CALGARY, FRIDAY, AUGUST 30, 1912

NATURAL GAS COMPANY WOULD SUPPLY CITY OF EDMONTON

President Eugene Coste Admits Association With Man Making Offer to Northern City

Ask Twenty Year Franchise on Similar Terms as Those in Effect in Calgary

Agree to Begin Drilling Three Wells Within Six Months—2,000 Feet Deep

That the Western Canada Natural Gas, Heat, Light and Power company has secured control of gas fields within piping distance of Edmonton, and is prepared to sink wells and supply that city with natural gas on the same terms with Calgary, is the deduction gained from replies to questions put yesterday by President Eugene Coste of the company. Mr. Coste was asked with reference to an article appearing in an Edmonton paper on the subject.

The newspaper story was to the effect that one A. McLeod appeared before the city council of Edmonton declaring that he had associated himself with Mr. Eugene Coste and John Bain, of the Calgary company.

They were proposed, he continues in the newspaper article, "to offer to supply natural gas at the boundaries of the city of Edmonton at 15 cents for commercial and 27 cents for domestic purposes or a flat rate of 31 cents per 1,000 feet. If the city would agree to purchase the gas when they had proved the field which they purport to have found."

Says Report is Correct.

"Yes, that's correct," said Mr. Coste yesterday when asked if the Edmonton report of his association with Mr. McLeod was true. "We have the gas fields, but are not, of course, prepared as yet to disclose their location.

HIGH WATER IN BOW RIVER BLAMED FOR DELAY ON SEWER

Seepage From the River Flows Steadily Into Ditch for the Big Trunk Drain

Three Pumps Working and Fourth Provided for, But Drains Taxed to Capacity

Engineer Says City's Failure to Make Monthly Payments Has Invalidated Penalty Clause

That unexpected high water in the Bow river, which is sweeping through into the light house excavation for the big trunk sewer on Eighth avenue east, is the cause of slow progress on the work is the explanation given by Contractor James, of the James-Mitchell Construction company, which has charge of the work.

Inspection of the work yesterday disclosed that the big steam shovel is going ahead steadily with the excavation, though the river water can be seen sweeping through the north side of the big ditch in a steady stream.

Bow River Unusually High.

According to City Engineer J. T. Child, the Bow river is four feet above its ordinary height at this time of the year.

Chief Cuddy Points Out That Royal Aides de Camp Will Attend to Such Details

All Constables Will be Asked to Do Will be to Keep Crowds Out of the Way

HERBERT BOOTH, youngest son of the late William Booth. The son broke away from the Salvation army some years ago because of a dispute with his father. He has since been working as a mission evangelist in London. He was not present at his father's bedside when the east came.

NEED 25,000 MEN TO GARNER CROP

Winnipeg, Aug. 29.—"We are still short of 25,000 harvesters to meet the requirements of the west," said J. Bruce Walker, Dominion commissioner of immigration this morning, "and I am extremely anxious that every effort should be made to obtain them."

"I concede that the harvesters' specials have been filled to overflowing," he continued, "with a splendid class of workers, but am afraid that our friends from Ontario have failed to appreciate the urgent needs of the western farmers for this year's crop."

The estimate of 50,000 is not the slightest exaggeration, not more than 20,000 from eastern Canada have reached Winnipeg to date.

"Deputy Minister Harcourt, of Edmonton, wires me today: 'There are not enough men for harvest in this province as yet. Advisable get railway companies run more special trains.'"

"Deputy Minister Mantle, of Saskatchewan, wires me: 'Saskatchewan has about one half the number of men required; strongly advise supplementary excursions.'"

"Western farmers are paying \$300 and \$350 per day, with board, for good experienced hands. This is fifty per cent increase over the wages of three years ago, while the harvesters' expenses have not increased."

Half of Brain is Taken From Man; He Lives

Old Soldier is Cured After One of the Most Remarkable Operations on Record

IWERSON BUILDS ARCH ALL HIS OWN FOR DUKE TO SEE

Right in Front of Platform, Too, and Cuts Off View of the Ordinary Dubs in Streets

Members of Reception Committee Are Afraid to Order It Down

Fear Political Influence of the Parks Superintendent Reputed to Control German Vote

ALTHOUGH members of the general reception committee for the Duke and Duchess of Connaught deprecate the action of Park Superintendent Richard Iwerison in constructing a floral arch directly in front of the platform at the City Hall where the address of welcome will be delivered, they are afraid to order it taken away for fear of the political influence wielded by Iwerison.

When Superintendent Iwerison proposed to build the arch at a recent meeting of the reception committee, a number of half-hearted objections were made, but apparently none of the members of the committee had nerve sufficient to say "No."

Jealous of Other Members.

It appears that the parks superintendent has had the favor of public attention that has come to Alderman R. S. Whaley as chairman of the reception committee, and Alderman Alex. McDougall and Alderman B. S. Ramesh, builders and decorators of the big Arch of Welcome on Centre street.

Edmonton's New Chief Has Excellent Record

Head of Montreal Detective for Twenty Years; Cuddy Has Good Word for Him

Edmonton could not have chosen a better man for Chief of police yesterday afternoon, in referring to the appointment of Chief Detective Silas H. Carpenter as Montreal, who has just been named chief of police at Edmonton.

NO RAISE IN THE PRICE OF MEALS AND ROOMS

Hotel and Restaurant Men Deny That They Will Tax Public Stamped Week

Each Big Hostelry Has List of Rooms in Private Houses to Care for Guests

Price of "Pork and" Will Remain the Same and No Stinting in the Gravy

THERE will neither be an increase in the price of hotel accommodation nor the cost of food in Calgary during Stampede week.

This statement was made emphatically yesterday by managers of large hotels and eating houses. Shown an interview in an Edmonton newspaper declaring that it was impossible to secure a room in any of the local hotels for less than \$4 per night, a general statement was issued that there had not been and would not be any rise in prices, nor would the cafes and restaurants be affected.

"We have a long list of private houses," said the chief clerk, "and when we are unable to accommodate these rooms they are referred to these places. The rates of the houses remain the same, and our list of private houses show an average price per night of \$10."

The same condition was reported at the King George, Alexandra, Yale, Empire, and others. In every case the hotels have been supplied with meetings by both rooming houses and private residences. In many cases persons who have never rented rooms before have taken the homes for the accommodation of those who attend the Stampede, with rates ranging all the way from 60 cents per night to \$100.

"Pork and Beans the Same."

Edmonton's New Chief Has Excellent Record

Head of Montreal Detective for Twenty Years; Cuddy Has Good Word for Him

ILLUMINATING OIL IN THE NORTH COUNTRY

(Special to The Albertan.)

Edmonton, Aug. 29.—The parties who have arrived this week from the Mackenzie River bring with them absolute evidence of existence of illuminating oil in the far north.

At a point in Mackenzie River, near its easterly bank, about twenty-five miles below Fort Norman, which is at the mouth of the Great Bear River, Joseph Hudson, former employee of the Hudson Bay company, and for the past two years a resident, secured a quantity of oil last winter, and samples have been brought out.

The oil is of reddish black color, runs as freely as engine oil, and burns freely with a strong petroleum smell.

When the river is low it can be seen rising to the top of the water in winter it comes up through the ice and can be easily scooped up at that time.

Large numbers of parties who are interested in boring operations, being conducted by five companies on the Athabasca are greatly encouraged by this evidence of existence of illuminating oil in the same valley and they are operating in, although the distance between is great.

TAX ON EVERY MOUTHFUL OF FOOD IN ITALY

Nothing Can be Sold Unless an Excise First is Paid; Cheap Living a Thing of Past

Rome, Aug. 28.—At one time Italy ranked as one of the cheapest countries of the world in which to live. It is no longer.

Current Nearly Splits His Head

PREMIER GIVES OUT STATEMENT; MAKES SOME DENIALS

Says Sir Wilfrid Has Not Declined to Meet Him in Conference With Ministers

For the Reason That He Has Not Been Asked and No Meeting Has Been Arranged

Expresses His Grateful Appreciation of Welcome Everywhere Accorded Him

LONDON, Aug. 26.—Premier Borden tonight handed the Canadian Associated Press the following official statement covering his visit:

"During our present visit, which is now drawing to a conclusion, matters of considerable importance have been under consideration and opportunities afforded the Canadian ministers of being present at meetings of the Imperial defence committee have been fruitful in valuable information upon matters considered and determined by that committee. His Majesty's ministers have received us most cordially, and we have had the advantage of discussing with mutual frankness questions of the greatest importance, not only to Canada, but to the whole empire."

"Among the most important objects of our visit was to discuss the matter of the Canadian contribution to the maintenance of the peace."

"Such a condition could exist for so long is a shame and a disgrace to the city. I understand that the minister blames this lack of water on the mistaken ideas of his predecessor in office, who failed to make proper provision for the outlet of the gutter drains into the sewer, so that they easily become clogged. That may be true, I don't know. But if so, the city could at least have a man down there immediately after a rain and clean out the outlet to the sewer, or maintain it, so that the lake would not stand on our main street for hours at a time. It simply illustrates the disorganization and lack of system in our city government."

"The matter of this standing water was called to the attention of English."

Fifty Tons of Water Per Acre Fell Yesterday

General Downpour Prevented Possibility of Snow and Consequent Damage

PEDESTRIANS WADE OR WALK AROUND LAKE ON MAIN STREET

John "Gravity" Watson Points Out Disgraceful Condition on Eighth Avenue

Water Stands for Hours After Every Heavy Rain and Laps Edges of Sidewalks

City Should at Least Hang Out Red Lantern of Warning, Says Former Alderman

CALLING attention to the fact that for several months past a miniature lake has gathered at the southwest corner of Ninth avenue and First street east, every time it rained, former Alderman John "Gravity" Watson last evening severely criticized the city administration for laxity in permitting such a state of affairs.

"Men and women were compelled to walk half a block around in order to cross the street in the daytime. At night, owing to the difficulty of noticing the water in the darkness, pedestrians have accidentally stepped in over their ankles. This is a state of affairs that has persisted for many months, every time there has been a heavy rain."

"I think the least the city engineer could do under the circumstances," Mr. Watson said last night, "would be to hang a red lantern over the place at night with a sign warning pedestrians to walk around out into the street and not venture to try the sidewalk."

"Disgrace to the City."

WHAT THE GREAT WEST DID YESTERDAY

In Calgary: Bank clearings for the fiscal week were \$5,150,000, an increase of \$1,700,000 over the corresponding week last year.

In Edmonton: The city council fixes the 1912 tax rate at twelve mills. This includes general, municipal, indebtedness, school rate, on an assessment of \$109,768,000.

In Regina: Regina is to have a big egg preserving factory, to use the Danish process. Eggs are guaranteed to keep fresh for two years.

Special Friday and Saturday 66 2/3 off regular values.
Extra Special—Cut Glass Baccarat Vases, two shapes, Value \$9.50, for **\$2.50**

ENGLISH GIRLS FACE PERILS IN TWICKED PARIS, WHERE THEY FLOCK FOR WORK

LONDON, Aug. 28.—No continental city contains more English speaking girls looking for occupations than does Paris. They are the wasps round a sugar bowl, only that wasps never swarms around an empty bowl, whereas the girls seeking situations as governesses, companions and the like swarm around the bowl of Paris, which is undoubtedly today lickered fairly clean, for such few good chances as from time to time are to be found are quickly seized by those whose parents live on the spot.
Why do English and American girls (not to speak of thousands of Russians, Germans, Swedes, Italians and Spaniards, as well as girls from the French provinces) fly to Paris, as if it were a land flowing with milk and honey—as if the very streets were paved with gold? If they think so, their illusion does not live many days after they have reached the gay city. Oh, that it were more generally known what hardships and what struggles have to be en-

dured to earn even a meagre living in this beautiful, cruel capital! Perhaps no other city wears a fairer mask to hide greater suffering and misery.
Why Girls Go to Paris
There are various reasons why girls come here. One is that on leaving school many are faced with the problem of having to gain their own livelihood, and they think that this can be easily done in Paris without any other qualification than speaking their own language, and speaking it often very indifferently. Some girls wish to acquire good French with the idea of teaching it in England, and the fact that the educational departments insist on a Parisian accent makes them go to the capital rather than the provinces.
Then a girl may go because perhaps life at home is deadly dull and some friend returning from Paris paints a vivid picture of its gaiety and pleasures and asks her why she does not go there and "have a good time," adding: "Oh, it is so easy to get pupils. Every one learns English."
Girls are not prepared for the surprises that await them in Paris, because those who come here seeking work often have to wait three months or more before anything turns up, so they should never arrive in this city unless

they have at least fifty pounds, that is, 1,250 francs, in hand. Moreover, it must be remembered that the month's notice given in England does not exist on this side of the channel, and a girl will find herself dismissed from her situation with eight days' notice, and sometimes an hour's, for the English "Miss" is seldom treated by her employer on a footing of equality, but is generally placed on a par with the servants.
From Bureau to Bureau
Now, what is an experienced girl, often not speaking the language, to do when she finds herself unwittingly and unwillingly in one of these difficult positions? Prudence often prevents her writing home and confessing her failure and asking for money. True, there are several excellent institutions for Anglo-American girls, but these homes are always overcrowded; and, again, if the girl is unknown to the authorities or has been brought up, as is unhappily now the mode, without religion, she finds it difficult to gain admission. Failing this, she may go to a boarding house (in Paris rather a risky proceeding) where, when her money is spent, she will find no indulgence, and the cherished dream of a visit to the City of Art and Pleasure more often than not turns out to be a terrible nightmare. Instead of visiting the museums and churches, and enjoying Parisian life with its music and gaiety, a girl finds herself condemned to tramp, weary and half-starved, from bureau to bureau in search of employment—any employment.
"We'll be pleased, Miss, to put your name down; but—" An expressive shrug of the shoulders tells her what she has already found out—that there are too many English-speaking girls in Paris. Sometimes it happens in the end that some sort of employment is found for her, but often it is with a family of which her parents would in no way approve. A case has been brought to my knowledge of a well-bred girl who found herself, in four such families in succession in less than six months. At last in despair she fled

to England, where she is now a nursery governess. Perhaps other less strait-minded would have deserted their principles and lived in a false position, knowing how difficult it is to earn a living otherwise. French people do not yet understand the emancipation of women. Their ideas upon the subject are very different from ours. Sensitive girls are out of place in Paris, and, unless protected, and well protected, should think twice of coming to this city to earn their bread.
New Company Formed.
The Canadian New Town Company, Limited, with a capital of \$50,000, has recently been granted a charter by the provincial government. The incorporators are R. C. Fogler, Frank Hagenbuch, Richard Darby, Peter Armbruster and Frank H. Mitchell, all of Calgary.
The object of the company is to purchase acreage in the new towns of the Canadian West, subdivide and sell at a uniform price of \$50 per lot, and on uniform terms of \$10 cash and \$10 per month. By following out this plan the company become the first purchasers of acreage adjoining the brand new towns, and are therefore able to sell lots to their clients at absolutely first prices, before profits have been taken off by one or more previous purchasers.
AEROPLANE DRIVES QUAIL TO SEEK OTHER COVER
Paris, Aug. 27.—The minister of agriculture has received, in connection with the opening of the shooting season, a report from a forester which throws a curious light on the instinct of quails and partridges. For several years there had been in the district of the minister's correspondent continual complaints about the increasing rarity of game. The forester instituted an inquiry, and established the fact that game decreased wherever aerodromes were established. This year, however, there is no ground for complaint. Partridges and quail are as plentiful as ever. The inference drawn by the forester is that the birds, when accustomed to aeroplanes, took them to be some strange winged beast of prey, and prudently decamped from their vicinity. Reassured now as to the harmlessness of these new demigods of the air, they have returned to their old haunts.
DARING FLIGHT OF AN ENGLISH AVIATOR—The accompanying picture shows F. K. McClean, the English aviator, in his remarkable flight down the River Thames in his hydro-aeroplane. The daring aviator was snapped by the photographer as he was passing through the Tower bridge.

FAIR PLAY FOR T

FAIR PLAY FOR THE CITY ENGINEER

The amount of venom which is being directed at the city engineer in this discussion of the proposed filtration plant is somewhat excessive. It is only fair to Mr. Chieftain that it should be generally recognized that the investigation committee which passed unfavorably upon the administration of affairs in his department did not for one moment question his qualifications as an engineer.

The bylaw providing money for the purchase of a filtration plant was defeated, not because it was generally believed that the engineer was incapable of selecting a plant suitable to the needs of the city, but because the chaotic state of affairs at the city hall destroyed the confidence of the ratepayers in the body responsible for the administration of the city's affairs.

FARMERS AND THE CAR SHORTAGE

The grain committee of the Board of Trade, in a report prepared after careful enquiry, express the belief that the possibilities of a grain blockade in this province have been reduced to a minimum, basing this opinion upon the earlier harvest, the provision by the railways of additional cars and the fact that empty elevators stand ready to receive the grain.

An annually repeated shortage of cars such as that which the West was afflicted last year cannot fail to do harm to the country. Apart altogether from the loss which it entails upon the farmer who is unable to get the product of his labor to market, it is unavoidable that it should suggest to the minds of prospective settlers a serious disadvantage attaching to the practice of agriculture in this country.

Some relief may be expected when the Panama Canal is open to traffic and a large proportion of grain from the prairie provinces may be shipped westward with profit. Meanwhile it would be well for those who use cars to remember that they have a responsibility only less than that of those who supply them. In the East an appeal is being made to private interests to arrange their shipments as far as possible so that the maximum of cars may be available, when they are most needed.

WHAT WAR WOULD MEAN

The doom of war will be sounded only when the common people have learned the folly of war. When they realize its consequence to themselves they will turn a deaf ear to the capitalists who profit by international conflicts and the soldier or sailor, who may be led by professional interest, to desire them.

Admitting to the full the claims of those who are most insistent upon the duty of Canada in the matter of Imperial defence, it is refreshing to find here and there, amid the prevailing exhibitions of hysterical militarism, some who refuse to be drawn into the general stampede. In Canada, Toronto Saturday Night is conspicuous among the journals

of this school and in Great Britain. The London Nation. Articles that are being published by the latter journal are of particular interest as setting forth in a most impressive manner considerations which might be expected to induce a more healthy state of public opinion.

"There is not the slightest danger of war-talking place," says The Nation in a recent issue, "if its consequences are clearly brought before the people, and if members of parliament, ministers of the crown, captains of industry, merchants and financiers can only be brought to see the ruin and confusion that would wait upon such madness. When we think of the despair with which a great strike is now contemplated by intelligent people, we can only suppose that the war talk of the naval and military experts which respectable newspapers admit to their columns is founded upon mere ignorance and want of thought."

Of a few of the actual consequences to England of a conflict with Germany, The Nation speaks as follows: "Take, first, finance. There would be an appalling slump on the stock exchange. A huge loan must be negotiated, and in a week for two consols must drop to 60. All our 'home railway stocks and all our industrial securities would fall as fast as the shares of Vickers, and Armstrongs, and all the other 'purveyors of war material rose. A host of 'merchant houses and financial houses would immediately be involved in disaster. It would be extraordinary if all our great banks survived the failure of many customers. The effect of the partial, and perhaps almost 'complete, cessation of a trade that must 'run well up above a hundred millions sterling annually can hardly be exaggerated. It would 'be felt in every corner of England and Scotland. Let us suppose that only a quarter 'of the population of the towns and villages 'on our east coast were thrown out of employment. That would surely be a very moderate estimate. But the disaster would 'not be there. A great part of the trade of Bradford and district is dependent upon the 'German market, and it is probably no exaggeration to say that most of the Yorkshire 'mills which did not actually stop altogether 'would be working half time so long as the 'war lasted."

EDITORIAL NOTES

Was the lady who waited on President Taft with a "sacred knife" a militant suffragette or a member of the Bull Moose party, or both?

The wife of a man who lives in Spokane tried to convert him to religion with a knife. He saw the point of her argument, but instead of going to church he went to the divorce court.

Regina is bragging about a new industry which holds all the rights in a secret process for keeping eggs fresh for two years. The people who supply us keep fresh eggs for two years and don't make any secret of it, because they can't after we've cracked the shell.

It is apparent that this is not the close season for hunting the bull moose in the United States and if Colonel Roosevelt is elected he may be expected to make a suitable amendment to the game laws.

Six men held as lunatics in the Port Arthur goal were discharged after working for a few weeks on the prison farm. Couldn't we induce some of those Eastern politicians to come west and work for a few weeks with the harvesters.

We would hate to think that Teddy Roosevelt's estimate of the number of liars in the United States is not much exaggerated.

Ideas of a Plain Man

By DR. FRANK CRANE

THE MYSTERY OF MAN AND WOMAN
Man love is pure emotion; in woman love is a higher order of mentality.

The instinct of the world is right in placing the blame for the failure of marriage usually upon the wife. For a man in love is a sort of wild idiot.

Love seems too strong a liquor for a man, and a little of it appears to be all he can stand. A woman, on the contrary, like some old toppers, grows shrewder, keener eyed and more headstrong as she grows older.

Hence in most couples who are very loving it is the wife who rules. As they become more and more cool they are equal.

Further, the more that love is physical, the more the man controls the woman, and she looks up to him; and the more spiritual and intellectual love becomes the more the woman is in the ascendency.

This is why the wife is so free and potent in America; woman is most idealized here.

Love to a man, is a mystery; he can only be happy in a blundering, wondering way; but a woman the more she loves the more she knows what she is about.

Sidewalk Sketches

By HOWARD L. RANN

APPENDICITIS is an expensive and prehensile ailment which seldom attacks anybody but members of the Upper Ten or people who are able to write a check in four figures.

It is caused by the verminiform appendix swallowing a grape seed the wrong way and refusing to let go. Whenever this happens to one of the common people it is called the stomach ache and the afflicted part is irrigated with alcoholic spirits, but the minute one of the Four Hundred feels a shooting pain in the vicinity of his watch pocket he is operating upon before he can see if there are any holes in his stockings.

The richer a man is the harder he has appendicitis. Some people are not satisfied with the first attack and insist upon having it three or four times, until they can tell by the feeling that they have not only lost the appendix, but the glossary and concordance as well.

Appendicitis is always preceded by a deep feeling of melancholy, as if the patient had eaten something which refused to sit down. When it first comes on, people begin to criticize the menu and change rapidly from one boarding house to another, in the hope of securing relief. Sometimes the disease is scared away by these tactics and the family surgeon becomes discouraged.

The appendix was discovered about twenty years ago by a near-sighted doctor who stumbled onto it while he was hunting for a set of instruments which he had mislaid. From that day to this the medical profession has done much of anything else except hunt the appendix to its lair and decapitate it at heavy expense to the abutting property owner.

The first few cases of appendicitis were considered dangerous, and the patient generally drew his will along with his check. Nowadays, however, a man can be operated upon without removing his necktie and get back before the first inn is over. Some people are lucky, and go through life never knowing whether appendicitis starts in the left side or the call of the right leg.

GREAT BRITAIN IS BEING DEPOPULATED

Great Alarm Over Rush of Young Men to Canada; Demands Serious Attention

During April, May and June Over 113,000 Left Albion, While 100,000 Were Born

London, Aug. 28.—After having nearly denuded England and Scotland in his search for settlers, J. Obad Smith, the assistant superintendent of emigration, has turned his attention to the principal ports and is touring through Wales and Monmouthshire and the western counties of England. Mr. Smith, who is accompanied by Mr. Pugh, the Canadian representative in Wales, intends during his tour to visit all the booking agents in the chief centres of population, and will shortly proceed to the Swansea district and West Wales.

Mr. L. G. Chiozza Money, the eminent Liberal statistician, expresses concern for the future of Great Britain in connection with this present rate which, he shows, greatly aggravates the woman problem here. The old method of computing the number of people who left this country was by deducting the number who arrived from the number who left. This, of course, could not be accepted under a system of permanent residence in operation by the British board of trade which began in April. Information as to the number who left and arrived to take up permanent residence is available.

The record shows that over 113,000 in excess of those arriving here left Great Britain during the months of April, May and June. The birth rate probably did not exceed 100,000. This means, according to Mr. Money, that the population of the United Kingdom fell considerably in the first three months for which we have definite statistics of emigration and immigration. The 112,000 persons who left us in April and June were chiefly young men. As a consequence, the average age of the population is being lowered, and the proportion of women in the population is increased. Already the number of females in our population exceeds the number of males by over 1,400,000, and the new emigration is rapidly increasing this excess.

