A. B. Ingram, Vice-Chairman of the Ontario Railway Board, Will Give \$100 To Any London Charitable Institution Providing Mr. Pocock Can Disprove Railway Board Official's Statement.

The following communication was handed in to The Advertiser office today by A. B. Ingram, vice-chairman of the Ontario Railway Board, and acting manager of the London Street Railway The London Free Press of the 31st ult., publishes a statement of what I said in regard to the fares on the London and Port Stanley Railway and the fares

charged on the electric railways that are under the jurisdiction of the province of Ontario, as follows: Mr. Ingram contended that the fares on the London and Port Stanley Railway were higher than the fares charged on any electric railway under the jurisdiction of the province of Ontario. Under the Dominion charter the fares on the Port Stanley line are 2.875 cents per mile, where-

as lines operating under a provincial charter are limited to two cents "For many years on certain days the return fare from London to Port Stanley was 30 cents. Sir Adam Beck went to Ottawa and secured egislation which enabled him to charge 50 cents return."

In answer to the above statements made by me, Mr. Philip Pocock, vicerman of the London and Port Stanley Railway Commission, states in the London Evening Free Press of May 31, 1920, that With reference to the statements of Mr. Ingram, which were given to the public that the L. and P. S. is charging higher fares than are other electric lines, Mr. Pocock pointed out the inaccuracy of the state-

"Summer rates to Port Stanley are 50 cents return, a distance of 52 miles, for less than one cent per mile. On the line from Chatham to Erie Beach, a distance of about 12 miles, the return fare during the ex-Mr. Pocock. cursion season is 40 cents, according 20 PER CENT LESS.

"The fact is," said Mr. Pocock, "we are charging 20 per cent less on the regular rates on the L. and P. S. than are being paid on the C. N. R. and the C. P. R. electric lines. These are charging the steam rates of 3.45 cents a mile, while we are only receiving 2.875 cents a mile. While the M. C. R. and the P. M. R., when selling tickets that cover transportation over our line charge 3.45 cents a mile, they only pay us our regular rate of 2.875 cents."

Mr. Pocock also pointed out that the fare charged on the electric line between St. Catharines and Niagara Falls, a distance of 12 miles, is 50 Now, Mr. Pocock, I have quoted both statements in regard to the London

and Port Stanley Railway fares, and my statements in regard to fares charged on electric railways that are within the jurisdiction of the government of the province of Ontario, and to show you that I believe my statement to be correct, I am willing to give \$100 to any charitable institution in the city of London, if sequent damage. RUSSIANS ESTABLISH TRADING BUREAU IN BRITAIN'S CAPITAL

Dealings Will Be Virtually On a System of Barter.

London, June 2.-While the secrecy which has surrounded the mission to London of Gregory Krassin, Russian Bolsheviki minister for trade and commerce, is being maintained, several newspapers here print reports on the progress the soviet envoy is making. It is generally accepted he has received official permission to establish a Russian trading bureau in this city. Some papers go further and declare he has cured a lease on premises in London, but where these are, have not been

DEMANDS LIFTING OF EMBARGO AGAINST SOVIET RUSSIA

Paris, June 2.—Lifting the embargo of Russia and conclusion of peace are indispensable conditions for the resumption of commercial relations between that country and Allied nations. Gregory Krassin, Bolshevik minister of trade and commerce, has notified Premier Lloyd George of Great Britain, according to the London correspondent of the Excelsior.

SELECTION OF SOUTHERN DELEGATES LIKELY TO DELAY BIG CONVENTION

Chicago, June 2.—Claims of contesting delegates from Florida and Georgia continued today to occupy the attention of the Republican national committee. Every effort was being made to speed up consideration of the cases so that the committee might pass on to the claims from ten other states which have not yet been heard. The prospect of night sessions to clean up the slate before the convention meets next Tuesday seems to be growing.

Dr. Campbell's key would not open it, and when the lock was forced it was found to contain a woman's wearing apparel. The trunk with the assembly papers were evidently shipped to the place the woman's trunk should have gone, but railway officials late tonight were unable to find out where that might be. The mixup may cause some delay in the proceedings of day seems to be growing.

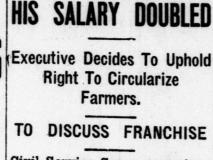

Political forces are gathering slowly here, and while the pre-convention circle has its usual line of gossip and prediction, no political leader of recognized importance has up to this time been willing to attach his name to a definite prediction of whom the convention will name as its candidate or when it is likely to do it.

