WONDERFUL EUCHARISTIC PARADE

HUNDREDS OF THOUSANDS WITNESS SPECTACULAR EVENT

50,000 WALK, FOUR HOURS TO PASS

Most Impressive Religious Demonstration Ever Attempted in the New World Brought to an End in Dusk of a Perfect Day.

NEXT THREE CONGRESSES TO BE HELD IN EUROPE

MONTREAL, Sept. 11.—(Special.)—The cardinal legate was seen at night by your correspondent and stated that the Montreal Eucharistic Congress has been the greatest gathering of the kind ever seen in the world, and that not only was the congress the most important event in the history of the Catholic Church in Canada, but perhaps through the world. His eminence will go to Ottawa on Thursday, calling on Mgr. Emard en route; after which he will be received at the capital by the ministers, and then the legate will go to St. Paul and thence to New York, sailing for Europe early in October. Owing to the brief time at his disposal, it is not the legate's present intention to visit Toronto.

It was announced here to-day that the congress will meet in Seville, Spain, next year; in Vienna in 1912, in Lyons in 1913 and four years hence it will probably go back to America, New York or Baltimore being the prospective place of gathering.

Fifty Thousand in Line. Never has such a spectacle been witnessed in Montreal as the procession of the Blessed Sacrament to-day. It is estimated that over 50,000 people took part in the procession, and that fully half a million witnessed it. People poured into the city from all parts of the Dominion and United States, and Montreal to-day was within its gates more people than it ever had before.

Some idea of the size of the procession may be got from the fact that it took nearly four hours to pass a given point. In the procession walked cardinals, archbishops, bishops, thousands of priests and sisters, besides members of the religious institutions, judges, members of parliament, mayor and aldermen, and thousands of others. The route of the procession, which was over the three principal streets of the east end of the city, was three miles long. The principal figure in the procession was the papal legate, Cardinal Vanvutelli, who carried the Host, the 68th Regiment of Montreal forming the rear.

As the Host passed thru the crowded streets thousands of people knelt in adoration. The procession passed off without accident or hitch, the weather being ideal.

Gathered from Dawn. From early dawn contingents and parishes were arriving from many parts of the United States and Canada. And during the morning hours the three churches of Notre Dame, St. James and St. Patrick's, as well as the many minor churches, were filled several times over with citizens and visitors.

At 12:15 p.m. the societies began to muster. On came the hosts, gathering in the streets and avenues, until miles of massed men who had at their centre the Cathedral of Notre Dame, stretched out and covered the City of Montreal. Everything had been outlined previously, and so it was in an orderly and systematic way that the different bodies departed, every one to its allotted place.

At 2:30 the hour appointed for the body to begin to move, people stood lining the entire route from Notre Dame to Fletcher's Field. Grand stands, twenty-five in number, were arranged at intervals, and ten choirs were stationed ready to play their part in the final setting of the marvelous event. Above, miles of roofs, steep and shallow, were filled with thousands of faces. At Cherrier and Rachel-streets stands capable of holding some twenty thousand had been erected, and here too every available spot was filled. Some climbed trees, and from these points of vantage viewed the glorious panorama stretched out before them.

At Fletcher's Field, thousands that will never be counted gathered at Fletcher's Field and the vicinity of the repository. Many had been there three or four mornings, taking luncheon with them, and securing places favorable to see and assist in the great ceremonies later to be enacted. At the time appointed for the start the blue sky shone above the dark great mountain, where in the highest levels some had taken position, and thousands sat or stood waiting for the coming of the procession.

From the moment when the first relays of mounted police came into view until the last ecclesiastic had faded from sight within the portals of the Hotel Dieu the time was five hours, and yet, through that entire length of time few grew impatient or uninterested. So varied were the ranks of the procession that attention never flagged. The thousands of men and the countless hundreds of banners, the variety of costumes and uniforms all helped to form a scene charming and wonderful.

Cosmopolitan Features. Societies were there from New York, New Jersey, Brooklyn, Toronto, Ottawa, Quebec, and all the surrounding parishes of Montreal, and from the

DROPPED IN FRONT OF CAR VETERAN POSTMAN KILLED

Strange Tragedy Near High Park Late Sunday Afternoon—Victim's Small Boy a Witness.

In plain view of his 13-year-old son, William Cummins, who has been employed for the past 25 years as mail carrier in Toronto, was instantly killed on Howard Park-avenue at 630 last evening by falling in front of a Carlton-car. The head was completely severed.

From the peculiar nature of the accident, Coroner Rowe will hold an inquest in the undertaker parlors of the E. Hopkins Burial Company at 3 p.m. to-day.

Metforman Geo. Roberts of 111 River-street, deeded to the police that the man left the south side of Howard Park ave., after leaving High Park, and started to walk diagonally across the street, approaching the car, which was entering the park. When right beside the car, Roberts says the unfortunate man dived under the wheels, just as a man might plunge into the lake. The little boy was too distraught to give any clear account of the affair, and remained hysterical all night.

Deceased lived at 142 Marguereta-street. He was 49 years old, and is survived by a widow and 5 children—three under three years. The little boy who was with him, is the second youngest.

He was born in England, but had lived in Toronto for 25 years.

57 MINISTERS HAVE QUIET

One by One—They Can't Raise Families and Do for 'Em on Salaries.

CHARLES CITY, Ia., Sept. 11.—When the Upper Iowa Methodist Conference convenes in Charles City this week it will find itself face to face with a decided shortage in preachers. Fifty-seven charges in the conference will have to be filled from a source not known at present.

Fifty-seven men, the greater part of them young men and but a few years out of the seminary, will quit the ministry at this time. The complaint is that the salary paid is not sufficient to maintain a decent standard of living for the minister and his family and to educate the children. The salaries average between \$400 and \$1200 yearly.

B.P. AT ST JOHN. ST. JOHN, N.B., Sept. 11.—(Special.)—Gen. Sir Baden-Powell arrived here to-day in connection with the boy scouts organization work. He will review the scouts from Nova Scotia and P.E.I. on the Dominion Exhibition grounds to-morrow afternoon, and will also address a citizens' meeting in the interests of the movement. He will leave for Ottawa to-morrow, and will sail for England in two weeks. The general said he expected to be in New York on Sept. 23 in connection with the boy scouts there.

USE ENGLISH TONGUE IF CANADAS TO BE WON

Significant Statement by Archbishop Bourne at Great Demonstration in Notre Dame.

MONTREAL, Sept. 11.—(Special.)—The immense demonstration at Notre Dame Church last evening lasted till midnight, and was a continuous stream of oratory, the representatives of the church vying with those of the state.

The feature of the gathering was a splendid address from the Archbishop of Westminster, who declared that, if Canada was to be won to the church it must be done by the English tongue, and he had not forgotten the part played in this country by the French tongue. The English-speaking west was filling up so rapidly that any other policy than the employment of English would end in disaster to those who wanted to bring Canada within the fold.

