Six of Them Sign Docu- SECOND WELL IS ment Corroborating Mr. Nelles' Charges

A REPLY TO DR. HUTCHINSON

Mr. Nelles Takes Issue With the Medical Health Officer and Chairman of Board of Health.

To the Editor of The Advertiser: Dr. Hutchinson (very injudiciously, I think) persists in his defense of the smallpox pest-house, in spite of the most conclusive evidence of the truth of statements made concerning that unlovely place made by myself and

The smedical health officer claims that since the building was erected, in 1906, I understand, from thirty to forty patients have been treated there. and that this is the first time any complaint has been made. I would ask him if that is the case, what must now be the condition of the place, which, while it is not in uyse, is kept air-tight and sun-proof. If under such efreumstances it has not become a pest-breeding hole, then have misread what medical men have written on the subject.

Dr. Hutchinson grows facetious over the case of the delirious patient, who he says, was merely suffering from colic, the result of over-eating. The patient I referred to in my letter is Mowat McIntyre, who was so seriously end. ill that Dr .Hutchinson himself told me that he despaired of his life. For three nights he raved in delirium. In the room with him was young Harris Mills, 14 years of age, who became so frightened that on the second night he took with him to bed for his protection an iron bar, which had been used to keep windows up in the daytime. Yet this poor, delirious and apparently dying young fellow was left there for days and nights without medical aid or attendance.

someone is censurable here! It has been stated that the building cost from \$1,000 to \$1,500. I would draw attention to the fact that it has never been completed: there are no window easings on the inside, the result being that on cold days the patients find the place is anything but the paradise Dr. Hutchinson pretends it is. The roof Young Liberal Club Will Give is also in a very leaky condition. As one patient has said, "when it rained he could lie in bed and get a bath without any trouble.'

Dr. Niven indorses Dr. Hutchinson's statements in every particular. Let me convict Dr. Niven out of his own mouth. In an interview published Dec. 30, headed "Shocking Conditions at the Pest House," the doctor, as chairman of Monday evening, Feb. 1. the board of health, drew attention to pital," and after describing the place, down there." I leave it to Dr. Niven for visitors. himself to reconcile his conflicting

CREW SAVED BY HEROIC WORK

Foundering Comes So Suddenly That Sailors of U.S. Cutter Face Peril To Rescue.

New York, Jan. 25.—The White Star steamer Baltic, bearing 1,650 passengers from the steamships Republic and Florida, which were in collision on Saturday, was anchored off the Ambrose Channel lightship at the entrance to New York harbor early today, waiting for the fog to lift to stricken vessel until night, safe on the revenue cutter Gresham, anchored off Vineyard Haven, Mass., the last chapter of the sea drama of Saturday, which cost six lives, was thus drawing to a close, There was a heavy fog down the bay this morning and all vessels groped their way with caution. For this reason it seemed probable that the Baltic would be late in coming up to her pier. Whether the crew of the Republic would be transferred to the Republic, which on Saturday sank off derelict destroyer Seneca or whether they would land near Vineyard Haven was not known, although it was thought that they would come to New York on the Seneca. The six dead and two injured on the Republic make ties, but the Republic having sunk will either be a total loss or very heavily damaged.

A Passenger's Story.

Quarantine, Staten Island, Jan. 25 .-As the White Star liner Baltic lay at sages of inquiry to the offices of the ast of the Ambrose Channel lightanchor in the darkness three miles White Star Line in New York and ship, seemingly at rest after her exto be safe and had been taken on the hours, the Associated Press tug crept The Advertiser and give you the votes, steamer Baltic and would arrive in alongside her great hulk and through megaphones hurled halloes repeatedly Up to noon Mr. Smallman had re- up the liner's side. Although lights

KIDNEY DISEASE COMES ON QUIETLY.

