

THE DOMINION IN BRIEF.

The Fete Dieu procession in Montreal, Sunday, was over two miles in length. It is expected that the strike of stone masons in Toronto will shortly be settled. Mrs. Gagnon of Quebec, has given birth to three girls. She will receive the Queen's bounty. Peter Drinker, a farm hand living near Halifax, reports passing large numbers of icebergs on the voyage west. The Associated Press agent in Ottawa states that Sir John Macdonald did not vote at the late elections. The steamer "Captain," which has arrived at Halifax, reports passing large numbers of icebergs on the voyage west. It has been decided to increase the staff of the Ontario Law school by the appointment of two additional lecturers. The fishing-boat Flora of Halifax has been wrecked at Magdalen islands. The crew, all Canadians, were saved. Gribois, the Italian murderer, has been captured in Ottawa. He killed a companion in the open street during a quarrel. The Convocation of Toronto University was held this week. Chancellor Hon. Edward Blake delivered the annual address. Stewart Tupper, son of Sir Charles, denies that his father is coming to Canada, as stated by cable, to settle Newfoundland's trouble. A number of Franciscan monks from France are expected to arrive next week in Montreal, where they will start a novitiate. James Jacques had his arm almost severed from his body while working at a circular saw in an Oshawa factory. He will recover. Young's mill, Warton, was totally destroyed by fire supposed incendiary; loss, \$4,000 insured for \$1,000 in Lancashire and City of London. The boy Neff, who was burned at the election booth at Stratford, is dead, and at the instance of the Crown Attorney an investigation will be made. The Fisk Jubilee singers have been treated very badly in Nova Scotia on account of their color. Several hotels refused to receive negroes as guests. A thunderstorm, which passed over Farry Sound, the house of John McGeoe was struck by lightning and his little daughter Gossie instantly killed. The Manitoba Land Tax bill has been declared ultra vires by the full court on account of the clause authorizing the charge of ten per cent. interest over reported last week caused by the terrible storm. The most serious was on the C. P. R. between Owen Sound and Toronto. Thomas Cowan, blacksmith, Tyendinaga, committed suicide by cutting his throat with a razor. No cause has been given. He leaves a wife and large family. A fire on Saturday, supposed to be incendiary, at Moosomin, in the North-West, destroyed property to the value of \$100,000; insured for about \$48,000. There are estimated to be now over two hundred million feet of lumber in the river booms at Fredericton, N. B., the largest amount ever there at one time. Peter Davis the murderer of William Emory will be hung in Belleville on Friday. The sheriff of Hastings is being besieged with applications to do the "job." Emil Messing, of Barrie, has suicided because the flood carried away his ice house which was stocked with ice to the value of \$14,000. He leaves a wife and five children. A gang of burglars, five in number, have been arrested at Cardville. A complete kit of tools was also captured. The gang had committed several burglaries in the neighborhood. Advice from Sydney, Cape Breton, state that a strike is in progress among the workmen employed on the Cape Breton railway. An attempt to engage more men nearly led to a serious riot. Archbishop Fabre has issued a pastoral letter calling upon members of the church in the archdiocese of Montreal to discontinue attending places of amusement and excursions on Sunday. James P. O'Haire, cashier of the Erie Railroad at Niagara Falls, has been missing since June 5th. He has just returned home, and does not know where he has been. His accounts are all right. Rev. J. R. Gundy, of Essex Centre, was elected president of the London conference of the Methodist church at Chatham by a majority of 51. Rev. Higby, formerly of Kingsville, was elected secretary. A stranger entered the residence of Geo. Menzie, Sarnia township, and stole \$150. He was pursued to the woods by Menzie and neighbors but has not been captured. Menzie has received the money for cattle sold. It is rumored in San Francisco that the Canadian Pacific Steamship Company intends resuming steamer service between Vancouver and San Francisco, the result of which, it is stated, will be a general slaughter of railroads. A young man named George Houghton was killed on July 14, Logan, about 12 miles north from Mitchell, Ont., while engaged at work logging with Edward Ruppard. The affair was the result of a quarrel. Barrie, Ont., was flooded in consequence of the main drain caving in and rendered useless for the carrying off of the unprecedented rainfall. The principal street at last accounts was two feet under water. Loss estimated at \$20,000. Hare's foundry, Dingle's agricultural works and Coulthard & Co's agricultural works at Oshawa have been almost destroyed by debris which has come down the river with the flood caused by recent rains. The loss in this vicinity will reach \$25,000. A despatch from Victoria, B. C., says the seal pirates in Behring Sea are ingeniously getting ahead of the United States preventive service by having a steamer to receive their catch of skins, too swift to be overtaken by the American gunboats. A runaway team collided near Walkerville, with a rig occupied by Mrs. Benton and Mrs. Little of Maidstone, throwing them both out and badly injuring the former. The rig was smashed to atoms. The ladies saw the runaway coming, but could not get out of the way. James Rabi, a country merchant from Ora, Ont., arrived in Montreal and after transacting some business was ready to proceed to England. He was met on the wharf by a confidence man who played the usual game of change a cheque of English money and relieved the stranger of \$35. A fire of a very serious nature broke out in the Montreal stock yards. Two sheds were destroyed, two more damaged and 37 head of cattle were killed and five injured. The loss will amount to \$7,000; covered by insurance in the Grand Trunk Stock Co. The owners of the cattle were Jas. Aiken, Fort Hope, and A. Craig & Son, Brampton. Richard Chamberlain, a young Englishman has committed suicide in Toronto. He jumped from the roof of the Star and Garter hotel, five stories high, on to the stone pavement below. He was instantly killed. A love affair in the old country was the reason. Chamberlain had bought a ticket for England and was to start this week. He had been drinking heavily of late.

