

YORK COUNTY AND SUBURBS

EARLSCOURT SUFFERS WHEN POWER WENT OFF

The Hydro-Electric current was shut off on Saturday night for two hours during the busy shopping period, meaning quite a loss to storekeepers in this district.

James Gunn gave an address to the Earlscourt Men's Club on Sunday afternoon on the meaning of liberty.

The remains of the late R. Macdonald Russell were laid to rest in Prospect Cemetery on Saturday, a large number of residents showing their respect by following the body to the grave.

Boon Avenue Baptist Church has raised nearly \$2000 during the past year towards the building fund for the new church.

A meeting of the North End Ward Six Ratepayers' Association (and not the Liberal-Conservative Association, as reported in the press) is to be held this evening in the Earlscourt Public School.

W. F. Maclean, M. P., is expected to address the meeting tonight of the Ward 6 ratepayers. The mayor, members of the board of control, and the representatives of Ward 6 are also expected to attend.

MARKHAM MAN DIES AFTER SHORT ILLNESS

Unionville, Jan. 31.—Frank Boyle, 34 years of age, a well-known and highly-esteemed farmer of Markham township, residing at Hagerman's Corners, passed away suddenly at the family residence today after a short illness.

The late Mr. Boyle was a successful farmer and stock breeder, was prominently identified with the Holstein Breeders' Association, and took a lively interest in all matters pertaining to the association.

Deceased was the only son of Matthew Boyle of Richmond Hill, and survived by his father, his widow, two children and one sister of Richmond Hill.

EAST END LAVATORY

Tenders are now let for the long-expected public lavatory to be erected at the corner of Danforth and Broadview avenues.

BIG RUN ON CANDLES

In the memory of the oldest inhabitant of the eastern district, there was never such a demand for candles as occurred on Saturday evening for illuminating purposes, when, owing to shortage of power, the Hydro-Electric street and house lighting failed shortly after 5 o'clock.

NEW YORK STATE MAY OPERATE HYDRO

Bill Before Legislature to Prevent Erection of Private Power Plants

Albany, N.Y., Feb. 1.—A bill to be introduced tomorrow in the New York state legislature by Senator Henry M. Sage of Albany, aims to prohibit the diversion of any water from boundary streams by any corporation heretofore chartered by the state.

Four or five companies have been granted charters authorizing them to erect power plants along the Niagara River and divert the waters of that stream. In view of a federal statute restricting the number of second feet that may be diverted, these companies have not constructed their plants and in reality have dormant powers.

The ultimate purpose of the Sage bill is to acquire for the state full title to all potential power in boundary streams so that it may adopt a fixed policy of hydro-electric development.

After that the state will decide whether or not it will go into the hydro-electric business on the lines of the province of Ontario or lease power rights to individuals, corporations and municipalities.

HAMILTON

Hamilton, Feb. 1.—Nearly two hundred members of the 38th Battalion, C.E.F., attended the first reunion of the unit held here on Saturday.

Controlled by the city council, the delay in completing the entrance-way of the Hamilton Highway was the fault of the city council.

INJURES KNEE-CAP

Curtis Aldridge injured his knee-cap at 11 o'clock last night, when he slipped and fell from a Queen car at the corner of Queen street and Ross-streets.

Miss Kathryn M. Sinclair Dies at Macdonald Hall, Guelph

Guelph, Feb. 1.—(Special.)—The death occurred Saturday at the General Hospital of Kathryn M. Sinclair, a student of Macdonald Hall.

ALLIED TROOPS ARRIVE

Copenhagen, Feb. 1.—Breslau advices say that the first contingent of entente troops arrived in the first evacuation zone of upper Silesia yesterday. This is the plebiscite region.

BRITISH SHIP WRECKED PART OF CREW MISSING

Brest, Feb. 1.—The British ship Nero was wrecked near Molene Island in a storm which swept the English channel yesterday. The crew of 20 men left the ship in two lifeboats.

SOLDIERS' LOANS HAVE LIMIT SET

Ottawa, Feb. 1.—(By Canadian Press.)—In connection with the provision of such loans as may be granted by the department of soldiers' civil re-establishment for the purchase of tools and equipment, or the payment of educational fees, attention is drawn to the fact that there is a limit to the time in which applications may be made.

PROMINENT MEN WILL BE DEMANDED

Paris, Feb. 1.—In addition to already published lists of those who will be demanded from Germany by the allies on charges of violations of the laws of war, The Mail says Belgium will ask for Von Bethmann-Hollweg, former imperial German chancellor, while Britain will demand Admiral von Tirpitz, former German secretary of marine.

BURGOMASTER PLEBISCITE AREA

Flensburg, Feb. 1.—Mayor Todsend, the German burgomaster, who was ordered by the inter-allied commission to quit the plebiscite area in Schleswig, left by automobile yesterday afternoon to the disappointment of a large crowd which gathered at the railroad station to bid him good-bye.

FIND MERCHANT ILL AMID DEAD CANARIES

Queen Storekeeper Ill With Pneumonia—Twenty-Four Birds Frozen.

When the police-ambulance arrived at 333 East Queen street Saturday night to remove Sam Thomas to the hospital, the ambulance men found 24 canary birds lying dead in a large cage.

Thomas conducts a second-hand store on Queen street. When the ambulance was summoned, the policeman in charge told Thomas was suffering from gas poisoning. He was removed to the General Hospital, where it was found he was in a serious condition with pneumonia. Thomas is 55 years of age.

Walter Dawson, of Monaghan, Dies of Pneumonia in Guelph

Guelph, Ont., Feb. 1.—(Special.)—Another short course student of the O. A. C. passed away early Saturday morning at the General Hospital in the person of Walter Dawson, son of Mr. and Mrs. Welford Dawson of South Monaghan, Ont.

ANOTHER HAT IN THE RING

Columbus, O., Feb. 1.—Governor James M. Cox of Ohio, yesterday officially announced his candidacy for the Democratic presidential nomination.

REACH AGREEMENT ON SCHELDT RIVER

Holland and Belgium to Have Joint Control, According to Pact Not Yet Signed.

NEW CANALS PROJECTED

The Hague, Feb. 1.—The Dutch press today prints the text of the new treaty between Holland and Belgium, which has not yet been ratified. Its principal provisions, stripped of their official verbiage, follow.

Holland and Belgium to have joint control of navigation on the Scheldt river; the question of the movement of Belgian warships from Antwerp and other problems likely to result in the event of war, are left to the future decision of the league of nations; both countries agree to the principle that the mouth of the Scheldt be free and open water; that two new large canals be constructed at the speediest moment to give Belgium an equal outlet to the sea.

With reference to the German Rhine canal, Holland agrees that no new conditions be imposed other than those already in effect on traffic to Germany. Generally speaking joint commissions will control the conditions, construction and maintenance of the canal.

No collection of VICTOR records is complete without Harry Lauder!

We have all the new hits in stock and all the old favorites! Quick, courteous service—convenient location.

