IT'S LIFE OR DEATH SAYS VON HINDENBURG

Berlin, Nov. 16—The afternoon newspapers print a lengthy appeal by Field Marshal Von Hindenburg to Dr. Von Bethmann-Hollweg, the imperial chancellor, for active propaganda among agriculturalists to induce not only a greater production of fats but also a greater willingness voluntarily to give up all available food supplies, for the benefit of industrial workers, particularly in ammunition making centres.

The appeal declares that it does not appear to be sufficiently appreciated in some circles that it is a question of life and death for the German people and empire.

WAR NOTES

Canadian cavalry have seen some of the fighting on the Somme. Another aerial attack on Bucharest was made on Tuesday morning by eight German aeroplanes. Four civilians were killed and twenty wounded.

THE BEST QUALITY AT A REASONABLE PRICE

This Will Be a Jewelry Christmas

First, because sentiment which distinguishes between a present and charity prefers jewelry, and the things a jeweler sells, since they are much desired by everyone and free from the implication of gratuitous aid.

Second, because prices have not soared to unreasonable heights, as the prices of wearing apparel, fabrics, articles of steel, iron and base metals, and necessities generally.

Holiday showing of Brooches, Pendants, Rings, Earrings, Bracelets, Fancy Pins, Scarf Pins, Cuff Links and other jewelry are on display at Sharpe's. It is an excellent selection of exquisite gift things, reasonably priced.

Selections will be laid at the store, if desired, on payment of a small deposit.

Carpet Squares! JUST ARRIVED

We have just received from the mills an extra large shipment of Carpet Squares at prices prevailing January last. Since then there has been an increase of 30 to 35 per cent. We could very easily sell this shipment to jobbers and make a comfortable profit; but following our usual policy, which is to share the good things with our customers, we are putting this shipment on sale at the old prices, which means that you can buy your Carpet at practically wholesale cost.

The stock comprises all the new lines of Wilton, Axminster, Brussels, Velvet and Tapestry Squares, in all the latest designs and colorings.

Teutons Using up Next Year's Defences—By That Time Britain and Russia Will Have Come to Full Strength

(Toronto Star)

The whole world has been impressed by the show of strength made by the Teutonic empire since mid-summer. They have successfully opposed great allied offensives in the west and south-west, and carried on an offensive of their own in the southeast after suffering serious reverses on the eastern front.

Allied authorities thereby have not been led to desire terms of peace from the enemy, but some of them have frankly stated as a result that they fear the war will last for two more years.

Another serious attack on Bucharest was made on Tuesday morning by eight German aeroplanes. Four civilians were killed and twenty wounded.

"I FORCED THE ISSUE" SAYS SIR SAM TO STAFF

Ottawa, Ont., Nov. 15—Lieut. General Sir Sam Hughes sent the keys of his office to Sir Robert Borden, the prime minister, yesterday. Before doing so he addressed assembled members of the militia department staff and praised them for their efficiency during the time of stress and their excellent work since the war began.

"The reason of my retirement does not concern this occasion," he said. "Suffice it to say that interference with and conditions imposed upon the administration seemed to me a reflection not only on myself, but my officers, and I therefore deliberately forced the issue."

GERMAN ATTEMPT TO COVER UP A CRIME

London, Nov. 16—The official press bureau today gave out this official German statement: "On November 6 a German submarine sank a hostile transport of about 12,000 tons, eight nautical miles west of Malta. The British Admiralty appends this comment:—

"The announcement is an obvious attempt to explain away an outrageous and inhuman act in torpedoing a mail steamer without warning. The only ship sunk in the Mediterranean on November 15 was the Peninsular and Oriental mail steamer Arabis, 7,333 tons sunk, without warning, about 300 miles east of Malta."

REDMOND FOLLOWER WINS CORK ELECTION

London, Nov. 16—D. O'Leary, Irish Nationalist, and an adherent of John E. Redmond, has been elected M. P. from the west division of Cork in succession to James P. Geoghegan, who died on October 16. O'Leary had a plurality of 117 over his chief opponent, Frank Healy an O'Brienite.

This was the first contest since the uprising in Dublin. The vote stood O'Leary, 1,866; Healy, 1,749; Dr. Shipsey, Independent, 368.

**Had Violent Coughing Fits Looked Like Consumptive**

Mrs. Marty Wheten, North Forks, N. S., writes: "Having taken five bottles of Dr. Wood's Norway Pine Syrup, during the past few weeks, to relieve a chronic cough and general throat trouble, allow me to express my unbounded satisfac-tion and thanks as to its sterling quali-ties. A short time ago I became sub-ject to violent coughing fits at night and directly after rising in the morning. I began losing weight, and all my friends cheerfully informed me that I was going into consumption.

After taking the Dr. Wood's I am pleased to relate that the cough has en-tirely disappeared and I have since re-gained the lost weight. I have no hesi-tation in recommending Dr. Wood's Nor-way Pine Syrup.

There are many imitations of "Dr. Wood's" on the market, so see that none of these so-called "pine syrups" are handed out to you when you ask for "Dr. Wood's." It has been on the mar-ket for twenty-five years, is put up in a yellow wrapper, three pine trees the trade mark, price 25c and 50c. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

"BEING DEAD, YET SPEAKETH."
A few days before he died, David MacKeen, Lieutenant-Governor of Nova Scotia, issued to his fellow citizens a message concerning the duty of the hour, a simple but piercing message on their relation to the war.

This was a man of seventy-eight, who, as he wrote, though he knew it not then, was within the very portals of death. His words come now like a trumpet call from the grave to those still living and able to perform the greatest of human duties. Let us hear what he said, for the words are as applicable and as impressive here as in the sister province he served. He writes:—

Men and Women of Nova Scotia:
You have enjoyed peace and security all your days. Do you know why? Because your forefathers paid the price, with their sweat, their tears, and their blood.

The young and strong men of today are merely asked to do as much for their children and their homes as was done for themselves by their sires. Will they, by holding back, openly avow themselves a less worthy link in the golden British chain which joins our "generations each to each" than were their ancestors, near or remote?

Dare those who still remain at home refuse or neglect to go to the succor of their brethren already, so gloriously, "At the front?"

The main restraining influences are Employers and Parents. The motives of such Employers as are improperly holding back their "hands" are so sordid, that they only need to be suggested to arouse universal contempt.

Parents deserve generous sympathy. Their feelings are natural. But private feelings in time of dire national stress must always yield to public necessity.

Let Mothers, who may be preventing their sons from enrolling, consider how those sons will remember them, when they have to tell their children, in years to come, that they failed in their plain duty to our great British Brotherhood because "Mother forbade."

The call, to each and all, is urgent, beyond words. Everything worth our living for as a British people is at stake, and in extreme peril.

Each soul among us should pray that Right may prevail. Immediate decision and action should follow prayer.

The motto of every true Nova Scotian, man or woman, ought now to be: "All for God and Native Land."