It is also said that "no other person" has made any such proposals.

EAST END HALI

Orange Lodges Must Make Arrangements With the Salvation Army.

Orange lodges seeking the use of the East London town hall will make arrangements with the Salvation Army, which now uses the building.

The city some time ago granted the Salvation Army the use of the building without charge in return for the building being kept in proper condition. The city did not wish to divide the control of the building, and therefore decided that any other bodies desiring the use of the hall should make application through the Salvation Army, as it is now responsible for the hall.

The Orange lodges affected formerly used the old Egerton Street Baptist Church, but this is now required by the congregation, owing to burning of the newer edifice.

The right or wrong of transferring nmercial high school from the versight of Principal Mooney of the ollegiate Institute to the nominal apervision of Principal Beal of the echnical School provoked what promsed to be an interminable discussion at the meeting of the board of educaion Tuesday afternoon. In vain was it explained that the commercial classes now being held in the Technical School building under Mr. Beal's nominal principalship really only had to do with the supervision of the buildings and classrooms, the actual direction of the commercial classes being left with the commercial head master. SUICIDE PLANNED IS **OPINION EXPRESSED** RE KENNEDY DEATH

Westminster Patient Struck by L. and P. S. Car-Officials Exonerated.

After much deliberation, the jury at the inquest into the death of Wilhiam Kennedy, the returned soldier from Kingsville, who was killed by a Londone and Port Stanley Railway car on Saturday afternoon, decided that his actions prior to being struck by the train indicated that he contemplated suicide. The officials of the road were exonerated.

Dr. Edward Spence, who attended the victim after he was rushed to Victorial theorital, declared death to be the internal hemorranges and produced for an hour previous to his the standard of the road was a formal hemorranges and produced for an hour previous to his the standard the standard for an hour previous to his the standard that the standard for an hour previous to his

George Trigger, motorman on the car, stated that the accident happened between stop 1 and stop 8. When he saw Kennedy first, the man was about tweive feet from the track in a ditch, near a spur line which runs into Westminster Hospital, where the soldier was a patient. Kennedy then climbed up the side of the bank, and when the train was less than a car length away three.

was less than a car length away threw himself across the tracks.

E. C. Partridge, conductes, stated that the train was going at a rate between 25 miles and 30 miles per hour. Dr. E. T. McGhie, superintendent at Westminster Hospital, stated that Kendedy came hack from oversees in July nedy came back from overseas in July. 1919, and was suffering from defective vision and partial loss of memory. For a while he could not see any farther than one foot, but lately could distinguish objects 20 feet distant.

Coroner (Dr.) A. MacLaren conducted the inquest.

Linens, Cottons and Sheetings

TF YOU are seeking unusual values in Linens, Cottons and Sheetings, you will find them here. Doubtless your linen closet is not so full as it used to be. The importations in linens have been so few and far between and cottons are becoming quite as scarce. We announce today a great opportunity to replenish your supplies from new importations as well as heavy shipments of Canadian cottons at prices more favorable to you than today's quotations. Whether you need Linens, Cottons, Sheetings, Pillow Cottons, Towels or Luncheon Sets you will be well advised to stock up at prices quoted below for such superior qualities.

Household and Lingerie Cottons

Many June brides, who have been holding off buying their cottons, will do well to check up this list, then see the goods in our Cotton Department. The range is the most extensive and complete showing of high-class Cottons and Sheetings since prewar days. We were busy all last year making preparations and accumulating stock against the serious advance in cottons prophesied for 1920, which materialized even more seriously than was expected, but our stock was either here or contracted for, and you have the advantage of buying the very best grades produced at prices that are very moderate and will bear strictest comparisons,

MANY CASES OF MEASLES IN THE PUBLIC SCHOOLS

Inspector Edwards Reports Decreased Attendance for Month of May.

Attendance for Month of May.

More cases of measles are being reported in the public schools. The school nurses have been kept busy for some weeks past hurrying from school to school to investgate cases of children taken ill, and in addition to those ill with measles, many have been reported suffering from mumps, scarlet fever and whooping cough.

So many children have been kept at home, either ill or through fear on the part of their parents that they would catch these infantile epidemics, that inspector Edwards reported for May a decreased attendance of 122, as compared with May, 1919.

