PRICE TWO CENTS.

LOCOMOTIVE EXPLODES AT NEWBURY "BOB" RUTHERFORD INSTANTLY KILLED

Fireman Robertson of London Fatally Injured.

Suffered Awful Agony and Cannot Recover.

Cause of Accident Is at Present Unknown—Engine Complete Wreck.

Engineer Robert Rutherford, of 774 King street, was killed and Fireman J. Robertson, of 424 Ontario street, was fatally injured by the explosion of the boiler of engine No. 446, on the Grand Trunk, two miles east of Newbury at 11:04 o'clock last night.

The passengers and other members of the crew escaped without injury. The cause of the explosion is unknown.

No. 26 is the local running from Windsor to London. Last evening Engineer Rutherford took the train out, and at Chatham the special car of the Dominion railway commissioners was attached. The train sped on towards the city. Everything seemed to be running all right, but when two miles east of Newbury the boiler of the locomotive blew up with a terrific report.

Engineer Instantly Killed.

Engineer Rutherford was hurled from the wreck, and almost instantly killed. Fireman Robertson was also thrown into the debris and badly shaken, up and scalded.

Robertson's Injuries.

Robertson's injuries are fearful. He is scalded from head to foot. When his clothing was removed, the skin from his body came with it, and it was with the utmost difficulty that the doctors in attendance could do anything with him. He suffered the intensest agony. His back is literally cooked, and his extremities are fearfully burned. The doctors hold out no hope at all for his recovery.

The passengers were badly frightened by the explosion, but were not otherwise injured. The shock was very great, the detonation being heard at a long distance.

Three ladies in the passenger coaches were given a very bad scare, and were hysterical.

As the train came to the sudden stop the passengers hurried out to give assistance to the engineer and his fireman.

Rutherford was dead when found, while Robertson was suffering great pain.

Word was wired to St. Thomas, and the wrecker was sent out from that city. The officers here were informed of the accident, but did not send the wrecker from here, as that division is under the superintendent at St. Thomas.

Medical Special.

Superintendent Gillen was in the city last night, and as soon as he heard of the accident he ordered a medical special to be sent immediately to the scene of the wreck. This special was on the road shortly after the message came, and took the Grand Trunk physicians, Drs. Drake and Seabrook, to the scene of the accident.

There were many rumors concerning the accident shortly after midnight. It was reported that No. 26 had jumped the track, and that many were killed. Considerable anxiety was occasioned thereby.

Thirteen Passengers.

The passenger list was not large, as there were only thirteen people in the coaches at the time of the accident, the railway officials say.

In addition there was the Dominion railway commissioners' special, containing Dr. James Mills, Hon. A. G. Killiam and Hon. N. E. Bernier.

Traffic was not long delayed. The track was torn up for some distance, but none of the cars were derailed. The passengers were taken to Glenora, and the medical special from London took them on their way.

Cause Unknown.

The cause of the explosion is not known. As far as can be learned the engine had been running a good many years, but was always considered safe. It was of the 400 class, one of the most serviceable engines in the Grand Trunk service.

The explosion is causing a great deal of anxiety among railroad men, as this is the second engine to explode with fatal results lately.

A Wabash engine at Simcoe blew up a month ago, killing a couple of men.

The Grand Trunk will institute a rigid inquiry into the matter in order to determine the cause of these explosions.

The fact that the railway commissioners were at hand at the time of the accident places the question more forcibly under their notice.

Wreck Complete.

The wreck of the engine is complete, according to the statement of those who saw it. The plating and side steel is warped and twisted into an infinitude of shapes, and the whole upper works of the engine is completely gone. The under mechanism is also completely destroyed and only a big pile of junk remains. Portions of the machinery were thrown great distances.

The Dead Engineer.

Engineer "Bob" Rutherford, as he was known among his associates, was one of the best known drivers on the road. He was one of the oldest employed on the Grand Trunk, having

Passengers Terribly Frightened When the Engine Boiler Exploded

Londoners and Others Relate Their Experiences to The Advertiser.

Further details of the explosion at Newbury are coming out slowly, but as yet there is no further light on the great question of the cause of it, as both of the men who could tell something of the accident will never tell anything about it.

Engineer Rutherford is dead, and Fireman Robertson is in a hopeless condition, under the influence of opiates in Victoria Hospital.

He is fearfully scalded and injured internally, and Dr. Drake this morning said that he would hardly live the day out. What happened during the interval between Glenora and Newbury prior to the explosion will never be known. That would be of immense value in determining the cause. The rest is left to conjecture.

The Officials.

The officials of the road will not divulge any information regarding the question. They say they have no information on the accident and can only conjecture the cause of it.

"It may have been that the water gauge was plugged, and it did not register the exact amount of water in the boiler," said an old railroad man this morning, "and cold water was then turned into it. This would cause

an explosion. It often happens that the water in the boiler will run very low, but most firemen and engineers will take the fire and let her cool out before putting any water in the boiler. It is better to have a dead engine than run any risks of explosion. Both Engineer Rutherford and Fireman Robertson were experienced men, and would probably do that. There may have been other causes. So you see a man does not know anything about it. There may be some defect that had just come to light. Only a thorough investigation will determine the cause."

Some Experiences.

Passengers on the train tell some interesting experiences. There was no warning of the accident. First there was the violent explosion, then a considerable cracking and breaking, and the train gradually came to a stop. The women on the train became very much frightened, and screamed terribly. The men on board, prominent among whom were the Dominion railway commissioners, Chairman Killiam, Dr. Mills and Hon. Mr. Bernier, immediately got out to investigate. They assisted the unfortunate railway men, and got them out of the wreckage. Not a scratch was received by the passengers, although some received a nervous shock.

Baggage Car Derailed.

The cars were not wrecked. The front truck of the baggage car was Continued on Page Eight.

15,000 PERISH BY EARTHQUAKE

Taskhand, Russian Turkestan, Oct. 30.—The whole of the town of Karatagh in Beekhara was destroyed, and the entire population, numbering about 15,000 persons, was buried by a mountain slide following the recent earthquake there.

Karatagh is 100 miles southeast of Samarkand in Russian Turkestan. Where severe earthquake shocks occurred, Oct. 21, causing a great deal of damage. At Samarkand only two women were killed by falling houses though the people in alarm fled from their dwellings and camped out in the streets and other places.

On Oct. 21 the weather bureau at Washington announced that its instruments recorded an earthquake beginning at 11 o'clock the previous night and lasting until early in the morning of Oct. 21. Its origin was believed to have been at a point west of Australia in the Southern Indian Ocean.

The same day London announced that prolonged earthquake shocks beginning at 5 o'clock in the morning of Oct. 21 and lasting for several hours had been reported on the instrument on the Isle of Wight and at Leihach, Austria. The distance of the disturbances were at those points estimated as being over 2,000 miles from the observatories which recorded them.

A London Man in a Peculiar Mix-Up

A Detroit dispatch says: Mrs. Jordan Pickell, 233 Brandon avenue, Detroit, is charged by her husband with having transferred her affections from himself to her stepson, Herbert Pickell.

Mrs. Pickell was married to Jordan Pickell. Herbert's father, nine years ago in London, Ont., her maiden name being Anna Smith. He is 45; she 35. She has a boy seven years old. For the past few years they have been

living in Detroit. Jordan, being employed of late as night watchman for the Michigan Central Railway.

Herbert was discharged, but Justice Stein advised him to leave his father's home, where he has been boarding. Mrs. Pickell and Herbert went away from court together, leaving Jordan behind.

Mr. Pickell was until 1899 an employee of the London Street Railway Company.

He made it a practice not to be interviewed by the press, on this occasion he would have to depart from that rule, and say that there was not one word of truth in the report. He had not asked Sir Frederick to resign and, therefore, there could be no refusal. Sir Frederick is now in Nova Scotia.

SIR F. BORDEN NOT ASKED TO QUIT PREMIER DENIES WORLD YARN

[Special to The Advertiser.]

Ottawa, Oct. 30.—Sir Wilfrid Laurier was asked by your correspondent this morning if there was any truth in the Ottawa dispatch to the Toronto World that Sir Frederick Borden was asked to resign his portfolio and refused to do so. The Premier said, that while

he made it a practice not to be interviewed by the press, on this occasion he would have to depart from that rule, and say that there was not one word of truth in the report. He had not asked Sir Frederick to resign and, therefore, there could be no refusal. Sir Frederick is now in Nova Scotia.

How Noah Spends His Time in Jail

In prison life one often finds traits of human nature not found elsewhere, but it is a rare occurrence for a man accused of murder to become the pet of such an institution.

And yet, according to the statement of Gov. Carter, of the county jail, Thomas Noah, accused of murdering a fellow Indian named Fox, is at present the most popular man in the place, and his popularity, in so far as his jail conduct is concerned, seems to be well deserved.

It was stated at the jail that Noah was one of the most highly educated prisoners that ever found his way inside the place. He is a gentleman, and his visitors are of the most select sort.

Inasmuch as it is against the regulations

to work a man not sentenced, Noah has to content himself with reading and writing letters. His handwriting is said to be excellent, and his taste for books runs from Shakespeare to the latest fiction.

Noah, or "Little Tommy," as he is known at the jail, is the most unconcerned person in the world, and he is apparently enjoying life to its utmost.

Mr. Carter stated that the other prisoners would do anything in their power for Noah, who entertains them in the evening with a guitar, upon which he is very proficient.

In the meantime Noah's lawyer, Mr. E. Meredith, is securing the county to find the witnesses who were missing at the last assizes, when the case was held over on account of their absence.

A Syrian Peddler to Be Deported

There is some criticism of the action of Police Magistrate Smyth, of Parkhill, in sentencing the Syrian peddler, Peter Agrush, to six months in the Central prison.

It is not argued that the penalty is too severe, but the fact that the man is violently insane leads people to believe that steps should have been taken to place him in an asylum.

The peddler was recently convicted of forcing a little cripple girl to buy goods that she did not want, and of then refusing to give her any change from a five-dollar bill.

Since being placed in the jail he has howled and shrieked to be freed, and

FELL ON STREET HEAD BADLY CUT

Accident to a St. Thomas Man in London—Taken to Hospital.

A sewing machine tinker giving his name as James Vansickle, and his home as St. Thomas, met with a painful accident in London this morning. He was walking up Richmond street opposite McCormick's grocery when he collapsed and fell against a rig belonging to McCormick's, the side of his face striking the hub of the wheel.

Vansickle received a bad cut across his temple and ear, the wound being fully three inches long, and very deep. Part of his ear was cut through. He was found lying on the road by passers-by, and taken into a store. P. C. Down called an ambulance and the patient was taken to Victoria Hospital where Dr. Tassard dressed his injuries temporarily.

