A MIXED QUOTATION

Ottawa, March 31.—The bounty paid by
the Dominion government on crude
petroleum came in for a good deal of
criticism this afternoon when the
house went into committee of supply
to estimate the trade and
commerce department. Lucien
Gagnon, Liberal member for
Dorchester, led the attack. He could see no reason
for the government paying a
bounty of one and a half cents per
gallon to the producers of crude petro-
leum. He averred that the money
went to the Imperial Oil Company,
which was an offshoot of the Stan-
ard Oil Company. Just now, he said,
all products of petroleum were selling
at a price high enough to repay
the oil companies. The bounty, there-
fore, was nothing more or less than
a gift to John D. Rockefeller, who, in
Mr. Gagnon's picture, was the
Canadian government has in its
treasury.

Andrew McMaster, the untried
free trade member, for Broome, de-
nounced the oil bounty as "rank, rag-
ing lunacy," and Gen. Griesbach,
Unionist member for Edmonton, could
not see why the government should
pay a bounty to the Ontario producer
for bringing oil to the surface, and
analyse the western producer for do-
ing the same thing by imposing a
royalty.

Sir George Foster disavowed all
responsibility for the legislation which,
he said, had been passed by the
Laurier government. It was his duty,
he said, to administer the act until it
was repealed by parliament, and he
was only asking for a vote to cover
the cost of administration.

wounds. Her husband, fatally injured,
raved all night and died at the

Meanwhile the police had been in-
formed, and coming to the store dis-
covered Gironto and took him to Notre
Dame Hospital, where he died about
two hours later.

—Speaking before the Canadian Club

"it is a national tragedy," he said, "that
the people are vanishing from the land.
I want to ask you business men what
you are going to do to stop this. We
all agree that we must get the people
on the land, but how is it to be done?
There are 150,000 less farmers in On-
tario than there were thirty years ago.
Some say that this is the result of
labor-saving machinery, but I cannot
accept this. What about labor-saving
machinery in the cities? Did it de-
populate them? It did not.

Huntly, who has been brought here from New Westminster, B.C., where he was serving a three-year sentence for forger, charged with the murder of Constable Chicoine, on June 13 last, today faced his former associate, Frank Collins, also a convict, as the latter related the details of his relations and activities with Coleman, including an alleged admission by the latter, stated to have been made in the Alberta Hotel here, on June 23, in which Collins asserted that Coleman had shot the constable, with full particulars as to how and where the shooting took place.

There was a tense moment in court when Collins, having been given permission to examine the large horn spectacles worn by the accused, was about to go over to the dock to obtain them. He was stopped at the last moment by counsel for the defence, who, himself, took the glasses from Coleman and passed them over to Collins. The need to examine arose in connection with a question of identification.

OUTLOOK OMINOUS IN MINERS' STRIKE

(Continued From Page 1). waymen and the transport workers actively to support the miners, a sympathetic strike, the outlook is ominous. Some persons point out that there is an increasing likelihood of the entire Triple Alliance, numbering almost 3,000,000 workers, laying down their tools. They point to the fact that an identical situation, as regards the railroads, will be almost certain to come up again in August, when government control of the railroads ceases. On this account they argue, the Triple Alliance may see fit at the present time to make the miners' cause a test case. The temper of the miners for the walkout is indicated in their strike order, which includes the officers and the other workmen who are essential to keep the mines in working condition. This, however, it is declared, will be countered by the government employing naval men to go into the pits, if it is necessary to take such action to prevent the ruination of the mines.

Many Mines Will Be Ruined

The government's plan, it is understood, even contemplates measures to take care of the vital services by the entire triple alliance, a walkout to avert such a contingency are continuing, and in some quarters, the belief is expressed that the government will employ naval men to go into the pits, if it is necessary to take such action to prevent the ruination of the mines.

N. Hincks of Toronto, secretary of the latter organization, and also by Sir George Burn of Ottawa, its treasurer. Dr. Hincks asserted that fifty per cent of Canada's immigrants were feeble-minded, that applied whether to the west than the east. In Canada there were as many cases of mental disease, but only the advanced or chronic cases of mental trouble were looked after. The estimate was 160,000 mental cases, which had astounded the committee. GRADUATE NURSES OF ONTARIO MEET

Convention Favors Ontario Rest Homes for Nurses Convalescing. MANY PAPERS READ

Hamilton, March 31.—Interesting papers on matters of importance to the nurses were read this afternoon at the second session of the eighteenth annual convention of the Graduate Nurses' Association of Ontario. Discussion of an educational nature followed the papers, and the nurses freely entered into talks.

