JOURNAL

OF THE

HOUSE OF ASSEMBLY

OF THE

PROVINCE OF NEW-BRUNSWICK.

Major-General Sir HOWARD DOUGLAS, Baronet, Licutenant-Governor.

FREDERICTON,

THURSDAY, 8th February, 1827.

THE General Assembly having been by several Proclamations prorogued until this day, then to meet for the dispatch of business;

The House being met,

A Message was delivered from His Excellency the Lieutenant-Governor, by the Gentleman Usher of the Black Rod, requiring the immediate attendance of the House in the Council Chamber.—The House attended, and being returned,

Mr. Johnston moved for leave to bring in a bill to amend an Act intituled "An Act

for ascertaining damages on Protested Bills of Exchange.

Leave granted.

Mr. Speaker then reported, that the House had attended His Excellencythe Lieutenant-Governor in the Council Chamber, in obedience to His Command, and that His Excellency had been pleased to make a Speech to both Houses, and to prevent mistakes the had procured a copy of the same, which he read to the House, and is as follows:—

" Mr. President, and Gentlemen of His Majesty's Council;
" Mr. Speaker, and Gentlemen of the House of Assembly;

HAVE great satisfaction in keeping in existence to the completion of its Constitutional period, a Legislature whose efforts have been zealously, wisely, and harmoniously devoted to the Public welfare, in the deliberations

rations to which I have already called you; and I open this, the last Session which the Constitution will admit of this present Assembly, with entire confidence that, at its close, I shall have again to exercise a pleasing duty in giving my concurrence to measures conceived in the spirit I so cordially greet, and calculated, as your former proceedings have eminently been, to advance the Public Interests.

With that good affection to the Parent State which has ever been known to animate the People of New-Brunswick, you will, I am well persuaded, deeply deplore the distress which has pervaded the Commercial and Manufacturing Districts of the Mother Countries, within the last Twelve Months: and whilst you commisserate the sufferings which have ensued, and pay just tribute to the exemplary patience with which they have been borne, you cannot fail to revere and admire the unbounded munificence and liberality of our Most Gracious Sovereign, and numerous classes of your fellow subjects at home, (in whose beneficence, this Province, in its yet recent calamity, has so largely participated,) in alleviating the distresses which have since fallen on our Parent Land.

"With a shock so severe as this, the Commercial affairs of the Colony, as well as the feelings of a loyal and dutiful Population, could not but deeply sympathize. But the crisis has reacted upon this Province with particular force, from the inordinate extent, and rate, at which some of her enterprizes have been carried on, and from other disadvantageous circumstances resulting

from those speculations which were of an improvident character.

"Whilst I sincerely feel for those individuals who may thus have been brought into difficulty, it is quite consistent with the view I have ever taken of what constitute the real, solid interests of the Province, to look, without doubt or apprehension, to the ultimate effects of those corrections which, it was distinct to me, would unavoidably apply themselves to a branch of business under such undue excitement; and which, perhaps, was proceeding to break with complicated severity, had the crisis not been accelerated by the

sudden stagnations at home.

"I console my solicitude for the Public welfare, then, with well-grounded assurances that the reductions which late events enforce in the extent and terms of that business, will powerfully support what I have invariably stated to you and to the Country; and that those pursuits, when brought within our own inherent means of execution; conducted with a judicious observance of these practical admonitions which may be gathered from passing events; and adjusted to a proper degree of keeping with, and not paralizing, the other great branches of our well-heing, may, altogether, be made to establish a condition of industry, and a healthful state of Trade, which may be pursued with security and reasonable profit, and by which the real, substantial, general interests of the country may best be promoted.

"The depression in commercial affairs which has so generally prevailed, and other causes which will be explained, have rendered the Revenue less productive than might have been expected. But I am happy to acquaint you, that it is only when compared with the unprecedented amount of the former year that this difference is very material; and that this diminution arises chiefly from a remission of duties on some articles of importation. The state of the Provincial Finances is, upon the whole, such as to afford grounds for much congratulation, when we consider the very unpropitious character of

further

the period which they embrace; and I have further to congratulate you on the encouraging prospects, for extending the Trade and promoting the Fisheries of the Province, which present themselves from some late regulations in our inter-Colonial Trade.

