CAPT. DUFFUS TO COMMAND Five Hundred Especially Selected Royal Artillerymen Ordered to South Africa.

BERMUDA AND HALIFAX DRAWN ON. Boers Were Successful in Getting Away With Two British Guns at Brakenlodge.

Halifax, Nov. 4.—Orders were received from the War Office today to despatch to South Africa five hundred especially selected Royal Artillerymen, serving on this garrison without delay.

The recent reverses in South Africa, together with the little trouble at the War Office, have led to the despatch of the Boers to South Africa five hundred especially selected Royal Artillerymen, serving on this garrison without delay.

BOERS TOOK THE GUNS. Pretoria, Nov. 4.—It is now known that the Boers got away with the two guns captured from Col. Benson's column in the recent engagement near Brakenlodge, Eastern Transvaal.

BULLER'S HELIOGRAPH. London, Nov. 5.—The Daily Express, on the authority of Dr. Miller Maguire, a famous military coach, gives what it alleges to be the authentic version of the heliograph message sent by General Buller to General Buller during the siege of Ladysmith.

It is as follows: "I have failed. Unable to try again without siege operations, taking a month. Can you hold out so long? If not, I suggest you bring away as much ammunition as possible, and finally making the best terms. If you have anything alternative to suggest, I can remain here as long as you like."

Dr. Maguire, thru whose hands half of the orders of the British army have passed for study, professes to have acquired the information without seeking for it some months ago.

CAPE TOWN'S CHRISTMAS GIFTS. Cape Town, Nov. 4.—Cape Town is going to remember the guards in the block-house. The whole community is preparing Christmas comforts, and at the present time the movement promises well.

Some idea of the work before the committee in Cape Town will be gathered from the fact that if only one million be spent on the Cape Town, the best thing something like \$12,000 will have to be raised during the next two months. Cape Town is going to do its best.

A committee of ladies have been at work for some time, and every week they forward thousands of parcels of necessities in the shape of bars of soap, plugs of tobacco, packets of cigarettes, pins, needles, cotton thread, buttons, tins, towels, socks, shirts and a score of other useful things that a soldier needs.

NETHERLANDS ACCEPTS. London, Nov. 4.—At today's session of the South African committee Major-General Sir John Buller, representative of the government, announced that the Netherlands had accepted Great Britain's terms for the settlement of the claims of Dutch subjects for damage as the result of their expulsion from South Africa.

DROWNED IN THE TUGELA. Ottawa, Nov. 4.—The following cable has been received at the Militia Department: "Please inform Emily Howell of 111 Jerome-avenue, Westmont, Montreal, that Trooper Charles Howell, Imperial Light Horse, was accidentally drowned in the Tugela River on Oct. 17. (Signed) Casualty Department, Cape Town."

H.M.S. PARTISAN FIGHTS. Gains a Unique Distinction for Herself. Malmesbury, Cape Colony, Nov. 4.—The Boers in Southwestern Cape Colony still continue to retire north. Most of them have crossed the Berg River.

Commandant Smith is reported to be on the fringe of Verlorenvald, and Commandant Maritz is retiring in the same direction. The Malmesbury district is clear of the raiders.

One of the most picturesque incidents of the war was that which has become known as the "naval engagement" at Hottentots Bay. Two fairly large steamers, the Sussex and the Kent, engaged in the Australian coast trade, were in the bay exchanging cargo when the Boers appeared on the beach and started firing on a small boat which was making for the ship.

The captain of the ship, perceiving that they were in danger of being cut off at the narrow entrance to the harbor, immediately weighed anchor and prepared to stand out to sea.

The Boers were racing for the points commanding the entrance when the captain of one of the ships sighted the gunboat Partridge rounding the point. He hoisted the signal, "Boers on shore firing at boat."

As soon as the Boers saw the gunboat they fled, but the Partridge, steaming rapidly into the bay, commenced dropping shells among the flying enemy.

The Partridge thus enjoys the distinction of being the only warship which has been engaged in the war, and naturally the subject of great interest over their exceptional luck.

DUMONT GETS THE PRIZE. Aerial balloon, by a vote of 12 to 9, was awarded to Dumont.

Prize money of 100,000 francs, offered by M. Deutsch for a dirigible balloon. The vote was preceded by a warm discussion. Count Dion, who presided, while enjoining the courage of M. Santos-Dumont, contended that he had not won the prize, owing to the time limit.

MANSLAUGHTER IS CHARGED. Against Superintendent Gunn and Motorman Bauer of the Toronto Railway Co.

