DUBLIN BACKS UP GRIFFITH

Supports Action Against the Army Convention

More Killing in Belfast—Ulster Suspends Several Organized Bodies—St. Patrick's Day Incidents.

Dublin, March 18.—There is general approval in Dublin over the note which Arthur Griffith, president of the Dail Eireann, sent to the ministry of defence Thursday in which he forbade the holding of the army convention, set for March 26. It was evidently the intention to submit at the convention of the Irish Republican army a resolution promising the formation of an executive of the army and the provincial government officials regarded this as a deliberate attempt to establish a military government.

The action of Mr. Griffith is looked upon as having precipitated the issue set aside temporarily by the recent settlement of the army trouble in Limerick. By some it is even considered that it has challenged a definite election.

John McEneaney, addressing an anti-treaty meeting at Harold's Cross yesterday, declared that the Irish Republican army convention would be held despite Mr. Griffith's prohibition.

St. Patrick's Day. Dublin, March 18.—The celebration of St. Patrick's Day throughout Southwestern Ireland was marked by several features denoting the change in the status of Ireland. The trooping of the Union Jack at Dublin Castle, which since 1860 had been an impressive ceremony of the name day of Ireland's patron saint, was omitted for the first time. Instead there were a trooping and the blessing of the Republican tri-color at Marlborough Hall, which was transferred some time ago by the Crown forces to the Irish Republican Army.

The general use of the Gaelic language in the churches and at political gatherings was a striking feature of the day. In Dublin the only meetings held were anti-treaty. The largest was held by Countess Mervin's decline children and others. There were only 400 in attendance, and among them signs of dissent from the sentiments of the majority.

More Belfast Trouble. Belfast, March 18.—The terrorists who had remained under cover all of St. Patrick's Day resumed their activities today. Soon after the curfew hours news venders proceeding home on their bicycle was shot through the breast, and a man was shot and killed in Newtownards road. A bomb was thrown in Thionon street, the missile wounding several persons. A girl was killed. Newtownards road was in a turmoil until after the breakfast hour.

Suppressed in Ulster. Belfast, March 18.—The Ulster home office has in the last 48 hours suppressed the local bodies in the six counties all having Sinn Fein majorities regarded by the northern government as recalcitrant. Commissioners have been appointed to discharge their duties. The bodies suppressed were:—The Magherafelt, County Derry, guardians; the rural councils of Carrick, County Down, Lisnaskea, County Fermanagh and the city council of Armagh.

LOCAL NEWS. BUSINESS NOTES. The secretary of the Board of Trade is in receipt of communications from two parties in Ontario. One wants to get in touch with hay producers here and the other wants general information about St. John and Albert.

MERRITT-BURRITT. The home of Mr. and Mrs. M. E. Burritt, Lancaster Heights, was the scene of a pretty wedding on Wednesday, when their daughter, Gladys Eggleston, was united in marriage to Lew Ellice Merritt, of Rothesay, by the Rev. J. C. B. Appel. After a honeymoon spent in Boston and vicinity, they will reside in Rothesay.

CITY HALL ELEVATOR. The enclosure for the new elevator at City Hall has been completed and the car itself is now in the course of assembly. It is expected that the pent house, the erection of which was held up by order of the fire marshal, will be completed by the end of next week and by that time it is expected to have the lift in operation.

MANY MORE QUALIFY. There was quite a rush of eleven hour taxpayers who presented themselves at City Hall this morning to square up on their taxes. It is estimated that more than 1000 were eligible to vote at the civic elections this spring. Although the number who came to pay today did not cause the congestion like that which occurs on the days immediately preceding the close of the discount period, the chamberlain's staff was kept busy and a good proportion of the arrears in taxes was wiped off the city books.

REV. C. P. MELLOR DEAD IN ENGLAND. Halifax, N. S., Mar. 18.—The death of Rev. Charles Powell Mellor, vicar of Lislington, Lincolnshire, Eng., is announced in a cablegram. He was ordained by the Bishop Coadjutor of Fredericton, N. B., in 1887. He was pastor of several parishes in Lunenburg, N. S., before going to England. Mr. Mellor, now doing missionary work in Alberta, is a daughter.

CLASS WAR URGED BY MINERS' LEADER

MacLachlan Calls on 12,000 Workers in Nova Scotia to Cut the Output.

Sydney, N. S., March 18.—(Canadian Press)—In a manifesto by treasurer of District 26 of the U. M. W. of America he declares a class war urging the 12,000 coal miners of Nova Scotia to a policy of "cutting the output" as the most effective way of waging it against the British Empire Steel Corporation, and attacks Hon. George H. Murray, premier of Nova Scotia.

LOCKED IN ICE SINCE JANUARY

Captain Accepts it as Drydock and is Giving His Steamer an Overhauling.

St. John's, Nfld., March 18.—While hemmed in by ice since early in the year, three miles off Exploits on the Newfoundland coast, Captain John Field and his crew of the coastal steamer Prospero have been busy overhauling and renovating their ship, as if she were in drydock.

Meantime a constant watch is kept for any opening in the ice. During the early part of February, by blasting the ice with powder, the Prospero was worked within one quarter of a mile of open water. Then a change of the wind brought new floes to bar her passage. In some places the ice is rafted to a thickness of twenty feet.

The ship has still one passenger aboard, Wm. Tompkins of Bonaville, and being unable to make the trip over the ice to Lewisport, will wait till the ice breaks up in the spring. Captain Field and his crew are reported to be in the best of health, very busy, but anxious for their release.

FOR MARITIME PROVINCES

E. M. Macdonald and the I. C. R.—Investigation of Oil Shale Deposits.

Ottawa, March 18.—(Canadian Press)—In the House of Commons, yesterday, the debate on the address was resumed by A. W. Neil (Independent, Comox-Alberni). E. M. Macdonald (Liberal, Pictou, N. S.), dealing with the I. C. R., declared that if any government took away the rights of the province, it was the duty of provincial governments to appeal to the imperial government. The maritime provinces objected to an unsympathetic I. C. R. management located at Toronto.

Sir Henry Drayton said there should be a redistribution bill brought down this session to give proper representation. He attacked Hon. James Murdock minister of labor, on the character of his campaign literature, and said that the time for misrepresentation had passed. He also criticized Sir Lomer Gouin, minister of justice, and declared that it was regrettable that a criticism of a Quebec member should be interpreted as an attempt to separate Quebec from the other provinces. He said that the Laurier-Fielding tariff was higher than the tariff of the late government.

The house adjourned until Monday afternoon at three. In the Senate, a committee was appointed to investigate the oil shale deposits of New Brunswick. Senator Bradbury gave notice of a bill amending the cold storage warehouse act. Permission was given to the divorce committee to sit during senate adjournments and also while the senate is in session. The senate adjourned until Wednesday.

Ku Klux Klan Denial. Atlanta, Ga., March 18.—W. J. Simmons, head of the Ku Klux Klan said last night he knew nothing about klansmen pledged to return to North Carolina authorities a negro whose extradition was refused in Canada. "No such thing has been brought up," he asserted.

K. P. EVENING

Carleton Tower Lodge No. 87 Entertains Well.

Carleton Tower Lodge No. 87 K. of P. held their second anniversary in their Castle Hall, Guilford street, West St. John, last evening. It took the form of a smoker. After a sociable two hours of card playing, with a solo by H. Ellis and readings by F. H. Gaudin and selections from members of the Carleton Cornet Band, all of which greatly added to the enjoyment of the evening, the members and guests then repaired to the lower floor where, all partook of refreshments. Then followed a toast to the King, with the National Anthem, toast to the Grand Lodge, proposed by Past Chancellor R. Irwin and responded to by Past Supreme Prelate J. M. Moulson; toast to the Sister Lodges, proposed by F. C. Irwin and responded to by Chancellor Commander O. Dick, representing New Brunswick Lodge No. 1, Chancellor Commander McKay, representing Union Lodge No. 2 and Vice Chancellor Seely, representing St. John's Lodge No. 80; toast to Carleton Tower Lodge No. 87, proposed by Grand Master of Eschequer F. A. Kinross and responded to by Chancellor Commander J. A. Lutten and Deputy Grand Chancellor F. L. Gardner.

The committee in charge of the evening's entertainment was composed of R. Irwin, L. E. Rolston, R. W. Merryweather, H. Rolston, F. Adams and F. Lodge.

FIRE TAKES ST. STEPHEN THEATRE

The Bijou Burned With the Queen Sample Rooms—Clarence Robinson Dead.

(Special to Times). St. Stephen, N. B., March 18.—A serious fire broke out this morning when the Bijou Theatre, Queen Hotel sample rooms, Thos. McCurdy's barber shop and the A. & N. pressing and cleaning rooms were completely destroyed. The fire broke out about five o'clock and is supposed to have caught in the theatre, which is in the second story of the building. The firemen were quickly on the scene, but as the building was of wood it was impossible to get control and nothing is left but the rubble. The sample rooms only one or two were in use as most of the travelers had left for their homes that night. Very little was saved from that use.

The building was owned by J. W. Smith, who had built it in order to have more sample rooms in connection with the Queen Hotel. Mr. Smith's loss will be in the vicinity of \$20,000, while C. E. Staples, manager of The Bijou, will suffer a loss of several thousand. Mr. McCurdy managed to get one chair out of his shop, but his loss is practically complete, as is also that of the pressing and cleaning rooms. The loss is partly covered by insurance in all cases.

Friends of Clarence Robinson were shocked this morning when they learned that he had passed away during the night. He had complained of a severe cold on Saturday last and pneumonia set in. He was a young man of sterling qualities, always on hand to help those who were ill, and he will be greatly missed by both young and old. He leaves a wife, his widowed mother, Mrs. William Robinson, one sister, Elva, and two brothers, Leon and Arthur, all at home.

PROPORTIONAL REPRESENTATION IS REJECTED

Quebec, March 18.—(Canadian Press)—The legislative assembly yesterday rejected a motion of Mr. Sauve relating to proportional representation. He moved that a special committee of the house be appointed to make an inquiry into the systems of proportional representation adopted or proposed elsewhere and that the committee be empowered to meet during the parliamentary recess to hear competent persons on the question, and to make a report at the next session.

SIR HERBERT SAMUEL TO GIVE UP POST?

London, March 18.—At the colonial office today it was said that nothing was known concerning the reported intention of Sir Herbert Samuel to retire as British high commissioner for Palestine. He recently suffered a severe attack of rheumatic fever, but has now recovered. (A report that Sir Herbert would soon resign was published yesterday by the Pall Mall Gazette and London Globe.)

FINE HONOR WON BY LOCAL Y. M. C. A.

Athletes Have Captured International Hexathlon Banner.

Captain William Bowie, physical director of the Y. M. C. A., this morning received a telegram from Toronto informing him that the St. John association has won the Senior Hexathlon banner this year. The telegram was as follows: "DR. JOHN BROWN, Secretary of the Y. M. C. A. Council of Physical Education. 'Heartiest congratulations. Your association won first place in Class C in the Senior Hexathlon, Toronto, last week end. Please send best photographs of the winning team. Detailed report being mailed to you.'"

Class A includes associations with a membership above 1000, Class B, 500 and over and Class C, under 500. The total score of the local athletes this year was 2882. The St. John's won the Canadian Hexathlon banner in 1920, but this year they have annexed the international, outstripping all associations of their class on the continent. To win the international championship was the aim of Captain Bowie and his men at the first of the season and they feel justly proud that they have succeeded.

MONCTON CHILD WELFARE WORK

While in Moncton Rotarians and ladies were invited to visit the baby clinic in the city hall, and those who went were impressed by the excellence of the arrangements. Nurse Alice Burns, a St. John girl, not only welcomed visitors there but gave a very interesting health talk at the ladies' luncheon on Friday. She is doing a very valuable work in Moncton.

REV. DR. BRIDGE TO BE METHODIST CHURCH PASTOR

Former Presbyterian Moderator to Grace Church—Is Strong for Church Union.

Winnipeg, March 18.—Dr. W. H. Bridge, former moderator of the Presbyterian church in Canada, and an uncompromising advocate of church union, has accepted an invitation to the pastorate of Grace Methodist church for an "indefinite" period, so it is announced by E. L. Taylor, K. C., chairman of the quarterly office board. Dr. Bridge is a resident of Ottawa. He will commence his new duties on May 7.

This, said a prominent official of Grace church, "is, we believe, a really practical step in the direction of church union, and the first time that a prominent divine of one denomination has been invited, and accepted, regular pulp duties for a sister denomination. It is a distinctly good omen for church union."

As Hiram Sees It

Settle Great Labor Dispute

"Well, sir," said Mr. Hiram Hornbeam to the Times reporter, "I was up the line yesterday and I come in on that there Halifax train last night. I got into a car that was full of Rotarians and they made me stay right there. Nearly every one of 'em hed his wife along an' they heid an organ—an' Monty Jones an' Bob Reed it dool over a dooty gal—an' Doc Chipman an' Ken Haley sung one of them songs that has only one verse—an' kep' on singin' it every chance they got—an' Roly Skinner he done a turn as a parson—an' another fellow dressed up like a woman—an' Doc Barton an' a gal that kep' winkin' at me played the organ—an' all the wimmen folks lined in the singin'—an' some feller switched off the lights right in the middle of a song—an' th' was more singin' an' laughin', an' makin' fun than I ever seen in my life. I got my mouth open so wide one time I couldn't get it shut till they set me down on the floor an' sot on my head. Mister—when I looked over that crowd of folks—some of 'em grey-headed as I be—an' sen' 'em cut loose an' hev a heap o' harmless fun—just like one big family—I come to the conclusion we air here the Rotary Club out to the Settlement—Yes, sir."

BACK AGAIN TO FIREWORKS

None Last Year, But Exhibition Makes a Contract for This Fall.

Those who were disappointed last year when it was decided to eliminate the fire works display from the St. John exhibition programme, will be pleased to know that this attraction will be renewed at the show this fall. The decision was arrived at this morning at a meeting of the amusement and concessions committee of the association.

LATE SPORT NEWS

Boston, Mar. 18.—Benny Leonard, lightweight champion of the world, must box ten rounds to a decision against Johnny Clinton, New England champion, when they meet in the Boston Arena next Monday night. The state boxing commission has so ruled. The champion, it was said today, had supposed that the bout was to be only an exhibition without a decision.

Pittsburg, Mar. 18.—The Pittsburg Nationals at Hot Springs, yesterday scored a runaway in an exhibition game with the Boston Red Sox. The Boston club won by a score of 12 to 0.

Detroit, Mar. 18.—The Detroit American League were slated today to play the first of a series of exhibition games that will take them through Georgia and South Carolina. The Detroiters yesterday won from Georgia Tech, 7 to 4.

Pittsburg, Mar. 18.—A change in the 1922 playing schedule is announced. The Pittsburg Nationals game with Cincinnati scheduled for September 28, is moved up to May 29.

