of flour with it. When smooth add a cup of cream and continue cooking, stirring all the while until it is the right thickness. This may be seasoned to suit your taste and used as a dressing, or cold flaked fish may

Fish loaf—Salmon is generally used for this useful dish, but any fish may be utilized. However, more seasoning will be needed for fish that lack the fine aroma of salmon. Remove the bones from a can of salmon and pick the flesh apart. Add a cup and a half of rolled crackers, two eggs, two tablespoons of melted

butter, one-half teaspoon of pepper, one tablespoon of lemon juice. Mix Butter a baking dish or mold generously and pack the mixture in it; allow for it to swell one-third its size. Bake until you are sure it is well browned on sides and bottom. Serve very cold with mayonnaise or very hot with a rich, hot sauce.

Orange Pudding.

Cut up five nice oranges, put in a large pudding dish and sprinkle over them one half cup of white sugar. Set a pan containing a pint of milk in a kettle of boiling water; let it boil. Stir together the yolks of two eggs, one-half cup of sugar and two tablespoonfuls of cornstarch in a little cold milk and with a little sait. Add this to the boiling milk, let it thicken and pour it over the fruit. Now beat the whites of two eggs to a stiff front, add a tablespoon of fine sugar and pour it over the pudding. Set in a hot oven to brown. Drop jelly on the top for ornament.

In order that abundance of milk be secretted, it is necessary to include in the diet of the nursing mother more than the growing in the ordinary back yard of shundreds of city homes, that need only a little attention along this line to make them useful trees. A great deal may be accomplished by a little trying. It is foolish to give up in despair a simple, easily-digested, nourishing after one or more failures. The old Kentucky Crumb Pie.

In general, the following articles should be avoided: Vinegar, pickles, cloying sweets, cabbage, turnips, onions, rich sauces, greasy neavy boiled puddings, rich pastry and alcoholic beverages. Hot places of amusement, irregular or late hours, are not conducive to mother's and baby's health. Regularity in feeding is most important, and nothing should inter-

fere with this duty. After three or four weeks it is well to give baby one meal a day from a bottle. This makes baby's care easy should the mother be unavoidably ab-sent for a time, or suddenly deprived of milk. Then, too, it gives the mother an opportunity to leave the baby for more than the two or three-hour period, and this is often as pleasant as it is cometimes necessary. KILLED BY BANDITS Spectacles and Eyeglasses **At Honest Prices**

That the people of Toronto were waiting for a reliable optician to begin business in this city whose charges would be moderate and whose service would be scientifically perfect is evident in the steady growth of this business We have been here only a few months, yet our business today would be creditable to any firm of opticians who have been located in Toronto for ten years. It has steadily grown, and already we find ourselves cramped for room in a store which we believed would be ample for our purposes for several years. The recommendation of one satisfied customer to another is chiefly responsible for this. We have among our patrons some of the best-known men and women in the city who have not hesitated to do us the favor of a hearty recommendation to their friends.

We Use Both English and American Systems of Eye Examination, and Furnish Eyeglasses, Including Duplex Perfect Vision Lenses, at as Low as

98c Per Pair

It sometimes happens that very special lenses have to be ground to meet peculiar eyesight conditions, in which case a special charge has to be made, but, even under such circumstances, our prices will be found to effect a great saving. Sometimes, also, patrons desire distinctive mountings, such as tortoise shell frames, or solid gold mountings, for which additional charge in made, but, in the majority of cases, our 98c glasses suit perfectly. It is, however, our eye examination and the making of the lenses in our own workshop which is the outstanding feature of our service.

If you need a pair of glasses, we invite you to call and consult our mic specialists, whose examination is yours absolutely without chargare under no obligation to buy glasses unless you want to. Answers to Health Questions C. A. H., Toronto, Can.—I have "catarrh" of the throat. It affects me most when I listen to a sermon in church. Is there any drug to help me?

Spring, as it comes with its ethereal mildness from the bosom of a dropping cloud, waking the welkin with music, is balm in Gilead to the true fevers of February and March.

These terminal winter months bring acute infections, "arthritis" or joint fever, which lasts for six or more weeks. They stir up your weak spots and open types of "catarrh" you have.

