FOURTH SESSION, FOURTH PARLIAMENT, 1882.

---

---

Thursday, 9th February, 1882.

This being the day on which Parliament is convoked by Proclamation (hereunto annexed) for the Despatch of Business, and the Members of the House being assembled ;

PRAYERS.

A Message was brought by *Réné E. Kimber*, Esquire, Gentleman Usher of the Black Rod :—

MR. SPEAKER :—

His Excellency the Governor General desires the immediate attendance of this Honorable House in the Senate Chamber.

Accordingly Mr. Speaker, with the House, went up to the Senate Chamber :—And having returned ;

Mr. Speaker informed the House, That he had received from the Honorable Mr. Justice *Bélanger*, one of the Judges selected for the trial of Election Petitions, pursuant to “The Dominion Controverted Elections Act, 1874,” Judgment relating to the Election—

For the Electoral District of *Argenteuil*.

And the same was read and ordered to be entered in the Journals of this House, and is as follows :—

(Translation.)

ARGENTEUIL CONTROVERTED ELECTION.

DOMINION OF CANADA, }  
 Province of Quebec, } *In the Superior Court.*  
 District of Terrebonne. }

(The Dominion Controverted Elections Act, 1874)

In the year one thousand eight hundred and eighty-one, the thirteenth day of July.

PRESENT :

The Honorable Mr. Justice LOUIS BÉLANGER.

In the matter of the Election of a Member of the House of Commons of *Canada* for the Electoral District of *Argenteuil*, in the Judicial District of *Terrebonne*.

(No. 4.)

*Thomas Hickson*, of the Village of *Lachute*, and Parish of *St. Jerusalem d'Argenteuil*, Printer, *John Morell*, of the same place, Shoemaker, *Robert Morrow*, of the Village and Parish of *St. Andrews*, Carriage Builder, *Gaspard de Coligny Denys de la Ronde*, of the said Parish and Village of *St. Andrews*, Notary Public, *James Middleton*, junior, of the said Parish of *St. Andrews*, Farmer, *Hugh Pollock*, of the Parish of *St. Jerusalem d'Argenteuil*, Farmer, *John Martin*, of the said Parish of *St. Andrews*, Farmer, and *Robert Armstrong*, also of the Parish of *St. Jerusalem d'Argenteuil*, Farmer,

*Petitioners.*

*vs.*

The Honorable *John Joseph Caldwell Abbott*, of the City and District of *Montreal*, Queen's Counsel,

*Respondent.*

The Court having heard the parties by their respective counsel, on the merits of the Election Petition filed in this case by the said Petitioners, and praying that the election made on the twelfth February, eighteen hundred and eighty, of the said Respondent as Member to represent the said Electoral District of *Argenteuil* in the House of Commons of *Canada*, be declared null and void, that the said Respondent be declared to have been personally guilty of fraudulent practices during the said election, and in consequence thereof that he be declared disqualified; having examined the procedure and exhibits filed and heard and examined the evidence adduced by both parties and on the whole duly deliberated :

Considering that the Petitioners have not proved the allegations of their Petition of a nature to cause Respondent to be declared personally guilty of corrupt practices in the sense of the Statute, during, before or after the said election, and to cause him to be declared disqualified ;

Dismisses, in consequence, that part of the said Petition ;

And considering that the said Petitioners have established in evidence that the said Respondent did, by his agents in and for the said election, namely : *George Goodwin* and *James F. Sutton*, but without his knowledge and without his participation, practice corruption, and by his said agents promising during the said election, to a large number of voters at the said election, namely, to all the men employed under their control, at the works then in progress on the *Grenville Canal*, to the number of

over one hundred, and with a view of unduly and fraudulently inducing them to vote at the said election, to pay them their full day's work, without deduction for the time they might lose in going to vote at the said election, provided they first came to their place of labor, on the polling day, whence the said agents would carry them or cause them to be carried in their vehicles, to the several polls where the said employees were entitled to vote;

Considering that it is also proved that the said Respondent did, moreover, by *James Goodwin*, another of his agents in and for the said election, practice corrupt intimidation, in contravention of the said Statute, by his said agent dismissing or causing to be dismissed and discharged from his employment, during the said election, or on the very evening of the polling day at the said election, one *William Robinson*, alias *Robertson*, then his employee on the said canal, and for the sole reason that the said *Robertson* had on that day voted at the said election against the said Respondent;

Considering that it is proved that the said Respondent did, moreover, by another of his agents in and for the said election, *H. J. Boswell*, but without his knowledge and without his personal participation, commit and practice during the said election, another act of corruption, by and through his said agent *Boswell*, paying or causing to be paid for and procuring for one *John McMartin*, of the City of *Montreal*, one of the electors duly qualified to vote at the said election, the passenger ticket which was to carry and did in fact carry the latter by way of the *Quebec, Montreal, Ottawa and Occidental Railway*, on the said polling day, namely, the twelfth February, one thousand eight hundred and eighty, from *Montreal* to *Lachute*, in the said Electoral District, and bring him back from the latter place to *Montreal* aforesaid, the whole for the purpose of unduly and fraudulently inducing the said *John McMartin* to go and vote at the said election, at *St. Andrews*, in the said Electoral District, where the said *John McMartin* was there entitled to vote;

Considering that the said acts of corruption, intimidation and corrupt influence, constitute corrupt practices in the sense of the said Dominion Elections Act, 1874, sufficient to render void the said election of the said Respondent;

Declares the said election of the said Respondent null and void for all purposes whatsoever;

And whereas a great part of the *enquête* of the said Petitioners did not tend to prove any of the facts alleged by the said Petition and the statement of facts of the said Petitioners; that at least one-half of the said *enquête* is adverse to the said Petitioners, and that it is unjust to throw the costs thereof on the Respondent;

Condemns the said Respondent to pay the costs of the said Petition, with one half only of the costs of the *enquête* on both sides and condemns the Petitioners to pay the other half of the costs of *enquête*.

(A true copy.)

## BELLECHASSE CONTROVERTED ELECTION.

SUPERIOR COURT, }  
 District of *Montmagny*. }

(The Dominion Controverted Elections Act, 1874.)

Election of a Member of the House of Commons of *Canada*, for the Electoral District of *Bellechasse*, in the Province of *Quebec*, holden on the nineteenth day of *March*, 1881.

ANTOINE MERCIER,  
*Petitioner.*

vs.  
 GUILLAUME AMYOT,  
*Respondent.*

I, the Honorable *Auguste Réal Angers*, one of the Judges of the Superior Court of the Province of *Quebec*, and the Judge before whom the said Election Petition was tried and heard, on the twenty-seventh and twenty-eighth days of October, 1881, and judgment given on the twenty-seventh day of December of the same year, do certify that I determined that the said *Guillaume Amyot* had been duly elected, and that the said election petition was not founded on fact and should be dismissed with costs against the Petitioner, except the costs upon the preliminary objections, and upon the proceedings to replace the paper writings lost out of the Record, these costs being given against the parties respectively;

I further certify that copies of the notes of the evidence taken in the said case, and of the judgment rendered by me, are annexed to these presents, as well as a certificate from the Prothonotary of the Court, establishing that within the delay fixed by law, no proceeding to appeal from this judgment has been taken.

I do further certify that no corrupt practice was proved to have been committed, at this election, by or with the knowledge or consent of the said *Guillaume Amyot*.

That it was proved during the trial, that *Edward Murdoch Mackenzie*, Esquire, Notary, had been guilty of using undue influence by threatening the elector *François Roy*, but that it was not proved that the said *Mackenzie* was an agent of *Guillaume Amyot*.

I do further report that it was not proved, and there is no reason for believing, that corrupt practices have been carried on to any considerable extent at the said election.

I am of opinion that no act of the parties to the said Petition was of such a nature as to render imperfect the evidence taken on the circumstances attending the election, and that it is not desirable that a new trial should be holden with the object of ascertaining whether corrupt practices have been engaged in to a considerable extent.

Given this 21st day of January, 1882.

A. R. ANGERS,  
 J.S.C.

 The Speaker of the House of Commons of Canada, *Ottawa*.

The Honorable *Archibald Woodbury McLelan*, Member for the Electoral District of *Colchester*; *George Guillet*, Esquire, Member for the Electoral District of *Northumberland* (West Riding); *Simon Xavier Cimon*, Esquire, Member for the Electoral District of *Charlevoix*; *John McDougald*, Esquire, Member for the Electoral District of *Pictou*; *James Reid*, Esquire, Member for the Electoral District of *Cariboo*; *Guillaume Amyot*, Esquire, Member for the Electoral District of *Bellechasse*; and *Darius Crouter*, Esquire, Member for the Electoral District of *Northumberland* (East Riding), having previously taken the Oath according to Law, and subscribed before the Commissioners the Roll containing the same, took their seats in the House.

*Ordered*, That Sir *John A. Macdonald* have leave to bring in a Bill respecting the administration of Oaths of Office.

He accordingly presented the said Bill to the House, and the same was received and read the first time.

Mr. Speaker reported, That when the House did attend His Excellency the Governor General this day in the Senate Chamber, His Excellency was pleased to make a Speech to both Houses of Parliament, of which Mr. Speaker said he had, to prevent mistakes, obtained a copy, which he read to the House, as followeth :—

*Honorable Gentlemen of the Senate :*

*Gentlemen of the House of Commons :*

The hope I expressed at the close of the last Session, that on the re-assembling of Parliament we should be able to congratulate ourselves on a season of peace and prosperity has been fully realized.

Canada has been favored with a year of great prosperity.

Her farmers have enjoyed a plentiful harvest and remunerative prices.

Her manufacturing and other industries have been and continue to be developed under favorable auspices.

Her trade and commerce have been steadily increasing, and peace and order prevail within her borders.

For these various blessings we cannot be sufficiently thankful to the Giver of all good things.

The Chief Magistrate of the *United States* has been cut off by the hand of an assassin, and it is fitting that the sorrow of our people for a loss which was not that of our friends and neighbors alone, should be here adverted to as another instance of the sympathy which unites in brotherhood the British Empire and the American Republic.

During the Recess I had the pleasure of visiting the Province of *Manitoba*, and of traversing the extensive prairies of the *North-West*, and from personal examination can sincerely congratulate *Canada* on the possession of so magnificent and fertile a region to be inhabited, I trust, in the course of years, by millions of thriving and contented subjects of Her Majesty.

The immigrants have not confined themselves to *Manitoba* or its vicinity, but are scattered over the country westward to the base of the *Rocky Mountains*, and from the international boundary to the banks of the Northern *Saskatchewan*. It is, therefore, thought that the time has come for the division of the Territories into four or more Provisional Districts with an appropriate nomenclature. The subject will be submitted for your consideration.

During my journey I was met by numerous Indian tribes, all expressing confidence in the continuance of the traditional policy of kindness and justice which has hitherto governed the relations between the Government and the Aborigines.

I regret, however, to say that the necessity of supplementing the food supply of the Indians still exists and is likely to continue for some years.

Every exertion has been made to settle the Indian Bands on Reserves, and to induce them to betake themselves to the raising of cattle and cultivating the soil.

These efforts have met with a fair measure of success, but we can only expect by a long continuance of patient firmness to induce these children of the Prairie and the Forest to abandon their nomadic habits, become self-supporting, and ultimately add to the industrial wealth of the country.

The influx of a white population has greatly increased the danger of collision between the settler and Red man, and in my opinion renders an augmentation of the Mounted Police a matter of urgency. Your sanction to this increase will be sought.

The second Report of the Commission appointed to investigate the existing system of the Civil Service will be laid before you, and a measure on the subject submitted for your consideration.

The decennial Census having been taken last year, the duty of reconsidering and re-adjusting the representation in the House of Commons is imposed upon you. A measure for the purpose will be laid before you.

Several other measures of importance will be submitted to you. Among them will be Bills for the winding up of Insolvent Banks, Insurance Companies and Trading Corporations; for the consolidation and amendment of the Laws respecting the Dominion Lands; for the amendment of the Acts relating to the Supreme Court of *Canada*, and Bills relating to the tenure of office of the Judges of County Courts,

and to Fugitive Offenders within the Empire; and your attention will be called to the present anomalous position of the Vice-Admiralty jurisdiction.

The work of construction on that portion of the Canadian *Pacific* Railway between *Prince Arthur's Landing* and *Winnipeg* is being pressed to completion, and it is confidently expected that in July next, railway communication will be established between those places. The section between *Rat Portage* and *Winnipeg*, one hundred and thirty-five miles in length, has been completed and transferred under the terms of the contract, to the Canadian *Pacific* Railway Company, by whom it is now operated. Considerable progress has been made on the Eastern Section, commencing at *Callander* Station, and the vigorous prosecution of the work on that portion of the line during the present year provided for.

In *British Columbia* the work upon the section between *Swona's Ferry* and *Emory's Bar* is being carried on, with every prospect of its completion within the time specified in the contract, and the line from the latter place to *Port Moody*, which has been carefully located during the past season, is now being placed under contract with a view to its completion at the same date as the section from *Savona's Ferry* to *Emory's Bar*.

Upon the sections to be constructed by the Railway Company, the work has been most energetically carried forward. During the past summer the road has been graded for the distance of two hundred and eighteen miles, and of this, one hundred and sixty-one miles are open for traffic.

The Company have, in addition, graded eighty-nine miles of branch lines.

I am pleased to be able to state that the traffic on the Intercolonial Railway has largely increased, and that this line was during the last fiscal year, for the first time in its history, worked without loss to the country.

The works on the *Welland* Canal were so far advanced that the waters of *Lake Erie* were introduced for its supply in June last, and in September the new portion of the Canal between *Allanburg* and *Port Dalhousie* was opened for traffic.

You will be pleased to know that a monthly line of steamers which has been subsidized under the authority of Parliament, is now plying between the Dominion and *Brazil*, with good hopes of a mutually profitable trade.

The Report of a Royal Commission issued to inquire into the question of factory labor, and into the best means of promoting the comfort and well-being of the workingman and his family, without undue interference with the development of our manufacturing industries, will be laid before you, and I invite your earnest consideration of this report.

*Gentlemen of the House of Commons :*

The Accounts of the last year will be laid before you. It will be satisfactory to you to find that the Expenditure has been less and the Revenue considerably more than the Estimates of last year, leaving a surplus of over four millions of dollars. A portion of this sum has been used in the reduction of the public debt by the redemption of matured debentures bearing six per cent. interest, and the remainder applied to the payment for public works chargeable to capital account. The necessity of issuing the Debenture Loan authorized by Parliament for those purposes has therefore been obviated.

The Estimates of the ensuing year will also be submitted, and will, I trust, be found to have been framed with due regard to economy and the efficiency of the public service.

*Honorable Gentlemen of the Senate :*

*Gentlemen of the House of Commons :*

I now invite your attention to the several subjects mentioned and to the general business which will come before you, with full confidence in your ability and patriotic desire to forward the best interests of the country.

---

On motion of Sir *John A. Macdonald*, seconded by Sir *Leonard Tilley*,  
*Ordered*, That the Speech of His Excellency the Governor General to both Houses of Parliament, be taken into consideration To-morrow.

On motion of Sir *John A. Macdonald*, seconded by Sir *Leonard Tilley*,  
*Resolved*, That Select Standing Committees of this House, for the present Session, be appointed for the following purposes:—1. On Privileges and Elections.—2. On Expiring Laws.—3. On Railways, Canals and Telegraph Lines.—4. On Miscellaneous Private Bills.—5. On Standing Orders.—6. On Printing.—7. On Public Accounts.—8. On Banking and Commerce.—9. On Immigration and Colonization; which said Committees shall severally be empowered to examine and enquire into all such matters and things as may be referred to them by the House; and to report from time to time their observations and opinions thereon, with power to send for persons, papers and records.

Mr. Speaker communicated to the House the Report of the Librarian on the state of the Library of Parliament. (*Sessional Papers No. 13.*)

And then The House adjourned till To-morrow.

Friday, 10th February, 1882.

PRAYERS.

B.*, having previously taken the Oath, according to Law, and subscribed before the Commissioners the Roll containing the same, took their seats in the House.

The following Petitions were severally brought up, and laid on the Table:—

By Mr. *McRory*,—The Petition of *M. B. Wager* and others, of the County of *Addington*.

By Mr. *Casgrain*,—The Petition of the *Stadacona* Fire and Life Insurance Company.

By Mr. *Longley*,—The Petition of the Baptist Convention of the Maritime Provinces.

The Order of the Day being read, for taking into consideration the Speech of His Excellency the Governor General to both Houses of Parliament;

The House proceeded accordingly to take the said Speech into consideration.

Mr. *Bergeron* moved, seconded by Mr. *Gullet*, and the Question being proposed, That an humble Address be presented to His Excellency the Governor General to thank His Excellency for his gracious Speech at the opening of the present Session;

and further to assure His Excellency that we feel with His Excellency, that the hope he expressed at the close of the last Session, that on the re-assembling of Parliament we should be able to congratulate ourselves on a season of peace and prosperity has been fully realized :

*Ordered*, That the Question be put upon each paragraph of the said Motion.

And the first and subsequent paragraphs being again read, and the Question being separately put upon each:—It was resolved in the Affirmative.

*Resolved*, That the said Resolution be referred to a Select Committee composed of Sir John A. Macdonald, Sir Leonard Tilley, Sir Charles Tupper, Sir Hector L. Langevin, Messrs. Bergeron and Guillet, to prepare and report the draft of an Address in answer to the Speech of His Excellency the Governor General to both Houses of Parliament, in conformity to the said Resolution.

Sir John A. Macdonald reported, from the Select Committee appointed to draw up an Address to His Excellency the Governor General, That they had drawn up an Address accordingly, and the same was read, as followeth:—

To His Excellency the Right Honorable Sir John Douglas Sutherland Campbell, (commonly called the Marquis of Lorne), Knight of the Most Ancient and Most Noble Order of the Thistle, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor General of Canada, and Vice-Admiral of the same, etc., etc.

We learn with satisfaction that the second Report of the Commission appointed to investigate the existing system of the Civil Service will be laid before us; and any measure on the subject submitted to us shall receive our willing consideration.

We are aware that the decennial Census having been taken last year, the duty of reconsidering and readjusting the representation in the House of Commons is imposed upon us, and we will carefully consider any measure for the purpose which may be laid before us.

We learn with much interest that several other measures of importance will be submitted to us, and that among them will be Bills for the winding-up of Insolvent Banks, Insurance Companies and Trading Corporations, for the consolidation and amendment of the laws respecting the Dominion Lands, for the amendment of the Acts relating to the Supreme Court of *Canada*, and Bills relating to the tenure of office of the Judges of County Courts, and to Fugitive Offenders within the Empire; and that our attention will be called to the present anomalous position of the Vice-Admiralty jurisdiction; all these measures, when submitted, shall receive our best attention.

We receive with much satisfaction the information which Your Excellency has afforded us respecting the Canadian Pacific Railway, and are glad to know,—

That the work of construction on that portion of the said railway between *Prince Arthur's Landing* and *Winnipeg* is being pressed to completion, and that it is confidently expected that in July next railway communication will be established between those places; that the section between *Rat Portage* and *Winnipeg*, one hundred and thirty-five miles in length, has been completed and transferred under the terms of the contract to the *Canadian Pacific Railway Company*, by whom it is now operated; that considerable progress has been made on the Eastern Section, commencing at *Callander Station*, and that the vigorous prosecution of the work on that portion of the line during the present year has been provided for:

That in *British Columbia* the work upon the section between *Savona's Ferry* and *Emory's Bar* is being carried on, with every prospect of its completion within the time specified in the contract, and that the line from the latter place to *Port Moody*, which has been carefully located during the past season, is now being placed under contract with a view to its completion at the same date as the section from *Savona's Ferry* to *Emory's Bar*.

That upon the sections to be constructed by the Railway Company, the work has been most energetically carried forward; that during the past summer the road has been graded for the distance of two hundred and eighteen miles, and that of this, one hundred and sixty-one miles are completed and open for traffic:

And that the Company have, in addition, graded eighty-nine miles of branch lines.

We share the pleasure expressed by Your Excellency in being able to state that the traffic on the Intercolonial Railway has largely increased, and that this line was during the last fiscal year, for the first time in its history, worked without loss to the country.

We are glad to learn, that the works on the *Welland* Canal were so advanced that the waters of Lake *Erie* were introduced for its supply in June last, and that in September the new portion of the Canal between *Allanburg* and Port *Dalhousie* was opened for traffic.

We are pleased to know that a monthly line of steamers, which has been subsidized under the authority of Parliament, is now plying between the *Dominion* and *Brazil*, with good hopes of a mutually profitable trade.

We shall read with great interest the Report of a Royal Commission, issued to inquire into the question of factory labor, and into the best means of promoting the comfort and well-being of the workingman and his family, without undue interference with the development of our manufacturing industries, which Your Excellency is pleased to say will be laid before us, and shall give it our most earnest consideration.

We thank Your Excellency for the assurance that the Accounts of the last year will be laid before us; it will be satisfactory to us to find that the Expenditure has been less and the Revenue considerably more than the Estimates of last year, leaving a surplus of over four millions of dollars: and we thank Your Excellency for informing us that a portion of this sum has been used in the reduction of the public debt by the redemption of matured debentures bearing six per cent. interest, and the remainder applied to the payment for public works chargeable to capital account; and that the necessity of issuing the Debenture Loan authorized by Parliament for those purposes has therefore been obviated.

We shall respectfully consider the Estimates for the ensuing year, which will also be submitted, and which will, we trust, be found to have been framed with due regard to economy and the efficiency of the public service.

Your Excellency may rest assured that we shall give our best attention to the several subjects mentioned by you, and to the general business which will come before us, and we thank Your Excellency for the expression of your full confidence in our patriotic desire, and our ability to forward the best interests of the country.

The said Address, being read a second time, was agreed to.

*Ordered*, That the said Address be engrossed.

*Ordered*, That the said Address be presented to His Excellency by such Members of this House as are of the Queen's Privy Council.

On motion of Sir *Leonard Tilley*, seconded by Sir *John A. Macdonald*,

*Resolved*, That this House will, on Tuesday next, resolve itself into a Committee to consider of the Supply to be granted to Her Majesty.

On motion of Sir *Leonard Tilley*, seconded by Sir *John A. Macdonald*,

That the said Regulations make no adequate provision to secure any working of the coal mines by the lessee;

That the said Regulations provide, by the arrangement for 21 year leases, renewable, for the creation of interests of longer duration than prudence at this time would, as a general rule, lay down;

That they make no proper provision for the settlement of the terms of renewal;

The Order of the Day being read, for the House again in the Committee of Supply; Sir *Leonard Tilley* moved, seconded by Sir *John A. Macdonald*, and the Question being proposed, That Mr. Speaker do now leave the Chair;

Mr. *Mackenzie* moved, in amendment, seconded by Sir *Albert J. Smith*, That all the words after "That" to the end of the Question, be left out, and the words "from a Return laid on the Table of the House by the Minister of Railways, it appears that tenders were invited on the 24th day of October for the construction of part of the Canadian Pacific Railway from *Port Moody* to *Emory's Bar*, such tenders to be received up to the first day of February last; and that 14 tenders were received, varying from \$2,277,000 to \$3,531,832, and that the lowest tender was that of Messrs. *Macdonald* and *Charlebois* for \$2,277,000, and the next lowest was that of *Andrew Onderdonk* for \$2,486,255, or \$209,255 higher:

"That it appears that with their tender, *Macdonald* and *Charlebois* sent a cheque for \$20,000, the sum mentioned in the conditions, dated on the 23rd day of January last, drawn on the Bank of *Montreal*, at *Montreal*, which cheque was accepted by the said Bank, but the acceptance stamp contained the words 'Good for two days only.'

"That it appears by letter from Mr. *Clouston*, Manager of the Bank of *Montreal*, that 'the limit of two days only' was unintentional, and it was simply an oversight that this was not at once struck out. It was certainly our intention to 'guarantee the cheque until paid.'

"That it appears by letter of Mr. *Drummond*, Manager of the Bank of *Montreal* at *Ottawa*, that he explained to the Department of Railways and Canals, that the limitation on the acceptance stamp on the cheque had been inserted by the Bank inadvertently, and without its being known when issued:

"That it appears from the statement of *A. P. Bradley*, Private Secretary of the Minister of Railways and Canals, and of *Andrew Drummond*, that pursuant to the instructions of the Minister, given him on Saturday, February 4th, Mr. *Bradley* called on Mr. *Drummond* at half-past ten in the morning of Monday, February 6th, and handed him the said cheque, asking him whether he would pay it, or whether it was still good, to which Mr. *Drummond* replied that he must enquire at the Head Office, on which the cheque was drawn, and that it was then arranged between them that such enquiry should be made, and further that enquiry should be made as to how long it would be held good, and Mr. *Bradley* franked a blank telegram for the purpose, which Mr. *Drummond* filled in, and despatched:

"That it appears that a telegraphic reply was received from the Head Office, as follows:

'Please strike out 'for two days only,' from our acceptance stamp, the cheque will be good until paid.'

"That it appears that Mr. *Drummond*, at one o'clock on the said 6th day of February, handed this telegram to Mr. *Bradley*, who requested that it should be left with him, and that it was so left accordingly, and that Mr. *Bradley* on the same day handed it to the Minister of Railways and Canals :

"That it thus appears that on the 6th February, the Minister was in possession of the answer to his enquiry, and knew that the restriction in the acceptance stamp so inadvertently placed there was not held binding by the Bank, and that it was to be struck out, and that the cheque was and would be held good until paid :

"That it appears that on the 7th day of February, the Minister reported to Council that 'the tender of *Macdonald* and *Charlebois* which was the lowest is irregular inasmuch as the cheque which accompanies it, was marked by the Bank of *Montreal* on the 24th February, 1882, as good for two days only, and that the lowest tender made in conformity with the conditions is that of Mr. *Andrew Onderdonk* for \$2,486,255,' and recommending the acceptance of the latter :

"That it appears that on the 8th day of February, an Order in Council was passed, based on, and according to the said recommendation awarding the contract to the said *Onderdonk* :

"That the Report of the Minister to Council does not state the facts hereinbefore set out as to his enquiries about the cheque and the results of such enquiry :

"That no enquiries were made or communication addressed to *Macdonald* and *Charlebois* on the subject before the said Order in Council :

"That on the 10th day of February, in response to an application from *Macdonald* and *Charlebois*, the Secretary of the Department of Railways and Canals informed them that their tender could not be considered for want of cheque marked good, as required by specification :

"That it appears that on a Petition from *Macdonald* and *Charlebois*, a reconsideration of the matter took place, when the Council determined to adhere to the previous decision :

"That the contract laid on the Table, and executed in pursuance of the said Order in Council between the said *Andrew Onderdonk* is not binding, if disapproved by this House :

"That by maintaining the decision to reject the tender of *Macdonald* and *Charlebois*, and award the contract to the said *Andrew Onderdonk*, a sum of \$209,255, will be lost to the country :

"That under the circumstances stated the tender of *Macdonald* and *Charlebois* should be accepted, and the said sum of \$209,255 saved :

"That this House cannot approve of the said contract with the said *Andrew Onderdonk*, whereby the said sum of \$209,255 will be lost to the country ;" inserted instead thereof ;

And the Question being put on the Amendment ; the House divided : and the names being called for, they were taken down, as follow :—

REPORT OF THE SUB-COMMITTEE.

COMMITTEE ROOM, 21st February, 1882.

The Sub-Committee of the Joint Committee on the Printing of Parliament, to whom was referred the audit of the Printing Accounts for the past year, beg leave to report as follows:—

That they have carefully examined the annual Statement of the Parliamentary Printing Accounts, and having verified the expenditure by the accounts and vouchers as well as by the cheques which were issued in payment of the same, and being thus satisfied of their correctness, have so certified and signed their names.

The Sub-Committee would draw especial attention to the fact that these accounts, vouchers and cheques had already been furnished the Auditor-General monthly, as well as the annual statement for audit and examination, and have been certified to as per his letter annexed to the annual Statement.

The Sub-Committee have much pleasure in again drawing attention to the further reduction effected under the supervision of the Committee in the cost of the printing services of the past year, amounting to \$5,572.02.

This result has been attained by the care taken in not printing returns of a private or local nature which do not affect the public welfare, as also by the very favorable prices which pertain in the present contracts.

Under the above circumstances, the Sub-Committee concur in the recommendation that the Estimates for the next year be reduced by \$10,000.

All which is respectfully submitted.

REPORT OF THE CLERK OF THE COMMITTEE.

COMMITTEE ROOM, 16th February, 1882.

*To the Chairman and Members of the Joint Committee on Printing.*

GENTLEMEN,—In submitting the usual annual Statement shewing the expenditure for the Printing of Parliament, I would draw attention to the further decrease in the cost for the past year of \$5,572.02.

The reductions in the two past years are to be attributed, in the first place, to a diminution of the quantity of work to be performed as recommended by the Committee, and, secondly, and in a much larger degree, to the very material difference in the prices which prevail under the present contract as compared with those of the previous one.

Under the circumstances I have felt justified in asking that the Estimate for the Parliamentary Printing for the next year be reduced by \$10,000, subject to the approbation of the Committee.

The annual Statement was submitted to the Auditor-General for examination, he having previously been furnished monthly with all the accounts and vouchers that had passed through my hands, as well as the cheques issued by me in payment of those same accounts. The only difference between us, as shown by his letter appended, is the application of the money paid by parties for the printing of their Private Bills, he treating it as "Casual Revenue," while I charge it as a "Refund" for the purpose for which it was intended, viz. : for reducing the cost of Private Bill Legislation. The accounts, vouchers and cheques are still in the custody of the Auditor-General.

The several services have been performed in the usual satisfactory manner; no complaints have been made to me.

I have the honor to be,  
Your obedient and humble servant,

HENRY HARTNEY,

Your Committee have also considered the Bill to amend the Charter of the *Fellows' Medical Manufacturing Company*, and have agreed to report the same, without any amendment.

Sir *Hector L. Langevin*, a Member of the Queen's Privy Council, laid before the House,—Memorandum, with accompanying plans and documents relative to the past and present state of the Harbor of *Toronto*, Province of *Ontario*, prepared by direction of the Hon. Sir *Hector Langevin*, C.B., K.C.M.G., Minister of Public Works; and also, Report on the *Toronto Harbor, Ontario*, by *James B. Eads*, C.E., 1882. (*Sessional Papers, No. 144*.)

The Order of the Day being read, for the House again in the Committee of Supply;

Sir *Leonard Tilley* moved, seconded by Sir *Hector L. Langevin*, and the Question being proposed, That Mr. Speaker do now leave the Chair;

Mr. *Charlton* moved, in amendment, seconded by Mr. *Scriver*, That all the words after "That" to the end of the Question, be left out, and the words "the present Land Regulations provide that odd-numbered Sections in the Canadian *North-West*, outside of the Canadian *Pacific* Railway Belt, shall be open to sale without conditions of settlement.

"That the so-called Colonization Plan Number One, provides that parties may purchase large tracts of land on credit at \$2 per acre, with a proviso for the rebate of one half of the price on certain conditions, thus reducing the cost to \$1 per acre; or one half the price charged to individual settlers for their pre-emptions, or other purchases in odd Sections.

"That the so called Colonization Plan Number Two, provides that parties may purchase large tracts embracing all the Government lands within their area (from which homestead and pre-emption settlers are thus to be excluded), paying \$2 per acre, without any express conditions of forfeiture in case of non-settlement, and with the additional advantage of a large rebate, amounting under certain conditions to \$1 per acre from the price, in case the purchasers choose to effect a so-called settlement within each Township, but without any provision as to the acreage to be given, or the interest to be secured to each so-called settler.

"That these Regulations are calculated injuriously to affect the future of the country by facilitating the creation of large landed estates; by placing extended areas of the choicest lands in the hands of speculators, who have favorable opportunities of securing them in anticipation of the settler, and who may hold them for a large advance to be paid by the ultimate settler, whereby the country will gain nothing

“in price, and will lose through the diminished ability of the settler to contribute to the public revenues.

“That, in the opinion of this House, our aim should be to people the agricultural regions of the *North West* with independent freeholders, each cultivating his own farm, and paying therefor no more than the Public Treasury receives; and that, save in the case of town plots, or other exceptional cases, the sale of *North-West Agricultural Lands* should as a rule be made to actual settlers only, on reasonable conditions of settlement, and in quantities limited to the area which can be reasonably occupied by a settler,” inserted instead thereof;

And a Debate arising thereupon;

And it being Six o’Clock, P.M., Mr. Speaker left the Chair, to resume the same at half-past Seven o’Clock, P.M.

*Half-past Seven o’Clock, P.M.*

Sir *John A. Macdonald*, a Member of the Queen's Privy Council, then acquainted the House, That His Excellency the Governor General, having been informed of the subject-matter of this Motion, recommends it to the consideration of the House.

*Resolved*, That this House will, on Tuesday next, resolve itself into the said Committee.

The Order of the Day being read, for the House again in the Committee of Supply; Sir *Leonard Tilley* moved, seconded by Sir *Hector L. Langevin*, and the Question being proposed, That Mr. Speaker do now leave the Chair;

Mr. *Cameron (Huron)* moved, in amendment, seconded by Mr. *Flynn*, That all the words after "That" to the end of the Question, be left out, and the words "in the opinion of this House, the power of disallowing Acts of a local nature conferred by 'The *British North America Act, 1867*,' is vested in the Governor General in Council, and that His Excellency's Ministers are responsible to Parliament for the action of the Governor General in exercising or abstaining from the exercise of the said power.

"That it is of the essence of the Federal principle as embodied in our constitution that the said power should be used only in cases where the law and the general interests of the dominion imperatively demand it.

"That it would impair the Federal principle and the independence, constitutional powers, autonomy and institutions of the several Provinces to allow of the exercise of the said power in regard to legislation on subjects within the exclusive competence of the Local Legislatures on the ground that in the opinion of His Excellency's advisers or of the Canadian Parliament any such legislation is wrong.

"That the question of propriety is under the constitution one to be decided exclusively by the Local Legislature on its responsibility to the people of the Province who are the sole judges of such action.

"That the only exception which has heretofore been proposed in such cases is where the measure prejudicially affects the interests of the Dominion generally.

"That it has been the rule ever since 1868 not to exercise the power of disallowance on the ground that a measure is considered only partially defective or objectionable as being prejudicial to the general interests of the Dominion without communication with the Provincial Government nor (if the general interests permit such a course) until after the Local Government has an opportunity of considering and discussing the objections taken and the Local Legislature has also had an opportunity of remedying the defects found to exist.

"That it appears from the papers laid on the Table of this House that an Act passed by the Legislature of *Ontario* on the 4th March, A.D., 1881, and intitled: "An Act for protecting the Public interests in Rivers, Streams and Creeks," was disallowed by His Excellency in Council on the 19th day of May, A.D., 1881, by Order approving a Report which does not assert that the said Act is beyond the competence of the Local Legislature but expresses an opinion adverse to the propriety of certain provisions of the Act.

"That the said Act was within the exclusive competence of the Local Legislature and was not of such a nature as to render its provisions subject to the judgment of or disallowance by the Government of *Canada*.

"That the Minister of Justice and the Government of *Canada* had under these circumstances no right to act on their opinion whatever it might be as to the propriety or impropriety of the said Act.

"That it appears from the papers that no communication was had with the Government of *Ontario* on the subject of the said Act prior to the disallowance, nor was any opportunity given to the Government of considering or discussing the objections, or to the Legislature of *Ontario* to deal with the alleged defects.

"That the papers laid on the Table show the importance of such communication and discussion, and the danger of action by the Minister on the *ex parte* statement and argument of a Petitioner against the Act.

"That the said exercise of the power of disallowance was not in accordance with the principle of the constitution, and that the said Act should have been left to its operation," inserted instead thereof;

And a Debate arising thereupon;

And it being Six o'Clock, P.M., Mr. Speaker left the Chair, to resume the same at half-past Seven o'Clock, P.M.

The following Petitions were severally brought up, and laid on the Table:—

By Mr. *Beaty*,—The Petition of the Reverend *James Cooper Antliff*, M.A., B.D. and others, of *Toronto*.

By Mr. *Shaw*,—The Petition of the Reverend *Daniel Duff* and others, of the Township of *Brant*; and the Petition of *George Leask* and others, of *Greenock*, County of *Bruce*.

Sir *Hector L. Langevin*, from the Select Standing Committee on Railways, Canals and Telegraph Lines, presented to the House the Fourteenth Report of the said Committee, which was read, as followeth:—

Your Committee have carefully considered the following Bills, and have agreed to report the same, with amendments, viz:—

Bill to incorporate the *Rapid City Central Railway Company*.

Bill to incorporate the *Great American and European Short Line Railway Company*.

Bill from the Senate, intituled: “An Act to incorporate the *Montreal and Central Canada Railway Company*.”

With reference to the Bill to incorporate the *Great American and European Short Line Railway*, the Committee have amended the Preamble thereof, to make it conform to the provisions contained in the said Bill.

With reference to the Bill to incorporate the *Saskatchewan, Qu'Appelle and Assiniboine Navigation Company*,—and the Bill to amend the Act to incorporate the *St. Lawrence and Pacific Railway Ferry Company*, the promoters thereof having signified their intention of not proceeding with the said Bills, the Committee would recommend that they be withdrawn, and that the Fees and charges paid thereon, less the charges of printing and translating, be refunded.

With reference to the Bill to incorporate the *Grand Central Station Company*, they beg to report the Preamble thereof not proven, for the reason that legislative interference is neither desirable nor necessary, and would therefore recommend that the Fee and charges paid thereon, be refunded, less the charges of printing and translating.

With reference to the Bill to provide that *Railway Passenger Tickets* shall be available to the holder thereof until used, the Committee recommend that it be withdrawn.

On motion of Sir *Hector Langevin*, seconded by Sir *Charles Tupper*,

Ordered, That the Bill to incorporate the *Saskatchewan, Qu'Appelle and Assiniboine Navigation Company*; and the Bill to amend the Act to incorporate the *St. Lawrence and Pacific Railway Ferry Company*, be severally withdrawn; and that the Fees and charges paid on said Bills, less the charges of printing and translating, be refunded, in accordance with the recommendation of the Select Standing Committee on Railways, Canals and Telegraph Lines.

On motion of Sir *Hector Langevin*, seconded by Sir *Charles Tupper*,

Ordered, That the Fee and charges paid on the Bill to incorporate the *Grand Central Station Company* be refunded, less the charges of printing and translating, in accordance with the recommendation of the Select Standing Committee on Railways, Canals and Telegraph Lines.

Ordered, That Mr. Guthrie have leave to bring in a Bill to annul unjust conditions in Bills of Lading.

He accordingly presented the said Bill to the House, and the same was received and read the first time; and ordered to be read a second time on Monday next.

The Order of the Day being read, for the House again in the Committee of Supply;

Sir Leonard Tilley moved, seconded by Sir Hector L. Langevin, and the Question being proposed, That Mr. Speaker do now leave the Chair;

Mr. Blake moved, in amendment, seconded by Sir Richard J. Cartwright, That all the words after "That" to the end of the Question, be left out, and the words "Canada no longer occupies the position of an ordinary dependency of the Crown; she numbers over four millions of freemen trained in the principles of constitutional Government; she comprises one-half of the North American Continent, including seven Provinces federally united under an Imperial Charter which recites that her constitution is to be similar in principle to that of the United Kingdom; and she possesses executive and legislative authority over vast areas in the North-West out of which one Province has already been created and in time others will be formed."

"That special and increasing responsibilities devolve upon the Government and Parliament of Canada in connection with the development of her resources, the improvement of her condition, her general progress in the scale of Nations, and her geographical situation which renders her even more responsible than the Government of the United Kingdom for the maintenance of International relations with the United States.

"That having regard to these considerations there is no possession of the Crown beyond the limits of the United Kingdom which is entitled to such an ample measure of self-Government or so full an application of the principles of constitutional freedom as the Dominion of Canada.

"That it would be for the interest of Canada to obtain freer access to the markets of the world; and that a more extended interchange of commodities with other countries would augment the national prosperity.

"That in most of the treaties of Commerce entered into by England reference has only been had to their effect on the United Kingdom, and the Colonies have been excluded from their operation, a fact which has been attended with unfortunate results to Canada especially as relates to France.

"That the conditions of Canada, and the system on which her duties of Customs have been and are now imposed, vary widely from those existing in the United Kingdom, and open in relation to the basis and negotiation of commercial arrangements with other States or British possessions, views and considerations which do not apply to the case of or harmonize with the policy of the United Kingdom; which it is difficult for the Government of the United Kingdom to advance; and which can be best realized and presented by the Government of Canada through a negotiator named by her for the purpose of providing separate trade conventions with countries with which Canada has or may expect distinct trade.

"That the complications and delays involved in the reference to the Departments of the Government of the United Kingdom of points arising in the course of trade negotiations enhance the difficulties of the situation and diminish the chances of success; and have already resulted in loss to Canada.

MOST GRACIOUS SOVEREIGN,

We, Your Majesty's dutiful and loyal subjects the Senate of *Canada* in Parliament assembled desire to represent:—

That the Parliament and Government of *Canada* have all the powers necessary or proper for establishing within *Canada* a Court with jurisdiction similar to the jurisdiction of the British Vice-Admiralty Courts, now existing in *Canada*, with respect to all matters arising out of or connected with navigation, shipping, trade or commerce.

That by Act of the Parliament of *Canada*, passed in the Fortieth year of Your Majesty's Reign, Chapter 21, intituled: "An Act to establish a Court of Maritime Jurisdiction in the Province of *Ontario*," *The Maritime Court of Ontario* was established, which Court has, as to all matters arising out of or connected with navigation, shipping, trade or commerce on any river, lake, canal or inland water, of which the whole or part is in the Province of *Ontario*, all such jurisdiction as belongs in similar matters within reach of its process to any existing British Vice-Admiralty Court.

That it is expedient to make provision by an Act of the Canadian Parliament for the establishment of one Maritime Court for *Canada*, to take the place of the Maritime Court of *Ontario*, and of the British Vice-Admiralty Courts now existing in *Canada*.

And praying that Your Majesty may be graciously pleased to take the Address into consideration, and to signify Your Royal pleasure as to withdrawing from *Canada* the existing British Vice-Admiralty Courts, in case the Parliament of *Canada* legislate for the establishment of one Maritime Court for *Canada*.

And also, that Your Majesty may be graciously pleased to invite Your Imperial Parliament to grant to the Parliament of *Canada*, the necessary legislative authority to confer upon such Court so much of that part of the jurisdiction of the existing British Vice Admiralty Courts over which the Parliament of *Canada* has not now legislative authority, as Your Majesty may be pleased to think necessary or expedient.

"It shall be the duty of the Minister to invite tenders, by public advertisement, for the execution of all works, except in cases of pressing emergencies where delay would be injurious to the public interests, or where from the nature of the work, it could be more expeditiously and economically executed by the officers and servants of the Department."

That the contract with *H. J. Beemer*, laid on the Table, for the construction of the works on Section 27, of the *Welland* Canal, for the sum of \$759,170, was made, without inviting tenders for such works, by public advertisement.

*Alexander Manning*, of *Toronto*, Ontario,  
*Alexander S. Brown*, of *Belleville*, Ontario,

That subsequently the said contract was ordered to be made, and the same now is binding, unless disapproved of by a Resolution of the House of Commons.

That this House will thus share the responsibility of Ministers unless it disapproves of the said contract.

That the said contract so let, without inviting tenders by public advertisement, and on circulars addressed only to ten persons, was a violation of the law and the policy of Parliament, and deprived the country of the securities and advantages to be derived from adherence to the law and policy which prescribes a free and open competition for such works.

The Order of the Day being read, for the third reading of the Bill respecting the Civil Service of *Canada*;

Sir *Hector L. Langevin* moved, seconded by Sir *Leonard Tilley*, and the Question being proposed, That the Bill be now read the third time;

Mr. *Casey* moved, in amendment, seconded by Mr. *Blake*, That all the words after "That" to the end of the Question, be left out, and the words "by the Report of the "Sub-Committee of Council of the 14th June, 1880, on the subject of the Civil Service, "it was declared that 'many men have, by old age, incapacity, bad habits or continued idleness, become unavailable for useful purpose—the number of men in each "Department has increased, it is thought out of proportion to the needs of the Service. "'Young men have been appointed who from want of education or strength of constitution or general unfitness, have not made, and will never become, efficient public "servants. The general expense has been increased by the tendency of the existing "rules to the gradual culmination of officers by mere force of survivorship into the "'more highly paid classes,' and that a reconsideration of the question is desirable "with a view to seeking greater economy in all the Departments by the weeding out "of men who, from any of the causes named, are no longer efficient public servants, "and a Commission was recommended.

"That by the Report of the Civil Service Commission appointed accordingly, "objection is taken to appointment by political influence and patronage; and the "Commissioners say:—

"'To this baneful influence, we believe, may be traced nearly all that demands "change. It is responsible for admission to the Service of those who are too old to be "efficient; of those whose impaired health and enfeebled constitutions forbids the "hope that they can ever become useful public servants; of those whose personal "habits are an equally fatal objection; of those whose lack of education should "disqualify them; and of those whose mental qualities are of an order that has made "it impossible for them to succeed in private business. It is responsible too for the "'appointment of those who desire to lead an easy and, what they deem, a genteel life.

“ To the same influence may be ascribed most of the appointments of men taken from beyond the Service to the best places over the heads of tried and efficient servants.

“ Political patronage is responsible for other evils, and we do not hesitate to express the conviction that many unnecessary Civil officers have been retained, and that new places have been created, for no better purpose than to provide for the followers of influential politicians.’

“ That the Commission declares that the only remedy for the evils it discloses can be found in completely eliminating all traces of political patronage, and proposes probationary appointments by open competitive examination under an independent Civil Service Commission.

“ That the Bill does not adopt this principle.

“ That the Bill be recommitted to a Committee of the Whole House, with instructions that they have power to amend it so as to provide for probationary admission to the Civil Service by open competitive examination under an independent Civil Service Commission.

“ That the Report of the Sub-Committee of Council of the 14th June, 1880, on the subject of the Civil Service states, that the general expense has been increased by the tendency of the existing rules to the gradual culmination of officers by mere force of survivorship into the more highly paid classes.

“ That the Report of the Civil Service Commission finds that, ‘ while by far the greater portion of the work of the Department is of a purely routine character, and such as in private business would be performed by men receiving comparatively low salaries, it has heretofore been largely done by clerks who, by mere force of survival, have been advanced to the highest grades of the Service. This, we believe, is a fruitful source of unnecessary cost,’ and declares that ‘ the routine work of the Departments, such as checking, comparing, copying, compiling and transcribing Accounts and Documents, so far as we can ascertain, comprises four-fifths of the whole work to be done, and requires for its performance no special attainments beyond what can be acquired in the Common Schools. The Clerks in this class should be promoted only on having passed a competitive examination, and thereby attained such a position as the lists herein referred to of Clerks eligible for promotion as will establish their fitness to fill the vacancies that may occur in the higher grades. The salary at first entrance, we propose, shall be \$500, advancing by biennial increment of \$100 to \$900.’

“ That the Bill be recommitted to a Committee of the Whole House, with instructions that they have power to amend the same by providing for the creation of a class of writers to discharge such routine work, with salaries proportionate to the nature of their duties, with a view to greater economy,” inserted instead thereof;

Of *James Douglas* and other Members of the Presbyterian Congregation of *Morris*, Town of *Morris*, Province of *Manitoba*; praying that effect be given by the Parliament of *Canada* to the wishes of the late Synod of the Presbyterian Church of *Canada*, as expressed in the Act lately declared invalid, by passing the same into law.

Of *John Duncan* and others, of *Thamesville*; and of *William Mowbray* and others, of the Township of *Howard*; severally praying for the adoption of such measures as will prevent the running of Railway Trains on the Lord's Day.

Mr. *Bowell*, a Member of the Queen's Privy Council, presented,—Return to an Order of this House, dated 24th April, 1882, for a Return of all Import Duties collected at or near the Boundary Line between the Province of *Manitoba* and the *Rocky Mountains*. (*Sessional Papers*, No. 171.)

On motion of Sir *Leonard Tilley*, seconded by Sir *John A. Macdonald*,

*Resolved*, That this House will, on Monday next, resolve itself into a Committee to consider a certain proposed Resolution respecting Free Postage on Newspapers.

The Order of the Day being read, for the second reading of the Bill to re-adjust the Representation in the House of Commons, and for other purposes;

And Objection being taken by Mr. *Blake*, Member for the Electoral District of West Riding of the County of *Durham*, to the second reading, on the ground that material alterations had been made in the Bill since its introduction, and that it was

not, in consequence of such alterations, the same Bill that had been presented to the House by the Hon. Minister of the Interior ;

Mr. Speaker decided: "There is no doubt that the point of order is very important, and should be carefully decided, with a view to settle such questions in the future. It is true that a loose practice has prevailed in the House, and that Bills have been even allowed to be introduced in blank, without objection being taken. But the rule is absolute, and such a practice should not be permitted. It is also equally established that when a Bill is once in possession of the House, it becomes its property, and cannot be materially altered, except by the House itself. I think, since this point has been raised, it is best to follow the settled practice of the English House of Commons, and not to permit hereafter any change, except mere clerical alterations, in a Bill when it has been once regularly introduced. I, therefore, decide that the point of Order is well taken, and that the proper course, under the circumstances, is to discharge the Order, and re-introduce the Bill on the previous Order for leave."

*Ordered*, That the said Order be discharged.

*Ordered*, That the Bill be withdrawn ; and that leave be given to present another Bill instead thereof.

Sir *John A. Macdonald* presented a Bill to re-adjust the Representation in the House of Commons, and for other purposes : And the same was received and read the first time ; and ordered to be read a second time on Monday next.

The Order of the Day being read, for the House again in the Committee of Supply ;

Sir *Leonard Tilley* moved, seconded by Sir *Hector L. Langevin*, and the Question being proposed, That Mr. Speaker do now leave the Chair ;

Sir *Richard J. Cartwright* moved, in amendment, seconded by Mr. *Blake*, That all the words after "That" to the end of the Question be left out, and the words "the expenditure for the year 1878 was \$23,503,158 ;

"That the expenditure for 1881 was \$25,502,554 ;

"That the Estimates for the year ending 30th June, 1883, amount to \$27,999,483.86 cents, independent of several large amounts, proposed to be added to the annual expenditure, involving a further addition of \$410,000 more ;

"That many of the items charged to Capital Account, are of a character which might more properly be charged to Income ;

"That a very large proportion of this expenditure consists of fixed charges, or of charges of a permanent character, which when once created are either incapable, or very difficult of reduction ;

"That recent legislation and the completion of existing engagements, will result in a steady increase of the fixed charges within a few years ;

"That experience has shewn that the consequence of rapidly increasing the fixed charges, is to produce great embarrassment in the Public Finances ;

"That this House views with regret the proposal of the Government to expend for the year 1883, \$2,906,927 more than the expenditure for 1881, and \$4,906,325 more than the expenditure for all purposes in 1878 ;" inserted instead thereof ;

And the Question being put on the Amendment ; the House divided : and the names being called for, they were taken down, as follow :—

Sir *John A. Macdonald* moved, seconded by Sir *Hector L. Langevin*, and the Question being proposed, That the Bill be now read a second time;

Mr. *Blake* moved, in amendment, seconded by Sir *Richard J. Cartwright*, That all the words after "That" to the end of the Question, be left out, and the words "in dealing with the representation of the people in Parliament, the Municipal County organization has been observed in all the Provinces, save *Ontario*, and that in *Ontario* the said organization modified by a division of Municipal Counties into Ridings, has been generally observed;

"That on the occasion of the re-adjustment of 1872, the soundness of the said plan of observing the Municipal County organization, and the evil consequences of a departure therefrom, were recognized by Parliament, and on that occasion the First Minister of the day, Sir *John A. Macdonald* announced, with approval from all sides, the policy of the Government to the following effect, viz:—'with respect to the rural constituencies, the desire of the Government has been to preserve the representations for Counties, and sub-divisions of Counties as much as possible. It is considered objectionable to make representation a mere geographical term. (hear, hear). It is decided as much as possible to keep the representation within the County, so that each County that is a Municipality of *Ontario* should be represented, and if it becomes large enough, that it should be divided into Ridings—that principal is carried out in the suggestions I am about to make. That rule was broken in 1867, in three constituencies, viz:—*Bothwell*, *Cardwell* and *Monck*; and I do not think on the whole that the experiment has proved a successful one. I do not think it was unsuccessful as far as the representatives of those new constituencies themselves were concerned, as they are well and ably represented by the gentlemen who now hold seats for the constituencies; and I hope that if I am returned again to the next Parliament, I shall meet those hon. Members. But it is obvious that there is a great advantage in having Counties elect men whom they know. Our Municipal system gives an

“admirable opportunity to constituencies to select men for their deserts. We all know the process which happily goes on in Western *Canada*. A young man in a County commences his public life by being elected by the neighbors who know him, to the Township Council. If he shows himself possessed of administrative ability, he is made a Reeve or Deputy-Reeve of his County. He becomes a Member of the County Council, and as his experience increases, and his character and abilities become known, he is selected by his people as their representative in Parliament. It is, I think, a grand system that the people of *Canada* should have the opportunity of choosing for political promotion the men in whom they have most confidence and of whose abilities they are fully assured. All that great advantage is lost by cutting off a portion of two separate Counties, and adding them together for Electoral purposes only. Those portions so cut off have no common interest; they do not meet together, and they have no common feeling except that once in five years they go to the polls in their own township to vote for a man who may be known in one section and not in another. This tends towards the introduction and development to the American system of caucuses, by which wirepullers take adventurers for their political ability only, and not for any personal respect for them. So that as much as possible, from any point of view, it is advisable that Counties should refuse men whom they do not know, and when the representation is increased, it should be by sub-dividing the Counties into Ridings.’ \* \* \* \*

“I believe the House generally agrees with me that the County organization should be preserved as much as possible. I have observed this principle and no County in *Ontario* has been split up.’

“That the said principle of observing, as far as possible, the limits of the Municipal Counties in adjusting the Parliamentary representation is sound and should be followed in the said Bill for the reasons so given by Sir *John A. Macdonald*, and approved by Parliament; and also because it affords some safeguard against the abuse of power by the party in office to adjust the representation unfairly towards their opponents.

“That the said Bill is framed in utter violation and total disregard of the said principle, since it takes away territory from the Municipal Counties for Electoral purposes, and conjoins for Electoral purposes territories having no Municipal County relations with each other in a very large proportion of the constituencies of *Ontario*; while, at the same time, it does not effect the professed object of equalizing the population of the Electoral Districts,” inserted instead thereof;

And a Debate arising thereupon;

And the House having continued to sit till after Twelve of the Clock on Tuesday morning;

*Tuesday, 9th May, 1882.*

Mr. *Mills* moved, seconded by Mr. *Anglin*, and the Question being put, That the Debate be adjourned:— It passed in the Negative.