Perhaps no other organs work harder than he kidneys to preserve the general health of the body and most people are troubled with some kind of Kidney Complaint, but do not suspect it. It may have been in the system for some time. There may have been backaches, swelling of the feet and ankles, discurbances of the urinary organs, such as brick dust deposit in the urine, highly colored scanty or cloudy urine, bladder pains, frequent or supressed urination, burning sensation when urinating, etc. Do not neglect any of these symptoms, for, if neglected they will eventually lead to Bright's Disease, Dropsy and Diabetes. On the first sign of anything wrong Doan's Kidney Pills should be taken. They go to the seat of trouble, strengthen the kidneys

kidney trouble. Miss Albertha B. Clarke, Stony Creek, Earl of Leicester, was the patriarch of Ont., writes: "I was troubled with kidney trouble for coveral years; my back was weak, I had such terrible headsches, and was so restless I could not sleep at night and tried everything without any benefit. Meantime a friend advised me to try Doan's Kidney Pills, so I got four boxes and they completely cured me. I now feel as well

THE DRAMA OF THE WIRELESS.

There is nothing in maritime history like the drama enacted before dawn miles off Nantucket

In a dense fog, with only half a minute's warning, the Italian steamer in his department-which the report Florida drove its steel bow into the describes as a long step in advanceside of the great White Star liner, the and created an adequate system of Republic, bound for the Mediterranean with 742 souls aboard

Almost instantly from the mast of darkness and the fog the invisible and mysterious current which carried the story of the calamity to the land, other ships plowing the Atfew minutes, five great ocean liners, the Baltie, the New York, the Furnessia, the Lucania and La Lorraine speeding toward the wounded nearest of signal of distress All day and night the wireless kept whispering more and more of what was going on away out in the fog off Nantucket-fragments of news, shreds of fact, surmise, shrewd guesses-how the Florida buried its head in the starboard plates of the Republic; how the passengers scrambled aboard the Italian boat as best they could: how the Republic, terribly crushed settled lower and lower in the water; how its captain and officers stayed on board; how the wireless operator glued himself to his key and ounder, receiving and sending, send ing and receiving, catching every tiny whisper of hope and encouragement liners raced up one by one, searching through the grey void for two troubled ship, and how finally the Baltic loomed alongside and took the passengers from the overloaded Florida. There is nothing in fiction, nothing in the literature of the sea, approaching this. The reality exceeds the scientific imaginsuch an achievement was undreamed of. Verily, we are living in a wonder-

BRITAIN'S UNEMPLOYED PROBLEM.

The royal commission, to which was submitted some time ago the problem of the unemployed in the United Kingdom, has completed its labors and renthe question in all its bearings, and recommends as a partial solution that the Government undertake afforestation on a large scale—the planting of trees on ground now lying waste, which is not available for agriculture.

It is estimated that there are 9.000 .-000 acres which might be so treated-6,000,000 in Scotland, 2,500,000 in England and 500,000 in Ireland-which would eventually yield an income of \$37,000,000. Eighty years is the period named for the completion of the work, year the forests would be self-supporting. To afforest 150,000 acres each year sels are pleas for the better payment would, it is estimated, cost the country of public servants. \$10,000,000, but the result would be to give temporary direct employment during the winter months to 18,000 men

Such a scheme would at best be only palliative. One of the chief causes of answer is that no party claiming to be unemployment is the diversion of too behind a bad custom, simply because it many people from the cultivation of is a custom. The duty of a Reform party the soil to the manufacturing establish- ate them. ments of the cities and large towns with the result that an unduly large proportion of the population is adversely affected by every wave of industrial depression. Any solution to be permanent must provide for the revival of agriculture. Hundreds of thousands of acres of land are locked up in the parks of the aristocracy merely for the pleasure they afford their owners. Me from my course; if I may lead Put under the plow these lands would I shall be worthy; high or low, afford employment and sustenance for scores of thousands of people, and would add greatly to the wealth of the country. Of course, the owners would But, having served a while, and learned resist any attempt to disturb them in the enjoyment of their hereditary possome means can be devised of compell ing them to leave their holdings open

REVIEW OF BUILDING IN CANADA DURING 1908 FIGURES FOR LONDON AND THE DIFFERENT CITIES

Canadian Publication Makes Comparisons Which Are of Much Interest to Londoners---Review on the Whole Is Very Satisfactory to Canadians in General---Phenomenal Growth in Some Districts Is Noted.

