SECRETARY EXPLAINED PROHIBITION CAMPAIGN

Newton Wylie of Committee of One Hundred Gave Lucid Exposition of Work. HOW MOVEMENT STARTED Keep Politics Free From the Organization and Will Not Embarrass Parties.

Newton Wylie, general secretary of the Citizens' Committee of One Hundred, gave a most lucid exposition of the work of the organization he represents, at a drawing-room meeting held at "Oakland" yesterday afternoon. Detailing the history of the movement in Ontario he told of the meeting called for Oct. 15, to which men came from many parts of the province, one hundred and fifty in all. Conferences followed during which the consensus of opinion gathered regarding a prohibition issue, which was then decided to launch a short but effective campaign.

Progress in the west was also outlined by the speaker. He noted a business convention of farmers at Regina, to which the premier was invited, and of their unanimous demand for prohibition. Two weeks later it was announced that every licensed place would be closed. Government dispensing shops were opened in Saskatchewan, with the proviso that direct legislation was to be by many of these. The speaker quoted Mrs. Nellie McClung, when she prophesied a vote of four to one in favor.

BRITAIN WILL NOT STOP ARMING MERCHANTMEN

American Note Proposing Forbidding of This Practice Not Acceptable. PERMITTED BY CUSTOM Whole History of Great Britain Allows Use of Speed and Armament.

LONDON, Feb. 2.—While official circles do not acknowledge that the British Government has received more than a cable in the summary of the American Government's recent note asking the belligerent countries to subscribe to a declaration of principle governing attacks on merchant vessels and forbidding the arming of such vessels in order to reach a general policy and dispose of the problems arising from the development of submarine warfare, naval authorities are outspoken in their opposition to the proposal. They do not hesitate to state there is not the remotest chance of its provisions governing submarine warfare proving acceptable to Great Britain.

The whole history of Great Britain, according to this officer, permits merchantmen to use both speed and small armament for protection against either an actual warship or a privateer, and while Great Britain is not inclined to deny to a submarine the right to shell a resisting ship, she cannot grant an attack or the privilege of sinking a resisting merchantman.

HERE IS A CERTIFIED CURE OF CHRONIC SALT RHEUM

By Use of Dr. Chase's Ointment—Also a Bad Case of Eczema Just Reported Cured. Eczema and Salt Rheum are different names for practically the same disease. Small pimples or vesicles form in groups, break and run watery matter, a crust is formed, itching is intense and the disease shows a strong tendency to spread over the body. Whatever may be the cause, Dr. Chase's Ointment will cure, for it heals and dries up the sores and leaves the skin soft and smooth. Mr. George E. Condon, Brooklyn, Lot 61, P.E.I., writes: "I suffered for two years with Salt Rheum. Though I consulted three different doctors and tried many medicines, it was all to no effect. A friend advised me to try Dr. Chase's Ointment, and I am glad to say that when I finished the sixth box the Salt Rheum was all gone. There can be no doubt that the cure was entirely due to the use of this ointment, and I want other sufferers from Salt Rheum and Eczema to know about it." Mr. George Hume, J.P., Brooklyn, Lot 61, P.E.I., writes: "This is to certify that I know Mr. George E. Condon and believe his statement to be true and correct."

Mrs. Allan Weber, whose husband is proprietor of the Manitowish Wooden Mills, Shegungah, Ont., writes: "I have had a bad case of Eczema on my right leg below the knee. I tried all kinds of ointments and liniments, but to no avail, and was pretty well discouraged. Hearing of how Dr. Chase's Ointment is curing Eczema, I decided to give it a trial, and am glad to say that it made a complete cure, and I have now no trace of the old trouble for over a year." It takes a little patience to cure a severe case of Eczema or Salt Rheum, but you soon obtain relief by using Dr. Chase's Ointment, and you can see with your own eyes the benefits obtained once the healing process sets in. WEST WILL STAND FOR ANY KIND OF SWINDLE

Farmers Credulous, According to Evidence of Dr. G. McKibbin in McCutcheon Case. WAS REBUKED BY JUDGE

Counsel for Defence Charged the Crown With Manufacturing Evidence. Dr. G. McKibbin of Honeywood, and a director of the Melfort Investors, Limited, which was formed in connection with the Windsor Park property at East Melfort, was again put on the stand when the trial of the McCutcheon Brothers was resumed in the criminal assizes yesterday morning, and his evidence was not concluded until late in the afternoon.

