The copy filmed here has been reproduced thanks to the generosity of:

Douglas Library
Queen's University

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Douglas Library
Queen's University

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Brockville

Nestles at the foot of the far-famed Thousand Islands, and only a few miles above the not less famous Rapids of the River St. Lawrence. It has a location which for beauty and picturesqueness is not excelled anywhere on the Continent of America. The original settlers were chiefly U. E. Loyalists, who came across the river into British territory after the War of Independence during the closing years of the eighteenth century, and hewed out for themselves new homes in the then unbroken wilderness. The population of Brockville is now 9,000, and it has the merited reputation of being one of the most up-to-date towns in Canada. The solidity that characterizes its commercial interests is evidenced in the substantial blocks of brick and stone, on the business streets, and

the many handsome residences testify to the comfortable financial circumstances of its people. The Grand Trunk, Canadian Pacific and Brockville, Westport & Sault Ste. Marie Railways, and the many lines of steamers on the river afford unexcelled facilities for tourists, while the numerous boats plying up and down the St. Lawrence during the season of navigation afford abundant opportunities for pleasure. The town owns an excellent system of water works, also gas and electric plants. The streets are wide and well made, while the sidewalks are granolithic pavement, clean and well kept. It has up-to-date hotels affording every comfort to the traveling public. The river shore above the town is lined with beautiful summer cottages for a distance of seven miles, taking in the pretty summer resorts of Fair Haven, Hill Crest, Fernbank, Pine Hurst and Union Park. The steamer "Brockville" makes hourly trips between the above points and the town, affording great convenience to cottagers. Besides the natural beauties which make Brockville a famous summer resort, the town is an ideal location for manufacturers. The railways mentioned above as well as numerous steamboat companies affording the best shipping facilities, while the New York Central Railroad is reached by car ferry across the river. Among Brockville's leading manufacturing interests are The James Smart Mfg. Co., the Ontario Glove Works, the Canada Carriage Co., the Union Hat Works and the Cossitt Agricultural Implement Works. The town is well protected against fire, having one of the best fire-alarm systems in Ontario.

These races are very interesting and exciting, each canoe carries a crew of fifteen people and are propelled by paddles. The American Canoe Association is composed of lovers of a path sports from all parts of Canada and the United States. These hold annual meetings of two weeks duration at places designated by a majority vote at a previous meeting. These meets are looked forward to with a great deal of interest. During the meeting small boats of every type are represented and engaged in contest for honors in the form of decorations. No cash prizes allowed.
