WILLARD KITCHEN ALSO GOT SHARES OF STOCK AS A GIFT

But Did Not Remember Much About the Transaction--Dr. Pugsley Helped to Discount Paper--Interesting Evidence at Fredericton.

Fredericton, N. B., July 22. (Special)—The Central Railway company of enquiry was in session an hour and a half this morning, and heard the evidence of Manager Sharp of the Bank of British North America and Willard Kitchen. An adjournment was made at 11.30 o'clock, until afternoon to allow Mr. Powell, government counsel, to fill an engagement in the divorce case.

MASKED ROBBERS HELD UP THE STAGE

And Got Away With a Large Sum in Gold--Sheriff and Posse are in Pursuit.

Likely, Calif., July 22.—Likely and Alturas stage was held up last night by two masked men, who were heavily armed. They compelled the Wells-Fargo messenger to throw down the box containing a large sum in gold for payment at Alturas. The passengers were not molested. No description of the bandits could be obtained as it was after dark and after securing the box the bandits shunk into the woods. The sheriff of Alturas and posse have started in pursuit.

BRUTAL MURDER OF WOMAN IN BOSTON

Found by Her Husband, Gagged and With Throat Cut, Jammed into a Closet.

Boston, July 22.—A brutal murder was disclosed last night by the discovery of the body of Mrs. Emma Payrow, 38 years old, gagged and with her throat cut, crushed into a small closet in one of the apartments on Columbus avenue, in the Back Bay. The woman's body was found by her husband, Charles H. Payrow, when he returned to his room last evening. Not finding his wife in their apartment, he began a search, and was attracted by blood marks which led to a closet. Opening the door, he found the body of his wife crowded in a small space. In her mouth was a gag and her throat had been cut through the head and neck. The body was gagged with a handkerchief and her hands were tied to the sides of the closet. The husband was informed by a neighbor who had seen the woman being carried away in a cab.

HANSON WILL NOW RECEIVE HIS REWARD

After Three Years the C. P. R. Must Pay Him for Loss of Leg in Train Accident.

Toronto, Ont., July 22.—(Special)—News has been received in Toronto that the privy council had refused leave to the Canadian Pacific Railway Company to appeal from the judgment entered against the company in an action by Mr. Hanson, milk dealer at Red Deer, Alberta. The plaintiff sued for damages for loss of a leg, resulting from being run over by defendant's train, and was awarded \$3,500 at the first trial. The company appealed, and succeeded in getting a new trial. Again the company was held responsible, but the damages were increased to \$4,500. An appeal to the supreme court was dismissed, and now the privy council refuse to revise the award, so that Mr. Hanson may expect to receive payment at an early date. The accident occurred on August 20th, 1905.

CANADIAN WAS DEFEATED IN THE OLYMPICS TODAY

Today's Reports from the Stadium Where Athletes Strive for Honors--Some Olympic Records Smashed--A Fine Day for the Competition.

London, July 22.—F. E. Irons, Chicago, A. A., won the final of the running broad jump with 24 feet 6 1/2 inches, a new Olympic record. Donald MacMillan, Irish American, C. C., was second with 23 feet 3 1/2 inches, and Bricker, Canada, was third with 23 feet 3 inches. In the first heat in the wrestling match for feather weights up to 133 pounds, Dole, United States, defeated Cockings, United Kingdom, on points. In the second of the catch-as-catch-can wrestling, Dole, United States, beat Webster, United Kingdom. The final in the middle weight to 165 pounds catch-as-catch-can wrestling was won on points by Bacon, United Kingdom. In the semi-final of the catch-as-catch-can wrestling, Dole three three, United Kingdom. Dole, Yale University, won the final in the catch-as-catch-can wrestling, defeating Slim, England. Stanberg, Sweden, won the fourth heat of the high diving with 70.2 points. BACON WINS 400 METRES. London, July 22.—The final in the 400 metre hurdle race was won by G. J. Bacon, Irish American, A. O. J. Harry L. Hillman, New York, A. C., was second, and Tremer, United Kingdom, was third. The time of the winner was 55 seconds. Bacon and Hillman had it all their own way in this final. They rounded the turn, and Bacon, who was in the lead, and Tremer, and fought it out for first place in the stretch, Bacon beating his team mate and establishing a new Olympic record. MILLIONS FOR MAINE. Capitalists to Erect Cement Works and Other Industries in the State. (Bangor Commercial.) John H. McLaughlin, the promoter who is here with four men, whom he says represent \$30,000,000 capital in Germany, England, Scotland, Canada and the United States, announced Monday morning in an interview with a Bangor special man that within a short time a tremendous amount of money would be dumped into the state of Maine by a combine of moneyed interests largely from Europe. He announced definitely that it has been decided to put in Maine an immense cement plant, and that behind the project is the International Cement Co. of Toronto and other places. The plant for the plant alone, erected and ready to run, call for an outlay of \$1,300,000, and the working capital is estimated to amount to \$10,000,000 more, making a million and a half, which Mr. McLaughlin says capitalists are ready to launch in Maine. It is not the cement industry alone that Mr. McLaughlin promises to Maine, but four other industries entirely separate, which he is not ready at the present time to speak of, and then if conditions are favorable there may be a new railroad for the state. Regarding the cement industry the promoter said that everything is ready to commence at once on the plant as soon as the location can be definitely decided upon. McBRIDE MAY ENTER FEDERAL POLITICS. Vancouver, B. C., July 22.—(Special).—It is reported here that Premier McBride is negotiating with the party leaders at Ottawa to contest Victoria at the next federal election. Sir Charles Hibbert Tupper's retirement from politics has cleared the way for the entrance of the provincial leader into the federal field. PERSIA IS IN A STATE OF ANARCHY AND BLOODSHED. Washington, D. C., July 21.—State Department officials were somewhat alarmed today when a word despatch from Mr. William F. Doty, consul at Tabriz, Persia, was received at Washington. "Anarchy," was all this message said, but speculation magnified that one word and many solutions were brought forward. While it is held possible that Mr. Doty's cable means that the insurrection in Tabriz against the shah has taken a new and more violent turn, other theorists hold that that trouble has broken out elsewhere in Persia. Some months ago missionaries in the Province of Urmiah, which is near the western borders of Persia, complained of outbreaks which threatened them. At that time Mr. Doty was ordered to the scene by the state department. He found upon investigation that there was small cause for alarm. It is considered possible that his telegram may have been in reference to a fresh outbreak in Urmiah. St. Petersburg, July 21.—A despatch received by the Novor Vremia from Tabriz, by courier post to Julia, affirms that the shah's cause in Northern Persia is lost. The artillery, rifles and ammunition abandoned by Raschid Khan, who was commander in chief of the troops, during the flight from Tabriz to the suburban plantations, passed into the hands of the revolutionaries, who are now in full possession of the city. The shah's palace, which had served as a hiding place for the revolutionaries, has now been turned into the revolutionary headquarters. The revolutionaries who had taken refuge in the Russian Bank and the Russian consul, M. Politkov, have again returned to the consul's court, a few miles outside the city, which is being guarded by a large detachment of Cossacks.

GIRL BEHEADED FOR CRIME OF MURDER

The Saxon Radcliffe Wears Evening Dress When He Performs His Duty as Executioner.

Freiburg, Saxony, July 22.—Grete Beier, the 18-year-old daughter of the mayor of Freiberg, was beheaded last night sometime between dark and dawn, in punishment for the murder of the man to whom she was engaged to be married. The executioner of this young woman was the executioner of the King of Saxony, who carried a thin, long box containing the axe with which he did his work, and brought with him also a handkerchief, a pair of gloves, and a pair of shoes. The wearing of this garb is an official requirement of the sabbre executioner. The preparations for the execution at the prison had been completed and the man did his work quickly and privately, and departed from Freiberg as quietly as he came. The executioner is an anonymous person who was sent down here from Dresden on the announcement that the King of Saxony had refused to pardon Grete Beier for her crime. The personality of this young girl, who came of a good family, and her thoughtfully arranged marriage to her fiancé, Herr Pfeiffer, a rich young civil engineer, attracted international attention. She was seemingly a happy and fun-loving girl. At her trial she admitted with the utmost simplicity that she had committed the crime. Her evening, gave him a chance of potting in a drink she mixed for him, and then to make sure of his death, shot him in the mouth with his own revolver. She then dropped the weapon at the dead man's side, placed a forged will in her favor on his desk, together with a note of good-bye, also forged, saying that he feared to lose her love through the revelation of a dishonorable liaison. In addition to these papers, the young girl also left behind a package of forged letters purporting to come from a woman in Italy, accusing Pfeiffer of desertion and threatening to tell Grete everything. These forgeries were so skillfully done that they successfully deceived the police and coroner. Grete fell under suspicion a month after the crime, through a love letter to an unworthy man hinting at what she had done. This letter was found when the man was arrested for a misdemeanor.

HE SHOT TWO POLICEMEN

And Then Got Away Without Difficulty and Left No Trace.

Niagara Falls, N. Y., July 22.—Patrolman Michael McCormick, who was shot early today, died in St. Mary's hospital two hours later. Officer Wagner, who was shot in the leg, will recover. The officers had stopped a stranger in Main street to investigate him, when he turned suddenly and began firing at them. His assailant, escaped, and no trace of him has been found.

