SEAMEN BLAMED AS BRITISH SEAMEN STRIKE

35 SHIPS HELD UP IN LONDON BY WALK-OUT

Report Says Movement Is Spreading To Canadian Ports

WAGE QUESTION

Men Repudiate Recent Agreement Between Unions and Ship Owners

LONDON, Aug. 22.—An unofficial strike has broken out in London and elsewhere and threatens to spread to affect British ships in foreign ports, as it already has done in Australia.

RDs ARE BLAMED. The Daily Mail says the strike is due to a plot engineered by Communist leaders, who aim to bring to a standstill British shipping abroad.

Reports from Australia say that the seamen there are rapidly spreading and that many ships are being held in port through lack of men to handle them.

60,000 SIGN FACT. British ship owners have called Premier Bruce of Australia explaining their agreement with the seamen and urging him to prevent illegal practices to break contracts.

HAZELCKE WILSON, president of the National Seamen's Union also has telegraphed Mr. Bruce, repudiating the interference of the strike.

SYDNEY, N. S. W., Aug. 22.—At a meeting of the British seamen here yesterday a resolution was passed calling upon the men to strike until the rates of pay which existed before the agreement between the seamen and ship owners for a pound sterling reduction, monthly, are restored.

Speakers at the meeting strongly denounced the union leaders for betraying their interests. It was decided to telegraph British seamen in other Australian ports than Sydney to join the strike and place themselves under the protection of the Australian Seamen's Union, which would support them.

Favorable replies were received from seamen at Melbourne, Brisbane and Adelaide, and crews of British vessels there have gone on strike.

50 SHIPS AFFECTED. More than 50 British ships in Australian ports are affected by the strike. These include some of the big liners. It is believed that other vessels now on the way to Australia will be involved unless the strike is settled before their arrival.

CHAMBERLAIN MAY HAVE TO INTERVENE SOON

Quarter Million Of British Trade Is Lost Daily

OTHERS' INTEREST

Sixteen Powers Must Be Consulted Before England Can Take Steps

By H. BAILEY. British United Press. LONDON, Aug. 22.—Much prominence is given here in the press this morning to a request of the Merchants' Exchange of Vancouver addressed to Premier Mackenzie King, asking him to advise the British Government as to the serious effect on British trade in the Far East of the Chinese boycott of British goods through the action of the Cantonese Government in regard to coastal shipping.

MUCH TRADE LOST

It is estimated that British trade is losing a quarter of a million pounds daily in Hong Kong alone which gives some indication of the enormous volume of trade which Britain and the Empire do with the Far East.

SOLUTION DIFFICULT

On the other hand, the British do not want to make the situation any worse for their own nationals by taking individual action, which is admitted might be a costly and a most serious job.

MRS. L. COMEAU AND DAUGHTER INJURED

Auto Hits Pole at Rothesay on Family Return From Shediac.

Miss Corinne Comeau was badly bruised and cut about the face in an automobile accident at the crossroads at Rothesay last evening when the car in which she and her mother, two sisters and brother were returning to Saint John from their summer home at Shediac crashed into a telegraph pole, snapped the pole off 12 feet from the ground and injured all of the occupants to a greater or less degree.

Gerard Comeau was driving and the accident was caused by his making a very abrupt turn in order to avoid collision with a Saint John car which suddenly appeared round the corner on the Dam road.

THOSE INJURED. Miss Corinne Comeau was thrown out of the car and fell with her face against the supports of the telegraph pole. Mrs. Comeau was thrown across one of the doors of the automobile and received a very bad laceration.

Mrs. Comeau and Miss Corinne Comeau were attended at Rothesay by Dr. O. R. Peters and four attendants had to be taken to close the wounds on Mrs. Comeau's face. Clifford McAvilly drove the two most injured members of the party to their home in Elliot row in his automobile.

Mrs. Comeau passed a restless night but was feeling more comfortable this morning.

SAYS PROVINCE IS RICH IN PEAT

W. B. Snowball, M. P., Tells of Great North Shore Deposits

Expert Investigating and Sees Great Possibilities in Use as Fertilizer.

W. B. Snowball, M. P., of Chatham, who was in the city yesterday, told a remarkable story about peat deposits in New Brunswick and Gloucester.

Mr. Snowball points out that if Mr. Anrep is right as to the quality of the peat, it could be shipped to New York or elsewhere from the wharf at Esquimaux, and if the railway from Tracadie to Newcastle, for which surveys have been made, were completed, it would be possible to ship the peat by rail to all parts of New Brunswick.

