### McGOVERN WANTS BATTLE.

Says Nelson Bumped Him and That He Was Hammered by the Rules.

New York, March 19.—Terry McGovern's manager, Joe Humphrey, returned from Philadelphia last night and gave Terry's version of his recent battle with Nelson. McGovern said that he was "hammered" by the rules and that he was "bumped" by Nelson.

He also said Terry was anxious for another match under the old Philadelphia rules; that the National A.C. was willing to conduct another contest, and that he would post \$1000 to bind the match, the money also going to a side bet. Humphrey's statement in part follows:

"The rule allowing the referee to step between the boys in a fight is a hard one to have allowed, but on this, as well as every other matter, I was superseded by the rules and the other officials. It looks to me as if the club had guaranteed Nelson that his man would have all the best of the rules, and that we were to be bound by them. Most of the blame for the fight was charged to Terry, while we know that the Dane was always hanging and mauling him."

"The Dane hit Terry some very hard blows, but Terry claims that they were not heavy enough to separate the men. The indications were that the fight was a side bet. The next fight will have to be fought under the regular Philadelphia rules, that is, the club will be notified by the National Club that they are willing to negotiate for another contest, but it will have to go by their rules."

"What Terry wants is a straight stand-up fight, and he says that he will stick the Dane."

**Hamilton Boxers Invited.**  
Hamilton amateurs have been invited to enter next week's city tournament in the Municipal Stadium. The tournament will be the only outside candidates in the city. The indications were that the fight was a side bet. The next fight will have to be fought under the regular Philadelphia rules, that is, the club will be notified by the National Club that they are willing to negotiate for another contest, but it will have to go by their rules."

**For a Junior Cricket League.**  
Sporting Editor World: At a meeting of the Grace Church Cricket Club 11, held on Friday, the 16th inst., it was suggested that a junior cricket league be formed in Toronto for boys under 16 years of age. Last year there were a number of boys' cricket clubs playing in the city, who arranged matches among themselves, but only a few were played.

If there are any clubs desirous of joining such a league, will they please communicate with me at the above address and arrangements can be made for forming the league and making up the schedule of matches? There could be a meeting held of two representatives from each club to the officers and make the rules.

I think this would be a good thing to encourage the boys to take up the good, healthy sport of cricket.

## THE QUESTION

is not—"Can you afford to buy a Filing Cabinet?" but—"Can you afford to be without one?" Filing Cabinets should not be looked upon as a luxury—but a dire necessity.

Their purpose is to minimize labor and expense and incidentally preserve a neat and orderly appearance about the office.

Next thing to appreciate this need of a Filing Cabinet is to know which is the best to buy.

One thing leads to another and so all good filing cabinet needs lead to the "Macey"—and thence to

## PUBLIC AMUSEMENTS.

## "The Virginian"—Princess.

Depleting to the full the strong virility

which belonged to the life of the western

cow-puncher, two or three decades back,

before law and order came as much a

part of the conventions, is the four-act play,

"The Virginian," as presented last night

at the Princess Theatre, is rather a

noticeable lack of the exaggeration in the

portrayal of the surroundings and types

common to most writers and playwrights,

the "Virginian" has but one really genuine

man, and he is sinister rather than

awfully bad. He has companions in

crime, but they are not of the desperado

order, with the power that the brandishing

of Colt's revolver has anything like the

usual prominence.

But, for all this, Owen Wister has been

able to write a novel of Wyoming of more

than common strength, and in the drama-

tized version, there is abundance of that

which stirs the blood. It is true that the

play is rather sketchy, leaving much to be

imagined in the process of love-making by

which the Virginian wins the heart of Molly

Wood, the charming schoolmistress from

the east. It is a wide gap, for example,

between the third and the last acts. The

formal rendezvous with the lynching for cat-

stealing of the hero cowboy framed by the

poose at whose head the Virginian had

started out, in the face of Molly's decla-

ration that she would not sell him again

should be thus hunched down his chum.

The hero does neither, and the curtain

falls on what looks like the raising of a

very serious, if not insurmountable, bar-

rier, yet the third act opens with the mar-

riage ceremony fixed for the day following.

In the interim between the scenes the

hero has been shot and seriously hurt, has

been turned back to strength by his friend,

and the barrier has conveniently crumbled away.

It looks like a fixed gain in the final

act, when the Virginian refuses to avoid his

enemy. There is a quick flash of gun play,

the only one of the play, and before the

smoke has fairly cleared, the hero is in

one another's arms. The finale comes at

a climax that keeps nerves decidedly

on tension.

The acting of Dustin Farnum as the Vir-

ginian was admirably in keeping with the

character. Simple-hearted, good-natured,

and yet ruled by an inflexible will, Mr.

Farnum presented the novel's idea of his

hero with absolute fidelity. As Molly Wood,

Mary B. Conwell was quite the most char-

ing of heroines, and of refreshing natural-

ness. As Trampas, Frank Campen offered

## "Kentucky Belles"—Star.

Another bunch of belles at the Star this

week are known as the "Kentucky Belles,"

and will most assuredly play to packed

houses. The burlesque of the show, "Mr.

Physicist," is a regular laugh-producer,

calculated to produce a guffaw every half-

minute of the entire farce. The principals,

who are all that burlesque requires, are well

supported by a strong aggregation of pretty

girls, who sing, dance and smile in the most

approved style. A long line of good ap-

plaudits comes a bill that is well worthy

of record and commendation.

## Jubilee Singers—Massey Hall.

The stormy night doubled caused a good

many people to miss a treat at Massey Hall

last evening. The American Jubilee Sing-

ers, better known as the "Platts," are cer-

tainly a very fine organization, and great

credit to the cause of the colored people.

When the last strains of the open-

ing number, that sweet old melody, "I

Swear Away to Jesus," followed by a beau-

tiful arrangement of "Swing Low, Sweet

Cherry," the hall resounded with ap-

plauds. Such a group as "Mama" in the

"Gold Diggers," "Old Black Joe," and "I

Love Kentucky Home," will always give

delight, particularly from mellow negro

voices, and the unadorned and direct.

For the numbers most appreciated were

those by the male quartet. This combina-

tion was encored repeatedly and retrospec-

tively presented some very catchy melodies,

their voices blending perfectly. "I Want to

Be Like the Angels," "Swing Low, Sweet

Cherry," "Swing Low, Sweet Cherry,"

John and Mary, were very pleasing.

Miss Mary B. Clay proved a very enter-

prising reader.

### A TARIFF WAR ENDED.

Servia and Austria Will Resume Friendly Commercial Relations.

Belgrade, Servia, March 19.—The Austro-Servian tariff dispute has collapsed. Orders have been issued to admit to-day all Austrian merchandise into Servia on the same conditions which prevailed before the tariff war.

Relations between Austria and Servia have been strained for a long time owing to the former's objections to customs union formed between Servia and Bulgaria, which Austria regarded as being not only adverse to her commercial interests, but as likely to lead to a league of the Balkan States which would be contrary to the interests of Austria.

### TROOPS TO AWE STRIKERS.

Trouble is Expected in France, Where 46,000 Miners Are Idle.

Paris, France, March 19.—Troops have arrived here to be ready for any eventualities which may arise as a result of the miners strike. About 46,000 men are now out on strike, and are parading the towns carrying red flags. Several minor collisions have taken place. The miners' federation will meet to-morrow to consider the question of declaring a general strike.

### SHIP MISSING 200 DAYS IS NOW REPORTED SAFE

New York, March 19.—A cablegram received by the Standard Oil Company to-day announced the arrival at Yokohama, Japan, of the long overdue British barque Daylight, which sailed from New York for the Orient more than 200 days ago. She had been spoken to when 31 days out of New York, but no word of any kind had been received from her until to-day.

The Daylight has a cargo of oil, and carries a crew of 32 men. She is one of the largest sailing vessels afloat.