A review of the building operations for both the month of December and the year 1968 shows a much more wholesome and satisfactory condition throughout Canada than even the most sanguine had anticipated. Comparative figures as supplied "Construction" from fifteen representative cities, and which can be accepted as a reliable basis for estimating the amount of work carried on in various sections of the Dominion, while placing the loss for the year at 14.03 per cent, records a substantial gain in ten cities submitting comparative figures for December, over the corresponding month of 1907.

In view of the unprecedented activity of the preceding year, and considering the uncertain prospects early in the season, when, owing to the depressed condition of the money market, much proposed work was either abandened or laid over, these figures speak volumes for the building progress of Canada; and had Kingston and London supplied figures for 1907, to permit of ascertaining their relative gains, the loss per cent on the year, as given, would have been materially reduced, as both of these places prospered to an unusual degree in the past twelve months.

The largest decrease noted for the year's work is in the case of Stratford, where the falling off amounted to 78.71 per cent, and the next largest decrease that of Brantford, which is given as 58.55 per cent. Toronto, while suffering a decrease of 12.50 per cent, the smallest loss recorded, still bears the palm for the greatest volume of business, having issued permits for new buildings for \$12,447,467, as against \$24,225,800, for

On the other hand, the phenomenal growth of Fort William is strikingly reflected in a gain of 95.09 per cent, which places this city at the head of the list for increased building operations during the year. Not only has this city virtually doubled her total, but the amount of work in prospect at the present time indicates that 1909 will see another record-breaking total.

Halifax has also finished the year with a substantial total, having an increase of 25.80 per cent, to her credit, while the only other two cities reporting, which have exceeded their figures for 1907, are Edmonton and Vancouver, the gain in each case being 11.82 per cent, and 5.83 per cent, respectively. Montreal, despite the favorable condition prevalent during the latter part of the summer and throughout

the fall, was unable to overcome the slump experienced earlier in the season, and records a loss on the year of 29.77 per cent; while Victoria fell short of equalling the preceding year's figures by only 12.66 per cent. It is, however, in a recapitulation of statistics for the month of December that we find the most gratifying results as regards the present building situation throughout the country, and more especially so in view of the fact that they not only indicated that business confidence in general has been fully restored, but because they point out in an unmistakable manner the vast amount of work that is being carried on in the very midst of winter, when everything in the building line is supposed to be at its lowest ebb

ONLY TWO SUFFER LOSSES.

Of the ten cities supplying comparative figures, only two suffer losses, Regina and Vancouver, the decreases each case being 50.67 and 60.38 per cent respectively. Vancouver, however, it will be noted, is ahead on the year's work, and the figures in general show the west to be in a most flourishing condition, several- of the places naving more than doubled and trebled the amount of work done in the same period of 1907.

Calgary's phenomenal gain of 515.61 per cent places her in the premier position, with Victoria a close second, with an increase of 482.81 per cent in her favor. Winnipeg also registers a handsome advance of 140.26 per cent, while Edmonton and Fort William are ahead of the month of December, 1907, by 11.86 per cent, and 55.02 In the eastern portion of Canada, Halifax still continues to add to the monthly increases made throughout

the summer and fall, by recording a gain of 132.98 per cent, while the increase shown by Montreal's figures, that of 141.37 per cent, make plain that the building condition in the Canadian metropolis is not only satisfactory,

TORONTO.