Mr. Snowball has been interesting himself in the matter of immigration, and has pointed out to the authorities that there are farm properties in the neighborhood of Chatham which could be purchased, and on which groups of families of good farmer immigrants could be settled and be free from any sense of isolation.

RECORD BREAKING PLAY COMES HERE

Abie's Irish Rose, Booked For Opera House End of Month.

Having recently completed an engagement lasting eight weeks at the Gaiety Theatre in Rochester, thereby making theatrical history for the city, Abie's Irish Rose, world-famous comedy success, "Abie's Irish Rose" has been secured by the management of the Saint John Opera House, starting on August 31, giving local theatregoers an opportunity of witnessing the metropolitan success with a metropolitan cast and production, for the attraction is to be presented in this city with the same cast and production intact.

IS RECORD-BREAKER. In reviewing the statistics regarding this perennial wonder, it may be of interest to readers to disclose some of the long runs played by this attraction, now down in theatrical annals as the breaker of all known records in the history of theatres.

It played 42 weeks in Los Angeles, 28 weeks in San Francisco, 28 weeks in New York, where it ended its third year at the Republic Theatre on May 23 and still playing to capacity. It played 29 weeks in Pittsburgh, 12 weeks in Baltimore, 12 weeks in Washington, 14 weeks in Columbus, eight weeks in Atlantic City, and is now in its second year at the Studebaker Theatre in Chicago, and the house is sold.

POSSIBILITIES. Mr. Snowball points out that if Mr. Anrep is right as to the quality of the peat, it could be shipped to New York or elsewhere from the wharf at Esquimaux, and if the railway from Tracadie to Newcastle, for which surveys have been made, were completed, it would be possible to ship the peat by rail to all parts of New Brunswick.

"It is a sorry commentary on the quality of a certain percentage of the motoring visitors to the little town of Plymouth in the Vermont hills, now and for years to come made illustrious by fate—the story in the Post telling of the thefts of hymm-books from the church, the cutting of splinters from the present Coolidge home, the carving of totally unimportant initials into the bark of nearby trees and, worst of all, the removal of seed from the sacred spot in which lies the first-born of the President."

"People with the slightest impulse toward decency and good taste cannot do such things, and it is a pity that there are any of the other kind running loose in Vermont. They are apt to call their actions 'souvenir hunting,' but they are plain vandals, and nothing else."

Among a sheaf of smart answers quoted in The London Sphere is a reference to a Bishop of a noxious order, who provoked Theodore Hook to inquire: "Pray, sir, are you anybody in particular?" Here are a couple of retorts, each salted with Irish wit: Judge Ball's footman shouted to a beggar, "Take your rag out of the Lord's ship." "Me rag's" retorted the beggar, with a "withering glance at the man's livery."

THE SEARCH FOR SECURITY.

At a recent celebration in Wales Lloyd George expressed the belief that if another war should come civilization would be destroyed. Many of the leading statesmen of Europe have expressed a similar fear, and the fact that they hold such views explains in a large measure why the League of Nations was formed. It is not surprising that they were compelled to consider security agreements which, prior to the last war, they would have regarded as impossible of acceptance.

BACKTRACKING A SLANDER.

How a little travel does twist the facts and make a story grow! There was a fine illustration of this from Saskatchewan recently. A writer representing the Farmers' Union rushed into print charging the Rev. Archdeacon Knowles with having said that "in one part of his diocese his clergymen found a British subject whose only supply of food was a barrel of salted gophers."

Seven years after the Armistice Europe has more men in its armed forces than it had in 1913, and because of the existing distrust and uneasiness, progress toward disarmament is slow. Statesmen see in this distrust among nations the constantly growing danger of another race in armaments, the end of which they believe will be another conflagration. As to what that would mean, the warning of Lloyd George cannot be regarded as in any sense exaggerated. It is considerations such as these which are impelling the British leaders to strive to bring about the entrance of Germany into the League of Nations, and the conclusion of a pact which would guarantee both France and Germany against invasion by the other. This is an arrangement involving commitments and complications which many rightly regard as dangerous, yet at present the outlook is that such an agreement will be reached. The dangers it may involve are not ignored, but they are thought to be less than those which appear inevitable if the situation is allowed to drift along and the existing tension to increase. It is the hope of those who favor the so-called security pact that one of its earliest results would be that

LAST 2 MONTHS BUSY FOR NURSES

Visits to City Homes Reported to Health Centre Governors

Matter of New Site for Lady Byng Camp for Children is Discussed.

It was reported at a meeting of the governors of the Health Centre yesterday afternoon that the nurses of the various clinics doing public welfare work have made nearly 1,000 home visits during each of the last two months and that many people had been in attendance at the clinics.