Early in the cross-examination by H. H. Dewar, K.C., for the defence, the witness was rebuked by Mr. Justice Middleton for making a statement that there was a holy fear of the McCutcheon brothers among the farmers. "You are here to tell the truth and answer questions," he said. "You are not here to make speeches and talk like that. There is a way to stop it, but I don't want to apply it."

A long cross-examination followed, during which the doctor said he had no faith in the McCutcheon, and on being told that the lots were assessed for \$20,000 more than the syndicate paid for them, he exclaimed: "The best way to take all it can out of the people of Ontario by assessments."

He was then questioned regarding the property, and he said he had not seen the lots which were supposed to be under water, but he took the McCutcheon's word that they were all right. "Don't you know that lots under water cannot be included in a registered plan?" enquired Mr. Holmuth.

Can Do Anything. The witness retorted: "What swindle cannot be perpetrated in the west?" Dr. McKibbin was then cross-examined regarding a meeting of the syndicate held on Aug. 1, 1914, and he was asked how A. K. Goodman signed the minutes, if he was not present at the meeting. He explained that Mr. Williamson took the minutes, which must have been sent to Goodman to extend the part of the crown in the case by declaring, "What I maintain is that these minutes are manufactured. We allege that there was a conspiracy to manufacture evidence. I am not returning to Mr. Davidson or Mr. Shaver."

Mr. Holmuth asked the witness if he knew that Samuel McCutcheon and other members of the family had also invested in the property, and he replied that he did not find that out until June, 1914. "Did it not strike you that they had literally lived up to any representation they had made to go in with you?" he was asked.

Another letter, marked confidential, and dated July 20, was produced, in which Mr. Goodman stated that he had made enquiries regarding the methods employed by the McCutcheon Brothers, and as a result of the investigation he had decided to give up acting as solicitor for them. The remainder of the letter was devoted to an explanation of the way Goodman thought their business was transacted.

At the conclusion of his cross-examination, Mr. Holmuth exclaimed to Mr. Justice Middleton: "I don't know whether the case should be proceeded with by the attorney-general's department under the present indictment, in view of what has been disclosed in the trial of the whole thing. It's a most extraordinary action."

Mr. Justice Middleton said he would file his lordship. Dr. Allen Shaver then gave evidence regarding the Brockville Investors Co.

REPRISALS DEMANDED FOR ZEPPELIN ATTACKS

Londoners Take Visitations as Similar to Ordinary Disturbances of Nature. PEOPLE WARNED IN TIME German Policy of Terrorism Has No Effect on Attitude of Public. LONDON, Feb. 2.—Visitations of Zeppelin airships have ceased to be a novelty to the English people. The public appears to regard them as it would regard some disturbance of nature, from which a certain number of persons were destined to lose their lives, as from a flood or a fierce thunderstorm.

Almost all Londoners expected the Zeppelins to attack the metropolis on Monday night, yet the life of the city proceeded without any visible disturbance, much less anything resembling panic. The tickers in the hotels and clubs carried the announcement shortly after 8 o'clock wherever a group gathered about the tapes as this news made its appearance.

Definite Word Received. About 7 o'clock, when the restaurants were beginning to fill and the theatre patrons were crowding around the pit and gallery entrances, the official news spread from mouth to mouth. "A fleet of seven Zeppelins has arrived on the coast and should reach London within an hour." Londoners appear to make it a point of honor nowadays to bear themselves like soldiers. The customary declaration is that while the men in the trenches are suffering under constant fire it would be unjustifiable weakness for non-combatants at home aimed at any military bases, but are intended to be indiscriminate attacks for the purpose of terrorizing England.

Reprisals Demanded. The sentiment in favor of reprisals in kind is increasing rapidly. The belief is growing that the air raids have no military objects and are not aimed at any military bases, but are intended to be indiscriminate attacks for the purpose of terrorizing England. Expectations that the Zeppelins could not attempt to find any definite targets at the height from which they now drop bombs, even if they wished to. Newspapers which hitherto were against reprisals as unworthy of British methods declared today in favor of carrying the same kind of warfare into the enemy country if necessary, to protect the women and children.

Pitiful stories of mangled women, children and old men, which everyone hears, are kindling fierce anger, and are commented upon by the newspapers as the strongest deterrent to any peace talk which the entire war has produced. The Daily Telegraph says: "As a fighting nation we are no weaker than we were before the Germans set out on their voyage across the North Sea, but we are more determined. We cannot forget or forgive any suffering and sorrow which have been spread far and wide."

