FRENCH FLEET IS ACTIVE.

BORDEAUX, Oct. 9.—The following official statement was given out today: "The French fleet, commanded by Admiral Boue de la Peyere, after provisioning at Antwerp, cruised among the islands of the Adriatic between Cattaro and the island of Lissa. Later the French fleet appeared before Ragusa and Gargosa.

"The Austrian authorities and other notables at Ragusa fled on two special trains as soon as the battleships were sighted. The Italian and Slav population remained calm. The French squadrons destroyed the lighthouses and the wireless apparatus at Gargosa. The torpedo boat destroyer Sabretache made a few prisoners at the Putini lighthouse.

"The Austrian warships remained hidden in the harbors at Pola and Cattaro."

The Germans have recommenced the bombardment of Sampigny, a village 14 miles south of Verdun, in which is President Pointe-care's residence. Forty-eight shells have dropped on the president's country home.

BE ONE OF 300!

It is estimated that only one person out of 300 in Canada really knows anything about world history. This means that only about 30,000 people in this country are posted in the most vital of all studies.

If the 1,500,000 voters of this nation would read Larned's "History of the World," a new party would be formed of the majority of them, which would dominate public affairs by reason of its superior intelligence and ability. It would constitute not only the brainiest body in Canada—but in the whole world!

ROYALITE OIL IS CLEAN AND PURE

ROYALITE OIL is the registered name of The Imperial Oil Company's water-white kerosene.

It is an extra refined, high grade oil, yet it is sold at an extremely reasonable price.

You can get Royalite oil in small country stores as well as in the cities and towns. You can also get Rayo Lamps and Perfection Heaters and Cookstoves, for which The Imperial Oil Company is general distributor.

Royalite Oil burned in a Rayo Lamp gives a clean, steady light that is absolutely odorless and smokeless.

sage from Antwerp. This cryptic statement was sent thru the lines today by the burgomaster of the city, even while shells are raining on the town at the rate of twenty a minute. The palace of justice and the law courts are reported as on fire, the museum and cathedral are crumbling beneath the bombardment. Zeppelins have hovered over the city constantly for the last 24 hours, showering the city and its inhabitants with incendiary bombs. These have caused fires in many portions of the town, and entailed a heavy loss of life among civilians.

Antwerp is doomed unless prompt aid arrives. It is said that big naval guns have been mounted on the inner defences, and these are now replying to the salvos of the giant Krupps with a more nearly equal effect. Reinforcements are also reported to be in the city, but there is a complete dearth of information as to the points from which the men and guns have been despatched.

GERMANS HAVE MORE MEN.

Following a tenacious resistance by the Belgians, the Germans have effected a crossing of the Scheldt River, presumably between Schoonebeek and Engelm, where their main attack has been directed for some days. The Belgian lines held out until a concentrated artillery fire rendered their positions absolutely untenable. The presence of King Albert on the fighting line inspired the men to herculean efforts, and they put up a defence comparable to that made at Liege. Time and again the Kaiser's hordes were thrown back with great loss, but weight of men and guns finally prevailed.

The immediate environs of Antwerp look as tho a deluge of fire had passed that way. Bergerhout is completely ruined. Warneton is a memory, and Edgham, Bouchot and Vremde are blackened ruins.

FRENCH STATEMENT.

The following official statement was given out this afternoon by the French War Office: "The general situation has undergone no change. On our left wing the two opposing bodies of cavalry are still operating to the north of Lille and of La Bassée, and the battle continues along the line marked by the region of Lens, Arras, Bray-sur-Somme, Chaunles, Roye and Lassigny.

"On the centre of the Oise, and on the Meuse, only actions of minor importance have been reported.

"On our right wing, in the Woivre district, there has been an artillery contest along the entire front.

"In the Lorraine, in the Vosges, and in Alsace there has been no change.

"In Bosnia, Montenegrin troops have continued their advance in the direction of Sarajevo as far as the fortified line which protects the city at a distance of eight kilometres."

70,000 GERMAN PRISONERS.

PARIS, Oct. 9.—The government is assembling exact information regarding the identity of 70,000 German prisoners now in French hands, with the object of exchanging these data for similar facts regarding French prisoners with the German authorities.

The French ministry of war has issued regulations under which money may be sent from France to French prisoners in Germany, and also from Germany to German prisoners in France thru the Swiss postal administration.

ANTWERP PEOPLE FLEE IN BOATS

Houses Are Burning Everywhere and the Citizens Leave by Thousands.

SUBURB IS DESTROYED

No Public Buildings Had Been Hit, But Are Threatened.

(From Charles Hebron, Special Correspondent of the Central News and The Toronto World.)

Special Direct Copyrighted Cable to The Toronto World.

ANTWERP (via London), Oct. 8.—This afternoon, Thursday, the bombardment of Antwerp has been proceeding without cessation for sixteen hours, having been begun punctually at midnight Wednesday. As a result of the enemy's terrific fire all of the oil tanks along the river are ablaze. Practically the whole of Berchem, a town of 20,000 people, is destroyed.

In Antwerp houses are burning everywhere, and since early morning a continuous torrent of fugitives has been crossing the river by means of pontoons. Such boats as remain are packed with the fleeing population. Along both banks of the river is a striking line of unfortunate people going northward, carrying such household goods as they are able to snatch up.

It is believed that none of the public buildings has been hit as yet. They are flying the flag specified by the Hague Convention. Nevertheless shells are dropping close to the cathedral.

The Germans are making every effort to destroy all pontoon bridges across the river in the hope of cutting off the troops defending the southeastern zone.

The cathedral tower is in the direct line of fire.

The Belgian troops are seeking strategic advantages elsewhere.

MANY CANADIANS STILL IN EUROPE

Chairman Drayton of Railway Board Reports They Will Soon Get Out.

By a Staff Reporter.

OTTAWA, Oct. 9.—H. L. Drayton, chairman of the Dominion Railway commission, returned today from England where for the last two months he has been assisting Hon. Geo. Ferguson, acting Canadian high commissioner in relieving Canadians who were stranded on the continent when war broke out. He states that 47 parties of Canadians are still on the continent, having been unable to get away, but they will soon be able to get out.

Canada's gift of flour and the gifts of supplies from the provinces, said Mr. Drayton, greatly helped to keep food prices down to normal level in the old country.

Mr. Drayton found difficulty in securing a passage home. He took passage on two steamers which were taken over by the admiralty. Finally he got away on the Laconia.

"WAS ALMOST BALD" NOW HAS BEAUTIFUL HAIR

Mrs. S. Golden's Remarkable Experience—Real Hair Grower Found At Last.

"My hair was falling out so fast that I was almost bald," says Mrs. S. Golden, "and I had dandruff so bad that it used to come off in big scales before I started using Crystolis. I tried many remedies without success, but soon after I commenced using Crystolis my hair stopped falling out, the dandruff disappeared, and my hair soon began to grow rapidly, and now I have a beautiful head of hair."

"Crystolis has started a new growth of hair, I'm taking the dandruff and oily substance from my head," writes Mrs. M. P. Houghton. "My hair has grown wonderfully from the use of your great remedy. I imagine my surprise and pleasure to find a growth of hair all over my head in ten days," reports Mrs. C. L. Roy.

Mrs. M. Hays says: "After the use of Crystolis I am able to do my hair up nicely without any switch at all, as I have a new growth of hair all over my head, and it is beautiful, fluffy and light." "To my surprise my hair has started to grow on my head where I have been bald for years," writes Mr. F. Bleck. "I have been bald for 20 years, and have tried all kinds of hair growers and received no benefit until I began to use Crystolis. In two weeks it started a fine new growth of hair all over my head, dandruff has disappeared, and my hair is just as healthy and abundant as ever."

In the face of all this indisputable evidence—there are hundreds of men and women, with more coming every day, who voluntarily testify to the remarkable hair-growing properties of Crystolis—you must admit that there must be something in this great English hair grower after all. It surely must be something out of the ordinary, something vastly different and much more successful than anything that has ever been discovered for promoting hair growth and development in a healthy and abundant manner.

Don't you think it would be a good plan to look into it, just as thousands of others have done? Scores of women who have thin, short hair coming out worse every day say: "I'd give most anything to have beautiful hair that wouldn't come out," but when someone suggests a way they declare: "Not a chance. Nothing will make my hair grow," and others, men and women alike, who have been bald, or have thin, ugly hair. "Until you have tried Crystolis you do not and cannot know whether your case is hopeless."

Crystolis has grown hair on the heads of those who are bald, and in spite of their doubts, it is not necessary for you to believe in Crystolis to have it promote a new hair growth and to have it lengthen and beautify your old hair. You merely use it and watch the results, as your hair stops falling out, itching stops, dandruff disappears, and your scraggy hair becomes long, even and abundant.

Examine your scalp in the mirror before using Crystolis, and in ten days see the count-down. If you have thinning hair, you will see tiny new hairs that have sprung up on your bald and thin spots. Watch them grow with amazing rapidity.

In Crystolis we believe we have the new, only true and successful means of growing hair that has ever been discovered. It is a new, scientific method purposefully constructed to the high-way-rubber dandruff germs and then to dead and strengthen the hair roots so that they may produce a luxuriant and vigorous growth of soft, fluffy hair. We are confident that we can grow beyond anything that has ever been done, and for making the hair long, thick, soft and brilliant, and in the most obstinate and apparently hopeless cases, Crystolis has no equal. And best of all, we are willing to let you try it if it or our "test days" test of Crystolis will surely prove to you whether it will do as we claim. Isn't it worth trying?

ROAD EXPENDITURE OF HALF MILLION

Ontario Government Closes Busy Season of Work on Highways.

TWELVE THOUSAND MEN

Almost a Thousand Overseers Were Employed on Constructional Work.

The Ontario Government is closing an unusually busy year of colonization road building. Nearly \$500,000 has been expended on the roadways in newer parts of the province, and a marked increase in results as well as in expenditure is offered in comparison with the records of the last fiscal year. It required 12,000 workmen, 913 overseers and 21 inspectors to carry on the work of this department for the last twelve months, and as the work is being wound up these are being released.

Deputy Minister Fairbairn stated yesterday that 913 roads had been under construction or repair during the year. Of these 638 are now completed and open for traffic. Before the gangs are all in 275 more will be finished, as well as some of those being laid under the county by-law system. Gangs at work varied in size from ten to forty men under one overseer.

It is estimated that the mileage of roads exceeds 175, and that approximately 700 miles have been re-

novated and made suitable for the traffic of settlement districts.

The legislature at last session voted \$562,539.53 for this branch of road work, a considerable increase on previous amounts. More men were sent out and more work was done. All but \$72,000 was spent out of the 1912-13 grant, and the surplus when the present year ends will likely be less.

LOWER REVENUE FOR SEPTEMBER

Dominion Statement Shows Decrease From Same Month Year Ago.

OTTAWA, Oct. 9.—A decrease of \$5,296,165 in revenue during September as compared with the same month last year is shown by the Dominion financial statement, out today. The revenue for the month was \$9,952,092, as against \$15,249,258 in September of 1913.

For half year ended Sept. 30 the total revenue was \$70,331,211. In the corresponding half year of 1913 it was \$86,871,716.

Expenditure on consolidated account for September, 1914, was \$12,962,824; September, 1913, \$9,268,518; for the half year, \$55,515,589; corresponding half year of 1913, \$48,697,091.

Expenditure on capital account: September, 1914, \$5,163,610; September, 1913, \$3,922,709; for half year, \$19,151,738; corresponding half of 1913, \$24,137,853.

PACIFIC COAST TO SUPPLANT EUROPE AS TOURIST MECCA.

A telegram received by the Grand Trunk Railway officials confirms the opinion already held by transportation experts that the European war is likely rather to increase travel to the Panama Pacific International Exposition, opening in San Francisco on February 20 next year, than reduce it. The flood of American and Canadian tourists to Europe will be far less than in ordinary years, and the space originally reserved for them is being flowing into headquarters in San Francisco where the thousands of travelers who ordinarily flock to the various pleasure resorts of the continent will turn their faces towards the Pacific coast in 1915.

"Under worst possible conditions," wired Mr. G. H. Perry, director of exploitation for the Exposition, "we shall lose only about 6 per cent. of our promised exhibits from Europe, and we have the assurance from all participating nations now involved in the struggle that their plans will not be seriously interfered with. We have heard from exhibitors' committees in both Germany and Great Britain within the past few days, requesting that the space originally reserved for them be held, and in the case of the German committee an intimation was given that increased space might even be asked for. Requests for space and for additional space from manufacturers and producers in this country and South America and of European nations not at war show marked increase since war broke out."

HENDRIE WILL NOT MOVE UNTIL LATE NEXT SPRING

New Government House is Not Decorated Yet — First Acts as Governor.

