British Election Campaign Closes in Whirlwind of Excitement C. P. R. PRESIDENT IS WELCOMED

MEETINGS BROKEN UP IN ENGLAND

Campaign Starting Quietly
Develops Into Unex-
pected Bitterness.
MANY MYSTERIES
Women Voters are Now Es-
timated at 9,000,000—Lib-
erals are Confident.

BY HARRY N. MOORE
(British United Press.)
London, Dec. 5.—The elec-
tion campaign is closing in a
whirl of excitement. The cam-
paign which started so quietly
has developed unexpected bit-
terness among all parties.
Reports of further meetings
being broken up are being re-
ceived from all parts of the
country.
Austen Chamberlain was forced
to abandon his meeting at
West Bromwich last night, the
first time that this has occurred
in his entire political career.
There still remain two irresol-
vable mysteries in the contest.
First of all, what is the attitude
of the average woman toward
tariff proposals, and what pro-
portion of the huge vote that was
not cast this year which will be
polled tomorrow?
Nine Million Voters.
The women voters number over nine
millions, and special efforts have
been made by all parties to convince
the women of the justice of the claims
and the rightness of their arguments.
The Liberals are optimistic, believ-
ing that the argument for Protection
is countered by the plea of the rise
in the cost of living which will follow,
and it is believed that this has already
secured for them the majority of the
women's vote. At the last election over
six million persons failed to go to the
polls, but it is believed that the total
vote cast tomorrow will show a great
increase.
The Liberals are confident on becom-
ing the second party in the House.
Estimates of the Conservatives' major-
ity vary from 26 to 60.
Baldwin's Stock Boosted.
London, Dec. 5.—Premier Baldwin's
stock went up today on the eve of the
general election. A knock was
now expected to obtain a majority
of forty.
Lloyd George is certain to gain many
seats, but his party still remains in
the minority.
Betting on the stock exchange as the
campaigners finished in a whirl of
frantic activity was as follows:
Four to one on the Conservatives;
three to one against the Liberals;
two to one against Labor.
Baldwin is believed to be as good as
returned to power which means that
Great Britain may try an adjustable,
protective tariff for its domestic ill-
ness. Leaders of the three main parties
issued final appeals today. Baldwin
gave out a lengthy manifesto denying the
charge raised by the Conservative
Laborites that the Conservative policy
means a tax on food. The fact that
the latter are concentrating on this
point at the last minutes is taken to
indicate pessimism regarding their own
policy.
As a result the Stock Exchange,
which a week ago conceded Baldwin
a majority of thirty, now rates it to
forty.
Labor's chagrin over its impending
loss of second place in the standing
of second place in the standing
which was maintained today.
Tomorrow approximately 16,000,000
voters will elect 616 of the 1,400
candidates.

**Prince of Wales May
Visit Dublin Races**
London, Dec. 5.—The Prince of
Wales may visit Dublin in April
and run a horse in the Punchestown
races, according to a despatch to the
Westminster Gazette from the Irish
city. If the report proves true, it will
be the first visit of British royalty to
Dublin since the 18th century.
The Prince has
an Irish stepchild.

Peterboro, Dec. 5.—Uncon-
scious from Friday to Sunday, Reginald
McInroy, 13 years of age, son of
William McInroy, of Rawdon
Township, died as a result of being
thrown from a horse.

Mary Pickford Gives Warning To Girls

Los Angeles, Cal., Dec. 5.—Ad-
ding her voice to the warning of the
Hollywood Chamber of Commerce to
the movie-mad boys and girls who
are swarming into the film studio
city at the rate of 10,000 a month,
Mary Pickford today addressed a
crowd of 20,000 people who filled
Pershing Square to hear her
admonition.
She said she did not want to tell
the young people to stay at home
because the movie industry needs
new blood, but she did think it
advisable that movie aspirants be in
a position to wait five years in Holly-
wood for movie honors and to be
able to do some work while waiting,
and to the girls she added: "Take
mother along; you'll need her."
Now that most of the studios are
closed and regular actors are idle,
the authorities want to stem the
tide of newcomers.

man, of Toronto, was hurrying to a
nearby station to summon help.

ing the charge raised by the Con-
servative Laborites that the Con-
servative policy means a tax on food.
The fact that the latter are con-
centrating on this point at the last
minutes is taken to indicate pes-
simism regarding their own policy.
As a result the Stock Exchange,
which a week ago conceded Baldwin
a majority of thirty, now rates it to
forty.

VESUVIUS ZONE AGAIN IN FLAMES

Fiery Furnace is Reported
and Exploding Parties
Unable to Descend.
IS NOT ALARMING
Streams of Incandescent
Lava Boil Over Rim
of Crater.
(British United Press.)
Naples, Dec. 5.—Vesuvius cone is en-
tirely enveloped in flames.
Occasional streams of incandescent
lava boil over the rim of the volcano's
crater. Last night the sky was lit
by intense flames shooting up from
the interior, where is apparently a
fiery furnace where once exploring parties
were able to descend. The activity has
been noticeable for some days and has
increased. The glare is more pro-
nounced and the population of the sur-
rounding countryside is correspond-
ingly more alarmed. The people of Naples
are particularly disturbed.
Professor Massimo, scientific
observer of Mount Vesuvius ac-
tivities, has issued a new reassuring
communique, stating that the situation
is not alarming.
Seven hundred members of the
force attend meeting—
Mayor is Present.

TRICK WATCHMAN; GET LIQUOR HAIL

New York Gang Away With
Truckload of Whiskey from
Warehouse.
New York, Dec. 5.—James Stafford,
day watchman of the Liberty Storage
Warehouse, 40 West Sixty-fourth
street, was called on the telephone at
10 a.m. by a man who said he was
"Mr. Wood," which is the name of
the manager of the warehouse. This
man told Stafford that he had left a
package on his desk and would send
his secretary to get it. Stafford was in-
structed to open the office door when
the visitor arrived.
As soon as the door was opened the
"secretary" and three other men rushed
in, seized the package and fled. They
then returned, tied him up and
slipped him into a corner of the ware-
house. They then departed with a
truck loaded with whiskey and other
liquor. Stafford was tied so tightly
that he was not able to release him-
self, and was not found until 4:30
p.m. in the afternoon, when another
watchman, Zeno Risio, came to relieve
him.
Stafford's men and a search was be-
gun for them.

Canada to Investigate Gov-
ernment System.
Fredericton, Dec. 5.—The Citizens
Research Institute of Canada, of which
Dr. H. H. British, formerly of this
city, is director, will make a survey of
the city government of Fredericton, to-

be followed by a report with recom-
mendations, is hereby an improvement
in results and a more economical ad-
ministration may be obtained, has
been given by the city council.
The survey is laid upon the system of
assessment and taxation, the adminis-
tration of the offices at city hall,
the management of the Victoria Public
Hospital, the revision of the city's
bye laws, the over-lapping of num-
erous charities now carrying on work
in the city and the inadequacy of the
educational institutions as subjects for
consideration when the survey is being
made. It will probably be undertaken
early in the new year.

Says Road Question Biggest In Canada

Winnipeg, Dec. 5.—At a dinner given
here last night to the delegates who
attended the Inter-Provincial Roads
Conference, A. S. McMillan, chairman
of the Highway Board, Nova Scotia,
gave it as his opinion that the road
question was the biggest question
facing the governments or legislators
of the Dominion today. He said they
would have to take the people if they
were to have satisfactory road con-
struction.
T. M. Hill, chief engineer of high-
ways, New Brunswick, said that good
roads are essential to the success of
the immigration policy. Good roads
also kept the people on the farms.

proposing that the Federal Government
be asked to extend the scope of the
royal commission now considering an
embargo on pulpwood exports to in-
clude the British Columbia lumber in-
dustry.

Attempt Made To Rob Ticket Office

St. Thomas, Ont., Dec. 5.—Early
this morning a bold attempt was made
to rob the M. C. R. Ticket Office in
St. Thomas. Night ticket agent Taylor
was alone in his office. The police
officer usually knocks at the door and
enquires if all is well. A knock was
heard at the door and the agent think-
ing it was the policeman opened the
door and was confronted with an au-
tomatic in the hands of a young man
who said: "I have come to get you."
Taylor made an attempt to shut the
door, but the rebound threw him to the
floor. The robber fired at him but
missed and Taylor slammed the door
shut with his foot.
The bandit then left the waiting
room, after he heard the agent tele-
phoning the office upstairs and the
police department.

\$1,000 Taken In Dice Raid

Boston, Dec. 5.—One of the
largest gaming raids ever conducted
by the Cambridge police was staged
Monday afternoon when 16 men
were arrested by a squad of a dozen
officers led by Captain Conroy of the
Central Square station. The game
was being played in a field
near the corner of Harvard and
Portland streets. More than \$1,000
in wagers lay on the bare ground
for the turn of the dice.
All the men, who are charged
with being present where gaming
was going on, were searched at the
station and were found to have
sums ranging from \$50 to \$200.

ANOTHER DAM BURSTS IN ITALY

Mountain Valley is Flooded,
But No Casualties,
is Report.
HOUSES DESTROYED
Total Dead in First Disaster
Now Estimated at Five
Thousand.
Domodossola, Italy, Dec. 5.—An-
other Italian dam has burst, flooding
a mountain valley. This time there
were no casualties.
The Tocco River dam, known to Amer-
ican tourists who have made the trip
from Switzerland to Italy through the
Simplon Tunnel, went out yesterday
under pressure of swollen waters and
a landslide.
The Formosa Valley, at the Italian
entrance to the tunnel is a lake, across
which engineers are throwing bridges
to rescue persons who fled to the hill-
sides when the dam burst.
Relief workers who arrived at the
Glens Valley, the scene of Saturday's
food disaster, found little for them to
do. The catastrophe had been so com-
plete at Dongo that there were prac-
tically no injured. Everyone had been
killed. There were no houses to brace
up for all had been washed away.
The total dead was estimated
at five thousand.

BLASTING CASE IS DISMISSED

A case against Joseph Garson
charged under the Criminal Code with
wilfully using explosives liable to cause
injury to persons or property, was
dismissed in the Ontario Superior Court
yesterday. The case was brought by
the Simons police court yesterday. After
the evidence of the prosecution was
finished, W. M. Ryan, who appeared
for the defence, moved for a dismissal
on the ground that there was nothing
in the evidence to show who was
carrying on the blasting operation or
that Mr. Garson was responsible. The
magistrate dismissed the charge.

WILL PLACE LIGHT OVER MEMORIAL

A suitable electric light is to be
placed over the War Memorial tablet
in the Post Office through efforts of
the Women's Canadian Club, which
provided the tablet. Hon. Dr. J. H.
Kling, Minister of Public Works, was
spoken to on the matter when he was
in the city and he complied with the
request to have a suitable light in-
stalled so that the inscription on the
tablet may be read more easily. A
report to this effect was given by Miss
Katherine Bell at a meeting of the
executive of the club yesterday. Miss
Bell and Mrs. E. A. Smith had been
the committee to interview Hon. Dr.
Kling.

Doukhobors Start Fight In Courts

Veregin, Sask., Dec. 5.—The opening
gun was fired yesterday in a legal bat-
tle which is expected to be carried to
the highest Canadian court before set-
tlement, when Simon Ghorokof, a mem-
ber of the Doukhobor Christian Com-
munity of Universal Brotherhoods, was
arrested today on a charge of theft of
grain from the community.
Simon, his father and two brothers
are all charged with theft on the
ground that they sold their own crop
and kept the money, instead of turn-
ing it into the community.
More than ten thousand bushels of
wheat and oats is claimed to have been
"stolen." Should the courts decide that
the private sale of their grain by the
Ghorokofs was not theft, it may mean
the breaking up of the community.

Optimistic of Future of St. John

E. W. BEATTY IS MADE A FREEMAN
Signal Honor is Paid Pres-
ident of C. P. R. on
His Arrival.
IS OPTIMISTIC
Says St. John Port is in Line
for Progress and Pros-
perity.
Granted the freedom of the
city, interviewed by the Council
of the Board of Trade, followed
by the luncheon on board the C.
P. R. steamer Montclair, indi-
cate some of the high spots in
the busy few hours spent here by
E. W. Beatty, president of the
C. P. R., since his arrival in St.
John by special train this morn-
ing.
For the first time since the
close of the South African war,
the City of St. John this morn-
ing conferred the honor of be-
ing a freeman of the Loyalist
City on an individual. Mr.
Beatty expressed his appreciation
of the honor to Mayor
Fisher when the latter had per-
formed the ceremony at City
Hall.
Given Rare Privilege.
It was thought by those who were
present for the occasion, as very
fitting that the president of the or-
ganization which had done so much to
further the interests of St. John should
be given the very rare privilege which
had not been granted to any other
person for nearly a century.
While not making any promises,
President Beatty nevertheless, suc-
ceeded in satisfying the council of the
Board of Trade that the interest of
the C. P. R. in the Port of St. John
was greater than that of any other
organization. He spoke in an opti-
mistic tone of his address at the lun-
cheon was such as to inspire the citi-
zens with fresh hope for greater pro-
gress and prosperity in the future.
Arrived Early.
President Beatty and his party ar-
rived in the city on No. 40 early this
morning in two special cars, the
Thorold and the St. Andrews. The former
is Mr. Beatty's private car and was
born, which is situated on the Niagara
Peninsula. The St. Andrews is Vice-
President MacTier's private car. In
addition to the president and vice-
president, others in the party were
F. W. Molson, Colonel W. A. Grant and
C. A. Neill.
On their arrival here the cars were
left on a siding at the Union Station
and the party remained on board until
later in the morning.
Mr. Beatty will remain in the city
until tomorrow at noon, when he will
leave for Halifax, where he will ad-
dress the members of the Chamber of
Commerce. From Halifax he will re-
turn to St. John and leave here in a
special train for Montreal. While in
the city the members of the party will
be guests of Mayor-General Hugh H.
McLean, K. C., at his home in Rother-
say.
Mayor Reid of Fredericton and Al-
derman Joseph A. Cain, president of
the Fredericton Board of Trade, lead-
ed a delegation from Fredericton com-
ing to St. John to attend the luncheon
of Charles E. Neill, general manager of
the Royal Bank of Canada, who is ac-
companying President Beatty on his
tour of the Maritime Provinces, a
native of Fredericton, is a member of
the Fredericton delegation.
Freedom Conferred.
Before a number of representative
citizens of St. John the freedom of the
city was conferred on Mr. Beatty,
Mayor G. Fred Fisher. In accept-
ing the gift, Mr. Beatty ex-
pressed his appreciation of the honor
conferred and assured those present
that he had the interests of St. John
at heart.
The council convened at 10:30 in the
office of the Mayor, and Mr. Beatty,
F. W. Molson, C. E. Neill, Col. Grant,
A. D. MacTier and J. M. Woodman,
arrived and were ushered into the
office.
Mayor Fisher extended a welcome to
Mr. Beatty and expressed the hope
that he would make many visits to St.
John in the future. He then read the
following address:—
"President Beatty:—
"When word was received here that
you had planned to visit St. John the
thought came to some of us, members

**Breach of Promise Suit of Son and Divorce
Case of Mother Settled Out Of Court**
Chicago, Dec. 5.—The \$100,000 breach of promise suit of Mary Lygo,
former Follies girl, against Gordon C. Thorne, wealthy duoman, and one
for a similar amount against Mrs. Thorne Camp, Thorne's mother and
divorced wife of William (Billy) Camp, for libel were settled out of court
today just as the suit against Thorne was ready to go to trial.

said that he paid Miss Lygo, \$8,000 of which \$5,000 was to drop the breach
of promise suit and \$3,000 to dismiss the action against his mother. Charles
Epstein for Miss Lygo denied this, but refused to reveal the terms of settle-
ment.
Miss Lygo who twice tried to commit suicide after her break with
Thorne, two years ago, charged that the son of the former vice-president
of Chicago house had refused to marry her after having promised to do so,
and that he had been dissuaded from so doing by his mother. Mrs. Camp,
she declared had, called her "a vamp." These charges were the basis for the
suits.

arrived in the city today. He is en-
route to Halifax, where he will box ten
rounds tomorrow night with Neddy
Healey. Fruzzetti's last bout was in
Lowell, where he lost a decision to
"Bully" Murphy over the ten round
route. The Brockton Enterprise, refer-
ring to the bout, said that fans loudly
protested the decision, claiming that
Fruzzetti had the best of eight rounds
and had Murphy hanging on in the
tenth. Fruzzetti expects to meet Murphy
again in a couple of weeks.

C. P. R. President Is Paid Signal Honor By City Of St. John

E. W. BEATTY IS MADE FREEMAN OF ST. JOHN CITY BY MAYOR FISHER

(Continued from page 1) Daniel, H. W. Rising, A. E. Massie, Prof. Prince, A. H. Wetmore, G. G. Fyfe, J. H. Stevenson, F. M. Ross, His Lordship Bishop LeBlanc, Col. Houlton, D. S. O. Alex. Wilson, D. W. Ledingham, A. F. Blake, Capt. Potter, G. N. Hatfield, Gen. H. H. McLean, F. R. Taylor, C. B. Allan, E. M. Olive, F. W. Daniel, Thomas Stephen, Thomas Nagle, and W. H. White.

Members of the council of the Board of Trade who attended a conference with E. W. Beatty, president of the C. P. R., after the City Hall function, expressed themselves as highly pleased with the expressions of Mr. Beatty as to the interest of the railway in the city.

When the guests arrived at the steamer for the luncheon, given by President Beatty, they were met by the ship's officers and escorted to the checking room where their overcoats and hats were taken, after which they were introduced to the host by J. M. Woodman, general superintendent of the New Brunswick division.

The following was the toast list: "The King," recorded in the past of a period of years and the changes which have taken place in its development. It has been a period of progress and in you will find certain modern references to the Canadian Pacific Railway and its greatness, past and present.

It is a very great pleasure for me to welcome you to the steamer of the company at this more or less informal luncheon. It is, perhaps, too, a reversal of the usual order of things that the business men of the city of St. John should honor the company by being its guests when, on so many occasions, you have honored the company's representatives by entertaining them.

IN MEMORIAM FRASER—In sad and loving memory of my dear husband (John Maclean), who passed away Dec. 5, 1922.

CARD OF THANKS Mr. and Mrs. Wm. Beatty and family, of West St. John, wish to thank their many friends for their kind words and sympathy and for the beautiful floral tributes received during their recent bereavement.

Relations With St. John.

I do not anticipate that you will expect an apology from me for any aspect, whether it is social, financial or commercial, between the City of St. John and the Canadian Pacific Railway. Fate and our predecessors seem to have ordained that the relations between the city and the company should be extraordinarily intimate.

The Canadian Pacific Railway owns or operates 627 miles of way in the Province of New Brunswick. It has invested in these railways and in this port, in its hotels and other facilities the amount which approximates 20 millions of dollars. It can fairly claim to be a citizen of your city and your province with a very considerable stake in the development of both.

When the guests arrived at the steamer for the luncheon, given by President Beatty, they were met by the ship's officers and escorted to the checking room where their overcoats and hats were taken, after which they were introduced to the host by J. PORT DISPUTE LIKELY SETTLED

A Study in Blue

JUST TO BE GOOD to your eyes, look at that central Marcus window. A feast of color, mainly in Delph Blue—first a large Chesterfield Suite of Silk Push Mohair, and then the harmonious back-grounding of Chinese Rugs.

OF COURSE there's more to it than this, but the Blue is the thing. Deeper tone than Royal Blue and remarkably strong in the Chesterfield plush. The Suite is simply sumptuous, massive. Elaborately stuffed and sprung—barrel backs and responsive pillow \$322 arms, kidney curve fronts. The three pieces... Something to last for ages and a bright idea to order ahead for Christmas Eve delivery.

ST. JOHN AND THE C. P. R.

The visit of President Beatty of the Canadian Pacific to St. John at the opening of the winter port season, and the function on board the steamship Montclare today, when leading citizens were the guests of President Beatty at luncheon, make it fitting to review the history of this railway in its relation to the port of St. John.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

TONIGHT LAST TIME FOR "THE SPOILERS"

It is a distinct tribute to the attractive quality of an entertainment when its second night is patronised more generously than the first. This is what occurred yesterday at the Imperial, where Rex Beach's gripping story of Alaska, "The Spoilers," is being shown. Tonight the picture will resume its final presentation at seven and eight-forty-five o'clock. An additional feature will be the second of the "Our

Gang" comedies entitled, "The Champen," a most ludicrous farce in which the merest children black and white are the players. Tomorrow the Imperial presents the fourth of its new winter series of bigger and better pictures in the English comedy, "Take Me Back to Blighty." This is without question the funniest film offering yet from the Old Country and presents Betty Balfour, England's Mary Pickford, at her very best. The scenes are actually taken in London and Paris and the story revolves around the incident of a Cockney girl winning the capitol prize in the Derby lottery. It is a scream.

THE MISTAKE THE ROMANS MADE

The Roman soldier stood supreme in fighting power, so long as he lived on simple, natural foods. When he took to pampering his palate, he became as other men, full of ill and weakness. Then he failed.

Perhaps he was not to blame, for in those days strengthening foods meant unpalatable eating. But a delightful, vigor-building food has been prepared for us that is at the same time a treat to the palate in any of the many forms in which it may be served. Roman Meal is that food.

In winter weather Roman Meal is of distinct advantage. Most foods of civilized races are "Excess Acid" and form acid blood. These acids must be passed out of the blood or we are immediately ill. In summer, they leave by the skin, in winter by the air passages—nose, throat, lungs, etc. These passages they irritate, causing colds, catarrh, bronchitis, tonsillitis, flu, pneumonia, etc.

Roman Meal is 400 parts in each 1,000 "Excess Alkali." It keeps the blood alkaline (opposite of acid) and thus keeps the body energized and vigorous to resist colds, catarrh and all irritations and diseases of the air passages.

Roman Meal makes delicious porridge, pancakes, gems, muffins, Johnny cake, pudding, etc. You can go several hours longer on an entire breakfast of Roman Meal without becoming hungry, than any other food, because it is so nourishing. At all grocers.

Never Humor A Headache

"Throw physic to the dogs!" exclaimed Shakespeare. Of headaches in over nine cases in ten his words are wisdom. Never humor a headache with pill or powder—root out the cause.

In over nine cases out of every ten, the shape of the eyes tells the tale. And who else but an Optometrist of repute can detect and correct? Glasses are fashioned to take the strain out of sight as much as to improve sight. Wear Glasses and prevent headaches.

MATING IN THE WILDS

OTTWELL BINNS ILLUSTRATED BY RAMSAY WELLS

BEGIN HERE TODAY. Hubert Stane serves a term in prison for forgery. He rescues Helen Yardey from the river when her life is in danger. They start to walk the trail to the camp of Helen's uncle, near a northern post of the Hudson Bay Company. They take possession of a deserted cabin and at night the cabin is attacked by Indians.

HOW GO ON WITH THE STORY. "Didn't know me, Ainley? I dare say not. I'm not quite the tallor's mannikin that I was in the old days at the 'Varsity. Got a man's job now, you see. And that reminds me, I'm here on duty. I happened to be up the Little Moose when that shooting took place this morning. There's a couple of dead Indians up there, and I guess you had something to do with their sudden deaths. I shall have to call on you for an explanation you know."

"No," said Stane, "I will go back for them." He turned, and Helen turned with him. "You don't mind," she whispered. "Mind?" She walked by his side, a hand on his arm. Once when they were well in the shadows of the wood they stopped, and with his arm about her he kissed her. "My dear," he whispered, "my dear," Helen said nothing immediately, but gave a little sobbing laugh of gladness. Then after a moment she asked, "How did you escape? How did you find me?"

"It is too long a story to tell you the whole of it just now. But right in the nick of time, when I was expecting to die, the owner of the cabin, Jean Benard, came back. He saved my life; but he knew nothing about you, the attackers got away with you, but as soon as he heard my story he got ready to pursue, and having found out that your kidnappers were making for the Little Moose we took a short cut and waited for you. We were at your heels when the rifles fired from the shore."

"Yes, I and Jean Benard?"

"They moved forward together, found the dogs, and having rifled the shelves which they had been anchored, they returned to the camp."

Staring at him with evil eyes full of hate.

And he bent over it, a look of consternation came on his face, and a quick oath broke from his lips. "Where did you find that paper, Stane?" said the policeman brusquely. "In a copy of Jovett's Plato which Ainley had borrowed from me, and which he returned to my scout after I was arrested."

"What is barred face? A plot?" cried Ainley. "I'm surprised at you, Ainley," pipe in hand, apparently quite cool, was talking. "Having got the news, I made straight for the cabin, and had the ill-luck to arrive there half an hour too late. One of the men found a dead man, who, from the description, I mistook for Stane there, and we also found a wounded Indian, who, with a little persuasion, told us what he knew, which was that a half-breed, of the name of Chignok, inflamed with love for Miss Yardey, had carried her off, designing to make her his squaw. I understand this Chignok is what the Indians call a bad man—but perhaps you know him?"

CHAPTER XXIV The Trail to Paradise When Ainley lifted a white, tortured face, it was to find the man whom he had used as a tool, and whom having used, he had tried to kill, seated by the fire, staring at him with his evil eyes full of hate. For a moment there was silence, then Anderson spoke. "Would you like to hear Chignok's story, Ainley?"

"There is no need that I should," answered Ainley with a bitter, hopeless laugh. "I can guess it fairly well."

"He unbuttoned his furs and taking out a pocket-book and pencil began to write. Jean Benard, having fed his dogs, began to prepare a meal for himself. Anderson sat by the fire, staring into the flames, reflecting on the irony of fate that had selected him of all men in the Mounted Service to be the one to arrest his willow fellow-student. Stane had turned away and joined Helen, who still paced to and fro in the shadows.