The Westminster Gazette says: "The next visitation may take place of us and leave us our families mangled corpses under the ruins of our own houses. But in all the months these things have been going on the Zeppelins between them have not killed one-fourth the number who were drowned on the Lusitania or as many as would be carried off by comparatively mild epidemics in a moderately sized town."

We believe that most of our readers have been supplied with copies, judging from the enormous number of coupons turned in thus far. But we urge those who have not yet secured a copy of the Big Print Red Letter edition of the Bible to lose their coupons in cutting out their coupons and getting a book that will increase in value with time. We had secured the exclusive distribution for this city and the supply allotted to us was necessarily limited. A very few days more will see the last copy gone. CROP COMPETITIONS RAISE GRAIN STANDARD

Fall Fair Association Discusses Advantages Which Farmers Are Receiving. DEMAND FOR HORSES Fairs Should Encourage Classes for Express and Wagon Use. Advantages which farmers receive from field crop competitions was the chief matter discussed at the closing sessions of the Ontario Association of Fairs and Exhibitions yesterday. As a consequence of these competitions, R. E. Mortimer of Honeywood, in an address to the association, said that there was a demand for standard seed which was issued by the agricultural college and the experimental farms. The increasing use of high standard seed throughout the province was due to this, he stated, and more seed of better quality was being used all the time.

Revise Prize Lists. W. J. Bell of Toronto, in his address on horse exhibits, said that there was a need for a revision of the prize lists. The demands of the market should be taken into consideration, in his opinion instead of classes for general purpose and agricultural horses, he said that express and wagon horses should be substituted as there was a greater demand for these types of horses. The draught horse should be a large up-standing animal. The fairs had a definite responsibility, he concluded, in encouraging the breeding of horses which were in demand.

Mrs. H. M. Parsons of Cochrane, in her paper on women's exhibits, said that a revision of the prize lists should be made. Amateurs should be encouraged in preference to professional exhibitors, to harmonize with the best interests of the fairs. At the afternoon meeting, Prof. E. A. Archibald, director of animal husbandry at the Dominion experimental farms in Ottawa, gave an address on expert judges. He suggested that the judges decide on uniform types so that the exhibitors would have a clear understanding.

Indians Interested. The Indians would appreciate education along agricultural lines such as is being received by Anglo-Saxon farmers, stated Mr. Nicholas, a Chippewa Indian from the Brantford Reserve. He stated that his people were loyal English subjects, and that they were anxious to do everything they could for the empire. They were seriously handicapped, he said, in being unable to get financial aid from the banks, and the white men could secure. Under these difficulties, he contended that the Indians could not work as effectively as they would under more favorable conditions. There were several other Indians at the convention. Over 400 farmers were in attendance at yesterday's session.

The officers were elected at the afternoon session, with the majority being returned by acclamation. The following stated Mr. Nicholas, a Chippewa Indian from the Brantford Reserve, first vice-president; L. J. C. Hull, second vice-president; Alexander McFarlane, treasurer; J. Lockie Wilson, secretary. The auditors chosen were R. Agnew and Dr. H. B. Atkinson, and the directors were J. E. Montgomery, W. J. Connolly, R. H. Thompson, Edmund Hawthorne, George Downey, J. V. Williams, Geo. L. Telfer, John J. Johnston, J. B. Clarke, E. F. Stephenson and W. J. Hamilton.

ASKS FOR DAMAGES AGAINST WINDSOR

Judgment was reserved by the appellate divisional court at Osgoode Hall yesterday, on the appeal of Mrs. Letta Wallace, from the decision of Justice Middleton, who dismissed her action against the City of Windsor. Mrs. Wallace fell on the sidewalk at Windsor in the month of February, 1915, injuring her leg. The Municipal Act requires that the defendants should have been notified of the accident seven days after the accident occurred. The City of Windsor claims that they were not informed of the accident until nearly four weeks after.

KAISER MAKES SEIZURE OF FINISHED TEXTILES

Government Evidently Preparing for Long War, Berlin Papers Comment. LONDON, Feb. 2.—According to Berlin newspapers, as quoted by Reuter's Amsterdam correspondent, a new order was put in force on Feb. 1, under which the greater part of all products of the textile industry was confiscated. The Tageblatt says it is highly significant that on this occasion the government does not seize raw material but finished articles. Included in the list are all materials for clothing suitable for army or navy officials, all goods for under garments, blankets, inclusive of horse cloths, colored linen goods, linings and sail cloths. Berlin newspapers point out that this measure discloses a scarcity of these materials, and also indicate that Germany is preparing for a war of long duration.

