The St. James' Church Sunday School Christmas Treat was held last Wed. evening in St. James' Hall. A large gathering of children from the Upper District and the Town Schools was present, also many of the parents and friends of the children. The Sunday School Teachers had a beautiful Christmas Tree erected and decorated, the stage of the hall being also decorated for the occasion. A varied and interesting program was carried out including: hymns, carols, choruses, piano solos, dialogues and recitations. Santa Claus arrived during the entertainment and presented each scholar with a Christmas bag, well filled with candies, chocolates, nuts, raisins and apples. Santa did not forget some of the older members of the congregation and presented a number of them with gifts which greatly amused the children. The evening was a most enjoyable one but was marred by the enforced absence of the pastor Rev. L. H. MacLean, who was ill. Mayor C. E. Fish presided in the absence of the pastor, and Miss Margaret McCurdy accompanied on the piano.

## OBITUARY

MRS. HEBER SPROUL

Again death's call has come to Newcastle, and has claimed another of its finest citizens in the person of Mrs. Dr. Heber Sproul, who after a short illness of pneumonia passed away at the Miramichi Hospital on Thursday afternoon, Dec. 28th, 1922.

Deceased lady, who was fifty-one years of age, prior to her marriage was Miss Bessie Miller, daughter of the late Mr. and Mrs. Wm. Miller of this town. She was a person of splendid qualities, of quiet tastes and a most lovable disposition. From day to day she faithfully performed life's duties and radiated sunshine and helpfulness toward all with whom she came in contact. She was a devoted member of St. James' Presbyterian Church and her death has saddened the community.

Besides her bereaved husband to whom goes our deepest sympathy, she is survived by four sons, Hudson, John, Leland and Beverly, and two daughters, Darnie and Reba, who mourn the loss of a tender, loving mother. Four brothers also survive, Samuel and Harry Miller of Newcastle, Everett of Spokane, Wash., U.S.A., and Clarence of Sydney, N. S.

The funeral of deceased lady was held on Sunday afternoon at 2 o'clock from the family residence to St. James' Church after a short family service at the home. The funeral was largely attended and a most impressive service was conducted in the church, by Rev. L. H. MacLean, after which the remains were buried in the family lot in St. James' Cemetery. The pallbearers were: Messrs. James Stables, G. G. Stohart, J. E. T. Linton, A. A. Davidson, C. H. G. Gough, and John Russell.

## DATE OF OPENING OF PARLIAMENT YET UNDECIDED

With the return to Canada of Hon. W. S. Fielding, Minister of Finance and Hon. Ernest LaPointe, Minister of Marine and Fisheries, early in the new year, final preparations will be made for the opening of Parliament. The date remains to be decided but there seems to be little doubt that it will be in January or early in February. Some weeks ago orders went round the various departments to have all the main estimates ready for submission to cabinet council.

## MILITARY FUNERAL IMPOSING CORTEGE

The funeral of the late Allan J. Murray took place at 2.30 p. m. on Wednesday Dec. 27th, under the management of undertakers A. J. Bell & Co., assisted by the local branch of the Great War Veterans' Association, who arranged for a military ceremony. The parade was most impressive. The Band, in military uniform, playing "The Dead March in Saul," led, followed by a firing party composed of ex-service men. Next came an escort of veterans followed by members of the Harkins Academy Cadet Corps. The Casket, draped with a Union Jack, was carried on a gun carriage drawn by two teams of horses driven from the saddle; four gunners rode on the carriage. The pallbearers in uniform were: Clarence Russell, William Allison, Samuel Craig, Percy Roman, Jos. Beckwith, Walter Macdonald. A large number of Brotherhood members, as well as of the general public followed in the parade. The mourners were: Willis, Rex and Chester, the three sons of the deceased, his brother, James Murray, Charles McBride and Thos. Maltby.

Rev. Ronald Davidson, M.A., conducted an impressive service at the house and read the burial service at the grave, after which the firing party fired a salute of three volleys over the grave and the bugler sounded "Last Post" as a final tribute to a departed comrade.

# Canada's First Scotchman

MONUMENT ERECTED TO MAN AFTER WHOM PLAINS OF ABRAHAM WERE NAMED.

For over three hundred years the St. Lawrence River has been the great waterway into the interior of the American Continent. It was the route by which La Salle, Marquette, Joliette, Hennepin and DuRoi penetrated to Lake Michigan, although a round about passage had to be taken up the Ottawa and Mattawa Rivers over Lake Nipissing into Lake Huron to avoid the hostile Indians below Lake Erie. For ocean going travel to-day the chief ports are Montreal and Quebec, and these ports show an ever increasing volume of traffic. The shipping season of 1921 was a record for the port of Montreal, during which a total of 807 trans-Atlantic steamers, registering a tonnage of 2,593,494 tons, arrived at and steamed out of the great harbor. This was 105 vessels, or 556,856 tons over the highest previous record, made in 1919. 1921 also showed a large increase in the number of vessels trading from Montreal to the Maritime Provinces and Newfoundland, a total of 157 ships registering 293,462 net tons. The trans Atlantic vessels came under many flags, British, Norwegian, American, Italian, Dutch, French, Swedish, Greek, Jugo-Slav, Spanish, Finnish and Icelandic, in addition to those on Canadian register.