Ottawa, June 1.—Hon. William Lyon Mackenzie King, new leader of the Liberal party, brought his followers to their feet cheering this afternoon when he amounced his absolute and complete difference to the politic and the party of the amount of form of the Farmers' Party and a copy of the platform of the Independent Labor Party, and honorable gentlemen opposite have drawn attention to differences between the Liberals and the Farmers and the Labor men.

There is Common Ground.

"Well, sir, there are differences to which the gentlemen can point, but I can tell my honorable friends opposite can tell my honorable for creater has no policy to propose other than can tell my honorable friends opposite this, which is a fact of far greater this, which is a fact of a common significance, that there is a common significance. has no policy to propose other than safeguarding and protecting privileges should at least give the people an opground of unity upon which the memportunity to say whether or not they bers of those parties can stand. You will find in the Farmers' platform, in the Labor platform and in the Liberal platform the common demand for a platform of the duties on the necessities of life. You will find in all three platforms a demand that the duties platforms a demand that the duties should be taken off the instruments of should be taken off the instruments of production, so that great production production, so that great production and the problems of the day."

"So, Mr. Speaker," said Mr. King, "while we can compliment the minister."

his country:

A Word To People.

"Take note of the things that you have in common, and observe the tactics of the enemy, which are apparent. We have seen privilege protected in every speech that has been uttered from the other side in the course of this debate. We have seen honorable gentlemen opposite seek to point to the differences that exist between men of common thought and common feeling in other respects. What do these tactics signify? They are just an endeavor to keep the host in opposition divided. Honorable gentlemen opposite argue among themselves: "We keep the privileged interests protected so long as men of thought and feeling who are united on certain common ground can be kept apart from one another and prevented from uniting in a common effort to gain a common end."

and phenomenal and a common end."

Barbed Wire Entanglements. "These are the barbed wire entanglements by which the party of privilege would seek to keep separated men of liberal thought and feeling in this country, and to keep them from uniting on the ground which they have in common. The honorable minister of the interior (Mr. Meighen) said that the purpose of the Liberal resolution was to unite these different groups. Let me tell my honorable friend that if that was its purpose there could not have been a worthier one than to seek to give expression, in one voice, to what are the sentiments of three great elements. What is the object of the honorable gentlemen opposite? It is to keep the progressive hosts who oppose them disunited. "Word has gone out from their headquarters urging the necessity for this action, and also the need for filling the war chest with gold. There are announcements already of a fund for propaganda purposes that is to be run up into millions of dollars. Mention has been made for filling the war chest with good a fund for propaganda purposes that is to be run up into millions of dollars. Mention has been made in the press of such a fund for such purposes, and the government in power purposes to hold on for a couple of years in order to give this insidious propaganda ample opportunity to do its work. Think and Feel Alike.

"I say, therefore, to all men who think and feel alike on the great questions which affect the well-being of the Canadian people, and who reprobate the conditions for which the Government are responsible, to take note of the tactics of honorable gentlemen may call themselves, whether it be Liberal, Grit, Reformer, Liberal-Unionist,

The Government was holding office for the sake of office, said Mr. King. It had promised the electors to hold office only for the period of the war. "When was such a promise made?" demanded Sir Robert Borden. "I did not hear the prime minister's election speeches and I cannot quote chapter and verse," answered Mr. election speeches and I cannot quote chapter and verse," answered Mr. King. "But I do know that the people understood from his election speeches and those of his supporters that the coalition was solely for the purpose of carrying on the war, and that when that purpose was accomplished the members of the coalition would revert to their former principles and would give the people of this country an opportunity of electing a Government to the problem of the high cost of living. the tax in past years to pay up their arrears.

Mr. King declared that there had been little success in the collection of the income tax. The House and the country had reason to expect that when shown in many particulars a tendency to increase the expenditure, and to be indifferent to the necessity for retrenchment. That is one count which we have against the honorable gentlemen opposite.

this respect.
Omitted War Wealth. Omitted War Wealth.

There had been no reference in the budget to war wealth. The country had a right to some statement in this regard, but as far as Sir Henry Drayton's speech went the Government might not have known there was such a thing as war wealth.

Every day's delay made it increasingly difficult to tax any of these profits. Everyone knew that vast fortunes were being amassed during the war, while men were sacrificing their lives. These were fortunes built on the blood and sacrifice of others, and they should pay their share of the war debt.

