TWENTIETH YEAR

BUDGET DEBATE

CLOSED LAST NIGHT.

Sir Charles Tupper Was in a Jocosely Mood and Roasted the Ministry.

THERE WAS MUCH LAUGHTER

When He Expressed His Great Gratitude at the Conversion of Sir Richard.

MR. FIELDING A CONVERT, TOO

Paterson and Pope Followed and the New Man From Brantford Wound Up the Oratory.

Ottawa, May 5.—(Special.)—Rather unexpectedly the Budget debate was terminated to-night, no one rising to continue it when Mr. Heyd concluded his remarks, and Mr. Fielding's motion that the House go into Committee of Ways and Means being put and carried. This was rather a surprise, as it was expected that Hon. Clarke Wallace and several others would speak on the Budget; and, indeed, it was thought that the debate would probably last next week. However, Mr. Wallace went to Toronto to-night, and no one was on hand to move the adjournment of the debate, so Mr. Fielding's motion carried. The debate to-night was marked by a humorously satirical speech by Sir Charles Tupper, and a painstaking defence of the tariff by Mr. Paterson, a rattling good speech by Sir Charles Wallace, and a few remarks to "top of with" by Mr. Heyd.

GOVERNMENT "ROASTED."

Sir Charles Tupper Was Happy Because of the Conversion of Cartwright and Fielding.

Ottawa, May 5.—(Special.)—Sir Charles Tupper, who was greeted with prolonged applause, said that he had intended to reply to the Minister of Trade and Commerce last night, but was unable to be in the House. He found, however, to-day on reading the honorable gentleman's speech, that there was very little to reply to, for the honorable gentleman had adopted discretion as the better part of valor, and had not attempted to attack the very able and comprehensive arguments adduced by the honorable member for York (Mr. Foster).

Should Have Been Penitent.

But Mr. Fielding ought not to have delivered his Budget oratory in the jubilation that he had just expressed.

The National Policy.

Touching on the question of the National Policy, he said there was a controversy existing in Canada to-day. He did not think that there was a right or a wrong in its existence, and the Minister of Finance might as well undertake to convince the nation of the paternity of a white child as to claim the paternity of a black child.

Mr. Fielding's speech was so good that he could not help but utter a few words in praise of it.

Prominent Member of Dawson City Mining Exchange Says Money Was Paid to Get Into the Commissioner's Office There.

Himself and Others Laid Charges and Were Proving Them, When the Inquiry Was Suddenly Squelched—Petition Sent to Ottawa Asking a Proper Commission.

Montreal, May 5.—(Special.)—When Mr. William Macintosh, brother of Hon. John Macintosh of Sherbrooke, and well known in Canadian mining circles, went to the Klondike, he made the acquaintance en route of Mr. George C. Armstrong, who has since become a prominent member of the Dawson City Mining Exchange. Some days ago Mr. Macintosh received a letter from his friend, and he permits The World to publish important extracts. "When the Government," Mr. Armstrong writes, "appointed a Commission of Enquiry, with Mr. Ogilvie as Commissioner, we (D. Y. McDougall, Col. McGregor and myself) brought forward many charges, and we were proving the first conclusively."

last man in the world to break the rules of the House or not to obey the wishes of the Speaker. He had only wished to point out that the Government had not acted fairly towards the C.P.R., which had been in a position to secure a large sum of money for building a short line to a Canadian seaport, in the patriotic effort to divert trade from American ports to Canadian ports.

Upper Canada Colleger's Annual Race Through the Deer Park Fields.

BERT MORRISON WAS SECOND.

Six of the 35 Starters Finished—Time for the 2 Mile Was 3 Minutes 10 Seconds.

The annual cross-country run of Upper Canada College was held yesterday afternoon over the usual course, north through Deer Park. This year there was a large number of entries. Thirty-five started and H. W. Fraser won by only a short distance, with Morrison second.

At the first jump the boys were well bunched, but at the second Fraser started to pull away, and Morrison, who was expected to lead all the way, thought and gave up the race. Fraser did not finish until he was nearly a mile from the goal.

Fraser gets two cakes, Morrison one and the runner goes to Russell.

After the race the boys were entertained at Dr. Parkin's, where refreshments were served and the prizes were presented. The following were the winners of the first six by distance: H. W. Fraser, B. C. Morrison, 2, R. H. Nuttall, 3, J. H. H. Maxwell, 4, 5, 6.

Cigarmakers Return on Monday—Mass Meeting of Bricklayers.

The trouble between the Clock Manufacturing Company of Toronto and their employees is now at an end. A joint meeting was held yesterday afternoon, when both sides fully discussed the matter. From a result the men will resume work Monday morning. The union have also assured the firm that there will be no further trouble.

The company expressed their regret at the trouble that arose, and trusted that the same good feeling that previously existed would be resumed.

An Exodus.

Several more of the bricklayers left for the United States yesterday, where they have secured good positions. Unless the trouble is soon settled, numerous others will move from the city and take their families with them. The union will hold a mass meeting in Queen's Park this afternoon to discuss the matter. From a result labor advocates will speak, and a large number are expected to attend.

The bricklayers' action in the Builders' Exchange will meet Monday afternoon for the purpose of trying to arrange a settlement.

Moulders Change Not.

The iron moulders' strike yesterday. The men will hold a meeting this morning in Cannon Hall, when an answer is expected to be received from the bosses. Aside from the concessions already made by the men, they say they will not bend any more, and are prepared to hold out as long as their employers.

By Monday.

The 20 cigarmakers who have not as yet returned to work met in Richmond Hall yesterday afternoon, when the striking Committee reported that they had received word from the bosses yet.

NEW ISSUE OF PAYNE STOCKS

Misunderstandings That May Have Existed Are Now Explained Away.

MEETING TO BE HELD AT SANDON

War Eagle, Republic and Payne in Comparison as Payers of Dividends.

Montreal, May 5.—(Special.)—There has been a good deal of misunderstanding here about the new issue of Payne Mining stocks. The matter was clearly explained to-day, as follows:

The capital of the new company is \$3,000,000, in 3,000,000 shares of \$1 each.

Of this sum, \$2,500,000 will be issued to the old shareholders on the basis of 5 shares for 2.

This leaves the remaining half million shares to remain in the treasury. A meeting will be held in Sandon, B.C., on May 10, to discuss the sale of the mine, after which the new shares will be issued.

At the present time, the price of the new shares is \$1.50, or \$4,500,000 for the mine.

This is the biggest underwar swap ever offered in the imported goods.

BRITISH COLUMBIA WANTS IT

The Provincial Government is Willing to Put Up Money to Get Pacific Cable.

FIFTEEN-EIGHTEENTHS OF COST

Has Now Been Promised and It is Hoped at Ottawa That the Project Will Go Through.

Ottawa, May 5.—(Special.)—Sir Sandford Fleming to-day received a telegram from Victoria, stating that the British Columbia Government, in view of the position taken by the British Government with respect to the Pacific cable, has decided to contribute two-eighths of the cost of construction of the cable. This only leaves one-eighth of the cost of the cable to be subscribed, Australia having guaranteed eight-eighths and Canada five-eighths of the cost.

