RETALENTATION SUGGESTIONS.

The Sault Ste Marie Courier gives the Government some timely advice in regard to certain industries in which the Algoma people are directly interested. In the commercial warfare that is about to ensue between the Courier points out that the latter is by no means master of the situation. The United States, it is pointed out, must look to Canada for a considerable proportion of the raw material in the manufacture of lumber, paper, while our nickel, fish and other industries are a heavy tributary to a wide range of American industries.

Now let us expand this a little. A railway is built by speculators getting a railway to sell. They stock the road in the position to take up all the coal lands in the Kootenay district, which amount in the aggregate to 200,000 acres. The C. P. R. is at present legally authorized to go on with the work of construction. The only power that can question their right to proceed is the Dominion Government, which may, if it sees fit, veto the British Columbia Act of 1896, extending the time for completing the various sections.

It is not the crumb on the sidewalk which all the fun was. Inside, we suppose, it was all business. The doors were thrown open and quite a number of people were seen to enter. The Hon. Mr. Cavendish of Rosedale and a colored lady, Mrs. Lincoln Washington Jones, weighing 300 pounds, who keeps a boarding house on Trinity-street, arrived at the scene of the crime. He could not stand the pressure, and what was more, Mrs. Lincoln Washington Jones bought the face she, yes, the crush was awful. One young lady from Hamilton was trodden under foot. In fact, she was picked up for dead. A lady handed her a smelling bottle and some chewing gum. She slowly opened her eyes and gasped: "I have all the fifty-cent buttons gone, that were ticked 25 cents."

When she found there were some left she rapidly recovered. You could see the Hon. Mr. De Vere Duncanson Jones struggling alongside an old workman, while Lady Mary MacKenzie Cathcart shivered and pushed against Miss Maguire from the Noble Ward.

It was a thoroughly democratic crowd. Several ladies, when they saw the special bits of finery they were after disappeared from the windows, faint. The ambulance was kept on hand in case of emergency.

They are not using bands of music just now to draw the crowd. They are using great big policemen to keep the crowd back. We suppose the folks know a good thing when they see it.

WILL ENTER A PROTEST. North Ontario Conservatives so Decided Yesterday at Beaverton and Put Up the Money for the Purpose.

Beaverton, Ont., March 8.—A large meeting of the Liberal-Conservative of Thorvald, Mads and Beaverton was held in Alexander Hall, Beaverton, this afternoon. Addresses were delivered by Philip McCrea, chairman; Hugh Wilson and W. H. Hoyle, Channing; Major Sam Hughes of Lindsay; Robert Blomquist of Toronto; W. S. Bell, Thomas Trevelyan of Beaverton, and others.

The following committee reported favorably on entering a protest against the return of the Reform candidate, Messrs. George Thompson, Thomas Trevelyan, T. C. Hodgkinson and Jas. Duncan of Beaverton; D. Gillespie, Alex. McNeil, T. Hodgkinson, W. Osborne, Thomas Francis, Peter McDonald, Alex. McNeil of Thorvald; and Philip McCrea, D. Bruce, H. Furniss, T. Morgan, Joseph Clutcher and W. McCrea of Beaverton. The necessary funds were promptly raised. Resolutions were adopted, congratulating Queen Victoria on her long and prosperous reign, condemning the conduct of Government officers in the recent election, pledging loyalty to Angus McLeod, expressing confidence in Sir Charles Tupper, and pledging loyalty to Hon. John Haggart, Dominion leader for Ontario; J. P. Whitney, leader of the local Conservative Opposition in Ontario; and Major Sam Hughes, M.P., chairman for the Midland Counties district.

The annual meeting of the Millers and Manufacturers Insurance Company was held at the head office, Queen City Chambers, in this city, on 28th Feb. last. Mr. James Goldie of Guelph in the chair. In moving the adoption of the report, President Goldie was pleased to be able to state that the company had this year resumed payment of the policyholders. The position of the company had also been strengthened by the building up of the cash reserve to a point that would insure the regular continuance of the annual bonus dividend. The number of policies in force at the end of the year was 466, covering the risk, after deducting reinsurance, the sum of \$1,373,828.