Truly, David MacKeen, being dead, yet speaketh. What young man and fit shall close his eyes to counsel in an hour when the Empire's sons in the battle front are calling to the chaps they left in security at home?

THE FOOD SUPPLY
The British government is taking a firmer grip on the food question and some drastic regulations are foreshadowed.

Dr. Henry M. Friedman, acting as public health surgeon, United States Public Health Service, in an article on Occupation Specialization in the Defective, contributed to the New York Medical Journal, advances the theory that occupational defects could be utilized properly in the social and military structures if special study was made of their qualities as well as their defects.

He points out that in all countries where there is universal service in the military organizations the defective is still uniformly rejected. Yet the experience of the present war in Europe has shown, he declares, that those formerly rejected have been effective in the field, as in the case of the bantam battalions of England.

From the viewpoint of purely improving a large part of a people needing improvement, military training offers a most useful ground, Dr. Friedman avers. It can be the best method of converting a defective into an effective citizen. On the other hand, much good material is lost to military efficiency by maintaining fixed physical standards below which no one is admitted.

While the physical standards are high the mental are almost neglected, although it is easy to see that there are parts of a military organization where mental development of a high order would be more desirable than physical.

Those having the physical requirements are more likely to withstand the hardships incidental to military life, to have the most staying power, and in general are the best material obtainable. Truly, it can be said of military training that whenever carried out it produces a better type, longer lived—surviving as the fittest—better able to withstand hardship and able to engage in a more varied range of occupations.

Military training, it is held, would help many otherwise helpless people to take themselves, first physically and then industrially. So many instances of physical weaknesses are due to faulty posture, sedentary habits and lack of exercise that to them military training would be a boon—if the examiner realized the cause of their deficiency and that military training is just what is needed to redeem them.

The really highly concentrated military body would not then be diluted by the great mass of the untrained, as is maintained. Besides, the discipline enforced in training must be of benefit to the individual and to the community when properly harnessed, and if not carried too far it has no effect on individual thought or will, is the conclusion drawn.

A SOLDIER'S SONG.

(Rev. Frederick McNeill)
The war is on, my soul be still, I hear the cannon roar, The enemy with stubborn will, Hath turned toward our shore;

The Kaiser thought his nations' laws Were best for all the world, And in his pride, without a cause, The battle flag unfurled.

And the call has come to do For soldiers brave and true, Our native land in danger stands, It may be saved by you, Put on the khaki right away, With a brave and valiant heart, For slaves we'll be to Germany, If you'll not do your part.

King George has called his loyal sons From every race and clime, And sent them forth to face the Hun, And break their stubborn lines, And Canada must do her part; We know the cause is just, And if it bleeds to the heart, We'll make them lick the dust.

Arouse ye up each valiant soul, And let us now prepare, We'll make the Kaiser's land our goal, Nor stop this side of there. 'Twill be no crime to break their line With bullet, boom and fust; We'll take the Kaiser for our slave And make him black our shoes.

King George, he calls to you, For soldiers brave and true, Our native land in danger stands, It may be saved by you, Don't stop until you face the Hun, Then give them shell and shot; Turn loose the fury of your guns, And speak "Forget-me-not."

A Sure Cure.
"Doctor," said he, "I'm a victim of insomnia. I can't sleep if there's the least noise, such as a cat on the back fence, for instance."

"This powder will be effective," replied the physician, after compounding a prescription.
"When do I take it, doctor?"
"You don't take it. You give it to the cat in a little milk."

Seek War Birdmen With Iron Nerves

French Have Stressful Tests for Air Corps Candidates
Tries Their Psychology—The Applicants Must be Immune From Shock When a Revolver is Fired a Foot Behind Them

To be an aviator in the French army one must be as nearly immune to sensation as the human being can be. To ascertain if the would-be aviator has the requisite iron nerve, he is subjected to a complicated system of tests, both of his physique and psychology. He must show that sudden shocks don't throw his nerves out of gear; he must show the quickest response to stimuli, but show that he makes only the proper response; that when a revolver is fired unexpectedly a few inches from his ear. Some idea of the system of testing applicants for the aviation corps is given in an article in the October issue of the Popular Science Monthly, which says:—

"The war aviator must be so constituted that the sudden menace of danger, of shells bursting about him, of machine gun bullets raining upon him will find him calm and collected. He must face a crisis not only with deliberate calm, but with the ability to escape with a whole skin.

"Polo players, lion tamers, big game hunters proved to be the best aviators in the early days of the flying machine, simply because they were so constituted that they were not appalled by danger. Indeed, they courted perils. Men of this rare type are hard to find. Besides, every man obsessed with the desire to fly is an aviator. Even timid business men have their moments of reckless daring. What is wanted is the stuff of which Daniel Boone and Shagbuck are made.

"But in addition to the daredevil spirit, has the prospective aviator muscular and nervous endurance? After clutching for an hour the control levers of a speedy monoplane, is his hand firm or does it tremble? After witnessing a terrible accident, is his heart-beat, his 'cardiac rhythm' undisturbed? Moreover, are his nervous and muscular systems so well balanced and so nicely co-related that his hands promptly obey every external command?"

"These important questions must be answered in his favor if he hopes to get a job as a war flier with the French army. The French do not want dare-devils to drive their air machines, if they are daredevils and nothing more. For the purpose of finding out just how favorably each applicant can answer these difficult questions—and he cannot answer them with his lips—the French war department employs an ingenious testing machine. Psychologists have known and have employed what is called the Arsonval chronometer for many years. But it is unlikely that the delicate mechanism has ever been put to such an interesting task.

"One part of its tests the pulse beat. Another determines the tremor of the nerves. Another apparatus discovers the ability, or the inability of the applicant to withstand fatigue. After he has undergone several simple examinations the candidate is seated in a chair and the final supreme test is applied.

"How would most men act if a revolver were discharged unexpectedly behind their ears? The answer is simple. They would leap into the air; their heart-beat would probably double; they would gasp and tremble as if they had palsy. In so doing they would promptly disqualify themselves as aviators in the French army.

"In testing the possibilities of an aviator various contrivances are attached to the body, all having a definite purpose. Tubes lead from these devices to a slowly rotating cylinder, on which paper is wrapped. They terminate in points which record the slightest variation in his physique.

"When the clockwork has started and he is perhaps wondering what the queer apparatus is all about, a deafening explosion takes place a foot behind him. The record made at that moment on the revolving paper determines whether or not he is to become a French war aviator. If his heart-beat, his respiration and his arm nerves and muscles show no undue excitement on the paper cylinder, he goes to work. But if the stylus actuated by his pulse beat dances about the rotating sheet, he is disqualified. It is only a natural that his reflex nervous system

Says Acid Stomachs Need Magnesia

Calla Bismarck Magnesia Safest, Quickest and Most Effective Food and Acid Stomach Corrective Yet Found.