It had been expected that Great Britain would guarantee five-eighths of the cost of the cable, and the recent announcement in the English House of Commons that Great Britain would give a subsidy, was rather a dampener to the scheme, but this offer on the part of British Columbia will, no doubt, greatly strengthen the project. The Pacific cable resolution, of which notice has been given in the House as soon as the debate on the budget is over, and British Columbia's offer, which is probably being made more easily than it otherwise would.

"I've noticed that most generally always when I let a good offer go like that, some cursed thing happens to the house."

ROSEBERY CUT BOTH WAYS.

Slashed the Government for Its Lukewarm Attitude Towards the Pacific Cable.

AND REBUKED THE RADICALS

For Their Threat of Opposing the Grant to Kitchener—He Will Not Return to Politics.

London, May 5.—The Earl of Rosebery, former Liberal Prime Minister and Lord President of the Council, addressing the London Liberal Club this evening and alluding upon the "Present unanimity of opinion in the British possessions," said he thought the Government was pursuing curious methods of restoring imperialism when it placed a tax upon Australian wines and offered "only a miserable contribution, tied up with impossible conditions, to the great Canadian and Australian proposal for an Imperial cable."

He added a scathing rebuke to the threats of the radical members of the House of Commons to oppose the grant to General Lord Kitchener of Khartoum, in recognition of the services of the sirdar in the Anglo-Egyptian campaign for the reconquest of the Sudan.

Later in the evening, when replying to a toast to his health, in which the hope had been expressed that he would quickly return to active politics, Lord Rosebery said: "I hope nothing has occurred to-night that can be taken as an indication that I have any intention of returning to the arena, which, deliberately and for good reasons, I forsook in 1896."

The All-Night Car Service.

Complaints have been made that the night cars of the Toronto Railway Company are run ahead of schedule time. Several persons came into the World office early this morning and were not in a amiable mood, because their car had gone, and they declare they were at the corner of King and Yonge-streets before the time marked on the card.

THE MODUS VIVENDI WILL NOT CARRY.

Washington Officials Express That Opinion and Blame Canada.

THE CABINET DISCUSSED IT

And Secretary of State Hay Said the Present Unsatisfactory Conditions

WERE LIKELY TO BE CONTINUED

Until Some Decisive and Permanent Settlement Can Be Arrived at.

Montreal, May 5.—(Special.)—The Herald publishes the following, dated Washington, May 4:

At the last meeting of the Cabinet there was a long discussion of the proposed modus vivendi between the United States and Canada regarding the Alaska boundary dispute. The discussion resulted in no practical suggestion, but it was interesting as a manifestation of the disappointment felt in Washington official circles on account of Canada's failure to accept the modus vivendi proposition. Secretary Hay expressed the opinion yesterday that the plan for a modus vivendi could not be carried out, and that the present unsatisfactory condition of affairs in Alaska must continue to exist until some decisive and permanent settlement can be reached.

The President and his advisers at Tuesday's meeting listened with great interest to what the Secretary of State had to say about the efforts that had been used to establish a modus vivendi, and there was more than one expression of surprise that the Ottawa Government did not see its way clear to accepting the proposition of this Government.

Understand the attitude of the Dominion Government. When the proposition was made from Washington for a modus vivendi the State Department was of the opinion that it would be readily accepted. No surprise was felt when the Secretary of State expressed the matter to Ottawa, but when the Dominion authorities failed to pass favorably on the proposition, Secretary Hay and the other Administration officials were at a loss to understand it. The meeting of the Cabinet on Tuesday afternoon was a long discussion of the subject at that time, and a general expression of disappointment.

BUFFALO TROUBLE STILL ON.

More Loaded Vessels Have Arrived and There Are No Men to Unload Them.

INSURANCE MEN ARE ALARMED.

Over 1,000,000 Bushels of Grain Arrived During the Last 24 Hours—45 Vessels Tied Up.

Buffalo, May 5.—The situation on the docks is practically unchanged. The big freighters, the Chicago and the Aurora, have been added to the large fleet of loaded vessels already there. There are no men to unload them. About 20 men are working at the Erie docks.

No Strike—No Settlement. There was no general strike of union labor men along the docks, as was predicted last night by labor leaders who occur today unless the grain contractors agree to the terms of the preceding scorpions.

Put a Damper on Aldermanic Enthusiasm—The Mayor Walks and Stretches Out.

The City Solicitor yesterday handed out his opinion that the city "cannot safely use" Stanley Park as a Cattle Market. But when the facts are laid before Ald. Sheppard's sub-committee it will be shown that the park is not needed.

Solicitor Says Be Cautious.

The Solicitor further puts a damper on the enthusiasm of the aldermen who would override every objection and occupy the new City Hall May 31. He says in a letter to the City Clerk, until the Board of Control or Property Committee have a report from the architect, showing the condition of the work of different contractors, he would not advise the Council to have the departments removed to the new building.

The Mayor Getting Anxious.

The Mayor has despatched a friendly letter per Secretary Littlejohn of the Board of Control to Architect Lennox, telling him he wants the specifications for the remaining contracts in the new City Hall without delay. The letter says His Worship will accept no excuses.

A Magic Pill—Lyspepsia is a foe with which men are constantly grappling, but cannot exterminate. Subdued, and to all appearances vanquished, in one, it makes its appearance in another direction. In many the digestive apparatus is so delicate as the mechanism of a watch or scientific instrument, in which even a slight variation will make a variation. With such persons disorders of the stomach ensue from the most trivial causes and cause much suffering. To these Parvalle's Vegetable Pills are recommended as mild and sure.

License Holders Have the Privilege of Paying Their Fees in Two Portions. The City License Inspector, in notifying applicants that their licenses have been granted, informs them that the necessary bonds must first be signed and the duty of \$450 paid. He does not tell them, as has been done by the License Inspectors in other cities, that they have the option of paying the fee in two installments, and that the head office of the Ontario Bank and its branches in the city have been instructed to accept the fee by installments.

At a meeting held recently of the Committee appointed to make the local arrangements for the approaching annual convention of the Canadian Electrical Association at Hamilton, a draft program was considered and adopted. The dates selected for the convention, subject to the approval of the executive, are the 28th, 29th and 30th of June. The business sessions, as well as the annual banquet, will probably be held in the new Royal Hotel. A sufficient number of papers on a variety of subjects of interest to those engaged in the various departments of electrical work have been promised, and are in course of preparation. Among the features of the entertainment will probably be a trip to the Beach over the Hamilton Radial Railway, and an evening excursion on the lake, a trip to Grimsby Park over the Hamilton, Grimsby & Beamsville Electric Railway and a visit of inspection to the stations of the Cataract Power Company at St. Catharines and Hamilton. The Hamilton Street Railway Company have very kindly offered to transport to members during the convention. Everything points to a successful and enjoyable meeting. The convention meets in Hamilton.

Said He Was Assaulted. John O'Brien complained to P.C. Griffiths at the corner of Francis and King-streets last night that he had been assaulted by Edward and Thomas Walsh just outside the Schiller House, at 122 East Adelaide-street. O'Brien's face gave every evidence of having been roughly used, and the policeman went with him to the scene of the alleged assault. O'Brien went into the hotel and saw his alleged assailants, but Constable Griffith and Drury entered only Edward could be found. The prisoner was locked up at Police Headquarters. He is charged with aggravated assault.

A \$4000 FIRE YESTERDAY.

Fifty-Five Employees Thrown Out of Work—The Bishopric Paper Box Co. the Losers.

Fire was discovered in the premises of the Bishopric Paper Box Company, at 50 East Richmond-street, yesterday at noon. It started in the ground floor and spread to the elevator shaft to the top floor, where it did most damage. The stock of the company is valued at \$4000, more than half at \$2000. Both were insured for about \$8000 in the Phoenix of Hartford, Waterloo Mutual, Liverpool, London & Globe, and Lancashire.

The building is owned by John Walde of Ottawa, and is valued at \$12,000. The damage, however, will not amount to more than \$500.

About 55 employees, 45 of them girls, are thrown out of work. The adjoining premises of Mazell & Co., flour and feed dealers, were slightly damaged by fire and water.

CONNAUGHT HELD A LEEVE.

The Marquis of Salisbury and the Great People Generally Were Present.

London, May 5.—The Duke of Connaught held a levee in St. James' Palace to-day. The assemblage was a brilliant one and the weather was beautiful. The Premier, Lord Salisbury and all the members of the Cabinet were present. The British Ambassador to the United States, Sir Julian Pauncefote, and the diplomatic corps attended, including United States Ambassador Choate, Mr. James B. Carter, second secretary of the United States Embassy; Lieut. J. G. Colwell, naval attaché; Lieut.-Col. Alfred Bates, military attaché; Mr. Joseph H. Choate, Jr., Mr. John B. Mott of Indiana and Mr. Stewart Furman of New York were present. The Duke of York's Royal Canadian Hussars, on his promotion.

MOLASSES IS SCARCE.

A Sharp Advance Has Taken Place—Barbadoes Hurricane Caused the Trouble.

Halifax, N.S., May 5.—A sharp advance has taken place in molasses during the past week. In Barbadoes the advance has been from 11c per gallon to 14c, first cost. This will mean an advance here of about 4c per gallon. Nearly all the molasses held in stock here by West India merchants has been sold to the wholesale dealers. Advances by cable from Barbadoes report a large demand and sellers asking higher prices. The scarcity there is due to the hurricane last fall, which did such great destruction. A letter from Porto Rico to-day says three-quarters of the crop is gone, which means molasses will be scarce this year.

LOCAL TOPICS.

Briar plug smoking reduced to seven cents Saturdays only. Alive Bolland. The Home Missionary Committee of the Presbyterian Church will send two nurses to Atlin.

The German Conversation Club will be held at the residence of Mrs. Dymond of 430 Markham-street.

The rest of the Hustlers will find most of the Hustlers at the New Dalrymple Hotel, 200 Front-st. W. J. Cameron, Proprietor.

There will be grand musical vespers and a sermon in aid of the Ladies' Sewing Society of the parish at St. Basil's Church to-morrow evening at 7.30 o'clock.

The Ontario branch of the International Order of King's Daughters and Sons will hold their annual convention in Toronto on Oct. 18, 19 and 20. Other societies are requested to avoid these dates.

Messrs. Felcher & Rutkins are going ahead with their aerial railway, which will be put on exhibition in Hyslop's window, King-street east, in a few days. The railway is for use in parks and other public places.

The members of the Canadian Institute will hold their annual meeting in the library, 38 East Richmond-street, this Saturday evening at 8 o'clock. In addition to the transaction of other business the usual sale of periodicals will take place.

The Special "WHITE" Racer

PRICE \$65 Weight 19 lbs. PRICE \$65 Weight 19 lbs.

Light Enough for the Fastest Track. Strong Enough for the Roughest Road. It needs but a glance at the illustration to show that we have built and are offering an "up-to-date" racer for '99. The specifications will tell that we know what the racing man wants, and that we are glad to offer him the best of everything. We have given special attention to the two most important parts of a racing wheel—the frame and the running gear. The frame has the correct proportions, and the material of which it is made is distributed in the most scientific manner in order that the greatest rigidity and life may be obtained with the least weight. The running parts are of our own make, the crank hanger being simple and safe in every particular. Racers who aim to win, who wish a wheel on which they can ride to honest victory, unaided by team work and sensational advertising, and feel sure that their mounts will not prove false at the eleventh hour, will find their requirements fully met in the "WHITE" Special Racer for season of '99.

TRANSVAAL MATTER AGAIN.

The Outlook Has a Scare Report From Its Correspondent at Capetown.

COLONIAL OFFICE NOT ALARMED.

President Kruger Maintains That His Government Has a Right to Regulate Its Own Affairs.

London, May 6.—The Outlook publishes a special despatch from its Capetown correspondent, in which it is stated that Mr. Joseph Chamberlain has despatched a firmly worded demand upon the Transvaal Republic, that it must observe its obligations to the Queen as the paramount power, by securing peace and order within the republic.

This demand, the despatch says, is supplementary to the demand for the cancellation of the dynamite concession, and is taken to mean that the British Government deems that the time has come to invite President Kruger to observe the letter as well as the spirit of the London convention.

No Foundation for the Statement.

London, May 6.—The Colonial Office declares that there is no foundation for the statement made in The Outlook's Capetown despatch, and adds that there is no warrant for the allegation that the probabilities of war with the Transvaal have been seriously regarded by the Government.

Kruger Affirms His Rights.

Capetown, May 6.—The reply of President Kruger to the demand from Mr. Chamberlain for the cancellation of the dynamite concession is published here today. President Kruger contends that the concession is bona fide, and constitutes no breach of the London convention. The Transvaal, President Kruger insists, is entitled to its opinion as to what is for the best interests of the republic.

AGGRIEVED SPORTS.

Sue Guelph Authorities for Breach of Contract—Want Trial in Toronto.

The Master-in-Chambers enlarged till today a motion by Barrister Pauls to change the venue of the trial of an action for damages from Guelph to Toronto. Two Toronto men, Sanderson and Elliott, hired the Guelph City Hall in connection with a public exhibition. Upon representations of Guelph citizens the Mayor and Council prohibited the exhibition. The contractors are suing the Guelph authorities for breach of contract and would prefer the suit to be tried in Toronto.

BANK OF TORONTO WINS.

A telegram was received at Osgoode Hall yesterday from Mr. G. T. Blackstock, who was in Buffalo in connection with the Bank of Toronto's suit against the American Insurance Companies interested in the John Eaton Company. In February judgment was recorded at Buffalo in favor of the Bank of Toronto. The contractors are suing the Guelph authorities for breach of contract and would prefer the suit to be tried in Toronto.

AFFIDAVIT IN FRENCH.

Its Validity Challenged at Osgoode Hall—Master's Decision.

The filing of an affidavit in French was objected to at Osgoode Hall yesterday, and the Master reserved his decision. It was an action of S. J. Gill of Toronto against the Colonial Mutual Insurance Company on a policy. Objection was raised that the affidavit was in a foreign tongue. Decisions in French are allowed to be registered, but there is no precedent as to affidavits.

Metropolitan Piano Recital.

The piano recital given on Thursday evening at the Guild Hall by pupils of the W. O. Forsyth, director of the Metropolitan School of Music, attracted marked attention. The selections were notable in character, of a high order, and yet within the performers' technical limitations. They served admirably for illustrating, and for giving to the best within them and to do justice to Mr. Forsyth's artistic requirements in interpretation. Several of the pupils displayed great natural talent and a perfection of detail in performance which one may observe only in the best models. The pianist were: Misses Gwendolyn Roberts, Annie J. Proctor, May Wooley, Abbie M. Helmer and Mr. Cecil Forsyth.

Improved Train Service Between Toronto, Hamilton and New York.

Two hours' quicker time will be made from New York to Hamilton and Toronto on spring schedule of the New York Central in effect May 7, in connection with the Canadian Pacific, Toronto, Hamilton and Buffalo Railways.

On that date the New York Central will add to its present service the new "Pan-American Express," which will be attached to the through buffet Wagner Drawing Car, New York to Toronto, which is now attached to the 8 p.m. train. This train will leave Grand Central Station, New York, at 8 p.m., reaching Hamilton and Toronto at the same hour as at present, thus saving two hours in the running time, giving an opportunity for passengers to get their dinner before leaving the Metropolitan.

HIS GRACE AT LORETTO.

Early Morning Mass Attended by Archbishop O'Connor—His Reception and Pleasant Words.

Yesterday morning at 7.30 o'clock mass was celebrated in the chapel at Loretto Abbey by the Archbishop, attended by the Vicar-General and the chaplain. As this was His Grace's first mass outside the Cathedral since his installation, it is an honor highly appreciated by Loretto. The choir on this as on every other occasion acquitted itself admirably and furnished some very beautiful and inspiring music.

After mass the young ladies repaired to the large parlour room, where a reception was tendered His Grace. On entering the room he was greeted by a bright welcome chorus, after which Miss Ruby Shea, in her usual happy and graceful style, read an address. The Archbishop then responded in earnest and soul-stirring words, congratulating the young ladies among other things on being pupils of such a distinguished institute as Loretto. Even the minims were not forgotten. Having drawn themselves up in a line outside the reception room, they also were the recipients of some words of fatherly kindness and His Grace's blessing.

A Popular Book.

There has never, we believe, been published in Canada a story that sprang so quickly into popularity as Westcott's "David Harum" and no story that has had so large a sale in the same time. The publisher reports that a fifth edition is now on the press, making a total issue of 12,000 copies within two months. No doubt liberal and judicious advertising has been a large factor in this extraordinary sale, but the most potent influence has been the enthusiasm created in the reader, which makes him "talk the book" to his friends as he meets them. No recent book has been so much talked of as "Have you read 'David Harum'?" is now almost as familiar as comments on the weather. The general consensus of opinion is that the book will live. As a portrayal of a type of American life it is a masterpiece of literary work—a touch of the genius of Charles Dickens.

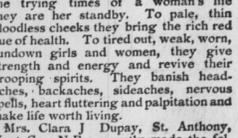

The Sale of the Season.

The fine dry goods stock of Walters Bros., Sarina, amounting to \$10,000, has been shipped to the King & Co.'s warehouses for sale to the trade in detail on Wednesday and Thursday next. This was one of the best stocks in the west, and the dress goods are particularly fine. At the same time the mould and undelivered goods belonging to the Donli & Gibson stock of Montreal will be sold. Men's and boys' suits, trimmings, cloths, threads, etc. 100 dozen ladies' blouses and 300 dozen women's black thread hose. Catalogs now ready and will be mailed on application. Liberal terms are offered. At 2 o'clock Wednesday the stock of J. N. Laird, Foxboro, general store, \$8,000, will be sold en bloc.

Worn Out Women

FIND HEALTH AND STRENGTH IN MILBURN'S HEART AND NERVE PILLS.

Women are more and more coming to recognize Milburn's Heart and Nerve Pills as their greatest friend and benefactor. From girlhood to old age, through all

the trying times of a woman's life they are her standby. To pale, thin, bloodless cheeks they bring the rich red hue of health. To tired, weak, worn, rundown girls and women, they give strength and energy and revive their drooping spirits. They banish headaches, backaches, sideaches, nervous spells, heart fluttering and palpitation and make life worth living. Mrs. Clara J. Dupuy, St. Anthony, Kent Co., N.B., recently made the following statement for publication: "I had been troubled with palpitation and weakness of the heart for some time, till at last I could hardly drag myself about. I heard of Milburn's Heart and Nerve Pills, curing so many that I thought I would try them. I must say that they did me good from the outset, and have so improved my health in every way that I feel like a new woman. I do not know what I would have done had it not been for Milburn's Heart and Nerve Pills, which cured me when I was in a serious condition. Milburn's Heart and Nerve Pills, a box or 3 for \$1.25, at all druggists."

up, what is the result? You must remove the stuff or it will decay and fill your house with evil odors of putrefaction. That's precisely what happens in your own body when you become constipated, and the poisonous matter is taken up by the blood and carried back into your system, only it is much worse, because you are unconscious of the effects, but every one who comes near you literally smells you.

My dear sisters, I wish to tell you that your health depends entirely on the state of your blood. Your blood makes you whatever you are, for through the blood every organ in your body is kept in repair. If your blood is poisoned by the waste material that is retained in your body because of your constipation, you are not being built up as you should be.

THE TORONTO WORLD. ONE CENT MORNING PAPER. No. 83 YONGE STREET, Toronto. TELEPHONES: Business Office-1784, Editorial Rooms-623.

THE RAINY RIVER GRAB. The first point we wish to make against the Federal Government in connection with the Ontario & Rainy River Railway project is their failure to take advantage of the opportunity that is presented by the building of this line for ameliorating the transportation problem.

What an opportunity the Liberal party had, and probably still has, of remedying the mistakes of the Conservative Government in granting a monopolistic charter to the C.P.R. in the first place, the Governments of the two provinces and of the Dominion are of the same faith politically.

If the Federal Government had seized on this project as affording an opportunity to better the condition of the producers of Western Canada, what would have been its course? It would have arranged for a conference between the three Governments interested and a joint policy would have been the outcome.

In extending the extraordinary bonus which it is proposed to give to Messrs. McKenzie and Mann, The Globe states that the Dominion subsidy to the line was incorporated in an Act of 1897, granting aid to several small railways at a rate varying with the cost of construction from \$200 per mile.

When a man breaks down with that dread disease, consumption, and recognizes his condition, he starts out for health. He tries this and that thing. He consults this doctor and that doctor. He indulges in all kinds of absurd athletic exercises.

The Ontario Government have voted \$400 a mile if it knew the Dominion Government was to pay \$600 per mile. The bonus of this railway was pre-eminently a case demanding joint action on the part of the three Governments interested.

The sole duty of The Globe in this deal is to excuse the Government for increasing the bonus to \$600 per mile. It concedes without question that the cost of the road will be more than \$15,000 a mile.

In defending the grant of the \$600 per mile bonus to Messrs. McKenzie and Mann The Globe of course has to repudiate the idea of Government ownership. Its argument in this respect is amusing.