And the Question being put on the Amendment; the House divided: and the names being called for, they were taken down, as follow:—

(*Sessional Papers, No. 59d.*)

Mr. *Colby*, from the Joint Committee of both Houses on the Library of Parliament, presented to the House the First Report of the said Committee, which was read, as followeth:—

Adverting to their recommendation made at the last Session of Parliament, approving of the purchase, from Mr. *Gerald E. Hart*, of his valuable and unique Collection of coins and medals, illustrating the History of *Canada*, from the first settlement of the country under the French régime, to the present time, the Committee desire to renew the expression of their opinion in favor of this purchase. They understand that Mr. *Hart* is still willing to dispose of the Collection for the sum of Two thousand five hundred dollars. But he has since compiled a descriptive Catalogue of the pieces, which appears to be of much historical interest, independently of its special utility as explaining the worth of each individual coin and medal. For this catalogue an additional sum of Five hundred dollars is asked. The Committee consider this to be a reasonable price, and they advise that if the Government ask and obtain the consent of Parliament to the purchase of this Collection, and decide to deposit it in the Library of Parliament, the Catalogue be printed for the information of Members. Proper arrangements should also be made for the care, exhibition, and safe keeping of the Coins.

Since the removal of the Supreme Court from the Parliament House to a separate Building, much inconvenience has arisen to the Judges and lawyers attending the Court, on account of the inaccessibility of the Law Books which should be on hand for consultation. With a view to avoid unnecessary expenditure in the purchase of duplicate works, and at the same time to afford all possible facility for reference to the Judges, the Committee have approved of the transfer of the series of Law Reports (those of the English Courts up to the year 1865, and the American Reports to the present time, with the continuations hereafter procured) from the Parliament Library to the Court Building. These Books, however, still to remain the property of the Library of Parliament, and to be in charge of a clerk detailed from the Library for this service. It is also to be understood, that Members of

Parliament, Government Officers, and all other persons heretofore permitted to have access to these Books, shall have equal liberty to consult them in the Court Building as formerly. The Committee object to the removal from the Parliament Library of any text-books or Colonial Reports. Such Books they consider should be purchased for the exclusive use of the Supreme Court.

In the apartment recently vacated by the Supreme Court, but now occupied as a News Room for the House of Commons, the Committee observe that shelves have been placed for the reception of Books. The Committee believe that the use of these shelves by the Librarian would add very materially to the accommodation increasingly required. But they agree with the Librarian in the opinion that before this shelving could be safely utilized, it will be necessary that it should be covered in by sliding glass doors, and should be placed under lock and key. When this has been done, large series of Books, not in frequent use, can be deposited in this apartment, without risk, and with considerable advantage.

The Committee would advise that the transcripts of papers, and original historical documents concerning *Canada*, which have been, or may hereafter be collected under the direction of the Bureau of Agriculture and Statistics, should be permanently deposited in the Library of Parliament, which already contains much important material, in manuscript, of a similar description. They also recommend that the drafts of the Constitutions granted to the British North American Colonies, recently applied for by Address of the House of Commons, should be placed in the Canadian department of the Library, when received from *England*.

The Committee observe, with surprise and regret, that there has been much irregularity in the return of Books, borrowed by persons during recess of Parliament, upon Tickets obtained from The Speakers of either House. With a view to correct this reprehensible abuse, and to ensure punctuality in future on the part of those to whom this privilege may be accorded, they have authorized the Librarian to withhold the further loan of Books to persons now in default, until all arrears have been made good, and hereafter to enforce a stricter rule in this particular.

The Report of the Sub-Committee on the accounts of Expenditure of the Grant for the augmentation of the Library, which embodies suggestions for relieving the Annual Grant of certain heavy items, that materially diminish the sum available for the purchase of Books for general reading and reference, is herewith submitted.

REPORT OF THE SUB-COMMITTEE OF AUDIT.

The Sub-Committee appointed by the Joint Committee on the Library of Parliament for the Session of 1882, to audit and report upon the accounts connected with the Library of Parliament for the past year, present the following Report:—

That they have inspected the various accounts submitted to them which have been paid since the last audit numbered 809 to 899, both inclusive, together with a draft in favor of *E. G. Allen*, for \$1,038.75, and two in favor of *Bossange*, for \$456.74 and \$267.08 unnumbered, amounting in the whole to the sum of Four thousand three hundred and twenty-two dollars and eight cents (\$4,322.08), and have examined the several receipts and vouchers for these payments which they find to correspond therewith.

The Committee submit herewith, for the information of the Joint Committee, an abstract shewing how the reduced grant of \$3,500.00 for the fiscal year 1881-82, has been expended, coupled with a statement of the existing liabilities reported to them

as incurred in the year 1881, including an additional liability incurred in anticipation of the increased grant for 1882-83, as explained by the Librarian—amounting together to the sum of Three thousand three hundred and fifty dollars, thirty four cents (\$3,350.34), thus leaving only a balance of \$3,649.60 for the support of the Library during the remaining portion of the current year.

LIBRARY, 8th May, 1882.

OTTAWA, 26th April, 1882.

Hon. W. H. ODELL,

DEAR SIR,—I beg to repeat in writing the substance of my statement to the Library Committee, at its first meeting, this Session, in regard to the Library expenditure.

On 26th November, 1881, I applied to the Finance Minister,—in answer to his circular for an estimate of money required for the Library Department, as well for the present as for the ensuing financial year—that the existing deficiencies in the Library made it highly desirable that we should receive “an immediate advance of \$3,000—and *also*, that for the ensuing fiscal year, a *further sum* of \$10,000, be granted for the purchase of books.”

Some time after a Clerk from the Finance Office brought me (*by order*) a proof sheet of the Estimates, which included the items above-mentioned.

But shortly before the House met, I learnt with surprise and chagrin, that, on finally revising the Estimates, the Government had concluded to give us nothing but the *ordinary grant*, for next fiscal year!

Meanwhile, I had sent home some orders, and had arranged for a supply of new, important, and desirable books, to be sent on once a month during the sitting of Parliament.

I did not countermand my orders, because I felt that even if our means were of the smallest, it would be best to expend the greater portion of the annual grant, whilst Parliament was in Session, and so give Members the advantage of our additions, rather than spread over our purchases to months when the Parliament was not in Session.

I have had the satisfaction of knowing that this plan has met with the practical approval of Members, for, in addition to various works indispensable for reference which have been bought, the selections in general literature have proved very acceptable, and have been, for the most part, quickly taken up by Members on the look out for new and interesting publications.

I hope, after this, that our grant may be adequate to sustain the credit of the Library, and to gratify the taste of our readers.

Believe me, dear Sir,  
Truly yours,

ALPHEUS TODD.

LIBRARY OF PARLIAMENT.

SUPPLEMENTARY REPORT.

The Sub-Committee for Audit further report the following additional information in regard to certain details of expenditure, viz:—

---

An abstract shewing the expenditure for French and English books respectively from the audit in 1881, to the end of the fiscal year 1881, together with an abstract of the additional amount spent for the same service from 1st July, 1881, to the opening of the Session, February 9th, 1882. And in view of a desire expressed by several members of the Joint Committee at their last meeting, for information relative to the amount of the average expenditure for Law Books, Newspapers and Literary Journals, including binding as well as incidental expenses for Binding books and necessary repairs thereto—have had an abstract prepared containing the information sought for distinguishing Law Reports from Text Books, accompanied by a detailed list of the the Newspapers and Literary Journals, shewing the amount of subscription therefor paid out of the Library grant and cost of binding, together with a separate memorandum of the total expenditure for binding and repairs to books—indicating an average expenditure for this service of \$1,000.

The Sub-Committee would, in this connection, suggest to the Joint Committee to consider how far it may be practicable to obtain a special grant for Law Books (or at any rate for such as it is proposed to transfer to the Supreme Court) and whether an arrangement cannot be made whereby the cost for binding Books, Newspapers, Literary Journals, &c., and for general repairs (fairly comprised under the head of Contingencies) would be provided for by an addition to the grant under that head; thus leaving the separate annual grant for the Library intact and available for the purchase of Books irrespective of such contingencies.

"SIR,—As requested in your communication of the 29th September, I have considered this case with reference to the liability of the Crown for this claim. In my opinion the Crown is not liable. Treating the case as one between subject and subject, and giving to the claimant the same rights against the Crown that he would have were his claim against a subject, it is clear that unless the accident was caused by the defective state of the Lock-Gates or by the negligence of the officers of the Canal, there would be no liability to indemnify Mr. *McCallum* for the losses sustained. The finding of the official arbitrators seems to be unanimous that the accident was caused by the negligence of those in charge of the Steamer *Louise*, and not by the defective condition of the Gates. The Crown cannot be made answerable for the mismanagement of the *Louise*. Papers returned.

MAY IT PLEASE YOUR EXCELLENCY,

The Commons of *Canada* have voted the Supplies required to enable the Government to defray the expenses of the Public Service.

In the name of the Commons, I present to Your Excellency a Bill intituled:—

"An Act for granting to Her Majesty certain sums of money required for defraying certain expenses of the Public Service, for the financial years ending respectively the 30th June, 1882, and the 30th June, 1883, and for other purposes relating to the Public Service," to which I humbly request Your Excellency's Assent.

To this Bill the Royal Assent was signified in the following words:—

"In Her Majesty's name, His Excellency the Governor General thanks Her Loyal subjects, accepts their benevolence, and assents to this Bill."

After which His Excellency was pleased to deliver the following Speech to both Houses :—

*Honorable Gentlemen of the Senate :*

*Gentlemen of the House of Commons :*

I desire to convey to you my best thanks for the earnestness and assiduity which you have shown in the performance of your Parliamentary duties, and I am glad to believe that on returning to your homes you will find the country everywhere enjoying a large measure of prosperity.

The Civil Service Act will, I trust, be productive of the best results. It will improve the organization and add to the usefulness of that service, already so efficient.

The measures relating to the extradition of fugitive offenders, to the winding up of Insolvent Banks, Insurance Companies, and Trading Corporations, and for amending the Criminal Law, are all of an important nature.

The appropriation in aid of Railway enterprise will tend greatly to open up vast tracts of fertile country hitherto almost inaccessible to the settler.

The annual grant for the encouragement of the sea fisheries, and the improvement of the condition of the fishermen, will be of great value to that important branch of the national industries.

The removal of the duties on tea and coffee will lessen the cost of those important articles of food to the people, and the repeal of the Stamp tax on Bills of Exchange and Promissory Notes will be appreciated by the commercial community as a relief from an irksome burden, while the transmission of newspapers and periodicals free from postage will be accepted as a boon by the whole country.

Our manufacturers already in a prosperous condition will be further aided by the abolition of the duties on metals and other raw materials used in their several productions.

It is satisfactory to know that the buoyant state of the revenue will permit these reductions, amounting to about a million and a quarter of dollars, to be made without inconvenience.

During the recess, my Ministers will continue their efforts to secure favourable commercial arrangements with *France* and *Spain*. In these endeavours, the High Commissioner will receive the same hearty support from Her Majesty's Government and the Imperial Diplomacy, as has already been given to him.

Such support must greatly strengthen *Canada* in any negotiations entered into for the improvement of her trade with Foreign Countries.

It has been the more readily accorded, that Her Majesty's Government rely on no preference being given by *Canada* against the Trade or Products of the Mother Country.

*Gentlemen of the House of Commons :*

I thank you in Her Majesty's name for the Supplies you have granted, which will be expended with all due attention to economy.

*Honorable Gentlemen of the Senate :*

*Gentlemen of the House of Commons :*

I heartily congratulate you on the rapid and successful development of our manufacturing, agricultural, and other industries.

I am, however, advised that their progress would have been still greater, were it not that capitalists hesitate to embark their means in undertakings which would be injured, if not destroyed, by a change in the Trade and Fiscal Policy adopted by you in 1879. In order therefore to give the people, without further delay, an opportunity

---

of expressing their deliberate opinion on this policy, and at the same time to bring into operation the measure for the readjustment of the representation in the House of Commons, it is my intention to cause this Parliament to be dissolved at an early day.

Then the Honorable the Speaker of the Senate said :—

*Honorable Gentlemen of the Senate :*

*Gentlemen of the House of Commons :*

It is His Excellency the Governor General's will and pleasure that this Parliament be prorogued until Monday the Twenty-sixth day of June next, to be here holden ; and this Parliament is accordingly prorogued until Monday the Twenty-sixth day of June next.

The above account represent the charges for distributing copies of the *Montreal Gazette* containing the Pacific Railway Speech of the Minister of Railways.

11th May, 1881.

and a debate arising thereon, Mr. Mackenzie moved "That it appears from a Return laid on the Table, that a sum of \$238.50 was paid for copies of a political speech delivered by A. W. McLelan, Senator, and a sum of \$199.50 for a political speech delivered by Hon. Alexander Campbell, Senator, and that a further sum of \$428.88 was paid to the Express Co. for transmitting political speeches throughout the country; that such expenditure has been made without authority, is unprecedented and a scandalous abuse which ought not to be permitted to occur again."

To which motion Mr. White (Cardwell), moved in amendment "That for the future no speeches delivered in Parliament other than the Budget Speech be published, except in *Hansard*, or distributed at the public expense, unless previous authority is obtained therefor from Parliament."

To which amendment Mr. McCuaig moved in amendment "That the cost of printing speeches and their transmission through the express to their destination—save and except those of Ministers and ex-Ministers of the Crown—for the future shall not be permitted at the public cost."

The Question being put on the amendment to the amendment, the same was declared lost.

The Question was then put on the amendment proposed by Mr. White (Cardwell), which was resolved in the affirmative.

Mr. Mackenzie then moved "That the money paid from the public funds for political speeches should be refunded to the public Treasury, inasmuch as such payments were made without authority and for a party purpose," which was negatived on the following division:—

Yeas.—Messieurs Anglin, Béchard, Bourassa, Brown, Burpee (St. John), Burpee (Sunbury), Cartwright, Gillmor, Gunn, Holton, Huntington, Mackenzie, Pickard, Robertson (Shelburne), Ross (Middlesex), Rymal, Scriver, Smith, Snowball, Thompson and Weldon.—21.

Nays.—Messieurs Bergin, Bill, Bolduc, Bowell, Cimon (Charlevoix), Coursol, Domville, Farrow, Fortin, Gault, Hilliard, Hooper, Houde, McDonald (Cape Breton), McCuaig, McGreevy, Manson, Onimet, McLelan, Reid, Robertson (Hamilton), Ryan (Montreal), Tilley, Tyrwhitt, Wallace (Norfolk), Wallace (York), White (Cardwell), White (Hastings), White (Renfrew) and Williams.—30.

Mr. Mackenzie then moved "That the return for money payments for political speeches and the proceedings of this Committee concerning the same be reported to the House," which was agreed to, and

*Ordered* accordingly.

Attest,

EDWARD P. HARTNEY,  
*Clerk of Committee.*

The expenditure under provisions of above section of the Act was \$4,659.44, while, when the goods came to be disposed of, the proceeds returned duties only amounting to \$3,554.44, showing a net deficiency of the \$1,105; carried to a special account in the Dominion Ledger and entered on the debit side of the Balance Sheet since then, in consequence of there being no authority for writing it off. It represents a dead loss, and should be dealt with as such."

*Ordered*, That this item be struck out.

EVIDENCE TAKEN BY THE SUB-COMMITTEE.

ROOM No. 33, FINANCE DEPARTMENT,  
March 8th, 1882.

Sub-Committee met—Mr. Kirkpatrick in the Chair.

J. M. COURTNEY, Deputy Minister of Finance, examined, as follows:—

*Witness*:—The first item in Miscellaneous Assets is Municipalities Fund, U.C., Special Account, \$123.52. In March, 1870, this amount was paid to the town of Milton. The amount was charged to the municipality to replace a cheque for a similar amount which was appropriated by a person about that time, and we had to pay it.

*By Mr. Plumb*:—

1. Have you ever made any claim on the town of Milton?—No.

*By the Chairman*:—

2. What year was that?—1870.

*By Mr. Ross*:—

3. Why did the town of Milton get this?—They were entitled to it, but some one else took the money.

The item was struck out.

*Witness*:—The next item is Dublin (Ætna) Insurance Company, \$248.21. The company wound up, and it turned over its 5 per cent. stock to us, and the amount in question was credited to interest investment instead of to the company. The Government have the amount credited to the wrong account. The company did not owe it. We got the money.

The item was struck out.

*Witness*:—The next is Montreal Harbour, \$12,950. Under Consolidated Statutes Lower Canada, cap. 102, sec. 22, provision was made for paying additional police for the harbour in Montreal by the Harbour Commissioners, such remuneration being determined by the Governor in Council, the annual amount on account of such services under the above Act being established at \$3,700 per annum, and which was duly accounted for up to 1864. The \$12,950 is for the three years and a-half from that date to the 30th June, 1867. No charge has been made since, and I believe the Harbour Commissioners repudiate it. No claim has been made for the money.

*By Mr. Plumb*:—

4. I should think it was as good a claim as for the other, is it not?—I think they repudiate it. I will ask Mr. Langton about it.

*By the Chairman*:—

5. Was the force larger than in those years?—I do not know.

*By Mr. Ross*:—

6. The Montreal Commissioners ought to be liable for that, ought they not?—I should presume so, under that Act. It has always been regarded as a bad asset.

7. They have an account with the Government, have they not?—They have an account for other advances made to them.

8. This is the Department to make a demand, is it not?—They are under the control of the Marine and Fisheries Department now. I do not know who had the control before Confederation. There was no Marine and Fisheries Department then. I will enquire of Mr. Langton between this and the next meeting.

The item was allowed to stand.

Bank of Upper Canada Special Account ..... \$1,150,000 01

*Witness* :—That was the balance owing by the Bank to the Government at the time of its suspension, at the time the Government took it over. These amounts I hope to have settled during the recess, or have the account brought to a head. \$150,000 have been advanced to the Trustees since the suspension, and \$102,000 have been advanced by the Government. On the other side of the account we have realized \$332,000. Probably we shall get a dividend of about 10c. or 15c. on the dollar on the difference.

*By the Chairman* :—

9. We have received all the advances?—We have received the \$250,000, and against the \$1,150,000 we have \$80,000 towards it now. I have recommended in the Report that the thing be readjusted during the recess.

The item was allowed to stand.

Inland Revenue, Special Account..... \$2,000 00

*Witness* :—The meaning of that account is this, that the Inland Revenue have so many services to carry on—canals, adulteration of food, weights and measures, their own excise, and all that—that the stationery and printing were at one time taken to a special account, and adjusted and charged to the services at the end of the year. In the year 1875, by a mistake, the services were short charged \$2,000. It is money expended for printing and should be wiped off. It is money expended by the Queen's Printer and not distributed to the several services.

*By the Chairman* :—

10. When was this done?—In 1875.

The item was struck out.

Rails, Loan Account..... \$184,62 13

*Witness* :—This is the presumed value of the rails loaned to the different companies. You will have to get a list from the Railways and Canals Department.

It was directed that a detailed statement should be asked for.

Bank of England, Suspense Account ..... \$26,058 43

*Witness* :—This arises in this way: The Imperial Government retained the profit over the \$4,500,000 which came from the Fishery Award to pay expenses which were incurred at home for printing and other expenses in connection with the Foreign Office. It takes a long time for them to render an account, but it will be settled in the course of time. They retained that much to pay charges they would incur, and will pay over the balance. It is a live account.

*By Mr. Ross* :—

11. They held back that money?—Yes. They paid over the \$4,500,000 net, but retained the profit on exchange.

Manitoba School Lands Account..... \$20,000 00

*Witness* :—That is an advance made under Statute.

*By Mr. Ross* :—

12. Is this to be returned?—I do not exactly know. It was a special Act, I think.  
*The Chairman* :—We have all the lands represented, which we hold for the Provinces.

Esquimault Graving Dock..... \$9,891 00

*Witness* :—That is something similar.

Cash Account..... \$7,211,574 30

*Witness* :—That is the hard cash.

*By Mr. Plumb :—*

13. What do you mean by the Cash Account?—The deposits in the banks subject to cheque.

*By the Chairman :—*

14. What are these other bank accounts. I thought these were deposits?—These are on interest.

15. And the cash account is not?—It is the ordinary current balance, subject to daily cheques.

*By Mr Plumb :—*

16. How much is it necessary to keep in that way?—That is a question for the Finance Minister.

17. We suppose you to understand that too?—We have to find some seven or eight hundred thousand pounds to remit between this time and the middle of April to provide for the payments in England, so we leave a certain amount of elbow room to go upon.

18. You require to have about £1,000,000?—Yes, between \$4,000,000 and \$5,000,000.

Specie Reserve Account..... \$3,018,683 39

*Witness :—*This is the reserve kept against the note circulation.

Post Deposit Account..... \$1,805,916 70

*Witness :—*This is what comes in after the 30th of June and is applicable to last year, and, on the other hand, are the unpaid certificates which are deducted off. Those have been issued since the 30th June also, and are applicable to last year.

*By the Chairman :—*

19. Where is the specie reserve kept?—At the offices of the several Assistant Receivers General throughout the country.

20. It is not kept at the banks?—At the Receiver-General's offices in Toronto, Montreal, Halifax, St. John, Victoria, and Winnipeg.

*By Mr. Plumb :—*

21. Do they render you an account?—Yes, every week, and to the Auditor-General also, and it is published in the *Gazette* every month.

22. Is there any means of checking?—Yes, we have an Inspector who goes round.

Glyn, Mills, Currie & Co..... \$385,874 21

Baring Bros. & Co ..... 430,405 67

*Witness :—*Those are the balances at those banks.

Bank of Montreal..... \$169,066 24

*Witness :—*That should be "Bank of Montreal, London."

*By Mr. Ross :—*

23. Do these balances vary much?—Yes, according to the amount they have to pay in London.

Morton, Rose & Co..... \$259,137 92

*Witness :—*That was rather large, but we were paying off some Prince Edward Island debentures which were domiciled at their house.

Crown Agents for the Colonies ..... \$8,895 17

*Witness :—*The Crown Agents for the Colonies floated the British Columbia loans, and we are obliged to keep a small amount with them for them to carry on the account.

Assistant Receiver-General, Halifax, Copper Coin Account. \$500 00

*Witness :—*That has disappeared.

Old Coinage, Cash Account ..... \$12,599 96

*Witness :—*We bought from the Bank of Upper Canada, in 1866, their old coinage of the nominal value of \$3,871, for which we paid \$27,000. The coins were sold through the intervention of Mr. Ross, the Assistant Receiver-General at Toronto,

and at the end, when all the coins were melted and sold, this is the balance remaining. That ought to go to profit and loss.

The item was struck out.

*By Mr. Ross :—*

24. That was not put against the Upper Canada Bank account?—No; we bought the coins they held in hand—bought them out and out.

Cash Suspense Account..... \$39,593 66

*Witness :—*That account is now under examination. That will have to remain for another year.

Silver Account, 20-cent pieces..... \$71,414 60

*Witness :—*We have had the 20-cent pieces all gathered together and sent to England to be converted into 25-cent pieces. That is what we paid for them. That is a live account.

Silver Coinage Cash Account (Special) . . . . . \$205 61

*Witness :—*Those were the mint charges on silver coinage which came out in 1876, and it came out after the account was closed. It should be charged to profit and loss.

The item was struck out.

Cash Suspense Account, Nova Scotia Savings Bank..... \$194 67

*Witness :—*I have had the account of that written out, and I have it here. I think I had better wait till the next time.

Glyn, Mills, Currie & Co., Suspense Account..... \$121 66

*Witness :—*That is the par value of an amount of £25. I have traced it back to 1861. We have had their monthly accounts since, and I do not know what it represents. It does not stand as one of the outstanding balances, and in 1880, when I was in England, I went over their accounts and recovered £1,000 from them; but this represents nothing and should be wiped off. I recovered £1,000 that was lying there uncalled for, and put it through the Casual Revenue last year.

The item was struck out.

F. W. WISE, called and examined :—

*By the Chairman :—*

25. We wanted to ask you a question with regard to the Tay River Navigation Company. You are the Superintendent of the Rideau Canal?—Yes.

26. In the Public Accounts we have an account respecting the Tay River Navigation Company. Have you those works under your charge now?—I have been making a survey of it during the last year.

27. Do you know anything about the Tay River Navigation Company?—I know nothing about the Company myself.

28. Is there any such company in existence as far as you are aware?—I believe they are still in existence to a certain extent. I do not know about the company. I believe there is a secretary, and they charge certain tolls on logs going down the river.

29. Have they abandoned their works?—I think so.

30. How do they charge tolls?—The dams are all down; and I am told they still charge tolls.

31. You have not got them under your direction?—No; I have nothing whatever to do with them.

32. And you are informed that they charge tolls?—That they still charge some tolls but the dams are down; and the lumbermen, when they are bringing down the logs, make dams themselves to float the logs over.

*Mr. Courtney :—*It should be wiped off altogether.

*Witness :—*I am only saying what I was told when I was making the survey. I think you may say the dams are all down except where private individuals keep them up.

*By Mr. Bowell:—*

33. Does the secretary keep the money he collects?—That is something I am not aware of.

34. Where does the secretary live?—Perth.

*Mr. Courtney:—*This Tay Navigation Company has remained as it is since 1849. The balance is exactly what it was thirty-three years ago.

*By Mr. Bowell:—*

35. Who is the Secretary?

*Witness:—*I do not know.

*By the Chairman:—*

36. Could you not find out from your lockmaster?—I think it could be found out who is the man they pay the tolls to.

*By Mr Bowell:—*

37. Could you ascertain who it is and let Mr. Courtney know?—Yes.

J. M. COURTNEY'S examination continued:—

Bank of Montreal, Provincial Note Suspense Account. \$46,000 00

*Witness:—*Some years ago there was a robbery at St. Catharines. Their St. Catharines agency was robbed of provincial notes to the amount of \$46,000, and this represents the amount. It took place before I came to the country, in 1869, I think.

*By the Chairman:—*

38. It was deposited with them, was it not?—No. We had no Assistant Receiver's-General then, and the Bank of Montreal managed the circulation.

39. They were the custodians and had some consideration for their trouble, I suppose?—Yes. They managed the circulation. It was on April 30th, 1869, that the entry was opened in the account.

The particulars of this case to be hereafter submitted by Mr. Courtney.

Sinking Funds—Various.

*Witness:—*All these Sinking Funds are the even amounts over the hundreds and thousands of pounds invested for the Sinking Funds. They are all live accounts.

Imperial Government..... \$554 49

*Witness:—*That represents the little amount of pensions to old soldiers paid in this country. It is a live account. Since paid off.

Money Order Office, Suspense Account, Nova Scotia... \$8,367 77

*Witness:—*That represents a defalcation in the Halifax Post Office, since 1867, and is not recoverable. Everything has been paid up by the sureties, and this is the balance that remains.

*By Mr. Bowell:—*

40. Is this the Campbell matter?—No; that was another thing.

The item was struck out.

Mennonite Loan, Open Account..... \$94,318 06

*Witness:—*This is a live account. They are paying a little on account now and will pay more this year. We are in communication with Mr. Shantz on that subject.

*By the Chairman:—*

41. Have they paid interest?—Yes; they pay so much principal and interest each year.

42. What was the loan—\$100,000?—Yes.

*By Mr. Charlton:—*

43. They are keeping these payments up, are they?—Yes; they are paying. We are getting as much as we can out of them.

Icelandic Immigration, Open Account..... \$47,700 00

*Witness:—*Nothing has been recovered as yet, but we are corresponding with the Department of Agriculture about that.

