BAVARIAN KING PREDICTS LONG WAR.

King Ludwig of Bavaria, on reviewing the cadets at Munich to-ay, according to The Lokal Anzeiger of Berlin, said: "The war will ast a long time, but we shall not rest until the enemy is beaten off the attlefield, and until a peace is secured that will protect us a long time ainst attack."

GERMAN CEMETERY TRAINS LOADED. The National Swiss today publishes a long letter from a Swiss ho is doing Red Cross work at Brussels. An extract from the letter ays: "The number of German wounded arriving here is unimagin-ble. Trains—which we call cemetery trains—full of piled-up dead aldiers continue to arrive from the front. They contain bundles of ead; that is, four bodies tied together to facilitate transportation. "The bodies are burned promptly in special furnaces erected just

tside Brussels."

WAITING FOR RUSSIANS.

Advices from Berlin state that the governor of the Marienwerder district has issued a proclamation intimating that a strong force of German troops is awaiting the Russian forces operating between Thorn and Soldau. A decisive battle is expected shortly.

BRITISH STEAMER ASHORE.

The Christiania correspondent of a news agency says that the British steamer Weimar, on her way from Archangel, Russia, to Leith, Scotland, ran ashore on Borre Island, off the Norwegian coast. All were saved and taken to Trondjem. Among them were twenty British officers who recently brought over a Canadian ice-breaker for the Russian Government. It is said the officers may be interned.

PRUSSIAN GUARD ALMOST WIPED OUT.

The remnants of the Prussian Guard, in conjunction with other troops, Saturday made a third attack on the British trenches to the south of Ypres. The onslaught proved a failure, and what was left of the former proud Prussian Guard was almost wiped out of existence. It is hardly more than a "corporal's guard" now. BOMBARDMENT KILLED 250 TURKS.

A despatch to the Exchange Telegraph from Athens says: "The Turks lost 250 men and two guns destroyed in the bombardment of the forts of the Dardanelles.

"The former German cruisers Goeben and Breslau, which now fly the Turkish flag, have re-entered the Bosphorus." PRINCE OF WALES TO THE FRONT.

War Machine Effective

"Whatever deterioration there may e in the material now being drafter be in the material now being drafter into the ranks of our enemy, it must be admitted that the Prussian war machine, acting on a nation previously inured to the sternest discipline, has obtained the most remarkable results. The Germans have, up to the present time, been able to make good their time, even able to make good their losses, to continue to deliver repeated blows with fresh men when required and where required, and to concentrate large forces in different directions. "It is true that a considerable pro-

portion of the masses recently thrown into the field against the British has consisted of hastly trained and immaconsisted of hastily trained and imma-ture men, but the great factor remains that these ill-assorted levies have not hesitated to advance against highly trained troops. In spite of lack of officers, in spite of inexperience, boys of 16 and 17 have faced our guns, have marched steadily up to the muzzles of our rifles and have met death in droves, without flinching. Effect of Discipline. "Such is the effect of a century of national discipline. That the men subjected to it are the victims of an

Its "steadfast determination to carry the war to a successful conclusion." Wider Publicity Urged.
Mr. Long, Mr. Healy and Lord Char-fes Berestord discussed the question of publicity and urged that the country should be given fuller details of the achievements of the troops in the field.
Witiam Henry Cowan, Liberal, pro-posed that Great Britain follow Rus-sia's example and prohibit the sale of liquor during the war.
Mr. Healy demanded greater liber-ality in dealing with the dependents of the soldiers. He said:
"We are not going to have crippled warriors in the workhouses again, or their dependents thrown upon the scrap leas."
In his closing speech. Premier As-outin placed the burden of the censor-ship on France and said it was neces-sary to defer to the wishes of the country which was doing the greatest part of the fighting, and where the dighting was being carried on.