The almost universal use of magnesia by physicians and specialists in the treatment of stomach troubles is due to the fact that it quickly neutralizes the excessive acid in the stomach and thus stops food fermentation—the direct cause of nearly all stomach trouble. Of the many forms of magnesia such as liquids, oxides, citrates, carbonates, sulphates, etc., the most suitable and efficient for stomach purposes is bismarck magnesia a teaspoonful of which taken in a little water after eating or whenever indigestion is felt will instantly neutralize or dissolve the excessive acid, stop fermentation and make painless and normal digestion easy. Be sure to insist therefore that your druggist supply you with magnesia in the bismarck form—either powder or tablets. Stomach sufferers who follow this plan and avoid the use of peppermint, charcoal, soda, mints, drugs and medicines are astonished to find the stomach once relieved of the irritating acid and gas, soon regains its normal tone, and can do its work alone without the doubtful aid of artificial digestants.

should respond in some way to this sudden impulse; but the man who tests him next in importance to the revolver shot test is that which ascertains the candidate's promptness in acting upon an external command. For example, he is told to press an electric button when he feels a light touch on his left earlobe, or when he sees a light flash. His quickness in acting upon these "sensations" determines whether or not he could meet the sudden contingencies which occur in the air—in a word, whether or not he could handle his "plane" over a roaring battlefield without losing any part of his nerve."

"The Spirit Was Willing"
Despite the exhortations of her teacher, small Mary persistently lagged during the march in the kindergarten one morning.

At last the teacher called Mary to her side and said: "Mary, dear, can't you keep up with the music and the little boy in front of you?"

"Yes," answered Mary, with a beaming and obliging smile. "I can, but my new shoes can't."

### German Children in War Machine

Hate of England is Instilled Into The Young

Blames The Pastors  
Declares Violent Abuse is Part of Regular Sabbath Sermons—Special Hymns of Hate

London, Nov. 15.—Under the title "Children Incubated in Hate," D. Thomas Curtin, of Boston, writes in the Times of how the German children are taught to hate their enemies and to form part of the German war machine.

He writes:

"Boys and girls in Germany play an important part in the war. Their little souls are nursed with hate. They have been so worked upon by the state schoolmasters that they have redoubled their energy at the tasks of collecting gold, copper, nickel, brass, paper, acorns, blackberries, blueberries, rubber, woolsens and money for the war loan.

Militarism in the School.

"All summer the children were organized in squads and put to important purposes of the state. They had much to do with getting in the harvest. The schoolmaster had played his part in training the children to militarism, worship of the state and hatred of the enemy as effectively as the professors and the clergymen. Here are two translations of German children's school songs which are sung daily. Both are creations of school masters. One is a particularly offensive song about King Edward. It is sung principally by girls, the future mothers of Germany. Here it is:

Oh, England! Oh, England! how great thy lies,  
However great thy crimes, thou cheatest the gallows,  
Oh, Edward! Oh, Edward! thou model prince,  
Thou hadst nothing kingly to thee, thou vain fop.

Here is the other—  
Over there in his cowardly trenches lies the enemy; and we attack.  
Only a dog would say that pardon should be given today.  
We will strike dead everything which prays for mercy,  
Shoot everything down like dogs.  
More enemies, more enemies, be our prayer in this hour of retribution.

School Buildings Excellent.

Writing at length upon the school routine, the difficult examinations and the boy suicides, Mr. Curtin makes this surprising statement:

"Of the school structures in Germany it would be idle to pretend that they are not excellent, with perfect ventilation and sanitation, plenty of space and large numbers of classrooms and halls for choral singing.  
"It is significant that all the schools built from 1911 to 1914 in not only Germany but in Austria are so arranged that they could be turned into hospitals and it would hardly alter them.  
"For this purpose partitions divide portions of the building. Unusually large supplies of water are laid in, and special entrances for ambulances are in existence. Rooms are fitted for the reception of wounded and in many cases sterilizing sheds are installed, and the walls are made of material which could be white-washed quickly for the extermination of germs.  
Protection Measures.  
"It is so obvious a preparation for war is mentioned to the average German his reply is that the growing jealousy of German kultur and commerce through-

### DON'T BE BILIOUS, HEADACHY, SICK OR CONSTIPATED

Enjoy Life! Liven Your Liver and Bowels Tonight and Feel Great

Wake Up With Head Clear, Stomach Sweet, Breath Right, Cold Gone

Take one or two Cascarets tonight and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. Wake up feeling grand, your head will be clear, your tongue clean, breath sweet, stomach regulated and your liver and thirty feet of bowels active. Get a box at any drug store now and get straightened up by morning. Stop the headache, biliousness, bad colds and bad days. Feel fit and ready for work or play. Cascarets do not gripe, sicken or inconvenience you the next day like salts, pills or calomel. They're fine!

Mothers should give a whole Cascaret anytime to cross, sick, bilious or feverish children because it will act thoroughly and can not injure.

out the world rendered protective measures necessary.

"Upon what kind of history is the German child brought up? The basis is the history of the house of Hohenzollern. He studies volumes devoted to the Danish and Austrian campaigns and minute descriptions of all the battles with France in 1870, written in the curious hysterical fashion to be found in 'Von Hindenburg's March Into London.' Another popular book gives an account of the slaughter of the English at the Dardanelles.  
"The admixture of Biblical references and German boasting in 'Von Hindenburg's March Into London' are typical of the lessons taught in the German Sunday schools, which are a great factor in the war propaganda. The pastor gives an extra virulent dose of the Sabbath-Sedan Day, which before the war was the culmination of lessons, often forms the occasion of Sunday school picnics on which the children sing new anti-French songs.  
"There are some traits in the German children that are most likable, such as respect, courtesy, kindness toward their elders, their admiration of learning and their ambition to excel, their genuine love of music. On the other hand there is much dishonesty, as may be witnessed by the proceedings in many police courts.  
"The elimination of a real religious education of the children and the substitution of the worship of the state is something approaching a national catastrophe. In any other community it would probably be accompanied by anarchy. It certainly has swelled the calendar of German crime. Statistics show that every sort of horror has greatly increased in the last quarter of a century."  
Upwards of 9,000 war savings associations are now at work in England and Wales, 479 being affiliated to the National Committee.

### WOULD PUT EMBARGO ON EXPORTATION OF COAL FROM STATES

Petition in Circulation in Greater Boston Premises to Assume Great Proportions

Boston, Nov. 16.—Coal consumers and dealers throughout Massachusetts will be asked in the near future to put their names to a petition to Massachusetts members of congress asking for a law to stop the exporting of coal.

Already copies of the petition, which is expected to reach monster proportions, are being circulated in Greater Boston.

The idea of the petition and of an embargo on coal, originated with a coal dealer, C. A. Chadwick of Newton Upper Falls. Mr. Chadwick has been much concerned by the steady rising price of coal.