- "The operations of the Parliamentary Act, granting the privilege with His Majesty's Colonial Possessions, to such Foreign Nations as should place the Commerce and Navigation of Great Britain, and her Possessions abroad; upon the footing of the most favoured Nations, was postponed beyond the period stated in that enactment, for the purpose of affording Foreign Nations ample time to consider whether they would conform to the conditions contained in the British Acts.
- "That interval having long passed," without producing the adoption of measures necessary to place the Trade and Commerce of Great Britain with the United States, on the tendered terms of reciprocity, His Majesty's Government, though resorting with great reluctance to any measure by which the freedom of Commerce with Foreign Countries might be restricted, could no longer delay enforcing the provisions of the British Acra; and an Order in Council has accordingly been issued, closing the Ports of all our West India Possessions, and the Island of Newfoundland, against the shipping of the United States, but continuing to them the privilege of trading in their own vessels with the Ports of His Majesty's Possessions on the Continent of North America.
 - " Mr. Speaker, and C ntlemen of the House of Assembly;

"I shall direct the Treasurer's Accounts to be laid before you; and I am happy to acquaint you, that, notwithstanding the unfavourable circumstances of the past year, the state of the Treasury is such as to enable you to make the usual provision for the Ordinary Services of the Province; and likewise to provide for other important objects to which your liberality has already been extended.

"Mr. President, and Gentlemen of His Majesty's Council;
"Mr. Speaker, and Gentlemen of the House of Assembly;

"I did not fail to transmit to His Majesty's Secretary of State, to be laid before His Majesty, your Loyal and dutiful joint Address, on the attempts which had been recently made by certain American Land Agents, to disturb the Possession of His Majesty, and the jurisdiction of this Province, in certain tracts of the Country. His Majesty, with that gracious attention and regard to the rights and interests of His North American Dominions, for which they have so much reason to be grateful, received your Address most graciously, and directed that important document to be transmitted to His Majesty's Secretary of State for Foreign Affairs, for further consideration.

"Together with explanations given in reply to the representations made by His Majesty's Minister Plenipotentiary, against those encroachments, very satisfactory assurances have been conveyed to His Majesty's Government, that it is the earnest wish of the Government of the United States to reciprocate the conciliatory disposition and procedure observed on the part of the British Government; and that the American Secretary of State had been directed by the President to inculcate on the Governments of the adjoining States, the observance of a like course of conciliation and forbearance; and to be careful to do no act which might change the state of the question, as it existed when the Treaty of Ghent was executed. The communication

further states, that respectful regard would be paid to the observances thus inculcated, and that no steps are in contemplation which can in any degree tend to produce further excitement.

"Reviewing the past year, with all the devout sentiments and grateful feelings which are most due, when we carry that retrospect into the awful occurrences of the preceding period, and reflect upon the interpositions of Divine Mercy which wethen experienced; considering, too, the profound state of suffering which has existed at home, the People of New-Brunswick have much reason to be thankful. The traces of the dreadful conflagration are rapidly disappearing; and the sturdy industry of our people, quickened and supported by the means which have been so generally contributed to their relief, and which your liberality has considerably augmented, have, in general, placed improved establishments on the sites of those which had been consumed; a season particularly auspicious has favoured the labours of the People; and, in most parts of the Province, has blessed their Agricultural Industry, with abundant returns.

"The circumstances of the Country in its internal capacities, were highly susceptible of being made to take up all the hands disengaged from other pursuits, by the commercial embarrassments which I have stated; and in this transition, though sudden and severe, no individual distress, or want, have necessarily arisen among the labouring classes. In proportion as stagnations in external transactions recoiled upon the Province, I applied, with encreasing effect, to the public works, means which had been placed at my disposal in the late Session, as well as those which I had reserved from former times, when they could not have been laid out with due care and circumspection.

"By these, and other arrangements, which fortunately I have been enabled to make, I have kept all the Public Works and Institutions, the Public Buildings which had been undertaken, and other objects for the general improvement of the Country, in full and very effectual activity, notwithstanding certain highly disadvantageous circumstances, respecting the state of Cash pay-

ments into the Treasury, which I recommend you to consider.

