FORTY-FOURTH YEAR

ASQUITH IS TIRED OF IT ALL

Report is Current That Premier May Withdraw From Office

Lloyd George is Conducting Negotiations With Nationalists

[By Special Wire to The Courier]
NEW YORK, March 13.—A cable to The Tribune from London says: Premier Asquith created something of a sensation by announcing in the House of Commons yesterday that he would make a general statement on his home rule proposals on Monday. In some quarters this gave rise to extraordinary reports that he had found the situation intolerable and was contemplating resigning the premiership. This rumor can without doubt be traced to his frank confession of weariness at the recent action of the chambers of commerce and to the fact that Mr. Lloyd-George is in charge of the negotiations now proceeding with the Nationalist Irish on the Irish crisis. All reports of the premier's impending resignation at this stage however, can be dismissed without reserve but his ready reiteration at this juncture is a sign of the high tension of the political situation. Mr. Asquith's statement on Monday will none the less be one of great importance, for it is understood that not only will it outline consequential changes in the home rule bill involved by the offer of Monday last, but will also announce the future action of the government in the now inevitable event of the opposition in the House of Commons rejecting the cabinet offer as it stands.

It has two days ago witnessed a great outpouring of opinion among the conditions of the government, and the extension of the suggestions advanced last Monday by the Premier and in the present temper of the Nationalists, as well as of the back bench Liberals, it is safe to say that Mr. Asquith could make no advance on his offer without splitting his followers.

They Endorse The Smasher

Official Militant Paper on the Action of Miss Richardson.

[By Special Wire to The Courier]
LONDON, March 13.—"Votes for women," the suffragette organ edited by Frederick and Emmeline Ethel Lawrence comments to-day on the mutilation by May Richardson of the "Robby Venus" in the National Gallery as follows:

"Miss May Richardson has thereby demonstrated once more that society rests upon mutual forbearance and consent and that if one section, however powerful, outrages the feelings of another section, however small, there are means of retaliation open to those who have been wronged which will be keenly felt by the community at large.

"Miss Richardson's action is of course widely criticized and condemned, but the real culprits are Premier Asquith and his government, who have taught women by precedent and example that they care nothing for equity or justice or the priceless traditions of liberty and that the only thing which influences them is a strong right arm, which can strike an irreparable blow."

George Westinghouse, The Air Brake Inventor, Dies Suddenly At New York—Succumbs In His 68th Year—A Great Career

NEW YORK, March 13.—George Westinghouse died suddenly here yesterday afternoon. He was 68 years of age, and was perhaps best known as the inventor of the air brake, which bears his name, and which revolutionized railroading in this country. The air brake which he invented is used throughout the civilized world and in almost every part of the globe there are great plants which he founded.

Mr. Westinghouse founded many manufacturing companies in this

Tremendous Quantity Of Pure Gas Is Found

Brantford Man Has 7000 Acres in Oil Spring District Where Gusher Was Struck.

Mr. W. J. Aikens has just returned to the city from Oil Springs, where he went to inspect the big new gas well reported to be giving 11,000,000 feet per day, and which was struck on the Fairbanks property. Mr. Aikens found the report of the well's production true and in no sense exaggerated. When seen to-day, he stated there was a great chance for Western Ontario being supplied with natural gas from this field, and it was pure natural gas, at that, and not the sulphur article. Last summer Mr. Aikens went to Oil Springs and secured 2000 acres of gas property, and he has also acquired interest in 5000 additional acres. He announces that with the Oil Springs Company development will proceed, and from indications there will be a tremendous supply available. Col. Towers, brother of Mr. A. S. Towers, of this city, is one of those interested.

YOUTHS LIVED ON FREE MEALS ALONE

Say They Subsisted on Food That was Handed Out To Them.

[By Special Wire to The Courier]
WOODSTOCK, March 13.—John Driscoll and Albert Lyke two Toronto youths aged 16 and 18 years are in the hands of the local police charged as vagrants. They were picked up on the G. T. R. tracks and as they were unable to give a satisfactory account of themselves were locked up.

They told the police that for the past two weeks they had subsisted on free meals provided by the Salvation Army at Toronto but when the free meals ended last week they had to get out.

More information concerning them will be found in the meantime the boys are remanded. The Y.M.C.A. boys classes from Stratford, London, Woodstock, Galt, Guelph and Paris, numbering about 120 will go into camp from June 24th to July 8 at Lakeside. The camp this year will take on something of the nature of a summer school. Complete arrangements will be made later.

Little Child Saved Niagara Falls Family

Called Neighbors, Who Found Three Overcome by Coal Gas Fumes.

NIAGARA FALLS, Ont., March 13.—The presence of mind of Loretta Driscoll, six years old, of Welland Avenue and Simcoe St., saved the family of four from asphyxiation. The child was awakened by coal gas fumes and tumbled out of bed and called for her mother. The woman fell to the floor unconscious as she attempted to reach a window, and the child raised it and called until neighbors responded. A physician was called. He found Mrs. Driscoll in a serious condition from inhaling the poisoned fumes, while two other daughters were also seriously ill. Loretta was not so sick, but all are under the care of the physician.

