PRINCESS ZARA
BY ROSS BEECKMAN.

(Continued.)

And I understand, also, why my statement should have had such an effect upon her. Reared as she had been, in the society of St. Petersburg; taught from her cradle to hate and despise, she could look upon me, now, only with horror and loathing. I was that thing which she had most despised. It was that monstrous creature, which, calling itself a man, was according to Zara's lights, without principle, honor, integrity, or manhood.

I stood before her, not with bowed head, as perhaps I might have done had my true feelings been expressed, but with bowed and stricken heart, suddenly aware that I had gained the glory of her love only to lose it, and in a manner which carried with it no redress.

"I have completed an organization of men, Zara," I went on, calmly, and in a low voice, endeavoring to render as monotonous as possible, "that has for its purpose the undoing of nihilism, as it is now practiced. That organization, through its ramifications, through St. Petersburg, and even to other cities of Russia. Its purpose, primarily, is not to send conscripts to Siberia to suffer exile there, with all the other horrors that go with it, but to—"

"Enough!" she interrupted me. "I have heard quite enough Dubravnik! What you say to me now, is meaningless twaddle. You are like all the others who pit themselves against the silent body of men and women who are engaged in seeking the freedom of their country. If you have anything of the horror of Siberia, to which you so glibly refer, you would shudder when you mention them, and you would fly with horror from any act of yours that might commit a person to Siberia, and exile."

She came half-way around the table, and stood facing me, somewhat nearer. "If you had taken a journey through Siberia, you would have strangled yourself, or have cut out your tongue, rather than have gone to him with any such dastardly proposition as you confess yourself to have fathered. You prate of utilizing yourself by taking the oath of nihilism, and repudiating your word to Alexander. You! A professional spy!" She threw back her head and laughed aloud, not with gloom, but with utter derision of spirit, and I shrank from the sound of it as if I might have done from a blow in the face.

Again she was a creature of moods and impulses. Again the wild Tartar blood, leaping in her veins, controlled her. With a sudden move she came nearer to me, and bending forward, looked into my face intently, as if searching for something which had hitherto escaped her notice.

"What are you confessing, Zara?" I asked her; and she replied:

"I am searching for the man whom, but a moment ago, I thought I loved. I am seeking to find what it could have been that I saw in your eyes, or your face, or your manner, that has so justified me. It is an apt word, Dubravnik."

"Seek further, and perhaps you will find it."

"No," she said. "He is gone, if he ever was there; and she shrunk slowly away from me, backward, across the room, until the table was again between us, and she stood leaning up with both hands on the table, peering at me with widened eyes that might have belonged to a child in the act of staring, or to a man in a cage as some wild beast confined within it. It is impossible to describe her attitude and the expression of her face, at that moment. Horror, repulsion, contempt, loathing, even hatred, were depicted there. I recognized the fact with shuddering fear. It was that one thing which she most despised.

"It is strange how the light of the world went out, for me. In recalling the great calamity that had fallen upon me, I forgot all else; but strangely enough I did not once think of appealing to her. Slowly I turned away, and with slow strides approached the door which would admit me to the corridor, and so permit me to pass from the house to the street.

"I reached it; I drew it open. I did not turn my head to look at her again, lest I should become unmanned, and degrade myself by pleading with her for the impossible. I passed into the hallway and pulled the door shut behind me, and then, somehow, I got as far as the balustrade, which, by following it, would lead me to the bottom of the stairs at the house entrance.

"My foot was upon the first step of the stairs when I heard rushing footsteps be-

LINEN DRESS WITH APRON PANEL

Very smart but oddly suggestive of a housewife's little morning costume is this white linen dress with apron-like drape and shoulder straps. The "apron" is built of very coarse flax net upon which is appliqued a bold pattern cut out of the white linen, this applique pattern being covered almost solidly with scotch-braided black satin girdle and little strappings of black velvet ribbon make this costume very chic. The hat is one of the wide-brimmed models heaped with paradise feathers.

WOMEN'S COUNCIL WILL HOLD NEXT QUINQUENNIAL IN ROME

Business of Present Session Will Probably Be Concluded on Friday—One Delegate Who Condemned Slaughter of Birds But Who at the Same Time Wore Their Plumes

Toronto, June 22.—The next quinquennial congress of women will be held at Rome in 1914 is the decision which the council came to this morning with some difficulty. Another important development was the addition of public health and educational sections to the standing committee, especially as Mrs. Olive Gordon has been appointed convener of the educational branch. Many who noted her retirement from the congress, so that the government there is evidently alive to the importance of the women's movement. Dr. Shaw also applauded loudly a passing reference to the suffrage in Australia.

The Grecian report boasted of quite a "peroration," "Welcome and hail to the great differences between English and American history, with regard to the revolutionary period. They did not want their children to be brought up in a revolutionary spirit."

A resolution was adopted as that proposed by Dr. Alexander Skelgrod for the promotion of women.

Mrs. Mary Wright Sewall arose to introduce her report as president of the last quinquennial. The report, though five years late, has just appeared. It contained another speech in reply in which she told "All troubles and differences recent years had strengthened and broadened my knowledge of life."

In the discussion which followed, as to the question of the quinquennial just ended, Lady Aberdeen and Mrs. Gordon were frequently on the floor at once. Mrs. Gordon was firm in declaring that the expense of publishing the next proceedings of the council meet-ings would be £120 without including reports.

"Certainly the reports should be included," interrupted the chairman. The council finally voted £200 to get out the volume.

"If the reports were kept shorter the volume would be smaller," suggested a delegate, "and it could be sold at a price which would appeal to everybody, even if the cost were not quite covered."

It was decided to hold the 1011 executive meeting in Stockholm and that of 1912 in the Netherlands.

Resolutions were passed to form a public health committee and one on education.

In connection with the latter Mrs. Gordon declared that it was the earnest hope of the delegates from every nation that something should be done for the development of girls educationally that they

SAY FRENCH NAVY IS IN POOR SHAPE

Parliamentary Commission Finds Obsolete Guns on Battleships and Not Enough Ammunition to Survive a Six Hours' Naval Battle—No Reserve Coal or Dry Dock.

Paris, June 22.—The report of the parliamentary commission which investigated the naval scandals in France has been turned in. It is a scathing condemnation of the naval administration for the past ten years and it makes an astounding exposure of the deplorable condition of the fleet for which France has spent \$700,000,000 since 1890.