SERMAIZE-LES-BAINS, France, Nov. 16, via Paris, 10.30 a.m.—This re-gional town of 2800 inhabitants before the German invasion is representative of what happens to a place in the path of the hostile army. There were 600 houses, and now a dozen bullet-scarred bulldings are standing. All the others have been knocked to pleces by shells or burned, mostly burned. Walls of brick or stone, constructed with old-fashioned care, burst by the heat, are tumbled in ruins across the streets. Some hundreds of chimneys stand starkly. As for the rest, there are left only irregular fragments of walls with vacant windows. Two hundred persons live in the dozen houses or in improvised shelters set up against some of the half ruined walls. Where are the others? A couple of hundred men answered the mobilization call pasted on the city hall on Aug. 1. Then the French army in retreat came thru and upwards of 2000 inhabitants, took flight, some by their own conveyances, others on the wagons of the army transport, and hundreds afoot, carrying packages and their small children.

The Tire That Won Its Way **Protects Thousands of Canadian Users**

There are two kinds of leaderships: One is merely nominal-conferred on untried quality; the other is the natural result of universally recognized merit, won and proven through actual performance.

THE TORONTO WORLD.

And the latter way is the way by which Goodyear tires have come to hold first place in tiredom-they have won on demonstrated ... merit.

Back of their reliability is serviceability. Back of that are master methods and equipment. Back of these again is the knowledge so vital to tire perfection.

True Balance

Every part of a Goodyear tire bears

Needless Troubles

And with their qualities of true balance, Goodyear No-Rim-Cut Tires offer four exclusive features which combat four major tire troubles:

Rim-cuts are utterly needless. No-Rim-Cut tires prohibit them by a method which we control.

at Lark's Hill. Seeing that a frosty-edged wind sweeps over Salisbury Plain almost daily, the members na-turally hall with delight the prospect colony.

Flain almost daily, the members naturally hail with delight the prospect of leaving tents for the more enduring habitations. Men from the west dan't mind the loneliness, altho they say Salisbury Plains beats Calgary for that, and at Lark's Hill they will be a bit nearer such company as the thatched Village of Thams, near Amesbury, can offer.
What they abuse most heartily is the English damp, says the correspondent of The Manchester Guardian. Nevertheless, they are happy under
sume his law practise in the coast colony.
The election of Mr. Morine is the more significant because he is recognized through the colony as a man of Canadian tendencies and a supporter of confederation. In this election appeal he based his claim solely on his personal record and was elected without giving any pledge except to act thonestly in the public interest. He stood as an Independent and replaces a member of the Fisherman's Union Party who two years ago polled the

spondent of The Manchester Guardian.

EARLY SETTLER OF GREY

Mrs. Donald M. Robertson passed away early Sunday morning at her residence. Chateau Grange, John st., in her 80th year. She was born at Lambton Mills, which were then own-ed by her father, the late William Falls, who came to Toronto as early as 1820, and commanded a company of militia which guarded the Bank of Toronto during the Rebellion of 1837. The late Mrs. Robertson was one of the earlist settlers in Grey County, near Meaford, to which neighborhood her parents with their family moved in 1848, and where she will be best remembered by surviving early plon-

bers who have voluntered for active service and are now at the front. The ballot will be declared at the annual meeting, to be held in St. George's Hall, on Saturday, Dec. 26, 1914. remembered by surviving early pion-eers, in whose trials and hardships she had a large share.

Unemployed Austrians to the num-ber of 217 are at present registered at the civic employment bureau, and their disposition is sorely puzzling the officials at present. The majority of the men are of the laboring class, and many of them have been out of work since the beginning of the war. Some of them will be able to take care of themselves during the winter, but the greater majority of them are at pre-sent in need and stand but little chance of getting work.

of getting work. The officials of the bureau are in a quandary, as they do not know what to do with them. The employers who are in need of men at present are loth to engage either Austrians or Germans, and are giving the English-speaking men the preference. It has been suggested that the Austrians be sent to a

Why You Should Buy Gloves Now

The Indian troops in France are said to be cons ming five or six thousand goats a day, and Grenoble sends word that there is bound to be a huge shortage of French kidskins due to this destruction of goats. It is easy to foresee that kidskins will be very dear. Besides this, most of the glovemakers are at the front, and production will be small. It is, therefore, a most prudent thing to buy all the gloves you'll need for Christmas and next year now. Our prices have not been advanced; last year's prices, in fact, are still the order of the day. Now is your chance-look at this list:
