

SKIN OF THE LARGEST BISON EVER SHOT NOW IN THE CITY

Enormous Wood Buffalo Sent Out of the North by Harry V. Radford Will be Mounted Here—Is Side With Skin of Gigantic Moose—Are Two Valuable Specimens.

The skin of an enormous wood bison has just been delivered to Wolfe & Hine, the Second street taxidermist, by the Hudson's Bay company, whose carriers have brought it down from Fort Smith, on Slave river, north of Lake Athabasca. The buffalo was shot in the vicinity of Fort Smith last winter by an American naturalist. Permission to kill the animal was received from the provincial government on the understanding that the skin and skeleton would be the property of the province. From all measurements this wood buffalo is the largest ever shot of which record has been kept. The largest buffalo ever measured by a naturalist was an old bull, shot in 1886, on the Mountain plains by Wm. T. Hornaday, now director of New York Zoological park. It weighed 2,100 pounds, 400 pounds less than the specimen wood bison which was shot in the north last winter by permission of the provincial government.

Wood Carpet Small Room. The skin which now lies in the shop of Wolfe & Hine is large enough to carpet a small room. It measures thirteen feet in length and is eight feet in girth. The entire animal is to be measured, stuffed and mounted when the skull and leg bones are received. When mounted, the wood buffalo will be the largest stuffed buffalo in the world. The only other mounted skin of a wood buffalo is in existence in the Ottawa museum. This animal was killed years ago by an Indian. The Fort Smith specimen when stuffed will be placed in a prominent position inside the entrance to the new parliament buildings. Ashley Hine, who mounted the skin of the big Black buffalo, Sir Donald, last summer, says that the wood buffalo skin is larger and finer than that of the lord of the old Banff herd. The animal when stuffed will be much larger than the fine, bull which Mr. Hine stuffed two years ago for the Dominion government and which is now on exhibition at Charing Cross, London, England.

Skin Valued at \$2,000. Mr. Hine has stuffed a great many specimens of the plains buffalo and says that so far as he can see the only difference between the two species is that the hair of the wood buffalo is a trifle longer and somewhat darker. He values the wood bison's skin at \$2,000. There was some doubt as to whether the specimen could be properly stuffed in Edmonton in the mind of the man who shot the animal. Speaking in the Bulletin yesterday, Geo. Harcourt, deputy minister of agriculture, said that he would back the Edmonton taxidermist against any of them in the States or elsewhere in this work. In the display rooms of Wolfe & Hine, on Second street, there are now four mounted buffalo heads, the property of the Dominion government, which are for sale. The heads are splendidly mounted and have a magnificent appearance. Their price ranges from \$250 to \$500. Many other rare and valuable skins of North American animals are to be seen in the public museum of this establishment of taxidermy. On the wall hangs the skin of a huge grizzly which once wore this coat as grizzly which once wore this coat was shot in the Pelly lakes at the height of hand, near the headwaters of the Yukon. The skin of the cinnamon bear which was shot several weeks ago in the streets of Banff hangs on the wall. This animal meandered around Banff and badly frightened the women on the Hot Springs road. No one is allowed to carry a gun in the Banff park and the animals seem to know it. Recently they have become very daring.

Fire Destroys Lumber. Truro, N.S., July 12.—Fire destroyed 300,000 feet of lumber belonging to Hill brothers, at their mill at Foleigh last night. The loss is estimated at \$75,000 and is covered by insurance.

CALGARY TERMINALS. C.N.R. Will Build Combined Station and Hotel.

Calgary, July 8.—Plans for a mammoth structure, which will be the combined depot and hotel of the Canadian Northern Railway, to be built on block 59, at the corner of Tenth avenue and First street west, have already been prepared and work on the new building will be commenced within the next sixty days. The new building will be up-to-date in every respect, being somewhat after the design of the Royal Alexandra in Winnipeg insofar as the hotel part of it is concerned, while the depot part of the structure will be equal in size to the present C.N.R. station, although a somewhat different design. The route by which the Canadian Northern will enter the city has also been definitely settled, and the route plans have already been tied, wane work on the grading has been rushed about to such an extent that the grading outfits should be in sight of Calgary within the next six or eight weeks. The route by which the railway will enter the city will be from the south. The main line of the Canadian Northern will be crossed by an overhead bridge 24 feet high, and the crossing of the Bow river will be about three-quarters of a mile south of the C.P.R. steel bridge. From that point the route will run through Bonnybrook, skirting the hills 50 feet south of the cement works. The crossing of the Macleod branch of the C.P.R. will also be by means of an overhead bridge, and the Bow river will be touched at the present dumping grounds, where it is expected considerable crib work will have to be erected in order to protect the tracks. Through Lindsay park until it crosses the Elbow about 50 feet east of St. Mary's Hall is the location then, after which the line curves a little to the west and then turns and runs directly north about 100 feet east of First street west to the depot on Tenth avenue. This depot location will bring the C.N.R. depot very close to the C.P.R., and the site is considered a very good one. At present the grading of the line is completed as far as the head Deer River, and track-laying is being rushed ahead so as to get the material for the bridge across the river on the ground as early as possible. The steel bridges over both the Bow and head Deer rivers will not take long to erect and will not delay the entrance to the city to any great extent.

Col. H. A. L. White Dead. St. Mary's, Ont., July 8.—Colonel H. A. L. White, postmaster of St. Mary's, and a prominent citizen of the town for many years, died this afternoon. Developing Naval Policy. London, July 9.—Admiral Kingsmill, of Ottawa, who is now in London, says that he is looking forward hopefully to the development of the Canadian naval policy. Lloydminster Hotel Sold. Lloydminster, July 9.—The largest hotel in Lloydminster, the Britannia, was sold last night by the present proprietors, John Bell and son, to Frank Hamilton, of Vermilion.

WILL FIGHT TO THE FINISH.

Cloak Makers Will Obtain Loan of \$100,000 to Carry on Strike.

New York, July 8.—Developments today in the strike of the cloak makers, which has tied up 95 per cent. of the trade in New York, indicated a long struggle before any settlement is reached. Abraham Rosenberg, the strike leader, made tentative arrangements to obtain a loan of \$100,000 from prominent bankers. This loan is promised without interest. Mr. Rosenberg promised that he was in a position to obtain all the money that might be necessary to carry the strike to a successful conclusion. In spite of the apparent strength and determination of the strikers, the manufacturers held two meetings, at both of which it was decided to fight the strikers to a finish. This action of the manufacturers was a complete surprise to the strikers. Of the 1,500 manufacturers more than 100 had already acceded to the demands of the strikers and operatives, and the strikers felt certain that the others would surrender within a few days. At both meetings of the manufacturers it was made clear that the strikers had submitted no demands before quitting work on Thursday. They had not given any notice of their intention to strike. President Rosenberg was busy today with his aides drawing up the plans of the strikers to be submitted to the manufacturers.

Charged With Appropriating Money Collected From Executions to Cover Up Shortage. Regina, Sask., July 8.—J. B. Stauffer, late sheriff of Arcola, was today sent up for trial by Magistrate Grant, bail being accepted in two sureties of \$2,500 each. A. W. Goldie, provincial government auditor, gave evidence as to auditing Stauffer's books. On September 21, 1909, a shortage was shown of \$7,214.28. The evidence of C. J. Milligan, inspector of legal offices for Saskatchewan, went to show that Stauffer from time to time used the money that was coming in from executions to cover up his outstanding deficits, or, as the public prosecutor put it, systematically robbed Peter to pay Paul.

AN ARCOLA SHERIFF SENT UP FOR TRIAL.

Charged With Appropriating Money Collected From Executions to Cover Up Shortage. Regina, Sask., July 8.—J. B. Stauffer, late sheriff of Arcola, was today sent up for trial by Magistrate Grant, bail being accepted in two sureties of \$2,500 each. A. W. Goldie, provincial government auditor, gave evidence as to auditing Stauffer's books. On September 21, 1909, a shortage was shown of \$7,214.28. The evidence of C. J. Milligan, inspector of legal offices for Saskatchewan, went to show that Stauffer from time to time used the money that was coming in from executions to cover up his outstanding deficits, or, as the public prosecutor put it, systematically robbed Peter to pay Paul.

AVIATOR BARONESS KILLED.

Baroness de Laroche Becomes Excited in Air and Falls. Plain of Rheims, July 9.—The second disastrous accident of the aviation meet now in progress here occurred yesterday when the Baroness de Laroche, driving a Voisin biplane, lost her nerve when at a height of 50 metres, shut off the power and fell with her machine to the ground. Her legs and arms were broken and she also suffered severe concussion, but the doctors who are treating her hope for her ultimate recovery. It was at first believed that the baroness had sustained a fractured skull, but this proved not to have been the case. At a height of 50 metres, the baroness had flown once around the field. The spectators in the grand stand were applauding her vociferously. Suddenly she appeared frightened by the approach of two other machines, one of which, a Sommer, driven by M. Lindpainter, passed directly over here. The baroness, in a period of consciousness after the accident, said the rush of air from the motor overhead threw her into consternation and that she cut off the ignition and lost control of her bi-plane. At first the machine glided on an even keel, but suddenly it turned over and fell to the ground and was wrecked. The crowd rushed on the field and tenderly extricated the mangled and bloody form of the woman from the debris, and she was conveyed to hospital. Meanwhile Lindpainter had descended and the crowd, believing him responsible for the accident, threatened to lynch him. Gendarmes, however, threw a cordon about the aviator and dispersed the excited crowd. An inquiry afterwards by a judges committee into the accident showed that Lindpainter was in no way responsible for it. The first accident of the meeting occurred last Sunday, the opening day, when Charles Wachter's monoplane collapsed at a height of 500 feet and dropped like a stone, instantly killing the pilot. The performances of Baroness de Laroche on a Voisin machine here have been much talked of in Paris. This accident which resulted in her fatal injuries was not her first mishap. In January she was seriously injured at the Chalons aviation field. In circling the course with her biplane she made a wide turn and crashed into a tree, being unable to elevate her machine quickly enough to dodge it. She fell from a height of twenty feet and was taken into the military hospital unconscious. Her right shoulder was dislocated and internal injuries were feared, but she recovered. In February the French Aero Club gave Baroness de Laroche an air pilot's license for flying four times around the aviation course, a distance of 12 miles. The Baroness was one of the pioneers of aviation. She had also driven motor boats in races and automobiles at exhibitions, and as soon as flying became practical she learned how to manage the biplane. There are seven other women aviators in France.

WILL NOT HIRE UNION MEN.

Montreal, July 8.—One hundred and two contractors are said to have signed the stone masons' and bricklayers' agreement. Members of the Builders' Exchange, however, signed an agreement among themselves not to hire union men.

Caledonian Midsummer Sale News

The most successful summer sale in the history of Edmonton

In point of prices. In point of crowds. In point of sales. That is the verdict of our opening day. And the saying goes, "a good opening means a glorious finish. Because as the days grow older so will the offerings be greater. We have but one end in view and that is to dispose of \$35,000 worth of merchandise in 16 days and then "stocktaking." Shop early and often at our Great Midsummer Sale.

Enormous Reductions in Every Department

Table with 4 columns: Midsummer Waist Sale, Sale Prices For Men, Dainty Whitewear, and Linens at Sale Prices. Lists various items and their reduced prices.

HOLDEN-CENTRE of VERMILION VALLEY

Prosperous G. T. P. Town Which is as yet only Seven Years Old but Which has Assumed the Garb of a Community Many Years Older. Is the Point From Which all the Magnificent Vermilion Valley Country Radiates.

In the year 1902 the beautiful and fertile district lying tributary to the head waters of the Vermilion received its first influx of settlers. Americans and Scandinavians from Minnesota, the Dakotas, Montana and Washington, Canadians from the eastern provinces, they came, eager to obtain land in the district since known as the famous Vermilion Valley. The present cities of Wetsaskiwin and Strathcona, then towns of about eight hundred inhabitants, were the points from which the land rush occurred. For the next four years the Battleford trail was the scene of never-ending strings of freight wagons, prairie schooners, bands of horses and cattle, all of which contributed to the development of the district of which the present town of Holden is the centre.

Stores Began to Spring Up.
In 1903 the postoffice of Vermilion Valley was established, receiving the mail by way of the Fort Saskatchewan-Toronto northern mail route. Later on, the postoffices of Seena, Bruce and Viking were opened, with Vermilion Valley as distributing of-

the present townsite of Holden, by which name it has been since known, and Norman M. Smith took over the duties of postmaster. The old Battleford trail with its sloughs, mud-holes and mosquitoes has been supplanted by the great National Transcontinental, which fortune decreed should pass through this highly favored district. Eight years ago, where nothing was heard but the yelp of the coyote, is now heard the whistle of the locomotive and the swish of the binder.

Black Vegetable Loam.
The soil of the Holden district is the well-known black vegetable loam with clay subsoil, admirably adapted for the growing of all kinds of grains, grasses, small fruits and vegetables. The raspberry in particular thrives wonderfully, the native species being equal in every respect to the cultivated varieties of the east. Hay, of either the upland or meadow variety, may be had in abundance. The land being usually preferred for horses and the meadow or lowland for cattle. During the average winter range horses thrive on the sun-

dered grass of the pasture, but cattle have generally to be cared for. The numerous poplar groves with which the landscape is liberally dotted, supplemented by underlying seams of coal from seven to ten feet in thickness, precludes any possibility of a fuel famine in the Holden district. Last year the local Union of United Farmers of Alberta purchased a carload of "Alberta Bed" seed wheat from the government experimental station at Lethbridge, and up to date the prospects are that the experiment will be fully successful.

Sound of the Hammer.
The sound of the hammer is heard in Holden from sunrise to sunset these days. Buildings are going up on every hand and probably more construction work is in progress than in any other town along the G.T.P. in Alberta. "It is estimated that the town will double its size in less than six months. At the corner of Main street and Second street the King George Hotel is rapidly rising from the ground. This hotel will be a most commodious three-story structure and will be fitted with all modern improvements, so that it will compare favorably with any hotel along the line of the Grand Trunk Pacific.

A brick building, two stories high is being erected at the corner of Third and Main street for the branch of the Traders' Bank which is located at Holden. This branch was opened up in October of last year with G. B. McVittie as manager. It has done a big business in small quarters since then, but will soon be moving to a building more in keeping with the size of its transactions. At present there are three clerks employed in the bank in handling its business.

Two general stores, two stories high, are to be erected on Main street south, and the erection of at least ten or twelve residences has been planned for this summer. Several of these are under construction now.

Site for New School.
The School board are negotiating for a site in the town for the Holden school, which is situated at present about half a mile from the town. The school has a large attendance, mostly of children of townpeople, and is in charge of a most capable teacher. A large implement was recently being erected on Main street by Messrs. C. A. Stewart and C. Brislin, to accommodate their growing business, as agents for farm machinery.

The Methodists living in Holden have secured lots in the town for a church site, and will probably be building this summer. A Roman Catholic church is also likely to be built before the snow flies. A building fund has been started.

The Security Elevator Company built a large elevator with a capacity of 30,000 bushels of grain, last fall. The Pacific Elevator Company now has material on the ground for a second elevator.

The stock loading platform at Holden, whether by accident or otherwise, is eight feet longer than that at any other town along the line of the Grand Trunk Pacific between Edmonton and Wainwright. Since the arrival of the steel a year ago, to one hundred carloads of stock have been shipped out of Holden.

Forty Lines of Business.
Nearly forty lines of business now find representation in Holden. In April of the present year a bright,

Spinster Steals Her Sisters' Husbands
New York Divorce Case Reveals Odd Entanglement Wherein Two Married Ladies, Love Their Neighbors Through Spinsters Sister.

New York, July 11.—Three sisters, all young and pretty, are the principal figures in a divorce action that Mrs. Vivienne E. Craigie, of No. 429 West 48th street, has brought in the King's count supreme court in Manhattan. Her sister two years her junior, as the co-respondent. The sisters in this unique marital strife are: Vivienne, aged 25, the wife of David Craigie, building contractor, who lives at No. 260 12th street, Brooklyn; Clarice Gill, unmarried, aged 21, alleged to be living at No. 449 12th street, Brooklyn; and Mrs. Audrey Fields, 18, a resident of Barbadoes, West Indies.

Mrs. Craigie sets forth in the July 11th divorce suit that in July, 1907, she learned that Clarice, her sister, had caused a breach in the domestic peace of Mrs. Audrey Fields, the married sister that lives back in Barbadoes. The information that was conveyed to her caused her to pack her trunk hastily and sail for the West Indies.

On arriving at her sister's home, she asserts, she found that Mr. Fields had become so infatuated with Clarice that he had been driven to resign as mistress of the home in favor of Clarice.

After some diplomacy Mrs. Craigie claims that she patched up the breach between the two sisters, and then invited her own husband, whom she had left in Brooklyn, to come to Barbadoes to accompany her back to Brooklyn. In due time Mrs. Craigie arrived. A short acquaintance with her sister-in-law, Clarice, Mrs. Craigie charges, was sufficient to cause him to forget his wife entirely. So much in love was he with the charms of the middle sister that when he set sail unexpectedly for New York, Clarice and not his wife accompanied him.

All in the Family.
Mrs. Craigie charges that on her return to her Brooklyn home, she found Clarice Gill, building contractor in her place. Mrs. Craigie, unable to tolerate the situation, brought suit, naming Clarice as co-respondent. When the process server forced Mrs. Craigie the complaint in the divorce action, Mrs. Craigie was present to identify her husband. Clarice was also there, holding a baby in her arms. The mother kissed the child several times and wept at the suggestion that she might have to leave Clarice. "Where are you living now? Let me have your address and I'll look you up," Mrs. Craigie declares her husband said to her in a business-like way.

MEN CONSIDER C. P. R. OFFER.
The Conditions of Offer Were Fully Threshed Out.
Montreal, July 13.—Although it was expected the agreement would be signed Saturday between the Canadian Pacific representatives and the trainmen, nothing of the kind has been done. The schedule of pay, together with the terms and conditions, are now thoroughly threshed out between the two parties and with the various proposals and alterations which the C. P. R. intimated it is willing to grant embodied, in a long, detailed document which now circulates the offer of the company. The document is now being considered in private by the men and it found acceptable will be signed by both parties and accepted as final, with the option of either side terminating the agreement on sixty days' notice.

MAYOR GAYNOR NOT ARBITRARY

Government of U.S., He Remains Public, Is One of Laws and Not of Men.

New York, July 11.—Mayor Gaynor flatly states that he will not use arbitrary power to suppress the exhibition of the Jeffries-Johnson fight pictures, and repeats that "ours is a government of laws and not of men."

In a letter today to the Rev. O. R. Miller of the International Reform Bureau, the mayor said: "The pictures should not be taken to me. I do not see how it can do any one any good to look at them, but you will be so good to remember ours is a government of laws, and not of men. Will you please get that into your head? I am not able to do as I like as mayor. I must take the law just as it is, and you may be absolutely certain that I shall not take the law into my own hands. You say that you are glad to see that the mayors of many cities have ordered that these pictures shall not be exhibited. Indeed—who set them up as a precedent? If there be some valid law giving any mayor such power, then he can exercise it; otherwise not. The growing exercise of arbitrary power in this country by those put in office would be far more dangerous and is far more to be dreaded than certain other vices which we all wish to minimize or be rid of. People little know what they are doing when they try to encourage officials to resort to arbitrary power."

U.S. GUNBOAT RAMMED BY SUB-MARINE BOAT

Accident Occurred During a Mimitic Attack by Submarines—Dynamo and Boiler Compartments Were Flooded—Men Aboard Were Stunned by the Collision.

Princeton, Mass., July 12.—The United States gunboat Castine, flagship of the submarine flotilla, was rammed by the submarine Bonita today during the manoeuvres and headed to prevent her from sinking. No one on board was injured.