The 350 pages of the report are filled with details of the inefficiency resulting from confusion and red tape, conditions that make French construction cost twenty-five per cent. more than English or German. As an evidence of these methods it is pointed out that cannon shells of large calibre, condemned after the accident to the battleship Iena, continued to be manufactured in larger quantities than ever for two whole years. The Patrie, the République and other ships of this class were found equipped with secondary guns of a model of 1885 instead of 1892, as the specifications required. Neither the ammunition nor the guns for the six ships of the Danton type, to be completed in 1911, will be ready before 1914, and France has not a single drydock capable of accommodating these vessels when they are finished.

Perhaps the gravest feature of the exposure is the lack of reserve coal and ammunition supplies at the various ports and arsenals. One officer testified before the commission that at the end of a naval battle of six hours the ships would be virtually out of commission.

The commission recommends the complete reorganization of the department, the elimination of red tape and the distribution of responsibility. It insists, however, upon the maintenance of the department of construction and equipment entirely separate from the general staff.

MORE MONTREAL LAURIER SPEAKS MEN BOUGHT AT MONTREAL TONIGHT

More Revelations of Injustice and Corruption in the Montreal Fire Department—They Paid for Positions.

Montreal, June 22.—More revelations of injustice and corruption in the Montreal fire department were made before the royal commission this afternoon by Captain Naud, one of the oldest officers, having been connected with the department since 1877. He declared that merit and experience were not taken into consideration when making promotions, and that competence was not taken into account at all. It was merely a question of protection. He further declared that sub-Chief Dubois had asked him for \$50 to obtain a promotion for the witness.

One of the foremen in the brigade said he deposited \$500 in the hand of Chief Benoit to get appointed to the St. Cune brigade eighteen years ago.

The giant of the brigade, Fireman Bell, also swore that he gave \$225 for his appointment.

The Campaign Closed Last Night With Subscriptions of Over \$51,000 for the Day

Montreal, June 22.—The Y. M. C. A. \$300,000 building campaign closed today with a rush of subscriptions which brought the total to \$320,300, well over the amount required. Great interest was taken in the last day of the work, as nearly \$22,000 was still required to complete the campaign. The total amount, however, were given out tonight, it was shown that the last day's work had netted slightly over \$3,000, making the sum required, a subscription of \$19,000 from Robert Ford, an advertisement of \$2,000 and several other \$1,000 subscriptions, including one from C. M. Hays, general manager of the Grand Trunk. In addition to this, a subscription of \$2,000 was received from the late David Yule, who shortly before his death a few days ago, had donated this amount to the U. S. M. C. THE COUNTY CAMPAIGN

The Liberals of St. John county owe nothing to the Hazen government, nor to the federal party with which Mr. Hazen identified his government the moment he had, with the aid of Liberal votes, attained power. On the contrary the Liberals of the county have every reason to distrust the government of Frederickton. It has fulfilled no pledges. Its organs are still asking the people to wait and give Mr. Hazen time to develop his policies. He has had ample time to show his quality, and his broken pledges are an evidence.

When the voters of the county think seriously, and ask themselves what present or prospective advantage there would be in electing a Conservative candidate, they can find nothing in the record of the Hazen government to inspire them with confidence, either in its ability or policy. It was stated last night that the campaign in the county would be over within six weeks. Mr. Hazen feels that he cannot afford to lose time, and so will bring the by-election on during the busy season. It matters little, however, at what season he appeals to the Liberals of St. John county. They do not only know him and his government for what they are worth, but do not forget that it was Mr. Hazen who launched the venomous attack upon the minister of public works, when the latter was doing such splendid work for the development and protection of harbors along the coast of St. John county. No friend or supporter of the minister will be likely to forget the cowardly attack made when Mr. Hazen became the mouthpiece of Mr. Hayes, and then ran away when the affair was exposed, and refused to accept responsibility for his own act.

Since the general provincial elections the Hazen government has steadily lost ground in the province. This has been proved in the by-elections in Carleton and Northumberland counties. It is now the duty of the electors of St. John county to further emphasize popular disapproval of a government which got into power on false pretences and has given no good reason why it should successfully appeal to any constituency for confidence and support.

GOOD FOR ST. JOHN

The statement made by Hon. Mr. Brodeur to a deputation from the Montreal board of trade is of great importance to St. John, and means much for the business of this port. The minister stated that after next year the preference to those which were landed at Canadian ports. The St. John board of trade and the business men generally, of this city, have urged the policy now announced on behalf of the government by Mr. Brodeur. The Liberal government, which adopted the principle of the tariff preference in the interests of inter-provincial trade, will next year make that policy of special benefit to Canadian ports. By the time the change is made the port of St. John will be equipped to handle a much larger business in winter, and it will profit very largely from the new policy. The like will be true of the St. Lawrence route in summer. The government of Sir Wilfrid Laurier, proceeding steadily along definite lines, is always bringing Canada into closer commercial touch with the rest of the empire. It is, in that connection, developing Canadian ports, and has thus recognized the claims and advanced the interests of this winter port. The Liberal party in

this constituency is strengthened in its devotion because of the statesmanlike course pursued by the government, in face of the most cowardly system of attack ever devised by an opposition party. The people of New Brunswick only await an opportunity to swing the provincial administration into line with the progressive men who are at the head of affairs in Ottawa. St. John county will shortly speak on this subject.

The Montreal Y. M. C. A., set out to raise \$300,000 within a stated short period which closed yesterday. The actual amount subscribed was \$229,300. It was only yesterday that the announcement was made that a Montreal man had given \$125,000 to found and equip a sanitarium for consumptives, and only the other day another made a splendid gift to McGill University. The people of Montreal may blush with shame at the revelations of gross corruption in their civic government, which are published from day to day as the investigation proceeds, but they have also much to be proud of. So long as a city has many citizens of intelligence and wealth and high ideals, who are generous in their support of institutions for social betterment, the baser element cannot wholly triumph.

The revelations in the report of the French naval commission are of a nature to startle that country. Graft and gross inefficiency are charged, and the state of the navy is described as deplorable. A complete reorganization is recommended, and it is evident that an enormous expenditure must be made if France is to keep pace with the frenzied naval preparations of other countries. The burden upon the people will be heavy, and there seems no escape from it, at least so long as Germany goes on with her ambitious programme. The report of this commission, taken in connection with the recent discussion in the European press, assumes additional significance. The burden of armaments grows yearly greater upon the nations, and one does not like to contemplate the possible outcome of it all.

In addition to the utter inefficiency of its navy, as set forth in the report of a parliamentary commission, France faces an enormous deficit. A Paris cable says: "The budget for 1910 was introduced in the Chamber of Deputies yesterday by Finance Minister Caillaux, and showed a deficit of \$21,000,000. Nine millions of this is charged to the budget of 1911. The minister recommends that the remaining \$12,000,000 be raised by a new tax of a cent a litre on petroleum used in automobiles; a tax on dogs; administrative re-arrangement, and a stricter enforcement of the taxes on colonial obligations and mines, and a new tax in connection with the inheritance of property."

The announcement that Mr. D. Lorne MacGibbon of Montreal has given \$125,000 for the erection and equipment of a sanitarium for consumptives should be given the widest publicity. It is not only a splendid tribute to the generosity of one who himself suffered from disease, but is an example that others who have the means might follow with credit to themselves and great benefit to humanity.

Not in many years has amateur base ball flourished in St. John as it does this summer. Quite a number of commercial houses have teams, and there are teams connected with a number of churches, besides all the enthusiasts among the boys. This is much better than the street-corner habit, and deserves encouragement.

If abuse of the Liberal press, and of the late provincial government could convince the people of St. John county that the Hazen government had kept its pledges and proved itself fair in its treatment of Liberals Mr. Moher might be elected. But the government must be judged on its own merits.

A Conservative picnic is being held at Stanley today. Doubtless Mr. Hubbard will be there, and when Premier Hazen is asked to disclose to the thrifty farmers of that region his agricultural policy Mr. Hubbard will stand up.

Mayor Hurley of Salem, Mass., remarks that St. John is fifty years behind the times. He missed his Sunday newspaper. No doubt Mr. Hurley is a good man and means well. By the way—where is Salem?

With the Sigel murder and the Gould family squabble, New York has its customary sensation in the customary revolving form.

The citizens will experience a general sense of relief that the mayor's address, delivered a long time ago, has at last been discovered by some of the aldermen.

APPLICATIONS FOR SPACE

AT THE 1910 DOMINION FAIR Application for space at the Dominion fair to be held in St. John in 1910 are already being received from points in upper Canada as well as the maritime provinces. It is announced that the Canadian Bank of Commerce have under consideration the offering of a prize in connection with the big show. There is also some talk to the effect that instead of having one manager for the exhibition as has been the case in previous years, one man may be appointed to have charge of the agricultural exhibits and another to have charge of the other departments.

During the progress of the race for the one-design boats of the R. C. B. Y. C. at Sydney on Saturday, the boat sailed by Forbes Clarke was capsized in a heavy squall off Doberon's and the crew thrown into the water. The men were in the hands of the life preservers, and the boat was overturned, when they were picked up by the ferry steamer Pelee's.

Capt. Ritchey, of the steamer Wasp, reports that shortly after leaving St. John's for North Sydney, a large number of iceberg were met and before Cape Race was passed no less than three hundred bergs had been met. Off Point St. Mary's, on the coast, an immense berg was encountered, which lowered several hundred feet out of water and had grounded. The water was sounded at that place and was found to be eighty fathoms deep. The weather was thick with heavy fog and the steamer had to proceed with unusually slow speed as fears were entertained of collisions.

The tug D. H. Thomas, noticed a small boat off the pier at Sydney on Sunday, with two men on board trying to make the opposite shore in the teeth of the heavy gale. The boat suddenly capsized and the tug crew rescued them.

Paddy Ryan, who for the past several months was employed as driver and fireman at the Dominion Iron and Steel Co's plant, Sydney, was at his post in the boiler room one morning and came in contact with gas and for a week he was mentally deranged.

Rev. TEMPERANCE PICNIC AND PARADE PLANNED

Big Celebration to Be Held at Norton on Dominion Day.

Norton, N. B., June 19.—At the regular lodge meeting last night it was finally decided to hold a monster picnic and temperance parade here on Dominion Day. It is expected that members from the lodges which can get at all reach here, will be present to take part in the parade which will be headed by the Moncton brass band. A number of prominent public speakers will also be present. A band concert will be held in the evening. Dinner and supper will be served on the picnic grounds. The object is to have a good time socially and to raise funds to clear the debt at present against the I. O. G. T. hall.

The annual school meeting was well attended and passed off most satisfactorily from all points. Elias Harner was elected chairman. The condition of the finances was encouraging. W. Heber Huggard was elected trustee in place of H. A. Myers, retiring. W. H. Heine was re-elected auditor. It was decided to paint the outside of the building and the classrooms and the meeting voted \$500 for ensuing year. A unanimous vote of thanks was tendered A. C. M. Lawson, the retiring principal, for the general manner in which he had discharged his duties during his connection with the school for the past two years.

RESTIGOUCHE TORIES ARE AT LOGGER HEADS

Because of Their Differences the Convention to Have Been Held This Month Has Been Postponed

Dalhousie, N. B., June 21.—On Saturday the annual school meeting was held here. Claude Brown, president of the finance committee of the district, was the first one of the district were found to be in a very satisfactory condition. Dr. A. G. Ferguson was re-elected trustee. The meeting voted the sum of \$1,504 to be assessed on the district for the coming year. No steps have been taken towards placing the system of manual training in the town school. At the annual meeting held last year a resolution was passed authorizing the trustees to invite Mr. B. Kidder, director of manual training, to address a public meeting during the year in the town of Dalhousie, but no action has been taken.

The examination of the convent school was held last week. The head mistress of the institution was here from Three Rivers (Que.), and was much pleased with last year's work. Over 160 children are in attendance. Several come from Gloucester and Bonaventure counties. The distribution of prizes also took place and after the usual exercises accompanying the distribution, appropriate speeches were made by Rev. A. A. Boucher, Hon. C. H. LaBillette and Jerome Boudreau, co-inspector of schools, who reside at Petit Rocher, and who is one of the oldest teachers in New Brunswick.

The putting into operation of the new road law is not adding friends to the government party. Too many officials is the cry you hear everywhere; too much red tape to work out the act.

Nothing has been done in this country worth speaking about towards repairing the highways and the season is pretty well advanced. With such a late spring the roads are in very bad condition.