CAPTAIN'S YOUNG WIFE SHARES PERIL OF STORM

(Boston Journal). The eighty-six-ton American schooner Mary F. Cashman has seen many things during the course of her forty-year career at sea. But never has the ancient craft passed through such a terrifying half-hour as last Sunday afternoon. The vessel was on her way here with lumber from Grand Harbor, N. S. The vessel was struck by a cyclonic squall, during which the wind shifted with rapidity that it seemed as though it was coming from every point of the compass at the same moment. Mrs. Wallace was brave through it all, but she told a Journal reporter that it was the worst experience she ever went through in her life. The wonder is that the old hooker lived at all in the seething whirlpool that enveloped her. Great the like of which would have terrified the stoutest hearts, hurled themselves over the sides of the deep laden craft. She was almost on her beam ends more than once, and the timbers that long ago saw her best days groaned and creaked, and the masts trembled as they swayed every minute of the thirty. But there was little that could be done except wait for the storm. That was the hardest work of all for the plucky little woman. She was made ill by the mental strain, and when the danger passed she lost no time in taking to her berth. There she stayed, and

SEA REVEALS A TRIPLE TRAGEDY

Mrs. Benson Prefers Death of Her Two Children and Suicide to a Continual Struggle for Existence Under Ill-Health. New York, July 22.—Dependent because of ill-health and fearful of the which might await her two little children if they were left alone to face the world, Mrs. Benson sought peace for all beneath the waters of the East river. Yesterday, the bodies of the mother and her little ones lie side by side in the morgue awaiting burial. For several years Mrs. Benson had lived with her husband and children on a South Dakota farm, but when her health failed she decided to return to her old home in this city. With her came the children, a boy of 4 and a girl 2 years old. When the change of scene failed to have the hoped-for effect upon her health Mrs. Benson became more and more despondent. On Wednesday Mrs. Benson and the little ones disappeared. Yesterday a woman's body was found floating in the river and today, just as it had been identified as Mrs. Benson in the morgue, the bodies of the two children were picked up off the Green point shore. They were taken to the same morgue to which their mother's body had been removed and tomorrow they will be buried in a single grave.

HANDSOME GIRL LURED TO DEATH

Shot Through the Head in a Lonely Summer House in a City Square. New York, July 22.—Lured to a lonely summer house in the centre of Irving Square Park, in the Williamsburg section of Brooklyn, early today by an unknown man, the police believe a tastefully-gowned, handsome young woman of 24 years of age, was shot through the head and left to die alone. Although it is believed she resided not far from the scene of the crime, a search of many hotels failed to reveal any trace of her identity.

KILLING IS THEIR FAVORITE PASTIME

Monastir is Again the Centre of Revolutionary Outbreaks and Murders. Constantinople, July 22.—It is reported from Monastir that the whole Ohrida district has declared in favor of the revolutionary movement and that Greek bands are committing serious depredations in the villages near Monastir. Twenty-five Bulgarians were killed at Birsak and thirty at Belpis, both villages being burnt.

FRANCE AND THE DEATH PENALTY

Bill for Abolition of Guillotine Indefinitely Postponed-Increase of Crime. The decision of the French government not to proceed with the bill abolishing capital punishment is evidently due to the fact that no bill of this nature could possibly be passed by the Chamber of Deputies. The committee of the bill has decided to postpone the bill indefinitely.

Q. A. SHAW LEAVES \$800,000 TO WIDOW

(Boston Herald). The will of Quincy A. Shaw, who died June 12, at the age of 83, was made public yesterday. Regarding Mr. Shaw's investments, the will empowers the trustees to continue as long as they think wise to hold stocks in mining companies and other securities which may be found in the estate at the time of his death. The will also provides for the payment of income or of a kind not usually thought suitable for a trustee to select or hold or to have a larger proportion in one investment than the rest of the estate should hold.

28,400 HOMELESS Situation in South China After the Great Flood Grows Desperate.

Hongkong, July 22.—Authentic figures of the destruction by the flood in South China are given in a report of the committee appointed in Canton to investigate the losses. The loss of life is comparatively insignificant, but the loss of property is estimated at 10,000,000 dollars. The situation is now desperate, and it will grow worse till the next harvest. It is estimated that more than 40,000,000 dollars will be required to repair dikes. The relief fund here now totals half a million. The committee will open the first bazaar on Western lines in the empire of China within a week in aid of the fund.

THE KAISER AND THE AMERICA'S CUP

New York, July 21.—The Kiel despatch conveying the intimation that the Emperor of Germany is contemplating challenging for the America's cup, was read with interest by members of the New York Yacht Club. One of the prominent members of the club who are active in yachting are out of the city, and no official statement was to be had, the suggestion of a challenge under the international rules now governing yachting contests. The New York Yacht Club has steadfastly insisted that all contests of the America's cup should be sailed under the old rule, which permits the construction of racing machines of the Reliance type.

OIL FELL THROUGH

Chatham, Ont., July 22.—(Special).—According to Mr. J. H. Bovey, a Buffalo millionaire, the deal between a British syndicate and local owners for the sale of the Tilbury-Romey oil fields has fallen through. The local men wanted \$1,000,000, and the British syndicate offered \$750,000.

NIGHT RIDERS AT WORK

Louisville, July 22.—Night riders burned the Illinois Central station at Gracey, Ont. and Curlew Springs in Christian county, Kentucky last night. The object is supposed to have been revenge for the company's allowing the state militia to camp on the railroad property at Bobb during a recent disturbance.

PRESIDENT ROOSEVELT IN A COLLISION

Newport, July 22.—The president's yacht, Mayflower, with the president on board, ran into and sank the lumber schooner Menawa in a dense fog last night. The captain and crew of the schooner were taken on board the Mayflower. The bowprit and one anchor were carried away, but the rest of the schooner was not damaged. The president's yacht was not damaged.

LEOPOLD MARKED FOR ASSASSINATION

Brussels, July 22.—The Journal states that the Belgian authorities are greatly alarmed over a rumor of a plot to assassinate King Leopold. Several anarchists have been arrested.

KNEW HER BUSINESS.

Lady Susan, don't you know better than to throw the alphas out at the back door? Susan—Axin' yer pardon, ma'am, but I reckon as I know me business. I ain't never worked for a family worth no more self-respect don't throw 'em out at the front door, ma'am.

KILLED BY TRAIN

Bangor, Me., July 21.—John McGuff, aged ten, was run over by a freight train this evening, suffering injuries from which he died within an hour.

KILLED BY TRAIN

Bangor, Me., July 21.—John McGuff, aged ten, was run over by a freight train this evening, suffering injuries from which he died within an hour.

THE TIMES NEW REPORTER

When Mr. J. P. Clayton came into the Times office the other day and cautiously unfolded a paper containing a large brown blot, the new reporter, with the calm assurance of youth and ignorance, informed Mr. Clayton that it was a fine specimen of the much-dreaded brown-tail moth. Mr. Clayton, after he had listened to a new reporter for a short time, discoursing upon the brown-tail and other moths, went away very much impressed. He said he would have all the region around Far-

well carefully examined for traces of the dreaded destroyer. After Mr. Clayton had gone, the sportsman turned upon the new reporter and charged him with knowing no more about moths than he did about writing up a prize fight. "I'll bet you a new hat," said the sportsman, "that that moth isn't a brown-tail at all. You can check up things like that around a street lamp any old time." Whereupon the sportsman ordered the specimen and declared he would send it to an entomologist for classification.

This morning the sporting editor received the following by postal card: St. John, July 21, 1908. Dear Sir—The moth you sent me, supposed to be a brown-tail, Empoasca Chrysothorax, is known as Hepialus Argentia Maculata, a rather common species. A. GORRAN LEAVITT. When this card was thrust under the nose of the new reporter he gasped for a moment, glared at the sporting editor, slammed his desk and left the office. The momentary arguement was too much for his nerves.

ADMIRAL NOT DEAD

Berlin, July 21.—The announcement made Monday from Belgrade, Germany, that Vice Admiral Rogovskiy, who commanded the ill-fated Russian fleet that was annihilated by the Japanese in the battle of the sea of Japan in May, 1905, had died there the night of July 19, from heart trouble, is incorrect. A Russian name, Rogovskiy, did die at Belgrade but he was not the admiral.

CANADA'S STANDING TIMBER

(Toronto News.) Canadians talk of their inexhaustible forests. The people of Michigan used to roll the same pleasant phrase off their tongues. Today the State is cutting the largest of its pine areas. It was once largely estimated that the forests of the Dominion embraced eight hundred millions of acres. Now Dr. Fernow thinks that we cannot count on more than three hundred million acres of commercially valuable timber land.

SASKATCHEWAN ELECTIONS

Legislature Only Six Months Old, Unexpectedly Dissolved - Liberals Want Test of New Land Act.

Ottawa, July 21.—A message was received this morning by R. L. Borden from Hon. F. W. G. Haultain, announcing the sudden and unexpected dissolution of the legislature of Saskatchewan and that the nominations for the ensuing election will be on August 7, polling a week later.

The present legislature was elected on the 13th of December last, the standing of the parties being sixteen Liberals to nine Conservatives. Hon. Walter Scott is the prime minister and Hon. F. W. G. Haultain, former prime minister of the northwest territories, is the leader of the opposition. Mr. Scott was in Ottawa a little over a week ago and met Sir Wilfrid Laurier and doubtless the coup was then framed up to test the popularity of the new land act in Saskatchewan.

The opposition say the trouble is that the government sees the defeat of Laurier ahead and is trying to get out of there, and will try to snatch a snap verdict.

Hundreds of members of the Brotherhood of Locomotive Engineers and the Grand International Auxiliary are in the city, attending their annual meeting which began Tuesday morning with secret sessions at 9:30 o'clock. At the session of the brotherhood this morning letters were received from Grand Chief Engineer W. S. Stone and Assistant Grand Chief E. W. Hurley, expressing regret for their unavoidable absence.

All day yesterday the local committee were hard at work at the headquarters in the Russell House, receiving visitors, distributing badges and souvenir books, and seeing that every new arrival is made to feel at home. The trains are met by local men who direct the incoming brethren to the best stopping places. The number at present in the city is well over one thousand, and parties are still arriving by nearly every train. The visitors come from many towns and cities all over Canada and the United States.

PREMIER HAZEN VISITS "BOBS"

Invites Distinguished General to Come to New Brunswick.

Quebec, July 21.—Premier and Mrs. Hazen are at the Frontenac this morning. At 11 o'clock the premier called upon Lord Roberts and on behalf of the people of New Brunswick extended to him a most cordial invitation to visit their province, as the guest of the government. He assured him he would receive an enthusiastic welcome.

Lord Roberts warmly thanked the premier and said he would certainly come to New Brunswick if time would permit of his doing so. He chatted pleasantly for some time and asked many questions concerning the Maritime Provinces and Canada and its relations to the United States. The premier also had an audience with the Governor General, who spoke with pleasure of his visit to New Brunswick last year and alluded to Fredericton as a beautiful city.