Boston, Mar. 18.—After playing seventy-five minutes without score, last night, the Westminster hockey team of this city, and St. Paul, Minn., hockey club, rested today before taking the ice at the Boston Arena tonight for the national amateur championship. Westminster had won the first two games of the series at St. Paul, and need only a goal to win the third game needed for the title. Whether the scoreless contest would be declared no game, and replayed, or be called a contest without result and count as one of the four stipulated games of the championship series, was still undecided today.

NEPHEW OF DIAZ OF MEXICO KILLED

Nogales, Ariz., March 18.—General Felix Diaz, nephew of Porfirio Diaz, former president of Mexico, was shot and killed yesterday near Ortization, Mexico, according to despatches received here last night.

HERE FROM JAPAN

Captain Jones and fifteen members of his crew arrived in the city this morning from Japan after delivering the steamer Polcrest, which was sold to the Japanese government by Letricheaux and David, of South Wales. The party arrived in Vancouver recently, and came here hoping to be in time to sail to Liverpool on the Melita. When they found out that the had sailed, they booked passage on a liner from Halifax and left this afternoon for that port.

The Polcrest was formerly the German liner Hans Blomberg and was one of the three steamers which tried to break through the British blockade and reach Holland from Germany in 1917. When they were chased the three were driven aground and secured as prizes by the British Admiralty. The Polcrest was 8,000 tons and fourteen years old, but was in excellent condition.

SETTLE GREAT LABOR DISPUTE

Involves 700,000 in English Building Trades.

Engineers Coming Round—Delegation of Mayors Takes Up at Admiralty Loss of Work as Result of Washington Conference.

(Canadian Press Cable). London, March 18.—A provisional settlement has been reached in the building trades dispute affecting 700,000 operators. The men's representatives in conference with employers yesterday agreed to accept a graduated reduction of wages and modification of the number of hours of work, commencing on April 1.

The employers proposed to extend the present forty-four hour week to a maximum of fifty hours in summer with a shorter week in the winter.

The employers in the engineering industries say that two unions have agreed to sign a memorandum reaffirming the right of employers to exercise managerial functions in the matter of regulating the overtime of workmen. Forty-seven other allied unions are now balloting on the question. The rejection of the employers' contention by the engineering union recently was the cause of the lock-out put into effect by the employers a week ago.

Deputation at Admiralty. A deputation consisting of the lord mayors and mayors of Northern Ireland and towns including Sheffield, Glasgow, Newcastle and Barrow, waited on Lord Lee, first lord of the admiralty and Sir Robert Horn, chancellor of the exchequer, at the admiralty office yesterday and drew attention to the serious situation which has arisen as a result of the suspension of work on the proposed new battleships following the Washington conference agreement.

The deputation pointed out that the change of programme had accentuated unemployment attending with acute distress and asked the government immediately to devise schemes to help those out of work. It was suggested that a deputation that order be placed immediately for two capital ships to be built in place of the four battleships on which work was suspended. Forty-seven other allied unions are now balloting on the question. The rejection of the employers' contention by the engineering union recently was the cause of the lock-out put into effect by the employers a week ago.

A BIG YEAR IN THE N. B. SCHOOLS

Annual Report of Dr. W. S. Carter—Some Recommendations Renewed; Two New Ones.

Fredericton, N. B., March 18.—A total of 73,712 pupils attended the 1978 public schools taught by 2,142 teachers in New Brunswick during the last fiscal year, according to the annual report of Dr. W. S. Carter, chief superintendent of education.

The largest enrollment was in the second term when 68,092 pupils were in attendance, a record number for this province. The previous high record was 66,548 in 1911. The percentage of attendance was also the highest, being 88.88. The 2,142 teachers received provincial grants toward their salaries \$244,555.92 as compared with \$193,671.64 the previous year to 2,054 teachers.

Dr. Carter repeats the following recommendations:—Increased teachers pensions with a disability clause. A better assessment law. Free school books. He adds the following new recommendations:—One man one vote in school districts. An act enabling women to serve upon all school boards even though they do not possess property in their own name.

ITALIAN TROOPS TO OCCUPY FIUME

Rome, March 18.—Military occupation of Fiume has been ordered by the Italian government. The army corps at Trieste will be used. The task has been entrusted to General Sassi. The occupation of Fiume by the military is considered as necessary to the application of the treaty of Rapallo, which charges Italy with the policing of Fiume. It is stated that in sending troops into the city Italy aims only to ensure the election of a legal and capable government.

BIG RATE WAR ON PACIFIC COAST

San Francisco, March 18.—The eight steamship companies operating out of San Francisco to the Far East declared yesterday for open rates on all overland and westbound traffic to the Far East. Traffic originating on the Pacific coast is not affected. The declaration marks the opening of what shipping men declare is likely to be one of the most bitter rate wars ever fought on the Pacific coast.

Halifax Rotarians Lose. Halifax, N. S., March 18.—The Halifax Rotary team lost the maritime volleyball championship to Moncton, yesterday. The locals won the cup last season in a game against St. John.

COLLEGE PLANS WOMAN LAW CLASS

Students from the Home or Business Life to be Equipped for Daily Problems—Not to Prepare for Bar.

A course in law that will give the woman in the home and the woman in business a general understanding of the principles of law in order that she may handle her business and personal affairs, is to be added to the School of Business and Civic Administration of the College of the City of New York. The lectures are not intended to prepare women for admission to the bar, but it is hoped that the students will be given insight into legal regulations and procedure and an understanding of the necessity for competent legal advice when difficulties do arise.

Miss Helen Elisabeth O'Brien, LL.B., who will be in charge of the work, in outlining the course, said that very few women even understand the nature of a contract and so enter into agreements that are unwise. "I have found that in the education of almost every woman," said Miss O'Brien, "there has been a missing link—instruction in general law whereby they may be able to solve the problems and difficulties that confront them in their daily lives. It is because of this imperative need in the life of every woman that this course has been planned and introduced by the faculty of the college so that through a knowledge of the principles of general law women may know and protect their personal rights."

"Few women understand the necessity for insurance and the legal principles that govern insurance contracts. The bank with its notes and its checks is a bewildering mystery which nevertheless plays an important part in life and should be understood. Women as a rule do not know enough about the leases and mortgages that affect their home security and many of them are not even aware of the way property descends by will."

The topics to be covered by the course are the general nature of law, the necessity for law, how laws arose, how they developed; the present method by which one individual makes agreements with another, how contracts or agreements may be made in a legal manner and how they are enforced by the state; the status of women as competent makers of contracts under the law, and the part a woman may play as an agent. Notes, checks, promissory notes, bills of exchange and other papers will be explained. The students will be told how title to property is obtained, how it may be lost and how it may be voluntarily transferred to someone else. A general discussion of the relations between landlord and tenant and the reciprocal rights and obligations of each will be a feature of the course, while the laws governing commercial interests and investments and how women should invest their funds and legally safeguard these investments, even though the investment be but a small deposit in the savings bank, will be explained.

PAPERS READ AT LENTEN MISSION STUDY CLASS

The Lenten study classes which have been arranged under the leadership of Mrs. Cortland Robinson, convener of the Fredericton diocesan W. A. had an auspicious opening yesterday afternoon when the first meeting was held in St. Paul church hall with Mrs. W. D. Forster presiding. The several

fields of the M. S. C. C. missionary effort are to be the subjects of the programme on succeeding afternoons and yesterday the subject was India. Miss Ethel Jarvis gave the first paper, presenting in an impressive manner the "Call of India." Having sketched the history of the country briefly she spoke of the present unrest, of the visit of the Prince of Wales and of the arrest of Ghandi. She pointed out the need and the opportunity for the extension of missions in India at present. Mrs. Hugh Cancell, who gave the second paper, spoke of the Canadian missions in Kangra and spoke of the schools, the Maple Leaf hospital and the itinerant work. She emphasized the need of the extension of the work more especially as the country was part of the British Empire and at present in great unrest.

An enjoyable mission band concert was given in the vestry of the Charlotte street Baptist church, West End, last evening. The entertainment was largely attended and the songs, recitations and dialogues, which were excellently presented by the children, were heartily applauded. Rev. C. R. Freeman, pastor of the church, occupied the chair. The concert was arranged under the direction of Mrs. George Maling and Mrs. N. P. McLeod and a substantial amount was realized for missionary purposes.

LABOR COUNCIL ON HYDRO MATTERS

The semi-monthly meeting of the Trades and Labor Council was held last evening in its rooms in Prince William street with F. S. A. McMullin, president of the council, in the chair. The meeting was largely attended and several important matters were discussed by the members.

The executive of the council reported the holding of a special meeting on March 9 on the hydro electric question. The president reported that two meetings of the council's committee had been held and that a new organization had been formed of representatives of the various associations in the city, which are in favor of municipal ownership of the hydro power. He announced that public meetings are to be held soon and that candidates at the coming civic elections are to be asked to declare themselves on the question of municipal ownership of the hydro distribution facilities.

A letter was read from the Union Label trades department of the American Federation of Labor urging union men to patronize union label goods. A letter from the local union label committee also urged the union men to use their

The Epworth League of the Portland Methodist church had an interesting programme at its meeting last night when Robert H. Maxwell presided and

the subject of the evening was Citizenship. A number of questions on citizenship were distributed among the members and each one answered the question which had fallen to his share. Miss Mabel Rowley sang a pleasing solo and Stanley Irvine contributed some readings. Thirty-five members were present.

The Question of Depreciation

YOU cannot afford to overlook the question of depreciation when buying a car, because the time will come when you will either sell the car you have bought or turn it in on a new car. The loss you will have to take will depend on your choice now.

Ask the owner of any car purchased within the last fifteen months, at a price varying from \$2000-\$4000, what loss he would have to take on a resale. The amount will surprise you!

The more expensive the car the more the owner stands to lose. Excessive cost of upkeep kills the demand for a used car of this class.

Buy a Ford. It costs so little to run and repairs and replacements for worn parts can be so easily obtained at low cost that the demand for used Ford cars reduces depreciation to the minimum.

LITTLE FRIEND OF ALL THE WORLD

Wanted: Good, Honest, True Men!
Everywhere we read:
Wanted: Men!
Not wealth in mountain piles,
Not power with gracious smiles,
Not even the very potent pen;
Wanted: Men!
Everywhere in clear and blinding letters
over the gateways to fame, to honor,
to success, to social service, on the
signposts at the critical crossing in life's
journey that lead to fairness, to faithfulness,
to the words: Wanted, a Man!
What is it to be a man?
To be a man is, first and foremost,
to be under the guidance of a fair mind.
The true man has convictions. He is
willing if need be to die for them.
To be a man is to be the ever dutiful
faithful bondman. To be a man is to conquer
faintly and timidly, twin brothers of despair.
To be a man is to march on like
a soldier, with eyes front, where honor
calls. The true man is gentle, sincere,
strong, truthful, cheerful just. The true
man thinks right and does right. He is
a source of courage, of goodness, or in-

CORNS
Lift Off with Fingers

Doesn't hurt a bit! Drop a little
"Freezone" on an aching corn, instantly
it corn stops hurting, then shortly
it falls off with fingers. Truly!
Your druggist sells a tiny bottle of
"Freezone" for a few cents, sufficient to
remove every hard corn, soft corn, or
corn between the toes, and the calluses,
without soreness or irritation.

Makes a Family Supply
of Cough Remedy
Really better than ready-made
cough syrups, and saves about 5¢.
Ready and quickly prepared.

If you combined the curative
properties of every known "ready-made"
cough remedy, you probably could
not get as much relief as you can
with this simple home-made
cough syrup, which is easily prepared
in a few minutes.
Get from any druggist 2½ ounces
of Pinex, pour it into a 16-oz. bottle
and fill the bottle with syrup, using
either plain granulated sugar syrup,
clarified molasses, or honey, as
syrup, as desired. The result is 16
ounces of really better cough syrup
than you could buy ready-made and
saves easily 5¢. Tastes pleasant and
never spoils.

CRAZE FOR PLEASURE.
Destroying Habit of Serious Thought,
Says Priest.
(Montreal Gazette)

"Success in life is commensurate with
the amount of serious thought a man
puts into his doing. If a man gives
a deal of his time in studying his re-
lationship with his fellowmen and God,
then I would say he is successful." Thus
declared Rev. J. I. Malloy (Paulist) in
an address delivered yesterday to mem-
bers of the Et. Clerical Co-operative Luncheon
at their meeting held in Freeman's
Hotel. The speaker referred to the ten-
dency to spend so much time in the pur-
suit of pleasure, and mentioned the pop-
ular demand for relaxation for tired
business men, stating that it appeared to
him that many business men spent most
of their time in planning what they are
going to do after office hours. Men and
women, said Father Malloy, are on
pleasure bent and it is destroying the
desired habit of serious thought.
Father Malloy said that he came into
touch with many students, and that
there were two kinds—one kind go to
their lectures, study their text books,
and give attention to all that they are
being taught and eventually write very
good examination papers. The other
kind read their text books, and attend
all the lectures, but pick out the salient
points which they are taught, and they

"DANDERINE"
Grows Thick, Heavy Hair
35-cent Bottle Ends all Dandruff,
Stops Hair Coming Out

Ten minutes after using Danderine you
cannot find a single trace of dandruff or
falling hair and your scalp will not itch,
but what will please you most will be
after a few weeks' use, when you see
new hair, fine and downy at first—yes,
but really new hair—growing all over the
scalp. Danderine is to the hair what
fresh showers of rain and sunshine are to
vegetation. It goes right to the roots,
invigorates and strengthens them, help-
ing the hair to grow long, strong and
luxuriant. One application of Danderine
makes thin, lifeless, colorless hair look
youthfully bright, lustrous, and just
twice as abundant.

"SIX MONTHS AGO"
"It's hard to realize that six
months ago I couldn't walk
across the floor and now
I am so well!"
"I have never been very strong but the
heat last summer was too much for me.
This and the fact that my husband was
out of work and I had to work day and
night to keep from starving, left me a
physical wreck. Luckily my husband
was able to get a good job just when I
had to go to bed. I tried everything I
could think of to get strong, but each
day I seemed to be getting weaker and
weaker. I was reduced to a skeleton, I
couldn't eat or sleep, I had no strength
left and finally I was so weak that I
was trying to cross the floor one day I
collapsed. I was so ill and weak that I
had used it with wonderful results and
as it had done so much for her, I de-
cided to try it. The results were nothing
less than miraculous. In two weeks I
was able to get up and walk about the
house. My appetite had returned. I
was actually hungry. I could sleep when
I went to bed, something I had
not been able to do for months. I have
already taken six bottles of Carnol and
I am still taking it. I weigh more to-
day than I ever weighed before in my
life. I sleep like a child. I am never
tired and my skin is as clear and my
cheeks as rosy as a girl's. Bless the day
I heard about Carnol." Mrs. K. Toronto.
Carnol is sold by your druggist and if
you can not find it, write to us and we
will return your money. 8-22

BETTER THAN HARD COAL
Soft coal so free from soot that it does
not make whiskers on stove covers or pipe
and does not make or cake when burning, is
far better than Hard Coal for general
household use. Quicker to light, takes
less to make a fire, cheaper in price and
can also be used for open fires and
small heating stoves. Such a coal is
Broad Cove soft coal. The main thing is
to insist on getting the genuine article.
No other soft coal burns just like Broad
Cove. You will know it by the above
characteristics. If

in exactly the same as the business man
who gives attention to his business, while
he is away from his office. The business
man, said the speaker, who shuts his
office door and dismisses his office

successful man, but the man who gives
serious thought to his business affairs
after he has left the office is the man who
attains the great heights.
Success will depend upon the fidelity

HYDRO DISTRIBUTION.