Dr. G. A. B. Addy, president, was in the chair at the meeting. Reports for two months were received. In June expenses totalled \$929.18, including \$621.12 for coal and receipts were \$192.67. In July expenses were \$829.05 and receipts \$124.17. The book balance amounted to \$841.80 and the city grant of \$2,000 was still to be received.

TO RAISE FUNDS. Mrs. T. N. Vincent, convener of the ways and means committee, spoke of tag day plans. There was no report from the committee named to tag day. Mayor for a special date for tag day.

Dr. William Warwick, for the administrative committee, reported 591 attending 95 clinics and 920 home visits made in June and 657 attending 90 clinics and 598 home visits in July.

WORK OF CLINICS. Dr. Warwick gave particulars of special cases showing how the various clinics co-operated and how the home visits brought great benefit in giving timely advice and direction.

LADY BYNG CAMP. Miss Dykeman gave a report on the Lady Byng camp. It was questioned whether a more desirable location for the camp could not be secured for next year.

ALBERT COUNTY MAN VICTIM OF ACCIDENT. Ernest Geldart Killed When Gravel Car Dumps, Load Without Warning.

HOPEWELL HILL, Aug. 21.—Ernest Geldart, 30 years of age, a member of a working crew on a gravel train that has been ballasting on the Albert branch railway, was almost instantly killed just before knocking off time tonight, when a gravel car on which he was riding dumped its load accidentally, throwing the unfortunate man through the trap with the gravel.

FIND HIM DYING. When the train was stopped the crew went back a distance of about six car lengths to the spot and found the victim of the accident just breathing his last. He was terribly mangled, both legs and one arm being almost severed from his body and his head being badly cut. The scraper that levels the gravel had evidently thrown him from under the car after his fall.

INQUEST HELD. No blame for the fatality was attached to anyone by the coroner's jury in its verdict given in the inquest held at Albert tonight. Several witnesses, members of the train crew, were examined at the inquest which was conducted by Dr. J. B. Jones, coroner. The jury recommended that notices be posted at all gravel pits forbidding the workmen to ride on the gravel and instructing them to ride on the ends of the cars, where places are prepared for that purpose.

H. M'KAY ACQUIRES PICTOU ISLAND FOR OIL DEVELOPMENT

HALIFAX, Aug. 21.—Possibilities of a gas and oil development on Pictou Island in Northumberland Strait, off the mainland of Nova Scotia, were seen in the acquisition yesterday of a 15-acre prospecting lease by Hugh McKay, a former Pilotman, and recently a member of the geological faculty of Oklahoma University.

Mr. McKay, who is understood to have large oil and gas interests in the United States, has made this branch of geology a specialty and believes he will find oil and gas bearing strata on Pictou Island in such quantities as to make a large development probable.

NOW PREPARING FOR FEDERAL ELECTION

Kent County Conservatives Will Hold Convention on Aug. 31—Some Names. New Brunswick politicians are beginning to prepare for the federal election fight and the Conservatives of Kent County will hold a convention on Monday, August 31, to name their standard-bearer. It is believed that A. J. Doucet, M. P., who was elected in a by-election in December, 1923, will be the nominee.

Among the possibilities as the Liberal candidate are said to be Hon. Dr. E. A. Smith, Shediac; T. T. Goodwin, Moncton; Hon. Fred Muges, Port Elgin. It is reported that Hon. A. B. Copp will not seek re-nomination.

N. S. TO WAR ON WILD DRIVING

35-Mile-An-Hour Limit Put on Cars; Speeders Will Be Prosecuted

Highways Minister Plans Employment of Motor Cycle Policemen on Roads.

HALIFAX, Aug. 21.—Some 500 divisional engineers, district superintendents and foremen of the Provincial Highways will be enlisted in the enforcement of the Motor Vehicle Act. Hon. Percy Black, Minister of Highways, explained today in announcing that the Motor Vehicle Department had been transferred from the jurisdiction of the provincial to the Highways Department.

These officers will be sworn in as peace officers for the enforcement of the act and it will be their duty in the words of instructions issued by the Minister, "to protect the public, to protect the roads, to report promptly all motor vehicles that are operated without permits or proper number plates, to give courteous assistance to those requiring it, and to report all motor accidents in your district."

35 MILE SPEED LIMIT. The instructions state that the highways board will consider a rate of speed over 35 miles an hour under any circumstances "greater than is reasonable" and the officer is to warn the offender and send in a report. They further read: "If a warning is not effective it will be the policy of this department to prosecute rigorously without discrimination or favor."