R. B. Maxwell, Dominion president of what we most object to in his budget is that it protects privilege and profiteers instead of protecting the consumers of this country? We had expected at this time of all times a people's budget; we have instead a profiteer's budget; that is apparent when we come to analyze it. I say that for this reason—when we study this taxation we find that in practically everything that the minister has proposed there is increased burden upon the consumers, not of the higher or upper classes but of the middle or poorer classes; and there is on the other hand a careful protection and safeguarding of those who are in a position of privilege in this country. We had a right to expect, having re-

"The budget," Mr. King declared, "is a budget to protect the profiteer. It is not a budget to protect the people of Canada." Wealth was primarily derived from the community. It was not therefore unreasonable to ask that part of the wealth created by the com-munity should be returned to the com-

It was the basic industries of the country, such as agriculture, lumbering, mining and fishing, which must be developed before any real progress or prosperity could come.

Mr. King went at length into the present-day trend of rural folk turning to the city. He would like to see any present-day trend of rural folk turning to the city. He would like to see an energetic policy of rural development and the building of thousands of small cottages on the farms, where men and women could take their families and secure work along agricultural lines. They needed also to conserve life. He knew that the Government had established absolute department but little lished a health department, but little had been done in this respect. He next quoted figures to show that tuberculosis was still rampant in Canada. The reason, said Mr. King, that he referred to health matters was that the Covernment was demanding increased. Government was demanding increased production. This meant that increased labor was essential. Therefore every effort must be made to preserve human life, thus building up the population.

From the Atlantic to the Pacific, Mr. Fielding said, there was but one Liberal Read Memorandum.

Mr. King read from a memorandum prepared by the board of inland revenue of Great Britain to snow that if the British Government made a levy of 25 per cent on war wealth, the sum of one thousand million pounds would be realized. And, in Canada, people who had amassed great wealth out of the war should be required to pay at least of a percentage of their war fortune into the public treasury.

The Government had been ready to conscript human life. He did not ask that it should be equally ready to conscript wealth, but he did ask that where fortunes had been made out of the war, something should be contributed out of this source.

From the Atlantic to the Pacific, Mr. Fielding said, there was but one Liberal platform, which he had outlined. It was based on the tariff resolution passed at the national Liberal convention in August last. The Liberals stood for free food and freer trade. That had been the stand of Sir Wilfrid Laurier, and the present party was determined to uphoid it. They would take up the flag where the old leader had laid it down when he died, and carry it on. The Government speakers sought to divide the Liberals and Progressives. Mr. King warned those on his side of the House to beware of the barbed wire entanglements the Government sought to throw about them.

The Government, Mr. King ucceated, was preparing an insidious campaign of propaganda, for which it already had the funds. He urged those on his side to stand together in the fight against a common enemy. The Government to stand together in the ingit against a common enemy. The Government was unwilling to listen to the voice of the people as expressed in New Brunswick, Ontario, Prince Edward Island, Quebec and Saskatchewan. The Liberals. NO MOVE REGARDING NEWSPRINT SUPPLY

OTTAWA, June 1.-J. R. Wilson, Saskatoon, asked in the House of Commons this afternoon if the Government had taken any action in the matter of supply of newsprint.

Sir Henry Drayton replied that committee of publishers last Octob reached an agreement with the print manufacturers, under which the mills agreed to a certain price, not as i matter of control, but of ordinary business. The agreement provided for a fixed price to the end of June, and for the supply of paper to the Can-

OTTAWA, June 1. — (Canadian Press.)—Speaking on the orders of the day in the House this afternoon, Sir Robert Borden said press statements had been called to his attention to the effect that members of the House had signed a round-robin asking for an increased indemnity, and that attendance of members in the House had been affected because of non-compliance on the part of the Government. So far as he was aware, Sir Robert added, no such round-robin existed. At any rate, Little Export Business.

When the national policy was introduced in 1878-79 Canada, said Mr. King, had little export business. Protection had been introduced by Sir John A. Macdonald to develop the home market and to nurture infant industries, but the industries had grown and developed until we found ourselves with a \$500,000,000 merger in the country. There had been references to differences of opinion expressed on the Opposition side with reference to the fiscal question. It was an old trick to emphasize differences of view on cer-

Lucien Pacaud (Megantic) declared the Government's fate was definitely sealed. The demand for a general election came from all sources. The Government had initiated a greater production movement and then forgotten it, spending money instead on commissions which did not commission. The sane and sound policy on tariff matters was found in "the glorious pages of Liberalism."

F. L. David (Neepawa) urged the pages of Liberalism."

F. L. David (Neepawa) urged the appointment of a committee on estimates to assure their intelligent discussion. The budget broke a lot of new ground. As to trade figures, he called attention to the fact that the volume of goods exported was disappointingly low, though the value was increased. There was need for reduction of expenditures, but a minister could not fully control his department under the present system.

