The foregoing figures show the latest returns of applications made to the hydro-electric power commission for electric power. The amount is about double what was estimated in the reports laid before the legislature last session when the corporation emissaries loftily alluded, to Hon. Adam Beck's project as a dream to which the municipalities would not respond.

Further applications arrive daily, and it is clear that the whole country is aroused. Semi-somnolent politicians of all ranks and spheres feel the vibrations from their elbows and wrists, and are preparing to genuflect in new directions. The latest figures handed out by the power commission on the prices of power are of the highest importance, and should be carefully considered by those interested, and by ratepayers generally.

Toronto especially is in a favorable position, but it should be clearly understood that Toronto can go on with a city power scheme quite independently of other municipalities, and that they can go on quite independently of Toronto, also in combination the mutual advantages are very considerable.

When an estimated demand for power was set at 80,000 horsepower, Toronto's 30,000 pulsed large. When the demand exceeds 113,000, and continues to grow, 36,000 is not an embarrassing factor one way or the other.

The board of control deferred consideration yesterday of the model by-law. It will be taken up to-day after being properly certified by A. F. Lobb. In a brief informal discussion, Controller Jones said the city would have to erect a distributing station after striking an agreement with the commission, but the mayor replied that the city would only have to provide the wiring, and that horsepower would not be a problem.

## McGILL M.D. IN PARIS MYSTERY

Shot at Three Times While Signing Receipt for Debt.

(Canadian Associated Press Cable.) London, Nov. 21.—Enquiries at 14 York-place, London, the address given by a doctor named Hebert, or Herbert, who stated he was shot under sensational circumstances by a man named Cesbron, by whom he had been invited to stay at his house in the Village of Beaulieu, near Fontainebleau, elicited that it is occupied by Paul Zodiague Herbert, M. D., of McGill University, Montreal. Cesbron, it is stated, owed Herbert \$200, and fired three shots while Herbert was signing a receipt for the debt. Fortunately Herbert escaped the lamp, and in the darkness, escaped from the villa.

Mysterious circumstances connected with an alleged matrimonial agency are being investigated by the Paris police, who question Herbert's medical qualifications. Herbert was not seriously wounded. Cesbron escaped, but was arrested. His real name is Guerin.

## OCEAN LINERS COLLIDE 9 FATALITIES REPORTED

Kaiser Wilhelm der Grosse and R.M.S. Orinoco in a Bad Accident.

Cherbourg, France, Nov. 21.—A despatch received here reports that the North German Lloyd steamer Kaiser Wilhelm der Grosse, which left Southampton and Cherbourg for New York to-day, was in collision with the royal mail steamer Orinoco.

Both vessels were severely damaged. It is declared that four members of the crew of the Kaiser Wilhelm were killed, while 12 were injured. Five members of the crew of the Orinoco are missing and are supposed to have been drowned.

The Orinoco left Southampton to-day for West Indian ports and New York.

## HAMILTON WORKINGMEN DEPRIVED OF THEIR VOTE

Party Leaders Decide to Do Without Registration—Studholme Will Suffer.

Hamilton, Nov. 21.—(Special.)—Allen Studholme, the Labor candidate, and the workingmen of East Hamilton are just beginning to discover that they have been tricked by both political parties.

The Liberal and Conservative leaders got together and agreed not to hold a registration court, but to conduct the election on the voters' list used at the last general election.

That means that hundreds of workingmen in the riding, who have been pouring in since the general election, have been disfranchised.

If these men could vote, Mr. Studholme figures that his election would be a certainty.

## JURY JUSTIFY THE KILLING.

Say That William Slater Took Life to Save His Own.

Port Arthur, Nov. 21.—(Special.)—William Slater, who was on trial before Judge Mabey, charged with murder, was discharged. He killed the man in self-defence.

Since he has been in confinement here, since June, Slater has been an exemplary prisoner and he frustrated attempts at escape after alleged murder. Slater killed young Lester in June.