### Ottawa Deputation Here.

A deputation consisting of J. C. Glashan, inspector of schools, Ottawa, and W. Strachan and R. They will accompany Mr. Rees, the supervisor of music, during the next three days.

### Ship Subsidies.

London, March 19.—The American ship subsidy bill is agitating British ship owners and builders and formed the subject of a question in the house of commons to-day, but Premier Campbell-Bannerman said the government did not think any useful action could be taken at the present stage.

### The Wornout Nerves, The Weak Heart, The Tired Brain, The Wasted Strength.

What a multitude of women there are who feel that these words exactly suit their case. From early morning until late at night they have been on the go, year in and year out, attending to the daily household duties, looking after the wants of her children and spending the rest of her time attending to social and church work. Is it any wonder then that sooner or later there comes a general collapse? The action of the heart becomes weak and palpitating, the nerves become unstrung, the brain feels in a whirl half the time and the usual force of vitality is lacking.

It is at this time a woman should look after herself. If she does not, serious female disorders may set in and often cause weary months and years of helplessness and miserable suffering. What she wants is something to build up her system. For this purpose there is nothing so equal

### MILBURN'S HEART AND NERVE PILLS

They are the women's friend in every sense of the word. They will strengthen the weak heart, tone up the shaky, starved nerves, make the brain clear, and restore the lost vitality.

Mrs. George Lohmes, Stanley Section, N.S., writes: "I was greatly troubled with weak and dizzy spells, and was so run down I could not attend to my household duties. I bought two boxes of Milburn's Heart and Nerve Pills and after taking them I found that my trouble had all passed away. I am now strong and healthy again."

Milburn's Heart and Nerve Pills are 50 cents per box or 3 for \$1.25. If your dealer does not handle them, send direct to The Milburn Co., Ltd., Toronto, Ont.

## LIKE SMOKING OUT RATS IS KILLING OF FILIPINOS

Dr. Parkhurst Says There Has Been Nothing Sadder in U. S. History.

New York, March 19.—In his sermon on the relations of so-called Christian nations that are pagan, Rev. Dr. Chas. H. Parkhurst referred on Sunday to the recent killing of Moros, and President Roosevelt's congratulatory despatch to Gen. Wood.

"Consider," he said, "the easy and self-satisfied way in which we regard the moving down of the savages and semi-savages in the Philippine Islands, when they stand in the way of national purpose, of which after eight years of 'benevolent assimilation,' we have just had a most startling and heart-rending example in the bombing and death of 600 men, women and children collected in a crater in the Moro Islands."

"There are two things to be said about the jubilant congratulation sent by the chief executive to Gen. Wood. The first is in reference to the designation of the performance as 'brilliant feat of arms.' Basing our estimate on the reports received by Gen. Wood, it was no more a 'brilliant feat of arms,' than smoking bees out of a hive or rats out of a nest."

"But a far sadder feature of the executive communication to General Wood is that it contained not a word of sympathy, one note of tender distress, in view of the indiscriminate slaughter perpetrated in honor of the American flag. We have been taught to believe, and we like to believe, that the president has a great heart, and so I prefer to think of that cablegram, composed as it was in the presence of practically of mangled men, torn women, armless and headless children, I prefer to think of it not as being the expression of the man Roosevelt, but of the President Roosevelt, in whom the official heartlessness and greed of unregenerate nationality is functionally represented. I want to find a way for Roosevelt for the performance on Jolo Island has been a war of extermination."

With the exception of the main tenance of the south of negro slavery, there has been, in our history, no sadder in our history than the national attitude in which we to-day stand toward the little brown people of the Philippine Islands."

### BLAMES REPORTERS.

Washington, March 19.—Secretary of War Taft has received a cablegram from Major-General Wood, at Manila, relative to the Mount Dajo fight, saying:

"Sensational cables sent to the United States relating to the Mount Dajo fight were made up in Manila. There has been no reference in any cable from Mindanao to the killing of women and children. The reports were had no other information than was contained in my report to Col. Anderson, and supplied sensational features."

### HUNDREDS ARE HOMELESS.

Washington Town Destroyed by Forest Fires.