A reduction in case of necessaries of life which coincided with the imposition of luxury taxes would do much to allay unrest in the country.

Ah, they are passing, passing by.
Wonderful songs, but born to die!
Cries from the infinite human seas,
Waves thrice-winged with harmonies.
Here I stand on a pier in the foam,
Seeing the songs to the beach go home.
Dying in sand while the tide flows back,
As it flowed of old in its fated track.
Oh, hurrying tide that will not hear
Your own foam-children dying near:
Is there no refuge-house of song,
No home, no haven where songs
belong?
Oh, precious hymns that come and go!

Codfish Croquettes

The EASIFIRST way

A DAINTY, satisfying and economical dish—when properly cooked! Use the recipe given here—just a wee bit of skill—and EASIFIRST. Your Codfish Croquettes will be light and delicious indeed.

Why? Because in deep frying EASI-FIRST may be brought to an intense heat without burning. This means that foods fried in it have a quickly-formed, protecting crust which prevents the fat from soaking in. The interior cooking is done by heat alone, as it should be.

The EASIFIRST left over may be used again. It will not carry any flavor.

Here is a Good Recipe -Try It!

1 cup boiled codfish 2 cups mashed potatoes I cup thick white sauce 1/2 teaspoon pepper Salt to taste

l tablespoon chopped parsley

Shred the codfish, add potatoes, pepper and parsley, then add the cream sauce. Shape, roll in crumbs and egg, then again in crumbs, and fry in a deep kettle of EASIFIRST.

For Cream Sauce, 1 level tablespoon EASIFIRST, 2 level tablespoons flour, l cup hot milk, 1/2 teaspoon salt.

Every package of EASIFIRST bears the Government's stamp of approval. Your grocer will supply you. Sold in cartons and tins.

The St. Thomas international trapshooting tourney is away for its 39th year, bigger and better than ever and with every indication from the scores made during the first day's shoot of exceptionally keen competition this year. Trapshooting as a sport is again in a flourishing condition, for the gun clubs, especially throughout Western Ontario, have been adding large numbers of new members. This year there has been added stimulus in the Olympic trials, and the scores made in the trials, and the scores made in the trials make certain that Canada as a nation will build up not a few of her team points from the shooters who will make the trip this year. Sam Yance of Tilisonburg, one of the famous brothers, veterans of the trapshooting game, is almost certain to make the Canadian Olympic team, so that Western Ontario can look forward to being efficiently represented.

A Bicycle-But Don't Know It

If you are a Workingman you need a bicycle. A ride in the fresh air is very beneficial to one who works indoors.

A bicycle will get you to work on time. Will save you long waits and tiresome rides in jammed street cars. It will take you home to a hot noon-day dinner instead of a cold lunch at the factory. A bicycle pays for itself in car-fare saved.

If you are a Carpenter you can carry your kit from job to job and save valuable time. A Collector can collect a very much larger amount of money in a day.

With a bicycle you can make double, often triple, the number of calls in a day. You can reach people off the

car line, that you would otherwise put off seeing.

If you are a Clergyman you can make the rounds of your parishioners inexpensively with a bicycle and not tire yourself out.

Hundreds of Teachers and thousands of Pupils ride bicycles to schoel every day. Bicycling saves time. Saves car-

It is of the first importance, after the drain of a severe illness on our physical resources, that the spent capital be replaced as soon as possible. The following statement shows how Tanlac accom-

more for me than I ever thought possible. I soon had a good appetite and began to eat heartly. I rapidly got stronger and now I am able to do all my work without getting tired. I no longer suffer from cold hands or feet, and my complexion is clear and rosy. The rheumatic pains have left me and I enjoy perfectly restful sleep. My nerves are all right again, and, in fact, I am better in every way. I consider Tanlac a most excellent medicine, and one that should be in every household."

A Practical Prescription

For Sour, Acid Stomach

Nine-tenths of all cases of stomach trouble nowadays are caused by too much acid. In the beginning the stomach itself is not diseased, but if this acid condition is allowed to continue, the acid is very likely to eat into the stomach walls and produce gastritis with stomach ulcers. This may render a radical surgical operation necessary even to prolong life. Therefore, an "acid stomach" is really a dangerous condition and should be treated seriously. The excess acid or stomach hyperacidity can easily be neutralized by Bisurated Magnesia taken in teaspoonful doses in a glass of water after each meal. Larger easily be neutralized by Bisurated Magnesia taken in teaspoonful doses in a glass of water after each meal. Larger for a companion. The great American remedy for such conditions is Lydia E. TEMPORARY PEACE BETWEEN CITY AND **DETROIT RAILWAY CO.**

Company Withdraws "No Transfer" Orders After Injunction Issued.