Question of Rest Homes

Considerable interest was taken in the paper by Miss G. H. Victorian, Order of Nurses, St. Catharines, on "Pre-Natal Care and How to Teach Little Mothers' League." Miss Ada Egan of St. Joseph's Hospital, this city, gave a talk on the importance of detail in nursing, which was appreciated by the delegates. Another interesting paper was that of Miss Catton, superintendent of the General Hospital at Ottawa, who spoke on the duties of a private nurse in a hospital. Miss Hall of Brantford presided at a round table conference at which Miss Catton's paper was discussed. Discussion also took place on special clinics for private nurses.

Question of Rest Homes

Miss Ida Carr of this city opened the discussion on the advisability of having such form of propaganda as assisting in publishing The Canadian Nurse. Probably the most interesting discussion was on the question raised by Miss Malone of Toronto, as to whether or not rest homes for convalescing nurses should be established in Ontario. The general opinion was that such a move would be a wise one, and in many ways beneficial.

AGREE TO EXTEND TIME FOR RELIEF

Dominion and Provincial Governments in Line With City's Request.

Toronto has been successful in securing the consent of the Dominion and provincial governments to continue to pay their share of relief expenses until April 10. Property Commissioner Chisholm received official government confirmation of this yesterday.

Whether the relief will be extended after April 10 depends to a great degree on the result of the meeting of the organizations interested, which is to be held at the city hall next week.

Relief, which has been granted by the D.S.C.R. for the last three months, has been extended from March 31 until April 23, 1921. Those eligible for relief during the extended period will be: Married men and single men with dependents, who have received assistance as such prior to March 31, 1921. No further assistance will be granted to single men without dependents.

Allowance on April 1, the schedule of allowances will be as follows: Man and wife, \$64; first child, under sixteen, or girl under seventeen, \$12; second child, under sixteen, or girl under seventeen, \$10; maximum allowance for any family will be \$35.

It will be seen from the above that no new applications will be accepted after March 31, 1921. With the exception of the above amendments the provisions under the order-in-council will be in every respect, administered as heretofore.

Many Were Worried. Applicants for relief at the Krausmann Hotel yesterday, numbering 1,986, were exceedingly glad to find out that the relief there had been extended at least for ten days, if not longer. Some of these men had been very badly worried over the future, which worry can now be put off for another week or so.

Another proof of the acuteness of the present unemployment situation was furnished by the statement issued from the government employment bureau yesterday, showing that more than three thousand men were added to the ranks of Toronto's unemployed during the month of March.

HARVEY N. BARRY DIES AFTER LONG ILLNESS

After a long illness, Harvey Nelson Barry, business manager of The Toronto Star, died yesterday at his home, 211 Spadina road, in his 60th year. The late Mr. Barry came to Toronto about 20 years ago and joined the staff of The Weekly Sun when the late George W. Smith was associated with it. He remained with The Weekly Sun until it was taken over by the United Farmers about 18 months ago, and converted into the present Farmers' Sun, of which he became the business manager.

Deceased was the only son of the late William Barry, a well-known and an Anglican in religion and a Conservative in politics. During the year he was strongly for the Union government. In fraternal circles he belonged to the Masonic order, the Independent Order of Oddfellows, Canadian Foresters, and the Independent Order of Foresters. He is survived by a widow, one son, Harry M., at home; one daughter, Mrs. Dr. Roy Coultas, and one sister, Mrs. H. Gummer, of Guelph.

TORONTO ACCOUNTANT'S WILL. Robert Francis Spence, an accountant with the Constellation Trust Co., died Feb. 7, leaving \$10,220 personalty, \$5,400 insurance payable to his wife, Centre Island, valued at \$3,000, bequeathed \$1,000 to his daughter, Miss Barbara J. Spence, 302 Avenue road, and the residue to his daughters, Mrs. Marjory Britton, Mrs. Dorothy Stewart, Mrs. Ruth Grant, Mrs. Frances Clark, and Miss Barbara Spence.