As need hardly be pointed out, a stationary or declining population would have very serious effects on every political and social problem. Taxable capacity would fall, land values would fall, the cost of social reforms would increase, the relative position of the United Kingdom in the British Empire and in the world at large would decline, and the burden of maintaining defences would be more severely felt.

"The combination of a falling birth rate, emigration, therefore, needs our very serious attention." "What are we doing to reveal the virtues of the United Kingdom as a home-land, the best working-places to the young men of our time? What home opportunities are we opposing to the lure of the great dominions?"

LETTERS TO THE EDITOR

Editor, The Albertan: Dear Sir—Your editorial in this morning's paper on "The Public Health" will surely be read with interest by your citizens—anyone who has given even a little thought to the housefly as a spreader of disease, must be the fly's sworn enemy. "Self preservation is the first law of nature," and they are scarcely a human being who would not protect an innocent babe—and yet the careless and indifferent handling of milk, which is the most important food for children, allows it to become contaminated and impregnated with bacteria, which is dangerous and often fatal to the young life.

I submit that it is criminal not to adopt every possible means to prevent the milk supply from becoming contaminated. "How does your milkman get his milk?" is the question that appears each week in one of the Winnipeg papers, and every dealer in milk is rated according to the way he handles his produce—in many points for quality, and so on, and you can see at a glance who is supplying milk under the best conditions, and who is not. It becomes a matter of dollars and cents to the dealer; and that is the awakening.

Much has been written on typhoid, but for years a case of typhoid in the family could be correctly ascertained—there are a dozen cases among young babies of intestinal troubles which result fatally, and it is true that every life is worth so many thousands of dollars to the state, how much does it behoove every mother and every other individual, to contribute by all that they are able, such protection as will minimize as much as possible, the evil which results from an unsanitary and careless handling of the milk supply.

The Greatest Murderer. The fly is the greatest murderer of the age and his accomplice is the individual who allows stable manure to accumulate around his place. From personal observation and from seven years' study of the problem of insect pests and vermin, and their relationship to the cause and spread of disease, I assert that if all stable manure was properly covered and treated with lime, the greatest part of the fly problem would be solved.

Anyone who will take the trouble to uncover a layer of stable manure which has been standing for some time during the early part of the summer, will find hundreds of thousands of purple eggs of the housefly, just ready to hatch on the wall grown and ready to state in your editorial that the number of cases of typhoid would indicate unsanitary conditions somewhere within the city limits. There can be no doubt of this; the larger number of flies in any given area, the greater the filth somewhere close at hand; but so many people are obstinate that they do not believe in it. Let us state in your editorial that perhaps an overworked health department, without any attempt at personal co-operation.

Would you lessen the menace of the fly? Let twenty-five of your public spirited citizens, who for public seal and not for gain, will form themselves into a citizens' committee and allow themselves each to a district, so that the entire city will be covered, let them report to the health department any condition that may be detrimental to

HUDSONS BAY COMPANY

Half Price Sale of Women's Kid Gloves

THIS remarkable value is due to a special purchase, part of which comprises this offer. It is by far the best bargain in Kid Gloves that we have offered for some time and it will certainly pay you to take advantage of it. Misses' and Girls' One Piece Sailor Dresses

New Shipment from New York

STYLES may come and styles may go, but the strictly sailor model is always a great favorite with the girls and misses. This season it promises to be even more popular than ever and for this reason we are showing a much wider assortment and in the one-piece style.

These dresses are direct importations from New York and feature good materials, fine tailoring, and are exceptional value at the price. We are showing them in an excellent quality of all wool navy and black serge, with rows of red, black, or black and red silk trimmings on sailor collar, belt, and cuffs. Blouse fastens in front with red or black silk lacing or eyelets, also same on side pleats of skirts. Sizes 13 to 18 years. Special value at \$10

Cut Glass Bowls Regular \$5.00 Value for \$3.50

WE HAVE been making a special value of these bowls at \$4.50, although their real value is \$5.00. Today and tomorrow, however, we will offer a limited quantity at the extra special price of \$3.50.

These bowls are made of pure, bright crystal blanks, and the cuttings are rich and deep, which gives the bowl a brilliant and sparkling effect. Spinning star design; size 7 inches diameter, 3 1-2 inches high. Regular \$5.00 value. Today and Saturday \$3.50

Misses' and Women's Fall Suits

Special at \$25.00

ONE of our big leaders in Misses' and Women's Suits for fall is this line at \$25.00. They are made of an excellent quality navy men's wear serge and the workmanship is of the highest order. The coat is lined with heavy quality Belding's serge, is strictly tailored throughout and finished with stitched or buff edges. Some have white heading on collar and lapels to imitate the popular vest effect; sizes, misses' 14, 16 and 18; women's 34 to 44.

Special Value \$25.00

Materials for Stampede Decorations

ACCORDING to the best authorities the publicity gained through the Stampede will be of incalculable benefit to Calgary and its inhabitants. The committee in charge have spared no effort to make it a great success, but in spite of that they need your co-operation. All they ask is that you decorate your home or place of business so that the city will be in gala attire to receive the royal visitors as well as the thousands of others who will grace the event with their presence. Do your part. We have the materials you require and at the lowest prices.

Stampede Linen Doylies and Centre Pieces at Half Price

NO BETTER compliment could be paid to the values offered in this sale than the number that were sold the last week-end. Half of the original quantity has already been disposed of and only doilies and centrepieces now remain. These will be placed on sale this week-end when we expect to clear the balance. These values are the result of a special purchase, otherwise such articles would sell at double the price. They are made of a fine quality white linen and stamped with a wide assortment of floral, conventional and art designs. Today and tomorrow, special, each 5c, 10c, 20c and 25c

Demonstration of "New" Shirt, Blouse, Collar and Cuff Buttons

THESE BUTTONS fasten shirts, blouses, cuffs and collars, in a new and better way. There is no breaking buttonholes, soiling your linen, and losing your temper with these buttons. Instead, they work easily and quickly and save you time, trouble and expense. Hand some premium given with every set. Dry Goods Main Floor.

health, and above all during the months of June, July, and August, watch and condemn without fear or favor, any breeding places for flies. Let your health department furnish the committee with such educational matter as may be obtained from time to time. A clean bill of health means nothing in Calgary in the days that are to come. The writer is only a visitor in your city for a day or two, and has no desire to appear in any complaining attitude but is actuated solely by a

desire to see that common enemy of citizens are interested in acquiring further information concerning flies. I should be glad to send such information as I have without any charge. If they will write me to Toronto, there is no reason why your city should not be practically free from flies in a reasonable time, if each would do his part in helping to exterminate the pest. "It might truly be said of the deadly insect: "Their shape would make them—Had they bulk and size—More hideous foes." Yours very truly, H. CHADWICK, Calgary, Aug. 29, 1912.

Mainly About Women

BY ELIZABETH BAILEY TELEPHONE 2380

Why try to fit that beautiful suit you saw in our department over last year's corset model? Won't you take a moment to look at the autumn styles of Warner's Rust-Proof Corsets? They are the authoritative corset styles for this season. There is no part of the corsetted figure that is not ideally comfortable and beautifully shaped in these models.

See our Corsetiere, she will know your model, the instant she sizes your figure.

B. C. Binning and Co.
112 8th Ave. E.

Mrs. George May, who has been ill, is improving.

Mrs. J. G. Morrison left last night for Edmonton.

Mrs. A. B. Wark left last night on an extended trip east.

Mrs. J. Faust of Edmonton is visiting friends in the city.

Mrs. Dr. Sanderson of Woodstock is visiting Mrs. Dr. Campbell.

Mr. G. Wintermute of Medicine Hat was in the city yesterday.

E. M. Armand of Winnipeg is a guest at the Alexandra Hotel.

Miss Mary De Lapore of Winnipeg is the guest of Mrs. Dr. Slaley.

The misses F. L. Moran of Winnipeg are guests at the Alexandra Hotel.

Mr. and Mrs. A. R. Kennedy of Pittsburg spent a few days in the city.

Miss Elsie McDougall of Montreal, is visiting Mrs. E. A. Lilly, 14th avenue west.

Miss Harriet Robinson has returned to the city after a holiday spent in the mountains.

Miss E. J. Beattie has returned to the city after spending some time in Toronto and New York.

Mrs. T. S. J. Skinner and the Misses Skinner have returned from a two months' visit, at the coast cities.

Mrs. F. J. Adair of Winnipeg, who has been in the city for a few days, left for her home last night.

Mrs. Kate Simpson Hayes of the C. P. R. offices, London, England, was a guest in the city on Wednesday.

Mrs. Alwyn Danks and her guest, Miss M. Hoese, have returned from a several days' trip to Banff and Laggan.

Mrs. P. Collins and son, of 302 Fifth avenue west, who have been visiting in the East, returned to the city last night.

Miss Maude Gardiner leaves tonight for Vancouver on a month's holiday. She will visit Seattle and Portland before returning home.

Mrs. Rhonda Jamieson of Lethbridge spent yesterday in the city, en route to Banff. While here she was the guest of Mrs. H. S. MacLeod.

Dr. J. McGregor of Waterford, Ont., and D. T. McGregor of Hamilton are the guests of Mr. and Mrs. W. W. McGregor, Eighteenth avenue west.

An Afternoon Tea.
Mrs. George Lane will entertain a number of her friends at the tea hour this afternoon.

A Post-Nuptial Reception.
Mrs. Britton, 1512 Twenty-sixth avenue west, held her post-nuptial reception yesterday afternoon, and a number of her friends were present. Orange flowers and sweet peas were the chosen floral decorations.

Mrs. J. Sadler, a bride of the season, and Mrs. Searson, mother of the bride, presided at the table. The Misses Searson, the three sisters of the bride, assisted in the tea room.

Epworth League Social.
The members of the Epworth League of the Central Methodist church met in their church parlors last night and had a very enjoyable supper. Other guests included Mrs. Lane, pianist; and Mr. Morgan, violinist.

Mrs. Dr. Hill Entertains.
Mrs. Dr. Hill was the hostess at one of the largest social events of the summer season, when she entertained a number of her friends at a tea on Wednesday afternoon.

Sweet peas were used profusely in the drawing room, while in the tea room pink roses, carnations, pink sweet peas and pink satin ribbon were artistically combined. The hostess was becomingly gowned in a creation of pale satin, with tulle of dew-drop chiffon and finished with black velvet ribbon.

Those who assisted her were Mrs. Hughes, Mrs. Thurston, Mr. Hampton, Mr. Morgan, Miss Lippett, Miss Andrews, Miss Irene Turinette.

A "600" Party.
Complimentary to Mrs. Genevieve Lippett Skinner, Miss Mabel Childs entertained yesterday afternoon at an informal "600" party at her new home on Thirteenth avenue west.

The spacious room were brightened by quantities of nasturtiums, poppies and sweet peas.

Miss Childs wore an elegant gown of golden brown velvet, with pale green piping, while Mrs. Skinner was smartly dressed in black, with point lace collar and a large black picture hat.

The guests, who were mostly young matrons, included a number of members of the American Women's club and others.

Some of them were: Mrs. Newhall, Mrs. Heigh, Mrs. Parlett, Mrs. Anderson, Mrs. Willet, Mrs. Pinkie, Mrs. Brookbank, Mrs. Cumming, Mrs. J. K. Cumming, Mrs. Sanderson, Mrs. Dr. Campbell, Mrs. Lippett, Miss Glass, Mrs. Gundy, Mrs. Rodgers and others.

Miss F. Andrews assisted in serving.

BIRTH NOTICE.
On Thursday afternoon, at the Scottish Nursing Home, to Mr. and Mrs. E. A. Ottaway, a BOY. Father and son are both doctors, and Mr. Ottaway is a member of the Albertan staff.

Beautiful Wedding Gifts.
In addition to the many other beautiful gifts received by the Marquise and Marchioness of Anglessey, who were married on the third of August, were a pair of diamonds and sapphires cut links, and the initials G. M. in diamonds, from the King and Queen, while Queen Alexandra sent a queen

THREE PRETTY BLOUSES.—(1) Of white soft satin, outlined with black velvet ribbon. (2) Of lavender tafetas or French linen and macramé lace. (3) Of white or pale blue or epe de chine, trimmed with lace and white satin chemisette of tucks' net.