## RUNNING RIGHTS, OR BUILD FOR GOVERNMENT ROAD TO NORTHBAY

What Your Representatives Have to Say on the Necessity of Public Owned Transportation and Communication Facilities—Should Be No Delays.

No opposition could be met among the gentlemen who were reached by The World yesterday in its search for opinions of public men on the proposed extension of the provincial railway north and south from Cobalt, so as to form the nucleus of a provincial system. After all, says Mr. McNaught, the T. & N. O. is only a stub line as it is. No railway, said an American writer recently, can ever amount to anything that starts nowhere and ends nowhere. It must start somewhere and go somewhere. That is to say, it must have natural terminals and not mere transfer stations. With such objective points as Hamilton and Toronto in the south and a Hudson Bay port in the north, the provincial road would form the nucleus of a system which might easily reach out over other areas of the province furnishing itself with feeding lines and gradually extending the benefits of public ownership to the whole people.

The telephone system is at present so much the despair and the worry of business men that almost any suggestion for improvement is hailed with delight. The practical and practicable policy of speedily achieving direct communication between Toronto and Cobalt is so obviously the proper thing that no one who requires a telephone service seriously questions it.

Even the Bell Telephone Company in unwieldy corporation fashion, and aware of no competition, is lazily dragging its spider-legs northwards. The government should be prepared with a policy to connect Toronto and Cobalt by telephone just as soon as it can be done. While it may not be possible to begin before winter sets in, everything should be in readiness for the first glimpse of spring.

Whether the government should bridge the telephone gap from North Bay to Huntsville only, or build all the way to Toronto, may depend on the diligence or the pliability of the Bell Telephone Company.

Premier stands on his record. The interviews that follow indicate that public ownership of railways and electric communication is not an academic question. Premier Whitney is naturally reserved, but if his words mean anything, he is ready to do what he will get what they want.

Premier Whitney: The policy of the government is well understood, and our attitude towards the right thing if the electric question. Premier Whitney is naturally reserved, but if his words mean anything, he is ready to do what he will get what they want.

W. K. McNaught, M.L.A.: I am very heartily in support of the idea. The first thing is to get the railway through. It is a big job to build a railway to North Bay. The government should get running rights the same as the C.P.R. over the G.T.R., and then extend the line as fast as possible to the bay. It would be good thing if the government owned a railway from the bay down to Hamilton, or where you like, to the point where the T. & N. O. is only a stub line after all. It would take a couple of years to build, and time is the essence of the contract. The running rights would save expense, and the time is important. I am strongly in favor of any railway having its phones and wires at the disposal of the public. Giving a separate charter as they do now is a mistake. The easiest way is to use what you have in hand, but if that is not possible, build. Utilize what is built, of course, but I am strongly in favor as a matter of principle of the government owning the trunk lines. They should belong to the people. Whether the Dominion or then province they must fight it out. When they own the trunk lines then the municipalities should own the local services. We must allow the extension set by Manitoba. I quite agree with what Mr. Macdonell said the other evening. If we cannot make terms with the Bell Telephone Company we must duplicate their lines.

Government should undertake it. Thomas Crawford, M.L.A.: I certainly think it is the right thing. I hope the government will undertake the extension of the railway line from Toronto to Hudson Bay. I don't know, but I fear they will not get running rights over the Grand Trunk. Even if they could, which is doubtful, it is a question if the government should not have their own road. The people would like it. They have now put their hand to the plow, and the road that is built will not be so valuable if it is not extended to good terminals. They should give the people an idea of what it is to own and operate a road with proper connections. If it is undertaken the railway should control the telephone and telegraph as well on its own right of way.

## JAPAN, THE COMING FOE OF U.S. WILL SOON REACH PHILIPPINES

New York, Nov. 21.—A meeting of the Naval League, maritime section, was held this afternoon to urge an improvement in the condition of the naval reserve, and a greater navy for the United States.