The ramming occurred during a mimitic attack on the Castine by the submarine Bonita. The Bonita apparently misjudged the distance and struck the gunboat with considerable force. Two of the plates of the Castine were loosened. Her dynamo and boiler compartments were flooded. The Bonita suffered a dent in her armor and a small section of her railing. The men on board the Castine were struck slightly by the collision.

As soon as the damage was understood the boat was headed to shore and grounded. She will be examined for repairs tomorrow.

WIFE RELENTS WHEN IN COURT

Forgave Her Husband for 'Frying Grease'.

Philadelphia, July 11.—Frying a twenty-dollar bill in a pan of lard, devoted to a woman whom an ex-wife had called his "Chickens," the purchasing of quantities of expensive candy and cream puffs and an over-indulgence in chewing-gum, were a few of the idiosyncrasies presented before Judge Andriest in the desertion court yesterday.

Charles and Nellie Pancoast, a young couple who launched forth on the matrimonial sea by eloping, later separated. Mrs. Pancoast complained that her husband earned \$24 a week, but that she could not make ends meet because of his inordinate fondness for candy and cream puffs. She asserted that she maintained such a steady and unlimited diet of sweets that there was rarely sufficient funds left for the purchase of the more substantial corn beef and cabbage.

On New Year's day she said that he came home filled with such cheer that he placed a twenty-dollar bill in a frying pan and attempted to cook it. Judge Andriest suggested that they disregard their attorneys and make up. They acted upon this advice and in a few minutes the wife requested that the case be dropped.

MUST PLAY SUBORDINATE ROLE

Archbishop of Milwaukee Dismisses Women's Right Movement in Sentence Milwaukee, July 10.—The theory that demands equal rights between the two sexes must be denied absolutely," said Most Rev. S. G. Messmer, Archbishop of the Milwaukee diocese, in his address on "Women's Rights" at the opening of the Western Catholic Obsequies at Spring Bank yesterday.

It is a mistake to say "equal rights" instead of "similar rights," for women have certain rights that men have not, but men have certain rights that women have not. "In regard to the question of politics, why should women claim equal rights? What does politics mean? Politics means the ruling of nations and no one who understands would demand equal rights. It would interfere with women's sphere, which makes her the queen of the household. Equal rights would destroy the female character and would destroy woman's influence on mankind. The true solution of the woman question may be found in religion. In the sacred Scriptures there is the law that woman is subject to man and therefore man must take the lead in the family. As man is the head of the family, he must take the leading part."

CITY TO BUY ELECTRIC POWER AT \$20 PER H.P.

Agreement Has Been Reached Between Commissioners and Edmonton Heat and Power Company, Limited, Whereby City Will Obtain Power at Low Figure.

As a result of a lengthy conference Monday between the city commissioners and C. H. Colgrave, G. M. McLaren and M. W. Eager, representing the Edmonton Heat and Power Co., Ltd., an agreement was practically arrived at whereby the city will enter into a contract for the purchase of 10,000 horse power of electricity at a rate of \$20 per horse power per year. The term of the contract will be thirty years. This information was confirmed to the Bulletin Tuesday by Commissioner Bouillon, who has the negotiations in charge.

The arrangement now arrived at is the result of over a month's negotiations between the commissioners and the company. The first offer was for 6,000 horse power per day at the rate of \$35 per horse power per annum and to hold in reserve 4,000 additional horse power, which they agreed to supply at the rate of \$25 per horse power per annum.

A Low Price.
The present figure of \$20 per horse power is an excellent low one and is much under the price paid by Calgary or Winnipeg to power companies from whom they secure their electricity. These figures range from \$35 to \$25 per horse power.

The city at the present time utilizes about 4,000 horse power at the peak load. The 10,000 horse power which the company will contract to supply will thus meet the needs of the city for a considerable time to come.

At the present time it is stated that the city is using about 4,000 horse power per day, which costs over \$240,000 a year to produce, or over \$60 per horse power per annum.

If these figures are correct, and they are vouched for, the offer of the new hydro-electric company will mean an immense saving to the corporation.

Work Started at Once.
The plans for the new hydro-electric power in Rocky Rapids will be started at once. The dam, located on the Saskatchewan, are now all ready and as the company have a million and a half dollars in cash available, work will be started at once. The direct transmission lines for the power will be about 60 miles long.

The drop of water which has been secured at a bend in the river where there are falls, will be about 35 feet and will give a 20,000 second foot flow of water. The capacity of the plant will be about 36,000 horse power.

The negotiations with the city have been carried on largely by the company's solicitor, M. W. Eager, who has held a number of conferences recently with the commissioners and has at last brought about an arrangement which appears to be mutually satisfactory.

RESENT BITULITHIC

Ratepayers of Calgary Threaten to Take Out an Injunction.

Calgary, July 11.—If any attempt is made to pave First street east between Tenth and Seventeenth avenues, with bitulithic pavement, instead of asphalt, it will get out an injunction "stop it," declared Alderman Wallace to City Commissioner Graves this morning.

"It is in direct opposition to the wishes of the property owners along that thoroughfare, and I would like to know why the commissioners recommended that bitulithic be put down there after a petition asking for asphalt had been filed."