Acting under instructions from Crown Attorney Curry, Detective Black yesterday swore to informations charging Superintendent James Gunn of the Toronto Railway Company and Motorman Herbert Bauer, 102 Birch-avenue, with manslaughter in connection with the death of James Cornelius Duggan, the tailor, who was run down by a south-bound car at church and Gould-streets on Saturday night, Oct. 18, and died in St. Michael's Hospital on Oct. 23.

Result of Verdict. The action was taken as a result of the verdict returned by Coroner Spencer's jury who entered into the circumstances surrounding the fatality at the hospital on the night following the death of Duggan.

The jury's verdict was as follows: "We find that J. C. Duggan came to his death at St. Michael's Hospital on Oct. 23, 1901, from injuries received by being accidentally struck by car No. 62, in charge of Motorman Bauer. Your jury are of the opinion that this car was run at too high a rate, and that the car was not equipped with proper fenders, and we hereby ensure the motorman of the car and the Toronto Railway Company."

The summons, which were served on Superintendent Gunn and Motorman Bauer last night, are returnable in the Police Court at 10 a.m. to-morrow.

REFORMS IN RUSSIA. Less Rigorous Censorship Over Literature in Free Libraries.

London, Nov. 4.—The Russian Ministry of Education, says a despatch from Odessa to the Times, sanctions the circulation on a wider scale of popular literature in the free libraries. Hitherto a most rigorous censorship has been exercised in St. Petersburg. Now all works are submitted to the Educational Consistory of the Holy Synod are permitted.

The Minister of Finance, M. Witte, is engaged on a scheme with a view to substantial reforms in the factory regulations. The scheme will shortly be submitted to the Council of State. M. Witte is convinced that the proposed reforms will strengthen the handicapped industrial position of Russia.

PROPOSED TURBINE LINE. Strong Opposition to Scheme for Transatlantic Service Expected.

London, Nov. 4.—The Times publishes a telegram from Cork regarding the proposed Atlantic turbine service. This information, he said, was the result of a visit to the city of Vienna by the British representative of the scheme proposed by the War Office and Admiralty objections by making railway extensions to Berehaven from both Bantry and Kenmare.

The effect of the scheme would be that Cork Harbor (Queenstown) would cease to be a port of call for transatlantic liners. Strong opposition to the line is expected.

SHOT CASHIER DEAD. London, Nov. 5.—Yesterday afternoon a man named Lacombe entered the Kensington branch of the London and South-Western Bank and shot the cashier dead. He then called upon the clerks to deliver the contents of the till. A clerk grappled with the robber, who finding that escape was impossible, shot himself. Another clerk was wounded in the struggle.

KING'S NEW TITLE. London, Nov. 4.—King Edward, at a meeting of the Privy Council today, signed the proclamation giving him his new title, as follows: "Edward the Seventh, by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions Beyond the Sea King, Defender of the Faith and Emperor of India."

HIS FAULT. TO-DAY'S GREAT ELECTION. Best Opinion Is That Tammany Is Having a Desperate Struggle for Supremacy.

Champions of Vice Have an Immense Machine—"We Will Win." Says Croker.

Chicago, Nov. 4.—Water Wellman sizes up the New York election in a two-column dispatch to the Record-Herald. He says: "New York is to be freed from the most iniquitous rule ever disgraced a civilized community, or is to be sunk lower and lower in the scale of civic morality."

If this giant city cannot now shake off the corrupt oligarchy that has fastened upon it, then hope may be abandoned. The conditions are now as favorable to Tammany's overthrow as they can ever be hoped to be. The contest is undeniably one between the decent part of the community and the part that professes indecency.

Of the quarter of a million voters who are to cast their ballots about even, Croker's claim cannot be depended on and the estimate of Low's leaders is wide of the mark. Party lines are sadly broken, and the ordinary methods of forecasting the result now fail.

Low should win. Surely this great center of civilization is not so degenerate that it will deliberately choose to perpetuate the odious rule of Croker's oligarchy. Surely the decent people are in the majority. There is provocation enough for a mighty revolution.

But it must not be forgotten that New York is a Democratic city. Roosevelt was beaten 70,000 for Governor in New York city. McKinley was elected for Governor '04. Bryan carried the city in New York city. Democratic candidates for Governor '04.

McKinley was at the height of his popularity in 1900, and Bryan was at a discount, even in his own party, yet Bryan carried every borough, excepting only Brooklyn.