CANADA HAS PLACE IN WORLD PEACE

Principle of Justice and Cooperation Necessary to Attain End, Says Doherty.

IDEAL ACHIEVED

Minister of Justice Tells Empire Club of League of Nations.

That world peace could only be secured by international recognition of the principles of justice and co-operation to the attainment of which the greater powers, World-wide public opinion would soon play a great part in the affairs of the empire and the world. When the principle of justice and co-operation is fully appreciated, the smaller nations in the league, for not alone would the peace be permanent, but rather all the nations working in harmony.

Need Missionary Work. He believes that missionary work, too, was needed, that the statesmen met for the ultimate good of humanity. Doherty said he did not know just what the court meant to the world. Canada's interest in the maintenance of the League of Nations was essential that Canada improve herself before taking too great an interest in world-wide affairs.

Under the leadership of their talented conductor, Rev. Father Finn, the Paulist choir at Massey Hall last night added to the high reputation won on former appearances in Toronto, by their highly artistic rendition of a program of mediaeval and modern music.

Under the leadership of their talented conductor, Rev. Father Finn, the Paulist choir at Massey Hall last night added to the high reputation won on former appearances in Toronto, by their highly artistic rendition of a program of mediaeval and modern music.

Justice was the only firm foundation upon which permanent peace could be established, said he, in relating the history of the peace conference with reference to the duty imposed upon the council of the league in preparing a plan for an international court. Such an institution was highly desirable for the success of the league, and the conference led it to the league to create its own court, a permanent court of international justice.

As a result of the international conference of jurists which was held at The Hague last year following the action taken by the league, a proposed constitution for the permanent court was submitted by which there were to be eleven judges and four assistants to be selected without regard to any national considerations. Each nation would be limited to one member in the court, which would be enlarged as the nations continued to enlist as members. The judges were to be men of the highest character and of international repute, and were to be elected following a majority vote in both the assembly and the council.

Representations of Nations. The powerful nations were represented in both council and assembly, said he, in referring to the view taken that the strong nations should have more influence, while the smaller nations were only represented in the assembly. It was likely to be accepted that the greater powers would be permanently represented while the lesser nations would have temporary power only. But the great question was taken in representation, but which the jurists favored compulsory jurisdiction, voluntary, whether any nation could be forced to appear before the court if another nation demanded it. At The Hague jurists favored compulsory jurisdiction, the assembly would have voted in favor of it and the great nations realized that in it lay the ideal, but they would not subject themselves to the possible results of its existence. The council favored restriction of the powers of the court, and this proposal had been adopted.

Sacrifice by Greater Powers. "While we ultimately achieved that ideal, said he, "yet in a large measure we failed in our purpose. We overcame the difficulty of composing the court, and having run the risk of defeating the whole project in the assembly."

PROBING DEATH OF AUTO VICTIM

Evidence at Inquest on Six-Year-old Boy, Killed on Dundas Street.

Harry L. Hudson, 105 Westminister avenue, who was charged with criminal negligence by the police and released from custody on \$1000 bond, did not testify at the inquest held last night on Wilson W. Russell, aged 6, 180 Hamilton street, whom he struck and fatally injured near the corner of Dundas and Munro streets on the afternoon of March 10. Russell died in the Hospital for Sick Children the following day from a fractured skull and hemorrhage.

According to the evidence given last night, the condition of the street between Wilson avenue and bridge and Munro street was in a bad condition. Hudson, after crossing to the wrong side of the street, stepped forward from between two street cars, and was knocked standing on Dundas street between the bridge and Broadview, owing to the fact that the street cars had just finished their run, and Hudson could have crossed back to the right side of the street, between the third and fourth cars, as there was plenty of room. He could also have gone thru the mud near Dundas street, as other cars had done. At the time he crossed the boy was traveling with Detective Winters, seated Hudson's car, a Reo 7-passenger. The car was in good condition, as was the driver, which had just been overhauled.

These were nine witnesses called, including the street car inspectors. Dr. Tapp, whose office the uncorroborated child was afterwards taken, said that the blood tumor on the boy's head was probably due to a ruptured blood vessel. Cameron, who performed the autopsy, testified that the boy's skull was thin, but not abnormal.

Dr. Papp, who was called to the inquest until Tuesday, April 5, when evidence will be given by the defence. Goldwin Green appeared for the crown, and Grier for Hudson, and J. S. Corley for the family.