Gerhard Heintzman Limited. Opposite City Hall

missionary from West Africa, who was to have preached at the evening service in Hope Methodist Church, Derforth avenue, yesterday, was suddenly necessitated a minor operation, and is at present in hospital.

URGES GENEROSITY

John A. Paterson, K.C., delivered a forceful address in connection with the forward movement at the evening service yesterday in Kow Beach Presbyterian Church, before a large congregation.

GAVE CHILDREN A TEA

The primary department of Beach Avenue Methodist Sunday School to the number of 120 children between the ages of 4 and 9 years, enjoyed their annual entertainment in the church. Tea was served under the supervision of Mrs. Olliphant, superintendent, and staff of teachers, and an enjoyable time with games and other amusements was indulged in.

For Colds, Grip or Influenza and as a Preventative, take LAXATIVE BROMO QUININE Tablets. Look for E. W. GROVINE'S signature on the box. 30c.

M'GILL WON FROM TORONTO VARSITY

Montreal, Feb. 1.—In the intercollegiate hockey game here Saturday McGill University defeated Toronto University, 2 to 1, and secured a commanding lead in the fight for the championship.

GIVING WINNERS CLEAR LEAD FOR INTERCOLLEGIATE HOCKEY CHAMPIONSHIP

The visiting players were outgeneraled and outplayed the almost all stages of the game and were unable to score until the closing minutes of the last period, when McGill's defence opened up and allowed Carson to get thru. The local students got the jump on their opponents in the early stages of the game and scored twice in the first period before the visitors had time to settle down to their play.

The game was well handled by Harry Hyland after a long dispute by the Toronto players, who objected to Art Ross as referee, although Varsity had written earlier in the week accepting him.

Twenty-one hundred spectators paid admission, the largest crowd ever watched an intercollegiate hockey match.

The line-up: Varsity (G)—Goal, Langtry; defence, Westman, Ramsay; centre, Carson; wings, Dunne and Olson. McGill (G)—Goal, Clarke; defence, Heney, Cully; centre, Behan; wings, Pevelley and Anderson. Sub-Varsity: Evans and Wright. McGill: Dineen and E. Anderson.

Summary: 1—McGill.....Behan.....12.30 2—McGill.....Anderson.....3.10 3—McGill.....Behan.....19.10 4—Varsity.....Carson.....16.10

PRECIOUS METALS ROUND SUDBURY

A Little of Truth About Undisclosed Values Coming Out.

The report of the Ontario Bureau of Mines, summarized in Saturday's World, contains special details of nickel production and precious metals concentrated in the copper-nickel matte. The production of the mines was as follows: Tons. International Nickel Co. 1,230,509 Mond Nickel Co. 882,913 Alexo Mining Co. 8,818 British-America Nickel Corp. 21,000 This total of 1,843,000 tons is interesting as showing the increasing production of the British-America Nickel Corporation, in which the British government holds a controlling interest. The company is erecting a smelter at the Murray mine, and at Deschênes, Quebec. This refinery will operate the electrolytic process of recovering the nickel and copper from the matte developed by V. N. Hyblinette in Norway.

Of the precious and rare metals in the Sudbury ores, it is well known that besides gold and silver there are platinum and palladium. In point of value, platinum and palladium are at the present time worth, per ounce, six times as much as gold and one hundred times as much as silver. Exact figures cannot be given for the precious and rare metal contents of the mattes produced at Sudbury. The whole subject of the occurrence of platinum, and especially of palladium in the

Sudbury ores, is not as yet thoroughly understood. For the three years ending 1915, the average contents of the precious and rare metals in the Canadian Copper Company mattes were 0.10 oz. platinum per ton, 0.15 oz. palladium, 0.05 oz. gold, and 1.75 oz. silver. At this rate the mattes produced by the company in 1916, amounting to 56,405 tons, contained 5640 oz. platinum, 8460 oz. palladium, 2820 oz. gold, and 98709 oz. silver.

In the Orford process of refining, the platinum and palladium pass into the nickel and monel metal and are lost, but the Mond process affords opportunity for a full recovery of these metals, which are concentrated in the residue. These are periodically removed, and have been disposed of to Johnson, Matthey & Co., London, by whom the residues are refined. Recently the Mond Company installed in their works at Clydach, Wales, a plant for treating the residues, and henceforward will be in a position to recover the precious and rare metals themselves. Analysis shows the Mond Company's mattes to be richer in both the precious and rare groups than those of the International Nickel Company, but the quantities obtained have not been reported.

WALKED ACROSS BAY.

Two Boys Narrowly Escape Freezing to Death While Coming From the Island.

Despite the fact that the temperature on the island was 20 below Friday night and early Saturday morning two young boys slept on the island in a vacant house. John Tunstead, 23, Monteth street, and Walter Higgins, 28 Monteth street, the two boys, walked across the bay to the city Saturday morning, and the cold wind got the best of them. They went to a factory on Parliament street, and when they arrived they were warned of the hazardous condition. They were taken to the furnace room and then taken to their homes in the police ambulance.

WESTMINSTER CHURCH WILL BE REBUILT

The management of Westminster Presbyterian Church, which was destroyed by fire Friday night, has already decided to rebuild at once. The World was informed on Saturday by Rev. Dr. John Neil, the pastor, and George Barron, who has long been connected with the management. The new church will extend farther east than the old church, the Bloor property having been purchased just before the war with this object in view. A number of years ago plans were made to build a school room on the south side and five properties facing on Hayden street were acquired as a site, but this proposal was abandoned and more frontage was purchased on Bloor for the extension. The church owns altogether 160 feet on Bloor by a depth of about 200 feet. It is likely the Hayden street properties will be sold, Mr. Barron informed The World.

COLLAPSED IN STREET CAR.

Thomas Williams, aged 60, of 78 College street, collapsed on a Queen car at the corner of Gerrard and Pape avenue Saturday morning and died before a doctor arrived. Dr. Brooks, 469 Pape avenue, pronounced death from natural causes. The body was removed to the morgue.

PIPE CAUSES FIRE.

An overheated stove pipe caused fire which spread to three houses at 240, 242, and 244 Marie street Saturday morning, causing \$350 damage. The fire broke out in No. 242 and spread to the adjoining houses. The loss to No. 240 was \$100; No. 242, \$200, and No. 244 suffered to the extent of \$50.

Human experience. Like the stern lights of a ship at sea, darkness only the path which we have passed over.—Coleridge.

TWO INJURED WHEN CAR RAN OFF RAIL

Twenty-Five Others Had Narrow Escape When Collision Took Place.

Two people were injured and 25 others had a lucky escape Saturday morning, when a westbound Queen car skidded off the frozen rails at Queen and Bathurst streets and collided with a northbound Bathurst car. Motorman Richard Gray of the Queen car, living at 124 Paton road, was most seriously injured, having both legs fractured. Estella Wilson, 40 Niagara street, a passenger on the car, received a deep gash under the eye from flying glass.