Those who believe Low is to win must think of the results of four years ago. Then, as now, the reform forces were in the field, but, unfortunately, they were divided. Tammany had a big party of Low, but polled only 44 per cent of the 21,000 votes cast for Tracy together polled 20,000 votes more than Van Hook, the Tammany candidate. Now the forces which were then behind Low and Tracy are behind Low alone. They have been augmented by other forces, such as the Greater New York Democracy, a revolt against Tammany, which is probably good for 5000 to 10,000 votes.

If the anti-Tammany vote is not to be 100,000 greater than the Tammany vote in 1907, men are asking why cannot the strength be relatively as great to-day, in view of the vastly greater inducement to keep the corrupt oligarchy out of power.

Mr. Wellman then summarizes the cause of dissatisfaction against the strong administration. The Republicans had closed the saloons on Sunday, which alone was enough to put Tammany in.

To Play It Out. Croker has decided to play the game out. That is to say, after a fashion. The district leaders are getting a little money. It is understood that the total which the district leaders are getting is about \$200,000. The district leaders are dissatisfied with the small sums they are getting. They

NORWEGIAN STEAMER AGROUND. Halifax, N.S., Nov. 14.—The Norwegian steamer Kong Haskon struck on the rocks of late Madame, near Arichat, C.B., last night in a thick fog and remains there hard and fast. She will probably prove a total loss, as a storm is approaching. The steamer was laden with seals and was on her way from Cape Tormentine to Cardiff. The crew, after the steamer stranded, made every effort to get her off, but without success, and at daybreak today the decks were under water. The Kong Haskon is owned in Norway, is of 1478 tons and was formerly the British steamer Earndale. She carried no passengers.

BRITISH-RUSSIAN RELATIONS. What Britain Must Do to Bring About Suggested Entente.

London, Nov. 4.—The St. Petersburg correspondent of The Times says that, much as Russian statesmen would like to see a friendly relations with Great Britain, friendlier relations would mean mutual suspicions are anticipated, and they are not in a frank understanding. Russian complian of the "pervasive pleasure" of Great Britain in thwarting their plans, and they represent the manner in which the British government seems always on the lookout for a Continental sword to use against them. The first steps toward better relations, adds the correspondent, would be to restore a belief in the consistency of British foreign policy, and to abandon the traditional dog-in-the-manger policy toward Russia.

BRIGAND TO TRACK BRIGANDS. Miss Stone, However, is Believed by Many to be Already Dead.

London, Nov. 4.—According to The Vienna Post Correspondent, quoted by the correspondent of The Times in the Austrian capital, a well-known Macedonian brigand has been instructed to obtain information as to whether Miss Ellen M. Stone is still alive. Two other brigands, well acquainted with the country, have been commissioned by United States Consul-General C. M. Dickinson to try to get in touch with the missionary's captors. The Prefect of the Sofia police has also sent two messengers.

MISS STONE PROBABLY DEAD. New York, Nov. 4.—The positive conviction that Miss Ellen M. Stone is dead is contained in a letter just received in Boston from a student who was with the missionary when she was captured. The letter states that the mountains into which she was taken were covered with snow to a depth of three feet, and it is believed that she could not possibly have survived the rigors of her captivity. It is understood in Sanakov that the brigands had instructions to take her life at the first indication of the probability of a skirmish with the troops.

SIR THOMAS IN MILWAUKEE. Says Parliament Will Grant Money for Dredging French River.

Chicago, Nov. 4.—A despatch to the Record-Herald from Milwaukee says: "Sir Thomas Shaughnessy, with Lady Shaughnessy and their daughter, is in Milwaukee today for the purpose of a brief visit to the Shaughnessy family, who live here. Sir Thomas arrived last night in his special car, and registered at the Hotel Sherman. He is Sir Thomas' custom to make at least one visit a year to his parents."

In speaking of transportation problems Sir Thomas said that it is not a continuous waterway that the West wants so much as a route which will permit of products being readily marketed in the shortest possible time. He pointed out that harvests are not finished until September and then the time is short for a water route to transport the immense shipments. A desirable route, he holds, is a rail and water route which will permit of the shipping of goods to the West, and will be developed by French River and Lake Nipissing route. He said the Canadian parliament would make appropriation for the dredging of French River at its next session, and in the greater part of the shipments from the West would go over this route.

During his stay Sir Thomas was cordially greeted by many old friends, who found him the same "Tom Shaughnessy as of old—democratic to the core, in spite of his knight hood."

GERMAN TROOPS BEHAVIOR. Two Journalists Prosecuted for Libelling Soldiers in China.