While The Globe does not favor present ownership of the Rainy River Railway it nevertheless suggests that at some future date it might be in the interests of the people to acquire possession of the line.

While we are sorry that The Globe does not stand up for public ownership of the Rainy River Railway, we are not surprised at its action. The Globe is not the representative of the public who have grievances against the railways.

When a man breaks down with that dread disease, consumption, and recognizes his condition, he starts out for health. He tries this and that thing. He consults this doctor and that doctor. He indulges in all kinds of absurd athletic exercises.

100 HUNDRED ACRES FLOODED

Thurso Votes for Purchase of Waterworks Plant—Other News From Ottawa.

Ottawa, May 5.—About a dozen families are homeless at Gattineau Point to-day. Overflowing of the Ottawa River, which has risen to a height greater than for several years, six families were compelled to move last night, and several more did so this morning.

Over 200 acres of land in the rear of the village are flooded, but no damage will be caused by this, as there are no houses on the low properties. In the residential section, about half a mile in the lower end and a quarter of a mile in the upper end of the village is inundated. The Town Council has ordered the road to be closed, and it is unsafe for travel. It was there that Lady Aberdeen narrowly escaped drowning two years ago.

Thurso Wants Waterworks. The ratepayers of the Village of Thurso on Monday, by a vote of 47 to 9, carried a bylaw to raise \$18,000 to buy and complete a waterworks and electric light service, put in the Stadacona Electric & Water Power Company. Last year the village entered into contract with the Stadacona Company to put in a service, to be completed in three months. The company failed to complete the work in time, and a dispute ensued. The Canadian Granite Company applied to-day for a winding up order.

Fish Hatchery Output. Within the past week there have been shipped from the fish hatcheries here 1,800,000 whitefish fry to the different lakes and fishing resorts throughout the Province. The whitefish hatched out during the last week in April, and since then they have been sent out by thousands. The following are the shipments which have been made: For Humphries Lake, 150,000; Green Lake, 150,000 (these are both in the County of Renfrew); Rock Lake, Halliburton County, 800,000; Bass Lake, Lombardy, Ont., 200,000; Round Lake, Killaloe Station, 200,000; Otter Lake, Lombardy, 150,000. There will also be 300,000 sent to Shabbot Lake next week.

Water Power Inquiry. Hon. J. M. Gibson has written a leading member of the Ottawa Board of Trade to get information regarding water power in the vicinity. The inquiry came as a result of the preparation of the maps showing the available water power in the vicinity of Ottawa, and also as a result of the advertising Ottawa has received since the facts regarding the water power were published. It is estimated the Ottawa district can furnish 100,000 horse power from its water falls.

MR. MCGREGOR WANTS TO KNOW

Whether the B.A.B.N. Company Reproduced Facsimiles of Any Postage Stamps or Not. Ottawa, May 5.—(Special.)—Mr. McGregor gives notice that he will ask whether the British American Bank, formerly contractors for the Government postal stamps, did, without the consent of the Government, reproduce facsimiles of any postage stamps supplied by them under their contract with the Government for any other, and, if so, for what purposes, and whether or not such reproduction was with or without the knowledge of the Government, and whether such reproduction is or is not contrary to law?

ST. GEORGE'S SOCIETY.

A Good Attendance at Last Night's Meeting and Much Business Done. There was an unusually large attendance at the meeting of St. George's Society held last night. A number of new members were elected, and satisfactory reports were received from the committees who had charge of the smoker and church service. The report from the Dinner Committee was not ready, but the secretary reported that the affair was in every way a pleasing success.

A communication was received from Miss Fitzgibbon extending an invitation to the society to make an exhibit of relics and portraits at the coming Historical Exhibition. The matter was left in the hands of a committee.

Mr. J. Taylor also read an interesting paper on "Money," which was followed by a general discussion.

Philip Todd Buried. The remains of the late Philip Todd, wine and spirit merchant, were laid to rest yesterday afternoon, in St. James' Cemetery. Services were conducted at his late residence, 12 Avenue-place, and were strictly private, only the intimate friends of the family attending.

Merrie England. The Social Reform League discussed the socialism of "Merrie England" in Guild Hall last night. Over 1,000 copies of this popular work of Robert Blatchford have been sold, and the extracts read and the discussion which followed were very instructive. G. G. Pursey was chairman.

New York, May 5.—Lawrence Duffy, 70 years old, of No. 306 East Thirty-eighth street, sat up in bed yesterday morning, smoked a pipeful of tobacco and then died. Three years ago a cancer, caused by excessive smoking, appeared on the man's lip. His doctor told him to stop smoking or he would die. Duffy refused to give up his pipe, and three weeks ago he grew so weak he was obliged to go to bed. His relatives refused to give him his pipe until yesterday.

MINING ON THE LOWER SEINE.

Toronto, Standard and Montreal Mining Exchanges—Good Strike on Cariboo Mine.

The letter printed below speaks for itself. Ontario and British Columbia should certainly take advantage of the opportunity for a free advertisement at the Greater Britain Mining Exhibit to be held at Earl's Court, London, Eng. The World has called attention several times before to this matter. The letter reads:

Editor Toronto World: Col. J. S. Hillier, president of the American-Canadian Gold Mining Company, who is now in England, has secured space for the display of Ontario minerals in the Mining Exhibition to be held at Earl's Court, and your cooperation in securing samples and specimens for the exhibit is solicited.

The exhibition opens this month and will last five months, thus allowing sufficient time to gather the material for a magnificent display. The people of Ontario will be proud to see the exhibition last five months. The Canadian Pacific Railway has granted special rates for the transportation of minerals for the exhibition, and shipping directions will be furnished you later.

assay of the Golden Star was only \$5.83 per ton. There are three veins on the Randolph. The one they are sinking on now is 400 feet at a depth of eight feet, and has retained its width to its present depth, showing 4 feet of quartz with two well-defined veins. Every blast put in now, it is reported, throws out rock containing visible gold fully as rich as, if not richer than, the specimen found in the Golden Star at a depth of 150 to 200 feet.

The management of the Randolph are negotiating with one of the best mining men in western Ontario to take charge of the property, and also are arranging for the purchase of a three-drill compressor plant, as well as hoists, pumps and all other necessary machinery. The management has announced that it will have a stamp mill in operation on the property by January, 1900.

Word from the Alice A is to the effect that sinking on the No. 2 shaft is progressing favorably and rich ore is being taken out of the cross-cut in No. 1 shaft. The present indications are that Selma River will have a pretty lively camp during the coming summer.

Toronto Mining Exchange. Afternoon. All of these workings show a heavy iron sulphide ore, carrying gold, silver and copper. The two first-mentioned shafts and the various open cuts carry average values of about 80 per ton gold, one to three per cent. silver, and about three ounces in silver.

Strike on the Cariboo. Mr. McAuley, a brother of G. B. McAuley, managing director of the Cariboo McKinnon mine, at this town, and Mr. H. M. Pellatt, vice-president of the company, will reach here to-day. An especially rich strike is said to have been made on the 800-foot level of the mine. The stock was in demand yesterday afternoon.