"I don't suppose it makes much difference to me whether I charge \$10 a ton or \$20 for coal, if the people want to pay the price," said Mr. Chadwick today. "But I don't believe they do want to pay it. It is up to them to say, and this movement will give them an opportunity.

"My petition asks congress, as soon as convenient after it convenes next month, to place a temporary embargo upon the exportation of coal. While very little hard coal is being exported from the United States, a large amount of soft coal is going out of the country. This has caused the price of soft coal at the mines to advance in the last two months from around \$1.50 a ton to \$7 a ton, and it has brought the price of hard coal up with it.

"I believe if present conditions continue we will all be paying \$25 a ton for coal next year."

The petition is addressed to the senators and representatives from Massachusetts, and is in the following form:

Text of the Petition

"The undersigned, coal dealers and consumers, beg to direct your attention to the tremendous advance in the price of coal and to urge upon you the necessity of immediately dealing with the situation by national legislation by way of placing a temporary embargo upon the exportation of coal, believing as we do that by stopping the exportation we will conserve our country's supply and

member of our organization. Our own condition of membership is that a man must have seen service on one of the fronts in the present campaign. Thanking you, Mr. Editor,

We remain the E. W. V. A.

President.

CATHOLIC MORALITY E. COMYNS DUNFORD (JARBOLD & Sons, publishers, 10 Warwick Lane, London, E.C. 4, N.E.) Oxford Chronicle: The selected apothegms certainly establish the fact that the incultation of the purest morality is not the monopoly of any single religious system. Springfield Republican, Mass.: A singular little booklet. One will rarely find in "Catholic Morality" a shilling's worth of excellent moral maxims and an equally full shilling's worth of subjects for moral discussion. Birkenhead News: To the thoughtful the book will be an interesting and probably fruitful one. Times, London: Seems to be well meaning, unday school Times. A dainty little book. It contains brief accounts of the great religious systems of the world, and quotes wise sayings from many sources. Erratum: p. 15, after "preferred" read to the child brought up by unworthy, careless parents. 50688-11-18-25

WAS TROUBLED WITH SHORTNESS OF BREATH

When the heart becomes affected, there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness, and a weak, sinking, all-gone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened, or the nerves unstrung, Milburn's Heart and Nerve Pills should be taken. They are just what you require at this time. They regulate and stimulate the heart, and strengthen and restore the whole nervous system.

## APPLES, ORANGES, FIGS AND PRUNES Are the Four Fruits Used in Making "Fruit-a-tives"

"FRUIT-A-TIVES" is the only medicine in the world that is made from the juices of fresh ripe fruits. Thus, it is manifestly unfair to say, "I won't take Fruit-a-tives because I have tried other remedies and they did me no good." On the other hand, the fact that "Fruit-a-tives" is entirely different from any other preparation in the world, is just why you should give it a fair trial, in any trouble of the Stomach, Liver, Bowels, Kidneys or Skin. "Fruit-a-tives" is composed of the active principle of fruit and the greatest nerve tonic ever discovered. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

## MORE THAN 2,000 RETURNED MEN UNDER CARE

Figure at Beginning of November Was 2081

### STATEMENT BY COMMISSION

Up to Oct. 5 Number Sent Back to Canada Was 6,208—Some of the Causes—What is Being Done for Them

The Military Hospitals Commission at Ottawa announces that 2,081 soldiers were under its care at the beginning of this month. Of these, 426 were at sanatoria for tuberculosis, and 1,616 at convalescent hospitals, 692 of the latter being out-patients—while thirty-nine members of the force were in asylums for the insane. Of the 489 cases of tuberculosis, it may be added, almost exactly half were discovered in time to prevent them from leaving Canada for the seat of war.

According to a statement prepared by the militia department, up to October 5, 1916, the number of soldiers sent back to Canada because of medical unfitness was 6,208. Of these, 961 were suffering from wounds, shell-shock, or the effect of gas; 122 were insane; 245 were

afflicted with tuberculosis; while the remainder, 4,880 were suffering from other diseases and disabilities. All Canadians ought to know what is being done by the Military Hospitals Commission, acting on behalf of the whole body of citizens, for the restoration of their wounded defenders to a position of self-support and independence.

Every disabled soldier is medically examined on arriving at Quebec. If he is no longer in need of hospital treatment, he is sent home free of expenses and discharged with a pension or gratuity according to the extent of his disability.

If he needs further treatment, he is taken to the hospital or sanatorium where the treatment most suitable to his case is available, and, if possible, to the institution nearest his home. Men who cannot resume their former work on discharge from the hospital are advised and enabled to take special training for new occupations. This is provided free of cost, and while the men are being trained the Dominion government maintains them and their families. Men needing artificial limbs are taken to Toronto, where these limbs are made and supplied without charge. Men with serious nerve disorders are treated specially in the Ontario Military Hospital at Coburg.

Each provincial government has appointed a commission to help discharged men in securing steady and remunerative work. The Dominion government and other authorities and employers, says a statement by the commission, systematically give preference to returned soldiers when filling vacant positions.

The public can and should co-operate heartily in this urgently necessary work, by encouraging the men to take fullest advantage of the curative and educational opportunities given them, and afterwards by seeing that they get work. Local committees have been formed for this purpose in many towns, but much more has to be done in this way.

The treatment, most carefully carried out in accordance with the latest discoveries and the proven results of medical experience, includes many forms of strengthening exercises, often requiring special and costly apparatus; the scientific use of electricity, massage and continuous baths for affected limbs; with wise dieting and fresh air as a matter of course.

Occupation is often as necessary and beneficial as rest itself, in its curative and strengthening effect on body and mind. Classes are therefore held at the hospitals, for instruction and practice in many arts and industries, such as carpentry and wood-carving, metal and leather working, typewriting and bookkeeping, mechanical drawing and elementary engineering, gardening, bee-keeping and poultry-raising.

These all help to increase the capacity of the patients, and to lessen the effect of any injury they have received, by getting them into practical work in such industries as they can profitably undertake. The medical and educational officers try first to discover what each man is most likely to succeed at, and then to fit him for it as thoroughly as possible.

It has been wisely decided that no man shall forfeit any part of his pension on account of his industry and enterprise in improving his own financial position.

Readers are asked to write without hesitation to the secretary of the Military Hospitals Commission at Ottawa, or to the provincial commission at the provincial capital, asking any further information they may desire, or giving practical suggestions resulting from thought or experience.

## FRENCH OFFICERS ADMIRE CANADIANS

Gazette's Representative Pays Visit to French Lines on Western Front

Paris, Nov. 14.—In a short but thorough visit to the French lines The Gazette's representative who reached Paris today was particularly impressed with the precision and regularity of the army. The main roads in France which were formerly choked with transports are now comparatively free owing to the construction of numerous light rail-

## You have a bad cold!

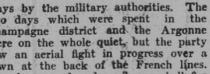

Then listen! Cold attacks the lungs and the breathing passages. To cure you need to get at these organs direct. Ordinary cough mixtures and syrups do not touch the lungs, but go direct to your stomach, which is not ailing. Peps, on the contrary, go direct to the very seat of the trouble.