Former Police Commissioner McAdoo and General Horace E. Porter advocated enlarging the navy. He declared that the country was on the fringe line between Asia and the new world, and that it was absolutely necessary to have a large navy to protect the United States' Philippine interests.

The speaker asserted that Japan, the leading power of Asia, would sooner or later, reach the Philippines. Under the Monroe Doctrine, the United States, he said, has 15,000 miles of coast to protect, which could not be done with half a navy.

## MAY MOVE TO OUST HYMAN CONSERVATIVE LEADERS PROPOSE DRASTIC ACTION

Ottawa, Nov. 21.—(Special.)—The leaders of the Conservative party are preparing for drastic action with regard to the Hon. Charles Hyman. No time will be wasted. The tonight no definite course had been arrived at, it is practically certain that tomorrow's parliamentary order paper will contain a motion relative to the minister of public works.

Two methods of forcing action on the part of the government are under discussion by the party leaders. One is to table a motion to have the London election scandal and the member concerned referred to the committee on privileges and elections.

The other is to move a straight resolution declaring Mr. Hyman to be an unfit and improper person to sit in parliament. It is anticipated that in view of Mr. Hyman's unpopularity on the government side, and particularly amongst the French-Canadians, the premier will be unable, if he so desired, to control the party vote.

It is stated here, however, that Mr. Hyman's "health" trip is nothing more nor less than a plausible excuse for his forthcoming resignation, which has been demanded already by Sir Wilfrid Laurier.

## SIFTON FOR LONDON

London, Nov. 21.—(Special.)—With the probable retirement of Hon. C. S. Hyman from public life, owing to the disclosures in the Toronto police court, a rumor, which seems to be well-founded, has been set on the go here, to the effect that Hon. Clifford Sifton will be offered the minister's seat.

There are several reasons why this ought to happen. Mr. Sifton is anxious to be back in the cabinet, the government is in sore need of someone of ability to lead the Ontario delegation, and Mr. Sifton is an old London boy. It is believed the party there would welcome his advent with enthusiasm, and wherever the prospect is discussed Liberals appear satisfied.

It is freely admitted that Mr. Hyman's trip to the south "for his health" is merely the preliminary to his resignation.

## GRAND TRUNK WILL BUILD RAILWAY FROM NORTH BAY

North Bay to a small percentage. This grade Charles M. Hays and Fourth Vice-President McGuigan are now inspecting.

It was noticed, since the advent of the C. N. O. R. and C. P. R. new lines, especially this year, that the Grand Trunk ceased to boost the Muskoka Lakes, substituting Temagami in their place. The business up to Temagami and the Grand Trunk have great hopes of this as a Mecca.

## TWO MONTREAL DIVISIONS ARE TRUE TO LIBERALS CURRAN RUNS WELL

Conservative in St. Anne's On 202 Behind, While Labor Candidate in St. Mary's, With Bourassa's Support, is Buried Under Majority of 1200.

Montreal, Nov. 21.—(Special.)—The Liberal party won St. Anne's division to-day by 202 majority, and although there were some disappointments, the result showed a good organization for Mr. Curran. The west ward gave 542 votes to Curran and 290 to Walsh. The centre ward 359 for Curran and 365 for Walsh, while in St. Anne's proper 1784 ballots were cast for Walsh and 1306 for Curran.

It was a good, clean fight, and while the Liberals were somewhat divided, the Conservative party was never in better fighting trim. The west ward held steadily to its allegiance, and the majority in St. Anne's for Mr. Walsh was a good deal less than obtained by Ald. Gailley at the general election.

The result down in St. Mary's was a surprise for Henri Bourassa and his friend, Lavergne. They have received a knock-out blow. At first the government wanted Ainey elected, and tried to have this policy prevail, but later on the Liberal clubs supported Ald. Martin with splendid effect, as his majority is about 1200.