THE MAJOR'S CHICKENS SCRATCH UP A KICK

"I thought the knife was meant for me, but it was not. It was meant for my antagonist, and he went down and just after—my—my—savior was killed by the second Indian, who also struck at me, knocking me senseless." "Who was the person with the knife? Someone with Jean Benard?" "No," answered Stane slowly, "it was the Indian girl, Miskodeed." "Miskodeed!" cried Helen in utter surprise. "Yes, I did not know it at the time, but we found her afterwards, Jean Benard and I. It was a dreadful discovery. Jean had come back to his cabin hoping to marry her, and she had died for me!" Helen sobbed convulsively. "I shall always be grateful to her, though I was jealous of her. She saved you—for me—and she was only an Indian girl."

MARCONI TO BEGIN RADIO WAVE TEST London, Dec. 4.—Signor Marconi said today that within the next few weeks he planned to begin tests between London and New York of his system of projecting radio waves in a desired direction. Your Health

BY DR. CLIFFORD C. ROBINSON

ARE YOU DRINKING—WHAT? The varieties of bootleg beverages that flood the cities, towns and wayside stations at present are almost legion. It is the duty of every physician to warn his patients of anyone with whom he may come in friendly contact against drinking this "stuff." The United States Internal Revenue Department during the past three years has analyzed some 75,000 samples or brands of this man-killer. They are skillfully concocted in many cases, but all are rank poison. On can hardly understand how a man will put something in his stomach which deals a death blow. They contain, besides aldehydes and acetals, many other poisons from the metals of the distilling process, and coloring matter which is rich in tissue-destroying doses. Hooh is poisonous for the reason that special distillation is necessary to drive off the poisons. This amateur or home process does not accomplish. In addition to this the alcohol is often not grain alcohol, but a poisonous substitute of a greatly inferior quality. Even wood alcohol and denatured alcohol, methyl and benzene are component parts.

Port Huron, Mich. — Home never feels any better than when Mrs. Katherine B. Heavenrich of this city returns from business. That is why, take it from her, Mrs. Heavenrich considers herself not only a good housewife, but one of the most successful business women in Michigan.

But one day, at a bridge party, she got a challenge. Her mother owned a large acreage in the western part of the city, the assessed valuation of the property had risen sharply. One day she remarked it might be good business for her to subdivide this property and sell it. In a word, go into the real estate business.

She'll Show 'Em. Then came the challenge. A friend remarked she would never do to undertake such business. "I thought he intimidated I wasn't capable of accomplishing it," she explains. "Thereupon I declared, 'Now I've got to. If they think I don't know enough, I'll have to show them.'"

Without experience, foundingering in the game at first, she gradually grew into the business and slowly clambered up to success. That undeveloped acreage of her mother's now is blooming with newly built homes. Streets have been laid out and all improvements put in. The section is called Ferrand Park. That is the name of her mother, a member of one of Port Huron's oldest families.

On that property is an example of Mrs. Heavenrich's ingenuity and business acumen. It is a model home for an industrial worker's family, for which she won first prize in a better homes contest conducted recently.

Other Activities. Even outside of real estate, Mrs. Heavenrich is famous. She helped organize the Port Huron Business Women's Association, of which she is president. She also is vice-president of the Michigan Business Women's Association, an active member of the Port Huron Realty Board and of the state and national realty organizations.

"It's a wonderful experience, this being in business," she declares. "I feel I have been broadened and improved in every way. I think I have a much nicer disposition as a result of it. One has to exercise so much self-control in business affairs, much less sensitive of what other people do and say, for sensitiveness is so apt to be selfishness."

REPORTS HEARD BY THE DIOCESAN W. A. The reports of the delegates to the convention of the National Women's Auxiliary, in Halifax, was presented at yesterday's meeting of the Women's Auxiliary of Fredericton Diocese, held in Trinity church rooms with the president, Mrs. George F. Smith, in the chair. Rev. C. J. Markham led the devotions and gave the opening address. The reports of officers were encouraging. They showed that a new girls' branch had been formed in St. John's (Stone) church. The former girls' branch having united with the senior. The new branch was organized November 29 with seventeen charter members.

The meeting passed a resolution of sincere sympathy to the family of the late T. Sherman Peters, of Gagetown. Four of the delegates to the Halifax meeting presented reports. Mrs. G. C. P. McIntyre gave the substance of the reports of the recording secretary, Dorcas secretary and treasurer. Mrs. J. Roy Campbell spoke of the missionary address. Miss Muriel Fairweather gave an account of the entertainment received and Mrs. James F. Robertson told of the resolutions passed and of the girls' work secretary's report. She described the personalities of the Dominion officers and gave an account of the church service.

Mother Knows It Washes Well "The Underwear that Mother Chooses"

AFTER an experience covering fifty years, mother knows the kind of underwear which will wash well, without shrinking or stretching or losing its shape. Dods-Knit is her choice every time. Mother has a way of washing Dods-Knit Underwear which seems to make it softer and fluffier. She uses plenty of suds and comfortably hot water for pure wool underwear. Fleece-lined underwear she soaks first in lukewarm suds. She doesn't rub knitted underwear on the washboard. She rubs it between her hands, squeezing and shaking it in the water. That keeps fleece and wool from getting hard. She rinses woollens in good, clean, warm water with a little fresh suds in it; wrings, shakes and hangs out to dry with some of the soap still in the water. Fleece-lined, she rinses in two lukewarm waters with plenty of borax. Sunshine dries both wool and fleece as soft and "lively" as new.

Urges Precautions For Safety on The Roads of Dominion

CONFERENCE IS HELD IN WINNIPEG

Standards of Danger and Other Warning Signals Advised.

ST. JOHN MAN THERE

Uniform Speed Rules Declared Essential - Provincial Blacklists.

Winnipeg, Dec. 4.—The adoption of many forms of standard types of danger and other warning signals by all provinces of the Dominion was recommended in a resolution passed by the Inter-Provincial Good Roads Conference in session here. This, it was declared in an official statement, is in the public interest, and the conference will recommend the adoption of certain standards covering size, location, distance, visibility and design. A recommendation was approved emphasizing the advisability of provincial control of all signs on the highways and disapproval of commercial signs, which obscure the vision and may be considered a menace to travel.

It was declared essential, from the standpoint of safety to pedestrians and the preservation of roads that uniform speed laws be adopted. The encouragement of 'tourists' camps, as a result of the increased number of tourists using camping equipment, was strongly recommended by the conference. Representatives attending include provincial highway officials, engineers and heads of the motor vehicle departments and delegates from the Canadian Good Roads Association.

It was decided as a protection to traffic and for the safety of the public, that provincial "blacklists" recording offences under the traffic laws should be interchangeable in order to prevent offenders from moving from one province to another. The eastern representatives include the following: Nova Scotia—A. S. McMillan, chairman, Provincial Highways Board. New Brunswick—B. M. Hill, chief provincial highway engineer, and T. P. Regan, member of the executive.

KING'S DAUGHTERS MEET.

A meeting of the executive of the King's Daughters was held last night at the home of Mrs. H. W. Robertson, 223 Princess street. Preliminary plans for a St. Valentine's tea and sale were made and the following committees appointed: Advertising, Mrs. John Lelacheur; hall committee, Mrs. R. E. Plumpton and Mrs. Rothesay McLaughlin; decorating committee, Opportunity Circle; tickets, Lend-a-hand Circle; home cooking, Door-keepers

Circle; tea committee, In-His-Name Circle with others co-operating; candy table, individual members. Matters in connection with the Guild were discussed. With much regret the meeting received the resignation of Mrs. George Disher, the treasurer. There was a very large attendance and at the close of the meeting refreshments were served.

LIQUOR RUNNING VESSELS SEIZED AFTER BATTLES WITH WEAPONS

Cruiser Taken Off Port Reading and Second Craft Near Perth Amboy

New York, Dec. 4.—The motor cruiser Herreshoff was seized by customs agents off Port Reading, N. J., today after a running battle with riot guns and revolvers.

Six men on the cruiser were arrested. Patrolling in a speed boat the customs agents halted the Herreshoff, suspected of rum running, and ordered her to heave to. The cruiser's nose was turned seaward and she showed her heels, with bullets flying from the

guns in the hands of her crew, the agents said.

Returning the fire, the government boat overhauled the cruiser, drew alongside and placed a boarding party on her as she ran at full speed. The government agents said the cruiser's cargo had just been jettisoned and was floating alongside.