Among New Brunswickers here for the celebration are: Police Magistrate and Mrs. Ritchie, J. A. Morrison and wife, and Miss Randolph of Fredericton, Col. and Mrs. Jones, St. John; Mr. and Mrs. Albert Trisac of Miramichi.

ST. MATTHEWS CHURCH HAS NEW PASTOR

Rev. J. J. McCaskill Inducted Last Evening by St. John Presbytery.

Rev. J. J. McCaskill, late of Port Kent, was last evening inducted into the pastorate of St. Matthew's Presbyterian church in the presence of a large congregation and a representation from the St. John presbytery. The church was prettily trimmed with daisies and other flowers. Rev. A. A. Graham, moderator of the presbytery, presided and on the platform were: Rev. David Lang, Rev. Dr. Fotheringham, Rev. H. B. Hood, Rev. W. M. Townsend, Rev. L. A. McLean, Judge Forbes and Geo. T. Blewett.

After the devotional exercises, Rev. Mr. McCaskill was called forward and the moderator after a few words of congratulation, extended to him the right hand of fellowship on behalf of the presbytery.

Rev. Mr. Lang, of St. Andrew's church, then delivered the charge to the pastor. St. Matthew's, he said, was practically a new field which needed development. He then passed on to a delineation of a minister's duty. The words, "Like a voice crying in the wilderness, prepare ye way of the Lord" could be aptly applied to the minister's place.

Rev. Mr. Townsend, of Fairville, delivered the charge to the congregation. He spoke of the difficulties a pastor had to meet and offered suggestions to make them lighter. The minister should not be regarded as an employe but a leader. A minister was a guide, philosopher and friend. He should be remembered in prayer and helped through all financial worry.

Rev. Mr. Graham read a letter from Rev. A. H. Foster, the retiring pastor, congratulating the congregation on their choice and wishing every success to the new pastor.

The benediction was pronounced by Rev. Mr. McCaskill, and after the service J. Fraser Gregory, chairman of the trustees and Geo. Corbett, clerk, escorted Rev. Mr. McCaskill to the door where he met the members of his congregation. Refreshments were provided by the ladies and a delightful social hour was spent.

Rev. Mr. McCaskill is youthful, but commanding in appearance and figure and made an excellent impression on the congregation.

BRIEF DISPATCHES OF GENERAL INTEREST

Toronto, July 21.—(Special).—The Ontario lumbermen have decided to refuse their cut fifty per cent. this winter owing to full times.

Woodstock, Ont., July 21.—One hundred and eighty boys, big and little, thoroughbred Yorkshires, were shot on the farm of Joe W. Boyle last evening, by order of the Dominion inspector. Hog cholera had gotten in the herd, possibly communicated from passing trains.

Glenora, Mass., July 21.—The schooner Letting P. Snow, of Digby, N. S., which arrived today from the fishing grounds is the first British schooner to market her catch at this port in twelve years. Her captain was attracted to the market here by the high prices prevailing.

Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold—don't stop at a cough. Don't blindly suppress it with a soothing potion. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough suppressants or powders containing Opium, Chloroform, or similar poisons. And now—a little too late for the benefit of the very many who have taken them—Dr. Shoop's Cough Cure is being advertised. It is a truly remarkable cough remedy. It has no opium, no chloroform, and no other poisons. It is safe for all ages, and is particularly good for children. It is a truly remarkable cough remedy. It has no opium, no chloroform, and no other poisons. It is safe for all ages, and is particularly good for children. It is a truly remarkable cough remedy. It has no opium, no chloroform, and no other poisons. It is safe for all ages, and is particularly good for children.

Dr. Shoop's Cough Cure

SOLD BY ALL DRUGGISTS.

PRINCE OF WALES DUE TODAY

Quebec Awaiting Arrival of Royal Visitor—Water Famine Causes Distress.

Quebec, July 21.—The second day of the tercentenary celebration was an uneventful one, everything awaiting the arrival of the Prince of Wales, tomorrow. Every train arriving in the city brought full quotas of passengers, of whom many had difficulty in finding accommodation in the already crowded city.

The performances today took much the shape of full dress rehearsals, and the results were such as to show that the state presentations will be worthy of the occasion for which they were organized. The main attraction for the crowd today was the city itself in the way it had been decked out for the celebration. The great features were the first formal performance of the pageant, and the first performance of Felicien David's symphonic ode "Christophe Colomb," both of which were well attended. In fact the crowd at the pageant was a surprise to the management, close upon 10,000 people attending. There was also a very large audience at the first performance of "Christophe Colomb."

From every quarter immense crowds of people have been coming in all day and there already are close upon 50,000 visitors here, counting the troops and sailors, which means that for the next several days the population of Quebec will be doubled. Every train and boat that comes in, however, brings in capacity-loads of visitors, the crowds augmenting with the approach of the arrival of the Prince of Wales tomorrow.

The main difficulty which has been so far experienced is due to the breaking down of the city water supply, a difficulty which the city is accustomed to, but which proved very annoying to visitors. A break developed in the main water pipes last night, which almost entirely stopped the city water supply. Different sections of the city received a supply at intervals through the old pipes, but the supply was scant. Coming at such a time, the break in the water pipes caused tremendous annoyance, the hotels being deprived of the usual supply for their guests. This morning the position of affairs was even worse, for not only were visitors unable to get enough water to bathe, but in many hotels the position was so bad that there was not enough water for drinking purposes.

In the military camps the scarcity of water was felt much more. The camp on the Levis side of the river was particularly fortunate in this respect, since they had the regular supply from the town of Levis, while those relying upon the Quebec municipal supply were cast upon the resources of the river and such wells as they could find.

However, this difficulty was ended about 3 o'clock this afternoon, when the break was mended, and gradually the city water supply was resumed.

There was a general attitude of expectation in the performance today, the actors in the pageant and the visitors evidently all looking back until tomorrow when the arrival of the Prince of Wales will give the signal for the full opening of the national festival.

Not only will the Prince of Wales arrive tomorrow, but Vice-President Fairbanks, the representative of the United States, will also get here in the morning, so that there will be a vast amount of powder burned in the formal welcomes.

The Vice-President Fairbanks is expected to arrive in Levis at 7:35 o'clock tomorrow morning and he will be at once taken across the river to the King's wharf and driven to Spencerwood, the residence of Lieut-Governor Jette, where he will be a state guest during his visit to Canada.

The main event of the day and in fact of the whole celebration will be the arrival of His Royal Highness the Prince of Wales, on the Indomitable, escorted by the armored cruiser Minotaur. The vessels conveying the representative of the King are reported as coming exactly on time, and they are expected to reach the harbor at 2 o'clock.

Everything is in readiness for the arrival of the Prince. The decorations are complete, and military camps are in readiness, the warships are arrayed in order along the St. Lawrence and the city is full to repletion with visitors. There is every indication that when his royal highness lands on Canadian soil tomorrow morning he will be greeted by the greatest demonstration that this Canada's oldest city has ever seen and one worthy of what is really the three-hundredth birthday of Canada.

The first performance of the military tattoo, given by the assembled Canadian forces, was given this evening on the grounds of the Quebec Amateur Athletic Association. There was a very large attendance and the performance was enjoyed to the utmost. Shortly after dusk the bugles sounded "Lights out" and immediately afterwards the camp fires were lighted and the military festivities were started by torch light.

In the midst of the general festivities the sudden call "to arms" was sounded by the bugles, and the whole camp suddenly abandoned its amusements to rush to fill in for defence. There was the animated scene of a regiment after regiment falling in and marching out to repel the enemy, and then a vivid reproduction of a night attack, which was met and after much expenditure of blank ammunition repelled. The whole mock battle ended with a rally of the victorious defenders.

St. Stephen, N. B., July 21.—Mrs. Dennis, in attempting to carry something down stairs yesterday, had the misfortune to fall and break her arm. About the same time a neighbor, Mrs. S. J. Topping, fell from a platform in her clothes yard and sustained a similar injury.

BISHOP POTTER DEAD AFTER LONG ILLNESS

Head of Episcopal Diocese of New York Passed Peacefully Away Last Evening--Was 74 Years Old and Twice Married.

Cooperstown, N. Y., July 21.—Bishop Henry Codrington Potter, of the Episcopal diocese of New York, died here tonight. Death followed a sickness of several weeks, which began with stomach trouble and developed complications. For the past week the bishop had appeared to gain but he suffered a relapse yesterday morning, and last night he became unconscious and died peacefully.

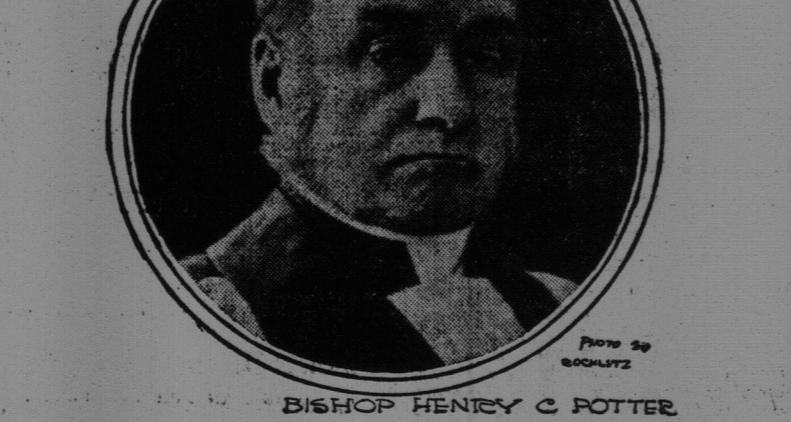

Bishop Potter's illness first became publicly known early in the spring when announcement was made that he was unable to take part in the Easter service. He was said to be suffering from acute in-

digestion. His condition, which was said to have resulted from overwork, manifested no degree of improvement, and he was forced to give up all participation in church affairs. A diagnosis showed that the bishop was suffering from stomach and liver malady. On June 5 the bishop was brought to Fernleigh, the summer home of his second wife, Mrs. Elizabeth Clark Potter, in Cooperstown. The change of air had a beneficial effect, and in an extreme degree. The bishop's family, many of whom were in different parts of the world, were summoned to his bedside. For several days the prelate lay at the point of death and only his strong constitution enabled him to survive. After

throughout the country a few years ago, when he took part in the dedication of the subway tunnel on Bleeker street, in New York.