At the time of the collision, Miss Wilson was standing in the front vestibule about to get off the car. Motorman Gray seeing an accident was inevitable, at once put his arm out and pushed the girl back into the car. Otherwise, her injuries might have been more serious. The entire front of the car was smashed and Gray was buried in the ruins. Several carmen got him out and he was taken to the Western Hospital.

Conductor Thompson of the Queen car, in describing the accident, said Gray applied the brakes and reversed the motor 50 feet from the crossing. The car skidded this distance and rammed the Bathurst car with such force it shoved the body of the car half off the trucks. Thompson said he could not understand why the air brakes did not work, as the motorman

did not seem to have trouble bringing the car to a stop at different stops before the Bathurst crossing.

WOMAN IN THE CASE HAS BEEN ARRESTED

Florence Stock, aged 21, of 206 Dufferin street, was arrested Friday and looked up in Court street station on a charge of vagrancy. The young woman is alleged to be the woman who went thru the romantic wedding ceremony Thursday with David J. Gregson. Gregson met his wife Thursday afternoon on Yonge street, married her, and after going to look up a home, got into a fight, got beaten up, and in addition to losing his wife, got arrested. Friday morning in police court he sat in the dock with a bandaged head and heard a charge of "being drunk" read out against him. As his bride was still being looked for by the police a remand of the case was made until this morning to allow detectives to look for Florence Stock. An effort will be made in court to settle the case.

Building Permits Show Better Building Conditions

Building permits issued during January 1920, surpass all city records in number and value. The former record was made during January 1913, when permits to the value of \$1,276,000 were issued, but January of this year passed that figure by \$191,230. The value of permits issued during January 1920, is an increase of 481 per cent. over January 1913. Permits granted during this month are as follows:

No.	Value.
Brick dwellings.....	44 \$194,700
Roughcast dwellings.....	4 11,700
Factories.....	3 150,000
Garages.....	60 34,275
Stores.....	20 88,500
Warehouses.....	7 460,500

MANY PRECIOUS METALS DISCOVERED UP NORTH

The Mond Nickel Company, which has a process of its own for recovering the rare metals, platinum and palladium, and the precious metals, gold and silver, from its Sudbury mattes, does not furnish information to the government. The Canadian Copper Company (International Nickel Company) does; but the rare and precious metal contents of the Canadian Copper Company ores are not as high as those of the Mond copper-nickel. From 1907 to 1918, inclusive, the Canadian Copper Company made the following recoveries of rare and precious metals:

Ounces.	
Gold.....	31,570,738
Silver.....	1,085,220
Platinum.....	6,397,216
Palladium.....	4,209,923
Rhodium.....	1,819,899

Some promise of future benefits to Ontario from the recovery of a large and unaccounted for production of rare and precious metals from ores mined in Sudbury district may be expected from the recovery process invented by Prof. George A. Guesse, of Toronto University.

Experiments have been made with Prof. Guesse's process at one of the Sudbury smelting plants, which are said to have been successful, and it is hoped that a more extended trial will be made. A three-fold advantage is claimed for the process: (1) It saves time; (2) it reduces the cost of refining; (3) it enables the rare and precious metals to be recovered.

INTERMENTS IN CEMETERIES.

During January, 1920, 558 interments took place in the various Toronto cemeteries as follows: Mount Pleasant, 130; Necropolis, 9; Prospect, 183; St. James, 23; St. John, 100; Mount Hope, 65; St. Michael's, 11; Park Lawn, 52.

WAS NOT AWARE OF HIGH MILK PRICES

Attorney-General Replies to H. H. Dewar's Request for Investigation.

Hon. W. E. Ransay, Saturday, sent a letter to H. H. Dewar, Liberal leader, replying to the suggestion of a board of commerce probe into the Hamilton Dairy Co. capitalization increase. Mr. Ransay says: "The inference which you intended the public to draw from the statement contained in your letter 'that the capitalization of the Hamilton Dairy Company, Limited, had been increased from \$40,000.00 to \$250,000.00, is I suppose, that the difference between these figures is represented by bonus stock issued to the shareholders. My information is that that is not the truth, and I venture to suggest for your consideration whether it was quite fair to make what is practically a public charge of that nature against a private company without having some evidence in hand to support it. But waving that point, which, after all, is one for your own good judgment and sense of fairness, and bearing your request, I had at least heard of any complaint as to milk prices in Hamilton, where I understand, as here, there is an order of the board of commerce fixing both the buying price and the selling price. But if, nevertheless, on the opening of the inquiry into the matter of the alleged 'grossers' combine you will appear before the board and ask for an inquiry into the conditions in the milk business in Hamilton this government will interpose no obstacles in your way."

AGREEMENT SIGNED AT HELD RIVER

Belgium to Have Equal Outlet to the North Sea. Yet Signed.

PLANS PROJECTED

1.—The Dutch press text of the new treaty and Belgium, which is ratified. Its principal stipulations are as follows:

Belgium to have joint navigation on the Scheldt river with the Netherlands. The movement of goods from Antwerp to Rotterdam is likely to result in a large increase in the traffic. The treaty is left to the future League of Nations; both to the principle that the Scheldt be free and to the two new large canals at the speediest moment. Belgium an equal outlet from Antwerp to Rotterdam with the North Sea, from the Rhine, across the Scheldt to Antwerp, and from Antwerp to the North Sea, by a canal to be constructed (the Scheldt) and that an additional canal be deepened to allow larger ships, and in a country pay the excavation and maintenance of the canal, and that the time and pilotage be made as uniform as possible.

to the German Rhine. The canal is to be constructed other than those on traffic to Germany, and joint commissions, including joint commissions, for the construction of the canal.

GOOD PRICES FOR CENTRAL PROPERTY

Peterkin Building and Mendelssohn Piano Warehouse, Change Hands.

Two central blocks, the Peterkin building on Bay street, corner of Temperance, and the Mendelssohn piano building, at 110 West Adelaide street, changed hands last week.

The Mendelssohn building on West Adelaide was sold by Henry Durkin to Messrs. McLaughlin, Johnston, Moore and Macdonald, 150 Bay street.

The Bell Telephone building on Hayden street, north side, near Yonge, has been sold to Coles Limited, caterers.

The National Refining Company, manufacturers of dental supplies, has purchased the premises at 15 Ross street for \$15,000.

The Murray Printing Company have taken out a permit for the construction of a \$250,000 printing plant on Spadina avenue.

The big manufacturing and office building at 129-133 Spadina avenue has been completed and all rented by J. R. Gray.

It is understood that the Imperial Bank, at the southeast corner of King and York streets, will enlarge their premises by taking over the space occupied by E. B. Rutherford, druggist.

The Royal Bank has secured a permit to spend \$10,000 in remodeling their offices in the Confederation building, corner of Yonge and Richmond.

A two-story building is being erected at 21 McCaul street by A. R. Rosenblatt, for the Toronto Battery Service.

The large stone residence at 230 St. George street has been sold by Jas. Whalen for \$35,000.

A permit has been issued to Grimshaw Bros., to erect four detached houses at 15, 17, 19, and 21 Oakdean avenue, at a cost of \$15,000.