Peps are tablets containing essences and medicinal ingredients so prepared that when placed upon the tongue they immediately turn into vapor, and are breathed down the inflated air passages to the lungs, direct.

Peps medicine takes the form of healing vapor and cures colds, coughs, bronchitis and lung troubles, just as living in Pine woods and breathing Pine-laden air prevents consumption and cures chest weakness. Tightness across the chest, pain between the shoulders, hacking cough, sore throat, asthma and bronchitis are the ailments which, in particular, Peps have been designed to cure. Peps will soon end your bad cold.

Testimonials for Peps have been given by members of the Canadian Parliament, doctors, lawyers, eminent Canadian musicians; all going to prove that Peps have been found a cure for throat and chest trouble, often when other remedies had entirely failed.

FREE TRIAL—Get one gratis, and mail it, with 1c stamp (for return of postage) to Peps, 506 Bloor St. W., Toronto, and we will send you a free trial box of Peps, 50c box or 2 for \$1.00 (four letters only) before being

ways by the military authorities. The two days which were spent in the Champagne district and the Argonne were on the whole quiet, but the party saw an aerial fight in progress over a town at the back of the French lines.

The excellent flying service of the Allies was seen to good advantage. From the trenches we gazed upon places which had been the centre of hard fighting recently. We also were shown the artillery and saw the sixpence quize in action.

The French officers were much interested in the exploits of the Canadians. Several of those we met had come in contact with our troops and expressed regret that the Canadian soldiers were not more numerous here. The officers in charge of the Canadian party of journalists was a relative of the Maréchal de Zeval.

## A Wise Selection

It is highly improbable that any physician could be found who would deny that a great big legitimate field wherein a good liniment proves a welcome and powerful ally. When need arises, therefore, it is only a question of wise selection on the part of the purchaser. If he obtains a liniment that can be used internally for coughs, colds, sore throats, cramps, chills, etc., and externally for sprains, strains, muscular rheumatism, various aches, pains, and almost any ailment, he is twice fortified against the common ailments that all flesh is heir to. For over 100 years Johnson's Anodyne Liniment has proved to be just such a double value remedy. The prescription of Dr. A. B. Johnson's, an erstwhile old family physician, has attained its enviable record and has been proved to be success purely and solely on its wonderful merit. As a tribute to its remarkable healing, soothing and penetrating qualities thousands of grateful users speak of Johnson's Anodyne Liniment as "an angel in disguise."

## BRINGS GEMS OF RACE DEAD 2,000 YEARS

Prof. Saville Tells of Wonderful Skill of People That Once Lived in South America.

Proof of the existence of a civilization on the Colombian-Ecuadorian frontier that has been extinct for more than 2,000 years has recently been added to the archives of the Museum of the American Indian by Professor Marshall H. Saville, a distinguished archaeologist.

The folk who inhabited the northern region of the South American continent before Pizarro set foot on western soil were expert jewelers, who skillfully hammered raw platinum into ornaments for themselves and their women. They put platinum and gold to a variety of uses and in many cases added to the beauty of the ornaments by inlaying pieces of polished jade and turquoise.

It is only within the last 160 years that platinum has been manufactured and has been placed second to gold in the precious metals mart.

Professor Saville has spent the best part of seven years in Ecuador and Colombia. The trip on which he returned last week was to verify data obtained on previous visits and to gather more evidence of the craft of a race that is believed to have no relationship to either the Aztecs of the Incas.

His researches have been conducted in a region that no other white man ever visited. He has dug for the treasures of ruined cities over which mountain torrents have raged for centuries. The valuable specimens of jewelry and pottery

# Mid-Season Sale Of Men's Clothing

Here, men, is the clothing event of the season, \$10,000 worth of Men's and Youths' Clothing put on sale at big discounts.

To understand why I'm giving this sale and how it is possible for me to do it. Let me explain. Last fall when most managers gave orders to their buyers to let up on their purchases I plunged and bought my head off. But I'm not sorry now as there has been a big jump in clothing prices.

Owing to a certain deal that I have just put through I find that the above mentioned clothing purchases do not fit in with my future business policy, hence this sale.

If You Are a Man this sale is of the utmost importance to you. It means money in your pocket. The finest clothing in Canada at prices you cannot duplicate anywhere else; at prices even we cannot duplicate at the factories today.

This sale is for only 7 days from Saturday, November 18th till Saturday night, November 25th at 11 P. M.

## Custom Tailoring Sale at \$25.00

We have decided not to leave our custom tailoring department out of this bargain sale. Therefore we have put out on our bargain table 100 suit lengths to be made to order at \$25.00 each. Today's values of every one of these suits is from \$30 to \$35.

It's hardly necessary to say here, or to tell the public, what kind of tailoring Arthur Henderson turns out. There's none better. Bring Your Wife With You. Your wife knows value when she sees it. She knows style and patterns and the importance of wearing good made-to-measure clothes. She wouldn't let you pick out a piece of cloth that did not suit you, even if you got it for nothing. That is why we want you to bring her with you.

## LEAP YEAR ADVICE

If Woman Seeks Money, Man May Look for a Cook.

Here is the sage counsel which Miss Lucille Pugh, feminist, suffragist and lawyer—and also quite pretty—is quoted as offering to all bachelor girls, absolutely without fee, for their leap year guidance: "Propose to the man of your choice, but look up his rating first."

Short and to the point. By the recourse to Bradstreet's it is argued that women may avoid the unhappiness frequently resulting from penniless marriages. Good—as far as it goes. But New York Evening Sun.

**WINS \$500,000; "AN INCIDENT"**  
Doheny Says It Would Have Been Just That, Too, If He'd Lost.

Edward L. Doheny, a Mexican oil man, sailed away from New York the other day on his yacht, the Cassiana, a richer man by \$500,000 because Wilson was re-elected. This is said to be the largest single wager ever made on a political campaign.

"Luck Strike" Doheny, as he is known, will cruise through the West Indies to New Orleans, whence he will go to California in time to cast his electoral vote for President Wilson, he having been chosen an elector in Los Angeles, where he makes his home.

Mr. Doheny, who placed his wager on the election through a Wall street brokerage house, was asked for an interview on "how it feels to win a \$500,000 bet."

"It's a mere incident," said he with a wave of his hand. "If I had lost it would also have been a mere incident." Mr. Doheny is a through-and-through Wilson man.

"I am first a Democrat," he said, "and believe in principles that do not point toward socialism or monopoly. Then, I have been a Wilson man from the beginning. I believe in the Wilson policies. And my belief in them has cost me large sums of money in Mexico, but I still believe in them."