The result in St. Mary's also proves that the workingmen here can never hold together very long at a time. Malsommeuve has not been repeated.

## WITH CLOTHES BLAZING GIRL JUMPS TO DEATH

Several Persons Also Injured in Flight From Windows.

New York, Nov. 21.—One person was killed and several others injured in a fire in a six-story building on the south side of Fifth-street, between First and Second-avenues, to-day. The building was occupied as a shirt waist factory and for the manufacture of its unnamable articles and about 300 women and girls were employed there.

Mary Buffa, 23 years old, jumped from a window with her clothing on fire and was killed. Charles Buffa, 34 years old, was so badly burned by jumping from a window that he will die. Several other persons who jumped from the windows were severely hurt.

## SECRETARY BRYCE TO GET VACANT WASHINGTON POST

Feeling That Only Man of Exceptional Weight Should Fill Embassy.

London, Nov. 21.—An interesting rumor was current in the lobby of the house of commons to-night to the effect that James Bryce, the author of the American Commonwealth, and now chief secretary for Ireland, is likely to be selected to fill the vacant ambassadorship at Washington.

No confirmation of this rumor can be obtained, and it is believed that the government has not yet even decided the matter, but this suggestion falls in with the growing feeling in high quarters here that the Washington embassy should be filled by a man of exceptional weight, who possesses, in addition to political influence, a sympathetic understanding of the American people and American affairs; such a man, in fact, as the United States for years past has sent to fill the post of ambassador in London.

It is felt that Mr. Bryce, as a statesman and litterateur of high distinction, is eminently fitted to meet these requirements.

A SOCIALIST CANDIDATE
IN FIELD FOR MAYORALTY
Robert B. Noble Will Be Nominated If Only to Support the Principle.

The socialistic wing in municipal politics is likely to be active again this year, and, as a result, the mayoralty will not be allowed to go by acclamation, as has been foreshadowed in some quarters.

It is understood that Robert B. Noble is to be the standard-bearer. Mr. Noble ran as an aldermanic candidate in ward six last year, and finished his race away back in the ruck with 191 votes, but he is seemingly no more discouraged by this, nor by the experiences of the adventurous Mr. Woodley, who for several years stood on the socialist platform in mayoralty contests.

Mr. Noble's most sanguine friends probably do not look for his election, but he would undoubtedly do much better in a mayoralty duel than in a three or more-cornered contest. He is to be nominated as a matter of principle, and to test the growth or otherwise of socialistic sentiment, as shown in the vote recorded.

It is also known that School Trustees James Simpson is seriously coming in his mind whether or not to try for a seat in the city council. If a candidate, Mr. Simpson would run in ward five. With the labor support, upon which he has every reason to count, Mr. Simpson would appear to have an excellent chance of filling one of the vacancies created by the announced retirement of Ald. Hay and the controlship aspirations of Ald. Dunn. There is certainly one opening, and, probably, two, but then retiring aldermen have been known before this to have changed their minds under the persuasion of "large and influential deputations."

Ald. McBride has, of course, announced that he will not run in this ward, but will stick to his old standing ground.

Peary at St. George's Bay. St. George's Bay, Nfld., Nov. 21.—The Peary Arctic steamer Roosevelt sailed at 6 o'clock to-night for Port au Basque, where she will coal and proceed to Sydney, N.S.

The Roosevelt, with the exploring expedition on board, arrived here Saturday short of fuel. The vessel took on eight tons of coal, all she could obtain, but not sufficient to carry her across the Gulf of St. Lawrence. Since landing the Roosevelt has awaited favorable weather to proceed. The steamer will touch at Port au Basque only to renew her coal supply.

TO SUBMIT A STRAIGHT CASE AS REGARDS 2-CENT FARE

Interesting Discussion in Police Court in the Charge Against G.T.R.