PAULIST CHOIR ADDS TO LAURELS

Delight Massey Hall Audience With Mediaeval and Modern Music Renditions.

The Paulist choir at Massey Hall last night added to the high reputation won on former appearances in Toronto, by their highly artistic rendition of a program of mediaeval and modern music.

The opening numbers, sung without accompaniment, from the mass of the sixteenth century by Giovanni da Palestrina, beginning with the "Et in Terra," and including the "Missa Anglica," and the "Missa Trinita," said to have come down from the middle of the fourteenth century, proved a delightful melodic composition filled with contrasts. The enthusiasm it evoked demands that it be repeated. Elgar and Pergolesi were represented in the next group, the "Quae Moribus" and the "Missa de la Gioconda," which was the most attractive of the program, the soloist being Tom Huber, whose fine rendition and rich soprano gained him an enthusiastic ovation.

Another complaint was that a man doctor was employed, whereas in an institution where all are women a woman physician should have the position.

Superintendent's Good Work. Dr. Sturgeon Stewart, who presided at the meeting, added his testimony to the splendid services of Mrs. O'Sullivan and Mrs. St. John, her assistant, both of whom he knew thru visiting the Mercer Reformatory.

One of the audience pointed out that it was because of the exceptional way in which Mrs. O'Sullivan is carrying on her work that her name today is the one prominent amongst women's societies as best suited for the position of woman magistrate.

The chairman and Mr. F. N. Stapleford both urged that as part of social service work to make a strong effort to get conditions changed for the women at the Mercer. What is the use of grand juries suggesting improvements if they are never carried out," said Dr. Stewart, who also expressed the opinion that the institution should be moved altogether outside the city.

WOMAN CONDEMNS MERCER CONDITIONS

where their labor is wasted. The women at the Mercer employ machinery and with the point of view of commercial gain.

Continuing her description, Miss French stated that the institution was surrounded by a high fence outside of which trains were continually running with engine-drivers looking over the places in which the women live are brick caves with barred doors and no windows. "I have been haunted ever since by the faces of my sisters whom I saw looking out from these caves," was the comment of the lecturer. She also pointed out that the woman who had kept a broom and the girl of sixteen, who was there with her child, are living without any distinction as to class of charge.

Another complaint was that a man doctor was employed, whereas in an institution where all are women a woman physician should have the position.

Superintendent's Good Work. Dr. Sturgeon Stewart, who presided at the meeting, added his testimony to the splendid services of Mrs. O'Sullivan and Mrs. St. John, her assistant, both of whom he knew thru visiting the Mercer Reformatory.

ASK GOVERNMENT AID IN DISPUTES

Teachers Want Reference Board Appointed to Adjust Trustees' Differences.

Recommendation to the legislature that a board of reference be appointed to settle disputes arising between school trustees and teachers featured the closing session of the Ontario educational convention at the university yesterday. The reasons cited for the appointment of such a board were that teachers' salaries have been too low, and that the teacher was not in a position to conduct a case. The salaries of the teachers are receiving at present, taking the depreciation of the dollar into consideration, are lower, it is claimed, than in former years.

In this matter the teachers feel also that the best interests of the public are at stake, and they are arguing that good service cannot be given when disagreements are occurring, with no definite results.

Another resolution which occasioned a great deal of comment was one in which Ontario teachers pledged their sympathy and support to the teachers in Alberta, Ontario teachers will be advised not to order that the trustees in Alberta, in attempt to break up the teachers' alliance.

"We must fight for the principle of collective bargaining," said Secretary C. Fraser, "as we must be up against it ourselves."

The public school section also passed a resolution for an increase in the superannuation allowance. The government is requested to consider the increase for the return of payments to the fund by teachers who retire after ten years' service and for the provision of widows and dependents.

Government Will Help. Hon. Dr. H. Grant, minister of education, addressed a few remarks to the convention yesterday. In his remarks he stated that the trustees were the real voice of the people, and the government was prepared, he said, to do anything for the teachers that was in its power. Regarding the matter of consolidated schools, he stated the government had never sent a speaker out until the people had expressed a desire for them. The following officers were elected in the trustees' section: President, Judge H. Scott, Perth; vice-president, Wm. McKinnick, secretary, Wm. Morris, Orangeville; director to O.E.A. executive, Dr. E. W. Wickware.