"I am happy to acquaint you, that a spirit of improvement in Agriculture continues to manifest itself in all parts of the Province, and that great advantages in modes of cultivation, increased production, and improvement in the breed of Cattle, have already been produced by those Institutions which you have enabled me to form: and I have further the satisfaction to acquaint you, that the measure of uniting the Emigrant and Agricultural Societies according to the constitution which has been given to them, has been found to produce very beneficial combinations in the settlement and cultivation of the Province in all the Districts in which those measures have been tried; and that a system has thus been matured, which will be eminently serviceable to the Province, should the proposed system of Emigration from the Mother Country, be directed in any extent, and with the means and facilities which have been recommended, to settle and cultivate the ungranted Lands of a Province, in the extent of whose local capacities; and in the industry, and stedfast. Loyalty of whose Population, the foundations and principles are firmly laid, of what is fast rising to be one of the most valuable Colonies of the British Empire.

"The Colonial Trade on its present footing promises to be so highly beneficial to the British North American Fisheries, generally, that the industry of this Province, encouraged to active participation in those benefits, and stimulated by the Bounties you so liberally award, will herereafter exert itself with

·fair

fair prospects of profit, and consequently with more enterprize, in cultivating this rich branch of your natural resources: and I shall promine, by all means and appliances in my power, a branch of Industry so appropriate and beneficial to this Maritime Province, and so congenial with the Power and Policy of the Great Naval Empire to which she belongs.

"To the establishment and advancement of all Institutions of Education and Learning, I shall ever devote my best exertions, and show the warm interest I take in their well-doing; and I recommend all such Institutions to that continued liberality, without which those exertions were unavailing.

"I have had under my consideration some further measures for improving our Militia system, in conformity with the provisions of the Militia Law; and am well satisfied with the progress making in the various important objects for which that Law provides. It will, however, require revision, and some amendments, which I recommend you to consider.

"The Public Roads, in the laying out and management of which, much care, circumspection and system were required, have proceeded with evident improvement, and to a very considerable extent; and all grants for like pur-

poses shall be laid out with similar safeguards.

"To these, and all other objects of Public utility, which I have heretofore recommended to you, I request your continued protection and liberality.

"When first I met the Legislature of the Province, I considered it indispensable to enumerate all those objects and Institutions, fully and specially, because I wished to lay before you the result of that full consideration which, to the best of my powers, I had devoted to your general affairs; so to develope, clearly and distinctly, the course which I should recommend, and, for myself, adopt, as that which, if steadily followed, would, I distinctly saw, lead this Province, through some menacing difficulties which did not appear to me to be sufficiently marked, to that high degree or solid condition and real prosperity, to which she may, most certainly, attain. With those views you have concurred; with that course of policy you have conformed; you have wisely and liberally provided for, and supported the measures which to this great end I have laid before you; and whenever it may appear to me to be necessary to present for your consideration, any details which might tend to promote, more effectually, these objects, I shall communicate with you by Special Message: but I need not here recapitulate, generally, views in the expediency of which you have acquiesced, nor dwell upon measures whose progress towards accomplishment you have already signaled in the improving condition of the Country."

On motion of Mr. C. Simonds, Resolved, that a Committee of Trade be appointed, to take into consideration all matters which may effect the Commercial Interests of this Province, and to report thereon from time to time to

the House.

Ordered, that Mr. C. Simonds, Mr. Johnston, Mr. Slason, Mr. Parker, and Mr. Crane, be a Committee for that purpose.

To His Excellency Mijer-General Sir Howard Douglas, Baronet, Lieutenant-Governor and Commander-in-Chief of the Province of New-Brunswick, &c. &c.

THE HUMBLE ADDRESS OF THE HOUSE OF ASSEMBLY.

· May it please your Excellency,

FIFE Speech which your Excellency was pleased to make at the opening of this, the last Session of the present Legislature, demands the cordial thanks of the House of Assembly, and will have the effect of powerfully exciting their best exertions in advancing the Public Interests.

The House of Assembly, in common with the Loyal People of New-

Brunswick,

Brunswick, with the most painful feelings of commisseration, heard of the sufferings which fell so heavily upon the Commercial and Manufacturing Districts of our Parent State; Sufferings which have been borne with the most persevering fortifude, resulting from unshaken loyalty and affection to our most Gracious Sovereign, and the unrivalled Constitution by which they are Governed: It is however a source of consolation to us, that those sufferings have been greatly alleviated by the Royal munificence, and the characteristic liberality of our fellow subjects at Home, to whom this Province, in her recent calamities, was also so deeply indebted.

"The intimate connexion between this Province and the Parent State, caused the late commercial embarrassments to be severely felt here; but it must at the same time be admitted, that a great measure of our distress has been produced by the same causes which so greatly contributed to the sufferings at Home, namely, excessive speculations in Trade; Speculations far beyond what the Commercial capital of the Province could, under ordinary circumstances, have warranted; the pernicious consequences of which, will not doubt have a salutary effect in correcting our future enterprizes, and in pointing to the propriety of depending more upon the natural resources of the Country.