Henri Bourassa, while not exactly taking issue with the prelate from Westminster, stated that he was convinced that, if French was lost to the three millions French-speaking people here, that his religion is not to be played-out faith, for he had more confidence in the religion of the carpenter's son than that of the aristocracy of intellect.

Judge Sullivan of the New York criminal courts also spoke, saying that Canadians who educated their children as they desired were much ahead of their fellow religionists in the republic, but he also added that American Catholics would never approve of a system where religion was excluded.

The Bishop of Angers again declared that France had done a good service to the church by the separation, and that the church had made more real progress in the past two years than during a century before.

J. M. Teller, M.L.A., testified as to the faithful manner in which Great Britain had kept the compact by which she had granted the fullest measure of civil and religious liberty to the vanquished of the Plains of Abraham.

Ex-Judge Doherty said that they should not forget their non-Catholic brethren during congress week, and hoped that the lot of their neighbors would be a happy and blessed one.

SEE CHALLENGE IN OTTAWA CONGRESS

Protestant Views of the Eucharistic Demonstration—Rev. Dr. Robertson on Proving the "Real Presence" — World's Editorial Quoted.

The Roman Catholic Eucharistic Congress at Montreal was referred to from a number of Protestant pulpits in Toronto yesterday.

How to meet "the challenge of the Eucharistic Congress" to prove that the "Protestant religion upholds the 'real presence' of Christ, was the theme of Dr. Andrew Robertson last evening at St. James' Square Presbyterian Church. The sermon was distinguished by good evangelical logic, by no mincing of essential matters, and by courteous appreciations of Cardinal Vanvutelli and Father Vaughan, the latter particularly for his splendid courage in expressing his sincere convictions.

Dr. Robertson chose for his text St. John, xiv, 18-19, "I will not leave you comfortless; I will come to you. Yet a little while, and the world seeth me no more, but ye shall see me; because I live, ye shall live also."

"Note," said Dr. Robertson, "that Christ, observing how His disciples were grieving that the long companionship between Himself and them must, as they thought, soon come to an end forever, assures the apostles that His presence in the world will be real, and that they shall see Him with the sensual eye, as He were on earth in the body."

"Now, is there any part of the truth of the Christian religion which is not a clear case of cause and effect. If Christ's presence is real (cause), then, as Jesus meant it, the lives of men will show forth His real presence (effect). The texture of the gathering was a splendid address from the Archbishop of Westminster, who declared that, if Canada was to be won to the church it must be done by the English tongue, and he had not forgotten the part played in this country by the French tongue. DROP "QUEEN MOTHER" TITLE Unlikely Public Would Have Used Name Even if Alexandra Favored. LONDON, Sept. 11.—Queen Alexandra has given expression to her desire that the designation "queen mother," given her in the prayer book issued after the death of King Edward, should no longer be employed. As a matter of fact, had her wishes been to the contrary, it is almost ever would have been called "queen mother."

By the express wish of Queen Alexandra a lamp always is kept burning in front of the altar that stands at the head of the stone slab on which rests the body of King Edward.

INDUSTRIAL WAR IN ENGLAND

Reputation of Contracts by Unions Threatens General Disaster—Unrest Is Blamed on Socialists—More Power Needed for Board of Trade—Securities Depressed.

Britain's Industrial War

The northern shipyards, 20,000 workers, 12,000 now out on a national strike, 200,000 in the Lancashire cotton factories, 150,000 and ultimately 300,000. So that if the present disputes are not either looked out or on strike in a short time.

LONDON, Sept. 11.—(N. Y. Tribune Cable.)—The labor crisis impending in the shipyards, railways, mines and cotton factories affects the relations of the workmen and the trade union officials rather than the relations of the employers and employed. It is civil war within the unions and not an aggressive campaign against capital.

The locked-out boiler-makers, by a vote of 2 to 1, have thrown over their heads and have refused to empower the Federation by offering guarantees that breaches of the agreement shall not be repeated.

The employers, not having any responsible trade union leaders to treat with, will be forced to lock out 17,000 men in addition to the 38,000 already suspended. About twenty-five other unions are involved in the federated shipbuilding industry, and if there are fresh lockouts or strikes vast congregations of trades will be paralyzed.

There are signs of a similar revolt against the conciliation scheme adopted by the railway corporations and the Amalgamated Society of Railway Servants. Something like a deadlock has arisen between the Great Northern Railway and there are other indications that the railway servants dislike an agreement which binds them to keep the service about twenty-five other unions are involved in the federated shipbuilding industry, and if there are fresh lockouts or strikes vast congregations of trades will be paralyzed.

The various revolts, if the worst comes to the worst, will involve about three-quarters of a million workmen and cause a general prostration of industrial activity. The most obvious moral to be drawn from these labor

AVIATORS BAD SCOUTS

German Army Manoeuvres Prove Their Slight Defective.

LONDON, Sept. 11.—The first great practical test of the value of an airship for observation purposes was made at the German army manoeuvres this past week, and the result was complete failure or worse. The air scout of the Red forces was overtaken by a rainstorm and had to descend and yield himself a prisoner. The Blue vessel after observing the enemy's position all day returned with information which proved misleading and detrimental to its own side.

It is interesting to learn what ease a hostile commander succeeded in giving a false impression of the disposition and tactics to those who were spying upon him from 2000 feet in the air. He erected sham earthworks and conspicuous lines with trees trunk placed in imitation of canon while fixing his real entrenchments in another locality altogether.

The observers were completely deceived, with the result that their commander was betrayed into a waste of time and his plan of campaign seriously compromised.

NEARLY FLEW IRISH CHANNEL

Robert Lorraine, the Actor, Got Within Two Miles of the Coast.

LONDON, Sept. 11.—Lorraine, the actor, who during the last few months has developed into a daring aviator, had accomplished an aeroplane flight across the Irish Channel to-day. Starting from Holyhead, Lorraine directed his course to Dublin. Also he had trouble with his engine, he got within two miles of the Irish coast. The breakage of a wire then forced him to descend to the sea. He was ashore and his aeroplane was picked up by a steamer. The distance across the channel is about 55 miles.

BRITISH ARMY MANOEUVRES

Over 70,000 Men in the Field in Four Counties, at a Cost of \$1,250,000.

LONDON, Sept. 11.—The autumn army manoeuvres now in progress are Mr. Haldane's convincing defence of the efficiency of his system of re-organization. These have opened with the operations of two divisions and a cavalry brigade massed in two camps and numbering 30,000 men, in military warfare. The theatre of war will be enlarged this week until it comprises an area of 100 by 50 miles in four counties—Wilt, Dorset and Somerset—with 70,000 troops under arms. These manoeuvres, which rivalled annually in Germany and France, have never been approached in England in line of peace.

The reserves have rejoined their battalions in order to make up one division to its absolute war strength, and four divisions with cavalry brigades will be commanded by veteran officers. Three brigades of the territorial army will be mustered with the regulars, and all branches of the service will be brought into the field as the actual campaign were going on.