Seattle, Wn., March 19.—A special to the Post-Intelligencer from Lyndon, Wash., to-day, says: "Northwood, 40 miles north of Lyndon, in Whatcom County, has been destroyed by forest fires. The Northwood Lumber and Shingle Mill was burned, and many families are homeless. The fire is within a mile of Lyndon this morning and grave fears are felt for that town. Hundreds are homeless. The fire, and the Nellingham department was sent out by special train to aid the threatened city."

## STREET REPAIRS IN BALTIMORE

City Engineer Fendall Reports on Expensive Pavements—Blocks Near Postoffice Often Relaid—Old Paving Costly.

Municipal Journal and Engineer.—According to a report laid before the Baltimore City Council by City Engineer Fendall, the pavements on Fayette and Lexington streets, between Calvert and North streets, north and south of the postoffice, are easily first in the matter of expenditure on repairs.

The original cost of paving the two blocks was \$4716, while the cost of repairs, during 11 years, from the expiration of the guarantee to Jan. 1 last, was \$9467. The cost of repairs averaged 49 cents a square yard a year, while the first cost was \$2.70 a square yard.

Taking the first cost with the expense of repairs, the two blocks of pavement have cost the city \$55.09 a square yard. The oldest sheet asphalt pavement has been laid in Baltimore on a five-year guarantee for as low as \$15.2 a square yard.

The report contains several tables showing the first cost and the cost of repairs of a number of streets paved with sheet asphalt and asphalt blocks. The oldest sheet asphalt pavement referred to is that on the streets about city hall. This was laid in 1885, under a two-year guarantee, the cost being \$444.70. In the 15 years since its expiration of the guarantee, these pavements have cost \$7586.40 for repairs, averaging about 12 cents a square yard a year.

The asphalt pavement on Charles street, between Madison and Chase streets, was 24 years old when relaid last year. The cost was \$17,155 and the cost of repairs \$19,301.59, the average cost being 12 cents a square yard a year—the same as the average cost for the streets about city hall, and for the block asphalt pavement on Calhoun street, between Edmondson and Harlem avenues, which was laid 21 years ago. The most expensive block asphalt pavement, from the standpoint of repairs, is on Cathedral street, between Monument and Madison streets. The pavement has cost \$8351.39 for repairs, the cost when laid 21 years ago, with a two-year guarantee, having been only \$2977.50.

## EXCITING CHINESE PASSION

Native Papers Publish Graphic Picture of Dead Magistrate.

London, March 19.—The Times correspondent at Shanghai says: "The native papers, using the same block, have published the picture of the Nanchang magistrate's head after death, displaying ghastly wounds. It was evidently a portrait of a man of high rank, the passions of the people against foreign rule. The increasing hostility of the Chinese press is viewed with complacency by the Chinese government. The matter undoubtedly calls for diplomatic intervention."

The Nanchang magistrate referred to in the above despatch stabbed himself, and was stabbed by a missionary at Nanchang, the latter part of February.

## WOMAN SHOT BY BURGLAR

WHOM SHE HAD IDENTIFIED

Morrisville, Pa., March 19.—Mrs. John Morrison of Columbus, near here, was shot and killed as she lay in bed early today by one of three masked burglars. It is believed that the woman recognized the robber, and that when he learned she had discovered his identity, he shot her.

## INCENDIARY FIRE.

Bowmanville, March 19.—(Special.)—John Pentouff of this town suffered a heavy loss last night by the burning of his barn and outbuildings on his farm, lot 32, con. 2, Darlingsburg, south-west of the Village of Courtice. The place was vacant at the time, his being living there for some time, having moved out on Saturday to make room for the new tenant. The building was undoubtedly set on fire. The loss will be heavy—over \$2000—and there is only a small insurance.

## BANK ROBBERS SHOOT POLICEMAN

Jackson, Mich., March 19.—Policeman Fred Booth, aged 35 years, was shot to-day while a party of officers were trying to place under arrest three men who are suspected of having robbed the safe in the postoffice at Brooklyn, 14 miles from here, last night. The robbers secured \$200 in money and \$400 in stamps. They escaped after the shooting.