It was the plan of those interested in the town to conduct an establishment where all intoxicants would be served under regulations which would promote temperance, and by example, improve the tone of the saloon. The bishop made an address in which he said he had hoped that the tavern would prove a success. After an uncertain existence the tavern failed.

A few years ago Bishop Potter married Mrs. Elizabeth Scriben Clarke, his second wife, whose summer home is in the city. Bishop Potter was the son of the Rev. Alonso Potter, who was consecrated bishop of Pennsylvania in 1845. He was ordained a priest in 1858.

BISHOP HENRY C. POTTER

BROWN-TAIL MOTH INVADES BANGOR

They Probably Come on the Steamers From Boston--A Very Live Topic With Bug-ologists.

(Bangor Chronicle). The brown-tail moth seems to have come to Bangor to stay. At least, all the amateur entomologists think they have the situation staked up correctly and some of the larger numbers on bugs in general and brown tail moths in particular, are worth sitting in the dark to hear. Wherever a party gathers on the veranda in the evening, the subject of brown-tail moths is sure to come up for discussion. "Wherever a light shows, a myriad of moths of all sizes and shapes is to be seen fluttering around it. Every white moth is, naturally, credited with being a brown-tail, but if there are said to be many of the moths in a party, they have the situation staked up correctly and some of the larger numbers on bugs in general and brown tail moths in particular, are worth sitting in the dark to hear. Wherever a party gathers on the veranda in the evening, the subject of brown-tail moths is sure to come up for discussion. Measures for the material progress and moral advancement of our great Dominion. No graft! No deals! "The Thistle, Shamrock, Rose entwined, The Maple Leaf forever."

THE NEW IRISH PARTY

The Times recently printed an article relative to a new political party in Ireland, which seeks to associate Irish home rule with imperial unity. Some further information concerning these most active in the organization is given by the Dublin correspondent of the London Post, who writes: "As to the manner of men, we find for chairman, Mr. George Byrnes, one of the largest employers in the Irish printing trade, a man who has been described as 'the finest combination of head and heart in Ireland.' For secretary we have Mr. George Ryce, B.A., who as an agricultural chemist holds an important position in the Potash syndicate, treats his land along the railways to show the contrast of fertility with neglect and ignorance. The pamphlet is edited by Mr. H. O'Hanlon, B.A., B.D., who was Barrington lecturer in economics, and is now head master of the only school in the city of London. In this movement there is no thought as to who is a Protestant or who is a Catholic. Nationalists and Unionists stand side by side working out a nobler Nationalism on a basis of true Unionism. The material basis essential to the ideal is the industry, with the capitalist and employer as such coming for the first time into the 'Irish question' through 'equality and security.' Without any public attempt to extend membership, and with the committee keeping their secret, we have a hundred men of the kind described putting down their names and their money. In the main these are men who have hitherto been silent, practically disenfranchised because unrepresented by either of the existing parties, who are alike regarded as having no voice in the public life to a political traffic, with the results of difficulty to the empire and ruin to the nation, the smaller force necessary to the going under in the conflict with the greater. Mr. Dillon and Mr. Redmond have been approached quite independently, and both have welcomed the force as a healthy one, though they themselves might have set it moving at any time in the past fifteen years. One thing is certain beyond question—the new movement is going to be independent of the forces, either Irish or British, which have hitherto been the mainstay of the Mr. Redmond's party in the house of commons, to the incalculable detriment of both Ireland and the empire."

THE GREAT ISSUE

Honest and economical administration, says the Victoria Colonist, is the only great issue before the people of Canada today. The Colonist points out that there must be large expenditure, no matter what party is in power, and this opens the way for the grafter, who has flourished far too much under Liberal rule. The Colonist's article is so moderate in tone, and yet so decisive in its conclusion that it is worth quoting in full for eastern readers: "It is time for the people of Canada to ask themselves soberly if they think it is desirable to continue in office the men now at the head of affairs. The country has entered upon a period of very rapid growth, and exceedingly large expenditures will be necessary. Now it is an easy thing to cry out against large expenditures, but we must not lose sight of the fact that what seems to the people of one locality a large or perhaps unnecessary expenditure may to the people of another locality seem only a very reasonable thing. For example, we heard a man the other day defend the expenditure on Victoria harbor and condemn the proposed expenditure for a new wharf at Sydney. Now to the man at Sydney the proposed outlay for the wharf seems a good deal more important than the deepening of Victoria harbor. We may make up our minds that whatever party is in power at Ottawa the annual expenditure will be very large. There can be retrenchment in some matters, but no great cutting down of the annual outlay. This, it seems to us, is one of the dominant considerations for the people in the forthcoming campaign. Millions of dollars must be expended; it is therefore of supreme importance that the men entrusted with those expenditures should be persons in whom the public can have confidence. Now we are not going to be so absurd as to say that a Conservative is necessarily more honest than a Liberal. There are people who indulge in that sort of nonsense who they say seriously. But we do say, and feel justified in saying it, that during the twelve years in which the Liberal party has been in power abuses have grown up that can only be checked by the defeat of that party at the next election. There is a cancer of graft in the body politic and it is time for the voters to perform the necessary surgical operation. The disclosures of the last few years are wholly convincing. Possibly they do not affect the personal integrity of any cabinet minister. In his interview with a correspondent of the Boston Tribune, Sir Wilfrid Laurier made that as-

sertion and seemed to derive some comfort from it. Let us admit that it is true; let us admit that, if we could get down to the bottom facts of every item of public expenditure, we would not find a single instance in which a minister of the Crown had been guilty of an act whereby he directly or indirectly profited his office to his personal advantage; there yet remains the fact that there has been gross extravagance, unjustifiable expenditures, waste approaching criminality and at least a very strong suspicion that the public interest has not always been the guiding influence in the outlay of the public revenues. Ministers may not have profited by their things. Let us hope for the credit of our country that they have not. But they have not prevented them; they have either knowingly or ignorantly permitted them. This year the expenditures are vastly larger than ever. The country is to expend through an administration of which Sir Richard Cartwright is a member, a hundred millions more this year than that gentleman a few years ago thought could be done under any circumstances. We repeat that as the country grows it will be impossible to curtail the gross amount of the expenditure. But we can alter the method upon which the vast annual outlay is expended. We can break up the system under which expenditures have been made. We can put men in office who will be free from the leeches, which now hang on to the federal government. We can take precautions to see that the enormous votes of parliament find their way into channels that will be to the public advantage without being loaded up with monstrous profits to favorites of the powers that be. It is absolutely necessary for Canada to inaugurate an era of honest and economical administration, and now is the time to do it. There is no other issue before the people. Let us see to it that on this one the people speak with no uncertain sound by returning a majority of Conservative members to the house of commons. A Liberal victory will mean the entrenchment in power of an army of grafters, who, though not in parliament, are the virtual rulers of the country, when it comes to matters of expenditure."

Jacob Riis recalls, says the Toronto News, that he saw some little children on one of the poorest New York streets gazing eagerly at a crack in the pavement. He went up to see what so interested them, and found they were looking at three blades of grass. He asked if they did not know what grass was. It was not a little girl answered, "It was a playground. She had heard that they were going to have a playground in the neighborhood, and she thought that was the way a playground grew, a few blades of grass at a time coming up through the pavement. Jacob Riis' story has converted many citizens to the playground idea. The item is from the Ottawa Citizen: "A Toronto plumber, who is out on strike, would rather let his children starve than work for less than the demands of the union. The children having become a charge on public charity, the striking plumber has been prosecuted. That is not a first-rate institution so long as it is not carried too far, but when a striker forces the public to accept work unless he can get the wages he wants at his own trade, the principle of supply and demand in the labor market seems to be strained to the breaking point."

The New York Tribune recently commented upon the political situation in Canada in the following terms: "This revival of Conservatism in Quebec, its overwhelming victory in Ontario, its recent success in carrying New Brunswick, its proved ability in the last year to hold Manitoba and British Columbia by good majorities, have put new life and heart into the Dominion Conservative party and have made possible a change which two years ago would have been deemed impossible."

COMPLAINS OF THE MOOSE To the Editor of the Times: Sir—Can you tell me what is going to be done with the moose and deer. They are very tame and are running about through the farmers crops and doing considerable damage destroying turnips and garden stuff. I think the local government should take care of them and see that they are taken care of or pay the damage done to growing crops. They say it won't do to kill them, if you do so you will be fined. Now I think this is a fine question. Farmers can't fence against them, can't kill them, all he can do is to drive them out of his crop and get mad looking at the destruction left behind. A nice state of affairs, don't you think so Mr. Editor? (Sgd.) NEW HARTON.

SALMON AT SPRINGHILL (Fredericton Gleaner.) The first salmon to give rise to a fly very large. There can be retrenchment in some matters, but no great cutting down of the annual outlay. This, it seems to us, is one of the dominant considerations for the people in the forthcoming campaign. Millions of dollars must be expended; it is therefore of supreme importance that the men entrusted with those expenditures should be persons in whom the public can have confidence. Now we are not going to be so absurd as to say that a Conservative is necessarily more honest than a Liberal. There are people who indulge in that sort of nonsense who they say seriously. But we do say, and feel justified in saying it, that during the twelve years in which the Liberal party has been in power abuses have grown up that can only be checked by the defeat of that party at the next election. There is a cancer of graft in the body politic and it is time for the voters to perform the necessary surgical operation. The disclosures of the last few years are wholly convincing. Possibly they do not affect the personal integrity of any cabinet minister. In his interview with a correspondent of the Boston Tribune, Sir Wilfrid Laurier made that as-

WHERE LIES THE LAND?