Northern Belle. Editor World: As a reader of your valuable journal, with many other readers here, I ask you to kindly enlighten me on what is being done with the Northern Belle mine. Is the mine being developed? And why is the stock selling at the ridiculously low figure of 2 1/2 cents? (Signed) J. C. Rogers.

Meaford, May 5. Work has been stopped some time on the Northern Belle, owing to lack of funds. The World is given to understand that there is some money in the treasury, but not enough to start with. However, interest in the property is to be revived. A movement is now on foot for the reorganization of the company within a few weeks, and on the strength of this proposed re-modelling of the company some people are already buying in a stock. Mining on the Seine River. Duluth, May 4.—(Special)—Reports from Mine Centre, Ore for state that while it is almost impossible to get in and out from there, still there have been a great many people coming to that section during the past two or three weeks. It is expected that navigation will be open about the middle of May, and the boats will be running from Tower, Minn., also from Fort Portage.

Development work at the Golden Star is showing a much better body of ore. Development work is progressing on the Randolph, an adjoining property; the shaft at the time of writing, one week ago, was down 20 feet. Night and day crews are sinking as rapidly as possible, and things are going along in fine shape. The Randolph is one of a group of mines, including the Golden Star, which was owned by George Randolph, his son Edward and Nell Burger. An examination of this property in 1895 by Julius Ropes showed average surface assays of \$15.85, while the average

Word from the Alice A is to the effect that sinking on the No. 2 shaft is progressing favorably and rich ore is being taken out of the cross-cut in No. 1 shaft. The present indications are that Selma River will have a pretty lively camp during the coming summer.

HEADLIGHT GROUP ON SULLIVAN HILL, Fort Steele District, B. C.

1,000,000 Shares. Assessable Up to 5 Cents a Share, Not Exceeding One Mill Per Month—250,000 Shares in the Treasury for Development Purposes.

THE HEADLIGHT MINING CO. own and will early this spring commence development work on the HEADLIGHT, WELL MET and DIAMOND FRACTION mineral claims, situated on Sullivan Hill, in the Fort Steele District, East Kootenay Mining Division of British Columbia. This section has long been known to prospectors and investors as one of the richest in British Columbia, but lack of transportation facilities has retarded its development. The Canadian Pacific Railway Co. will this spring build a spur line of the Crow's Nest Railway to a point midway between the Sullivan and North Star mines and not more than a mile from the Headlight Group.

Many fine claims have been located on Sullivan Hill and Huckleberry Mountain, between which Mark Creek runs. These developed claims in several cases are now in fact among the largest mines in British Columbia. The SULLIVAN GROUP, almost immediately adjoining, and with a capitalization of 2,500,000 shares, has one of the biggest silver-lead bodies blocked out that has ever been known, and will in all probability be one of the largest mines in the Province. The properties of the Sullivan Group Mining Co. are the Hamlet, Shylock and Hope (see cut). The shares are selling at from 18 cents to 22 cents. The NORTH STAR MINING & MILLING CO., owning the NORTH STAR, MIDNIGHT, STEWART and twenty or thirty other claims on Huckleberry Mountain and Sullivan Hill, all within a mile and a half of the HEADLIGHT GROUP, is said to have fully \$2,000,000 worth of ore blocked out. It is a silver-lead, carrying average values of about \$90, and is controlled by gentlemen closely connected with the C.P.R.

THE FORMATION OF SULLIVAN HILL is Dolomite lime, lying flat on a Diorite formation and the ore generally is a silver-lead, carrying as high as 70 per cent. lead and 93 ounces of silver. In some places gold and copper values are considerable. In others, as depth is attained, gold and copper values come in; as, for instance, in the Stewart and the Sullivan Group.

THE FACILITIES POSSESSED by the Headlight Group are exceptional, the Headlight especially being well situated for being worked by a tunnel. There is an excellent mill site, and Mark Creek, supplying abundant water for all purposes, crosses the Headlight claim.

THE FIRST BLOCK of stock is now offered at 5 CENTS, and at this price should be a good investment. Write or call for Prospectus and any further information desired to

GOLD STOCK FIVE CENTS PER SHARE.

We are organizing the Premier Gold Mining Co. to purchase and work Location K74 in the Selma River district, right adjoining the Foley mine. This location contains 140 acres of unmined quartz veins are visible on the property. Very little work has been done, yet enough to satisfy the promoters that the property is valuable and that in all probability gold will be found in paying quantities.

Concerning the general character of the veins it might be said that they vary from large-sized veins running 2 1/2 to 12 feet in thickness, down to small veins which average 6 inches in thickness. In both cases the veins are remarkably persistent and can be traced for long distances. These veins in general are composed of quartz generally banded and carrying iron pyrites, since-lead galena, and some copper pyrites in greater or less quantities associated with Gold. The gold is for the most part coarse, and this fact, together with the tere character of the granite for a considerable depth, would indicate that the fragmenting stage of these veins will extend down to the level of the surface. Your property offers a splendid field for prospecting work. The few veins already discovered of the great number which undoubtedly exist on your area have not been found to carry pay rock at the places where they have been opened, but it will be a matter of great surprise to me if prospecting operations on your prospectively valuable area do not disclose veins which will support a steady output of gold.

The company will be stocked for \$1,200,000 of which \$650,000 goes to pay for the property and \$550,000 as Treasury Stock. To defray expenses of \$100,000 each of the Treasury Stock in the proposed company will be sold to subscribers therefor at

PAVEMENTS. The letter printed below speaks for itself. Ontario and British Columbia should certainly take advantage of the opportunity for a free advertisement at the Greater Britain Mining Exhibit to be held at Earl's Court, London, Eng. The World has called attention several times before to this matter. The letter reads:

Editor Toronto World: Col. J. S. Hillier, president of the American-Canadian Gold Mining Company, who is now in England, has secured space for the display of Ontario minerals in the Mining Exhibition to be held at Earl's Court, and your cooperation in securing samples and specimens for the exhibit is solicited.

The exhibition opens this month and will last five months, thus allowing sufficient time to gather the material for a magnificent display. The people of Ontario will be proud to see the exhibition last five months. The Canadian Pacific Railway has granted special rates for the transportation of minerals for the exhibition, and shipping directions will be furnished you later.

In the under-tow.

This is an age of impressionism—Outward character-indications are accurately read at first glance by trained intelligence.

Why is it you "turn down" a man in your mind before he utters a word?

Your first instinctive impression has not been good.

If you judge others by outward appearances surely you too are thus judged.

Good clothes—pleasing outward appearances therefore may be the starting point to success.

Lack of them may be the under-tow to failure.

But perhaps your purse is slender—may be you cannot afford to buy good impressions at "custom tailor" prices.

You don't need to.

High grade custom tailor style, finish and fit are necessary, but—you can get all these in "Semi-ready" at prices which will enable you to buy four suits a year, where you could hardly afford the price of two of the right kind of "custom" suits.

Finished to your order—delivered two hours after.

HIS HEART FAILED.