NEWS OF THE WORLD.

Ex-President Cleveland has been elected a member of the Century Club. The English Channel Tunnel bill was rejected by a vote of 254 to 133. Cholera is rife at Dierich on the Tigris. A sanitary cordon has been placed around the town. The British Government has resolved to adjourn Parliament at the end of July until the middle of October. Seven people were drowned in Boston through the upsetting of a sailboat. The party, all young men, were fishing. The American troops along the Mexican frontier have been instructed to shoot the Apache murderers on sight. The Porte will send a commission to Albania to require into the outrages alleged to have been committed on Christians. General Viscount Wolsley has declined the chief command of the forces in India in succession to the Duke of Connaught. Miss Phillippa Fawcett, daughter of the late Prof. Fawcett, has taken the highest honors at Cambridge, Eng., University. President Carnot, of France, has granted pardons to 73 workmen sent to prison for offences in connection with recent strikes. The northbound stage from Ukiah, Cal., was robbed by a lone highwayman. The robber secured \$1,600 from the Wells Fargo box. Mr. Balfour is said to be preparing for publication in America an article replying to Mr. Parnell's recent criticism of the Irish Land Purchase bill. Cardinal Manning celebrated his silver jubilee, the 50th anniversary of his elevation to the dignity of archbishop in the Roman Catholic hierarchy. A London stockbroker's clerk named Lemish was arrested on the eve of leaving for America. On his person was found \$25,000 worth of stolen bonds. Four persons were killed in Costa Rica through an iron railing falling, while a religious procession was passing. The railing was crowded with onlookers. Four hundred houses were destroyed by fire in the town of Daksey, near Warsaw. Ten persons were burned to death. The damage to property is immense. M. Chrostki, formerly Prime Minister of Serbia, is about to bring an action against his wife for divorce. Milan, the ex-king of Serbia, is named as the co-respondent. Three negroes, Tom Mills, Fletcher Holden and Henry Holden, were hanged at Linden, Texas, for the murder of James McGregor, a white man, at Atlanta, Texas, in December. Mrs. Susan Ney, of Boston, aged 45, by mistake, drank a glass of poison which she had put strychnine with the intention of giving it to her husband. She died in a few hours. The Duke of Orleans has arrived at Dover from Belgium. His father, the Count of Paris, and party of his friends awaited him upon the pier, and he was given a hearty reception. Another conflict has taken place at Prestina, Macedonia, between Servians and Arnauts. Forty Servians were killed and two hundred were made prisoners by the Arnauts. The House of Commons in committee on Tithes bill rejected it by 240 to 107, a proposal for an equitable revision of tithes in accordance with the altered condition of husbandry was made. Mrs. Rhoda Swayne has just died at Owatonna, Minn., at the age of 101 years. She was a cousin of General Robert E. Lee, and the remembered a visit of General Washington at her father's home. A terrible fight has taken place in Montana, between a body of cowboys and a large band of Indians. The latter stole some four thousand head of cattle. The Indians were unmercifully slaughtered. In Quebec city the other day a golden wedding was celebrated, the ceremony being repeated with the same groomsmen as on the first marriage; and the same hucknab convinced the party to the church. Mrs. Susan Vey, aged 42, of Boston, drank by mistake a glass of lemonade in which there was poison. She intended her husband to drink it, but by mistake the glasses got changed. She died in an hour. Mrs. Sarah Randolph, aged 65, was arrested at Newcastle, Lawrence county, Pa., for trying to induce Samuel Kissinger to kill Wm. S. Foltz, president of the First National Bank, at that place, for \$1,500. A plea of insanity will be set up. Samuel Smith and John Saules of Michigan, have announced that on the 4th of July, they will swim a race through the whirlpool at Niagara Falls. The race will be for \$100 a side, which will just about pay their funeral expenses. Frederick J. McLeod, an ex-minister, found guilty of living with a woman in Chicago when he had a legal wife in Nova Scotia, has been sentenced to one year in the house of correction at Chicago, on the heaviest punishment provided by the statute. In the British House of Commons Sir James Ferguson, in reply to a question regarding the Newfoundland dispute, said the Government would readily assent to arbitration, but were many difficult preliminaries to be settled. During the progress of a ball at Armstadt, Germany, a chandelier containing a number of lamps filled with petroleum fell to the floor in the midst of a crowd of dancers. Two ladies ran into the open air, and were burned to death, and thirteen others were seriously burned. The City of Rome, from New York for Liverpool, during a dense fog ran on the Fastnet rock and sustained serious damage. But for the precautions taken by the captain and the promptness with which he acted when the accident occurred, a great fatality would have happened. Charles Frazier, a saloon employe in Baltimore, went down cellar Saturday night to get a keg of beer. He ran against an electric light wire and was killed. Kerns, his employer, went to see what was the matter, and on touching Frazier's body was knocked senseless, but was restored. While firemen were engaged extinguishing a fire in a small frame building of the Pennsylvania Globe and Gaslight company, at Philadelphia, the flames reached the storage cases in which were twelve barrels of gasoline. A terrific explosion followed. Eleven men were caught in a shower of burning oil and were badly burned. A Scotch deputation waited on the Right Hon. Henry Chaplin, president of the Board of Agriculture, and asked that the restrictions placed upon the importations of American cattle into Great Britain be modified. In reply Mr. Chaplin said the majority of farmers favored the continuance of the restrictive regulations, and he could not hold out any hope of their modification. La Grande Chartreuse, the famous monastery in the Department of Isere, fourteen miles from Grenoble, France, has been much damaged by the explosion of a quantity of dynamite. The disastrous outrage was the work of design, and it is believed to have been done by persons living in the neighborhood, who took that means of venting their anger at the failure of an attempt made by them to export blackmail from the monks in charge.