CHINESE WITNESS TO TRAGEDY TELLS AWFUL STORY TO POLICE

Chun Sin, Under the Pressure of the Third Degree Tells the Tale of Elsie Sigel's Murder—He Saw Leon Ling Preparing to Place His Victim's Body in the Trunk—Jealousy Prompted the Murder, is Witness' Opinion.

New York, June 22.—Under the pressure of the third degree, Chung Sin, one-time room mate of Leon Ling, told this afternoon of Elsie Sigel's murder. He admitted that he had seen the body in Leon Ling's room over the Eighth Avenue chop suey restaurant; that he had touched it while it was still warm, that he had smelled drugs and had watched Leon Ling's preparations for placing the body in the trunk where it was found horribly decomposed on Friday night last.

In fact, Chung Sin, if what was learned at the criminal courts building is correct, described almost everything concerning the murder of Major Franz Sigel's granddaughter except the actual commission of the crime. He denied any implication in it and protested stoutly that he was ignorant of the whereabouts of Leon Ling, the supposed murderer. But after the inquisition he was taken before Coroner Harburger and held in \$10,000 bail in the house of detention to await the inquest.

Chung Sin is thirty-five years old and a native of Canton. He was arrested yesterday morning at West Galway (N. Y.), a small hamlet near Amsterdam, and was brought to New York this morning in the custody of Detective John Forbes. Immediately after his arrest up-state and during the trip by train to this city, he was pestered with questions, but it was not until late today, however, that he told of the death of the young missionary which has aroused the whole country. Then, smoking cigarette after cigarette to quiet his nerves, the Chinaman told brokenly, but with brutal bluntness, of the girl's death.

He was surrounded at the time in the office of Assistant Attorney Theodore H. Ward by detectives from headquarters who had previously put him through a grilling. Mr. Ward and District Attorney Jerome were present and from what can be learned it was Mr. Jerome himself who finally drew the story from Chung Sin's lips. It was made partly in English and partly in Chinese, for there was an interpreter present, and was taken down by stenographers. No statement of the gist of the story was made public but the more salient facts of the confession soon became known about the building.

From the man's story it is apparent that Elsie Sigel was first drugged with chloroform and then choked to death. She was killed apparently on the night of June 9, although Chung Sin appeared a little muddled in his dates. But he says that early in the morning of June 10 he heard a strange noise in Leon's room adjoining his, and looking over the transom, saw the girl lying on the bed with a bloody towel over her mouth. He passed through the room, he says, to go out to wash his hands and as he did so, felt the body which was still warm. Afterward he went down to the chop suey restaurant below, then returned to the room. Leon, in the meantime, had covered the body with a blanket up to the chin and had pulled a trunk to the middle of the floor. This trunk Leon was calmly emptying preparatory to placing the body therein. The rope with which the body was bound was lying on the floor at the time, according to Chung Sin. Once again he went down stairs, said Chung Sin, where he remained until Leon called him. When he entered the room, the body was not visible, having been bound with the rope and placed in the trunk.

Chung said that he had no hand in putting the body in the trunk. "I didn't see her no more," said Chung Sin, "and when I asked Leon how she died he said she had bitten her tongue and bled to death." Leon told him, Chung Sin added, that he was going to send the trunk to Jersey City, thence to Europe. As a matter of fact, it lay untouched in the study little room until Sun Leung, proprietor of the restaurant below, noticed the odor about the building and summoned the police.

Untrusting Chung Sin's complete account is made public it will not be explained why he saw the dead girl and the preparations for the removal of the body with such apparent unconcern at the time. Also, despite repeated interrogations, he declined to say what happened in the room when the girl was murdered. He admitted having heard a scuffle in the room during the night and told of Elsie having arrived on the previous afternoon, the day when she disappeared from her home.

D. O. C. INSPECTS SCOTCH CADETS

St. Stephens Boys' Brigade Inspected on the Barrack Square Last Evening—They are Complimented on Their Showing.

The annual inspection of St. Stephens' church cadets was held on the Barrack square last evening and was most successful. It was witnessed by a large number of interested spectators. Lieut. Col. G. Rolt White, D. O. C., assisted by Col. Ogilvie, was the inspecting officer. There was a fine turnout of the boys. They were, including officers, sixty-eight on parade. Headed by Piper McLarnin, they marched from St. Stephens' church school room to the Barrack square, where Col. White put them through a searching inspection. This included company manoeuvres as well as marching, counter marching, bayonet exercise and firing. A novel and pleasing feature was introduced when Major Buchanan called out to the front nineteen of the smallest boys of the company. None of these was more than thirteen years of age. They were put through the physical exercise, the boys whistling the tunes to which the movements were timed. This fine exhibition was very much appreciated by the spectators.

A WARM DAY

Seventy Eight Was St. John's Record Yesterday and It Was Twice Reached

While the big United States cities are sweating with the heat, St. John, too, found it warm enough yesterday at 78, the hottest this season. The range of the mercury for the day was 68-78, the latter height being attained twice—at 2.30 p. m. and at 6 p. m. The humidity was not marked. The warmest day in June last year was the 26th, when the thermometer registered 79.

GOULD MUST PAY COSTS FOR WIFE

Court Orders Millionaire to Give His Wife \$10,000 More to Prosecute Her Case—Witnesses Say Mrs. Gould Was a Lady.

New York, June 22.—While counsel for Katherine Clemons Gould brought up a reinforcement of witnesses in one part of the supreme court today to combat the charges of intoxication and misconduct made by the defence, in her suit for separation, the plaintiff won a victory in another part of the court by a decision of Justice Giergich. He ruled that Mrs. Gould shall be allowed an additional counsel fee of \$10,000 at the expense of her husband. An allowance of \$5,000 was made to Mrs. Gould last fall for the prosecution of her suit at which time the court estimated that a subsequent application for an increase might be entertained. Attorneys for Mr. Gould protested today that it had not been shown that the wife was without sufficient means to pay her counsel, but Justice Giergich thought otherwise.

HEAT WAVE IN BIG CITIES CAUSE OF DEATH

Two Suicides and Many Prostrations in New York and One Death and 16 Prostrations in Boston—A Grim Record.