There is another phase of the question. The big real estate operators who sell land for building, and who are willing to take the risks of sale, are not willing to invest money in building on their own land when they have to face the inevitable bill of taxes on their improvements. terms of the home rule act. But for the importation of British politics into the controversy it is evident enough that the trouble would have been allayed without serious difficulty. Even in the Unionist party there are many who recognize that local government is desirable, not only for Ireland, but for Scotland, England and Wales. Dublin castle rule is detested as heartily by Irish Unionists as by Irish Nationalists. It has been inefficient, incompetent and far too expensive. Indeed, it is hard to understand why a united and generous effort should not long ago have been made to allow Ireland to be administered by Irishmen who, whatever their political opinions, were at one in their desire to see Ireland happy. contented and prosperous. Racial and religious rancor has been fostered and fomented because of the determination to compel a dissolution of parliament and give the reactionaries of England another opportunity to overthrow a progressive government whose policies conflict-with hereditary and landed privilege.

Mexico presents a more perplexing problem than ever. It is becoming every day more evident that if President Wilson adheres to his view that no Mexican president without a spotless record and the free vote of the will be many a year before these ideal conditions can be attained. NEED OF SCIENTIFIC FARMING.

Editor World: In traveling over different sections of the Province of Ontario in connection with the field crop competition, conducted by the depart-ment of agriculture, I have been strongly impressed by the necessity for better and more scientific methods of farming than are now generally practised, and by the utter wastefulness of the system of many of our agriculturists at the present day. The question is one of vital importance not only to the farmers themselves but to the country generally, and those interested in that and kindred matters are pleased to know that the Provincial and Dominion Governments in-Mexican people can be recognized tend in the future to expend much by the United States Government it greater amounts than in the past to forward the interests of the agriculturists of the province and Dominion We have had it stated by authorities of eminence, and from personal knowledge of conditions, I say it is a fact,

Even under favorable conditions of growth in some sections we find total failure of crops. This constitutes a great loss to the farmers of Ontario, and is, in my opinion, in great part due to lack of a scientific knowledge of the art of farming—that is, to know what crops the different kinds of soil will best produce, the best rotations to follow. ce, the best rotations to follow c. Factories Willing to Fall Into Line, Says Hon. Mr. Crothers.

OTTAWA, March 11 .- The house passed the preliminary resolution of-fered by Hon. T. W. Crothers, min-ister of labor, prohibiting the use of white phosphorus in the manufacture of matches, and a bill founded upon the resolution was introduced and read the first time.

three years ago by Hon. Mackenzi King, but met with some opposition and was allowed to drop. The only opposition manifested today came from the maritime provinces, Mr. Carvell of Carlton, N. B., claiming that the proposed legislation would close up the match factorry in New

Mr. Crothers said in reply that there were four match factories in Canada: one at Hull, another at seronto, a third at Halifax and the fourth in New Brunswick. He had conferred with these manufac-turers and they were not opposed the legislation if given a reasonable time to dispose of their stock and change their machinery. The bill, therefore, would not take effect until

TORONTOS WIN CHAMPIONSHIP OF N. H. A. FROM CANADIENS

Blue Shirts Captured Title by Four Goals After Blanking Frenchmen in Final Game -A Great Battle.

Last night Torontos added the scalps of the Canadiens to their belts and captured the championship of the N.H.A., by defeating the Frenchmen by the score of 6 to 0. It was an awful walloping that the visitors received, and the two-goal lead that they had so nicely tucked away for a safety faded before the onrushing blue shirts. Visions of the championship were very strongly impressed upon Kennedy's squad, but the game had not been long started ere the result was a foregone conclusion. A crowd of five thousand seven hundred saw the game.

Altho on the play the Torontos looked far the better in the first two periods, that they would come thru and trounce them in the final battle so one-sidedly never dawned upon the most rabid supporter of the locals. Two goals were considered a very large margin for the Canadiens to work on, especially as the tables showed that Torontos had had considerable trouble in beating Vezina in most of the games. To win by four goals after being two down is a feat that is well deserving of a lot of credit, and there was nothing flukey about the victory either. Better hockey was the only asset that the locals carried with which to gather in the spoils, and the hope of grabbing the world's championship from the Victorias. Canadiens were never in the play, and just how they happened to beat the Torontos in Montreal is hard to imagine.

A Hard Battle.