The door of a coal stove had been left open accidentally.

Donated a Cup
Through the kindness of Mr. Rob. Tench, proprietor of the Alfred St. curling rink, a handsome cup has been donated to the curling club for individual competition at the points game. Every member of the club has a right to compete, and already a number of games have been played. The competition will last for some time yet, and play will proceed every afternoon and evening. The player who stays through the competition receives the cup.

The United States Senate demanded an explanation of statements made by Ambassador Page at a London banquet.

George Westinghouse, The Air Brake Inventor, Dies Suddenly At New York—Succumbs In His 68th Year—A Great Career

country, Canada and abroad, including plants of Hamilton, Ont., Manchester and London, England. In the Westinghouse industries some 50,000 persons are employed and the many companies have a capitalization aggregating \$200,000,000.

In August, 1887 he married Margaret Erskine Walker, who survives him, together with one child, George, jr., who lives near Lenox, Mass. The son married Miss Violet Brocklebank, daughter of Sir Thomas and Lady Brocklebank, of Cumberland, England.

BIG RAISE IN STREET LIGHTING

Will Cost the City \$25,000 Per Year Under Hydro System.

Simply Matter of Book-keeping—Consumer Benefitted.

It has only been recently that the cost of street lighting under the Hydro Electric system has been arrived at and it is announced officially that the annual bill of the city will be something over \$25,000, an increase of over \$10,000 on the annual charge for the Cataract current for the same purpose. The price it is said, which is to be taxed against the city, is fixed by the Commission at Toronto. Some of the municipal authorities are somewhat staggered at the size of the bill, and criticism is being heard, if anything, extravagantly lighted.

In this connection, it is pointed out that a reduction in the number of magnetic arc lamps might have been made without impairing the utility in the slightest. Other Aldermen contend that the city is getting value for what it is paying, and the ornamental lights in the city are proving a great advertisement for the city. It is certain, however, that if the ornamental lights are extended over Brant Avenue, they will not be nearly as numerous as those in the central business section. However, whatever profit is made on the price of Brantford street lighting by the Hydro, ultimately goes back to the consumer in reduced rates. It is simply a matter of book-keeping.

AMERICAN WOMEN BLAMED FOR THE RISQUE STYLES

French Dressmakers Say That the Demand for These Clothes Are From Overseas.

[By Special Wire to The Courier]
LONDON, March 13.—The Daily Mail Paris correspondent, discussing the campaign of the Women's Patriotic League against extreme styles of dress gives an interview with a prominent French dressmaker, who is chiefly responsible for being innovative in fashions.

"The American and not the French women created the demand for risque dresses," the dressmaker is quoted as saying. "The French initiated the mode, but the Americans degraded it outrageously. The slit skirt and transparent corsage are made in nine cases out of ten for exportation. The Parisienne knows just how far to go, but for our American customers nothing seems too daring."

The campaign of the Women's Patriotic League against startling costumes is receiving unexpected support, even from leading dressmakers.

Immigration into Canada last year numbered 402,000, an increase over the previous year of 50,000; British people numbered 150,000 of these.

Brantford Capital Is Behind New Radial

A Line Will be Built From Pt. Maitland to Smithville—Will Get Dominion Charter.

Several prominent Brantfordites are interested in a big radial proposition and on Thursday next at Ottawa, will seek to secure a charter for the same with Dominion rights. The proposed radial is to run from Smithville to Pt. Maitland. The Brantfordites interested are Messrs. W. T. Henderson, W. J. Aikens, A. J. Wilkes, J. S. Hamilton and Lloyd Harris. The Charter, if secured, will be no paper one, it is announced, but the road will be built. Pt. Maitland is said to be the finest natural harbor on the lake and the radial running to Smithville would make a feeder for the T. H. and B. railway.

DOUBT ABOUT DUTY REDUCTION

Considerable Guessing at Ottawa as to What Will be Done.

[By Special Wire to The Courier]
OTTAWA, March 13.—A report that the government would cut the duties on agricultural implements gained currency in the corridors yesterday. The story is that the duties are to be reduced to ten per cent. This report is based on nothing in the way of definite information. The members have done some guesswork following the debate of yesterday and the prospective reduction is the result. This conclusion is in advance of any decision by the Government. The question of the implement duties will be considered and an announcement made when the budget is brought down if a change is to be made at all.

The question is a very large one, the term "implements" covering harrows, rollers, binders, mowers, plows, harrows, seeders, threshers and all kinds of traction engines. The agricultural implement industry according to the last census, provides employment for 6,000 men and pays out five million dollars annually in wages. It represents a capital investment of \$45,000,000, and an annual production valued at \$20,000,000.

The principal manufacturing establishments of this industry in Canada are located at Toronto, Hamilton, Brantford and Smith's Falls.

The budget will be brought down during the last week in the present month.