KENTUCKY Turns Down PROHIBITION

A BILL submitting an amendment to the Constitution of Kentucky providing for state-wide Prohibition was defeated, 20 to 14, on January 25th, in the Upper House of the General Assembly of the State, where it originated. Which goes to show that old Kentucky has not failed to learn the lessons taught her by her sister states of the South, which lessons are certainly sufficiently plain, backed up, as they are, by a mass of incontrovertible facts and figures.

The following tables are also illuminating:

DRY	WET
Number of Persons in Almshouses to Every 100,000 Inhabitants.	
Tennessee71.8	Florida27.5
North Carolina63.	Louisiana11.3
Homicides per 100,000.	
Memphis, Tenn.68	New Orleans, La.24.8
Savannah, Ga.48.3	Louisville, Ky.15.2
Nashville, Tenn.39.4	Buffalo, N. Y.4.9
Atlanta, Ga.33.3	Brooklyn, N. Y.4.8
Charleston, S. C.30	Milwaukee, Wis.3.4

The following illicit stills, by the way, were seized and destroyed by United States Revenue Officers in 1914:

Alabama308
Georgia802
North Carolina535
Tennessee249
South Carolina253

And so on we might go through the whole gamut. Prohibition is a failure, not only economically, but morally and in every other way. And Kentucky knows it. THE PERSONAL LIBERTY LEAGUE OF ONTARIO

Early Development of Hydro Power Needed

We have frequently reverted to the hydro-electric power situation in eastern Ontario and attributed the backwardness of the hydro policy in that district to the reluctance or apathy of the Dominion Government in dealing with the water powers of the Trent Valley.

The importance of this announcement cannot be overestimated. That eastern Ontario should have similar facilities to the western end of the province means a greater movement forward for this part of the province than can easily be comprehended.

This was urgently present in the minds of the delegates when they adopted the resolution which has in it the demand of all the municipalities which have not yet been supplied with hydro-electric power.

It was further resolved that the Hydro Commission should be authorized to finance the development and distribution of such power.

Highly important issues are involved in this latter resolution, and we may say at once that the government should face the facts involved.

There is a straight issue between the public ownership men and the corporation supporters of the government. No corporation man wishes to see the Hydro-Electric Commission any more strongly established than at present.

developing the people's own power, the Hydro Commission is suffering from a handicap of the difference between \$9 and \$15 per horse power on every horse power that the people require over and above the 100,000 of the original contract.

The government says it is war time and money cannot be had for such purposes. This may be true for the government, it is not true for the municipalities. They know they are getting money on more favorable terms than the government can.

The government should consider the situation, and there should be no hesitation about consenting to a plan which cannot affect the government except favorably, which will benefit the people exceedingly, and which will arouse no opposition except from the corporations which are already lined up against all things hydro-electrical.

Unpreparedness a General Policy

In a recent debate in the Imperial House of Commons Colonel Sir Hamar Greenwood followed Mr. Dillon and took up the cudgels on behalf of the war office, which he asserted had been misrepresented by the statements made, and he spoke also on behalf of the officers who were alleged not to have done their duty in various periods of the campaign.

Sir Hamar admitted there had never been a war without blunders, but he would not allow that the officers should be charged with incompetence unless there was direct evidence to show that they were responsible under the circumstances.

This is a bold and direct impeachment of the government of Great Britain for unpreparedness, and it entirely nullifies the German charges that Great Britain meditated war. Her military advisers were aware of what was going on, but under the unreasoning prejudice which prevents a military man getting a hearing from the civil authorities no advice was taken and nothing was done.

The war office should be able to speak for itself on the proper occasion, but in the meantime the main thing is to remedy all shortcomings and place the service in a state of utmost efficiency.

TRIBUTE TO THE FOUNDER

Success Due to Conservative Policies of Late J. W. Langmuir—Directors Were Re-Elected

The Toronto General Trusts Corporation has passed thru a very satisfactory year and the report for 1915 read by the secretary at the annual meeting of the shareholders yesterday showed that the net profits amounted to \$345,458.05.

Assets and liabilities were shown to be \$71,869,470.10. A new branch of the company has been opened in Vancouver, B.C. Already the corporation have branches in Ottawa, Winnipeg and Saskatoon.