It was a hard game to lose, and, altho

rontos, moreover, at opportune moments pulled off some nice combination, and the tallies were not long in following. Jack Walker appeared at his best, as did also Cameron. These two never worked harder. Incessant checking and end-to-end rushing was utilized by them, and rarely a man got away from either of rarely a man got away from either of them. Harry Cameron worked like a Trojan, and time after time he carried the rubber thru the defence, only to be upset or driven into the corner because of no assistance. Walker made the Canadlen forwards look silly at times with his poke checking. Foyston and Marshall loomed up in the limelight scores of times, while Davidson did a lot of useful work that helped to clear away the stain on his last few performances. Holmes in goal was not very busy, but he was called on to stop many difficult shots.

cult shots.

A Pair of Frenchmen.

Lalonde and Laviolette bore the brunt of the battle for the losers. If they had not been in the game to steady their team-mates down the tale would have been very disagreeable. Payan and Scott worked hard and stayed with the play. Don Smith and Dubeau were hard driven, but managed to hold themselves. The grueling checking that the Frenchmen were subjected to completely dispersed any combination that they tried, and it was a wonder that they stood the gaff and kept coming for more. Vezina in the nets did not have a might off, as one might suspect from the score; in fact, he gave a good exhibition, as he must have stopped a regular rainstorm of shots.

Torontos cut down theler opponents' two-goal lead in the first period to one by beginning right from the start to stop the Frenchmen. Gradually the Canadiens were forced back on the defensive, and for minutes at a time the puck did not pass centre. During this time, Vezina was called upon to stop shot after shot, and it looked as if he was going to have the Indian sign on the locals, until Walker sent a sizzler from outside the defence at him. The shot was waist high and it buiged the net in twelve minutes. This put the locals on edge, and Foyston and Davidson worked their way in, only to have Vezina clear the shot. Cameron tried twice but was held out. He took the puck twenty feet out from the nets and, in shooting high to get past the mob in front of the net, hit Laviolette in the ear. The locals were coming like a house afire, but wild snooting spoiled scores of chances. Lalonde got away on the outside and dropped one right on Holmes' pads from centre ice. Holmes was fortunate in clearing, but Walker relieving brought the crowd to their feet with the same kind of a shot a half minute later. The score at the end of the first period was Torontos 1, Canadiens 0.

BEACHES LEAGUE The Beaches Hockey League will stage the two remaining finals in their league tonight at Ravina Rink and this will close the most eventful year in the history of the largest outdoor ring league in Canada. At eight o'clock Riverdales and Broadviews will clash in the junior final, and the winner will have to travel at a terrific pace to outdistance their rivals. Both teams have had hard rows to hoe and are ready for a fight to the finish. At 9 o'clock Yorks and Broadviews will try conclusions for the intermediate title. The former team have come thru with flying colors, while the black and red have been traveling at a fast pace. This game should be a hummer, and a big crowd is expected. The Beaches Hockey League will stage

ORILLIA JUNIORS CHAMPIONS AGAIN

Varsity Boys Bewildered and Outplayed in Strange Surroundings Up North.

ORILLIA, March 11.—Orillia are jun ampions again. Varsity lacked the good back checking that they displayed in Toronto on Monday and were easy picking tonight for the fast Orillia fit. The final score was 10 to 3, the

thru to the nets two and three men at a contract with the Boston Nationals. The check was given Evers by James a time. At the other end, Reid and Macanab put up the best game of their carries and it was only on very rare occarions that Smythe, Milne and Co. had a chance at close quarters to battle with Mister Johnson. The champions for use ward line checked like flends for the full hour, and while not displaying any great team work, they had the one man rush game down to perfection.

Varsity's shots were dead on, but Johnson was in rare form and turned them all aside. Draper got the last goal of the half by taking a pass at the side and completely fooling Malone.

The second half was all Orillia, with Varsity putting up a game fight, that was hopeless. Orillia passed better in this session. The Varsity forwards, with the exception of Milne, holsted the distress signal from the grueling grind. It was just a case of how many Orillia was just a case of how many Orillia could get, and Malone was the busiest man on the ice. First Game Saturday For the Stanley Cup

Hockey Association, the new holders of the Stanley Cup, play the first game or Saturday night in the Arena for that trophy with the challengers, the Victorias, champions of the Coast League. The latter team have been practising here since last Saturday and are in the best of condition

Had Canadiens won games would have been played here, but as the Torontos were elected the lot will take place on the Arena's artificial ice. The dates are Saturday, March 14; Tuesday, March 17; Thursday, March 19; Saturday, March 21, and March 23, the last date conditional on a fifth game being

necessary.