It is not thought that his injuries will be serious.

BURIED BY COLLAPSE

One Man Killed and Many Injured in Port Arthur Disaster.

Port Arthur, Oct. 29.—Without a moment's warning Mayor Clavet's new flour and feed warehouse collapsed about 5:30 this evening, burying nine mill men in the debris, one of whom, an unknown foreigner, was killed. Five others, including Charles Waltz, a plumber, were seriously injured, Waltz having a leg broken. Prompt work of hundreds of citizens in the rescue no doubt prevented other fatalities.

SYDNEY MURRY, Eight-Year-Old Lad, Who Traveled From London, Eng.

LIBERALS WIN IN WELLINGTON

Martin Elected by Good Majority—Conservatives Carry East Northumberland.

Mount Forest, Oct. 29.—By a majority of almost four hundred, Mr. Martin, Liberal, has been returned as member of the Dominion House of Commons for North Wellington. The victory is a decisive one, for the Liberal majority has increased by about one hundred over what it was when in 1904 Mr. Thomas Martin, the late member, a brother of the newly-elected representative, defeated Mr. J. McDowen by 308. All through the riding there has been a strong feeling among Conservatives as well as Liberals that Mr. Martin should have been allowed to succeed to the seat rendered vacant by his brother's death without opposition for the remaining term of the present Parliament.

This feeling found decided expression in Mount Forest, where Mr. Martin obtained a majority of 157, as compared with that of 58 in the last election. The Liberals in Mount Forest turned out solid, but the result mentioned could not have been obtained had not a very fair sprinkling of Conservatives recorded their votes in favor of the Liberal candidate. In Mount Forest a similar expression of opinion was given. Mr. Martin's majority being 180, as against that of 127 gained by his brother in 1904. Peel also gave an increased majority of about 65.

The details as far as received follow:

Martin's Majorities.

Arthur Township 93
Minto 180
Bellwood Village 20
Drayton 3
Mount Forest 157
Peel 100

Hamilton's Majorities.

West Luther Township 2
West Garafax 52
Maryboro 3
Harristown 52
Palmerston 52

East Northumberland.

Campbellford, Oct. 29.—The election in East Northumberland will fill the seat left vacant by the death of the late Conservative member, Mr. Edward Cochrane, was held today, and resulted in the election by the majority of 256 of the Conservative candidate, Mr. C. L. Owens. The Liberal candidate was Major Mulholland. Both candidates are residents of Campbellford. The town of Campbellford furnished the bulk of Mr. Owens' majority, Campbellford giving a majority of 84 and Seymour a majority of 93 for the Conservative candidate.

The case of Frederick Phillips, which was to have been heard this morning at the police court, was not proceeded with for the simple reason that Mr. Phillips has left town.

Some time ago Mrs. Phillips had her husband arrested for being drunk and disorderly, and he was ordered by the court to stay away from her house in future and contribute so much a week for her support. This Phillips

agreed to do, but apparently grew tired of the arrangement, for he only paid one week, and then effected a compromise with his wife by which he was to return home.

A few days ago he was again drunk, and, apparently, fearing the magistrate's decision, decided to leave town. If he ever returns there will be something doing for one Frederick Phillips.

Several first-time drunks were allowed to go.

Another Job for the City Engineer

City Engineer Graydon is in demand. Yesterday he received an invitation from the firm of Code & Burritt, a firm of lawyers in Ottawa, to go to New Liskeard and assist in surveying and collecting information regarding an interesting suit that is coming up there on November 3.

The town is attempting to expropriate a stream belonging to a client of

Code & Burritt for water and power purposes, and they invited Mr. Graydon to come and give some expert opinion on the matter. The other engineers will be City Engineer Newton J. Kerr, of Ottawa, and Assistant City Engineer Fellows, of Toronto. The case is creating considerable interest in the Province.

Mr. Graydon has wired saying that he cannot go.

MR. BEATTIE WAS VICTORIOUS ELECTED BY 1,036 MAJORITY

Over Mr. John D. Jacobs, the Labor Candidate—The Vote Was Much Smaller Than in Previous Contests in London.

The election to the House of Commons to fill the vacancy caused by the resignation of Hon. C. S. Hyman, through illness, resulted in the return of Major Beattie, the Conservative candidate, by a majority of 1,036 over Mr. John D. Jacobs, the Labor candidate.

The vote polled was not a heavy one, although it was much better than anticipated. The total vote polled for both candidates was 5,332. In 1904 at the general election there were 5,323 votes polled, but that was before the suburbs in the East, West and South ends were taken in.

In 1904 the total vote for both Mr. Hyman and Mr. Gray was 8,578 in a general election.

Small Vote.

In the by-election of 1905 the total number of votes polled by the same candidates was 8,835.

By comparing these figures it will be seen that the vote yesterday was almost 2,500 less than the ordinary vote.

There was no excitement during the day. The people took the election as a matter of course, and there was no noise at all. The vote was slow coming in, but a hurry-up call in the afternoon from the Conservatives hurried it along.

When the returns began to come in there were very few people on the streets, and when the first few divisions came in it was a foregone conclusion that Major Beattie would be elected, and interest waned.

Shortly after 6 o'clock Major Beattie appeared in a Free Press window and delivered a short speech. He was given a good reception.

At the Labor headquarters the candidate and a number of his friends were present, and took the defeat in a philosophic manner. There was no complaining.

The Advertiser bulletined the returns as usual, but the crowd which watched the figures was very small compared with the crowds of other years. All the returns were in early, and by 5:30 it was known that the major would have a big majority.

Major Beattie Speaks.

Gentlemen, the contest is over, and I am elected by a handsome majority, fully 1,000 or more. I must thank the workingmen of this city for not deserting me. They are convinced that I am still a friend of the workingman, as I always have been. Whenever a measure comes up in the House of Commons they can rely upon me doing my best on their behalf.

"I must thank the Liberals of London who have so handsomely supported me today. I can assure them that I will offer no factious opposition while (Continued on Page Eight.)

COOPER HIMSELF WAS IN CONTROL

President of Quebec Bridge Co. Resents the Engineer's Assertions.

Quebec, Oct. 28.—Discussing the statements made by Theodore Cooper, of New York, consulting engineer of the Quebec Bridge Company, before the royal commission, investigating the Quebec bridge disaster, Hon. S. N. Parent, president of the Quebec Bridge and Railroad Company, said that he could not believe that Mr. Cooper had been correctly reported as serious as the misstatements and exaggerations imputed to him in the reports from New York. He had no desire to intervene at all in the investigation which was in progress, but he could not allow palpable misstatements of fact to go unnoticed.

In regard to the statement that the company had no efficient engineer, he declared that Mr. Cooper himself had full control and that Mr. McLure was Mr. Cooper's own choice of a competent man to control the work of the Phoenix Bridge Company at the bridge site.

Speaking of the alleged misstatement that the executive of the bridge could have made, and should have made, repairs to the defective member which would have cost but a trifle and safeguarded the structure, when the Phoenix company failed to do so, Mr. Parent said that the chief of the Quebec Bridge Company's executive so far as these technical details were concerned, was Mr. Cooper himself. He had ample authority in every respect, and was paid \$7,000 a year by the company to take full charge of the work.

The Bridge Company completely relied on Mr. Cooper for the completion of the work, said Mr. Parent, and nothing during the progress of the work was done without Mr. Cooper being made acquainted with it by Mr. Hoare, the Quebec Bridge and Railroad Company's chief engineer, or by his own engineer on the works, Mr. McLure.

Moreover, said Mr. Parent, Mr. Cooper himself had testified to him in New York as to his confidence in Mr. Hoare.

MYSTERY ATTENDS HAMILTON MAN

Hamilton, Oct. 29.—No trace has yet been found of Charles Lenz, the proprietor of the Hamilton whip factory, who has been missing since yesterday noon, and there does not seem to be any doubt but that he was drowned at the beach. Searching parties have been out all morning grappling for the body, but up till noon had not found any trace of it. It is known that Mr. Lenz went down to his summer residence at the beach yesterday afternoon and the finding of his body floating in the bay is responsible for the belief that he was drowned. His friends cannot understand how he came to have his coat off or how he happened to fall out of the boat without overturning it. They are also at a loss to know why he went out rowing, as the afternoon was cold and the water rough.

Soldiers have been hinted at in some quarters, but this theory is put over by those best acquainted with Mr. Lenz.

JUDGMENT RESERVED.

Ottawa, Oct. 29.—In the supreme court today judgment was reserved in the two-cent-a-mile case against the G. T. R.

HURLED FORTY FEET

A Grand Trunk Passenger Brakeman Instantly Killed at Whitby.

Whitby, Oct. 29.—Brakeman W. Leachy, of the northern division of G. T. R. passenger train from Lindsay to Whitby, was killed here this morning. In switching his train around the "Y" at the junction he stepped on the main line, and the second section of No. 4 from Montreal struck him with such force as to throw his body over forty feet, killing him instantly. Leachy had been only a few days. His home was at Lindsay. He was unmarried and about 21 years old. A coroner's inquest will be held.

A COSTLY HAZING

Five Young Men Must Pay \$14,000 for Their Fun.

Chicago, Oct. 29.—A dispatch from Kewanee, Ill., says: For hazing Chas. Stoner, a student at a Bradford school, five young men of Bradford must pay \$14,000 damages, according to a verdict brought in last night by a jury. The defendants are William Real, Earl Lappin, Arley Harwood, Earl Howe, and Francis Long. They are said to have tied Stoner to a tombstone in a cemetery. Stoner was so severely frightened that in his attempts to get free he pulled the tombstone over on himself, breaking a bone in his leg. He was confined in a hospital for several weeks.

TO CURE STIFF NECK.

When the cords of the neck become stiff and sore, nothing brings such instant relief as Nerviline. Every drop is just full of pain-destroying power. Its action is almost magical. Nerviline penetrates through the pores of the skin, removes the stiffness one one application. "My neck was so stiff I couldn't turn it a quarter of an inch," writes Fred T. Baldwin, of Portsmouth. "I had it rubbed with Nerviline a few times and all the soreness and stiffness disappeared. I don't know another liniment you can depend on like Nerviline; it's splendid for colds, lameness. For fifty years Polson's Nerviline has been 'the' liniment of Canada. Sold everywhere in large 25c bottles.

Mr. Alfred Jelf, aged 51, of Sheffield, Beds., has been a relieving officer for 60 years without asking for a day's leave of absence, has not had a holiday since he was 21, and has never been laid up with illness.