Toronto also shows a healthy increase of 16.47 per cent for the month, and there is every assurance that operations in the building line in that city; during the coming year, will be carried on most actively, The monthly and yearly report of St. John, N. B., which was received too late to be inserted in the following table, while showing a decrease of 41.21 per cent for the year, and a loss for December of 88.46 per cent. states

the outlook as being "fair." Reports from the other cities, as regards future prospects, and which strongly presage a recordbreaking year, are: Brandon, "Cannot say with any degree of assurance." Calgary, "Very promising." Edmonton. 'Look for a very brisk season in the spring." Fort William, "Very bright and promising." Kingston, "Fair." London, "Very fine." Montreal, "Building operations are expected to open up very good in the spring." "Better than for year just passed." Vancouver, "Were never better; looking for an exceptionally good year." Winnipeg, "Bright."

critically. "You look like something today," she said encouragingly. "I do believe you've gone on better since you sent the little boy away. There was reproof in her tone, but Suter answered almost gaily, "Well, yes, I

suppose I am." "You're well enough to have another visitor, I expect. How do you feel?" And Suter, opening his eyes. said, "Well enough. Oh, yes. I begin to feel as if I could enter for a prize fight. But who's the visitor? I don't know a soul in this place. Who is

"Oh, it isn't be, but she," said the nurse, with a little toss of her head, 'And somebody particular, I should say, from the way she's come every day to ask if she could see you." The color rushed to Suter's weak

forehead. A sudden light sprang to his eyes. "She," and so anxious to see him! It must be Violet! "Let her come in as soon as she calls again," he said hastily; and the nurse, watching grimly the signs of agitation on him, answered, "Oh, she'll come presently. She never misses a day.'

She walked away, thinking to herself, 'What a pity! She doesn't seem in his class exactly!"

Suter amused himself with bright dreams, and turned a hasty head to the door of the ward every time it opened. But the nurse brought his visitor at last, when he was not looking for her. They had reached his bedside while he lay with his back to them, and he had not heard the foctsteps. When nurse's "Here's someone to see you, Mr. Suter," fell on his ear, he turned rapidly.

But at the sight of the woman who stood behind her, his face fell pitiably. It was not Violet. It was no one he had ever seen before that he could remember. She was dressed neatly, and with a certain air of distinction, and she had a thick veil over her face. When the nurse walked away, she came close to the bedside and drew the veil up. Two sparkling, wicked black eyes looked into his, and a voice said, "I'm afraid you've forgotten me, monsieur!"

Then with a flash he knew her. It was Grace's French maid, Hortense. How odd to meet her here! Then, with a sudden thought, he said, "Oh, boy-a boy red-haired, freckled; as she here, then?"

Hortense shook her head demurely. a voice that choked she cried out to! to sav."

STORM AT CHATHAM.

Chatham, Ont., Jan. 23. - This city and neighborhood experienced a severe electric storm this morning just before daybreak. The lightning was very vivid and the thunder terrific.

Everything She Ate SEEMED A BURDEN TO CARRY.

HAD STOMACH TROUBLE FOUR YEARS.

When your food has not been properly in two weeks, or money back.

digested, your body has not received the he knows that Parlsian s gastric juice have been confined entirely to pleasant and rejuvenating hair dressremoving the unmasticated undigested por- ing known. It makes the hair fluffy thereby only giving the blood a small percentage of nourishment with which to feed the tissues. Burdock Blood Bitters regulates the bowels, promotes perfect digestion, makes pure blood, tones the stomach, and thus restores perfect health and strength to the debilitated system.

Mrs. D. A. Francisco, Rossland, B.C., writes: "I was suffering from stomach trouble of the worst kind for about four years. Everything I ate seemed a burden to carry. I always arose in the morning with a sickening and feverish taste in my mouth and was also troubled with swellings in my hands and feet, which my physician said was due to the disordered state of my stomach. I tried everything that own use will, of course, choose the one which is likely to be the most prompt and was purchasable, and also consulted two or three physicians, but could find no relief until one of my neighbors told me of a wonderful cure by Burdock Blood Bitters. I used altogether ten bottles and am now perfectly cured. I wish to recommend B.B.B. to anyone who may be so unfortun. ate as I was. For sale by all dealers.