In the course of his address, the president alluded to the rapid increase of incendiarism, and urged upon the Legislature at its present session to adopt the most stringent measures regarding it. The report was a most satisfactory one, it was worthy of praise and reflects great credit on all concerned.

Kingston Notes. Kingston, Ont., March 8.—The local bye-law committee met for the first time in Kingston in 1897. John Redmond, gardener at Rockwood Hospital for the insane, died on Sunday. He had been in service for 40 years. On Sunday, Mrs. Prof. Worth, driving to church, had her leg broken above the ankle.

Huron Arrives. Goderich, Ont., March 8.—The spring Assize for the County of Huron opened here this afternoon before Chief Justice Armour, James Lister, G. C. Barrie, sitting for the Crown. There was one criminal and 11 civil cases, but no cases of importance. The case Melancton v. Wolf, for seduction, a verdict for \$500 was rendered.

The Residents of the East End wait for a high level bridge over the Don we are afraid a big long wait in store for them. It will be many years yet before Toronto can afford to spend a quarter of a million dollars for any public work that is not absolutely necessary. A high level bridge over the Don would, of course, be much preferable to a low level structure, but the difference in cost is very large. The latter kind of a bridge will fairly well answer all the requirements of the traffic for years to come. We would advise the East Enders to accept the 66-foot low level bridge recommended by Mayor Fleming.

THE TRANSPORTATION PROBLEM. The two problems of supplement interest to the Canadian people these days concern, first, the settlement of uncultivated lands, and second, cheap transportation. Each is implicated in the other. We intend, however, to confine this article to an outline of the main argument of state construction and state control of the Crown's West Pass Railway, as the first and most important move in the solution of the transportation problem.

A mile of railway can be built these days for Ten Thousand Dollars. To pay 5 per cent on this investment and to pay interest on the loan, and 10 per cent on it, it must earn \$1000 a year above running expenses. A rival mile would cost other Ten Thousand Dollars. It, too, would have to earn \$1000 above running expenses. But if one mile would accommodate all the traffic, then it would be better to have one mile instead of the two miles rival of one another. For the two must then earn \$2000 a year to pay interest on the loan and tear, when \$1000 on one mile would do.

Now let us expand this a little. A railway is built by speculators getting a railway to sell. They stock the road in the position to take up all the coal lands in the Kootenay district, which amount in the aggregate to 200,000 acres. The C. P. She slowly opened her eyes and gasped: "I have all the fifty-cent buttons gone, that were ticked 25 cents."

When she found there were some left she rapidly recovered. You could see the Hon. Mr. De Vere Duncanson Jones struggling alongside an old workman, while Lady Mary MacKenzie Cathcart shivered and pushed against Miss Maguire from the Noble Ward.

It was a thoroughly democratic crowd. Several ladies, when they saw the special bits of finery they were after disappeared from the windows, faint. The ambulance was kept on hand in case of emergency.

They are not using bands of music just now to draw the crowd. They are using great big policemen to keep the crowd back. We suppose the folks know a good thing when they see it.

WILL ENTER A PROTEST. North Ontario Conservatives so Decided Yesterday at Beaverton and Put Up the Money for the Purpose.

Beaverton, Ont., March 8.—A large meeting of the Liberal-Conservative of Thorvald, Mads and Beaverton was held in Alexander Hall, Beaverton, this afternoon. Addresses were delivered by Philip McCrea, chairman; Hugh Wilson and W. H. Hoyle, Channing; Major Sam Hughes of Lindsay; Robert Blomquist of Toronto; W. S. Bell, Thomas Trevelyan of Beaverton, and others.

The following committee reported favorably on entering a protest against the return of the Reform candidate, Messrs. George Thompson, Thomas Trevelyan, T. C. Hodgkinson and Jas. Duncan of Beaverton; D. Gillespie, Alex. McNeil, T. Hodgkinson, W. Osborne, Thomas Francis, Peter McDonald, Alex. McNeil of Thorvald; and Philip McCrea, D. Bruce, H. Furniss, T. Morgan, Joseph Clutcher and W. McCrea of Beaverton. The necessary funds were promptly raised. Resolutions were adopted, congratulating Queen Victoria on her long and prosperous reign, condemning the conduct of Government officers in the recent election, pledging loyalty to Angus McLeod, expressing confidence in Sir Charles Tupper, and pledging loyalty to Hon. John Haggart, Dominion leader for Ontario; J. P. Whitney, leader of the local Conservative Opposition in Ontario; and Major Sam Hughes, M.P., chairman for the Midland Counties district.

The annual meeting of the Millers and Manufacturers Insurance Company was held at the head office, Queen City Chambers, in this city, on 28th Feb. last. Mr. James Goldie of Guelph in the chair. In moving the adoption of the report, President Goldie was pleased to be able to state that the company had this year resumed payment of the policyholders. The position of the company had also been strengthened by the building up of the cash reserve to a point that would insure the regular continuance of the annual bonus dividend. The number of policies in force at the end of the year was 466, covering the risk, after deducting reinsurance, the sum of \$1,373,828.

In the course of his address, the president alluded to the rapid increase of incendiarism, and urged upon the Legislature at its present session to adopt the most stringent measures regarding it. The report was a most satisfactory one, it was worthy of praise and reflects great credit on all concerned.

Kingston Notes. Kingston, Ont., March 8.—The local bye-law committee met for the first time in Kingston in 1897. John Redmond, gardener at Rockwood Hospital for the insane, died on Sunday. He had been in service for 40 years. On Sunday, Mrs. Prof. Worth, driving to church, had her leg broken above the ankle.

Huron Arrives. Goderich, Ont., March 8.—The spring Assize for the County of Huron opened here this afternoon before Chief Justice Armour, James Lister, G. C. Barrie, sitting for the Crown. There was one criminal and 11 civil cases, but no cases of importance. The case Melancton v. Wolf, for seduction, a verdict for \$500 was rendered.

The Residents of the East End wait for a high level bridge over the Don we are afraid a big long wait in store for them. It will be many years yet before Toronto can afford to spend a quarter of a million dollars for any public work that is not absolutely necessary. A high level bridge over the Don would, of course, be much preferable to a low level structure, but the difference in cost is very large. The latter kind of a bridge will fairly well answer all the requirements of the traffic for years to come. We would advise the East Enders to accept the 66-foot low level bridge recommended by Mayor Fleming.

THE TRANSPORTATION PROBLEM. The two problems of supplement interest to the Canadian people these days concern, first, the settlement of uncultivated lands, and second, cheap transportation. Each is implicated in the other. We intend, however, to confine this article to an outline of the main argument of state construction and state control of the Crown's West Pass Railway, as the first and most important move in the solution of the transportation problem.

A mile of railway can be built these days for Ten Thousand Dollars. To pay 5 per cent on this investment and to pay interest on the loan, and 10 per cent on it, it must earn \$1000 a year above running expenses. A rival mile would cost other Ten Thousand Dollars. It, too, would have to earn \$1000 above running expenses. But if one mile would accommodate all the traffic, then it would be better to have one mile instead of the two miles rival of one another. For the two must then earn \$2000 a year to pay interest on the loan and tear, when \$1000 on one mile would do.

Now let us expand this a little. A railway is built by speculators getting a railway to sell. They stock the road in the position to take up all the coal lands in the Kootenay district, which amount in the aggregate to 200,000 acres. The C. P. R. is at present legally authorized to go on with the work of construction. The only power that can question their right to proceed is the Dominion Government, which may, if it sees fit, veto the British Columbia Act of 1896, extending the time for completing the various sections.

RETALENTATION SUGGESTIONS.

The Sault Ste Marie Courier gives the Government some timely advice in regard to certain industries in which the Algoma people are directly interested. In the commercial warfare that is about to ensue between the Courier points out that the latter is by no means master of the situation. The United States, it is pointed out, must look to Canada for a considerable proportion of the raw material in the manufacture of lumber, paper, while our nickel, fish and other industries are a heavy tributary to a wide range of American industries.

Now let us expand this a little. A railway is built by speculators getting a railway to sell. They stock the road in the position to take up all the coal lands in the Kootenay district, which amount in the aggregate to 200,000 acres. The C. P. It is not the crumb on the sidewalk which all the fun was. Inside, we suppose, it was all business. The doors were thrown open and quite a number of people were seen to enter. The Hon. Mr. Cavendish of Rosedale and a colored lady, Mrs. Lincoln Washington Jones, weighing 300 pounds, who keeps a boarding house on Trinity-street, arrived at the scene of the crime. He could not stand the pressure, and what was more, Mrs. Lincoln Washington Jones bought the face she, yes, the crush was awful. One young lady from Hamilton was trodden under foot. In fact, she was picked up for dead. A lady handed her a smelling bottle and some chewing gum. She slowly opened her eyes and gasped: "I have all the fifty-cent buttons gone, that were ticked 25 cents."

When she found there were some left she rapidly recovered. You could see the Hon. Mr. De Vere Duncanson Jones struggling alongside an old workman, while Lady Mary MacKenzie Cathcart shivered and pushed against Miss Maguire from the Noble Ward.

A BIG FIRM CHANGES HANDS

Murray & Co. Buy Out Robert Walker & Sons.

STORY OF THE GOLDEN LION

Nearly Two Hundred Thousand Dollars Worth of Drygoods

Transferred to the Adjoining Firm on King-Street East Yesterday—The Money Paid Over and Possession Will Be Had in a Few Days—Meanwhile Murray's Sell Their Damaged Stock—Many of the Golden Lion's Employees Engaged.

To-day one of the oldest established business firms in Toronto—R. Walker & Sons—ceases to exist. The Golden Lion on King-street has had a reputation all over Canada for many years. It is now merged in the firm of W. A. Murray & Co., their old-time competitors in business next door west.

HISTORY OF THE FIRM

The firm of R. Walker & Sons dates back to 1826. Prior to this Robert Walker was engaged in Lawson's tailor shop, situated in King-street, where Nordheimer's music store now stands. Mr. Walker bought out his employer's business, and in conjunction with Peter Paterson erected a brick-fronted store to the east of the old shop. Drygoods were added to the tailoring business, and the firm became Walker & Paterson. In 1852 the premises were enlarged and the present building was erected. Then the firm became R. Walker & Sons.

UNSUCCESSFUL CHANGE

A few years ago the store was made a departmental one, the building being enlarged and refitted throughout. The business, however, was too strong and the business was not successful.

Mr. Fred Walker, now the founder, Mr. Herbert R. Walker, grandson, and Mr. R. J. Tackaberry, solicitor, are the members of the firm of Walker & Sons whose business was yesterday taken over by Murray & Co.

MCKINLEY'S MESSAGE

The British People Like His Reference to the Arbitration Treaty, but Fear His Protectionism.

New York, March 8.—Mr. Isaac N. Ford cables from London to The Tribune: President McKinley's reference to arbitration, while cordially welcomed here, has not disarmed criticism of him as a representative of anti-English tariff policies. He has recognized instantly that he may carry the treaty, which was virtually signed in Cleveland, remained in power, and with the chances of a general European war increasing every day.

The Standard Mercantile Agency of Toronto, Ltd.

This agency has decided to give special attention to the acquisition of management of their business. There is a wide field in this direction, and this concern, with its wide capital, has to carry on its business, must certainly achieve success.

A Newborn's Fortune

The Trust Corporation of Ontario yesterday applied for administration of the estate of a newborn child, who was killed in an elevator in New York. He and his brother were in partnership in selling papers, and they supporting the family together they had saved \$50,000, of which \$30,000 belonged to deceased.