## OPEN WAR ON UNDERTAKERS

TRUST OF THE WORST KIND

Chicago Labor Organizations Will Boycott Funerals Conducted by Non-Union Men.

Chicago, March 19.—The Chicago Federation of Labor has declared war on the Chicago Undertakers' Association, branding the body a "trust of the worst kind." The open declaration of hostilities was made at yesterday's meeting of the central labor body.

After a lengthy discussion of the subject these conclusions were arrived at by the delegates to the meeting: No union man shall purchase a non-union casket, or assist in paying for a non-union casket for a member of his family or a friend.

No union man shall act as a pall-bearer at a funeral where a non-union casket is used.

When the services of an undertaker are needed by a friend of a union man it is his duty as a trade unionist to tell the members of the bereaved family how to secure a union casket.

An investigation of the methods of acting and prices charged by the members of the Chicago Undertakers' Association shall be made at once and ways and means of suppressing the trust found.

The subject came up at the meeting when a communication from the Woodworkers' Union was read, which contained a complaint because of the supposed discrimination of the undertakers against union-made caskets. A price list was attached showing that union caskets ranged in price from \$5 to \$40. Undertakers, according to the same information, charge anything from \$50 to \$300 for the same caskets.

No reason why the undertakers discriminated against the union men was set forth, but it was hinted that it was because the workers had suggested union of professional pall-bearers about two years ago.

## NEW YORK'S LATEST SCANDAL

Methodists Censure Police for "White Slave" Evils.

New York, N.Y., March 19.—Resolutions denouncing the New York police department for failure to suppress the so-called "white slave" evil and arresting wealthy people who own houses leased to "traffickers in human flesh" were adopted to-day by the Methodist conference meeting.

They declare that, in view of the testimony adduced at the Clarke trial, it is apparent that the police authorities have enabled these conditions to exist and that the evils exposed never could have existed if the police department had been properly administered.

The resolutions assert that "dens of vice and crime, such as has been discovered, is a disgrace to the fair name of our city, and that the wealthy owners of property used for immoral purposes should be held equally with the inmates."

## Settlers' Low Rates West.

## YOU CAN'T DOUBT THIS.

Go where you will, but it's impossible to find a family liniment equal to "Nerviline." Age adds to its popularity, testimonials by the score speak of its pain-subduing powers.

James B. Cottam, of Montreal, N.S., says: "I wouldn't live without Polson's Nerviline in the house. If you have rheumatic pain in the limbs, soreness in any of the muscles, or in fact any need of an honest liniment, Nerviline file the bill. I can recommend it highly because I have proved that in one application Nerviline there is more virtue than in a whole bottle of ordinary liniment."

## Jail Bred Fried Open.

Morden, Man., March 19.—Peter Hansen, who perpetrated a heinous crime at Goodlands a week ago, when he smothered all the live stock of a farmer named Rasmussen, in an attempt to burn his stable, escaped from jail here last night and may be over the border again. The bars on the "window" were tried and found unsoundly by a confederate on the outside.

## Demand Increase.

Winnipeg, March 19.—The street railway employees at a meeting on Saturday determined to secure concessions from the company, including recognition of union and a material advance in pay, with a ten-hour day, or go on strike.

## Typhus in Mexico.

Mexico City, March 19.—There were 26 new cases of typhus fever Saturday and two deaths. The total number of cases since Oct. 1 is 2277, with 558 deaths.

## Dies Suddenly.

Edward Rogers of LeRoy, N.Y., formerly a resident of Toronto, died suddenly of apoplexy on Saturday evening. His brother, William Rogers, and R. C. Hamilton, brother-in-law, left the city last evening to attend the funeral, which takes place this afternoon at LeRoy.

## Tramps Commit Theft.

Belleville, March 19.—Saturday night burglars broke into Mills' general store at Shamonsville, near this city. Some money was taken from the till and a quantity of clothing is missing. Tramps are suspected.