Mr. William Thompson, a Pioneer of the McKellar Neighborhood, Suddenly Cut Off. McKellar, Ont., May 5.—About 5 o'clock yesterday evening Mr. William Thompson, a farmer living about one and a half miles from this village, who, during the day had been engaged in plowing for a neighbor, after partaking of a hearty meal, was suddenly stricken with heart failure and in a few minutes was a corpse. He was about 50 years of age, hale, strong and apparently in the best of health, and his sudden death has been a terrible shock to his family and to the whole community. He has been assessor and tax collector for the town-

ship of McKellar for some years past, both of which offices he filled satisfactorily. Mr. Thompson, who was one of the pioneer settlers of this district, was a member of the Methodist Church and leaves a widow and family of six—three sons and three daughters.

THE GREAT STEEL COMBINE.

All the Difficulties in the Way of Amalgamation Have Been Removed.

SO SAYS MR. JOHN W. GATES.

The Deal is Just as Far-Reaching as Human Ingenuity Could Make It—Plenty of Money.

Chicago, May 5.—The Times-Herald says: John W. Gates has confirmed the rumor regarding the combine of all the large steel companies of the country, and made the assertion that the deal was as far reaching as the ingenuity of the minds making it could conceive. Mr. Gates has just returned from New York, where a recent conference of the steel magnates was held for the purpose of arranging the details. The president of the American Steel and Wire Company said that all the difficulties in the way of the combine had been removed and the financing of the great combine which could control the steel and wire product of the country had been successfully carried to a conclusion. The headquarters will be in New York, and, according to Mr. Gates, the capital stock will be between \$500,000,000 and \$800,000,000, and he remarked that the figures might be \$1,000,000,000. The president of the new company will be H. C. Frick of Pittsburgh, who has been so closely identified with Carnegie.

Carnegie Bought Out. New York, May 5.—According to The Times, the entire interest of Andrew Carnegie in the Carnegie Steel Company has been purchased by his co-partners in the business, with H. C. Frick at their head. The exact figures which represent the purchase price could not be learned. It is said, however, the price is over \$150,000,000, and is entirely satisfactory to Mr. Carnegie. It is understood that one of the principal reasons for the sale is that the new company shall retain the name of the present combine. The new company, under the name of the Carnegie Steel Company, yesterday, at Trenton, N. J., filed articles of incorporation. The incorporation at this time appears to be for the purpose of securing the name, as the capitalization is for the sum of \$300,000,000.

Sever Pipe Combine. New York, May 5.—The Times says: Dos Passos & Mitchell to-day gave out the details regarding the proposed Federal Sever Pipe Company. It will have a capitalization of \$25,000,000, half of which is to be preferred stock.

Two of young Elliott's brothers were on trial at Whitby yesterday, charged with accessory to a man named Sydney Brown at Belton. Charles Elliott was dismissed, but John was sent to the Central for six months.

TARIFF REVISION FOR CUBA.

Reduction of About One-Half on Butter and Duty on Verified Bricks Almost Wiped Out.

Washington, May 5.—Acting Secretary of War McKeljohn, by direction of the President, has made the following amendments to the tariff schedules and port regulations in Cuba and Porto Rico: 1. The tariff on butter and oleomargarine to Porto Rico has been reduced from 20 cents per 100 kilograms to \$2.10. 2. The tariff on verified bricks for paving purposes in Cuba has been reduced from 20 cents per 100 kilograms to 5 cents. 3. Temporarily all vessels, whether American or foreign, are to be permitted to load and clear for the United States from Porto Rican ports without being subject to penalties.

Hereafter any resident in Cuba of any nationality and any citizen of the United States may serve as master of any vessel engaged in the coasting trade of Cuba without renouncing his allegiance or nationality.

MRS. WEBSTER GREATLY DISTRESSED.

Brookville, Ont., May 5.—Mrs. Webster, who was arrested on Wednesday, charged with blackmail, and whose case was enlarged, was before the Magistrate again this morning, when her solicitor asked for and was granted a further adjournment until 9 p.m. Her attorney is nearly prostrated, and the public were not admitted. The case was examined, and Chief Justice was asked to adjourn the trial until 9 p.m. Her father desired to furnish bail amounting to a second surety, but it was not then found. The woman was taken back to jail, to remain till a second surety could be furnished.

WHAT FARMERS CAN DO.

Prof. Robertson Tells How They Can Control the Elements in the Cultivation of Crops. Ottawa, May 5.—Professor Robertson addressed the Committee of Agriculture to-day. He discussed the principles which make agriculture successful and profitable in this country. He pointed out the difficulties with which the farmer had to contend. Those of climate and temperature were almost uncontrollable, but the preparation of the soil, so as to ensure the largest amount of plant food, and the use of the most productive kind of seed, were entirely within the control of the farmer.

He explained the rotation of crops, showing how the plants in which the growth of root and stem and leaves were important prepared the soil for the growth of the grain crop which followed, in which the size and weight of the seed were important.

Mr. Robertson's address, which will be published in the committee report, will form interesting and reliable reading to Canadian farmers.

NURSES OF THE SICK.

Miss Salvey of Toronto General Hospital Presided Over a Convention in New York. New York, May 5.—The opening session of the sixth annual convention of the American Society of Superintendents of Training Schools for Nurses was held to-day in this city. The present convention was scheduled to be held in Chicago in February, 1900, but has been deferred to the present time. More than 50 delegates from various parts of this country and Canada were present.

Miss Salvey, who is attached to the General Hospital at Toronto, presided over the convention. The reports were read and new members initiated. Reading of papers on the work of nursing in the home and in the institutions were discussed by Miss May Emay of the Rochester Insane Asylum, Miss May M. Hilditch of Boston City Hospital, and others. The convention will close to-morrow, when the election of officers for the current year will take place.

SHOT HER MOTHER.

Because the Old Lady Told Her Granddaughter an Early-Life Secret. Chicago, May 5.—Mrs. Augusta Styles, after waiting two hours at the entrance to the Hall last evening, shot and killed her mother, Mrs. Katherine Schultz. Mrs. Schultz was to be married to the late Mr. Schultz's daughter, Mrs. Styles, who is a well-to-do business woman. Mrs. Styles is said to have disclosed this fact to her granddaughter. The matricide has been arrested.

WINNING DUNLOP TIRES.

Skilful Folk Who Read the "Dunlop Annual" to Much Advantage. The judges in the proof-reading contest lately held by the Dunlop Tire Company have made their report. Five prizes were offered to the readers of the "Dunlop Annual" who found the most typographical errors in the book of 1898.

In the first place, before proceeding to examine the 250 letters submitted, the judges decided to disallow any question of punctuation. Not only are there many differences of opinion in the matter of correct punctuation, but the prevailing custom is to punctuate differently, and other marks not absolutely necessary to the clear understanding of the subject matter.

It may be said in passing that the Dunlop Tire Company distributed about 50,000 copies of the "Dunlop Annual" requests for copies coming from all parts of the Dominion. Hundreds of letters speak in high praise of the Dunlop Tires.

These are the winners, each being entitled to a new pair of Dunlop tires on identifying letters, or on being identified at the offices of the Dunlop Tire Company: W. S. Cassels, 4 Wellington-street east, Toronto.

Robert Davidson, 67 Lewis-street, Toronto. John Macrae, 19 Shuter-street, Toronto. Miss B. Yellowlees, 187 Mutual-street, Toronto.