It is a thorough training for the regular and home guards, and it is costly. Not less than \$1,250,000 will be the extra expense of these manoeuvres. Full use will be made of the resources of England and science. Aeroplanes will be employed for carrying despatches, and wireless telegrams will be filled out with wireless messages.

The general staff has been allowed full play for proving that it is not behind the times. The Queen's Own Rifles of Toronto, Can., after a fortnight of training at Aldershot, will take an active part in the manoeuvres, and will represent with fine mettle the quality of the soldiers of the empire beyond the seas.

WAS DRUNK ON DUTY

In Consequence Train Was Derailed and Fireman Killed.

WINNIPEG, Sept. 11.—(Special.)—Because Towerman Leland at Woods Sliding on the C. P. R., seven miles east, was drunk on duty, the Kenora local was derailed, the engine, baggage car and three passenger coaches leaving the rails, and Fireman S. Pattison of Winnipeg was killed, while Engineer T. Elliott of Winnipeg was injured in the back and leg. Both men jumped. The passengers escaped with a severe shaking up. Pattison, who leaves a wife and child, had only moved here a month from Wort William. Leland is under arrest in the city jail, pending enquiry.

ATTEMPTED TRAIN WRECKING

Twice Saturday Night Ties Were Piled on Railway Tracks.

LONDON, Ont., Sept. 11.—(Special.)—Two attempts to wreck trains on the London and Port Stanley Railway took place on Saturday night. A Pere Marquette train ran into ties on the track. Meeting a M. C. R. train, the crew were warned, and when they came near the spot ties were again on the track. The police are investigating.

AUSTRALIA TO IMITATE

Regiment from Commonwealth to Be Taken to England. (Canadian Associated Press Cable.) LONDON, Sept. 11.—It is reported that the London visit of the Queen's Own Rifles has aroused admiration not unmixed with jealousy in Australia. It is understood that a prominent Australian will bring a commonwealth regiment to England in 1911.

Manager Orr Reviews the Results and is Quite Pleased

—New Fire and Police Station for Next Year is One Assured Improvement.

The Canadian National Exhibition of 1910 is over, closing on Saturday, with an attendance of 80,000 or 30,000 more than on the concluding day last year. What is more, the day showed, so Manager Orr says, the largest increase in cash receipts, recorded during the whole exhibition. The mayor's proclamation of a half-holiday aided by the natural loyalty of the citizens in supporting the big show, the ideal weather and attractive program of athletic sports proved a powerful combination, and Dr. Orr and the directors are in the most cheerful of moods as a consequence.

"I think the exhibition this year came nearer to being ideal than ever before," said the manager last night. "It more nearly approached what we are trying to make it in development of the best character. The exhibits showed an improvement in every way. I don't consider the weather all in all measuring the degree of success; we must take our chance on that. In every department there was a decided advance, and I think the public are of this opinion, because there was, with the exception of Labor Day, a percentage increase from the opening day."

Looking Ahead. Asked what the plans for next year were he said: "The feature should be largely the general improvement of the grounds and roadways, up-to-date fire equipment and police quarters, and lavatory accommodation. The matter of fire equipment is most urgent, and should come first. The old lavatory with the fire station and police station adjoining will be torn down, and a large, modern lavatory erected there."

"I don't think there's much chance of the live stock arena being built next year. It will cost about \$175,000, and until we are assured of an eastern entrance for the street railway, we cannot afford to build it. It should be accessible for public meetings, automobiles and other shows throughout the year, to justify the cost. Until the question of an esplanade is decided, the street railway plans must stand over."

Manager Orr said that nearly all the increase in receipts was in admission to the grounds. The gain in grand

TO HELP CLARA MORRIS

Friends Strive to Raise \$20,000 to Lift Mortgage.

NEW YORK, Sept. 11.—Blind, feeble from illness, deserted by those whose friend she was when they were needy, Clara Morris, twenty years ago the idol of applauding audiences, will be turned out from her home on Monday unless \$20,000 can be raised to lift the mortgage on her house in Riverdale-avenue, between Manhattan and Yonkers.

Headed by a man who never has seen Clara Morris off the stage, a company known as the Clara Morris Holding Company has been organized to save her house for her, and is raising \$15,000 toward lifting the mortgage of \$30,000 on the residence of the once famous tragedienne, but unless the remaining \$15,000, together with an additional \$5000 to meet interest, taxes, and assessments for some years to come, is secured, Miss Morris may be thrown on charity for support.

LOYD-GEORGE AND THE KING

Chancellor Said to Be a Favorite of His Majesty.

LONDON, Sept. 11.—(New York Times Cable.)—The announcement that the ancient custom of the investiture of the Prince of Wales at Carnarvon Castle will be revived next July may, in certain respects, be regarded as a personal triumph for Mr. Lloyd-George. It is surprising, although none the less true, that the chancellor of the exchequer, for whom a large number of King George's loyal subjects cannot find terms of adequate approbation, is a personal favorite with the sovereign.

Not long after his accession King George sent for the chancellor of the exchequer. He wanted to see for himself what manner of man was this Welsh solicitor who had set England by the ears. The King's interest was won by Mr. Lloyd-George at the first conversation, and other meetings followed, with the result—it is not too much to say—that the monarch has conceived a warm friendship for the chancellor of the exchequer.

POLIOMYELITIS CLAIMS ANOTHER HAMILTONIAN

Had Been Suffering From Disease Only a Few Days—Criticism of Father Vaughan.

HAMILTON, Sept. 11.—(Special.)—Hamilton had another death from poliomyelitis to-day. Mrs. Annie Ethel Radcliff, who had been suffering from the disease for a few days, passed away at 123 North Wentworth-street. The deceased was nineteen years and nine months old, and had been married five months.

After a lingering illness Emmett Burke passed away this morning at the residence of his mother, 17 Mulberry-street. The deceased met with an automobile accident some years ago, and was badly shaken up. This accident no doubt affected his health, and accentuated the complaint he was suffering from.

Trinity English Lutheran Church was formerly dedicated this morning by the pastor, Rev. J. A. Miller. Rev. M. J. Beiber, the president of the Lutheran Synod of Central Canada, preached the dedicatory sermon in the morning, and Rev. Dr. Atwater of Burlington spoke in the evening. A week of special evening services will be held, beginning to-morrow night.

Rev. Felix Taylor, pastor of St. Paul's Church, put up for a plea for a sabbath to-night. He objected to the library being closed on Labor Day, which was rainy, when thousands of men had to wander about with nowhere to go. He stated that all museums and art galleries, where men could have bodily rest while improving their minds, should be open on Sundays and public holidays.

Cathedral returned to worshipping in the cathedral this morning, after three months' absence, owing to redecoration that have been taking place in the building.

The thirteenth annual decoration service of the S. O. E. took place this afternoon at Hamilton Cemetery. Headed by the Salvation Army Band, five hundred members of the order marched to the cemetery, where Thos. Paradine, P.D.G.M., read the service. About 120 graves were decorated.