Alderman Wallace is incensed to think that after a petition containing the names of 23 of the 25 property owners asking for asphalt paving had been filed, the city commissioners should recommend that bitulithic be put down, and that the city council should have passed this recommendation at its last meeting.

SOME BATTING UP

Up to date Larry Lajoie, first baseman for the A's in bat, with a percent Cobb closing fast on the club, with an average of .328. He is leading the club with an average of .328. Mack's average at a .319 clip.

"Trig" Specker, the pitcher for the A's, is leading the club with an average of .328. Mack's average at a .319 clip.

Hal Chase, the crack first baseman for the B's, is leading the club with an average of .328. Mack's average at a .319 clip.

ANOTHER SHUT OUT FOR REGIN

Bona Piers Failed to Score in Field.

Hickey, pitching a reliable ball, administered a second shut out to the B's at Diamond. The Bona Piers, who were outscored in every department by the A's, were shut out for the second time in three games. They made six scattered hits while Edmonton gathered from Gilchrist's delivery.

Edmonton scored in the two runs for hits. Mills on balls, Baxter grounded into a triple play. Quigley made first on field. Spencer going out on the pl grounded out to Dushack. With one down, Bux became a bagger over Mills' head to the fifth innits but the up were caught out.

Morse opened the fifth with a neat single to left. Heed, Spencedrove out right scoring Morse. Cox was himself on the throw to the left grounded out to second grounded out to Gilchrist.

Cox led off in the sixth to left. Hickey went around an error by Hoffman, first by player's choice. Co by McIntosh as he attempted home. Baxter got a life and the bases were full.

Spencer, C. Quigley, Brennan, Bux and Cox, Hickey, p.

Totals, AB. 32

Edmonton. Summary—Stolen bases, 4; Morse, Spencer 3; Quigley sacrifice hit; Baxter, Morse key; two base hits, Cox, H. base hit; Morse, Bux; H. V. Christ 3; Hickey 1; left on base 1; Hickey 1; Time, 1:20; Attendance, 880.

THE FORMULA OF "FRUIT-A-TIVES"

Is On The Outside Of Every Box For All The World To See

Every user of "Fruit-a-tives" knows exactly what is being taken. The formula of this famous fruit medicine is printed plainly on the outside of every box. We have stated many times—and now state clearly—that "Fruit-a-tives" is made of the juices of apples, oranges, figs and prunes, with valuable heart and nerve tonics and antiseptics.

Everyone knows that fruit juice is healthful—but perhaps some do not understand why this is true. Fruit juice consists of about 91% water, 8% of sweet principle, and 1% of a bitter substance. It is the quantity of bitter principle in fruit that gives the fruit value as a medicine. An eminent physician of Ottawa, after years of experimenting, found a method of increasing the bitter principle in fruit juice, thus increasing the medicinal or curative qualities.

The juices are first extracted from fresh, ripe oranges, apples, figs and prunes. By a secret process, some of the sweet stones are replaced by the bitter principle. Then tonics and antiseptics are added, and the whole made into tablets, now known far and wide as "Fruit-a-tives."

"Fruit-a-tives" is the only medicine in the world that is made of fruit juices, and is one of the few remedies that have let their composition be known from their introduction to the public.

In cases of Obese Constipation, Liver Trouble, Indigestion, Backache, Rheumatism, Headaches and Impure Blood, this wonderful fruit medicine cures when everything else fails. As man is the head of the family, he must take the leading part.

"Fruit-a-tives" is sold everywhere at 50c. a box, 6 for \$2.50, or trial box, 25c. or will be sent, postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.

HOLDEN, FROM THE SOUTH.

It was from this time that the country began to forge ahead, through the machinery of the country regularly each fall, and despite the hardships of bad roads, long distances from grain markets, wet years and horses dying from swamp fever, the country gradually assumed an air of prosperity.

Stock-Raising Chief Industry.
Owing to the superabundance of hay and other ranching advantages, it is natural that stock-raising was the chief industry engaged in during the early history of the settlement. Those who paid particular attention to the manufacturing of beef were Messrs. Story, Lane, Campbell, Lloyd, and Appleby, each of whom had large bunches of cattle.

The completion of the main line of the C.N.R., and of the Wetsaskiwin branch of the C.P.R., in 1905, was the beginning of a new era in the history of the district. The towns of Vegreville on the U.N.R. and Camrose on the C.P.R., were henceforth the railroad points, in place of Wetsaskiwin. The long trail, was shortened from sixty to thirty miles, and in-

stead of a week being consumed in making the trip to town, two days were all that was necessary. It was at this time that the mail was despatched from Camrose instead of being brought in by the roundabout Fort Saskatchewan route. A weekly stage service was inaugurated, taking in the postoffices of Round Hill, Earling, Vermilion Valley, Bruce and Viking, which continued in operation until the beginning of the present year.

Upon the advent of the Grand Trunk Pacific Railway, the country underwent another change. The one open range, so dear to the heart of the stockmen, was gradually fenced off. Fall wheat, town lots, branch railway and telephone lines had become the chief topics of interest, instead of cattle and horses. The post-office was removed two miles east from the ranch of Wm. Campbell to

SPINSTER STEALS HER SISTERS' HUSBANDS

New York Divorce Case Reveals Odd Entanglement Wherein Two Married Ladies, Love Their Neighbors Through Spinsters Sister.