WHEELS OF JUSTICE IN CALGARY MOVE SLOWLY

Rev. A. R. Schrag Condemns the Treatment of the Inebriate

Drunkards Should be Sent to Hospitals and Asylums Rather Than Jails

Use of Intoxicants is Utterly Foolish; Are Not of Much Medicinal Advantage

"Civic Problems and Temperance Work in Calgary" was the topic of a stirring address delivered by Rev. A. R. Schrag at the meeting of the West End W. C. T. U. held in Wesley Methodist church yesterday afternoon.

How slow and measured are the wheels of justice in this city" said Mr. Schrag, "and the reason for the slowness is in the legislation. How often the crime of drunkenness is considered bad manners rather than bad morals!"

"All problems are divided into two classes, legislative and administrative, and the purpose of legislation is to decide, in Carlisle's words, 'The Everlasting ought'."

In speaking of temperance, Rev. Mr. Schrag said that no one had a right to entice or give a drink which was intoxicating as the results might be disastrous, and sin would touch at the door of the giver or the taster.

"How utterly foolish," said the speaker, "are the use of intoxicants, even the doctors say it isn't of much medicinal benefit."

"Our problem is, how best to live and help life. Better to redeem the drunkard than to punish him, and I hope the time will soon come when asylums and hospitals will be the places for inebriates rather than the jails."

He referred to the Alberta Children's Protective Act, which is considered from infancy to seventeen years of age, the purpose being to save the boys and protect the girls.

The meeting was one of the most interesting of the season. Miss I. N. Campbell, the president, was in the chair, and Mrs. McCallum presided at the organ.

Several new members joined. Mrs. Adams presented a dainty little bowl of white ribbon, the symbol of the organization, to each member. A pleasant feature of the evening was the presence of two white ribboners from Sackville, N. B. They told about the W. C. T. U. work in their province. Mrs. Hugh Fraser led the opening devotional services. Mrs. McElroy sang a solo entitled, "The White Ribbon." After the meeting closed with a fitting benediction.

The executive will meet at the home of the treasurer, Mrs. Henderson, 1037 Eleventh avenue west, September 12th at 3 p. m., and the next public meeting of the union will be held September 26th, the last Thursday of September. The subject will be "Scientific Temperance in the Public Schools." Educationists are urged to attend.

First Aid to Injured

What a pity it is that the same great philanthropist with a tender spot in his heart for lovers does not establish "courting parks"—yes, just spooning parks for occupancy lovers and their fasses. Of course, no one wishes to deprive the hard working mother of her occupation, but a little love here and there on a hot summer night in the cool park. She could, however, get just as much air on her own doorstep at least one evening a week and there would be no one to hear the undertone grumbling between herself and her indifferent spouse.

Crowds of young men who could get just as much air on a street corner fill their benches to the despatch of lovers who walk on and on until they are footsore and weary trying to find a sheltered nook and bench just big enough for two. The young girl who is a bread winner and whose doorstep is crowded on a summer night with other tenants of the building must look elsewhere for a trysting place, if she has a nice young man who has begun to call steadily upon her.

The courting of a young couple does not stand upon conventionalities. If he knows that he will be overlate for his date, he is sure to go to the park and that he will find her there. Neither of them will tell the exact location to which the other goes, for there are no reserved seats for lovers.

Even a lover's lane would be appreciated. How can we expect marriages to take place when the summer days are over and when a lover could find no possible place to declare his love without being overheard?

He's Too Easy Going

"Dear Miss Luby: I am 43, my '44' books have been in the store for years; for about fourteen years have been reasonably happy; have four children, two boys and two girls—youthful, I still have a strong love for my wife dearly and do not love or care for any other woman. My wife now seems to be miserable when I am at home. She is nearly all the time complaining, finds fault with everything I do, never gives me a pleasant word or smile, does not care to go out with me, but I have never been able to get anything ahead. She also grumbles because I do not make money enough to get ahead. Both of us claim to be Christians and belong to different churches. I do not object to her having the children go to her church and Sunday school in preference to mine.

It seems to me that you should assert yourself a bit more than you are doing. Tell your wife that you don't want her to go about with this man and see that he does not live at your house any longer. I think the trouble is that you are too easy going in both your business and home life. Try to cultivate more strength of character."

WOMEN BUILT THE SIDEWALKS

Pittsburg, Kan., Aug. 28.—For thirty years the women of Opolis have been wading through the mud or the wet weeds. They have sent their children to school and to church through the slush. And all the while they have been urging the "men folks" to build sidewalks at least one sidewalk through the main part of the town. A few months ago they gave up in despair and set themselves to the task. Last night the first organization of the women of the churches formed to build a sidewalk held a social. This morning \$60 was added to the treasury. The women plan to extend the walk to school and to church through the town. "The men of Opolis become a burden on the earth," one of the women leaders said. "So we are showing them what we can do and what they could have and should have done long ago. Oh, no, we won't charge the town for the toll for walking. But we'll make them keep it clean, though."

Some people think they dislike grape jelly, when, as a matter of fact, they but dislike the muddy, undiluted sort. There is a disadvantage in using too much water for it has to be boiled out and long boiling is done after the sugar is added.

Perhaps it is safest to boil the juice twenty minutes then add the sugar, and boil just enough to set it as it were. This may not be more than five minutes.

It is not necessary to let grape juice drip overnight from a bag than it is to use only the pure juice. It is better to utilize this by-product, by making something useful to those who like to do a thing and get through with it in a matter of a few hours, than to let it stand for a week.

The pulp that remains may be put through the strainer without the cloth, and mixed with an equal amount of sugar for a grape marmalade, which must be stirred in cooking, or it will burn, but utilizing this by-product—the marmalade may be used at once or canned—there is no waste.

Great juice without sweetening is, but the intermediate stage in jelly making and, if put up with care, not only good, but it is many people find this true), but it may then be used any time for jelly.

Grape Juice—Remove the grapes—purple ones, the Concord—from the stems; wash thoroughly, cover with water, cook until the grapes break and the pulp is cooked, strain, beat, and while boiling hot pour into sterilized bottles and seal. If the bottles or jars are thoroughly sterilized, the juice will keep for weeks and months. When ready to use, pour it out carefully or siphon it off, so as to avoid any sediment there may be. Any kind of fruit, no sugar needed—may be preserved in grape juice. This is a particularly good way to put up sweet plums, apples, and pears.

The use of grape juice increases every year. It is a splendid food, and pleasant adaptations of it for diabetes are being worked out every day. A great deal has been done since the publication of farmer's bulletin No. 118, on "Home Manufacture and Use of Unfermented Grape Juice," but what is valuable for the discussion of the causes of fermentation and methods of preservation, as well as for other things.

Its manufacture in large quantities is described with appliances, its composition, its quality, its food value and its use. There are also recipes for grape nectar, an invalid grape punch, grape punch, grape punch, grape tea cream, syllabub and Botemann cream.

U. S. Marines for Nicaragua, San Juan Del Sur, Nicaragua, Aug. 29.—The United States cruiser Orleans arrived here today with a detachment of marines on board who are to be used for the protection of American life and property in Nicaragua. Everything is quiet in this port.

Coming to the Stampede.

Lacombe, Aug. 29.—The Stampede has aroused a great deal of interest in Lacombe, and the largest crowd that attended a show will leave here for Calgary and the Stampede, beginning Saturday. The crowd in the departure.

mand for transportation to the Stampede from this district that the C. P. R. will probably arrange to run special trains during the week to accommodate the crowds. Many old timers will attend from Lacombe district, many of the cattle men now being located here.

FIRST AID TO INJURED HEARTS

The Spraying Place

What a pity it is that the same great philanthropist with a tender spot in his heart for lovers does not establish "courting parks"—yes, just spooning parks for occupancy lovers and their fasses. Of course, no one wishes to deprive the hard working mother of her occupation, but a little love here and there on a hot summer night in the cool park. She could, however, get just as much air on her own doorstep at least one evening a week and there would be no one to hear the undertone grumbling between herself and her indifferent spouse.

Crowds of young men who could get just as much air on a street corner fill their benches to the despatch of lovers who walk on and on until they are footsore and weary trying to find a sheltered nook and bench just big enough for two. The young girl who is a bread winner and whose doorstep is crowded on a summer night with other tenants of the building must look elsewhere for a trysting place, if she has a nice young man who has begun to call steadily upon her.

The courting of a young couple does not stand upon conventionalities. If he knows that he will be overlate for his date, he is sure to go to the park and that he will find her there. Neither of them will tell the exact location to which the other goes, for there are no reserved seats for lovers.

Even a lover's lane would be appreciated. How can we expect marriages to take place when the summer days are over and when a lover could find no possible place to declare his love without being overheard?

He's Too Easy Going

"Dear Miss Luby: I am 43, my '44' books have been in the store for years; for about fourteen years have been reasonably happy; have four children, two boys and two girls—youthful, I still have a strong love for my wife dearly and do not love or care for any other woman. My wife now seems to be miserable when I am at home. She is nearly all the time complaining, finds fault with everything I do, never gives me a pleasant word or smile, does not care to go out with me, but I have never been able to get anything ahead. She also grumbles because I do not make money enough to get ahead. Both of us claim to be Christians and belong to different churches. I do not object to her having the children go to her church and Sunday school in preference to mine.

It seems to me that you should assert yourself a bit more than you are doing. Tell your wife that you don't want her to go about with this man and see that he does not live at your house any longer. I think the trouble is that you are too easy going in both your business and home life. Try to cultivate more strength of character."

THE WOTE OF WOMAN MAY DECIDE PRESIDENCY

Three Great Parties Straining Every Effort to Win Feminine Ballots

Mrs. Harriman, Miss Boswell and Miss Carpenter Leading the Skirted Forces

WASHINGTON, D. C., Aug. 28.—Woman, lovely woman, is fast gaining equal political recognition with "mere man." The coming campaign will witness the unprecedented spectacle of the three leading presidential candidates making formal earnest appeals for female votes. While the Progressive party is the only one that has incorporated a plank for woman suffrage in its platform, both the Republican and Democratic leaders are establishing national organizations with women at their head for the purpose of attracting the female vote in the six states that have already granted equal suffrage, and for the moral effect it may have on the male voters in other states where this question has become a burning issue.

The voter will not only be treated to the unusual spectacle of an ex-president trying for a third term at the head of a new party, but will have the pleasure of seeing and hearing female spellbinders who will stump the country in support of their favorite candidates.

Colorado, California, Idaho, Utah, Washington and Wyoming are the six states in the Union that already have given women the right to vote, and it is estimated that there are 800,000 female voters in these states. So formidable a number has to be reckoned with, even by a presidential candidate.

When Colonel Roosevelt swept the states of California, in the presidential primaries last spring, the female vote, it was claimed, was responsible for his enormous majority. The states above mentioned have already granted equal suffrage, and for the moral effect it may have on the male voters in other states where this question has become a burning issue.

SOUTH AFRICAN TAXPAYERS' FACE PROBLEM

Public Expenditures Mounting Up and Defence Scheme Looming Ahead

Falling Drastic Retrenchment Country Will Face Deficit of \$8,750,000

Cape Town, Aug. 29.—With public expenditures mounting up and additional commitments, such as the defence scheme, looming ahead, the outlook for the taxpayers of the Union of South Africa is not of a very cheerful character. It is predicted that, falling drastic retrenchment, the country will next year be faced, on the basis of the existing revenue, with a deficit of something like \$8,750,000. Reviewing the situation, the Cape Times remarks that the outstanding fact which country would do well to bear in mind and to impress upon its representatives in the various constituencies is that the present scale of expenditures of the Union is very largely in excess of the capacity of the revenue from existing sources to meet it. Last year the expenditure incurred was \$42,000,000. During the current year an outlay exceeding this amount by nearly \$2,500,000 is estimated.

Situation Critical
"No doubt General Smuts will follow the excellent example of his predecessor, who issued last year at the close of the session a circular enjoining the strictest economy in all departments, with results which were satisfactory. But the country must be under no illusions. The situation is: The third year of the Union's public expenditures will have to be met, and the government will have to face a deficit of \$8,750,000. A deficit will only be averted by drawing on the railway funds and by absorbing the surplus of a former year. Next year neither of these resources will be available. If we assume that ordinary revenue and ordinary expenditures are on the same scale during next year, the country will have to face a deficit of \$8,750,000 in order to make both ends meet. The alternative is heavy retrenchment in every direction."