London, Nov. 4.—A despatch from Berlin to The Times quotes a report in the German press referring to the prosecution of two Stuttgart journalists for libelling the German troops in China. The Vossische Zeitung says: "There is no question of barbarity in connection with the conduct of the campaign. There is no ground for the supposition that the troops of other nations were more humane in their conduct than those of Germany. At the same time it remains open to question whether it was necessary, as the press has lately done, to resort in so many cases to the punishment of binding our men to stakes."

DUKE OF YORK'S TOUR. London, Nov. 4.—The Paris Journal des Debats, quoted by the correspondent of The Times in the French capital, represents the tour of the Duke of Cornwall and York as a failure on account of the circumstance that he repelled in England to the French Canadians. The Temps says the Duke has returned home to see to it that those strange imperialists, who seem likely to earn a good killing name that is the "Little Englanders"—namely, the "Empire Shrinkers"—destroyers of the glorious work of their ancestors.

COST OF THE WAR IS ENORMOUS. Next Year People May Be Asked to Bear Even Greater Burden.

London, Nov. 4.—What is regarded as an important announcement, preparing the people of Great Britain for new taxes and the National Exchequer for new taxes, was made to-night by the Chancellor of the Exchequer, Sir Michael Hicks-Beach, in a speech at Bristol.

After alluding to the "enormous increase in the ordinary expenditures" of the government, he reviewed the war taxes, and said that the ever-increasing burden of the National Exchequer gave reason for careful thought and even anxiety for the future.

Our Big Underwear Sale This Week

Those who read our Underwear announcement of last Saturday had good reasons to expect big values in Men's as well as Women's Underwear, but even so, those who came yesterday to buy were more than surprised at what we placed before them—the very goods wanted for winter wear at prices a third and a half less than usual values.

On Wednesday we are going to sell for the first time: Boys' Fleece-Lined Underwear

283 dozen Boys' Fleece-Lined Arctic Underwear (shirts and drawers), woven wrists, cuffs and ankles, overlocked seams, in a blue shade, sizes 20 to 32 inches, to fit boys from 4 to 15 years, regular 25c and 30c garments, Wednesday all sizes at 23c

THE PROPOSED SETTLEMENT. Under the law as it stands the city is entitled to a reduction in the price of gas when certain conditions arise. It is more than five years since these conditions were such as to justify a reduction of at least fifteen cents per thousand feet. The words of the statute under which the work is guaranteed are in quite plain, and there is no doubt the company had wilfully disregarded the obligations imposed upon it under the statute. Although we had this statute in our favor, and although the company was manifestly liable to the city in a very large sum for its failure to reduce the price of gas to the extent to which it is entitled, the facts of the case are such as to render it inadvisable to litigate the matter. It is a matter of no importance that the statute is a matter of no importance, that it was never made to be lived up to, that it is, in short, a worthless document as far as the city's rights are concerned.

The company, however, is anxious to settle. The settlement it proposes is a reduction of ten cents per thousand feet and a new statute. According to the company's contention the present statute is worthless. The statute which it is proposed to substitute must be equally worthless, because it is in the same line of instrument, passed by the same Legislature, and enforced and interpreted by the same Board of Directors in their chambers in Toronto-street. A statute, the enforcement of which is delegated to a body whose interests are antagonistic to those of the city is practically no statute at all. The new statute which it is proposed to add to the statute is more favorable to the company than to the city. The company is allowed to pile up a higher reserve fund and otherwise entrench itself more strongly than ever behind its immense profits. The only concession of any tangible value offered by the company is a prospective reduction of ten cents in the price of gas. But if these statutes are what they purport to be we would have had a reduction of at least fifteen cents five years ago. The proposed settlement is a cowardly surrender by the city to the plutocratic directors of the Gas Company. If the city's case had been handled by a fighter it is hard to see how long ago the gas would have come to terms. Our failure to prosecute the case in the courts with assiduity has worked to the advantage of the company, so much so that unless we accept the company's terms the city stands exactly where it did five or six years ago. Had we gone on with the case it would long ago have reached its finality and we would have had a decision as to whether these statutes of our Legislature are as worthless as the company contends they are. For our part we maintain that the city's only right in the matter is to accept the company's terms, and that that statute is practically worthless and can be violated at will, yet its anxiety to get rid of the litigation and its offer to reduce the price of gas by ten cents shows that it is not quite ready to put its theories to a judicial test.