The officers elected in the public school section are: President, M. W. Althouse, vice-president, Miss Edna Johnson, secretary, C. G. Fraser, Toronto; treasurer, R. G. Elliott, Toronto; representative to board directors, Miss H. S. Arbuthnot.

The annual trip to northern Ontario will be financed by the government to the extent of one-half of the expense, the teachers one-quarter and the public school boards one-quarter.

At yesterday's luncheon of the Ontario Home and School Federation, Dr. A. E. Marty, Ontario's chief school inspector, said that today the schools were considered in the light of miniature universities. Ontario was in the midst of the greatest educational reconstruction the province had ever known.

Judge H. Scott of Perth told of the significance of the trustees' association as the heart of the new movement. Miss Hodgkins, specialist in physical training, also spoke.

SHOPLIFTING CHARGES.

William Dotter, no address, and James Yatel, also no address, were arrested yesterday afternoon by Detective Elliott upon the charge of shoplifting.

Counsel for Railway Request Few Days in Which to Prepare New Financial Evidence.

Montreal, March 31.—Another adjournment until next Monday was taken by the Grand Trunk arbitration board this afternoon in order to allow witnesses and counsel for the Grand Trunk to prepare further financial evidence in their case. The commission, which is sitting to inquire into the physical value of the property of the Dominion government, found that the evidence furnished yesterday and today by Geoffrey G. Rowbotham, of the firm of accountants of Price, Waterhouse and Company, had exhausted the data available. The main feature of the figures so far furnished in connection with the Grand Trunk Pacific is the consistent manner in which the railway lost money from the time it was opened until the time it was taken over by the government receiver, when its total operating and other losses amounted to \$46,828,539.

SOVIET HAS EVOLVED LAND TENURE SCHEME

Helsingfors, Finland, March 31.—The new land tenure scheme of the Russian Soviet government, announced in the Moscow newspapers received here today, permits each man to hold his land for nine years, within which time there will be no redistribution. It is also provided that peasants, whose holdings are scattered over a large area, will, in some cases, be allotted new centralized holdings of an equivalent size. This, it is pointed out here, appears to follow largely the plan of former Premier Stolypin, formulated many years back under the old regime, as a solution for the land problem in Russia.

Occupants of Barracks in County Cork Made Heroic Resistance.

Cork, March 31.—An attack made this morning upon the police barracks at Rosscarbery, County Cork, resulted in serious casualties to the occupants of the barracks. Fourteen of the police are missing and it is believed five were killed.

The police held the barracks until the room in which they were concentrated took fire, when a few escaped by an upper window.

The men in the barracks were driven from the room by the three hundred members of the attacking force, who used large quantities of gelignite to shatter the building. Reinforcements were rushed to the scene from Clonakilty and elsewhere, but they arrived too late to be of assistance.

The Rosscarbery Fair, which was to have been held today, was cancelled.

BASEBALL

GONZALES REPORTS IN TOP SHAPE Doyle Getting Ready to Hand Out Blue Papers—Manager Sick.

Columbus, Ga., March 31.—(Special).—The practice held by the Leafs today was of the lightest kind, and Manager Doyle was not in evidence. He contracted a severe cold at Auburn and he also had a fever for his doctor had trouble convincing him that bed was the better place for him than running around the diamond. The weather was dark and raw and heavy rain in the afternoon aggravated matters. Gonzales made his first appearance at the morning practice and behaved as if he were already in shape to put up a stubborn argument for place in the infield. He may sub for Doyle, and in that event the hitting Wagner may be displaced Altogether or placed in the outfield, unless either of the pair pick up materially in hitting. Anderson was almost carried out of the game by the college twirlers at Auburn. No new pitchers have reported, and it may be necessary for Doyle to go scouting on his own hook. The Leafs can use two or three experienced pitchers very nicely. Even Bader would be a gift from the Gods, according to Doyle. Tim can be used in the shortstop position. The latter has fallen down badly of late in his general play. Camp Benning will be played on Saturday. Snyder, who has recovered from his arm trouble, will be given a chance to show his skill. Thompson is expected to return to the team. His apparent recovery to the removal of an infected tooth.