The parliamentary train—a penny a mile—may soon be in evidence on the G. T. R. The trial of Charles M. Hays, vice-president and general manager of the great railway, upon the complaint of William N. Robertson, that he, as such general manager, had disobeyed section 3 of chapter 2718, Vict., being the original act incorporating the Grand Trunk Railway, by omitting to "do it, to wit, to carry third-class passengers for the fare or charge of one penny for each mile traveled, and to provide that at least one train having in it third-class passengers shall on every day throughout the length of the line," proceeded yesterday morning before Col. Denison.

Hon. Wallace Nesbitt, K. C., who, with W. H. Biggar, K. C., of Montreal, appeared for the defendant, contended that such express penalty was provided by section 294 of the Railway Act, 1903, which reads as follows: "The company, or director, or officer thereof, or any receiver, trustee, assignee or person acting for or employed by the company, doing, causing or permitting to be done, any matter, act or thing contrary to the provisions of this or the special act, or to the orders or directions of the governor-in-council, or of the board or minister made hereunder, or omitting to do any matter, act or thing required to be done on the part of any such company or person, is liable to any person injured thereby for the full amount of damages sustained by such act or omission; and if no other penalty is, in this or the special act, provided for any such act or omission, he is liable for each offence to a penalty of not less than twenty dollars and not more than five thousand dollars, in the discretion of the court before which the same is recoverable."

Mr. Nesbitt contended that, under this section, the matter should be threshed out before a board and not before a magistrate. There had been a case somewhat similar recently in Quebec, tried before a board, and it was considered that the court had no jurisdiction. "So that the ordinary law may be paralyzed when special laws are made," suggested Magistrate Denison.

"No, but to prevent the law's delay, so that the commission can put their hand on the matter at once," the magistrate and Mr. Curry were of opinion that section 138 of the Criminal Code covered the case in the event of all specific penalties being fixed in section 294 of the General Railway Act. The section quoted by Mr. Nesbitt dealt Mr. Curry claimed, with injuries to individuals, if clearly did not refer to a right respecting which the whole public is interested.

"I suppose there is no dispute as to the fact that the statute is repealed by the General and Special Railway acts. It is no longer in force," acquiesced his worship.

"I mean it is no longer the law," explained counsel.

"And never was the custom," supplemented the court, and the case went over for a week, pending the submission of a statement of facts.

Mr. Robertson stated to The World reporter that he intended to file a transcript of the proceedings with the railway board at Ottawa.

HAMILTON HAPPENINGS

M.H.O. FINDS NO SMALLPOX IN STRIKE-BREAKERS' CAMP

Man Sick, But Not With the Dread Disease—Two Money Bylaws To Be Voted On.

Hamilton, Nov. 21.—(Special.)—The development in the strike situation was a sensational rumor—that smallpox had broken out in the strike-breakers' camp. Dr. Roberts, the medical health officer, has made an investigation, and found that the report is not true. He did find that one of the strike-breakers was ill, and his body was covered with a rash, but several doctors decided that it was not smallpox. The patient will be taken to the hospital for treatment. The doctor also found that the camp was in an unsanitary condition, and gave instructions that it must be cleaned up. Things are at a standstill until the Ontario Railway and Municipal Board arrives, to-morrow.

The first question the board will be asked to decide is whether the men are justified in going out on strike. Chief Ten Eyck wanted a \$40,000 central station and other improvements, that would cost \$105,000. Ald. McLeod, Allen and Clark will wait upon Engineer James McFarlane with regard to the charges against Engineer Barrow. Fireman Green was on the carpet for leaving his station and getting drunk. He pleaded guilty. The chief ordered him dismissed, but the committee gave him another chance. Building Inspector Anderson's report showed the value of buildings for which permits had been taken out this year amounted to \$2,124,816. He recommended the appointment of a plumbing inspector, and was instructed to prepare the bylaw.

THE CHURCH AND THE CRITIC

The Faith Must Be Preserved No Matter What the Cost.