The Burrington plowing match society will shortly celebrate its fiftieth year of its existence, and an interesting feature of the matches this year will be a class for those who plowed at the society's first meeting in 1858.

Frank Crutenden, a dairyman of Hastings, was recently married by the

PRODUCE SLUMPS NO COIN TO BUY

Tremendous Drop in Prices on the Chicago and Omaha Markets.

Chicago, Oct. 29.—Nine million dollars' slump in the grain in sight and millions more in prices of cattle, hogs and sheep, is the record of the past two weeks.

The decline in cotton is estimated in the neighborhood of \$20,000,000. Yesterday the price of wheat in Chicago dropped 4 cents a bushel in as many minutes. This represented a decline of \$2,000,000 in the stock in sight.

The corn trade slump was equal to \$7,500,000. Oats dropped 3 cents a bushel.

The best posted men in the grain trade say that were it not for the money stringency grains would all be selling at 15, possibly 20 cents a bushel higher, as there is a call for all the surplus grain we have, and it gives the foreigner our grain at bargain prices that he did not expect to get.

Live stock raisers have had to take their share of the slump. Cattle are selling 75 cents per hundred pounds under prices prevailing a few weeks ago, hogs are \$1 per hundred pounds lower in about two weeks, and sheep have declined to \$1 50 per hundred pounds since June.

These declines are attributed to decreased consumption, which has prevented packing interests from loading up heavily, and distributors have been forced to carry heavier loads than they care to and also forced into the market as sellers of everything they have in the provision line.

Packers are taking a hopeful view of the situation and look for lower prices for all live stock. A reduction of 10 per cent was made in prices of meats in Omaha yesterday as a result of the decline in live stock and the desire on the part of packers to reduce their holdings, if possible.

Edward A. Cudahy, of the Cudahy Packing Company, Omaha, was in the city today and repeated the statement that he expected a further drop in values and expressed the belief that he believed that values of all commodities will be materially reduced.

"There has got to be a halt some time," said Mr. Cudahy. "General conditions seem ripe for a lowering of the cost of living, which has become abnormally high within the last year or two."

"We have been buying cattle cheaper for several days. This condition has no connection with the financial situation in the east, so far as can be seen. We have seen for some time that a cut in meat prices was about due."

W. F. Goodhue, butter expert for A. H. Barber & Co., said:

Butter slumped a cent last week, falling from 27½ cents a pound to 26½. Eight butters, which was 29 cents last week, is now down to 27 cents. The market is fairly steady, however, and I believe that it will continue so."

Eggs continued to decline and the price along South Water street were slightly lower than Saturday. Cold storage eggs are now at 20 cents per dozen.

LONDON, WEDNESDAY, OCT. 30.

THE LOCAL CONTEST.

Yesterday's voting shows that the
idea of independent political action has
not taken so strong a hold of workmen
in London as in some other Canadian
communities. The working classes, if
by that term are meant all who earn
their living by manual labor, are suf-
ficiently numerous to elect whom they
choose, but evidently the strength of
the new movement represented by Mr.
Jacobs' candidature is for the present
almost confined to the ranks of the
trade unions. Comparisons will be
made with the result in East Hamil-
ton, where Mr. Studholme, the Labor
nominee, defeated the candidate of the
Whitney Government, but London is
not so exclusively an industrial center
as Hamilton. In this city, also, al-
legiance to the old parties has been
confirmed by many years of strenuous
warfare, and the inveterate political
habits of the mass of citizens are not
to be shaken off in a day.

Mr. Jacobs' improvised organization
was no match for the Conservative
machine. In some of the polling booths
the Laborites had no scrutineers, and
in "getting" out the vote they had
everything to learn from Mr.
Beattie's well-drilled cohorts. There
was a certain astuteness, too, in
Mr. Beattie's campaign methods. In
his only public address he
eschewed partisanship, he claimed
that his candidature implied no ill-will
toward Mr. Hyman, and that his elec-
tion would not be interpreted as a
party victory. He made no attack upon
the Government, and evaded controver-
sial questions. He met the Labor issue
by professing to be as radical as his
opponents. They had no plank he was
not willing to put into his platform,
which was obviously rigged up for
the occasion.

The Laborites, it must be admitted,
carried on their public discussions with
considerable ability, and in good tem-
per. The real strength of the move-
ment will find a better test in a three-
cornered contest, where it may
measure itself against both the old
parties. If the independent Labor
party intends to remain in the
field it will have this opportunity a
year hence. Meanwhile it cannot be
said that the interests of the working
classes have been neglected, or will be,
by the present administration at Ot-
tawa.

THE BY-ELECTIONS.

The three by-elections in Ontario
yesterday furnish no omens.

There has been so much absurd
outside comment on the situation in
London that it would not be surpris-
ing if the result here were claimed in
some quarters as a Conservative vic-
tory, but Mr. Beattie and his organ
admit that no political significance
can be attached to it. With a Liber-
al candidate in the field there would
have been a very different story to tell,
but loyalty to Mr. Hyman in his mis-
fortune triumphed over the fighting
spirit of the party. In the next general
election the Liberals hope to come to
their own again.

In East Northumberland a Conserva-
tive retains the seat by about the
same majority as the late member.
Only two Liberals have been elected
in this riding since Confederation, the
last one being in 1887, when Mr.
Mallory had 12 majority. Mr. Cochrane,
the late member, carried the seat
in five elections by majorities ranging
from 200 to 400.

In North Wellington, Mr. Martin,
Liberal, is elected by a majority of
396, compared with majority of 308
for his brother, whose death made
the vacancy. Mr. McMullen, now
senator, carried the riding in 1882,
1887, 1891 and 1896, but was defeated
by Mr. Tolton, Conservative, in 1900.
The late Mr. Martin redeemed the seat
in 1904.

TREATMENT OF CRIMINALS.

The system of releasing certain con-
victs on ticket-of-leave has for sev-
eral years been followed by the Do-
minion Department of Justice, and has
resulted so satisfactorily as to justify
its continuance. The need of some
such law has long been recognized in
some of the neighboring states, very
many people considering it unjust to
treat the first offender as severely as

the hardened professional criminal,
and that much good might often be
accomplished by giving the former
"another chance" to become a useful
citizen.

In Illinois the matter is being taken
up in earnest, a bill having the in-
dorsement of criminal and municipal
court judges having been prepared for
submission to the legislature. It pro-
vides for the release on probation of
convicts whose offenses have been of
a minor character. At the same time
there is a provision that, under cer-
tain circumstances, men guilty of
burglary, embezzlement or larceny,
may be released if the convicting
judge is satisfied there is reason-
able ground for hope of reform. Under
the state law as at present a judge
may impose what is called an indeter-
minate sentence, but this, it has been
found, does not go far enough in the
way of giving opportunities to men
who would use them, while going too
far in affording opportunities to men
who abuse them. While, however, the
tendency of public opinion is towards
tempering severity with humanity in
cases of first offenders and those
guilty of crimes they are not likely
to repeat, it is felt that more vigorous
treatment should be given profes-
sional criminals who have proven they
will abuse every opportunity given
them to move about freely in society
and turn over a new leaf. The man
who for once has lapsed into crime
should be given every reasonable op-
portunity to become a law-abiding
citizen, but no mercy should be shown
the fellow who persists in following
a criminal career. True, crime is
largely the result of the conditions
which social life imposes on men, but
so also is punishment, and the fact
that the criminal is himself a victim
of society is no reason why he should
not be punished. If he continues to be
a social menace. To protect itself,
which is its first duty, society is just-
ified in placing men who persist in
living by crime when at liberty per-
manently under lock and key and be-
hind iron bars. The present feeling
in Illinois is that more rigorous treat-
ment of the professional criminal is
just as necessary as greater leniency
towards the "first-timer."

At any rate the Liberals of London
were not whipped. Perhaps Billy Maclean feels it more
keenly than anyone.

All the same, we doubt whether the
Major will take his 8-hour bill out of
cold storage.

The prices of eatables in the United
States have taken a drop. They went
so high that they became dizzy.

The Laurier administration may
manage to worry along with its re-
duced majority for another year.

It is rumored that the Government
trembled when it heard the Major was
going back to Ottawa to open fire.

This by-election was unique in more
than one way. There was no need of
suspending street car traffic in front
of the newspaper offices last night.

Hon. Mr. Graham says he finds that
95 per cent of the employees of the In-
tercolonial were appointed by the late
Government. Mr. Graham still hopes
to make the road pay.

\$

[Puck.]
Something old, something new,
Something borrowed, something blew.

THE GNAWING MISSOURI.

[Kansas City Star.]
In two years the Missouri River has de-
stroyed 60,000 acres of farm land. The
average Missouri farm contains 120 acres.
That means that each year 30 Missouri
farms are tumbled over into the muddy
water for want of adequate protection.
Nor is this cheap land. It sells at an
average price of \$100 an acre, even with
the menace of the river hanging over it.

SUN SPOTS.

[Belman.]
Sir Robert Ball had delivered a lecture
on "Sun Spots and Solar Chemistry." A
young lady who met him expressed her
regret at having missed the lecture.
"Well," he said, "I don't know as you'd
have been particularly interested. It was
all about sun spots."

"Why," she replied, "it would have in-
terested me exceedingly. I have been a
martyr to freckles all my life."

QUITE DIFFERENT.

[Chicago Tribune.]
"Life," observed the philosophical board-
er, "is merely a game of chess on a large
scale."

"Nothing of the sort," protested the new-
ly-married boarder. "It's exactly the con-
trary. The game of life doesn't really begin
until you mate."

MANY EXCEPTIONS.

[Philadelphia Record.]
Blobs—Every man has his price.
Blobs—Oh, I don't know. Many a man
gives himself away.

A COMMON KIND.

[Modern Society.]
Wife (heavily)—George, I wonder you can
maintain that Mr. Jones is kind to his
wife! He has been away for two weeks,
and has not sent her a penny. What kind-
ness do you call that?

Husband—Unremitting kindness, my
dear.

SOME COSTLY HOTELS.