Two Thousand Flu Cases In City, Says Health Officer

Dr. Hastings, M. O. H. stated Saturday that it was a conservative estimate to put the number of influenza cases in Toronto at 2000.

WILLS AND BEQUESTS.

W. Bernard Vanse, New York, and Walter W. Griffith, Scarsdale, N.Y., have applied for probate of the will of Charles Alfred Tyrrell, who died in New York, July 2, 1918, leaving an estate valued at \$11,000.

NOT SAME PERSON.

Florence Stock, Duchess street, reported as having been placed under arrest by the police, is in no way connected with Miss Florence Stock, actress, at present in Cliftonville, N.J., engaged in missionary work and leaves shortly for China.

CHOIR WERE ENTERTAINED.

The choir of Deer Park Presbyterian Church had an enjoyable skating party at Aunt Lee rink on Thursday evening, with an oyster supper and program at the church parlors afterwards.

Ida Replies to Her Correspondents

BY IDA L. WEBSTER. Jack M. Barker, who is one of our eight-year-old readers, was to have sent some drawings to this office to date they have not arrived.

Unfortunate One—You are quite right, the city has been most negligent in regard to the city relief office. However, the mayor is getting busy on the question, and there will likely be a change within a few weeks.

Steady Reader—Thank you for your letter, also all others who have sent one on the topic of the recent court case. As for your opinion, it begins and ends with the fact that we are convinced that any person who kills another, knowing at the time that he or she will have to listen to a prosecuting lawyer for several hours, is not a murderer, but a hero.

Fan—Yes, it is quite true that we are going to be the guests of the Toronto Ball Club on its spring training trip to Columbus, Georgia, Oh, by the way, this may be news to both 'Lol' Soliman and Jim McCaffery.

Rosedale—Before anyone begins a stadium in your part of the country, they had better first sit down and figure out some car lines. Walking may be excellent exercise, but it is hard on the feet.

Interested—Really, Mister, we have not the slightest idea in the world why the price of whiskey has gone up. Probably the distillers did not realize just how popular their products were until the wet spell set in.

Clitten—Yes, it has been mighty cold. Unfortunately, we know of no cure or preventive. Tho we did hear the other day that people who eat raw seal meat never feel the chilly blast. Of course, this may be only another one of those wild and woolly stories, yet if you wish to be a benefactor to the race you might try it out.

Vote—Certainly the city council would listen to your story, but one thing we know now that a woman magistrate in the woman's court is imperative. At the same time, you would probably get more results by taking your objection to the city council buildings. You see, there are still people in the city hall who do not know that there has been a change in the government in Queen's Park.

INDIVIDUALS SHOULD DO RESEARCH WORK

In spite of inclement weather, the weekly address given to the Royal Canadian Institute was well attended on Saturday night in the physics building of the university.

Great Thing for Students. The speaker told of a plan that is being adopted in American colleges, whereby a student may secure a practical knowledge of any industry, and at the same time take a college course along the same line.

CAÑARIES FOUND DEAD.

Believed to have been overcome from gas from a defective jet, some Thomas aged 55, of 353 East Queen street, was removed in the police ambulance Saturday night to the General Hospital.

So Pure and Fresh are the little leaves and tender shoots used in...

that a much smaller quantity is necessary to yield an infusion than is needed when using old dusty teas. The economy is apparent—and then you have that delicious flavour.

PROFESSOR EXPLAINS CHRISTIAN SCIENCE

The First and Second Churches of Christ, Scientist, held a meeting yesterday afternoon to hear a lecture entitled, "Christian Science; the Vision of Christ Jesus," by Rev. Andrew J. Graham, C.S., a member of the board of lecturers of the mother church.

Mr. Graham, in tracing the history of Christian Science, said that in the year 1866 Mary Baker Eddy, whom medical skill had failed to relieve of a serious physical trouble, was instantaneously healed thru reading the Scriptures instead of taking her physical healing and losing herself in the throng of the unhealed, her suffering humanity led her to investigate and to meditate.

Joseph Hubbard, a local barrister, appeared in police court Saturday morning on a charge of doing malicious injury to the property of Mary Wynne and attempting to do grievous bodily harm to his wife.

HAD BUSY WEEK-END

The fire department had a busy week-end, having responded to 35 alarms from 6 o'clock Saturday night until 11 o'clock last night.

Presenting

New Spring Suits of Jersey

Newly-arrived and ever so charming! A successful choice for Spring would be one of these Jersey suits with its wide utility, undoubted distinction and astonishingly moderate pricing. New colors in the soft shades to which Jersey lends itself so well, make the collection especially interesting.

Illustration A depicts smartly pocketed model, the back of which shows darts on either side of a box pleat. It may be had in Fawn, Stone Blue, Navy, Heather, Brown and Rose. Priced at \$47.50

Illustration B features the long roll collar of silk Angora, sometimes matching, sometimes contrasting in color. The back shows an inverted box pleat, flanked with darts. Colors are Sand, Purple, White, Grey, with Navy collar, Navy with Tan, Castor, Dark Brown, Old Blue and Turquoise. Priced at \$55.00

C is a graceful little model, with big, roomy pockets, and comes in Old Blue, Sand, Brown, Heather and Scotch Mist. It is priced at \$49.50

D prefers to show the smart lines of the back of her suit, but equally good is the front with its three pockets. Colors are Stone Blue, Grey, Oxford and Saxe. The price \$45.00

Two other models not sketched by our artist are equally fetching. The first, made with a small shawl collar, offers a color choice of Nigger Brown, Stone Blue, Heather and Reseda. Priced at \$37.50

The second features a silk Angora collar and wide pockets. Colors are Sand, Navy, Grey, Purple with White and Silver with Navy collar. Priced at \$52.50

MURRAY-KAY COMPANY, LIMITED

TO SELL BY AUCTION FIVE MILLION PELTS

St. Louis, Feb. 1.—More than 5,000,000 pelts, valued at about \$25,000,000, will be placed on sale tomorrow at the opening of the winter auction of the International Fur Exchange. Approximately six hundred buyers

cluding 23 from Germany, were registered tonight. The sale will continue two weeks. Brantford—(Special)—Caleb Kitchen, a member of one of the pioneer families of Brant county, well known and with varied activities, passed away at his home in St. George this morning.

FARMER LEGISLATOR KILLS HIS NEIGHBOR

Montpelier, Vermont, Feb. 1.—In a dispute over the boundary line between their farms, George Hale, who sits in the Vermont legislature for the town of Middlesex, shot and killed his neighbor, H. Lester Morse today. Ad-

mitting the killing to the police, Hale said Morse had threatened him with a pitchfork.

Belleville—(Special)—Fire yesterday afternoon did several hundreds of dollars' worth of damage to Mr. John Berkeley's residence in this city, and forced the family out with the thermometer at 15 degrees below zero.

MAKE STUDENT'S UNION MEMORIAL FOR QUEEN'S

Kingston, Ont., Feb. 1.—(Special)—A students' union has been practically decided upon as a memorial for Queen's men and women who served in the recent war, and a canvass of

students to raise \$50,000 of the \$100,000 required will start on Monday. The campaign will be launched at a meeting of the returned men's club association in Convocation Hall, Monday night. It is hoped that the remaining \$100,000 will be raised by the trustees, alumni and interested friends.