New York, July 11.—Three sisters, all young and pretty, are the principal figures in a divorce action that Mrs. Vivienne E. Craigie, of No. 429 West 48th street, has brought in the King's count supreme court in Manhattan. Her sister two years her junior, as the co-respondent. The sisters in this unique marital strife are: Vivienne, aged 25, the wife of David Craigie, building contractor, who lives at No. 260 12th street, Brooklyn; Clarice Gill, unmarried, aged 21, alleged to be living at No. 449 12th street, Brooklyn; and Mrs. Audrey Fields, 18, a resident of Barbadoes, West Indies.

Mrs. Craigie sets forth in the July 11th divorce suit that in July, 1907, she learned that Clarice, her sister, had caused a breach in the domestic peace of Mrs. Audrey Fields, the married sister that lives back in Barbadoes. The information that was conveyed to her caused her to pack her trunk hastily and sail for the West Indies.

On arriving at her sister's home, she asserts, she found that Mr. Fields had become so infatuated with Clarice that he had been driven to resign as mistress of the home in favor of Clarice.

After some diplomacy Mrs. Craigie claims that she patched up the breach between the two sisters, and then invited her own husband, whom she had left in Brooklyn, to come to Barbadoes to accompany her back to Brooklyn. In due time Mrs. Craigie arrived. A short acquaintance with her sister-in-law, Clarice, Mrs. Craigie charges, was sufficient to cause him to forget his wife entirely. So much in love was he with the charms of the middle sister that when he set sail unexpectedly for New York, Clarice and not his wife accompanied him.

All in the Family.
Mrs. Craigie charges that on her return to her Brooklyn home, she found Clarice Gill, building contractor in her place. Mrs. Craigie, unable to tolerate the situation, brought suit, naming Clarice as co-respondent. When the process server forced Mrs. Craigie the complaint in the divorce action, Mrs. Craigie was present to identify her husband. Clarice was also there, holding a baby in her arms. The mother kissed the child several times and wept at the suggestion that she might have to leave Clarice. "Where are you living now? Let me have your address and I'll look you up," Mrs. Craigie declares her husband said to her in a business-like way.

GOLD FIND EXAGGERATED

Reported Mountain of Solid Gold Turns Out to Be Bed of Pyrites.

Ottawa, July 12.—The director of the geological survey has received a report from Stewart, at the mouth of Portland Canal, which would seem to give the death-knell to the stories cabled to England, which have caused such a furor over there, as to the discovery of a mountain of solid gold.

While the report is not an official one from a member of the survey staff, it comes from a gentleman, in whom Professor Brock has the utmost confidence

EDMONTON NEWS

MONDAY'S DAILEY.

JASPER WEST PROPERTY SELLS. A high price was realized for two lots on Jasper west at the northwest corner of Jasper and Eleventh street, last week, when Inspector Hunter, of the Bank of Montreal, purchased them for \$25,000.

SAWYER-MASSEY PRES. HERE. R. Harmer, of Hamilton, Ontario, president of the Sawyer-Massey Co., and the Canada Furniture Co., is in Edmonton Saturday. In the morning Mr. Harmer, in company with Secy Fisher, of the board of trade, called on Premier Sifton at his office in the legislative buildings.

PRIZES FOR SHEAF GRAIN. The crops in the Edmonton district are in such a promising condition this year that the Edmonton Exhibition association have decided to offer a special prize for collections of sheaf grain and grasses grown in 1910, and also for collections of threshed grain and seeds.

OWNERS OF MEDALS LOCATED. Some years ago medals were forwarded to the city for those who had enlisted in Edmonton, during the South African war.

TUESDAY'S DAILEY.

Rev. Doctor McQueen left today morning for Gull Lake, where he will spend a six weeks holiday with his family. The death took place Sunday afternoon at 351 Kennedy street, of Lydia Adeline Richardson, wife of David Fender, in her 48th year.

PERSONAL. John Blue, provincial librarian, is spending his holidays at Banff. Jas. E. Ryan, of the real estate firm of Costello & Ryan, Calgary, is spending a few days in the city.

RECEIVES OFFER AT COAST. J. A. Macgregor, principal of Queen's avenue school, has received an excellent offer from the school Board of Vancouver City to enter upon the teaching profession at the coast.

FILTRATION WORKING. The filtration system is now in full working order and Commissioner Bouillon stated on Monday that he hoped to have no further trouble with its operation.

AMATEUR BALL TONIGHT. Teams representing J. H. Morris & Co. and the W. J. Walker Co. will play baseball tonight on the grounds in front of Queen's avenue school, commencing at 8:45.

Soreness of the muscles, whether induced by violent exercise or injury, is quickly relieved by the free application of Chamberlain's Liniment. This liniment is equally valuable for muscular rheumatism, and always affords quick relief. Sold by all dealers.

CALGARY MEN HERE.