Where lies the land to which the ship would go? Far, far ahead, is all her seamen know. And where the land she travels from Away, Far, far behind, is all that they can say. On sunny noons upon the deck's smooth face, Linked arm in arm, how pleasant here to pace; Or, o'er the stern reclining, watch below The foaming wake, far widening as we go. On stormy nights, when wild north-westerers rave, How proud a thing to fight with wind and sea! 'Tis the dripping sailor on the reeling mast, 'Tis the sailor on the mast, with his feet on the mast, and his hands on the mast, who tells us where the land lies. Where lies the land to which the ship would go? Far, far ahead, is all her seamen know. And where the land she travels from Away, Far, far behind, is all that they can say. —Arthur Hugh Clough.

IN LIGHTER VEIN

AT THE CONCERT. He—"That girl certainly has an admirable voice." She—"Yes, for destroying silence."—Chicago News. MATTER OF EXPERIENCE. Hykes—"Did you read that article in Black's Magazine on 'The Passing of the Horse'?" Pykes—"No; but I know all about it. The horse that carries my money was passed by all the other skates in the race."—Chicago News.

IN THE SWIM

"By the way," queried Miss Blowitz, who had recently entertained a duke, "have you ever had any foreign noblemen as guests?" "No," answered Mrs. Upson; "only as servants."—Chicago News.

HER OBSERVATION

He—"I love simple things above all else." She—"Yes, I've noticed how self-satisfied you are."—Chicago News.

TAKEN BY THE HUSBAND

"Do you take any periodicals?" asked the clergyman on his first round of parish visits. "Well, I don't," replied the woman; "but my husband takes 'em for me. I do wish you'd try to get him to sign the pledge."—Judge.

NOT THE MAN FOR THE PLACE

Merchant—"What other qualifications have you for the place?" Applicant—"Well, my friends tell me I have a confident, firm, and determined disposition; one that will bustle."—Philadelphia Press.

WHERE SHE GOT IT

Miss Belle has such a mobile face. "Now I think of it, I believe she does come from Alabama."—Baltimore American.

FINAL TEST

Spongen—"I say, old man, in case I should die suddenly, will you make sure I am really dead before they bury me?" "I'll see to it," replied the other, "but I'll ask you to have a drink, and if you don't all at once, I'll tell the undertaker to go ahead and plant you."—Chicago News.

SIGN OF PROCEEDENCY

"I believe," declared the Irishman, "that my youngest son is a surgeon." "That leads ye 't say that!" asked his friend. "O' caught him usin' 'th scissors on a back O'f lately bought, an' before O' could stop him, he cut out 'th appendix."—Chicago News.

HOW A WOMAN FIGURES

She had worked her last-year prerogative, but he was trying to dodge the animal story. "I'm not a man," he said, "but my income is not sufficient for two." "When we are married, will be one, you know."—Chicago News.

CHARLES G. D. ROBERTS

New Brunswick Author Has Written Another Animal Story —A Tribute to His Genius! (Toronto News.)

Charles G. D. Roberts has a strong desire to be known as the first writer of today to put in shape the modern animal story. Animal stories, however, go far back in the history of fiction. Mr. Roberts for several reasons may be judged to hold the foremost place among present day writers of life in the wild. He knows the country and its untrammeled habitants thoroughly. Anyone who is familiar with New Brunswick and Nova Scotia must feel the very breath, stillness and perfume of these forests and clearings in Mr. Roberts' animal stories. The form which he uses possesses literary excellence, restraint and simplicity. He has written animal stories, by an exaggerated sentiment, almost would convince their readers that wolves and bears are feeling and thinking. But Mr. Roberts keeps the balance between the two kingdoms of animal stories, where wild animals life and men most constantly, are as true to their types as the animals are to theirs. Mr. Roberts tells only what has been observed by men. He does not imagine what goes on inside the beaver's house. "The House in the Water" is a splendidly successful book of animal stories and should find its way into every library meant for boys and girls. It is pleasant to be able to add that Mr. Roberts has not wholly given up poetry for fiction. He has before this turned his hand with success to so many poetical styles that it is not surprising to find his name signed to a poem of seven stanzas in the Windsor Magazine, where his poems, not nature, but a city of the imagination, where all good dreams come true. The cadences of the poem are often exquisite. His meaning is true to the heart's desire. The concluding stanza reads as follows: Here is fulfilled each hope that soared and sought Beyond the bounds of thought. The obdurate marble yields, the canvas glows, Perfect the column grows; The chorded cadence art could never attain. Crowns the imperfect strain; And the great song that seemed to die unused, Triumphs upon the tongue. Here the high failure, not the level fame, Attends the spirit's aim; And here the hearts by too frail flesh forsworn, At last forget to mourn.

SCOTT ACT ACTIVITY.

(Fredericton Gleaner.) There is a good deal of Scott Act activity in the city this week. This morning it was said that third offence papers were being taken out, and there have been rumors that search warrants might be taken out at any time. The complainant in the city cases is A. Duncan Gunter, who acted as detective for the Scott Act Committee on Friday several county and city cases will be up in the police court.

NEWS FROM FREDERICTON

Fredericton, N. B., July 21. Judge Landry and Messrs. Teed, McDougall and Kitchen, of the Central Railway Commission arrived here this evening.

The Commission will meet tomorrow to examine witnesses. F. B. Carvell, counsel for the New Brunswick Coal & Railway Company is also here.

The witnesses to be examined are Sheriff Sterling, W. T. Whitehead, George Massey and O. H. Sharpe.

It is not expected that the Commission will leave for St. John Thursday morning to play a match with St. John.

The requisite amount of stock of the Fredericton & Woodstock Steamship Company has been subscribed and it is likely that a meeting of the subscribers will be held in the near future to complete the organization.

The authorized capital of the company is \$10,000. It is proposed to have a boat on the route next spring.

Office Boy--Yes! That's him in the blue shirt over there just lighting a cigarette.

KERR IN FINALS AT OLYMPIC

Hamilton Sprinter Won Two Heats Yesterday--Attendance is Improving.

Montreal, July 21--A special London cable says-- Bobby Kerr, the Hamilton sprinter, will run in the final of the 200 metre, and also in the final of the 100 metre, Olympic events, having won his heats in the semi-finals today.

In the 200 metre Kerr won easily in 22 1/2 seconds, doing the best time of the day. Schert and Lukeman ran second and third in their heats. Lukeman is not in condition, suffering from an injury to his feet.

In the 100 metre semi-final, Kerr won from Sherman, a United States runner, beating him by two yards in 11 seconds.

London, July 21--Melvin W. Sheppard, of the Irish-American Athletic Club, who won the 1,200 metre race at the Olympic games just a week ago, added another victory to his long list today when he finished far in the lead in the 800 metre event and establishing a new Olympic record of 1:52 4/5 for the distance, and continuing on to the half mile, which he ran in 1:54, within three-fifths of a second of C. H. Kilpatrick's world's record made in New York in 1895.

Another gold medal went to America when Harry P. Porter, of the Irish-American A. C. captured the high jump by clearing the bar at 6 feet 3 inches and beating the Olympic record made by J. K. Baxter in Paris in 1900, 6 feet, 2 1/2 inches. After assuring himself that he was the winner, Porter stepped on the world's record. The bar was placed at 6 feet, 5 1/2 inches, just a foot and a half higher than the record, which was made by M. F. Sweeney, in New York, in 1893, but it was just a shade too much for him.

There were four heats in the semi-finals of the 400-metre hurdle race in two of which Americans contested and they took both of them, Harry L. Hillman, of the N. Y. A. C., and J. J. Bacon, Irish-American C. doing the trick. The other two went to Great Britain and in both cases in slowest time than that made by the Americans.

ST. PETERS LOSE ANOTHER GAME

St. Peter's nine have taken a slump and have not won any of the last three games played. Last evening St. Peter's captured the game 8-3 in fine style and the leaders will have to look to their laurels. Quigg was pitching for Fairville boys and lasted longer than any pitcher in the league, but was twirling for the losers, was given poor support. On Thursday night the leaders will face another hard team in St. John the Baptist nine who are making a bid for second place.

The Clippers again blanked the Fortlands last evening in a game on St. John's grounds, winning by the score of 4-0. This all happened in the first inning, when Bovard found for three hits and two errors made matters worse. The star twirler of the league then braced up and in the next four innings struck out twelve men and allowed no hits.

During the A. O. H. convention here next month it is possible that an "All Irish team" from Halifax will play St. Peter's and that there will also be a baseball match between the A. O. H. of Halifax, and the uniformed knights of St. John.

National League. At Pittsburg--Hittsburg, 2; Brooklyn, 1. At St. Louis--First game: New York, 4; St. Louis, 2. Second game: St. Louis, 4; New York, 3. At Cincinnati--Cincinnati, 2; Philadelphia, 2. At Chicago--Boston, 5; Chicago, 0. American League. At Boston--First game: Boston, 2; St. Louis, 1. Second game: Boston, 3; St. Louis, 1. At New York--First game: Chicago, 6; New York, 2. Second game: New York, 6; Chicago, 3. At Washington--Washington, 1; Detroit, 4. At Philadelphia--Cleveland, 2; Philadelphia, 1. Eastern League. At Montreal--Montreal-Baltimore, rain. At Toronto--Toronto-Toronto, no grounds. At Rochester--Rochester-Providence, rain.

EVERY DAY CLUB EVENING SPORTS

The Every Day Club will hold another series of evening sports on Thursday evening, July 23. The events will be--100 yds. dash, one mile run, one mile relay race, high jump, running broad jump, hop, step and jump, 220 yds. dash for boys of fourteen and under, 440 yds. dash for boys of seventeen and under, and a sack race.

It is expected that some new competitors will enter the field in some of these events. Judging from the interest aroused by the last series, there should be a large crowd at these sports. The club's life and drum band will play. Entries for the sports will be received at P. O. Box 24, up to Wednesday afternoon, July 23.

Parreboro, N. S., July 21--Douglas Lamb, of Diligent River, who was highly respected and his sudden death will be sincerely mourned by a large circle of relatives and friends. He leaves a widow and a large family of children.

MOTOR BOAT RACE NEXT

On Programme of R. K. Y. C. Club Need More Yard Room for Yachts in Winter.