A fitting tribute was paid to the late founder of the institution, J. W. Langmuir, who started the corporation in 1882 and was actively engaged in the operation of affairs until just shortly before his death. At the time of his death he held the office of vice-president.

The success of the corporation was largely due to the conservative and careful policies of the late Mr. Langmuir and which are still being carried out by his successors.

Contract for Toronto's Cement Supply Awarded to Owen Sound Firm.

The principle of the fair wage clause, as against the principle of asking for tenders, and then switching, won out at yesterday's meeting of the board of control, when the subject of Toronto's cement supply came up for decision.

Mayor Church and Controllers, Thompson and O'Neill voted to leave the contract, which has already been awarded with the Union Cement Co. of Owen Sound, while Controllers Cameron and Foster voted to buy in the open market.

NEWS FROM THE CITY HALL

RUMORED GRANT USED IN OFFICERS' LUXURIES

Said Money Was Spent in Fitting Exhibition Quarters With Rugs and Curtains.

MAYOR WAS INDIGNANT Vehemently Denounced Gossip Which Disturbed Peaceful Atmosphere of City Hall.

The peace and quiet of the city hall was considerably disturbed yesterday by a story that got round to the effect that the \$1500 granted by the city to the five batteries stationed at the Exhibition was spent for comforts for the officers instead of the men.

In order to set matters right Mayor Church gave out a statement explaining the whole situation. Speaking of the bills that had been mentioned in connection with the affair he said: "The bills referred to are not one of the expenses the officers have had to expend on their battery and men. The only grant they got was the \$300 for the water which is only a drop in the bucket."

MAYOR WILL ENDEAVOR TO STOP OVERCROWDING

Says Conditions on Street Cars Indecent and Worse Than on Cattle Trucks.

More criticism was leveled against the Toronto Street Railway Co. by the mayor and members of the board of control yesterday. Flouting his suggestion, made in his inaugural address, Mayor Church attacked the overcrowding on the street cars and said it was nothing less than indecent to crowd human beings in the way it is being done.

CITY HALL NOTES

Thomas McMullin was yesterday appointed chief engineer at the high level pumping station at a salary of \$2000 a year and residence.

Income taxes must be paid according to a warning sent to some 15,000 delinquents. The option is suit instituted by the city.

City Solicitor Johnston states that the indictments against the Toronto Street Railway Company are in the hands of the attorney-general and that the city has no power to set them aside.

The board of control did not adopt the policy yesterday of relieving those unable to pay their taxes, but decided upon fair judgment in each case. The matter has been handed over to the assessment department.

Toronto's appeal in the Bustard case has been dismissed by the supreme court of Canada. The amount of damages awarded R. C. Bustard by the Federal Arbitration Tribunal in the supreme court of Ontario is \$7987.

RECRUITING MEETING DID NOT MATERIALIZE

No One Turned Up at Committee Room in City Hall at Appointed Hour.

NO INSTRUCTIONS GIVEN Civic Officials Did Not Approve Scheme, Holding Employees Have Done Duty.

Employees at the city hall are wondering that happened to the recruiting meeting that was to be held for their special benefit yesterday afternoon at 4:30. Committee room No. 2 had been arranged to accommodate quite a gathering early in the afternoon; at 4:30 a. m. was on hand, but shortly after that hour Col. Jesse Wright of the 18th Battalion, who was to address the meeting, made his appearance along with several others who were interested. There was no audience, some having dropped in and out again.

About 5 o'clock Property Commissioner Chisholm came along to see how the meeting was progressing. The reporters at once asked for an explanation, and this was soon forthcoming as the commissioner was anxious to clear his skirts. The facts are that the board of control gave the officers of the 18th Battalion permission to hold a recruiting meeting in the building, but issued no instructions to the departments to allow their young men to attend at the hour stated. The board, however, sent a letter of instruction to Commissioner Chisholm, asking him to have the room prepared, thinking that he would take it upon himself to notify the other departments. This the commissioner failed to do, not deeming it his duty, and as a result no meeting was held.

PUBLICITY CAMPAIGN FOR TRADE EXPANSION

Meeting in City Hall Considered Bringing of Conventions to Toronto.