Those who drive cars when in an intoxicated condition must be prosecuted with the full rigor of the law under the criminal code, and to them no warning will be given.

Mr. Black also announced that four positions of inspectors under the motor vehicle department will be abolished and advertisements are appearing in the press for persons qualified to act as motor cycle constables. It is planned to have about a half dozen of these available for use in various parts of the province as required. Mr. Black suggests today that men who had seen army service as despatch riders would be qualified.

LIGHTNING RIPS UP FLOOR, MELTS CANS

Burns Picture on Wall and Sets Fire to Yarmouth County Barn.

YARMOUTH, N. S., Aug. 21.—A remarkable freak of lightning during a recent tempest has just been discovered by Charles Reeves, of Kempsville, Yarmouth county, in the woods several miles back of that place, where Mr. Reeves has a camp and a small out-building which served as a barn in which he kept his canoe, traps, carpenter tools and other equipment. A day or so ago he visited the camp and found that the small barn had been struck by lightning, set on fire and totally destroyed with its contents.

Lightning had also entered the main camp near the fireplace in the bedroom, burned one picture on the wall, ripped up flooring under each bed and passed into the main room and to a wing under some bunks where there were boxes of cans. The heat had been so intense as to melt these cans and run them together. Near them were several boxes of phonograph records which were not touched.

More Schools Open Aug. 31

THE schools of East Saint John and Little River will re-open after the summer holidays on Aug. 31, the same date on which the city schools re-open. An additional teacher, Miss Freda MacFarlane, has been engaged for the East Saint John school, as it has been found necessary to open a fifth class at that school.

THE work on the addition to the school building is going forward satisfactorily and the contractors will have one class room ready for occupancy on Oct. 1. Temporary arrangements will be made to accommodate the fifth class until the extra room is available.

By OLIVE ROBERTS BARTON
PETER PETER CHANGES HIS MIND.

Peter Peter sat at one end of the supper-table and Mrs. Peter sat at the other. In Daddy Gooder Land everybody had supper and dinner at noon.

"Oh, ho!" laughed Peter more good-naturedly. "That's a joke! Sure I'll trade. I'll take a good rest and smoke my pipe all day."

"You do all that today?" "Yes and more," said his wife. "Because I washed the windows and attended to my flower garden as well."

"I'll tell you what I'll do, Peter Peter," said Mrs. Peter suddenly. "I'll trade with you. I'll do all your plowing and hoeing and weed-pulling if you will do my house work for a day."

### CREW LEAVES SCIENCE VESSEL

#### Five Members Complain of Insufficient Food and Are Discharged

#### 103 Days Out, Easter Island to Alboa, Men Aboard Spear Fish.

LONDON, Aug. 22.—Five members of the crew of the British scientific research yacht St. George, which left England early last year to explore the Pacific, have obtained their discharge at Balboa, on the Panama Canal, through the intervention of the British Vice-Consul. They complained of short rations.

One of the men, Arthur James, has just arrived home at Brisbane. At Tahiti, it is stated, some of the men threatened to leave the yacht unless sufficient food was placed aboard to meet any emergency.

After leaving Tahiti, the St. George encountered heavy weather, and ran ashore on a reef at Rapa, but was refloated. While at Easter Island she was driven out to sea with a Chilean Governor and a wealthy ranch owner aboard. Three days later the yacht was able to return to Easter Island.

### BEAUTY AND THE BEAST

Miss Helen Armstrong, of East Greenwich, Conn., and her champion English bull dog, Tammany, at the Newport, R. I., Society Dog Show.

During the voyage from Easter Island, which took 103 days, the crew experienced short rations. They speared fish to break the monotony of bully beef and beans, and it is alleged that even the emergency provisions in the lifeboats had to be requisitioned by the chief steward.

The St. George was finally towed into Balboa by a Panama tug which was summoned by wireless, the coal bunkers being exhausted.

### ONE HURT IN NEAR RIOT

SEIGLER, Ill., Aug. 21.—An unidentified miner was severely injured and several automobiles were battered by flying bricks and clubs today, as approximately 100 miners passed a picket line at the Belland oiler mine No. 1, here where a wildcat strike is in progress.