The next event on the R. K. Y. C. programme of a gasoline motor boat race on Saturday afternoon next for the 1908 Executive cup. The race will start at 3 o'clock, and the course will be from Millidgeville to Sandy cove across to Millidgeville and around Indian island, the course will be sailed off at the club house. The time limits is 2 hours. The officers of the day are--Judges, S. P. Gower and F. C. Jones; timers, W. E. Rodwell and J. H. Kimball. The cup was presented for competition between motor boats 25 feet and under and was won in 1906 by the Lida, at that time owned by S. L. Emerson, and since sold. Last year, owing to a number of accidents, the race was called off after two postponements had been made.

As there are a number of fast power boats now in the fleet, the race this year should be very interesting and exciting. On Saturday, August 1, the Beveridge cup race, open to classes A, B and C, will be sailed, and as there is always a large entry list in this race, it promises to be one of the best of the season. All the boats that were in the race on July 1 will be entered, and a number of others as well; and some of the old-timers hope to show the owners of new craft that they are not so fast as they are.

The regular quarterly meeting of the club will be held on Tuesday, August 4, and one of the matters that will probably be discussed will be the need of more yard room for accommodating the boats during the winter. The large number of boats that have been added to the fleet this year make it necessary to give this matter serious consideration before the season closes. It is understood that there is some property available adjoining the present lot, and arrangements will probably be made to acquire some of it.

GOSSIP OF THE RING

Soldier Burns, the Baltimore boxer, and Harry Seign, the Montrealer, met for a 15-round battle at Baltimore August 5th. Freddie Walsh is in San Francisco looking for a few short bouts previous to his return to Paris. Jimmy Dime, the Newcastle (Pa.) promoter, has signed Harry Baker and Jimmy Dunn to meet at his club some time in September.

Charley Griffith and Battling Hurley are the favorites for the attraction of the rounds at Jim Buckley's Navarre A. C. of New York, July 28. The agreement is conditional that Ketchell wins from Hugo Kelly, whom he meets July 21.

Tony Bender and Howard Smith, rival Jersey City lightweights, fought 20 rounds at a draw last Thursday. The contest took place in the woods, and was to have gone to a finish. In the 20th round the bout was stopped on account of darkness. No more short bouts for Battling Nelson, is what Willie Britz, the champion's manager, has to say in regard to future contests for his charge. Nothing but the long bouts or a finish go for all those who are on the eligible list for a chance at the Danes.

Tommy Murphy is at Northboro, arriving there yesterday. He will finish up his conditioning for his bout with Unholz at the Armory A. A. next Tuesday night. Murphy's ambition is to secure a win over the South African, and that would mean a step nearer the light-weight title.

LITTLEJOHN AFTER MATCH WITH RYAN

Dan Littlejohn said last night that he is willing to make a match with Ryan, of Montreal, who has been reported as expressing a desire to box Mike (Twin) Sullivan. Littlejohn said he had been promised a meeting with Sullivan at Sydney for tomorrow night, but has received word that he was side-stepped in favor of Foley, of Halifax. Littlejohn says he will meet Ryan in Montreal for any number of rounds, and will await word from the Montreal man. A letter addressed to him at St. John will reach him.

HANSON DECLARES ROAD RACE OFF

A road race between Cyril T. Hanson, of Fairville, and Joseph C. Reed, of Carleton, which was to take place Thursday evening, from Barnhill's Corner, Fairville, to Dean's at Annapolis, has been declared off by Mr. Hanson. He called at the Telegraph office last evening to say that it had come to his knowledge that Mr. Reed was telling people that he (Hanson) had to accept his (Reed's) challenge. He claimed that this was incorrect and that he accepted the challenge only because Mr. Reed refused to meet him on other terms. Under the circumstances, he said, he would decline to race until some more satisfactory understanding between the two. The half-mile match race between Herbert Danaher and James Whiston was brought off on the Every Day Club grounds last evening and resulted in a victory for Danaher, who won easily. The time was 2 min. 30 sec.

CANADIAN TEAM STARTS WELL

Dominion Riflemen Make Good Showing in Early Stage of King's Prize.

Basley, England, July 21 (Special).--The first stage of the King's prize was fired today under good conditions. This is the first fine day since the opening of the meeting. This is the most coveted trophy in the world in rifle shooting. It has been twice won by a Canadian; Staff Sgt. Hayhurst, in 1885, and by Sgt. Perry, in 1904. It is fired in three stages as follows-- First stage--Seven shots at 200, 500 and 600 yards, possible 105. Second stage--Ten shots at 300, 400 and 500 yards, possible 100. Third stage--Ten shots at 800, 900 and 1,000 yards, possible 150. Total, 355. For the last few years the second stage has been twenty shots at 600. It was won last year by Lieut. W. C. Addison, of Australia, with 318. The best score ever made in this match is 324, made in 1906, by Capt. Devine, of Middlesex, V. R. C. The best before that time was the 321, put on by Sgt. Perry, of Vancouver, in 1904.

The score of the Canadians at 200 yards follows-- Brown..... 33 Crowe..... 33 Eastcott..... 33 Elmitt..... 33 Frebrom..... 33 Haystead..... 33 Jones..... 33 Kerr..... 31 Leask..... 31 Martin..... 35 Morris..... 31 Pope..... 31 Rowe..... 31 Smith..... 34 Sparing..... 34 Spittal..... 34 Utton..... 31 Williams..... 32 Unattached..... 32 Schlater..... 32 Mortimer..... 32 Bayles..... 32 Secretary of State for War, 800 Yards. In the Secretary of State for War, ten shots at 800 yards, the Canadian scores were-- Brown..... 43 Crowe..... 40 Eastcott..... 40 Elmitt..... 40 Frebrom..... 39 Haystead..... 45 Leask..... 45 Jones..... 43 Kerr..... 44 Martin..... 41 Morris..... 41 Pope..... 42 Rowe..... 46 Sparing..... 47 Spittal..... 48 Utton..... 49 Williams..... 46 Unattached..... 38 Schlater..... 38 Mortimer..... 38 Bayles..... 45

The receipts were about to be read when Mr. Barnhill objected to going into anything relating to the Hampton & St. Martins road, as it had no relation whatever to the Central. He could not understand how the true company produced the document under their signature. A claim was made by Mr. Powell that the affairs of the two concerns at this stage were so intermingled that the receipts could not be separated. He wanted to know, he said, whether all or only part of the \$85,000 was for the Central Railway. Mr. Barnhill contended that the dealings between Drexel & Co. and Mr. Evans were private business. After some further discussion, in which all the lawyers took part, the matter was amicably settled and the receipts were read. The receipts for 10,000 shares in the Central Railway, and for bonds for \$145,000 in the same road, were signed by William Pugsley dated July 15, 1903. A copy of the form of receipt was put in after some objections by Mr. Carvell, on the ground that it might have been changed. Mr. Shadbolt said the original was in Montreal, but he believed the document was a copy of the receipt, as it came back, otherwise it would not have been accepted. Mr. Barnhill also objected to only half the document being put in, in the letter of Clark & Co., dated Sept. 18, being missing. Mr. Shadbolt said it had been sent to Clark & Co., Aug. 27, 1903, at their request, as the transaction was closed. A letter to Mr. Shadbolt from Hon. William Pugsley dated July 15, 1903, was put in evidence. It requested that all the stocks and bonds should be delivered to the Bank of Montreal as security for a temporary loan of \$60,000 which the New Brunswick Coal and Railway Company was making and for which the bank had advanced the money. In reply to Mr. Powell, Mr. Shadbolt said he had several conversations with Mr. Pugsley at that time but not as far as he could remember with regard to this matter. He did not deliver the whole amount of bonds but \$70,000 worth was sent to the Fredericton branch in exchange for the old issue. He knew of no advance being made. This concluded Mr. Shadbolt's evidence. F. Kenneth Brown, an employe in the Bank of New Brunswick, was the next witness. He testified to making a true copy from the bank books, of the current account of the New Brunswick Coal & Railway Company, from August 7, 1903 to March 2, 1906, when the account was closed. The copy was put in evidence. In reply to Mr. Powell, Mr. Brown said the style of ledger used by the bank did not give the names of persons to whom the debts were paid. Except in a few cases in which the bank still held the checks it would be impossible to fill in the names. Mr. Robinson said the checks were surrendered on August 26, 1904. He thought it was on the order of Mr. Powell. The system in use applied to all accounts and not only to that of the railway company. This finished Mr. Brown's evidence. Mr. Barnhill said his firm bought to make it clear that the New Brunswick Coal & Railway Company bought the stocks, Evans and Elkin, who paid Clark & Co. out of the money which came to them from the transaction. Mr. Carvell's cross-examination of the directors of the company and of the meetings of the shareholders were handed in by Mr. Powell and put in evidence. There was nothing to show who received the benefit of the accrued interest. The interest adjournment, in January and July and as the sale took place in March the interest for January and February should have been credited to the company. Mr. McDougall after working the figures out, said it would amount to \$3,880. It did not seem to appear in the books. Mr. Robinson said his firm bought the bonds with accrued interest, but he was unable to say from memory who paid the money to the company. It was at the same time a highly productive and profitable farm. The large barn and stables are kept as clean and sweet as a child's face, the sprays pump is frequently employed in whitewashing interior walls and ceilings while Tubique grass on the floors thoroughly absorbs all the moisture and odors as well as adds much to the value of the droppings of the stock. Among the far scenes are some splendid young Clydesdales bred on the place. Sir William expressed great interest in the agricultural development of the province and tendered some valuable suggestions as well as unbounded hospitality to the commissioners during their stay. The report of Stewart Skinner, registrar, showed the number of names on the medical register this year to be 233 and the balance on hand, \$1,242.16. He also stated it had been decided by the council to make the fiscal year end the last of February. The meeting also took steps to have the fees for examination and registration in New Brunswick increased to \$80, that is for examination \$20 and for registration \$60. Interesting papers were read by Drs. Murray McLellan, of St. John; Percy E. Butler, of Miramichi, and J. M. Deacon, of Milltown. At the opening of the meeting this afternoon Mayor W. G. Grimmer in a most pleasing and gracious address extended a cordial welcome to the members of the medical society. Surgeon General Grimmer also delivered an address of welcome. In his remarks he stated he did not understand why the government should appoint four of the nine members of the medical council. They were well able to appoint their own members. He hoped that the present government would be able to give aid for a sanatorium to check tuberculosis. Mr. Weston, representing several insurance companies, was present and stated he was glad to see the medical men accept a flat fee of \$4 for medical examinations. After considerable discussion it was moved by Dr. Thomas Walker, seconded by Dr. A. J. Murray that the society accept the offer of \$4. The motion was lost by fifteen to four. It was then moved that the fee of \$8 for medical examination in all old line companies be enforced beginning October 1. The next place on the agenda was the following officers were elected-- J. R. McIntosh, St. John, president; T. R. Purly, Moncton, first vice-president; A. J. Murray, Fredericton, June, second vice-president; G. G. Melvin, Miramichi, secretary; George G. Corbett, recording secretary. A motion to take into consideration the form for medical examinations for fraternal societies was passed and a committee consisting of Drs. Murray, Day and Corbett was appointed to report at the next meeting. Dr. Young, Deinstadt and G. McNally were elected trustees. Members of the medical council elected for three years: Drs. Melncrney, Gaudet, Innes, Melvin, Laren and Deacon. Dr. Melncrney read a valuable paper on "The Medical Profession in New Brunswick Making Good In Its Own Backyard." He advocated Dominion registration and they should unite with British societies and be imperially. They should have a thorough organization. Every effort should be made to have a sanatorium established in the province to prevent tuberculosis. Vaccination should be compulsory. He closed a most interesting address by advising the members to see that there were organization and agitation along legitimate lines.