It should be reasonably clear to the city council that there is a very strong sentiment in favor of municipal distribution of hydro. There are many citizens not in favor of distribution through any third party, and who feel that time has been wasted because undue prominence was given to the New Brunswick Power Company as a factor in the case. In view of the speech of Premier Foster on the Musquash development, and of what the engineers who planned that development have written, it is perfectly clear that the Ross report should not figure at all in the case. The power will be available, and the cost at the sub-station is known. The only question is that of distribution, and that this should be a municipal enterprise is the view of so many citizens that it should appear there is any disposition at City Hall to give a third party any portion of the benefit which belongs to the people there will be such a protest as has not been heard in St. John for many years. The decision to be made now will affect the industrial growth of St. John for years to come. The people are still waiting for information regarding civic distribution which should have been sought last January and should have been available before the present time.

THE SALVATION ARMY.

From a little booklet telling of the activities of the Salvation Army we learn that it operates in 78 different countries and preaches in 46 languages. Apart from its religious aims it carries on educational, social and philanthropic work. It has 2,500 missionaries in far off lands, conducts 732 day schools, has 28 hospitals and dispensaries, 89 maternity hospitals, 126 children's homes and creches, 116 women's industrial homes, 12,211 corps and outposts, 27,153 officers, cadets and employees, 74,469 local officers who are unpaid, 38,536 bandmen, 35 naval and military homes and 282 shelter and food depots. In twelve months it received 2,101 criminals, of whom 1,658 passed out as satisfactory. Young people's work is very effectively carried on with Sunday schools, boy scouts, girl guards, cadet brigades and other organizations. Of the social work of the Army no man or woman in any city needs to be told. In St. John, for example, there is a maternity home and a hostel for men; a prison work, conducting a labor bureau, giving help to the poor, home visitation, and other activities carried on for the benefit of humanity are well known. We are reminded that it was a French statesman who declared that Gen. Booth belonged to humanity, and the booklet before us contains words of sincere commendation from King George, Lord Alexander, Premier Lloyd George, Queen Byng, President Harding and other eminent Canadians. It is worthy of note that 3,000 children were born last year in Salvation Army maternity homes in Canada, and that many hundreds are cared for in these homes, which are also training schools for nurses. An important branch of the work of the Army, with its world-wide service, is that of finding missing relatives, and some remarkable instances of success in this direction are noted. The Salvation Army is a remarkable example of effective organization for human welfare. Its service during the war was of incalculable benefit, and in times of peace it continues to go steadily forward in the great task not only of saving the young to better things. Such an institution cannot but command the admiration of the world.

LANDLORDS AND CHILDREN.

A bill before the French Chamber of Deputies gladdens the heart of the family man. No longer is the landlord to penalize the tenant who has children. A review of the bill says:— "This French bill calls for the construction of five thousand cheap flats by the government, to be completed in ten years at a cost of seven million francs, the money to be raised by way of a loan. Preference is to be given to workingmen with large families, and the rent is to be reduced in accordance with the number of children." Commenting on this measure the Montreal Gazette observes:— "A man who rears a large family is performing a valuable service to the state, a fact which should not be overlooked, and in fact should be helped in its materialization rather than penalized. Increases in population of a country can be secured by other means than immigration. The altruistic idea behind the French scheme is deserving a favorable consideration, although many of the owners of apartment and other houses will doubtless view the scheme in an entirely different light. Apart from all this, however, the no children idea should be carefully reviewed." There are cities in Canada where legislation of this sort, even if it merely insisted that there must be no prejudice against children, would be very welcome.

THOSE FORESTRY PRIZES.

Commenting on the offer of Mr. Barnjum of Annapolis, printed in the Times this week, the Toronto Globe says:— "The generous prizes, aggregating more than \$2,500, offered by Mr. Frank J. D. Barnjum of Annapolis Royal, N. S., ought to stimulate public interest in the preservation of our forests. Notwithstanding all that has been written on the subject and the measures taken by the different provincial governments, our forest resources are diminishing with alarming rapidity, both from fires and from the failure to reforest more than a negligible portion of the area which is cut over every year. A few far-seeing lumber companies do maintain forestry departments, but their combined efforts at reforestation are so small compared with the vast annual destruction by fire and axe that we are in danger of losing all our forest wealth within a few years. Mr. Barnjum's generous offer might well stir other public-spirited citizens, as well as local governments, to similar efforts for the preservation of our forests."

UTILIZING THE AIR.

Wonders, we are told, will never cease. In the United States just now, and to some extent in Canada, interest is centred on the wonders of radio and the facilities offered to sit in one's own home and hear speeches and music and enjoy other entertainment with the greatest ease and comfort. There are those who assert that the necessary equipment will eventually be provided so cheaply as to bring the new source of pleasure within the reach of all the people. The existing phonograph is not the last word in the realm of wonders in its sphere. But now comes also the aeroplane ambulance, to bring the hospital nearer to the patient and mark a new phase of aerial service to humanity. Dr. Theodore Hough, president of the Association of American Medical Colleges, and dean of the medical school of the University of Virginia, told a medical congress in Chicago the other day that within a short time sick and injured persons would be carried to the hospitals by the air route. Reviewing the progress of recent years Dr. Hough said:— "The last ten years and especially the last five have wrought striking changes in the possibilities of clinics in large hospitals, located in small towns. First among these is the tremendous improvement in transportation to and from the hospitals. Good roads and the auto have revolutionized this aspect of the problem. The hospital ambulance itself can now bring patients, and very sick ones, a distance of twenty-five to fifty miles with less discomfort or danger than a patient could be transported five miles fifteen years ago. We are no longer dependent entirely upon railway service, although this, of course, is still an important means of transportation. Nor do I think I am visionary in looking forward to the day when the ambulance aeroplane will multiply many times the area accessible to the great modern hospitals and render these hospitals in a measure independent of roads and railroad schedules. I hazard that the next decade will see this an accomplished fact. The problem of transportation is practically solved, and in the near future it will be completely solved."

QUEBEC AND INDIA.

The Montreal Gazette passes on this bit of timely and instructive information to Premier Taschereau and the opponents of woman suffrage in Quebec province:— "Despite the attitude of the Taschereau government towards women's franchise it is well to notice that a revolutionary change has just taken place in India in this regard. By a distinctly affirmative majority the legislative assembly has given the women of Bombay and Madras the full vote. Heretofore the provinces of British India, Bombay and Madras, and the native states of Travancore, Tehalwar and Cochin have allowed the local or municipal vote to women on equal terms with men. That gave to women the right of admission to the legislative councils, but the new reform is of much greater importance since women will now be entitled to take part in the elections of the legislative assembly at Delhi." The peculiar situation in Quebec is that women have the federal franchise but not the provincial. This anomaly cannot long persist.

FORREST SOUNDS.

Who, in the pines, may hear low voices raised To chant in suppliant tones? They, who, in sorrow's tranquil eyes, have gazed O'ercome, endured alone.

The joyous whispering of lesser trees Who can interest this? Awakened souls whose inmost sanctities Know Love's revealing kiss.

And lowly vines, the tender clings That dwell amid the sod? For pillowed ear, a carillon pe'er rings, Unlived at peace with God.

—Alma F. McCollum.

LIGHTER VEIN.

Forstalling Curiosity. The visitor—My good woman, do you live in the village? Resident—Ay, sir. Visitor—And I suppose you know everyone here? Resident—Ay, indeed. Visitor—Well, you can just tell them my name is Frederick Smith, and that I come from London, where I am a solicitor. That lady there is my wife, and these are my two children, Thomas and Elizabeth. We are having a holiday and intend staying here a week. We have hired the caravan. Last week we stayed at Invercauld. Resident—Ay, sir, I kept a' that frae me daughter who lives in Invercauld, but she was sadly disappointed because she couldn't tell me what yer wife's name was afore she was married—Punch.

An Important Point. "Ma wants two pounds of butter sackerly like what you sent us last week." "All right, my boy," said the fruicer, quite pleased to have the other customers overhear the remark. "Ma said it was sackerly the same kind," the boy insisted, "cause a lot of pa's relatives are visiting our house an' no doon't want 'em to come again." Boston Transcript.

At Reduced Rates. Splishkins wanted to sell his horse, so he prevailed on the local dealer to come and see the animal. "That's a good horse, Mr. Taylor," Splishkins said to the dealer. "It cost me five hundred pounds, but you shay have it for fifty pounds." The dealer gaped. "That's rather a big reduction, Mr. Splishkins, isn't it?" he asked. "Well," the vendor admitted, "the fact is it bolted one day and killed my poor wife, and now I've no further use for it."—The Winning Post Winter Annual.

HYDRO AND THE CITY ELECTION.

Effect of the Balloting on the Future of St. John.

(Contributed by the Hardware Clerks' Association.) It is becoming evident that the hydro situation will not be cleared up before the civic election has taken place. Delay is still apparently the motto of some, and in this much a case has been made out for the best solution of the problem. Every candidate who expects to meet with success in the coming election, must have a definite municipal ownership of the hydro developed electricity. Those who are opposed to this will not stand on a platform at the present time, but will be elected for commissioners who will be pledged to civic ownership and distribution. A plebiscite at the present time would relieve all candidates of the face of any responsibility, and in that way it might easily happen that the head of the hydro situation will be elected. It is absolutely necessary to have at the head of the hydro affairs men who believe that what has been accomplished in other cities can be accomplished in St. John. The men who are elected must be fairly young men, men of business ability, men of vision and men with a strong determination to make good for our city. The whole future of the city at stake. Under municipal distribution with reduction in rates, and prospects of still further reductions in light and power charges, St. John, with its natural advantages as a centre, both for raw produce and for export, will prosper and expand.

The question of hydro and municipal distribution is a big one, but there are also many other conditions existing today in our city that can well be improved. The citizens of St. John have been stirred to an interest in civic affairs such as has not been reached for many years. They are both willing and anxious for a change in conditions. These changes can only be brought about by the election to city hall of men who are strong enough to take such action as may be necessary. Civic elections which have taken place in recent years have shown an alarming lack of interest in civic affairs and results have been brought about that have not always been to the best interests of the city. The questions that must be decided in the next few weeks are so vital to every citizen that no taxpayer should shirk his responsibility by failing to go to the polls. The right to vote is both a privilege and a duty, and citizens should neither neglect the one nor shirk the other. Let every citizen help to elect men who believe that false economy is not true economy, that procrastination is not wise consideration, and that courage and faith in their city are necessary for progress and prosperity.

SUPREME COURT.

Judge Chandler delivered judgment at Moncton yesterday in the case of Doris Clark of Woodville vs. August Gavrin of Moncton, assessing the damage in favor of the plaintiff at \$3,100, with costs. The action was brought for damages for negligence of the defendant in leaving open an excavation in Church street, Moncton, on August 26, 1920, which the plaintiff, in driving along the street, fell into the hole and broke her left leg. Judge Chandler also delivered judgment in the case of the Record Foundry and Machine Company vs. Frank O. Garson of St. John. It was an action to recover \$1,804.28. The defendant put in a set-off for \$254 and counter claim for \$2,900. The judge sustained the main action in favor of the plaintiff. He disallowed the set-off and allowed \$1,000 on the counter claim, making a net verdict in favor of the plaintiff of \$704.28.

AT ST. PHILIPS.

Among the events at St. Philips church this week, was a very successful supper and sale last evening under the auspices of the Willing Workers Alliance. A good number of members and friends were present and all entered heartily into the enjoyment of the evening. The music furnished by Professor McCallum was a source of great pleasure and the decorations were well received. The pastor and church spoke in complimentary terms of the members of the Willing Workers hitherto and expressed the hope that they will long continue in their good work. The proceeds of the alliance work go to the church funds.

TOOK SECRET TO GRAVE.

Many years ago, in Switzerland, Joseph Fleisser, then a boy, was told by his dying father of a vein of gold-bearing quartz he had discovered somewhere in the Tyrolean Alps. From then on he devoted all his time to the search for the vein. Forty years he spent in the hunt. A few weeks ago the people of the small village of Admont, near the Spara-tfeld range, were startled by the appearance among them, old, ragged and unrecognizable, of a man who had been missing for forty years. He obtained an outfit and insisted on going back to the Tyrolean Alps. He was alone, although warned that it was dangerous at this time of the year. He was acting himself over the edge of a precipice to a ledge 180 feet beneath, where it is believed he had found the gold, when he gave way and he fell and was killed instantly. Nobody has had the hardihood to try to reach the hole and there it lies, presumably guarding the gold for which he sacrificed all his manhood years and his life.

DROWNED IN ST. JOHN RIVER

George Kennedy, of Lower Jemseg, was drowned in the St. John river on Thursday night, while attempting to cross to the mainland from the foot of Musquash Island. Mr. Kennedy had got off the Valley train at McAlpine's landing. Snow was falling and he lost his way. Boys on the mainland heard a boat there was no trace of him to be found. Drugging was carried out but no trace of the body was found. Mr. Kennedy was nearly seventy years of age and is survived by two sisters, Mrs. George B. Nevers of Lower Jemseg and Mrs. Robert MacDonald of MacDonald's Corner, Queens County.

CONVICT PUT IN \$860 BILL

Brought From Prison to Identify, Lived in Hotel Six Weeks.

New York, March 18.—Alfred S. Farrell, former paying teller of the New Utrecht Avenue branch of the Irving National Bank, Brooklyn, now serving a nine-year term in the Federal prison at Atlanta, has presented a bill for \$860 to cover his expenses for six weeks while he remained in Brooklyn under a Federal guard, living at a downtown hotel. He was brought to Brooklyn to testify against John T. Vannata, alleged to have made a fortune as a bootlegger. The bill was presented to United States Marshal James M. Power, who forwarded it to Washington, asking authority to pay it. Farrell was sent to prison for embezzling \$190,000 of the bank's funds, which he was accused of using in bootlegging.

BANKS PREFER NETS OVER BOBBED HAIR

Employment Heads Choose Girls With Long Hair in Filling Jobs.

(New York Post) That New York City banks and trust companies are not planning any drastic campaign against bobbed hair or insisting to pass restrictions regulations as to dress, was the impression gained from talking to employment managers of a number of such institutions today.