Among the first signatures which Hon. Col. Hendrie, the new Lieutenant-governor, has affixed to official documents are those settling the appointment of Hon. I. B. Lucas to the Hydro-Electric Commission, sanctioning the postponement of the date on which lists from manufacturers must be received by the workmen's compensation board, and extending the personnel of the Toronto-Hamilton highway commission. Announcement of the passing of these orders-in-council appears in the current issue of the Ontario Gazette.

Col. Hendrie appeared for a short time yesterday at the buildings to attend to some official business which had accumulated. He will not take possession of the new government house before late spring. Much of the interior work has not as yet been touched.

WORK AMONG FOREIGNERS CANNOT BE ENCOURAGED

Rooms in Roden and McCaul Schools Needed for Night Classes.

Plans for the enlargement of North Toronto High School and Roden Public School were approved by the property committee of the board of education yesterday afternoon.

The committee decided that it was not expedient to grant the central neighborhood house committee the use of rooms at Roden and McCaul schools for games, etc., and social work among foreigners, as it would prevent the rooms being available for regular night school work.

Superintendent Bishop reported that arrangements had been completed for opening additional class rooms at Carlton, Queen Victoria, Clinton, Bedford Park, Sackville, John Fisher, Manning avenue, Byerson, Earl Grey, Frankland, Dovercourt and Williamson road schools.

CANNING FACTORIES EXTREMELY ACTIVE

Special to The Toronto World.
 COBOURG, Oct. 9.—The British Canadian Canners are, at the present time, carrying on a big business here. Their output is 80 cans of corn and 82 cans of tomatoes a minute. Some 200 hands are employed and much of the time the industry is running 24 hours daily. It is estimated that the company will spend \$60,000 this season here, for produce, wages and other necessities. The industry is doing about twice as much business as it did last year and the manager states that it is just in its infancy. Farmers in the vicinity contracted for considerably over 1000 acres of corn, tomatoes, etc., and some of them increased their acreage. In addition produce is being brought here from Grafton and Port Hope. A shortage of cans is reported from some of the other factories of the district.

MUST OBEY RULES ADMIRALTY MAKES

Orders Issued on Requirements of War Risk Insurance Plans.

By a Staff Reporter.
 OTTAWA, Oct. 9.—Further advice received by the government from the imperial authorities showing the importance of shippers bearing in mind that the provisions of the war risks insurance scheme that ships must conform to the orders of the admiralty as to route, ports of call, stoppages, etc., is a protection for cargoes as well as for the ships.
 The following announcement has been made by the war insurance office of the board of trade: "It is an essential feature of the government war risks insurance scheme that all insured ships must obey implicitly all orders and directions given by the admiralty as to routes, ports of call, stoppages, etc. To avoid misapprehension on this point, the board of trade wish it to be clearly understood that this provision is intended to insure the safety of both ship and cargo, and that any deviation which may be rendered necessary in consequence of admiralty orders or directions, is in the interest of the cargo as well as in the interest of the ship. It is most important that this fact should be borne in mind by all parties concerned in the shipment or carriage of goods on insured ships, and that in contracts of carriage the ship owner's obligation to comply with the admiralty requirements should be fully recognized."
 Secure from any good druggist in Toronto 1 oz. Parmit (Double Strength), about 75c worth. Take this home and add to it 1/2 pint of hot water and 1/2 oz. of granulated sugar; stir until dissolved. Take one tablespoonful four times a day. The first dose should begin to relieve the distressing head noises, headache, dizziness, cloudy thinking, etc., while the invigorating action of the system is in progress. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are quickly overcome by this efficacious treatment. Nearly ninety per cent. of all ear troubles are said to be directly caused by catarrh, therefore, there must be many people whose hearing can be restored by this simple home treatment. Every person who is troubled with head noises, catarrhal deafness, or catarrh in any form, should give this prescription a trial.

MADAME VANDERVELDE TO SPEAK IN TORONTO

Mme. Emile Vandervelde, wife of the Belgian secretary of state, and representative of the Queen of the Belgians, is coming to Toronto next Saturday night to enlist public sympathy in the cause of her compatriots who have lost their homes thru the German invasion. Under the auspices of the United Empire Loyalists, Mme. Vandervelde will appear at Massey Hall and give a talk on the misfortunes that have befallen Belgium, and she will attempt to secure further support for the relief of women and children, and her visit is likely to result in the raising of a large fund.