Defence Scheme
"The capacity of the country to bear increased taxation need not, in present circumstances, be argued, but before taxation is imposed the government must make clear the case which would justify an increased burden on the taxpayer, and must prove that the public expenditures are the lowest scale compatible with efficiency. Next year the country will be called upon to face a heavily increased burden in respect of the defence scheme, which will begin to operate with full effect on January 1, and this additional expenditure, the amount of which has never yet been stated, but which will certainly involve an additional annual outlay of from \$2,000,000 to \$2,500,000, must be added to the prospective deficit of \$8,750,000, which we have already referred. Next year, in fact, on the basis of present expenditure, and with the additional cost of defence, there will be a deficit of getting on to \$10,000,000 between revenue and expenditure—and on the wrong side. We state the facts in the belief that pressure of public opinion during the recess may bring the government to realize, that its present methods of happy-go-lucky finance cannot continue if the credit of the Union is to be maintained."

Botha Makes Reply
In his recent speech at Riverdale, General Botha took occasion to reply to criticisms passed in the house of commons on the Government's financial policy on the Union government's taxation proposals. "I have read the debate," he said, "with great regret, and I think that every friend of the British empire will share the regret. It was said that we desire to prevent capital from coming into South Africa, and I must say that I have never heard any more ridiculous talk. Are we the population of South Africa, such fools that we should wish to cut our own throats, and have we not shown to our parliament will never consent to any legislation introduced to prevent the influx of capital. On the contrary, we shall do everything to encourage capital coming into the country, because we feel that there is room for ample development in South Africa, which cannot be achieved if our capital is taken out of the country. We shall do our utmost to see industries started and have the country developed in every possible direction. "Would the fact of our making steps to impose a reasonable share of taxation on the people who make a lot of money out of South Africa have the effect of stopping the influx of capital? Surely not! But I wish to say this: If in any other part of the world people think that we by our legislation are treating them unjustly, I can give them the assurance that our government has a sympathetic ear for their grievances if they will bring those grievances before us in the right place."

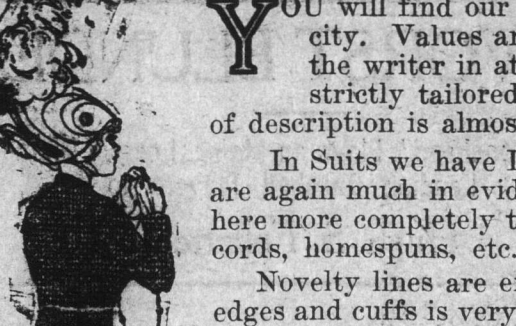

DUTCH GOVERNMENT SEEKS NEW SHIPPING LAW

London, Aug. 29.—On what may be described as good authority it is stated that the Dutch government has decided to convene at an early date a conference of the Powers in order to plan and enforce a general shipping law, i.e. uniform measure and regulations for ensuring the safety of ships, crews, passengers, and cargoes. The idea has arisen from the wreck of the Titanic and other disasters, showing that if similar precautions and similar means of rescue were adopted all the world over, such calamities would be considerably reduced in number and consequences, or perhaps prevented altogether. The Hague being the centre of the unification of peace arbitration, and other international law-making, it has appeared to the Dutch government that no place is so well equipped for the elaboration of maritime rules of the kind.

Shortage of Army Horses

The present training of the Territorial forces has brought to light in no uncertain fashion the serious shortage in army horses. Nine field batteries now on Salisbury Plain cannot obtain the requisite number of animals, and one London brigade have had to postpone their training for a fortnight as the horses were so scarce. The shortage has overcome the difficulty by borrowing from one another, and a major in command of a Nottingham regiment has, at his own expense, equipped his men with a sufficient number of horses.

Original Fall Styles

YOU will find our showing of Coats and Suits the most authoritative style display in the city. Values are uniformly of the highest class. Can you appreciate the difficulty of the writer in attempting to describe hundreds of new Fall Suits and Coats of both the strictly tailored and fancy tailored types. You must see them for yourself, the task of description is almost impossible.

In Suits we have Dame Fashion's latest decree, of course the strictly plain tailored models are again much in evidence, also the more elaborate models in novelty fabrics are represented here more completely than ever before, many new weaves are here in diagonals, worsteds, cords, homespins, etc. Novelty lines are extensively employed in fancy tailored suits, the cutaway with braid edges and cuffs is very noticeably smart. The coats of which we received a large shipment (from a leading New York manufacturer) yesterday are beautiful specimens of the Tailor craft, the fabrics are more beautiful than ever, lovely double faced Chinchillas, heavy Scotch and English mixtures and tweeds, there are some very beautiful color combinations, such as King's blue and Old Gold, Smoke Grey and Wine shade, etc.

To fully appreciate our elegant showing, you should come and look and try on for yourself.

JABOTS AND COLLARS for 25c Each

Mail Train Was Robbed by Raving Maniac
Remarkable Revelation Follows Investigation into Extraordinary Crime

Wanted to Buy Menagerie and Become Famous as Wild Animal Trainer

Paris, Aug. 27.—Eight months of inquiry into the sensational robbery of the Indian mail train between Paris and Dijon, on the night of Nov. 16 last, has proved that the extraordinary feat, which it was supposed, only a thoroughly organized band could accomplish, was committed by a single man, single-handed. The express, which left the Gare de Lyon in Paris at 8:35 p.m., consisted almost exclusively of mail vans. Three of them were broken into while the train was going at a speed of sixty or eighty miles an hour. About 100 mail bags were ripped open, bonds and scrip of various descriptions were stolen, and a certain amount of cash disappeared. Suspicion fell on a former postal employee named Bazencourt, who was traced to Belgium, and who was arrested as he was trying to negotiate some of the scrip, on which he had made clumsy erasures and changes. He was extradited, and in the course of the examination it was learned that he had been discharged by the postal authorities on account of his eccentricities. There was a suspicion that he was not entirely sane.

DUFFERIN MEMORIAL GATE—A stinging monument at the entrance of the Canadian National Exhibition, Toronto, to Lord Dufferin, former Governor-General of Canada, and patron of the exhibition.

WHERE FOOT OF WHITE MAN NE'ER TROD BEFORE
Word Received From Bridgeman, Explorer of Interior of Labrador

Land of Surpassing Beauty; Delighted With Saint Augustine River

New York, Aug. 29.—Herbert L. Bridgeman, of Brooklyn, announced today that he had received a telegram from Henry G. Bryant, President of the Philadelphia Geographical Society, giving the first news of Mr. Bryant's exploring trip in Labrador.

Mr. Bryant left this city on June 22 last, and St. Augustine, Labrador, on July 12, for a reconnaissance in a part of Labrador never before travelled by a white man. He returned to St. Augustine on Saturday and the following telegram was received today by Mr. Bridgeman:

"Arrived today. The expedition was fairly successful. As the first to explore and map the St. Augustine river from its mouth to its source, a distance of 141 miles. "We travelled a region fairly timbered, but unsuited to agriculture. "The scenery of the central plateau of Labrador is of surpassing beauty. Our provisions were ample. The Indians deserted after four days, but we successfully made two-thirds of the distance to Hamilton, when we were obliged to return, owing to the serious condition of one of the Newfoundland canoe men, who had injured a leg in running the rapids. "The topographical results are important and will essentially change the maps of the river. This and the geological specimens and photographs pay me for the disappointment that I was unable to explore the northeastern part of the Labrador peninsula. "Russell Porter, of Fort Hope, was the topographer of Mr. Bryant's expedition, which included canoe-men from Newfoundland and Indian guides."

Discouraged Prospector Succeeded
Cobalt, Ont., Aug. 29.—Apparently discouraged by failure to secure a likely looking claim in the late Gillies rush, Harry Millions, of West Brooks, Missis, a well-known prospector, committed suicide in Bass Lake, four miles below here. His body was found floating in the water this morning. He was last seen on the morning of the 29th, and a new claim in the Gillies rush recorded on his bones.

C. P. R. MAKE MANY IMPROVEMENTS

Lacombe, Aug. 29.—The C. P. R. has a large gang of men working in Lacombe at the present time, carrying out the programme of improvements decided on by the company this spring. The freight sheds are now being erected on Minty street, and will be ready for occupancy in a few days. The great amount of business transacted at Lacombe has made the necessity of more trackage apparent for years, and at long last the company has got to work on the extensions. No less than five tracks will be put down on the town side of the main line. Four of these will be for freight, while the other will be used by the passenger train, as soon as the track is completed, coming in on the north side of the present passenger platform. The platform at the depot will be extended a couple of hundred feet east from the branch. The new switches will make it much easier for the transfer companies and business men generally. Instead of having to cross the main line and wind in and out among the tracks to unload their cars, there will be a special siding for Lacombe freight on the town side. The C. P. R. in general with every one else, knows that Lacombe is going to start growing soon, and is preparing for the rush.

"LEFTY LOUIS" REPORTED IN EDMONTON

Al Greenwood, Welterweight Boxer, Says Man Was in Attendance at Fair

Wanted in New York in Connection With Murder of Gambler Rosenthal

EDMONTON, August 29.—"Lefty Louis," the notorious New York gangster and gun fighter, who is wanted by the police of Gotham in connection with the famous Rosenthal murder, was in Edmonton at the fair.

The starting information was learned by a Capital reporter from Al Greenwood, a well known New York welterweight fighter, who arrived in Edmonton direct from New York.

According to Greenwood, who is well acquainted with the Great White Way, Lefty Louis was at the fair grounds every day while the fair was on. Greenwood does not remember seeing Lefty Louis at the fair, but he is sure that he was there.

Greenwood is right there can be little doubt, as according to telegraphic dispatch a short time ago "Lefty Louis" had made his way across the Canadian line and was supposed by detectives looking for him to have crossed the Great Lakes.

Was Working Fair The hunted man probably landed either in Duluth, Superior, Port Arthur or Fort William, and from there doubtless made the small fair at Sault Ste. Marie, Michigan, and then to the fair at Sault Ste. Marie, Michigan, and then to the fair at Sault Ste. Marie, Michigan.

Paris, Aug. 28.—A treatise by Prof. G. de la Botz, of the recently inaugurated Institute of Oceanography, giving the result of exhaustive researches into and propounding the ultimate destruction of the earth, has attracted widespread attention, especially as the authority of the professor is undisputed in his particular field.

The "Life and Death of the Globe" treats not of the dream of a melacholism, but of a problem, the solution of which is the result of deductions in the sphere of physics.

The first agent of the earth's destruction is the sun, and in this view the sun is not a source of heat, but a source of destruction. The sun's rays are not a source of heat, but a source of destruction.

Geologists calculate that the amount of solid matter worn away annually from the earth and carried down towards the sea level represents about fifteen cubic miles of earth. This is worked mathematically it will require 4,000,000 years for the earth to be worn below the level of the ocean.

IRISH HOME RULE

Mr. Redmond Declared All Irishmen Would Return Home on Passage of Bill

Places Little Credence in Possibility That Ulster Would Resort to Arms

Dublin, Aug. 28.—A demonstration in favor of Home Rule, attended by about 7,000 people, was held this week at Saltburn. Mr. Herbert Samuel and Mr. Redmond were the principal speakers.

Mr. Redmond, after being accorded an enthusiastic welcome, urged that public opinion had accepted as its settled conviction the justice and necessity of Home Rule for Ireland.

Opponents in Minority. But one thing remained unchanged—namely, the demand of the great mass of the people for Home Rule. Only one reason was against it, and that was that Home Rule must not be enacted because a section of Ulster was opposed to it, and threatened violence and revolution if the government attempted to carry out the will of the majority.

As for the talk of revolution, history would repeat itself. There was nothing in the shape of violent uprisings and threats of revolution which they heard today which English people did not hear at various periods of the past 100 years.

Boys Are Opposed. The Belfast branches of the Apprentice Boys of Londonderry held an anti-Home Rule demonstration at Shankill on Saturday.

Chinese Bandits Baffled. Hong Kong, Aug. 29.—Several hundred Chinese brigands attacked a moving train today at Fayuen, on the line from Canton to Hankow.

Suffragist Demanded. The Irish Women's Franchise League is interesting itself in the memorial which is intended to present to the Lord Lieutenant praying for the release of Irish women suffragists who are now serving sentences of penal servitude in Mountjoy prison.

Hunger Strike. The Journal adds that a certain number of the Irish militants now in Mountjoy Prison are prepared to join in a hunger strike.