A meeting was held yesterday in the mayor's office, with regard to a publicity campaign in Toronto for trade and commercial expansion, and also regarding bringing new industries and more conventions to the city. E. S. Gourlay and A. C. Lewis, representing the harbor board, Joseph Oliver, president of the Exhibition, and James Richards, of the Trades and Labor Council, also the mayor and Controller Cameron, representing the city. The unanimous opinion was that such a campaign should be held in Toronto. The transportation companies favor it as well as the Toronto Ad Club and other similar organizations.

RECOMMEND REDUCTION IN PENSIONS FOR FIREMEN

Men Voting on Proposed Amendments to Rules Governing Benefit Fund.

The firemen are now voting on the proposed amendments to the rules and regulations governing the firemen's benefit fund on which the committee has been working for some time past. A reduction in pensions is recommended, the maximum to be \$1500 and the minimum \$500; captains and lieutenants to be allowed half pay on retiring after 30 years' service. A maximum of \$1500 would give one chief from getting a pension of \$2250, the amount now paid to ex-Chief Thompson.

A provision is made for the families of men who die while in the service, the amount to be paid being from \$1000 to \$3000, according to length of service. Men who die while in the service will also receive amounts ranging from \$500 upwards, according to the length of time they have served. It is also recommended that there be five members from amongst the men on the executive, instead of three as at present.

Joe McGinnity Would Sell Tacoma Club

TACOMA, Feb. 2.—Despite the many rumors to the contrary, President J. J. McGinnity of the Tacoma Tigers expects to be in Tacoma during the baseball season of 1916 and lead his club in the race for the pennant. The Iron Man is not slow to admit that, financially he is at the end of the rope, and will need help before the opening of the season, but he discounts the actions, and words of Bob Brown, and asserts that the club will be here.

Several deals for the franchise are pending. Negotiations are still in effect between the T. R. & P. Company and McGinnity regarding the sale of the ball park, and McGinnity expects to receive an answer from the traction company's attorneys Saturday.

Ed N. Watkins, former owner of the Bengals, has made an offer to McGinnity to buy the club. Watkins is not feeling about it, either. He has been sitting around the Northwestern League circuit asking the other magnates if they will bid him welcome if he comes into the league again. Watkins was in Butte last night, and had a chat with President Blawett regarding the situation.

The only trouble with the Watkins proposition is that McGinnity is not likely to accept it in its present form. According to McGinnity, he received the offer first about a month ago thru a firm of attorneys employed by Watkins.

Watkins would have enough money to get out of town with after my debts were paid," McGinnity said last night, when discussing the situation. "Ed N. Watkins wants to pay me about one-third of what I paid him for the franchise, and I have developed a real ball club, while the only player he gave me was Cy Neighbors."

It is McGinnity's idea that Watkins will not be given an opportunity to break into the league again. While the owner of the Tacoma franchise, Watkins kept the other owners in hot water all the time, and they heaved sighs of relief that could be heard for miles around when McGinnity bought his holdings.

McGinnity scouts at the idea that the league will be made into a four-club circuit, and that Tacoma will be left off the baseball map.

The evening boys, too, were out in full force, making the competition in all divisions very keen. W. Ryan was back to form again in the intermediate class, and won his event. ST. ANDREWS READY FOR SECOND ROUND

St. Andrews College made their group honors sure by downing De La Salle 10 to 7 at the Arena yesterday afternoon. It was one of those give and take tussles with the youngsters going at top speed throughout, and was much more interesting than some of the senior fixtures.

The checking was spirited and the combination sparkling in spots. St. Andrews never let up with their pestering of the De La Salle forward line, and this, coupled with the grand work of Watson at close quarters, won the battle. The Scotchmen's centre was head and shoulders over anybody on the ice and simply ran away from them all with his speed and tricks. Wagner was checked hard early and was never very much of a bother to St. Andrews.

Watson's performance was one of the best seen on local ice this year. He counted seven of the ten goals secured by the Salts and went from bell to bell and both sides fumbled badly. St. Andrews had chances enough, but Ryan was very much on the job, and a goal nearly every time they attacked. De La Salle led at the rest 4 to 3 and this was the only time they were in front.

BENEDICT SAVED GAME FOR OTTAWA

OTTAWA, Feb. 2.—Backed up by some of the most sensational goalkeeping ever seen in the capital, the Ottawa team won their game tonight, shutting out Quebec by 4 to 0. Quebec had many chances to score, but Benedict played such a superb game in the net that absolutely nothing got by him. There was no score until only 30 seconds of the first period remained to be played, when Nighbor found the net behind Moran.