The United Empire Loyalists are bringing Mme. Vandervelde to Toronto at their own expense, and they are asking the support of all the other patriotic societies in the city in order to raise the largest amount of money possible for the stricken Belgians. A nominal scale of prices is to be charged for the lecture, and any who desire to make contributions toward the fund will be given an opportunity to do so.

ARM CHAIR PRESENTED.

On the occasion of his marriage, which took place a week ago, Constable A. W. Cromie of No. 11 division, was presented by Inspector Chariton, in the station last evening, with a mission arm chair on behalf of the men of the division.

To Cure Catarrhal Deafness and Head Noises.

Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can be treated at home by an internal medicine that has been said in many instances to have effected a complete cure after all else had failed. Sufferers who could scarcely hear a watch tick tell how they have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear.
 Therefore, if you know someone who is troubled with head noises or catarrh, or catarrhal deafness, cut out this formula and hand to them and you will perhaps have been the means of saving some poor sufferer from total deafness. The prescription can be prepared at home and is made as follows:
 Secure from any good druggist in Toronto 1 oz. Parmit (Double Strength), about 75c worth. Take this home and add to it 1/2 pint of hot water and 1/2 oz. of granulated sugar; stir until dissolved. Take one tablespoonful four times a day. Last evening a representation of the Toronto Women's Patriotic League met at 559 Sherbourne street. For the civic department Mrs. L. A. Hamilton reported that 21 charwomen had been placed, 23 girls had been sent to positions in the country, 33 seamstresses had made application for employment and work had been procured for 23. Mrs. Huettig spoke of the weaving of rag-carpets, mats and portieres as something that might be introduced on a large scale and help women out of employment. The treasurer stated that \$2096.68 had been received by the league, and that there was now a balance on hand of \$655.

SATURDAY MORNING, OCT. 10.

Farmers' Roads From Montreal to Windsor.

Hamilton has gracefully withdrawn from an untenable position in connection with the proposed roadway on the lake shore between that city and Toronto, and there is now apparently nothing further to delay the undertaking.

The present time has been selected for active work because of the amount of unemployed labor which can be usefully and profitably taken out of idleness.

Reeve Cornell sounded a dissentient note, which we trust is not to be taken too seriously, when he said that the farmers were not in favor of spending money on a road for motorists.

Now can we expect it to be very long before every up-to-date farmer owns a motor wagon. Motor traffic up to fifty miles has been shown to be much cheaper in Britain than railway rates, and what the difference might be in Ontario would be a big annual profit to any considerable farmer.

War News

Some not unnatural irritation has been expressed in Britain at the meagre and restrained character of the official press despatches and the severity of censorship exercised over special correspondence.

Lord Kitchener, it is understood, was willing to authorize a limited number of press representatives to accompany the British army, but later declined to do this in deference to the strong opposition of General Joffre.

Zeppelins in Action

Airships have not so far played any important part in this Pan-European war. German Zeppelins have floated over Antwerp and Paris and dropped bombs which brought death to innocent civilians, men, women and children, but as against combatant forces, either by land or sea, they have accomplished nothing.

plane. Perhaps the most surprising incident in the Paris bombardment is that the French had apparently no available aeroplanes to meet this particular Zeppelin in the air.

Expert opinion has not pinned much faith to airships. Dirigible balloons, for such they are, cannot be easily handled, and require special housing accommodation, comparable to the docks required for battleships and equally or more conspicuous.

The German Apologia

Since this war began not a few professors and other learned writers of German stock have striven to show that it is in essence a conflict between civilization and barbarism, meaning thereby between the Teuton and the Slav.

Britons throught the world are convinced that the true inwardness of this war is the latest phase of the age-long struggle between force and freedom, between autocracy and democracy.

Civilization, as the most advanced and progressive nations of the world understand it, acknowledges the rule of law and let live. Just as within each nation the law seeks to protect the weak as well as the strong, the poor, quite as much as the rich, so in the wider field of a continent or, indeed, the world, the nations themselves, and among themselves, must equally be subject to the reign of law.

An apple a day keeps the doctor away. So they say. We eat enough apples every day to repel the whole medical council of Ontario. Go and do likewise.

BELGIAN KING REPORTED TO HAVE LEFT ANTWERP

LONDON, Oct. 9.—An Amsterdam despatch to Reuter's Telegram News Agency, dated Friday, quotes The Nieuws Van Der Dag of Ghent as saying that King Albert left Antwerp this morning and has arrived at Selssete, a village near the Dutch frontier town of Sas Van Genet.

No More Bustless and Undeveloped Women

How to Create 8 oz. to 1 lb. of Firm Healthy Flesh Upon Bust, Neck, Arms, or Shoulders in Four Weeks.

To introduce Latest Scientific Triumph in This Country, Complete Information and Instructions will be sent to 1000 Readers of The Toronto World.

Dr. Colonnay, the distinguished physician of the Faculty of Medicine, Paris, has at last made public the secret of his latest discovery. All readers of the French medical publications and journals devoted to feminine interests are now familiar with the astonishing results of his unique experiment upon 200 ladies, ranging from sixteen to sixty years of age, some of them in the most weakly and anemic state of health, and all absolutely lacking in bust development.

Within five days the rapid growth of new flesh was noticeable in all cases. In three to six weeks busts that were flabby, sagging, and almost non-existent had developed from 5 inches to 8 inches by actual measurement. Convincing statistical evidence shows that in 46 per cent of the cases patients were compelled to stop treatment within four weeks on account of threatened over-development.

These photographs show more plainly than any words how an angular, masculine figure may now be quickly transformed into one of beautiful curves by means of the new method explained in this announcement.

Dr. Colonnay was the first to discover that various medicines, nostrums, prescriptions, dieting, apparatus, appliances, greasy creams, massage, and other expensive advertised methods always fail because they overlook the basic fact that the mammary glands of the bust are the only organs which lay the greater part of a woman's lifetime, hence they can never be developed like muscles. A full description of just how this triumph of modern science causes new, firm and healthy tissue to be created at will, and just why its stimulating action is exerted only upon the bust, neck, shoulders or arms, but never upon abdomen, hips, or other part of the body, would require more space than is available for this special announcement, but arrangements have just been made whereby readers of The Toronto World are enabled to obtain all necessary information by promptly using coupon below. No charge is made for this, but, if enclosed, two two-cent stamps may be convenient for posting expenses. There is, of course, no interruption to the regular mail service between this country and England.

IMPORTANT NOTICE.—Readers particularly cautioned not to use this new method where more flesh is not desired, as the enlargement, when once produced, is absolutely permanent, and cannot be reduced afterwards. It is usually advisable to stop treatment about three days before the bust attains the exact size and firmness desired, as the stimulating effect may continue for two or three days, but never longer.

FREE COUPON

French Bust Developing Method Coupon positively void after Nov. 7.

Entitling (name) Address to receive under plain, sealed cover, absolutely free of cost, full particulars in regard to new method for developing the bust to any desired size and firmness.

Enclose this coupon in a letter (postage to England is only 2 cents), or mention number given below, as evidence that you are entitled to accept this offer, which is exclusively for the benefit of Toronto World readers. Only one member of each mail may apply.

KNIGHT, O'CONNOR, SYMONS TO PLAY

Argos Will Line Up These Players Against Tigers in Opening Game Today.

The Rugby games today are: Interprovincial. —Senior—Hamilton at Argos, Rosedale, 3. Montreal at Ottawa. —Intermediate—Tiger II. at Argo II. Intercollegiate. Varsity at McGill. O.R.F.U. —Junior—Capitals at Kew Beach. Parkdale at Broadview. Dons at Balmly Beach. City League. —Senior—High Park at Capitals. Judeans at West End. Dons at Balmly Beach. Broadview at Riverdale. Parkdale at North Toronto. —Junior—North Toronto at High Park. Capitals at Balmly Beach. Boys' Union League. —Intermediate—West End Y. at Capitals. Capitals at Kew Beach.

The Rugby season will be officially ushered in this afternoon when the Hamilton Tigers, Dominion champions, play our own Argonauts at Rosedale in the opening interprovincial fixture. It should be one of those old-time battles for the Scullers' look much better than last season and Hamilton Tigers have lost several of their stars. Frank Knight, Jack O'Connor and Harry Symons turned up for the signal practice at Rosedale last night and will play today. The addition of these three players has boosted the Argonauts' stock, and the jungle kings will get the hardest tussle of their career. The game is scheduled to get under way at 4 o'clock and Manager Heuther will pick his team from the list published yesterday.