"The House were, from the Commercial embarrassments of the Country prepared to hear of deficiencies in the Revenue compared with several preceding years: They have great satisfaction in learning from your Excellency, that the decrease is not so great as might have been expected from the operation of causes not within the controll of this Province, and that a great part of it, is owing to a remission of duties upon certain articles of import.

"The recent measures which have been adopted by His Majesty's Government for regulating the Trade to the West India Colonies, will, if persevered in, soon restore the Commerce of this Province to a state of prosperity equal to that of any former period, and will give an immediate excitement to several branches of Industry, and especially to our Fisheries, to the prosecution of which, we may safely direct the energies of a portion of our population, with certainty of ultimate benefit.

"We thank your Excellency for directing the Treasurer's Accounts to be laid before us, and we have great pleasure in the assurance, that the state of the Treasury will enable us to provide for the Ordinary Services of the Province, and other important objects.

"The information conveyed to us by your Excellency upon the several subjects which gave rise to the joint Address of both branches of the Legislature to His Majesty, at the last Session, is of the most gratifying nature; and we beg leave to express to your Excellency, our full and firm reliance, that His Majesty's Government will not compromise the just and undoubted rights of this Province; and we take this opportunity to convey to your Excellency, the high sense which we entertain of the eminent services which your Excellency has rendered to this Colony, in placing this long disputed question of Boundary in its true light, a question which had hitherto not been much investigated, or understood, even in this Province, where the highly important mature of the disputed points had been generally overlooked.

"Comparing the past with the present, we feel deeply, that we have most abundant cause to be tankful to the Giver of All Good, for his merciful interpositions: The labours of the Agriculturist have been so generally successful,

that

that our Land is filled with plenty; the traces of recent calamiries are fast dis-

appearing, and the condition of the Country evidently improving.

We are rejoiced to learn that the application of the Grants placed in the hards of your Excellency, for the construction of various Public Works, has, to the fullest extent, been productive of the desired and intended effects, and that such of the labouring classes as would have been destitute of the means of support, by the unprecedented depression of our Commerce, have found steady employment upon these works.

"The House are fully aware of the necessity of preserving Public Credit, and it is to be regretted that any disadvantageous circumstances should have existed, in the payments into the Treasury: This subject shall have our dili-

gent attention.

"The spirt of Agricultural improvement which begins to manifest itself throughout the Province, is in a great measure to be attributed to the formation of Agricultural Societies; and the union of those, with the Emigrant Societies, has been attended with very beneficial effects in many parts of the Province: To your Excellency, as the founder, and Patron of these Societies, this Province will ever feel most deeply indebted; and we doubt not, that by following those measures which your Excellency, on first meeting the Legislature of this Province, pointed out with almost Prophetic certainty, as necessary to be followed, this Province will rapidly rise in importance, and comparative rank with the other British Colonies.

That the advancement of Literature is a real blessing to mankind, canrot be doubted, the miseries consequent upon the neglect of this most important object, are sufficiently manifested in the present condition of certain parts of Europe; we will continue to give every encouragement to our Intstitutions of

Education, which their high importance demands.

"The Militia system shall also have our careful consideration."

"The measures which have been adopted for the improvement of the Public Roads are highly satisfactory: This great object, as well as all others of

Public utility, shall have our continued protection.

"In supporting the several measures recommended by your Excellency, when you first met the Legislature of this Province, the House indulged the hope that they were promoting the best interests of the Colony; that hope has now ripened into certainty; and we are sanguine in believing, that those measures, if steadily pursued, will ultimately lead us through all the difficulties which have fallen upon us, by the recent stagnation of Commerce.

Such objects as your Excellency may be pleased to recommend from time to time, by Special message, shall have our early and distinct attention."

Thereupon, Resolved unanimously, that the Address be engrossed, signed

ty the Speaker, and presented to His Excellency by the whole House.

Mr. R. Simonds, by leave, presented a Petition from the Commissioners for the Sick-and Disabled Seamen fund at Miramichi, praying that the sum of £311 may be granted from the Province Treasury, to enable them to pay the Accounts remaining unsettled from the 10th day of April, 1826, to the 31st day of December, in the same year.

pointed to examine his Accounts, and were satisfactory to them.