As in the case of the advertisement-writing contest which the Dunlop Company promoted last year, a successful letter a year ago most of the prizes fall to those who have had a great deal of experience in the work submitted them. Mr. Cassels, the work of the well-known legal firm of Cassels, Cassels & Brock, had an experience in the correcting of legal reports, a most particular and exacting form of proof-reading. He found more errors than any other reader.

In the Surrogate Court. Jan. Leavens of Toronto last March, leaving no will. The estate consists of cash in bank \$3501, and real estate \$800. The will of the late Robert Scott was also entered for probate. He owned three houses in Toronto, worth \$2400, and No. 48 Widmer-street, worth \$1500, with furniture, \$400. The whole is to be divided equally between his three children, Elizabeth Murphy, widow, who died last month, named her son as sole heir to her estate, worth \$1217.65.

The Art Sale. The auction sale of water-colors by Maraduke Matthews, R.C.A., was well attended yesterday afternoon, and some rare bargains were secured. The pictures were sold ranging in price from \$2 to \$40. The sale was conducted by Mr. Charles M. Henderson in his usual satisfactory manner.

Fruit Growers' Report. The annual report of the Fruit Growers' Association made its appearance yesterday in condensed form. The report of the Entomological Society of Ontario is also just published.

AGAINST IRELAND. Frenchman Disinherited Because of Prominence of U. S. Prelate.

Paris, May 5.—A writer in one of the morning papers here to-day complains in the strongest terms of what he calls the abdication of the French clergy, who allowed a foreign priest (meaning Arcuate) to officiate at the anniversary of the deliverance of Orleans, and to pronounce a message upon Joan of Arc.

TALK OF SPECIAL SESSION. Belief That President McKinley Will Call Legislators Together.

Washington, D. C., May 5.—There is a growing belief among the prominent members of Congress that the President will call Congress to meet in extraordinary session this fall, probably early in October, to discuss questions growing out of the possession acquired as a result of the war with Spain, and general legislation including that relating to currency reform, the Nicaragua Canal, merchant marine, etc.

HE NEVER HEARD OF THE WAR

Captain of the Antarctic Expedition Vessel Had Been Away Eighteen Months.

GAINED SCIENTIFIC KNOWLEDGE, Found a Very Cold Climate and Was in Total Darkness for Seventy Days.

New York, May 5.—Capt. Thomas of the steamer Coya, which arrived to-day from South American ports, reported having talked with Dr. Frederick Cook of the Belgian Antarctic expedition at Montevideo. He quoted Dr. Cook as having said: "We have had a most interesting voyage from a scientific standpoint. For 70 days we were in total darkness, and the climate was intensely cold. We lost two men from a crew of 17, one from sickness and one who fell overboard. We explored Alexander Land when we got stuck in the ice. When the Belgica was returning to the Straits," said Capt. Thomas, "she went ashore on Pezago Channel, south of Terra del Fuego, but no damage was done. "Dr. Cook had not heard a word of news for six months. He was very much surprised to hear about the Spanish war. I did not get any specific statements from him. "There was to be a meeting of the members of the expedition the day after I sailed, and so Dr. Cook could not leave until the night before. He would go, and I could not wait to see."

As the reporter was leaving the Captain the sailor remarked: "By the way, I've just posted a letter from Dr. Cook, addressed to Miss Anna E. Forbes. She's his sweetheart, you know." "The Captain did not know that Miss Forbes was buried one year ago last Easter Sunday. It is believed that the Belgica is on her way home."

ARRESTED THE WHOLE TOWN. Practically Every Man in Wanders, Idaho, Has Been Taken Into Custody.

Wallace, Idaho, May 5.—Troops A and C of the Fourth Cavalry came here yesterday and arrested practically every man in town. A train of two coaches and six box cars, all heavily loaded, took them to Wanders, Idaho. The mountains are full of fighting men. With the railroads all guarded, the only safe way out of the country is over the old Golden-road to Thompson Falls, Idaho. The route they lined the road with soldiers and the fugitives have the sympathy of a majority of the people. The fugitives are being hunted within six miles of here. They acknowledged being last-chance men, but were frightened by the troops at Thompson Falls, and decided to abandon the trip. They had received the word from the army that the hard-working men should be driven out of the country by soldiers."

TO MAKE HORSELESS CABS. A Deal Has Gone Through Which Will Further Curtail the Use of Horses.

Chicago, May 5.—The gigantic street car railway deal, by which the Whitney-Elkins-Widener syndicate of New York and Philadelphia are to gain the control of nearly all the surface lines in Chicago, will probably be finally completed late in the afternoon. The Eastern men had another meeting with representatives of the Chicago system early to-day, then adjourned to make arrangements for a conference to be held at 10 o'clock to-morrow. At the conclusion of which it was said by one of the interested parties that all the arrangements would be carried out as previously outlined.

JUST ORDINARY PHILLIPS. Was the Man's Name, But for Business Purposes He Had to Be a Baron.

London, May 5.—In a Police Court here this afternoon, Baron Hector Depeunck was arraigned on the charge of forging obituary notices in the name of Count Moro, with reference to certain Chinese railway concessions, and thereby obtaining money under false pretences. Count Moro, the prosecuting witness, on cross-examination, admitted that his real name was Phillips. He said that he was the son of a manufacturing chemist named Moro Phillips of Philadelphia, and that he had adopted the name for business purposes. The charge of forgery against Baron Depeunck was dismissed.

THINK BLOOD VESSEL BURST. In His Brain—A Horse Ran Away and Seriously Injured Charles Ross.

Charles Ross, an employe of R. Simpson & Co., living at the Bond-street, was out exercising a horse Thursday afternoon on a Richmond-street, when some boys who were watching him frightened the animal by clapping their hands. The horse suddenly bolted, and Ross, losing his hold on the saddle, fell off onto the pavement on his head. A physician called and the horse was taken to St. Michael's Hospital in a cab. It was found that his head had been hurt and blood ran from one ear. The doctor did not think that the skull is fractured, but fear that a blood-vessel has burst in the brain. Ross is lying in a semi-conscious state and may not recover.

A FAWN CAPTURED IN THE EAST END. A Pleasing Presentation at Norway—Other Interesting Items From York County.

Toronto Junction, May 5.—(Special.)—A very stale loaf figured in the Police Court proceedings this morning. It was considered by the judge to be a loaf of the same quality as that which was sold to Mr. Wright on Tuesday, after the four-pound bread was found to be stale. The loaf was sold to Mr. Wright by the baker, and the prosecution failed to prove that it was the same loaf. The judge, however, is making every effort to keep people of their tracks, since the loaf was sold to Mr. Wright by the baker, and the prosecution failed to prove that it was the same loaf.

East Toronto, May 5.—(Special.)—A vagrant, who was taken up as John Bull, who had very little resemblance to that prototype so often seen as John Bull's representative, was arrested by County Constable Tubery this morning, for refusing to give his name. The man was taken to the police station, and the constable was making every effort to keep people of their tracks, since the loaf was sold to Mr. Wright by the baker, and the prosecution failed to prove that it was the same loaf.