### NOTED FOR PURITY, BRILLIANCY AND UNIFORMITY

## NEW C. P. R. ISSUE.

One Share of New for Five Shares of Old Stock.

## CLEVER SCHOLAR DIES.

W. E. Moore Passes Away After a Lingering Illness.

Montreal, March 19.—The shareholders of the C.P.R., at a special general meeting held here at noon today, unanimously ratified the proposal of the directors to increase the capital of the company by \$400,000, thus bringing it to a total of \$150,000,000.

Mr. Thomas Shaughnessy, the president, who presided, made the important announcement that it was intended to make an immediate issue of \$5,000,000 of old stock at present in the treasury and \$1,680,000 of the new capital, making a total of \$20,280,000.

In addition, the first announcement was made of the fact that the amount to be secured from the sale of new stock, and which would be used entirely for improvements and additions, would be supplemented by the directors by \$5,000,000, to be taken from the surplus earnings account, and after deducting this amount these surplus savings would be \$13,667,446.

It was also decided that the new issue should be made at the rate of one share of new stock for every five shares of old stock, and that the first payment of 20 per cent. should be made on May 26, 1906, and thereafter every two months till Jan. 26, 1907.

This new stock, if fully paid up, will rank for dividend on Dec. 31, 1906. As indicating the increased interest the shareholders were taking in the affairs of the company, Mr. Thomas stated that a much larger number of proxies had been received in proportion to the capital of the company than for any previous meeting.

Reduction of grades and general improvements of the line had cost \$13,000,000, while the enlargement of terminals at the more important points, increased siding, yard and station accommodation over the greater portion of the system, and other works for facilitating the movement of traffic, involved a further outlay of over \$10,000,000, said the president, and yet some of the important works originally contemplated had been necessarily postponed in order that others made indispensable by the greater port development of business might be executed.

Judge Winchester at the general sessions yesterday announced the postponement until next Saturday of sentences upon those convicted of various crimes, and yet some of the important works originally contemplated had been necessarily postponed in order that others made indispensable by the greater port development of business might be executed.

## GERMANY'S RAILWAY RATES COMPARED WITH AMERICA'S

Some Interesting Facts and Figures—Electricity to Help Two Cent a Mile Fares.

W. E. Curtis writes as follows in The Chicago Record-Herald:

Passenger rates in Germany are lower than in any other European country, and, probably, than anywhere else in the world; and they are fixed by the government. There are distinct rates for fast and for slow trains, for express trains and for local trains.

The following are the rates on express trains:

First-class, 2.14 cents a mile.  
Second-class, 1.32 cents a mile.  
Third-class, 1.11 cents a mile.

The following are the rates for slow local trains:

First-class, 1.90 cents a mile.  
Second-class, 1.48 cents a mile.  
Third-class, .9 cents a mile.

There is also a fourth class still lower and, as a matter of fact, which is still cheaper, but it is the first and second class rates only in which Americans are interested.

On all the German roads, especially those belonging to the government, there is very little difference between the first and second class accommodations. The carriages or cars for the former are little more luxurious; the seats are upholstered in leather instead of the heavy velvet.

An ordinary passenger would never know whether he was in a first or a second class car, however, and really the only advantage of being in the former is that he is always sure of having plenty of room.

Very few people, however, travel first-class, and Americans—travel first-class, is a familiar adage, and hence the compartments are never crowded, and it is often difficult to get seats in second-class carriages and families are frequently compelled to be separated.

Comparisons.

It is interesting to compare passenger rates in Germany with those of the United States for corresponding distances. I have not had time to do it thoroughly, but the morning I left for Berlin, the Pennsylvania ticket agent gave me the lowest rates to several points in this country, and these in Germany were obtained at a lower rate.

Washington to Philadelphia, 128 miles, first-class, \$4.00; second-class, \$3.00; third-class, \$2.00.

Washington to New York, 223 miles, first-class, \$7.00; second-class, \$5.00; third-class, \$3.50.