AMATEUR BASEBALL

The Simcoe of Bivalve Senior Baseball League will hold their first practice on Saturday afternoon, 3 o'clock, Greenbank Park. All parties who have signed their intention of playing with this team, as well as those desirous of making the team, are requested to arrive at the final game of the Toronto Garrison Officers Indoor Baseball League will be staged at the last session, and one of them will be the most important of the series, for the league will either be decided on Saturday or Sunday. The 48th Highlanders, who are one rung higher than the 3rd Battalion on the pennant ladder, meet in the opening game. The two clubs at that former meeting battled twelve innings before the Highlanders pushed over a run to gain the decision. Gordon Hutch and Jeff Marani will again form the opposition on the firing line. Hutch has decided to play with this team, and Marani is expected to play a terrific lot of speed and intersperse with a nice change of pace. He fanned fifteen "sooties" at the last session, and would get thru with a win but for Marani's lack of a run. Marani is made up by the brilliant fielding club which he has decided to play with. Bob Cor's Scotch men are behind in the art fielding. They play a snappy game and are in it from start to finish. Behind the stone in high-class gardeners in Read and Malone. The second game between the 1st C.M.G.B. and Royal Grenadiers should be a close look. While there is nothing at stake the two should play up a nice fight in the league line cap. Patricia A. C. will practice at Pretty Ravine, College Street, on Saturday at 2:30 p.m. All players welcome.

BOOSTING THE PRIZE FOR THE PRIZE FIGHT

Spokane, Wash., March 31.—Alexander G. of Seattle has wired Tom Rickard an offer of \$50,000 for the Dempsey-Carpenter championship match, which will be fought in Seattle on May 1. Rickard, an agent of Mr. Pantalone, in a telegram to Mr. Miller, stated that he would accept the offer, in the event that he would be able to get Dempsey to Vancouver, B.C., as a possible site.

Hustling After the Lacrosse Players

Multi-arms are trying hard to land a field, shower accommodation, get proper food, and a good night's sleep. The square on Cottingham street is all right for the youngsters, but lacks pitted against the class in the senior series. They have to have proper accommodation to attain results. Col. Dwyer is working on the project, and generally lands what he sees after. St. Simons will again work out at Victoria campus. They have practiced there the last two seasons and have had good results. It is easy of access, and is appreciated by the players. "Bill" Scott will likely accept last year's senior champions, while it is rumored that some well-known stars jersey when the time comes. The necessary removals his molars at same time, will be on the job at point of necessity. It is altogether likely that Durham and Hanover will combine their strength in the intermediate series and play under Durham's colors; while the same thing will be done in the junior ranks, playing under the colors of Hanover. The two towns are next door to one another and the amalgamation of the two would be of interest of both towns. Mark to the not master a team this season and may be able to lead the team. Buff sent in the three-man event before the Pittsburgh skater slipped and skidded across the ice, crashing into the boards. His injuries were said not to appear serious.

NEW GOLF CLUB HOUSE FOR KINGSTON

Kingston, March 31.—(Canadian Press).—A meeting decided to proceed with the erection of a club house costing \$100,000. The new building will be used for the purpose of a club house and will be a fine example of modern architecture. The building will be situated on the waterfront and will be a landmark for the city. TROTTING CANADIAN NATIONAL ANNUAL MEETING

TRAINER BEDWELL ON THE OUTSIDE

Feustel Secures License and J. K. L. Ross May Keep Off N. Y. Tracks.

New York, March 31.—(By Canadian Press)—Edward W. Cole, racing judge, well-known on Canadian circuits, commenting in last night's Evening Mail on the action of the Jockey Club in barring Guy Bedwell, trainer for Commander J. K. L. Ross, as agent for any stable, said: "It was not surprising to the racing world that Guy Bedwell, trainer for Commander J. K. L. Ross, was checked in his wild gallop to upset the sport and ride rough shod over the rules of the turf. On the contrary, it was generally expected, owing to his disturbing actions in the Shilling case, that he would be acceptable as agent for the stable he put a decided obstacle in his way of recognition by all organizations that have reciprocal relations with the Jockey Club. There is practically no ruling against him having the license for the Jockey Club, but the stewards will not accept Bedwell as an agent for any stable which he is undesirable and have no doubt put a damp cloth on his further efforts to apply for privileges at other institutions.

"While none but those most concerned know positively what is the cause of the Jockey Club's action, the decision of the stewards must be accepted with the knowledge that that body never moves a pawn in turf affairs without giving it due and long deliberation with facts before them, sufficiently significant to take action.