### THE ONE SURE WAY TO GOOD HEALTH

#### Is Keeping the Blood Pure by Using Dr. Williams' Pink Pills.

Impure, weak blood is the cause of most of the troubles that afflict people. This is the cause of the wretched feeling of languor and faintness, pains in the back and side, headaches and breathlessness, that afflict women and make her daily life a torture. To get new health and strength the blood must be enriched. What Dr. Williams' Pink Pills do in cases of this kind is told by Mrs. Augusta Emery, Woolford Station, Ala., who says:—Living on the prairie, and knowing that there are thousands of women like myself miles away from a doctor, I want to tell them what Dr. Williams' Pink Pills have done for me. After my first baby was born I seemed to have little energy. I felt weary and run-down and unable to do even the ordinary household duties. I felt I needed a tonic and as I had long seen Dr. Williams' Pink Pills advertised I decided to try them. I got a supply and before very long the result was wonderful. Day by day I regained my former strength and energy. The pills seemed to give me a keen appetite and I gained in weight and soon was able not only to do my work about the house but to help with many chores on the farm. For this reason I would advise women, particularly those on the prairie or the farm, to keep a supply of these pills always in hand. One trial will convince you of their worth. I have recommended them to many of my friends and never have they failed to produce good results.

### CONVENTION HERE BROUGHT TO CLOSE

#### Visiting Funeral Directors View Dry Dock and Are Much Impressed.

The annual session of the New Brunswick Funeral Service Association was brought practically to a close yesterday afternoon at the Seaman's Institute when lectures on embalming were given by Professor H. Sales, Boston, and Professor Harold Selby, West Port, Conn. Following the addresses, the members adjourned to enjoy a motor drive to points of interest about the city. The visiting members of the association were led in their praise of the Saint John drydock. Some of the members left for their homes last evening.

GETTING READY FOR GRAND OPENING OF BOWLING SEASON

THOUSANDS OF FANS EAGER TO TRY FOR STRIKES AND SPARES

Season Is Expected To Be One Of The Best Since The Game Was Introduced Here Years Ago

THOUSANDS of bowling fans throughout the city are looking forward with keen anticipation for the grand opening of the alleys which is to take place in the near future.

The Y. M. C. I. Black's and Victoria alleys are still in the hands of renovators and will be ready at the end of this month or early in September to open their doors to the candle pin artists.

The Admiral Beatty Hotel has not only proven a strong incentive to hold tourists in this city, but in addition, has been a boon to the bowling game.

The Y. M. C. I. alleys are being thoroughly overhauled. All four are being placed, new boards set in where needed and other changes and improvements made.

Big Baseball Game on East End Diamond Today Expected to Attract Record Crowd

FANS by the thousands are expected to crowd into the East End park this afternoon to witness the great battle between the Water Department team and the St. John the Baptist, who are to meet in the second of their three game series to decide the championship of the City Senior League.

The game is expected to be one of the most bitterly contested this season, and is bound to be abundant in thrills.

The teams will line-up about the same as last Wednesday evening, with an exception that "Tack" Dalton will be on the mound for the Saints and Ira Hannah for the Watermen.

The game is creating exceptional interest throughout the city and from every indication a record crowd will be in attendance.

The game is to start at 3 o'clock sharp and the umpires will be Ramsay behind the bat and Finnamore on the bases.

Mackmen Seem To Have Cracked

Pitchers Wild and Ineffective and The Team's Hitting is Weak.

NEW YORK, Aug. 22—Beaten in five successive games, the Philadelphia Athletics today were on the verge of a total collapse such as wrecked earlier season pennant hopes for Connie Mack in previous years.

Defeat of the youthful Quaker City combination yesterday by the Chicago White Sox, 8 to 2, bore unmistakable signs of cracking on the part of Mack's entry.

Shelby was the big gun in the Sox attack, with three singles and a double.

Senators Also Lose

The tumble of Philadelphia, however, lost the club no further ground in the American League race.

FLYNN AGREES TO DATE NAMED FOR BIG BATTLE

NEW YORK, Aug. 22—Leo P. Flynn, manager of Dave Shade, sent telegrams yesterday to the Boxing Commission and to Tex Rickard accepting September 21 as the date for the Walker-Shade battle for the welterweight championship of the world, which is to be staged at the Yankee Stadium.

On Tuesday the commission received a wire from Flynn demanding Walker's forfeit of \$10,000, but at that time Leo was apparently not aware of the fact that the welterweight king had signed for the match.

SET FOR SEPTEMBER 21

On receipt of the wire from Flynn yesterday Rickard wired back that everything was set for the Yankee Stadium on September 21 and that he would wait Leo's arrival here for the signing of the official articles.

The telegram from Flynn virtually closes a match that has been on the fire for more than a year. It was the Boxing Commission of this state that forced the issue in this division, as it has been trying to force the issue in the heavy-light class between Jack Dempsey and Harry Walker.