New York, June 22.—It was scorching hot here today—91 in the shade at noon, and humidity suffered the East Side fairly pained, and thousands took suburban car rides or a jaunt down to Coney Island for a cool breeze. According to weather bureau records, today was the hottest June 22 on record since 1871. The thermometer registered as high as 91 at 3 p. m., with humidity at 47. Toward evening, however, the clouds gathered and a few rain droplets fell, and as dusk came a fresh breeze pushed down the mercury and brought relief. More than twenty heat prostrations occurred during the day and at least two suicides were indirectly caused by the high temperature.

DEDICATED NEW BAPTIST CHURCH

A Pleasing Ceremony at Rowena—Rev. Dr. McIntyre Talks of Denominational Matters in New Brunswick.

Rev. W. E. McIntyre, D. D., has just returned to the city after attending the Baptist district meetings at Andover and Connel. After the meeting at Andover, the district adjourned to Rowena, where a new church was dedicated. Rev. C. T. Phillips, D. D., and Rev. Joseph McLeod, D. D., preached the sermons. Dr. McIntyre said that as far as he knew only one of the districts had taken up the question of the amalgamation of the foreign field to ascertain their views on the question of the amalgamation of the foreign mission boards in Canada. Replies have not been received from all, but Rev. H. G. Corey and Mrs. Churchill are opposed to it.

BARK MAKES 2,000 MILES IN TEN DAYS

Boston, June 21.—Having made the passage from Barbados to Boston—a distance of nearly 2,000 miles—in the amazingly fast time of ten days, the big British bark Belmont arrived at quarantine yesterday morning from South American ports via the West Indies. This the speediest trip ever covered by a sailing vessel from Barbados. It is practically steamship time. The big steel craft beat in the trip the Norwegian full-rigger Freia, which sailed for Boston three days before her.

The Belmont sailed from Buenos Ayres forty-three days ago. She not only sailed like a clipper ship of old from Barbados here, but she made about the briefest possible stop at the port of Barbados itself. She was in the harbor only a little over four hours—just long enough for Captain Ladd to get his sailing orders for Boston. The Belmont belongs to Yarmouth (N. S.).

Try This For Catarrh.

Free tests are now being supplied by mail to all Catarrh sufferers. There is no expense—no obligation whatever. Dr. Shoop is combining Oil of Eucalyptus, Thymol, Menthol, Oil of Wintergreen, etc., and incorporating these ingredients into a pure, snow-white cream-like Imported Petroleum. This Creation—Dr. Shoop's Catarrh Remedy—gives immediate and lasting relief to catarrh of the nose and throat. That all may first test it free, these trial boxes are being mailed without charge, simply to encourage these tests and thus fully demonstrate, beyond doubt, the value of this combination.

Palpitation of the Heart.

One of the first danger signals that announces something wrong with the heart is the irregular beat or violent throb. Often there is only a fluttering sensation, or an "all gone" sinking feeling; or again, there may be a most violent beating, with flushings of the skin and visible pulsations of the arteries. The patient may experience a smothering sensation, gasp for breath and feel as though about to die. In such cases the action of Milburn's Heart and Nerve Pills in quieting the heart, restoring its normal beat and imparting tone to the nerve centers, is beyond all question, marvellous. They give such prompt relief that no one need suffer.

J. P. MOSHER WAS CHOSEN FOR COUNTY

At County Convention Last Night, St. Martins Man Was Chosen as Local Government Candidate in Bye-Election—Contest May Be In Six Weeks.

J. P. Mosher, of St. Martins, was nominated last night as the local government candidate for the county of St. John in the bye-election necessary by the appointment of Hon. McKeown to the supreme court bench.

Mr. E. Agar, who was one of the speakers, announced that the election would be over in six weeks. Premier Hazen, Hon. Robert Maxwell, J. E. Wilson, M. P. P., W. F. Hatheway, M. P. P., Dr. A. W. MacRae and Ald. J. B. M. Baxter delivered addresses. There was much applause of the opposition press of the city, a great deal of attack upon the government and some attempts to bring in the new highway act and other measures of the Hazen party.

On the conclusion of the convention Mr. Mosher was called on for a speech. He thanked them for the honor they had done him but said that he was not out for a politician as he was a lumberman and somewhat of an agriculturist. He thought that his friends MacRae or Baxter would have been better fitted to contest the county than he. The fight he was sure would not be a walk over, but was pretty confident that with the help of those who would be elected, Dr. A. W. MacRae had said a good many nice things about the candidate and a good many things about the late government. He was almost tragic in his appeal to the delegates to elect Mr. Mosher and strengthen the hands of Mr. Hazen.

Ald. Baxter next took the floor. He said it behooved all who sought to get into the county and explain the policy and acts of the Hazen party. The most of his speech, like that of Dr. MacRae, was devoted to talking about the old government. Hon. Mr. Maxwell, Messrs. Wilson, Hatheway and Agar also spoke, the latter intimating the election would be over within six weeks.

At this point H. G. Murray, who had been elected secretary of the meeting, informed the delegates that Dr. MacRae was a very self sacrificing man but he neglected to explain what he meant by that. Premier Hazen closed the proceedings with a speech of about twenty minutes.

Woman's Needless Suffering. Full of Aches. Frightful Back Pains. Pale and Nervous.

With the Use of Dr. Hamilton's Pills, a Wife and Mother Saved From Death. A few years ago doctors considered that only back pain and bladder disorders were traceable to the kidneys—but today science proves that many of the most fatal and dreaded diseases have their source in irregular kidney action.

Such was the case with Mrs. Anna A. Rodrigues, a well known resident of Valencienca—read her experience: "For a long time I suffered with falling strength and nagging headaches. My condition grew steadily worse, my limbs became bloated and shaky, I was sallow and thin, felt rheumatic pains, dizziness and chills. I unfortunately didn't suspect my kidneys and was nearly dead when I discovered the true cause of my sufferings. I read so much about the wonderful health and strength that comes to all who use Dr. Hamilton's Pills that I felt sure they would help me. Such blessings of health and comfort I got from Dr. Hamilton's Pills I can't describe. They steadily put me right and their steady use keeps me active, energetic, strong and happy. I strongly urge others to regulate and tone their system with Dr. Hamilton's Pills of Mandrake and I Buttermilk."

For perfect health use Dr. Hamilton's Pills frequently—avoid all food which seems to distress and take as much exercise as possible. No greater medicine exists than Dr. Hamilton's Pills for the cure of indigestion, kidney trouble, reflex substitutes for Dr. Hamilton's Pills, 25c. per box, or five boxes for \$1.00 at all drug stores, or The Carterhorne Company, Kingston, Ont.