Best of All

Cough medicines, Ayer's Cherry Pectoral is in greater demand than ever. No preparation for Throat and Lung Troubles is so prompt in its effects, so agreeable to the taste, and so widely known, as this. It is the family medicine in thousands of households. "I have suffered for years from a bronchial trouble that, whenever I took cold or am exposed to inclement weather, shows itself by a very annoying tickling sensation in the throat and by difficulty in breathing. I have tried so great many remedies, but none does so well as Ayer's Cherry Pectoral which always gives prompt relief in returns of my old complaint." - Ernest A. Hepler, Inspector of Public Roads, Parish Terre Bonne, La.

For Home Use.

I have tested its curative power, in my family, many times during the past thirty years, and have never known it to fail. It will relieve the most serious affections of the throat and lungs, whether in children or adults." - Mrs. E. G. Edgerly, Council Bluffs, Iowa. "Twenty years ago I was troubled with a disease of the lungs. Doctors afforded me no relief and considered my case hopeless. I then began to use Ayer's Cherry Pectoral, and before I had finished one bottle, my relief. I continued to take this medicine until a cure was effected. I believe that Ayer's Cherry Pectoral saved my life." - Samuel Griggs, Waukegan, Ill. "Six years ago I contracted a severe cold, which settled on my lungs and soon developed all the alarming symptoms of Consumption. I had a cough, night sweats, bleeding of the lungs, pains in chest and sides, and was so prostrated as to be confined to my bed most of the time. After trying various prescriptions, without benefit, my physician finally determined to give me Ayer's Cherry Pectoral. I took it, and the effect was magical. I seemed to rally from the first dose of this medicine, and, after using only three bottles, am as well and sound as ever." - Rodney Johnson, Springfield, Ill.

Ayer's Cherry Pectoral, PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.

A GENERAL BANKING BUSINESS TRANSACTED. FARMERS' NOTES DISCOUNTED. DEPOSITS OF \$1.00 AND UPWARDS RECEIVED, AND CURRENT RATES OF INTEREST ALLOWED.

The Huron Signal. PUBLISHED EVERY FRIDAY MORNING. AT ITS STEAM PRINTING OFFICE: NORTH-STREET, GODERICH. It is a wide-awake local newspaper, devoted to county news and the dissemination of useful knowledge. RATES OF SUBSCRIPTION: \$1.50 a year; 75c. for six months; 40c. for three months.

town is not more prosperous than it is in a serious matter, but it is right that the case should be diagnosed and the seat of the disease located, so that remedial measures may be taken at the earliest possible moment. We want every business man, every mechanic, every farmer, and every other worker who by brawn and brain contributes to the material wealth of Huron to contrast the existing condition of the county with what it was previous to 1878 and be governed in his determination to vote at the next Dominion election by the results as they manifest themselves to him.

Advertisements of Lost, Found, Strayed, Situations Vacant, Situation Wanted, and Business Chances Wanted, not exceeding 8 lines nonpariel \$1 per month. Houses on Sale and Farms on Sale, not to exceed 8 lines, \$1 for first month, 50c per subsequent month.

JOBBER DEPARTMENT. A fully equipped Jobbing Office is carried on in connection with the ordinary newspaper business, where first-class work is turned out at reasonable rates.

HURON SIGNAL. FRIDAY, JUNE 20, 1890. THE TARIFF QUESTION. That the great fight at the next Dominion election will be on the tariff question there is now no doubt.

In Huron county the blight of the tariff has fallen heavily, and in Goderich town the protective policy has smitten as with a curse. Not only has no benefit accrued to any industry carried on in our midst, but a positive injury has been inflicted on every line of business which afortime was flourishing.

Our townsman, Mr F. W. JOHNSTON, has been appointed junior Judge of West Algoma, and will leave for the "So", where he will hereafter reside, on or about the 1st of July. He was an ardent politician in his day, but now, having sought "the seclusion that an office grants," will forsake the vanities of the political world and henceforth devote his time and talents to severing legal Gordian knots for the litigious Algomans.

Now would be an excellent time for the Equal Rights Association of Toronto to establish branches of their society in West Huron. During the contest recently closed nearly every Tory in the Riding professed to be enamoured of "Equal Rights, and if they were not "foxing" there is an excellent field here for the formation of several thriving branches to ripen for action by the next Dominion election.

The knowledge of the fact that our

MOWAT'S majority is still going up. Last week, as we showed, he had nineteen of a majority; since that time a recount has been had in the Prince Edward county election and SPRAGUE, the Liberal, has been declared elected. This change will increase Mowat's majority to 21 on a division. East Hastings and two or three other counties have yet to be heard from, which may give the majority a further upward tendency.

The Empire had the Rouges "on the run" previous to Tuesday morning last, and on Wednesday was busily engaged explaining why MERCIER did not "go." In the last House MERCIER had 17 of a majority. The returns up to date show 47 Ministerialists to 23 Opposition members. If the Empire's commercial profit is no better than its political prophet, the Tory chief organ is a terribly losing concern.

A CHANGE is announced in the editorial management of the Globe. Mr J. S. Willison, a former resident of Huron, will become managing editor after July 1st, and Mr EDWARD FARRER, the most gifted leader writer in Canada, will take a place on the staff as chief editorial writer. We congratulate Messrs WILLISON and FARRER upon having an opportunity afforded them of putting their undoubted talents to the best possible use, and the Globe is also to be congratulated on having secured the services of two such clever journalists.