Walker apparently had no desire to mix with Shade and look advantage of every subterfuge to side-step the match. The fact that Shade stopped the formidable Jimmy Slattery at the Polo Grounds did not tend to increase Mickey's interest in the proposed scuffle.

Sons of England and St. Andrews Teams Play Tie Game

A good exhibition of soccer football was played last evening on the Barrack Square between the Sons of England and the St. Andrews teams.

The game was fast and at the interval, the Sons were one goal to nil.

On the restart from a free kick, St. Andrews made the score tie and a little later scored again from a break away.

Eventually after several rushes, St. James made the score two each. The Sons of England had the best of the play but missed several chances for a score and the game ended with honors even.

The drawn match will be played on the Allison grounds if arrangements can be made with those in charge. These games should prove very interesting as the teams are working hard for the trophy.

UNTRUE NOTED ACTRESS IS DEAD

Jennie Lee, Famed in Dickens Character, in Poor Circumstances Fate Deals Harshly With One Who Had All Britain at Her Feet.

LONDON, Aug. 22—Living alone, in poor health, Miss Jennie Lee, famous Dickens actress, now aged nearly seventy, who was the original "Poor Jo" has been greatly distressed by reading an erroneous report that she had died in California.

"The report, from Los Angeles, was given at some length and with details of her career as an actress. Miss Lee is living in London, in reduced circumstances, and suffering from arthritis.

A poignant account of the affair was given to your representative by Dr. Morton Smart of Park Lane, who has known Miss Lee for many years.

"Tonight Miss Lee sent for me, said the doctor, and I found her in a state of prostration and hysteria. When I asked her the cause of her grief she showed me the published reports stating that the famous Miss Lee had died. 'I did my utmost to console her, and I tried to make her look at it humorously, but my efforts were fruitless.'

BATTLE OF LIFE "Life has dealt very cruelly with poor Miss Lee," said the doctor. "Once she was a famous artist, with the whole of Britain at her feet. Her wonderful gifts drew praise and admiration from other countries too. Now she is absolutely alone in the world, and she is existing on a meagre pittance. A series of misfortunes have been responsible for her present state."

"Before the war Miss Lee lost her daughter, who died from consumption. I think during the war her son, a trooper in the Canadian forces, was killed, and then she lost her husband as well.

"She is living in two rooms near Baker street, but she never complains, for she is too proud. I have known her to go all day without any food because she has been too ill to get it. In order to buy necessities Miss Lee has had to get rid of values worth scores of pounds of excess transportation.

FAMOUS AS "JO" Famous for her portrayal of "Jo," the crossing sweeper in Dickens' "Bleak House," Miss Lee, the daughter of Edwin George Lee, an artist, was born in London, and was on the stage for 55 years. She made her first appearance on the stage at the Lyceum in 1870 as Henry in "Chilperic."

Her last appearance was in the part of "Ma" at the Lyric Theatre in London, in 1921, at a matinee in aid of the Charles Dickens Memorial House.

Saint John Men at Meet of Foresters

E. J. Todd, high secretary of the Independent Order of Foresters for New Brunswick, left yesterday afternoon on the C. P. R. Montreal train to attend the supreme court sessions of the order to open in Toronto on Tuesday, Aug. 25, and continue three or four days. The other representatives from New Brunswick are Duncan G. Lingley and Manser E. Grass, both of Saint John. Mr. Grass left on the C. N. R. last night and Mr. Lingley left on last Tuesday, as he had to be in Toronto for committee meetings. Mr. Todd will be absent from the city until next Monday.

CHOLERA INFANTUM

Cholera Infantum is one of the fatal ailments of childhood. It is trouble that comes on suddenly, especially during the summer months and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent the dreaded summer complaints. They are an absolute safe medicine, being guaranteed to contain neither opiates nor narcotics or other harmful drugs. They cannot possibly do harm—always do good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**BRIDGE FACTOR IN WINNIE'S WAR**

**Cantilever Being Dismantled Was Under Guard in Fighting Years**

**Structure Over Reversing Falls Erected in 1887—How It is Being Removed.**

Another historic landmark is passing. With the dismantling of the old Cantilever bridge spanning the Reversing Falls. After 40 years it is in the wreckers' hands and within two or three short months nothing but a few concrete piers will mark the spot where once stood a stately bridge.

The work is being done by a crew of men engaged by R. T. Gilman, of the firm of R. T. Gilman & Co., Montreal, who have been engaged in this capacity by the Montreal Cotton and Wool Waste Co., Montreal.

The bridge was sold by the C. P. R. The bridge is to be taken down as it was built, panel at a time and the central panel will be the first one removed. The steel girders will be cut away by oxy-acetylene torches after a hole has been bored through them and they have been temporarily secured to one of the towers by means of steel cables.