COMMISSIONER EVANS ARRIVES AT NEW YORK

Man Who Last Saw Captain Scott Alive to Tell Story of the Trip.

NEW YORK, March 13.—Commander Evans, Royal Navy, the last man who saw Captain Scott the Antarctic explorer in life, reached New York yesterday on the steamship Oceanic and went at once to Washington where he will, this evening, deliver the first of a series of lectures descriptive of his Antarctic journeyings.

Commander Evans told of the tragic arrival of the search party which had set out from the Terra Nova, Scott's ship, after his failure to return from his polar dash. Expecting to welcome the party Evans had decorated the Terra Nova as if for a gala occasion, with ribbons and flags flying. But as he stood on the bridge he described but one man on the shore who he made out to be Lieutenant Victor Campbell.

"Through a megaphone I called to him 'Are you all right?' We then came closer and I heard his reply: 'Captain Scott and party reached the South Pole on January 18 last year, but all were lost on the homeward march. We have the records.'"

Asquith Proposals Fairest Possible, Says Wm. Redmond To the Toronto Canadian Club—Adds That Neither Ulster Nor Nationals Will Accept

TORONTO, March 13.—William Redmond, M. P. for West Clare, Ireland, a brother of John Redmond, leader of the Irish Nationalists, addressed the Canadian Club last evening. He said that while Premier Asquith's proposal with regard to the counties of Ulster having the privilege of saying by popular vote, whether or not they should come under the Dublin Parliament would not satisfy either the Ulsterites or Nationalists, it was the fairest that could have been made.

He expressed confidence that neither the rights nor conscience or property should be interfered with in Ulster under an Irish Parliament. Mr. Redmond will leave tomorrow for New York to sail for England in time to vote on the second reading of the home rule bill, March 30.

NOTHING WILL STOP THE DEAL

Street Railway Purchase is Clear of All Legal Entanglements

Although Final Order Has Not Been Fortified By Signatures.

[By Special Wire to The Courier]
TORONTO, March 13.—While the purchase agreement between the Grand Valley Railway has not been fortified by the final order of the court, and signed by all the parties interested, Mr. Justice Middleton has approved of the terms, with some minor amendments, and the date of Brantford ratepayers' vote has been set.

The last and binding document is being engrossed, and notwithstanding the alleged discovery of additional assets, the City will acquire the Grand Valley's assets, exclusive of the Woodstock, Thames Valley and Ingersoll Line, at the figure given, and under the conditions already set for, subject of course to the Brantford voters and the Ontario Legislature. No opposition is expected from either.

"What if the receiver or some other party were to object and the sale fall through, what would be the City's position," the Courier asked to-day. "Such a contingency is improbable," was the answer, "but the City, I should think would ask the court to give effect, to the Judgment held by the Municipality." The committee appointed by the Bondholders of the Grand Valley is said to be somewhat displeased with the two things. One is the fixing of the receiver's remuneration at, it is reported, \$11,000. The other is the application by the majority bondholders of the Woodstock, Thames Valley and Ingersoll Railway, in which the Grand Valley owns the equity of redemption for the appointment of J. G. Wallace as trustee of the Woodstock-Ingersoll road. The Bondholders committee says it ought to have been consulted as an interested party.

As to the Woodstock-Ingersoll motion, counsel for the Bondholders committee has drawn the Courts attention to the Committee's point of view, which is that the committee should have been notified and that the costs threaten to be excessive. It is altogether likely therefore, that when the Woodstock-Ingersoll matter comes up again on Wednesday of next week, the Grand Valley bondholders committee will submit its side of the case. The committee was not represented yesterday. The Bondholders of the Woodstock, Thames Valley and Ingersoll Railway or most of them were present by counsel, but the counsel for the Grand Valley bondholders committee says he knew nothing of the proceeding to appoint a trustee until he saw the newspaper reports.

The City of Brantford is not interested in the Woodstock-Thames Valley and Ingersoll end of the controversy, but the Grand Valley bondholders declare that they are vitally concerned.

In short, this is Friday the thirteenth, and the Grand Valley case does not wane in human interest, even though the Brantford end draws to a close.

To Learn Millinery.

A course of millinery classes were commenced at the Y. W. C. A. last night when a number of young ladies were initiated in the mysteries of artistically trimming fashionable headgear. A very successful first night was held but the class will be limited to twelve members as to allow more entails inferior instruction, each girl receiving individual tuition.

British Naval Estimates Show A Decided Increase --Churchill Gives Figures

[By Special Wire to The Courier]
MONTREAL, March 13.—A special cable to The Daily Mail from London says:

"In Canada the government has not obtained parliamentary sanction for its proposal to build three armored ships of the most modern type at the charge of the Dominion and the development of the naval policy for Canada is consequently in abeyance." This comprises the only reference to Canada in Mr. Churchill's statement on the naval estimates last night.

The estimates now made confirm the forecasts previously made of a substantial increase in the year's expenditure upon the navy. The total asked for is \$257,500,000, an increase of \$13,750,000.