In last week's Star some nameless creature attempted to deny a statement made by Mr Mc GILLICUDDY on the evening of election day, that during the recent contest in West Huron the local Tory stumpers showed the white feather so far as attending Reform meetings was concerned, except on one occasion, while the Reform cause had a representative at every one of the listed Conservative meetings where opposition was invited, save one. Will the editor of the Star or some responsible person over his own signature dare make such a denial? It is all very well for Mr Nobson from Colborne to send a bogus statement of that kind to the Star, but if he dare put his name to a repetition of the denial we will show how little he knows about the question at issue or anything else. This skulking behind a hedge and throwing missiles at an opponent in the open is not a very creditable act for so "pious" a professor as the Star's correspondent from Colborne.

The Star last week stated that a friend of the SIGNAL's carried a green flag around the Square recently. For the information of the Star and its readers we now state that no friend of the SIGNAL's was ever guilty of such tomfoolery. The SIGNAL is not the organ of the rag, flag and bobtail party. We neither wave flags of any color nor take stock in fools who delight in such absurdities.

THE TORY ORGANIZER. Toronto News (Independent Tory).—A third mistake Mr Meredith made was having anything to do with the Birmingham crowd, who have been baronets on the party too long, and follow it for what they can make out of it. Birmingham might be able to organize a public-and-corner meeting in the corner of the ward, but when it comes to organizing in the country he is ridiculous, and to entrust to him the organization of a whole province would be suicidal in any man's cause. What does he know about organizing in the country? He learns the fact, the lesson, the lesson, the diplomatic skill which the organizer of a party should possess? He is a comparatively new arrival in the country. A few years ago he was a clerk in Mr Patrick Hughes' dry goods shop, and next he was a clerk in the office of the late Mr. J. A. NAFFTEL, Collector.

THE EMPIRE IN DANGER. Ottawa Free Press.—The Toronto Empire, Sir John Macdonald's official organ, is being blamed by other Conservative newspapers for the disaster which the party met with on Thursday last. The St. John Gazette remarks that the issues raised by Mr Meredith and his followers were not of a character likely to recommend them to prudent people, who do not desire to see this Dominion torn in two by race and religious differences. The Toronto Empire, the Gazette adds, "led the journalistic opposition to Mr Mowat, and led it badly. Since Mr Livingston left this paper, it has been conducted so weakly as to be a positive injury to the Conservative party. Nominally under the editorship of a Mr. Creighton, a local politician who does not appear to be a writer at all, it is utterly destitute of editorial ability or judgment. Its only mission, so far as seems to have been to sink money for its too confiding stockholders." Probably we shall soon have Sir John Macdonald publicly repudiating the Empire, and calling upon the combiners, monopolists, contractors and subsidy hunters to turn him with money to start a new organ. How can Sir John shirk the responsibility for the Empire's anti-French and anti-Catholic crusade. "The Empire is in danger."

OTAWA Free Press.—The Toronto Empire, Sir John Macdonald's official organ, is being blamed by other Conservative newspapers for the disaster which the party met with on Thursday last. The St. John Gazette remarks that the issues raised by Mr Meredith and his followers were not of a character likely to recommend them to prudent people, who do not desire to see this Dominion torn in two by race and religious differences. The Toronto Empire, the Gazette adds, "led the journalistic opposition to Mr Mowat, and led it badly. Since Mr Livingston left this paper, it has been conducted so weakly as to be a positive injury to the Conservative party. #### DUNLOP.

From our own correspondent. Miss Jane Edwards, of Goderich, visited friends here last week.

**HADN'T THIS TIME.**—Not an urchin in our burg had to be stirred up for school Friday morning of last week, but they instead stirred up their parents to get them ready for the big picnic at the Point Farm. None were late, you bet. All who went speak well of their good day's sport and pleasure.

The popular place of David Corbett lighted up our burg last week as he was on a flying visit to friends here. He is a resident of Goderich township and a member of the Sunnyside farm, owned by W. Clark, 6th con. David still upholds the standard of single blessedness and is ever popular among the fair ones of our flourishing burg when he comes amongst us.

(Left over from last week.)

**THE NEW BARN.**—The new barn being built by our architect and Chas. Morris, framer, of Garbrud, with their combined staff of workmen, on Lorne side farm for D. Lawson was raised last week. On Monday the foundation timbers on the stonework were put in position for the barn proper to stand upon, and the basement will be used for the stable of the winging to the finish. Over 30 men on each side were led by A. Thurlow and James Chisholm. In the midst of it a heavy rainstorm came up, causing an adjournment till the morning. Promptly on time both captains were on hand putting their men in their places and in hearty union they contested for the winning to the finish. Captain Chisholm's side retained the previous day's advantage and were the winners. The size of the new barn is 45x24 and when finished it will be quite an ornament to the many fine farms of Colborne township. We regret to notice that A. Goldthorpe, of Garbrud, got his ankle rather badly hurt on Tuesday afternoon.

#### AT THE HARBOR.

**ARRIVED.**  
Saturday, June 14th.—Str. United Empire, Sarnia, passengers and freight; str. Ontario, Blind River, 200,000 feet of lumber for Jos. Williams.  
Sunday, June 15th.—Scow Pinesore, str. Frank, salt.  
Wednesday, June 18th.—Str. Campana, Sarnia, passengers and freight; str. Kollage, Providence Bay, 110,000 feet of lumber for H. Secord.  
Thursday, June 19th.—The str. Lora, of the new Saginaw line, arrived between 5 and 6 o'clock in the evening on her first trip from Saginaw and intermediate ports.

**DEPARTED.**  
Saturday, June 14th.—Str. United Empire, Duluth, passengers and freight.  
Monday, June 16th.—Str. Ontario, Port Frank, to load salt for Kingston; scow Pinesore, Stokes' Bay, to load cedar for Dresden.  
Wednesday, June 18th.—Str. Campana, Duluth, passengers and freight.  
Thursday, June 19th.—Str. Kollage, Providence Bay, light; str. Lora, Belfast, passengers and freight.