Following their usual custom, the stewards of the Jockey Club made no explanation and gave no reason for their action.

The World says today that the granting of a license to Louis Feustel and the refusal to accept the appointment of Guy Bedwell "are the bare facts of a scandalous story, which might have amounted to a scandal, and which grew out of a now famous match race between Man o' War and Sir Barton for a purse of \$75,000 at Kenilworth Park, Windsor, Ont., last October.

The World, however, gives no intimation of what this alleged "scandal" is. "It is just possible," the paper adds, "that Commander Ross will take umbrage at this action of the Jockey Club and confine his racing to the Canadian and Maryland tracks. This in spite of the fact that he has been a liberal contributor for the leading stakes which will be run over the tracks here."

The Tribune declares it is believed by those close to the inside of the matter that when it tabbed the application of Feustel for a license the Jockey Club was holding a club over the trainer of Man o' War to make him "peach" on a fellow trainer. The trainer in question is presumed to be Guy Bedwell, the paper asserts. "The incident in question is supposed to have developed at Windsor, Ont., previous to the match race between Man o' War and Sir Barton last fall."

NO BLOCK TO PLANS OF IRISH RELIEF

If Organizations in U. S. Are Non-Partisan, Says British Embassy.

Washington, March 31.—Charitable organizations constituted on "a strictly non-political basis," in the United States which desire to deal "in an impartial spirit with any case of Irish distress," will find no unnecessary difficulties in their way, the British embassy said in communication on the subject tonight.

Were it not for the fact that countries and cities of Ireland, which are still in sympathy, refuse to accept money raised for their assistance in the United Kingdom and prefer to appeal to the United States for charity, the communication added, "there is no case of distress affecting any individual or his property which would not be met from British sources."

"Banking and trade statistics and tax returns show that Ireland as a whole has never been more prosperous than at the present time. Cases of unemployment exist as a result of the world-wide depression in trade, but this depression has been less severely felt in Ireland than in England, owing to the fact that Ireland is largely an agricultural country.

"Apart from these cases of genuine unemployment, common to all countries at the present moment and apart from the unhappily, but normal poverty of the slums of towns, every case of distress and destitution is directly due to the effects of the Sinn Fein rebellion. Steps have been taken to meet even these cases. Millions of pounds have been made available from money raised by taxation in the United Kingdom to build houses, to encourage and settlements and to promote employment schemes and the general work of reconstruction, but the countries and cities of Ireland which are still in sympathy refuse to accept this money and prefer to appeal to the United States for charity."

Schieman is All-round Champion of A. B. C.

Buffalo, N.Y., March 31.—The largest tournament in the history of the American Bowling Congress came to a close this afternoon.

Otto Kalluach and Archie Schieman of Rochester with a total of 1214, won the two-man championship of the tournament, taking down a pair of \$500 and gold medals. Schieman also carries off the all-events title with a total of 1908 pins. The prize for first place in this event is \$125. The individual champion-ship this year goes to Fred Smith of Detroit with a total of 702 pins, winning a prize of \$300.

There were 340 teams in the five-man competition of the tournament this year, 2123 pairs in the two-man and 4229 in the singles. Low scores in the singles, 1121 in the doubles, 275 in the singles and 1777 for all events.

CAPABLANCA MAINTAINED OFFENSIVE THROUGHT GAME

Havana, March 31.—Dr. Emanuel Lasker and Jose R. Capablanca tonight began the sixth game of their chess tournament, which will decide the championship of the world. The fifth game, which ended last night in a victory for Capablanca, was marked by play that was much more interesting than that in the first four games of the series.

From start to finish Capablanca maintained the offensive, and wrote at times it appeared another draw might result, the Cuban expert never was in danger of defeat.

After forty-three moves had been made Dr. Lasker offered to agree to a draw, but Capablanca, having the advantage in position, declined to accept. Lasker was forced to resign when three more moves were made.

In his last move, in the opinion of experts, Lasker apparently blundered and gave Capablanca an opportunity, which he was quick to accept, for a checkmate. In explanation of his play Lasker said he entirely misjudged the position of his opponent and thus fell easy prey to him.

TARIFF TO PROTECT BRITISH INDUSTRY

Proposal to Impose Five-year Customs Duty on Certain Articles.