AT THE STAR. The most popular pictures that come to St. John are those of the great Biograph Company, and the latest drama from this source is a powerful moral lesson entitled "What Drink Did," which is to be the stirring first feature tonight and tomorrow night. It is safe to say this picture will simply cause a sensation and its wonderful dramatic force and pathos will strike many a "home" blow.

TORY PICNIC AT STANLEY TODAY. Provincial Leaders of the Conservative Party Will Attend Today's Outing. Frederickton, N. B., June 22—Charles Labelle, of McGivern's Siding, was convicted of selling liquor in the prohibited district of the Transcontinental Railway today and was fined \$50 and costs. A barrel of bottled liquor was lately seized on his premises, but he set up the defence that it was for private use. The commissioner refused to accept this story, however. It is understood that the case will be appealed. J. D. Dinnery, K. C., appeared for the prosecution, and Crockett & Guthrie for the defendant.

NEWS AND VIEWS OF SPORT

Frank Fox the Boston horse trainer has the following horses entered in the five day racing meet at Delmoner Park, Montreal which opened on Monday.

Jay Key, Warren E. Key, Rachel, Bard Allerton, Grace Todd, Improved Directly, Fred S. Jennie V., Louise E. Of the string that is now campaigning, Fox has raced Louise E., Bard Allerton and Warren E., on the Maritime Circuit.

Northern Spy is entered in the Montreal races by B. Bergeron, of Epping, N. H. who has also entered two other horses. Iodilia Jr. and Baron Onward are entered by W. Gilbert and Logan Jr., by Paul Hardie of Somersworth, N. H. In the entry list Somersworth is represented to be in New Brunswick, but this is a typographical error. Fox obtained first money with Bard Allerton in the 2.35 pace event on Monday afternoon, the time of the race being 2.21 1/2, 2.21 1/2, 2.21 1/2. The Boston trainer also won second money in the 2.35 trot with Rachel.

President James E. Sullivan, of the American Amateur Athletic Union has written Mayor W. M. English, director of athletics at the Alaska-Yukon-Pacific Exposition, and told him that Seattle could look for one of the largest attendances of athletes ever gathered together at a world's fair in annual national championships.

A. E. Saul, a local player and footballist was roughly handled by spectators during a recent match at Winnipeg, and had to receive medical treatment. Saul is a member of the Winnipeg Hibernians, and was playing back in a match with the Celtics, also of Winnipeg, and in the second half of the match he went to the forward line in an effort to turn the tide of the game, which was going against his side. There, he and McDowell, a member of the opposing team got into a mix-up, and before long they started in to settle their differences with their fists. The crowd rushed on the field and made an effort to separate the men. This, however, did not end the trouble. Saul was severely handled by the non-players. He was kicked when down on the ground, once on the face and ultimately had to be carried to the dressing room, after spending an hour there he was taken to the hospital to receive medical attention. Others sustained slighter injuries in the melee that followed the fight between Saul and McDowell.

Billy Papke, the Illinois Thunderbolt, and billed as the next man to try the rubus of the mighty Ketchel, at Frisco, will not lose the fight July 5 if precaution and safe guarding will do any good. When he established his training camp at the ocean beach this week Papke, along with him his own private chef and none of the outsiders will ever have a chance to get near the man who is to do the cooking. The reason for this is that Papke believes he was doped when he lost to Ketchel last Thanksgiving day, and if there is any chance to beat the champion this time Papke should carry himself through.

The first notification of the swimming season comes in the announcement by the American Life Saving Society that its annual thirty-mile swim from the Battery to Coney Island, which in 1908 was elevated to the dignity of a metropolitan championship, will be held this year. The abolition of the popular endurance test made a decided surprise, not only to swimmers in general, but to the members of the association, who looked upon it as the best feature of the season.

The meeting at which the step was determined upon was a stormy one, there being much opposition to the elimination of the event, but after it had been shown that in almost every past Marathon there were cases of heart prostration and complete collapse, always dangerous in the water, the proposers did not have much trouble in carrying their point.

Hugh McIntosh, the Australian promoter, is anxious to bring about a meeting between Tommy Burns and Sam Langford, to be fought either in Australia or England this fall. McIntosh believes that Burns will win.

At Readville, Mass., the world's automobile record for 25 miles was broken at the track by Ralph H. De Palma, who is booked to run in a 25 mile event at Blue Bonnets track, Montreal, on July 9 and 10 next, under the auspices of the Auto Club of Canada. His time was 23 minutes 35 seconds. Barney Oldfield's old record, 23 minutes 32.3 seconds was made at Fresno, Cal., December 13, 1904.

The last boxing entertainment of the season will be held at the Armory A. A. Tuesday, June 29, with Joe Thomas, the Californian, meeting Tommy Sullivan, of Lawrence, in the feature bout of 12 rounds. In addition there will be a six-round preliminary, Bobby Tyson, of Pawtucket and Max Baker, of Boston.

LOU DILLON AT BERLIN

The Great Mare Startles the Phlegmatic Germans.

(American Horse Breeder.)

Detailed reports of Lou Dillon's performance at the Berlin track have crossed the pond, and they more than prove that the world's champion trotter still has her old-time speed after more than four years' retirement in the stud. Soon after the Billings string reached the magnificent Ruhleben track, which is considered the most expensive racetrack in the world, having cost the Berlin association between \$3,000,000 and \$6,000,000, and agreement was made with "Doc" Thayer, who is in charge of the horses, that Lou must start at the inaugural meeting to be held on May 14. With this understanding one of the important events on the opening day card an international stake, was named the Lou Dillon Stake, thus leaving no other course open but to start the champion.

The Berlin Association was made to understand that she was not yet in form to carry her speed at long distances, consequently she was started on that day to cover 200 metres, or, as they time races abroad, at distance of a kilometre, she went one-fifth of the regular distance. The reports have all said that she trotted a little over an eighth of a mile, and while, to be more exact, she trotted by actual measurement a distance of one and one-third furlongs. The 200 metres which Lou Dillon trotted is equal to 800 feet and two and a half inches, a metre being equal to 39.37 inches, and a kilometre to 3,280 feet 10 inches; the distance, therefore, covered by the trotter was a furlong and 169 feet plus the fraction. Her time for the distance was given officially as 19 seconds, which was at the rate of 1.16 to the kilometre. The distance and time of her performance are such that her speed, showing can be exactly rated according to our system of computing time in harness racing. Careful figuring shows that by covering the 800 feet and fraction, Lou Dillon's speed showing at her initial start was at the rate of a mile in 2:02.28. Other words, she covered 5.44 times more of her distance at the same rate of speed, or 19 seconds, than she would have had to cover had she been trotting at the rate of 2:12.12, according to our way of computing.