Concord, N.H., Nov. 21.—The chief feature of the one hundred and fifth annual convention of the Protestant Episcopal Diocese of New Hampshire in this city to-day was the address by Bishop Niles, who made the following reference to the Crapsey trial: "I pity the man who can bring himself to go on destroying his innocent followers' faith in the church, which he has solemnly declared to be 'the Word of God.' But if he can do that dreadful work, can the church allow him to do it as her officer? Can she consent to do it thru him? A thousand times no. Be the trouble, the difficulties, the pain of an ecclesiastical trial what they may be, the church has no option. She must keep the faith and protect her children from being robbed of their."

FIRE ENGINE TESTED.

"J. J. Ward" Proves Itself To Be a Splendid Worker. The new Waterloo fire engine, the "J. J. Ward," was "worked out" yesterday at the foot of York-street, and circumstances proved itself, as Chief Thompson says, the best that the city has yet had, so far as mechanical excellence is concerned.

The "J. J. Ward" has a capacity of 300 gallons per minute, and is installed in Cowan-avenue station next week. It was an exhibition drill at the protection of Parkdale business concerns.

Among those who watched the test were Mayor Waterous of Brantford, Chairman Fleming of the fire committee, W. R. McCurdy of the Halifax Herald, and Mr. Cameron, local representative of the engine works. Controller Ward was not present to see his namesake perform.

Later in the afternoon Mr. McCurdy witnessed an exhibition drill at the headquarters of Aerial 1, and expressed his astonishment and delight at the efficiency and general businesslike performance with which the big ladder was raised. He also paid high compliment to the appearance of the city's fire-makers, and the equipment and conduct of the department.

KILLED IN BUILDING WRECK.

Collapse of Structure at Rochester Finds Many Victims. Rochester, N. Y., Nov. 21.—A fatal accident occurred this forenoon at Eastman Kodak Park Works on the corner of Boulevard, in which three men were killed, eight seriously injured and six slightly injured. The dead have been identified as James Burns of Rochester, Earl Cleveland of Auburn and B. C. Casemack of Rochester.

The men were at work on a scaffold near the top of a two-story building. The probable cause of the accident was the removal of the supports of the steel flooring before the concrete had properly set.

About twenty men were on the upper floor when it gave way. The roof and walls tumbled in with a crash. Hotel ruins, making the number of known dead up to five, namely, the Muscutter brothers, Robert Johnston, W. N. Robinson and the unknown found last night.

A Drop

No occasion for anyone to  
be cold or shabby with  
such coats as we're selling  
this week for less than  
they cost to make. All we  
ask is that you see the

want one. Special lots of  
that sort never last long.

With materials and work-  
manship costing more such  
value is really sensational.

FIELD TRIALS CLUB.

Officers Elected at Ruthven-Rain  
Delays the Derby.

Ruthven, Nov. 21.—Rain prevented the  
start of the Derby until the afternoon, and  
the races were run off. The first race, boys  
Echo and Athene went fast and wide, Athene  
flushed a boy. No other bird worth  
was done by the brace.

In the second race, Fly and Annie  
went with very good speed and range.  
Annie flushed a boy. A number of birds  
were flushed by both puppies, but no points  
were scored.

The trials will be continued to-morrow.  
The Derby will probably be finished in the  
morning of which the first race will  
be started.

The annual meeting of the club was  
held at the Stewart House. The officers  
elected were:

H. Marshall Graydon, president; Thomas  
H. Marshall, first vice-president; W. B. Weiss,  
second vice-president; L. H. Smith, hon.  
secretary; J. D. Patterson, hon. treasurer;  
Dr. Campbell, J. C. Stegman, J. B. Dale,  
E. C. Smith, H. H. Whitten, committee  
managers.

The treasurer's report showed a balance  
of \$225, with all debts paid. Twenty-five  
members were reported to be present at  
the meeting.

While in England Mr. Murray will  
select the coach and trainer, who will come  
to America to put the finishing touches on  
the team. The project has won the hearty  
approval and support of the soccer players  
in the United States.