**NOTES.**  
Reports from the Goderich fishermen at Club Island and South Bay state that the fishing there is very good this year.  
Capt. Wiggins' pleasure boat will be on hand tomorrow to give the excursionists from Woodstock a ride on the blue waters of Lake Huron.

#### AUCTION SALES.

All parties getting their sale bills printed at this office will get a free notice inserted in this list up to the time of sale.  
Unreserved sale of household furniture of Miss MacArthur, at the auction rooms, next door to H. J. Horton's grocery store, Hamilton-st., Goderich, on Saturday, June 28th, at 1 o'clock p.m.

### WEEKLY NEWS LETTER.

#### HOME GATHERED FACTS FOR GENERAL READERS.

**The Cowles Case Settled.**—The Alleged Murderer of Mrs. Tripp—Duke of Connaught Salls—The Franciscan Monks—Sessions and Assemblies—Political Her Gossip.

June 16.—The celebrated Cowles case is no longer a sensational one. The defendant has died out. Mrs. Cowles could not have been guilty of the crime charged by her husband and the happy mother and child will soon go to their homes. The husband and father is now lying in a hospital at Montreal dangerously ill. It is expected that he will recover. He was entirely exonerated by his brother-in-law, Mr. Dale from blame, regarding the shooting affair, which, it will be remembered, occurred in a cab while the parties were en route along St. James' street. Mr. Dale is a well-to-do citizen of Montreal, who is believed to be the person who administered the deadly drugs. He has been allowed to go on his personal bail of \$500 to reappear before the magistrate this week.

The tragedy reminds one, that Dr. W. E. of Montreal has been arrested for murdering his mother. The doctor became notorious some time ago by running away with somebody else's wife. His mother, it is alleged died from poisoning, and Dr. W. E. is believed to be the person who administered the deadly drugs. He has been allowed to go on his personal bail of \$500 to reappear before the magistrate this week.

Erst His Royal Highness the Duke of Connaught. They have left Canada and are steaming across the Atlantic bound for England and some other more. His Royal Highness has been in India for some time as chief of the army for several years. They left Quebec last Thursday in the steamer "Laudax" and Lady Stanley and other members of the Governor General's family sailed off.

An interesting case has just been commenced in Montreal. Last July Dr. Jeanotte prescribed for a child of the present plaintiff, a large quantity of quinine and the child died shortly afterwards, and Couillard took out an action for \$1,500 damages against the physician and druggist jointly, on the ground that the former prescribed morphine instead of quinine and the latter delivered the poisonous drug without taking the precautions prescribed by law, the result being the child's death.

Toronto is hustling to get her Summer carnival at the end of this month, in shape. It is going to be, judging from present arrangements, a grand and gorgeous affair. The idea of summer carnivals seems to be finally imbedded in the minds of Canadian people. Halifax and St. John and a few other cities started these celebrations last year. This year Toronto is going to start and delight the country, and that has already done so. The carnival is not a new thing, it is old and was a tremendous success. There are more towns to follow.

Conventions, annual meetings, synods and such like affairs seem to be the order of the day now. A large number of districts are holding meetings here. Toronto, Hamilton, Montreal and Ottawa have all had their quota.

Presbyterian, Methodist, Anglican, Methodist, Baptist and Women's Rights, Doctors of Law, of Life and of Divinity have been airing themselves in all their glory. Toronto University held its annual Convocation in a big circus tent in the Hotel. Behind it were the blackened ruins of that noble piece of building long known to fame. Hon. Edward Blake, Chancellor of the University and William Mulock delivered the addresses. The Division of the Eastern Franchise Association also met in Toronto. The members long to vote. They had a fine little rumpus I believe during the meeting and much hair was pulled out. The ladies wishing to be polite sent a resolution of welcome to the medical scientists and doctors who were also in session last week. Some of the doctors wanted to thank the kind ladies (Ottawians). There were more of the latter than of the former, and a resolution was adopted condemning the Dominion Women's Franchise Association. The ladies in return passed a resolution unanimously condemning the learned doctors, man ner. The matter then ended. In Ottawa where the Presbyterians have been holding communion, people have been somewhat started by the animosity displayed against that Canadian law of allowing a man to marry his deceased wife's sister. One of the ministers was deposed on account of having married a marriage. Strikes have not been many this year, but what few there have been seem to be all settled satisfactorily. The Toronto strikes have been all arranged. The strike in Hamilton of the ladies wishing to be polite sent a resolution of welcome to the medical scientists and doctors who were also in session last week. Some of the doctors wanted to thank the kind ladies (Ottawians). There were more of the latter than of the former, and a resolution was adopted condemning the Dominion Women's Franchise Association. The ladies in return passed a resolution unanimously condemning the learned doctors, man ner. The matter then ended. In Ottawa where the Presbyterians have been holding communion, people have been somewhat started by the animosity displayed against that Canadian law of allowing a man to marry his deceased wife's sister. One of the ministers was deposed on account of having married a marriage.