Fort Erie, Ont. How to Avoid the Dangers of a Cold.

Everyone must realize the dangers attending a severe cold, and that it is always prudent to remain indoors until the danger is past. Many, however, do not feel able to lose the time, and will be interesting in knowing the quickest way to break up a cold and to avoid the dangerous consequences which so often follow. Druggists who handle all kinds of medicines, and are familiar with preof medicines, and are familiar with pre-scriptions of the best physicians, know which medicines are the most successful, most effective. It has been observed more druggists use Chamberlain's Cough Remedy themselves and in their families than any other one similar preparation in use, and many of them have testified to its good qualities. Mr. E. M. Lyons, the leading druggist of Broadhead, Wis., says: "I have sold Chamberlain's Cough Benedy for the past five years and have Remedy for the past five years, and have yet to hear of the first case it has not relieved. I would not be without it in my own home."

The London Advertiser's Free European Trip

The Advertiser offers a trip to Europe during the coming summer to eight ladies, to be chosen by the readers of this journal. The party will visit England, Scotland and Ireland, and will spend a few days in Paris, France. The itinerary in detail will be published later on, and will cover as many points of interest as time will permit. It will include the great cities, with side-trips to historical spots within convenient reach. The opportunity is open to any lady 18 years of age or over on Feb. 1, 1909, resident in the city of London or in the counties of Middlesex, Lambton, Kent, Essex, Elgin, Oxford, Huron, Bruce and Perth.

It will be a journey de luxe: the members of the party will travel first-class on one of the best Atlantic steamships, and will be put up at superior hotels. They will be accompanied by a representative of The Advertiser, and in Europe will be conducted by an experienced guide. They will be under absolutely no expense; the cost, down to the smallest necessary item, will be borne by The Advertiser.

A ballot, good for one vote, is printed on page 2 of this issue. Other ballots may be procured with subscriptions; they cannot be purchased. The conditions of the contest are printed below:

NOMINATION BLANK

London Advertiser's Free European Trip.

Each candidate must be properly nominated and indorsed on the following blank, which does not count as a vote.

The names of the candidates nominated will be printed in The London Advertiser regularly.

We hereby nominate and indorse

(Name of Lady.) of (Address of Lady.)

(Who we know will be 18 years of age or over on Feb. 1 next), as the most popular lady in

District No (Name of Nominator.)

(Address.)

Conditions-Read Carefully Every candidate must be regularly nominated on the blank printed on this page, or on a similar blank fur-

nished by The Advertiser. Candidates may nominate themselves or their friends may do so for them. Each candidate must be indorsed by at least two responsible citizens in the town or county where she resides. The candidate must reside in the district or territory from which she is nominated, but she can accept votes from outside her district, anywhere in Canada or the United States. Any candidate removing from this dis trict or territory after being nominated will lose all votes received, and no candidate will be allowed to transfer

The right is reserved to withdraw the offer in any district where only one candidate is nominated o voted for.

Names of candidates who have been nominated properly will be published every day, if possible, with the number of votes such candidates have received. If the name of the lady you want to vote for is not in the list nominate her properly when you send your ballots, or before, if possible. Ballots sent in containing the names o candidates not regularly placed in nomination will be destroyed uncounted.

A ballot will be printed every day on Page Two of The Advertiser. This ballot will count for one it contains the name of any candidate properly nominated. Special ballots for cash subscriptions will be furnished when such subscriptions are paid. All ballots will be numbered and dated, and all ballots will be void unless received at The Advertiser office within fifteen days from date issued. The ballots must be sent direct to the EURO-PEAN TRIP DEPARTMENT, ADVERTISER, LONDON, ONT., postage fully prepaid Agents are not permitted to furnish special ballots to anyone, but they may take subscriptions to be forwarded to this office. When this is done, special ballots will be forwarded direct to the subscriber, who will fill in the name of the candidate to be voted for, and return the ballot to The Advertiser at once.