Bohemian Reformist Priests Excommunicated by the Pope

Rome, Feb. 1.—The Holy See today excommunicated the Bohemian reformist priests who organized a Czecho-Slovak national church, thus separating themselves from the Vatican.

These Offices

The Toronto World

FOUNDED 1880. A morning newspaper published every day by the year by The World Newspaper Company of Toronto, Limited.

MONDAY MORNING, FEB. 2

The Paisley Election and the New Politics in Britain.

Paisley has been selected as the possible scene of the rehabilitation of the old party system in Great Britain. It is fairly obvious that but for local pressure the managers of the Tory party would not have opposed the former prime minister, Mr. Asquith.

Mr. Asquith's real opponent is the labor candidate. The contest is between the new politics and the old, between the old world of before the war and the new world that is to be henceforth or, as soon as it can get itself established, if any representative of the old world was to be selected Mr. Asquith is the man.

A decisive victory for labor in Paisley over both Unionist and Liberal will mean an early domination of British politics by labor principles.

A la Moratorium. Lord Fisher, in one of his crackler-like letters to The Times, calls for a "Newtonian Cromwell" to enunciate the law that will make the world free for freedom and free from Bolshevism.

While Sir George confuses gravitation and levitation, he is catching on to a great truth when he distinguishes between the economic and financial condition of the world.

Perhaps the principle which Mr. Newton-Cromwell might operate is at his hand. It has been in use for five years. When the war came it accentuated financial troubles which were secondary to the economic needs of the war—needs which had the extinction of human life as their first objective.

Everything is in chaos because the pre-war obligations have demoralized the world's financial machinery, and men talk more about finance than they do about economics.

SEES HIS SHADOW

THE GROUNDHOG: "Another bad spell of weather comin', by gum."

to restore his health. The financiers can wait, if Newton-Cromwell starts on his job.

Taking Over the Grand Trunk.

From The Sunday World. The shareholders of the Grand Trunk are to meet in London on Thursday, February 18, to ratify the sale of the road to the Dominion government; it is almost certain that the deal will go thru with the modifications that were consented to by the federal officers of the crown.

"Discovery."

A new magazine has been issued by John Murray, London, entitled "Discovery," which is to give a monthly review of the advance made in the chief subjects in which investigations are being actively pursued.

CHURCHILL AIMS AT BOLSHEVISM

Says Ghost of Russian Bear Will Cross Snow and Menace Allies.

Sunderland, Eng., Feb. 1.—Winston Churchill, British secretary of state for war, declared in an address he delivered here that while no one can tell what will emerge from Russia, it will be something very menacing to civilization, and especially dangerous to the British Empire.

"Bolshevist fanatics are determined to destroy civilization, democratic parliaments, and the liberties of free peoples," declared the minister. "Europe and Asia are in a desperate condition. The allies may abandon Russia, but Russia will not abandon them."

MOONLIGHT AND MONEY

BY MARION RUBINCAM. TALKING IT OVER.

CHAPTER 103. For a week Murray Butler stayed away from the Driscolls. To Louise's invitation he phoned an apology and pleaded that he was busy.

"I counted eight gray heads thru the window as I passed along the street," Murray observed. "Why is it men's clubs always have a row of gray-headed men in the windows? Don't the young members ever sit here?"

"Perhaps the old ones grab the best chairs and keep them away," suggested Mr. Driscoll. "Why is it you don't go up to the club and add your not so very gray head to the collection you were speaking of?"

"I used to unburden my soul to you regularly here," Murray said after a time. Mr. Driscoll blew out a thick cloud of cigar smoke and smiled encouragingly.

"And I always gave you good advice," he commented. "Go ahead—conquer it!" "It's Louise," Murray began. "Of course it is," Mr. Driscoll said cheerfully. "What about her now?"

"I don't know how to tell you," Murray said hesitatingly. "I want her to be happy, yet I can't make up my mind to move in the one direction I think best—mean to force a reconciliation with her husband?"

"Well!" the other man asked. Murray thought his eyes twinkled under their white eyebrows. "Very helpful," he complained. "Hang it all, you're her father, why don't you make the reconciliation. It's up to you, not me."

"I'm not at all sure," Murray said. "I've never been in love before. I feel as if I should be better off if she did go back to Harry."

"There you are," said Murray. "I'm not either. I mean I'm using that 'if' as an excuse to put off doing what I feel I ought to do. But I'm not as sure as you seem to be that she prefers living with you to him."

"My friend," he began, laying a hand on the other man's knee, "do you know, you talk to me as tho' you were coming to me to ask for my father's hand? You're all the nervous mannerisms a would-be suitor has."

Murray smiled a little ruefully. "If I were married I'm not sure but what that isn't just what I'd be doing," he confessed. "I know I'm old enough to be her father, but I'm not so sure I'm not a little better than that."

AMERICAN ATTITUDE REGARDING LEAGUE OF NATIONS SHOWN

Lord Grey Explains Certain Aspects of American Hesitation to Accept League.

London, Jan. 31.—Viscount Grey occupies two columns of The Times today with a letter on the attitude of the United States on the league of nations. He carefully explains that he is not writing as an ambassador, but as a private individual, making an earnest attempt to foster the friendliness of the two democracies by explaining to Englishmen certain aspects of the American hesitation to accept the league is not due to hostility to the principle, but to constitutional questions and possible effects which compel caution.

DOMINION VOTES

One particular reservation Viscount Grey thinks must give rise to difficulty, namely, that respecting the British votes in the assembly of the league, but neither the dominions nor Great Britain, he says, can admit qualification here. It must not be supposed that the United States will necessarily reject a decision in which those votes have been cast; therefore, it is possible and even probable that in practice no dispute will ever arise.

LESSONS DRAWN FROM GREAT WAR

Gas Will Be Used and Air Fighting Developed, Says British Expert.

London, Jan. 16.—There would be no more reason to forbid the use of gas than to prohibit the employment of rifles in the next war, says Major-General Sir Louis Jackson, of the Royal Engineers, formerly in charge of offensive gas production. There were, he declared, gases which killed painlessly, and it was easy to conceive cases in which it would be more humane to use gas than explosive shells. It might be possible to come to some arrangement whereby no gas should be used that caused unnecessary suffering.

In a recent address before some of the leading lights in the military world he stated that the world was on the eve of the most extensive modifications in the art of war known to history, and the changes made in the recent war were only the beginning. It was necessary to develop new arms with the knowledge that the nation which best did so would have a great advantage in the next war.

The tanks were not likely to be used in future wars, but they had shown that mechanical transport was not dependent on highways, and that therefore the whole transport of an army could be carried by vehicles with caterpillar wheels, independently of the roads.

Air fighting would be enormously developed. The short rifle range would be replaced by a short carbine, which would be accurate up to a range of 500 yards.