Monument to be erected by the Canadian Pacific to Abraham Martin, the first known Scotchman and first pilot in Canada.

The profession of pilot on the St. Lawrence is therefore very important, as it is to these pilots that route with its rapidly increasing traffic depends for its reputation as to safety. There are fifty licensed pilots between Montreal and Quebec and sixty-two between Quebec and Father Point. The taking on of the pilot always is a picturesque incident to the ocean traveler and brings an interested crowd to the ship's side. The first known pilot on the St. Lawrence was Abraham Martin, after whom the Plains of Abraham at Quebec are named. In the Jesuit Relations, Abraham Martin is referred to as "dit l'Ecosais" or "called the Scot," so that in addition to being the first pilot of the King of France he was also the first known Canadian of Scotch descent. Although a French woman though married to a French woman and very notably born in France, Abraham Martin was no doubt descended from one of the numerous soldiers of fortune who fought in the Army of the French King, and perhaps formed one of the Scots Guard which became famous in the days of Louis the Eleventh and plays an important part in Sir Walter Scott's romance of Quentin Durward.

The Plains of Abraham are named from the grant of land which Abraham Martin received from Samuel de Champlain in 1617 at the time of the settlement of Quebec. Louis Hebert, the most famous of the first colonists of Canada, received a grant of land alongside at the same time. Abraham Martin undoubtedly cultivated his own farm, but apparently was also a carpenter and took sufficient interest in shipping to get the appointment of King's Pilot. The Canadian Pacific Railway, in view of its great steamship inter-

ests, has decided to erect a simple but artistic Memorial to Abraham Martin, which has been designed by Henri Hebert, the well known French-Canadian Sculptor who is connected with the original Louis Hebert, and thus is particularly fitted to design the Memorial. This is to be made of granite and shows a pillar crowned by a globe of the world, supported by thistles. Carved in low relief is the Lily of France rising out of the sea. The inscription is in both French and English, the latter reading:—  
This Monument Recalls to the Passer-By Abraham Martin Called the "Scot" First "King's Pilot" On the St. Lawrence Who Tilled the Land On the Illustrious Plains Which Bear his Name.

## STORMIEST VOYAGE OF HIS LIFETIME

New York, Dec. 23—Engulfed by seas ninety feet high, tossed like a toy boat in a hurricane of 129 miles velocity, fighting every knot of the way, the French liner Savois came into port yesterday after an encounter with storms that kept her captain above deck throughout the eleven day voyage and streaked with gray the hair of a woman passenger. Only a smashed railing on the starboard bow, the haggard, but thankful faces of 320 passengers, and the bedraggled appearance of the captain indicated the life and death struggle through which the Savois had just come. She was 48 hours overdue. Three times her wireless aerial was torn from the ship's top when the storm was at its height last Tuesday, Wednesday and Thursday. The barometer dropped six points in an hour. Passengers knelt in prayer and despair of ever seeing land again. Through it all, Captain Henri Boisson, grizzled veteran of countless fights with raging elements, stood on the bridge, directing the fight for life while towering seas poured across the decks of the careening liner, tore a thousand pound piano loose and hurled it 40 feet across the drawing room, smashing portholes of the first cabin and poured a foot of water into the suite de luxe. His nerves shaken, his eyes blood-shot, his wracked body crying for sleep, Capt. Boisson tried to smile his triumphs to-day. He admitted that there had never been such a storm on the Atlantic during the 15 years of the Savois's career or the thirty-two years he has put to sea.

## Will Deposits \$25,000 Till it is Two Millions

Cloyd M. Rice, of Elizabeth, N. J., who died on November 26, 1922, left a will directing that the income of his \$25,000 estate be paid to his wife during her life time, and that at her death the principal be placed on deposit in a New York bank until it reaches \$2,000,000, at which time the total is to be used for the building of a home for the children of native-born Masons.

Standard interest tables reveal the fact that if the money is placed at 3 per cent compounded annually, the \$25,000 will reach the \$2,000,000 mark in about a century after Mrs. Rice dies. So New York Masons of today may stop worrying at once as to what financial provision will be made for the grand-children of their grand-children and their progeny.

## Alberta Planning New \$3,000,000 Debenture

Edmonton, Dec. 27—A new debenture issue of probably \$3,000,000 will be put on the market by the provincial government about the middle of January. It will be on the basis of 20 years, five per cent, in both Canadian and American funds. The sale will be made, it is now intended, by public tender.

The issue will take up the balance still remaining from the amount authorized in 1922 and the proceeds will be applied to public works and other purposes.

## The Movie and The Rockies

WHILE acting as special investigator for the Canadian Government, James Oliver Curwood became enamoured of Nature's wonderland in the Canadian Rocky mountains and made it the scene of many of his stories. "The Valley of the Silent Men," that little Eden of the North, over which three snow-clad sentinel mountains keep perpetual ward, was no myth. Mr. Curwood simply claimed it by romancer's right, and blazed the way to it over the trail taken by his heroine, the little Canadiane, Marquette, and the gallant Corporal James Kent of the Royal Mounted Police.

But with all his skill as a word-painter, Mr. Curwood could only indicate the natural beauties of this Paradise. Even the "still" camera and the painter's canvas can capture only isolated bits of natural beauty which seem so remote that the spectator can hardly realize their truth. But now the motion pictures have followed Mr. Curwood's trail, and in filming "The Valley of the Silent Men" amidst the very scenes which the author described in his thrilling romance, will bring home to millions of screen devotees the natural wonders of the Canadian Pacific Rockies.

Cosmopolitan Productions on acquiring the motion-picture rights to "The Valley of the Silent Men," sent a company up into the mountains early last spring. For twelve weeks they camped and took pictures about Banff and Lake Louise, and the camera caught that miracle of nature,—the coming of spring in the snowy wilderness. Frank Borzage, celebrated as the director of "Humoresque" and other successful Cosmopolitan productions, captained the company,—which was headed by Miss Alma Rubens, as the heroine, Marquette, and Lew Cody, as the gallant corporal of the Royal Mounted, Edward Fess, the veteran guide, piloted the daring picture people through dangerous passes, while in-

The upper picture is Alma Rubens, who plays the part of "Marquette" in "The Valley of the Silent Men," and a dog team in the Canadian Rockies at Banff, Alberta, last spring. The lower picture is a glimpse of the encampment of Stoney Indians near Banff, Alberta.

dians of the Stoney tribe under Chief John Powderface, were enlisted by the company; both as guides and characters in the picture. One especially thrilling and dangerous scene was filmed when Miss Rubens slipped into a crevasse in a glacier,—(according to directions of the scenario)—but the hero's frantic search for her gave occasion for filming the icy depths of that vast frozen river. Dog sledges bore the lovers into a veritable "Valley of the Silent Men," where their romance ended happily beneath the benediction of the three white sentinels of this snowy Eden of the Northland. No trail was too long or dangerous for Director Borzage and his courageous company, and the results as seen upon the silver screen achieve not only a perfect picturization of Mr. Curwood's romance, but an excellent moving-picture of the Canadian Rockies. It took a long time to find just the right place in which to film this thrilling story. In the first place the scenery had to conform to the author's description, and after that it had to be far and away out of the run of ordinary mountain scenery. It had to be on a scale of grandeur and interest that would make the film remarkable. Then, too, it had to be accessible. The Canadian Pacific Rockies in the vicinity of Banff and Lake Louise filled all these requirements, and further provided the very best possible accommodation for the members of the company at the Banff Springs Hotel, and the Lake Louise Chateau, both in very easy distance of the wonderful scenes photographed in the making of this film.

## The Cause of Heart Trouble

Faulty digestion causes the generation of gases in the stomach which inflate and press on the heart and interfere with its regular action, causing faintness and pain. 15 to 30 drops of Biber's Siga's Curative Syrup after meals sets digestion right, which allows the heart to beat full and regular. 50c. and \$1.00 bottle at druggists.

### JUDGMENT GIVEN IN MINING CASE

Moncton, Dec. 25—Judgment of public interest was delivered recently at Fredericton by Mr. Justice Grimmer in the action of James Young against Hon. C. W. Robinson, as minister of lands and mines, and Alexander G. Robinson, and C. D. Richards, of Fredericton. It involved the right of a coal mine in Queens County, N.B. It is alleged that Mr. Richards held a license to work the area in question, which lease expired on Sept. 29, 1921. Before that day Mr. Richards informed the Crown land office that he desired a lease of the property but made no formal application in writing. On the morning of Sept. 30 of the same year James Young applied for license to work the mine on the ground that the proper license had expired and that no application for a license had been made on behalf of C. D. Richards. The Crown land office concurred in this view and a license was issued to Mr. Young. A consequent inquiry was held and it was shown that Mr. Richards through his development of the area in litigation, had satisfied all conditions imposed on licenses and the license of Mr. Young was ordered cancelled, and the lease was reissued to Mr. Richards.