DETROIT. June 1—A temporary settlement of the wage-fare controversy between the city and the Detroit United Railway Company, whereby the company will withdraw from its 'no transfer' plan at midnight tonight was reached in circuit court late today.

The settlement followed the filing of a petition for an injunction restraining to issue transfers within the one-fare zone. The court set dates for further hearings without acting on the petition. The counsel for the company and the city reached an agreement, whereby free transfers will again be issued on five-cent fares, pending further hearing and negotiations, both in and out of court in an effort to reach a permanent settlement as to fare increases.

Answers to the city's charges in its petition for an injunction must be filed by Thursday morning by the company. The company was ordered to show in court Saturday why the injunction should not be granted. Coincident with the injunction proceedings, which will continue, despite the rescinding of the 'no transfer' plan hearing will be held in the circuit court on the entire fare controversy.

whitewash and there are few paints that serve a better purpose for the board fences, stock sheds, pigpen or houses of a temporary character on the farm, and even some of the very good buildings, when the whitewash is properly made.

There is nothing in color on the farm and barnyard buildings that beats white for a show. It is the cleanest most attractive of colors, has a sort of magnifying effect at a distance. It can be used on any rough surface, from posts, board fence, the main body of trees, and, when prepared to stay on, is not objectionable for the barnyard buildings. This mixture is serviceable on wood, brick or stone.

The spring season is the natural time for cleaning and painting. This preparation keeps well and can be used at any convenient time after being prepared. It is not necessary to repaint every spring with whitewash prepared in this way, though a little retouching often helps the more exposed parts of buildings and fences. The most discouraging feature of whitewash has been from poorly-prepared stuff, poor quality of lime and hot water will make whitewash good enough, and under this careless way of treating the subject, leave out the glue, rice and Spanish writing, the very properties needed to perfect its adhesive and lasting qualities.

What is the least expense?-Lubrication!

For Every Car, Every Purpose Every Province in the Dominion

WHEREVER you motor you find Imperial Polarine, the preferred motor oil. The same uniform grades are on sale in every city, town and village, from coast to coast. Consider the relation of Lubrication to Depreciation. What is the greatest expense in the operation of your car?—Depreciation!

—And yet good lubrication reduces depreciation. Your greatest expense is determined by your smallest. What do you save by buying an inferior oil?—a few cents per gallon! What do you save by buying Imperial Polarine?—dollars in depreciation. More than 62% of Canadian motorists depend entirely upon Imperial Polarine for lubrication—it is the lubricant which

saves depreciation. Imperial Polarine provides a friction reducing oil film over every wearing surface. It saves friction wear. It reduces vibration wear. It eliminates carbon trouble. It does away with lay-ups and repair bills. It makes your motor run smoothly and effici-

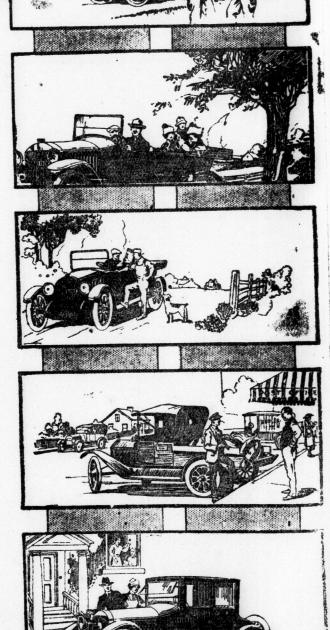

ently. In a word, Imperial Polarine "makes a good car better." Imperial Polarine provides a piston-to-cylinder seal which con-centrates the full force of the explosion behind the piston and

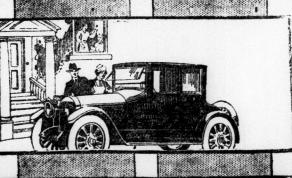

gets more power from gasoline. It thus reduces fuel costs. Three grades for cylinder lubrication. Look for the Imperial Polarine Chart of Recommendations when you buy oil—it shows which of the three grades described below is best suited to your car. Sold in one-gallon and four-gallon sealed cans, 12½ gallon steel kegs, steel half-barrels and barrels, by dealers everywhere.