Artillery would be much more mobile and if they were to allow for an advance of 12 miles a day the guns must be capable of an effective range up to 15,000 yards. He thought that a short 4.2 gun with an accurate range of 12,000 yards and a long 4.2 gun with a range of 20,000 yards might meet the requirements of the future.

He said that the future soldier must be absolutely different from his predecessor. The days had gone by when initiative was considered not only unnecessary but dangerous. In addition to his rifle the soldier should be able to handle a Lewis or machine gun and to help the artillery. He should know something of explosives, have a knowledge of fuses, understand signalling and be able to handle a ground wireless set. He should receive intensive training.

"A Man Doesn't Need a Woman's Help!" Alice Fairbanks said this bitterly. For she had believed that her interest in David's ambition had encouraged him and helped him—until he allowed himself to be won away from her by a girl who took no interest whatever in his work.

Then Alice told herself that the man-nature was absolutely independent of the woman-nature. Little did she dream that, as she told herself these things, David was telling himself that his ambition was dead—dead because he had married the wrong girl.

Before the other girl had come between them, David and Alice had dreamed of running a farm together on scientific principles, and she had taken an eager interest in his agricultural studies which were to lead to the realization of this dream.

And then life had led them far apart, and yet had not taken the roots of that early ambition out of the man's heart any more than out of the woman's—so that it blossomed forth again, too late!

Yet sometimes life sees a way of smoothing out tangles even as great as this one. Does this happen? Find out by reading "The Girl Who Smiled Thru," which starts in this paper on Monday next, a week today.

AIRPLANE RACE
NEW YORK TO NOME; PLANS IN MAKING
1,300 Miles of Course Will Lie Along Line of Grand Trunk Pacific.
ROUTE IN ALASKA

New York, Feb. 1.—Tentative plans for a transcontinental air race this year, between New York and Nome, Alaska, a distance of 4870 miles, were announced here tonight by the American Flying Club. The proposed race will be held under the same rules and handicap plans as the race between New York and San Francisco last year.
From Mineola to Minot, N. D., a distance of 1673 miles, the route will lie over United States territory. At North Gate, N. D., the course crosses the international border into Saskatchewan, Canada, and continues 1500 miles across the Dominion to Fort Egbert, on the Alaskan border.
The course lies along the Grand Trunk Pacific Railroad, running from Edmonton, Alberta, to Prince Rupert, B. C. At Hazelton, B. C., the proposed route branches north between the coast range and the Rockies, following the valleys which are the most populated. This route is covered by the only telegraph line and the most favorable from the supply point of view.
In Alaska the route runs from Fort Yukon to Fairbanks by way of Fort Gibbon, thence to Nulato and Nome. Compulsory stops will be arranged at an average of every 150 miles. Only qualified aviators will be allowed to enter and their machines will be examined at each stop before being allowed to proceed. Detailed plans will be announced later.

THE WEATHER
Meteorological Office, Toronto, Feb. 1.—(8 p.m.)—The weather has been fair to-day through the Dominion with a marked rise in temperature over Ontario and to a lesser extent in Quebec and the maritime provinces.
Minimum and maximum temperatures: Prince Rupert, 23, 34; Vancouver, 36, 46; Kamloops, 28, 36; Calgary, 18, 34; Edmonton, 19, 15; Regina, 15, 22; Winnipeg, 4 below, 26; Parry Sound, 12 below, 14; London, 4 below, 6; Toronto, 9 below, 24; Kingston, 15 below, 20; Ottawa, 24 below, 2; Montreal, 20 below, below; Quebec, 26 below, 2 below; Halifax, 14 below.

WILSON—On Saturday, Jan. 31, 1920, at Toronto, Mordecai Wilson, in his 55th year.
Service on Tuesday, Feb. 2, at 10 a.m., at A. W. Miles' funeral chapel, 336 College street. Interment in Mt. Pleasant Cemetery.

MARY PASSENGERS WERE FROSTBITTEN
Burlington Doctors Doing Utmost to Save Wreck Victims From Pneumonia.

Burlington, Vt., Feb. 1.—Physicians tonight are battling with every possible means in their effort to prevent development of pneumonia among the more than a score of victims of the Montreal express train wreck near the Grand Isle-North Hero bridge of the Rutland Railway, early this morning, when each of three sleeping cars derailed by a broken rail, plunged down an embankment and into Lake Champlain, at Hubbard's Bay. An official investigation was started this afternoon, and while no report has yet been returned to the railroad or police authorities, members of the train crew were credited as saying that the accident was caused by a split rail.
Many of the passengers were badly frost-bitten before they were transferred to other cars and removed to the hospital. Ten were taken to the Mary Fletcher Hospital here, while more than a dozen were attended to at hotels in this city. They were brought to Burlington on the second special of the New York-Montreal flyer.
George H. Clark, of Ottawa, Ont., and Miles Hanson, both of whom are now at the Mary Fletcher Hospital, are probably the most severely injured of any of the passengers, being cut badly about the arms. Both were passengers in the sleeper which went into the lake.
When the wreck occurred Mr. Hanson was thrown out of his berth and stunned for the moment by the fall, and was carried out of the car by one of the railroad men. As soon as he was able he started breaking the glass of the windows with his hands.

ALLEGES NEGLECT
Wrecked Passenger Says Officials Did Not Look After Needs.

Montreal, Feb. 1.—A Montreal passenger on the wrecked Rutland-New York-Montreal train who arrived here at 5 o'clock Saturday morning, complains bitterly of neglect by officials of the company. According to his statement he and his distressed companions were driven from the coach to another, one train to another, and their needs as to clothing and food were only met by the thoughtfulness of fellow passengers. He states that, in a state of direst need, he was obliged to change trains four times before he finally reached Montreal, and that between the time of the accident and late in the afternoon he was never approached by an official of the Rutland Company in regard to his needs.
This passenger, who desires to hold his name from publication, was sleeping about 6 a.m. Saturday, when he found himself suddenly toppled from the lower berth to a standing position on the bottom of the upper berth, whose occupant was then standing on the roof. The car was partially in water, and the two men were in pyjamas and bare feet. They climbed up the embankment and borrowed blankets to wrap around themselves.
Relatives of travelers waiting anxiously at the station for information, and all they could glean was the statement on the arrival bulletin that the ill-fated train had been "canceled."

WOMEN NOW BUSY IN PAISLEY FIGHT
Labor Candidate Has Secured the Assistance of Countess of Warwick.

London, Feb. 1.—Disraeli's advice to "keep your eye on Paisley" is being just now intently followed and interest in ex-Premier Asquith's contest grows every day. The speaking campaign is engaging both sexes this week. Lady Astor, the only woman member of parliament so far, will be on the coalition platforms and the Labor candidate has secured the assistance of the Countess of Warwick, whose political prominence is entirely due to her advocacy of Socialism. These ladies will not be too early in the field for Mr. Asquith's cause has already got a long start thru the witty speeches of his clever daughter.
Mr. Asquith has declared himself a complete convert to the rights of women, and his election address issued this week, shows him to be an advocate of the revision by the league of nations of the peace treaty's territorial provisions; an international economic conference on peace and trade with Russia; and an immediate granting of self-government to Ireland in the fullest sense.