- Intercolonial Railway, Open Account..... \$188,059 28  
*Witness*:—That is the balance. You will find the particulars in Part iii, page 141. They are live accounts, I believe.  
*By Mr. Ross*:—  
 44. "Post Office Department, \$24,214.41,"—I suppose that is a balance due?—  
 Balance due for carriage of mails.  
*By the Chairman*:—  
 45. That is their balance, but they have a lot of things there that will never be good for anything?—Mr. Schreiber can tell you better than I can.  
*By Mr. Bowell*:—  
 46. What is "James Harris & Co., \$9.30?"—That is probably a balance of account.  
*By Mr. Plumb*:—  
 47. There are some very old items?—Yes.  
 It was decided to call the attention of the Minister of Railways to this account.  
*By Mr. Ross*:—  
 48. Had you not better examine some one?—You would have to send for their man from Moncton.  
*By Mr. Bowell*:—  
 49. "Sugar refinery, Moncton, \$3,456.04." What is that?—That is their freight account, probably.  
 Canadian Pacific Railway, Open Account..... \$107,615 50  
*By the Chairman*:—  
 50. What is that?—While we had it under traffic up at Pembina. We had a part under traffic ourselves before we turned it over to the Syndicate.  
 Windsor and Annapolis Railway, Open Account..... \$105,254 55  
*Witness*:—That is a different thing altogether. That occurred in this way. At the time of the change of guage, we had to convert their engines and rolling stock for use on the narrow guage line, I believe, and instead of wiping it off in the charges of the year, they opened an account, which I believe is altogether irrecoverable. I think some enquiry should be made at the Railway Department.  
*By Mr. Bowell*:—  
 51. That road is still in difficulty with the Government?—Yes.  
 52. The Privy Council has decided that the transfer was illegal?—Yes.  
*By Mr. Ross*:—  
 53. That Canadian Pacific Railway account should be closed?—It has been closed, but there are some accounts that some adjustment must take place in reference to.  
 Militia Paymaster..... \$605 49  
*Witness*:—That is a defalcation of Paymaster Hyndman, of Montreal. We recovered some from his surety—all but \$605. I wrote to the Department of Justice the other day to see if anything more was recoverable. I think it had better be left over for another meeting.  
 Services ..... \$183,630 00  
*Witness*:—That is for adjusting entries and closing entries at the close of the year. We were receiving something and paying something last year which is applicable this year. It is a live account, and gets closed up every July.  
*By Mr. Ross*:—  
 54. It is a Bank account?—Not a Bank account, though nominally it is. It runs on and gets closed every July.  
*By the Chairman*:—  
 55. It may be the other way another year?—Yes, but in the month of July it is cleared off.  
 Circulation, Suspense Account..... \$396 06  
*Witness*:—In the earlier days of the establishment of the 'Winnipeg office, a

bundle of notes was sent up by a private hand, and the gentleman who took it up, instead of keeping it intact, opened it for the greater convenience of putting it in his portmanteau, and in Chicago \$400 disappeared. There is a profit in the conversion of some Nova Scotia notes, which reduced the amount.

*By Mr. Ross:—*

56. Where is the gentleman?—He is gone.

*By Mr. Bowell:—*

57. When did that occur?—It occurred when Mr. McMicken first went up to Winnipeg in 1870 or 1871.

58. Has any attempt been made to collect it?—Yes; to trace it up.

59. Did McMicken lose the money?—No. It had better be struck out. There is no way of getting it.

*By Mr. Ross:—*

60. Why not have the gentleman's name to know who the recalcitrant man was?—He has left the public service long ago.

61. Has he left the country?—Yes; he is gone altogether. I believe it was an honest loss.

*By the Chairman:—*

62. Was he sent up with it?—No. He was going up to Winnipeg. It was one of the officers of a public department who was sent up there then, and the Receiver General's Department asked him to take up a bundle of notes, and he said yes.

The item was struck out

Gold shortage, Suspense Account..... \$9 82

*Witness:—*That was a dispute between the Bank of British North America and the late Assistant Receiver-General. One declared they gave short gold, and the other that they did not. You had better wipe it out. It was in Toronto. The Bank of British North America Agency there went with some notes and demanded gold, and they said they received a short amount of gold when it was weighed, and Ross declared that he gave the proper amount. We paid the bank in the meantime rather than have a row, and no adjustment has ever taken place.

*By Mr. Ross:—*

63. How long ago was it?—Before Ross died, and he has been dead three years. The item was struck out.

Savings Bank, Toronto, Suspense Account..... \$ 5,310 16  
 Do Nova Scotia, Special Account..... 27,865 29  
 Do New Brunswick, do ..... 299 59

*Witness:—*These are the defalcations that have taken place in the Savings Banks from the time of their inauguration, and I will find out how much is in suit and how much is absolutely lost. There have been eight or ten defalcations in Nova Scotia, unfortunately.

Rockwood Asylum..... \$333 25

*Witness:—*That was an amount paid by the Dominion Government for services to a valuator at the time the Rockwood Asylum was handed over to the Ontario Government. It was no claim against Ontario, but there was no vote of Parliament, so they opened a Special Account.

*By Mr. Ross:—*

64. He has got his money?—Yes.

*By Mr. Plumb:—*

65. Who was this ingenious man?—I forget.

The item was struck out.

Customs Revenue..... \$1,105 00

*Witness:—*I do not know what that is.

Mr. Bowell promised to get an explanation from his Department.

*By Mr. Ross:—*

66. What is the practice in England as to public buildings expenditure?—It

disappears altogether. The Woods and Forests, I believe, publish it as an appendix to their report. There is no such thing as a Balance Sheet published by the Imperial Treasury. It does not form part of the Treasury balances.

The Sub-Committee then adjourned.

ROOM 33, FINANCE DEPARTMENT, 9th March, 1882.

Sub-Committee met.—Mr. Kirkpatrick in the Chair.

Customs Revenue ..... \$1,105 00

Mr. Bowell submitted a statement from the Customs Department in reference to this item, which was filed. (Exhibit D.)

The item was struck out.

JOHN LANGTON, called and examined:—

*By the Chairman:—*

67. You were formerly Auditor-General?—Yes.

68. For how many years were you in the Finance Department?—About five and twenty years, I think.

69. What time did you enter?—In 1855.

70. And continued till?—Till 1878.

71. Can you give us any information about the particulars of the item of Harbours and Lighthouses, which stands in our Balance Sheet as an asset for \$2,663,536.78?—There is a detail of it which Mr. Courtney had made up, I have been looking at it compared with the amount I gave in my report of 1869. It has been increased in the meantime by \$4,788 by some few items on both sides. But I called attention in my report to the fact that some of these harbors had been abandoned to the local authorities, and that the harbors and lighthouses in Nova Scotia and New Brunswick have not been considered Consolidated Fund expenditure. Therefore, it would appear as if that item of Harbors and Lighthouses would require some revision.

*By Mr. Ross:—*

72. This statement then only covers the harbors and lighthouses in the Provinces of Ontario and Quebec?—It covers the harbors and lighthouses. Those in Nova Scotia and New Brunswick have not been charged to Consolidated Fund.

*By the Chairman:—*

73. These are from 1869 up to date?

*Mr. Courtney:—*In 1869 it differed by \$4,000.

*By Mr. Bowell:—*

74. Then you have not been adding the new lighthouses that have been constructed?—Oh, no.

*By Mr. Ross:—*

75. The expenditure since Confederation should be added to that?

*Mr. Courtney:—*I cannot add to the Balance Sheet an amount voted as Consolidated Fund expenditure.

*By the Chairman:—*

76. "Port Hope Harbor, \$40,000." Was that expended with any promise of repayment, or were we to get any income from it?

*Witness:—*I do not think there was any promise of repayment; I am pretty sure, in fact, there was not. These harbors are given up to the local authorities, and nothing more is done with them or at them.

77. You do not know under what circumstances this money was voted to Port Hope Harbor?—No, I do not. You could easily find out by looking back; it is a very old item.

*By Mr. Bowell:—*

78. There is no date to this statement?—That is the present statement—the statement in the Public Accounts of the present day. It differs from the statement

in the report I made in 1869 by about \$4,000—some small additions that have been made in the meantime.

*Mr. Courtney* :—Talking about Port Hope, I see an item in the Estimates now submitted to Parliament, chargeable to Income, of \$10,000 for that harbor. I presume it is the property of the Dominion from that.

*By Mr. Bowell* :—

79. Last year \$6,000 was voted?—Yes.

*Witness* :—This is a grant without any condition that the municipality should pay anything.

*By the Chairman* :—

80. Port Stanley stands as an asset for \$129,236.44: can you give any particulars about that?—One could easily find out in what year the principal portion of the expenditure took place, but I did not look into it. It would be very easy to get it from the Public Accounts of an earlier date. There must be very little change from 1869, when I made my report.

81. You cannot give us any particulars with regard to any of these items, whether they were for Dominion works or merely assistance given to the local authorities?—They were works undertaken by the Government and charged as Capital Account, but in exactly what year these expenditures took place I am not prepared now to say, but I could easily find out by looking back in the Public Accounts, but they must be a very long time ago.

82. Can you tell us whether they were undertaken as Dominion works or were simply assistance to local authorities?—Dominion works. There is no doubt whatever that they were Dominion Works.

83. Then we should ascertain something about them in the Public Works Department?—Yes.

*By Mr. Bowell* :—

84. Are no books kept in the Public Works Department, showing a debit and credit account of these works, by which we could ascertain in a moment what has been spent at Quebec or Port Hope or Toronto?—I have no doubt the Public Works keep something of that kind. It would be easy by looking back at the Public Accounts to ascertain in what year the expenditure took place, and then we could find the details of the expenditure, but all the expenditure is very old I am satisfied—long before Confederation.

*By the Chairman* :—

85. Since 1869, the only addition to this amount has been some \$4,000?—\$4,780.

86. All the work—the harbors, piers, lighthouses and other works of that kind have been paid for out of income?—Yes.

*Mr. Courtney* :—I might state that in 1862, when we began to look this up, the amount standing to harbors and lighthouses was \$2,956,394.73. Practically all that was expended before 1861. It has been reduced since then. The balance in 1862 was greater than it is now. Practically all the expenditure took place before 1862.

*By Mr. Bowell* :—

87. How was this reduced?—By wiping off.

88. And sale of the properties, I suppose?—I believe so. This statement of 1862 is what we constructed it from.

*Mr. Langton* :—In my opinion, they are all in the hands of local authorities.

*By the Chairman* :—

89. Have you made a report of these different assets at any previous time?—Yes, in 1869 I made a report upon all these.

90. Where is that report?—I have a copy before me.

*Mr. Courtney* :—It was an official report for the Department.

*By the Chairman* :—

91. Does it refer to the items in the Balance Sheet?—It does not give the whole of the items as these statements do, but it gives the nature of these. For instance, with regard to these Roads and Bridges, Upper Canada, which is now before us, I understand—

92. Read your Report?—With regard to the important works, the St. Lawrence Canals and Welland Canal, and so on, those would naturally remain as assets, though I call attention to the fact that in early days they charged a great number of things to Capital which now are charged to Consolidated Fund, but it would be almost impossible to go back into those early days to exclude those items. Those, therefore, might remain, I think.

The Witness then read his Report, as follows:—

MEMORANDUM UPON THE REVISION OF THE STATEMENT OF AFFAIRS.

It would be very desirable to have a thorough examination of the statement of affairs, with a view of excluding from it many obsolete and quite useless accounts. I have frequently reported on this subject to successive Ministers of Finance and to the Committee on Public Accounts, but I never could obtain any authority to make any change except by writing off a few obsolete accounts to the extent of about \$24,000 just before Confederation. In consequence of Confederation we have got rid of a good number of items, but there is great room for a further revision.

The most notable items are the interest accounts of the Grand Trunk and Northern railroad. These should, I think, be written off at once, but the capital of the advance should remain on record in our statement of affairs.

The remaining items which should be revised are almost all under the head of Public Works. By agreement with Ontario and Quebec the value of road and other securities for works disposed of by the Province, are to be taken as a deduction from the debt, and to this extent the item should remain in our books, if we retain them and are responsible for the collection of them, but I think that Ontario would be willing to assume them at the valuation at which they are taken in reduction of the debt, in which case they might be charged against Ontario and disappear altogether from our books. There can be no use in retaining anything there as a nominal asset which is agreed to be valueless. In my memorandum upon the Province debt, I give these items with their presumed value, and I need only here mention the items as they stand, which require revision.

The Public Works may be classed under different heads, and I give the items under such as they show in our books, 30th June, 1868:—

(1) Important works.

Mostly productive, which may remain as they stand. It is to be observed that a practice has existed of charging against the capital account what would more properly have gone against income, as being not new work but renewals, and these items are consequently larger than they might really be; but it is questionable whether there would be any use now in revising them:—

St. Lawrence Canals.....	\$ 7,431,208 04
Welland Canal.....	7,428,117 67
Lake St. Peter.....	1,164,235 08
Chambly Canal and River Richelieu.....	433,807 83
Burlington Bay Canal (?).....	308,328 32
St. Peter's Canal.....	21,519 72
Nova Scotia Railways.....	6,520,990 32
E. & A. Railway, Newfoundland.....	4,650,903 35
Government Buildings, Ottawa.....	2,765,683 56
Intercolonial Railway.....	50,081 64
	<hr/>
	\$30,774,875 53

(2) Items which may require some revision:—

Ottawa works.....	\$1,236,318 91
Harbors and Lighthouses.....	2,658,748 59
Miscellaneous works.....	1,405,247 42
	<hr/>
	\$5,300,314 92

The Ottawa works consist of slides, which, as being the frontier between Ontario and Quebec, must remain Government works and might be included in the former class, and the works at the Chats Canal. It is doubtful how far the expenditure on a work abandoned for the present, and which, if resumed, would not be worth now what it cost, can properly be retained in the Capital Account.

#### Harbors and Lighthouses.

These might also be included in the first class, but for two reasons—some of the harbors have been abandoned to local authorities, and the Harbors and Lighthouses in Nova Scotia and New Brunswick, have not been kept as a Capital Account. This item, therefore, very inadequately represents the cost or the present value of the Harbors and Lighthouses of the Dominion, and I should feel inclined to write it off altogether and for the future to consider any such expenditure a charge on Consolidated Fund.

#### Miscellaneous Works.

This item contains some things which might be included in the first class, such as the Grenville and Carillon Canal and Ste. Anne's Lock, but much of it is Miscellaneous Expenditure, which never had a claim to be considered as capital and would not now be so considered. Moreover, it contains the expenditure on the St. Maurice and Saguenay slides. The Ottawa slides must necessarily remain Dominion property, but we have no direct interest in the slides in the interior of Lower Canada. They should naturally be under the control of the Province which owns the lumber which comes down them, and we have now to collect our slide dues through their officers. In 1867-68, the gross income was only \$9,007.22, whilst the cost to us, of maintenance, was \$17,207.42. I think that the slides ought to be abandoned to Quebec, and the cost of them, if nothing else, should be taken out of this item. The piers below Quebec should also be deducted, but I am not sure, without examination, whether they are included in this item or in Harbors.

(3.) Items which require revision should only remain, in statement of affairs, at what they are assented to by Ontario and Quebec, as a deduction from the debt; or should be abandoned to the Provinces and charged against them at the value at which they are taken in the settlement of the debt.

Oakville Harbor.....	\$	9,071	78
Roads and Bridges, Upper Canada. ....		532,001	20
do do Lower Canada. ....		1,163,829	34
Norton and Apahaqui Bridge, N. B.....		15,595	25
	\$	1,720,497	57

The first two items are gone into; no detail in my Memorandum on the Province Debt.

#### The Roads and Bridges, L.C.

This item contains a great deal of expenditure for local roads in the early days when this was the custom and was a parallel account to the Roads and Bridges, Upper Canada. Some of these were afterwards sold, but we had got nothing for years, and the whole of that part of the item may be considered to be abandoned. There remains the cost of the Military Roads connecting Canada with the Maritime Provinces, which were properly general and not local expenditure, but it is questionable whether expenditures on roads should be considered Capital expenditure, and in fact it has not been so charged for the last two or three years.

The last item is expenditure on a bridge in New Brunswick, connecting in some way with the Railway. If it is really Railway expenditure it should be added to that item; if not it should be struck out with the roads and bridges in Ontario and Quebec. There is this further reason for striking out all the roads and bridges except those which are deducted from the debt as securities for money, that analogous expenditure in Nova Scotia and New Brunswick, except the Apahaqui Bridge, has not been treated as capital.

(4.) Items which should be struck out:—

Desjardins .....	\$120,263 93	} Worthless.
Grand River Navigation Company.	3,303 23	
Grantham Academy .....	1,752 53	
Tay Navigation Company .....	7,764 05	
(Report of Com. on Public Accounts 1866-67.)		
Improvement of Trent.....	558,506 20	[See remarks (a).]
Provincial Penitentiary.....	136,831 02	“ “ (b)
Customs Houses, Upper Canada and Lower Canada .....	133,787 08	} [See remarks (c).]
Post Offices, Upper Canada and Lower Canada .....	88,744 41	
Miscellaneous Buildings, Upper Canada and Lower Canada.....	151,795 15	
Dominion Steamers .....	111,760 00	
\$1,314,506 60		

(a.) The Trent works are purely of local interest; the lower part—the Trent proper—has been for years abandoned to a committee of lumberers who kept up the slides, but the dams, &c., are getting out of repair and there will be constant pressure for new work; the upper part is still kept up by Government. In 1867-68 the gross revenue was \$91.00, and the cost of maintenance \$4,542.18; the whole work should be abandoned and Ontario should assume it.

(b.) The amount set down against Penitentiary is the cost of the work at the Union in 1842. All subsequent expenditure has been charged to Consolidated Fund.

(c.) I very much question keeping the cost of ordinary buildings as a Capital Account. Much of what this item stands at was really repairs. We have been much more particular of late years, but the whole account should be struck out, especially as there is nothing analogous in the Maritime Provinces.

(d.) This account first came into our books as an advance to Mr. Baby on his steamers. The steamers were subsequently abandoned to us for the advances, and one has since been lost and the insurance credited to the account. I very much question whether such perishable things as steamers should be considered a Capital Account.

(5.) The remaining two items are railway stores, Nova Scotia and New Brunswick. Some of the stores are used for repairs and are then charged against maintenance, and others for original construction. As one cannot tell to which account the stores will be applied when they are originally purchased, we have made a Capital Account of this, and if care is taken that maintenance is charged its full share I think the plan unobjectionable.

JOHN LANGTON,  
*Auditor.*

29th October, 1869.

The witness continued:

The improvement of the Trent has been abandoned to a committee of lumberers, though, if the works on the Trent go on, as is sometimes talked of, it might be well to retain them; otherwise, at present the Government has no interest in them.

*Mr. Courtney:*—The cost of the Provincial Penitentiary, referred to in the report, was the cost at the time of the Union in 1841, and the item was kept over by the Committee at its first meeting.

*Mr. Langton:*—This is what it cost up to 1842. What has been spent on it since is not included.

*By the Chairman:*—

93. If that is an asset for that amount ought not some additions to be made to it of the expenditure since that?—As nothing has ever been charged against it since

1842, the idea of considering the expenditure as Capital expenditure has been abandoned. The better way would be to strike out the whole thing.

94. Is it not an asset of the Dominion. There is the farm you bought the other day and have been improving?

*Mr. Courtney* :—It was paid for out of Income.

*Mr. Langton* :—My opinion is that it had better be struck out.

*By the Chairman* :—

95. Do you mean to say it is not an asset.—I mean to say it is a very improper representation of what the asset of the Penitentiary is, because a great deal of expenditure has taken place since which does not appear, and therefore if you do not add on all the expenditure since, which I do not think would be wise, you had better strike it out.

96. Because it inadequately represents it, you think it should be struck out?—That is my opinion.

97. You do not hold that it is an asset?—It is the property of the Dominion, but not an asset against Capital expenditure.

98. Then you only want to charge the assets which are large, such as the Intercolonial Railway?—Those things which are continued to be considered capital expenditure, I would leave in the Public Accounts as an asset, but in regard to those which are not considered for years as Capital expenditure, I would cease to consider the whole thing as Capital expenditure.

99. Then all these small items, no matter how large they may aggregate, you would strike out?—It has nothing to do with the smallness, but the method in which it has been treated. If it is treated as capital expenditure, then continue it, but if not, then I think the old expenditure ought to be treated in the same way as the expenditure for the last thirty or forty years have been treated. For instance, amongst these miscellaneous works, there is part of the expenditure since I made my Report. About \$165,000 has been added to that expenditure for the Carillon Canal, which was considered, and very properly considered, a Capital expenditure, but there is a very great portion of the expenditure included in the miscellaneous works which I think should be struck off.

100. Would not that very seriously affect the amount of assets in your Balance Sheet?—Of course, it would reduce the amount, but I do not think they should be considered as assets. For instance, at one time we spent some money on the Chats Canal, but it is utterly worthless, I believe.

101. Why should not all the post offices throughout the country, which have cost a great deal of money, yet the expenditure on which has been charged to Consolidated Fund and does not appear in your assets, be considered as assets? They are rent producing because they save rent which would otherwise have to be paid?—I treat this subject in my Report. In the early days a great deal used to be charged against those Capital Accounts which were really just repairs, and there is nothing analogous in the Maritime Provinces.

*By Mr. Bowell* :—

102. Were there no assets when the Provinces were brought into the Union in the shape of post offices and public buildings?—They were not in any way included in the assets, and we did not give them credit for them.

103. St. John and Halifax had Custom Houses?—Yes, and we had. But, as you have ceased to consider them as Capital Account, I think the old expenditure should be so treated.

*Mr. Courtney* :—There are some built since.

*By the Chairman* :—

104. You say, strike them out, because it has been their practice for twenty years to charge them to Consolidated Fund, not because you think their practice is right—merely because they have been doing it?

*Mr. Langton* :—I think they have been doing right, and therefore I think the treatment of the old expenditure should be the same as this.

105. Is it your opinion that all the Post Offices, Custom Houses, the Penitentiary,

&c., should be treated as assets of the Dominion or not—not with regard to what they have been doing in the past, but if you were starting afresh? I want to learn whether, if you were head of a bank, you would treat the bank premises as assets or not?—If the Penitentiary and Custom Houses, and Post Offices are to be treated as assets, they should be taken at their actual value, but the thing that stands in the Public Accounts does not in any way represent their value. It is simply an old expenditure. Nothing has been added to it lately, and a great deal that was done in those days was not really an expenditure on works, but simply on repairs; and therefore, as they stand in the Public Accounts, they ought not to stand.

106. I simply want to get your opinion as to whether they should be treated as assets or not. Do not trouble yourself about the value or anything else, or how they stand here; but should they be treated as assets?—If they are treated as assets at all, the whole of the Custom Houses in Nova Scotia and the other Maritime Provinces should be included. If they are to be treated as assets, the actual value of the whole of the Post Offices and Custom Houses and other buildings all over the Dominion ought to be ascertained, and put into the account; but to put in a mere partial amount against them is not right.

*By Mr. Bowell:—*

107. If we spend \$100,000 for a new Custom House in Toronto next year, should it be treated as an asset?—I do not know whether I have any right to express an opinion or not. As to a matter of accounts, having been Auditor General so many years, I have a right to say whether it is a real sum or not, but as to whether it should be treated as an asset or not, I would not offer any opinion upon it.

*Mr. Courtney:—*It is not for Mr. Langton to say, but for Parliament to vote it.

*By Mr. Charlton:—*

108. The idea is to make a statement in the form of an appendix, showing the expenditure on these items of property in the possession of the Dominion?

*Mr. Langton:—*If that is done, it is only necessary that it should involve the whole expenditure, but as to taking it as an item in the statement of affairs, I doubt it.

*By Mr. Plumb:—*

109. I think that they should not be in the Balance Sheet, but we should have some record of them, as it shows the condition of the Dominion Funds and their application which it is desirable to keep track of?—I think it would be very desirable that there should be a record of what our public buildings have cost; only it should not be in the Balance Sheet. Have a competent architect to go and take their actual worth.

*By the Chairman:—*

110. This Committee is for the revision of the Balance Sheet, and the item on which this discussion has arisen is that of the Provincial Penitentiary. We have several Provincial Penitentiaries upon which a large amount has been expended. Are we to strike this item out or say "Provincial Penitentiaries," and increase the amount?—My idea would be, if you make a statement in the Appendix, as has been proposed, showing the total amount expended on Buildings, Custom Houses, Post Offices, Penitentiaries, and all the rest, it would be very desirable to have such a statement, but I would take them out of the Balance Sheet under the circumstances.

*By Mr. Ross:—*

111. About the roads and bridges, Upper Canada, have you any report on those?—The roads in Upper Canada have been sold—most of them. I do not feel competent from mere memory to give a decided opinion on that subject. The amount that stood against roads and bridges in Upper Canada when I made this report, in 1869, has been reduced by \$59,000, which has been paid, and I believe there are other things which would have been paid, but the roads are in the possession of and managed by the Local Governments.

112. Could you make a list for us before to-morrow or the next day of the roads still under the control of the Dominion Government, if any, and those under control of the municipal authorities, and the modes of collecting revenue, if any, from these roads by the municipal authorities. We want to know those roads which are pro-

ductive and those which are unproductive?—I do not think the Dominion Government has taken any part of the management of these roads since Confederation.

113. Could you trace up these roads, and give us the history of them, and tell us who owns them now?—I might do that; I will try. I know the roads and bridges in Lower Canada are awful complications. A number have been sold but never paid, and never will be paid.

114. How many of the Dominion steamers referred to were purchased?—I think there were two. I am not sure.

115. You do not know their names, and do not know what has become of the survivor?—I have lost track of them. I think they ought not to go into Capital Account.

*Mr. Courtney*:—The new steamers have been charged to and paid out of Consolidated Fund.

*By the Chairman*:—

116. Do you think that Rideau Hall should go into Capital Account?

*Mr. Langton*:—If you choose to bring into Capital Account or any Subsidiary Account the actual value of all our buildings, you should have them all valued, but I do not think that buildings that do not produce any revenue should stand on the Balance Sheet.

117. If you were head of a bank, would you include the bank premises among the assets of the bank?—I am not the head of a bank.

118. If you were?—I suppose they generally do.

119. Do you think they generally do right?—I dare say it may be the proper position, but I do not know that the example of what a bank would do should be followed by the Dominion Government when they make out their Balance Sheet, showing what are the available assets, and what debts they have.

*By Mr. Bowell*:—

120. Suppose a merchant goes into bankruptcy in Toronto and owns a property on King street, would that be considered legitimately an asset of the estate?—The building would go to his creditors of course.

*By the Chairman*:—

121. Do I understand you to say that unless an asset is a revenue producing asset, it ought not to be considered?—I think it would be very desirable that a record should be kept of all expenditures of that kind as suggested, but for the Balance Sheet I think you should only have an asset of a different character, producing something.

122. Then any asset causing an expenditure of money should not be retained as such. Should the Rideau Canal be retained as an asset?—I think so.

123. We lose \$40,000 a year on that?—But that does not matter. My opinion has been asked of things on which I do not feel competent to offer any definite opinion. It is for the Committee to decide. What I do feel competent to offer an opinion on is that nothing should be included in the assets except what is the real cost or value of the assets, not a merely partial thing as it stands now.

*By Mr. Bowell*:—

124. Do you know anything of the Tay Navigation Company?—I have mentioned that that should be struck out.

*By the Chairman*:—

125. Have you any further information you can give us in regard to any of these items?—No.

The Sub-Committee then adjourned.

COMMITTEE ROOM, No. 46, 16th March, 1882.

Sub-Committee met—Mr. Kirkpatrick in the Chair.

COLLINGWOOD SCHREIBER, called and examined:—

Rails, Loan Account..... \$184,623 13

Witness presented an abstract of this Account. (Exhibit A.)

*By the Chairman:—*

126. Who takes the rails up?—The Company. If the Company fail to do that the Government can do it and charge them with the cost.