W. R. Hull and W. J. Roper, of Calgary, arrived in the city Monday. Both gentlemen are here on real estate business. Mr. Hull, who is the owner of the Hull Block in Calgary, has been interested in Edmonton real estate for some time, and at present is looking over some valuable purchases. They will both remain in the city for some days.

MANY HOMESTEADERS LOCATE. The number of immigrants who registered at the immigration offices last week was smaller than usual although the number who left the halls to locate on homesteads is the largest for some time.

FORERUNNERS OF SETTLEMENT. J. Rogers, an American, who filed on land in the Grande Prairie district this spring, returned to the city several days ago.

SAYS HIS WIFE ELOPED. Steven Tkaz, of Golden Spike, laid information against his wife, Julie Tkaz, at the Mounted Police barracks on Monday, charging her with eloping with a man called Beltrouka, a resident of the same district.

TWO WEDDINGS MONDAY. A pretty wedding took place Monday morning at half-past eleven o'clock at Christ church, when I. S. Cowan, city police magistrate, was united in matrimony to Miss Evelyn Louisa Frothingham, daughter of E. V. Frothingham, 175 Fifteenth street.

FINDS BODY OF HIS SON. Father Recovers Body of His Boy Drowned in Saskatchewan River. Saskatoon, Sask., July 8.—After searching almost night and day for the last five days, William Lamont today located the body of his little son, who was drowned in the Saskatchewan river while bathing on Monday evening.

WILL DEMAND COMPENSATION. Railways Said to Be Responsible for Many Forest Fires. Toronto, July 8.—The recent rains in the Thunder Bay District have quenched the fires raging along the line of the Transcontinental Railway.

TEMPERANCE MEETING. Another successful meeting was held last night at the Orpheum Theatre, under the auspices of the local Alberta Temperance and Reform League.

AMATEUR BALL TONIGHT. Teams representing J. H. Morris & Co. and the W. J. Walker Co. will play baseball tonight on the grounds in front of Queen's avenue school, commencing at 8:45.

Soreness of the muscles, whether induced by violent exercise or injury, is quickly relieved by the free application of Chamberlain's Liniment. This liniment is equally valuable for muscular rheumatism, and always affords quick relief. Sold by all dealers.

WEDNESDAY'S DAILEY.

LOCALS. A trout which when caught weighed no less than thirty-six pounds, had been mounted in the window of the P. Burns Co.'s meat market.

MCCHEFFEY-MCKENZIE. An interesting event took place at the residence of W. H. Browne, 643 Fourth street, Tuesday morning, when Frederick McCheffy, of Toleda, Alberta, formerly of Edmondsdale, Nova Scotia, was united in the bonds of matrimony to Susan Harriet McKenzie, of Gray River, Colchester Co., N.S.

RATES ARE REDUCED. The advent of new railroads into Edmonton and Calgary is already having its effect and a cut of \$1 in passenger rates between Calgary and Winnipeg and Edmonton and Winnipeg, over both the C.N.R. and C.P.R., has just been announced.

THE CROPS IN LEDGO. H. E. Sutton, land guide, visited the Ledgo district last week, and reported that part of the country is looking fair, both timothy and red clover being about 18 inches high.

THE REMAINS OF A BOY. The remains of a boy, who was drowned in the Saskatchewan river while bathing on Monday evening, were found today by William Lamont.

TEMPERANCE MEETING. Another successful meeting was held last night at the Orpheum Theatre, under the auspices of the local Alberta Temperance and Reform League.

AMATEUR BALL TONIGHT. Teams representing J. H. Morris & Co. and the W. J. Walker Co. will play baseball tonight on the grounds in front of Queen's avenue school, commencing at 8:45.

SEM

VOLUN. STONY. More Binder T. West in Co. Wheat Will.

A score of districts of Stony that and Spruce a representative toured the country this trip, expressing the present condition of grain and wheat. The promise of a bumper crop is above the average. Fields of grain who oats and wheat are generally throughout an hundred miles, and the crops are seen in crop as as that of the Fort. The weather is ideal from the last few weeks but no drop of the season, turning richly and not as much but the grain is full when the cutting is done. By the first of the binder was land, if the process continues. The crops are generally low and whole fields lowish time. Up full clusters some front but the appearance of being crop will probably be on record.

Oats will probably of over forty bushels to the acre, but the present condition of the fields is such as to indicate a crop of about 30 bushels to the acre. Judging from the present condition, just a few more days of rain would be sufficient to bring the crop up to the level of last year's crop. Above Two Fall wheat will stand as high as five bushels to the acre, and will be well to the acre, on a mate. Not a field in the area is short of wheat.

WOMAN AT WEST EN. An Unknown Intruder Into House on Strikes Down Comes Unconscious Leaves the House. A dastardly attack yesterday afternoon at an unknown house on Douglas, who lives R. tracks on Sixteenth was alone in complexioned and medical under the influence at the house and after five hours of treatment she was able to get up. She then three but he struck her faint. The frightened woman and all the help. Unconscious. Mrs. Douglas for some time as she reported the her husband and notified. This was severe, ever, and though force were used, the assault was captured.