The old tracks leading to the bridge on both sides were removed so that derricks can be run out and the scrap loaded by this means on cars and quickly removed.

**BUILT IN 1885.**

Built by the Dominion Bridge Co. of Lachine, Quebec, in 1885, for the Saint John Bridge and Railway Extension Co. at a cost of about \$60,000, the structure has carried more than 125,000 trains, millions of passengers and millions of tons of freight since it left the builders' hands until it was finally closed to traffic when the new bridge was officially opened for traffic in 1922.

The bridge on the eastern end bears a tablet with the names of the directors of the Saint John Bridge and Railway Extension Co. at the time the structure was built. These were: Thomas R. Jones, president; James Murray Kay, treasurer; B. Robinson, secretary; F. E. Barker, Payson Tucker, John H. Parks, Robert Robinson and Arthur Sewall. The chief engineer of the company was Peter S. Archibald.

**1,300 TONS.**

The Cantilever Bridge contains approximately 1,300 tons of steel and the new C. P. R. bridge has 2,915 tons.

The bridge was first used by the old New Brunswick Railway and after the C. P. R. took over the railway the bridge continued to carry the bridge and line to the C. P. R. until 1904 when the latter corporation took it over.

In 1905 the bridge was entirely overhauled and greatly strengthened. A new floor system was put in at that time consisting of new steel stringers and floor beams. The trestle approach on the west side was strengthened by steel towers being placed in the centre of the sixty-foot spans, thus making them only thirty feet in length. Also three new thirty-foot spans were put in to replace old spans.

The anchorage on the east and west ends was renewed and a heavier grade anchor bolts used. All this work was done by the Hamilton Bridge Co. without a single day's interruption to the heavy traffic.

From 1905 until the new bridge was built the old Cantilever bridge and line traffic with only the usual repairs needed to any bridge bearing the great strain of heavy main line travel. The structure was tested carefully from time to time by the company's experts.

**DID BIT IN WAR.**

During the war the bridge was an important link in the chain connecting the rest of Canada with the motherland and the battle fields of France and Flanders. A guard was kept constantly around the structure to frustrate any efforts which might be made by enemy spies to destroy the bridge and thus hold up the stream of food, men and munitions which kept pouring overseas to the seat of war for four years.

After the new bridge was opened the old one was closed completely and the tracks across it were removed. Permission was recently secured from the city to replace the tracks crossing Douglas avenue while the work of taking down the structure is going on. The work is being watched by citizens with considerable interest which will grow as the panels are removed from the centre and the bridge slowly recedes, panel by panel towards each shore.

**DRY WARM WEATHER NEED OF MARITIMES**

Heavy and Potato Reports Are Favorable.

HALIFAX, Aug. 22—The following weekly crop report has been issued by the Bank of Montreal:

**GENERAL.**

Wet weather during the past week has interrupted harvesting in the prairie provinces and rust is reported in Manitoba and Saskatchewan. These factors will no doubt affect the yield and grade in the district concerned. In other parts of the Dominion conditions generally are favorable. In Ontario harvesting is progressing rapidly and threshing is general. In Quebec conditions are favorable. In British Columbia the outlook is satisfactory and the weather is required. In British Columbia the drought has been broken although more rain is still needed. Details follow:

**MARITIME PROVINCES.**

In New Brunswick weather continues wet but the hay crop is heavy and generally of good quality. Indications of the potato crop are favorable. In Nova Scotia large hay crop of good quality practically harvested. Apple crop irregular and total estimates now about 1,400,000 barrels. In Prince Edward Island crop conditions generally favorable.

**As Hiram Sees It**

"Hiram," said The Times reporter to Mr. Hiram Hornbeam, "the frost will soon be on the pumpkin."

"Yes, sir," said Hiram, "it's a-comin'!"

"What have you done?" asked the reporter, "to justify Providence in letting you live another summer?"

"Well," said Hiram, "I's a good crop an' I paid my taxes."

"That's something," admitted the reporter.

"An' I told a feller that was rumpled down Noo Brunswick that he ought take the fast train," said Hiram.

"It's something more," said the reporter.

"An' I made up my mind that as long as I live I'd do nothin' I ever done afore to stick up fer these here Maritime Provinces an' what they have a right to get from the rest of the country. I'm s'ers they kin keep their boys an' gals home. We've all got to do that—an' let politics go to the doose—By Hira!"

