Falls From The New Bridge Across The Reversing Falls To His Death

Painter Plunges To Death From The Structure

Was Newfoundland Man Named R. Callaghan — First Serious Accident Since Bridge Work Commenced

While at work this afternoon on the new bridge over the reversing falls, one of the painters lost his balance and fell into the surging waters. Immediately the alarm was given, and in a very few minutes three or four boats were on the scene, with men scanning the water, but apparently without avail.

Up to 2:45 o'clock the body had not been recovered, nor did there seem any hope of getting it. It is not thought that the man came to the surface after once striking the water. This is practically the first serious accident which has happened to the men of the Dominion Bridge Co. since they started the construction of the bridge.

LATER R. Callaghan, a native of Newfoundland, was the man drowned. Little is known of him among the workmen there, but the company building the bridge has records which will furnish information concerning his family and other matters relating to him.

WATER WORK GIVING STEADY EMPLOYMENT TO HUNDRED AND FIFTY

One hundred and fifty men are being kept in steady employment by the water and sewerage department at present and this without encroaching at all on the work which has been mapped out as cold weather programme for the winter months.

WEATHER BULLETIN Issued by authority of the Department of Marine and Fisheries, R. F. Sturp, director of meteorological service.

Synopsis:—The weather remains very mild and showery in Ontario and Quebec and generally fair elsewhere. The temperature is rising again in the west.

Germans Make New Attempt To Hack a Way To The Coast

More Violent Fighting is Reported--Some Talk of Putting Fleet to Use--Russian Task Regarded as a Big One

London, Dec. 2.—The correspondent of the Daily Telegraph wires from Central France: "Once more the Germans have turned their faces toward the sea and are trying to hack their way to Calais and the coast. A new army has been brought up on the scene and a new road has been chosen, and it is rumored that the German fleet will not be idle.

"The failure of their efforts to reach the coast from the north is ascribed to two causes—the inundations, which overwhelmed and paralyzed their attacks, and the guns of the British ships, which devastated their exposed flank.

"The country between Ypres and Arras, is immune from these risks. There are no dikes to open, and no naval guns can reach it. Of what use, then, it may be asked, is the German fleet?

"To prevent reinforcements coming from England? This, I think, I imagine, is nothing but a bluff, though the presence of German submarines in the English channel and German air raids on the coast are evidences that the Germans have been maturing plans behind the screen they have drawn in Flanders."

FIGHTING NEAR YPRES London, Dec. 2.—Telegraphing from West Flanders, the correspondent of the Daily Mail says: "Heavy fighting has begun near Everdinghe, northwest of Ypres, after the longest pause during the war. Promiscuous artillery fire by the Germans has been resumed at Ratscapelle and Fersyve."

PARIS OFFICIAL REPORT Paris, Dec. 2.—The French War Office gave out an official announcement in Paris this afternoon as follows: "In the region to the south of Ypres and Saint Eloy an attack of the enemy against an intrenchment taken by our troops during the day was repulsed by us. Our artillery inflicted damage on a group of three batteries of heavy artillery of the enemy."

"A Vermelles the chateau and the park surrounding it, two houses in the village and some trenches were brilliantly occupied by our forces. There has been a spirited artillery exchange in the vicinity of Fay, to the southwest of Peronne."

"In the Argonne a German attack against Fontaine Madame was repulsed and we made some progress in the occupation of a trench in the forest of Courtes Chousses and a minor fortified position near St. Hubert."

"On the heights of the Meuse, in the Voivre district, and in the Vosges, there is nothing to report."

HARD WORK FACED BY RUSSIANS. London, Dec. 2.—The Times Petrograd correspondent says there is still no definite decision in Poland, but that the Germans, while making desperate efforts to reinforce their army, which he believes can be done only from the Franco-Belgian theatre, are holding their positions facing Lodz and Lodze despite the awful climatic conditions. In Petrograd, he adds, there is no disposition to underestimate the magnitude of the task still before the Russians.

According to the view held in military circles, he says, the situation is one of extraordinary and unprecedented importance. Nothing like it in respect to interest and even danger, he concludes, has presented itself hitherto, and all the indications point to the maintenance and even an increase of the present tension.

WARSHIPS STOP GERMAN'S VISIT New York, Dec. 2.—A special cable to the Herald dated "On the Belgian frontier, Tuesday," says: "The bombardment of Zeebrugge and vicinity yesterday by the allied squadrons, caused another cessation of the activity of the German naval brigade, which last week had resumed the work of equipping the Zebrugge harbor as a naval base for operations and a depot for a large quantity of their stores."

SEE GOOD OMEN IN KING'S VISIT New York, Dec. 2.—A Paris cable to the Herald says: "The report comes from good authority that King George is to meet President Poincaré. There is the greatest satisfaction over the King's visit, in fact, it is the only topic of conversation among Parisians, who consider the optimistic tone of Field Marshal Sir John French's despatches, and King George's trip, as good omens."

"King George yesterday went to the base hospital, containing British, Indian and German wounded in France."

Prince's Fund \$20,000,000. London, Dec. 2.—The Prince of Wales fund for national relief today reached the total of \$20,000,000.

Belgian Prince's Son Killed. London, Dec. 2.—Telegraphing from Amsterdam a Reuter correspondent says that one son of M. de Broqueville, the Belgian premier, has been killed in battle, and it is rumored that a second son also has lost his life in action.

Germany's Wounded. London, Dec. 2.—It is reported that the American hospital at Munich already has had more than 6,000 patients, although it can accommodate no more than fifty. The daily stream of German wounded surpasses all the estimates yet made.

Servians in Serbia. London, Dec. 2.—In a despatch from Sofia, Bulgaria, the correspondent of Reuter says that reports indicate that the situation in Serbia is critical. The Servian army, it is declared, has been withdrawn from Belgrade, and telegraphic communication between Belgrade and Nish, the present location of the capital, has been interrupted.

Left All to Wife. Winnipeg, Man., Dec. 2.—The will of Hon. Colin H. Campbell, dispose of an estate totalling \$248,000, inclusive of \$140,000 life insurance. All goes to the widow.

RECOMMENDS \$800 RETIRING ALLOWANCE A YEAR FOR CHIEF Commissioner McLellan to Submit Police Matter to Common Council at Today's Meeting

A superannuation allowance of \$800 a year for Chief Clarke will be recommended by Commissioner McLellan at the meeting of the Common Council this afternoon. If the report of the investigation into the affairs of the police department, conducted by W. B. Chandler, of London, Ontario, royal commission, is not taken up by the council, otherwise Commissioner McLellan will submit the copy of the report which was sent to him. With the report he will submit one of his own recommendations, that the chief be retired on half pay, the usual standard for superannuation.

BRITISH RULE BEST FOR EGYPT

An interview with Rushdi Pascha—Tribute to Kitchener as Soldier and Statesman

London, Dec. 2.—The Cairo correspondent of the Daily Telegraph cables an interview given to him by Rushdi Pascha on the advantages of British rule in Egypt. "England is the natural protector of Egypt on many grounds," said the prime minister. "Her prominence in Egypt assures her that that great highway to the east will be kept open. Her control safeguards the European financial interests in Egypt, and to us it means the integrity of our territory."

"An enormous majority of Egyptians appreciate Great Britain's work, and on every ground would greatly regret a break in England's interest in the country. We shall have more hope of realizing our ambitions to become an important state if we work under England's guidance. No other power could help us in the same way."

"Rushdi Pascha spoke in warm terms of Lord Kitchener's work in Egypt and expressed the hope that when the British secretary of war's task in England was finished he would return. The Egyptians would be most happy to have Lord Kitchener back."

"One does not expect great soldiers to be killed," said Lord Kitchener, his reply, "but his clear-sighted policy in Egypt to be a statesman of the first rank."

ICE PIERCES CANOE; FOUR MEN DROWN IN A QUEBEC LAKE

Quebec, Dec. 2.—When heavy ice, shoved by a strong gale, ploughed their canoe in four places, early this week, the four men perished in the ice. The canoe was in the Lake of Sept-Îles in the Shawinigan district above Three Rivers. Among the dead was Lawrence Page, a contractor for the Great Falls Lumber, Pump & Paper Company of Three Rivers, a former Montrealer.

Page perished with the three other men, guides and helpers, Philip LaPresiere, aged fifty; of Steile; Frank Chote of Shawinigan Falls, and John Berthelme of St. Mathias, aged fifty, and married.

WOULD SHUT DOWN THE SALE OF LIQUOR FOR WINTER AT 6 O'CLOCK

Moosajaw, Sask., Dec. 2.—W. B. Willoughby, opposition leader in Saskatchewan, announces that he would support the government in closing all bars, wholesale liquor stores and clubs at six p. m. during the war.

RUSSIA TAKES CHARGE OF COMMERCIAL MATTERS OF ENEMY IN CZAR'S DOMAIN

Petrograd, Dec. 2.—An imperial ukase authorizes the finance minister to take control of the expenditures and receipts of societies, companies and enterprises founded or operated in Russia by subjects of Germany, Austria-Hungary and Turkey.

It expressly prohibits, without the special authorization of the minister, the payment, delivery or transfer of any ready money, papers of value, silver, gold plate and precious stones that may be owned by subjects of the countries mentioned.

WIRELESS PLANT HIDDEN IN RIGGING OF GERMAN VESSEL

Berlin, via London, Dec. 2.—The minister of the colonies announces that the German merchantman Preussner is now in the harbor of Sabang, Dutch East Indies, having been confiscated. The captain is being prosecuted because, although the vessel was not provided with a wireless apparatus, he maintained a secret wireless plant hidden in the rigging of the vessel which was operated from the officers' cabin.