Subscribers paying cash will have their papers delivered by carrier where we have carrier service, by mail or through agent, as they desire. (See the list showing special value coupons on ballots for cash subscriptions.) Such cash subscriptions must be sent to EUROPEAN TRIP DEPARTMENT OF THE LONDON ADVERTISER. No employee of the Advertiser or member of an employee's family will be eligible as a candidate.

Any successful candidates shall have the right to name a substitute, subject to our approval, if unable to go herself. Such substitute must be named seven days before the date set for leaving London Any question or controversies that may arise will be settled by The Advertiser alone

All candidates must accept and agree to abide by the above conditions. To insure that all nominees in the smaller places shall have an equal chance with those in the cities, the territory has been divided into eight districts, and the candidate polling the highest number of votes in each dis-

trict will be chosen. District No. 1-All that territory inside the city limits, north of, and including both sides of Dundas street, and west of, and including both sides of Wellington street.

District No. 2-All that territory inside the city limits, east of, but not including, Wellington street, and north of, and including both sides of Dundas street. District No. 3-All that territory inside the city limits, south of, but not including, Dundas street, and east of,

but not including Wellington street. District No. 4-All that territory inside the city limits, west of, and including both sides of Wellington street and south of, but not including Dundas street.

District No. 5-The County of Middlesex, outside the city limits.

District No. 6—The Counties of Lambton Kent and Essex District No. 7-The Counties of Elgin and Oxford.

District No. 8-The Counties of Huron, Bruce and Perth

FARMERS ARE THINKING OF SEED

The Fine Weather Brings Forth Compton's Early, yellow Thoughts of an Early Spring.

PREVAILING PRICES OF THIS WEEK Learning, yellow

A List of the Quotations as Secured by an Advertiser Reporter Today.

The warm weather of the past week has set the farmers thinking seriously of seeds, particularly of grain varieties. Local seed men report that many in quiries are coming in daily, and that the spring rush will commence in earnest in about two or three weeks.

As it is impossible to quote grain a regular catalogue, owing to the fluc tuations in prices, many firms are issu ng weekly sheets to farmers. Oats and corn have probably the greatest run in this part of Ontario, while grass and hay seeds are in good demand.

Mammoth, White Dutch and Crimso clovers quoted in the schedule below are not used very extensively in Western Black Geonette oats which are quoted at \$1 15 a bushel, are used chiefly

barley seed it is not grown very extensively in this district. As to Prices.

The price of seed peas will in all probability advance materially within a short time, as last year's crop was a failure. The demand for beans is great in Kent and Essex, while there is but little call for them in Middlesex. Buckwheat is grown to a considerable

grown very successfully in the district morning at prices ranging from \$10 to in cooler places. Salzer's North Da- \$11 50 a ton. kota and Compton's Early are both grown north of here. The White Dent and manufacturers of breakfast foods.

Sweet Fodder.

Mammoth Southern sweet fodder corn gradually gaining favor, and the denand for it is increasing yearly. It must fed very carefully, however. Mr. John W. DEATH SUMMONS AGED PRIMATE

Anglican Archbishop Sweatman Passes Away at Toronto.

Toronto, Jan. 25. - Most Reverend Arthur Sweatman, M. A., D. C. L., LL.D., Archbishop of Toronto, Metropolitan of the Ecclesiastical Province of Eastern Canada, and Primate of All Canada, passed away at the See House on Howland avenue, about fifteen minutes after 1 o'clock yesterday afternoon. So quietly and peacefully did the end comethat those around the bedside could hardly tell when the last breath was drawn. The last brief period of consciousness had been early in the morning, when the commendatory office of the church had een said by Rev. Canon Macnab. At the time of the death those in the room were the family, Canon Macnab, Dr.