[Pittsburg Dispatch.]
Eight hotels in New York cost \$50,000,000.
With one exception they were all built
within the last five years, and that excep-
tion was only two or three years earlier.
Latest of all is the new Plaza Hotel, at
Fifth avenue and Fifty-ninth street. Its
cost was \$12,500,000. The Belmont, opposite
the Grand Central Station, cost \$9,000,000,
and, like the Plaza, has 800 rooms. The

Ansonia cost \$4,000,000, and has accommo-
dations for 1,500 guests. Together the St.
Regis and Gotham, one on each side of
Fifth avenue, at Fifty-fifth street, cost
\$5,000,000, and have rooms for 800 guests.
The Knickerbocker cost \$7,000,000, the
Breidlin \$3,000,000, and the Astor \$6,000,000.
In contrast, as far as high prices are con-
cerned, is the new Mills hotel at Seventh
avenue and Thirty-sixth street. This is for
poor men, and no room in it is higher
than 40 cents a day; the rate for most of
them is 30 cents. There are 1,750 rooms in
this building. If they are all filled every
night in the year—and that has been
pretty nearly the case with the two older
Mills hotels downtown—the annual re-
ceipts will be \$208,500, not including the
restaurant receipts.

DISINTERESTED SUGGESTION.

[Chicago News.]
"I never know what to do with my feet
when I am in a parlor," remarked the
bashful young man, as the conversation
lagged.
"Did it ever occur to you," rejoined the
matter-of-fact maid, "that you might steer
them toward home?"

GOOD ADVICE.

[Montreal Star.]
A man advertised recently in a London
paper to forward, on receipt of postage
stamps, "sound, practical advice, that
would be applicable at any time and to all
persons and conditions of life."
On receipt of the stamps he sent his
numerous victims the following:
"Never give a boy a penny to hold your
shadow while you climb a tree to look into
the middle of next week."

A CASE FOR OSLER.

[Cleveland Leader.]
"I should think young Roeligh would
die of sheer ennui."
"What's the matter with him?"
"Why, he's dead tired of doing nothing,
and he's too blamed lazy to do anything."

AUTUMN IN THE GARDEN.

[Henry Van Dyke.]
When the frosty kiss of autumn in the
dark
Makes its mark
On the flowers, and the misty morning
grieves
Then my olden garden, where the golden
soil
Of a hundred years is mellow, rich and
deep,
Whispers in its sleep.

'Mid the crumpled beds of marigold and
phlox,
Where the box
Borders with its glossy green the ancient
walks,
There is a voice that talks
Of the human hopes that bloomed and
withered here.

Year by year—
Dreams of joy that brightened all the
laboring hours,
Fading as the flowers.

Yet the whispered story does not deepen
grief:
But relief
For the loneliness of sorrow seems to flow
From the Long Ago.

Where I learned of other lives that learn-
ed, like mine,
To resign.
And remembered that the sadness of the
fall
Comes alike to all.

With regrets, what longings for the loss
were theirs!
And what prayers
For the silent strength that nerves us to
endure.

Things we cannot cure!
Pacing up and down the garden where
they paced,
I have traced
All their well-worn paths of patience, till
I find
Comfort in my mind.

Faint and far away their ancient griefs
appear:
Is the tender voice, the careworn, kindly
face
Of the human race!

Let us walk together in the garden, dear-
est heart!
Not apart!
They who know the sorrows other lives
have known
Never walk alone.

NOT WITHOUT MERIT.

[Life.]
Contributor—Has that poem any merits?
Editor—Oh, yes. If it hadn't I would
throw you out of the window. But it is
good enough to permit you to steal quiet-
ly down the back stairs.

MORE IMPORTANT PART.

[New York American.]
A French chemist is said to have dis-
covered the secret of making diamonds.
If he has also discovered the secret of
making other people think they are dia-
monds his fortune is made.

CLASSIFIED.

[Philadelphia Ledger.]
The balloon drifted low over the farm.
Its dragging anchor lifted a panel of
fence, the roof of a corncrib, and nearly
achieved the capture of a cow.

"Must be one of them grab-bags," re-
marked the farmer, shaking a horny fist
at the skies.

A BOOK OF THE DAY.

[Atlanta Constitution.]
"Dollar and a half for that book?" he
said. "I think I'll wait till they get
cheaper."

"But it may be out of date then," said
the bookseller.
"True," was the reply. "They only live
six months these days. Perhaps I'd better
buy it now."

THE MILK DEALER.

[Tonkers Statesman.]
"Do you keep skimmed milk?" asked the
lady, entering the dairy.
"No, ma'am," replied the boy behind
the counter. "We sell all our skimmed
milk and keep the unskimmed for our own
use."

A DOCTILE PATIENT.

"Let me kiss those tears away," he beg-
ged, tenderly.
She fell in his arms, and he was busy
for the next few minutes. And yet the
tears flowed on.

"Can nothing stop them?" he asked,
breathlessly.
"No," she murmured. "It's hay fever,
you know. But go on with the treat-
ment."

AN EXCEPTIONAL CASE.

[Puck.]
The Foreman (back for instructions)—
Jedge, we ain't tangled up concernin' the
testimony of Jim Boggs?
The Court—Don't you know what to do
with it?

The Foreman—We knowed jest what
to do with it, till we discovered whar he'd
told th' truth in one place.

HOME OF O. H. A. CHAMPION TEAMS

Stratford To Have Two Teams

Again This Winter To De-
fend Honors Won.

Stratford, Oct. 30.—The success of
Stratford last year in the hockey world
when the senior and junior O. H. A.
trophies were won by the teams rep-
resenting the Classic City in their re-
spective series was phenomenal, and
may possibly never be repeated by any
other hockey club. This success has
naturally given rise to the belief that
Stratford will again be strong this
year and ready to defend both cups.
The question which appears at the
present time is to locate the talent on
hand and by early organization be pre-
pared at the beginning of the season
to defend the honors which were cap-
tured last year.

Diversity of Opinion.

The hockey situation in Stratford at
the present time is considered discour-
aging by some, while others are of
the opinion that it is decidedly promising.
Be this as it may, there is plenty of
material on hand for teams in two or
three series of the O. H. A., and it is
to this point that attention may be
called. The sporting authorities of the
city are divided in opinion on this mat-
ter, some believing that junior and in-
termediate teams should be entered,
while others feel that the best results
could be achieved with senior and
junior teams.

JOHNNY EVERS: SPORTING EDITOR

Johnny Evers is to be a sporting
editor on a Troy paper, of course.
John is a sportsman, and his work is
about how one of his columns will
read if they don't watch out.

We Cubs will be champions again
next season. There is no doubt about
it. Nothing can stop us.

Get your shoes at John Evers' store.
Best in town.

John Kling is the greatest catcher
in the world, and will be in even bet-
ter form next summer.

Evers' calf skins. Buy early be-
fore the rush.

Del Howard longs for a regular
place with the Cubs. Too bad, Del,
but there are several in line already.

Get your rubbers at Evers' store.
Snowy weather coming.

Mordcael Brown's arm will be all
right next spring. He will again be
the star pitcher of the whole profes-
sion.

House slippers at Evers' store, 90
cents. Buy them now.—Chicago Jour-
nal.

THE TURF.

Winners at Jamaica yesterday were
Obelisk, Stanhope, Montfort, Ador-
ation, Brancas, Vestabella.

Winners at Cincinnati were Col.
Jack, Leonora G., Dapple Gold, Little
Lighter, E. T. Shipp, Posing, Lady
Goodrich.

TELLS YOU HOW.

Directions to Prepare Simple, Yet Re-
markable, Home Mixture.

A well-known authority on rheuma-
tism gives the following valuable, yet
simple and harmless, prescription,
which any one can easily prepare at home:

Fluid Extract Dandelion, one-half
ounce; Compound Kargon, one ounce;
Compound Syrup Sarsaparilla, three
ounces.

Mix by shaking well in a bottle and
take a teaspoonful after each meal and
at bedtime.

He states that the ingredients can
be obtained from any good prescrip-
tion pharmacy at small cost, and, be-
ing of vegetable extraction, are harm-
less to take.

This pleasant mixture, if taken regu-
larly for a few days, is said to over-
come almost any case of rheumatism.
The pain and swelling, if any, dimin-
ishes with each dose, until permanent
results are obtained, and without in-
juring the stomach. While there are
many so-called "rheumatism" remedies,
patent medicines, etc., some of which
do give relief, few really give perman-
ent results, and the above will, no
doubt, be greatly appreciated by many
sufferers here at this time.

Chapman's

STORE OPEN TONIGHT UNTIL 10 O'CLOCK

Holiday Visitors in Town for Thanksgiving

This store presents much of interest to Holiday Visitors and others. The
whole store invites you to a most unusual display of seasonable merchandise—
unusual in importance and interest. Our stock of high-class novelties is more
complete this season than ever before; while our stock of staple goods—upon
which a great part of this store's success has been founded—will be found more
and more thoroughly satisfactory. That we sell the best novelties as well as
staples—at the lowest prices consistent with quality—accounts more than any-
thing else for the ever-increasing patronage of London's popular shopping center.

Our Garment Section Offers Much of Interest at Present Time
Dress Goods and Silks in Great Profusion
Early Displays of Christmas China
And Gifts For Fall Weddings

New Books Just In

From this time forward, the Book Department
takes on a holiday aspect. New books are arriving,
case after case, comprising all the standard works,
popular books of fiction, Christmas gift books, chil-
dren's books, etc., etc. We begin with fiction, and
when one reads the names of the famous writers
whose books we have here, one is certain that a rich
treasure is in store for the readers of 1907.

This table of Beautiful Cloth-Bound
Books, comprising "The Pilots," "Christmas Stories,"
etc., etc. Victor Hugo's "By Order of the
King," "Hunchback of Notre Dame," "Hans of Ice-
land," "History of a Crime," etc., etc. Cooper's
works, comprising "The Pilot," "The Red Rover," "Mar-
celles of Castile," etc., etc., and numerous other
standard authors. At your choice 25c

J. H. CHAPMAN & CO., 126, 128, 128½ Dundas St.

COLIN RETIRES; CLEAN RECORD

The peerless Colin goes into retire-
ment unbeaten, the winner of 12
straight races, and \$131,000 in round
figures. He wound up his brilliant
career as a 2-year-old by winning the
forty-first running of the Champagne
stakes at Belmont Park, beating Har-
ry Payne Whitney's Stamina, his only
opponent, in a common gallop, in the
fast time of 1:23 for seven furlongs.
Stamina, which is generally ranked as
the best 2-year-old filly of the season,
lost the race for stride with Colin for
half a mile, but then capitulated, and
the great son of Commando-Pastorella
drew away with that easy, friction-
less stride for which he is famous,
and did not appear to be fully extend-
ed through the last furlong to win by
a full six lengths. It was no disgrace
for Stamina to be beaten by Colin,
which stands out today as the great-
est horse ever bred and developed
in this country, if not in the world.
Colin hardly drew a long breath in
going back to the scales, and was as
playful as a kitten while getting his
bath and rub down.