These organizations are not welcoming the girl with bobbed hair. In many cases they are not taking her on the staff, but if she bobs her hair after she secures an employe she is not dismissed. The matter of nets over bobbed hair is not to be a general compulsory law, but that there is a preference for nets with short hair is made clear, and in some departments nets are insisted upon by the head of that department who has charge of its personnel.

"We do not intend to insist on any particular type of dress," one employment manager said, "and anything like a uniform would be impossible to insist upon." "We see many things we would like to correct in the costumes of some of our employes, but such things are better approached individually and not taken up as a mass regulation. Many such violations of good taste in dressing arise from ignorance and lack of home training, and example and suggestion from older and more experienced women accomplish the end desired without arousing antagonism.

"After all," he said, "such matters are best regulated in the departments in which they occur. No one tolerates slovenly, untidy or unbecomingly dress in any department, and if a dress is so inappropriate as to be flagrantly noticeable, any department head would rightly object to it. But that is quite different from passing regulations which say, 'thou shalt, or thou shalt not.'"

"We are careful about the appearance of our girls," another firm's employment manager said, "and suggestions and criticisms are made when costumes are inappropriate for any one to pass any definite regulations as to length of hair or dresses. We make it evident that we prefer the girl who does not bob her hair, and equally clear that we prefer nets, but there will be no law about the matter." The general tenor of comment was that there would be no blanket ruling, but that suggestion and advice would be given in as matters of dress and office appearance which in any way offended good taste or business efficiency.

RECENT DEATHS

Miss Elizabeth R. Foster.

The death of Elizabeth Rintoul, eldest daughter of James H. and Elizabeth Foster, occurred on Thursday at her parents' residence, 81 Stanley street, after a lengthy illness. She was nineteen years of age and is survived by her parents, three brothers and three sisters. The brothers are William, Evan and Malcolm, at home and the sisters are Vera, and Ruth, also at home. The funeral took place this afternoon, from her parents' residence. Interment will be in Cedar Hill cemetery.

SUSPECTED OF SUICIDE COMPACT

Man With Slashed Wrist and Woman Shot in Back to be Prosecuted—Both are Recovering.

Freehold, N. J., March 16.—Police here believe a suicide agreement pact was the secret of the mysterious shooting last Monday of Mrs. Viola Gravatt of Ely, N. J., and of the severely slashed wrist of William Feltman of Elizabeth, N. J. Both are recovering and will be accused of attempted suicide, according to the police. The two left their homes five months ago and returned the last of February.

Mrs. Gravatt told Detective John M. Smith that Feltman had shot her because she would not elope with him. The shooting occurred Monday morning in a wood a quarter of a mile from the Gravatt home, according to Mrs. Gravatt. The woman told the police that Feltman telephoned her to meet him in the wood, and proposed an elopement. When she refused, Feltman shot her, she said, the bullet entering her back and passing just under the left lung. Despite her pleas, Feltman refused to give her the revolver, she said, but she obtained it by overpowering him. She then fled to her home, where she is now recovering.

Feltman told the police that Mrs. Gravatt had cut his left wrist as the re-

result of a suicide agreement and had then shot herself. Feltman reached his home at one o'clock Monday and was found in bed two hours later by his mother, his wrist bleeding profusely. Despite his request that he be left alone, his mother summoned a physician, who hurried Feltman to St. Francis' Hospital, Trenton. He told the police that after Mrs. Gravatt had cut his wrist he kept it bound with a handkerchief until he reached home. The handkerchief was found in his bed. The revolver with which Mrs. Gravatt said she had been shot was found in her home.

MEMORIAL FOR DEAD CANADIAN NURSES

Campaign for \$65,000 Begun—Quebec Province Allotment is \$10,000.

(Toronto Globe.)

That a memorial to the Canadian nurses who gave their lives in the Great War, to take the form of a monument, should be erected at Ottawa, was the decision reached at the annual meeting of the Canadian National Association of Nurses held in Quebec last year, and now a campaign is under way to secure the fund is collected. In the appeal it is pointed out that each nurse should accept individual responsibility, with combined effort, in order that the objective may be reached. A point stressed is that the undertaking is too great for a few members, and needs the active support of all nurses in the province. It is desired that all monies shall be in the hands of the provincial treasurer by June 30 next.

In this campaign for funds \$10,000 has been assigned to the province of Quebec, this amount being on the basis of membership of the provincial organization. It is stated that no contracts for the memorial can be agreed on until the fund is collected. In the appeal it is pointed out that each nurse should accept individual responsibility, with combined effort, in order that the objective may be reached. A point stressed is that the undertaking is too great for a few members, and needs the active support of all nurses in the province. and any citizen who would like to show respect and gratefulness for the heroism and loyalty to the cause of freedom and right, made by many sisters who gave their lives. No fewer than forty-six Canadian nurses sacrificed their lives in the late war, and of this number fifteen were drowned when vessels were torpedoed, four were killed outright when the Germans bombed hospitals and two died later of wounds. Seven nurses died on home service. Miss Winifred Bryce, 27 Halton avenue, Westmount, is the treasurer for the province of Quebec.

Advertisement for Woodbury's Facial Soap. Text: 'You, too, can have "A skin you love to touch"'. Description: 'A BEAUTIFUL skin, soft, smooth, faultlessly clear—any girl can have this charm. For your skin is constantly changing—each day old skin dies and new takes its place. Give this new skin the right treatment, and see how soft and lovely you can keep it. If your skin is very sensitive and easily irritated, use each night this special treatment: DIP a soft washcloth in warm water and hold it to your face. Now make a warm water lather of Woodbury's Facial Soap and dip your cloth up and down until the cloth is "fluffy" with the soft, white lather. Rub this lathered cloth gently over your skin until the pores are thoroughly cleansed. Rinse first with warm, then with clear, cool water and dry carefully. THE very first time you use this treatment it will leave your skin with a slightly drawn, tight feeling. Do not regard this as a disadvantage—it is an indication that the treatment is doing you good, for it means that your skin is responding in the right way to this method of cleansing. After a few treatments the drawn feeling will disappear and your skin will gain a new, healthful sense of softness and smoothness. Get a cake of Woodbury's today, at any drug store or toilet goods counter, and begin this treatment tonight. A 25-cent cake of Woodbury's will last for a month or six weeks. The Andrew Jergens Co., Cincinnati, New York, and Perth, Ontario.'

TERRIBLE ECZEMA

Believed Three Years Until She Tried
"FRUIT-A-TIVES."

DAME PETER LAMARE

Palais St. Pierre, P. Q.
"I think it my duty to tell you how much your medicine has done for me. I suffered for three years with terrible eczema. I consulted many doctors and they did not do me any good. Then I used one box of 'Fruit-a-tives' and two boxes of 'Fruit-a-tives' and my hands are now clear. The pain is gone and there has been no return. I think it is a marvelous cure because no other medicine did me any good and I tried all the remedies I ever heard of, without benefit until I used 'Fruit-a-tives' and 'Fruit-a-tives'." "Fruit-a-tives" cooled the blood and removed the cause of the disease, and 'Fruit-a-tives' completed the cure."

TROJANS, 37;
ACADIA, 18;
TWO INJURED

Two players received painful injuries in the basketball match last evening in the Y. W. C. A. Recreational Centre between Acadia's varsity quintette and the Trojans, who took the scalp of the college boys by defeating them 37 to 18. Just before the end of the first half, Leslie Kerr, the Trojan captain and one of the mainstays, bumped his head on a projection from the side wall and severely cut his forehead just over his eye, which necessitated his retirement from the contest. Just before this accident, Brown received a painful crack on his nose but gainedly continued, wearing tape over his injury. It was thought at first that his nose had been broken. Half-time score showed the Trojans leading 27 to 6, but in the shakeup that followed Kerr's withdrawal, the team could only make an even break against the aggressive collegians.

WIFE ROBUST AGAIN;
CLERGYMAN THANKS
INTERNAL BATHING

From grateful women in all parts of America come letters telling of the benefits derived from Internal Bathing with the J. B. L. Cascade.
Thousands of other women, if they could see these letters, would quickly discard the medicine bottle and look to the real cause of their troubles. Ninety-five per cent. of human ills are attributed to accumulated waste in the colon or lower intestine. Warm water, properly used with the J. B. L. Cascade, will remove the cause of your troubles.
A Winnipeg clergyman writes: "My wife is naturally sensitive having her name appear in public print, yet is anxious that others should know what the J. B. L. Cascade has done for her. It has really given her a new lease of life. For years she had been doctoring for constipation, which became worse each year. Since using the J. B. L. Cascade, first about four years ago, she has not been sick a day, and has become robust and strong again. Should any person wish this letter confirmed, you are at liberty to give my name in private."
The J. B. L. Cascade is an invention for internal bathing perfected by Dr. Charles A. Tyrrell of New York. It is shown and explained at E. Clinton Brown, druggist, Union and Waterloo streets; F. W. Munro, 357 Main street, St. John, N. B.

FINE OPPORTUNITY
IN SAINT JOHN

The possibilities of rock gardening in St. John were declared to be very favorable by Mrs. Dunnington-Grubb, lecturer on town planning at the University of Toronto, who addressed the Women's Canadian Club in the Germain Street Baptist Institute yesterday afternoon on the subject of "A Canadian Garden." Mrs. Grubb gave a short sketch of the history of gardening and then exhibited some remarkable slides showing what had been done in transforming unpromising garden plots in Ontario into things of beauty, whose loveliness would increase with the years. Mrs. W. Edmond Raymond, the president, was in the chair and a hearty vote of thanks was extended to the speaker for the giving of O Canada and the national anthem.
In a short business session before the address Mrs. E. C. Weyman was welcomed as a new member. An invitation was read from the National League of Women Voters asking the club to send delegates to the Baltimore Pan-American Convention of Women. Mrs. W. Edmond Raymond was chosen as the club's delegate.
Mrs. Dunnington-Grubb classed styles of gardening under the two heads of formal or architectural and informal, landscape or romantic, and said the most successful gardeners took the best part of both styles and combined them. A garden was primarily a framework for a house and until there was a Canadian style of architecture there could be no Canadian style of gardening. She went on to trace the history of gardening from the early days of ancient Mesopotamia, when gardens surrounded ancient temples partly as a boundary to keep back the sand, partly for the shelter of the priests and to grow flowers for the altars and partly to make the temple attractive to the people. The next steps of the progress of gardening were seen in turn in Egypt, in Greece where they became outdoor schools and theatres—and in Rome, where statuary and fountains were introduced and made formal annual displays. With the fall of the Roman empire, dark days settled down and only in Spain, where the Moors kept art alive, did gardening flourish. Then only monasteries had gardens and these were for growing food, medicinal plants and altar flowers chiefly.
The development of the English Manor House type of garden came to harmonize with the low-lying buildings. In the seventeenth century, when the famous Versailles palace gardens were designed, gardening was its zenith. The topiary so effective in diminutive Dutch gardens, introduced into the large English gardens the time of William and Mary, was overpowering and as a reaction came the extreme of the gardener who "leapt the fence and saw all nature to be a garden" sweeping away hedges and fences and leveling terraces. This was the dawn of landscape gardening but in the first instance it was a pitiable landscape that was the pattern and dead trees and artificial ruins were introduced, giving something almost grotesque. The first form was destined to be abolished but it left something which still lives today.
For the development of a Canadian style of garden would be best, Mrs. Dunnington-Grubb affirmed, to use local material and not to try to grow exotics in a harsh climate. The stones and rocks could be used to great advantage in rock gardens and stones would be found to give better drainage in the spring as well as to preserve moisture in a dry summer.

These Eternal Meals

"WHAT to get for dinner?" "What to get for supper?" To-day, to-morrow, next day, every day in the week.
This is woman's problem and the source of almost endless worry.
True, there are times when most women take a pleasure and pride in cooking and baking, but when you are not feeling up to the mark it does get on your nerves and become a real worry—a nerve-exhausting worry.
Since meals are essential to life, the old problem of "what to eat" must endure, but need not be a worry when your nerves are set right.
It is when you are tired—nerve tired—that such things become a source of worry. There is nothing like Dr. Chase's Nerve Food to combat this condition.
It is because Dr. Chase's Nerve Food is such a help under these very conditions that it has come to be relied upon by the great majority of Canadian women. Headaches, sleeplessness, tired, depressed feelings, lack of energy are some of the accompanying symptoms.
You can obtain Dr. Chase's Nerve Food from your dealer at 50 cents a box.
W. H. White, chairman of the music committee, in honor of his birthday, and Mr. White replied. Refreshments were served and an enjoyable evening spent.

"Don't Believe That Old Humbug About 'Uric Acid' Being the Cause of Rheumatism—It is Not So!"
Empathically asserting that thousands of unfortunate sufferers have been led in to taking wrong treatments under the old and false belief that "URIC ACID" causes rheumatism, Pastor H. W. Reed, says:
"As do some of our highest medical authorities, I also now know that 'Uric Acid' never did and never will cause rheumatism! But it took me many years to find out this truth. I learned how to get rid of my rheumatism, and recover my health and strength through reading 'The Inner Mysteries of Rheumatism,' a work written by an authority who has scientifically studied the causes and treatment of rheumatism and its associated disorders for over twenty years. It was, indeed, a veritable revelation!
I had suffered agony for years from rheumatism and its attendant disorders, and Mrs. Reed was also tortured with the demon Rheumatism, almost beyond endurance. We had read and talked so much about 'Uric Acid' that even our minds seemed poisoned. But the 'Inner Mysteries of Rheumatism' made it all clear to us, and now we are both free from the suffering and misery we endured so many years. I really believe that I was the hardest man in the world to convert. For me to discard the old Uric Acid theory, and what I now know to be absolutely false, for the new, scientific understanding of the cause and cure of rheumatism, was almost like asking me to change my religious beliefs! But I did change, and it was a fortunate day for me and mine when I did so."
Note: "The Inner Mysteries of Rheumatism" referred to above by Pastor Reed lays bare facts about rheumatism and its associate disorders overlooked by many doctors and scientists for centuries past. It is a work that should be in the hands of every man and woman who has the slightest symptoms of rheumatism, neuritis, sciatica, lumbago or gout. Fortunately, anyone who sends name and address to the author, H. P. Clearidge, 225-P Street, Hallowell, Maine, will receive a copy of "The Inner Mysteries of Rheumatism," by mail, postage paid and absolutely free. Readers of this paper should send now let you forget the address! If you are not a sufferer cut out this explanation and hand or mail, it to some afflicted friend or acquaintance.

COALITION WINS
IN CAMBRIDGE
London, March 17—The coalition Unionists won by a plurality of 6,948 in the recent Cambridge by-election against a divided opposition.
The election was for a successor to Sir Eric Geddes, coalition Unionist, former minister of transportation, resigned. The successful candidate was Sir Douglas Newton, who polled 10,887 votes against the Laborite's 6,954 votes and the Independent Liberal's 4,229 votes, it was announced today.
Mr. Estabrooks gave notice of enquiry for Tuesday next as to whether the government was aware that Hon. J. K. Macdonald had regained his health and was now carrying on extensive lumbering operations; also as to whether the province had any claim against and if so, what steps had been taken to collect it.
Mr. Scully introduced a bill to amend the charter of St. John branch of the Victorian Order of Nurses.