**FRANKLIN SHIP RELIC RECEIVED**

**Museum Here Enriched by Part of Arctic Expedition Vessel**

**Other Articles From the Frozen North Among Gifts in Memory of James Duncan.**

The Natural History Society is rejoicing in receipt of a fragment of the ill-fated ship in which Sir John Franklin sailed upon his arctic voyage to discover the North West Passage in 1847. This historic treasure, rescued from the frozen north, and some other gifts including an Eskimo cooking lamp, a petrified walrus head and four fossils have been received from Miss M. M. Duncan of Charlottetown and are presented as the gift of her father, the late James Duncan, at one time customs officer at Dalhousie.

Mr. Duncan accompanied Captain Bernier on his arctic expedition in 1908 in the capacity of customs officer and on that expedition secured the fragment of Franklin's ship and discovered the cooking lamp near where the graves of Franklin and his explorers had been found.

The piece of the explorer's ship consists of a large slab of board, which appears to be walnut or mahogany and has protecting tarpaulin or weather strip overlaid between the outside planks. There is a small portion of the outside plank remaining in place and the nails on the large piece of board show where the other planks have been torn away. This historic relic is highly prized as an addition to the marine collection in the museum.

**THE EXPEDITION.**

Sir John Franklin was born in Lincolnshire in England in 1788 and in 1845 set out in the "Erebus" with Capt. Crozier in the "Terror" to discover a north west passage to the Pacific. The ships were last seen near the entrance of Lancaster Sound, and no traces of the party were found until 1851. Franklin, however, did succeed in showing the existence of a north west passage and his work on his expedition resulted in the discovery and exploration of thousands of miles of new land in the Arctic regions and of a second north west passage in 1850.

**ESKIMO RELIC.**

The Eskimo household utensil is in several fragments but Dr. William Macleod, curator of the museum is effecting a fine piece of restoration work, and will soon have it complete again. The utensil measures 18 inches in length, 12 inches in width and has a depth of eight inches. It is oblong but the sides narrow slightly at the top. It is thought to have been heven from solid soapstone and it is fairly heavy. So far as can be judged this simple contrivance has been an Eskimo's oil stove serving all the uses of the modern cooking aid. The large cavity was filled with oil and the wicks were hung over the side. Similar utensils of slightly different shape but fully as large were used by the Eskimo for lamps or, but it is believed the specimen which has now been given to the museum was more than a lamp. The petrified walrus head which is included in the gifts from the late James Duncan, was presented to Mr. Duncan by Professor Ganong, and is a very fine specimen.

**ASK \$2,000 FROM CITY FOR MEMORIAL**

Expected This Will be Outcome of Meeting Called For Monday Afternoon.

A meeting of the War Memorial Committee has been called for Monday afternoon at the Board of Trade rooms, and at that meeting the accounts will be closed. It is expected the committee will have to ask the Common Council for about \$2,000 in order to pay all the remaining bills in connection with the erection of the memorial. A notice published this morning was in error in stating the meeting was for this afternoon. It will be held on Monday afternoon at 4 o'clock.

**Three Estates In Probate Court Here**

Letters testamentary have been granted to Joseph B. Mooney in the estate of his father, Michael P. Mooney, who died intestate. The estate was probated at \$23,600. Powell and Mercereau were probators.

In the estate of Rebecca Mullin the will could not be proved and on the application of William Mullin, husband of the deceased, letters of administration were issued to him. The estate was probated at \$4,000 personally. J. D. P. Levin was probator.

In the estate of Mrs. Anne DePorter her last will and testament was probated and Miss Alice M. DePorter appointed executor. The estate was probated at \$7,440. W. H. Harrison was probator.

**Portrait and Flag Are Gifts to G.W.V.A.**

**The Business Side Of Your Marriage**

Many people when they marry possess nothing beyond their current wages. For such young couples the bonds of matrimony soon become the bondage of debt.

There is a business side of marriage; a budget system and a plan for regular saving are important.

How many times a year are you able to invest in a safe bond? That question should furnish the text for a lot of serious thinking.

The Chinese have a proverb which says: "If you wish to know the road before you, ask of those who have traveled it."

Ask any old man if it pays to save money when young. Ask any banker as to the best way to save and to invest.

Your Reason tells you—your Conscience tells you—that you may suffer later if you do not save NOW. "If you will not hear Reason," said Ben Franklin, "she will surely rap your knuckles."

Buy a safe bond—one bond each month—or one every three months—or on any regular schedule which is feasible.

And be sure you investigate before you invest.

Avoid the pitfalls and the losses so common to people of little financial experience. It pays to be conservative with your money. Buy the safe bonds which your banker recommends. Buy bonds regularly and thus build up an estate. Talk with your wife today about the business side of marriage.