Colin has been in training since early
in the season, and in spite of a long
campaign looks far better today than
when he won his first race on May 29.
The swelling on his hock, which was
so disfiguring at that time, has now
completely disappeared, and in looks
he is the perfect picture of a race
horse. If no ill befalls him during
the winter he should come back to
the races next year an even better
horse than he is today. If such a thing
is possible, and with all the great
stakes exclusively for 3-year-olds in
his mercy.

CHAUCER ELLIOTT IS REAL ANGRY

The Toronto Telegram slaps Mon-
treal as follows:
Chaucer Elliott is angry. He taught
his Montreal pets all Hamilton's
tricks, and then went out and bet his
salary that his pets would beat the
Tigers. And as Chaucer's pocket grew
light his language grew heavy, and
what he said to those chaps from the
big clubhouse was a shame. He told
them to kick, kick, kick, kicking
himself. Poor old Chaucer, he should
have stayed with Hamilton. The man
is not yet found who can put brains
into a bunch of Montreals.

The Montreal Star feels surprised
and hurt that the entire football
population of Peasopville did not
arise and rend the referee on Satur-
day for allowing Hamilton a free kick
in the third quarter for something
that happened in the second. And if
the ruling was somewhat unique, why
should the Star throw a fit? But,
sadly the truth must be told. Those
sober-minded reporters, who are so
posed to supply the public with a fair
and unbiased description of the game
are oftentimes human and liable to be
transformed by the excitement into
the most bitter partisans. Is the
Star man one of these?

ANNUAL MEETING OF O. H. ASSOCIATION

Toronto, Oct. 29.—The annual meet-
ing of the Ontario Hockey Associa-
tion will be held at the Temple Build-
ing, Toronto, on Saturday, Nov. 16, at
9 a.m. Proceedings will commence
sharp on time, and clubs are notified to
have their delegates on hand at the
appointed hour. The secretary and
treasurer will be on hand an hour
earlier, but clubs may facilitate mat-
ters by having their fees sent in ad-
vance.

Malt Beverages Have Real Food Value

Though mistaken zeal
sometimes classes beer with
the intoxicants, common
sense and medical knowl-
edge will teach you its real
worth as an item of daily
diet.

For beer is four times as
rich in food elements as
potatoes, nearly as rich as
fresh wheat bread, and its
proteins (body-builders)
reach the stomach in the
form easiest digested.

The very small proportion
of alcohol in Ontario beers
helps the other food to di-
gest quickly and easily.

Quit thinking of beer as an in-
toxicant—learn how valuable it
is for people with weak stomachs
or slack digestions.

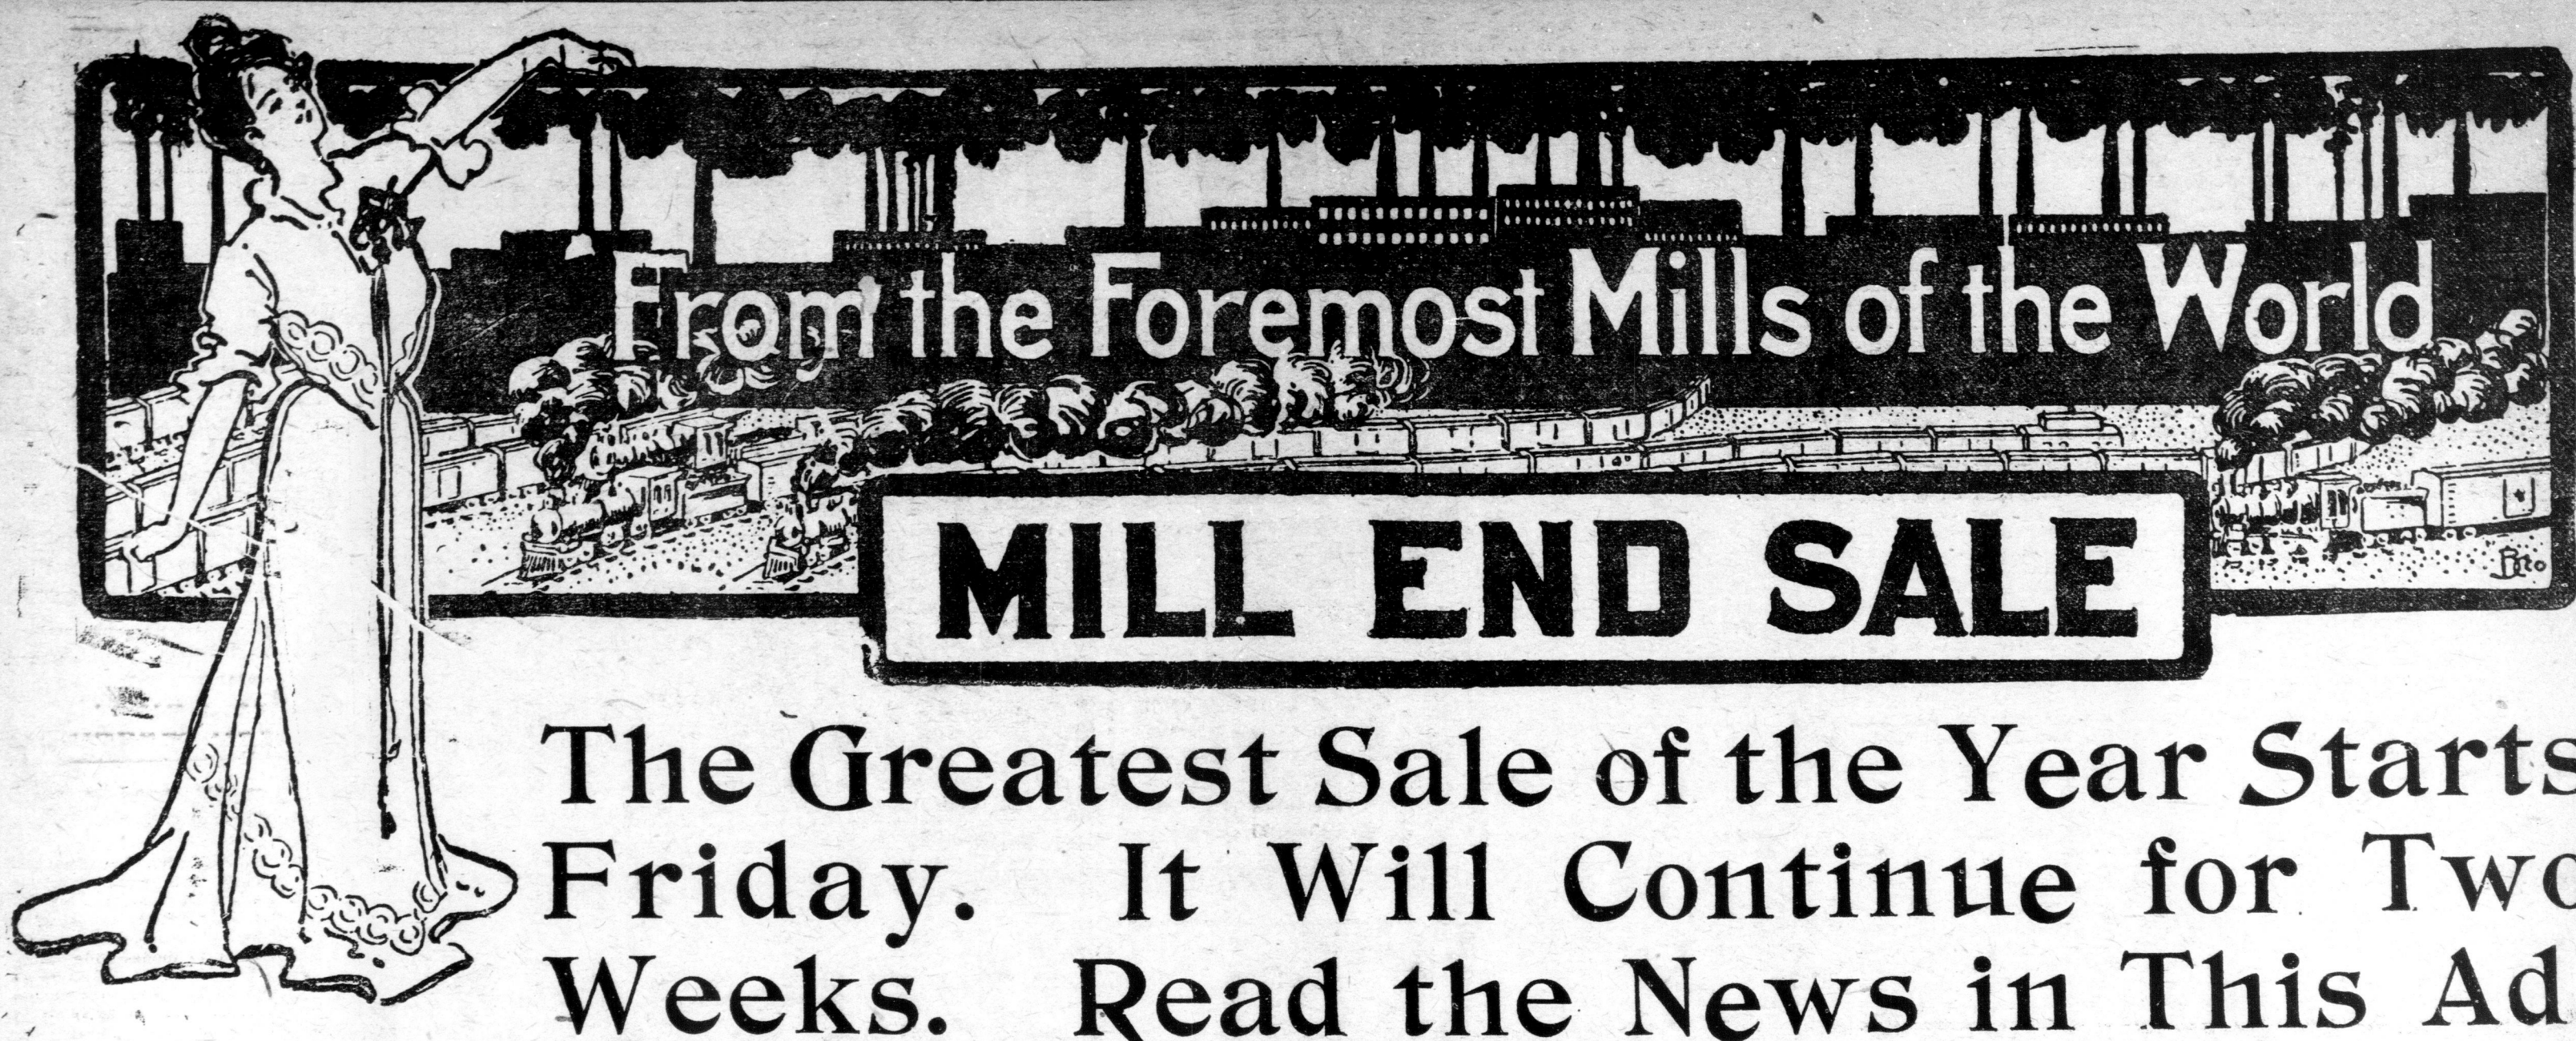

There is a term which covers lager, ale, porter, and
other malt beverages. It is the practice of Ontario brewers to
boil their malt under most hygienic conditions from
sterilized barley (the best in the world) with hops and
pure water.