MOTHER! OPEN CHILD'S BOWELS
WITH "CALIFORNIA FIG SYRUP"
Even Cross, Feverish, Sick Children Love its Fruity Taste and it cannot Injure Little Stomachs.
Don't let child stay bilious, constipated.

Hurry mother! A teaspoonful of "California Fig Syrup" today may prevent a sick child tomorrow. If your child is constipated, bilious, feverish, fretful, has cold, or if stomach is sour, tongue coated, breath bad, remember a good "physic-laxative" is often all that is necessary.
Genuine "California Fig Syrup" has directions for babies and children printed on the bottle. Say "California" or you may get an imitation fig syrup.

Fredericton, March 17—The debate on the budget was continued today by Lewis Smith, for the opposition, and O. W. Wetmore, for the government. Several private bills were given their first reading, including one in regard to the incorporation of the St. John branch of the Victorian Order of Nurses.
A bill was introduced by Hon. Mr. Foster to amend the Village and Incorporated Towns Act to permit areas smaller than 1,500 acres to be incorporated.
Mr. Foster also introduced a bill to incorporate the St. John and Quebec Railway Trust Company. This company is being formed for the purpose of acting as trustee for the railway and will be under the direct control of the province. Since the Prudential Trust Company retired as trustee, Hon. Mr. Foster, Hon. Mr. Byrne and Hon. Mr. Michaud have been the acting trustees.
Lewis Smith said that revenues had been increased by the Foster administration by the introduction of an amusement tax, wild land tax, fire protection tax and increased corporation taxes, which he said were a burden on the people. While the speaker paid a tribute to Hon. Mr. Meserve for the way in which his department in his opinion Hon. Mr. Roberts was actuated by the highest motives, he criticised the health act and said that conditions in rural districts were not understood. He suggested that the municipal councils should appoint a majority of the members of the boards of health and also should pass upon all bills. The speaker also took exception to the hydro provision being administered by a commission.
Mr. Wetmore, of Kings, in a short speech, praised the department of agriculture for the good it accomplished, especially the aid given to the apple growers of the province. He also endorsed the policy of the government in regard to roads and showed how the secondary roads had been improved to the benefit of the farmer.
Adjournment was moved by D. A. Stewart who will continue the debate on Tuesday.

NORMAL SCHOOL, 9
Rothsaway Collegiate school's basketball team defeated the Normal school team 19 to 9 at Rothsaway yesterday in a regular scheduled game in the Inter-scholastic Basketball League. The work of the Rothsaway basketballers showed considerable improvement over that of the team in previous games. They were better both in combination and in shooting. The game was fast but waxed rather rough in the second period. McGinn and Gillard starred for Normal school, and the work of the defence on the Rothsaway team was outstanding. A.

PLANS FOR THE GOVERNMENT OF PALESTINE

London, Feb. 27.—(Associated Press by Mail)—Provisional plans for the future government of Palestine under the British mandate, which have just been issued, make provision for the appointment of a high commissioner to be known also as commander-in-chief. He is to have power to appoint an executive council to be "constituted in such a manner as may be directed by the British government."

The high commissioner will also be assisted by the Legislative council of twenty-five members. Of these latter, twelve are to be elected and every man in Palestine over twenty-five years old will be entitled to vote.

The high commissioner would be authorized to divide the country into provinces or districts. Three languages, English, Arabic and Hebrew are to be permitted in the debates of the Palestine council, in government offices and law courts.

If any religious community or any considerable section of the population in Palestine should complain that the terms of the mandate were not being fulfilled, it would be entitled to present a memorandum to that effect to the legislative council or the high commissioner, who would be required to forward it to the secretary of state for submission to the League of Nations, "unless the high commissioner gives a written reason to the petitioners for not forwarding it."

WINE FOR PASSOVER

NOT TO BE CURTAILED

Prohibition Director Says More Is Being Released This Year Than Last.

New York, March 18.—Ralph A. Day, prohibition director for New York State, denied a report from Washington that there was to be a curtailment of the withdrawals of sacramental wines for the observance of the Passover by the Jewish people, which begins on the night of April 12. O. H. Greager, chief assistant to Mr. Day, has been placed in charge of the dispensing of the sacramental wines, and he said yesterday that instead of curtailing the supply of sacramental wines the department is more liberal than ever before, and that only one-fourth more wine is being let out.

MAN WHO FORGOT \$25,000 DIES ON AN EARLY TRAIN

Newark, N. J., March 18.—William Gierth, who deposited \$25,000 in the Fidelity Trust Company twelve years ago and forgot all about it until reminded of it recently by a bank clerk, died on an Erie railroad train as it was nearing the Montclair station.

The bank clerk, Ralph Montmer Kurtz, who brought the deposit to Gierth's attention, claimed that he had been promised \$10,000 by Gierth for his work in looking him up. The bank had classed the deposit as a "dead account" when Kurtz found Gierth and the latter immediately brought suit to recover the money. The suit is now pending in Chancery Court.

COMMUNITY CHORUS

See Them Smiling, See Them Smiling, See Them Smiling WHO?

—THE MOTHERS who used to make slaves of themselves by doing the family wash, but now turn this burden over to us. They know the clothes will be washed clean in seven changes of water and pure soap. They know the day they will be returned. They know the charge is only one dollar for 35 lbs of clothes, and if you wish 50 cents more will dry them. Make this a City of Smiles.

FATHERS, MOTHERS, BROTHERS and SISTERS who have tried our NEW MODERN METHOD of FRENCH DRY CLEANING. No wonder they smile when they realize a clean, sterilized garment will not carry disease. It looks better, feels better and wears from 30 to 60 per cent longer. Money Saved is Money Earned. Make this a City of Smiles.

THE WHOLE FAMILY SMILES since starting to use this department. The joke is on the neighbors. They thought Dad had gone broke buying new clothes, but Dad chuckles because he knows they only cost a few dollars. Why? Because we DYED THE NEW SPRING CLOTHES for the whole family. LOCAL NEWS

BOYS IN LEAD
There were thirty births in the city during the week, made up of seventeen boys and thirteen girls. Eight marriages were performed during the week.

VALINDA RIGHT AGAIN
The Bay steamer Valinda, which was sunk in the Annapolis river last fall, and which was raised and towed to Bear River, has completed repairs at the Benson shipyards there. She has made a trial run and is deemed ready for business again.

HERE NEXT MONTH
The secretary of the Board of Trade has been advised that G. A. R. Emery, junior trade commissioner of the department of Trade and Commerce, left Ottawa yesterday on a tour of the many time provinces and Newfoundland. He will be in St. John about April 17.

SEVENTEEN DEATHS
There were seventeen deaths in the city during the week from the following causes:—Pneumonia and broncho-pneumonia, three each; nephritis, two; senility, convulsions, meningitis, carcinoma of stomach, malignancy of bowel, acute indigestion, senile gangrene, extradural abscess and gangrene of foot, one each.

MRS. ROBERT OSBORNE.
Many friends in this city will regret to hear of the sudden death of Mrs. Robert Osborne, which occurred on Sunday, March 12, at her home in Boston. She was a daughter of the late Michael Slavin of St. John, and had resided here for many years. Mrs. Osborne is survived by her husband, two sons and two daughters, her mother, Mrs. Ellen Slavin, two brothers, Louis and Joseph; and two sisters, Mrs. Agnes Wilson and Mrs. John Kerrigan, all residing in the United States. She also leaves an aunt, Mrs. Ann Campbell, and a cousin, Mrs. John Furness, both of St. John.

NORTH END W. C. T. U.
The annual meeting of the North End branch of the W. C. T. U. was held in the library, Union Hall, with the president, Mrs. Wright, in the chair. The report of the year's work showed much done among the needy during the winter, especially at Christmas. Clothing was made for the children and sent to the Provincial Memorial Home; also bags of candy for their use. The treasurer, Mrs. Eagles, reported the union to be in a very good condition financially. The election of officers resulted as follows: Mrs. A. H. Wright, president; Mrs. H. Bonnell, recording secretary; Mrs. J. S. Eagles, treasurer. The vice-presidents and superintendents are as before.

ALEXANDER MORRISON.
After several months illness Alexander Morrison passed away at his residence, 827 Princess street, this morning. He leaves to mourn a loving wife, four sons and three daughters. The sons are M. J. Morrison, East St. John; C. G. and D. R. A. of this city and W. M. of Yorkton, Sask. The daughters: Mrs. E. G. McAfee of this city; Mrs. W. H. Johnston of Rochester, N. Y.; and Miss Mary at home. There are nine grandchildren and one brother, Donald of Whyocomb, C. B. Mr. Morrison was the eldest son of the late Murdoch Morrison and Jane Ross, and was born at West Bay, C. B., on June 9, 1849. He was a man of sterling Christian character, loved by all who knew him and an elder in Knox Church. In the St. John Presbyterian church he was active in Sabbath school work and was at one time superintendent.

J. B. HALKETT, BORN HERE, IS DEAD IN OTTAWA

He was One of the Founders of the Independent Order of Foresters.

A Canadian Press despatch says that James B. Halkett, one of the organizers of the Independent Order of Foresters in Ottawa died yesterday. He, in company with the late Edward Bottoll, and Dr. Oronhyatekha, helped to organize the order in 1910 after having served vice-chief ranger. For eleven years he was high secretary of the court of Ontario, besides holding offices in the Ottawa court.

From the time of confederation till 1920, Mr. Halkett was connected with the department of marine and fisheries. He retired in 1910 after having served under every administration since confederation. Mr. Halkett was born in St. John, seventy-six years ago, but resided in Ottawa more than half a century. He was first married there in 1875 to Miss Ann Wheatley, who died in 1877, and a second time in 1880 to Miss Isabel Lightbody, who still survives, along with four sons and three daughters. The sons are: James B. Halkett, Moose Jaw; Gordon Halkett of Victoria, B. C.; Captain Norman M. Halkett, M. D., M. C., of the C. A. M. C., St. John's, Que., and the daughters: Sister Isabel of the Sisters of St. John the Divine, Toronto, and Mrs. Leroy Henry and Miss Marie Halkett, both of Ottawa. Andrew Halkett, dominion naturalist of the department of marine and fisheries, is a brother. Two sisters reside in Edinburgh, Scotland.

AGAIN SCORED SUCCESS.
Another capacity house witnessed the production of "All The Comforts of Home" in the St. Vincent's Auditorium last evening by the dramatic committee of the Young Men's Catholic Institute in aid of the Catholic orphans. It is estimated that more than 400 people were turned away, unable to get seats, and this after some 200 chairs had been placed in the rear of the stationary seats in the hall. The show, which is a four act comedy, made even a bigger hit than it did on its first presentation on Thursday evening. The work of the leading players, as well as that of the mysterious "up stairs lodger," who was heard but not seen, was commented upon particularly. Vocal specialties between the acts were given by little Miss Garnett and W. J. Melody, both of which were well received. Mr. Melody repeated a dainty Irish song, written and composed by Mary E. Macaulay, of this city, which he sang at the opening performance. Miss Donahue's dancing of the Irish lit was a novelty introduced last evening and was well received.

GAME PRESERVE FOR PROVINCE

Proposal of L. B. Knight, a Former Game Commissioner.

Extend from St. John to St. Croix and Comprise Between 300,000 and 400,000 Acres—Should Attract a Large Tourist Travel and be of Value to the City and Province.

The suggestion of the creation of a game and fish preserve in the southern section of the province, which was first brought forth by L. B. Knight, of New River, when he was game commissioner of the province, has been revived by that gentleman, who is now in the city. Mr. Knight, in conversation with a Times reporter, outlined the scheme which he had in mind and which he said the government had looked upon favorably.

The Project.
Mr. Knight's scheme calls for the setting aside of all the crown land area lying between St. John and the St. Croix river, bounded by the C. P. R. line from St. John to Vanceboro, the St. Croix river and the Shore Line branch of the C. P. R., making in all between 400,000 and 600,000 acres. This section is plentifully filled with game and is intersected from the sea by six rivers and innumerable smaller streams and lakes which abound in fish. It is his suggestion to convert the area into a large natural park for the preservation of the fish and game. He has outlined his views to Premier Foster, who he says has assured him that the government will do all it can to assist.

Twenty years ago, Mr. Knight said, he made the same proposition to the then existing government but no action was taken. Since that time a couple of thousand acres of green timberland has been destroyed which might have been saved had his plan been adopted. **Form an Association.**
Mr. Knight's plan is to form an association with a managing board of directors and place the preserve under a superintendent who shall devote all his time looking after it. As fast as possible, club houses might be built at various places in the park and put under the direction of competent guides, who would look after the welfare of any visitors who might come to the preserve looking for a few days' sport. He said that there was no intention to confine the privileges of the area to association members only, but he thought that those entering it to fish or hunt should be compelled to get a permit, so that control could be kept of those entering it, as a matter of protection for the woods, the game and the fish.

The initial cost of the scheme, he said, would be comparatively light as the material for club houses, etc., was right at hand. The chief item of expense for the first few years would be the protection of the area.

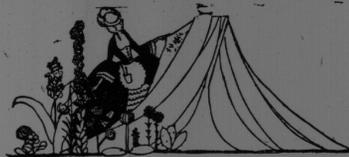

Possible Benefits.
Besides the protection of the timber on government lands, Mr. Knight was of the opinion that the scheme would prove a great benefit to the province and particularly St. John city in the attraction of tourists. Twenty years ago, Mr. Knight said, \$2,000,000 a year was spent by visiting tourists in the State of Maine; in the next ten years this was increased to some \$18,000,000 and information received recently from the state department was to the effect that between 300,000 and 400,000 people visit the state annually and spend approximately \$40,000,000 a year. If our proposition would attract even one-quarter of that amount in the first four years, Mr. Knight said, "it would mean a great benefit to the business people in this vicinity and the association would be in a position to start the construction of roads through the proposed park, which would enable an even greater number of people to take advantage of what was being offered in the line of sport." He thought that the business people, the hotel proprietors and the railway and steamship companies here should realize what an attraction the scheme should be.

It was argued by some, he said, that the present time was not opportune. He pointed out that the hydro development at Musquash had created two new rivers through the area making access by boat possible for ten miles from the coast. He said that within the next few weeks, the country in that vicinity would be particularly dry and it would not take a great deal to start a fire which would destroy great quantities of the valuable timber lands—of particular value now on the watersheds that will assist in the creation of electrical energy. He thought that now was the time to get the thing started—to get the association together, put the proposition up to the government, and if they concur, to proceed at once. If it was not desired that the scheme should be adopted in its entirety now, he thought that the preliminary arrangements should be made, to ensure that when times were more opportune, the area would then be as desirable as it is today.