GEN. R. A. HELMER DIES OF PNEUMONIA
Director-General of Musketry Passes Away in Ottawa.

Ottawa, Feb. 1.—(By Canadian Press.)—Brigadier-General Richard Alexis Helmer, C.M.G., director-general of musketry at the department of militia and defence, died on Saturday evening after a brief illness of pneumonia. He was born in 1854.
General Helmer was one of Canada's noted rifle experts. In 1899 he was adjutant of the Canadian Bisley team, and in 1903 adjutant of the Canadian Palma trophy team, which shot at Sea Girt, N.J., and in 1907 commanded the Canadian Palma team at Ottawa. He was twice mayor of Hull, Quebec, in 1896 and 1900.
An only son, Lieut. Alexis Helmer, fell in the great war.

Labor Council of Calgary Cautions About B's Strike
Calgary, Alta. Feb. 1.—The Trades and Labor Council of Calgary will take no action regarding the proposed general strike in support of the strike leaders on trial in Winnipeg until they are sure that they are not giving support to the O. B. U. element.

DEATH OF INVENTOR OF PHILLIPS CODE
Vineyardhaven, Mass., Feb. 1.—Walter P. Phillips, former president of the Columbia Graphophone Company, and prior to that, a widely-known newspaperman and telegrapher, died at his home here yesterday. He was at one time general manager of the United Press, and was the inventor of the Phillips code for telegraph operators.
Debs, Serving Long Term, Is Endorsed for President
Oklahoma City, Okla., Feb. 1.—Eugene V. Debs, now serving a 20-year sentence in the federal prison at Atlanta, Ga., on conviction of a charge of sedition, was unanimously endorsed for president of the United States by Socialists of Oklahoma, in convention here last night. Kate Richards O'Hare, at present confined in the Missouri state penitentiary, was endorsed for vice-president.

Meetings. Meetings.
Commercial Travellers' Mutual Benefit Society of Toronto
The annual meeting of the above Society was held in their rooms, 51 Yonge St., last evening. In presenting the annual report and financial statement, Mr. Chas. S. Parsons, President, said:
The Report shows a gratifying increase in every item, which should be an incentive for every member to use his best endeavors to further the interests of the Society by securing new members. During 1919 the increase in membership was the greatest on record, exceeding the previous year by over thirty per cent. The sum of \$2371 was paid to the dependents of the insured, and notwithstanding this amount, we invested \$27,758.00 in first-class securities, \$20,000.00 being in Victory Bonds, bringing our total assets up to \$151,655.13 as against \$77,234.49 at the end of 1914. From this you will observe that our assets have almost doubled in five years, a matter of intense satisfaction.
It is encouraging to note the number of members who are taking advantage of your Society's action in permitting members to increase the amount of their insurance to \$2,000.00; and also that so many are paying their assessments in full, in advance, for the entire year. We trust these two features will become more general.
The Officers for 1920 are: Chas. S. Parsons, President; S. M. Sterling, Vice-President; S. E. Wickert, Treasurer; Richard Ivans, Secretary. Trustees: Edw. Forbes, W. J. Byers, Robt. Maxwell, John Burns, John Currie, Adam Johnston, L. R. Arnet, A. J. Tipping, E. Fielding.

DEATHS INCREASE FROM INFLUENZA

New York Experiences Decided Drop in New Cases. New York, Jan. 31.—Deaths from influenza continued to increase today, while there was a decided drop in the number of new cases reported to the health department. There were 123 deaths from the disease, an increase of four over yesterday's record figures in the present epidemic, while the number of new cases totalled 485, a decrease of 687 over those of the previous day.

NIAGARA DISTRICT INDUSTRIES MEET

Plans Completed for International Conference of Business Delegates. Bridgeburg, Jan. 31.—Sixty representatives of the following towns in the Niagara district—Thorold, St. Catharines, Bridgeburg, Niagara Falls, Port Colborne, Welland, Fort Erie, Merrittton, Crowland, Bertie and Hamberstone—gathered this week to complete plans for the proposed industrial conference to be held this year, at which delegates will be invited from not only Canada, and the States, but from Europe, as well, to be shown the power, canal, hydro, fruit-farming and manufacturing qualities of the Niagara district.

LABOR QUESTIONS STIR UP FRONTIER

MacBride and Rollo Controversy Interests Members in Niagara District. Special to The Toronto World. Bridgeburg, Feb. 1.—The Niagara district is watching with considerable interest the controversy now under way between the MacBride and the Rollo followers of the Independent Labor party.

JAPANESE TO COLONIZE FOUR MEXICAN STATES

San Antonio, Texas, Jan. 31.—Baron Otori, Japanese minister to Mexico, has made arrangements with the Mexican federal government and with agencies in Japan for the colonization of several thousand Japanese in the states of Sonora, Lower California, Sinaloa and Colima, on the west coast, according to a despatch from Mexico City, received today by a Mexican newspaper published here.

BUDAPEST'S ASSEMBLY MAY GO TO PEASANTS

Budapest, Jan. 31.—Results of the election for the national assembly thus far received show power is divided between the Christian Nationalists, with 69 seats, and the peasants with 57. The result in 27 districts still to be heard from is expected to favor the peasants.

SHORTAGE OF ELECTRIC POWER DISTURBS BRANTFORD

Brantford, Feb. 1.—Brantford suffered its worst cut in Hydro power this morning, when a new record of 65 per cent reduction was set by the Ontario Hydro Commission. The explanation given is that the Canadian Niagara Company, which should supply the Hydro with 65,000 horsepower, is unable to supply anything, owing to the extremely severe conditions at its plant. Brantford has been repeatedly protesting against the lack of power here. Last evening, after the factory load had been wiped out, and with all street lights cut off in the residential districts, there was not enough power left to give a supply for street railway service and domestic lighting.

Serving the New Canadians. DURING the past twenty years Canada received three million new settlers of whom about one million were of foreign speech. The war interrupted immigration, but soon the march westward will begin again. Mutual Requirements. What do we expect of these new citizens? Respect for Law and order, a measure of diligence, that they may not become a charge upon the community, and a willingness to adjust themselves to a new environment. The Church Hampered. The Church has not been neglectful of these new Canadians, whether settled in the crowded cities, or on the Western plains. A Case of Misunderstanding. Many Church Members do not realize the magnitude of the task. Look! A Study in Contrasts. In the year 1800, the United States had a population of 3,908,483. Moulding the National Spirit. The great majority of immigrants now settled in the Dominion are men of good-will, with an aspiration for useful citizenship. Motives for Activity. You are a Canadian, proud of your country, and deeply concerned for its future. National Peace Thank-Offering. Simultaneous Every-Person Canvass by Each Communion February 9-14. The United National Campaign. Representing the Simultaneous but Independent Forward Movements of the Anglican, Baptist, Congregational, Methodist, and Presbyterian Communions in Canada.