## RAILWAY LABORERS WANTED IMMIGRANTS WRONG CLASS

Contractor of Track Workmen Inclined to Censure the Government's Policy.

Also the influx of immigrants into Canada is the greatest in years, it is by no means sufficient to supply the demand for railway labor.

One of the contractors who is working hard to secure men rails against the Dominion government's immigration system, and, also, a good Liberal.

The class of labor sent out is of very little benefit to the country and is only sent to serve farmers for a few months.

He admits there are plenty of mechanics arriving every day, but none of them are any use for bridge building. What he wants is the immigration department to do is to send out men of experience, who will be of some use in building up the country.

## COCKFIGHTERS ALL FINED.

Proprietor Pays \$50 and Lesser Offenders \$5 Each.

Montreal, March 19.—Probably never since the erection of the Montreal city hall has there been such a crowd as gathered at the recorder's court this forenoon.

Not only was the courtroom crisscrossed to close on suffocation, but the large hall of the building, crowded with a crowd of hundreds of more or less interested men, who ranged out to the square, and had to be kept a move by a mounted constable and a number of police.

That so many were gathered together at such a central point of the city at an affair of the kind is generally accepted as a proof that the cocking man is by no means so seldom on the Sunday's program of Montreal as is supposed, and the large number of birds seized seems to support the suggestion for not every man cares to go to the expense of keeping a pair of cockfighters if there is no opportunity of taking part in a main, and of making a few dollars on the side as recompense for the trouble.

All of the accused pleaded guilty as they were filed in front of Recorder Prior in batches of three and four. Daniel Donnelly was charged with two counts of cocking, and was fined \$10 each, and the others were called upon to lay down \$5 each.

The court treasurer has not done such a satisfactory day's business in his appointment. The fines will aggregate over \$600.

## ACCUSED OF MANY THEFTS.

Brooklyn, March 19.—(Special).—Michael Hogan, an old man, was lodged in Brooklyn jail today on a charge of burglarizing W. J. Murphy's Hotel at Portland, Me., where he was charged with the theft of a large sum of money.

A branch of the Imperial Bank of Canada has been opened in the town of Red Deer, Alberta, under the management of W. P. Bell, formerly of the bank in Calgary.

Branches of the bank will be opened in the cities of Quebec, P.Q., and London, Ont., in the course of a few weeks. Premises are now being prepared for occupation. A branch is in the course of being opened at Banff, Alberta.

## What Liquezone Can Do for You—and It Is Free.

You are waiting—we ask you again to try Liquezone; to try it at your expense. You'll regret this delay when you learn what the product means to you.

Do as millions have done—stop doubting; give Liquezone a test. Then judge it by results. Germ diseases—these are in the blood, and the high class direct the making. The result is to obtain from these harmful germs a powerful tonic-germicide.

The great value of Liquezone lies in the fact that it is deadly to germs, yet harmless to you. Germs are of vegetable origin; and this gas-male product, when absorbed by them, stops their activities. We publish an offer of \$1000 for a disease germ that it can not kill. But to the body Liquezone is an exhilarating, vitalizing, purifying, it is helpful in the extreme.

## A HOUSE DIVIDED.

Chancellor Boyd Decides a Disputed Will Issue.

Chancellor Boyd in single court yesterday was asked to decide about the ownership of the farm owned by the late Hiram J. Manhard of Elizabeth town, Leeds County. The farmer left the house to his daughter, Mrs. Elva May Sturgeon, and the furniture to his second wife. In addition to the stipulation that all the comforts of home be provided for the remainder of her days.

"The question is," said D. C. Ross, for the step-daughter. "What is sufficient to satisfy the will. We think that two rooms ought to be sufficient. The widow, however, demands the entire house, to her exclusion."

"Each party is entitled to a home in the house," said the chancellor. "Neither party is entitled to exclude the other. Each is entitled to half of the house and half of the net proceeds of the farm. If the farm is rented then half should go to each party. You will spend all your property in the feeling lawyers to find out what comfort means, and if you do it will not be much comfort to you."