**HIS LAST GIFT.**  
Henry Smith's Present and Parting Injunction to His Son.  
LONDON, Ont., June 18.—Accompanying a small book of a religious character, Henry Smith sent this letter to his son shortly before his execution:  
LONDON, Ont., June 18, 1890.  
William Henry Smith:  
Dear Son: This is from your father who is soon to pass from this vale of tears, and who presents you this little book as a memento of his love for you. I pray to God to give you all needed grace by the Holy Spirit to lead such a life as you may wish you had done when you come to die, and that you may be able to meet me in heaven. Remember your dear mother. Always remember that life is very uncertain and that none of us know the day nor the hour when God shall call us home. The injunction to us all is, "Be ye also ready." My dear son pray for me. Be a good boy and God will bless you and give you all needed grace. I am much pleased to tell you that I have found grace and peace with God through our Lord Jesus Christ, who shed His blood on Calvary for us poor sinners. He loves us all to come to Him without money and without price. Finally, my heart's desire and prayer to God is that you will meet me in heaven.  
N. E.—Your father, Lucy Jackson, was born on March 23, 1830, at Budden-Wood, Nottinghamshire, Eng. and was born on March 25, 1834, at Bass Church, Shropshire, Eng.

**FELL UNDER THE WHEELS.**  
A Former Torontonian Killed at Hamilton.—The Grimes Inquest.  
HAMILTON, June 18.—William Thompson, a young man who came here from Toronto three or four years ago, had both his legs frightfully mangled last night while trying to board a Grand Trunk train. He died at the hospital at 3 1/2 this morning. Thompson was well known in sporting circles and was the most expert pool player in the city.  
The evidence in the Grimes inquest last night showed that the old man's heart was unnaturally enlarged and that any excitement would be likely to prove fatal. The jury will render their verdict Friday night.  
A lunatic named Thomas Wilson, a Jeweler here, escaped from the asylum yesterday afternoon. He is a short, thick-set man about 30 years of age.  
The young man Roland who tried to kill himself at W. Waterdown the other day is still alive but in a precarious condition.

**GRAND TRUNK EARNINGS.**  
MONTREAL, June 18.—The earnings of the Grand Trunk Railway for the week ending June 14 were:  
Passenger train earnings ..... \$180,000  
Freight train earnings ..... \$241,995  
Total ..... \$421,995  
Increase for 1890 ..... \$70,673  
A Parcel Fine.  
New York, June 18.—Jay Gould has been fined \$100 by Judge Fitzgerald for not answering to a summons to act as a petit juror.

#### BIRCHALL'S CASE.

Chief of Police Willis, of Woodstock, on a Hunt for Evidence.  
LOCKPORT, N. Y. June 16.—Chief of Police Willis, of Woodstock, Ont., has recently been in this city searching for evidence that might have a bearing upon the trial of Birchall. The chief found and examined a very large trunk at the Erie depot in Tonawanda which came there checked to Birchall just before the trial. The trunk had been at Tonawanda until a few days ago, when it was taken away by a stranger who presented a check for it. Chief Willis believes the trunk was designed to enclose Birchall's victim and to be sent over Niagara Falls. The chief also reported that an important witness who has been thought to have disappeared has been located, and will testify at Birchall's trial in October.

#### THE GENERAL ASSEMBLY.

##### A Deliverance on the Equal Rights Question—Church Statistics.

OTTAWA, June 18.—First of all at the general assembly this morning attention was given to the loyal address to be submitted to the Queen and Governor-General. Leave was granted to Rev. Messrs. Christie, Munson, Crombie, A. Currie, D. Gordon, George Brunner, R. Wallace, A. W. Waddell, A. McLellan, William Meikle and Drummond to retire from the active duties of the ministry with permission to become participants in the aged and infirm ministers' fund. The application of Rev. Alex. Ross for retirement was granted but his name was not allowed on the fund. That of Rev. Wm. Millican was not granted. Rev. Andrew Wilson was permitted to retire and his case was remitted for consideration to the Committee on the Aged and Infirm Ministers' Fund as to his becoming an annuitant, with instructions to report to the next assembly. This last finding in Mr. Wilson's case was arrived at by vote, but a great many members recorded their dissent.  
The Assembly has been desirous of appointing a salaried secretary to aid in the growing department of the church's work in the foreign field and to-day instructed the Committee on the Aged and Infirm Ministers' Fund to correspond with one of the Trinidad missionaries, Rev. Mr. Morton, hoping that he may be induced to accept the new appointment a year from this date.

The statistics of the church were submitted to the Assembly to-day by Dr. Torrance and ratified. The Presbyterian Church in Canada has 1920 churches with 454,207 sittings. The number of pastoral charges is 795 with 881 mission stations. The church pays stipends amounting to \$777,100. Presbyterians paid last year for all purposes on an average of \$34.72 per family and \$18 per communicant.

The deceased wife's sister question was very nearly allowed to engage the excited attention of the Assembly again on a resolution of interpretation upon last year's finding being submitted to the house. Fortunately, however, this subject along with an application from a minister who married the sister of his deceased wife to be received into the Presbyterian Church, were thrown over for a year.

A lengthy discussion was held upon a general deliverance submitted by the Committee on Temperance on the temperance question. The deliverance was adopted by a vote of 100 to 34. Dr. J. Macdonnell and Justice Taylor, in the form of an amendment, which was voted down by 182 to 34.

Principal Grant proposed the omission of the deliverance, but was overborne by an adverse vote of 27 to 183.

Again Mr. Macdonnell, seconded by Dr. Macdonald of Hamilton, moved the striking out of a sentence which declared that the traffic in liquor was contrary to the Word of God. By a vote of 42 to 156 this was denied.

The subject of equal rights was brought before the Assembly by a committee appointed in Toronto last year on the defence of civil and religious rights. The committee suggested the following as some of the objects the church ought to aim at furthering:

1. The complete separation of church and state so that each be independent in its own sphere—a free church in a free state—the mutual rights of each to be respected, but neither to invade the prerogative of the other.

2. The abolition of all grants from the public exchequer for ecclesiastical or sectarian purposes.

3. The abolition of compulsory tithes and other ecclesiastical dues.

4. The providing of elementary education by the state, and while recognizing the propriety of giving instruction in the truths held in common by Christians, in no case shall money, raised by taxation, be devoted to the propagation of peculiar religious dogmas or denominational views.