Wounded Elephant Loses Hunter to Death. Mombasa, Aug. 27.—Details have been received regarding the death of a lion hunter.

Glidden Spout in New Orleans. New Orleans, Aug. 28.—Louis Westgard, official agent of the Glidden automobile tour, arrived here this afternoon in the electric coup in which he set out from Detroit several weeks ago.

THREE YEARS IN THE LONESOME NORTHLAND

Constable Wissenden is Back From Bleak Outpost in Herschel

Service Time is Up, Will Go to His English Home and Go Into Business

EDMONTON, August 28.—After three years in the lonely outpost of the mounted police at Herschel Island, on the northern coast of Canada, in the land of the midnight sun, Esquimaux and "the land that bludgeons you dumb," Constable F. Wissenden, contemporary of Fitzgibbon and the Dawson trail, returned to civilization yesterday by way of the overland route by trail and river and rail.

The policeman's service time is up, and it is his intention to devote the next few years of his life to business. He is a single white man, our nearest white neighbor was 180 miles away in Alaska.

Paris, France, August 28.—The old "grab" system of international politics is outworn. A new order of things is imperative and will arise. The European world is on the eve of great changes.

SUES HATTERS' UNION FOR \$800,000 DAMAGES

For Alleged Conspiracy of Labor Unions to Injure Plaintiff's Business

Heads of American Federation of Labor Are Called to Philadelphia to Testify

Hartford, Conn., Aug. 28.—President Samuel Gompers of the American Federation of Labor arrived today to testify in the suit against members of the United Hatters of North America, brought by Dr. E. Leow and others in which damages of \$800,000 are asked because of an alleged conspiracy by labor unions to injure the business of the plaintiffs.

Thus far all the witnesses in the case have been summoned by the plaintiffs. Frank Morrison, secretary of the American Federation of Labor, was on the stand the greater part of the afternoon. He identified a number of published reports of the American Federation of Labor and also a number of volumes of "The American Federationist."

Mr. Morrison said that at the convention of the American Federation of Labor in 1901, a resolution was offered that members should not patronize manufacturers that did not use the union label. He did not consider this as a boycott for the reason that the resolution was not adopted by the federation but was referred to the executive committee. The action of that body was not stated today.

Mr. Morrison will go on the stand tomorrow morning and it was said tonight that he will be immediately followed by Samuel Gompers.

Attorneys tonight agreed to let Mr. Gompers and Mr. Morrison go on the stand tomorrow as witnesses for the defendants although they have been subpoenaed by the plaintiffs. This is to allow them to return to Washington at once instead of waiting to be called in rebuttal.

Insurance Company Absorbed Winnipeg, Aug. 28.—A deal was completed today whereby the Winnipeg Fire Insurance company with a capital of over \$100,000 was absorbed by the Nova Scotia insurance company, a premium being paid for stock and outstanding contracts being guaranteed by the maritime concern.

At the annual meeting of the Winnipeg Fire Insurance company the president, R. L. Richardson, and other directors, resigned and the following board was elected: President, Andrew Macdonald, Halifax; vice-president and managing director, Arthur C. Bullie; J. O. Miller, Winnipeg, was appointed secretary.

EVANGELINE BOOTE, daughter of the late William Boote, commander of the Salvation Army in the United States, formerly commissioner in Canada, she is said to be seriously following the news of her father's death.

renting for that purpose a portion of a large building, have just completed the purchase of the whole building and will devote the entire additional room to factory purposes. They will have twice as much space as before, and will enlarge the factory to the full extent the additional room will permit. The experience of this firm is one of the best illustrations of the manner in which a factory established on a right basis in St. John can flourish and expand.

Victoria, Aug. 28.—In an address before the Canadian club here today, Prof. Beni Ide Wheeler, of the University of California, made the novel suggestion that the next Nobel peace prize should be given to the German emperor.

"For twenty-five years," he said, "he has had a mighty good war machine under his hand and he never used it." After regretting the strained Anglo-German relations, he said that it was not territory but protection against arbitrary interference with the progress of German development which had caused the growth of the kaiser's navy.

2,000 HARVESTERS LEAVE FOR THE WEST

Toronto, Aug. 28.—A large number of harvesters were sent west today by both the G. P. R. and C. P. R. on the regular trains, the C. P. R. running a special. Since the last excursion many harvesters have left for the west on the regular trains.

SHORT VISITS TO COUNTRY FOR THEIR MAJESTIES

London, Aug. 27.—It is stated that the King and Queen intend to pay several country-house visits between their return from Balmorace and the opening of the London season in February. As they have left tonight, they are expected in every instance shooting expeditions will be planned for the King, while the Queen will follow her favorite relaxation of visiting places of interest in the neighborhood, in company with her hostess.

JOHN DUNCAN IS KILLED.

Edmonton, Aug. 28.—John Duncan, foreman of the scaffolding crew on the new parliament building, was instantaneously killed shortly after noon today, when he tripped on a nail on the scaffolding on which he was working and fell to the ground, a distance of 15 feet, striking on his head.

Hair Dressing, and Manicuring Parlors. Experts in attendance. Phone appointments 6312.

SMART CLOTHES FOR STAMPEDE WEEK

With all Calgary in Holiday attire and such important events as next week brings forth, every particular woman will want to appear at her best. Calgary's Quality Store was never better prepared to satisfy the demand for smart apparel than at the present moment.

FRIDAY AND SATURDAY SHOPPERS WILL GET THE BENEFIT OF SOME VERY SPECIAL PRICES

Novel Effects in Fall Coats \$25.00 AND \$27.50 VALUES FOR \$22.95

We have sounded the right note in the Coat question this season. Women who are good judges of style recognize in the garments we are showing their ideal of the fashionable coat. The prices, too, are surprisingly moderate for such handsome garments. As an instance of moderate pricing see the models that are to be sold today at the above figure.

Coats of imported tweeds, also the new sponge cloth, in the correct shadings, tailored in the smartest styles and introducing many distinctive touches that mark the "Glanville" garments. These models were marked at \$25.00 and \$27.50. Today and tomorrow, each \$22.95

New Sweater Coats \$5.00 VALUES

See the extensive range of new Sweater Coats, in three-quarter and pony lengths, many of them feature the new Norfolk style. A full range of plain colors, and such good combinations as garnet and gray, fawn and brown, navy and red, slate and fawn, white and cardinal, etc. Prices \$2.75 to \$6.50

Corded Velvet Dresses \$16.50

REGULAR \$20.00 VALUE. Just in time for Stampede week. These stylish velvet dresses arrived and will be placed on sale today and tomorrow.

As you know corded velvet will be one of the most fashionable materials this season for dresses. These costumes will appeal to the woman who likes simplicity of dress, combined with good style. Dresses of corded velvet, made with high waist effect, side fastened with satin buttons, satin collar in Robespierre effect, some with lace collar attached; shades of tan, navy and black. Worth regularly \$20.00. Today and tomorrow \$16.50

ST. JOHN IS TO HAVE A MILLION DOLLAR HOTEL

Grand Trunk Pacific Terminals: Another Pulp Mill; Good Building Year. Anticipate Revival of Trade With Completion of Panama, Concerning Natural Gas

St. John, Aug. 28.—T. L. Morrissy, of Montreal, arrived in St. John last week accompanied by an architect and engineer, with plans of a hotel to cost \$1,000,000, to be erected on Prince William street, opposite the Customs House, and extending through to Canterbury street. Mr. Morrissy some time ago purchased the property on which it is proposed to build the hotel. The structure would cover a space of 150 x 140 ft. and would be six stories high, with a roof garden. It would be equipped in the most modern style, having three electric elevators, and every convenience for the accommodation of guests. It is proposed to begin excavating work this fall, and the construction of the building next spring, having it ready for occupancy by the last of April, 1914. Mr. Morrissy is one of the outside investors who has an abiding faith in the success of St. John.

The Grand Trunk Pacific. While in Montreal recently, Hon. William Pugsley interviewed Mr. Smithers of London, Chairman of the Grand Trunk Pacific board, and Mr. Chamberlain, the president. They informed him that it was their intention to start work to begin work on the portion of the terminal which is to be erected by the Grand Trunk Pacific at St. John. They further said that they favored making a connection between their line and the St. John Valley Railway in the western part of the province, so that freight might be brought direct to St. John instead of going around by way of Moncton.

Another pulp mill. An American firm who several years ago purchased a valuable lumber property at Pokok above Fredericton have lately added considerably to their holdings, and the Fredericton Clearing is informed that they contemplate the erection of ground pulp mill at Pokok Falls. This makes at least four different pulp and paper propositions now receiving attention in New Brunswick. One newspaper has it that the International Paper Co. is interested in the \$5,000,000 pulp and paper proposition at Grand Falls.

YOU SAVE

If we figure on your supply of hardware for your buildings. The savings are worth your attention and all we ask is that you allow us the privilege of making you quotations. ON BUILDERS' HARDWARE ON READY ROOFING ON PAINTS FOR ALL WORK ON EVERY LINE OF HARDWARE

We offer the very best in quality, assortments, prices and a big feature is that we supply what you want when you want it. OUR SAMPLE ROOM DISPLAY

JOHNSON'S WOOD FINISHES

Is well worth a visit from you if you are interested in Builders' Hardware. Here are shown all the newest things and here you can select what you think right for your building.

We Carry a Full Line of JOHNSON'S WOOD FINISHES

The acknowledged best in such goods. We are pleased to explain everything regarding their use and cost. Call or write us for full particulars.

Ashdown's Quality Hardware, Quick Service.

Establishing Factory. J. M. Humphrey & Co., who several years ago established a boot and shoe factory on a small scale in St. John,

CALGARY IN

The Rev. Wm. Sheares evangelistic address last night. Window lights on until 10.45 p.m.

For having opium in his possession Sanders fined \$50 and cost yesterday morning.

The fire department had today morning to a small shoe shining parlor on Big Street. The fire was extinguished quickly.

The police have a small white pony in their possession which they would like to find an owner. There are still a number of bicycles at the station.

For assaulting C. P. E. McIntosh, William McKay day sentenced to one month's imprisonment.

Hon. Duncan Marshall, agriculture, arrived in St. John last night on a route north. Mr. Marshall is attending to his duties here, he says was a big success.

A detective from North arrived here yesterday to locate Bell, alias Miles, who is wanted for a number of crimes. He was taken back tonight.

William Scott, who is wanted for the business of the night, was arrested and committed to the workhouse.

Chief Smith is not so hot on street decorations as he was last night. The chief says one night, and when the day dawned in the morning the decorations were destroyed.

M. G. Mills, publicity officer of the Stampede, is in the city, and arranging for the distribution of 200 of his tables which would visit the Stampede.

William Channell was a cost yesterday by Magistrate Channell had a fractured skull. He was being handled by being taken to the hospital.

R. Ramsey, of Strathmore, was arrested last night for disturbing the peace. He is being held in the city.

Eight car loads of horses of the Stampede yesterday. It will have two thousand of one or two, and with 1000 grounds, there will be the head of horses here by the head of the horse.

Detective Richardson of the local force had a fractured skull yesterday. He is being handled by being taken to the hospital.

The principals and teachers of the Calgary schools held an assembly at the Central hall of the city. The occasion was to make a list of the new teachers.

Bob Alderice, a well known man from Irricana, who is being held in the city, is being held in the city.

Impounded an August horse, white face, black markings; both brands shodder.

One bay mare, brand thigh.

One bay gelding, small forehead, brand on hip.

One bay mare, white head, and nose; fat, right thigh.

One sorrel gelding, branded right thigh.

One black gelding, white spots under saddle, left shoulder.

If above are not fourteen days from date same will be sold with Alex. Molnar's sale, 44 east Calgary, Alberta, 14th day of September.

NOTICE TO THE PUBLIC. Take notice that I have the rights and interest in the Electric Co. That I alone am authorized to contract for electricity.

NOTICE TO THE PUBLIC. I have the right to place a telephone line in my premises.

WANTED—Immigrants for relief work. Apply on Alta.

CALGARY IN BRIEF

The Rev. Wm. Shearer gave an evangelistic address last night at the Castray Gospel mission.

For having opinion in his possession, Magistrate Sanders fined Jim Chang \$10 and cost yesterday morning.

R. L. Cope, secretary of the Calgary Business Men's association, left last night for a business trip to Wetaskiwin and Edmonton.

The fire department had a call yesterday morning to a small blaze in a shoe shining parlor on Eighth avenue. The fire was extinguished without any damage.

The police have a small bay and white pony in their possession, and would like to find an owner for same. There are still a number of unclaimed bicycles at the station.

For assaulting C. P. R. Constable McIntosh, William McKay was yesterday sentenced to one month's imprisonment. He was also given ten days for vagrancy.

Hon. Duncan Marshall, minister of agriculture, arrived in the city last night en route north. Mr. Marshall has been attending the Medicine Hat fair, which he says was a big success.

A detective from North Dakota arrived yesterday to take back J. Bell alias Miles, who is wanted across the line for forgery and was arrested by Detective Cox. Bell will be taken back tonight.

William Scott, who has been appointed the business agent for the United Brotherhood of Carpenters, commented on his duties yesterday. He succeeds John Ross, who recently resigned.

Chief Smart is not going to put up his street decorations until the last minute. The chief says he will stay one night, and when the citizens come down in the morning they will find everything looking lovely.

M. M. Gillis, publicity commissioner of Westsask, is in the city, exploiting the prosperous little city of the north, and arranging for the accommodation of 200 of his fellow townsmen who would visit the Stampede.

William Chennell was fined \$10 and costs yesterday by Magistrate Sanders. Chennell had a fractious horse, and the only way the animal could be handled was by tying his three thousand head of horses here by Monday. The fee bill for his horse is \$10 per day.

Eight car loads of horses arrived for the Stampede yesterday. The Indians will have two thousand in the next day or two, and with 400 head on the grounds, there will be three thousand head of horses here by Monday. The fee bill for his horse is \$10 per day.

Detectives Richardson and Schoeppe of the local force had a stiff battle yesterday with a man in the apartment of Thomas McCrean. The prisoner showed plenty of fight, and the two detectives had difficulty in landing their man behind the cells. McCrean is charged with robbing John Reilly and taking from him a gold watch and \$24 in change.

The principals and teachers of the Calgary schools held an informal meeting yesterday afternoon in the assembly hall of the Central school. The occasion was to make the acquaintance of the new school. Dr. Scott gave a short address in which he emphasized the necessity of co-operation in the work which they all were called upon to perform.

C. S. Drummond, managing director of the Calgary Interurban Electric Railway, was taken suddenly ill yesterday afternoon. He was attended by Dr. Crandall, who prescribed morphine. The general hospital. His medical attendant stated that Mr. Drummond was suffering from a breakdown caused by strain and overwork. His case was not serious.

Bob Alderice, a well-known rider from Itasca, who is here to participate in the Stampede, desires the wrong report of his supposed throw from an outlay horse to be corrected. Mr. Alderice says that in view of the fact that he has not been on a horse since arriving in Calgary, it is scarcely likely that he could have thrown a horse. He cannot imagine how the report got out except that some other cowman was thrown and gave Mr. Alderice's name instead.

TOO LATE FOR CLASSIFICATION.
Impounded on August 20, one blue mare, white face, banded tail, with sucking colts, both branded with right shoulder.

One bay mare, branded with right thigh.

One bay gelding, small white star in forehead, branded with left shoulder.

One bay mare, white star in forehead, and on nose; fat, branded with right thigh.

One sorrel gelding, white face, aged, branded with right thigh.

One gelding, Clyde, three white feet, white star in forehead, branded with left shoulder.

One black gelding, crippled back, white points under saddle, aged, branded with left shoulder.

If above are not redeemed within fourteen days from date of this notice, same will be sold without reserve at Alex McLean's sale, 418 8th avenue east, Calgary, Alberta, at 2 p.m. on the 14th day of September, 1912.
Sold under bylaw #24, section 8, of the city of Calgary.
Dated this 25th day of August, 1912.

ANOTHER SECTION READY.

Probable That Road to Tete Juan Will Be Taken Over Sept. 1.

Edmonton, Aug. 29.—While no official announcement has as yet been made, it is pretty generally known that the officials of the Great Northern Pacific railway have contemplated the opening of the western line from Fitzburg to Tete Juan, which is about 300 miles long.

It will be possible when the new section of the road is open to travel by rail, water and automobile from Edmonton clear through to the Pacific coast.

The new night train probably will leave Edmonton at about 10 o'clock tonight, and will arrive at Tete Juan on Monday. There will be a train each day, Sunday's included. The new schedule will be completed within the next two or three days.

PREMIER'S VISIT OVER

London, Aug. 28.—The Canadian premier, Robert Borden, will leave England tomorrow, bound for home.

FIREMAN HAS CLOSE CALL FROM LIVE WIRE

Harry Stifle, while placing Stampede decorations, suffers severe burn.

Harry Stifle, a fireman, was painfully injured shortly after midnight last night by grasping a high voltage wire at the top of an iron post while placing decorations on Eighth avenue. Stifle's presence of mind prevented a fatality in that he grasped the wire with only one hand and succeeded in kicking himself away from it.

Directed by Chief Smart, and using an aerial wagon, a force of men were placed on the top of the iron post. A short ladder was being used with which to reach the top of the aerial. Stifle was at the top of the ladder when his hand came in contact with the live wire, and he felt the shock. He was not able to hold on to the wire, and he fell to the ground. He was taken to the hospital.

Rain Delays Harvest.
Saskatoon, Aug. 29.—Cutting in Saskatchewan will not likely be resumed before next week because of the extraordinary heavy rains that have fallen during the entire week. The wet weather has, however, allowed the relief of the binder twine situation. Local dealers having caught up with their orders.

Regina, Aug. 29.—Another cold, wet day has put harvesting operations in this district out of the question for the remainder of this week.

THE PREMIER GIVES OUT STATEMENT; MAKES SOME DETAILS

of our visit was the desire to obtain information respecting conditions of naval defence affecting the empire. The stress of the present session of Parliament, and other matters, have made it impossible to receive full information in its final form, but we expect it will reach us very shortly after our return to Canada, and with no unnecessary delay it will then be considered by the Canadian cabinet.

"Several unfounded or inaccurate rumors in regard to the incidents which have been the outcome of our present visit have gained currency in the British and Canadian press. It would be impossible to enumerate all of them. Allusion, however, may be made to one. Sir Willoughby Paget has not declined to meet myself in conference with certain British ministers for the very good reason that he has not been asked to do so, and for the further reason that no visit of British ministers to Canada has yet been arranged."

"I desire to express my very earnest and grateful appreciation of the warm welcome which everywhere and on all hands has been accorded us since our arrival in England. Our reception in France was equally cordial. Limitations upon my time have prevented me from extending my visit to other portions of the British islands and the continent of Europe, but I hope to supply that omission on a future and extended visit. We shall take back with us the warmest wishes and the most hearty congratulations of the members of the present visit. Especially have we been impressed by the devotion of the British people to the progress, development and influence of the overseas dominions. Beyond doubt, there is in these islands the warmest and sincerest spirit of hope and anticipation that in the momentous years which are already upon us the complex and difficult problems that confront this world empire will be solved wisely, worthily, and in accordance with the loftiest traditions of our history."

MULTITUDE MARCHES LONDON STREETS TO GRAVE OF BOOTH

Gathering Exceeded Only by Funerals of Queen Victoria and King Edward

New Commander, Bramwell Booth, Pronounces Long Eulogy Over Father's Body

Miss Eva Booth, of the United States, Collapses While Addressing Salvationists

EDMONTON, Aug. 29.—The body of the founder of the Salvation Army, General William Booth, was buried beside that of his wife today in the old cemetery of Abbey Park. No such gathering of the people in a funeral procession has been witnessed here except those at the time of the death of Queen Victoria, and King Edward.

Several thousand Salvationists, the men and women composing the forty-eight divisions of the Army from London provinces, carrying their banners of "blood and fire" and keeping in step with well known Salvationist tunes, played by forty bands, marched over the five miles from the Army headquarters in Queen Victoria street to the burial ground through the muddy streets, after being drenched by a downpour of rain.

It was more in the nature of a triumphal procession than a procession of mourning. The same streets only a few years ago were the scene where not a few of those who marched today were moped and leered.

No one could estimate the numbers who had assembled everywhere to witness the passing of the funeral of the late commander-in-chief. All the streets and the windows along the line of march were crowded, and even the house-tops were jammed. All along the route, drooped rain-soaked flags at half mast, and many business houses were closed.

Fifty thousand attend.

The multitude in and about the cemetery numbered not less than fifty thousand. The new commander, Bramwell Booth, himself pronounced long eulogy and read the committal service when his father's body was lowered into the grave. As Bramwell Booth was approaching the grave, Herbert Booth, dressed in civilian clothes, stepped forward and kissed the new general on the cheek.

The mayor of Stoke Newington and the mayor of Hackney, in their robes of office, were seated on the platform with the Booth family. Mrs. Catherine Booth-Clibborn, the late general's eldest daughter, who for years had been estranged from the Army with her husband and twelve children, sat among the mourners.

Miss Eva Booth, commander of the Army in the United States, who arrived in London just in time to walk behind her father's coffin, broke down with grief and fatigue. Mrs. Booth's sisters began to weep as they watched her sister from speaking out in sympathy and read the committal service when his father's body was lowered into the grave. As Bramwell Booth was approaching the grave, Herbert Booth, dressed in civilian clothes, stepped forward and kissed the new general on the cheek.

With the exclamation, "Oh, my beloved father," Booth broke down and was assisted to his seat. When out by the march, many Salvationists were ready to drop when they reached the cemetery. While the ceremonies were going on, the space in front of the platform began to resemble a battlefield with the fainting soldiers dropping on all sides. While uniformed nurses led the Army ambulance corps treated more than a hundred cases, some of the others were in a serious condition, and one was removed from among the crowd on the funeral car.

Though one-third of the program was omitted, the service consumed two hours. Then it was discovered that a special permit was necessary for a continuance of the ceremony, as burials after four o'clock are prohibited. The presence of Mayor Stoke Newington, who granted the permit, solved the difficulty.

The general's will left by the late General Booth was made public today. All the property held by him as general of the Salvation Army and all like public trusts, both real and personal, including copyrights, were vested in the successor as general, for the time being, of the Salvation Army, to be held by him "upon trusts affecting the same."

By a codicil his small private property, having a net value of \$2,440, he gives to the Salvation Army, with the exception of certain private papers and memoranda, which are given to his eldest son, Bramwell, and a few articles chosen by himself, which are given as mementoes to each of his children and his children-in-law.

Another codicil deals with property estimated to value \$28,475, representing money settled on him, many years ago by the late Henry Reed for private use. It was this provision that enabled him to draw no stipend nor remuneration of any kind from the funds of the Army. This property is divided among his children, Bramwell, Catherine, Marian, Herbert, Eva and Lucy. His successor, Bramwell Booth, is appointed executor of the will.

VIEW FROM MIDDLE DOCK SHOWING BRIDGE AND STREETS OF CALGARY

IRON CHAIN FORMED OF SOME OF THE LARGEST LINKS EVER MADE TO BE USED IN TOWING THE DOCK ACROSS THE ATLANTIC

CANADA'S GREAT NEW DRY DOCK.—It will hold any battleship afloat. It is 600 feet long, 105 feet wide, 60 feet deep, and draws 35 feet of water. It has just been completed on the lower picture shows the great links in the cables by which this monster dock will be brought to Canada. They are about the largest chain links ever forged, and they were made for the purpose.

HIGH WATER IN BOW RIVER BLAMED FOR DELAY ON SEWER

Continued From Page 1

The trouble with the water seepage will cease. The water level in the river has been raised to 2000 feet of the 12,000 feet of the concrete work has now reached a point about 1,000 feet of the turn at Fifteenth street, up which street the sewer comes from the point at Bow river, where it is planned to locate the sewage disposal works which the city at that vicinity and are proceeding for. An inspection yesterday of the completed sections of the sewer show it apparently to be in first class condition.

The three pumps now engaged in emptying the sewage water from the big ditch, are discharging into the drains in that vicinity, and are practically filling them to capacity now. The additional pump that will be put on immediately is certain to tax the drains to capacity, and it is thus apparent that the limit of providing for emptying water from the ditch has not yet been reached.

"I am not looking for a fight with anybody," declared Contractor James yesterday, "but I am looking for a job to do. I am looking for a job to do. I am looking for a job to do."