Mr. Murray's intention to meet  
the committee of the British Association  
Football League and arrange all the minor  
details. The match will be played—  
probably at the Crystal Palace ground, Sat-  
urday preceding the final English cup match.

The exact date is not known, it will  
be played about April 7.

It can be seen that the Globe-Democrat  
takes the match quite as an established  
fact. It is the only newspaper in America  
which has taken any interest in the  
proposed match.

Mr. F. J. Wall, the secretary of the Foot-  
ball Association, when seen by an Express  
representative recently, was unable to shed  
any light on the phantom game. In fact,  
he expressed himself rather staggered by  
the news that the match was to be played.

"I have never heard anything of the  
proposed match," said Mr. Wall, "I have heard  
nothing in the newspapers, and I know Mr.  
Murray by name, but not personally. Of  
course, if it were an amateur test between  
the countries, leave to play the game would  
be obtained from the F.A. Naturally  
similar course would have to be adopted  
were it the intention of the English Foot-  
ball League to arrange such a game.

"The Melbourne Cup, which is the  
American paper," he continued, "it is the  
league they are driving at. But either as  
an official or as a private person, I can  
assure you I have heard nothing about  
anything so far."

Thinking that the match might be the  
outcome of the Corinthians' tour in Amer-  
ica, The Express representative also saw  
one of the gentlemen on the committee of  
the "amateur cup." He was quite as  
much in the dark as Mr. Wall.

They are so very keen on the game in  
the United States, it seems a pity to dis-  
appoint them. It is a long time before  
next April, and probably before then some-  
thing may be done. The idea seems an ex-  
cellent one, and if the Americans can be  
entertained enough to imagine a game in  
existence, as they have already done,  
they might arrive at making it an estab-  
lished fact. Meanwhile, where is Mr.  
Murray?

5-4 in High School Rugby  
League—Finals Fixed.

The Mulek game yesterday between  
Vice and Junior School was one of the  
hardest fought games played in a good  
many years. There was no scoring in the  
first half and not till two minutes before  
time when Allison kicked to Morrison,  
the latter being forced to receive, was there any  
scoring done.

A regrettable accident happened in the  
last half, when Allan, the quarter, fell  
from the field, and the game was broken  
during a scrimmage. Harston took his  
place at quarter.

THE FORWARD POLICY. The World sometimes wonders whether the people of Ontario, and especially the electors of Ontario, have realized the marvelous development that has come to this province—its enormous wealth, its still greater possibilities, and the newer and higher, and, we trust, cleaner, politics, that have come to it and are to come to it.

There is no parish politics in this province to-day if the people like to play the bigger and the greater game. They have the opportunity of carrying out the great new twentieth century principle of public ownership as applied to all of the distribution of electrical energy all over this province.

They have the opportunity of inaugurating a great telephone and telegraph service in connection with this railway, and of gradually extending it in every direction.

They have the opportunity of enabling the different municipalities to join their local telephone systems with this provincial telephone system. They have the opportunity, by controlling the electrical power at Niagara Falls, to regulate the freight rates of the Grand Trunk and the Canadian Pacific and every other railway system that crosses Ontario.

Furthermore the province has the power of compelling all kinds of companies and corporations to obey the law by reason of the sovereign powers of enforcing the law conferred upon the attorney-general. The province has supreme and sovereign powers in regard to taxation, and it can compel any corporation to pay the public fairly, no matter whether it is a Dominion corporation or not.

In Mr. Whitney, whether we have in all his colleagues or not, a thorough-going champion of honest administration, and most of all, of the conservation and enlargement of public rights.

It remains for the people of Ontario to say whether they desire this forward policy or not, and it is for the people of this province, on every occasion, to take pledges of their representatives in the legislature, and of their representatives in the municipal councils in this respect.

As for the public press, we have only this to say, that the public press is supposed to be the organ of its patrons, who buy it on the streets, or who take it into their houses.