5. The reorganization of the Council of Public Instruction in the Province of Quebec in such a manner as to secure the educational rights of the minority.

6. The abrogation of the offensive clauses in the order of precedence for the Dominion which recognize certain ecclesiastical and utterly ignore the great Protestant churches which represent the majority of the people of Canada.

The Assembly endorsed the first three and was discussing No. 4 when interrupted by the hour of adjournment.

32 MINERS KILLED. TERRIBLE DISASTER IN A PENNSYLVANIA MINE.

The Fatal Mistake of a Young Hero— Fruitless Attempts to Recover the Bodies—An Avalanche of Flame—Complete List of the Victims.

- DUNBAR, Pa., June 16.—This morning at 11:10 a silvering roar shook the lowly miners' dwellings on Hill Farm in Fayette County near this place and affrighted hundreds of persons who knew too well the sound indicated another mine disaster.

At 7 1/2 the gang turned in at the mine, the smaller gang drifting off to the left while the larger, some 32 in number, drifted to the right and descended some 800 feet from the surface and at least a mile from the opening. These two drifts are connected, but the connection is from the main stem, and is half a mile from the entrance. The mine had been somewhat troubled with water and an air shaft had been drilled from the surface to the junction of the right and left shafts, where the water seemed most abundant.

As the miners branched off from this point they knew an air hole had been drilled there and that it had not yet been broken into the mine, but they did not know the shaft was to be broken into to-day. The shaft is six inches hole. A minor named Kerwin had been left in the right drift near where that branch joined in the mine's exit, and in the course of his labors broke into the perpendicular shaft. The moment this was broken into a flood of water rushed out and Kerwin and a man named Landy standing by yelled out for some one to save the men in the mine in the right drift.

Young David Hayes, who had seen the affair, leaped forward at the call and turned down the left drift in a deluge of water toward his endangered comrades below. Just as he passed the air shaft that had been broken into the rush of water had changed to the ugly roar of a flood, which blanched the cheeks of the men who stood behind and towards the light.

The flow of water had changed to a deadly volume of fire, and as young Hayes swung by, the flashing of the blazing light shed through the shaft from end to end. It seemed the daring youth carried an open burning miner's lamp in his hat and he had hardly taken a step beyond that roaring shaft when the water had changed to a deadly fire, and he sank a corpse 10 feet toward the men he had hoped to save and whom he certainly doomed.

At midnight the smoke and gas from the right shaft poured up the main exit in a broken column, and after trials almost beyond human endurance the rescuing party gave up all hopes of ever recovering the dead bodies from that entrance and turned their attention to the Ferguson mine, 1 1/2 miles away. The flames and smoke balk their every effort.

HOUSEHOLD HINTS.

To Decorate the Home. Here is the advice of a decorator in making over a house: Have your library dark and rich, your dining-room bright in coloring and your sleeping rooms as near white or ecru as possible, draping the windows with lawn, banishing carpets or upholstered furniture.

For Making Pastry. A marble pastry table is a very useful piece of kitchen furniture in summer, when it is difficult to keep pastry at a proper temperature while it is being prepared. These tables cost \$10, mounted in white pine, at the shops of dealers in house furnishing goods.

Vital Vinegar. The proper name of "vinegar worms" (usually called vinegar eels, and not rare in the best samples of vinegar) is Septoria, exophila though often referred to as Anguillula aceti. This is one of the nematoid worms, and so is closely related to the pork worm (Trichina spiralis), the common round worm, pin worm, and hair worm.

How seldom the once familiar word parlor is applied nowadays to that room in the American home of any pretensions which is used to receive guests in. Drawing-room, reception-room, or even sitting-room are preferred now, and parlors are pretty generally relegated to the hotel, the dentist, the manicure and the barber.

The simplest way of setting the color in navy or indigo blue cotton dresses, so it will not run into the white trimming, is to rinse them thoroughly in a solution of weak salt and water. Use about two table-spoonfuls of salt to every gallon of water. Be careful to wring out the garments from salt rinsing water as dry as possible and hang them up at once.

There is special necessity for increased attention to cleanliness and full light, as means of preventing disease in the cold winter, but housekeepers often defeat their own efforts in this direction by over-frequent and free use of water in their floor-cleaning. This slop, by soaking into the dust that fills floor-crevices, makes a breeding place for germs, and the development of the germs of common diseases, although some kinds are carried through the air as dust, and appear to find the moisture and other conditions for their multiplication in the bodies of already weakened animals that lie them.

There is nothing more important in the instruction of the children of the household than systematic lessons in mending. As soon as a little girl is able to handle a needle she should be taught to darn her stockings and mended on shoe fasteners. As soon as she has mastered these arts, she should be taught how to lay patches; not in a haphazard fashion, but neatly and flatly, matching the pattern of the goods and laying the patch the proper way of the cloth. A patch, put on properly and pressed after it is put on, can hardly be recognized as a patch.

her own mending, will be more careful of her clothes than one who is at no pains to mending rents. For this reason even if it is considerably more trouble to oversee mending than to do it, counsel the child should be, not only for the sake of the instruction, but in order that she may suffer from her carelessness if the rent is the result of carelessness.

An important part of all mending is the ripping and preparing the work for mending. If the garment needs repairing it is often desirable to make it over entirely, in which case it should be ripped thoroughly. The thread should be brushed off and the garment cleaned. There are many ways of cleaning materials that cannot be washed. Delicate silk ribbons and other silk may be sponged with a little alcohol diluted with water.