The new programme includes four battleships, four cruisers and twelve destroyers to cost £14,750,000, a decrease of four million pounds on this branch but the sum of \$15,000,000 is asked for the development of the air service.

There are now under construction 3 battleships, 17 cruisers, 30 destroyers and 24 submarines.

The naval estimates will apparently be accepted with resignation by the "little navyites," though there is some complaint that Mr. Churchill's explanatory memorandum is "cryptic and meagre, suggesting an attempt to hoodwink parliament."

"The shipbuilding programme is recognized to be 'an unprovocative minimum,' whilst the sum demanded is admittedly enormous, it is not large when compared to the national income and the value of the overseas trade which the navy guards."

While the Unionists urge that the naval estimates show a dangerous use of the pruning knife, The Daily News, undaunted by the admission of the leaders of the "little navy" party that the estimates are apparently not open to attack, points out that the estimates have grown sixty-six per cent., under the Liberal administration, despite the acceleration of shipbuilding, and declares that nobody knows what the building standard is. Mr. Churchill's successive pronouncements have only resulted in confound-

ing the Commons and burdening the nation.

The Daily Telegraph asks what of the three Canadian ships, which admittedly the Canadian parliament cannot furnish for sea till the spring of 1916. Mr. Churchill declared they were absolutely necessary to the empire's world requirements. "If there is a prospect of Mr. Borden's administration in the course of the next year or two being able to prosecute its splendid imperial purpose a partial explanation of the admiralty's modest demand will be supplied."

The Telegraph adds: "The heavy outlay which the maintenance of our sea power involves is heavy, and is becoming heavier every year. Whether we are to bear it without more generous aid from the Dominions, time alone will show, but if economy in national expenditure is inevitable, then any other service must be pinched before a necessary penny is taken from the navy."

The Daily News says that the naval estimates show that the admiralty has adopted a policy of complete reliance on the French navy's protection of British interests in the Mediterranean.

This involves corresponding land obligations, and we must prepare to

Set Clock Back One Hour Old Home Week

Another proposition which has been broached to some of the manufacturers regarding Old Home Week is the setting back of the city clock one hour for that week. In so doing the men of the factories would go to work at 6 a.m. instead of 7 o'clock, and quit at 5 p.m., thereby giving them a longer evening in which to join in the celebration. Then, too, the men would have more of a tendency to stick at their work for the whole day. By setting the clock back at that time of year ball games could be played, starting at 5.30 or 6 p.m., and the factory men would be able to see some good games without losing any time at their work.

The idea seemed to meet with favor from the manufacturers interviewed yesterday. One man said that if the men wanted it they could cut down another hour and quit at 4 p.m., giving them a 9-hour day. If the men objected to that, the head of the firm said he did not think it would bankrupt his firm to split with their men.

The canvassers were out yesterday and visited a number of factories, meeting with even greater success than they expected. They also interviewed the manufacturers regarding the "Made in Brantford" proposition, and in not one single instance did a manufacturer dissent. In fact, one manufacturer was so enthusiastic that he proposed that the different firms who exhibited go together and publish a book containing a description and short articles on each of the exhibits and the firms which manufacture them.

In every case, those interviewed were of the opinion that such a scheme would be the best advertisement Brantford could get.

LADIES GAVE A FINE CONCERT

Large and Appreciative Gathering in Brant Ave. Church.

The evening of Fun which was held at the Brant Ave. Methodist school room, was perhaps one of the most successful events ever held in the annals of that building. The audience packed the large schoolroom to the doors and extra seats were required and the gallery opened, and still the crowds came.

The evening of Fun, took the shape of a little sketch which introduced all the notabilities of the church and many prominent citizens found themselves the subjects of severe puns and received advice as to their future conduct. The scene was supposed to represent the reception hall of Mr. T. Harry Jones's home and his good lady was entertaining in honour of two guests, Mrs. Fitzhammond of Boston and Mrs. Miller of Toronto and the house party veers round until it is conducting a business meeting of the Ladies Aid of the church. Business is dealt with in a strictly business sense, according to a woman's idea, and after a great deal of talk concerning various unfortunate members who were unable to be present and considerable criticism had been hurled at the apparel of different ladies brought upon the scene of activities and as the little one had a cold every member of the Aid grew interested and offered recipes, adding to the quandary of the mother. There followed a discussion upon the way to bring up children in spite of the very pressing business of the Aid. The treasurers report showed with a balance of \$25, she ended up with a credit of \$3 after an entertainment had been given. In the sketch, great demands are made upon the leading characters and they, without exception, carried through the theme of the sketch without a hitch and the ladies are to be complimented for their neat and crisp presentation of the sketch. The ambitious Mrs. Fitzhammond of Boston, who is continually airing her views of how this and that is done in Boston, had a difficult role to sustain and she came through with flying colors. Mrs. Miller, Toronto, was excellently portrayed by Mrs. Lyons, whilst Miss Stephanie Jones as the ambitious Mrs. Fitzhammond of Boston, who is continually airing her views of how this and that is done in Boston, had a difficult role to sustain and she came through with flying colors.

The Courier is always pleased to receive notices of personal interest. Phone 1781.

Mr. George F. Whitney is spending ten days in New York.

Mr. and Mrs. Roy Secord have returned from Atlantic City.

Messrs C. E. Perigo, of Erie, Pa., and F. W. Burrows of Toronto are guests at the Belmont Hotel.

Prof. H. B. Anderson of Toronto University, was the guest of Dr. and Mrs. H. R. Frank, last evening.

The many friends of Mr. William Bonny, son of Mr. and Mrs. Henry Bonny, 114 Sheridan street, will be pleased to know that he has recently been promoted to the position of manager of the shoe firm of A. E. Siffley, Calgary, Alta.

A very successful gathering was held at the home of Mr. and Mrs. Fred Kerr of Eagle Avenue, when members of the Trinity Church Girls Friendly Society met and held a social evening. Games, songs and dances made a very pleasant evening's pastime.

The members of the Ladies' Aid of Alexandra church residing south of Colborne street convened yesterday at the home of Mrs. James Hazell, 152 Park avenue and made arrangements for a talent tea at the home of Mrs. Robert Balfour to be held in the near future. At the close of the meeting an enjoyable social time was spent.

The ladies Bible Class of St. Jude's Church met yesterday at the home of Mrs. Morrison, Oxford street when the officers for the past six months were re-elected. It was decided to send the missionary offering of the class to China. After business was transacted a social time was spent, the contest held in which the winners were Miss Edith Senn, Miss E. Bremner and Miss A. Burt. The meeting broke up, all delighted with the kind hospitality of the hostess.

Mr. and Mrs. J. W. Smith, 50 Erie Ave. last night entertained about 40 young people at their beautiful home. A very enjoyable evening was spent in games and music and speeches by Mr. R. H. Smith, and Rev. C. L. Loney. Miss Nellie Berry gave a splendid reading and Miss Kay pleased her hearers with a piano solo. A male quartette composed of Messrs A. Drake, L. Miller, Dr. Ferris and J. Drake, rendered a number of splendid numbers. The party broke up at a late hour after a vote of thanks had been passed Mr. and Mrs. Smith for their kindness.

ANNUAL SMOKER HELD LAST NIGHT

Canadian Order of Oddfellows Hold Forth in Grand Style at Their Lodge Room.

A very successful concert was held Thursday evening by the C. O. O. F. in their lodge rooms, where a goodly number of members and friends met together and enjoyed a splendid programme. The chair was occupied by Noble Grand Bro. Sweatman, who in introducing the program gave a short address, outlining the splendid condition of the order, both financially and fraternally. Mr. Jack Howarth was then called upon for a song, rendering in splendid voice His Majesty the King, and had to respond to a well deserved encore. Mr. Ted Foster was next called upon and gave a splendid piano selection, and he also had to respond to an encore. D.D.G.M. Bro. Mellor was then called upon for a speech, which was given in fine style, pointing out the benefits of the order in general and the local lodge in particular, showing the order to be financially second to none in Canada. Mr. W. J. Sweatman then gave a violin solo in good style, entitled "Tambour's Overture." Mr. Fred Jones was then called upon for a recitation and gave several splendid readings, having to respond to repeated encores. L. M. Bro. Beal was next called upon for a speech and in response stated as lecture master, he could say without fear of contradiction that the C. O. O. F. had one of the best rituals of any order in Canada. Bro. Tirrell now gave a very amusing reading and had to respond to a well deserved encore.

At this juncture, the chairman announced he had a very pleasant duty to perform, and requested D. D. G. M. Mellor to present P. N. G. Fisk to him. N. G. Sweatman, in a few but well chosen words, expressed his Bro. Fisk the high esteem in which he was held in Grand River Lodge, and that the Past Noble Grand's apron now presented, was a small token of their appreciation of his successful year as Noble Grand, hoping he would wear it with credit to himself and honor to the order. P. N. G. Fisk expressed his great surprise, and thanked the brethren most cordially. The chairman then announced the last item on the program, which number he felt sure would by this time be most appreciated, and that was the good things provided by mine host Mr. Crumback of the Tea Pot Inn. All responded in good style to the splendid repast and when all were satisfied, stood and

Annual Meeting Of Lady Golfers

The annual meeting of the ladies of the Brantford Golf and Country Club was held yesterday in the board room of the public library. The following officers were elected:

President, Mrs. Yates; first vice-president, Mrs. Ralph Reville; second vice-president, Mrs. Harry Hewitt; secretary-treasurer, Miss Cora Jones. SCOTLAND YARD IS NOW LOOKING FOR SPIES

Who it is Believed Stole the Code Book From the Warship at Shearneck.

LONDON, March 13.—Foreign spies yesterday were the quarry of scores of Scotland Yard detectives, dummy volume, bound exactly like the signal code book, was substituted for it, and for days the false book fooled official inspection.

The Queen Victoria Niagara Falls Park Commission decided to erect a quarter million dollar conservatory at Niagara Falls, Ontario.

DAILY FASHION HINT.

No. 6,586, Child's Coat. This early spring model is made with a body lining. It has a little shield at the neck and the opening is quite low, diagonal in line and trimmed with a shawl collar. The skirt portion is semi and closes at the side of the front. The overlapping edge is rounded at the bottom. The sleeve is plain and wide, finished with a cuff.

The coat pattern, No. 6,586, is cut in sizes 1, 2 and 3 years. Medium size requires 1 7/8 yards of 44 inch material with 3/4 yard of contrasting fabric. This pattern can be obtained by sending 10 cents to the office of this paper.

Eight days must be allowed for receipt of pattern.

Laid at Rest

Late Thomas Craig, a well known resident of the township died at the residence of his son last night. The deceased had been in failing health for some time and leaves to mourn his sad loss two sons and four daughters. The funeral arrangements have not yet been made.

The funeral of the late Mrs. Hannah Coulson took place yesterday from the late residence, 81 Terrace Hill street to Mt. Hope cemetery, when a large gathering of friends heard the last services conducted by Rev. A. I. Snyder. The pallbearers were Messrs. Johnson, McAdams, John English, J. W. English and T. English Sr. and English Jr. A large offering of floral tributes were received.

The following is a complete list of the characters and their interpreters: Mrs. Lavell, Mrs. S. X. Jones; Mrs. Lyons, Mrs. Miller of Toronto; Stephanie Jones, Mrs. Fitzhammond of Boston; Mrs. Schultz, Mrs. Preston; Mrs. Williamson, Mrs. Strong; Miss A. Ryerson Miss Harpe; Miss Lampkin, Mrs. H. Harley; Miss Gillespie, Mrs. Coates; Miss May Jones, Mrs. Shullis; Miss Grace Reynolds, Miss Noble; Miss S. Lee, Mrs. Kerr, Jr.; Miss Thompson, Mrs. Sweet; Mrs. Hagey, Mrs. Wickens; Mrs. Octaby, Mrs. Brewster; Mrs. McKenzie, Mrs. Slemm; Mrs. Patterson, Mrs. Breerton; Mrs. Ranson, Miss Thompson; Miss Noble, Mrs. Roberts; Miss Dorothy Hagey, Miss S. Jones; Miss McGregor, Miss E. Hughes; Miss Matthews, Miss Rose; Miss Wilma Jones, Miss Livingstone; Miss Pearce, Miss Agnew; Miss Britton, Miss Burns.

THE TELEGRAM FAVORS REDUCTION

West Should be Considered Relative to Farm Implementation Reduction.

[By Special Wire to The Courier] WINNIPEG, March 13.—The Telegram (Conservative) this morning advocates a reduction of the duty on agricultural implements.

Nuptial Notes

At the home of Mr. Glover, 288 Darling street, a quiet but interesting wedding was celebrated yesterday when Mr. J. C. Coles of this city was united in the bonds of matrimony to Miss Lily Tite of Lydlyndy, Dorsetshire, England. The officiating clergyman was Rev. Matthew Kelly, of the Congregational Church. After a honeymoon trip East, Mr. and Mrs. Coles will take up their residence in this city. Many friends will tender both heartfelt congratulations.

Guelph Socialists nominated Lorne Cunningham for the Legislature.

Gas Inspector Arrives in City

Mr. A. B. Lambe, commissioned by the Department of Internal Revenue, Ottawa, to investigate the gas situation in Western Ontario, arrived in Brantford today, and is registered at the Kerby House. He has been in Hamilton for a couple of days looking over the situation. This morning he held a conference with Mayor Spence, but was not communicative in any way, not having had time to arrive at any definite conclusions. The inspector will visit Galt, Paris and several other places, also the gas fields, before he will complete his report.

Here's Another, TORONTO, March 13.—Mr. and Mrs. James Clarkson and Mr. and Mrs. Wm. Clarkson, who live in Mimico, five miles west of here on the Lake shore road, celebrated last night their 40th wedding anniversary. The Messrs. Clarkson, who are twin brothers, were married on the same day, named Death. They have lived practically all their lives on the same street.

FOUND BABY ON THE TRACK

Child Was Not an Hour Old When Found—North Bay Discovery.

NORTH BAY, nt., March 13.—A new born baby was found wrapped in an old skirt under a freight car in the Canadian Pacific Railway yard. A workman heard a peculiar noise which seemed to come from a bundle of old clothes under one of the freight cars on a siding and investigation revealed the baby alive and kicking, not an hour old. The child was taken to the hospital and is doing well. Police investigation revealed the astounding fact that the baby had been born out in the open in the freight yard during the noon hour when the engine and the train were passing and a employee were at dinner. The mother, a slip of a girl of 17 wrapped her offspring in her undershirt, placed it under the car on the repair track, where the workmen would find it on their return from dinner and then walked half a mile to her parents' house.

A STRANGE CASE AT OIL SPRINGS

Undertaker Arrives, But Woman Who Was Thought Dead Sits Up.