Sent Back From Salisbury Pain; They Reach St. John

Thirty-five or Forty, Practically All Foreigners--Local Military Keep Guard at Wharf and Steamer

Two squads of red-coated soldiers with bayonets fixed guarded both ends of the wharf in front of the McCleod warehouse, where the Donaldson Line steamer Cabotts docked at noon today from Glasgow. Another squad, stationed at the foot of the gangway, prevented access to the steamer through the warehouse. The reason for the careful guarding of the steamer was that she brought, besides her cargo of general freight, several men who, it is said, had been rejected from the Canadian first contingent now at Salisbury Plain.

On account of the fact that it was not possible for outsiders to board the steamer and the representatives of the Donaldson Line were loath to give out anything about the matter, just who the men aboard are could not be learned, but it is understood that they are all foreigners. It is even said that two of the men are Turks who left before Turkey became mixed up in the European conflict.

When the steamer docked the men were gathered on the bridge deck and there appeared to be about thirty-five or forty of them. Mostly all bore a foreign appearance. Just what is to be done with them is a matter of conjecture, as there is a doubt of their being allowed to land here by the immigration authorities. The immigration men were on the steamer for quite a while this morning. There is a possibility of the men being sent to Halifax and detained there until a decision is reached as to their disposal. A large crowd of people gathered about the wharf.

TODAY WITH THE LOCAL SOLDIERS The Sending of More Men--Some Hardships in "Weeding Out"—Bear Mascot Not Allowed to go to The Front

Local officers are for the most part somewhat perplexed as regards the meaning of the statements credited to Major Hughes in Ottawa yesterday as to the sending of 81,700 more men from Canada. While it is not made plain, it is understood that these men will form a third contingent. Nothing definite has been said as to when the second contingent or any portion of it will be sent across to the other side but the feeling is that it will be at least a month, and possibly longer. It is felt that it will be easily possible to secure the number spoken of by the minister of militia, but instructions to recruiting or commanding officers here do not make it clear as to whether there are to be further additions to the service from these parts or whether there will be no further mobilization of men for any branch in the second contingent. There is still no further announcement of appointment of local officers.

The Cavalry. The first definite announcement concerning the provision of cavalry for overseas service was made by Major General Hughes yesterday and unless there is a revision of the advice, the maritime provinces will be asked to furnish one full regiment. The belief is that this can easily be mustered in the three eastern provinces, in fact it is felt that one regiment could be secured in New Brunswick alone. Early in the year the 28th Dragoons and the 8th Hussars volunteered for service as units and the majority of them are still at home ready to sign.

Still Weeding. The process of elimination is about ended at the army among the men of the 26th Infantry Battalion. Because of the remarkable surplus of volunteers it was possible to select men most fitted from every viewpoint for service and the result is a regiment that it is felt will be without a peer in the dominion. There are many disappointed ones among those rejected, and likewise there are some out of pocket because of the weeding out. For instance one volunteer on being accepted some days ago said his

brun must go. The 26th battalion must get another mascot. Little "Peasants" the cub bear, brought from the North Shore by a squad of recruits from the vicinity of Campbellton, will not be taken across the ocean with the regiment. He has been petted and caressed by all the members and has become a general favorite, but experience has shown the department that taking such animals has necessitated considerable attention to them and if mascots are to be taken, there must be of a different species. The owner of "Peasants" is looking for a buyer.

Hard at Work. The members of No. 7 Co. Army Service Corps under Major Fred McKean, are actively working on the wharf in West St. John, which Captain Wickwire is on duty there now. Lieut. A. G. Itzinger went out early this morning. Continued on page 2, fifth column.

Turkey and "Fixins" For Soldier Boys in St. John

Women's Canadian Club Have Arrangements Under Way--Some of The Items

The Women's Canadian Club are arranging to provide turkey, plum pudding, cranberry sauce and cranberry sauce for at least 2,000 soldiers in St. John on Christmas Day. Before taking action in the matter, Mrs. Kuhring, president of the club, communicated with Hon. Mr. Hazen, inquiring whether any special provision would be made for the men's Christmas. A reply was received from the deputy minister of militia, stating that no such provision would be made, and heartily approving of the action proposed by the club. The executive of the club met in the armory this morning. They were shown over the place, and report that the soldiers are served with excellent food, well cooked. It will be possible to cook the Christmas turkeys at the armory without difficulty. Very few, if any, of the soldiers will spend Christmas at home, and therefore the day should be made as pleasant for them as possible. The tables will be spread in the main hall and there will be some decorations.

The Women's Canadian Club will be very glad to have the co-operation of the people, not only in the city, but in various parts of the province from which recruits have come. They ask that any who desire to assist, send a post card with their address to Mrs. A. R. Melrose, 54 Orange street, stating what they can send; if a turkey or plum pudding, naming the weight, and of pudding, cranberry sauce, stating the size of the bottle. The turkeys should be dressed and stuffed ready for the oven. The men at the armory will prepare the dinner and serve it. It is said that there will be required 120 turkeys ready for roasting, 700 pounds of plum pudding, 100 quarts of cranberry sauce, 300 quarts of pudding sauce, and to this may be added ginger ale, fruit and confectionery.

The executive of the Women's Canadian Club would be glad if newspapers in other parts of the province would tell their readers about this dinner, and a member suggested to The Times that citizens of St. John would be doing a kindly act if they would send that the soldiers were supplied from time to time with a few barrels of apples.

NEW YORK OBSCURED BY THICKEST FOG IN 15 YEARS

New York, Dec. 2.—A fleet of fifteen ocean liners rocked at anchor in a heavy sea today, at the entrance to New York harbor, fog-bound in the thickest mist that has blanketed this section of the eastern coast for fifteen years. The Hudson River steamer did little more than drift with the tide, so thick was the fog. Service to Albany was badly crippled; service to Boston was totally paralyzed. The half million commuters that come daily from New Jersey, Long Island, and nearby New York state points, were delayed from half an hour to an hour

**NO MORE GRAY HAIR!**  
FINE NATURAL COLOR

Brought Back by Interesting New Discovery — Dandruff Killed

Ladies!—you whose youthful bloom is fast disappearing before the attacks of premature gray hair—why don't you bring back the faded strands to the color they were when you were 20? Science has made it easy—yes, and most certain and positive. All you need to do is to get a bottle of **Hay's Hair Health**. This refined and dainty preparation, which is found on the toilet tables of the most particular ladies in the country, applied to the hair easily, quickly and without fuss or annoyance—just as you would any other hair dressing. From the very start a remarkable change takes place—gradually, but surely. The gray and faded hairs, acted upon by the oxygen in the air, come back to the fine, brilliant dark color they were originally. Hay's Hair Health is not a dye. Its action is positively harmless. It does not irritate the scalp, which should be welcome news to the multitudes of men and women who fear dyes because of their known harmfulness.

Any one who wishes to do so may try it at the risk of the manufacturers. **Philo Hay Company, Newark, N. J.** Simply get a bottle from your druggist—25c, 50c, or \$1.00, and if you are not satisfied, the price will be returned.

**London's Beauty Writers**  
Weekly Selections from Noted Beauty Experts Writing for the English Press. Simple and Effective Methods.

By **OLGA AMORRELL**, Special Correspondent, London, Eng.

Each week in this department I will endeavor, by carefully clipping from the London papers, to keep my Colonial readers informed on the latest and best advice of the London beauty experts. Owing to the persistent demand most London news papers and periodicals are now devoting much space to the serious consideration of beauty culture. Many of them employ high salaried and instructed methods most efficient for the purpose of advising and instructing the readers of the paper. From the Canadian chemists or druggists, so get them. Look out for their hints next week. I shall endeavor to keep right up to date.

**Shampoo and Hair Beautifier.**  
You complain of brittle, faded hair. You will find that keeping the scalp clean and healthy is the most effective way to restore the natural beauty and softness. In selecting your shampoo avoid those of mixtures containing "free alkali." By dissolving a teaspoonful of stannic in a cup of hot water you will have a mild, soothing, cleansing mixture that makes the head feel fine and removes all dust, dandruff, and excess of oil, leaving the scalp clean and pleasant, and ensuring a beautiful growth of long lustrous, curly hair.

**Don't Shave Off Superfluous Hair.**  
Hair on face, neck or arms should never be shaved or clipped off, as that encourages its growth. The most effective method of removing it is to use a depilatory. Since the hair will grow again, it is better to use a depilatory than to shave. The depilatory is a cream which is applied directly to the affected surface. When this is removed in two or three minutes the hair will have vanished completely, leaving the skin quite smooth and soft. **For Falling Hair.**  
How often one hears the lament, "I have tried everything on the market, and my hair comes out in handfuls." Not so surprising either when you come to think it over. Hair tends to be effective most when it is treated with the most effective remedy. Every woman should not make her own lotion at home. The finest vegetable tonic I know of is made by mixing a packet of **borax** with 1/2 pint of water and adding sufficient water to fill a half-pint bottle. This lotion rubbed briskly into the scalp sets the hair roots tingling with new life, and will, if persevered with, give you back your "crowning glory."

**Invincible Face Powder Substitute.**  
Face powder frequently is neither invisible nor harmless. Not only can you

Use it sticking out sideways, but its daily use is apt to coarsen the skin. It is more satisfactory to use a simple lotion made by dissolving a ounce of **borax** in four table-spoonsful of water. This serves every purpose of powder and has the advantages of being invisible, non-injurious and more lasting. When the face becomes moist with heat or exertion, the lotion still clings, the skin appearing soft and peach-like all day long or all evening. The lotion is applied with the finger tips.

**Supersensitised Hot Curling Iron.**  
Straight hair is becoming to be a few women and there's no cause for anyone looking homely and unkempt on that account. The smaller the curl the more the curling iron because of the damage it does by drying and breaking the hair will be glad to hear that plain liquid will produce a far better and more lasting effect without any injurious result whatever. If just a small quantity be applied to the hair, a really curly and natural wave will be produced in the morning, with no sticky or greasy reminder of the powder employed. A couple of ounces of liquid **aluminum**, obtainable at any druggist, will prove a welcome addition to many a dressing table.