The Arena management announces that tickets for the first three games go on sale on Friday, and that each buyer must purchase one or two seats and not more, but they must be for all three games.

World's Mile Record Made at Juarez Track

JUAREZ, Mex., March 11.—Christo-phine, a three-year-old filly, owned by the western turfman, S. Veiller, broke the world's mile record on a circular track at the Juarez course this after-noon, going the distance in 1.38 4-5. Th record formerly was 1.37, made by Bonne Chance, Jefferson Livingston's 5-year-old.

JOHNNY EVERS RECEIVED FAT BONUS FOR SIGNING. MACON, Ga., March 11.—John J. Evers, deposed manager of the Chicago National League baseball team, today received a check for \$25,000 as a bonus for signing a contract with the Boston Nationals. The check was given Evers by James E. Gaffney, owner of the club, shortly after his arrival here.

"It had been reported Evers was to receive \$20,000," said Gaffney, as he handed a slip of paper to the second baseman, "but here is the cheque. Evers may(if he wishes, tell the amount."

Evers smilingly handed the cheque to some of his friends.

CANADIAN LEAGUE AMEND GUARANTEES

Ottawa Continues on Straight Basis—Umpires and Passes Arranged For.

The Canadian League held a schedule meeting at the Prince George Hotel yesterday afternoon, but at a late hour last evening the delegates were still arguing over the choice dates and the schedule will not be given out for a day or so. President Fitzgerald was in the chair and the following delegates were present: George O'Neil, T. J. O'Connor, Erie, Pa.; F. C. Buzzell, H. A. Reason, London; T. Nelson, Brannford; E. T. Carr, Peterboro; A. L. Garthwaite, M. M. Robinson, Hamilton; P. Kerwin, Toronto; M. T. Bryce, Ottawa; Chas. Stanley, St. Thomas.

The pass question was arranged so that Toronto gets one hundred season passes, Ottawa, Erie, London and Hamilton 50, and Brantford, St. Thomas and Peterboro 40. The daily passes will be distributed as follows: Toronto, 50, and the others 25 each. The guarantees were amended to read fifty dollars guarantee or thirty dollars rain. Ottawa will still have the same rate of seventy-five dollars straight as heretofore. The umpires named for the coming season were J. M. Flynn, Buffalo; J. G. Walsh, Wilkesbarre; R. E. Bedford, New York; Arlie Latham, Lynn, Mass.; H. Riley, Jamestown, Ohlo, and G. Miller, Kansas City.

The question of moving up into class B was left in the hands of President Fitzgerald. At the present time the National Commission are holding off, declaring that the population of the towns does not classify them as such. The president will try to show them that under the census of 1912 and without the population of Toronto the league is elisible for the higher series.

The Toronto Canadian Leaguers will play on the city side on a ground as close as old Diamond Park, but not necessarily in that direction. The field is an idea, one, on which President Kerwin has a five years' lease, New stands are to be erected, to seat 6000, including 1000 in the bleachers, and will be finished when Ottawa opens up here on May 28. The Canadian League season starts May 7, with Toronto at London.

The roster includes eight players from major league teams. They are: Roberts, catcher, St. Louis Americans; Adams. St. Louis Americans; Camnitz, Philadelphia Nationals; Blanding, Cleveland Americans; Dickson, Boston Nationals, pitchers; McDonald, Boston Nationals, infielder; Oakes, St. Louis Nationals; Holden, New York Americans, outfielders.

Cornwall Lacrosse Club Fail to Elect Officers

CORNWALL, Ont., March 11.—The Cornwall Lacrosse Club held its annual meeting tonight. Dr. W. B. Cavanagh, president, occupied the chair. In his report, the treasurer, A. F. MacPhee, showed that the club had a balance on the right side of the ledger, which is something all the clubs can not show from last veer.

right side of the ledger, which is something all the clubs can not show from last year.

The secretary's report was presented by John E. MacPhee, who covered last summer's doings from a Cornwall viewpoint. Owing to the fact that there is a possibility of the lacrosse situation taking on a different aspect this year to what it has presented for the past few seasons, it was decided to have a committee named to select a list of officers for 1914, such committee to report to the club within a week or ten days, be ore which time it is not expected that league matters will take on a very definite form and leaving Cornwall in good shape to cope with conditions that may arise.

The committee is composed of Dr. W. B. Cavanagh, A. F. MacPhee, J. A. Cokers, J. C. Broderick and C. H. Barber.