In reporting upon this Account, the Committee think it proper to observe, that they have some doubts as to the expediency of continuing to support a Cutter at so great an expense, as no information is furnished by the Commissioners of adequate benefit to the Revenue, and they recommend to the House, to consider whether the Revenue could not be more effectually protected by the employment of Boats, of a proper description, under the direction of a person competent to the duty.

B, Is an Account of the Commissioners for Light Houses, for expenses incurred by them in examining the South-east coast of Grand Manan, in order to ascertain the best site for a Light House, amounting to £27:8:2½. all

all matters which may affect the Commercial Interests of this Province; submitted a Report, which he read in his place, and it being handed in at the

Clerk's Table, was there again read, and is as follows:

"That by an Abstract of Duties received by the several Collectors of the Customs in the Province; It appears that £18278: 12:3½ has been collected between the 5th January 1826, and 5th January 1827, under the means and powers of the Act of 6 Geo. 4, c. 114, equal in the Currency of this Province, to the sum of £20309: 11:5.

"By the Treasurer's Accounts, it appears that of the above sum of £20309:11:5, only £11613:13: $8\frac{1}{2}$ has been paid into the hands of the Treasurer and his Deputies, leaving still in the hands of the Collectors of the

Customs, unaccounted for, the sum of $£8695:17:8\frac{1}{2}$.

"The Acts above referred to, directs that the produce of the Duties collected by the means, and under the powers thereof, "shall be paid by the Collectors of the Customs, into the hands of the Treasurer or Receiver General of the Colony, or proper Officer authorized to receive the same, in the Colomy in which the same shall be levied, to be applied to such uses as shall be directed by the local Legislatures of such Colonies respectively."

"The Committee therefore recommend, that the House take immediate steps to ascertain by what authority the Collectors in this Province have been induced to retain so large a portion of the whole amount of duties collected by

them as aforesaid.

"The above sum of £18278: $12:3\frac{1}{2}$ if collected upon the principle that the Spanish Dollar is equal in value to no more than 4s. 4d. sterling, would amount, in Currency, to £21090: 18:4, and the sumunaccounted for, or retained by the Collectors, would be £9477: 4: $7\frac{1}{2}$."

Mr. M. Kay, Chairman of the Committee appointed to enquire into the expediency of re-establishing the Office of Deputy Treasurer at West Isles, submitted the following Report,

Which he read in his place:-

That they have had under their consideration various representations from the Ship Owners and resident Merchants at West Isles and Campo-Bello, setting forth many serious inconveniances which they experience in carrying contheir West India Trade, in consequence of the removal of the Deputy Treasurer from West Isles; they state that under the existing regulations, all their transactions with the Treasury must be performed in personat Saint Andrews, distant nearly twenty miles from their homes and business, and only accessible by water, that during the Winter season it is often quite impossible to proceed there for many days:—They are therefore subjected to much loss of time, serious detention of their vessels, much unnecessary expence, and very great personal inconvenience; and are of opinion, that the present system tends

greatly to discourage enterprize in this branch of Trade, so important to the Revenue of this Province.

"These statements are fully supported by the representations of most of the

respectable Merchants in Saint Andrews.

"Your Committee therefore, after a careful and attentive consideration of the matter referred to them, are of opinion, that no injury can accrue to the Province from a Deputy Treasurer being appointed at West Isles, or Campo-Bello, at a moderate Salary, and that the Mercantile Interest in that quarter will be much benefitted by the appointment; and do recommend the same accordingly."

Resolved, that this House entertains a proper sense of the benefits conferred on this Province by the Imperial Parliament of the Mother Country, in admitting us to a participation of the general Trade of Her other Dominions, and also for those measures which have opened to her Colonies a direct intercourse with Foreign European Powers, and the Territories of Southern America: And this House is also duly grateful for the relief which the abolition of Custom-House fees, has offered in a particular manner, to the Coasting Trade of these, her trans-atlantic Possessions.

2d. Resolved

2d. Resolved that it is the full opinion of this House, that the fair and proper charges and expenses attending the collection of the Revenue of this Province, should be defrayed out of such Revenue; And that we cannot reasonably require or expect that the same should be a charge on the Treasury of the United Kingdom; And that this House has always been ready, and is still willing to make such liberal provision for that purpose, as the amount of the Revenue and circumstances of the Country will justify.