The score of the Canadians at 200 yards follows-- Brown..... 33 Crowe..... 33 Eastcott..... 33 Elmitt..... 33 Frebrom..... 33 Haystead..... 33 Jones..... 33 Kerr..... 31 Leask..... 31 Martin..... 35 Morris..... 31 Pope..... 31 Rowe..... 31 Smith..... 34 Sparing..... 34 Spittal..... 34 Utton..... 31 Williams..... 32 Unattached..... 32 Schlater..... 32 Mortimer..... 32 Bayles..... 32 Secretary of State for War, 800 Yards. Mr. Weston, representing several insurance companies, was present and stated he was glad to see the medical men accept a flat fee of \$4 for medical examinations. After considerable discussion it was moved by Dr. Thomas Walker, seconded by Dr. A. J. Murray that the society accept the offer of \$4. The motion was lost by fifteen to four. It was then moved that the fee of \$8 for medical examination in all old line companies be enforced beginning October 1. The next place on the agenda was the following officers were elected-- J. R. McIntosh, St. John, president; T. R. Purly, Moncton, first vice-president; A. J. Murray, Fredericton, June, second vice-president; G. G. Melvin, Miramichi, secretary; George G. Corbett, recording secretary. A motion to take into consideration the form for medical examinations for fraternal societies was passed and a committee consisting of Drs. Murray, Day and Corbett was appointed to report at the next meeting. Dr. Young, Deinstadt and G. McNally were elected trustees. Members of the medical council elected for three years: Drs. Melncrney, Gaudet, Innes, Melvin, Laren and Deacon. Dr. Melncrney read a valuable paper on "The Medical Profession in New Brunswick Making Good In Its Own Backyard." He advocated Dominion registration and they should unite with British societies and be imperially. They should have a thorough organization. Every effort should be made to have a sanatorium established in the province to prevent tuberculosis. Vaccination should be compulsory. He closed a most interesting address by advising the members to see that there were organization and agitation along legitimate lines.

GOOD SPORT TODAY AT MOOSEPATH RACES

With a fine string of horses and a good track after the fine drying weather, there should be good sport at Moosepath Park this afternoon. Victors may go to Coldbrook by the 1.15 p. m. train, or by a special leaving the depot at 2 p. m. The latter train will return at the conclusion of the sports. Dorothy, of Lewistown, will act as starter and will call the first event at 2 o'clock. The timers will be Walter Jewett and John Wilson, the judges, E. L. Jewett and Jesse Prescott, of Sussex, and the clerk, James Pullen. Today's events are the 2 1/2 trot and 2:20 pace, and the 2:12 trot and 2:15 pace. On Thursday there will be three races, the 2:30 class, 2:17 class and free-for-all.

Mr. Shadbolt said the original was in Montreal, but he believed the document was a copy of the receipt, as it came back, otherwise it would not have been accepted. Mr. Barnhill also objected to only half the document being put in, in the letter of Clark & Co., dated Sept. 18, being missing. Mr. Shadbolt said it had been sent to Clark & Co., Aug. 27, 1903, at their request, as the transaction was closed. A letter to Mr. Shadbolt from Hon. William Pugsley dated July 15, 1903, was put in evidence. It requested that all the stocks and bonds should be delivered to the Bank of Montreal as security for a temporary loan of \$60,000 which the New Brunswick Coal and Railway Company was making and for which the bank had advanced the money. In reply to Mr. Powell, Mr. Shadbolt said he had several conversations with Mr. Pugsley at that time but not as far as he could remember with regard to this matter. He did not deliver the whole amount of bonds but \$70,000 worth was sent to the Fredericton branch in exchange for the old issue. He knew of no advance being made. This concluded Mr. Shadbolt's evidence. F. Kenneth Brown, an employe in the Bank of New Brunswick, was the next witness. He testified to making a true copy from the bank books, of the current account of the New Brunswick Coal & Railway Company, from August 7, 1903 to March 2, 1906, when the account was closed. The copy was put in evidence. In reply to Mr. Powell, Mr. Brown said the style of ledger used by the bank did not give the names of persons to whom the debts were paid. Except in a few cases in which the bank still held the checks it would be impossible to fill in the names. Mr. Robinson said the checks were surrendered on August 26, 1904. He thought it was on the order of Mr. Powell. The system in use applied to all accounts and not only to that of the railway company. This finished Mr. Brown's evidence. Mr. Barnhill said his firm bought to make it clear that the New Brunswick Coal & Railway Company bought the stocks, Evans and Elkin, who paid Clark & Co. out of the money which came to them from the transaction. Mr. Carvell's cross-examination of the directors of the company and of the meetings of the shareholders were handed in by Mr. Powell and put in evidence. There was nothing to show who received the benefit of the accrued interest. The interest adjournment, in January and July and as the sale took place in March the interest for January and February should have been credited to the company. Mr. McDougall after working the figures out, said it would amount to \$3,880. It did not seem to appear in the books. Mr. Robinson said his firm bought the bonds with accrued interest, but he was unable to say from memory who paid the money to the company. It was at the same time a highly productive and profitable farm. The large barn and stables are kept as clean and sweet as a child's face, the sprays pump is frequently employed in whitewashing interior walls and ceilings while Tubique grass on the floors thoroughly absorbs all the moisture and odors as well as adds much to the value of the droppings of the stock. Among the far scenes are some splendid young Clydesdales bred on the place. Sir William expressed great interest in the agricultural development of the province and tendered some valuable suggestions as well as unbounded hospitality to the commissioners during their stay. The report of Stewart Skinner, registrar, showed the number of names on the medical register this year to be 233 and the balance on hand, \$1,242.16. He also stated it had been decided by the council to make the fiscal year end the last of February. The meeting also took steps to have the fees for examination and registration in New Brunswick increased to \$80, that is for examination \$20 and for registration \$60. Interesting papers were read by Drs. Murray McLellan, of St. John; Percy E. Butler, of Miramichi, and J. M. Deacon, of Milltown. At the opening of the meeting this afternoon Mayor W. G. Grimmer in a most pleasing and gracious address extended a cordial welcome to the members of the medical society. Surgeon General Grimmer also delivered an address of welcome. In his remarks he stated he did not understand why the government should appoint four of the nine members of the medical council. They were well able to appoint their own members. He hoped that the present government would be able to give aid for a sanatorium to check tuberculosis. Mr. Weston, representing several insurance companies, was present and stated he was glad to see the medical men accept a flat fee of \$4 for medical examinations. After considerable discussion it was moved by Dr. Thomas Walker, seconded by Dr. A. J. Murray that the society accept the offer of \$4. The motion was lost by fifteen to four. It was then moved that the fee of \$8 for medical examination in all old line companies be enforced beginning October 1. The next place on the agenda was the following officers were elected-- J. R. McIntosh, St. John, president; T. R. Purly, Moncton, first vice-president; A. J. Murray, Fredericton, June, second vice-president; G. G. Melvin, Miramichi, secretary; George G. Corbett, recording secretary. A motion to take into consideration the form for medical examinations for fraternal societies was passed and a committee consisting of Drs. Murray, Day and Corbett was appointed to report at the next meeting. Dr. Young, Deinstadt and G. McNally were elected trustees. Members of the medical council elected for three years: Drs. Melncrney, Gaudet, Innes, Melvin, Laren and Deacon. Dr. Melncrney read a valuable paper on "The Medical Profession in New Brunswick Making Good In Its Own Backyard." He advocated Dominion registration and they should unite with British societies and be imperially. They should have a thorough organization. Every effort should be made to have a sanatorium established in the province to prevent tuberculosis. Vaccination should be compulsory. He closed a most interesting address by advising the members to see that there were organization and agitation along legitimate lines.

CENTRAL ENQUIRY GROWS IN INTEREST

Evidence Yesterday Showed How Large Blocks of Stock Were Disposed of--St. Martins Railway Becomes Mixed Up in Sale to Elkin and Evans

The evidence given yesterday before the royal commission appointed to enquire into the affairs of the Central Railway disclosed several new and interesting features with regard to the financial transactions which took place in connection with the sale of the railway. The examination of E. M. Shadbolt, manager of the St. John branch of the bank of Montreal, and of the Philadelphia, 1903, and by Sgt. Perry, in 1904. It is fired in three stages as follows-- First stage--Seven shots at 200, 500 and 600 yards, possible 105. Second stage--Ten shots at 300, 400 and 500 yards, possible 100. Third stage--Ten shots at 800, 900 and 1,000 yards, possible 150. Total, 355. For the last few years the second stage has been twenty shots at 600. It was won last year by Lieut. W. C. Addison, of Australia, with 318. The best score ever made in this match is 324, made in 1906, by Capt. Devine, of Middlesex, V. R. C. The best before

THIS EVENING

Moving pictures and illustrated songs at the Nickel. New Brunswick Lodge, No. 1, Knights of Pythias, meet in Castle hall at 8 o'clock to initiate candidates. Extra attractions at Rockwood Park. True Blue Lodge No. 11, L. O. L., celebrates its 6th anniversary in their hall, Guilford street, West End.

LATE LOCALS

A number of Fredrick sporting men came to the city today to attend the horse races at Moospath. Steamship Manchester Monarch, Captain Couch arrived today from Manchester, with a general cargo. Mr. J. F. Hyland, of Public Landing, has lost a grey and black dog, and is very anxious to recover same. Any one seeing it please notify him. Steamer Calvin Austin, Capt. Pike, from Boston direct yesterday, brought 468 passengers. Steamers Camden, Capt. Allen, via Maine ports, brought 106. True Blue Lodge No. 11, L. O. L., will celebrate its sixty-fourth anniversary this evening in the hall, Guilford street, west end. An interesting programme has been prepared and several of the grand officers will be present to address the members. John Keith, a man residing at 5 Harris street was struck by an iron railway frog this morning, while employed in loading the frogs on a flat car in the rear of Mr. Leach and Holt's foundry, on City Road. Dr. James Christie dressed the injuries and the man was taken to his home in a cab.

I. O. FORESTERS

Hear interesting Addresses by P. H. C. R. Lingley and Others - A Fine Lodge Room.

The meeting of Court La Tour, held last evening in Forester's Hall, was largely attended. Many "old members" being present, the occasion being of special interest to them. P. H. C. R. Lingley, supreme court delegate, attended and gave an interesting address on the meeting of the supreme court lately held in Toronto. The reasons were plainly stated for the necessity of readjustments in the rates of old members. Mr. Lingley also spoke of the Orphan's Home and matters generally connected with the supreme court. Other speakers of the evening were: Dr. G. G. Melvin, C. E. MacMichael and W. H. Hawker. C. R. M. E. Grass presided. In the initiation ceremony the full ritual was used. The handsome court room having been recently refitted with new carpets and lights in the best style. Members were present from courts Wygodly, Rockwood, Martello, Osgandy and Loyall. Prior to closing, thanks were extended to the speakers. There was a general expression of renewed confidence in the stability of the order.

OBITUARY

Reuben Ebbett Reuben Ebbett, aged 83 years, was found dead in bed at his home Fox's Reach, five miles below Gagetown, this morning. Mr. Ebbett formerly lived in Gagetown. He is survived by Mrs. Ebbett, two sons and one daughter. Mr. Ebbett lived also in St. John, having here some four years ago. The funeral will take place at Lower Gagetown on Friday.

Mary E. Stackhouse The death occurred at an early hour this morning at the residence of her son, Joseph W. Stackhouse, 65 Richmond street, of Mrs. Mary E. Stackhouse, widow of Benjamin Stackhouse. Mrs. Stackhouse has been seriously ill for the past two weeks and was unconscious since Saturday. She is survived by one son, Joseph W., and one daughter, Miss Ida, both of this city. She also leaves four brothers: George, Levi and Charles, of Boston; and William, of San Francisco; and two sisters, Mrs. Katherine Lunn, and Mrs. Almira Woodworth, of Boston.

PROBATE COURT

Estate of Mary II. Colbourn, of St. John, widow. The deceased left two daughters, Mrs. Ferris and Mrs. Warren, the latter residing in the United States, the former renouncing in favor of Francis Kerr who is appointed as administrator. No real estate, personal consisting of leasehold, including personal under \$5,000. Estate of Daniel Dwyer, late of Millford, Parish of Lunenburg, groom. Last will proved whereby deceased gives all his property of every nature to his wife, Mary Dwyer absolutely. No real estate, leasehold of \$100. J. King Kelley, 600, L. P. D. Tilley, proctor.

PERSONALS

Mr. Felix Rodrigues, of St. Kitts, British West Indies, is now in the city attending the Currie Business University. Misses Agnes and May Burton are leaving to-day for a trip to Winnipeg. Mr. and Mrs. F. H. Lowe of Aylesford, N. S., and Miss Gertrude A. Porter, of St. John, were guests at the Queen Hotel Fredericton, on Sunday. Messrs. Frank Skinner, of the Frank Skinner & Co., and Alexander Macaulay, of Macaulay Bros. & Co., will leave tomorrow night for Quebec, to catch the Empress and Britain. Mrs. P. L. Connor and little daughter, of Boston, Mass., arrived in the city yesterday by steamer Calvin Austin. Mrs. Connor will remain in the city a short time the guest of Mrs. James Gerow, before proceeding to Quebec to visit her sister Miss Carberry. Doctors, S. Skinner, P. R. Inchee, Thos. Walker and J. P. McInerney, returned today from St. Stephen, where they were attending the annual meeting of the New Brunswick Medical Society. Mrs. J. P. Shewen returned to the city on the Montreal train today. Senator Ellis returned from Ottawa today. W. S. Hooper, of Fredericton, is in the city. Inspector McConnell of the board of health accompanied by his wife leaves for Lynemouth Creek today for a two weeks' vacation.

FUNERALS

The funeral of Mary Hughes, wife of John Hughes, occurred this afternoon from her father's residence, at Millford, to St. Rose's Church, where Rev. Father Collins read the burial service. Interment took place at Sand Cove cemetery. There were no pallbearers.

SIX TIMES IN THREE MONTHS

This is Frank Hopper's Record in the Police Court--Hacker-men in Trouble.

Samuel Irvine, the Englishman, who was arrested last night by Patrolman Sullivan, pleaded not guilty to the charges of drunkenness and being disorderly on King street and was remanded to the police court. Irvine's wife complained of her husband's actions previous to the arrest. Later he saw him at the corner of King and Charlotte streets, where he was shouting "Three cheers for Bole", and, incidentally, attracted a large crowd. The policeman requested Irvine to desist but the prisoner replied in profane terms and he was thereupon arrested. The man is an interdict and steps will be taken to prosecute the dealer from whom he purchased the liquor. His identity is known to Mr. Henderson. Frank Hopper, who pleaded not guilty to drunkenness at yesterday's session this morning reversed his plea and acknowledged the offence. When asked for the cause of the change he declared that Policeman Belyea, who arrested him, advised him to deny the charge and he could be released. He was sent to jail for two months in default of payment of an eight dollar fine. Hopper has appeared in the police court on six occasions during the past three months. Charles McCarthy was fined \$6 or 30 days in jail and George McAdam was remanded for drunkenness. Much time was consumed in the hearing of the cases against Patrick McHugh, Fred Love and William Daley, three huckmen charged with violation of the I. C. R. coachmen's regulations at the depot. Love was fined \$10 for being on the side of the cabmen's rail on the 29th inst. and another charge against him was allowed to stand. Daley denied being in the I. C. R. policeman's report room and was discharged. The rectification of an error in the I. C. R. policeman's report room created by committing a violation on the 29th inst. Lawrence Conway, a bell boy in the Royal Hotel, reported by I. C. R. Officer Scovil Smith, for carrying hand baggage in the depot, was not in court.

BARTENDER DID NOT INTERFERE

And William Cook Was Badly Beaten--Henderson Fined \$20.

The case of assault preferred by William Cook against John Henderson, was heard in the police court this morning and Henderson was fined \$20. Cook, the complainant, testified that he entered Hogan's barroom on Union street at noon on Monday, and after purchasing a glass of liquor was attacked by Henderson, who is a giant in stature. The latter, he stated, punched and kicked him in the face and body without the least provocation. Henderson was then, aron, and in his evidence stated that he hit Cook in self-defence with his fists, but denied using his feet. John Cronin, the bartender, made the statement that although he was within a few feet of the spot where the fracas occurred he did not attempt to interfere until the fighting had been almost concluded, giving as his reason that such a scene was not unusual in the saloon. Al- though he drew proximity to the belligerents he did not see much of the combat. In imposing the fine Mr. Henderson said that was very evident from the condition of Cook's countenance that he had been assaulted and a deep cut over one of his eyes was not inflicted by a fist, but by a heavy boot. In addition the acting magistrate intimated that information will be laid with the proper authorities against the bartender who allowed the fight to proceed in the barroom, unheeded.

MURCHIE'S CHANCES

Hon. George A. Expects to be Elected to Congress Without Difficulty.

(Bangor Commercial.) Hon. George A. Murchie of Calais, accompanied by George B. Downs, Esq., of the same city, was in the city Monday afternoon for Calais Monday afternoon. Mr. Murchie, as is well known, is the Washington county candidate for the Republican nomination for Congress at the special convention soon to be held. Asked as to his chances Mr. Murchie replied that he thinks they are looking well and that his friends have been very kind in promising their help. "Are you looking for much support in Penobscot county, Mr. Murchie?" was asked. "No," was the reply. "Penobscot has some very worthy candidates of its own and I have not written a letter or asked for the support of a Penobscot county Republican and the same holds true of Piscataquis county. I expect to have my own county behind me and have promises of strong support in Aroostook."

ANOTHER AIRSHIP CO. IS INCORPORATED

Hartford, Conn., July 21.-To construct, manufacture, lease, buy, sell, equip, license and operate aeroplanes, dirigibles and other flying machines, as well as stages, cars, boats, automobiles, taxicabs, taxicars and taxivans is the expressed purpose of the Eastern Transit Co. of this city, which has filed a certificate of incorporation in the office of the secretary of state. Other powers are also noted which enable the company to do pretty much any and every sort of business. The capital is \$50,000 and the incorporators are Messrs. Lee Loomis, James W. Knox and Mary B. Kellogg.

NO GRAND OPERA

The grand opera to have been given here on July 23 and 24 has been called off. The company declined to bring the whole company and the Opera House management cancelled the contract.

STANLEY STREET BRIDGE

A meeting of the sub-committee in charge of improvements to Stanley street bridge was held this morning to decide several matters about the work, in order that the I. C. R. might complete the structure as quickly as possible. It was decided that the street railway tracks should be laid on the western side of the bridge and that the I. C. R. should put the approaches to both Wall and Stanley street bridges in repair. The question of placing walks for pedestrians is still in abeyance.