Toronto Court Verdict Awards Sum To Former Labor Official.

TORONTO, June 1.-W. J. Hevey, a former secretary of the Toronto District Trades and Labor Council, obtained a verdict at the assizes here this afternoon against James Simpson. editor of a labor paper here and a well-known advocate of labor and prohibition, for \$4,000 damages for liber and slander. Hevey sued for \$10,000

and slander. Hevey sued for \$10,000 damages.

The suit was the outcome of a charge made by Simpson at a trades council meeting here some months ago that Hevey and Arthur E. O'Leary, a former president of the Toronto District Trades and Labor Council, had conspired with representatives of local manufacturers during the numerous strikes last summer to accept \$5.000 with which to start a labor paper that would not be so antagonistic to the employers as the paper edited by Simpson.

son.

O'Leary also brought an action against Simpson for \$10,600 damages, and the O'Leary case was tried a short time ago. The jury in that case awarded the plaintiff \$1,500 damages.

O'Leary's counsel had his bill taxed today at Osgoode Hall at \$902.60, and Simpson will have to pay this in addition to the \$1,500 damages and Simpson's own counsel.

MYSTERY OF BOAT REMAINS UNSOLVED

HAMILTON, June 1.—The police to-day failed to solve the mystery of the alleged disappearance of four people on the bay last night. The captain of a tug towing an oil tanker into the harbor reported to the police that a sallboat containing four people crossed the towline of his tug. He said two men jumped out of the boat, and two women were left in the craft. He slowed down his tug and returned to the scene of the accident, but found

POLICE CASES AT GUELPH

Nearly Equals Whole of Year 1919.

GUELPH, June 1.—The month of May broke all previous records for the number of cases heard in one month at the police court. The report of Chief Rae shows that there were 139 cases heard before Magistrate Watt, the largest number in the history of police court. Since January 1, 404 offenders have been brought up, which is just slightly under the total number of cases during the whole year 1919.

Hay and straw prices remained firm on the local market this morning. Both commodities sold slowly. The supply of hay was fair.

All truck garden products were firm, but are expected to drop tomorrow. The supply has been good, and is expected to bring in. Oats are still holding at their record price of \$3.85 per hundred. No easing is looked for in this line, as the farmers claim they have no oats to bring in. Wheat and barley have not been offered on the local market for some weeks.

The method or system of cultivation to be adopted may be varied to some extent to meet local conditions. In reality, however, all systems should be, and in most cases are, a slight modification of the "clean cultivation and cover crop system."
The clean cultivation method calls for all the ground under and around the trees to be plowed and frequently har-

trees to be plowed and frequently har-rowed until around July 1.

This system has much to recommend it, viz.: (1) maximum conservation of soil moisture, (2) excellent conditions for liberation of plant food, especially nitrogen, (3) sightliness and cleanli-ness of the orchard, and (4) control of

ness of the orchard, and (4) control of insect pests.

In connection with this, either fall or spring plowing may be practiced, the former, however, only in those localities with a favorable enough winter to so permit. The great secret of success with any system of cultivation designed to conserve moisture and liberate of food is to get on the land as early as possible in the spring, otherwise, if the orchard is not plowed until late, most of the advantages of cultivation are lost. vation are lost.

WABASH

Wabash, May 30 .- The death of James Vance took place Wednesday at his home in Thamesville after an illness of a few days from pneumonia. He is survived by his aged mother, one sister, Mrs. Daniel Buchanan of Zone, and five brothers-Robert and Taylor, of Camden; William, of Vancouver; John, of Thamesville, and Johnston, of Inwood. The funeral services were con-

given by the Burwell Orchestra of Wa-bash. Rev. Mr. Knight is a formed pastor of the Lindsay Road Church, and was listened to with pleasure by a large audience. Robert Kyle was in Raleigh this week assisting in the moving of buildings with his steam engine.

Charles Jackson and Fred Kelly have had a number of sheep killed by dogs during the past week. David, little son of Mr. and Mrs. H. Neaves, had his forehead badly cut by falling on the cement pavement at the

MAYOR OF WINDSOR DECLARES L. D. ACT MUST BE OBSERVED

Edict Issued Three Weeks Ago Ignored by Standard Hotelmen.

HEAVY FINES PROMISED

Hotels Have Been Crowded With Americans Seeking Liquid Refreshment.