A short hand to hand engagement was had aboard the cruiser, according to the agents' report. Those arrested were: R. Webster and J. Raath, Newark; W. Benson, Lambertville, N. J.; G. Scheidig, South River, N. J., and G. Dixon and Joe Miller, New York.

During the year ended July, 1923, a total of 22,919 immigrants entered the United States.

EFFORTS TO REVIVE MOORE CHILD FAIL

Much sympathy will be extended to Mr. and Mrs. Cyril Moore, East St. John, on the death of their two-and-a-half-year-old son, Stewart, who was

drowned yesterday. The lad was throwing sticks into an old cellar, in which was about two feet of water, when he lost his balance and fell in. Everything possible was done to save the little life, physicians working with the pulmonator for over two hours, but without avail.

ALLEGED LAW NOT RIGHTLY ENFORCED.

Temperance Alliance Regrets Large Number of Vendors' Licenses.

OFFICERS ELECTED

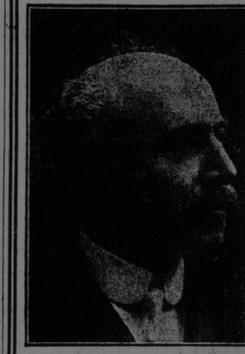

Donald Fraser of Plaster Rock is Again Chosen President.

The New Brunswick Temperance Alliance in annual session in the city yesterday passed a series of resolutions regretting that a new Chief Inspector had not been appointed; that so many vendors' licenses had been issued; reaffirming the Alliance's confidence in the merits of the N. B. prohibitory law; condemning the presence of Government officials at banquets where liquor was served and stating that until the Government makes an earnest endeavor to enforce the present act up to a reasonable standard there should be no suggestion of a referendum. By resolution it was also decided that the Alliance should send a delegation to wait upon the Government and express its feeling with regard to a referendum. Donald Fraser, of Plaster Rock, the president, was in the chair and was unanimously re-elected. The appointment of two secretaries, a French secretary to organize the French section and a general secretary was approved and at a subsequent meeting of the executive Rev. Thomas Marshall was appointed as executive secretary with an office in Fredericton. The meeting was held, afternoon and evening sessions, in the Y. M. C. A. building with an exceptionally large number present and all parts of the province represented. The treasurer reported a satisfactory balance on hand.

During the discussion of reports there was fairly general criticism of present conditions in New Brunswick. Rev. C. T. Clark, of Fairville, interposed that it was only fair to state that when he had asked to have a vendors' license in Fairville cancelled he had met with most courteous treatment from the Chief Inspector, Premier Veniot and the two local inspectors and that the vendors' license had been cancelled. W. G. Clarke, of Fredericton, wanted to see more people approach the Government in this way as he said what was needed was for the Government to feel that there was a strong backing behind the prohibition workers. The Canadian Cottons in Marysville sent a special representative, Mr. White, to express their sympathy with the work of the Alliance. A suggestion that the New Brunswick Temperance Alliance might join the Canadian Prohibition Federation was not favored as it was said the constitution of the Federation did not take a firm enough stand in the matter of provincial sale. The executive was asked to name a committee to co-operate in arrangements for the meeting of the Social Service Council of Canada in St. John in January.

Resolutions. The following resolutions were passed: 1. Resolved, that we regret that the Government of the province has not seen fit to comply with the urgent request of the Alliance that there should be appointed a chief inspector under the prohibitory law, who is more in sympathy with the law and will make greater efforts for the enforcement, giving all his time to the work. 2. Resolved, that the Alliance regrets that the chief inspector has continued the issue of vendors' licenses in such great numbers in the province, in some cases to persons who have been proved unworthy of holding this responsible position. We urgently request that such licenses be granted only in minimum number required for the proper supply of liquor for medicinal, mechanical and sacramental purposes. 3. Resolved, that this Alliance reaffirms its confidence in the merits of the N. B. Prohibition Act but expresses its conviction that the Government has not shown the sympathy with the enforcement of the provisions the public have a right to expect. 4. Whereas, the very foundations of our form of government rest down upon the respect accorded to its laws; and Whereas, those elected to represent the people, our legislators and those appointed to the bench and to other positions of authority in government are peculiarly entrusted with responsibility in preserving its majesty; therefore be it resolved, that this Alliance in annual meeting assembled fervently condemn the known presence of these officials at functions where the prohibitory law is openly violated and express its profound regret that organizations or individuals by their distorted idea of hospitality and likewise on such occasions jeopardize this most vital principle on which our Dominion is founded. 5. Whereas, under the present enforcement of the prohibitory act it is the almost universal custom to impose only penalties for first offence; therefore be it resolved, that this Alliance asks that the authorities in conference, with prosecutions, insists that for second and subsequent offences the advanced penalties provided by the law be enforced. SAYS 11,000 CASES LIQUOR IMPORTED

Rev. W. D. Wilson Quotes Figures Relative to Port of St. John

Rev. W. D. Wilson, at the meeting of the New Brunswick Temperance Alliance yesterday afternoon, referred to newspaper comment on one of his addresses in his campaign in September in the course of which he had said 8,000 cases of liquor were imported at St. John during September in spite of the recent legislation abolishing the bonded warehouses. He said that his statement had been condemned as untrue. He had inquired further, he said, and from the Customs Department in Ottawa obtained information concerning imports and exports of liquor at St. John as follows: 8,413 gallons of ale and beer, 10,763 gallons spirits and spirituous liquors and three gallons of wines and, in September, 23,515 gallons of spirits and spirituous liquors and 180 gallons of wine. He had calculated how many cases the Dominion figures would indicate had come to St. John in September, and found that instead of the 8,000 he had spoken of there were 11,847 cases.

The amount of liquor exported from St. John in September had been 22,365 gallons, but the chief statistical clerk had informed him that he had no record of any imports which were received for export exclusively.

PAYS GAMING HOUSE FINE.

William B. Stearns appeared in the police court yesterday afternoon and pleaded guilty to maintaining a gaming house at 88 King street. He was fined \$25. It is understood that a poker room was raided at the above address late on last Saturday night, and Police Sergeant McLeese captured chips and cards and took the names of about a dozen young men who were there assembled. The proprietor's plea of guilty is said to be responsible for the non-appearance of others.

MANY BABIES AT CLINIC.

Exceptionally large attendances at the well baby clinics were shown in the monthly reports submitted at the meeting of the Board of Directors of the Victorian Order of Nurses last evening in the Health Centre. made 10 inspections of kindergarten children. The attendance was particularly high in the north and west end clinics.

SOUTH END BOYS EAGER FOR ICE

Waiting for ice was the report made last night at an enthusiastic meeting of the South End Improvement Association held at the South End Boys' Club. President C. M. Lingley was in the chair. S. A. Payne, chairman of the grounds committee, announced that the skating rink had been enlarged and placed in condition. The shed had been moved to the north side, and made twice as long, providing much better accommodation for skaters. All that were required now were lights and ice. William Lewis, chairman of the boys' club committee, reported that there were over 140 boys on the roll and everything was going along splendidly. Gifts of equipment materials had been received, but games and books were still needed. There are now two instructors and volunteer leaders from the ranks of the older boys. Courses of physical training are given and the boys go to the Y. M. C. A. occasionally. It is planned to have a treat some time between Christmas and New Year's.

Power Co. Complains to the Council About Alleged Further Interference.

The New Brunswick Power Company yesterday lodged with the City Council a charge that employees of the Civic Power Commission were cutting service wires of the company and removing meters without first notifying the company, and notified the Council that unless this procedure was stopped, the company would be forced to take legal action to maintain its rights. The letter was referred to the Civic Power Commission, with a request that a report be made at as early a date as possible on the matter.

Following is the letter of the Power Company:

November 29th, 1923.

To the Mayor and Commissioners, City of St. John, N. B.

Dear Sirs:—We regret that it is necessary for you to report to you the practice which has been adopted by the Civic Power Commission, namely, that of cutting the service wires and removing the meters of our Company from the premises of our consumers without our knowledge or consent.

This practice was started by the Civic Commission on August 4th. It became so serious that on October 31st, we called the matter to the attention of the chairman of the Power Commission. In reply he stated that our company had removed the meters of some of the city's consumers on October 9th and for this reason we had no occasion to criticize their practice. It is true that on October 9th when the chairman of the Provincial Commission made public a notice that the supply of hydro would be curtailed, several of the city's consumers requested us to reconnect our service, stating that they had notified the city to remove its meters. Late in the afternoon of this day three of the city's meters had not been removed and at the urgent request of our consumers, who were threatened with darkness in their stores, we did remove the city's meters and reinstall ours. This was an emergency, however, and we would not consider it a precedent.