Ed. Resolved that it is the clear and undoubted right and privilege of the Assembly of this Province, to appropriate the produce of all duties or taxes raised within the same, by virtue of any Law passed since the existence of this Legislature; it necessarily appertains to them, as an inseparable part of that right, to determine on the amount or proportion to be allowed out of the Revenue, for the charge of collecting the same; this House not being able to acknowledge or recognize any distinction in point of right, between the appro-

priation for collecting, and disposing of the same for other purposes.

4th. Resolved that this House, after the most careful consideration, are fully convinced, that it was not the intention of Parliament to interfere with a right which as an inherent principle of the British Constitution, His Majesty's Subjects in this Province derived autheir birth, and have hitherto maintained and upheld, preserving at the same time an unshaken loyalty to the King, and affection for the Government under which they live: And this House feel bound respectfully, but distinctly to declare their opinion, that neither the spirit or the letter of any existing Act of Parliament authorizes the appropriation which has been made by the Lords of the Treasury, of the duties collected under the Provisions of the late enactments; and that any grant of Salaries which it may be proper to make to the Officers of His Majesty's Customs, out of such duties, should originate with this House.

Eth. Resolved that notwithstanding the Officers of the Customs are principally engaged in carrying into effect the Laws of Trade, and the General purposes of Navigation, and not in the collection of duties; yet this House will not full to make as liberal a provision as the circumstances of the Country will allow, for the requisite number of Officers; but at the same time, they feel bound to declare, that the present establishment is, in their opinion, unnecessarily large, and might be reduced without any prejudice to the collection of the Revenue; and they must also express their desire and expectation, that no objection will be made to the Officers performing any reasonable services

which may be required of them by Acts of the Colonial Legislature.

6th. Thercupon Resolved, that an Humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will take the necessary steps to lay before His Majesty these Resolutions of the Representatives of His faithful subjects, the People of this Province; and to pray that His Majesty will be graciously pleased to give directions for withdrawing the Order under which so large a pure of the Revenue has, as they conceive, been improperly withheld; and that His Excellency be also requested to convey to His Majesty the assurance that this House will very cheerfully comply with His Majesty's wishes in this matter, so far as may be consistent with their rights and privileges, and the circumstances of the Country.

And that this House has the fullest confidence that His Majesty will never allow or sanction any measure which might impair the rights or interests of

any of His subjects, however remote may be their situation, or inconsiderable their numbers."

PRAYERS.

Mr. Parker, from the select Committee, to whom was referred the Report of the Governor and Trustees of the College of New-Brunswick, laid before the House by Message from His Excellency the Lieutenant-Governor, made the following Report:

Which he read in his place.

The Committee to whom was referred the report of the Governor and Trustees of the College of New-Brunswick, laid before the House by His Excellency

lency the Lieutenant-Governor's Message, beg to submit the following Renort:

Your Committee find by the statement of the College Board, that shortly after the close of the last Session of the Legislature; the plans and estimates which had been received for a College Building were again taken into consideration; and the Board having given the preference to Mr. Woolford's plan,

rame to the following Resolution:

"Resolved, that in order to comply with the spirit of the Resolution of the "House of Assembly, and to reduce the expense in the erection of the building, the dome be dispensed with, and a pediment substituted, and that the
"plan so altered and carried into effect by the present Committee, if it can be
"be done for the sum of #11,000 currency; but if no tender shall be made
"for that sum, then the Committee be authorized to procure new designs."

And that a Tender having been made to complete the building for £10.300, the same was accepted and Contracts made with responsible men, and that the

work has been commenced and proceeded in to considerable extent.

Your Committee consider that the sum contemplated by the House at the last Session as proper to be furnished from the Provincial Revenue was only £4,000; and that the Resolution then passed will by no means bear the construction put upon it by the College Board;

Only \$2,000 of this having been as yet granted; the House have now to

determine what further appropriation shall be made.

In cases like the present, your Committee are of opinion that very particular circumstances alone would induce this House to depart from their original limitation; however it might fall short of the expectation of the applicant.

The Committee viewing this as an object of the utmost importance to the present and future interests of the Country, and considering that the liberality of His Majesty's Government has been evinced in a very extraordinary degree not only in the sums granted for the erection and endowment of the College; but also in the promise of peculiar and important privileges to be secured by Royal Charter; (which has been obtained through the paternal care and unremitting exertions of His Excellency the Lieutenant-Governor;) think it material for the House to consider whether in order to secure these great advantages it will not be advisable to increase the sum at first proposed.

The additional sum required to complete the building will be £2,300; which

however would not be required during the current year.

All which is respectfully submitted.

ROBERT PARKER. CHARLES SIMONDS. HUGH JOHNSTON Jun.

The Report being again read at the Clerk's Table, was Ordered to be accepted.

To the KING'S Most Excellent Majesty.

THE HUMBLE AND DUTIFUL ADDRESS OF THE HOUSE OF ASSEMBLY, OF YOUR MAJESTY'S

PROVINCE OF NEW-BRUNEWICK.

May it please your Majesty

I ledge the many benefits conferred on the Inhabitants of this Province, by your Majesty and the Imperial Parliament; and are deeply sensible of the benevolent intentions which dictated those measures, by which the Colonies were admitted to a direct intercourse with Foreign Powers.

They beg leave also to assure your Majesty, that the relief afforded; to the coasting Frade, especially of this Province, by the abolition of Custom House Fees, was viewed as an additional proof of that fostering care and kind regard, which your Majesty and Parliament have so often evinced for the welfare of this part of your Majesty's extended Dominions.

The House cannot for a moment believe, that it ever was intended to dessen

The House cannot for a moment believe, that it ever was intended to dessen those benefits which the late Commercial regulations were calculated to produce, by taking from the Colonial Legislature the right of appropriating the whole of the duties levied upon the people of this Province. On the contrary it is evident that this right, acknowledged by former enactments, was by the Act of the 6th Year of your Majesty's Reign, expressly recognized and confirmed.

Under these impressions, it was not without feelings of extreme regret, that this House heard, just before the close, of their last Session, that the Custom-House Officers in this Province, had received instructions from the Commissioners of Customs to retain for their salaries, a large portion of the duties by them

No Official communication having then been received by your Majesty's Government here, relating to those instructions, the House considered the order which so materially affected their dearest interests, and which appear to them at variance with the Acts of Parliament, to have been intended as a temporary arrangement to continue in operation only until the subject should be submitted to this House, with whom they hambly conceive the appropriation of the afformation of the afformation

As the services of the Custom House Officers are principally, required viologically into effect the Laws of trade and navigation, it is the opinion of this House, that the more proper mode of paying for those services would be by charges on Shipping; but this House are well aware of the impolicy and inconveniency of any Colonial regulation for this purpose.

The Returns which have been laid before the House during the present Session, shew the amount of duties collected under the Acts of Parliament for the last year, to have been about \$20,000; yet but little more than one half of that sum has been paid over to the Province Treasurer; the Salaries of the Officers at several places far exceeding the amount of duties collected, or of the less they would have received under the old system.

Although, under the late directions received by the Officers of the Customs, the whole of the duries collected throughout the Province, could not be retained for collection, as was contemplated by the first instructions is well by the present temporary arrangement, nearly £9,000 may be deducted from a Revenue of £13,000;

of £13,000; archange which must appear the more disproportionate; when twe numbly assure Your Majesty that the Rrovincial Revenue, which has exceeded £30,000, is collected at the expense of about £2,000, and that the Provincial Officers might have collected the new duties with little or no additional charge to the publicational secondidades and the contract of the cont

Although the present Salaries may nor amount to so much as the fees would have done; yet, when it is considered that a large proportion of those fees was paid on vessels owned in the United Kingdom, and in foreign Countries, and the fees on the Coasting Trade, only, were considered burthensome or oppresive; and that the abolition of fees, has afforded relief to the Ship owners of he Mother Country, in a much greater degree than it has to the Ship owners if this Province; your Majesty will, it is humbly hoped, see nothing unreasonale in the reluctange which this, House feels in agreeing to any, arrangement which would transfer the whole charge of collecting the Revenue of this Province, to that Revenue, unless such charge bear a fair and reasonable proportion to the amount collected; and the Salaries of the Custom House; Officers be in just relative proportion to the Salaries of other Officers in the Colony.

Understanding that the subject is still under the consideration of Your Majesty's Government, the House have waited with great anxiety, until nearly, the close of the Session, in the hope of the arrival of Your Majesty's most gracious order to direct the whole amount of the duties that may be collected under the Acts of Parliament to be placed in the Provincial Treasury, and, at, the dispoal of the Provincial Assembly, to whom they humbly conceive, it rightfully: ippertains to fix the amount of appropriation for collection as well as for other purposes?