Nets For Waists

AT OUR TRIMMING COUNTER.
REAR OF ELEVATOR.
All-Over Nets, for waists, in white, cream and

From the Foremost Mills of the World

MILL END SALE

The Greatest Sale of the Year Starts Friday. It Will Continue for Two Weeks. Read the News in This Ad.

Mark These Startling Prices on New Dress Fabrics

Strictly speaking these are not mill ends. They are our brand new fall dress fabrics. But to make the sale notable in more ways than one we are including them at mill-end prices, mind you.

Ombre Plaid Suitings at 79c

Never will you have a better chance offered you to procure these extremely stylish materials for so little. All new, some in exclusive lengths; 54 inches wide. Regular \$1.25 yard. Mill End Sale Price 79c

50c All-Wool Tweeds for 35c

These are new goods in the dark and light ombre checks. At 50c they are simply splendid value, but at 35c they are nothing less than astonishing. Mill End Sale Price 35c

French Flannel Waistings at 22c

Just see these and you'll buy. Dark colors of navy, green, red and black, prettily ornamented with spots. And don't you think the price a wonder? 22c

\$1.25 and \$1.50 Tweed Coatings at 97c

This is one of the many big surprises of the sale. These are in neat designs. Strong serviceable weaves; 56-inch width. Mill End Sale Price 97c

\$1.25 Broadcloths for 98c Yard

This is a bargain that will appeal most strongly to many. An elegant fabric. Choice of two shades of blue and brown, also black. Mill End Sale Price 98c

See our Cheviots at Sale Price of 87c

Skirt and Waist Prices Down To Low Ebb

Our Mantle Section makes a big bid for your business with the largest kind of values. It will pay you to respond quickly.

\$3 Tweed Skirts to Go at \$1.98

While this item is briefly itemized, still it is a very big snap. Choice of both black fabrics and dark tweeds. Regular \$3 each. Mill End Sale Price \$1.98

Three Exceptional Blouse Chances

THE FIRST is a big lot of navy and cardinal Panamas; navy, cardinal, brown and sky cashmere, and brown lustrés. Mostly all have long sleeves and open in front. Regular \$2, \$2.50 and \$2.75. Mill End Sale Price \$1.50

THE SECOND opportunity provides a chance to save on brown, navy, and green lustrés and cardinal flannel waists. Regular \$1.50 and \$2.00. Mill End Sale Price \$1.00

THE THIRD is a range of flannels, lustrés and plaids in navy, brown and black. Regular \$1 to \$1.75 each. Mill End Sale Price 75c

This is an annual event with us. Every autumn we hold this great sale. And each fall it scores a bigger success. Why? Because every woman who attends becomes enthusiastic over the huge savings the sale provides. She cannot keep the good news to herself. She tells her friends the good tidings in a manner that brings them here on the run. In that way our chain of customers grows larger and larger.

When you attend Friday you will be able to tell your friends that for bargains of unparalleled generosity this sale is the biggest event that has happened in this city. Just read the news furnished in this ad. It tells of savings of a most marvelous order.

Mill Seconds and Odd Lots of the Well-Known Puritan Mills Underwear

The kind of underwear the Puritan Mills manufacture is very well known to a host of our customers, and, of course, those who are familiar with its sterling worth will literally buy these bargains by the armful. The garments are seconds in many cases, but that does not injure their wearing qualities, and why they should be called seconds will, no doubt, often puzzle you. There are odd lots, too, of discontinued regular lines. Altogether the quantity is immense, but it's not great enough to prevent your size in a certain line from disappearing before you would believe it possible. Therefore, it's wise to buy early. Start right in Friday is the best plan. Here is a brief summary of the lines on sale:

Ladies' Combination Suits in Gray	
Worth \$1.50 for.....	98c
Worth \$1.00 for.....	79c
Worth 75c for.....	59c
Ladies' Vests and Drawers in Gray, worth 50c

Ladies' Natural Wool Vests and Drawers, regular \$1.00 for.....	
Mill End Sale Price.....	79c
Ladies' Vests in Gray Only, regular 25c garment, for.....	
Mill End Sale Price.....	19c

Big Snaps in Children's Underwear

Odd lots and mill ends in gray, black and white. A host of different lines. Great range of prices—and every price a winner.

Gray & Parker
150 Dundas and Carling

Silks For Fancywork, Regular 50c and 75c Kinds, for 15c

These silks are only suitable for fancy work, because they are a little tender. At the price they are truly wonderful values—cerise, delf blue, pale blue, helio and reseda. Taffeta silk. Regular 50c and 75c lines, for 15c

75c Taffeta Silks for 29c

Good firm silks. Fine for fancy work. A large range of colors. An odd lot bought at a very low price, and to sell at a small price, too 29c

75c and 85c Taffetas for Only 50c

A big lot of fancy silks in various handsome color combinations. Lengths suitable for dresses and shirtwaists. They come from the best manufacturers, and can be depended upon for durability. Not one yard of these sold regularly for less than 75c and 85c. Mill End Sale Price 50c

\$1.00 Dress Silks for Just 75c

Another large lot of silks to be sacrificed during this sale. All kinds of lengths, colors and weaves. This season's buying. Cannot be surpassed for style or wear. Not a yard sold regularly for less than \$1 per yard. Mill End Sale Price 75c

75c Black Dress Fabrics for 39c

Fancy stripes and other beautiful weaves in rich black tone. Will give excellent service. Just the very goods for skirts. Regular price 75c. Mill End Sale Price 39c

\$1.00 to \$1.75 Black Fabrics for 65c

A big lot of imported dress fabrics in heavy weights. Woven especially for suits and coats. Some are in Oxford gray; the rest are in black. Lengths from 6 yards up. None sold regularly less than \$1 yard; some for as high as \$1.75. Your choice now for .65c

Save Largely on Children's and Ladies' Coats

Just note these offers, and see if you can expect anything more liberal in the way of savings.

Ladies' \$10 and \$12 Coats, \$8.95

The long loose styles. Well made in every particular. Natty tweed effects. Regular \$10 and \$12 lines. Mill End Sale Price \$8.95

Odd Lots of Children's Coats

One lot consists of plain navies and tweed effects. Sizes to fit children up to 10 years of age. This price marks a big saving. \$3.00

Another odd lot of green and fawn coats, 36 and 39 inch lengths. Out they go at the Mill End Sale Price of \$1.00

Mill Ends of Linens, Towelings, Flannelettes, White Cambrics, Diapers, Etc.

This notice will command great attention we are sure, and the savings demand the speediest recognition. Prices too numerous to mention; but they are in every case very low. Table Linens, Towelings, White Cambrics, Diaper Cloths, Gray Cotton Sheetings, Flannelettes and Table Napkins in the lot.

PROPERTIES—360 acres in Cobalt and Larder Lake. All paid for.
 No debts.

WORKINGS—Three shafts on four veins * one of which has given an assay of

1,582 UNCLES SILVER TO TON

DEVELOPMENT—All development to date is paid for and a further depth of 50 feet on Main Vein has been let by contract. All paid for by present directors and shareholders.

ISSUE OF SHARES—An issue of full paid shares is hereby offered at TEN CENTS PER SHARE (no further liability) for a limited period of not over 30 days, but subject to withdrawal. Further particulars on application.

PENINSULAR SECURITIES CO., 169 Dundas St., London, Ont.
 * Since writing this ad two more veins have been discovered.

LOCAL MARKET.

London, Wednesday, Oct. 30.
 There was considerable business transacted at the market this morning. Prices were steady for oats and hay, while the price of wheat declined from 86c to 81c per bu. to 80c.
 There were about 20 loads of hay on hand, which sold quickly at \$1.15 per ton. There will be a good demand for hay on Friday's market.
 Straw sold at \$7.50 and \$7.75 per ton. Oats sold at \$1.15 to \$1.17 per cwt.

WEEKLY REVIEW.

Trade at the market here continues to be fairly brisk, and prices are firm, excepting for oats, which are about 10c per cwt. lower than last week's quotation. Butter is a little firmer in price than a week ago. The dealers are of the opinion that prices will not go any higher, as the cheese factories will soon be closed for the season, and the milk they received will be diverted to making of butter.

An idea of the amount of butter that is used in this city may be had, when it is stated that one firm alone shipped in 75,000 pounds of creamery during the present year.

Grain—Oats have fluctuated in price considerably during the past week. Sales are made at present at \$1.60 to \$1.65 per cwt. Wheat is selling at 86c to \$1.61 per bushel, very little being offered.

Hay and Straw—Hay is not as plentiful as a week ago. Sales are brisk at \$1.15 to \$1.17 per ton. Straw is firm at \$7.50 to \$7.75 per ton.

Butter and Eggs—Butter is in good demand at 27c for choice crocks, and 28c for the best pound round. Last week's prices were 26c to 27c per dozen for fresh-laid in basket lots.

Potatoes—The grocers are buying quits freely at 80c to 85c for the loads, and 10-bag lots; most of the sales are made at 85c per bag.

Apples—The market is over supplied at present, and as most of the fruit that is offered is of poor quality and will not keep any length of time, sales, as a consequence, are slow, and prices easier at 50c to 85c per bag, and \$1.50 to \$2.25 per barrel.

Poultry—The dealers say that the farmers are breeding out their flocks, and consequently, the supply is large, and the quality in many cases is not the best. Turkeys sell at 11c per pound alive, or 12c to 14c per pound, or dressed; ducks, 7 1/2c to 8c per pound, or dressed; old fowl, sold at 5c to 5 1/2c per pound alive, or 7c dressed; chickens, 7 1/2c to 8c per lb. or 9c dressed; geese, 8 1/2c to 9c per pound dressed.

Dressed Hogs—Prices are lower at \$8 to \$8.50 per cwt. Live Hogs—Prices for Monday's shipment will be about 86c per cwt. for select of 160 to 210 pounds in weight. Fat sows are selling at \$4 to \$4.50 per cwt.