The Central Y.M.C.A. boys paid a return visit to the Timothy Eaton Memorial Church last night to bowl and took two out of three games from the home team. The boys must have had stage fright from the exceedingly large number of ladies present, for they lost the first game by thirty-one pins. However they regained their nerve and came back and won the next two. After the game refreshments were served by the ladies At 10.30 a vote of thanks was made by the ladies of the boys, which was responded to by Mr. Rogers of the church. The Y.M. C.A. party was made up as follows: Dr. Frawley, Messrs, Jones, Chamberlain Dowdell, Fairhead, Melville and Earl On Tuesday night, March 24, the church team will invade the Central Y. along with the ladies, and a very enjoyable evening is promised.

The argument centred about the question whether those working under the present patronage system were as efficient as if they had specified their positions thru competitive examinations. The opposition took the ground that a non-partisant civil service commission with ample powers to appoint on a basis of merit would be preferable, and moved an amendment to that effect. Government would be preferable, and moved an amendment to that effect. Government members on the other hand referred to the excellence of the present administration, in which there was no whisper of the spoils system, and in which Lib

The premier, in his appearance, gives bother about the problem. The amendance ment was defeated by a large majority.

Dr. McQueen of Wentworth stated that since political organizations made recommendations, and these were followed by appointments, the influence of party was objectionable. Thus asylum superintendents were chosen without any consideration of their qualifications with the provincial departments as evidence of the cases of the two deputy ministers now in the service of the Ottawa government who had been recruited from the provincial departments as evidence of the service as a whole.

He quoted instances in the department of education to show that Liberals and Conservatives were equally favored, and in some cases Liberals were given preference.

He traced the evolution of the system, and showed that in Great Britain the reversion to a commission was doing wonderfully well, both by open com-petition and fearless scrutiny of appli-cants. Under a commission the relief of the minister from routine duty, and the selection of men on their merits im-proved the general effect of the civil service on the country, and gave a new viewpoint to the new-comers, who otherwise might feel that advancement with, but ministers of the crown were largely their brothers' keepers and should keep the fact in mind. They had brought the men out to this country under misrepresentation and they ame thru political affiliation

The Hon. Mr. Hearst, in reply, stated that this subject was a hardy annual, which apparently would die this year. Of the appointment of asylum officials he knew little, but who would deny that the general management had not improved? The argument of the opposition was academic; it fell down in practical application. The new idea was not fitted to Ontario because of the limited number of offices and the varied character of the appointments. It was ridiculous to think of bailiffs and jailers being examined for positions.

In response to a petition from the residents the Dominion Railway board sent Chief En-gineer Mountain to examine the crossing, and he pronounced it dangerous on the south boundary of the East River road. With township officials and others interested inspection was made and today an order issued to place an electrical signal at the cross ing and widen the road. The commission also ordered the Grand Valley tracks raised to the level of the L. E. and N. approach on the north side of the diamond. The new line is not to pass inspection until the work has been completed. The idea of the sub-way proposed was not entertained.

Sharp Reverse in the Price of New York Stocks Yesterday Brazilian and Others.

Action of C. P. R. and Brazils Reports Regarding Steel and Dominates the Market Trend at Toronto.

The Toronto stock market suffered another relapse yesterday, the down turn in Brazilians being as sudden as the advance the day before. Timid holders are evidently liquidating the shares, and the buying is not reducing the volume of floating stock. Traders prefer selling on all rallies for the present, and inside support only pre-vents heavier declines in the stock Steel shares were active, but did not

There is an impression abroad that the government may aid the steel and iron industry, and this had brought about a little speculative buying.

C.P.R. declined to 207 in New York and was a factor in weakening prices of many issues in this market. Mac-kay sold ex-dividend yesterday, and Tuesday's buying was attributed to short covering to avoid paying the

fore the Associated Chambers of Commerce, Sir Algernon Firth, president spoke highly of the Canadian railway commission, which settled the disputes About half the time would be saved However, it would be strongly opposed by many vested interests, not the least powerful being lawyers. In referring to Canada's prospects. Sir Algernon said there had been a slackening in the willingness of other countries to provide capital for further expansion, and a period of healthy cur-tailment of enterprises had ensued. "It is the fashion," he said, "to say Can-ada is going too fast, but with that I do not agree. The possibilities of the country are unlimited. The sums they must enable them very soon to dis-charge any obligations, and the need of the rest of the world for all prohigh prices, justifies the hope that the British investor Will not close pockets too tightly."