The Varsity players left yesterday for Montreal with every confidence of beating McGill. The team will be selected from the following: Gage (captain), flying wing; Crawford, quarter; Mackenzie, half-back; Milne, half-back; Carr, half-back; Holmes, half-back; Gardiner, centre scrum; Bryan, scrum; Horner, inside wing; O'Reilly, middle wing; Doyle, half-back; Canfield, quarter; Nicholson, scrum; Cassels, middle wing; Mackenzie, middle wing; Hughes, middle wing; McDonald, middle wing; Clarkson, outside wing; Sinclair, outside wing; Sheehy, outside wing; Adlard, outside wing; Daniels, scrum; Smith, outside wing; McMillen, scrum; O'Connor, half-back; Lindsay, half-back.

The line-up of the Montreal team, which meets Ottawa at the capital in a four football series, follows: Centre, half, Art Brophy; left half, Barwick; right half, Tucker; flying wing, Alex. Cameron; quarter, Frank McGill; left outside wing, Dawson; right outside wing, Baillie; left middle wing, Ross; right middle wing, Potticary; left inside wing, Abinovich; right inside wing, Morel; left side scrum, Adams; right side scrum, Trenholm; centre scrum, David Williamson.

The forty game at Kew Gardens today will be between Capitals and Kew Beach in the Junior O.R.F.U. series, as the Royal Union intercollegiate game between Capitals and Kew Beach has been postponed until the end of the season. All High Park A.C. fans are requested to turn out today at Jesse Ketchum Park to support the team. Game called for 3 p.m.

Queens Rugby players are getting down to hard work, and the recruits are beginning to learn the finer points of football by the steady afternoon practice under Ken Williams, who put them through a grilling workout. Prof. Lindsay Malcolm was on the field for the first time in his uniform, but did not take any live part in the practice. It is likely that he will be able to accompany the team to Hamilton on Monday, but will in the meantime work with Ken Williams in putting the men through their work. The Hamilton club has forwarded transportation for twenty-two men.

An Ottawa despatch says: The Ottawa are all ready for Montreal in the opening battle of the Big Four here. The red and black will make a decided experiment this season in placing a practically new and untried team on the field, the players either not having played together or have played on a different junior company. The result of this experiment, it is felt here, will be easily recognized by tonight, for the winged wheel aggregation to give credit in Ottawa of having a team equal, if not superior, to the Tigers.

The Ottawa line-up will see Dave McCann at flying wing, Conyers and Brophy on the back division, Conyers at quarter, O'Leary, Rath and Stalker in the scrum, Murtagh and Davies at inside; Emerson and Cummings at middle, and Stronach and Cassels at outside.

POWELL, PRESIDENT OF THE CHESS CLUB

Officers Elected and Prizes Presented at Annual Meeting.

The annual meeting of the Toronto Chess Club was held last evening at the clubrooms, northwest corner King and Jarvis streets. The reports of the secretary and the treasurer were satisfactory. The following officers were elected for the ensuing year:
Hon. president, Rt. Rev. Bishop W. D. Reeve, Mr. Douglas Macklen, Dr. N. S. Shennons, W. Flint Jones, President; Geo. K. Powell, vice-president, Rev. F. M. Dean; secretary, John Powell; treasurer, E. G. Hunter; board of directors, C. D. Freeman, E. B. Freeland, M. Sim, P. Price; press agent, Malcolm Sim.
Immediately after the meeting the prizes were presented to the winners in the different tourneys. Joseph Price, who won the city championship, received a gold medal, inscribed with the city coat of arms, and the Wireless Cup. The club handicap tourney was won by Mr. John Powell, who received a chess board and the Saunders Shield. Prizes were also presented in the handicap tourney to Mr. P. J. Greayer and Mr. W. J. Branney.
The ladies' city championship was captured by Miss A. L. Sanderson, who received the Ladies' Championship Cup and a set of chess men.
In the club championship prizes were presented to Mr. Sydney E. Gale, a club champion, and to Mr. E. B. Freeland, who came second.
Mr. E. J. Greenstreet captured the Class C club championship, and received a gold medal.
After the presentation of prizes a meeting of the Canadian Chess Association took place, presided over by Rt. Rev. W. D. Reeve, the president. S. E. Gale acted as secretary.
A lengthy discussion it was decided that, owing to the war, and the probability that few of the noted players in the Dominion would care to meet the expense of coming to Toronto this winter, the tournament would be postponed for one year.
Friday evenings are the opening evenings at the Toronto Chess Club, and all chess players are invited to visit the clubrooms those evenings.