OBEDY THE LAW. A very significant thing occurred in the Toronto police court yesterday. A citizen appeared before Magistrate Daniels and asked him to enforce the law against the Grand Trunk Railway.

And he is enacted, that the gauge of the Grand Trunk Railway shall be five feet six inches; and the fare or charge for each first-class passenger by rail on the said railway shall not exceed two pence currency for each mile traveled.

Section six (vi). And whereas it is expedient to secure to the poorer class of travelers the means of traveling by railway at moderate fares, and in carriage in which they may be protected from the weather, it is enacted, that on and after the second day of January next, all passenger railway stations which shall have been incorporated or which shall hereafter be incorporated, or which by any act of the legislature shall be so incorporated, shall be provided with seats, and shall be protected from the weather, by a canopy, subject to the approval of the board of the committee of public council for trade and plantations.

There never was a time in the history of Canada when such an opportunity for higher politics, for cleaner politics, and for greater politics, was offered to any section of the federation. All it wants is for the people to recognize their great opportunity—to insist on every man in a representative position having a thorough appreciation of the responsibilities of his office, and the sacredness of the trust that he holds for the people.

The magistrate's decision was in favor of the enforcement of the act, while Mr. Hays is under liability to punishment for refusing to obey the law, the magistrate has consented to an appeal being taken from his decision.

Things are very different in Canada from what they are in England. No matter what the law is there, it is enforced by the authorities. Here there is no effort, apparently, by executive officers, to enforce this law, notwithstanding that we have a minister of justice who is attorney-general for the Dominion, at Ottawa, notwithstanding that we have a railway commission at Ottawa, specially charged with enforcing the railway act and all the other acts that come under its jurisdiction.

### MARKET MONOPOLIZED

BY TRETHEWEY DEALINGS

Another Strong Movement in These Shares—Green-Meehan in Better Demand.

World Office, Wednesday Evening, Nov. 21. The local mining market was dominated entirely by the transactions in Trethewey stock today. The price of this issue closed at 100, having advanced at about 2 1/2 this morning. There was an overwhelming accumulation of over-night orders that gave buyers a busy time to get filled. The price went up about 10 cents higher than the close and steadily advanced to 100. The reaction was reached. Much of the day's buying was done on the New York account, as the shares were more readily obtainable here than there. No new announcement was made to-day regarding the property, but it is expected among those who are in close touch with the big holders of stock that some statement as to purchase for control will be made this week. The market outside of Trethewey showed considerable activity, but there was much in-and-out trading among floor brokers and most of the purchases were relinquished to the market and were not immediately forthcoming. This was accounted for slightly lower prices towards the close of the market. The statement issued by the Green-Meehan president caused a much improved demand for this stock and several thousand shares were dealt in. Peter and Silver Queen were inactive in the market, however. Lead was less buoyant today, but a free absorption of all offerings is reported. The close was steady with holders in a favorable position.

### ANNOUNCEMENT

Owing to the recent discoveries and development on the

## GILPIN

Cobalt Mining Company's property, the stock will be advanced on Nov. 26th, and only a small amount of stock will be sold and the subscription list closed.

We have recommended this to our clients and the public as one of the best purchases to be made in Cobalt today owing to its low capitalization, which is \$500,000, in shares of \$1 each, of which 150,000 shares are still in the treasury. The company owns and controls 120 acres of the best land in Buckle Township, in the mineral belt. They have uncovered seventeen veins and are sinking two shafts, one down 30 feet, the other 15 feet, at which depth some very rich vein matter has been struck, which is creating the above advance. The men on the property are there for the winter and shipments should commence before the 1st February. The shares on merit are worth \$5.00 each, instead of \$1.00, the present selling price. The Meehan-Green and the Red Rock properties are both in Buckle Township and have proved very rich mines.

If you want to make money quickly we have a few more shares left of our allotment at \$1.00 per share. Address—
