1. The Syndicate has all goods made by shareholders knitting at their own homes.

2. The Syndicate has all goods made by shareholders knitting at their own homes.

3. The Syndicate pays for all properly made goods at once upon receipt of same, and besides paying for the work when sent in will semi-annually divide with its working shareholders the net profits from the sale of all goods made by its shareholders.

4. The Syndicate soils all goods made by its working shareholders.

5. To each subscriber of twenty \$1.00 shares the Syndicate gives free a twenty dollar Knitting Machine to keep, and also supplies each working shareholder, a worker, the owner of one of the machines, to be paid for the work you do, and also to participate in the equal division of the net profits, you have only to become a member of the Syndicate and take twenty \$1.00 shares which will cost you twenty dollars.

The METHOD OF THE SYNDICAT to supply this own yarms and knitting machines to the shareholders supplied with yarms for doing the various kinds of work required, and it is alto in a position to dispose of all gueds knitted from those yarns through large lobbers and to the general trade as fast as it can be sent in by its shareholders.

It will be seen that to manufacture goods on so large a scale it would be necessary to have a number of knitting factories, which would mean the investment of thousands of dollars, besides taxes, insurance and interest on same. We can, therefore, not only manufacture goods onesone and in larger quantities, but pay our shareholders dividends semi-annually.

THE METHOD THE Syndicate furnishes in a high speed family soamless knitting machine, and