INJURIES RESULT FROM COLLAPSE OF SAVERS

Horse Buried Under Tons of Coal, Has Neck Broken—Fred Boston Hurt.

A heavy delivery wagon loaded with three tons of coal, two horses, and the driver of the rig, David Cairns, 423 Weston road, broke thru the pavement on MacFarlane street, opposite No. 65, yesterday afternoon and disappeared in a hole fifteen feet deep, made by the washing out of a sewer, as a result of the early morning down-pour of rain. Cairns himself was able to retain his seat and was but slightly injured; one horse was completely covered with coal and when uncovered was found to have broken his neck. The other animal was got out practically unharmed.

Bye witnesses of the accident told the police last evening that the rear of the wagon was the first to disappear; the heavy weight of the coal dragged the horses in after it. The wagon itself was badly damaged.

Fred Boston, aged 58, 729 Summerhill avenue, had his feet and legs badly crushed yesterday afternoon, at three o'clock, when the sewer that he was working in on Swanwick avenue, suddenly caved in. The contractors were Hoggan and Sage, 80 Gormley avenue, and they were making the connection into the Emanuel Presbyterian Church. The injured man was removed in the police motor ambulance to his home, but no serious developments are expected, although one foot is very badly bruised.

It will help you to ward off sea-or car-sickness. It will prove a welcome relief in the heat of travel—refreshing to the taste, sweetening and soothing to the mouth and throat. It steadies the stomach and nerves remarkably.

COLONEL BURLAND DEAD IN ENGLAND

Head of Canadian Red Cross Organization Passed Away Suddenly.

Canadian Press Despatch. MONTREAL, Oct. 9.—A cable from England today announced the death of Lieut.-Col. Jeffrey H. Burland, recently appointed head of the Canadian Red Cross organization at the front.

Col. Burland was known throughout Canada for his philanthropy as well as for his activities in various departments of the militia service. The colonel left for England on September 29 and his death came as a great shock and surprise to his friends here. The cable announced that Col. Burland died from angina pectoris.

Col. Burland has commanded the Sixth Fusiliers of Montreal and was awarded the officers' decoration for twenty years' service in 1902. He was a member of the small arms committee of Canada, and chairman of the council of the Dominion Rifle Association. He was one of the originators of the movement for sending a Canadian battalion to England in connection with the celebration of the Queen's Diamond Jubilee, 1897, and accompanied the force. The colonel was present by invitation at the coronation of King Edward and Queen Alexandra and King George and Queen Mary.

Genuine Philanthropist. Col. Burland, among other benefactions, founded the King Edward Tuberculosis Institute here. He was a member of the Royal Tuberculosis Commission in 1909. He was a generous patron of practically every hospital and charitable institution in Montreal.

Col. Burland was born in Montreal in 1861. He was educated at McGill. Among the business enterprises with which he has been connected are the British American Bank Note Company and the Prudential Trust Company and Dominion Trust Company as president.

CANADA FIRST—BUY AT HOME

Goods that are made in Canada should meet the needs of the people
of Canada better than those made in another country. If they do not, it
is the business of the Canadian manufacturer to see that they do. The
style or finish of the article that is made in Canada may not be exactly to
the liking of a purchaser, and it may be for that reason that such a large
amount of goods are imported. Then, again, there is a popular fancy which
seems to demand foreign-made goods just because they are foreign made.

There is foot comfort in "Murray" Shoes, because the makers consider foot comfort one of the first essentials. A shoe that hurts the foot is never a satisfactory one, no matter how beautiful it may be. Wearers of "Murray" Shoes know—and you will know when you try them—"comfort from the first day's wearing." The materials used in manufacturing "Murray" Shoes are the best that can be obtained. The shoes give perfect satisfaction because of the "quality." Don't miss this sale of "Murray" Shoes TODAY.

Today being the first of the two days devoted to our Thanksgiving Celebration Sale, we give selections here from the values on sale today.

As already announced, on conditions set forth in the booklet distributed for the sale, out-of-town customers, within a certain radius, who visit the store, will be put on a par with our city patrons by having the cost of excursion ticket refunded.

The values here given include some secured too late to be included in the booklet.

Lists for Tuesday's selling will be found in this evening's papers and in those of Monday morning.