Asked to comment on the vote in California, Mr. Doheny said:

"The vote in California was a remarkable personal tribute to Mr. Wilson. It shows that a man can be a Wil-

**SUNDAY SCHOOL CONVENTION**

Chatham, Nov. 15.—The Sunday school convention lost no time yesterday, in getting down to business. In the evening, on behalf of the citizens of Chatham, Mayor Hickey welcomed the visitors to Chatham. He was followed by W. S. Loggie, M. P., who spoke on behalf of the churches. His Worship Mayor Hayes of St. John, speaking on behalf of the delegates and executive, replied to the words of welcome. Mr. Pearce addressed a large congregation on the goals for 1917, and gave an eloquent discourse. At this morning's sessions, addresses were given by the Rev. G. M. Young and Mr. Pearce and general reports by Mayor Hayes, A. H. Chipman and Rev. W. A. Ross. The session was resumed at 2 o'clock. This evening there will be addresses by Mr. Pearce and Rev. Mr. Drumm of Moncton. The programme in general provides for business in the morning, conferences in the afternoon and addresses in the evening.

SEBALL WAS BETTER SUPPORTED

Endance During Year Exceeds That of 1915—League Officials Meet

New Orleans, Nov. 14.—The national convention of baseball leagues met in an all session here on Tuesday with the aid of officials of minor and major league clubs and delegates from throughout the country in attendance.

The meeting will continue through Friday.

Among the important questions expected to come up for decision were the new rules of the Baseball Players' Fraternity, including one relating to contracts and the club's control over injured players.

Other matters to be discussed were the relations between players and league clubs, contracts, schedule classifications and association.

The National league drafted twenty-five players, the American league nine-

teen and the National association fifty-five.

Including money refunded for National association drafts that were disallowed, the National league paid \$87,500; American league, \$28,200; National association, \$22,250; a total of \$238,000.

The sum of \$9,000 was paid on optional agreements between National association clubs and \$6,200 on options exercised by minors for fifty-nine players.

The amount paid for release by purchase between National association clubs was \$42,681. The sum received for drafts was \$184,581, and for options exercised by minors from minors \$80,400.

In addition the National association clubs purchased from Major league clubs by optional agreement and outright sale 206 players, paying \$185,905 to the Major league, \$90; for reinstatement, 158.

Twenty drafts were disallowed and cancelled. The total number of disputed cases handled during the current year was 559 and \$24,668 was collected in players' claims and territorial liens and paid to them without cost of any kind.

Only six claims were filed by the players' fraternity.

The National league drafted twenty-five players, the American league nine-

Quit Yale to Go Job Hunting

Tired of Being "Merely Sons of Millionaires"

Loud Cheers From Fathers

Both Anxious to Get Sons Back to Give Them Openings in Their Own Businesses

New York, Oct. 16.—The Chicago millionaires believe their sons are in this city posing as young men without means and looking for jobs "to make their own way in the world." This spirit is so rare that the fathers have decided that they need the youths in their own enterprises, so Herman E. Dick, a prominent Chicago business man, an uncle of one of the boys, is here looking for them.

Mr. Dick left the following cryptic advertisement for insertion under the classification of "Public Notices," in the New York Times: "Matthew's Uncle Herman in town at Waldorf—thoroughly approves of what you have done. Have two fine openings for you. Don't be afraid to see. Everything all right. If I am out, wait for me."

The story behind the advertisement might serve for the plot of a novel. On Saturday, Nov. 11, Dick, aged twenty, son of Albert B. Dick, a millionaire manufacturer in Chicago, and Paul Martin, also twenty, son of William F. Martin, a retired Chicago financier, vanished from their quarters at Yale where both were freshmen.

The records of the two during their two years at Yale had been spotless, so the dean of the academic department said in a brief statement which he sent to the worried parents. The boys were the best of students, their short letters to the effect that they were tired of being "merely sons of millionaires," that they had always had everything they wanted for college left nothing to be desired. They didn't want to be said in the papers that they had been merely the sons of rich fathers, so they were going out into the world to make their way alone, and advised their mothers that they would write promptly if they became ill or fell into distress, but that otherwise they wanted to make good.

Young Dick went to South America last summer with a representative of his father's mimeograph company. He and young Martin had been job-hunters before they went together to preparatory school. According to their freshman classmates at Yale, they had been making secret plans all fall, the nature of which mystified other students. The families believe young Dick was inspired by his experiences in South America and the business opportunities he saw there.

"Why couldn't have done anything that would have pleased their fathers so much," Uncle Herman E. Dick said yesterday. "There aren't many young men who wouldn't have been perfectly content to postpone settling down to a job as long as possible, and to get comfortable allowances as these fellows had should hold out."

So their fathers have discovered in their own sons the kind of stuff they need in their business and if their sons intend to work for anybody in South America or anywhere else, they might as well let their own fathers have the advantage of their mettle. It shows that they're the right sort and their fathers will always have places for such youngsters. They need not go back to school if they don't want to. I can assure you of that. Jobs are open for them tomorrow if they want them."

According to reports from Chicago, the mothers of the boys are worried over their absence, but the fathers are optimistic and convinced that the boys will win. The statement sent by Dean Jones of the academic department at Yale read:

"Paul Martin and Matthew Dick withdrew from Yale because they had decided to go into business. There wasn't a mark of any kind against them at college. Both are fine boys, and I am sorry they couldn't finish their college course."

Mr. Dick, Sr., is president of A. R. Dick & Co., manufacturers of the Edison Mimeograph, with headquarters in New York. Mr. Martin, Sr., is retired from active business, but still is interested in many enterprises. He was formerly president of the Chicago Gas Company.

A man of 60 who had been a grumbler all his life, and who had the practice of changing doctors on the slightest provocation, not long ago called in a young physician who had gained a considerable reputation. He was calling the doctor what he thought was the trouble with him, when the doctor ventured to disagree with the diagnosis.

"I beg your pardon," said the patient in a haughty way, "it isn't for a young doctor like you to disagree with an experienced invalid like me."

And he sought another physician.

BOWLING

Ramblers Take Four.

The Ramblers took four points from the Specials in a very good bowling match played last night in the city league at Black's alleys. The scoring was as follows:

BASEBALL

Former Stars Sell Shoes

Marty O'Toole, the \$22,500 beauty, and "Buck" O'Brien, pitcher and actor, have opened a shoe store in Brockton, Mass., and are said to be thriving.

O'Brien maintains that nobody should be better fitted to sell shoes than an ex-ball player. "A ball player," says "Buck," "puts an awful strain on his footgear in every department of the game. He soon comes to know how a shoe should fit, where it should be light and close, and he comes to know something about leather, too. When he retires he has a practical knowledge of a paying business, for, to the best of my knowledge and belief, people are going to need shoes for a great many years to come."

Re-Elect President

New York, Nov. 14.—Harry N. Hemphill was re-elected yesterday president of the New York National League baseball club. John B. Foster was re-elected secretary.