In over two hundred cases the city's employees have disconnected our service wires and removed our meters, placing them on the floor or in some other place where they are very liable to be lost or damaged, and in fact, have been damaged. In many of these cases the consumers are under contract with our company and these contracts have several months to run. These contracts are binding upon the company as well as on the consumer and we propose to enforce them.

In one particular case a consumer signed a one-year contract with us on October 19th last. The city's employees disconnected our service and removed our meter. We explained to this consumer that his contract was not voided, but he refused to be informed by Mr. Barry Wilson, the Commission's engineer, had advised him that his contract with our company was not binding and that the city would defend him in case our company attempted to enforce the contract.

"We feel quite certain that you are not aware of the methods that are being followed and that you would not approve of them. We are only calling them to your attention because of the fact that there has been no change in the Power Commission's policy and that the acts of trespass are being committed practically every day and to such an extent that, unless it is stopped, we will be forced to take legal action to protect our rights and property."

Yours very truly,
"NEW BRUNSWICK POWER COMPANY,
(Signed) M. A. POOLER,
"General Manager."

**SEIZE SOME 12,000
BOTTLES OF LIQUOR**

Officials Make Big Haul at Vanceboro, Said to be Worth \$75,000

An effort to land in the State of Maine undetected a large shipment of liquor said to have been shipped in St. John or vicinity has been frustrated by the vigilance of the United States customs officials on the border. It was learned here last night that the officials at Vanceboro and other places on the international boundary line had been watching freight trains closely during the past few days because of two reports which they had heard. One was that several large liquor houses in this province were about to go out of business and the other was that one of the concerns had ordered a large amount of sardine case shock lumber from a Lunenburg, N. S., dealer who had recently stopped local business for the season.

This week a freight car supposedly loaded with sardines was hauled into the freight yard at Vanceboro. When the car was examined for an hour or more the alert customs men uncovered more than 12,000 quart bottles containing liquor. There was 485 cases of whiskey and 20 cases of wine. Among the liquor were 300 boxes of sardines billed to a Cleveland, O., brokerage company. The seizure is said to be worth nearly \$75,000.

SECRET OF HIS SUCCESS.

One of the most noted, successful and richest men of this country in a recent article said, "Whatever I am and whatever success I have attained in this world I owe it all to my wife. From the day I first knew her she has been an inspiration and the greatest helpmate of my life." Health is the first essential of every woman who wants to be a successful wife and to hold the love and admiration of her husband. If a woman finds her energies flagging and dark circles appearing under her eyes, she has backache, headaches, nervousness and "the blues," she should take Lydia E. Pinkham's Vegetable Compound, the medicine which holds the record of helping 98 out of every 100 women who try it. There is nothing better.

Liquid oxygen is produced commercially by the fractional distillation of liquid air.

**Allege Law Not
Rightly Enforced**

(Continued from page 9.)

Resolved, that the statement more than once publicly made by the Premier of the province has been heard by the Alliance with great interest that no radical change in the prohibitory act will be made until some pronouncement has been given by the electors. Such a statement does not give much satisfaction to the temperance forces for the reason that the electors have more than once expressed by large majorities their approval of the present law, and they reasonably expect that a good government will carry out the wishes of the people so definitely expressed. We believe that until the Government makes an earnest endeavor to enforce the present act up to a reasonable standard there should be no suggestion of a referendum.

It is resolved that a delegation be appointed by the Alliance to wait upon the Government and express its feelings in this matter.

Wast French-speaking Organizer.

The report of the executive was subjected to much discussion and was finally adopted. It told of the progress of the work in the year and the undertaking of a campaign in co-operation with the Evangelical Alliance, during which campaign 32 places were visited. The campaign resulted in a large delegation appearing before the local Legislature and securing from Premier Veniot the assurance that the liquor warehouses would be closed. This pledge was carried out. The resignation of Rev. W. D. Wilson as secretary left that office vacant.

The executive recommended that a French-speaking organizing secretary be appointed for the French sections and a general secretary be appointed to look after the organization throughout the province and handle other work. Rev. W. D. Wilson had visited the province in September at the request of the executive to do campaign work.

Allege Lack of Enforcement.

The executive stated that in its deliberate judgment nothing like the efforts had been made that might have been made and should have been made by the officers appointed by the Government to enforce the law. The Government, it declared, had not yet acceded to the request of the Alliance to appoint a new chief inspector to give a more vigorous and efficient enforcement of the law.

Says Benefits Resulted.

The report stated that "in spite of the weak and inexcusable attitude of the Government and its officials, regarding the non-enforcement of the laws, your committee would note with gratification the many and great benefits that have already resulted and are resulting from prohibition in the province. With greater efficiency in the enforcement of the Act throughout the province much more might be accomplished and many more benefited and a condition of advantage secured of which any people might be justly proud."

The report closed with regret at the loss of the services of Rev. Z. L. Fash, who acted as secretary to the executive, and regret at the death of S. B. Clarke, Fredericton.

Committee Named.

The committees appointed were as follows: On resolutions, L. W. Simms,

Try these three Recipes for Cooking Fish

Thousands of homes have found a new pleasure at meal-time since they adopted the national slogan of Canada, "Eat More FISH." The nutritious FISH is a luscious dish, as those who try these recipes will agree.

FOR ANY FISH

Wash the fish in cold water. Cut into pieces the proper size. Dip in salted milk (1/4 teaspoonful salt to 1 cup milk) and then into dry fine-crusted bread crumbs. Place the pieces in a well-greased pan, sprinkle a little cooking oil or melted fat over the surface of each, and bake in a very quick oven for 10 or 15 minutes, depending on the thickness of the pieces. When the fish is baked to a deep golden brown, place on a hot platter and garnish with parsley or slices of lemon. May be served plain or with tartar sauce.

OVEN FISH

(Price winner in Gov't National Fish Recipe Contest, 1911)

Take one fresh fish, skin, cut in pieces and dry with cloth, dip in flour, fry till pale brown. Take three medium-sized onions and six good-sized potatoes, peel and slice thin. Line casserole with part of the potatoes and onions, sprinkle with salt, pepper and flour, a small quantity of finely chopped parsley, then put in layer of fish. Repeat alternately, putting potatoes and onions last, on top place two thick slices of fat, salt pork or bacon, barely fill dish with water, cover and bake an hour and a half in a slow oven. Bring to table in the dish in which it has been cooked. (Price winner in Gov't National Recipe Contest, 1911).

PAN BROILED

Clean well and wash fish thoroughly. Dry with a clean white cloth. Have drippings and a little butter or butter alone. If it can be afforded, well-basted in frying pan. Dip pieces in milk, sprinkle with salt and pepper, then roll in flour. Lastly roll it in bread crumbs. Put in grease and fry to a golden brown. Serve hot.

SAYS OUR FISHERIES WORLD'S GREATEST

Large Audience Hears Professor Prince Lecture on Marine Life

That Canada had the greatest fisheries in the world, and many other surprising and pleasing statements were presented by Prof. E. E. Prince in his very interesting address at the Natural History Society's rooms last evening.

"I could not say too much about Adierka (intestinal antiseptic). Since taking it I can eat anything and everything I did eat made me sick." (Signed) H. C. Hummel.

The audience which had assembled to hear the address was so large that it filled the hall to the very doors of the passageway. F. B. Ellis, president of the Natural History Society, was in the chair.

Professor Prince gave a survey of the great fisheries of Canada and the pictures with which he illustrated his address showed scenes in fishing villages and conditions of fisheries in general in the Maritime Provinces along the St. Lawrence, across Canada and on the west coast.

In the second part of his address, Professor Prince told of the habits of the different varieties of food fishes of Canada and showed beautiful colored slides, depicting each species. Concerning the spawning habits of fish he also related facts which were a surprise to his audience. Nearly all of the eggs of fish were found on the surface of the water and not on the bottom as was commonly thought, the lecturer said.

He spoke also of the primitive forms upon which the fish of our waters are a curious circumstance which he spoke of was that the French sardines were hatched on the coast of Cornwall, where the large fish, pilchards, were caught, but the small sardine fish were never found in Cornwall fisheries.

Professor Prince's lecture was very greatly appreciated and the hearty thanks of the meeting was extended to him on the motion of Dr. J. Roy Campbell, seconded by W. F. Burrell.

Professor Prince will give his address in Chatham later in the week.

Chicago, Dec. 4.—After more than thirty-six hours search the police have concluded that twelve-year-old Rose Borth, who disappeared Sunday, after she had been sent for groceries, was kidnapped by a man who is seeking a self-styled celestial angel and heavenly father, as the possible kidnapper. He is said to have escaped recently from a state prison for the insane at Elgin, Ill., where he was sent for attacking children under the guise of performing a religious ceremony.

NEW YORK EAST SIDE SALESWOMAN DEVELOPS INTO A PLAYWRIGHT

Sophie Gaby, After Eleven Years in Shop, Has Play Accepted.

New York, Dec. 5.—It isn't just coats and suits that Sophie Gaby has been seeing these last eleven years while at work in A. Alexander's shop at 32 Avenue B. Over the counter she has seen persons unconsciously funny and others unconsciously tragic. She has rubbed elbows with the blotted successes and the punctured failures of life. And beneath the squalor and mad scramble of the lower East Side she has glimpsed the humanness that makes it all endurable.

What she has seen these years as an East Side resident and saleswoman Miss Gaby has written into plays before 10 a.m. or after 10 p.m., for between those hours the business of A. Alexander was exacting, yet a school at the same time.

Her latest play is the story of an East Side sewing girl. In it she has tried to describe the struggle of such a girl who is fighting with the rest of the East Side's hundreds of thousands for something of the fresh air and pleasures of life that rarely come to the environs of Avenue A, Rivington and Orchard streets and the rest.

How well Miss Gaby has made her theme live may be assumed from the fact that the play, which is called "The Filled Angels," has been accepted on a royalty basis by Maitine Lobel, the Yiddish actress. It was previously produced in Peabody's Playhouse in Boston. Mme. Lobel is now on the road with a play and Miss Gaby does not know when she will return to one of the New York theatres.

Miss Gaby also writes short stories and poems. One of her stories will soon appear in the Jewish magazine the "Woman's Journal." When only 11 years old she wrote a poem about the Russian-Japanese war, as she then lived in a small Russian village with her parents. Miss Gaby came to this country as a girl of 16 and has been here fourteen years.

All of Miss Gaby's writing is in Yiddish. She said yesterday she felt this was a handicap to her, as it limited the field of her readers, but she could express herself freely only in her native tongue. B. Winick, managing editor of the Jewish Forward, is Miss Gaby's cousin and another cousin is an editorial writer for the Day.

TO REVIVE "BOITE JOUJOUX." The Juvenile Festival Dancers of the Neighborhood Playhouse, New York, will revive Debussy's "Boite Jouxoux" ("The Toy Box") in four matinees for children on Friday, December 28, Sunday, December 30, Monday, December 31, and Tuesday, January 1. The ballet pantomime shows the astonishing goings-on of the inhabitants of a toy shop after the proprietor has died on the shutters. For these matinees there is a special rate of 25 to 75 cents.

Lady Diana to Play Madonna Despite Rivalry of Princess

Won't Let Italian Beauty, Also Engaged for Role, Take All Honors.

New York, Dec. 5.—Lady Diana Duff Cooper, formerly Lady Diana Manners, heralded as England's most beautiful woman, arrived on the Aquitania to begin rehearsals for "The Miracle," in which she will play the part of the Madonna.

The English beauty, who is the daughter of the Duke of Rutland and a close friend of the British Royal family, was met at the pier by a group of society and theatrical folk, which included Feodor Chaliapin, Russian opera star, and Morris Gest, theatrical producer, who will stage Max Reinhardt's production of "The Miracle."

Confessing her anxiety over playing the star role in the play, Lady Duff Cooper said she had never appeared on the spoken stage, but had been in amateur theatricals and had acted before the camera. Her debut as a film star was in "The Glorious Adventure," which was shown in Covent Garden, London, last year. In the part of the Madonna she will not use her voice, but will pose only.

Lady Diana said she was not worrying about reports that Princess Matchabelli, Italian beauty, who has been engaged to alternate with her in playing the part, had refused to consent to the arrangement. The princess was quoted in an interview in Paris as saying that since she created the role in London in 1918, a mystic superstition had bound members of the company to her and would permit no one else to intrude.

Jimmy Coots Holds A Stage Reception

It was James G. Coots' turn yesterday to hold a reception on the Opera House stage after the matinee performance. Both Jimmy and the audience seemed to be a bit backward at first, but after the ice was broken and the first few visitors reached the stage and shook hands with the big, smiling soldier-actor, a steady stream of people went forward to greet Mr. Coots. And the faster they came, the more at ease Jimmy seemed to get and while it was apparent that Mr. Coots enjoyed meeting many of his hitherto unknown friends, it is safe to wager that he felt relieved when it was over.

LITTLE CINDERELLA RETURNS TO ASHES

Star in "Hollywood" Appears As Maid in Later Production.

Robert E. Sherwood, motion picture critic of Life and of The New York Herald, has issued his book, "The Best Moving Pictures of the Year 1922-23." Mr. Sherwood picks the best pictures in a period from June last year until June this year. He also has a selection of photoplays in which he allots honorable mention, and matter regarding incidents in the producing of certain pictures. There is a full list of productions released and information concerning players, directors, scenario writers and so forth. It contains an honest and unbiased opinion of the productions. He also mentions, in looking volume. There are five, and they are "Scaramouche," "The Hunchback of Notre Dame," "A Woman of Paris," "Rosita," and "Little Old New York."

An interesting, if pathetic, incident connected with the production of "Hollywood" is related. It concerns Hope Down, who played the part of the girl who thought she was going to be a wonderful success in the movie world and who afterwards is forced to become a wife, being the sole person in her entourage who is not a success in the cinema game. Later on the program of a play, "Peter West," Mr. Sherwood discovered the name of this girl who had done so well in the impregnation of her own part in "Hollywood" set forth as "A Maid... Hope Down." "So," writes Mr. Sherwood, "the little Cinderella returned to the ashes, after all—proving that Frank Capra's comedy had a regrettably firm basis of truth."

lme and the princess the other half," said the English star, in explaining that Morris Gest had engaged her, and Max Reinhardt had contracted with Princess Matchabelli to appear in the production.

Morris Gest, who greeted Lady Diana, said he could not prophesy what might happen after the arrival here of Princess Matchabelli, who will sail from Cherbourg by the White Star liner Majestic. Mr. Gest recently got a cable from Capt. Malone, Lady Diana's attorney in London, apparently a bit disturbed over the report that the princess had been engaged by Max Reinhardt to play the Madonna here, and in what manner his client would be treated. Mr. Gest answered: "She will be treated like a queen." Capt. Malone responded: "Which queen, Marie Antoinette or Mary Queen of Scots?" Mr. Gest was diplomatically silent by cable, but said he suspected that Lady Diana would be quite satisfied.

Lady Diana, who is slim, straight and a fine specimen of the statuesque English blonde, was impressed by the Manhattan skyline and also the towering architecture of the Russian singer Chaliapin, who helped Morris Gest to welcome her, said she was "thrilled by the very thought of playing this extraordinary part and expressed a fear that she might be just a little upset in making her first appearance on the public stage in New York." Lady Diana will act under her maiden name of Lady Diana Manners.

GARDENS TONIGHT Dancing As Usual

Movies, Reflecting Emancipation of Women; Girls Now Swagger Through Masculine Roles

The movies, precursor of changing styles and customs, are reflecting today more than any other medium the complete emancipation of woman.

The ladies, not satisfied with their newly acquired personal liberty, a voice in politics and an active part in business, now have a penchant for men's attire which gives promise—or should we say threatens?—to go even beyond the "knicker" stage.

Even the movie heroines are appearing in men's trousers these days, and, as someone said once upon a time, clothes make a man, then these pictures of Constance Talmadge, Dorothy Mackall and Anna Q. Nilsson show the movie peach of the bathing beach, with her scant attire, seems to be passing into the discard.

The costume picture era has swooped down upon us and with it comes the heroine in bifurcated garb.

And so it is that three big feature productions reveal the feminine stars swaggering through their roles in masculine attire masquerading as men.

Between times they, like the enlightened members of the same sex in any other town, village or hamlet, take to their knickerbockers for golf, horseback riding, tennis, hiking, etc.

Anna Q. Nilsson jauntily wends her way through "Ponjola" with felt hat, modern suit of riding breeches, snappy man's coat and boots. She goes the others one better by having her hair

clipped short for the periods when she doesn't wear the hat, sacrificing her beautiful blond hair to the barber's shears for the sake of art and freedom.

Dorothy Mackall masquerades as a dashing cavalier of the Cromwell period in "The Fighting Blade," in which she dons silken breeches, lace, slinks, bright colors, fancy capes and curls.

Constance Talmadge, as a court dandy of the seventeenth century in "The Dangerous Maid," even sports a rapier at her side. Like Miss Mackall, she has the feminine advantage of wearing brilliant vests, lace at the neck and cuffs, bright colored coats and other masculine fripperies of a bygone day so properly labeled "unmentionables" by Thackeray.

Popular French Composer Mourned

Felix Fourdrain, who died recently and suddenly in Paris, was considered there one of the French composers most highly endowed and most popular with the public. He was a pupil of Vidor, and his first opera, "La Legende du Point d'Argentan," made a brilliant success when it was first produced at the Opera Comique in 1897. He was then 27 years old. The opera has remained in the repertory and is still given. He was also the author of half a dozen others, and wrote a number of light operas as well.

PALACE WEDNESDAY AND THURSDAY Swifter Than the Wolves Racing Before It! A roaring sheet of flame sweeping through the big timber. Not to check it meant ruin to the girl and the man who loved her. The fire and the drama it ignites are equally thrilling. LOUIS B. MAYER Presents REGINALD BARKER'S PRODUCTION OF HEARTS AFLAME Adapted by J. G. Hawks and L. G. Rigby from Harold Titus's novel, "Timber." Directed by Reginald Barker. "HOLD ON" Comedy. FRI. and SAT. Vitagraph Special. "PIONEER TRAILS" THE GREAT WESTERN METRO PICTURE

Some one suggested that he should stay in America and train American students of music. Chaliapin smiled. "Before the Russian revolution," he said, "I had saved the money to build a 'chateau d'art,' as I called it, in the Crimea, or southern part of Russia. There I was going to have my students and found my school of opera far away from tourists. But during the revolution I lost all I had saved and my art colony is still unfinished."

"But I should like to teach Americans. Perhaps I shall do so yet. I like the American people and admire their qualities. Such strength, such energy, such restlessness! Why, I see them at their work of the hardest kind with a smile and a joke. In Russia the peasants do not smile while working. It used to be too cruelly hard and they had none of the American inventions. Before the revolution they were practically slaves. Such men could not have the abounding nervous energy of Americans."

"Sometimes I feel the Americans go too far in their liking for material things. I have a plan, way in the back of my head, to travel through all the small cities and towns and villages here, without any opera company, to show the people that the art is being as much part in their lives as sport and working. I shall tell them all about my art and sing for them. I would like to start the custom of communities competing at song festivals, as in 'Die Meistersinger'."

He was reminded that Vachel Lindsay, an American poet, had done much the same thing when he went tramping through the country "preaching the gospel of beauty."

"I am sorry that I do not know English well enough to have heard him," said Chaliapin. "In two years I hope to know the English language so I can read your poets. But if he has done this I should like to be with Mr. Lindsay. Maybe we shall go together yet. I should like for a whole group to go."

Boer War Veterans Were Honored—Purely Honorary Matter Now.

The last time the freedom of the City of St. John was granted to anybody was in 1901, during the Mayorship of Dr. J. W. Daniel. On July 2 of that year this honor was conferred upon Richard Stuart Solomon, of Cape Town, South Africa, "in recognition of the great services and unremitting attention rendered by him to the Colonial, and especially the Canadian forces taking part in the war in South Africa," according to an order-in-council in which the freedom of the city was given him.

Again on the 13th of the same month a similar honor was granted to the members of the South African contingent who were residents of the city at the time of their departure for the South African war "in recognition of their patriotism and devotion in leaving homes and occupations in the interests of Queen and Empire and their gallantry in maintaining British supremacy in South Africa." What It Means.
The freedom of the city, which is authorized by an act of the Provincial Legislature, is a purely honorary privilege at the present time. It was not always so, however.
At one time a citizen could, on the payment of a certain fixed amount, be made a freeman of the city and this right would entitle him to do business within the limits of the city and also vote in the civic elections without being the owner of property or being taxed on his income. In other words it was an alternate form of tax payment and was used by a great many of the business owners of the city in those days.

ALBERTSON HELD FOR INQUIRY
Charge of False Pretences is Made in the Police Court.

Carl Albertson, who appeared in the police court this morning charged with attempting to obtain money under false pretences, was remanded to jail until an inquiry could be made. When the charge was read stating that, according to information received from Mrs. McCormick who owns a property in Britain street, he had been giving notices to tenants in her house of a change in the rents; he also denied the charge. His answers to other questions were quite emphatic. Magistrate Henderson suggested that he have a talk with Mr. Ryan, who he at first said was appearing on his behalf. He refused to have any intercourse with him other than in open court. It was then brought out that Mr. Ryan was appearing for the plaintiff and not the defendant. Mr. Ryan then asked that the defendant be remanded until an inquiry could be made.

SAYS LAWS MUST BE MORE STRINGENT
Magistrate Henderson Comments, in Dismissing Automobile Case.

A case against Alfred G. Kane, who had been reported for exceeding the speed limit in Waterloo street last Sunday, was dismissed by Magistrate Henderson in the police court this morning. E. J. Henneberry, who appeared on behalf of the defendant, Magistrate Henderson read extracts from the law and pointed out that more stringent laws will have to be enacted for the regulation of traffic. In view of the fact that the defendant had been driving an automobile for more than six years and had never been reported for any violation and in his favor he dismissed the case. He, however, commended Policeman Gutter for making the report as he had considered the defendant was exceeding the speed limit.

SAYS ST. JOHN WILL MATCH PROVINCE

Mr. Tilley Issues Challenge to Rest of New Brunswick in Drive.

At an enthusiastic meeting last evening in connection with the campaign for the Protestant Orphanage fund, E. A. Schofield presided. L. P. D. Tilley, chairman of the executive committee and the leader of the 700 men who will make the canvas in St. John issued a challenge to the balance of the province. He said that there were 218,000 Protestants in the province and 48,000 of these were in St. John city, leaving 170,000 outside of St. John city. There are really more Protestants outside of the city but the numbers were scattered among the smaller denominations. Mr. Tilley told the representatives from the outside districts that if the balance of the province would raise \$100,000 the city of St. John would match it with an equal amount. Chairman Schofield explained that while it would be an impossibility to reach every one of the 170,000 outside of St. John, if each colony would raise the equivalent of \$1 for each Protestant resident, the full sum would be secured.

The following were representatives from various parts of the province who reported upon the situation in their territory: Woodstock, D. V. Storm; Hampton, Councillor H. Jordan; Sussex, Percy Bolton; Bathurst, L. A. Palmer; Moncton, A. Hazen Adair; St. George, M. E. Baldwin; Loch Lomond, Rev. C. W. Follett; Fairville, Councillor William Gungigawak; L. B. Evans; Hillboro, G. E. Dawes; Plaster Rock, A. W. Ridgeway.
Following the reports, the chairman called upon Ven. Archdeacon A. H. Crowfoot, Rev. Canon R. A. Armstrong, Rev. W. P. Dunham, Rev. Dr. S. S. Poole, Rev. C. R. Freeman and Rev. W. A. Robbins. The clergy then assured Chairman Schofield that the clergy of the province as a unit would support the movement in every possible way and they were confident that orphans' day would be observed in every Protestant church in the province on next Sunday. Mr. Tilley paid a tribute to the excellent service that H. Usher Miller, M. Campbell and other members of the board had given to the institution.
Mr. Miller in replying said it was more a privilege than a burden to work for the orphanage.
F. T. Short, one of the field representatives of the general executive gave a report of his work through the province.

STORES MUST NOT BE OPEN SUNDAY

Magistrate Lets Fine Stand in Five Cases and Gives Warning.

That the consent of the Attorney General had been received to prosecute violators of the Lord's Day Act who keep their places of business open on Sundays was a statement made by Magistrate Henderson in the police court this morning when he was hearing a case against William Hyde, James Jeffries, John Budda, Fred Stewart and Kane's Grocery shop. The first three conduct businesses in Prince Edward street, and the last two in Main street.
All had been reported for making sales last Sunday. In some instances only milk and bread were sold, in others matches, sausages, and other articles. All pleaded guilty.
Magistrate Henderson read extracts from the Lord's Day Act and also explained the exceptions therein. He warned the defendants that there was a penalty not less than \$1 and not exceeding \$40. He struck a fine of \$5, but allowed it to stand, warning them that in future they must turn the keys in their shop doors and keep them closed on Sunday.

As Hiram Sees It

...HORNBEAM TO THE TIMES REPORTER, "I see you got President Betsy of the C. P. R. in town today. I'd like to see the fellow. I been readin' about what he does fer that boys' farm up there. I wonder in Quebec—goes down an' talks to the boys as if he was a big brother—an' makes 'em think they kin amount to somethin' if they try. They say he wants to give every feller on the C. P. a good chance, too. I sort of hev an idee that a railroad with such a man at the top 'ud be run pooty well. I mind they used to say when anything happened to Van Horne or Shaughnessy the C. P. 'ud fall into a rut an' not amount to much, but we kin grow railroad presidents as well as college presidents an' things like that in Canada. If you see Betsy you let me know that Hiram was talkin' about him—an' we'd like to hev him come out to The Settlement if he ever gets time. George Harn used to be awful fond of Hanner's pancakes when he used to be down here. I'd like to see George, too. By Hen!"