THE FLURRY IN RAILS

A Western Man Says the Excitement is Over—Some Western Roads, However, Are Still Negotiating.

New York, March 8.—A representative of one of the large Western steel companies, who has been in New York the past few days, says that the flurry in steel rails is practically over. The big companies have made about all the contracts at low prices that they care to make, and are now moving upward. It is expected that large contracts were closed last week at prices from 50 cents to \$1.10 per ton, the same quality of rails could have been bought three or four weeks ago.

SIN IS TREASON

By Bishop Sullivan Told His Novitiate Congregation in St. James' Cathedral.

There was a large congregation at the spiritual society service yesterday. Bishop Sullivan's text was: "Sin is the transgression of the law." He said the transgressor is treason against God. When I was a schoolboy, some 20 years ago, I went to a court house in a small town in the South of Ireland to hear sentence pronounced on a few persons who had been found guilty of treason, and the sentence was that they should be hanged, drawn and quartered. The reason why treason was dealt so severely with treason against the Queen is that it is not simply like the act of murder—a blow made at a single moment in a momentary fit of passion, but a deliberate and premeditated act.

East Mainship Service

Editor World: I have read with interest the remarks of "Traveler" in your issue of March 7, and quite agree with him that it is a shame to allow the steamship Canada to leave the Canadian route. This steamer would have been a valuable and welcome addition to the Canadian fleet, and it is surprising that the Government should allow her to be withdrawn without apparently trying to retain her.

Woman's Aid Association

Mr. W. A. Langton will repeat his admirable lecture on "The Nature of Architectural Design," before the W.A.A. this afternoon at 8 o'clock, in the lecture hall of the Canada Life building. Those who were unable to hear it on the previous occasion should avail themselves of this opportunity. Prof. Wrong will occupy the chair.

A Good Act

Miss Mary Campbell, 38 Baldwin-street, on Saturday evening, while visiting her brother on Harrison-street, complained of illness, and in company with her sister went to Dr. Ida Lynde, 179 Dovercourt-road. When she arrived there she fainted and died a few minutes later from heart disease.

TEN YEARS SINCE

History of a Long Standing Malady Given in Lucid Words by Mrs. Albert Armstrong, Strong Harbinger Rev. Ben Hills, Ed. Tommerson, Ont.

Than Mrs. and Mrs. A. Armstrong there are probably no better known or more generally respected inhabitants of Tommerson, Ont. Mrs. Armstrong was engaged in farming on the York town line, between York and Scarborough, where he was born and brought up.

"Mentally I became very despondent, having a constant dread of something unforeseen about to happen. My sleep was poor and disturbed with frightful dreams. In fact my nerves were completely unstrung. I could not bear even the slightest noise. It was while in this condition that I got a box of Milburn's Heart and Nerve Pills, through the kindness of Mrs. Vanhorn of this place, at Mr. H. W. Love's store, corner Broadview and Danforth-avenues. Since taking them I have steadily and rapidly improved.

"My daughter has taken Milburn's Heart and Nerve Pills, which cured her for Mr. H. W. Love's drug store, corner Broadview and Danforth-avenues, and they have done her a great deal of good. She has been wonderfully benefited in her general health, and is a magnificent tonic for the system, and a wonderful relief for all nervous ailments. (Signed) Mrs. H. Davy, Don Mills-road, Tommerson, Ont."

Toronto Rug Works, 119 QUEEN-ST. EAST, TORONTO.

One of the many cases of rupture radically cured by wearing a Wilkinson Truss is that of Mr. J. McDonald, of 80 York-street (Rosalie House Block). To-day the loss must eventually be paid by the public, and that every member of the community must bear directly or indirectly his share of the tax; then perhaps, the people will begin to appreciate that the humblest laborer, as well as the wealthy merchant, is interested in reducing this terrible fire waste, by which our municipal, and national prosperity is being annually sapped.