The most reliable reports show that this wonderful speed performance was made under many disadvantages. Aside from what has already been stated pertaining to her short period of preparation for a showing worthy of a noted harness champion, the track over which she performed cannot be compared with ours in point of footing.

The footing at Berlin's expensive plant is a view of racing over the rain of rain of rain, and there fore is sandy, heavy, and what we term "cuppy".

What the great trotter did after she gets fully acclimated and reaches our tracks in August, where the footing is fast, remains to be seen, yet, barring accidents, she should be fully able to trot around her unpaired mark of 2:01, or equal to it, before she closes her exhibition career on the Continent.

GOOD GAME IN THE SOCIETY LEAGUE

St. John's Came Very Close to Winning From St. Peter's Last Night

Those who believe the St. John the Baptists are not able to give the St. Peter's a run for their money got the Inter-Society game scheduled for last evening were greatly mistaken. Six innings were necessary to decide the game, and it was played, especially by the St. John's, whose fielding record showed but one error. They were deficient, however, in their work, and it was only by the fielding of the St. Peter's, which was rather ragged.

Hodd was in the box for the victory, and allowed only three scattered hits. He had also the only strike out in the game. McGuigan pitched for the South End boys and while his work was well supported by his team. The score was:

Seven Practical and Dependable Ways of Doing Old Things by Newer, Shorter and Easier Methods

How long do you spend getting your monthly trial balance? How much does it cost you to hunt the mistakes in it—to rectify the errors in accounting and pay your force for working overtime? Wouldn't you like to get the trial balance from three hours to three days earlier, and cut out all the time spent chasing down mistakes?

There are four different ways of doing this with a Burroughs Adding and Listing Machine, and we'll be glad to show you how without any expense or obligation. It can be done without the machine, too, but then there is danger of mistakes. The Burroughs can't make mistakes.

Let us show you these four time-and-worry saving ways of taking a trial balance. Just sign the coupon.

Cut Out the Journalizing of Cash

A lot of time is spent every day in journalizing incoming remittances as a preliminary to posting to the ledger, and the danger of incorrect posting is doubly increased. Sometimes the postings can't be made the same day the remittance is received—more chance for mistakes.

Throw your journal aside—prove cash postings and discounts—remove the possibility of posting to a wrong account—have an absolute check on the cashier's cash—with the Burroughs Cash Received System.

Hundreds of mercantile concerns are doing this, and we will be glad to tell you how for the coupon. We will furnish life-size forms showing how this saving may be made in your own business, and we will have our representative demonstrate in your own office just how the Burroughs will help you. It won't cost a cent. Sign the coupon.

A lad named Stanley had a close call from drowning in the mill pond at Hilliard's mill. He was in swimming at the time and his cries brought some men, who were working near by to his assistance.

Last evening, about 1.30 o'clock, a break was discovered in the water main on Sydney street, opposite St. David's church. It was soon repaired and the water was turned on again about 2.30 this morning.

Patrolmen Totten and Scott acted as mediators in a domestic quarrel between eleven and twelve o'clock last night in a home on the Patrick street, where Charles O'Dell, his wife and a visitor bearing the name of Grant Howe were participating in a war of words with a few household utensils by way of retaliation.

The Charlottetown Guardian touring party of eight young women arrived from Boston on the Eastern Line steamer Governor Cobb, last evening. They are accompanied by F. W. Newsome, who is in charge and Mrs. Newsome who acts as chaperone. They left at noon enroute home.

R. W. Wigmore has returned from the Upper Provinces where he was attending the thirtieth annual session of the Canadian Order of Foresters in London, Ontario. Mr. Wigmore had the distinction of being elected a member of the executive committee. L. P. D. Tilley and D. R. Kennedy also attended from here.

One of the most inspiring scenes to be witnessed in St. John is on the Every Day Club grounds in the afternoon. The game is over. Last evening groups of boys and young men were scattered all over the field, throwing or hitting balls, or practising for running races, or watching the fun; while children were busy at the swings, slide and teeters or otherwise enjoying themselves. This place has become a great popular playground.

Henry Ralston was taken to the General Public Hospital yesterday. The young man is being treated by Dr. Curran but neglected to take the medicine prepared for him, so the disease from from which he was suffering, being unchecked, caused a serious disarrangement of his mind. He was boarding with Mr. Albert Dykeman, of the west end, who with his wife, did all they could for the young fellow before he was sent to the hospital.

POLICE COURT

Three inebriates were fascinated by Sergeant Campbell's brass buttons in three consecutive hours last night. The Sergeant, Henry Williams on Water street between eight and nine o'clock, and with the assistance of patrolman Marshall, lodged Williams in Water street lock-up. Between nine and ten o'clock, the Sergeant perceived Thomas Moore on Union street and with the co-operation of patrolman McCollom and Ward, took him into custody. An hour later the Sergeant noticed Joseph Murphy slumbering in the Old Burying ground, and aided by patrolman Totten, placed a mummy in a cell. This morning the trio were fined \$4 or ten days.

John Johnson, who was intoxicated on Sheffield street, and Thomas Davies, who was corralled on Main street, did not fare so fortunately, as they were fined \$8 or two months each. His Honor suggested to Davies, whose goal is apparently a police court record, the advisability of substituting Yum Yum or Kindred Oriental non-dupleme for Davis.

Benjamin Barnes is reported by Sergeant Caples for holding forth in a business capacity in St. John without obtaining a license, and patrolman Rankin announces that he extinguished a bon fire on Murray street last night, much to the chagrin of youngsters, who prepared the reception to a bride and groom.

MISS HERSEY FROM JERSEY

The final rehearsal of Miss Hersey from Jersey will be held in the Opera House this evening at 7.30 p. m. Already a perfect production is assured and there is no doubt that on Thursday, Friday and Saturday of this week the St. John Dramatic Club will again show itself to be the very finest organization of its kind that St. John has ever had. Miss Hersey from Jersey will challenge comparison with the best professional productions seen here, with the difference that the local players will have a larger company, better singing, dancing and marvellous choruses than any company ever seen here. Don't forget the big Saturday matinee at 2.30. Patrons of the evening performances are requested to be in their seats in time for the overture at 8.15, as it is desirable to start the performance on time to avoid any delays.