Copper Trade Were of Favorable Sort.

NEW YORK, March 11 .- The strong tone of the preceding session was lack-ing in the stock market today, and fluctuations were irregular. Attempts at the outset to extend the rise were checked by large selling of American Sugar and the eastern railroad shares Sugar and the eastern railroad snares Sugar fell to the lowest point since 1907. Reading, New Haven and New York Central developed heaviness. The whole list softened under the influence

of this selling.

Pressure diminished in the latter half of the day, and among the industrials there were numerous points of strength make much headway on the advance of Railroad shares, however, exhibited further weakness and the movemen-as a whole was an uneven one. Rock Island common at 4%, the preferred at 7%, and the collaterals at 40, toucher new low records. Western Pacific 5s one of the weakest of the Gould securitles, dropped 4 points to a low record at 59.

Industrial Coutlook Better. The improvement among the industrials was helped on by good reports from the iron and steel trade. Low priced copper shares were bought on indications of an increased demand for the metal, following publication of the strong monthly statement of the producers' association. Bethiehem Steel's annual report showed an in-crease of \$3,368,000 in gross profits sloss-Sheffield's yearly statement showed a gain in net of \$143,000. The weekly review of trade authorities however, said that current business in finished steel was slow, the amount of bookings in the first half of the

month having fallen considerably be low expectations. American Sugar's recent decline was explained by the sharp decrease in earnings shown in the annual report The gross profits for 1913 were \$3,303, 000 under the preceding year. Gossin of a possible cut in New York Central's dividend rate at this time was ended by the declaration of the regular dividend, on which the stock railied

IN CONDITION TO IMPROVE

For a week mining shares on the Standard Exchange have shown und immess. There are many buying orders in the market, but as these are prices, the effect of filling them has not yet been felt. With very little selling sure, conditions are favorable to a general advance, and one that may be car considerable lengths. Among the issues which have more merit than present indicate are Swastika and Dome Extension. We are prepared to execute order believing that they offer good speculative opportunities.

MORMON AGENTS AT WORK IN ST. JOHN

Report Says They Are Secretly Advancing Their Cause in New Brunswick.

ST. JOHN, N.B., March 11. - Once more come reports of Mormon missionaries or agents at work in St. John. The reports indicate a house-to-house MONTREAL, March 11—The tone of the market for cattle continues easy, but prices have a downward tendency, as supplies coming forward are far in excess of the requirements, the demand today being only for small lots to fill actual wants, and sales of choice steers were made at \$7.75 to \$8.25; good stock at \$6.50 to \$7.50, and common at from \$4.50 to \$5.50 per 100 pounds. The market for milch cows was also weaker, on account of the increased offerings, and prices have declined \$10 per head, with sales of choice milkers at \$90 to \$100, good at \$70 to \$80, and springers at \$50 to \$60 each.

The reports indicate a house-to-house visitation in the interests of Mormonism. In one case the agent rang the sought to sell a book on Mormonism, but the purchase was declined by the mistress of the house. However, that did not end the matter for a small booklet containing pamphlets was left with the maid.

In another case more persistence was reported. Entrance to the house was gained and a book sold. The family are Methodists. It happened that the birthday of the master of the house was approaching and his wife bought

LONDON, March 11.—Speaking to the prosident, spoke highly of the Canadian Rallway Commission, which settled disputes in about half the time they would be settled here. However, such a plan here would be strongly opposed by many vested interests, not the least powerful being lawyers.

Referring to Canada's prospects, Sir Algernon said there had been a slackering in the willingness of other countries to provide capital for further expansion, and a period of healthy curtailment of enterprise has ensued.

'It is the fashion to say Canada is going too fast, but with that I do not agree. The possibilities of the country are unlimited. The sums they are resourced another. A neighbor found downstairs.

A Spring Hat for One

There are fifteen hundred of them, some trimmed, some untrimmed, some specially for early wear, being of the modish taffetas and tagel straws.

They come from the wholesalers and consist of small lots of which it doesn't pay them to send samples with their travellers. So we simply swept them all in, and here they are, infinitely varied and offering splendid values for Friday. Not till you see them will you realize what this means. But, at

any rate, give yourself the chance to secure something at once desirable and most economical at a time when most things are regularly priced. Here are the types: 1-Paris and New York Productions from the most recent.