127. When were these given?—The most of them in 1875 and 1876; some of them since that.

128. Who are Low, Reed & Co.?—A stone quarry—a track for a stone quarry.

129. The Steel Company of Canada, when was that given?—That was in 1875 or 1876, I do not remember which.

130. And Low, Reed & Co.?—That must have been in 1879, I think.

*By Mr. Charlton:—*

131. What is the character of the rails; iron rails partly worn, I suppose?—Yes; unsuitable for being placed on the main track.

132. Would they answer sidings?—Yes.

*By the Chairman:—*

133. They are iron, are they?—Yes; iron, not steel.

Witness produced particulars of the loans. (Exhibit B.)

134. Do these railways use them on the main track?—Yes.

135. Have we any more of these rails?—No; that exhausts them.

136. No more applications?—Yes; a number.

*By Mr. Ross:—*

137. Have we not any more to lend?—No.

*By the Chairman:—*

138. Have you any expectation of getting them back?—You understand how they were loaned; it was by resolution of the House.

*By Mr. Charlton:—*

139. During Mr. Mackenzie's administration?—In 1875, there was a resolution of the House.

*By the Chairman:—*

140. You have no more to give away?—Not just now; there are Orders in Council now for a loan to the Springhill and Pugwash. There is an Order in Council also for the North Kent for a further quantity, but we have none to supply them.

141. These Orders in Council you expect to fill as you take the rails up?—As we have them to spare.

142. Are you taking up any iron rails to be replaced by steel?—Not just at the present time.

143. Have you any to take up?—Yes; we have eleven miles on the Shediac Branch and about 160 on the Prince Edward Island Railway.

144. Is it in contemplation to relay that with steel?—As they become worn out we replace them with steel.

*By Mr. Charlton:—*

145. What is the weight of the iron on the Prince Edward Island Railway?—Forty pounds.

146. Are they good rails?—Yes; very good rails.

147. Standard gauge?—No; 3 feet 6 inches.

148. They will last a long time then?—Yes; some few years. Already there have been some thirty-two miles re-laid with steel.

149. The rolling stock is light, is it not—fifteen ton engines?—More than that; about twenty-five tons. The engines are a little too heavy for the rail; they are putting down fifty pound steel rails.

*By the Chairman:—*

150. What is the value of these rails as scrap; what would they be sold for?—

To-day, I suppose you would sell them for \$24. They are transferred in the Loan Account at \$20.

*By Mr. Ross:—*

151. Are they all valued at \$20 a ton?—Yes.

*By Mr. Charlton:—*

152. What are steel rails worth to-day?—You can buy steel rails for about \$30, delivered at Halifax.

153. Do we understand that the difference between the cost of scrap iron and steel rails is only \$8 a ton?—Only \$6 or \$8 a ton.

*By Mr. Bowell:—*

154. What becomes of them after the parties to whom you have loaned them have used them?—They have to be returned at six months notice to the Government.

Windsor and Annapolis Railway, Open Account..... \$105,254 55

*By the Chairman:—*

155. Can you give us any information about that?—That was in connection with the change of gauge of the Windsor and Annapolis Railway, which was done under an agreement; and we took some rolling stock from the Windsor and Annapolis Railway Company, and gave them other in its place, the difference in the value of which was \$105,000.

Witness produced an account of the exchange. (Exhibit C.)

156. That is the road the Privy Council has declared you have no right to take?—Yes.

157. This is not a thing to wipe out?

*Mr. Courtney:—*I think not, but it is one you are to enquire about.

*By Mr. Bowell:—*

158. Who is the man on that road?

*Mr. Schreiber:—*Peter Innes is the manager. According to agreement, the engines were to remain the property of the Government.

*By the Chairman:—*

159. Are they still on the road?—They are still upon the road.

160. We will have to account for a large amount of earnings, will we not, to the Windsor and Annapolis Railway in connection with this lawsuit?—I think so.

Canada Pacific Railway, Open Account..... \$107,615 50

*Mr. Courtney:—*All that is gone except \$24.07, St. Boniface Junction Agent. It has been adjusted and settled. That is utterly irrecoverable.

*Mr. Schreiber:—*Yes.

*By Mr. Ross:—*

161. How is it irrecoverable?

*Mr. Schreiber:—*One of the station agents was a defaulter for the amount and he has gone to the States.

162. And his account and himself are irrecoverable?—Quite so.

W. J. HUGGIN, called and examined—

Intercolonial Railway, open account..... \$188,059 28

*By the Chairman:—*

163. Does Mr. Tims go from here to audit your accounts?—Yes.

164. You are?—Mr. Foot's assistant.

165. An inspector goes from here to examine and audit your accounts?—Yes.

*By Mr. Ross:—*

166. Why is "Stations" kept here as an Open Account?—It is the small balances of cash at stations, freight in stores, half tickets, and so on.

*By Mr. Plumb:—*

167. Are there any items in that which are lost or ought to come out in any way?—No.

*By the Chairman:—*

168. It is a good account?—Yes.

169. Balances in agents' hands, &c. ?—That is it. Cash in hand, freight in store, and half tickets.

170. That is at all stations ?—Yes.

171. "Spring Hill Coal Company, \$18.39" ?—That is a current account.

172. "Acadia Coal Company" ?—That is the same.

173. You do not allow these accounts to increase too much ?—No. At the end of the month there may be an amount against one of those companies, and the voucher for the coal delivered would come in on the 5th or 6th of the following month, when our account would be closed and their account would be carried forward.

*By Mr. Bowell :—*

174. This amount has been paid long ago ?—Yes, and other amounts have arisen.

*By the Chairman :—*

175. "Intercolonial Express Company" ?—That is the same thing—their proportion of the traffic due us.

176. Do they pay a certain sum a year ?—Yes.

177. And so much for the freight carried ?—A proportion, I think.

178. In addition to a fixed sum ?

*Mr. Schreiber :—* 33 per cent. No fixed sum.

179. "Rents Account" ?

*Mr. Huggin :—* That is the rents of parties living in Government properties on the road. It is a current account.

180. It is good ?—Yes.

*By Mr. Ross :—*

181. It would be interesting to see the details of the rent account ?

*Mr. Schreiber :—* I think they have sixteen houses at Moncton for workmen, one for the Superintendent, one for the General Passenger Agent, and other sectionmen's houses along the road. It is paid off every month.

Witness read a telegram showing the details of Suspense Account, \$2,791.92.

*By Mr. Plumb :—*

182. Why should it be called "Suspense Account" ? That reads as if it were doubtful ?—

*Mr. Schreiber :—* It is kept in suspense until you can charge the amounts to their proper heads.

183. This Suspense Account has to do with the current operating of the railway ?—The \$2,000 is an expenditure in this way. Payments can only be made by Mr. Foot, and an officer of the Finance Department signs cheques, and he has placed to his credit \$2,000 for petty expenses.

*Mr. Huggin :—* That account is all closed out now.

*By Mr. Ross :—*

184. What is this, "Suit, \$5.80" ?

*Mr. Huggin :—* It is in connection with some springs with Fraser, Reynolds & Co.

185. Is that an old thing ?—Yes. We collected \$131 a few days ago.

186. "T. Cross, \$18.60" ?—He was sent down below and these are his expenses. He has returned the expenses since.

187. Mechanical Department, a credit ?—It would arise in this way. Parties leaving the service on the third or fourth of the month would get a voucher for their work. We would pay it from the Discharged Men's Pay Roll, but there would not be a cheque made out until the following month.

*By the Chairman :—*

188. "James Harris & Co., \$9.30" ?—That is a current account.

189. "Steel Company of Canada, \$12,882.18" ?

*Mr. Schreiber :—* That is a current freight account.

190. What is their current monthly account ?—\$30,000 a month.

191. "James Coleman, \$100" ?—That is current expenses.

192. "Springhill and Parrsboro' Railway, \$3,171.99" ?—We are suing for that now. Some of it is a freight account. They do not deny the account.

193. "Western Counties Railway" ?—The Western Counties worked the Windsor

Branch Railway for some time. The Windsor and Annapolis had it. It was taken from them and transferred to the Western Counties, and during the time they had the road they refused to pay the third earnings, and this is the third earnings.

*By Mr. Ross :—*

194. Has any action been taken to recover that?—No; except that they are furnished with an account pretty often.

*By the Chairman :—*

195. Will the decision of the Privy Council affect that?—It will enter into the general settlement.

196. "Windsor Branch Railway, \$225.59" ?—We maintain the Windsor Branch Railway and receive a third of the earnings, but not in connection with Intercolonial Railway. That \$225 has been paid off since. It is merely a matter of book-keeping. It will not occur again.

197. "Windsor and Annapolis Railway, old account, \$6,746.58" ?—We have some trouble about collecting that, and the only way we are able to treat it is, as we have debits, we charge against this account. They refuse to pay it, and everything in the way of a debit we can, we charge against the old account and make them pay cash for the new account.

198. It goes back to what time?—1877. All that will enter into the settlement.

199. "Punchard, Clark & Co., \$7,652.34" ?—You may wipe that out. You will never collect it.

200. What is it for?—In connection with the construction of the Eastern Extension Railway—the road from the boundary of Nova Scotia and New Brunswick to Painsec near Moncton.

201. When was this?—In 1871.

202. They were the contractors?—Yes.

203. This balance has remained how long?—Seven or eight years, probably ten years.

*By Mr. Ross :—*

204. Where are Punchard, Clark & Co.?—They are English contractors. They repudiate it; say they do not owe it. They say they were settled with, that a sum of money was paid in settlement.

205. Will you draw up a statement of the reasons for striking that out?—Yes.

*By the Chairman :—*

206. "Prince Edward Island Railway, \$317.86," is not that a good account?—I think that is sound.

207. "St. Martin's & Upham Railway, \$4,122.39" ?—That was at the time the road was built. An engine was sold them—an Intercolonial engine—and the Government hold a bill of sale on that engine for this amount.

*By Mr. Bowell :—*

208. When was that done?—In 1875 or 1876. We still hold the bill of sale, but the engine is not increasing in value.

*By the Chairman :—*

209. Why is it not collected?—They have not a cent. We could take the engine, but that would stop the running of the road

*By Mr. Bowell :—*

210. You loaned the rails?—Yes.

*By the Chairman :—*

211. How many miles long is the road?—Thirty-two miles long.

212. How many cars have they?—One passenger car and I think a baggage car—no freight cars.

213. The "Elgin Branch Railway, \$726.10" ?—That is an account for supplies to the road. That is in the hands of the Department of Justice for collection. That was also in 1876. Formerly these roads used to get stores and always refuse to pay for them. Now we do not give them anything.

214. "Kent Northern Railway, \$57" ?—That is current.

215. "Canadian Pacific Railway (Old Account) \$5,219.66" ?—That will have to be adjusted in some way. They charged a certain price on old engines that went to the Company, and charged more than the valuation of them. This is the price charged in excess of the valuation. \$5,000 of that is the excess of valuation. The \$219.66 has been settled since.

*By Mr. Bowell :—*

216. That is no asset ?—No.

217. You have no account with them now ?—No. \$5,000 of this item was struck out.

*By the Chairman :—*

218. "Windsor and Annapolis Railway (New Account), \$1,587.78" ?—This is a monthly account in connection with the running of the road and is paid regularly.

219. "Canada Southern Railway, 17 cents" ?—It is a balance. It is a current account. It is car mileage. The accounts of the Albert Railway, Great Western Railway, Credit Valley Railway, Canadian Pacific Railway (New Account), St. Paul, Minneapolis and Manitoba Railway, are the same thing.

220. "John Sutton, \$100" ?—That is Suspense Account.

221. "Coldbrook Mills, \$1,967.41" ?—I do not believe you will be able to collect that. They owe us that money, but they claim that we owe them for some land for the station at Coldbrook Rolling Mills.

222. Do they not claim that you owe them for some work done as well ?—That is a mistake.

*By Mr. Ross :—*

223. Give us the history of that ?—I will give you a statement of it.

*By the Chairman :—*

224. Mr. Domville says you charged them with freights, but never gave them credit for their contra account ?—That is a mistake. It is for the land.

225. Will the land balance it ?—He was to have given it, but no documents were ever drawn up to that effect, and now he claims it.

*By Mr. Ross :—*

226. You did not get the land ?—We have the land and built a station upon it.

*By the Chairman :—*

227. "Halifax Rolling Mills, \$36.83" ?—That is a current account. We want the deeds of the land at the Coldbrook Mills, but there is some difficulty about the title. As soon as the deed can be drawn, we will put that in shape.

228. "J. N. Pouliot, \$352.20" ?—That is a ticket account in connection with the Rimouski station.

229. When was that account incurred ?—I think it was in 1874.

*By Mr. Bowell :—*

230. Why is that not collected ?—It is in the hands of the Justice Department to collect.

231. "Steamer 'City of St. John,' \$1,744.41" ?—That is all wiped out.

232. "Norris Best, \$302.95" ?—He has failed, and this is for some scrap he bought. Mr. Bowell here took the Chair.

Witness stated that the accounts of S. McKean and J. R. Bruce were current.

*By the Chairman :—*

233. "W. B. Vatterlein, \$98" ?—That has since been closed out.

234. "Western Union Telegraph Company, \$2,442.52," why should they be owing that ?—That is for freight. They claim that under their telegraph contract this freight should be carried free. I do not think we shall be able to collect it. They had certain privileges on the Intercolonial.

235. Is that the one that has the Island Railway ?—No.

*By Mr. Charlton :—*

236. What is the consideration for these privileges ?—The telegraphing on the railway business is all done free.

237. They own the line ?—Yes. Probably we shall be able to collect some of it.

It is under a written contract. It has been referred to the Minister of Justice. I think we will make a compromise and probably collect half of it.

*By the Chairman :—*

238. "Montreal Telegraph Company, \$6?"—That is current.

239. "R. DeVeber, \$76, is that the Honorable?"—No; the one who was member. That is good.

240. "Sugar Refinery, Moncton, \$3,456.04?"—That is current.

241. "Record & Boyer, \$21.18," what is that?

*Mr. Huggin :—*I doubt if you will be able to collect that. We may collect it from Record.

*Mr. Schreiber :—*They are bankrupt also.

*By Mr. Charlton :—*

242. How is it you have so many accounts where parties have become bankrupt?

*Mr. Schreiber :—*We cannot help it in dealing with other railways.

*By the Chairman :—*

243. Will you strike that out?—We have a current account with them.

244. "G. Skeffington, \$100?"

*Mr. Huggin :—*He accounts monthly.

245. "J. Patterson, \$10.30?"—That is in connection with the purchase of his property at Halifax.

246. "Nova Scotia Government, \$280.45?"

*Mr. Schreiber :—*They bought some rails for building bridges, and owe this amount, which they do not seem to care about paying. It is good.

247. "Nova Scotia Forge Company, \$1,546.64?"—That is a current account.

248. Delaware and Hudson Canal Company, \$16.75?"—That is car mileage. That is a current account.

249. "A. J. Babang & Co., \$16?"

*Mr. Huggin :—*They buy the empty oil barrels. That is current.

250. "L. & F. Burpee, \$3.93?"—That is current.

251. "J. Peters, \$493?"—That is in connection with the fencing contract. That is settled. The accounts of J. Greenfield, J. Wetmore, and John Starr, are current, and that of F. A. Jones has been settled.

252. "P. Mitchell, \$6,500?"

*Mr. Schreiber :—*That is in connection with the purchase of engines. That is all settled.

253. "Post Office Department, \$24,214.41," what does that mean?—That is for transport of mails.

254. "Department of Militia and Defence, \$4,233.72?"—That is an account for transport of troops

255. "Department of Agriculture, \$641.72?"—That is a balance in connection with Immigration.

256. "Department of Marine and Fisheries, \$43.80?"—That is for transport of supplies to some of their lighthouses.

*By Mr. Ross :—*

257. All these are in such a shape that they can be written off by-and-bye?—Yes. Those keep changing all the time.

258. "Dorchester Penitentiary, \$12.52?"—That is a monthly account. It is current.

259. "Department of Justice, \$810.45?"—That is in connection with the Penitentiaries.

260. "Assistant Engineer, Department of Public Works, \$30.77?"

*Mr. Huggin :—*I can hardly tell what that is.

*By the Chairman :—*

261. In connection with travelling expenses or something of that kind?

*Mr. Schreiber :—*It is in connection with some of the breakwaters. It is the Department in reality, but is paid through the Assistant Engineer, and through him it is done.

562. "J. O. Fish, \$46.31?"—

*Mr. Huggin* :—That is a current account; wiped out since.

263. "A. Forbes, \$82.18?"—Wiped out since.

264. "Capital Suspense Account, \$28,501.35?"

*Mr. Schreiber* :—This is expenditure on the wharf at Richmond, transferred to the new terminus at Halifax. It was a quantity of piles and so forth, purchased in connection with the building of the new wharf at the terminus at Halifax, \$7,631.56. It was held in Suspense. It must be out of Suspense now.

*Mr. Huggin* :—It is in Capital this year.

*Mr. Schreiber* :—The other part is land at the new terminus. That is out of Suspense and in Capital.

*By Mr. Ross* :—

265. "Accident Insurance Company, \$11,505.21?"—That is the amounts paid by our own men—the balance in hand.

266. You do that with the Company itself. You insure your employes?—They insure and the Government is supposed to contribute a certain amount of that, which is credited to that fund.

*Mr. Huggin* :—The Government never have had occasion to give any. That is the fund of the employes.

*By the Chairman* :—

267. They hold the Company, and you deduct it from the men?

*Mr. Huggin* :—Yes, on the pay roll.

268. Is there anything to be struck out of the Prince Edward Island Railway?—Nothing but what is perfectly good.  
Sub-Committee then adjourned.

COMMITTEE ROOM 46, 28th March, 1882.

Sub-Committee met—Mr. Kirkpatrick in the Chair.

Balance due by Postmasters, 30th June, 1881..... \$52,741 99

W. H. GRIFFIN, called and examined:—

*By the Chairman* :—

269. That is an increase?—Yes. That is one of the complications. By some mistake, part of the revenue of this year was included in the year before as so much due by postmasters. It could not appear otherwise in the account, and it made the amount appear more than it should have been. We brought into the account revenue paid by postmasters which did not belong to the year, but to the next year. The two years' accounts square it. It reserved the entry and made the balances due by postmasters appear much more than they were before.

270. On the 30th June, 1880, you deducted what was due in July?—It had the effect of diminishing the balance.

271. Was the amount due on the 30th June, 1880, about the same as was due last year?—Yes, with only the difference of the fluctuation of the item.

272. Is all that amount of \$52,000 collectable?—No. About \$38,000 is due from postmasters who are out of office, and for various other reasons is not recoverable. That is the amount which has accrued in the eleven and a-half years since Confederation. I have prepared a memorandum of the causes.

Memorandum and detailed statement put in. (Exhibit N.)

273. When did the bulk of these losses take place?—In 1873-74.

274. There has not been much added to it since?—No.

*By Mr. Ross* :—

275. Have you a list of these parties?—Yes; we have no means of getting rid of a single cent which is charged in the accounts.

276. What do you mean by the clerks not being selected or appointed by the postmasters?—They are appointed by the Postmaster-General; the postmaster has

nothing to do with them. He is obliged to employ them to collect money for which he is nominally responsible, but he has nothing to do with the selection of them.

277. Is there no security exacted from these clerks?—There is now, but there was not then, and it was a difficult thing to prove, when a large amount of money was coming in, in a crowded room with fifty or sixty clerks at work. It is impossible almost to prove it. All the postmaster knew was that at the end of the month there was not enough cash left to meet the charges against the office.

278. Was it not letting him off pretty easy?—He lost his livelihood.

279. In the case of a postmaster finding he has not all the money he should have according to the way his accounts are kept, do you not hold him responsible?—Yes; he was, but the Postmaster-General thought you could not recover from his sureties in those days.

280. Which postmaster was it particularly?—The postmasters in Montreal and Quebec.

281. How much was lost in those cases?—\$8,000 in Montreal; \$4,000 in Quebec.

*By the Chairman :—*

282. Are the deficiencies in Montreal and Quebec irrecoverable?—Quite irrecoverable.

283. And the postmasters have been removed?—Yes.

284. It occurred some years ago?—Yes; the Postmaster-General was of opinion that suits could not be maintained.

*By Mr. Ross :—*

285. Against the sureties?—Against the sureties.

*By the Chairman :—*

286. Do you think all these are irrecoverable?—There may be a small sum here and there.

*By Mr. Ross :—*

287. Some are outside the Statute of Limitations?—The postmasters have been removed and the time has elapsed when any suit could be taken.

*By Mr. Bowell :—*

288. I am surprised that you have not some more?—That arises upon something like 220,000 accounts.

*By Mr. Plumb :—*

289. Has nothing been done with them?—No. I do not know why.

*By the Chairman :—*

290. What became of George Wheeler?—He ran away and left the country.

291. Are any of these in office?—No; they are all out of office. That is why it is hopeless to attempt to collect them. We are carrying a dead weight, but we have no means of getting rid of it under our system of accounts; they remain as a balance.

*By Mr. Plumb :—*

292. What is the rule about remitting; these defalcations are from sale of stamps and receipts of the office principally, I suppose?—Yes; from sale of stamps. They deposit at the bank to the credit of the Receiver-General.

293. They have to have a certain number of stamps in advance?—The postmasters do—yes.

*By Mr. Ross :—*

294. Do they pay cash for that?—Oh, no.

*By Mr. Plumb :—*

295. Do you allow them a commission?—Yes.

296. How much?—Three per cent.

297. Then, at all places where postage stamps are sold, you sell them on that principle, even in small towns?—Yes.

298. Do they buy them from the postmaster?—No.

299. From whom?—From the vendor. The great bulk in all small towns, such as Belleville, St. Catharines, and so on, are sold by the vendor. We have two or three licensed vendors in each.

300. Who furnishes the vendors?—The postmaster has the custody of the stamps and issues them to the vendor.

301. He receives the money?—No; the vendor pays into the bank, and sends the bank acknowledgment of receipt as a voucher. The man takes a receipt for \$97, and the postmaster hands him \$100 worth of postage stamps. Then the postmaster says we have issued that amount, here is the receipt for \$97, and here is the charge for commission, \$3.

302. In my town the people would have to go to St Catharines for stamps?—No; they would get them at Niagara if there was a post office there. Of course, the postmaster may not have the stock of stamps in hand that he says he has.

303. You limit the supply by what you know to be the demand?—By what is supposed to be the consumption. There is always room for a certain margin.

304. Does the postmaster give bonds?—Yes; there is very little risk now, but at some times the bonds are worthless.

305. Then there is another way of making default, by Post Office Orders?—In prosperous times, there is no very great risk, but during three or four years the postmaster and the sureties all went to the wall together.

*By Mr. Bowell:—*

306. Your Inspectors balance the accounts, do they not?—They have nothing to do with the accounts except in special cases. We always get a certificate from a magistrate that the sureties are good.

307. How long is it since you have taken sureties for small post offices?—We have always done it.

308. Are all these sureties gone then?—Yes. It is very hard to collect them.

309. In a small post office where you pay a postmaster \$16 a year, you cannot expect to get sureties for a large amount?—We get a number of guarantee bonds. There is a certain amount of inconvenience of course, but you see we live through it. It is attended with enormous trouble. There are 6,000 men who are always agitating.

310. How many postmasters are there?—6,000. They are always agitating for more, and expressing a hope of getting more. At the same time they are always chiselling to get one another out and to get another man to take the place. I suppose there is not a week goes by that there is not an enormous amount of trouble caused by some formal investigation, evidence taken, and so on. Charges are trumped up against postmasters. Some one is wanted to be got out, and his rival gets up complaints. We have attempted sometimes to pay postmasters commission for the stamps they get, and then they start to poach upon each other.

*By Mr. Ross:—*

311. Would it not be worth while to ask for a special report of all these liabilities over \$50 or \$100?—It would take till summer. In most of these cases influential people induce the Postmaster-General to stay the proceedings. This is a small proportion of all the accounts in arrear that had to be dealt with.

312. "St John, \$3,981"—is that New Brunswick or Quebec?—New Brunswick. He claimed or reported that he had claims to increase the salary and commissions on the money order business, and so on, which the Postmaster-General was unwilling to allow, and yet was unwilling to sue.

313. Is there not a loo-ness there somewhere?—The postmaster was dismissed. We took a severe course.

Inland Revenue Balances due 30th June, 1881., ..... \$51,346 63

A. BRUNEL, called and examined:—

*By the Chairman:—*

314. How long have these been accumulating?—Some of them are balances for the current year—the great bulk of them.

315. Are any of these bad?—A few but not very many. Many are perfectly good.

316. "Sundry Balances, 4,867.24?"—These are balances the collectors could not

get forwarded in time before closing the account for the year. As a rule, we make a settlement at the end of the year, closing up on the 30th June. There is always a balance due at the beginning of the account, and at the end of the year there is a balance due.

*By Mr. Bowell :—*

317. Is any of that \$4,867 uncollectable?—Yes, that includes some of these items I have in my hand here. But the others against the separate divisions are generally all good balances. These "Sundry Balances" are balances that are not current. They generally consist of old balances handed over to us from the Receiver General's Department, when we started the account. We did not keep the financial account in our Department till 1870 or 1871. Previous to that, they were kept in the Receiver-General's Department. There is one item here of \$2,000 that was handed over that I know nothing at all about. It is part of that \$4,867.24.

318. Where does it occur?—There are three names, Benjamin, Belleville, \$68.57; Jordan Charles, whom I know nothing about, \$2,038; Abraham Shack, \$2,669, I know something of; and D. W. Hart, \$90.00.

*By Mr. Plumb :—*

319. Does that make the amount?—Yes.

*By Mr. Bowell :—*

320. Is that the only balance against Benjamin?—No, there is a balance of some \$13,000 against him.

*By Mr. Plumb :—*

321. Where does that appear?—That appears against the Belleville account, I fancy.

*By the Chairman :—*

322. It was wiped out, I suppose?—No. That claim is \$12,405. It was handed to the Department of Justice for collection. I do not know exactly in what year, but I think the year the default was discovered.

*By Mr. Bowell :—*

323. Has it been there ever since?—Some two years afterwards, the papers were withdrawn from the Department of Justice. I do not know exactly the reason of that.

324. What year did the default take place?—In 1870 or 1871.

325. That is the first default?—No, in 1875. The first default was \$68.57. I cannot give any explanation of it, because it was handed over by the Receiver General.

326. I remember some that were settled up?—Some were.

*By Mr. Plumb :—*

327. This amount, except the \$4,867, appears to be current account?—Yes. I do not know why the \$12,000 is not here. It stands on our books. Now I will explain why. The Belleville division account stands on our statistical books. There was 8,612 gallons of spirits in warehouse, 19,478 lbs. of tobacco in warehouse, and 9,213 gallons of petroleum in warehouse. That amount is the duties on these goods, and Mr. Benjamin, although presumably he collected the money, never returned it as having been collected, and it stands in the statistical books as a claim.

*By the Chairman :—*

328. Are any of the four items you read any good?—No, I do not think so.

329. How long have they been standing?—They were handed to us in 1871—I do not know how long before that. Mr. Shack was a tobacco manufacturer. He absconded, and we seized all the property he had.

Item of \$4,867.24 struck out.

330. "Belleville, \$174.92; Cobourg, \$488.48"?—Those are current accounts.

*By Mr. Ross :—*

331. "Windsor, \$14,341.17"?—That is the duties on the last half of the month.

*By the Chairman :—*

332. "Montreal, \$8,313.74"—is that good?—We have an account there of \$5,940 with Dunbar Browne. He was a defaulter for \$10,531, and we recovered \$5,040 of that, leaving \$5,490.

*By Mr. Plumb :—*

333. Is that included in the \$8,313?—It may be, but I am not prepared to say now.

The Sub-Committee then adjourned.

COMMITTEE ROOM, No. 46, 14th April, 1882.

Sub-Committee met—Mr. Kirkpatrick in the Chair.

Messrs. COURTNEY and BRUNEL further examined :—

Excise Revenue and Expenses of Collection, Montreal.. \$8,313 74

*Mr. Courtney :—*Of that amount, \$5,490.76 is the balance of the defalcations of Dunbar Browne, who is now in the St. Vincent de Paul Penitentiary, expiating his offence.

*By the Chairman :—*

334. Is anything else to come out of the \$8,000 besides that?—No.

*Ordered,* That \$5,490.76 be struck out.

*Mr. Courtney :—*All the rest of the Excise items are good.

Public Works Revenue, Welland Canal, Port Robinson... \$488 55

*Mr. Courtney :—*Of that \$255.77 was due by the old collector, McCoppin. That is utterly irrecoverable.

*By Mr. Plumb :—*

335. He complains that he cannot get an investigation or have his papers looked into.

*Mr. Brunel :—*They were very fully looked into.

336. It would probably be right that he should have the opportunity of being heard?

*Mr. Brunel :—*There was a suit commenced against him and the whole of the papers were sent to him. This \$255.77 is virtually given to Mr. McCoppin on his plea of having expended it in the shape of contingencies. He was Collector of Canal Revenues, Collector of Customs, and Postmaster, and he claims that he expended this in contingencies, but could not say for which department, for we disputed it. He paid up an amount finally which we thought we might as well accept and wipe off this amount, but we have never had authority to wipe it off.

Public Works Revenue, Sundry, T. M. Porteous..... \$417 57

*Mr. Courtney :—*That is an amount collected by Porteous, Collector of Inland Revenue at Pictou, on account of sales of Intercolonial lands. He became a defaulter, and the Department of Justice decided that his sureties were not liable, because this was no part of his duty as Collector of Inland Revenue.

*Ordered,* That \$417.57 be struck out.

Minor Public Works, Oakville Harbour.....\$30

*Mr. Courtney :—*That was at the time we had the thing. It was deducted by the Collector, Mr. Young, from his collections in 1874-75, on the plea that it was due to him as salary.

*Mr. Brunel :—*He was not the Collector there, but was appointed for a temporary purpose. He claimed that he was entitled to get this for the latter part of his services. He was paid up for the first part.

*By the Chairman :—*

337. Why did you not pay him?—Because we contested his right to deduct anything.

338. Then we have no right to strike it out?—I do not know where the man is now. There is not the slightest doubt that it is irrecoverable.

*By Mr. Plumb :—*

339. He should have deposited the amount and then you would have paid him ?  
—Yes, we would have paid what we considered right.

The amount was struck out.

Minor Public Works, Sandwich Ferry..... \$500

*Mr. Brunel :—*The Municipal Council of the Town of Sandwich obtained a lease to run a ferry boat from Sandwich to some springs on the other side of the river. They were to pay rent for it. They never gave any security and they never paid any rent, except the first instalment, which was paid when the lease was first obtained. They, in fact, abandoned the ferry—found it cost more to run it than the receipts.

*By the Chairman :—*

340. Is there not a ferry now ?—No, not from Sandwich.

*By Mr. Ross :—*

341. What efforts were made to collect that money ?—I do not know. I could not say whether we could collect from the Corporation or not.

342. With whom was the contract made ?—With the Mayor and Corporation. They gave no sureties.

*By Mr. Plumb :—*

343. How long ago ?—In 1871.

*By the Chairman :—*

344. Was it leased to the Mayor and Corporation ?—Yes.

345. This \$500 is charged in expectation of getting it ?—That is just it.

346. Any ordinary person would only credit it when he received it ?—It was charged at the time it became due. We always charge an amount when it becomes due.

*By Mr. Ross :—*

347. Is this \$500 the rent for one year or for several ?—Several years. It was \$100 a year. They took it for six years, paid one year, and then abandoned it.

348. Then they were not running the six years ?—No. Only one year.

The item was struck out.

Hydraulic Rents, Rideau Canal and River..... \$6,874 80

*Mr. Brunel :—*It is proposed to strike out \$2,626 of that. The report on which this recommendation is made was made by Mr. Witton, Inspector of Canals, who was instructed to make an investigation of the whole case. (Report and details submitted, Exhibit P.) The items were investigated by the Treasury Board, who made a report recommending the removal of this from our Balance Sheet. But it seems there was a doubt whether they had a right to do it or not, so it is merely a recommendation.

Amount struck out on the report and recommendation of Mr. Witton, confirmed by the Treasury Board.

Amounts of \$220, Williamsburgh Canal ; and \$60, Cornwall Canal, were also struck out on the same ground.

Beauharnois Canal.

Valleyfield Coal Company, \$240 ; and Owen Lynch, \$90.

*Mr. Courtney :—*Witton reports that rent was paid on this till May, 1874, when the Company closed up. On Owen Lynch he says: "Lease cancelled by Order in Council, 1876. Lessee bankrupt and worthless."

Amounts struck out.

*Mr. Courtney :—*As to an amount to J. M. Currier, \$800, a credit in the Ledger gives rent paid in full to 30th June, 1876. The Government resumed possession of the property in the spring of 1876, and nothing is due.

*Mr. Brunel :—*These accounts were transferred to the Inland Revenue from the Department of Public Works, and we had to take up the balances as they stood. It was a long time before we got the necessary information, and charges were made in that way that would not have been made otherwise.

The items were struck out in accordance with Mr. Witton's report.

Sundry Accounts . . . . .	\$536 00
Newcastle District Works.....	120 00

*Mr. Brunel*:—Inspector Bell reports on the 30th July, 1871, that the engine was removed many years ago, and the debt may be considered bad. Bell was then Inspector of Canals, and this was a piece of property rented to put some manufacturing establishments on, and the whole thing was removed years ago and the debt is worthless.

*By Mr. Ross*:—

349. That is not a recent report?—No; it was made in 1871.

Item struck out.

*Mr. Courtney*:—Some years ago we paid a late District Inspector of Halifax \$200. He was a defaulter. It was regularly paid and charged in the Public Accounts. He never accounted for it and he is charged with it.

*Mr. Brunel*:—He did not give any sureties. At that time we did not take any sureties from the District Inspectors, because they only handled small amounts to pay contingencies. Since that we have taken sureties. He absconded.

*By Mr. Ross*:—

350. Perhaps he expended it in travelling expenses?—I dare say he did, in his own travelling expenses to get away. He was cheaply got rid of.

Item struck out.

The Sub-Committee adjourned.

COMMITTEE ROOM, No. 46, 18th April, 1882.

Sub-Committee met—Mr. Kirkpatrick in the chair.

Windsor and Annapolis Railway (Open Account)..... \$105,254 55

PETER INNES, General Manager Windsor and Annapolis Railway, examined:—

*Witness*:—This amount should not appear against us; there was a regular clearance in 1875 on both sides.

*By the Chairman*:—

351. What is this \$105,000?—It is made up of the expense of helping to change the gauge of our railway. We did not ask to change the gauge, but Mr. Mackenzie said if we would do it he would take our broad gauge stock and give us narrow gauge stock; but we are charged with the cost of the whole thing, and are not credited with the stock we gave over.

352. There are two accounts—this and the Windsor Branch, Intercolonial Railway—and we thought it better not to touch these items at all, because the whole matter of the Government's dealing with that road—the change of gauge, the earnings they received while in possession—would be brought up together and form part of a general settlement?—The change of gauge cannot refer to the agreement; it is a complete thing in itself. The other items I admit the correctness of, but it is derogatory to our credit to have this appearing in the Public Accounts when we are not owing the money. It is a mere matter of accounting by the Department. Our road was built on the broad gauge and as part of the Government Railways of Nova Scotia. (Agreement of 1875 produced.)

353. The Government changed the gauge?—No, we did it ourselves.

354. How does it come in the Public Accounts?—It is their system of accounting. It has nothing to do with us at all.

355. You did it, and paid the expenses of it?—Certainly; we changed our own gauge and gave them our broad gauge rolling stock in exchange for narrow gauge rolling stock. They could not change the gauge of the Intercolonial, because we had the right to run over a part of it. They said that in order to avoid breaking bulk, or having a third rail, they would help us to change the gauge.

356. They charged you with the narrow gauge, but did not credit you with what they got?—They did not credit us at all.

357. The \$105,000 is an item that grows out of stock they furnished your Company?—They bought new engines and converted a certain number of engines and gave us narrow gauge stock, and the total cost of that was \$105,000. But they did not allow us anything for equally good engines and trucks which they got in exchange.

The Chairman read the account.

*Witness* :—That shows the absurdity of the statement. We gave 9 engines, 14 cars and 145 trucks, and they only credit us with four engines.

RAILWAY COMMITTEE ROOM, 25th April, 1882.

Sub-Committee met—Mr. Kirkpatrick in the Chair.

Consolidated Fund Investment Account..... \$1,137,685 23

ROBERT SINCLAIR, Accountant Indian Department, called and examined :—

*By the Chairman* :—

358. What is your position?—The Accountant of the Indian Department.

359. Do you know anything about any of the outstanding balances?—I know something about one of them, supposed to be due to that Department.

360. Which is that?—The Etobicoke mortgage.

361. What do you know about that?—I believe that the mortgage was given by Mr. Boulton on account of arrears of interest which had fallen due upon a mortgage known as the Selkirk mortgage. That is one of the three mortgages mentioned in the Balance Sheet of the Public Accounts.

362. There is a mortgage by the Earl of Selkirk and one by Henry J. Boulton?—Yes, and one by Markland.

363. You know of the Henry J. Boulton one?—Yes.

364. What is the balance due on that?—\$3,196 and some odd cents.

*Mr. Courtney* :—Some has been received this year has it not?—No. The last received was in 1881.

*By Mr. Ross* :—

365. Is it an annual payment of a fixed sum?—It is an annual payment, but it does not appear to be fixed. The land was sold by the Indian Department on account of the Receiver-General in 1878, and payments have been made upon it annually since then, in varying amounts. The person who bought it was named Calhoun, and I believe he pays pretty regularly since then.

*By the Chairman* :—

366. It is a live account?—It is a live asset, and that part which is still valuable is \$3,196. The land was sold for \$5,000, and \$1,573 has been paid.

367. So that the balance of the Henry J. Boulton mortgage is what has been lost?—I do not think that anything was lost.

368. What was the amount of the account when you sold it for \$5,000?—The land was sold for \$4,769.

*By Mr. Ross* :—

369. You speak of a valuable asset and an asset not valuable: which are you speaking of now?—The Etobicoke mortgage.

*By the Chairman* :—

370. How much was due on the mortgage at the time of the sale?—There was supposed to be about \$9,000 due at the time of the sale. Much of that was accrued interest, however.

371. How much stood against it in your books without adding on interest? Including the interest that had been charged, what was the balance against the mortgage at the time of the sale?—I cannot tell. There are no records in the Indian Office.

*Mr. Courtney* :—The amount includes the interest up to the time of Confederation.

*By the Chairman* :—

372. You sold it for what?—\$4,769.

*By Mr. Ross* :—

373. There was a loss of \$3,000 on the sale?—Yes. The land was over-estimated.

374. So the \$4,000 or thereabout is valuable and productive?—The whole was valuable, but part has been paid. \$1,500 has already been paid.

375. Then the amount between \$4,769 and \$7,117 is lost?

*Mr Courtney* :—The difference between \$3,196 and \$7,117 is lost, because the \$1,500 is credited there and deducted. We want an order for an enquiry into the Selkirk and Markland mortgages by the Agents of the Indian Department.

*Witness* :—Our Agents know nothing about it. In 1861, these were assumed by Canada, and since then the Indian Department has had nothing whatever to do with them. In fact, I do not know that we ever had. There is no record in the Indian Office to show anything about it. The Selkirk mortgage is a mortgage upon 13,000 acres of land in Brant, but, in some way or other, Canada became possessed of the security and the Indian Office ceased to have anything to do with it.

*By the Chairman* :—

376. Where is the mortgage?—It is not on file in the Indian Office. From an old report of Mr. Langton, I have reason to believe that the papers are in the Department of Justice.

377. And the Markland mortgage?—That is of a similar description. That is on land in Kingston.

*Ordered*, That Mr. Courtney do coöperate with the Indian Department and endeavor to secure, through the Department of Justice or otherwise, the settlement of these two claims.

Windsor and Annapolis Railway (Open Account)..... \$105,254 55

PETER INNES, THOMAS D. TIMS and COLLINGWOOD SCHREIBER, called and examined:—

*The Chairman* :—State your complaint, Mr. Innes.

*Mr. Innes* :—We demur to that balance of \$105,000, shown as due by the Windsor and Annapolis Railway. (Statement of Account produced.)

*By the Chairman* :—

378. You agreed to change the gauge on condition that they gave you this new rolling stock?—Yes.

379. You say they gave you this, but have charged it against you?—Yes.

380. And that is the item of \$105,000?—Yes. You will see there were a great many other differences between the Company and the Government, and this was to be a general wipe-off of differences up to that day, and was not to be a matter of accounting at all.

*By Mr. Ross* :—

381. What year was this?—In 1875.

382. Why did you not get a settlement of it?—There is one in this agreement.

383. That was made before this work was done?—Yes, and this account now merely arises from the system of bookkeeping. The Government proposed to supply the rolling stock at the request of several members who were interested in the counties there.

*By the Chairman* :—

384. Did the Government take possession of your road?—No. We delivered our rolling stock, and they gave us this, but when they took possession of the Windsor branch, another trouble arose, but it had nothing to do with this. It was two years subsequent to this.

*By Mr. Ross* :—

385. Then this is not in litigation?—No.

*By the Chairman* :—

386. This payment for the new rolling stock awaiting adjustment was charged

against the Windsor and Annapolis Branch Open Account, and has remained so ever since, and has never been adjusted.

*Mr. Tims* :—That is the fact. I have put my explanations in writing. I have obtained a copy of the account as it was rendered, showing all the details, and have attached it to this memorandum in writing (Exhibit T).

*By Mr. Ross* :—

387. It was a trade of rolling stock?—It was really that.

*By the Chairman* :—

388. Was the release mentioned in the agreement carried out?—

*Mr. Innes* :—Yes.

389. Have these engines remained the property of the Government?—They have.

*Mr. Tims* :—I wrote the entry first as a charge upon the Government, as I understood the transaction at the time. I have appended an entry there which is peculiarly worded. "One of the charges in the entry stated to have been made by order of the Minister of Finance and the Minister of Public Works."

*Mr. Innes* :—The agreement was carried out in detail by the Government and the Windsor and Annapolis Company. The Company gained nothing by the transaction.

*Mr. Courtney* :—Did I write out that entry?

*Mr. Tims* :—Yes; it is in your handwriting.

*By Mr. Bowell* :—

390. You went to the expense of changing your own gauge?

*Mr. Innes* :—Yes.

*By the Chairman* :—

391. This rolling stock was to remain the property of the Dominion of Canada?—The engines alone. The reason was this: Our Company was in financial difficulties and the Government were afraid the engines might be seized and taken off the road, so they reserved that lien so that the engines might be always there to work the road.

*Mr. Tims* :—I know Mr. Brydges stated it was the intention to put plates on them stating that they were Government property.

*Mr. Innes* :—Yes, they are still on.

*By Mr. Charlton* :—

392. One-third of the gross earnings have been paid over?

*Mr. Innes* :—Yes, subsequent to the agreement everything has been kept straight. To show the ridiculousness of this account, we are only credited with \$8,000 on the whole of the stock we gave back. These engines cost the Company \$15,000 in England, and we are only credited with \$8,000. There were a good many other claims which we gave up at that time, amounting to about \$80,000.

*By the Chairman* :—

393. You released each other from all claims?—Yes.

394. You narrowed the gauge?—Yes, ourselves.

*By Mr. Charlton* :—

395. The Government changed the stock?—Yes, it was only an exchange. If we got a narrow gauge engine, we had to give up a broad gauge engine. It was for the benefit of the country, and it was not to be a matter of account at all.

Mr. Schreiber produced articles of agreement signed by E. A. DePas, as Commissioner for the Windsor and Annapolis Railway.

*Mr. Innes* :—We have a duplicate signed by Mr. Mackenzie.

*By Mr. Bowell* :—

396. Were the third of the gross earnings paid over?

*Mr. Innes* :—Yes, regularly ever since that date.

*Mr. Schreiber* :—Not ever since that date.

*By the Chairman* :—

397. There is a difference between the branch and the Windsor and Annapolis Railway?—Yes.

298. And it was the branch the Government took possession of?—Yes.

399. Have you anything to do with the branch?

*Mr. Innes*:—Yes, we are in possession of that now. We were in possession before pending the decision of the Courts, and the Courts have decided in our favor. We pay a third of the gross earnings over to the Government and they maintain the road. We admit the other accounts. These amounts arise from the time we were turned out in August, 1877.

The Hon. ALEXANDER MACKENZIE, called and examined:—

*The Chairman*:—In the Balance Sheet, there is an item, Windsor and Annapolis Railway open account, \$105,254.55, which is made up of some rolling stock which is charged against that railway, and Mr. Innes comes before us to ask to have that item wiped off, because he says they do not owe it, and it affects their credit to have it standing apparently as a debt against the Company, and he produces here an agreement made in 1875, by which he says that when you were changing the gauge of the Intercolonial Railway it was necessary either to have a third rail on the Intercolonial for the Windsor and Annapolis to run over or to get the latter to change their gauge, and they agreed to change their gauge if the Government would give them their rolling stock.

*Mr. Mackenzie*:—I think we were to get their engines. We were to get their new engines, and six of their other ones.

*The Chairman*:—Mr. Innes says that was done.

*Mr. Bowell*:—They agreed at their own expense to change the gauge of the road; the Government was to take their wide gauge rolling stock, and give them in exchange narrow gauge rolling stock, and they handed over to the Government all the engines and rolling stock they had, for which the Government did not give them credit, but charged them with all they gave them back in place of it.

*Mr. Innes*:—The matter was not to be a matter of account at all.

*The Chairman*:—They had an agreement with the Government of Nova Scotia by which they were entitled to run over a part of the Intercolonial.

*Mr. Mackenzie*:—Yes, from Windsor Junction.

*Mr. Innes*:—When you were going to change the gauge you would have had to leave a third rail or break the agreement.

*Mr. Mackenzie*:—There is a report in the Public Works Department from Mr. Brydges, which contains his recommendation. I do not remember the date, but I know there is one. That would, I think, throw light upon the whole thing. I would not like to say anything positively until I look over the documents.

*Mr. Innes*:—This agreement is the outcome of the whole negotiations.

*By Mr Bowell*:—

400. Do you recollect whether that was the agreement as stated by Mr. Innes that, in consideration of their narrowing the gauge of their road, the Government was to take all their rolling stock, and give them narrow gauge rolling stock; that it was to be a sort of "swap"?

*Mr. Mackenzie*:—My recollection is that they were to give 9 engines and 144 cars. Some of their engines were not only broad gauge, but very old and useless.

401. Was it understood that that which you gave them was to be in consideration of what they gave to you, or whether the Government was to charge them with all the engines and rolling stock, and not give them credit?—My impression of the whole transaction is that we were to retain the proprietorship of the stuff got from them, and of what we gave to them in order to insure the maintenance of the traffic, but my recollection also is that there was a balance to be accounted for in some way.

402. By the road?—Yes. I am only giving a very vague impression.

*Mr. Innes*:—The agreement explains the whole matter. All debts were to be wiped off on both sides up to a certain date.

*Mr. Mackenzie*:—It is quite possible.

*By the Chairman*:—

Mr. Tims says they were all marked the property of the Dominion of Canada?

*Mr. Mackenzie* :—Oh yes, they were all marked. I think it is quite possible that *Mr. Innes* may be right, because we did not attach much value to any debt by that Company.

*Mr. Innes* :—At that time we gave up as valuable considerations as we got. The Sub-Committee then adjourned.

RAILWAY COMMITTEE ROOM, 26th April, 1882.

Sub-Committee met.—*Mr. Kirkpatrick* in the Chair.

Intercolonial Railway, Open Accounts, Punchard,  
Clark & Co..... \$7,652 34

*By the Chairman* :—

403. Can any of that be collected ?

*Mr. Tims* :—Attempts have been made to collect it, but they have never been able to pay it because they have had no funds.

*By the Chairman* :—

404. Were they connected with the Windsor and Annapolis Railway.

*Mr. Innes* :—They were the contractors for the Windsor and Annapolis Railway.

*By the Chairman* :—

405. Will you pay it?—I should think not. They have a counter-claim against the Government. Their bonds should have been taken at par and they were discounted, and they set that off against this.

*Mr. Tims* :—They claim a premium on bonds which were not worth anything at the time the Government took them over.

*By Mr. Bowell* :—

406. Are they in Nova Scotia now ?

*Mr. Innes* :—No, they are not in existence. They are bankrupt altogether.

*Ordered*, That the amount be struck out, subject to a memorandum from the Department of Justice confirming *Mr. Schreiber's* memorandum.

*Mr. Courtney* :—In reference to the Boulton mortgage, the original amount was £2,457, or \$9,828, as it was taken over from the Indian Department. The property was sold for \$5,760, showing a loss of \$4,068. Nothing more is recoverable. That would leave, taking what has been paid, \$3,196.90, as a good asset to be recovered. The amount shown in our accounts is \$2,849.08, but \$347.82 of interest was credited to it which should have gone to interest of investments. I want authority to wipe off \$4,068 from Consolidated Fund, and to add to the asset \$347.82, the interest.

*Ordered* accordingly.

Windsor and Annapolis Railway, (Open Account).... \$105,254.55

*Mr. Mackenzie* :—I have examined all the correspondence that was available, that *Mr. Schreiber* could lay his hands upon. As I expected yesterday, *Mr. Brydges'* report to me throws some light on the subject. The Province of Nova Scotia was bound, and we were supposed to inherit that obligation, to give running powers to this road over the Intercolonial into Halifax, and, when the change of gauge took place, it was quite clear that the Company were unable to change their gauge, and the question arose whether we were obliged to change the track or not, to meet their necessities. It was a very doubtful matter indeed, and *Mr. Brydges* reported that it would take from \$70,000 to \$80,000 to do it, and suggested this arrangement, whereby all claims would be settled, and the Government undertook to change the gauge of the stock, the Company changing the gauge of the rails, but not furnishing the rails of course. I think, on the whole, as far as I can charge my memory with it, aided by these documents, that that was intended to close the transaction, and that the item is not an asset in the correct sense of the word. The only point that seems to be a little doubtful in the matter is the ownership of the engines that were given to the Company. There is no doubt that the Government retained the ownership, but

whether they retain it yet is another question. We got nine engines from the Company—old ones—and replaced them with six converted and three new engines. The new ones cost \$24,000, and the conversion of the others cost a considerable sum, I do not remember the precise sum. Mr. DePas estimated the engines we received at \$1,200 or \$1,400 at the outside. The Committee can see the relative value of the stock received and the stock given. Mr. Brydges estimated the cost of carrying out this arrangement at \$89,000. It actually cost \$105,000, the amount set down as that asset.

*By Mr. Bowell:—*

407. Are they entitled to any credits as a matter of book-keeping?—They might be if it were a matter of book-keeping, but if it were a matter of arrangement between the Company and the Government it would be a different matter.

408. If their statement is correct, there is no necessity for an entry at all?—No.

*By Mr. Plumb:—*

409. As a matter of fact, have the Government kept the engines?—Yes.

*Mr. Tims:—*Mr. Brydges told me at the time that the plates were put on for the purpose of protecting the road.

*Mr. Innes:—*The whole agreement shows that it was not to be a matter of accounting at all.

*By Mr. Plumb:—*

410. Should the item be struck out?

*Mr. Mackenzie:—*That is my impression. I cannot come to any other conclusion. I think both Mr. Schreiber and Mr. Tims are of my opinion.

*By the Chairman:—*

411. Was there an Order in Council passed in regard to this item?

*Mr. Schreiber:—*Yes.

Order in Council produced (Exhibit V.)

Item struck out.

Baddeck, N.S.... (Old account).	W. Kidston.....	Ex-Collector...	Brought forward..... This case was submitted to the Privy Council on 19th August, 1873. The balance accrued in 1867-68 and 1868-69, and was \$2,401.59. Efforts were made to collect this amount, but finally the best arrangement which could be made was to agree to accept the sum of \$1,100 from the sureties, that being all they could pay. It was settled that two notes should be accepted from them, the first for \$600, which was paid and deposited to credit of Receiver-General in October, 1877; the second for \$500, which is still due, the parties withholding payment until they receive a proper legal acquittance, which has been delayed by the Department of Justice, but which will be granted, and the \$500 in question will then be carried to account. There will then be the sum (\$1,301.59), left at debit of this account, which cannot be collected and might be written off. The collector was dismissed on 27th September, 1870..... All the items conceded by the Inspector in settlement are such as have been from time to time disallowed by the Department, and are such as have been incurred either without or directly contrary to instructions regarding same.

The Inspector's action has not as yet been sanctioned, and the balance still stands in books of Department and in Public Accounts against the Collector.

The Inspector's action in making the concessions is justified in the fact that it was only on such conditions that he could arrive at a settlement and secure the balance due by the Collector, it being stated that neither he or his bondsmen were in position to pay more.

EXPLANATION of the item in the Intercolonial Railway Open Accounts, for 1880-81

Punchard, Clark & Co..... \$7,652 34

This is for the purchase, in 1868, of two old locomotives from the Nova Scotia Railway (now part of the Intercolonial Railway system) and work done upon engines which they used. Messrs. Punchard, Clark & Co., were the contractors for the construction of the Windsor and Annapolis Railway.

In December, 1874, they were sued in Halifax for the recovery of the amount, and on the 11th of that month, judgment was obtained against them.

They, in 1875, appealed against the judgment, and asked to be allowed to defend. Subsequently, the matter was referred to arbitration, and in 1877, the Agent of the Minister of Justice was instructed to compel them to proceed to arbitration, since which no progress appears to have been made. The defendants reside in England and hold no property in this country.

The Department of Justice are now taking action in the matter, but I fear the prospects of collection are not encouraging.

COLLINGWOOD SCHREIBER.

OTTAWA, 16th March, 1882.

On May 9th, I wrote Mr. Shannon, who has charge of the suit, at Halifax, for a report as to the probability of obtaining anything from Clark, Punchard & Co., in case judgment was obtained. That report I will forward you when received. In the meantime, I may say, I have no doubt that nothing will come out of the claim.

*Memorandum.*—It is hereby agreed between the Government of the Dominion of Canada and the Bank of Montreal, that the question as to whether the Government or the Bank should be held responsible for the sealed packages of Provincial Notes, amounting to Forty-six thousand dollars, which were abstracted by burglars from the vault of the St. Catharines Agency of the bank, on the night of Monday, 11th January, 1869, should be submitted to the Hon. Chief Justice Draper for friendly arbitration, on the understanding that if the decision be given against the Government, the amount shall be charged against the Hon. Receiver-General's issue account; and if given against the Bank, the said Bank, inasmuch as it has never received value for the notes, will only be called upon to pay the same as notes forming the last \$46,000, of the present issue of Provincial or Dominion Notes, are presented for redemption.

7th March, 1871.

In the matter of the case between the Government of Canada and the Bank of Montreal, referred to me for friendly arbitration:

After the best consideration in my power of all the papers put before me, together with the case drawn up and signed on the part of the Bank by the General Manager, and on the part of the Government by the Honorable the Minister of Finance, I find as follows:—

1st. That the issue and redemption of Provincial notes was undertaken by the Bank of Montreal, under and by a contract with the Government, and was a beneficial contract to the Bank, and was founded upon considerations which extended to each and every part of the Bank's engagement, which included the safe-keeping of the Provincial notes.

2nd. That the Bank was not limited or restricted in the use or issue of the Provincial notes delivered to them. If occasion called for it, they might issue the whole.

3rd. That owing to a want of care in keeping the keys of the vault after banking hours, the stealing of the notes was facilitated.

4th. That the Bank virtually acknowledged its liability by crediting the Receiver General with the amount of the stolen notes.

5th. That the officers of the Bank, who were also made officers under the Receiver General, were not entrusted with the safe-keeping of the notes and could exercise no control over their issue.

And I do adjudge, order and award, that the Bank of Montreal is answerable and liable to account for, and make good to the Government of Canada, the amount of forty-six thousand dollars, being the sum, in Provincial notes, held by the said Bank, under their agreement to act as Agents for the Government for the issue and redemption thereof, and which part was stolen from the vault of the said Bank at St. Catharines, on or about the eleventh day of January, 1869.

And I do further award, order, and adjudge, and determine, that the said Bank do account for, and make good to the Government the said amount of Provincial notes as if the same had been duly issued according to the true meaning and intention of the said arrangement for the issue and redemption of Provincial notes.

Dated 29th April, 1871.

WM. H. DRAPER.

BANK OF MONTREAL,  
MONTREAL, 16th March, 1882.

MY DEAR SIR,—I had noticed in the public prints the reference by the Sub-Committee of the Public Accounts Committee, to the item of \$46,000, respecting the robbery of Provincial notes from the Agency in St. Catharines, in the year 1869, and was, therefore, not unprepared to receive your letter of yesterday.

While the main features of the arrangement, as given in your letter, accord with our own records and knowledge of it, there is one important point on which, I think, a different view may be taken. The last clause of the agreement reads as follows:—

“And if given (*i. e.* the arbitration of Chief Justice Draper) against the Bank, the said Bank, inasmuch as it has never received value for the notes, will only be called upon to pay the same, as the notes forming the last \$46,000, of the present issue of Provincial or Dominion notes, are presented for redemption.” From this it seems to me quite clear that the question of the particular notes stolen does not come in at all, and, therefore, their denominations are of no consequence, and that the Bank can only be called upon to pay anything, as the last \$46,000 of that issue are redeemed by the Government, and as the statement in your letter gives \$91,623, as still outstanding, it follows that as yet there is still no claim against the Bank.

In consequence, however, of the large amount of \$500 notes shown to be still outstanding, I have to-day had our Treasury carefully gone over, and find that we hold amongst our Government notes here no less than \$54,500 of Provincial notes, out of which \$3,000 are of the Toronto issue, and the remainder of Montreal. We propose now to send them to the Deputy Receiver-General for exchange for Dominion notes, and if the arrangement is based on the Montreal issue *only*

the Bank would then owe the Government .....	\$5,877
thus, amount outstanding per your statement.....	91,623
To be sent in for redemption by Bank of Montreal.....	51,500
	\$40,123
Amount of notes stolen .....	46,000
	\$5,877

In this calculation, as you will notice, I have assumed that the arrangement referred only to the Montreal issue, but I do not know the grounds on which you restrict it to that. So far as we know, the package of stolen notes embraced more than that issue, and the agreement designates the “area” as the “present issue of Provincial or Dominion notes.” I might, therefore, ask you to see how the account would stand from that point of view, taking our amount of notes, to be sent in now, as the total on hand here of \$54,500.

Awaiting your reply,

I am, my Dear Sir,  
Yours, very truly,

W. J. BUCHANAN,  
*General Manager.*

*Re Gatineau River Suspense Account.*

In looking over the correspondence of this Department, I find that as far back as 1872 several forwarders had been complaining of obstructions to navigation, owing to the large quantity of logs that had accumulated in the Gatineau booms.

A good deal of correspondence took place on the subject, between the Department and the parties referred to, and on the 16th of June, 1873—the booms having given way in May previous—Mr. Merrill was instructed to take immediate steps to restore navigation, which had been stopped by a jam of logs obstructing the channel.

In compliance with those instructions Mr. Merrill set men sacking out logs, incurring an expenditure of \$3,625.39, which appears in the books of this Department under the heading of "Gatineau River Suspense Account." That sum—so it is stated on each of the three certificates made out by Mr. Baine, the then Accountant of the Department, though the correspondence does not show it—was to be refunded by parties engaged in lumber trade.

I do not see that that sum has ever been refunded to the Government. On the 26th June, 1873, it is true, an Order in Council was passed imposing an extra toll of a-half cent on each log passing through the booms, but the sums to be collected were "to be applied to the settlement of claims for demurrage."

Now, on the 13th May, 1880, the Department having first ascertained that the amounts collected to date on account of extra charges referred to were equal to that of claims for demurrage, an Order in Council was obtained cancelling that of the 26th June, 1873.

So it appears that no portion of the \$3,625.39 expended in clearing out the channel of the river has ever been repaid to the Government, nor does the correspondence show that the above parties have ever been requested to refund above sum.

DEPARTMENT OF PUBLIC WORKS,  
OTTAWA, 18th March, 1882.

OTTAWA, 21st March, 1882.

DEAR MR. ENNIS,—Sir Hector Langevin has handed to Sir Leonard Tilley Mr. Dionne's memorandum respecting the Gatineau Suspense Account, and it has been turned over to me.

The memorandum has no recommendation attached; what I shall have to show the Committee is either that the amount should be written off or that steps should be taken to recover. Pray kindly ask Sir Hector what he thinks should be done, and let me know quickly.

Yours very truly,

J. M. COURTNEY.

F. H. ENNIS, Esq.,  
Department of Public Works.

Sir Hector thinks that this matter has stood unsettled so long that it is now advisable that the Suspense Account should be written off.

HARBOR COMMISSIONERS OF MONTREAL, SECRETARY'S OFFICE,  
MONTREAL, 20th March, 1882.

DEAR SIR,—I beg to acknowledge the receipt of your letter of the 17th inst., in reference to an item of \$12,950, standing to the debit of the Harbor Commissioners with the Government. On examining the records of the Trust, I find that, as stated by you, the claim is for the Commissioners' share of maintaining the water police

here for three and a-half years, to 30th June, 1867, and which the then members of the Board declined to acknowledge.

It is quite true that certain sums had previously been paid the Government for this purpose, but it was always a matter of dispute, it being contended that the revenues of the Trust could not be applied in this manner.

I may also mention that no special tax was ever imposed to re-imburse the Commissioners for this outlay.

Shortly after making the above claim, the Government made other arrangements regarding the water police, and the Board were not again called upon to make any further contributions.

I am, therefore, directed to state that the Commissioners feel that they would not now be justified in admitting any liability whatever for the amount above referred to.

Yours very truly,

H. D. WHITNEY,  
*Secretary.*

Deputy Minister of Finance, Ottawa.

**MEMORANDUM** respecting certain arrears of Balances charged in Account by this Department against the Post Offices of the Dominion from 1867 to 1878.

The balances adverted to, have arisen at the post offices in the several Provinces of the Dominion in the course of the eleven and a-half years from the date of Confederation in 1867, up to the 31st December, 1878, and amount in the aggregate to \$34,291.34.

This sum is believed to be irrecoverable, but it nevertheless continues to be charged in the general accounts of the Department, and constitutes a general balance due by postmasters, which is carried forward from year to year. Not being really a valid asset, it is submitted that it would be better that the item should be written off and discharged from the post office accounts.

If contrary to expectation any portion of these arrears should hereafter be collected, it would, of course, be paid into the Public Treasury.

These balances have occurred in cases:—

1st. Wherein postmasters and sureties have been insolvent ;  
2nd. When the amounts have been so small as to make it inexpedient to incur the expense of a suit for their recovery ;

3rd. When from various causes the claim has not been of a character to make it advisable to prosecute for its recovery or settlement—as when there have been counter claims made by the postmaster for salary or expenditures incurred, and which had remained in suspense as being equally inconvenient either to admit or entirely reject ;

4th. When, from lapse of time, a suit could not be maintained ;

5th. When at city post offices, where the clerks and others employed in the office were not selected or appointed by the postmasters, deficits have arisen which have been alleged by the postmasters, with good show of reason, to have been caused, not by misappropriation of funds on their part, but by peculations and mal-practices on the part of some of the clerks in whom the postmasters had necessarily to confide, and for whose honesty the postmasters could not, under the circumstances, be justly held responsible. This was specially the conditions of the case with respect to the deficits in the Montreal and Quebec Post Offices entered in the list.

At the time when the deficits noted in the accompanying detailed list took place in the city post offices, the postal receipts at those points passed in cash through the hands of the postmasters and clerks, and to diminish as far as possible the risk of a recurrence of such losses, the sale of postage stamps to the public in the cities, was withdrawn from the city post offices, and placed with licensed stamp vendors who have to deposit in advance, in bank to the credit of the public revenue, the value of the postage stamps issued to them.

Moreover, the extension of the prepayment principle has tended further to reduce the cash receipts of the city offices—and whereas in Montreal, for instance, the cash collection in 1873 amounted to from \$120,000 to \$130,000 per annum—the amount now passing through the postmaster's hands does not now average more than a-fifth or sixth part of that sum, and as the accounts are rendered and settled monthly, no considerable deficit can well take place.

Respectfully submitted.

W. H. GRIFFIN,  
*Deputy Postmaster General.*

(a) The Postmaster of Woodstock absconded, leaving a large deficit. The amount of the bond was recovered from the sureties, and this sum was a balance over and above the amount obtained upon the bond.

(b) These balances due to Harvey Station arose on disputed claims for increase of salary and charges for mail conveyance.

(c) It was claimed that the Postmaster was entitled to a commission on Money Order business enough to cover this balance.

(d) This balance arose on a claim for commission on Postage Stamps sold to the Three Mile House office, but which were far in excess of the wants of the correspondence of that office.

EXTRACT from the Minutes of a Meeting of the Treasury Board, held at Ottawa, on the Sixteenth day of December, 1881.

## INLAND REVENUE.

The Board had under consideration a Memorandum from the Acting Commissioner of Inland Revenue, submitting the Report of Mr. Inspector Witton, respecting certain claims for hydraulic rent, &c., which have been for a long time in arrear, in many cases owing to alleged counter-claims for compensation and in others owing to the inability on the part of the lessees to pay the accumulated arrears.

Mr. Witton has, under instructions from the Department, made a careful enquiry into the circumstances of each case, and as a certain proportion of these accounts are reported by him to be perfectly worthless and incapable of realization, Mr. Miall asks that authority be obtained for the Department to have them written off its books, in order that a mass of fictitious balances need no longer be carried forward.

Without entering into the merits of any of these claims, which may be termed doubtful on account of alleged counter-claims, the Acting Commissioner proposes in the present instance to deal only with those which, from the correspondence existing in the Department endorsed by Mr. Witton's confirmatory opinion, the Department considers utterly worthless.

The Board recommend that effect be given to the conclusions arrived at in the Memorandum of the Acting Commissioner.

Postponed by Council, December, 1881.

DEPARTMENT OF INLAND REVENUE,  
OTTAWA, 15th December, 1881.

I have the honor, herewith, to submit a Report of Mr. Inspector Witton, respecting certain claims for hydraulic rents, &c., which have been for a long time in arrear—in many cases owing to alleged counter-claims for compensation, and in others, owing to the inability on the part of the lessees to pay the accumulated arrears.

Mr. Witton has, under instructions from the Department, made a careful enquiry into the circumstances of each case, and, as a certain proportion of these accounts are reported by him to be perfectly worthless and incapable of realization, I have the honor to submit that authority should be obtained for the Department to have them

transferred to an aggregate account (bad debt account), and that he be authorized to discontinue the periodical charging of such rents in the future in order that a mass of fictitious balances need no longer be carried forward.

Without entering into the merits of any of those claims which may be termed doubtful on account of alleged counter claims, I propose in the present instance to deal only with those which from the correspondence existing in the Department endorsed by Mr. Witton's confirmatory opinion, the Department considers utterly worthless. \* \* \* \* \*

I may state that Mr. Inspector Witton endorses the conclusions arrived at also in respect of these four leases after careful investigation.

All of which respectfully submitted.

E. MIALL,

The property has been occupied for some little time by W. Hutchinson, lessee of Lot 4,712. He likely gave Clark a small sum for the right to use lot. Hutchinson has promised to pay \$350 on the lot he has leased, and would take this lot also at Clark's rental, or at \$100 per annum. Hutchinson is a responsible party, good for any amount of this kind. I question if this lot may not be required when the new canal is opened, and the wooding-up done on the other side of pier. Hutchinson disclaims responsibility for arrears on this lease account.

Has been dead several years. His estate, which was valuable, has been divided up. His son lives at Thorold, but, on my visit, declined to accept any responsibility for the account, contending, as I learned elsewhere truthfully, his father paid rent so long as he used the water-power.

Superintendent Woodruff, July 5th, 1867, reports water shut off, and I believe this had been done some years prior to that date. A solid road has been thrown in front of the property by Public Works Department. This, I believe, was done in 1878. The Messrs. Abbey are dead long since and their estate good for no claims. Worthless account.

MEMORANDUM, in reference to the *Sandwich Ferry*.

The first lease was granted in 1871. This lease was surrendered in July, 1873, and a new lease granted in 1874, by which the municipality was permitted to use a smaller ferry boat than that stipulated for in the first license. The ferry boat used under this lease was burnt in September, 1875, and negotiations were commenced for permission to use a still smaller vessel. This permission was never granted.

One hundred dollars was paid when the first lease was granted and no further payments have been made.

EXTRACT from the *Minutes of a Meeting of the Treasury Board, held at Ottawa on the first day of December, 1881.*

The Board had under consideration a Memorandum (copy herewith annexed) of the Deputy Minister of Finance respecting a difference in the circulation statement of \$8,000 through the loss of a bundle of notes.

The Board are of opinion that as the custody of the notes was with the late Deputy Receiver-General steps should be taken to stay for the future the payment of the retired allowance now being paid to him, unless he can give a satisfactory explanation as to the loss.

The Board are also of opinion that Mr. Harington should be advised as to the above recommendation.

J. M. COURTNEY,  
*Secretary.*

MEMORANDUM respecting difference in the Circulation.

Before detailing the several steps taken which led to the discovery of a difference of \$8,000 in the circulation accounts it would be as well perhaps to describe the system adopted in dealing with the currency prior to the abolition of the Department of the Receiver-General.

I find that the officers of the several Assistant Receivers-General were instituted on the 1st July, 1871, before that time the circulation was arranged almost entirely through the Bank of Montreal; but from early in 1871 when the Dominion note system practically came into existence bundles of notes as required by the several Banks and bank agencies throughout the country, were sent out from the Receiver-General's Department, it was during this period, before anything was put into shape, that the difference arose.

I also find that the *Gazette* statements showing the circulation and specie to the 30th of June, 1871, were signed by the late Deputy Receiver General, who all through had the custody of the notes, and that the first circulation statement emanating from the Finance Department was for the month ending September 30th, 1871; the books kept by Mr. Langton and which are entirely in his handwriting are from the 1st July, 1871.

I have mentioned that the custody of the notes was always with the Deputy Receiver-General, this I think is consistent with the Act 34 Vic., cap. 6, sec. 19; the notes so held do not appear ever to have been counted or checked while the Department was a separate Department; and although this may seem to be an omission I do not see that it was contrary to law, as by the Public Accounts Act 31 Vic., chap. 5, sec. 21, the Deputy Inspector General was simply directed to keep a register of Provincial notes or notes of the Dominion issued or cancelled, and not to see after their custody, and by the same Act notwithstanding it was the duty of the entire Board of Audit to examine and cancel debentures redeemed, no provision seems to have been made respecting the destruction of notes.

I have thus far mentioned how matters stood at the outset of the system.

I now propose to show the system of registration adopted in the Receiver-General's Department.

On the receipt of notes from the Bank Note Company, Mr. Harington entered their numbers and denominations in a Memorandum book, and from these books Mr. Toller, who assisted the late Auditor-General in the conduct of the business in the Finance Department, prepared the *Gazette* statement; unfortunately the first Memorandum book to be found in the Department commences only from the 1st January, 1872.

Mr. Harington, in addition to the Memorandum book kept a register book showing the number of the parcel, the date of its receipt, where payable, the numbers, by whom countersigned, the value of the parcel, the date when sent out, and also to whom sent. In a sense this register corresponds with the "Treasury" books in use by the banks, and fortunately it is a record of the entire issue of Dominion notes from the commencement.

The returns rendered by the Finance Department for publication in the *Gazette* were compiled, in addition to the information obtained from Mr. Harington from the weekly return rendered to the Department by the Assistant Receiver-General, the entries from which were written in books kept by Mr. Langton himself as I have before stated.

I now propose to show how the difference of \$8,000 was discovered.

When, by the operation of the Audit Act, the Department of the Receiver-General ceased to exist, the securities were transferred to the Department. All the securities in the vault for the due completion of public contracts were examined, found correct and entered in a register; similarly all securities lodged for Insurance Companies, under the Insurance Act were also examined, found correct and registered; the notes in the vault agreed with the Register book as before described, but, as soon as conveniently could be done, the Dominion Note Account in the General Ledger was examined and a difference was found of \$8,000.

Unfortunately at the time of this discovery that a difference existed of \$8,000, I broke down in health, but I asked Mr. Toller to take the matter up, and his first care was to examine and verify the notes of large denominations,—these were all found correct, and I was so informed before I went to England. I then requested Mr. Toller to take the accounts month by month and go backwards, adjusting each month until the discrepancy was discovered; this took considerable time as the difference occurred at the very commencement of the system, prior to June, 1871. The bundle of notes received and not accounted for is that numbered 2,001 to 3,000 payable in Montreal, of \$2.00 denomination, and the third received from the Bank Note Company.

On reference to the Note Register, I find that the bundle in question, countersigned by Mr. L. F. Dufresne, then an officer of the Receiver General's Department, is marked as delivered on the 13th June, 1871, to the Bank of British North America; this I have ascertained was not the case, and the register shows erasures\* in the two columns, date of delivery and to whom delivered; the next bundle 3,001 to 4,000 was sent to the Assistant Receiver-General's office, Montreal, with others, on the 30th June, 1871, and thinking it possible that some confusion may have arisen at the time, examination was made of the Letter Book of the Department of that date, and there it is shown that \$84,000.00 in \$1.00 notes, and \$40,000 in \$2.00 notes were sent out, and these amounts were duly acknowledged and credited; on the *fac simile* of the letter in the Letter Book the figure 2 is written in pencil over the figure 3 in the detail of the numbers 3,001 to 4,000.

Notwithstanding the fact that the bundle so marked off as having been delivered to the Bank of British North America was not so delivered, I thought it possible that it might have been given out to the Bank of Montreal, and that the Note Account had not been credited with the same. I thought so because the Receiver General's Account with the Bank of Montreal had never, as far as I could ascertain, been thoroughly adjusted from the commencement, and it struck me therefore that the error may have taken place in handing over the bundle to the Agency here without passing an entry; this, however, is not the case, as the account has since been adjusted.

\* December 8, 1881.—On again examining the book, by holding the pages to the light, I find that erasures occur frequently and it seems as if errors were corrected entirely by erasures.—J. M. C.

I have had personal communication both with Mr. Harington and Mr. Langton on the matter. With Mr. Harington I have also had written communication. I regret to say that I am of his opinion that the bundle has either been stolen or has strayed, and my opinion is strengthened from the fact that unlike notes issued in the usual way, I find, on examination of the cancellation books, that \$2,400 are still outstanding, and but \$5,600 have been redeemed,—a circumstance very unusual, as had the bundle gone in the ordinary course to a bank the notes put in circulation would have, in all probability, been in within three or four years.

It seems to me that the bundle has disappeared through want of sufficient control; there is nothing to show what has become of it, nor can its disappearance be traced to any particular officer, and I respectfully submit that the long service of the officer principally affected will be considered when a decision is arrived at.

EXTRACT from the Minutes of a Meeting of the Treasury Board, held at Ottawa, on the Second day of December, 1881.

FINANCE.

The Board had before them a Memorandum from the Deputy Minister of Finance on the differences in the Receiver General's account with the Bank of Montreal. The Board recommend that the officers who attended to the expending of the public monies be communicated with, a copy of the Memorandum be also sent them, together with a series of questions, and that the answers to the same, when received, be laid before them for due consideration, and that then all the circumstances of the case be laid before the Public Accounts Committee at the next Session of Parliament.

J. M. COURTNEY,  
*Secretary.*

MEMORANDUM on the Differences in the Receiver General's Account with the Bank of Montreal.

At the time the Receiver General's Department became merged in that of Finance, the officer in charge of the Bank Account was Mr. F. Lewis, now on the retired list.

Mr. Lewis was also in charge of Seigniorial matters and kept the Public Debt Books.

The system pursued in obtaining moneys, prior to the proclamation of the present Audit Act, was as follows:—

The expending Department made an application to the Auditor General, who, either by himself, or through the Assistant Auditor, if the application was in order, issued a certificate that a warrant might issue; the certificate went to the Warrant Clerk, in the Finance Department, who prepared a warrant in duplicate; the warrant in duplicate went next to the Privy Council Office, and the Clerk of the Council, as Deputy of the Governor General, signed the warrant. The warrant in duplicate then passed to the Receiver General's Department to the Warrant Clerk there, who had also the registration of powers of Attorney; it was then acquitted and another Clerk (Mr. Lewis or his assistant) prepared the cheque which was sent to the Finance Department to be countersigned and then returned to the Receiver

General's Department complete, when the cheque was handed to the party entitled to receive it.

I have considered it necessary to give the above description, for two reasons: First, to show the number of hands dealing with the issue of monies; second, to show that, in consequence of so much routine, the chances of error increased, and, as a consequence, I find that to correct errors it was not an infrequent practice to issue duplicate cheques. I may also add that the official cheques had no printed numbers, and that by pulling out cheques from the end of any cheque-book, duplicates could be issued with but little trouble.

I have thus far tried to describe how matters stood before the proclamation of the Audit Act. I shall, next endeavor to show how the errors in the Bank Account were discovered. Immediately on taking charge, I had new Cheque Books prepared, consecutively numbered, thus reducing the chances of duplication, and Mr. Lewis, who was transferred to the Finance Department, was continued in charge of the Bank Accounts.

Before we could do much more than take out trial balances with the banks, the Seigniorial Commission (the accounts of which were with Mr. Lewis,) was abolished, and I had to detail Mr. Lewis to close up matters both at Montreal and Quebec. He had hardly finished this when he showed signs of failing health. In the latter part of 1879, paralysis set in, and after some months leave of absence, finding that he was incapable of further work, he was placed on the retired list; his medical attendant now certifies that he is unable to attend to any business matters.

I may state that, as far as I know, Mr. Lewis had no motive whatever for wrong doing, and that it is possible he may have erred as he says, from attempting to do what was beyond his powers.

However that may be, long before Mr. Lewis was retired I placed Mr. Dickieson in charge of the Bank Accounts, with instructions to adjust them. He began by opening a new account altogether with the Bank of Montreal, letting the old account run out. The next attempt was to endeavor to go backwards with the accounts, but, after a short trial that had to be abandoned, and the only thing to be done was to follow up the accounts month by month from the time of its last settlement, and that did not appear to have been done since January, 1864; as nearly all the fiscal transactions of the Government were with the Bank of Montreal, this was a great task, and its final accomplishment was not completed until more than fifteen months after it had been commenced, and as mistakes made in the progress of the accounts were rectified, in many cases only months afterwards, the final result could not be ascertained until the last month's account was absolutely adjusted.

I regret to say that this final result shows that the Bank has paid cheques twice over, and also cheques which do not appear to have been drawn by the Government, the total amounting to \$11,054.35, these payments are as follows:—

Cheque twice charged, July 31st and August 21st, 1868.....	\$ 530 49
The original cheque is in favor of James Robertson of Wakefield, P.Q., for Seigniorial indemnity due that township.	
Cheque twice charged, October 24th and November 7th, 1868.	473 42
The original of this cheque is in favor of the Manager of the Bank of Montreal, to cover three small warrants.	
Cheque twice charged, September 15th and September 29th, 1868.....	330 73
The original of this cheque was in favor of Thomas Birkett, Ottawa, for hardware supplied Public Buildings.	
Cheque charged November 24th, 1868.....	65 46
No cheque appears to have been issued.	
Mr. Reiffenstein, I am informed, was in charge of the Bank Accounts at the time the above cheques were charged.	
Cheque charged June 24th, 1875.....	980 00
No cheque appears to have been issued.	

Cheque twice charged, 20th September and 14th October, 1875 .....	940 00
The original of this cheque was in favor of the Ontario Bank for Patrick Kenney, for carrying and piling steel rails, Lachine Canal.	
Cheque twice charged, 11th and 24th February, 1876 .....	5,350 00
The original of this cheque was in favor of the Union Bank for Sifton, Glass & Co., contractors, Pacific Railway.	
Cheque twice charged, 24th August and 26th September, 1877.	838 25
The original of this cheque was in favor of the Bank of Montreal to cover three warrants.	
Cheque twice charged, 28th November and 29th December, 1877 .....	596 00
The original of this cheque was in favor of the Banque Nationale, to pay travelling expenses of two judges.	
Cheque charged, official, 1878, does not appear to have been issued.....	950 00
	\$11,054 35

I may state that in the case of the duplicate cheques, the correct one is forthcoming, not the duplicate, except in the case of the cheque for \$5,350 in favor of Sifton, Glass & Co., where neither original or duplicate are forthcoming; in the case of those cheques of which we know nothing, the cheque cannot be found, that, consequently, I am unable to say whether these cheques were paid on one signature or two, but if a second signature had been obtained for the cheques from 1875, they would have been countersigned in the Finance Department by Mr. Cruse, Mr. Dickinson, the Deputy Inspector General, who had previously countersigned, having been retired.

When the result was finally obtained I wrote to the Bank of Montreal repudiating the charges; the Bank, however, produced receipts from the Receiver-General's Department for the full complement of cheques delivered each month. The Bank further informs me that in all cases, as far as they can ascertain, cash was paid for the cheques. I may also add that the Bank sent up their Inspector to look into the matter, and that he confirmed the statements of the officials.

The question naturally arises, how could these differences have gone on for such a length of time without being discovered, and what was the nature of the oversight over the Bank Account exercised by the Receiver-General's Department, and the answer to these questions is that the system was defective. Mr. Lewis, as far as I know, was a hard-working industrious man, always occupied with the accounts, but, as far as I can find, his audit was most incomplete. He appears to have taken the counterfoils of the cheque books and have seen that all cheques drawn were paid. He sometimes made out lists of those not paid, but this would not affect the question of cheques paid twice over or of payments being charged for which no cheques were issued; on the other hand, he saw that all deposits coming to the Department were credited by the Bank, but he does not seem to have always noticed credits made by the Bank which had not been certified to the Department. He tied up and put away carefully the cheques as returned. Whether he counted them is another thing; he carefully docketed all the accounts sent in from the Bank, and all, with the exception of the one in February, 1876, when the large payment was made, were found; in short, whatever came through the Receiver-General's Department, he saw passed through the Bank of Montreal, but he never seems to have struck a balance or examined the Bank Accounts to have seen whether superfluous or improper entries had been made. In justice to Mr. Lewis, I think it but right to state that the system of examination such as it was began before his time.

On the whole, I regret to say that I think the payments were made as charged by the Bank. It does not seem to me likely that the Bank officials were implicated

for they were being constantly changed. It therefore resolves itself into this: that some one, well knowing the laxity of the system, possibly with help outside, negotiated the cheques. With the many persons concerned in the payment of public monies this is impossible to trace, and I have no data to go upon.