**Capitulate Eyebrows and Lashes.**  
Those who would have luxuriant, dark, silky eyebrows and lashes, will be surprised at the results from applying a few drops of **aluminum** to the eyebrows. Being perfectly harmless, no one need hesitate to try it. The smaller the hair the better carries will do, so little of the marmaline being required. It should be stroked into the eyebrows from the roots outwards, applied to the lash roots with thumb and forefinger.

Worcester Pastor Asks Police for Protection—Life Made Miserable.

Worcester, Dec. 2.—Rev. Frederick Nicholson, pastor of the First Spiritual Church, has appealed to Chief of Police George H. Hill for protection against love-sick maidens and scheming mothers. For weeks, he says, they have made life unbearable for him by love letters, telephone calls and personal visits.

To substantiate his complaint Rev. Mr. Nicholson turned over a chief Hill a large package of letters, a door key and other things received by him recently. The police visited one home and advised that the attentions to the pastor should cease.

Rev. Mr. Nicholson last night emphatically denied statements that he had married a young Worcester girl, performing the ceremony himself. He said that his stories are circulated by people formerly associated with him in his work, but who now desire to project a spirit of animosity in his flock.

He refused to affirm or deny that he had appealed to the police once before for similar protection.

Sir Donald Mann, in an interview in Toronto, predicts that the new ocean-to-ocean line of the Canadian Northern will be completed by the end of the year, whether the war continues or ceases. There was no good reason, he said, why delay should be permitted. The last yard of trackage will be finished in January, it is expected, at a point in British Columbia, where large forces are now working. The weather conditions will prevent further ballasting until spring, when this final process will be rushed to completion.

**PIMPLES APPEARED ON HIS FACE AND HANDS.**

The primary cause of pimples arises from the blood not being in a good condition. When the blood becomes impure you will find that pimples will break out all over the body, but more particularly on the forehead, nose and chin, and although they are not a dangerous trouble, they make you appear uncleanly both to your friends and yourself. What you need, when these pimples break out, is to get a real good blood purifying medicine such as Burdock Blood Bitters. One that will build up the system by cleansing the blood of all the impurities and poisons which cause the skin to break out in these eruptions.

Mr. F. A. McKenzie, Portage La Prairie, Man., writes: "Last summer I was all run down and unfit for work of any kind. All kinds of food seemed distasteful to me. Pimples appeared on my face and hands, and I seemed to grow worse every day. One day a friend advised me to try Burdock Blood Bitters. Halfheartedly I did so, and the results obtained were marvelous. I regained my health, I took on flesh, and in a short time the pimples and skin eruptions disappeared entirely; thanks to the healing powers of B.B.B. I freely recommend it to all sufferers."

B.B.B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

**86 Pages of Personal Advice Free to Any Man**

MY DEAR READER,

In the handsomely printed little book or private pocket compendium for men (containing 8,000 words and 40 half-tone photo-reproductions), which I publish and gladly forward by mail, free, sealed in any man anywhere in the world who sends me the coupon below, I have included certain parts that contain some very important advice or suggestions of a strictly private nature which, I believe, cannot be found in any of the Private Hygienic books for men that are now sold at high prices all over the country. It will thus be seen I have covered these little free books have now been sent to men who wrote for them, as I want you to do, and who live in all quarters of the globe. I publish this free book in English, Swedish, Danish, Finnish, German, French and Polish, but I always send the English edition, of course, unless otherwise instructed. Kindly use the little coupon.

**SANDEN, AUTHOR.**

In reference to my strength, I believe it is now most generally acknowledged that never before has the manly man stands back of all achievement in the world—a truth which any of us can easily verify if we but look about us with impartial eyes.

As a matter of fact, the man who is debilitated, unstrong and unenergetic cannot, for perfectly obvious reasons, expect to approach those real and masterful attainments which seem but a natural and easy accomplishment for him whose nerve force, brain power and manly strength are perfectly normal. Hence, while we acknowledge the debilitated, weakened man to be handicapped in every walk of life where real manhood counts, yet it would indeed be cruel of me to have so state the fact in public print were I not of the honest opinion that there is every hope for the unmanly man to restore himself to a state of health and vigor, if he but clear his mind of abnormal fear, and then make a fair, square effort to redeem himself.

There are two specimens of humanity for which I have no earthly use. One is the man who, though now strong and vital, yet plunges into dis-

Manly, Vigorous Men Rule the World

sipation and excess with the certain knowledge of his unmanly fate. The other is the man who, though knowledge of his debilitated and enervated, makes no effort to get away from his life of dissipation and wrong practices. As a matter of fact, there is no hope for either of these unfortunates. But for him who acknowledges his errors, who may come to me and say, "I have paid the penalty of my past follies, but I am THROUGH with my life of dissipation, and I am going to make a manly effort to restore myself to such a man, I care not what his physical condition may be. I can say in all truthfulness, "You, my friend, are the man who I desire to help. I desire to aid just such men who seek manly strength. I am not offering this VITALIZER here for sale, but merely suggest that you, reader, take opportunity to learn all about what this little appliance is doing today everywhere throughout the world, and in the future you want to use yourself and will so write me. I will gladly make some liberal proposition if you will. Write me at once. VITALIZER is fully described in one section of the free book which the coupon below entitles you to.

The VITALIZER is made up in a very light form, weighing only several ounces, and you wear it on your body all night. It generates a great, pleasant FORCE which I call VIGOR and which flows in a continuous stream into your nerves, organs, blood and muscles while you sleep. I am satisfied in my own mind that I have access to a great POWER in this little VITALIZER which in the future will be more relied upon all over the world in the treatment of debilities and nerve weakness.

With special attachments which carry the FORCE of the VITALIZER to any part of the body, it may be used by women as well as men for the treatment of rheumatism, kidney, liver, stomach, bladder disorders, nervousness, lack of energy, etc. Therefore, please send for the book today, or if you happen to live in or near this City, I should be very happy to see you in person. Office hours 9 to 5.

**WHAT THE FREE BOOK TEACHES YOU**

The little free illustrated book of special private information referred to above, is meant really to be a self guide for all men through the years before and after marriage and onward to a ripe old age. It is written in perfectly plain language, entirely free from technical terms, so that any one may easily grasp the full power of its good advice from two or three careful readings. It attempts to point out a safe road to new manhood or new manly strength, and as such is dedicated to mankind generally. One part of this book fully describes my little VITALIZER referred to above.

Remember, as soon as the coupon below is received I agree to forward to you one copy of this illustrated booklet, absolutely free of charge and in a plain, sealed envelope, so that it will come to you privately, just as you receive any sealed mail.

THE WAR NEWS

The tremendous struggle in Poland continues to be the chief subject of discussion in relation to the progress of the war. Today's despatches show that in the view of military observers, the outcome of the battle between the great Russian and German armies will have a far-reaching effect upon the fortunes of the whole war.

THE THIRD CONTINGENT

The minister of militia announces that 81,700 men are to be recruited, in addition to the second contingent now being mobilized. The third contingent will include nine regiments of cavalry and nineteen of infantry, besides the army engineers, signalers and cycle corps.

AFTER FOUR MONTHS

We have entered upon the fifth month of the great war. Those who predicted that it would be over in three months are now able to see how little they really knew of the situation. Those who predicted that it would end in six months now perceive how ill-founded their estimate was.

Lord Kitchener has continually asked for men and more men, so that the allied armies in the field may attain if possible such a numerical superiority as will enable them to drive the Germans back and pursue a victorious campaign in Germany itself.

There is a correspondent in Copenhagen who has a very lively imagination. One day he sees the German fleet rushing out of the Kiel Canal to capture St. Petersburg, and the next day he sees it steaming into the North Sea to destroy the British navy.

Newfoundland, which sent 540 men with the first contingent to Salisbury Plain, is recruiting another 500. This is in addition to the contribution of men for naval service.

More officers than were needed went with the first Canadian contingent. Some of these are now needed in connection with the second and third contingents. There is also a shortage of officers in the Mother Country, and an effort is being made to get ex-officers to rejoin the colors.

There are three squadrons in a regiment of cavalry, which comprises a little over six hundred men. The maritime provinces, therefore, are to provide a little over six hundred cavalrymen, besides a little over one thousand infantrymen for the third contingent.

One hesitates to believe that there are enough men in Caledonia county so lost to a sense of right and justice as to make it possible for Hon. J. K. Fleming to be nominated as a candidate for any political office in the gift of the people. If his services should be able to pack a convention and secure for him a nomination as the candidate of the Conservative party in the next federal elections, it could only result in his overwhelming defeat at the polls.

It is gratifying to know that friends of good government from all parts of the province will be in Fredericton tomorrow night and on Friday, to pay a tribute to the services rendered this province by Messrs. Dugal and Carvell, and to consider matters relating to better government for New Brunswick, which has been made imperative as a result of the exposure of the scandalous acts of the Fleming administration.

It appears that the Liberal party is still in power in Canada and has been in power since 1911. The St. John Standard says: "The responsibility for Canada's non-participation in the naval defence of the Empire rests with the Grits and the Grits alone."

London, Dec. 2.—A Tokio despatch to Reuter's reports a serious mine disaster in Hokkaido, the northernmost of the main islands of Japan. It is said that 497 miners are dead.

ANOTHER PHASE IN THE HISTORY OF THE ALFRED DICKIE LUMBER AREAS SAYS A HALIFAX DESPATECH:—Another phase of the history of the Alfred Dickie lumber areas in Nova Scotia is written in the formation of the Halifax Lumber Company with a capital of \$750,000. This company will take over the lands from the Royal Bank of Canada as a holding and leasing corporation. Some time ago a mortgage on these lands, given by the Maritime Lumber Company to the Royal Bank was foreclosed and at the sheriff's sale the property of 800,000 acres was sold to the representative of the Royal Bank. While this was the price at which the lands were handed over at the sale, it is well known that the areas are worth quite double the capital of the company. In the present financial conditions nothing can be done to turn the areas into cash, but there is little doubt that when financial conditions improve the bank will be obtained. The areas are on the southern shore of Nova Scotia, east and west of Halifax.