Mr. Knight was the first game commissioner for the province and it was under his supervision that the foundation for the present game laws was laid. He held office until the election of the Hazen government.

NEW IRISH STAMPS

Probably the first Irish Free State postage stamp to reach Montreal made its appearance on St. Patrick's Day. It arrived on a letter to the steamship traffic department of the Canadian Pacific. The letter, which was posted at Cork, referred to the recent announcement that Belfast was to be a regular port of call on the west bound trips of the C. P. steamers between Glasgow and Canada. This new service will be inaugurated by the S. S. "Tunisian" She will leave Belfast on March 23 and will call at Belfast the following morning. If local conditions warrant it, Belfast will also be a regular port of call for the "Metagama" and "Corsican." The new Irish stamps are the current issue of the British postage series, except that they are surcharged with the Gaelic words: "Niallas Sealdic na h'Eireann, 1922," or "Provincial Government of Ireland, 1922." An announcement in a Dublin newspaper states that the postmaster-general of the Irish Free State invites designs for stamps to supersede those now issued.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

BEAUTIFUL HEIRESS ELOPES WITH HER HANDSOME, ATHLETIC CHAUFFEUR

Gives Up Fortune and High Social Position to Become Wife of Poor Man—Society Aghast, Gossipers Busy.

Mr. and Mrs. Tom Maguire, the Chauffeur and His Bride, Dodging Newspaper Cameras.

Giving up fortune and position to become the wife of a poor man, Iris van Suidam has admitted that she married her chauffeur, Tom Maguire, last Saturday night. It will be remembered that only a few weeks ago Miss van Suidam's fiancé, Richard Prentiss, the well known clubman and millionaire, eloped with the daughter of his washerwoman.

"I love Tom, that explains everything," said the former queen of the four hundred today. "He is a real man, and that is what any girl wants, whether she be rich or poor. I will try and make a good wife to him." When interviewed,

Mrs. Maguire was engaged in cooking her first dinner in a tiny little apartment in Harlem. The couple will be forced to live on the husband's earnings, as the van Suidam fortune is in control of the bride's uncle, who has disinherited her for what he considers her rash marriage.

The sequel to this remarkable elopement is fully set out in Cecil B. DeMille's superb Paramount picture, "Saturday Night," which will be the feature at the Imperial Theatre Monday and Tuesday. It is said to be one of the strongest picture productions of the year. Leatrice Joy has the role of Iris van Suidam and Jack Mower is the chauffeur.

MINE OWNERS SAY THAT PAY MUST BE LOWER

New York, March 18.—Anthracite operators noted a deflation in the cost of production, and today reduced their "margin of safety" to ten days by deciding to delay their first session until next Tuesday.

DORCHESTER STREET FIRE

A fire, causing damage estimated at about \$3,000, broke out some time before eleven o'clock this morning at 92 Dorchester street, owned by Mrs. J. MacRae and occupied by Mrs. Mary Parlee and several roomers. The rooms most damaged were in the kitchen and the dining-room ceiling on the ground floor, a bedroom and bathroom on the second and two bedrooms on the third floor.

Other rooms suffered some damage from smoke and water. A little damage was done to the wainscot of the house next door, also owned by Mrs. MacRae and occupied by E. E. Blair and family. Entry was made through the front door, from the back and through one of the windows on the side of the house and three streams of hose and the chemical hose soon were at work quenching the flames.

Mr. MacRae said today that he thought the damage to the property would amount to about \$3,000, which amount would be about covered by his insurance. It is understood Mrs. Parlee had about \$1,000 insurance on her furniture.

CHILDREN'S WARD IS OPENED AT COUNTY HOSPITAL

Matron Speaks of Need of Toys and Games for the Little Ones.

The old nurses' home at the St. John County hospital has been transformed into a children's ward and the hospital kiddies moved into it this morning. Ten bedrooms and a sitting room have been converted into two large rooms, one for boys and one for girls, with folding doors. In the mornings these doors are opened making a single room so that all the children may be present at class conducted under the auspices of the I. O. D. E. by Miss Doris Woodrow.

The new ward is in the back of the hospital, the side towards the south-east, and gets a great deal of sun and fresh air, as well as a clear view of the country towards Little River. Both rooms have been decorated with appropriate designs in stencil over the buff and brown tinted walls. In the case of the boys room these stencils are of boats, lighthouses and similar scenes while in the girls' ward an attractive display of bluebirds is shown.

Each of the new wards is as large as the former children's ward and it is estimated that they will accommodate about ten children each. There are at present in the ward nine boys and six girls, while several are expected next week.

The former ward will probably be used for older boys.

Miss Hall, the matron, said this morning that the main difficulty with the children now was to keep their time occupied and that there was a need of toys and games suitable for them.

Viscount Peel New Secretary For India

By-Election Is Avoided by This Choice—New Secretary is Chancellor of Duchy of Lancaster—A Unionist.

(Canadian Press Cable.) London, March 18.—Viscount Peel, former under secretary of the war and secretary of the Duchy of Lancaster in the present ministry, has been appointed secretary of state for India, succeeding Edwin S. Montagu, who resigned last week.

The Earl of Derby declined the appointment, and the Duke of Devonshire and others mentioned, including the Earl of Crawford, were likewise eliminated.

Viscount Peel is a member of the House of Lords, and his appointment is in line with the forecast that Premier Lloyd George was likely to replace Mr. Montagu by a peer so that another by-election might be avoided.

Viscount Peel is a Unionist. Born in 1867, he was educated at Harrow and Oxford and was called to the bar in 1893. He was war correspondent for the London Daily Telegraph during the war in 1897. Before succeeding to the viscountcy in 1912 he served several years as member of parliament for Manchester and Taunton. During the war he was joint parliamentary secretary for the national service department, in 1919 was appointed under secretary and vice-president of the air council. He was named Chancellor of the Duchy of Lancaster when the Lloyd George ministry was reconstituted last April.

SETTLEMENT IN HOWARD CASE

(Special to Times) Fredericton, N. B., March 18.—In the habeas corpus proceedings before Mr. Justice Barry, brought by A. W. Howard of New York, against his wife, Mrs. Emma Howard, of New York, and Mr. and Mrs. Harry Deakin, of Benton, Carleton county, in connection with the detention of Barbara D. Howard, his daughter, aged eleven years, an unexpected development occurred today when a settlement was practically reached. It is understood that the settlement was given decision this morning, adjourned until this afternoon.

It was said that Captain Howard has agreed to permit his wife to have the custody of the child on condition that she is kept in New York, where action for separation between parents and also for her custody now is pending. His objection was to the removal of his daughter from New York to Benton.

PLAYED IN FREDERICTON.

Members of the cast which recently presented the drama "Kick In" in St. Vincent's auditorium, under the auspices of the Knights of Columbus, Fredericton, where they repeated their play yesterday afternoon and evening. The play was presented in the evening at the Grand Hotel, and attracted capacity houses. Last evening the cast were guests at a reception tendered them by the A. O. H.

ACCIDENT

Allan J. Wheaton, of 109 Water street, West Side, was taken to the General Public Hospital this morning, suffering from a cut sustained while working in a saw mill. It was necessary to amputate three fingers. A Vesicerto was taken to the hospital about noon with a foot badly crushed and cut. It was said that he was a railway employe and was hurt by a train. It is feared that his foot will have to be amputated.

POLICE COURT

At the request of W. M. Ryan, counsel for the defence, the case against Archie MacNeill and Walter Sproul, charged with the sale of a quantity of morphine, was postponed until Monday morning at 11:30 o'clock. E. J. Henneberry appeared for the prosecution.

A case against Hum Sek and Hum Woo, charged with violating the opium act, was continued this morning. E. S. Ritchie appeared for the defence. A Dominion policeman testified that he had visited the premises of Hum Sek on the day after the arrest and found a pipe, a lamp and scales. The case was postponed until Wednesday afternoon.

Two juveniles pleaded guilty to charges of theft of express carts from two places on Wednesday. They said they had gone out about nine o'clock in the evening and taken the carts to have a ride.

SALES TODAY.

Shaw and Mrs. Bertram Smith.

The Philathea class of Victoria street Baptist church held a very successful pantry sale this morning in the Cherrylet Saia Co.'s show room in Main street. Those in charge were Miss Elizabeth Wacine and Miss Beulah Watts.

IMPRESSIONS OF THE ROTARY CONFERENCE

Moncton Sets a New Standard—Two Days of Inspiration and Pleasure.

Moncton has set a new standard for Rotary district conferences. The conference at St. John last year was remarkably successful, but Moncton did better. In the first place, St. John has no such building as the splendid new Pythian Hall, where the meetings were held and the informal dance of Thursday evening staged; and, in the second place, St. John has no such place for quick catering to a large assembly as is found in the social hall of the First Baptist church, where the refreshments were served. Given these advantages, the whole-hearted welcome extended by Moncton Rotarians and citizens was that which was needed to make every visitor enjoy every minute of the two days' session. St. John and Halifax Rotarians heartily award to Moncton the credit of setting such a standard for future conferences as will put either of these other cities to a severe test. As a convention city, Moncton is distinctly on the map.

As to the conference itself, with about a hundred visiting Rotarians from St. Stephen, St. John, Halifax, Sydney, Charlottetown, St. John's, Nfld., and half as many ladies, added to the Moncton Rotarians and ladies, there was a registration well above two hundred. On arrival, each visitor received a booklet giving full information as to the conference programme, extending to all Rotarians the courtesies of the Moncton City Club, and including the programme for the informal dance. Everything was informal, and the spirit of good-fellowship which is so characteristic of Rotary was always manifest. The hearty singing, the quick play of wit, the unexpected incidents and little surprises, the provoked merriment, went hand in hand with serious consideration of matters gravely affecting human life and conduct. The key notes of the conference were struck by District Governor R. D. Paterson, in an opening address described later by a Halifax Rotarian as the finest exposition of Rotary he had ever heard. The address of Rev. Father Tompkins on Education for All the People, with special reference to the Golden Rule in Business, Section of Halifax and representatives of various clubs led in discussions of the features of Rotary work. From the time when President Spencer of the Moncton club and Mayor Edgett extended welcome to the visitors on Thursday morning until the closing of the conference last night there was not a dull moment, and if there was great enjoyment there was also inspiration in addresses which set forth the ethics of Rotary and revealed the opportunities for putting into practice the motto: Service above self.

On Friday the visiting ladies were entertained at lunch by the Moncton ladies. On Thursday the Rotarians and ladies all lunched together, and the ladies were also free to attend all sessions of the conference. The Moncton ladies left nothing undone to contribute to the comfort and pleasure of the visiting ladies.

A feature of the banquet on Thursday evening was an address by J. Thors-Johnston, the brilliant Nova Scotian who helped to inaugurate Rotary in Australia and New Zealand last year. His subject was: What They Saw in Rotary, and his story of his experiences in the island commonwealths was one of absorbing interest. At the different luncheons different clubs led the singing, which was a delightful feature of the whole conference. The informal dance on Thursday evening saw the large hall of the Pythian building crowded with dancers, a fine orchestra providing the music, and the dance continuing till after midnight.

Features of the conference were the tributes paid to retiring District Governor Paterson, who goes out of office in June after a year of remarkably successful work, in which time was no factor when there was work to do; the great welcome extended to his successor, Walter S. Grant of Charlottetown, and the brief talk to him by Vice-President Stark by way of initiation into his new and exacting office. And when the conference ended, Rotarians and ladies clasped hands and sang:—

"Now we come to the end of these Rotary days, Which should long remain in our thoughts, And so we each go our separate ways With the joy that these days have brought; For Rotary means service at work and play, And friendships that never fade, And we grasp at the end of these Rotary days The hands of the friends we've made."

MONTREAL STOCK MARKET.

Montreal, March 18.—(10:30)—Steel of Canada again featured the early trading this morning, displaying more strength by ascending from its close at 62 which represented a gain of five points to 65-1/2. Other leaders were quiet but firm.

Nova Scotian Aged 105.

Shelburne, N. S., March 18.—William Rush, believed to be the oldest man in Nova Scotia yesterday celebrated his 105th birthday at his home Jordan Ferry. He is in a remarkable state of health for a man of his age. In the federal elections in December he went to the polls and voted for Hon. W. S. Fielding.

POINTS OUT WAY TO PROSPERITY

Businesslike Methods of Marketing Will Help Farmers, Says Mr. Sapiro.

(Toronto Globe.)

Systematic and business like marketing of Ontario's farm products, instead of mere seasonal dumping, will bring prosperity to the farmers, improve farm living conditions, keep the boys and girls on the farms, and ultimately benefit the whole citizenship, declared Aaron Sapiro, of San Francisco, at a members' luncheon and reception at the parliament buildings yesterday, tendered by the Ontario Department of Agriculture.

Mr. Sapiro, who is one of the most outstanding men in the co-operative marketing of agricultural products in the United States, pumped into his subject with a directness and tone of enthusiasm which impressed his remarks upon all who heard him. Hon. Manning Doherty introduced him, and Sir Robert Falconer and Prof. J. B. Reynolds, president of the Ontario Agricultural College, moved and seconded the vote of thanks.

Should Adopt Business Principles.

While undoubtedly there were fields in which the government could be of effective assistance in improving the farmers' lot, such as instruction in co-operative marketing and improving the quality of farm products, the only effective solution, he said, lay in the hands of the farmers themselves. In essence the solution was for the farmer to adopt in his selling activities the ordinary business principles of the merchant, and extend his markets not only chronologically, but geographically.

In opening, Mr. Sapiro called attention to miserable conditions of farm home life existing in some of the more backward states of the American Union. Farm living conditions in some localities, he declared, were actually two and three generations behind home life in the urban centres. Quite seriously he declared that tenantry was increasing so rapidly in American farm life that the United States is getting as near to the feudal as it can in this country.

"The farmer," he said, "has spent all his time on production; has spent all his energy on thought on producing the things out of the ground, and when it has come to the one point where he converts his produce into things he can buy, he just throws his wares on the market and takes what anybody will give him. The result is that men leave the farms, because they do not make enough money to enable them to buy a decent standard of living.

Backward in Co-operation.

"The United States and Canada," he said, "are the most backward countries in the world in co-operative marketing of farm products, and the United States is even worse than Canada." He went on to tell of what California had accomplished in the face of difficulties greater than those confronting Ontario farmers, and pointed out that Denmark, because of its nation-wide co-operative marketing of farm products, had established itself as the most prosperous agricultural state in the world. "And its chief customer," he added, "is England, on the very things that you raise in Ontario."

California, he said, had struggled through the experimental stage of co-operative marketing, spending scores of millions of dollars because it had not governmental guidance, until it had emerged as handling co-operatively more than \$300,000,000 worth of products a year without one cent of speculation or control other than that of the farmers themselves. In 1920 and 1921, he said, 80 per cent of the California farmers had made profits.