Chicago, June 23—Automobiles are killing Chicagoans this year at the rate of three persons every two weeks. In 1907 the slaughter was one person every three weeks, according to police statistics.

WEDDINGS

White-Barnaby

German street Baptist church was the scene of a brilliant wedding this afternoon, when Miss Winifred Chipman Barnaby, eldest daughter of Mr. and Mrs. W. H. Barnaby, of the firm of Manchester, Robertson, Allison, became the bride of Captain Maurice Forbes White, M. B., of the Indian medical service, youngest son of the late John Forbes White, L.L.D., of Craig Tay, Dundee, Aberdeen, Scotland.

For some time past this wedding has been anticipated in social circles as one of the events of the season, and the German street edifice was filled with friends and well wishers of the bride, who is to make her home in India. The scene was indeed a pretty one, the church being beautifully decorated with immense quantities of orange blossoms and white lilies, while the exquisite gowns of the bridal party and invited guests were greatly admired.

The ceremony was performed by Rev. W. W. McMaster at 3.30 o'clock, appropriate music being rendered by the organist.

Dr. T. Dyson Walker, Cyrus F. Inches, Alexander L. Fowler, and Stanley L. Emerson acted as ushers, and Hiram Otis Barnaby, brother of the bride, supported the groom.

The bride was handsomely gowned in white satin, beautifully hand embroidered and trimmed with seed pearls, the yoke being of Brussels net and lace. She wore a bridal veil of rose point lace, and a wreath of orange blossoms and white heather, and carried a shower bouquet of lily-of-the-valley. She also wore a rare old paste brooch of Norman design, and a ring of emeralds and diamonds, gifts of the groom.

The bridesmaid was Miss Nan A. Barnaby, sister of the bride, and she was gowned in pink satin, trimmed with blue and pink satin ribbons, and wore a pink chip Director's hat.

The matrons-of-honor, Mrs. J. J. Fraser Winslow, of Fredericton, and Mrs. Walter A. Harrison, cousin of the bride, wore dresses of soft white silk, trimmed with blue and pink satin ribbons, and hats of white net with ostrich plumes and pink roses.

The bridesmaid and matrons of honor carried bouquets of pink and white sweet peas and all wore brooches of rare old French paste in early Norman design, the latter being gifts from the groom.

Following the ceremony the bridal party and invited guests drove to the home of the bride's parents, Princess street, where a reception was held, and the happy couple will leave on the Montreal train this evening on their wedding tour and ultimately will go to India.

The bride's going away dress is navy blue tussard, tailor made, and a blue hat trimmed with crimson roses.

The bride was the recipient of a host of very beautiful and costly gifts, including some from the groom's family in England, Scotland, India and Persia, consisting of silver, china, cut glass and rare antiques.

Both bride and groom will carry with them the best wishes of a host of friends here, as Miss Barnaby is one of St. John's most popular young ladies.

Harris-Foley

An interesting event took place in the Cathedral this morning at 9.30 when Rev. Fr. Meslin officiated in wedlock two widely known and very popular young people of this city, Walter D. Harris and Miss Ellen M. Foley. The father of the bride, Patrick Foley, gave her away, and she was attended by Miss Annie Nugent, while the groom was supported by Harry O'Brien.

The bride looked very pretty in a charming costume of cream silk tulle with hat to match, and carried a handsome shower bouquet of bridal roses and carnations. The bridesmaid looked equally charming in a dainty suit of pale blue silk tulle. She wore a hat to match and carried a beautiful bouquet of pink carnations. A large number of the many friends of the contracting parties were invited to the wedding, which was followed by a breakfast at the home of the bride's parents. The groom's present to the bride was a substantial cheque, to the bridesmaid a signet ring, and to the groomsmen a pretty stick pin.

The popularity of the happy young people was clearly attested by the many beautiful presents they received, among which they prize highly a valuable parlor cabinet, presented to Mr. Harris by the St. Joseph's Society, of which he has long been an active member as well as one of their foremost ball players.

Mr. and Mrs. Harris will reside at 112 Sydney street.

Fortune-Quinlan

A quiet wedding was celebrated in the Cathedral this morning at 8 o'clock, when Rev. Fr. Meslin united in the matrimonial bonds James L. Fortune, of Pittsburg, and Miss Evelyn A. Quinlan, of this city.

The wedding, though quiet, was very pretty, and was witnessed by a number of the many friends of the contracting parties. A sister of the bride, Miss Mary Quinlan, acted as bridesmaid, while her brother, Frederick J. Quinlan, performed the duties of groomsmen. The bride was very charmingly attired in a dainty costume of champagne pongee silk, with a large picture hat to match. The bridesmaid was daintily gowned in a neat suit of grey broadcloth with a hat of the same color.

The nuptial ceremony a wedding breakfast was served at the home of the bride's parents, Elliott Row, after which the happy young couple left on the Calvin Austin for Pittsburg, their future home, by way of Boston, New York and Philadelphia.

Many handsome and useful remembrances were received by the newly married couple, including cut-glass, silverware, furniture and china, and they leave for their new home accompanied by the best wishes of their numerous friends. Among the wedding guests were the groom's father and mother, Mr. and Mrs. J. L. Fortune, who came from Sydney to attend the ceremony.

Estey-MacRae

The wedding takes place today in Revelstoke, British Columbia, of Fred A. Estey, son of R. A. Estey, of Fredericton, and manager of the Nelson branch of the Yale-Columbia Lumber Company, to Miss Nellie MacRae, of Revelstoke, formerly of Ontario.

Colwell-Clay

The wedding takes place at Cumberland Bay, N. S., today, of Miss Cora E. Clay, daughter of A. H. Clay, of this place, and Walter S. Colwell. The honeymoon trip will include New York, Washington, Niagara Falls, Quebec and other cities in Canada and the United States.

Patrolman Steeves was summoned to the abode of Amelia Francis on Sheffield street at ten o'clock last night to eject a man whose absence was desired.

Rev. Mr. DuVal, who has been laboring as a missionary in Western Africa, will address a public meeting in St. Luke's church this evening at 8 o'clock.