## IN THE SESSIONS COURT.

True Bill by Grand Jury in a Loan Agent's Case.

Abinal Adamy, the Syrian who was brought from Buffalo to answer the charge of stealing \$781 worth of goods from Salem Shevch of West Kingston, was declared guilty by a jury of the sessions yesterday. Judge Winchester reserved judgment until Saturday.

The grand jury returned true bills against H. C. Kehr, on the charge of obtaining a chattel mortgage from Martin Lyon by false pretences; and Hobart Wood, thief of an overcoat and fur cape from Thomas Cooper.

Banwell's trial will commence tomorrow.

## LOST TWO FINGERS IS SUNG FOR \$2000

The action of John Martin against Robert Cowan for \$2000 was commenced in the sessions yesterday. Both are farmers in the Township of Scarborough. While moving a corn cutter plaintiff's hand was caught in the machinery. He lost two fingers and claims defendant was to blame for the accident. James Banwell and H. L. Mulock are acting for Martin and Mulock & Co. for Cowan.

## Against Higher Licenses.

At a largely attended meeting on Sunday afternoon of the West End Temperance Society, a resolution was moved by Rev. T. Colwell, seconded by A. G. Martin, and carried by a unanimous standing vote, calling on all the various denominations throughout the city to oppose the granting of higher licenses. "Believing that it will result in increased drunkenness and misery in the homes of those who pay the taxes and fill our jails and prisons, which are now overflowing with the finished work of the rum-sellers."

## What Liquezone Is.

The virtues of Liquezone are derived solely from gases, by a process requiring large apparatus, and from 8 to 14 days' time. No alcohol, no narcotics are in it. Chemists of the highest class direct the making. The result is to obtain from these harmful germs a powerful tonic-germicide.

The great value of Liquezone lies in the fact that it is deadly to germs, yet harmless to you. Germs are of vegetable origin; and this gas-male product, when absorbed by them, stops their activities. # The Coffee Debate.

The published statements of a number of coffee importers and roasters indicate a "waspish" feeling towards us, for daring to say that coffee is harmful to a percentage of the people.

A frank public discussion of the subject is quite agreeable to us and can certainly do no harm; on the contrary, when all the facts on both sides of any question are spread before the people they can thereupon decide and act intelligently.

Give the people plain facts and they will take care of themselves.

We demands facts in this coffee discussion and propose to see that the facts are brought clearly before the people.

A number of coffee importers and roasters have joined a movement to boom coffee and stop the use of Postum Food Coffee, and in their newspaper statements undertake to deceive by false assertions.

Their first is that coffee is not harmful.

We assert that one in every three coffee users has some form of incipient or chronic disease; realize for one moment what a terrible menace to a nation of civilized people, when one kind of beverage cripples the energies and health of one-third of the people who use it.

will startle you and give your friend something to think of. Of course, if you are one of the weak ones and say, "I can't quit," you will have discovered one of the slaves of the coffee importer. Treat such kindly, for they seek absolutely powerless states of the body and health.

Nature has a way of destroying a part of the body, the room for the stronger. It is the old law of "the survival of the fittest" at work, and the victims are many.

We repeat the assertion that coffee does harm many people, not all, but an army large enough to appal the investigator and searcher for facts.

The prevention of the coffee importers and roasters is their statement that Postum Food Coffee is made of roasted peas, beans or corn, and mixed with a low grade of coffee and that it contains no nourishment.

We have previously offered to wager \$100,000 with them that their statements are absolutely false.

They have not accepted our wager and they will not.

We will gladly make a present of \$25,000 to any roaster or importer of old fashioned coffee who will accept that wager.

perly educated physician, chemist and food expert.

Please remember we never say ordinary coffee hurts everyone.

Some people use it regularly and seem strong enough to withstand its attacks, but there is misery and disease in store for the man or woman who persists in its use when nature protests, by heart weakness, stomach and bowel troubles, kidney disease, weak eyes, or general nervous prostration.

The following will show the actual average receipts per passenger per mile of all the 21,000 miles of railway in this country.