I have consulted Mr. Harington, who seems to have relied entirely upon Mr. Lewis, Mr. Langton, who really had no concern with the Bank Accounts, and with Mr. Lewis himself, who says he was over ambitious to do all things, and frankly owns to having neglected this work. From none, nor from the Bank, have I been able to obtain any certain knowledge, and I have only one course left, to submit the facts as they stand to the Hon. the Treasury Board.

Respectfully submitted.

#### THE WINDSOR AND ANNAPOLIS RAILWAY OPEN ACCOUNT.

OTTAWA, 25th April, 1882.

The annexed Statement A contains full details of expenditures charged in the books of the Intercolonial Railway at Moncton to "Windsor and Annapolis Railway, Change of Guage Account," as follows:—

In 1874-75.....	\$15,997 55
1875-76.....	89,257 00
	\$105,254 55

which sum corresponds with the balance at debit of "Windsor and Annapolis Railway Open Account" in the Dominion statement of affairs, classified as a Banking Account, on the 30th June last.

On referring to the original entries prepared by the undersigned, he finds that the outlay, \$15,997.55, was primarily charged in the Dominion ledger to the operating expenses of the Intercolonial Railway for the year 1874-75, as a portion of the cost of the change of gauge of the line effected at that time; but that the sum in question was subsequently transferred to debit of "Windsor and Annapolis Railway Open Account," and has ever since (upon what grounds the undersigned could never understand) been classified from year to year as a Banking Account, under an entry to which he (the undersigned) was no party, and of which entry a copy B is hereunto appended.

The undersigned begs to add that he has never seen the agreement under which the transactions in question took place, but to the best of his recollection he was informed at the time he audited the accounts and prepared the entries connected therewith for the books at Ottawa, the cost of changing the gauge of engines, etc., for the Windsor and Annapolis Railway Company was to be borne by Government.

This view seems to be fully supported by a paragraph in the Annual Report of Mr. Brydges, then General Superintendent of Government Railways, dated 26th August, 1875, and published as an appendix to the Annual Report of the Minister of Public Works for the years 1874-75, in which, under the head of "Change of Gauge," the transaction in question is referred to in the following terms at page 194:

"The Windsor and Annapolis Company with which this line (the Intercolonial) connects at Windsor also changed their gauge. An arrangement was made to supply them with nine narrow gauge engines (three new and six converted) and 159 sets of car trucks, the Windsor and Annapolis Railway Company returning nine broad gauge engines and 159 sets of old trucks."

"The estimated cost is \$80,000, of which \$15,997.55 has been expended to 30th June, 1875."

If any written agreement exists in regard to the matter it will doubtless be found in the records of the Department of Public Works.

Respectfully submitted,

COPY of a Report of a Committee of the Honorable the Privy Council, approved by His Excellency the Governor General in Council, on the 22nd April, 1875.

\* \* \* \* \*

That in view of the necessity there is for changing the gauge of the Windsor and Annapolis line in order to meet the requirements of the traffic, and of the doubts entertained of the willingness or ability of the Company undertaking without assistance, to meet the great expense such a change would entail upon them; the Minister further recommends that as an inducement to them, authority be granted for making an agreement with the Company, by which they will engage to change the gauge of the line on the following among other conditions, viz:—

The Government to give them three new passenger engines and six converted engines now on the Intercolonial line, and to get nine of the engines now belonging to the Annapolis Company. The cost would be about as follows:—

Three new engines for passenger trains, say.....	\$25,000
Six engines to be converted, less value of nine old engines, say.....	20,000
Fourteen trucks for passenger cars at \$800 each..	\$11,200
140 trucks for freight cars at \$350 each.....	49,000
	\$60,200
Less 155 old trucks at \$100.....	15,500
	44,700
Total.....	\$89,700

The Company to change the gauge of the rails themselves at their own cost, and to give a legal discharge of all claims against the Government; and the latter to also discharge all claims against the Company.

*COPY of a Report of a Committee of the Honorable the Privy Council, approved by His Excellency the Governor in Council, on the 24th March, 1881.*

On a Report dated 29th October, 1880, from the Honorable the Minister of Finance, submitting a Memorandum at length, dated 29th October, 1880, from his Deputy, upon the subject of the application of the Province of Nova Scotia for an increased annual grant;

The Minister states that he concurs in the conclusions arrived at, and recommends that the Government of Nova Scotia be informed accordingly.

He further recommends that the Province of Nova Scotia Railway Debt Suspense Account be closed by charging to Consolidated Fund \$31,295.20.

The Committee concur in the foregoing recommendations and submit the same for Your Excellency's approval, with the understanding that the charging to the Consolidated Fund of \$31,295.20 must be submitted to Parliament for its approval.

Certified, J. O. COTÉ,  
Clerk, Privy Council.

*FURTHER MEMORANDUM on the Financial Affairs of the Province of Nova Scotia.*

\* \* \* \* \*

I have so far referred only to the application made by the Local Government for a re-adjustment of subsidy, but perhaps it might not be out of place here to draw attention to an apparent outstanding claim (the last) the Dominion has against Nova Scotia.

If reference is made to the Dominion Balance Sheet in the Public Accounts there will be found one account called the "Province of Nova Scotia Railway Debt Suspense Account," with an alleged balance due the Dominion of \$31,295.20.

This account came into existence in the Dominion Books in June, 1870, through transfer entries made by Mr. Tims, for the purpose of adjusting the Nova Scotia Railway Accounts, and entirely arises from extra claims paid to Mr. Sandford Fleming in September, 1869, for the construction of the Truro and Pictou Railway.

I find from Mr. Tims' memoranda that the total of these claims amounted to \$95,245.52, of which the share payable by Nova Scotia was \$47,747.49, and by the Dominion Government, \$47,498.03, or nearly half and half; but when the running account of Mr. Fleming was settled, the amount found due to him was \$63,092.92. This amount, unfortunately, was taken by both Governments to be the amount to be apportioned, and whilst the Dominion assumed its full share, Nova Scotia was only charged the difference \$15,594.89, the difference between the amount charged and the full amount is that which is now in the above named Suspense Account.

I cannot find that any action was taken by the Dominion Government to have this account adjusted until some time in 1875 when Mr. Tims acquainted Mr. Vail with the matter, and the papers were laid before Mr. Hill, nothing else seems to have been done.

---

The present Local Government objects to the amount being charged to the Debt Account, on the grounds that the payments were made by Dominion officials after Confederation, that they had no means of verifying the amount, and that they presumed with good reason that the sum charged was in full of all demands.

I cannot say but what there is some reason in their objection, and as the Dominion Government was in error in only charging the smaller amount it might be desirable to assume the balance, and by so doing entirely close up the accounts with the Province.

Respectfully submitted.

The Select Standing Committee on Public Accounts beg leave to present the following as their

### THIRD REPORT.

Your Committee have had before them, in connection with the item (shewn on page 118, Part II of the Public Accounts for the fiscal year ended 30th June, 1881) of \$1,000.37, payment on account of Superannuation Allowance to Alexander McNab, C.E., formerly Engineer-in-Chief of the Prince Edward Island Railway, the correspondence, reports and other papers relating to the superannuation of that gentleman, and append the same hereto for the information of your Honorable House.

All which is respectfully submitted.

#### *Alex. McNab's Claim for Arrears of Salary.*

In May, 1865, Mr. McNab was appointed Engineer for Nova Scotia for all works outside of Railways. In January, 1866, he was appointed Engineer of Nova Scotia Railways at \$2,400 per annum,—it being understood that works formerly under his charge would be placed under that of another officer. This was not done, and he continued to discharge both duties.

1867.—Works were transferred to the Dominion Government. Mr. McNab was continued in his salary of \$2,400.

September 5th, 1868.—Hon. Mr. McDougall, Minister of Public Works, ordered that half McNab's salary was to be charged to St. Peter's Canal, the other half to Railways, and on the 10th September, 1868, Mr. McNab was informed of this decision.

On 30th May, 1870, McNab was notified that canal being completed, \$1,200 of his salary would be discontinued after 1st July, 1870.

On 5th May, 1871, Order in Council was passed that A. McNab, Resident Engineer Government Railways, Nova Scotia, be appointed one of the Assistant Engineers of the Department of Public Works; his present salary of \$1,200 to continue to 1st July, 1871—on and after that date his salary to be \$1,400.

On 30th October, 1871, McNab submitted statement and asked to be paid the full salary of \$2,400.

On 1st November, 1872, he was restored his full salary.

This claim is for arrears from 1st July, 1870, to 1st November, 1872, which, if the Order in Council of 5th May, 1871, increasing his salary to \$1,400 be not considered, will amount to \$2,800, that is to say; arrears for two and one-third years at \$1,200 per year—\$2,800.

From 1874 to 1879, he was Resident Engineer and had full charge of Intercolonial Railway maintenance from Rivière du Loup to Halifax.

Mr. Courtney says McNab's payments to Superannuation Fund since 1873 was 2 per cent. on his salary.

ST. JOHN, N.B., 14th October, 1880.

MY DEAR SIR CHARLES,—Since I saw you in Ottawa I have felt so unwell that to-day I consulted Dr. Bayard and am ordered immediate rest as he tells me that my mind has been overworked, and that the symptoms are such as demand entire relaxation from business for many months to come.

It is now nearly a year since the symptoms which troubled me first made their appearance, but I went on from month to month thinking that time would remove them.

Dr. Bayard desired me to say to you that he will give you the particulars of my case should such be required, and he has given me a certificate which I enclose.

It is a source of infinite regret to me to find my health so shaken. Pray grant me twelve months leave of absence and relieve me as soon as possible, and kindly inform me if my salary is to be charged to the Island Railway, that I may make arrangements to draw it while absent, as circumstances require.

The result of my management for the year ended 30th June last has been most successful, a saving of \$58,000 having been made over the previous year, but it has been gained at the sacrifice of my health, and I can only hope that you will deal generously with me and grant me an opportunity of seeking a restoration of that which is as dear to me as life itself.

Faithfully yours,

ALEX. McNAB.

Hon. Sir CHARLES TUPPER,  
Minister of Railways and Canals, Ottawa.

St. JOHN, 14th October, 1880.

Alex. MacNab, Esq., of Charlottetown, P.E.I., this day consulted me respecting his health, and I find his symptoms such as to imperatively demand that he should have mental and bodily rest extending over a period of many months, which I have strongly recommended him to take.

C. BAYARD, M.D. &c., Edin.

GOVERNMENT RAILWAYS IN OPERATION,  
OFFICE OF THE CHIEF ENGINEER, OTTAWA, 21st October, 1880.

SIR,—With reference to the letter of Mr. Alexander McNab, Superintendent and Engineer of the Prince Edward Island Railway, dated the 14th inst., and addressed to the Hon. the Minister of Railways and Canals and transferred to me, I have the honor to report as follows:—

Mr. McNab entered the service of the Nova Scotia Railway Department in 1865, and has, I believe, remained in Government since that time. Upon the connection of the Government system of railways of Nova Scotia with that of New Brunswick by the completion of the line of the Intercolonial Railway between Amherst and Truro in 1872, after which the whole of these railways were operated under the Intercolonial system, Mr. McNab assumed the duties of Resident Engineer of the system under traffic. In May, 1879, he retired from that position to assume the duties of Superintendent and Engineer of the Prince Edward Island Railway; at the date of his being transferred to this office he was receiving \$4,000 per annum. His management of that road during the past year has been eminently successful, he having, by close devotion to his duties, reduced the working expenses to about \$58,000 less than those of the previous year, at the same time maintaining the road and its equipment in a state of thorough efficiency. He appears, however, to have overtaxed both his physical and mental powers, his nervous system being entirely prostrated and his general health completely broken down, and Dr. Bayard pronounces him totally unfitted for service, and states that it is imperatively necessary that he have mental and bodily rest for a period of many months.

It appears to me that for these reasons Mr. McNab's case is deserving of favorable consideration, and I would suggest that, if consistent with the rules of the Civil

Service, he receive the benefits of superannuation, he having made the regular payments to the Fund for that purpose.

I have the honor to be, Sir,  
Your obedient servant,

COLLINGWOOD SCHREIBER,  
*Chief Engineer of Government Railways in Operation.*

OTTAWA, 27th October, 1880.

(*Memorandum.*)

The undersigned, upon a Report received from the Chief Engineer of Government Railways in Operation, has the honor to represent that Mr. Alexander McNab, Superintendent and Engineer of the Prince Edward Island Railway, entered the service of the Nova Scotia Railway Department in 1865, and after occupying the position of Resident Engineer of the Intercolonial Railway system, assumed, in 1879, the duties now discharged by him.

That in his present position he has been eminently successful, having reduced the working expenses of the road during the past year to about \$58,000 less than those of the previous year, at the same time maintaining it in a state of thorough efficiency.

That Mr. McNab appears, however, to have overtaxed both his physical and mental powers, his nervous system being entirely prostrated and his general health so completely broken down that his medical adviser has pronounced him totally unfitted for service, stating it to be imperatively necessary that he have mental and bodily rest for a lengthened period.

In view of the circumstances of the case, the undersigned recommends that Mr. McNab be placed on the retired list, his annual allowance, based on a length of service extending over fifteen years, and an average salary during the past three years of \$3,500 a year, being fixed at one thousand and fifty dollars (\$1,050).

Respectfully submitted.

CHARLES TUPPER,  
*Minister of Railways and Canals.*

OTTAWA, 9th November, 1880.

SIR,—In reply to your letter of the 2nd instant, I have the honor to inform you that Mr. Alexander McNab has paid superannuation abatement since January, 1873.

I have the honor to be, Sir,  
Your obedient servant,

F. BRAUN,  
*Secretary.*

J. M. COURTNEY, Esq.,  
Deputy Minister of Finance.

OTTAWA, 25th November, 1880.

DEAR SIR,—In compliance with your request, I beg to state that I was in my thirtieth year when I entered the service of the Nova Scotia Government in May, 1865, as mentioned to you and the Hon. J. C. Pope on the 16th instant.

Yours faithfully,

ALEX. McNAB.

Hon. Sir CHARLES TUPPER,  
Minister of Railways and Canals, Ottawa.

OTTAWA, December 2nd, 1880.

(Memorandum.)

On the recommendation of the undersigned, and under the provisions of the Act 33 Victoria, Chapter 4, Section 7, the Committee advise that authority be given for adding ten (10) years to the service of Mr. Alexander McNab, Superintendent of the Prince Edward Island Railway, whose superannuation was advised by a Report made to the Honorable the Privy Council, on the 27th ultimo, such addition being made on the ground of the necessity of superannuating Mr. McNab, in order to promote the efficiency of, and economy in, the Public Service.

Respectfully submitted,

CHARLES TUPPER,  
*Minister of Railways and Canals.*

EXTRACT from the minutes of a meeting of the Treasury Board, held at Ottawa on the Second day of December, 1880.

RAILWAYS AND CANALS.

The Board had under consideration a Report from the Hon. the Minister of Railways and Canals recommending the superannuation of Mr. Alexander McNab, Superintendent and Engineer of the Prince Edward Island Railway.

The Hon. the Minister states that Mr. McNab has been eminently successful in his present position, having reduced the working expenses of the road during the past year to about \$58,000 less than those of the previous year, at the same time maintaining it in a state of thorough efficiency; but that Mr. McNab appears to have overtaxed both his physical and mental powers, his nervous system being entirely prostrated, and his general health so completely broken down, that his medical adviser has pronounced him totally unfitted for work; and in consideration of these facts, and that in consequence, it becomes necessary, in order to promote efficiency and economy in the Public Service, to superannuate Mr. McNab, the Hon. the Minister suggests that under authority of 33 Victoria, Chapter 4, Section 7, a period of ten years be added to his actual term of service.

Mr. McNab, who is forty-five years of age, has been fifteen years in the service, and his average salary for the past three years has been \$3,500 per annum; the Board, however, recommend that, in accordance with the Hon. the Minister's Report, a period of ten years be added to his actual term of service, and that he be allowed to retire from the 1st December, 1880, with an annuity of \$1,715.

W. R. BAKER,  
*Assistant Secretary.*

## REPORT

(2)

Of the Select Committee appointed by the House of Commons to enquire into the operation of the Tariff on the Agricultural interests of the Dominion.

HOUSE OF COMMONS,  
COMMITTEE ROOM, 4th May, 1882.

The Committee appointed by the House of Commons to enquire into the operation of the present Customs Tariff upon the agricultural interests of the Dominion, beg leave to report as follows:—

In order to obtain as wide and reliable evidence as possible, they sent a list of questions, as herewith annexed, to leading and representative agriculturists throughout the country; and in order to obtain impartial as well as correct information from this source, the clerk of the Committee was instructed to send a copy to the reeves of the various municipalities and presidents of agricultural societies. It was only found possible to obtain the addresses of the reeves of Ontario, to each of whom he sent a copy, and these were supplemented by seven copies sent to each Member of the House of Commons with instructions to forward them to the pre-idents of agricultural societies and other leading and intelligent farmers in their several constituencies. In the other Provinces the whole of the lists of questions were sent through Members of the Commons to similar leading farmers. Your Committee further secured the personal or *viva voce* evidence of numerous witnesses engaged largely in agricultural pursuits, and of those engaged in supplying the farmer with farm implements and other manufactured goods in common use amongst them.

In order to ascertain by comparison the relative extent of the Canadian home market under the present protective Tariff and the Tariff in existence previous to 1879, carefully prepared tables were compiled from the Trade and Navigation Returns, of the years 1876-77 and 1877-78, and of 1879-80 and 1880-81; and in order to test the effect of the Tariff on the value of farm products in the same years, a comparison was carefully made between our domestic markets and those foreign markets to which any surplus farm products are usually sent. Market prices were obtained from Corn Exchanges and Boards of Trade for two days in each month, viz., 10th and 25th, in the years 1877, 1878, 1880 and 1881, in Liverpool, Chicago, New York, Toronto and Montreal; also, the water and railway freights between Chicago and Montreal, Chicago and New York, and the ocean freights between New York and Liverpool.

It will be seen from the subjoined summary carefully taken from the Trade and Navigation Returns of the years 1876-77, 1877-78, and 1878-81, 1880-81, (1st) that a very large additional domestic market has been secured to the Canadian farmer as the result of the exclusion of American agricultural products from consumption in Canada; (2nd) that the carrying trade of foreign agricultural products in transit to Europe has been increased very largely in 1880 and 1881, as compared with 1877 and 1878; and, (3rd) that though the consumption of United States farm products in Canada has decreased to the extent of over \$12,000,000 worth, the revenues collected on imported American farm produce was, for the years 1880 and 1881, \$1,347,967, as against \$514,679 collected in 1877 and 1878, being an increase of \$833,288.

That Canadian prices for farm products compare as favorably upon the whole with prices in Chicago and New York under the present as under the Customs Tariff in force before 1879, is evident from appended comparative tables. They also evince the fact that prices in Chicago are, as generally conceded, more frequently speculative than any other market in the world. The present high prices of grain in Chicago are doubtless partly due to the fact that freight rates are at present exceedingly low, the National Line of Steamships having actually given 1 cent per bushel for the privilege of carrying wheat from New York to Liverpool instead of ballast. The keen competition between different lines of railway and water communication between Chicago and New York, and between Chicago and Montreal has also created unusually cheap rates.

In regard to the admission of Indian corn free of duty, which many cattle breeders and feeders advocate, we may say that the evidence taken before your Committee would show that a very wide portion of Ontario is highly fitted for the cultivation of corn; and further, that it is a most valuable rotation crop. The large proportion of the evidence favors the duty on American corn and coarse grains generally, and expresses the opinion that better prices are obtained in Canada in consequence of the duties now imposed, and that the cultivation of coarse grains has been stimulated thereby. Finally, that it would be unjust to the large majority of Canadian farmers who raise coarse grains for sale to admit cheap western corn free of duty.

That the relative value of farm produce has increased in 1880 and 1881 as compared with Liverpool, may be seen by a comparison of market prices in Liverpool with the price lists of the Corn Exchanges in Toronto and Montreal, as shown by the following tables, as well as from a comparison of the freight rates by rail and water at different periods. This is especially the case with spring wheat. It may also be noted that prices seem to be ruled more by Liverpool during the four months of September, October, November and December, and that the prices which rule during the other eight months do not seem to be affected to a great extent by the Liverpool market.

In reference to the effect of large exportations of farm products on the general prosperity of the farmers and people generally, we submit the following comparison of exports from the Dominion of Canada of agricultural products, including animals and their products:

1871.....	\$22,436,071
1872.....	25,795,175
1873.....	29,238,457
1874.....	34,269,312
1875.....	29,958,865
1876.....	34,657,319
1877.....	25,909,993
1878.....	32,028,611
1879.....	33,729,068
1880.....	39,901,905
1881.....	42,628,545

It will be seen that in 1871, 1872 and 1873 the exports were much below the subsequent years, from 1874 to 1878 inclusive, yet business was prosperous in the former period and depression existed in the latter. Since the Tariff came into operation our people have not only supplied the additional home market of \$12,029,131, given by the exclusion of American farm produce, but have also exported very largely, which would lead to the conclusion that the protective Tariff had stimulated and encouraged the production of farm products.

The home demand and prices obtained for meat stuffs, butter, poultry and eggs, as well as fruit and vegetables, has been demonstrated by the evidence to be largely increased, as a result of the Tariff stimulating manufacturing industries and improving the condition of the mechanic and laboring man, as well as by the exclusion of American competition in many of these articles. Fruit growing has been especially benefitted and stimulated by the operation of the Tariff excluding foreign fruit which competed with Canadian grown. A wider area of land is yearly being devoted to fruit culture, and Canadian nurserymen find a much larger demand at profitable prices for fruit trees of every description which thrive in Canada. Indeed, from the rapidly increasing demand for fruit in Manitoba and the North-West, and from the fact that fruit trees do not thrive in that territory, it is evident that fruit growing will become more and more an important and remunerative branch of husbandry in the older Provinces.

The evidence before your Committee also shows that the interest on money frequently required to carry on farming operations is much lower since 1878 than perhaps was ever known formerly in Canada.

That the burden of taxation upon the farmer is relieved under the Tariff is evidenced by the amount of duties paid by the American people for the privilege of using our markets for farm produce, and by the fact, elicited by the evidence, that the foreign manufacturer gives a greater discount to the Canadian importer, equal very frequently to the amount of increased duties on manufactured goods. The general prosperity among all other industrial classes and the more constant employment at higher wages given to artisans and laborers tends to make these classes larger contributors to our revenue, and proportionately relieves the farming population.

The greater bulk of evidence taken shows that the price of manufactured goods in common use amongst farmers is increased to a barely noticeable extent; and that in many lines they are actually reduced in consequence of competition within the country and the improved facilities for manufacturing incident to the wider home market obtained by the manufacturer.

Witnesses were examined and other information obtained as to the Manitoba market, and it was apparent to your Committee, that previous to the present Tariff coming into operation, farm products of every description were largely imported from the United States and injuriously affected the farmers of that Province as well as

---

those of the older Provinces, and that farm implements almost exclusively, and to a large extent other manufactures and merchandize, were brought in from the American side; that, in short, the chief trade of that country was in the hands of the people of St. Paul and other American towns. Immediately upon the present Tariff taking effect, large quantities of farm implements and other United States merchandise were stopped at Emerson, the gateway of the North-West Canadian manufacturers and wholesale houses in the older Provinces began with vigor and enterprise to supply the increasing wants of that portion of our country, and to-day have possession of nearly the whole trade. The evidence further indicated that Ontario and the older Provinces are destined to become the busy workshops for the millions who will find prosperous homes in the vast and fertile regions of Manitoba and the North-West Territories, affording an ever-increasing market to the farmers of the older Provinces at their own doors, saving thereby commissions, interest on money, and freight incident to a dependence upon outside and distant markets.

The Ontario farmers as a result mainly of the Tariff now supply the demand for horses in that portion of our country, and to some extent also cattle and sheep. In the winter season, the almost total meat supply is obtained from Ontario in the shape of beef, mutton, hams, bacon, poultry, &c., also butter very largely. In the summer cattle are driven in from the United States for slaughtering purposes, and pay a duty of 20 per cent. Large droves are also brought in to stock the ranches in the Canadian North-West, free of duty, being for breeding purposes, chiefly cows and calves, which are improved by higher grades of stock from the older Provinces and Britain. Your Committee are of opinion that the summer demand for the better grades of meats can be profitably supplied by the Ontario farmer, sending live fat cattle, sheep and lambs, the duty making up the difference of greater cost of freight.

We beg to submit a synopsis of the views of the farmers whose evidence was solicited, throughout the Dominion, on the effect of the Tariff upon their industry, also of the Reeves of Ontario separately, by which it will be seen that a very large majority favor the present Tariff.

NOTE.—The “General Replies” comprise answers from all parts of the older Provinces; 634 are English and 86 French. The Ontario Reeves are also included.

Witnesses before your Committee assert that the removal of the duty from tea and coffee is a boon to the farming community. Upon the whole we submit that from the evidence taken and obtained by your Committee, it appears that the present Tariff is eminently in the interest of the Canadian agriculturist.

All of which, with the evidence herewith appended, is respectfully submitted.

GEO. T. ORTON,  
Chairman.

1. Bill to readjust the representation in the House of Commons, and for other purposes (Sir J. A. Macdonald); Ordered; Presented, 349. Objection sustained; (See *Questions*, 11.) Order for second reading discharged, and Bill withdrawn; Leave given to present another Bill instead thereof; Bill presented, 406. Motion for second reading; Amendment moved by Mr. Blake, that the Bill is framed in utter violation and total disregard of the principle of observing, as far as possible, the limits of the Municipal Counties in adjusting the Parliamentary representation, since it takes away territory from the Municipal Counties for Electoral purposes, and conjoins for Electoral purposes territories having no Municipal County relations with each other in a very large proportion of the constituencies of Ontario; while, at the same time, it does not effect the proposed object of equalizing the population of the Electoral Districts, 410. Motion to adjourn the Debate thereon negatived, 411. Amendment negatived, 412. Amendment moved by Mr. Mills, That the said Bill contains numerous needless changes and is framed with a view to concentrate large bodies of the Liberal voters in a few Electoral Districts, and to add Conservative voters to, or remove Liberal voters from, many Electoral Districts, and thus to weaken the effective strength of the Liberal party, and to pack the constituencies of Ontario in favor of the Conservatives, 412. Negatived; 9. By Mr. Trow, to amend the same by attaching North Easthope to South Perth, 448. Negatived; 10. ---

**QUESTIONS—Continued.**

10. Objection taken to a Motion, for House to go into Committee to consider a proposed Resolution respecting the Inspection of Steamboats, on the ground that it did not embody a definite proposition as required by Rule 41. Mr. Speaker decided, That the Rule, as generally understood, and as interpreted by late English practice, simply required the House to go into Committee to consider a general proposition, setting forth the expediency of bringing in a measure on a particular question, and that consequently, in his opinion, the proposed motion, came sufficiently within the meaning of the Rule, 213.
11. Objection taken to second reading of the Bill to readjust the representation in the House of Commons, on the ground that material alterations had been made in the Bill since its introduction, and that it was not, in consequence of such alterations the same Bill that had originally been introduced. Mr. Speaker decided as follows, There is no doubt that the point of Order is very important, and should be carefully decided, with a view to settle such questions in the future. It is true that a loose practice has prevailed in this House, and that Bills have been even allowed to be introduced in blank, without objection being taken. But the Rule is absolute, and such a practice should not be permitted. It is also equally established that when a Bill is once in possession of the House, it becomes its property and cannot be materially altered, except by the House itself. I think since this point has been raised, it is best to follow the settled practice of the English House of Commons, and not to permit hereafter any change, except mere clerical alterations, in a Bill, when it has been once regularly introduced. I therefore decide, that the point of Order is well taken, and the proper course, under the circumstances, is to discharge the Order, and reintroduce the Bill on a previous motion for leave, 406.