WINDSOR, June 1 .- In face of the flagrant inattention to the edict of Mayor Winter and the police commission ordering that hotel bars, confectionery stores and cafes stop the sale of near-beer on Sundays, his worship today, following a conference with Crown Attorney Rodd, in which the latter stated the city was quite within latter stated the city was quite within its right in imposing the restriction, again notified the hotelmen that the Lord's day act must be observed and business closed for the Sabbath.

Heavy fines will be meted out to violators in the future, the mayor declared. The closing order was first given out three weeks ago, since which time the bars have continued to be crowded with Detroiters who cross the river weekly for a Sunday out and in search of "refreshments."

Windsor hotelmen, who have ignored Windsor hotelimen, who have ignored the Sunday closing edict, assert that the municipality has no power to interfere with hotels operating under standard hotel licenses.

TRUE BILLS BROUGHT IN BY JURY IN BOTH CRIMINAL ACTIONS

One Case Is Settled Out of Court.

In the two criminal cases slated for the June sessions here the grand jury yesterday afternoon brought in true bills against both parties accused Alex Judge of this city will as a result of their action stand trial on a charge of receiving stolen goods, and also one of theft of a quantity of liquor from the C. P. R., and William Forbes was arraigned on a charge of indecent as-

The petit jury was sworn in yester-day afternoon, and the first case heard by them was that of Mary B. Hyslop against Wilbur Venton of this city for the wrongful detention of a piano. P. H. Bartlett for the defendant claimed H. Bartlett for the defendant claimed that the plano was presented to Venton's wife as a wedding present by plaintiff, and that on his wife's death as a part of her estate the plano became by law the property of defendant and child. However, the finding of the jury was that the plano is now the property of the plaintiff, who asks for \$350 in lieu of same.

The case of A, B. Greer against Harrison for cost of the goods sold has been settled out of court, the defendant paying for the greater part of the goods and costs. In both of the cases disposed of Albert Judd of Judd & Henderson acted for plaintiffs.

DEATH OF JOHN MCKEEN. OWEN SOUND. June 1 .- One of the few remaining pioneers of the Leith and Annan part of Sydenham died last night, in the person of John McKeen. Mr. McKeen, who was in his 83rd year, was born in Toronto and spent his early life there, coming to Sydenham 67 years ago and settling south of Leith, where, with his father, he cleared the land and endured the hardships of the pioneers. His wife, who predeceased him, was Miss Jessie Ross, and the family of six were all present at his deathbed. The sons and daughters who survive are, James, Margaret and Angus at home; Mrs. S. P. REMANDED WITHOUT BAIL

Fifteen-Year-Old Youth Admits Assaulting Little Girl of Eight.

After the grand jury sitting at the June sessions had brought in a true bill of indecent assault against William Forbes, aged 15 years, yesterday afternoon, his solicitor, Edmund Meredith, appeared before Judge Talbot Macbeth was his client and Forbes pleaded guilty to the charge. Counsel for the prisoner voiced an eloquent appeal for leniency to the court, but Judge Macbeth stated that he desired time to consider punishment for the crime, and accordingly remanded Forbes to jail without bail for a few days until he is ready to impose sentence.

The offence was committed against an 8-year-old girl, residing in the vicinity of Dorchester, on December 28, 1919. Peter Forbes, the boy's father, pleaded for leniency, and reputable witnesses testified as to the good character of accused, who has never been in trouble before. Counsel asked the court to suspend sentence.

A Serious Offence.

"That is not for you to say," remarked Judge Macbeth. "This is a very serious offence."

"There was no injury or evidence of assault on the girl," said counsel.

"It is an offence just the same," replied the court.

Mr. Meredith asked the judge to consider the age and character of the prisoner.

prisoner.

"If ever a person was entitled to a chance, this boy is. Surely you do not intend to send him down among thieves?" he pleaded.

It was revealed during the evidence that Forbes is a bright boy, well educated and his friends are amazed at his conduct.

One witness said: "I think he went out for a frolic, and as a result of reading some literature overstepped himself without criminal intent. He has had a lesson now."

"The only thing that I wish to consider," said Judge Maebeth, "is, should I order the boy to be whipped, a punishment which the law prescribes for such an offence. I am not concerned with the boy at all, but the protection of girls. It is his first offence, but in three cases that I have been called upon to deal with it was such. A flogging is better for the boy, than industrial school. I will dispose of the case during the week, and in the meantime he must go to jall."