THE KING'S ENGLISH. We publish in another column an interesting reprint from the Toronto Star in which is discussed the question as to whether the American-English tends to lower the standard of our speech. We invite all our readers who have been interested in the discussion of the King's English to give some attention to this article. The view maintained, or rather tentatively discussed in the article, is that eventually the standard of the English language will be made in America. There is, in a way, a great deal of reason for this view; but so far the tendency in America is toward degeneracy in the matter of speech, at least degeneracy as compared with the speech of the Motherland. As pointed out in the article, there is an inclination in America to use nasal sounds, to speak from the throat and to slur words. For America it can be said that we have only begun the great work of education, and that the outlook of education in America is better than the outlook of the globe. A lion in any other quarter of the world is chinaware is coming in America in lines broader and wider and with resources altogether superior to those of any in Europe. The equipment also of the American university of the near future will be away ahead of that of any in Europe. The tendency of the world's university is to attract to it the best talent in the way of teaching that can be secured anywhere. The outcome of this must be a centre of literature and of taste that ought to make it the dominating influence in these respects. Another thing that has been recently pointed out is that the largest English speaking population of the world, with a common interest and a common social life, will be around the lake region of America, as well to the north as to the south. This lake region is destined to be also the richest country in the world, whether from a manufacturing, agricultural or any other point of view.

A GREAT RACE ISSUE. The incident of President Roosevelt inviting Booker T. Washington, a representative colored man, to dinner at the White House has evoked a storm throughout the South. The Northern press have upheld the President and almost savagely criticised the South and Southern indignation. The Southern press are getting back, and evidently they are deeply in earnest in what they say. And what they say has been editorially reflected in all the Southern papers of the Northern press. What the Southern whites apprehend, and their apprehension sometimes rising almost to the point of terror, is that special recognition of the negro may lead to a feeling of social equality that will result finally in intermarriage and racial deterioration.

It means that the President is willing that negroes shall mingle freely with whites in the social circle—that white women may receive attentions from negro men. It means that there is no racial barrier in his opinion why whites and blacks may not marry and intermarry, and that the Anglo-Saxon may not mix blood with his blood. That is what abolishing the color line means, and all the shouting in the world will not alter the fact.

This is a very simple and insignificant matter, and it is not surprising that the leaders of the South who have received a negro in his household upon terms of social equality, should be so violently opposed to it. But if we of the South should adopt this policy, it would mean that we should abolish the color line and wipe out all racial distinctions. It would mean sooner or later that the white race of the South would preserve its integrity or suffer annihilation.

This is not a hysterical talk; it is plain and sensible. It is a plain and sensible man who will meet the question face to face and appreciate it.

The feeling expressed in the above paragraphs runs through the comments of the newspapers in all parts of the South, and is expressed outspokenly in the Southern Courier-Journal. The Memphis Commercial Appeal declares that "no Southern woman with a proper self-respect would now accept an invitation to the White House, nor would President Roosevelt be welcome to-day in the Southern homes"; and the Atlanta Journal says "It is upon the social position of the white race that the great central truth as the Southern people see it. They see it because they are up against it. All the philanthropists, all the negro uplifters, all the social reformers, all the political agitators, all the world men in quest of votes, in all the world cannot but see it. In New Orleans, Times-Democrat, quoted above, says: "It may be interesting to ascertain one negro among ten thousand white men at Yale University. The negro man at the North, where negroes are curiosities and where they are looked upon with a certain respectful indifference in which concession in which communication is mingled with contempt. Such a man is a curiosity, and as such, would be welcome to the White House, but not to the Southern homes."

On the other hand, the purpose of Mr. Low and his supporters is first and foremost to strike at and root out the alleged corruption in the city government.

Civic reform is in the hands of the people themselves, and the present is a good opportunity for the voters of Greater Toronto to strike for the emancipation of the city from the control of the Tammany machine.

It is upon the social position of the white race that the great central truth as the Southern people see it. They see it because they are up against it. All the philanthropists, all the negro uplifters, all the social reformers, all the political agitators, all the world men in quest of votes, in all the world cannot but see it. In New Orleans, Times-Democrat, quoted above, says: "It may be interesting to ascertain one negro among ten thousand white men at Yale University. The negro man at the North, where negroes are curiosities and where they are looked upon with a certain respectful indifference in which concession in which communication is mingled with contempt. Such a man is a curiosity, and as such, would be welcome to the White House, but not to the Southern homes."

PRISONER LEWIS ON THE STAND

With Address of Counsel and Judge's Charge.

The trial of James H. Lewis, the street railway conductor, and Christian Science, charged with the manslaughter of his 6-year-old boy, resumed this morning.

Case Could Not Be Stated.

Chief Justice McMillan, at the opening of the court yesterday morning, announced that he had decided that it was impossible to state a case without a conviction or some statement that the prisoner would not apparently admit.

Prisoner Testifies.

Lewis claimed that he had been personally cured of catarrh and influenza by Christian Science treatment.