Small Pigs—Sales are exceedingly slow, as buyers are few. Prices are the lowest in years at \$1 to \$1.50 each. Butcher's Meat—Meat is selling at \$1.50 to \$1.60 per cwt. Veal, \$8 to \$9 per cwt. Lamb, 10c to 12c per pound. Mutton, \$8 to \$8.50 per cwt. Hides—The market is weak, and prices may be off a cent per pound the 1st of November.

COBALT

All mining stocks bought and sold. Private wire to Toronto, New York and Boston stock exchanges.
H. C. BECHER. 423 Richmond Street, Phone 213

OIL MARKETS.

OIL CITY.
 Oil City, Pa., Oct. 29.—Credit balances, \$1.78.

COTTON MARKETS.

NEW YORK.
 New York, Oct. 29.—Cotton—Spot closed steady; middling uplands, 10.80c; middling, 10.85c; do. in bales, 10.90c. Futures closed steady. Closing bids: October, 9.85c; December, 10.50c; January, 10.85c; February, 9.90c; March, 9.94c; April, 10.00c; May, 10.05c; June, 10.10c; August, 9.96c.

SUGAR MARKETS.

NEW YORK.
 New York, Oct. 29.—Sugar—Raw steady; fair refining, 3.10c; centrifugal, 95c test; 100c; molasses sugar, 3.05c; refined cut, 3.10c.

LIVE STOCK MARKETS.

OLD COUNTRY PRICES.
 London, Oct. 29.—Canadian cattle are firmer, at 10c to 12c per lb. dressed weight; refrigerator beef is quoted at 10c per lb.

HAY MARKET.

TORONTO.
 Toronto, Oct. 29.—Baled Hay—Prices continue firm; timothy is quoted at \$17.50 to \$18.00 per ton in car lots on track here. Baled Straw—Firm, at \$9.50 to \$10.50 per ton on track.

CAMPBELLFORD.

Campbellford, Ont., Oct. 29.—One thousand and two hundred and eighty-five head of cattle offered; 5 sold on the board at 12c; balance refused at 12c; mostly all sold on the street at 12c.

CHICAGO.

Chicago, Oct. 29.—Butter—Steady; creamery, 22c to 25c; dairies, 20c to 22c. Cheese—Weak, 14c to 15c.

NEW YORK.

New York, Oct. 29.—Butter—Weak; re-10-cup, 11.50c; packages, creamery, specials, 17c; extra, 27c; thirds, to 20c. Cheese—Weak, 14c to 15c.

Cars Now Running to Port Stanley Party of Inspection Had a Trip

Southwestern Traction Company Congratulated on Success of the Line.

From London to Port Stanley within an hour is what the Southwestern Traction Company expects to do after its performance at the first run to the lakeside, which took place yesterday afternoon. Not a hitch of any kind occurred during the trip, which was a most delightful one, not only to the management, but to a large number of guests who had been invited.

President Rumball and Mr. A. E. Welch came in for numerous congratulations for establishing and bringing to a successful completion the first radial road out of London to St. Thomas. The road from St. Thomas to Port Stanley is said to be one of the best pieces of electric road in Canada, and throughout the trip.

Upon their arrival at Port Stanley the party proceeded to the Loney House, where refreshments were served, after which the officers and officials of the company were toasted in an enthusiastic manner.

Among the speakers were Mayor Lawrence, of St. Thomas, Ald. Day, McCully and Meehan, President Rumball and Mr. A. E. Welch responded on behalf of the company, and thanked those who had spoken so kindly. Both gentlemen spoke enthusiastically regarding the future prospects of the new road, and stated that the trade, both passenger and carrying, was satisfactory, and continually increasing.

After spending some time in looking about Port Stanley, the party started on their return trip, which was fully as fast as the initial trip. General Manager Mower expressed himself as well pleased with all the arrangements. Among those who made the inaugural trip were President Rumball, A. E. Welch, Robert Arkell, London; Dr. Routledge, Lambeth; Mayor Lawrence, Ald. Geddes, Meehan, Day, McCully, and Charles of the St. Thomas Council; Magistrate Glenn, City Treasurer Perry, City Clerk Doherty, City Engineer Bell, and Messrs. J. P. Freck, F. Meek, R. H. McCulloch, E. A. Horton, Charles Love and Manager Balaban, of St. Thomas Street Railway Company, W. Caughell and W. G. Mills, of Yarmouth, and James MacKenzie, of Union.

LOCOMOTIVE EXPLODES
 Continued from Page One.

been forty years or more associated with the company. When a late afternoon he entered the service of the company. He became a fireman, and over 25 years ago he was later made an engineer. He drove out of Brantford for a number of years, and was transferred to Sarnia, where he worked for some time. About fifteen years ago Mr. Rutherford came to London, and had been driving out of this city ever since.

He was killed by a locomotive which ran over him some time. Last night his family waited and waited for his return, but in vain. About 2 o'clock this morning they were informed of the accident. He is survived by a widow and one daughter.

Fireman Robertson.
 Fireman Robertson has only been on the track a week with Engineer Rutherford, and is a young married man. Conductor MacAuliffe was in charge of the run, and he escaped without injury.

Baggageman S. Finch received a bad shaking up, but nothing serious. He was reported at one time that he was killed, but this story happily proved to be foundationless.

Fireman Robertson was brought in to Victoria Hospital, where he is being treated by the city's medical staff. Robertson is terribly scared, and his physicians say he will die.

DYNAMITE IN PIPE
 Blows Up as He Smokes and Tears Off Three Digits.

Toronto, Oct. 29.—John McConnell, a young man who says his home is in New Toronto, was not aware that he had anything more than an ordinary smoke coming to him when he lighted his pipe last evening.

McConnell is used to handling dynamite. Whether that familiarity had given birth to carelessness or not, he is not prepared to admit, but he does believe now that when he filled his pipe last night he must have worked a dynamite cap in with the tobacco. He had taken a few puffs while walking along the street and was carrying the pipe in his left hand when there came an explosion which blew the pipe to pieces and left him with three badly lacerated fingers. He hastened to the Western Hospital, where it was necessary to amputate the three digits at the first joint.

DUMA STAYS CONSERVATIVE
 Result of First Set of Federal Elections in Russia.

St. Petersburg, Oct. 29.—The first set of the final elections of members of the third Russian Parliament from St. Petersburg has been completed. The results of the later elections are conceded to be much more favorable to the Constitutional Democrats than other opposition parties, and enough to alter fundamentally the conservative nature of the third Parliament.

UTES THREATEN TO FIGHT
 Say They Will Go to War Rather Than to Work.

St. Paul, Minn., Oct. 29.—A special to the Pioneer Press from Pierre, S. D., says that parties from the Cheyenne Indian agency last night reported that troops are marching toward the Ute camp, and expect to reach there tonight or Wednesday.

The Utes, the dispatch says, are well armed, and say that they will fight if any attempt is made to compel them to work or to send their children to school.

A special from Sturgis, S. D., says that late reports indicate that the Sioux Indian police already have the Indians under control.

UMPIRES GO ABROAD
 O'Day and Sheridan Spend World Series Money in Ireland.

New York, Oct. 29.—Jack Sheridan and Hank O'Day, the star arbiters of the American and National Leagues, will sail today for a tour of Europe, with a visit to the "Old Sod" as the principal object. The two umpires prepared this morning to leave for Ireland, though the Continent will also be looked over. From their trip to Europe is merely incidental to the visit to the Emerald Isle.

DON'T NEED A CENSOR.
 Montreal, Que., Oct. 29.—Some time ago Archbishop Bruchési and a number of Protestant clergymen requested the city council to appoint a theatrical censor to prevent the production of improper plays. The matter was referred to a committee, which now has prepared its report for presentation, showing that censors are not needed, but that such matters might very well be left to the chief of police.

HITCHCOCK ARRESTED
 GIRLS ACCUSERS
 The Famous Comedian Taken Into Custody at New York.

New York, Oct. 29.—Raymond T. Hitchcock, one of the best known American comedians, and now a star in "A Yankee Consul," at the Astor Theatre, was yesterday afternoon arrested on a felony charge made by agents of the Garry Society, as guardians of Elsie Voeckels, 12 years old. On reaching the corridor outside of the district attorney's office, whether he had been summoned, Hitchcock was met by Assistant Superintendent Thomas Moore, of the Garry Society, who is a state officer, and who placed him under arrest. Hitchcock was held in \$5,000 bail.

Besides Elsie Voeckels, there were two other little girls in court. They had been under the care of Garry Society since last spring, when they were found living with two other girls in a furnished flat in the Upper West Side. The three told remarkable stories of their acquaintance with an actor, who, they said, had first taken them to his home at Great Neck in an automobile, and of their many visits to a room he rented in a house "with stained glass panes" in Twenty-seventh street, just off Broadway.

Hitchcock is Elsie Voeckels, 15 years old, and Flora Wagon, 13 years old.

WAS POLSON POISONED?
 May Have Died Through Poisonous Compound in a Drug.

Toronto, Oct. 29.—The stomach of P. Polson, head of the shipbuilding firm, who died yesterday, will be examined by Provincial Analyst Ellis to determine whether or not Mr. Polson's death was due to poisoning. Mr. Polson has been for some time a sufferer from acute indigestion and recently he received a prescription from Dr. Polson, head of the shipbuilding firm, who died yesterday, will be examined by Provincial Analyst Ellis to determine whether or not Mr. Polson's death was due to poisoning. PIANOS ARE LIKE PEOPLE

In that they possess an individuality. Some pianos create a most favorable impression at first, but on intimate acquaintance prove deceitful—tone deteriorates action becomes unreliable, etc.

But the "Nordheimer" proves a trustworthy, life-long friend. It is built on honor. The pure, sweet, sympathetic tone is a permanent feature and its wonderfully elastic action is lasting. It's an investment you'll always be glad you made.

BELTZ PRACTICAL FURRIER

Painfully Injured.
George McKenzie was painfully injured at the car shop yesterday by being struck by a piece of shaffing. Dr. Becker was called and found that Mr. McKenzie had sustained a serious scalp wound and injuries to his arm. Adams—Johnston.

Miss Margaret Johnston, daughter of Mr. George Johnston, of London, and Mr. William Adams, of this city, were married on Monday evening by Rev. Herbert McKenzie. The bride and groom were assisted by Mr. and Mrs. Adams, Mr. and Mrs. Adams will reside on Ottawa avenue. St. James' Church Social.