The Joy of Good Health Is Now Experienced Nervousness, Dizzy Spells and Sleeplessness Are Now a Thing of the Past. This is a cheerful letter from Mrs. Peacock, and should bring joy to the heart of many a reader of this paper. Dizzy spells and sleeplessness are symptoms of an exhausted nervous system. I began using Dr. Chase's Nerve Food, and can say that this medicine did me a world of good. It entirely freed me from the symptoms stated above, built up my health generally, so that to-day I feel: "at I am quite well again." In a more recent letter Mrs. Peacock writes:—"Dr. Chase's Nerve Food has done me a world of good, and I would be pleased to tell everybody so." **THE PEASANT BRIGAND WHO FOUNDED PRESENT RULING HOUSE OF SERBIA**

King Peter of Serbia is the grandson of "Karageorge," Turkish for "Black George" (in Serbian "Tarni Djordje"), the leader under whom Serbia first achieved independence from Turkish rule. Karageorge was born in 1766, the son of a poor Serbian peasant, Petronije Petrovich. "When quite a young man," says the Encyclopaedia Britannica, "he entered the services of a renowned Turkish brigand, Fazl-Bey by name, and accompanied his master on his adventurous expeditions. When twenty he married and started a small farm."

Having killed a Turk, he left Serbia, afterwards saw service in the Austrian army against Turkey, then deserted his regiment and returned to Serbia, "living sometimes as a peaceful farmer and sometimes again as the leader of a small band of 'hayduks'—men who attacked, robbed and in most cases killed the traveling Turks in revenge for the oppression of their country."

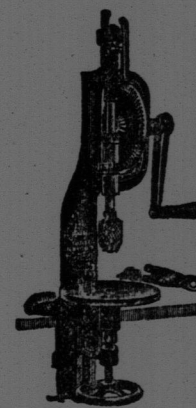

Soon after the Serbians had risen against their oppressors, early in 1804, Karageorge was elected "as the supreme leader (Vrhovni Vozd) of the nation. Under his command the Serbians speedily cleared their country not only of the janissaries disloyal to the Sultan, but of all other Turks, who withdrew from the open country to the fortified towns." As a result, the Serbians for a short time, until the autumn of 1813, govern-

ed themselves as an independent nation, afterwards again falling under the dominance of Turkey.

"Karageorge was one of the most remarkable Serbians of the 19th century. No other man could have led the bands of undisciplined and badly-armed Serbian peasants to such decisive victories against the Turks. Although he never assumed the title of prince, he practically was the first chief and master (gospodar) of the people of Serbia. He succeeded, however, not because he was liked but because he was feared. His gloomy silence, his easily aroused anger, his habit of punishing without hesitation the slightest transgressions by death, spread terror among the people. He is believed to have killed his own father in a fit of anger when the old man refused to follow him in his fight to Hungary at the beginning of his career.

"In another fit of rage at the report that his brother Marinko had assaulted a girl, he ordered his men to seize his brother and to hang him there and then in his presence, and he forbade his mother to go into mourning for him. Even by his admirers he is admitted to have killed by his own hand no fewer than 125 men who provoked his anger. But in battles he is acknowledged to have been always admirable, displaying marvelous energy and valor, and giving proofs of a real military genius. The Serbians consider him one of their greatest men. In grateful remembrance of his services to the national cause they elected his younger son, Alexander, in 1842, to be the reigning prince of Serbia, and again in 1903 they chose his grandson, Peter Karageorgevich (son of Alexander) to be the king of Serbia."

**RUSSIAN GREEN CHIFFON BLOUSE**

An exceptionally rich appearing separate blouse in Russian green chiffon suit over liberty satin and trimmed with embroidery.

The newest blouses are shown in summer colors, yet they are so cleverly developed that they are unusually rich in effect. Russian green chiffon cloth is used to make this smart model. It is built over dark green liberty satin. Front and revers are trimmed with embroidery, but plain scrub batiste forms the bare collar.

For the development of the waist 2 1/2 yards of 44-inch chiffon are needed, with 1 yard of 36-inch batiste for the standing collar.

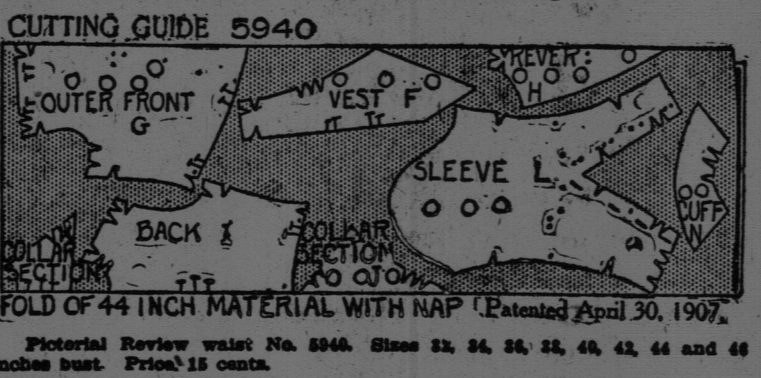

Chiffon requires careful handling and sharp scissors should be used when cutting. Fold the material; then arrange along the lengthwise fold the collar section and back. Close to the fold,

but on a lengthwise thread, place collar section marked "J." Now, on the rest of the chiffon, also on a lengthwise thread lay the outer front, vest, sleeve and revers.

Make and fit the satin lining. For the outside gather between double "TT" perforations. Close seams as notched. Underface front from front edge to 1 inch inside of single small "o" perforations and stitch lower edge. Adjust revers under front, bringing single large "O" and double small "oo" perforations to corresponding perforations in front, notches at shoulder edges even, stitch shoulder and back edges of revers to position, roll back as illustrated. Adjust vest underneath front, stitching shoulder edges together, notches even. Large "O" perforations indicate center-front. Join collar sections as notched, sew to neck edge of back, and to front edge of vest, notches even. Gather front and back between double "TT" perforations and two inches above. Arrange on lining, centers and under-arm seams even; stitch lower edge together, bringing small "o" perforation near front edge of outside to large "O" perforation in lining. Stitch back edge of vest along line of small "o" perforations in lining front, easing fullness in vest between double "TT" perforations. Front of plastron indicated by large "O" perforations; close back seam, sew to lower edge of waist, centers even.

Finish long sleeve, bringing slot to double small "oo" perforations, stitch, leaving edges free below single small "o" perforation. Close seam as notched, sew flare cuff to long sleeve as notched. Close seam of turn-back cuff as notched, sew to short sleeve, double "oo" perforations even, single small "o" perforation at sleeve seam. Sew sleeve in armhole, seam at notch in front, easing in any fullness.

This blouse is also very handsome made of purple chiffon. In black it is ideal for mourning wear.

**Hints for the Cook**

**Twin Mountain Muffins**  
One-fourth cup sugar, 1/4 cup butter and 1 egg well beaten, 1/2 cup sweet milk, 2 cups flour with 2 teaspoonfuls baking powder. Cream the butter and sugar, add egg, add milk alternately with the flour and baking powder. Bake in hot greased pans upon a muffin rack about 25 minutes.

**Buttermilk Biscuits**  
One pint of bread flour, 1 teaspoon soda to sweeten the buttermilk; after that use 1 teaspoon of soda and 2 of cream of tartar. Rub in a piece of butter size of an egg, and mix to the consistency of any biscuit. Rub a little melted butter over them before baking.

**Cheese Relish**  
One pint of grated cheese, 1 pint of sweet milk, 1 pint of bread crumbs, 2 eggs, 1/2 nutmeg grated, 1 teaspoonful salt and 1 tablespoonful of butter. Beat the eggs well, turn them into a granite steppan. Stir in them the grated cheese, crumbs, nutmeg and salt. Scald the milk, add the butter to it, and turn over cheese mixture. Stir well, and set in a warm (not hot) oven for three hours, stirring occasionally. The cheese should melt but not cook.

**ADVERTISING APPLES**

(By Peter McArthur.)  
Now that the apple season is coming to a close, so far as the producers are concerned, it is quite fitting that we should review what has been done in the way of advertising our premier fruit and suggest what may be done along this line in the future. For the first time in its history the government has appropriated money to educate the consuming public to the use of apples and has widely advertised through the public press the value, virtue and charm of our best fruit. This is admirable as a beginning but if the apple is to come to its own it must be advertised with more subtlety. Apples and suggestions regarding apples must be with us at all times.

The producers of citrus fruits have left no stone unturned to make people know about their products. I even suspect that it was some shrewd advertiser among them who made orange blossoms fashionable for the adornment of brides. Whether it was or not there is a great opportunity for someone to score heavily by inducing Canadian brides to provide themselves with apple blossoms in future. There is no sound reason why they should not do this, for as a symbol of purity the apple blossom is just as virginal as the orange blossom. Why, when you come to think of it, we have the Maiden's Blush apple and what could be more appropriate for a bride than its blossom? If forests could be induced to keep a supply of apple blossoms on hand, and I understand it can be done by forcing cuttings in greenhouses, and if some of our society leaders would give the scheme their approval we need not have a wedding in all the land without apple blossoms and the bride would incidentally advertise our apples. Moreover, what could be better than to advertise our apples to brides who are just about to begin housekeeping and who would immediately become buyers of apples? The horticultural society could not do better than offer to provide apple blossoms at all seasons to prospective brides. I offer them the suggestion freely and hope they will have the gumption to act on it.

We should also subsidize our artists to paint pictures of apples and to introduce them into their designs. Their decorative value has been recognized since biblical times for we are told of "Apples of gold in pictures of silver." Then look at their colors—you can have any tint you choose from pearl to chrysopease and from gold to cinabar. Our poets have already sung the beauties of apples to some extent, but they should be induced to put more steam into their work, possibly by sending them barrels and boxes of apples to eat out their spare diet. And I am sure that if our musicians once listened to the wind in the apple trees they would give us the music of apples.

If statisticians would only give their attention to apples they could no doubt produce wonderful facts about them. Though I am not much of a hand at figures I have estimated that the apples in one barrel, if laid side by side, would make a mouth watering display sixty feet long. If all the apples produced in

Canada could be laid side by side they would extend from the Atlantic to the Pacific. There is no end to the curious and appetizing facts that could be produced in this way to convince people of the importance of the apple industry.

And our country members of parliament could help in other ways than by inducing the government to spend money in advertising apples. They should carry apples in their pockets to give to prospective voters and I am sure they would be more popular with the babies if they gave them apples instead of offering in quantity for corrupt purposes I would not object much.

As you can see, there is no end to the clever ways in which apples could be advertised if we went at the problem earnestly. These suggestions are offered to the Fruit Branch for what they are worth—or less.

**uffered Intense Pain in Her Back. could Hardly Do Her Housework.**

If a pain attacks you in the back "stop it!" what it is and what causes it. If the kidneys are at fault—and in a majority of cases of pain in the back they are—doctor them at once. I doctor them persistently, as it is possible to have a well trained back as the kidneys perform their functions properly.

Joan's Kidney Pills cure all forms of any trouble, and cure them to stay.

Mrs. H. F. Jacob, Lavant Station, writes: "I take pleasure in telling how much good your medicine has done for me. I had suffered from intense pain in my back, and was so bad I could hardly do my housework. My pains were also bothering me a great deal. I tried several kinds of patent medicines, and was almost discouraged, was looking for some other kind of medicine to try when I noticed your advertisement of Doan's Kidney Pills. I thought it could not hurt to try. I noticed a great difference when I used one box, and to my great joy when I had used three boxes I was cured, and I have not been here since. I will not hesitate to recommend them to all I know."

Joan's Kidney Pills are 50c. a box, 3 boxes for \$1.25, at all dealers or direct on receipt of price by The Millburn Co., Limited, Toronto, Ont. When ordering direct specify "Doan's."

**Canada Will Raise 31,700 More Men**

Ottawa, Dec. 1.—Concerning the enrollment of Canadian troops, Major General Hughes, minister of militia, made a statement in general terms tonight. The enrollment so far consists of 33,000 troops, now in England, constituting the first contingent; 8,000 on guard and outpost duty in the dominion, and 23,000 recruited and mobilized in the Dominion for the second contingent. This makes a total of 64,000 already enrolled.

It is proposed to add to the above number 31,700 men. These will be constituted as follows: Nine regiments of cavalry, or 5,500 men; 19 regiments of infantry, or 20,000 men; army service corps, 2,000 men; army medical corps, 1,500 men; six batteries of artillery, 1,200 men; engineers, 1,000 men; signallers, cyclists, etc., 500 men. Total, 31,700.

The proposed details of the additional 31,700 by division and districts will be as follows subject always to revision.

The present plan is to distribute this additional number at various cities and towns throughout the country and to mobilize them later on when needed.

**Morning War Cables**

London, Dec. 1, 10 p. m.—The battle in Northern Poland, concerning the progress of which there has been so much mystery, is now being fought out under the eyes of the German emperor, on the one side, and the Russian emperor on the other. These two monarchs left for the front today, so that virtually all the heads of the nations which are at war are with their troops.

The king of England is in France; the king of Belgium, as usual, is spending all his time with his soldiers, while M. Poincaré started today for another visit to the northern battlefield.

Lemberg, Galicia, (Via Petrograd and London, Dec. 1)—The energetic Russian advance is perceptibly pushing back the Austrians into Cracow. Information reaching Lemberg from a trustworthy source is to the effect that the Austrians are evacuating positions after strenuous, very large losses. It is stated that the Austrian line of retreat is strewn so thickly with the dead that the Russians have not time to bury them. The cold is so severe that the bodies are frozen.

Petrograd, (Via London)—Dec. 1.—The condition of German prisoners captured in the region of Lodz is said to resemble that of the French troops during Napoleon's retreat from Moscow.

Many of them have frozen hands and feet. They were wrapped in blankets and shawls taken from the peasants. One private wore a woman's fur wrap. The prisoners say that before their capture their courage was kept up by statements that the quartermaster was bringing warm clothes, which would be distributed in a few days.

Reports from the front are that re-inforcements sent for the army of General MacKensen, near Lodz, are taking up position along the Vistula river, where the German resistance seems to have been least effective. The apparent purpose of this move is to hinder the Russian enveloping movement until the main German column is extricated from the line which runs from Strykow through Glatz to Szadek.

Semi-official reports from Galicia indicate that the Russian advance along the foothills of the Carpathians has reached a point due south of Cracow, thus surrounding the city from the northwest and south.

Park, Dec. 1.—(4:30 p. m.)—An official statement from the General Staff of the Russian army in the Caucasus, telegraphed today from Petrograd to the Havas Agency says:

"In the valley of the Euphrates the Russian column, taking the offensive, dislodged the Turks from their positions and put them to flight. The Russians captured two cannon and also a number of prisoners."

Germany's Strength.

Paris, Dec. 1, 10:50 p. m.—A semi-official communication concerning the German armies in the field, made public here tonight, says:

"Germany at present has at her disposal twenty-five and one-half active army corps, of which twenty-one and one-half are operating against France and four against Russia. Of the thirty-three German reserve army corps, twenty-two and one-half are now employed against France and ten and one-half against Russia."

"These figures show that there is a total of fifty-eight and one-half army corps, active or reserve, fighting for Germany on the two fronts, and not 100 army corps as has erroneously been stated by the German government."

"If the territorial units (Landwehr), of which nothing was said in the German official note, are taken into account, it will be seen that eight Landwehr army corps are engaged against France and seven against Russia—that is to say, in all on the two fronts, thirty territorial divisions."

Million Bibles for Trenches.

London, Dec. 2—More than one million Bibles are being sent to France and Belgium by the Bible Society for the use of the British, French and Belgian soldiers fighting against the Germans. The copies of the Bible presented to the German soldiers by their government contain special prayers applicable to the battlefield.

**Jewelry Store Robbed**

The jewelry store of W. R. Gould at Chatham was broken into on Monday night and many articles of value were stolen.

Lagacyville; P. Poirier, Campbellton; R. C. Dean, Dalhousie; E. Landry, Lake-town; J. T. Corrigan, Nelson, and E. Donovan, Kenans.

Presentations.

Percy Phillips and Alex. Affleck, of the clothing department of M. R. A., who have joined the 28th Battalion, were yesterday presented wrist watches by their companions in the department.

From German Street Church.

The Y. M. A. of the German street Baptist church has responded to the call of the empire in a truly noble way. The membership of this organization numbers less than thirty but eleven have volunteered for overseas service and three for home defence.

Some of these are officers, some non-commissioned officers and some ordinary privates.

In addition to the Y. M. A. a large number of young men who were members of the church have joined the colors.

A roll of honor has been instituted and it now includes the following names: First contingent—P. McA. Sims and T. R. Bartlet.

Second contingent—H. Everett Hunt, Sydney J. Morwood, Raymond R. Haley, David Thomson, Wm. B. Wasson, Guy Q. Dowling, Wm. A. Kenny, Harold G. Woods and H. Rutherford Simms.

Home defence—Stockwell Simms, Harold Young and Foster F. Duval.

**GOOD-BYE DYSPEPSIA**

No More Gurgly Gush, "Lump of Lead," Bad Digestion, Heartburn or Stomach Troubles.

Quick Relief. Costs Nothing to Try.

The man who can't help making faces at his stomach, the man or woman with a gurgly digestion, or with downright dyspepsia need fret no more over stomach troubles.

The heaviest, richest dinners, the most unpalatable quick lunches, all can be taken care of without imposing on the stomach. A scientific digestive can do the digesting, where the stomach either did not do it before, or did it very imperfectly.

Beauty and Good Digestion Go Hand in Hand. Stuart's Dyspepsia Tablets Insure Both.

When you take one of Stuart's Dyspepsia Tablets after a meal, the food is digested by the tablet even better than your own stomach can do it.

This is why the use of Stuart's Dyspepsia Tablets has become so universal among those who suffer from any kind of stomach trouble.

Take one of Stuart's Dyspepsia Tablets after your next meal and if you are given to indigestion, sour risings, fermentation, heavy, lump, feeling in the stomach, indigestion, dyspepsia, loss of appetite or any other stomach derangement, you will find at once a remarkable improvement.

Stuart's Dyspepsia Tablets are the most wonderful tablets on earth for any kind of stomach trouble.

They enrich the gastric juices, and give the stomach the rest it needs before it can again be healthy and strong.

Try one after your next meal, no matter what you eat. You'll find your appetite return for the meal after and you will feel fine after eating.

Stuart's Dyspepsia Tablets are for sale at all druggists at 60c. a box. Send coupon below today and we will at once send you by mail a sample free.

French Government Asked to Increase Amount

Paris, Dec. 2—However satisfactory may have been the United Kingdom's reply to the war loan, France has every reason to be contented with the manner in which the national defence stock term bonds are being taken up. The demand is such that special services are established to deal with the applications, which are hopelessly in arrears.

More than a million bonds have been applied for to date, and the French subscriptions alone total 700,000,000 francs.

The Stuart's Dyspepsia Tablets are for sale at all druggists at 60c. a box. Send coupon below today and we will at once send you by mail a sample free.

**LITTLE GIRL HAD CHRONIC COUGH**

Left from Whooping Cough—Was Terribly Run-down and Weak—Mother Tells How She Was Cured by Vinol.

Philadelphia, Pa.—"My little girl aged thirteen years had the whooping cough which settled into a chronic cough, with a run-down system and lung trouble. She had to stay at home from school while being treated by the doctor, and nothing seemed to help her. I saw Vinol advertised and decided to try it. I soon noticed an improvement, and after giving her four bottles her cough is gone, her strength has returned and she has a good appetite. We think there is nothing like Vinol."—Mrs. M. WHITE, Philadelphia, Pa.

What Vinol did for this little girl it will do for others, for it is the healing, curative, tissue-building influence of the medicinal elements of the extract of cod's livers aided by the blood-making, strengthening properties of tonic iron which makes Vinol so successful in such cases, and children like to take Vinol because it is pleasant, and it is much better for them than "sough medicines" which have no strengthening power, while Vinol builds up the body and throws off the cough.

Remember, if Vinol fails to benefit, we return your money.

**PREDICTS END OF WAR BY JUNE**

Conflict Over Before Ascot, Says British Officer

JOFFRE'S TIME IS NEAR

The Moment When Allies Will Begin General Offensive Movement—Not Revenge, But the Ending of Destructive Militarism

London, Dec. 2—A very optimistic prediction as to comparatively short duration of the war is made by a personage who cannot be named, but who is of greater precision than as an officer of high position in General French's army. He is back in London from the front on a few days' leave, most of which he passed at the War Office.

"The war," he said, "will be over before Ascot" (June 1).

In view of the general expectation of a long struggle this statement reads like a joke. It is made in all seriousness, however, and is justified, according to its author, by what he describes as the facts of the situation. These are in brief that the German efforts in the western theatre of war are practically exhausted; that the pressure on the eastern frontier will soon become severe; that the psychological moment for a general offensive movement for which Gen. Joffre has been looking, is rapidly approaching, and that when it does arrive the Allies combined movements in the east and west will prove irresistible.

"Early in the summer," said this officer, "Germany will be ready to make peace on the best terms she can obtain."

This prediction is a purely military one, and leaves out of consideration the question of what terms Germany will be able and willing to accept.

Though talk of the necessity of crushing Germany is indulged in now, there are not many who really seem to be having more than superficial success.

The more responsible papers throughout the country show no evidence of a patriotic determination to see that the war is fought to a successful issue degenerating into a blind fury only to be assuaged by the destruction of Germany.

It is obvious that there is no party in Great Britain which does not intend to prosecute the war without relenting until an enduring peace is established, and Prussian militarism, as a menace to the world, has been extirpated, but there is ample evidence that when these objects are attained British feeling will be satisfied.

The Archbishop of York has been taken to task by some of the Anglo press for condemning "the great and vulgar way in which the German Emperor has been treated in the newspapers, and particularly in some comic papers," but his statement that "we can still speak with admiration and charity about the great German people" has been echoed in many, in fact, most responsible quarters.

**No Hatred For Germany**

Doctor Alecky gained the applause of a representative audience when he said it was essential that Englishmen should not imitate Germany in her hymn of hate against England, and that it was England's duty, hard though it might be, to remember the noble Germany of the past, of which there was so little sign at the moment. If this country desired

THE TORTURES OF RHEUMATISM are always aggravated during damp, changeable weather and ordinary treatments are often useless.

Such conditions need the oil-food in Scott's Emulsion to reduce the injurious acids and strengthen the organs to expel them.

spirit in which England is fighting this war is to be found in the letters of soldiers and officers on the firing line. The evidence of personal vindictiveness or national animosity is, rare in the extreme, and there are on the other hand numberless examples going to show that when not actually engaged in trying to kill one another, as in duty bound, the men at the front are animated by good-fellowship rather than by hostility.

Among the million men who are now training for the work of war, competent observers say that of the many and various and often vague motives which caused the enlistment of recruits, perhaps the least perceptible is conscious dislike of Germany or the Germans.

Although the Waltham Convertible Besacelet Watch is the daintiest and most practical wrist watch which has been devised, its price is by no means forbidding. For example, an exceedingly pretty model, in which both watch and bracelet are gold filled, is offered for \$17.50. It contains 7 jewels and is guaranteed as fully worthy of the world-wide Waltham tradition for truthful time-telling.

If you are not familiar with the many exclusive advantages of the Waltham Besacelet Watches you should visit your jeweler and examine them. An especially unique Waltham feature is that the watch can be detached from the bracelet and worn alone if desired.

MURDER TRIAL IN SULLIVAN CASE TO BE IN HOULTON

Motion For Change of Venue Denied Dr. Dudley and Alice Pelletier

Houlton, Me., Dec. 2.—Declaring his belief that a fair trial could be secured in Aroostook county as elsewhere in the state, Associate Justice Haley in the Supreme Court yesterday denied the motion of attorneys for Dr. Lionel Dudley and Miss Alice Pelletier of Presque Isle, charged with the murder of Milfred L. Sullivan of Houlton there on Sept. 4 for a change of venue to Penobscot or some other county.

A motion made by the defense to have the trial begin next Monday, was also denied by the court. Judge Haley said the jurors had all been summoned for Thursday and he thought the case should begin then, as he had planned.

Resentment on the part of the defense at the use of the state's alleged "eavesdropper," Judge Haley secured evidence against the prisoners cropped out in court Tuesday morning, when Mr. Shaw requested that a room be provided in the court house where the prisoner's attorneys could freely consult with them without danger of "eavesdropping." Judge Haley assured Mr. Shaw that such a room would be placed at their disposal, adding that everything possible would be done to insure a fair and impartial trial.

Motions for a change in venue had been filed by both Dr. Dudley and Miss Pelletier and the decision holds for whoever is to be tried first. Judge Haley intimated that after the first trial it might be best to grant the motion in case of the other person. In other words, if there is any indication that public opinion in Aroostook works against the defendants, the court may take such action.

RECENT DEATHS

Samuel J. Elder, one of the first settlers in Olinville, Queens county, died yesterday at the ripe old age of 88. He had only been for a short time. He was the oldest resident in the village, where his father, a member of an English family, had settled long ago. Mr. Elder leaves a wife and one son, Leslie S.; two daughters, Mrs. Clarence Francis, of Olinville, and Mrs. William T. Lilley, of Middle street, West St. John. Moses Elder, Olinville, is a brother. The funeral will take place on Thursday at Olinville.

Mr. Elder's father was the first settler in the Olinville district, and the son is one of the best known men in the county. He was a man of fine character and many friends.

Frederick, Dec. 1.—Miss Annie M. Johnstone, aged forty-one years, died at the home of her brother-in-law, Ashley Dykeman, Maugeville, last evening, after a lingering illness. The deceased was a daughter of the late Asa B. Johnstone, of Lower St. Marys. One brother, George, of Saskatchewan, and two sisters, Mrs. A. Dykeman, of Maugeville, and Mrs. James McKilligan, of this city, survive.

Washington, Dec. 1.—Rear Admiral Alfred Thayer Mahan, retired, the noted naval expert and writer, died here today.

W. Alan Meesent, son of Walter Meesent, died on Sunday at his home in St. George. He was with the Bank of New Brunswick in St. John until the amalgamation and since then was teller for the Quebec Bank until taken ill last fall. The funeral took place yesterday afternoon from the Presbyterian church.

Mrs. George C. Peters of Riverside, Westmorland county, formerly of Montague, P. E. I., died on Saturday at the age of seventy-five years. She is survived by eleven children, thirty grand children and several great grand-children.

At the home of J. E. Gourley, St. Marys, Monday, John Little died aged 87 years.

Miss Annie M. Johnstone, aged 41 years, died at the home of her brother-in-law, Ashley Dykeman, Maugeville, Monday. She was a daughter of the late Asa B. Johnstone, of Lower St. Marys. One brother, George, of Saskatchewan, and two sisters, Mrs. A. Dykeman, of Maugeville, and Mrs. James McKilligan, of Fredericton survive.

The death of Susan Elizabeth Todd, widow of George Hawkins, occurred on Tuesday at her home in Douglas. Had she lived until the fourth of this month she would have been eighty-five years old. She was born in Douglas and lived there all her life, being the oldest resident of that place. She had a family of fifteen children, ten of whom survive: James, of Auburn, Me., Edgar, of Houlton, Mrs. Alex. Grant, of Auburn, Mrs. Fred Lawrence, of Bangor, Mrs. Emma Jennings, of Fredericton, and one daughter, Miss Lillian Hawkins, at home; also Charles, Henry, Ernest, and Orlando, residing in Douglas. Mrs. Thomas King of Fredericton is a stepdaughter of deceased, also Mrs. Rebecca Dunphy, of Keswick. Amerith Hawkins, of Yorkton, Sask., is a stepson. There are forty-seven grandchildren and seventeen great-grandchildren.

The death of Mrs. Mary Carson occurred in Moncton on Tuesday morning, at her residence. Mrs. Carson was formerly a resident of Sussex, but has been living in Moncton for the past twenty-five years. Her husband died about twenty years ago. Mrs. Carson was a valued member of Wesley Memorial church, and took an active part in church work, being a life member of the Women's Missionary Society, and was also president of the Mission Band for a number of years. She was 61 years of age, and leaves six sons—Frank, of New York; Walter, of Moncton; John, of Boston; Morley, of Montreal; George, of Peterboro, Ont., and Otto, of Quebec.

At her home at South Beach, Kent Co., on Monday morning, Ellen Walsh, widow of Patrick Corbery, died, at the age of 75 years. Mrs. Corbery is survived by a daughter, Mrs. Michael Whitty, of Prince Edward Island, and three sons—Fred, in Maine; Patrick, in New Hampshire, and James, of South Beach.

OUR OLD FAVORITE ASTRACHAN WITH US AGAIN

Remember the gray astrachan so fashionable about fifteen years ago? Well, it's back in style again. See how smart it looks on the suit which Mary Hawksworth, society dancer, exhibited at the recent "Made in America" Fashion exposition in New York. The costume is made of green-blue cloth, and the collar and cuffs are trimmed with deep bands of astrachan or krimmer, as most people call it. A narrow band of krimmer gives a bit of color to the Hawksworth hat and adds to the smartness of the costume.

WHEN NAPOLEON TRIED TO INVADE ENGLAND

Foiled by British Control of Sea as Germans Are Restrained Today

The reported intention of the Germans to invade England after seizing suitable port on the English Channel recalls the elaborate preparations made by Napoleon early in the last century to acquire the same purpose. It was foiled by England's control of the sea, the factor on which she relies today to protect her island empire. At the close of 1779, one of Napoleon's principal aims was to distract Great Britain by the threat of invasion of England across the Channel. Napoleon's ships were continually being held in check by the superior English fleet, but the invasion scheme was vigorously pushed after the 3rd of March, 1801. Flat-bottomed boats were gradually collected at Boulogne. Two attempts to destroy them at anchor, though directed by Nelson himself, were repulsed on the 4th and 16th of August. But the invasion was so far little more than a threat made for diplomatic purposes. After the peace of Amiens had been succeeded by open war on the 18th of May, 1803, the plan was again taken up. "From that date till about the middle of August, 1805, a space of some two years and two months," says the Encyclopedia Britannica, "the war took the form of a more determined attempt on the part of Napoleon to carry out an invasion of Great Britain, met by the counter-measures of the British government. The scheme of invasion was based on the Boulogne flotilla, a device inherited from the old French royal government, through the republic. Its object was to throw a great army ashore on the coast between Dover and Hastings. The preparations were made on an unprecedented scale. The republic had collected some two hundred and forty vessels. Under the direction of Napoleon ten times as many were equipped. They were divided into prames, ship-riggers, of 85 metres long and 8 wide, carrying twelve guns; chaloupes canonnières, of 24 metres long and 5 wide, carrying five guns and brigades; bateaux canonnières, of 19 metres long by 1.56 wide, carrying 2 guns, and mere boats. "All were built to be rowed, were flat-bottomed, and of shallow draft so as to be able to navigate close to the shore, and to take the ground without hurt. They were built in France and the Low Countries, in the coast towns and the rivers—even in Paris—and were collected gradually, shore batteries both fixed and mobile being largely employed to cover the passage. A vast sum of money and the labor of thousands of men were employed to clear harbors for them, at and near Boulogne. The shallow water on the coast made it impossible for the British line-of-battle ships,

or even large frigates, to press the attack on them home. Smaller vessels they were able to beat off and so, in spite of the activity of the British cruisers and of many sharp encounters, the concentration was effected at Boulogne, where an army of 130,000 was encamped and was incessantly practised in embarking and disembarking. "Before the invasion was taken in hand as a serious policy, there had been at least a profession of a belief that the flotilla could push across the Channel during a calm. Experience soon showed that when the needful allowance was made for the time required to bring them out of harbor (two tides) and for the influence which the Channel currents must have upon their speed, it would be extremely rash to rely on a calm of sufficient length. Napoleon therefore came early to the conclusion that he must bring about a concentration of his sea-going fleet in the Channel, which would give him a temporary command of its waters."

This concentration Napoleon found it impossible to achieve. The invasion plan was finally brought to naught by the great victory of Nelson over the French and Spanish fleet at Trafalgar.

ANOTHER PARDON FOR A MAINE MANSLAYER

Augusta, Dec. 2.—The governor and council have granted a conditional pardon to Audobon S. Wilson, formerly of Wilton, who is serving a sentence of fifteen years in the state prison at Thomaston for manslaughter. Wilson was indicted in 1911 for the murder of Gideon O. Chase, but pleaded guilty to manslaughter.

The condition of the pardon is that Wilson shall not violate any of the laws of the state. The petitioners for the man's pardon contended that he had been sufficiently punished for the crime and that his health is such that he should be released from custody.

Does Not Like French Matches London, Dec. 2.—The British soldier, like all English visitors to France, has a strong objection to the French match. This article is a government monopoly, and under usual conditions the customs authorities are most stringent in enforcing regulations that not even a vest pocketful of vestas shall be introduced into the country. Yet the French match is an old-fashioned wood and sulphur production which takes a minute to burn and gives off a pleasant glow and an odor which causes the newcomer to choke. To the impatient smoker the interval elapses before he can light up his pipe seems interminable, and our men have already named the French "alumettes" "wait-a-bite."

Abolish Capital Punishment Salem, Ore., Dec. 2.—Official returns from the recent election show that the amendment to abolish capital punishment in Oregon is carried by a majority of 187. More than 90,000 voted.

How to Destroy The Dandruff Germ BY A SPECIALIST That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, not only for baldness and premature gray hair, is a well known fact, but when we realize that it is also indirectly responsible for many of the worst cases of catarrh and consumption, we appreciate the importance of any agent that will destroy its power. We are, therefore, particularly pleased to give herewith the prescription which an eminent scientist states he has found, after repeated tests, to completely destroy the dandruff germ in from one to three applications. It will also almost immediately stop falling hair and it has in numerous cases produced a new hair-growth after years of baldness. This prescription can be made up at home, or any druggist will put it up for you; 8 ounces Bay Rum, 2 ounces Lavina de Compose, one-half drachm Menthol Crystals. Mix thoroughly, and after standing half an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger-tips. If you wish it perfumed, add 1 drachm of your favorite perfume. While this preparation is not a dye it is unequalled for restoring gray hair to its original color.

HEAD STUFFED FROM CATARRH OR A COLD Says Cream Applied in Nostrils Opens Air Passages Right Up. Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears. Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relieves some instantly. It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

Initiating a Candidate into the Congo Lodge No. 23, Dugan Club

Are you a Dugan? Or, perhaps, you never heard of the Dugans. If not, now is the time, for unless you are enrolled as a Dugan in good standing, pretty soon you'll belong to the minority.

There are lodges in Manila, in Ceylon, in India, in China, Japan, and in almost every city and town in America.

The society was started as a joke among the good fellows who used to "hang out" around Malachi Hogan's place in Chicago.

There was a song that was a favorite at Hogan's that was called "What did Dugan do to him?"

It became the custom to initiate actors, newspaper men and others who came to Hogan's into the "Dugan" club and the motto was,

"Once a Dugan, always a Dugan."

Little by little the Dugans grew; the membership being chiefly among actors, sporting men, newspaper writers and the

women and children will become regular devotees of the new school and for that reason a competent corps of instructors will be engaged.

Although it was said that last year Vardon had not accepted little fear was entertained on that score for the reason that he had practically been told to name his own terms.

MR. BURDITT LECTURES BEFORE N. H. SOCIETY

There was a good attendance at the Natural History Society last evening and much business was transacted. W. F. Burditt read an interesting paper on Our Trees and Their Story, which was followed by a few remarks on our climate as suited for the growth of trees.

Donations for the museum were received from the following: Master Barry Sullivan, J. S. MacLaren, David Baldwin, Rev. H. A. Cody, Miss Mary E. Coffey, James A. Estey, Rev. W. P. Harding, Dr. J. C. Leonard, and Indian relics collected by the young ladies on the N. H. S. camping excursion this summer.

The following new members were elected: Rev. W. B. Armstrong, Miss E. Bayard, Mrs. William Campbell, Miss Helena Cline, Mrs. B. A. Day, Miss Marie A. Dolan, Mrs. Charles Flower, Miss Michael Gilbert, Miss M. L. H. A. I. Trueman and Mrs. Frank Young. Junior associate members Miss Josephine Betts, Miss Amelia Green and Miss Sylvia Isaac.

The War in the Schools

Toronto, Dec. 2.—The educational value of the great war is not going to be lost sight of in Ontario. The minister of education has decided that the schools of the province shall devote attention during the present year to the causes of hostilities between the nations, and the reasons why the British Empire is taking part.

Indoor Golf Course

New York, Dec. 1.—Indoor golf for the more exclusive, with Harry Vardon open champion of Great Britain, as the centre of attraction, is a possibility for this city in the near future. It is only a question of time now, so the story goes, when the famed Vardon will come more in New York ready to enter upon his new duties.

The project is to open an indoor golf school along lines so elaborate as to dwarf any previous efforts, and it is understood that the school will be established at one of the big hotels. One person in close touch with the affair said that an entire floor would be given over to the school and that a miniature six-hole course would be laid out.

There is talk of having regular turf greens and bunkers of sand, so that a person when approaching or putting might almost imagine himself on a regular course. It is believed that many

MONCTON OFFICER WITH FIRST CONTINGENT WRITES OF CHANGES IN DRILL

Moncton, Dec. 2.—Capt. William A. McKee, a well known Monctonian, who served in the South African war, and who is now in the 8th Battalion of the first Canadian contingent, in a letter to a Moncton friend, refers to changes in military training "much of our system," he says, "has been changed, due to the experience gained in the early part of the war; but of this I am not privileged to write." He says that the Canadians have yet no word as to their moving, and adds "While we may make a good showing on parade, there is no doubt we will not be shamed until we are technically fit, and this must be demonstrated to the satisfaction of Lord Kitchener and the war office."

SONS OF ENGLAND WILL HOLD SUNDAY CONCERT FOR RED CROSS FUND

It was decided last evening, at a meeting of the committee who are looking after the concert to be given Sunday night by the Sons of England, to complete arrangements and go ahead with the concert, the proceeds of which will be in aid of the Red Cross Society. Already a great many tickets have been sold and there is no doubt that a full house will result. Only sufficient tickets to fill the theatre will be issued and there will be no fear of disappointment on the part of those holding tickets.

SWOLLEN, ACHING VEINS. A Common Cause of Discomfort.

The army of people troubled with swollen veins is a large one and was steadily on the increase until the discovery a few years ago that a germicidal preparation of marked value for other ailments gave prompt relief from this aggravating trouble.

Since this accidental discovery hundreds of sufferers have proven its efficiency and have made good even in cases of long standing.

Mr. R. C. Kellogg, Becket, Mass., before using this remedy, suffered intensely with painful and inflamed veins; they were swollen, knotted and hard. He writes: "After using one and one-half bottles of Absorbine, Jr., the veins were reduced, inflammation and pain gone, and I have had no recurrence of the trouble during the past six years."

This germicidal liniment, Absorbine Jr., is made of herbs and safe and harmless to use, which in itself makes it distinctive. Most druggists have it or send \$1.00 to the manufacturer, W. F. Young, P. O. 817, Lyman, Blg., Montreal, Can., and a bottle will be mailed to you promptly. Safe delivery guaranteed.

HOW TO SHED A ROUGH, CHAPPED OR BLOTCHY SKIN

This is what you should do to shed a bad complexion: Spread evenly over the face, covering every inch of skin, a thin layer of ordinary vasoline. Let this stay on over night, washing it off next morning. Repeat daily until your complexion is as clear, soft and beautiful as a young girl's. This result is inevitable, no matter how soiled or withered the complexion. This was literally absorbed the skin surface alone, exposing the lovely young skin beneath. The process is entirely harmless, so little of the skin coming off at a time. Vasoline was a worker for rough, chapped, red, dried, blotchy, pimpled, freckled or sunken skin.

Fine powdered vasoline is excellent for a wrinkled skin. An ounce of it dissolved in a half-gallon of water makes a refreshing wash-lotion. This renders the skin soft, firm and smooth. Indeed, the very first application erases the finer lines; the deeper ones soon follow.

SIMPLE WAY TO END DANDRUFF

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need) apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy, every single grain and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly and your hair will be lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you value your hair, you should get rid of dandruff at once, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it frizzy, straggly, dull, dry, brittle and lifeless, and everybody notices it.

LUBIN DRAMA. The story is great. A vivid, gripping, powerful story of Mexican life. It's situations will keep you tense with excitement. It's sure funny.

The Counter-Melody

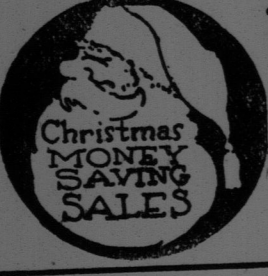

ESSANY DRAMA. A beautiful dramatic symphony in harmony with present-day conditions, featuring Ruth Stonehouse and E. H. Calvert.

Breaking Into Jail

SELIG FARCE. Another humorous film that will cause a lot of laughter. The author tries to break into jail to secure realism.

**The Man In The Street**

Good afternoon—doesn't feel like December, does it?

Not that we care such an awful lot about the preceding query, but it makes talk.

Is There?

Correspondent sends in a letter asking why Elgin street is not repaired. In reply beg leave to say that looking at it from certain angles the department probably didn't know there was such a thing as a street there.

If Turkey is going to do anything she'd better get busy before the 25th.

When will the happy day arrive when people will leave the "old" out of veneration? Why back in the memory of our school days we recall being told he was a vet. without it.

The makers of wrist-watches must be working over-time these days.

It's all very well to smile at the coal-man now, but there's more than one month to winter.

The man in the street says that his women folks tell him that when they tried to do their Christmas shopping in November they were told in some of the stores that the Christmas stock was not in yet, or that it would not be opened until the first of December. Is there anything to it, Mr. Merchant?

It is with regret that we think that some of the fine young fellows who are going to the front may never come back, when there are so many whom we could spare more easily. For instance—nobody would mourn the loss of the chap who expectorates on the sidewalks.

If the coming Conservative caucus is to be enlivened by patriotic songs an appropriate couplet to sing as Premier Flemming mounts the platform would be that favorite:

"We don't want to lose you,  
 "But we think you ought to go."

Even in these days of deep dark suspicions the purchase of an order of German sausage need not necessarily prove that the purchaser is an alien enemy.

Pretty nearly time for the boys to stick their heads in the office doors with the plaintive query "Any calendars, mister?"

**RELIGIOUS EDUCATION IN THE PUBLIC SCHOOLS**

Important Conference of Church Committees in St. John Tomorrow

In response to a memorial from the synod of the Church of England in this province committees on religious education in the public schools were appointed by the governing bodies of the various churches. In pursuance of this action these representative committees are invited to meet for conference in the Church of England Institute here at ten o'clock tomorrow morning. The invitation is issued by order of the Very Rev. Frederick C. G. Hunter, Anglican committee.

The committees are:—  
 Anglican—The Bishop of Fredericton, Rev. Geo. Wood, Rev. Dr. McVittur, Rev. Dr. Smith, Rev. G. Dickie, Rev. F. Baird, Judge Forbes and Dr. Murray McLaren.  
 Methodist—Rev. Thos. Marshall, Rev. G. M. Campbell, Rev. Howard Sprague, Rev. Samuel Howard, Rev. George Steel, J. M. Palmer, J. Hunter, White, R. T. Hayes, J. M. LeMont and R. Duncan Smith.  
 Baptist—Rev. J. H. McDonald, Dr. C. C. Jones, Rev. D. H. Macdonald, Rev. F. S. Porter, and Rev. A. J. Archibald.  
 Congregational—Rev. E. J. Thompson, Rev. J. W. Cox, Rev. Ralph Haughton, Chas. E. Macmillan and J. W. Flewelling.  
 Presbyterian—Rev. Alex. Rettle, Rev. E. E. Mowatt, Rev. S. J. McArthur, Rev. Geo. Wood, Rev. Dr. McVittur, Rev. Dr. Smith, Rev. G. Dickie, Rev. F. Baird, Judge Forbes and Dr. Murray McLaren.  
 Methodist—Rev. Thos. Marshall, Rev. G. M. Campbell, Rev. Howard Sprague, Rev. Samuel Howard, Rev. George Steel, J. M. Palmer, J. Hunter, White, R. T. Hayes, J. M. LeMont and R. Duncan Smith.

**LEO BLIZZARD NOT IN COURT; BENCH WARRANT TO ISSUE**

When D. Mullin, K. C., in behalf of the attorney-general in the circuit court before Mr. Justice Landry this morning moved, that the defendant in the case of the King vs Leo Blizard, charged with sedition, be arraigned, it was discovered that the prisoner, who has been out on bail since his committal for trial was not in the court room. At the request of Mr. Mullin, His Honor granted a bench warrant for the arrest of the prisoner, J. B. Baxter, K. C., who appeared to defend the prisoner, raised no objection to this and expressed regret that the prisoner was not in court. Adjourment was made until 2:30 o'clock.

**BOUNDARY LINE CASE OF KELLY VS. GARSON**

Hearing was commenced before Mr. Justice White in the Chancery Division this morning in the case of Susan and Agatha Kelly vs Harry J. Garson. The plaintiffs' contention is that the defendant by his agents entered upon the lands of the plaintiffs in Rockland Road and built a balcony over and upon the said lands. The plaintiffs and defendant are possessors in fee simple of adjoining lands, each supposed to be a moiety or one half of a lot of land granted by the crown to Edward McWilliams in 1821, and a dispute arises as to the boundary line. There are buildings on both lots and the plaintiffs say that the balcony on the Garson house is over their lands. The defendant denies this.

The plaintiffs claim \$1,000 damages and ask for an injunction ordering the defendant to pull down the balcony, and restraining him from continuing or repeating the act.

Considerable documentary evidence was received this morning and William Murdoch gave evidence. H. A. Powell, K. C., and H. O. McInerney are appearing for the plaintiffs and George W. Fowler, K. C., and R. G. Murray for the defendant.

**Guy Daye Writes Home of Illness in Hospital and Fine Treatment Received**

While almost every letter from the St. John lads at Salisbury Plain has told of the pleasure and good time experienced by the writer thus far, it seems to be a common note for a North End boy, who was ill in hospital to have gone one better than the rest. When he left St. John with the first contingent Guy Daye, son of Mr. and Mrs. M. L. Daye, of Hammond street, was with the Ambulance Corps, and he was taken to Salisbury Plain with the first contingent. He was given three days' leave to visit London, and did so, but became sick with fever while in the metropolis. At the time he thought it was a particularly unfortunate occurrence, but he was so well treated by those in charge of the Charing Cross Hospital, and the visit to London was so jolly, that he does not regret it in the least now, and besides his feeling ever so much better than he was before the fever went through his system.

In a letter to his mother young Daye wrote that he had just been brought back in an automobile to Salisbury Plain after having been in hospital. "When I became convalescent," he wrote, "and the last week or more that I was in London I had a jolly time. A kind English lady used to come to the hospital and take me for an auto ride every afternoon, and often times we would motor out to her place for tea. If there was anything of interest going on which I might go, one of the first questions she would ask is 'Where's the young Canadian?' meaning Yours Truly. They knew I was far from home and loved ones and they certainly treated me royally. There was another lady, from New York, who is doing charitable work in London until the war is over, and she used to bring me cigarettes and candies while I was there, besides promising to take care of me at her home should I be wounded when we go to the front. To tell the truth, mother, I was sorry to leave London and the hospital, where every one was so kind, but that was not what we came over here for, so now we're hoping soon to get to the scene of fighting in France."

Another interesting letter has been received from one of our boys at Salisbury Plain, Trumpeter Charles Kelly, in writing to his mother, gives an interesting description of his visit to London and tells of seeing many wounded Belgians sent from the front. While in London he was talking to a soldier who had his arm torn off by the bursting of a German shell. The soldier was very eager to have a Canadian souvenir from him. He told what a pitiful sight it was to see the Belgian women and children walking aimlessly in the streets of London. He also wrote about seeing the Lord Robbing and queer things. Although the boys were very busy at Salisbury they were all eager to get to the front. He told about having so much wet weather, but said they were getting used to it. He wished to be remembered to all his friends in St. John.