Harrington and the nurse

The primate's last public work was the consecration of Rev. Dr. Farthing as bishop of Montreal. He returned from Montreal a week ago Thursday, but the long journey, the strain of his important duties in Montreal and the severe weather had all together proved too much for him, and on arriving home he was confined to the house and unable to attend at the cathedral the following Sunday. On Monday, a week ago today, he took a chill and by Tuesday it had settled into bronchial pneumonia. It was then seen that owing to the archbishop's advanced age and weakness, that he would only have a fighting chance for his life. Two physicians and two nurses, besides the members of his family, were in constant attendance until his death. Everything that could be devised was done to preserve the life, but by Friday it seemed obvious that the efforts

would be of no avail. The Primate's Career.

The late Archbishop Sweatman was he son of Dr. John Sweatman, of Middlesex Hospital, London, England, having been born in that city on Nov. 19, from private tutors, later attending

widows meeting with the same tyran- School and curate of St. Stephen's,

Canonbury. Early in life the archbishop began his active Christian work, teaching in Christ's Church Sunday school, Marylebone, in 1849. While at Islington he founded the Islington Youths' Institute, where he not only aided in the secular teaching of the lads of the parish, but instructed them in the higher

things of life. It was in 1865 that the late Archpishop Sweatman came to Canada to fulfill the duties of head master of the afterneon and night, and played havoc Being an excellent mathematician he nobly and keep the missionaries in the Hellmuth Boys' College, London, Ont In 1871 the authorities of Upper Canada College, Toronto, offered him the mathematical mastership in that institution. This offer was accepted, but after a short stay he resigned his position, becoming rector of Grace

Church, Brantford, where he labored for two years. In 1874 the archbishop returned to Hellmuth College, London, Ont. Here he labored for some time to the great benefit of the college, but after being appointed canon of the London cathedral in 1875, he was named Archdeacon of Brant. In 1876 he was appointed assistant minister and acting rector

of Woodstock, and left London. On the death of Bishop Bethune the late Archbishop Sweatman was appointed third bishop of Toronto, his consecration taking place in Toronto on May 1, 1879. In this year his lordship received the degree of doctor of divinity from Cambridge University, and that of D. C. L. from Trinity Uni-It was in 1907, upon the death of Archbishop Bond, that Bishop Sweat-

76TH ANNIVERSARY

OF THE CATHEDRAL A Splendid Sermon in St. Paul's

Last Night by the Rev. Mr. Davidson, of Guelph.

St. Paul's Cathedral was crowded it both the morning and evening serrices Sunday, when the seventy-sixth anniversary of the founding of the church was celebrated.

The preacher of the day was Rev. S. F. Davidson, M. A., rector of St. George's Church, Guelph, and in the evening he based his sermon on the text, Corinthians xi., I: "Be ye followers of me, even as I also am of

Christ." "The character of St. Paul," he said, "is one that has always appealed principally to the English-speaking peoples. Our theology has been more largely influenced by him than by any other writer. What St. Peter has been to the church of Rome, St. Paul is to the English Church. When the temple of Diana at Ephesus was overthrown Irish Emigrant; XXIX, For a' That STILL IN JAIL of Diana at Ephesus was overthrown Irish Emigrant; XXIX. For a That in 610 A. It is no use to say in Chentu, China, preached in the Col-God He was a deceiver and a bad gave a most interesting account of his evening meeting only. man. There is no religion in a de- work. Mr. Stewart dealt at length with the rural and village life of the Chinese, their schools, their homes and their superstitions. He also told of their degradation and misery, and concluded with a hopeful outline of the in believing that all men are brothers good work that is being done by the Christian churches.

In the evening Rev. M. L. Pearson preached from the text, "Go ye into all the world," and showed that Christ was the first to take the view of the whole world being a philanthropic work for his church. There had been national reformers, but never whole world reformers. In concluding Mr. Pearson asked all to consider their personal responsibility in seeing that