A very pleasant evening was spent in the schoolroom of St. James' Anglican Church, South London, last night, when the members held a social. The programme included a quartette composed of Misses Sanborn and Oliver and Messrs. Switzer and Willgoose; song by Captain Robson, recitation by Mr. Alexander, song by Miss Oliver; and a clarinet solo by Master L. Davis.

Hornby—Scott.
The wedding took place at the Wellington Street Methodist parsonage last night of Miss Annie Scott and Mr. Francis E. Hornby. Rev. James Livingstone performed the ceremony. The bride was assisted by her sister, Miss Alice Scott, while Mr. J. Ross supported the groom. Mr. and Mrs. Hornby will reside in this city.

Interesting Lecture.
An interesting lecture was given in Dundas Center Church by Rev. Dr. Courtoise, of Toronto, on the "Life of Christ." The lecture was the third in a series which is being given, and last night the speaker dealt with the work of Christ while in Judea. A number of Sunday school students were present, and many interesting questions were discussed and explained by Dr. Courtoise.

Pleasant Evening.
A delightful programme was given by the members of Companion Court Joy, No. 362, L. O. F., in their hall, East London, last night. Mr. F. J. Darch, H. C. R., occupying the chair. The Misses Merryfield, Davidson and Gower gave some very nice solos; the Misses Jacobs, Angus and Dean gave readings, and Messrs. Adair and Parker rendered some very nice songs. The Misses Bisset and Wilmer gave instrumental. After the programme refreshments were served. The attendance was large.

Death of Mrs. Watcher.
Mrs. Watcher, widow of the late George Watcher, and sister of Mrs. Graham, of this city, died in Belmont on Tuesday evening of paralysis at the age of 65. Her husband predeceased her about three years ago. Deceased was the eldest daughter of the late John Campbell, of North Yarmouth, and is survived by her mother, who is in her 89th year, two sisters and four brothers: Dr. A. B. Campbell, of Orville, Ohio; James, of Belmont; John, of the old homestead, North Yarmouth; D. J. of Cowal, Dunwich; Mrs. Graham, of this city, and Mary, who resided with the deceased.

Interesting Relic.
The Elgin Historical Society has secured possession of a valuable historical relic in the shape of Col. Talbot's hand grinding stones. They consist of the medieval two large stones, one of which was set in a stump and the grain ground by turning around the top stone. They have for half a century been in the possession of Mr. Geo. McKay, who recently sold his farm on the Lake road, Southwold, and removed to Dutton. Mr. McKay sent the primeval grist mill to County Police Magistrate Hunt to be placed in the museum here, which has been done.

Married in Los Angeles.
Mr. William George Logan, late of this city, and now of the Rodden Drug Company, of Los Angeles, Cal., was married on Oct. 9, to Elsie Myrtle Jackson, of Toronto. The ceremony was performed by the Rev. Frank Dewitt Talmage, in the First Presbyterian Church, corner Twentieth and Figueroa streets, Los Angeles. Mr. and Mrs. Logan are spending their honeymoon at Santa Catalina Island, Long

Beach, Venice, Ocean Park, and other southern points, and will be at home to their friends at Hotel Bellevue Terrace after Nov. 1.

EPWORTH LEAGUES ELECT OFFICERS

Annual Convention Held Yesterday in Colborne Street Methodist Church.

A large number of delegates and members attended the annual convention of the Epworth Leagues of the London district, which was held in the Colborne Street Methodist Church yesterday.

A number of reports were adopted at the morning session, and at the afternoon and evening sessions many papers were read and discussed. Rev. S. T. Bartlett, field secretary of the Epworth Leagues and Sunday Schools, gave several interesting addresses. The election of officers resulted as follows: President, Dr. A. K. Reynolds; first vice-president, Mr. William Courtice; representative to the central executive meeting, Rev. D. E. Martin; treasurer, Miss Powell.

The London Masons Visit St. Thomas

The St. Thomas Journal of Tuesday says:

Arranged in purple and fine linen, members of Richard Coeur de Lion Precinctory, Knights Templar, of London, marshaled by M. E. Sir Knight Henry Roe, and marching to the music of the pipers, made a pleasing spectacle as they marched down Talbot street from the station of the Traction Company to the Masonic Hall, where they were heartily received by V. E. Sir Knight A. Leitch, president of Burleigh Precinctory. Among those present was R. E. Sir Knight Burleigh Burch, of Lambeth, from whom Burleigh Precinctory received its name, and the following Sir Knights, viz.: V. E. Sir Knight John Graham, V. E. Sir Knight J. Dambra, Sir Knights W. H. Abbott, E. S. Crawford, F. A. Andrews, A. W. Mann, A. Somerville, Dr. Cowen, Dr. Shaw, S. Baker, B. Noble, W. C. Southcott, G. S. Fuller, H. W. Lind, A. D. Holman, A. L. Davis, G. Wintbottom, J. H. Cook, R. D. Motterbottom, E. R. C. Struthers, J. Footitt; also present Right Eminent Sir Knight Burleigh Burch and Sir Knights Dr. A. Routledge and Dr. Routledge, sen., of Lambeth, and Eminent Sir Knight S. M. Scream, of Simcoe.

Burleigh Precinctory, V. E. Sir Knight A. Leitch, presiding, and its officers, conferred the Red Cross work upon Companion P. E. Williams, and R. E. Sir Knight C. W. McGinnis installed V. M. Sir Knight S. M. Scream, of Simcoe, grand director of ceremonies, and V. E. Sir Knight A. Leitch, of St. Thomas, grand master banner bearer, by order of the Most Eminent Sir Knight the Supreme Grand Master.

After closing the precinctory the Sir Knights, accompanied by the ladies from London, banqueted at Stevenson's, V. E. Sir Knight A. Leitch occupying the chair. After refreshments the following toasts were honored: "The King and Craft," National Anthem. "Sovereign Great Priory"—Replies from M. E. Sir Knight A. Campbell and R. E. Sir Knight C. W. McGinnis. "Visitors"—Replies from Sir Knights A. Andrews, Thomas Bows, John Graham, Dr. Routledge and Dr. Cowen. "Burleigh Precinctory"—Replies from V. E. Sir Knight Leitch and Roe, after which came "Auld Lang Syne" and the National Anthem.

The London Sir Knights were accompanied by the Highland Band, who paraded Talbot street, to the edification of the public generally. They came and returned by the Southwestern Traction Railway.

SARNIA'S TAX RATE

Will Be 21 Mills—Missing Man's Body Found in the River.

Sarnia, Oct. 29.—It is announced that the marriage of Miss Anna May Strangway, daughter of Mr. and Mrs. George Strangway, to Walter James Finch, will take place at the residence of the bride's parents, George street, at high noon, Wednesday, Oct. 30.

Mrs. Mary Elizabeth Kirkpatrick, wife of W. J. Kirkpatrick, died at the family residence, 707 Water street, this morning, after a long illness from tuberculosis. The funeral will take place on Thursday afternoon at 2 o'clock.

On Friday evening Miss Stephenson, Miss Harrison, Miss Read and Miss Montgomery, nurses in training at the Sarnia general hospital, will receive their diplomas. Graduation ceremonies take place in the nurses' parlor. Friends of the young ladies and those interested in the hospital are invited to be present.

The body of James Cook, aged 24 years, who was drowned off the dredge scow opposite the Piers-Marquette wharf on the night of Oct. 17, was found in the river at Corunna last night by the keeper of the range lights in that vicinity. Coroner Dr. Ferguson, of Courtright, will hold an inquest.

In presenting to the town council the financial report for the coming year, Mr. Johnston said last year the financial year extended over 12½ months, while the committee appropriations were only for twelve months, consequently every committee's account was overdrawn. The smallpox epidemic cost the town about \$1200, while the cost of the Piers-Marquette wharf on the night of Oct. 17, was found in the river at Corunna last night by the keeper of the range lights in that vicinity. Coroner Dr. Ferguson, of Courtright, will hold an inquest.

Comfortable rubber-tired carriages for theater. Hueston's Livery.

All kinds vegetables fresh daily. F. E. Smythe, Grocer, corner Richmond and Hyman. Phone 1291.

After closing the precinctory the Sir Knights, accompanied by the ladies from London, banqueted at Stevenson's, V. E. Sir Knight A. Leitch occupying the chair. After refreshments the following toasts were honored: "The King and Craft," National Anthem. "Sovereign Great Priory"—Replies from M. E. Sir Knight A. Campbell and R. E. Sir Knight C. W. McGinnis. "Visitors"—Replies from Sir Knights A. Andrews, Thomas Bows, John Graham, Dr. Routledge and Dr. Cowen. "Burleigh Precinctory"—Replies from V. E. Sir Knight Leitch and Roe, after which came "Auld Lang Syne" and the National Anthem.

The London Sir Knights were accompanied by the Highland Band, who paraded Talbot street, to the edification of the public generally. They came and returned by the Southwestern Traction Railway.

SARNIA'S TAX RATE
Will Be 21 Mills—Missing Man's Body Found in the River.

Sarnia, Oct. 29.—It is announced that the marriage of Miss Anna May Strangway, daughter of Mr. and Mrs. George Strangway, to Walter James Finch, will take place at the residence of the bride's parents, George street, at high noon, Wednesday, Oct. 30.

Mrs. Mary Elizabeth Kirkpatrick, wife of W. J. Kirkpatrick, died at the family residence, 707 Water street, this morning, after a long illness from tuberculosis. The funeral will take place on Thursday afternoon at 2 o'clock.

On Friday evening Miss Stephenson, Miss Harrison, Miss Read and Miss Montgomery, nurses in training at the Sarnia general hospital, will receive their diplomas. Graduation ceremonies take place in the nurses' parlor. Friends of the young ladies and those interested in the hospital are invited to be present.

The body of James Cook, aged 24 years, who was drowned off the dredge scow opposite the Piers-Marquette wharf on the night of Oct. 17, was found in the river at Corunna last night by the keeper of the range lights in that vicinity. Coroner Dr. Ferguson, of Courtright, will hold an inquest.

In presenting to the town council the financial report for the coming year, Mr. Johnston said last year the financial year extended over 12½ months, while the committee appropriations were only for twelve months, consequently every committee's account was overdrawn. The smallpox epidemic cost the town about \$1200, while the cost of the Piers-Marquette wharf on the night of Oct. 17, was found in the river at Corunna last night by the keeper of the range lights in that vicinity. Coroner Dr. Ferguson, of Courtright, will hold an inquest.

Comfortable rubber-tired carriages for theater. Hueston's Livery.

All kinds vegetables fresh daily. F. E. Smythe, Grocer, corner Richmond and Hyman. Phone 1291.