Mr. Young brought action then for declaration that he was entitled to a license for the area and that the lease to Mr. Richards had been illegally granted. Mr. Justice Grimmer held that no particular form of application for a lease is prescribed in the Mining Act of New Brunswick and that Mr. Richards' intimation to the Department of Lands and Mines that he desired a lease was sufficient under the law. He, therefore confirmed the application of the minister and declared the lease issued to Mr. Richards as valid. Mr. Young was represented by Peter Hughes, K. C., of Fredericton; Hon. C. W. Robinson, minister of lands and mines by Ivan C. Rand of Moncton, and C. D. Richards by Winslow and McNair of Fredericton.

### Bring Up No Loafers Put Them To Work

The gospel of work is being neglected to-day. Mother and father are working about as hard as ever but the young people are loafing as never before. Put them to work! The mother who allows her daughter to dawdle her time away to think of nothing but dress and fashion, to play the piano and use the family automobile when she should be washing dishes and helping to make the beds, and performing other useful tasks about the house, is neglecting her duty. The girl who grows to womanhood without knowledge of household management is not a credit to her mother. Her mother has been negligent. Put her to work. The father who allows his son to

grow up a loafer is not a good citizen. He should take enough interest in his family to see that boy is brought up familiar with work. Not dainty jobs alone, but good old fashioned jobs like cleaning out the cellar, handling the ashes and bringing up the coal. It won't hurt him. He can wear gloves if he is afraid of ruining his banjo hands. He can wear a skull cap so as not to ruffle his patent leather hair. And the work will build up his physique just as efficiently as the gym, and the baseball diamond.

Put them to work! Many of the young folks growing up to-day have never looked a job of real work in the eyes. They look upon work as something to dread, something to look forward to with fear and trembling, something to be avoided and skulked as long as possible. And working will fit them for life. Put them to work now! Put them to work early. Honest work never hurt anyone yet. Give them plenty of playtime, but familiarize them with some form of work from the time they are able to walk. Then when they come to shift for themselves they won't be astonished and hurt because they are expected to toil.

### Two Killed in Train Crash Near Truro, N.S.

Truro, Dec. 27—Samuel Young, of Brookfield, and Michael Thom, of the Indian reserve near here, were killed to day when the team which they were driving was struck by Canadian National train No. 13 from Halifax at Bogleman's Crossing, three and a half miles from here. The Indian was killed instantly and Young died shortly afterwards.

## WINTER ECZEMA CHAPS & COLD-SORES

KEEN wintry weather brings a host of skin troubles. Cold-sores, chapped hands, unsightly face-sores and blotches, become a source of discomfort and annoyance. To end the trouble and make your skin clear, healthy and flexible, give the face, arms and hands, a nightly dressing with pure herbal Zam-Buk.

Zam-Buk instantly soothes the smarting irritation, it kills disease germs, and quickly heals all soreness, roughness and chafing which, neglected, often develops into eczema or other chronic skin disease. Use also Zam-Buk Medicinal Soap and enjoy real skin health.

This was an obstinate case. Mrs. Henry Amey, 42, Lyall Avenue, Toronto, says—"My daughter's face and neck were a mass of eczema. Her doctor prescribed treatment for over two months, but to little avail. I was about to call in a skin specialist when I heard of Zam-Buk treatment rescuing other sufferers from this dread disease. So I got a box of Zam-Buk and a tablet of Zam-Buk Medicinal Soap. In a few days these wrought a decided improvement. Day by day the sores gradually healed, and within a month my daughter's skin was thoroughly cleared of the terrible disease."

TO SHIELD YOURSELF AGAINST SKIN DISEASE APPLY Zam-Buk TO THE FIRST ITCHY SPOT OR ERUPTION

## THE NEWER CANADA, FARTHER NORTH

1—A farm in the Peace River country. 2—Vegetables and children grow well in the newest north. 3—Vermilion Landing on the Peace River. 4—A Peru River potato patch.

SO far as known, the first grain crop ever grown in what is now the Province of Alberta, was in the Peace River country. This was in 1809. Daniel W. Harmon, in charge of the Northwest Company's post at Dunvegan, records in his diary that in that year on July 21st, he cut his barley.

"I think it is the finest," he wrote, "that I have ever seen in any country. The soil on the points of land along this river are excellent."

Harmon's opinion as to the possibilities of the country was supported by traders and travellers who followed. Professor John Macoun was the first scientific explorer to study it thoroughly. In a book published in 1882 he stated that "the vegetation throughout the whole Peace River valley is of the most luxuriant character, and it seems more like that of the tropics than of a country drawing near the Arctic circle." But when the Province of Alberta was formed, ninety-six years after Harmon made the entry quoted from his diary, there was less than five hundred acres under crop in the whole area of 115,000 square miles, included in the drainage basin of the river.

The Edmonton, Dunvegan, and British Columbia and Central Canada railways were built in the early years of the European war. The mileage from Edmonton to the town of Peace River is 111 and to Grande Prairie 175 miles. The Peace River valley is one of the most fertile in the West. The soil is rich and the climate is such that the crops are abundant. The thermometer does not go away down at times in these areas, but it is doubtful if anyone has ever pulled

ures of the Alberta Department of Agriculture, there were produced in the provincial constituency of Peace River the following quantities of grain: Spring wheat, 1,495,680 bushels, an average yield per acre of 30.34; winter wheat, 15,107, an average of 16.26; oats, 4,334,400, an average of 40.22; barley, 323,400, an average of 22.42; rye, 40,092, an average of 43.81. Harmon's judgment was thus well vindicated after 111 years.

It should not be forgotten that its mineral and timber wealth may yet be shown to equal its agricultural. For over a century it has been a rich fur producer and many farmers add considerably to their revenue by trapping in their spare time.

Dr. G. M. Dawson, when assistant director of the geological survey, made an estimate that in the Peace River territory there was at least 23,500 square miles of land suitable to agriculture. The acreage sown to various grains in 1920 in the country immediately tributary to the river was under 175,000. Estimates that have been made since have not reduced his figure, so it is evident that there is plenty of opportunity for new settlement. He calculated that if all the land available for cultivation were sown to wheat and yielded twenty bushels to the acre (ten bushels less than the average yield for 1920) the total production would be 300,800,000 bushels—more than all western Canada produced in wheat in 1921. As high as 60 bushels of wheat per acre has been obtained as far north as the Peace River, 250 miles north of Peace River, and 500 beyond Edmonton.

out on that account. The mean winter temperature of Fort Vermilion is but a few degrees lower than that of Winnipeg.

In the growing season the frost danger is not great. In thirty years in the Fort Vermilion farm, only twice has there been frost damage, and then the loss was far from complete. The display of flowers and vegetables at that far northern point can be equalled at few points in the Canadian west. The long days hasten everything to maturity, and harvest begins about the middle of August. The average precipitation is between twelve and thirteen inches, and as most of it occurs in June and July, it proves ample.

The charm which the country possessed for all who traversed it in the days when it was still "the wild northland," the title which Sir William Butler gave it in the seventies, still holds for those who pursue more prosaic tasks than his. To journey by the river, from where it bursts through the mountain canyon, west of Hudson's Hope, to the Vermilion Chutes, seven hundred miles downstream—there being no obstacle to navigation between the points—is an experience never to be forgotten. At Dunvegan the banks are nine hundred feet high, gradually lowering as the river broadens. At the Chutes it is close to a mile and a half across.

It is a waterway along which a very large population must some day be concentrated. What has been accomplished in the last few years makes it certain that that "some day" is not now as far off as it seemed to be during the long period when Peace River development was only a dream.

THE REASON WHY

The amount of business done this
Christmas by our merchants, on the
whole, has been reported as less than
for some years. A number of reasons
for the decrease have been advanced,
but there is no gain-saying, that the
chief cause is the disregard of the
home market by the county buyers.
It is a form of disloyalty through
which the town and county mer-
chants are made to suffer, and one
would suppose that any person of
reasonable intelligence could see
that there is a mighty small chance
for the dollars sent to catalogue
houses, ever finding their way home
again.

We cannot hope to see conditions
improve until the people of this
county are ready and willing to
stand behind their own merchants
all of whom have the general interest
of the county at heart.

The surest and quickest way to
kill your county's prosperity, and to
lessen its influence and importance
as a part of New Brunswick, is to
feed your children on Catalogue
food, buy their cradle and carriage
by mail, cloth them from that big red
book too commonly referred to as
the family bible, and give them the
Catalogue Education; then put her
on in an Eaton or Simpson suit, but
thank heaven, you can't bury them
that way, because Eaton or Simpson
do not deal in those kind of boxes.

Croup At Night

Need Be Feared No More, Says
This Montreal Father

If the child seems croupy, apply
Vicks over throat and chest at bed-
time. It usually averts a night at-
tack. And if croup comes on without
warning, use of Vicks often brings
relief inside of fifteen minutes.

Mr. Keeling, of 1106 Newmarch St.
Verdun, Montreal, Que., says: "I
found Vicks very good for colds on
the chest. My boy suffers with
croupy cough and I rub his chest well
with it and I get very good results.
It is also good for colds in the head.

Vicks is the ideal treatment for
children's cold troubles; it avoids so
much internal dosing. Just as good,
too, for grown-ups' colds, and for
cuts, burns, bruises, sores, stings
and skin itchings.

Comment Not Needed.

I see that Dr. Schussler, who has
had access to documents relating to
the quarrel between Bismarck and
the ex-kaiser, has published in Ger-
many a new political study entitled
"The Fall of Bismarck," writes a cor-
respondent. But surely no addition
is needed to Bismarck's own words
to Dr. Moritz Busch, on the day of
his resignation: "I thought he would
be thankful if I were to remain with
him for a few years, but I find that
on the contrary, he is simply longing
with his whole heart to be rid of me,
in order that he may govern alone—
with his own genius—and be able to
cover himself with glory. He does
not want the old Mentor any longer,
but only docile tools. But I cannot
make genuflections, nor crouch under
the table like a dog."

New Anesthetic.

A coal tar chemical for the elimina-
tion of all pain in dental surgery is
announced. This new chemical is
liquid in form, is applied on a pellet
of cotton to the gum or mucous mem-
brane surrounding the tooth to be an-
esthetized or into a cavity prior to
excavation where a tooth is to be filled
or treated. It produces complete local
anesthesia in from two to eight
minutes, and eliminates all feeling for
from one to six hours. Dr. Klein has
extracted teeth and pulps painlessly
with the use of this chemical. Its ef-
fect is entirely local, so it may be ap-
plied with perfect safety, regardless
of the patient's age or general phys-
ical condition. It leaves no disagree-
able after-effect.

SAYS WORD IS MISPLACED

Writer Criticizes the Too-Frequent
Employment of Phrase, "The
Psychological Moment."

A correspondent of the London
Times sternly scolds all who are so
slipshod in their speech as to employ
that most useful of phrases, "the psy-
chological moment," says the Living
Age. Asserting that by no possible
distortion of the English language can
it legitimately be forced into its cur-
rent meaning of "the proper, or fit-
ting, moment," he proceeds to give
a history of the phrase which is vast-
ly more interesting than his diatribe
against its users.

"The psychological moment" is an
English translation of the French le
moment psychologique, which is, in
its turn, a mistranslation of the Ger-
man das psychologische moment,
which was used in the Neue Preuss-
ische Zeitung in December, 1870,
when the bombardment of Paris was
about to begin. The German writer
said: "The psychological moment (das
psychologische moment) must be
allowed to play a prominent part,
for without its co-operation there is
little to be hoped from the work of
the artillery." Confusing the neuter
German word das moment (which
means "momentum," and, as here used,
a dynamic part of the human mind
urging it to action), with the mascu-
line der moment (which means mo-
ment in its ordinary English sense)
the French translated it le moment
psychologique, and with derisive gay-
ety incorporated it into the slang of
the hour.

The French writer Francisque Sar-
cey, in his "Diary of the Siege of
Paris," tells how the beleaguered Pa-
risians pluckily made game of their
enemy's phrase:

"You know how we laugh over that
'psychological moment.' The word
has become all the rage. . . . Er-
everybody says, 'I'm hungry. The psy-
chological moment for sitting down
to dinner has arrived.' . . . When
the first ball fell in the streets of
Paris, everybody cried laughingly,
'Tiens! They must think the psychol-
ogical moment has arrived!'"

The facts are vouched for by the
new English dictionary, but for all the
lexicographers may say, "the psy-
chological moment" is too firmly fixed
in the usage to be withdrawn readily.

Indians Doing Well.

Liberty bond subscriptions by In-
dians of the World war, running into
the millions of dollars, first awakened
the public to the importance of the
race as a business factor. A glance
at their income returns is enlighten-
ing.

In Oklahoma about 116,000 Indians
received during the fiscal year ended
June 30, 1920 (the latest data avail-
able), incomes aggregating more than
\$89,000,000. In North Dakota 9,000
received more than \$1,500,000; in Utah
more than 1,000 received nearly \$2,500,
000; and in South Dakota \$2,000
received about \$4,333,333. The total
income of the race was \$72,696,431
that year, and since then has greatly
increased.

Many of those, not rich through oil,
are busy with basket weaving, pot-
tery and other native pursuits; but
they make good farmers, too, and
about 50,000 of them are thus engaged.
The crop raised, for instance, in Ok-
lahoma and in South Dakota each
amounted to substantially more than
\$1,000,000. The total value of Indian
crops was nearly \$37,000,000 in the
year named.—The Nation's Business.

Snowflake is Really Transparent.

The reflection of the sunlight on the
snowflake crystals is what gives them
the appearance of being white. Snow
is simply water turned into crystals
by the low temperature. The flake
itself is transparent, as is water, but
because of its crystal formation the
snowflake is only partially transpar-
ent, the facets of the crystal reflect-
ing the light and giving the whole
flake a white appearance.

If the light reflected by the snow
crystal is red or green the snowflake
will take on the same appearance.
When millions of snowflakes are com-
bined in one mass on the ground their
ability to reflect the light is increased
and in this way a snow bank appears
even more white than would one iso-
lated snowflake.—Cleveland News-
Leader.

Austrian Confusion.

One of the stories told to illustrate
the confused diplomatic situation in
central Europe is attributed to Prince
Furstenburg. He was appointed as a
diplomatic representative of the old
Austrian government to the Ukraine,
which then was ruled by Hetman
Skorpadyk. Describing his diplo-
matic status to friends in Kiev, the
prince said: "I am the representa-
tive of a government that has ceased
to exist and accredited to one that
never existed. The most extraordi-
nary part of it is that I am paid for
performing the duties of this position
that I do not hold."

Just a Little Too Much.

Mr. Featherly weighs over two hun-
dred pounds and is sensitive about it.
He was calling on a friend the other
evening when she said, naively: "Oh,
Mr. Featherly, would you just as soon
sit in this easy chair as in that
rock?"

"I would sit in that chair, as in that
rock, if I were not so sensitive about
my weight," he answered. "I have a

### IMMIGRANTS FOR NEW BRUNSWICK

The province of New Brunswick has been asked by Hon. Mr. Stewart, Minister of Immigration in the Federal Cabinet, to consider a programme of immigration, so Premier Foster announced today. The matter is now in the hands of Hon. David W. Mersereau, provincial minister of agriculture. A selective policy of immigration is suggested, only those that can readily be absorbed being chosen for this country and each province is being requested to assist in this connection. The Federal Department proposes that the province make an estimate of its requirements; the Dominion Government will then undertake to fill the requirements and the province will look after the new citizens and see that they are established.

The Dominion expects that the provinces shall periodically submit a statement of their requirements with the number and type of immigrants desired and the country from which the province desires that they should be brought. The provinces are also asked to prepare literature setting forth the attractions of their different sections.

Although doubting that New Brunswick would be in a position to absorb any great number of immigrants, the premier said the matter would have the earnest attention of the government.

### MRS. DAVIS NERVOUS WRECK

Tells Women How She Was Restored to Perfect Health by Lydia E. Pinkham's Vegetable Compound

Winnipeg, Man.—"I cannot speak too highly of what Lydia E. Pinkham's Vegetable Compound has done for me. I was a nervous wreck and I just had to force myself to do my work. Even the sound of my own children playing made me feel as if I must scream if they did not get away from me. I could not even speak right to my husband. The doctor said he could do nothing for me. My husband's mother advised me to take the Vegetable Compound and I started it at once. I was able to do my work once more and it was a pleasure, not a burden. Now I have a fine bouncing baby and am able to nurse her and enjoy doing my work. I cannot help recommending such a medicine, and any one seeing me before I took it, and seeing me now, can see what it does for me. I am only too pleased for you to use my testimonial."—Mrs. EMILY DAVIS, 721 McGee Street, Winnipeg, Man.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to the Lydia E. Pinkham Medicine Co., Cobourg, Ont. This book contains valuable information.

### LEADERSHIP OF THE OPPOSITION

#### Progressive Leader Does Not Want Change

Winnipeg, Dec. 30—I don't see any reason why the official opposition in the Federal House should be changed," declared Robert Forke, M. P., Progressive leader, in a long distance telephone conversation from Pipestone, Man., with a local paper yesterday regarding the Toronto report that Hon. Arthur Meighen was "in danger of losing the official leadership of the federal opposition with the annual stipend of \$10,000 attached thereto.

"We can and always could have claimed this title, our majority over the Conservatives at the last division of the House being 15," Mr. Forke said.

Asked whether a meeting of the Progressives would be called to consider the proposed change, Mr. Forke said no meeting was contemplated prior to the session.

### Nova Scotia Elections Planned for January

Halifax, Dec. 27—The Halifax Herald in a Nova Scotia political forecast says that Hon. E.H. Armstrong, it is now stated with certainty, is to be appointed to the Supreme Court bench, and Hon. D. A. Cameron, Sydney, is to be given the portfolio of public works and mines.

The Herald says that it is further stated that this will be carried out before the legislature meets this year.

The forecast also states that the local bye-elections in Halifax, Kings and Antigonish will take place the latter part of January, and that the dates have been already set.

### Railway News

Vancouver.—Three hours after the Queen of the Pacific, Empress of Canada, Capt. A. L. Hailey, had made a graceful landing at C. P. R. pier A, section 2, a long train with her valuable silk cargo rolled out of the yards on its way to eastern points. The magnificent ship was tied up about 4 p.m. and a battalion of stevedores got all the silk in the cars and out of the yards at 7 p.m. 24 hours ahead of a similar cargo on board the President Madison, which left Yokohama the same day as the Empress of Canada.

Montreal.—Calls at Belfast on both the eastbound and westbound trips of Canadian Pacific liners sailing between Montreal and Glasgow, instead of only on the westbound trips as at present, and more extensive use of Southampton as a port of call for passenger traffic, are innovations planned by the Canadian Pacific Steamships, Limited, for the 1923 season.

The calls at Belfast on eastbound trips are an inauguration of a new passenger service from Canada to Ireland. This service will be maintained by the steamships Metagama, Marburn and Marloch, and will commence with the sailing of the Metagama from Montreal, bound for Belfast and Glasgow, on May 3. This will be the first Canadian Pacific sailing from this port in 1923.

Winnipeg.—With the completion of the Canadian Pacific Railway line from Acme to Drumheller, Alta., last month, five new mines were put into operation along this line, according to Charles Murphy, general manager of western lines.

The coal mined is of excellent quality for domestic use and should remove any danger of coal shortage in the west this winter, Mr. Murphy states. Evidently the farmers of the district are not confronted with the fuel problem, for Mr. Murphy, while travelling through the district, noticed farmers filling their wagons with coal dug up with shovels.

Lethbridge.—Jurisdiction of the Lethbridge division, Alberta district, Canadian Pacific Railway, was extended far into the western border of Saskatchewan when the Lethbridge operating department of the railway took over on December 11 the operation of the newly constructed portion of the Lethbridge-Weyburn line. The Lethbridge division now extends to the town of Shaunavon, Sask., half way between Lethbridge and Weyburn, 122 miles east of Manyberries, which has been the end of the steel on the west, and the territory of the Lethbridge division now covers 725 miles of line from Crow's Nest to Shaunavon and from Calgary to the border.

Owen Sound.—Joseph Lee, section foreman on the C. P. R. at Dundalk for seven or eight years, has been appointed section foreman at Orangeville and has moved to that town. Just before his departure from Dundalk Mr. Lee received a cheque for \$25.00 from the C. P. R. representing the amount of the prize offered by the Company to the Superintendent having the best kept section on the Bruce division. Six years ago Mr. Lee was the winner of the Roadmaster's prize.

Ottawa.—Ottawa loses a popular citizen, and an able railwayman in Mr. F. P. Tinker, district freight agent for the Canadian Pacific Railway for several years, who has just received a promotion. On the first of the year Mr. Tinker takes up the position of district freight agent for the Canadian Pacific and associated lines in Detroit. These lines include the Canadian Pacific Steamship Co., the Minneapolis, St. Paul and Sault Ste. Marie Railway, the Duluth South Shore and Atlantic Railway and the Spokane International Railway.

Mr. Tinker came to Ottawa on December 1st, 1916, from St. John, N.B. He started railway work on the old New Brunswick Railway on Oct. 7th, 1887, and was taken over by the C.P.R. when the company purchased the road and has been with the company ever since.

Mr. C. S. Morse, of Toronto, a well known C.P.R. man, has been transferred to Ottawa to take over Mr. Tinker's duties. Mr. Morse arrived in Ottawa on December 28th.

Chatham, Ont. — "Speed-mania" has again broken loose in the city and unless some strong steps are taken to eliminate this craze it will gain a strong foothold in the city, declared Chief of Police Groves.

A complaint was laid to the police by the C. P. R. to the effect that an automobile going south on William St. at a considerable rate of speed struck one of the north-side gates which had just been lowered for an oncoming train and completely smashed it.

The tower-man, realizing that one of the gates was liable to be similarly treated by the speeding motorist, raised these gates at a considerable speed, being just quick enough to make a passage for the speeding motorist. The number of the car was secured by one of the local section crew and turned over to the police.

### PLATE GLASS WINDOW BROKEN

A plate glass window in C. M. Dickison & Sons drug store was broken early yesterday morning by the ice falling off the roof. Fortunately it was early in the morning, and few pedestrians were moving, or otherwise some one might have been seriously injured. We drew attention to the necessity of cleaning off overhanging icicles in last week's issue, but apparently it had but little effect. However, now that some damage has been done, it is possible that the residents will see that they are cleaned off. If not some serious accident will likely occur and those responsible will have no one to blame but themselves.

### NEW YEAR'S EGGS

The Persians still exchange presents of eggs at New Year's just as we do at Easter. But the rest of us now do our giving of presents at Christmas parties, though we may give to each other on January 1. In Scotland and England everybody calls on everybody else New Year's day and drinks punch. Here in America calling has gone out of style, but if we do nothing more, we at least shout "Happy New Year" to everybody we meet on New Year's morning. When we shout that, we mean good luck to them for all the new year through.

### NEW YEAR'S

New Year's was quietly observed. The rink and picture houses were the chief attractions. The weather was inclement, but never-the-less the day was enjoyed by all.

### YEAR USHERED IN

The New Year 1923 was ushered in by the ringing of St. James' Church bell and also by the Salvation Army who marched through the streets at Midnight.