The farmers had been able to retain, instead of eight cents, as formerly,

the grower some chance of credit for ordinary marketing. More Money in Wheat. With co-operative marketing, the speaker said, he saw no reason why Canada should not realize more than \$50,000,000 or \$60,000,000 additional from her wheat. There was no mystery about the principle which lost money for the farmer on his wheat and cheese and other products. He simply sold on a glutted market, and did, in most cases, because he could not hold his products over until there was a consumers' demand. Before concluding, Mr. Sapiro paid a compliment to the ability of Hon. Manning Doherty, minister of agriculture for Ontario. He was as far advanced in co-operative marketing, he said, as any man to whom he had talked in state life in the United States. Walter P. Dawes, of St. John, federal inland revenue officer, and Inspectors Barbour and Hayward of the Prince Edward Island provincial police have seized Arthur Champion at Darnley (P. E. I.) Champion was arrested as was Peter Power on charges of making moonshine whiskey.

DUNLOP TIRES. Ensure HIGH-MILEAGE—DOUBLE-LIFE. Dunlop leadership in Tiredom is most manifest. Mileage records almost unbelievable are piling up all over Canada. The Special Mileage-Making Process, which is the basis of our Fabric Tires, has worked wonders. Perfect shape and balance, stronger side walls to resist curb and rut abuse, special wear-resisting anti-skid tread, etc., add the last touch to popularizing to the full a tire that has long stood in high favor. Dunlop "Cords" made good from their inception. These tires taught motorists to expect more resiliency, greater air space, larger amount of material, better carrying capacity—in short, bigger mileage; and that is the standard by which all Cord Tires are judged to-day. forty-eight cents of the consumer's dollar expended on farm products. Grover Breaks Market. "It is not the speculator who breaks the markets," declared Mr. Sapiro, amid applause. "It is the growers who throw their products into the market against each other until the market gets more than it can absorb, and begins to sag, and later collapses. The speculator buyer stands on the outside. It is the grower who breaks the market, not the speculator."

Mr. Sapiro said that co-operative in his state wanted the government to compel them to keep their products up to a standard of quality. Going on to tell of the impression quality will make, he said that California recently had sold 6,700 cases of eggs in England under the nose of Denmark. "We have broken your hold on the English apple market," he declared, "although you claim you grow better apples."

"Hear, hear!" from some members of the audience. "Maybe you do," went on the speaker, smilingly, "but we sell ours where you don't sell yours."

He went on to tell of the benefits the California growers found in advertising their products in the newspapers and magazines. For perishables especially, he declared, the daily newspaper was the great medium. They spent \$2,000,000 annually in accumulative advertising campaigns.

Everybody Helping. Mr. Sapiro declared that the community and nation builders of today were the men who would take hold of co-operative marketing on behalf of the farmers. Merchants, doctors, newspapermen and bankers, he said, swung in behind a campaign in California because they realized the benefits of such a system to town and farm life. It was done, he said, and should be done, without appeals to bitterness and without appeals to class feeling. "Just adopt straight merchandising methods," he declared, "and you make agriculture a business instead of a gamble."

"We think the worst thing that can happen," he declared, "is to have the government guarantee our prices. We

SALWEEN, MYSTERY RIVER OF THIBET

(Toronto Globe)

Nearly two thousand miles, but navigable only for a hundred miles, the Salween River of the forbidden country of Tibet, in Central Asia, has been the inspiration of many interesting traditions and is still a source of mystery, even among unimaginative geographers. The following facts about that mighty stream are given in *The Sphere* (London):

A Useless Waterway.

To man the Salween is almost useless, for, although it is nearly 2,000 miles in length, it is navigable for barely a hundred miles from its mouth! This is a very remarkable fact; it means that the Salween flows through mountainous country from its source to its mouth, but the slope of its bed is everywhere steep, and that it is almost continuously broken by rapids. Nowhere does the river meander pleasantly across plains; it has built up no delta. From the time it leaves the Tibetan plateau to within a hundred miles of the sea, it rolls through a succession of terrific gorges, and for a distance of over 800 miles the extreme breadth of its basin does not exceed sixty miles! For a hundred miles its valley is but twenty miles across! But these figures, wonderful as they are, convey no idea of the romance and fascination of the Salween. It rises far up in Tibet beyond the great turquoise lake called Tengri Nor, among snowy mountains. Thence for several hundred miles it flows eastward before bending round to flow due south. Of this bend nothing is known, but from the 80th parallel to the 15th, where it enters the Bay of Bengal by Monumdin in Burmah, its course is fairly well known. Perhaps the most interesting portion of the river is in the middle of its course, where it flows out from the Tibetan gorges into the Chinese territory.

An Abrupt Change of Climate.

There is an abrupt change of climate here, the cold, hazy gorges of eastern Tibet giving place to a monsoon region where palms and bamboos grow and rice is cultivated. The valley, too, opens out a little in sympathy. The climate, however, is warm and moist, and fever is so prevalent that the Chinese are unable to live here. This part of the valley is inhabited by the redoubtable Lislo crossbow men, and, further south, by Shans, remnants of a once mighty race. During the heavy summer rains it is impossible to induce the Chinese muleteers to cross this dreaded death trap, lying as it does 3,000 to 4,000 feet below the general level of the Yunnan plateau, but during the dry winter months thousands of mules go backwards and forwards over the chain

suspension bridge which spans the river where the high road of Yunnan crosses it. According to Chinese tradition, five colored mists—blue, yellow, red, black and white—are visible in the Salween Valley during the summer, and a monstrous fish inhabits the river and drags down anyone rash enough to bathe in it. This last is, perhaps, symbolical of cramp, which may be expected to attack anyone who ventures into the dangerous Salween waters. This reminds one of the Tibetan idea of a poisonous exhalation from the ground at the tops of the high passes, being their way of accounting for the mysterious phenomenon of mountain sickness. ume and great length of the river. This is easily accounted for by the narrowness of the valley and the steepness of its sides. In summer, when all the torrents are spouting water and the snows and glaciers are melting away up in Tibet, the river is a grand sight; the turbid flood comes rolling down, and roars over the boulders with a noise like thunder. But in winter, when the iron grip of an implacable frost has chained up the torrents, the clear water, full forty feet below its summer level, flows more placidly.

Gorges 21,000 Feet Deep.
One thing more. Attention must be drawn to that remarkable belt of country between China and Tibet, where, over a distance of 100 miles, four of the big rivers of Asia flow close to and parallel to one another. This belt nowhere exceeds a hundred miles, and at its narrowest is only seventy miles in breadth; so that, although the river gorges are separated by snow-created rock walls rising to 21,000 feet above sea level, it is possible to cross all four rivers in less

COWAN'S COOKERY COLUMN

Cocoa Reception Cakes

3/4 cup butter
1 cup sugar
1/2 cup milk
1/2 teaspoon vanilla
1 1/2 cups flour-salt
3 teaspoons baking powder
3 tablespoons Cowan's Cocoa
1/2 teaspoon cinnamon

Method: Cream butter, add sugar gradually. Mix and sift dry ingredients 3 times. Add well beaten egg yolks to butter and sugar. Add mixed and sifted dry ingredients alternately with milk, add flavor. Fold in whites of eggs beaten until stiff and dry. Turn into small cake tins, being careful not to fill each one more than two-thirds. Bake 35 minutes in a moderate oven. When cool, dip in cocoa frosting and roll in chopped peanuts. Cakes may be baked in shallow pan, and when cool cut in fancy shapes.

COWAN'S Perfection Cocoa comes packed in tins and thus retains its delicious flavor.

than ten days' marching. That is to say, these rivers, namely, the Irrawaddy of Burmah, the Salween, Mekong and Yangtze rivers, flow in gorges two and a quarter miles deep, separated at one place by walls only about fifteen miles thick and four miles high. Where else in the world is so remarkable a sight as these four great rivers rustling down from the Tibetan plateau through the breach torn in the Himalaya Mountains?

PLAN SURVEY OF THE PUBLIC SCHOOL SYSTEM

The general interests committee of the Presbyterian maritime province synod which met in Halifax on Thursday, appointed a committee to make a survey of the public school systems of the maritime provinces and present a report in the autumn. The object of the survey will be to test the efficiency of the system of education and to find out to what extent it is meeting the demands of the people and also to discover whether there are many children of school age who are in isolated districts and not reached by any school.

Rev. J. A. MacKeigan, who has been spending some days visiting at his former home in Cape Breton, was present at the committee meeting in Halifax and returned to St. John yesterday. He said

Why Not 8% and ---Safety

THE old idea that safety accompanied a low rate of interest has long been put in the discard.

During the past 7 or 8 years, with banking facilities strained to the limit under abnormal demands,

borrowers in the AAA class (Bradstreet's highest rating) have been obliged-compelled by circumstances beyond their control-to pay rates of interest without precedent.

Bankers today tell us that money is working easier-THIS IS YOUR OPPORTUNITY to assure yourself a high interest return for a long period of years,

with a large margin of safety, by investing in the 8% convertible debentures of The Mount Royal Hotel Company, Limited,

They rolled a total of 1187.

ST. JOHN MAN KNOCKED OUT.

Sydney, N. S., March 17—John Alex McIntyre, of Sydney, knocked out Joe Irvine, of St. John in the eighth round of what was to have been a ten round bout here tonight. The G. W. V. A. hall was crowded and considerable money changed hands on the result.

DUNDIE WINS.

New York, March 17—Johnny Dundee of New York was given the judges' decision over Charlie White of Chicago at the end of their fifteen round bout in Madison Square Garden tonight. Both are lightweights. Dundee forced the fighting from the start, White being content to stand back and use his left to ward off the Italian's stung several times by the Chicago boy's left hooks and jabs

kept coming in for more. He frequently bounced off the ropes and sent lefts and rights to White's body. White seemed bewildered by the Italian's ring tactics.

Twelve Rounds.

Canton, Ohio, March 18—Dave Shade, Pacific coast welterweight, won a newspaper decision over Jimmy Jones, of Alliance, in a twelve round bout here last night.

A Fatality.

Omaha, Neb., March 18—Terry O'Malley of Omaha, died last night soon after being knocked out by Ray Carter in a preliminary match. Doctors declared that a blow on the neck had cut off O'Malley's wind.

Decision For Moore.

Louisville, Ky., March 18—Pal Moore of Memphis, was given the decision over Tommy Ryan, of McKeesport, Pa., at the end of a 12-round bout here last night.

Horses and Whiskey.

Buffalo, N. Y., March 18—Fifteen race horses, en route from Waterloo, Ontario, to Maryland, were seized by federal officials when several cases of whiskey were found in the cars in which the horses are being shipped. The horses are owned by the Seagraves, who also own a distillery at Waterloo, Ontario.

William Bringle, trainer, who was in charge of the horses, was arrested on a charge of unlawfully importing liquor. He was released on \$1,000 bond for a hearing. At his arraignment Bringle told the federal commissioner that it was necessary to give race horses whiskey as a part of their training.

Stake Increased.

Baltimore, March 18—At a meeting of the board of directors of the Maryland Jockey Club yesterday the sum of \$10,000 was added to the Preakness stake, making a total of \$80,000. The owner of the winning horse will receive \$40,000 and the starters' fees. For each horse sent to the post the owner must pay \$15,000. About fifteen are expected to start. The Preakness and the Kentucky Derby will be run on the same day, May 15.

CURLING.

Play at Hampton.

The best ice of the season was the verdict of the Hampton curlers who turned out last evening and celebrated St. Patrick's Day by playing twelve ends. One of their oldest members said he could not recall another game so late in the year as March 17. The ice is so good that arrangements are being made today to have two rinks come from Moncton for a match game this evening.

BASKETBALL.

Byng Girls Off to Sackville.

The Byng girls, champions of the Senior Girls' City Basketball League, left this morning for Sackville, where they will play the Mount Allison girls this evening. Those making the trip were: Misses Dorothy Lowe, Edna Hunt, Gladys Smith, Marguerite Adams, Lucy Smith and Mrs. P. B. Cross. They were accompanied by Miss Littlefield, Y. W. C. A. physical instructor.

HOCKEY.

Vancouver Wins First Game.

Vancouver hockey team, champions of the Pacific Coast League, last evening defeated the St. Patrick's team of Toronto, winners of the N. H. A. by a score of 4 to 3 in the first of a series of games for the Stanley cup, emblematic of the championship of the world. The game was played in Toronto before a record crowd.

FOR JUNIOR TROPHY.

Three of the local teams entered for the Wallace Nesbit junior trophy offered by the St. John Ambulance Association for first aid, were examined in the Church of England institute last night by Dr. S. Skinner. All three teams were Boy Scout teams and the boys made a good showing. The interest is daily growing keener. The teams examined last night were as follows: St. Andrew's scouts, Kenneth Plumpton, Norman Smith, Everett Robinson, Kenneth Steele and Gordon Lundin; Edith Avenue scouts, Kenneth Franklin, Clyde Chandler, Leslie Banks, Clarence Taylor and Roy Carton; Fourteenth Victoria street Baptist scouts, H. A. Flewelling, George Hudson, Walter Webster, Bertam Macauley and Vernon Watters.

BULLET PIERCED JACKET OF STEEL

Man Probably Fatally Injured When a Fake Hold-up was Staged.

New York, March 18—Pierpont Potter, 38 years old, donned a "bullet proof" vest and told his friend and business associate, Edward McGrath, to "fire away." McGrath pulled the trigger of a revolver and a bullet entered Potter's abdomen. He is dying in Broad street hospital.

The shooting took place at a demonstration by Potter and McGrath, who are in the sales department of the United States Armor Corporation. A fake hold-up was staged. Potter fastened the vest around his neck and chest. It fitted snugly. The vest is composed of six steel plates, which overlap like the slats of a shutter and are covered with canvas.

Potter took a position in the centre of the floor. "Let's go Mac," he said. McGrath started toward his friend. When he was within two feet of Potter he whipped out the revolver and called: "Hands up." "Fire away," said Potter as he threw up his hands.

McGrath fired. Potter sank to the floor from a bullet wound in the abdomen. How the bullet came to penetrate his body is not known. It was thought that perhaps one of the steel slats had been left unsecured or that Potter, through nervousness, had expanded his chest and caused two of the steel plates to part.

When McGrath was taken to Potter's bedside Potter touched his friend's hand. Tears rolled down their cheeks. "I'm sorry," sobbed McGrath. "It was an accident, Mac," weakly replied Potter.

NORRIS TENDERS HIS RESIGNATION

Winnipeg, March 17—Premier T. C. Norris tendered the resignation of the provincial government to the lieutenant-governor, Sir James Aikins, this afternoon. No action was taken by his honor, who said he would think over the situation and announce tomorrow the course he is adopting.

GERMAN JOURNALS VERGING ON RUIN

Convention of Publishers at Weimar Express Their Grievances.

Berlin, March 18—The German newspaper publishers' association, assembled in extraordinary session at Weimar, uttered a unanimous cry for help, with the assertion that the German newspaper business is on the verge of financial and economic ruin.