The new church on the corner of Stanley-ave., which will be occupied by the Herkimer Baptist Church congregation, was opened this morning. Prof. Trotter of McMaster University preached the sermon. Rev. Hugh McDermid, the pastor, announced that the church had cost \$9000, nearly all of which had been subscribed. He expected the balance to be collected this week.

J. Genevivo, 245 North Bay-street, will be summoned to the police court to-morrow as a result of a visit to his premises to-day by the license inspector and Constables Campaign, Sen and Thos.

Rev. W. H. Sedgewick, pastor of Central Presbyterian Church, took exception to the structures passed on the Protestant Church by Father Vaughan, S.J., in Montreal recently. He said that he thought the intercession of saints could avail nothing more than the intercession of Jesus Christ, in which the Protestants believed. The central act in the Roman Catholic religion, Father Vaughan had said, down to the sixteenth century was the mass. Protestants, said Mr. Sedgewick, believed that the central act in religion down to that time was Calvary.

STILL PLAY LACROSSE MANY GAMES SATURDAY

Toronto Capitals Defeat Galt 11 to 7—Two Games at Island Stadium.

In the first of the home and home games in the semi-finals of the Juvenile Capitals of Toronto beat Galt 11 to 7, giving them a four-goal lead to take to Galt next Saturday, Sept. 17. The game was played in Jesse Ketchum Park before a small crowd and was fast and exciting all thru. In the first quarter Galt started with a run and scored two goals. Toronto, however, scored four in a row. The half time found the score 7-4 and at the three-quarters the north end kids were leading 9-5. The final period saw the fastest lacrosse of the day and each team bulged the net twice. The teams: Galt (7): Goal, Givens; point, Dennis; cover-point, Clark; defence, Marshall, VanEvery, Troosman; centre, Lucklow; home, Turnbull, Adair, Crooks; outside home, Brown; inside home, Hogan. Capitals (11): Goal, Johnston; point, Chapman; cover-point, Dwan; defence, Baker, Fraser, McLean, centre, Karn; home, Marshall, Ingram, Tittle; outside home, Little; inside home, Murphy. Goal and it sure should be some game in Galt when these two teams meet again. Capitals will practice on Monday, Wednesday and Thursday nights of this week in Jesse Ketchum Park.

Montreal 12, Shamrocks 4. (Special.)—Montreal defeated Shamrocks to-day in the final N. L. U. game of the year, 12 to 4, before a small crowd.

Montreal was short R. Finlayson, Dada and McKerrrow, while Shamrocks had their regular line-up, except Gillingham. The teams were: Shamrocks—Goal, Muir; point, Dillon; cover, McCarthy; defence, Barry, Roch-Tobin; centre, Fowers; home, Munday, George; outside, McInnes; inside, Keegan. Capitals (12)—Goal, Brennan; point, G. Laydon; cover, Aspell; defence, Miller, McCrean, home, Fred Scott, J. Laydon, H. Scott; outside, Hogan; inside, Roberts. Referee—St. Fer.

Judith of the Forum. Montreal took an early lead by scoring two goals in the first five minutes. Laydon scored the first in 1:45 and Henry Scott the second in 2:10. Munday broke the ice for the Shamrocks in 3:25 and for the remaining half of the quarter there were not more goals scored.

Second Quarter—Both teams broke even in the second quarter, although the Irishmen had a share of the better of the game, their home was not as effective as that of Montreal.

Scott scored the fourth goal for Montreal in 7:55. Hyland the fifth for Shamrocks in 8:15. McIntyre sixth for Shamrocks in 8:35, and Robert seventh for Montreal in 8:55. George and Munday were laid out for a few minutes, and Galt got a freewalk penalty.

Montreal 4, Shamrocks 2. While the Shamrocks again had a 1-0 lead, the better of the play in this and the second quarter, they could only score once, while Montreal netted the rubber twice, making the score 6 to 4 in their favor. With 20 minutes to play, Milroy and Fred Scott scored the eighth and ninth goals for Montreal, and Hyland the tenth for Shamrocks.

Montreal scored six goals in the final quarter and Shamrocks failed to net the ball. Final score: Montreal 12, Shamrocks 4.

St. Kitts Beat Tecumseh Amateurs. Two lacrosse games were played Saturday at Hamilton's Point. St. Catharines walloped Tecumseh's C.L.A. team by 5 to 1, and thus won The Globe Shield and Mann Cup. A good crowd saw the game, including an excursion from St. Kitts. Teams as follows: St. Catharines (5)—Goal, F. Dixon; point, Carl; cover, Harris; first defence, Brown; second defence, Parks; third defence, Stitzler; centre, Hyland; home, R. Armstrong; outside home, Pann; inside home, J. Coulter.

Tecumseh's (1)—Goal, McLean; point, Burton; cover, Gilbert; first defence, Purvis; second defence, King; third defence, Ramshaw; centre, Beaton; third home, Gordon; second home, Wallace; first home, Calder; outside, Winter; inside, Boehm; field captain, Hancock. Goal umpire, McKinnon and Baird. Referee—Keane.

Curtains for the Home

No matter whether your home is a palace or a modest cottage, we have the appropriate Curtains for it. Filmy lace or scrim for period or mission schemes, tapestry, silks and cretonnes in numberless patterns and colors for doors, and equally varied materials for the upholstery of chairs, seats and cushions. These and the accessories for their use form the stock of this wonderful section. On Tuesday ask to see the following:

Nottingham Lace Curtains—50 and 54 inches wide, 3 1/2 yards long; in white or ivory; have many new and charming designs; the extra quality laces; made from best grades of cotton; the even weave, perfect finish and stout Colbert edges render these serviceable as well as decorative window hangings. Per pair, \$1.50

Arabian, Brussels, Swiss and Olney Curtains—50 inches wide; 3 and 3 1/2 yards long; come in white, ivory or linen colors, with a nice range of styles in each of the different makes; the nets are of good quality, and all are carefully finished by hand; styles and designs are shown suitable for drawing-room, dining-room or den; an extra good curtain at a medium price. Per pair.....\$5.00

Curtain Scrim—36 and 40 inches wide; printed on one or two sides; presents a great variety of color combinations, matching any room; new goods, in many pleasing designs and patterns; have borders on each side in some cases; for so inexpensive a curtain material this scrim is exceptionally pretty. Women's Fall Suits, at \$17.50

Four Distinct Styles Offer a Wide Choice in Material and Design

The coat and skirt illustrated represents one of a quartette of pleasing designs at Seventeen Dollars and a Half. All are plain tailored, and exemplify in convincing manner the seasonable demand for straight lines. The suit depicted is of all-wool diagonal cheviot, the coat silk lined, and the skirt, being fashioned with invisible pleats below the hobble band, affords the wearer the necessary freedom in walking, at the same time preserving the modish narrow effect. The military braid and buttons on the collar contribute a smart finishing touch.

The three remaining designs offer an option in the way of material, being composed, respectively, of pearl stripe Venetian, fine diagonal cheviot and fine French serge. A variety is also provided in the way of skirt treatment. Choice of four styles at.....\$17.50

Women's Fall Coats, \$10.00

A Choice Provided of One Dozen Distinct Styles.

Evolution has wrought happy changes in the long cloth jacket. Once a garment in which warmth was the only pleasing attribute, it is now a medium of style, careful tailoring and harmonious coloring. That it is possible to secure a choice of one dozen designs at \$10.00 is due to our manufacturing facilities.

The coats in this collection are full length, and represent in the showing the various semi-fitting, close-fitting and loose back effects, in current-vogue. The materials are wide wale serge, beaver cloth, grey barred tweed, and fine, lustrous broadcloth. Very specially priced.....\$10.00

Alaska Sable Muffs, \$10.50

The elevation of Alaska Sable to a place of marked distinction among fashionable furs is a fact so well established as to require but scant emphasis. That it should be selected as trimming for ermine, seal, Persian lamb and other furs of time-honored worth is uncontrovertible proof of its high standing. That an Empire muff in natural Alaska sable is obtainable in the Women's Fur Section at \$10.50 should likewise serve as a convincing proof of the prevailing moderation of price in that department. The muff is lined with brown satin and equipped with wrist cord.

Carpet Values Tuesday

To collect the stock and keep down the prices is the task we set ourselves. To watch for your own particular rug or carpet as the show passes is your part in the great carpet distribution. We have provided extra good carpets for Tuesday's selling, and feel sure that the time has come for you to buy, for the prices are far lower than what you would expect to pay for the splendid qualities.

Tapestry Square Prices are the result of several circumstances. The squares are the cream of the surplus stock of a great British manufacturer. We are sacrificing the usual profits to a great extent to clear them quickly, and other goods are crowding them close for space. The opportunity is a fine one even on our floors—

7 1/2 x 9 feet, \$3.87; 9 x 9 feet, \$4.87; 9 x 10 feet, \$5.87; 10 x 12 feet, \$7.87; 12 x 12 feet, \$8.87; 12 x 13 1/2 feet, \$9.87.

Tapestry Carpets at 67c is another lot bought at the manufacturer's clearing price. The figure set for Tuesday is so close and so low that it scarcely seems to be worthy of the beautiful materials.

The carpet is all 9 and 10-wire goods, and you will be delighted with the quality as well as with the color range, which includes reds, greens, fawns and browns, in a profusion of widely varied patterns; every feature is in your favor Tuesday. Per yard.....67c

Pastor Russell's Sermon

"WHICH IS THE TRUE GOSPEL?"

Text:

"I am not ashamed of the gospel of Christ."—Romans 1:16.

PORTLAND, Me., Sept. 11.—The International Bible Students' Convention in session here with an excellent attendance and deep interest manifested. Pastor Russell of Brooklyn Tabernacle delivered two addresses to-day, one being in Jefferson Theatre. We report one of them from the text foregoing.

Three weeks ago to-day Christendom was startled by a communication which announced that the Christian Alliance had lifted a collection of \$60,000 in a few minutes—\$300 in cash, the balance in promises. Then followed the startling announcement of Brother Simpson, its president, that the collection lifted would probably be the last at Old Orchard, because the Camp Grounds' Directors had voted its dissolution for three days for the use of our Association. He declared that he disagreed with our theology. This, of course, was a well-thought-out thing, for the directors of the camp would not break their contract with the Bible Students. This they promptly did, and we accepted back the money paid in advance rather than go to law. It is for this reason, dear friends, that we are having our convention "outside the camp." We are glad that the fence does not separate us from our great Redeemer and Teacher, the joy of whose blessing I see in your faces.

Secular editors were astonished! They had been congratulating Christian people that the days of the rack, the thumb screw and the stake were coming again for the Christian Union which, it was hoped, might even ultimately include all denominations of Catholics and Protestants. Yet here they had to listen to the contrary—a suggestion that Christian people in alliance were so opposed to Bible Students that even a year would not be sufficient to purify the air of Old Orchard and to permit them to meet here next year to take up another collection. It seems funny, too, to these editors that anything could drive a Christian Alliance meeting away from a \$60,000 collection!

Since Brother Simpson may not care to tell the whole truth about the matter and since the Christian public is interested and ought to know the facts, I must tell them. The unpleasant duty, however, will not necessitate my saying an unkind word concerning Mr. Simpson and the Christian friends who are in alliance with him.

There are two reasons why Brother Simpson thought it doubtful if he could come next year following our three days of this year.

(1) He knew instinctively that his collections would be smaller, hardly worth coming for, if the people should begin to get the eyes of their standing more widely opened respecting what really constitutes the gospel of Christ.

(2) The \$60,000 "raised" was not cash and a large proportion of it never will be. Some of it is promised over and over again and telegraphed over and over, as was the case with the young woman who in the spectacular manner offered her jewels from time to time and had it mentioned in the papers. She repeated of charitable work as considered entirely proper by those in connection with religious work in various denominations, "for the good of the cause." Subscriptions are given publicly without hope of payment, and these others who are more sincere—some of whom in the excitement give more than they can afford.

This same method is illustrated in the Chicago Stock Yards. A fine large trained bull is brought to meet the cattle designed for slaughter. He waits before them and becomes their leader. Following him in a grand rout he a narrow passage they crowd one another to the executioner, who knocks them senseless. A special place just large enough for himself is provided for the decoy bull, who later goes out to lead another herd to the slaughter.

We do not mean to say that those all those thousands of millions who are otherwise injured. We believe that they are blessed—that everyone is blessed who sacrifices anything heartily to the Lord or to what they suppose to be His service, whether it is money. It is the method of getting the money from the people and the deception practised which we deplore. How, then, the Alliance has plenty of company in this method in larger Christian denominations. It is part of the "business" method of recent years. Some who did not understand this "business" method wondered where all the money apparently contributed to the "Christian Alliance" work was spent. An investigation of its financial accounts was made, which revealed the fact that they were chaotic, and other "business" methods were advised.

Some one may enquire why the Christian Alliance should fear us and whether or not we may have ever done them harm. We reply, never have we injured them in the slightest degree, nor even publicly mentioned their name before. Their opposition to us is on the lines of general principles mentioned by the Great Teacher. "The darkness heathen the light." "All things that are revealed are made manifest by the light" (Ephesians 5:13). Our work is to proclaim the true gospel—to incite Christian people to Bible study in the light of the Bible's own testimony and without sectarian spectacles, which, in the past, have so distorted the word of God and set it forth in false colors.

As Christian people come to see the grossness of the errors by which they have been blinded, the light not only has a blessed and transforming effect upon their minds, but it influences their pocketbooks also. They no longer appreciate the "business" methods of the alliance nor the brand of gospel which it sets forth. The more God's people come to a direct understanding of the teachings of His word, the smaller will be the collections of the Christian Alliance. That is the real secret of their opposition. I would not take up another collection at Old Orchard! The heathen have already had too much of their gospel of damnation. God's name has already been slandered and blasphemed enough by the false gospel message—that nine hundred and ninety-nine out of every thousand of humanity ever born are to suffer eternal torment because of their Adam's sin and the ignorance, stupidity, it shall die." Adam, the perfect, was speeded on his way to life, death and death eternal. He sinned and the sentence against him was, "Cursed is the earth for thy sake; thorns and thistles shall it bring forth to thee. The sweat of thy face shalt thou eat bread until thou return unto the ground; whence thou wast taken" (Genesis 3:17-19). St. Paul declares the same: "By one man's disobedience sin entered into the world; and thus death passed upon all men, because all are sinners" (Romans 5:12).

Everybody knows that the word gospel signifies "good tidings." And everybody ought to know that, as Christian people, we have for centuries misused the word, applying it to the bad tidings of great misery to all people, except the mere handful of the elect. We did this because it was handed down to us by our forefathers. What Jesus said to the Jews has been true of us as Christians. "Ye do make void the law of God thru your traditions." Thank God that, as in the natural world He is sending us now the electric light instead of the tallow candle, so thru Bible study helps, concordances, etc., His word (the lamp to his people's footsteps until the day dawn) is now shining brighter than ever before.

Catholic and Protestant orthodoxy have set forth for centuries two general views of the gospel of Christ. To whatever extent they now disagree with these they should publicly disown and abandon them. Until then they are besmirched with whatever odium attaches.

The Catholic gospel (good tidings) is that all the heathen, all Catholics and all Protestants, except a mere handful, go to a purgatory of awful suffering, terrible anguish, lasting for decades, centuries and thousands of years, roasting, boiling, scorching and thus purging away their sins and dross that they may ultimately attain the heavenly bliss for the remainder of eternity. If that is good tidings it can be considered such only in contrast with something more horrible, if that be imaginable.

Our Protestant gospel, of which we are so proud that we want to thrust it upon Jews and Catholics and heathens everywhere, we should thoroughly understand, enjoy and appreciate before we waste good time and money giving it to others. Here it is: Four centuries ago our forefathers were not Protestants but Catholics and believed in purgatory, etc., as above. Then what was known as the reformation movement set in. Catholics, Jews and infidels will admit with Protestants that a great blessing of enlightenment and civilization has come to the world in the train of the reformation movement. But none of us is prepared to admit that the reformers were perfect, nor their work perfect.

The reformers criticized the Catholic teachings which they had formerly believed. They examined their Bibles and found nothing there to support that which was the mother of God, nor that we should pray to saints, nor that we should use pictures or images in our worship, nor that their sacred Christs in the mass was proper, nor that there was a purgatory anywhere. The reformers threw out these things as unscriptural. They completely demolished purgatory in their minds, and declared that it had never been anything more than imagination. Then came another thought, viz., What must we do to get the thousands of millions of mankind that we and our fathers for centuries supposed were in Purgatory roasting, stewing, boiling, scorching and suffering, and that we had a responsibility for the weight of their souls? They looked at one another in consternation, felt that as it had evolved upon them to smash Purgatory, it must also devolve upon them to re-locate also thousands of millions whom they had on their hands. They felt the weight of the responsibility. They demanded of God that they should get heaven? Surely not! Surely only the saintly few are fit for heaven! They, as well as all blank cognized that fact. When, with blank faces, they determined that they must crowd the entire mass into a hell of eternal torture and shut the gates upon them forever and ever upon "who enters here abandons hope."

Taking from practically all humanity the faith which had been the Reformers for the time being. It would be awful to do that for one person, but to thus do it to all humanity seemed a better thing. They decided to label that gospel "Good Tidings" must certainly have been a trying experience for the Reformers.

But Brother John Calvin helped them amazingly and took from them their burden. He told them that they should not worry, because it was God's fault and not theirs. God had predestinated them to that awful future long before He created man. Now they should merely try to think of themselves as the "elect" with respect to the other side. Of course, it seemed horrible to charge all these things against the God of all Justice, Wisdom, Love and Power. But it was the only solution which occurred to them. John Calvin's theories were afterwards embodied in the "Westminster Confession of Faith." And this confession of faith became the foundation of nearly all Protestant creeds. Brother John Wesley afterwards objected, but admitted that, only the saintly went to heaven and every body else went to eternal torment. His protest was that, instead of this being by divine foreordination and intention, it was on the contrary, because of divine unwisdom and incomprehensibility.

Surely no sane person can any longer defend any of the above "Gospels" as the true one, of which St. Paul was not ashamed! Surely St. Paul never preached any of those gospels, nor did any of the apostles—nor does the Bible support such theories, except by the turning and twisting of language, misstatements of the original and misinterpretations of some of the plain statements of the Scriptures used all directly to the opposite.

Everybody who is not dead is dying, as the Bible says, we are living under a reign of sin and death. Nothing that man can do can save either his soul or lift us out of our dead and dying condition. God alone can help us! He proposes to help us and the message regarding that help is in the Scriptures, called the gospel. Its announcement by the angels on the night of Jesus' birth is full, complete, satisfactory. "Behold, I bring you good tidings of great joy which shall be unto all people: for unto you is born this day in the City of David, a Saviour, who is Christ the Lord" (Luke 2:10).

Ah, now we have the truth! The penalty of sin is death. And the "good tidings" is that God has provided for our recovery from sin and death. The Saviour gave His life for the cancellation of our sin, for the satisfaction of justice, that in due time Adam and all his condemned and imperfect race might be released from the condemnation and lifted out of the sin and death conditions which now prevail. That uplifting is Scripturally called the resurrection of the dead. Hence the resurrection of the Saviour, the Redeemer and His work.

The good tidings for the race in general is that the Redeemer in God's due time will become King of kings and Lord of lords—the Messiah of glory, God's glorious representative. For a thousand years the regenerating work of Adam's race will progress (Matthew 23:35; Acts 11:18-23). God's Chosen People, Israel, will be the earthly agents of the heavenly and invisible King of kings and Lord of lords—the whole earth will have been transformed into the Paradise of God. "He will make the place of His feet glorious. And he will be like the perfect again, in God's image. There will be no more sin, no more sickness, no more dying, because all the things of sin and death will have passed away and he who sits upon the throne will have renewed all things (Revelation 21:5). All who, after coming to a full knowledge of the truth and God's love and gracious provision, still love sin and hate righteousness, will be destroyed in the second death, from which there will be no redemption. They will be like the covary; as St. Peter says, "They shall perish like brute beasts."

MASS IN THE OPEN AIR SCENE OF GREAT SPLENDOR

Saturday's Spectacular Events at the Eucharistic Congress—Pontifical Mass at St. Patrick's.

MONTREAL, Sept. 10.—(Special.)—As the days of the congress succeed one another and the incidents and circumstances which go to make it up unfold rapidly before the eyes of those witnessing or taking part, language almost ceases to describe in anything like adequate terms the effects and brilliancy produced. Stupendous, colossal, magnificent, wonderful, these and countless other adjectives have been used threadbare, and yet nothing like justice has been done to the magnitude of the occasion.

To-day the weather has at length cleared, and blue as the mantle of the Queen of Heaven herself, the canopy of the firmament smiles kindly on the multitude of its hosts of visitors.

A Day of Events.
This is a day of events, not that this is exceptional during congress week, but still the events are perhaps larger even than usual. At St. Patrick's the pontifical mass, to which, even thru the vista of the previous days, the Irish portion of the communion opera series, is said to have been deferred, and which had got him to overlook all his estate to her.

General.
Aviator Cruise Willows Saturday flew from Crystal Palace, London, to St. Paul's Cathedral, which he twice circled, while 200,000 people watched him.

Distinguished Visitors.
Dr. E. McKenzie Johnston, P.R.C.S. E. of Edinburgh, arrived at the Queen's suiting surgeon of the Edinburgh Royal Infirmary, is one of the eminent authorities of Great Britain on diseases of the nose, ear and throat.

C. White Mortimer, British vice-consul at Los Angeles, is registered at the Queen's Hotel, and is a resident of Toronto for many years, and has a number of old friends in the city. He is accompanied by his wife.

The Right Hon. Richard Robert Cherry, K.C., LL.D., of Dublin, attorney-general for Ireland, is registered at the King Edward. He had a notable university career at Trinity College, Dublin, where he obtained highest honors in mental science and history, political science, jurisprudence, Roman law and international law.

Personal.
Thomas Kenney of Odessa, Ont., for many years a resident of Toronto, at the Clyde Hotel, was here, as usual, assisting Lemmon Bros. of the Clyde, during the rush of visitors to the exhibition. Mr. Kenney's old time friends, and there are many of them, were pleased to see him at the old post once more.

purple, and, lastly, Cardinal Privarive of All Ireland, Cardinal Logue, who sits in the very chair of St. Patrick himself. The immense length of the cardinal's train was borne by little pages, and, as the cardinal took his place upon the throne within the sanctuary, his venerable presence was recognized as a great joy by all present.

The celebrant of the mass was His Grace Archbishop Howley of St. John's, Newfoundland, and Archbishop Glen amongst the youngest bishops, and the most noted preachers of the hierarchy.

A Definition of Protestantism.
One of the points of his sermon this morning was what he referred to as a definition of Protestantism. He declared that Protestantism for a while past, and for half a century, has been outside the Catholic faith of churches "cold and lifeless," where there was no altar nor light, and "sheep that were led by the blind shepherd, and as blind leading the blind."

The Open Air Mass.
Meantime at the foot of the mountain a great scene was in progress. His Grace referred to by Bishop Bruchesi had gathered. On they came in their numbers, until they covered the great area before and around the altar, and for half a mile they were piled up, and that to-day they had the spectacle of the cardinal's train, and the altar nor light, and "sheep that were led by the blind shepherd, and as blind leading the blind."

The Tartans of Scotland.
An item of the eucharistic convention that attracted a good deal of attention in musical circles was the exhibition given at St. Patrick's Saturday afternoon concert by the choir of St. Paul's Cathedral, Pittsburgh. The well-balanced body of singers gave illustrations of the Gregorian chant, and were particularly choice in their selections from the works of the composers of the 16th century.

Archbishop Bourne's Address.
In his address to the women in Stanley Hall, Archbishop Bourne of Westminster dwelt on the systematic work of work amongst women, as helpers in the needs and carrying on of church energies. The local press, commenting on the address, said the remarks of his grace were full of good pointers, irrespective of creed or sect.

In his introduction Archbishop Bourne said: "I feel that it is a great honor, and at the same time a great privilege to have been asked to address the ladies' meeting at this congress, because I know perfectly well how much the Catholic Church owes to the Catholic ladies. I do not know how we are to get on without them. I am afraid that in many places, unfortunately, not so much in England as on the continent—churches would be found practically empty but for the ladies."

His grace told of the work of the women of London amongst the poor. "Thanks be to God," he said, "you do not know here the depth of poverty which obtains in England."

Referring to the many ways by which the church provides avenues for women's activities, Archbishop Bourne said: "I think perhaps you will agree with me that the Catholic Church is able to fit women for any circumstances in which they may have to live in the future. God forbid that circumstances should ever be such as to take away from them the gentleness and charm of every womanly character, for women who are devout are the very salt of the earth; they can go in and out in paths which others may find difficult, and go unscathed."

Some of the Addresses.
The following were amongst the papers discussed at recent sessions: The Priests' Eucharistic League was dealt with by Rev. E. Polier, S.S., of New York. Rev. EAST PARALLEL ROAD IS NOW COMPLETED

North Toronto Adds Another to Its North and South Highways—Big Crowds in Suburbs.

NORTH TORONTO, Sept. 11.—(Special.)—North Toronto may fairly congratulate herself on the splendid progress which has been made with respect to the opening up of the eastern "parallel road," the work having within the last three or four days been rounded out and is now open for foot and vehicular traffic.

The road now opened up and running parallel with that great highway Yonge-street and to the east less than half a mile is the full regulation 66 feet wide and will add enormously to the value of property throughout the town in general, while immensely facilitating traffic between the southern and northern portion of the town.

No man deserves better at the hands of his fellow townsmen in this connection than Councillor Frank Howe. Early and late in season and out of it Frank has plodded along on this parallel road scheme and will not be a source of wonder if the chairman should display a little pardonable pride in its completion.

Nearly all the ministers have returned to town and to-day occupied their respective pulpits.

Chief Constable Collins is somewhat indisposed. What the chief wants is a six weeks' holiday trip.

The delightful weather of Saturday drew a number of the real estate buyers to the northern suburb, and while no special boom is in evidence some fine residential sites are being quickly acquired.

On Sunday, Sept. 12, the Davisville Epworth League will hold a special service. The service is expected to be a most interesting one.

It was an ideal day. Sunday was an ideal day in the county and thousands from the city took advantage of the occasion to enjoy a delightful stroll through the tax suburban districts, inhaling the pure air and reveling in the warm sunshine.

On the Mimico and Long Branch lines hundreds went out, dropping off at the many beauty spots along the lake shores or wandering up into the rural districts or in the woods.

"A wild, laughable show" is the manner in which The New York Globe characterized the musical comedy, "The Lottery Man" at the Bijou theatre the early part of December, 1908, when this play by Aldrich and the musical score by the Messrs. Schubert with Cyril Scott at the Star. The piece, after having enjoyed a season's success, is now being presented at the Star Theatre.

Early attractions at the Princess are "The Traveling Salesman," next week; "The Girl From Rector's," and Mrs. Pike in "Becky Sharp," and "Pillars of Society."

Thomas E. Shea opens his engagement at the Grand this evening, presenting his new play, "A Self-Made Man." The arrangements for the play are of the highest order.

Odie, the Samoan Diving Queen, will head one of the biggest bills of the season at Shea's Theatre this week. The watermanship of Odie is the most wonderful, graceful and daring ever presented on any stage.

There are several feature turns on the vaudeville bill at the Majestic Theatre this week, the headliner being Mlle. Walker, the pantomime dancer, who is assisted by the famous Walker troupe of comedy cyclists.

In order that all may have an equal chance to secure good seats for Madame Melba at Massey Hall on Wednesday, Sept. 12, there will be no subscription list. Mail orders from out of town will receive careful consideration.

Reserved seats for the Melba concert at Massey Hall Sept. 21 will be on sale at the Bell Piano Warehouse, 146 Yonge street, on Thursday morning.

A beauty chorus of twenty is one of the widely advertised attractions of "The Brigadiers," programmed for appearance at the Star Theatre, commencing with a matinee to-day. Upon Wm. Mauley, Alf. Bonner, Francis J. Chick and Wm. McCoy rests the responsibility for the fun-making.

STOCK MARKET SHOULD RESUME A MORE NORMAL ACTIVITY.

Henry Clews says in The Weekly Financial Review:

A somewhat better undertone appears to be developing in the stock market, and this in spite of important uncertainties. Doubtless the benefit of the rest cure is at least making itself felt. After a period of prolonged liquidation and inactivity, confidence has had some chance for recovery. Weak spots have been well eliminated, and wide observation proves the situation to be much sounder than at any time during the last eight months. One most encouraging factor is continued good crop weather. Corn, the price of which has been making excellent progress, and the outlook is now for a bumper yield, the outlook being that the season is fully two weeks or more late. Cotton also is doing better, but likewise has to contend against lateness of the season. Idiotisms continue to point to a money value in crops about equal to that of last year, or \$7,500,000,000. It is remembered that this sum is greater than the capital stock of all the steam railroads in the United States. The fact that the crop is so important of good crops as an element in our material prosperity can be readily appreciated.

Now that vacations are over, the stock market should resume more normal activity. In the absence of extraordinary developments the market would probably respond more readily to an upward movement than a downward. Good investments are selling at very low prices, and there is no doubt an abundance of capital being awaiting investment when confidence begins to revive. There has been a marked falling off in the supply of new securities, and this also must have a favorable effect. Altogether the outlook is not by any means entirely clear, still there is a tendency to turn away from pessimistic leaders and follow those of a more hopeful tenor.

IRISH MISSION TO AMERICA

T. P. O'Connor says it is the most important since days of Parnell.

LONDON, Sept. 11.—T. P. O'Connor, who was formed seated with the staff of his new publication, which is to appear in October as "T. P.'s Magazine," was interviewed with reference to the coming mission to America of the Irish party, of which he is a member. He said: "The chief figure of the mission will, of course, be John T. Redmond, the leader of the Irish party, and he will be accompanied by Joseph Devlin, P. secretary of the United Irish League in Ireland, and Daniel Boyle, member for North Mayo. The party will be in America from Sept. 17 to Sept. 25. It is the first mission of the kind since the days of Parnell, and it is the most important delegation ever sent to America.

"New York and Chicago will be visited by the first mission of the kind which will stand with Buffalo, where thirty years ago the first convention forming the Irish organization in America met. Then all separate Irish clubs in different parts of the United States, from the Middle States, Devlin to the South and Boyle to the West as far as San Francisco.

"Mr. O'Connor said that already meetings were being arranged for him in Montreal, Quebec, Ottawa and Toronto, and that he hoped to visit even British Columbia. He said he had no doubt the success of the cause was nearer now than at any time since Parnell's death. Regarding the state of feeling in Ireland, Mr. O'Connor said that it was never since the split of 1890 was the Irish National movement so strong and so united as now. Of the many crops of the party, he said that each taking different routes: Redmond to the Middle States, Devlin to the South and Boyle to the West as far as San Francisco.

Notice is hereby given that a Dividend of Two Per Cent. for the current quarter, being at the rate of EIGHT PER CENT. PER ANNUM on the Paid-up Capital Stock of this Corporation, has been declared, and that the same will be payable on and after SATURDAY, THE FIRST DAY OF OCTOBER next, to shareholders of record at the close of business on the fifteenth day of September.

By order of the Board,
GEO. H. SMITH, Secretary.

Toronto, August 31st, 1910.

TOBACCO GOES UP

Essex County Farmers Will Benefit by Companies' Rally.

LEAMINGTON, Sept. 11.—Farmers within the Essex County tobacco belt will reap a rich harvest this year from a war between two rival companies, which are trying to buy in the crop and have forced prices up to the highest mark known in years. The price has gone up to 17 and 18 cents, while some of the growers believe it will eventually go as high as 20 cents.

Last year the growers sold their crops at the rate of 15 cents, and this was considered unusually high. In former years the price has been as low as 6 cents. The crop this year is considered quite as good as last. Growers will receive more than half a million dollars for it.

UNION EMPIRE BANK OF CANADA

DIVIDEND No. 8.

NOTICE is hereby given that a Dividend of one and one-quarter per cent. upon the paid-up capital stock of this institution has been declared for the current quarter, and that the same will be payable to shareholders of record on and after SATURDAY, THE FIRST DAY OF OCTOBER next, to shareholders of record of 19th September.

By order of the Board,
GEORGE F. REID, Secretary.

Toronto, 20th August, 1910.

A STRIKE ON GOLDFIELDS.

LOUISVILLE, Ky., Sept. 11.—The annual convention of the International Photograph Engravers' Union ended here yesterday with the election of officers. Matthew Woll, Chicago, was elected president, and Lewis A. Schwartz, Philadelphia, secretary-treasurer. The next convention will be held in Detroit.

An Old Salt.

JOLIET, Ill., Sept. 11.—Conrad Vandelsen, a centenarian, for many years a vessel owner and captain on the Great Lakes, died yesterday, at his home near Joliet. He sailed the great lakes for 83 years.

Injuries Caused Paralysis.

That local cases of infantile paralysis have been due to injuries, and not to contagion, is the verdict of Dr. Sheard, after an enquiry.

OPPORTUNITIES OFFERED

The decline in the Cobalt market offers good buying opportunities. Some profit-taking, together with short sales, has temporarily inflated prices, but we think the advance will be renewed in a few days.

Beaver is in a position to be worth much more money. Rochester and Peterson Lake are cheap.

"Lest You Forget"

The Exhibition of 1910 is over; the gates are closed, and the flags are furled.

"Lo, all the pomp of yesterday Is one with Nineveh and Tyre."

Far-called, our visitors have departed, and this store now becomes the centre of interest to a great army of home-coming people, the healthy, happy throng, most of whose needs are summed up in the one word "clothes."

Lest you forget what has been happening here lately, we want to remind you that *thousands of cases of new merchandise have been opened since the beginning of this month*, and that everything new is now ready for you to see. New Fall fashions in clothes for women and girls; new Fall furnishings and suits for men; new Autumn millinery from Paris, and everything new that the youngsters need for school. Beside all this, we are making a new record in Blanket selling (on the second floor, Yonge street), which no housekeeper should overlook.

The Blanket Sale

is leaving all records behind. Here are some more reasons:
