DIRECT INCITEMENT TO BOLSHEVISM

Methodist Ministers Stigmatize "Profits Resolution of General Conference."

REVOLUTION CERTAIN Might Be Either Bloody-Handed or Christianized Form of Upheaval.

"Red, bloody handed," or "Christianized" revolution is inevitable in Canada, according to Rev. John Coburn's contribution to the social service debate at the Toronto Methodist conference, which raged with terrific fervor for two hours, and was at its climax at the six o'clock adjournment.

Rev. Dr. Burns said that the Methodist ministers at Winnipeg identified with the strike were not representative of Methodism. Rev. Mr. Evans said that the government had called Methodist ministers who sent their sons to the war.

Rev. Dr. Hincks declared that the general conference report as a whole was excellent and that the achievement in the substitution of socialism for our present constitutional system.

Rev. John Coburn resented the attack made by Rev. Mr. Parsons on the general conference. According to his employers were the only one who had a right to speak on economic questions.

A racy debate on the abolition of honorary titles such as the D.D., resulted in the adoption of Capt. Macleod's resolution against all such titles by 122 to 72.

Canada was represented by no common men, but the best of British-born and native Canadians. This was shown in the haste with which the D.D. had been achieved from St. Julien to Montreal.

Rev. Capt. Spencer, who went over as his knowledge boys who were forward carrying hand grenades and machine guns, four pill boxes armed with machine guns, out of action in one engagement.

NEW MARKET EXPLOSION VICTIMS BURIED YESTERDAY

Other Injured Progressing—First Accident With Scotch Type Boiler.

Three victims of the explosion at Newmarket were buried Monday afternoon. Rev. Mr. Lawrence conducting the funeral service at St. Paul's church.

Experts who have examined the boiler and wreckage have been unable to determine the cause of the accident and the other injured are making favorable progress.

Touching compensation due dependents of the deceased victims, it is stated that according to amendments made to the workmen's compensation act last April, the widow of a victim is entitled to \$30 with an additional \$7.50 per month for each child.

Majority Vote For Sewerage System Funerals of Explosion Victims Keep Many Away From Meeting.

A vote of the ratepayers taken on the proposed sewerage system resulted in a majority of 120 for the improvement. Owing to the funerals of three victims of the explosion of last week, a small vote was polled.

The town is pleased at the result of the vote on the sewerage question, and feels that the installation of the system is a big, progressive step. The explosion here, however, temporarily dented local interest in the project.

NEW JITNEY TRAIN The "jitney" train for workmen employed at the C.N.R. layout, Leaside, is running between Toronto and Leaside Monday and will carry the employees daily to and from the plant until further notice.

KEW BEACH POSITIVELY INDECENT. "It is high time that the civic authorities woke up to the fact that the only strip of bathing beach in the city between Woodbine and Leaside is lacking in bathing vans and lavatory accommodation, and it is positively indecent, and a reflection on the ward aldermen and the city council, that the existing state of affairs to continue during the past week the lack of dressing stations and lavatory accommodation for the thousands of citizens who flocked to the lake-front was very noticeable.

DANFORTH WANT POSTOFFICE Great dissatisfaction is expressed in the Danforth district regarding the delay in opening the new sub-postoffice on the corner of Ferrier and Danforth avenues, promised for some time by the postal authorities.

WEST TORONTO Commission Buy Webb Estate The vacant land recently purchased by the Toronto Housing Commission for the erection of workmen's homes in the west end is the "Webb property" between Glenora avenue and Runnymede road with frontage on Lincoln avenue.

TRAINS PASSENGERS' TORONTO SHOPMEN POSTPONE STRIKE

G.T.R. Engine and Coaches Acting Upon Instructions Leave Track—No One Injured.

Acting upon instructions received thru the day from Montreal headquarters, West Toronto local of Division 4 of the Union of Railway Shopmen, decided last night to indefinitely postpone the proposed strike in the meantime further developments are awaited with interest, and matters may take a favorable turn on Friday.

At 8:12 yesterday morning over one hundred striking passengers of the international railroads were following along comfortably toward the city and it is now almost dark that they were on the embankment alone. The shore road about a mile west of Sunny-side, a section gang repairing the Grand Trunk track at that point had taken up a length of rail and the foreman crew, as one of them was injured.

Chicago International. The international, or in railway verbiage, the international connecting Chicago and Montreal, making very few stops in its cross-country run, and due in Toronto at 8 a.m. It is stated that at the time of the accident it was traveling about 25 miles per hour. Striking the engine plowed its way forward, leveling the embankment for a few rail lengths before finally brought to a standstill at a drunken angle over the steep gradient of a twenty-five foot cut.

James Munro Died Monday After a Brief Illness. With the death of James Munro of 48 Olive avenue, who passed away at his home on Monday after a brief illness, the railroading circles have lost one of their oldest and most respected members.

By twelve noon the cars were again on the track, a wrecking crew having been sent from Mimico to clear the way for other traffic. The wrecking crew worked a considerable distance after the engine, but finally brought to a standstill at a drunken angle over the steep gradient of a twenty-five foot cut.

NORTH TORONTO METROPOLITAN PURCHASE WOULD NOT PROVIDE TRANSPORTATION SOUTH OF CEMETERY. Various and misleading reports are being published in the evening papers to the effect that the Metropolitan Civic Council has decided to purchase the Mount Pleasant road.

UPSET COFFEE POT. When a coffee pot fell over on him in the home of his parents, 25 Heath street last night, the young Archie Marcus was scalded about the chest and shoulders. The child was taken to the Hospital for Sick Children.

MACHINERY FELL ON HIM. When a piece of machinery fell on him while at work yesterday morning at the Toronto Typographical, 120 West Wellington street, Howard Ash, 247 Lippincott street, sustained injuries to his hip. Ash was taken to St. Michael's Hospital.

LITTLE GIRL RUN DOWN. May Ennis, aged four years, of 155 Vine street, was injured yesterday afternoon by a motor car. She was removed by the police ambulance to the Hospital for Sick Children.

HOUSING COMMISSION TO EXPEDITE LOANS Arrangements are now being made, it is stated by the Toronto Housing Commission, to expedite the granting of loans to citizens desiring to build homes for their own occupation.

How Convenient it Will Be to Have a "D.A."

For it enables one to shop by mail telegraph or by phone, with the assurance that all purchases will come as paid. Saving any apprehension as to the safe arrival of money. Saving the necessity of going for money orders--when, perhaps, the distance is considerable.

Furthermore, the "D. A." will do your book-keeping--an itemized statement of all your transactions being sent to you every month--truly a systematic way of shopping.

Interest is allowed on the daily credit balance. For further information, apply "D. A." Office, Fourth Floor.

Here Are Colored Eyeglasses That Reduce Sun Glare

For comfort out of doors, to reduce sun glare from streets or water, have your prescription made up in tinted glass. A single pair is lighter and cooler to wear than a tinted pair over your everyday glasses. You may have such glasses ground in smoke or amber, or in Crookes' lenses. The latter are of chemically prepared glass, which cuts off the rays of light below the "reds" and above the "violets." In fact, tinted lenses are necessary to eyes which are hyper-sensitive to light. Consult our Optometrists regarding these lenses.

MERCHANT PRINCE INDIGESTION AND CONSTIPATION KINGSTON SUGGESTED AS SCENE OF TRIAL

William Ramsay, Octogenarian Bank Director, Dies in Scotland.

In the passing of William Ramsay, merchant prince and philanthropist, whose death occurred at his home at Bowland, Scotland, yesterday, Toronto has lost one of her most eminent citizens.

Mr. Ramsay had been in poor health through the winter, but was eagerly awaiting the spring. His illness, however, took on a more serious turn and it is believed that pneumonia was the cause of his death.

Mr. Ramsay was formerly head of the firm of Ramsay & Co. merchants, Toronto. In 1882, he retired and bought the estate of Bowland, Middlethorpe and Selkirkshire, of which country he was a commissioner of the supply and of the land.

When in Canada, the deceased took an active interest in all military matters. One of his sons, since deceased, was a captain in the 48th Highlanders, and distinguished himself in the Boer War.

Mr. Ramsay was also vice-president of the Toronto, Grey and Bruce Railway, now merged in the C. P. R. He was also the largest shareholder in the Imperial Bank, and a director. He was appointed an honorary governor of the Toronto General Hospital in 1908, and last year made a magnificent gift of \$600,000 to the institution. He was also a member of the Conservative Club, Edinburgh, Constitutional Club, London, and the Toronto Club, Toronto.

ACCLAMATIONS NOW TOTAL FORTY-THREE

Liberals in Quebec Add to Big Lead From Nominations.

Montreal, June 17.—Final results of nominations held yesterday show that there were 43 acclamations and are 38 contests. This means that the County of Stanstead has also gone to the Liberals by acclamation. In Missisquoi, Montcalm and Pontiac, in which there were no returns Monday night, there is opposition to the government candidate.

PARDEE CALLS FOR FREE FOOD STUFFS

Mr. Pardee called for free foodstuffs, saying that the cost of living was too high and that the government should regulate the price of foodstuffs.

Mr. Pardee said that in 1914 the cost of living was 100 per cent, but that it was now 175 per cent. He said that the government should regulate the price of foodstuffs.

Mr. Pardee said that the government should regulate the price of foodstuffs, and that it should do so by fixing the price of the raw materials used in their production.

INDIGESTION AND CONSTIPATION KINGSTON SUGGESTED AS SCENE OF TRIAL

Quickly Relieved by "Fruit-a-tives."

"I suffered for many years with terrible indigestion and constipation. A neighbor advised me to try 'Fruit-a-tives'. I did so, and, to the surprise of my doctor, I began to improve, and he advised me to go on with 'Fruit-a-tives'."

"I consider that I owe my life to 'Fruit-a-tives', and I want to say to those who suffer from indigestion, constipation or headaches—try 'Fruit-a-tives' and you will get well."

"CORINE GAUDREAU." Fifty cents a box, six for \$2.50, trial size 25c. At all dealers or sent post-paid by Fruit-a-tives Limited, Ottawa.

continued, a minister of the crown, speaking from his seat in the house, had said that the cost of living could not be reduced. At the same time, a committee of the house was considering the question and was to report to the house.

Profiteers had been allowed to fatten on their ill-gotten gains and had not paid an adequate share of their profits into the treasury.

As a means of raising revenue, he thought that a graduated tax on corporations would be effective. "Tax what you like," he said, "but for heaven's sake leave the food and the raiment of the poor man alone."

Turning to the labor situation, Mr. Pardee said that the time was coming when the laborer would receive a just per cent of the wealth which he had put into the pockets of his employers.

The question of regulating hours of labor must be settled. Neither the federal nor provincial governments were willing to grapple with it, but the sooner one of them took the responsibility the better for Canada.

\$17.50. That was 17 per cent, to 18 per cent profit. They only did business in Canada. All the capital-stock was asked up.

Asked what a suit of clothes made of that cloth would cost to the consumer, Mr. Pardee said he did not know but a tailor in Toronto had told a friend of his that the cloth in the suit he was wearing would cost about \$65. The price of the finished suit was \$14.50.

W. K. Paton of the Paton Manufacturing Company, Sherbrooke, Que., was examined as to the profits of his firm, which manufactures tweeds, etc. He said the earnings were: 1914, 6.88 per cent; 1915, 28.15 per cent; 1916, 33.38 per cent; 1917, 46.21 per cent.

Remarking that the increase from 1914 to 1917 was phenomenal, Mr. Pringle asked: "Has that something to do with the cost of clothing in Canada?"

"It has something to do with it," replied Mr. Paton. "It has a great deal to do with it," commented Mr. Pringle.

Mr. Pringle brought out that the profits of the firm for the year ending Jan. 31, 1918, were 109.22 per cent, on a capital stock of \$600,000. This was after deducting contributions to patriotic fund, etc. For the year ending Jan. 31, 1919, the profits were 72.9 per cent. The balance at the credit of the firm subject to war tax was \$1,010,427.

"I suppose you will still contend that 72 per cent is a handsome return on your capital," commented Mr. Pringle. "A very handsome return," said Mr. Paton.

"Greed," interjected Mr. Reid of MacKenzie. Mr. Pringle questioned Mr. Paton about his pre-war profits. In 1913 they were 9.71 per cent, and in 1914 6.88 per cent. "Now comes the jump," said counsel.

Counsel went on to say that if a Canadian wanted to buy Canadian tweed, manufactured in Sherbrooke, for instance, he had to pay 72 per cent more for it than he would pay for the same tweed if he went to England. If the retailer had to get 70 per cent, also, "where are we going to stop?" he asked.

"If you were content with less profit, naturally it would reduce the cost of tweed to the man who has got to clothe his children today?" asked Mr. Pringle.

There was no direct answer to this, and Mr. Pringle put his question in another way: "Couldn't you bring down prices by lowering your profits?" "No doubt," answered Mr. Paton.

No Clothing Combine. Witness said there were from 100 to 150 similar firms in Canada, but there was no arrangement regarding prices, so far as he was concerned.

Mr. Pringle commented warmly upon the situation. He said that owing to the difficulties of transportation and the war conditions preventing goods coming in from England, the Paton firm was enabled to put up its prices to the extent that it earned 72 per cent on its capital. To the prices of these goods had to be added the wholesalers' and retailers' profits before they reached the consumer.

"The only rival you've got is the Dominion Textile Company, and they don't pay you pretty close last year," said counsel.

Mr. Paton claimed that the average profits of the firm had been only 7 per cent. For a period of eight years the stockholders had received no dividend. Mr. Stevens: Don't you think it is due to the public to lower your prices? Mr. Paton: Our mill wasn't built for the glory of God or anybody else. It was built for the benefit of the shareholders.

He added that any man who couldn't make money during the war there must be something wrong with him.

THE DAY AT OTTAWA

By TOM KING

Ottawa, June 17.—The Evening Journal, owned and edited by P. D. Ross, the intimate friend and supporter of the prime minister, came out this afternoon with a double columned front page editorial, which is considered to be significant, and possibly inspired. The announcement is made that Sir Robert Borden intends to remain at the helm to reorganize his cabinet, and to form a Unionist party.

Mr. Doherty, Hon. Frank B. Carvell, and other ministers are said to be slated for retirement. An effort is to be made to bring Sir Lomer Gouin, Hon. Rodolphe Lemieux, and some other prominent French-Canadians into the cabinet. General Sir Arthur Currie, it is said, will be invited to join the government. The only thing not provided for is a way to secure seats in the house for the new ministers. Even the rough outlines of four distinctive departments can now be discerned.

The gist of the article is contained in the opening paragraph, which says: "Out of the somewhat chaotic political situation of the past fortnight the rough outlines of four distinctive departments can now be discerned."

1—Absolute certainty of government victory on the budget; the McMaster resolution, reinforced by about ten western Liberal Unionists, will be rejected by a majority of about 40.

2—The beginning of the organization of a permanent Unionist party, supplanting the old Conservative party of Cartier and Macdonald, and embracing the overwhelming majority of Conservatives and probably sixty to seventy-five per cent of what are known as the war Liberals.

3—The early reorganization of the cabinet, infusing new blood into the ministry and marking the passing of old political landmarks and 4—By the swift parliamentary failure of a somewhat abortive attempt to form a third and free trade radical labor party.

There is no doubt that the government will have a substantial majority when the vote comes on the McMaster amendment to the budget of Sir Thomas White. The bolters, including Hon. T. A. Cresser and F. P. Pardee, will not exceed fifteen in number, and two, three or four high tariff Liberals may refrain from voting. It is

Considerable resentment prevails at Weimar by reason of the fact that the German delegation on which Versailles for Weimar was hooted by a crowd of hoodlums and two members of the delegation were struck by stones. Premier Clemenceau has written a letter of apology to the chief German plenipotentiary. The prefect of the department and the police commissioner have been dismissed.

The council of five ministers, and considered the clauses in the Austrian peace treaty, which have not been handed to the Austrians.

The Turkish delegation, which has arrived in France to discuss Turkish claims for mild treatment, was heard by the council of ten. The main plea of the Turks was that the Turkish empire be not dismembered, the claim being put forth that the Turkish people were not responsible for the country's entering into the war on the side of the Teutonic allies.

Memorandum on the question, which is to be presented by the Turkish grand visier and later to make a reply to it.

Across the GREAT LAKES

Hot? Not on Lake Superior! WHEN the mercury is playing around in the upper eighties, and you wish Henry Ford would invent a self-refrigerating collar—do you ever stop to remember that the temperature of Lake Superior never rises above 40 degrees?

What if you don't spare the time for a long holiday? The Canadian Pacific Railway's Clyde-built steamships make a five-day trip from Port McNicoll to Fort William and back, during which you can be as cool as an Eskimo and as comfortable as a New York clubman.

Roomy cabins, the best of chefs—oh, those broiled Lake Superior whitefish!—tea on deck under the lazy awnings—seagulls against the long, northern sunset—and a breeze from a thousand miles of clean pine woods, on duty twenty-four hours in the day.

Then—if you find you've got more time than you counted on—how about a week on the Nipigon River, forty miles from Fort William, with guides, canoes and campfires and white water under the moon—and more speckled trout than you know what to do with?

DENY NEW OUTBREAKS AT THE WITLEY CAMP

Canadian Staff Headquarters Declares Conditions at the Camp are Entirely Normal. London, June 17.—The sensational reports circulated that further outbreaks had taken place at Witley Camp among Canadian soldiers stationed there, are denied by the staff at headquarters. It is stated that the conditions in the camp are entirely normal. A statement issued by the staff follows: "Statements that there was shooting on Sunday night and that a number of men were wounded by bayonets and conveyed to the hospital at Bramshott are untrue. The entire incident on Saturday only three men required hospital treatment. One of these cases has already been reported, a second sustained a fractured wrist and a third lacerated lip."

Program for Next Olympic Games

The Canadian Olympic committee has just received from the Belgian Olympic committee the proposed program of events for the eleventh Olympic to be held at Antwerp next summer. The program as submitted follows rather closely the Stockholm program with the notable exception that the time honored marathon race has been omitted. The time for preparation at the disposal of the Belgian committee is short, it is understood that they will have the right to modify the program and to this end have asked the Canadian Olympic committee to forward suggestions as to alterations. The Canadian committee will be pleased to receive suggestions and criticisms of the program. These should be sent to 22 College street, to the secretary, Canadian Olympic committee. In transmitting the proposal, Count Henry de Baillet-Latour of the Belgian Olympic committee makes an appeal for support of the game and says that his motto is "if you love us come and join in our games." Each country may have twelve competitors in the individual competitions and one team in the team competitions excepting football, for which four teams may be sent. It is proposed to hold the "Stadium events" between August 15 and September 10, 1920. The complete program: I. Athletics. 100 metres, 200 metres, 400 metres, 800 metres, 1,500 metres, 2,000 metres, 10,000 metres flat, 110 metres hurdles.

THE GREAT ALBERTA OILFIELDS

How an Attempt to Grant a Monopoly Thereof Was Frustrated by the Western Provinces and People and by the Canadian Mining Institute—These Immense Oilfields Are Now Open to Individual Enterprise and Capital—The Shell Trading Co. Have to Take Chances With Others.

Some months ago it was announced from Ottawa that the great Shell Trading Co. of Holland and London, and then the Imperial Oil Co. of Canada, were seeking to obtain a monopoly of the oil fields of Alberta—prospectively the richest store of oil and gas in North America—from the Ottawa government. Protests were lodged by the settlement people, farmers, legislators and some of the newspapers here in the east against such policy. The Canadian Mining Institute, representing all the mining engineers of Canada, also protested. Below is a carefully prepared summary of the papers that were contained in a report brought down to parliament at Ottawa the other day.

In April last the Ottawa government tabled in the commons applications of the Shell Transport and Trading Company for a grant of an enormous amount of lands in North Alberta and the corresponding rights between the government and various people throughout the country in connection therewith.

The application was first made by Dr. Shillington of Ottawa on July 30, 1917 to Hon. Dr. Roche, then minister of the interior, for R. N. Benjamin, president of the Shell Company. This application covered an area of about 250,000 square miles and was for exclusive oil and natural gas rights for the duration of the war and five years after peace, over that part of Alberta north of the 55th degree of north latitude and part of the Northwest Territories, extending north. The exclusive rights sought were to be modified by many conditions.

On Nov. 12, 1917, Hon. Arthur Meighen wrote to Dr. Shillington deferring the matter until after the general elections on Jan. 25, 1918, the controller of the interior, Dr. Shillington that the application had been refused. The solicitors for the Shell company, writing urging the minister to take the application into consideration, but he definitely refused the request. On July 8, 1918, Reginald McLeod wrote to Sir Robert Borden at the Savoy Hotel, London, asking "whether the government is desirous of entering into an agreement with the Shell group, which would ensure (1) for the government, examination of territory and skilled extraction of oil discovered at the expense of the company, and (2) for the company, exclusive rights to a sufficiently large area for a sufficient time to render its work effective, and if not so found, successful." The letter details of the competency of the Shell company.

On Aug. 8, Mr. McLeod enclosed a memorandum from Mr. Benjamin indicating what the company proposed to do.

The granting of a large tract of land to one company for exploration was urged as follows:

As oil may be at considerable depth and rock outcrops may be scarce, the geological and geologists would be needed in a large area to find the main anticlinal pool.

The working of smaller anticlines is wasteful.

Search for new wells must always be continued.

The company would operate in a large way.

Geological examinations would be made of a large section, and from the results collected the deposits of oil would be deduced.

After thorough finding in theory the main deposit of oil, certain areas would be closely examined and the remainder of the country would be abandoned and only a relatively small portion retained for exploration.

Shell Group's Proposition.

The Canadian government was asked to confer to the Shell group:

- (1) The geological exploration of the area.
- (2) The eventual exploitation on the following terms: (a) Shell Company to provide personnel, technical knowledge and management; (b) to provide funds at a cumulative preferential interest of six per cent. per annum; (c) to operate the territory on the profits, other half to go to the government; (d) to pay no export or import duties and existing bonus on oil; (e) to receive the general support of the government; (f) a Canadian company would be formed, if desired, and be represented.

The area for search was to be Alberta, north of the Athabasca River, and the Dominion territories, west of longitude 110 degrees north to latitude 63 degrees.

The area for closer geological examination was to be selected from the foregoing, and the area for exploitation would be again selected.

Private rights purchased were to be considered part of the general venture.

The correspondence between the company and the Dominion government was private until November 21, 1918, when the Winnipeg Telegram said Sir Robert Borden had handed over to the shell company all oil properties in western Canada from rights to eastward and from the international boundary line to the Arctic Ocean.

This published report brought many protesting letters from a grant, and the minister of the interior in reply denied the report.

While Mr. Rae, M.L.A. for Peace River, Alta., was in Toronto in January he addressed the Toronto branch of the Canadian Mining Institute. It was then decided to ask the government for information, and the following correspondence passed:

Canadian Mining Institute.

Toronto Branch,
Toronto Branch,
Jan. 14, 1919.

Dear Sir—A statement has recently been appearing in the newspapers and periodicals to the effect that the Shell Trading and Transportation Company Limited, has applied for an exclusive concession of a large block of land in Alberta, on which to search for oil and possibly other minerals, and that the government of Canada is considering the application, and that a decision is being made.

Members of the Canadian Mining Institute, at a meeting held in Toronto on Saturday, January 11, appointed a committee to ask you whether such an application made to you or a member of the government, of which you form a

"all matters affecting such (mining) interests" should be referred to the Institute, but merely by the order-in-council, and without regard to the present mining regulations. We do not believe that the government should ask that before your government takes any extraordinary action in disposing of the mineral lands it should consult those who have made a life study of the mineral resources of Canada, and who are consequently the best men available to advise on the proper action to take in emergency legislation, and we have no hesitation in saying that all such men are included in the membership of this Institute.

The experience of the past few years has emphasized the value of technical knowledge in dealing with technical subjects. Other governments, such as those of England and the United States, have made free use of technical advisers experienced in managing and financing enterprises, and even our own government, in other lines of industry, has endeavored to avail itself of technical advice, but in mining, which is next to agriculture, the greatest productive industry in the Dominion, the special knowledge and experience possessed by the members of our profession has not been effectively utilized.

As citizens of Canada we are anxious to promote the welfare of the Dominion along the line of the oil fields in the north, and we offer you that knowledge and experience, freely and without any equal footing with others who have already secured the best technical advice that they are able to secure for the western provinces.

We fear that the government is likely to make a bad bargain for Canada if it allows the use of the special knowledge which the members of the Canadian Mining Institute possess, and we sympathize with you in your position. We are sure that you will not allow a secret bargain to be drawn into a mining land, but that if an offer or proposal is made to you to take over mining rights, you will consult the Institute, and we will be glad to advise you on the merits of the offer, and we will be glad to advise you on the merits of the offer, and we will be glad to advise you on the merits of the offer.

BETTER WEATHER DEPRESSES CORN

Decided Break in Hog Quotations Another Factor—Oats Also Lower.

Chicago, June 17.—Sharp setbacks in the value of corn today resulted largely from excellent weather conditions for the growing crop. The close was unsettled, with a net loss of 10¢ to 15¢. Oats were 15¢ to 20¢ lower, and provisions off 37¢ to 50¢.

BURR CARTWRIGHT CALLED BY DEATH

Former President of Timiskaming Was Pioneer in Cobalt and Porcupine.

One of the pioneers of the Cobalt and Porcupine fields was called by death on Monday, June 17, at his home, 672 West Beaver street, Toronto. Mr. Cartwright, who was about 70 years of age, had been in virtual retirement because of failing health for several years. He was a well-known figure in the mining circles of the north, and his death was a loss to the industry.

A couple of the fire rangers had cut some trees and cleared a definite channel which can be seen by anyone in daylight. It is a good thing that the government has been able to place a bridge over the "floating" stream. Here an accident happened recently to two well-known prospectors, experienced canoe men, who were in the water for hours.