Despite the alleged purely nominal free economic system, the German press in reality is exposed to the ruthless price dictatorship of syndicates. The newspaper publishers complain. They are particularly embittered against the print paper syndicate, and say that although last January the prices of print paper were boosted 8,500 per cent. over the pre-war price, print paper soon will be raised to 6,000 per cent.

The publishers have another grievance, namely, that the state regards newspaper advertising as a luxury, and claims a special 15 per cent. tax thereon. The publishers stated that bankruptcy and mortality of the German press continues high, and an increasing number of newspapers must be expected to go by the board overnight. Agents and representatives of sinister German capitalist interests, and a still more sinister "foreign power," are scouring Germany, offering to buy up newspapers, big and little.

The publishers painted a vivid picture of the German press being sold into the slavery of foreign capital, and demanded of the government an absolute expert prohibition for print paper and wood pulp until the domestic prices come down. They demanded, further, the strictest government measures against being delivered, bound and gagged, into the tender mercies of the wood, coal, paper and ink monopolies, and in addition the abolition of the luxury tax on newspaper advertising.

SEIZED ON EVE OF TWELFTH WEDDING

Prisoner is Accused of Marrying 11 Women—Could Not Remember Their Names.

Indianapolis, Ind., March 18—Isiah Moore's twelfth marriage was to have taken place in Minneapolis this week, according to local authorities who arrested the man on a charge of bigamy and embezzlement. Moore is alleged to have had several aliases, among them being George S. Melrose.

Moore was arrested on a charge of embezzlement preferred by his last wife, Harriet Evans, a Hoosier school teacher, and his eleventh bride, Moore, it was said, deserted her after they had been married less than a week.

Miss Evans said when Moore deserted her she reported the case to a national detective association which traced "George Melrose," the name under which he married her, to Lovensport, Ind., and then back to Indianapolis, where he was arrested.

According to the story Moore told the police he proposed to several Indianapolis women since his arrival here last week.

Of the eleven girls he said he married he could not remember the last names of two.

BOY CHOPS OFF SEVEN CAT'S TAILS

Had Been Sent Out by His Teacher to Get Cattails for Botany Class.

Huntingdon, W. Va., March 18—"Go out and get some cattails," a teacher at Ensign School instructed in a botany class. A 14-year-old lad turned up today with the bloody tails of seven house cats, "I chopped 'em off with a hatchet," he said, with some pride.

The teacher fainted. The juvenile court authorities are investigating the case.

IN LONDON 72,000 DEPENDENT ON OLD AGE ALLOWANCES

London, Feb. 27—(Associated Press, by Mail)—More than 72,000 persons in London are dependent on the old age allowance, according to figures just announced. In addition about 10,000 septuagenarians are in workhouses or hospitals, receiving free medical treatment and clothing, or under the care of the guardians.

More than two-thirds of the old-age pensioners are women. The totals show a considerable decrease from 1914, although there is a marked increase in the number of women.

A maximum of ten shillings weekly is granted under the pension act. The minimum is one shilling a week. An income of 250 a year disqualifies from the pension benefits.

Few, if any, destitute people are nowadays allowed to spend the night in the open. From 1914, when hundreds of homeless Londoners slept nightly on staircases and under arches, the figure has declined to an odd case here and there.

RICH OFFICE BOY DISMISSED.

Jimmy Sanford Must Get Another Job or Lose \$350,000.

Syracuse, March 18—Jimmy Sanford, son of a wealthy turfman, William Sanford, has lost his \$14-a-week office-boy job with a local typewriter manufacturing company.

"I'm fired because they wanted to give the job to somebody that needed the money," he explained.

So, once more Jimmy is on the hunt for a job and in the meantime is forced to fall back on his \$2,000-a-year allowance to pay his bills at the expensive hotel where he continues to live. By the terms of his father's will, he must work two years before he can come into his \$350,000 inheritance.

HUSTON CONFIDENT YANKS WILL REPEAT

Returns from Spring Training Camp Highly Pleased With Work of Players.

New York, March 17.—Colonel T. L. Huston, one of the owners of the New York Yankees, just home after a visit with the team at New Orleans, is full of confidence that he and his partners, Colonel Jacob Ruppert, are the proprietors of a combination that is destined to be the possessor of its second championship by the time October rolls around.

ICE CREAM DAYS Soon Be Here

Even now, in the warm afternoons, when the winter clothing seems so heavy, nothing like a dish of pure COUNTRY CLUB ICE CREAM made by PACIFIC DAIRIES, LIMITED "Pioneers in Pasteurization" St. John.

in the work of some of the recruits. Out field problems occasioned by the enforced absence in early season of Babe Ruth and Bob Meusel did not seem to be weighing heavily upon Colonel Huston's mind.

"In the outfield that will start the season," said the colonel, "present appearances are that Chick Fawcett will be patrolling the left garden and Elmer Miller taking care of centre, with two recruits, Hinky Haines and Camp Skinner fighting it out for the guardianship of the right field domain. I was greatly impressed with the work of these two youngsters. Both are right-handed batters and want a hefty mallet. It wouldn't surprise me in the least if one or the other of them obtained the right field berth at the start of the season. If neither of them makes good we may have to take Wally Schang from behind the bat and place him in the outfield.

"Incidentally, Chickew Fawcett never looked spryer or fitter in his life than he looks right now. I believe he will fulfill all the promise he gave before he was injured.

Haines and Skinner, to whom the colonel refers in such complimentary terms, have come to the Yankees from Hartford of the Eastern League and Dallas of the Texas League, respectively, the former having been repurchased from Hartford.

Colonel Huston was asked as to the influences that were at work to alter the original decision to include a \$500 home-run bonus in Babe Ruth's contract.

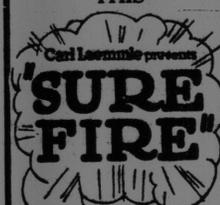

"While we were jockeying for terms in the Hot Springs conference," he explained, "all sorts of ways and means were taken into consideration by way of adjusting the differences in the Babe's figures and ours. Among these means of reaching an agreement, the idea of a \$500 bonus for each home run was discussed. No final agreement was reached, but the proposition appealed favorably to both for the time being, and the understanding then was that the bonus would be included in the contract. At New Orleans, it was agreed on all sides after further discussion, that a flat figure, omitting all bonuses, was the fairest for all concerned.

In figuring out the pennant chances of the Yankees, Colonel Huston made an interesting computation. He added up the games won and lost last season by his five leading twirlers, Mays, Hoyt, Bush, Jones and Shawkey. The five of them won 108 games and lost fifty-six for a percentage of .618. "Not a bad augury," quoth the colonel. "I think we're going to get very close to the 100 mark in the victory column this season, even though we may not pass it."

Of the new pitchers, George Murray caught Colonel Huston's fancy most of all. Murray, like McMillan, the infielder, was repurchased from Rochester, and their work in New Orleans, according to the colonel, reflects high credit upon the Rochester tutelage of George Stallings. Murray is a right-hander with a world of speed, a good break to his curves and good control.

BECAUSE THIS BIG-HEARTED FELLOW stopped to help a little Chinese slum-child he was caught by the police. Then to save his sweetheart he proved himself a man. The very finest bit of acting Mr. Barrymore has ever done before the camera. A story with a misleading title, for it is not a western yarn but a powerful and edifying fiction of an ering chap who made good and sacrificed himself. One of those photoplays in which you get a happy surprise.

to be held at the Armories from Monday, April 8, until Saturday, April 15, the largest and most representative exhibition of Motor Cars and Accessories ever given in any province east of Montreal. Every square inch of space in the immense drill hall will be given over to the exhibits which will be double the number of those in any previous motor show in this province.

APRIL 3 TO 8 will be big days for car owners and motor enthusiasts, days full of specially interesting features. A special programme is being arranged for each day. You can't afford to miss it. Secure your tickets early.

Gentlemen, 50c.; Ladies, 25c. Arranged by the St. John Automobile Trade Association, Limited, under the Management of the Commercial Club, St. John.

LADIES INSPECT BAKERY. Through the courtesy of the Messrs. Dwyer a large number of ladies on Thursday evening were shown through the beautifully kept and up-to-date bakeries under their management. It was an experience well worth the journey to Bentley street. Cake, delicious in flavor, was passed to each of those present and the ladies of the Catholic Women's Guild who were guests of Messrs. Dwyer on that evening were grateful to them for the invitation to be present at one of the "bakings."

CIVIL SERVANTS PRESENT REQUEST

Ottawa, March 17—Representatives of 16,000 organized civil servants led by J. C. O'Connor, president of the civil service federation of Canada, placed their requests for salary revision instead of the bonus, a superannuation measure, and the establishment of Whitley councils in the service before the prime minister today.

CANADIAN UNION BILL ADOPTED

Quebec, March 17—The debate in the Smart motion calling for compulsory incorporation of labor unions in the province of Quebec, was brought to a close in the legislative assembly this afternoon when the house by a vote of 34 to 4 carried the following motion, proposed by Edward Robert, member for Rouville, in amendment to the Smart motion:

"That this house, recognizing that the Canadian workers are one of the sanest elements of our population, invites the labor organizations of this province to give themselves a constitution which will be essentially Canadian and to continue to co-operate in the industrial development of the provinces in an orderly manner and with respect to our laws."

ANTI-KU KLUX SOCIETY IS ORGANIZED IN OKLAHOMA

Healdton, Okla., March 18—An anti-Ku Klux Klan organization, known as the Knights of the Visible Empire, has been formed here.

John Hyde, one of the organizers, announced that the purpose of the society "is to protest against mob rule, as exemplified in the teachings of the Ku Klux Klan." Hyde is a local attorney.

"There is not one line in the constitution that cannot be approved by every liberty-loving, law-abiding citizen," Mr. Hyde said.

"We pledge allegiance to the law of the land, and ask only that the laws be enforced by those empowered to enforce them. We will work bareheaded in the sunshine, not masked at midnight."

Newfoundland Loan

Toronto, March 17—A syndicate comprising Dominion Securities, Limited, Toronto; Dillon, Read & Co., of New York, and Lee, Higginson, of Boston, has acquired a \$6,000,000 bond issue of the Newfoundland government carrying 5 1/2 per cent for twenty years duration and payable in New York funds. The price paid was \$6,768 United States currency, the cost to the ancient colony being 5.59 per cent on New York basis. Figuring the Canadian dollar cost on a four per cent premium, the cost works out at about 5.28 per cent and the price received approximately 102 3/4.

WEYMOUTH TAR BABY WINNER

Huntingdon, W. Va., March 17—Sam Langford, of Boston, knocked out Cy-clone Smith, of Denver, in the second round of a scheduled ten-round bout here tonight. They are heavyweights. The prize winners in the lotteries held in connection with the recent rose tea of the St. John sub-division of the Catholic Women's League, as determined by the drawings held last evening in Rosary hall, were as follows: Robert Burke, a fruit cake; Mrs. Richard Sullivan, \$5; Mrs. W. P. McDonald, a ham; Miss A. McGuinness, a half barrel of flour.

SMALL MYSTERY PROBED AGAIN

Toronto, March 17—Arthur Weatherup, barber, and Mrs. Ambrose Small, wife of the missing theatrical magnate, were under examination by the detectives today concerning the sworn statement of Weatherup and the missing man's watch. Weatherup shaved Small the day he disappeared more than two years ago and declares that Small that day produced a certain watch which was subsequently found among the latter's effects at his residence. The question is, did Small go home before he disappeared or was his office the last place he is known to have visited. The latter is the theory generally accepted up to date. Mrs. Small says her husband had many watches and that the one seen by Weatherup was probably not the one found in the house.

SEVERAL SIGNS OF SPRING.

(St. Croix Courier.) Picking Mayflowers in the winter time seems like a fish story, but if the proof of the pudding is in the eating, so also is the proof of the Mayflowers in seeing them, as picked by Richard F. Kinnett on Sunday last, March 12, the earliest date that Mayflowers have been picked in these parts. While in a field in Queens ward last Sunday a young son of Osborne Mitchell captured a live grasshopper, the first of the season. The ice ran out of the river during Tuesday night and the days since then have been bright and fairly balmy, giving cause to believe that spring is here, no matter what the almanacs say about it.

SLIGHT OBSERVANCE OF ST. PATRICK'S DAY IN ULSTER

Belfast, March 17—Ulster today had an entirely blank St. Patrick's Day so far as celebrations were concerned. Shamrocks wearing was the sole sign of recognition of the day, apart from it being a bank and school holidays, and the fact that services were held in all the Catholic and some of the Protestant churches. Political tension was regarded as entirely responsible for this failure to universally celebrate the traditional Irish holiday.

SAYS LINK'S THREAT NOTHING BUT JOKE

Hamilton, Ont., March 17—M. J. O'Reilly, K.C., legal advisor for the Sisters of St. Joseph, today treated as a joke William Link's alleged threat to bring legal action to compel his daughter's return to him and to make her become a Protestant. "Absurd," he said.

"The girl is over eighteen years of age and therefore a free agent to choose where, how and with whom she shall live and what her career shall be. And there is no law to compel a person to change his or her religion. They have been trying to do that all down through the ages by laws and persecution and have failed. The case is closed as far as we are concerned." Use the Want Ad. Way

One Year of Republican Rule. When a "rock-ribbed" Republican organ, reviewing the record of the first year since its party returned to power in all branches of the Government, avers that "this Congress is the worst we have had for twenty years," and asks despairingly "of what avail is a wise President and a strong Cabinet if it is their misfortune to be blocked in many directions by a recalcitrant Congress?" its criticism arrests attention. "Congress," the Boston Transcript continues, "is the liability of the Republican party today, President and his Cabinet its great asset." The Republican Manchester Union declares that "it is daily becoming more apparent that President Harding, much as he may dislike it, must take down from the wall the Big Stick which, since the Fourth of March, one year ago, has been accumulating dust, and begin to brandish it over the head of Congress, if so palpably headless a body may be said to have a head." Congress, with its overwhelming majorities in both Houses, this New Hampshire paper goes on to say, "gummed up the tax revision programme," "man-handled the whole tariff revision question," and made a "nauseating spectacle" of itself in its handling of the bonus problem. The general tendency of the American Press is to blame Congress rather than the President for any disappointment that the year has brought forth. The Democratic characterization of the present Congress as "a do-nothing Congress" was answered by Senator Lodge with the statement that, "I know I am speaking within bounds when I say that no Congress in time of peace has ever shown such an amount of important, effective, and remedial legislation as has been enacted by the present Congress since it has been in session." Continuing, he said, "More was done by the Conference for the world's peace in twelve weeks than has been done anywhere else in twice as many years." THE LITERARY DIGEST this week, March 18th, publishes as its leading article a summary of newspaper opinion throughout the country upon the record of the first year of Republican administration. The articles give all angles of thought upon the subject. Other striking news-features in this week's DIGEST are:
