How for every thirs there is a time and a season, and then how does the glory of a thing rous from it, even like the flower of the gree. This is a trusten, but it is one of those which are continually forcing themselves upon the mind. Many years lines not passed over my head, yet during those which I can recell to remembrance, how many things have I seen flourish, pair away, and become togoties, except myself, who, in spite of all my endeavors, never cult forget any things I have known the time when a purillatic encounter between two noted champions was almost considered in the light of a national affair; when tens of thousands of individuals, high and low, meditated and broaded upon it, the first thing in the morning and the last thing at night, antif the great event was decided. But the time is past, and many people will say, thank God that it my all I have to may is, that the French still live on the other side of the water, and are still casting their eyes hitherward—and that in the days of pugitism.

Mesers, Cartis & Perkins,—For two years past I have been entirely prostrated with the Rheumatism; both of my knees were swelled to twice their original size—a large bunch came out on my breast bone, appearing like a part of the bone thrown out. Another bone was thrown out of my wrist. If short, I endured the most excrucinting pains for nearly three years. I obtained the beauting pains for nearly three years. HERE: IS THE PROOF.

There is no other remody that claims to subdue the cruet pains of pain in reconds, minutes, or even hours. They require the patient to use dose after dose before a favorable change is promised. Not so wish Endway's Ready Relief. Its effects are instantaneous; the first those that is taken; or the first external application, communical in great wirks of relief from pain.

Taking COLD.

This sentence is constantly in the mouth of every person, in order to explain certain complaints. Those who use it often, we think, have but a faint idea of its precise meaning. We, will offer an explanation, which we believe to be the opinion of a majority of the most learned physicians. Aperson, for instance, has been over exerting any particular set of muscles—of the throat, from violent speaking—of the loins, by too much stooping or bending, or these or any other part of the budy: these parts or muscles are, consequently, weakened and relaxed, and become a fair prey for any disease. The person who has been thus acting, accidentally or otherwise, exposes himself to the odd air, the person that in the individual control of the body, is repelled inwardly, and is sure to settle in those parts which have been previously wearied and relaxed. Here, then, we have an accumulation of blood, a congestion, which sive rise to all he pain and stifflees attendant upon such complaint. When this takes place in the throat, we have an in the involuder-blade, side, and other parts.

RADWAY'S READY RELIEF,

Taken Internally and applied Externally.

In first action, when freely applied, is to blust the acute sensibilities of the nerves, and almost instautly relieves the pair, it is accondary action is to excite perspiration, and redden the parts over which it is applied almost to a glow, thereby determining the blood from the intured patts to the surface. In these cases, the READY RELIEF should be applied freely, in the same time rubbing the parts with a piece of flamed, and it will be found in every case to give immediate and perminent relief. N.B.—If convenient, a piece of flamed saturated with the RELIEF, and tied or pinned around the parts, does good service.

A BAD COUGH CURED IN TEN MINUTES.

Mr. Rigdon, of Brooklyn, the oclebrated Church Singer and Organ-Player, on the night of the 10th of December was attacked with a severe fit of coughing—so that he coughed from 9 o'clock until 12 o'clock, P. Mr. without three minutes intermissis—One of the Clerks of Radway & Co., who sleeps in the next room, got up and gave him a ten-aponousl of the Relief internally, and bathed his throat, neck, and cheet; he also saturated a piece of fismel with the Relief, and land it over his chest. In a few seconds the coughing ceased, he could expectorate freely, and raised with perfect case a great quantity of phlegan. The Relief instantly soothed the Trillation of the throat and cleast; and in ten minutes he was centirely free form pain, and sauk into a sound and pleneaut sleep. In the marning he was free from horazouras and cough, and has not been troubled since. Let every individual who is froubled with a cough, sore throat, influence, or houseness, pursue the same plan, and we will warrant them a speedy cure.