OIL SPRINGS, Ont., March 13.—After being apparently dead for five hours, Joseph Campbell, a retired physician yesterday revived to a state of consciousness just as preparations were being made for her burial and is still alive, though in such a weakened condition that she will not live long. To all the attendants it seemed quite certain that Mrs. Campbell was in the other world and members of the household went about preparing for the sad rites of death. Undertaker J. F. Penfound was summoned and was entering the yard of the house when a servant ran out to tell him that he would not be needed for at least a week, as Mrs. Campbell had revived and was much better.

Travel Through Life Together

Two Very Remarkable Cases of Twins—One in U. S. and One in Canada.

LANCASTER, Pa., March 13.—The birth yesterday of twins, in both cases a boy and a girl, in the home of Rev. Nathan B. Yeager of Rohrerstown, and the Rev. Elbert E. Landis of this city, has called attention to a series of life parallels which are extraordinary.

Both ministers are Lutherans, and have been friends from boyhood. They entered Muhlenberg College at the same time and were room mates for four years. They were graduated in the same class and were stationed in Lutheran churches in the same country. They were married on the same day, and the wedding trips were taken together.

Their wives were girlhood friends. They entered the Kutztown Normal school together and were the closest of friends throughout their residence at that institution. Like the husbands, both were graduated in the same class, and both took up the profession of teaching, which they abandoned at the same time to become brides.

MARKET REPORTS

CHICAGO, March 12.—Altho wheat at this time today made a show of strength, the market ultimately fell under bearish control. Crop damage reports were plentiful, and there was a general feeling of uncertainty. The close was steady, but 1-4 to 3-8c net lower. Corn suffered a setback of 1-8c. Provisions varied from the same as last night to a loss of 2-12c.

Live stock market closed 3d to 3d lower, corn 3d higher.

Il Mission

The annual meeting of the McAll Mission was held on Thursday afternoon at the residence of Mrs. P. E. Verity, Charlotte street.

The beautiful spring day in contrast with those of the past two years permitted a much larger attendance than on former similar occasions. The programme which proved a choice one, was in the hands of the president, Mrs. Andrew McFarland. After the opening hymn was sung, Mrs. H. B. Beckett led in prayer, asking for God's special blessing on the meeting. Then followed the address by Mrs. John R. Kerr. Then followed a message in song by Mrs. W. R. Baird, Mrs. Wright's recitation, "The Silent Communion," touched everyone who heard it. Miss VanSomera introduced the McAll work by giving a most interesting paper on "Canada's Special Interest."

The address of the afternoon was given by Mrs. Charles Stark of Toronto. She proved herself a most interesting speaker and held the attention of every lady from beginning to end. Her own observations of the McAll work were told in such a way as to introduce to her hearers many of the foremost workers in that great work in Paris and to inspire in them a love for and an interest in that field of labor for Christ.

At the close of this splendid address Miss Grace Foster prayed most fervently for God's special blessing on the McAll work all over the world, and particularly on those who in Brantford are helping to forward it. A very liberal offering was received. Mrs. Elsie Enns's beautiful solo brought the programme to a close when a happy social hour was spent.

The officers for the coming year are: Hon. President, Mrs. C. Wheeland; president, Mrs. Andrew McFarland; first vice-president, Mrs. D. W. Miller; second vice-president, Mrs. J. Brown; third vice-president, Mrs. P. E. Verity; fourth vice-president, Miss Pett; secretary, Mrs. A. G. Olive; Treasurer, Mrs. Robt. Reid; leaflet secretary, Miss Wood.

Much of the success of the meeting was due to the P. E. Verity, who so kindly gave the use of her home

Il Mission

The annual meeting of the McAll Mission was held on Thursday afternoon at the residence of Mrs. P. E. Verity, Charlotte street.

The beautiful spring day in contrast with those of the past two years permitted a much larger attendance than on former similar occasions. The programme which proved a choice one, was in the hands of the president, Mrs. Andrew McFarland. After the opening hymn was sung, Mrs. H. B. Beckett led in prayer, asking for God's special blessing on the meeting. Then followed the address by Mrs. John R. Kerr. Then followed a message in song by Mrs. W. R. Baird, Mrs. Wright's recitation, "The Silent Communion," touched everyone who heard it. Miss VanSomera introduced the McAll work by giving a most interesting paper on "Canada's Special Interest."

The address of the afternoon was given by Mrs. Charles Stark of Toronto. She proved herself a most interesting speaker and held the attention of every lady from beginning to end. FOUND BABY ON THE TRACK

Child Was Not an Hour Old When Found—North Bay Discovery.

NORTH BAY, nt., March 13.—A new born baby was found wrapped in an old skirt under a freight car in the Canadian Pacific Railway yard. A workman heard a peculiar noise which seemed to come from a bundle of old clothes under one of the freight cars on a siding and investigation revealed the baby alive and kicking, not an hour old. The child was taken to the hospital and is doing well. Police investigation revealed the astounding fact that the baby had been born out in the open in the freight yard during the noon hour when the engine and the train were passing and a employee were at dinner. The mother, a slip of a girl of 17 wrapped her offspring in her undershirt, placed it under the car on the repair track, where the workmen would find it on their return from dinner and then walked half a mile to her parents' house.