Weghman Again Heads Cubs

Chicago, Nov. 14.—Charles H. Weghman was re-elected president of the Chicago National League baseball club at its annual meeting here yesterday. It was said that the question of a club manager was not raised at the meeting, which was taken to mean that Joseph Tinker would again serve in that capacity next year.

St. John Boy to Meet Glover

Baigor Commercial—Teddy Morris of St. John, N.B., and Johnny Glover of Boston are to be the star performers in the fast programme that is to be staged at the Bangor arena, Tuesday evening, November 21. They are real scrapper these two and are to meet in two six-round bouts. Morris and Glover met while on the border and had sharp match in which the decision went to Glover. The friends of the St. John boy were not satisfied with the outcome as Morris was far from in shape and indeed was suffering from malarial fever but in spite of this fact would not disappoint his supporters and so went into the ring a sick man.

Notes of Interest

Matchmaker Doherty of the National A. C. of Providence, R.I., intends to give the patrons of his club some rare sport during the coming season. As a result of several days spent in New York last week Doherty signed Charley White, sensation in lightweight, to meet Young Lustig of New York for 15 rounds on Thursday, Nov. 23.

Benny Leonard, New York's great lightweight, will meet the winner of the Hoolihan-Mohr contest on Dec. 13 at the R. I. A. C., the weight to be 128 pounds ringside.

Doherty says that within a few days he expects to have New Jersey Frankie Burns and Kid Williams of Baltimore booked up and a date set for them to box. All contests will be at 15 rounds to a decision.

FOOTBALL

Can Seat 76,000 Fans

Five thousand additional seats are being erected at the Yale bowl, at New Haven, which will bring the total seating capacity up to 76,000 for the Yale-Harvard football game here on Nov. 23. The latest addition now makes it certain that the classic will be witnessed by the greatest crowd ever assembled at a football game in America.

In view of the fact that more than 100,000 applications for seats have been received, the Yale ticket office announced Tuesday night that in order to satisfy as many as possible, non-graduated Yale will receive only two tickets instead of four, as originally planned.

Predicts Storm for Game

New Haven, Nov. 14.—Horace Johnson, weather prophet of Haddon, Conn., paid a visit to New Haven today and threw a damper over the prospects of a Yale-Harvard football game which is to be played here on Nov. 23. Uncle Horace predicts a great storm for this locality either on Nov. 23 or 26.

Uncle Horace, who is 88 years old, has made some famous predictions about the weather, the most noted of which was the great blizzard of 1888.

AQUATIC

Tribute to Nickalls

New Haven, Conn., Nov. 14.—Guy Nickalls, Yale crew coach, celebrated his fiftieth birthday yesterday by completing his fall coaching at the university. He was the guest at a quiet banquet given by several of his Yale rowing enthusiasts, and was congratulated on the progress made in restoring Yale rowing prospects after last year's slump.

He will leave here today, and will sail for England on the Arab on Wednesday. This winter he will offer himself in any capacity for British military service and will return to Yale next March to take charge of the rowing station.

His brother, Vivian Nickalls, former University of Pennsylvania crew coach, is a major in the English army and is now fighting in Flanders. Because of a broken arm Guy Nickalls has been unable to enlist in the English army.

Once a city man of convivial habits got into difficulty in a small town. Indeed, he found himself haled before the local magistrate.

"The constable," observed the city man to the magistrate, "seems wonderfully certain about the details of my case. How is it he doesn't call his fellow-officer to corroborate what he says?"

"There is only one constable in this village, sir," explained the magistrate.

"But I saw two last night!" indignantly asserted the accused.

"Exactly," said the magistrate, smiling broadly, "that's jest the charge against you!"

BENNY KAUFF

HIT ONLY .264

WITH THE GIANTS

New York, Nov. 14.—Elmer Jacobs, Pirate pitcher, lacks just a little of being officially credited with being the only big league baseball player who hits the size of his hat. Official National League averages for 1916, made public today by Secretary John Heydler, show that Jacobs has halloped the pill for a count of .264, which is as near as science has come to comparing the size of hats with batting averages.

Had Chase, leader of the league, has an average of .269, which probably is one good reason why Cincinnati stands second in team batting, with a count of .264. Brooklyn leads in this department with .261.

Chase had a rival for league leadership in Lew McCarty, New York catcher, but the fact that McCarty took part in only eight games gives the championship to Chase.

The unwritten law that favors battery men does not apply here, for McCarty appeared in many of his contests as a first baseman for Brooklyn.

The average show that Benny Kauff failed in his first big league year to punch a record of .300. The former Federal star had an average of only .264. He was second as a base stealer with forty swipes. Max Carey, of Pittsburg, leading here with sixty-three pilfers.

ENJOYED "AT HOME"

A pleasing social evening was spent in Central United Baptist church on Wednesday evening at an at home given by The Merry Maids of that church.

The president, Miss Hilda Corium, assisted by the Misses Gladys and Marion Shea, and Miss Katharine Kimball, received the guests. The pastor, Rev. D. J. MacPherson and Mrs. MacPherson were present. The evening was spent in games and music. Solos were sung by Miss Gladys Scribner and Corium. Piano solos given by Miss Treva Wetmore and Miss Mildred Brown were especially enjoyed. Refreshments were served by Mrs. A. E. Jenner and Mrs. M. Kimball. The gathering broke up at an early hour with the singing of the national anthem.

Fist in Something

According to their own account, the children were first in something at school; one was first in reading, another in arithmetic, another in sports. Bertie alone remained silent.

"Well, Bertie, how about you?" his uncle asked. "Aren't you first in anything?"

"Yes," said honest Bertie. "I am first out of the building when the bell rings."

COUNCIL WILLING TO AID

Contract For Pipe For Lancaster Water Extension Awarded at Cost of \$14,000—May Have to Renew Ancient Water Main in Germain Street

The possibility of upwards of 500 horses being quartered in St. John during the winter months was indicated by a telegram which was laid before the common council at the committee meeting held this morning. The city promised co-operation in providing accommodation, subject to the approval of the exhibition and military authorities.

The tender of the Canada Iron Foundries for cast iron pipe for the Lancaster extension at \$24.70 a ton, a total of about \$14,000, was recommended for acceptance.

Commissioner Wigmore's recommendation that he be given authority to renew the water main in Germain street, between King and Union, which burst on Wednesday afternoon, was approved.

There was some discussion of further meetings for the public consideration of the assessment report and the arrangements were left to the mayor.

All the members of the council were present.

A telegram from George E. Stacey, French remount station, Ottawa, which was presented to the committee, read as follows:

"French government inspectors are going to Prince Edward Island this month to inspect horses for French army. Please advise me if St. John will co-operate in supplying comfortable stable accommodation for, say, 500 horses, which would be stored there until shipped, and involve expenditure of considerable money for feed and attendance. If suitable horses can be secured in New Brunswick and Nova Scotia, inspectors will be held in these provinces during winter."

The mayor was authorized to reply that sufficient accommodation could be provided in the exhibition cattle sheds, provided this was agreeable to the Exhibition Association and the military authorities, who are in control of the accommodations at the exhibition grounds.

Claim for Injury.

A communication from Weldon & McLean presenting a claim of William Elwert, who was injured while working as a longshoreman on April 12, 1916, on the city's wharf, West St. John, owing to the planking of the wharf giving way, was referred to the city solicitor and the commissioner of harbors and ferries.

The mayor drew attention to a letter which appeared in one of the city papers complaining of the risks arising from public and private garages in wooden buildings. The commissioner of public safety explained the precautions which are being enforced by the fire department.

Commissioner Wigmore asked regarding the status of the benches for the water works that he still is on the city payroll.

Seventy-two Years Old.

Commissioner Wigmore reported on the break in the six-inch water main in Germain street. He had found the pipe in bad condition and wanted authority to replace the main, which was laid seventy-two years ago, with an eight-inch or ten-inch main; that if he finds it necessary, from King to Union streets. He was unwilling to do the work at this time of the year unless absolutely necessary. He was given authority to lay the new pipe if necessary.

Commissioner McLellan asked about the allotment of benches for the water works and was informed by Commissioner Russell that, although he did not allot them to specific lines last year, he intends to do so this year, as the steamer men are very anxious for such an arrangement.

On motion of Commissioner Wigmore, tenders for 4,000 feet of twenty-two and eight-inch cast iron water pipes were opened. The contract was awarded to the Canada Iron Foundries of Montreal and Three Rivers, P. Q., at \$49.70 per ton, f. o. b., West St. John, through their agents, Vroom & Arnold, of this city. The pipe is required for the Lancaster extension and extensions which the commissioner is anxious to proceed with the work immediately.

Commissioner McLellan reported that the meeting for the discussion of the assessment report last evening was valuable, although not largely attended, and he thought that better advertising would bring larger numbers to further meetings. He urged that another meeting be held at an early date. The matter was left to the mayor to make arrangements.

St. John Soldier's Thrilling Experience at Thiepval

PTE. P. PEMBERTON

Wounded by Shell, German Bayonetting Him as Companion Shoots Enemy Soldier Dead—Comrade, in Turn Wounded

Private P. Pemberton, writing to his mother, Mrs. Pemberton of 287 Brussels street, from the military hospital in Nottingham, England, tells of how he was wounded on the Somme front. He also depicts the help and assistance that one comrade gives another under trying circumstances. The letter is as follows:

Dear Mother, I am able to tell you now as I am in England. It was on the Somme front that I got wounded. We went over to attack the Germans—the third time in two weeks. As we got nearer their trenches the Germans threw bombs at us and we came through a rain of bullets and shells for 500 yards. I think we lost about 450 in that distance.

Dear Mother, I was just making a dash for their trench when a bomb went off about two yards from me and I was hit in three places. Just then a great big German came out and stuck his bayonet in me and when he was about to finish me for good, my chum put him out of business with a bullet through his head. I was dragged into a shell hole by my chum, he dressed my wound temporarily and was helping me out when he was shot through both legs. He could not walk at all and I could only hop. Somehow I got hold of him and dragged him all the way back with bullets flying all around us. That happened near Thiepval.

This is a very vague idea of what life is out here. It would take weeks to tell you all. I was in the middle of the one last June at Ypres and we had a hard time of it then, but I had the luck to come through.

Your loving son,  
PTE. P. PEMBERTON.

**THE TRENCHES ON THE LOCH LOMOND ROAD**

It was learned this morning that the land on the Loch Lomond road, use of which has been given for trench work by the soldiers, was granted by His Lordship Bishop LeBlanc.

The military authorities intended to start in this week to get the trenches under way. The work has been postponed owing to the weather. Lieutenant Pierce, the officer who will be in charge of the construction, said this morning that it was not his intention to keep the men in the trenches any length of time during the cold weather, but the idea was to get the men acquainted with them, so that they could look after themselves in the trenches, which is a great thing on active service.

The men in the trenches with the 28th Battalion. It was raining hard and it kept raining for three days and three nights. The men knew practically nothing of trench warfare and really did not know just what they could do or would be allowed to do in order to keep the rain off and as a result they stood in the rain for three days, whereas had they known that they were allowed to stretch rubber blankets over the top of the trenches, the sentries especially could have been comfortable. This is only one instance of the training needed. Others are teaching the men to get in and out of the trenches without making too much noise, the changing of sentries and hundreds of little details which will prove very beneficial when the men are in the real trenches.

As soon as the weather permits the men to work in the open the work of digging the trenches will be started.

**VISIT COST THEM \$16**

The local police court treasury is \$16 richer today than yesterday, owing to the sharpness of one of the officials. In last August two brothers had taken too freely of some fire-water and became noisy and boisterous in the street. They were arrested and each was fined \$16. It was agreed by the court that the two offenders meet the end of justice by paying \$8 each at the time and they were allowed to go on condition that they bring \$8 to the following Saturday. The following Saturday came, but no money and no sign of the two brothers.

This morning two men strolled into the police court to hear and see what was going on. They were recognized by a court official and asked "to come and take a seat." The circumstances were explained to the magistrate and they were forced to "come across." It was a long time since August to wait for \$16, but "what is not worth waiting for is not worth having."

VALUABLE PEARL LOST

A pearl worth in the vicinity of \$100 was lost this morning in the union depot by a lady passenger on the Montreal train. The pearl was set in an ear ring. Constable Roberts of the I. C. R., and other officials made a thorough search but were unsuccessful in finding only the gold setting.

MISSIONARY INSTITUTE

The annual missionary institute conducted by the Inter-church Federation of Fairville, was continued yesterday and today. The services were held in the Baptist church at Fairville today. This afternoon Rev. H. H. Irish held a home mission study class, subject on China. This evening Rev. H. E. Stillwell will hold a home study on India.

**GOING OVERSEAS AS NURSES**

Many in this city and elsewhere in the maritime provinces will be interested to know that Miss Nellie McInerney, a graduate nurse of St. Vincent's Hospital, New York, and Miss Loretta Canning, of Springhill, N. S., a graduate nurse of the General Public Hospital in this city, have received word from Ottawa that their applications have been accepted to serve as nurses at the front. They are to hold themselves in readiness to proceed overseas upon due notice.

Miss McInerney, who is a daughter of Mrs. Geo. V. McInerney, is at present visiting her brother, Judge H. O. McInerney in this city. Both these young ladies will have the best wishes of many in their noble work.

PARTY FOR BELGIAN FUND

A very enjoyable "ten-party" was held at the home of Miss Elsie Turner, Sandy Point Road, on Monday evening. The time was pleasantly passed with whist and other games, and refreshments were served at midnight. During the evening the generous sum of \$9.30 was contributed to the relief fund for the Belgian children. The party broke up after singing the National Anthem.