London, March 31.—Parliament next week will discuss two resolutions which are intended to form the basis of the government's proposed safeguarding of industries bill. The resolutions will propose for five years a customs duty of 33 1/3 per cent, ad valorem on importations into the United Kingdom of optical glass, optical instruments, cinematograph films, porcelain and instruments; magnetos, tungsten and its products, synthetic and organic chemicals, except dyestuffs, colors, coloring matters and fine chemicals.

There also will be a similar duty, in addition to any existing customs duty, on any articles which the board of trade under the act will have the power to specify, on the ground that the said articles are being sold or offered for sale at prices below their cost of production, or owing to exchange depreciation, at prices below what they can profitably produce for in their own country, thereby tending to bring about unemployment.

SLUMP IN DIAMONDS CAUSES DISTRESS

Johannesburg, March 31.—Economic distress prevails in the western Transvaal on account of the great diamond slump, says the Central News-Starvation is reported in some cases. The government officials are powerless to diminish the distress, for the few special allowances which the government has granted, have been swallowed up without appreciably relieving the situation.

Altho the living is comparatively cheap, the moneyless diggers are unable to purchase any goods. Stones formerly worth \$200 a carat are gladly sold for \$35, and tiny stones are gladly swarmed for a bucket of maize or meal. Some of the diamond diggers are deserted, as the inhabitants have gone to the towns where they are overcrowding the slums.

ANOTHER WILD BLIZZARD SWEEPS NEWFOUNDLAND

St. John's, Nfld., March 31.—Shipping by land and by sea was tied up again today by the snows of another blizzard. Reports from the sailing fleet said that the ice floes had been badly broken up by the storm, and that the heds were probably lost.

LARGEST AIRPLANE ENGINE ON RECORD

Great Britain claims the credit of having built the largest aeroplane engine on record. Recently there was tested in a factory near London, England, an engine which developed over one thousand horse-power. This engine, which was built to the order of the Royal Air Force, has sixteen cylinders, weighs 15,000 on one ton, and is most economical in fuel and oil consumption. Its influence on the range, speed and carrying capacity of aeroplanes is expected to be considerable, and its performance in the air is awaited with the keenest interest by aviation experts.

THOUGHT IT WAS WALL PAPER

A property man for an independent photoplay producing company, browsing through a room at the Brandon Hotel, recently discovered some "distinctive" wall paper. The paper was hung on the walls of a corner set, and duly made its appearance in a "tripping" scene. The other night the picture in which the wall paper made its debut was shown in the Los Angeles Japanese colony. The wall paper caused some amusement.

"What's the joke?" inquired an American.

Japan bill-posting advertisement for Tucker picture play, "Miracle Man," explained the Japanese waber.

To Probe Infractions Of Geneva Convention

Geneva, March 31.—An inquiry into infractions of the Geneva convention during the war was voted unanimously at the session of the international conference of the Red Cross today. For this purpose a special commission will be appointed. This action was taken on the proposal of the Canadian delegate, F. G. Bennett.

In the distribution of the Florence Nightingale medal, eight representatives of France received the decoration, six each from the United States, Germany and Italy, and five from Great Britain.

CRASHED 9000 FEET AND WAS ONLY BRUISED

Ithaca, N.Y., March 31.—Falling 9,000 feet in a disabled plane and escaping with only a few bruises, while the plane was completely wrecked, was the experience here yesterday of Lieut. J. A. Macready of McCook's Field, Dayton, Ohio, chief test pilot of the United States Army.

Macready's almost miraculous escape from death occurred while he was testing a purguit plane, one of a large order being built by the Thomas-Morse Aircraft Corporation of this city, for the army.

Macready succeeded in guiding the machine to earth, however, and, crashing on the Thomas-Morse aviation field, near Cayuga Lake, the machine was overturned and wrecked.

Commission to Austria To Investigate Relief

Paris, March 31.—A decision was reached today by the financial commission of the League of Nations to send a commission to Austria, consisting of three persons, to investigate relief plans in that country. The investigation will cover a period of from five to six weeks. The decision was reached after Baron Eickhoff, the Austrian ambassador to France, had addressed the commission.

The personnel of the commission will be M. Gluckstadt, a Danish state councillor and banker; Sir D. Drummond Fraser, a British banker and financier, and J. Avenel, a French member of the supreme economic council.