With reference to the penalty clause of a day, the engineer believes the part of the contract has been invalidated through failure of the city to make monthly payments to the contractor, as the contract provides, because of the shortage of ready cash in the city strong box.

AFRICAN NATIVES REMAIN TRUE TO TRADITIONS

Cape Town, Aug. 27.—For years the question of town locations for natives has been a vexing problem. They have never taken kindly to a communal form of life. They prefer to live in family groups, at the head of which stands the head induna upon whom dependence is placed in a perfectly well recognized hereditary order of the government of the "house." The whole of the kraal property, as distinguished from purely personal belongings of a more or less movable character, is vested in him, and government itself in the main deals with the individual members of the kraal through him. This system is of immemorial usage, and although the influence of civilization has in many cases led to a greater spirit of independence among the natives, the system has been effective in preventing the establishment of a centralized government.

PEDESTRIANS WADE OR WALK AROUND LAKE ON MAIN STREET

Continued From Page 1

The heavy rain yesterday, following the heavy rain of the preceding evening, when the miniature lake lapped the edges of the sidewalk all night. Mr. Child pointed out that it was due to a defect in the design of the outlets as provided by a former engineer.

Sewer Will Remedy Defect.
He said that the new sewer now building up the lane between Eighth and Ninth avenues would furnish the proper kind of an outlet and do away permanently with the nuisance. Meanwhile, however, the annoyance exists during heavy rain, and it was again in the way of pedestrians at 6:30 o'clock last night following the rain-storm, and remained all evening.

Mr. Watson has just returned from a trip to the coast and is much impressed with the growth of Victoria and Vancouver, especially the former city, which is having quite a boom.

FOUND DEAD IN CELL

Windsor, Aug. 29.—The body of Baker of Platon, Ont. was found dead in his cell in Sandwich last night.

About a month ago Baker was sentenced by Magistrate Leglet to six months in the Central prison. He was refused admission to the military barracks for a time, but was later released. He was found in his cell last night, and the cause of his death is under investigation.

TRAIN KILLS FARMER.

Brookville, Ont., Aug. 29.—Nathan Purvis, a middle-aged farmer, was struck and killed by a freight train near Lyn today. The body was brought to Brookville, where an inquest was opened and adjourned to await the testimony of the train crew.

NO RAISE IN THE PRICE OF MEALS AND ROOMS

Continued From Page 1

W. Moran, of the King George, "and there will be no change in price at the grill. We, like the remainder of Calgary's citizens, are doing our part towards getting people acquainted with the hotel, and have a list of private houses where comfort and luxury may be obtained at prices from \$1 per night to \$2."

At the Stampede Information bureau everything is working like clockwork. Messrs. A. A. MacKenzie and J. G. Macdonald, in charge of the bureau at the C. P. R. depot, were surprised to learn that such reports had been given credence.

NATURAL GAS COMPANY WOULD SUPPLY CITY OF EDMONTON

Continued From Page 1

Among the other details in the offer made to the Edmonton council by Mr. McLeod in asking for a franchise were the following, quoted from the Edmonton paper:

"They wanted the city of Edmonton to agree to purchase gas from them exclusively for 20 years. If they exceed the demand, and in the event they could not, the city would be privileged to acquire shaft of the demand. They would agree to guarantee the gas drilling for gas six months from the signing of the agreement, and bore continuously, putting down at least three wells to a depth of 2,000 feet struck before then. They would agree to supply gas by December 4th, 1914, or call all wells off."

Mr. McLeod asked the city council to allow him two years within which to bore for natural gas, guaranteeing to purchase his output at the named price if he found gas by December 1st, 1914; he would guarantee to bore three wells to a depth of 2,000 feet each in the interim; and in the event he struck gas in sufficient quantity to pipe it to Edmonton, he would have the exclusive privilege of supplying gas for a period of 20 years."

Plan Lines Throughout Alberta.
Inasmuch as stockholders of the Canadian Pacific Railway and the Hudson's Bay company are heavily interested in the Western Canada Natural Gas, Heat, Light and Power company, the importance of the announcement that the company is in the process of being organized is apparent. The company already has contracts with many other towns in this district for supplying natural gas on similar terms that it does in Calgary, and the intention evidently is to cover Alberta with a network of lines in the future.

PEDESTRIANS WADE OR WALK AROUND LAKE ON MAIN STREET

Continued From Page 1

While the remainder of the city slept last night, Fire Chief Smart, with a force of firemen and electricians, accomplished the dangerous and difficult work of the decorative schemes for transforming the city into a glowing sea of colored lights and bunting.

Starting on Eighth avenue at Second street west, a Union Jack was placed at the top of each trolley pole, and below, where the cross wires attach to the pole, a shield bearing the Canadian, Irish, Scotch and English flags was placed. Fastened in front of each shield is a sheet of grain.

Following the flag-pole, the electricians came with the wires for the colored lights that will be festooned across the street from each post.

After finishing the work on Eighth avenue, the workmen went to Ninth avenue, where the same decorations were placed. The two avenues will be decorated between Second street east and Second street west, and all intervening cross streets will then receive attention, finally the entire route to the Stampede grounds receiving the festoons of colored lights. Strong language between the posts will be steamers of bunting.

TOWN OF FRANK WILSON MOVE AWAY FROM ITS SLIDING MOUNTAIN

Continued From Page 1

Two Miles Away From Present Location

Ottawa, Aug. 29.—The town of Frank, Alta., which is at the base of Turtle Mountain and which was practically wiped out by a landslide in 1903, causing the death of 20 people, has had another scare. As a result, according to word received at Ottawa, the town is preparing to move to a new location on the opposite side of the mountain. The citizens of Frank have had many warnings of danger. As it was a provincial matter, the dominion government could not do much to get the town out of the danger. However, in the latter part of July the mountain sent down another landslide, up trees and throwing down boulders which caused consternation. The slide on this occasion confined itself to the corner of the old school site, and did not go beyond smashing a few buildings. The town council is at last bestirring itself today, and Mr. William Bugg, superintendent of the mines, has received the whole town is now preparing to move to a new site which has been selected, two miles away.

STATE DEPARTMENT'S ATTITUDE ON TOLLS

Continued From Page 1

Washington, Aug. 29.—Although the state department will authorize no statement to that effect, it is understood that the administration will decline to permit the question of the right of the United States to relieve its own shipping from tolls in the Panama canal to go to arbitration. This position of the government, it is said, may not be developed fully for some other attractions, including the Duke, will revolve.

CHILD NEGLECTED PARENTS ARRESTED.

Stratford, Ont., Aug. 29.—Arraigned before the magistrate in police court today, and Mrs. William Bugg, Blanchard township, were committed for trial at the next court of competent jurisdiction on charges that they have provided the necessities of life for their five-year-old son, who was seized at his home almost dead from starvation and ill-treatment. Bail for the parents was refused, pending the return of Judge Barrow on the charge. A. W. Ford is counsel for the defendants.

ARCH GOES RIGHT AHEAD.

When members of the reception committee yesterday noticed what an obstruction the arch is going to be, they consulted angrily among themselves, but none ventured to order the work stopped, or the arch removed to a less objectionable position. Alderman Whaley, chairman of the committee, voiced his sentiment, but when questioned about the matter said the superintendent was nowhere about to order the work stopped.

DEPARTMENT OF DEFENCE IS UNSATISFACTORY

Cape Town, Aug. 27.—According to the Pretoria correspondent of a Johannesburg journal, the department of defence has not given general satisfaction by its preliminary selections for admission to the military instruction course at Bloemfontein. This course, which is to last six months, will be followed by an examination, successful candidates thereafter receiving their commissions and being appointed to various centres of training in the Union. At the present, says the correspondent, the stamp of men invited to Bloemfontein by the department is profoundly unsatisfactory, and while some has been exempted to avoid any undue signs of racial preference many of the selected men are without any qualifications entitling them to further military training at the national expense. In a few specific instances General Smuts has carried his passion for equity to an absurd extent, such Dutch or other British nominees being, as it were, paired with a member of the other race without due consideration being given to any other qualifications enjoyed by the respective subjects for instruction. Most if not all of the vacancies have now been filled, and as far as the Transvaal representatives are concerned the contingent of students is remarkable for nothing so much as its heterogeneity.

LA PRESSE

The great French newspaper, covers Montreal and Quebec like a blanket. This is why there are other mediums or combinations that can produce the results that La Presse does. Rates and particulars of its 100,000 daily circulation applied to the following:

J. H. Poynts,
813 13th Avenue West, Calgary.
Calgary Representative,
LA PRESSE, MONTREAL.

The flies that are now in your kitchen and dining rooms are practically fastening on some indefinable nastiness less than an hour ago, and as a single fly often carries many thousands of disease germs attached to its hairy body, it is the duty of every housekeeper to assist in exterminating this worst enemy of the human race.

WERSON BUILDS ARCH ALL HIS OWN FOR DUKE TO SEE

Continued From Page 1

Other attractions, including the Duke, will revolve. With his usual sense of the artistic, Superintendent Werason picked a place for the arch about twenty feet in front of the platform. The scheme approaches in artistic arrangement the bandstand designed by the superintendent in Central Park, the building of which has attracted so much favorable comment from tourists who are in the vicinity. This bandstand is the superintendent's chief d'oeuvre in the park which, to quote his own words to members of the matter said, is "one of the most beautiful little parks in the country."

ARCH GOES RIGHT AHEAD.

When members of the reception committee yesterday noticed what an obstruction the arch is going to be, they consulted angrily among themselves, but none ventured to order the work stopped, or the arch removed to a less objectionable position. Alderman Whaley, chairman of the committee, voiced his sentiment, but when questioned about the matter said the superintendent was nowhere about to order the work stopped.

HAUNTED MURDERER WALKS Salt Lake, Utah, Aug. 29.—Declaring that he was being haunted by the ghost of a pawnbroker whom he murdered in Topeka, Kan., last December, a man giving the name of Steve Israel, surrendered to the police here today. Israel said that after he killed the pawnbroker he robbed him of several hundred dollars and twenty watches.

UNRESERVED Auction Sale Central Horse Repository, 2 degra from Centre St. on 8th Ave. East Friday Aug 30th 1912, at 2 o'clock sharp 100 Head of Horses

HOW A CLEVER THIEF ROBBED PARISIAN JEWELLER Established Confidence by Buying Large Consignments of Jewels by Mail Credit Established Order Quantity of Gems Which Were Not Paid For

Paris, August 28.—Frequent cases of swindling and robbery by individuals who are foreigners in the country where these crimes occur have given birth to the term "international thieves" which—although it may be hoped that these individuals in no sense represent the nations to which they belong—has come to be recognized quasi-officially as the designation of these astute creatures of prey. The other day an astounding story was told in a police court concerning a man named Bucking, who had been extradited from London.

Recruited From Prisoners. Summing up, Dr. Bertillon declares that the elegant redoubtable thief of romance exists only in the newspapers. Bands are generally recruited while undergoing punishment in prison, and more often manage to rub shoulders with the wealthy classes through the introduction of feminine accomplices rather than by any personal talent or attraction, with which few are ever endowed. It is generally through the women that the police finally get on the track of criminals, although as long as they believe that a man is true to them these women can never be tempted by any sum to betray criminals. The moral is that these gentry depend for success principally on the accident of being foreigners, and that they could never impose on their own countrymen.

Perished in the Desert. El Centro, Cal., Aug. 28.—The body of a man believed to be Herman L. Narison of San Diego was found on the desert 17 miles west of Imperial today. He had evidently been dead for two weeks. Coroner Peterson, who brought the body to El Centro, said death was due to thirst.

DO YOU WANT CHEAP LUMBER

Fifty-two Yards in Alberta—Two Yards in Calgary

Few people appreciate that there is quality in lumber the same as there is in tea, or in paint, or in most other articles. Cheap call lumber or green lumber in better grades will build a house that, when well painted, will look fairly well for a few months. Such a building in our extreme climate soon takes on a dilapidated cheap look, making it difficult to sell, difficult to rent, and unprofitable to live in.

We have always made a specialty of the highest quality, and owing to the tremendous size of our business we are able to buy on a basis that permits us to sell our lumber for as low a price as would be generally asked for a poorer quality. This has built up our large business—the largest in Western Canada.

Before building inspect our stocks and permit us to give you evidence that quality considered, our prices cannot be beaten. Particular people use our lumber. If your contractor obtains his lumber from us it is a sign that he is a particular man and demands the best of everything.