"SOLID AS THE CONTINENT" The business for 1919 further established the strength and security of the North American Life. To-day the financial position of the Company is unexcelled. SIMPSON'S FURNITURE & HOME FURNISHING SALE

The Choicest Bed Furniture

One Could Wish Has a Place in Our Display

There is no need to envy the man who "wraps the draperies of his couch about him and lies down to pleasant dreams" if your bedroom is well-appointed. Part of your rest depends upon the arrangement, but a great deal is concerned with the furniture itself. Simpson's furniture, in gracefulness of line, refinement of design and quality of material, takes premier place with those who seek reposeful rooms and guest chambers.

Fine Workmanship

On the Fifth Floor the great February Sale is in progress. There are suites and pieces at greatly reduced prices, and there are also examples of very fine workmanship and patterns that Canada can produce, and that will appeal to the most particular buyer.

A Suite of Walnut

For example, in one of the decorated bedrooms is a suite of walnut, very tastefully finished. The bed has nice lines, with dainty floral medallion at head and foot. The suite includes, as well, dressing table, chair, rocker, dresser and chiffonier. Price 640.00

There is also a twin bed suite in walnut, including chiffonier, dresser and vanity dresser. Price 685.00

Whether in designs especially pleasing to feminine tastes or in stately and imposing styles, the Furniture Department can fulfill your wishes.

Simpson's—Fifth Floor.

Making Homes Home-Like

That is what Simpson's is doing these days on a large scale.

There is something tremendous about the momentum with which this big Furniture Sale is sweeping along. All our old records went into the discard on the first day. The public never massed so enthusiastically to purchase house furnishings. The floors have been cleared and cleared again of shipments.

Made in Canada.

The reason for this? Because the customer is getting the best furniture Canadian workmen can manufacture and the most reasonable prices offered in Canada for merchandise of its standard; and because the customer knows that a Simpson purchase means satisfaction from every standpoint. This sale daily holds out big opportunities for you to make your home as you would have it.

A Chesterfield in Every Home

Means Ease and Comfort for Each of the Family

The Chesterfield is nowadays almost an essential in the home. In tired moments, the mistress of the house slips into it for a brief spell and loses her fatigue. Young Johnny from school falls fast asleep in it, waiting for the dinner gong. And when the "tired business man" settles down with the newspaper about 7:30 p.m., the Chesterfield, or one of its component chairs, is a veritable berth for the evening.

Real Comfort-Builders

We are featuring a wonderful array of these comfort-builders on the Fifth Floor. They invite your inspection. Flanked with great easy chairs of identical upholstery, they appeal to young and old, to prospective home-makers, and to those who wish to introduce a little more luxurious ease into their domestic circles.

One representative set, embracing the Chesterfield and two chairs, in large flowered upholstery, is priced at \$519.25.

Chesterfields alone run from \$170.00 to \$304.00.

You may have them upholstered in your own choice of tapestry.

Simpson's—Fifth Floor.

A Clear Spring Note

Is struck in these new suits for women. New York models and styles from our own leading makers, which delightfully depict the style trend and are certain of success. Navy, taupes and browns are greatly in evidence, with new bright shades here and there.

Suits favor the tailleur, and come in tricotines, gabardines, serges and wool checks. Priced \$45.00 to \$135.00.

Coats lean toward swinging lines and shorter lengths, and find expression in bolivia, tinseltip, light-weight velours, serges and gabardines. Priced \$35.00 to \$100.00.

Simpson's—Third Floor.

Beads! Beads!

Beads for bead bags, necklaces, trimmings, beaded frocks and blouses, etc. Wonderful shades, particularly in seed beads, which range from pale yellow to brown, sky, peacock, midnight and navy blues, pinks, reds, burgundy, lavender, greens, white and black.

Coral and Pearl Beads sold by the dozen.

Cut Jet Beads, in assorted sizes, sold by the dozen.

Cut Steel in bunches.

Wooden Beads in various sizes and rare Oriental colorings.

Art Needlework Department—Fourth Floor.

Rugs For All Your Floors

May Be Secured Advantageously While Our Big Sale Is on

There will not be a better moment in 1926, to purchase rugs. Here we are offering floor coverings in rugs and carpets, newly-arrived English goods of unquestioned quality, at prices that should banish hesitation. Every floor in the house may be covered with financial ease.

English Axminster Rugs

Useful, hard wearing rugs in attractive colors in rich shades of browns, deep blues, rose, and copper tints. Good designs for hall or room wear. Fringed ends. Made in three sizes, at \$6.75, \$8.50, \$12.50.

Wide Tapestry Carpets

An extra wide tapestry that will cover your room, with only one seam. For your halls and passages without a seam. Tan, brown and green coloring. Conventional patterns. Extra width, 54 inches, at yard 4.95

Narrow Stair Carpets

It has been many years since we have been able to secure this width of Wilton carpet. Suitable for narrow staircases or where the treads are oak and only a narrow covering is required. 18 inches wide at yard 3.65

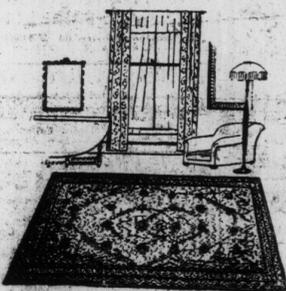

Carpets for Churches

A good opportunity for church or school rooms. These carpets were purchased at a low figure. Small red and black design. Excellent quality, closely woven. Only, yard 3.35

Axminster Stair Carpets

Will give good service. In attractive Oriental colors. 22 inches wide, in two qualities, at yard \$3.95 and \$4.65.

Simpson's—Fourth Floor.

All Matters of Curtains

Should Be Settled While These Great Offers Stand

Curtains and portieres hold a very definite and important place on the shopper's memo. The old curtains may be flimsy through much laundering or irretrievably stained. Portieres are a necessity. Today, both may be bought at a saving.

Lace Curtains at \$1.59

150 pairs of strong wearing curtains, made in Nottingham. Half a dozen exceptionally attractive styles to choose from, in either white or ivory. 2 1/2 yards long.

Nottingham Lace Curtains at \$2.98

200 pairs of imported curtains made of durable twisted thread and showing a collection of desirable patterns with plain and figured centres. 2 1/2 yards long.

Strong Fish Net Curtains at \$4.98

100 pairs of double thread, fish net lace curtains, also effective styles in filet net, plain, medallion and all-over patterned centres to select from, in white or ivory. 2 1/2 yards long.

Voile and Marquisette Curtains

A very special offering, consisting of perfectly-made curtains in fine voile and mercerized marquisette, trimmed with medallion and motif corners and panel effect borders. Also several with cluny style lace and insertions. White, ivory and ecru. 2 1/2 yards long. Price 7.49

Special in Portieres

50 pairs only offered at this closely cut figure. Made of heavy quality Armure cloth in the best tones of green, nicely trimmed with tapestry banding, in various harmonizing colors, down one side and across the bottom. Regular \$10.49. Today, pair 8.79

Simpson's—Fourth Floor.