Minard's Lintment Cures Colds, etc. How seldom the once familiar word parlor is applied nowadays to that room in the American home of any pretensions which is used to receive guests in. Drawing-room, reception-room, or even sitting-room are preferred now, and parlors are pretty generally relegated to the hotel, the dentist, the manicure and the barber.

Minard's Lintment Cures Diphtheria. A Boy's Story. A boy named Samuel Kimball, six years old, a chorister boy in St. Mary's Church, Brooklyn, died very recently at St. John's Hospital. Almost his last words were: "Let any boy who smokes cigarettes look at me now and know how much I have suffered, and he will never put another into his mouth."

Poetic Sentiment. To apply the poetic words "a medicine that's able to breathe life into a stone" to B. B. B. savors of exaggeration, but considering its countless cures and wonderful work even exaggeration seems justifiable if it convinces those who hesitate to try B. B. B. and be cured.

Pincking Violets. As "violets plucked will never grow again" so a good name once lost we never can regain. An article which after extended trial won great fame and as time rolls on by good deeds still increases, it is Burdock Blood Bitters the best cure for dyspepsia and all blood diseases.

none of the frame-work of the house showing, that the whole thing has been built into the house at great expense. Outside nothing but the closed shutters are apparent.

THE "Y.S." COLUMN.

One Way to do It. QUERY:—"How can we begin work in a town that is dead?"

ANSWER:—"This question comes to me not infrequently, and I will tell how one brave girl answered it. Miss Elizabeth P. Gordon, of Aburudade, Mass., was in a western village that had never heard the word temperance, its population being largely foreign, where saloons had everything their own way, and the children were growing up quite under the domination of nicotine and alcohol, which was a condition of things that if they had had reasoning powers and faculties developed might well have caused them to wish they had never been born.

Almost his last words were: "Let any boy who smokes cigarettes look at me now and know how much I have suffered, and he will never put another into his mouth."

Poetic Sentiment. To apply the poetic words "a medicine that's able to breathe life into a stone" to B. B. B. savors of exaggeration, but considering its countless cures and wonderful work even exaggeration seems justifiable if it convinces those who hesitate to try B. B. B. and be cured.

Pincking Violets. As "violets plucked will never grow again" so a good name once lost we never can regain. An article which after extended trial won great fame and as time rolls on by good deeds still increases, it is Burdock Blood Bitters the best cure for dyspepsia and all blood diseases.

In earthly services the master enjoys the profit, but in religious services the servant enjoys it. "And the ark of the Lord continued in the house of Obed-Edom, the Gittite, three months; and the Lord blessed Obed-Edom, and all his household." The ark was blessed for the sake of his household, but his household, was blessed for the sake of the ark. The ark of God always pays for its entertainment where-soever it dwells.—Secker.

THE FASHIONS.

A Variety of Jottings that Will Interest the Fair Sex.

The latest in veils is tails dollarsely and irregularly with black spots to suggest court plaster.

There was a time when the first of the land carried a parasol with a conspicuously long handle. Now it is conspicuous young ladies who do them.

A jaunty dress for travelling in one-colored camel's hair with striking around the bottom of skirt in a darker shade.

The newest are of gauze in various colors, dotted with white polka spots or three ruffles are placed on edge, and rosettes are used on the to the stick and on the handle.

Bonnets of the latest importation nothing but a mass of flowers. Small floral wreaths for the neck, which are brought down over the bodice, are used by young ladies; their hair dresses instead of veils.

Yellow dandelions are much used in trimmings. Their fluffy seed is even more popular.

Ornaments made of quill feathers and feathers for hat trimming. Underchiefs daintily embroidered flowers are indulged in by the latest fashion.

The latest fancy in necklaces is a white silk having a slide of diamonds and ends studded with the same sparkling jewels.

Yellow is the new color in writing paper, and should be stamped with silks. The fronts of ball corsages are ornamented with jeweled plastrons made of the figure.

Cut steel is in use again for combonnet trimmings. It is considered bad form for ladies coaching parties to raise umbrellas; they all provide themselves with macintoshes to use in a storm.

All the most fashionable women wear their skirts flat in the back, a little higher than in front, and all the trimmings placed at the bottom.

Hats and bonnets are now kept on head by means of splendid jeweled antique daggers, and pins with gold, silver, steel, and copper, shell, and beads.

The benefits of vacation season are greatly enhanced, if, at the same time the blood is being cleansed and vitalized by the use of Ayer's Sarsaparilla. It purifies, fresh vigor, and buoyancy attend the use of this wonderful medicine.

Decorative art craze of the Epoch at the moment is wood carving which has been fostered by this department of art study. It is not to be denied, even a woman to trail a little in the back, so that all the fashion originated in the incident of skirts being relieved of old bustles when flat backs first came over about a year ago.

Nothing can be prettier for a hot morning gown than one of the light and gray silk, open-work, or gray for a yoke and gimpes, or gray velvet bands, belt, collar, and buttons to deepen the tone.

The black lace butterfly flutter trims on tulle hats and bonnets, evening and dance-gowns, on the low front of the bodice on the sleeve and on the evening coiffure. The applique embroidery bands and motifs, which come in the shaded colors, with gold and silver in old point coupe stitch grounds, are among the most charming things that are put on the dress.

Some of the most exquisite gowns well setting seen in a Fourth Street window consists in the revival of the "invisible setting." One is, smelt, asphalt, pink, opal or pearl, is sure to show diamonds, and no visible seam. How the cohesion is accomplished.

Tieburne, A. & F. R. Co. "I take pleasure in certifying you used Dr. Fowler's Extract in my family for years and it is a cure for diarrhoea after complaints both for children and adults." Mrs. J. M. McMillan, 2 Tieburne.

Wm. Hildre, Gray, left on Tuesday for St. Paul, Minn., will seek his fortune.