11 Acres

We have received for sale a 11 acre property situate near Mt. Pleasant. The soil is good sand loam. Buildings consist of frame 11-2 storey 9 roomed house, barn 18x30 with stable under. There is a good orchard of 25 cherries, 30 apples and strawberries. Price, \$3200. Terms, \$500 or more down, balance at 6% per annum. Possession at once. No. 5154

REMINISCENCES OF LADY SMITH.

Many of the interesting incidents relative to the siege of Ladysmith are recorded in "Campaigns of a War Correspondent," by the late Melton Prior.

"The enemy succeeded in placing thirty-two guns on the heights above the town, and kept up such an incessant fire that the troops and civilians were soon engaged in digging bomb-proof shelters. In a short time they learned to distinguish the different Boer guns by their sound, and gave them amusing names. Three of the large ones they called 'Long Tom,' 'Puffing Billy,' and 'Weary Willie.' Then there was 'Silent Susan,' so named because the bursting of a shell was the first warning we got that it had been fired.

"In spite of the havoc that these canon worked, the soldiers soon grew accustomed to the shelling. One day the Second Gordon Highlanders were playing football when a shell plumed in among them. Fortunately no one was hit and they went on playing.

"The Boers were so interested apparently that they gave up firing and actually sat on the edge of the hills watching the game. Then when it was all over the firing started afresh.

"But this was not the only courtesy the enemy showed. On Christmas Day they saluted the happy men by salvos of shells. The first two that fell into the camps of the Carbiniers and the Imperial Light Horse did not burst. When the shells were picked up it was found that wooden plugs had been inserted in place of the fuses, and inside the shells were plum puddings. On the outside were the words, 'With the Compliments of the Season.'

MR. COCKSHUTT AND CONFEDERATION CELEBRATION

In the Dominion House recently Hon. Mr. Lemieux moved that the Government should encourage the projected international exhibition to celebrate the fiftieth anniversary of the establishment of Canadian Confederation. In the debate which ensued Mr. W. F. Cockshutt, M.P., made the following speech:

The matter which the hon. member for Rouville (Mr. Lemieux) has brought to the attention of the House is certainly deserving of careful consideration. It goes without saying that the fiftieth anniversary of the Confederation of the Canadian provinces should be celebrated in some fitting manner, and the hon. member for Rouville deserves the thanks of the House for having brought the matter to our attention. His further suggestion, however, that the celebration should take the form of an international exhibition, is a matter that will require very careful consideration.

In the remarks of my hon. friend in this regard I did not detect quite as much enthusiasm as I have observed in his remarks upon subjects of lesser importance on previous occasions. I do not suppose we are justified in saying that this was because of a lack of sympathy, but he certainly did not express himself as emphatically upon the idea of an international exhibition as I think he should do if he believes in it. This is the best way of celebrating the fiftieth anniversary of Canadian Confederation.

Mr. Lemieux—The main object of my resolution is to commemorate the semi-centennial of the Canadian Confederation. It is suggested that it should be commemorated by an international or universal exposition. Of course, I await the judgment of the Government on that point.

It is hardly necessary that I should enter into all the details to which my hon. friend referred with regard to the location of such an exhibition, but that would also be a very important matter, and one that would have a great deal to do with the success of the project. The hon. gentleman read several letters showing that certain cities throughout the Dominion of Canada were anxious and willing to accept the responsibility of holding the fair. But it must be borne in mind that any city in which such an exhibition is held must have more hotel accommodation than many of these cities have. It would have to be a large city. I do not know whether the hon. member for Queens, Prince Edward Island (Mr. McLean), has one big hotel or not; I am a little doubtful whether he has, but, in any case, there are only four or five cities in the Dominion of Canada that could furnish anything like the accommodation that would be required if the public of all nations were invited. It is evident to everyone that the hotel accommodation in such a centre would have to be the very best. In that respect, think the city of Toronto has more to commend it than any other city. It would take a fairly good international exhibition to beat the one that is held in Toronto. The Dominion of Canada is to go into the exhibition business, it must do something which will exceed the results which are accomplished by any one city. The exhibition which is held at Toronto is looked upon as one of the very finest annual exhibitions in the whole world. I have travelled a good deal, and I am sure that there is not in the whole world an annual exhibition that equals the one held in the city of Toronto every year. I do not know whether the hon. member for Rouville has considered a celebration of any other nature which would be equally as good, perhaps less expensive and less liable to failure, than the one that he suggests. I quite agree with him in that it is absolutely necessary that some kind of celebration should be held, but whether we are prepared to commit ourselves at the first blush to so large a project is a matter for consideration.

I have referred to the financial aspect of the matter, and to the location, which should be central. Another respect in which the province of Ontario has advantages in this regard is that it has the goods to show, so far as Canadian products are concerned. More than half the industrial products and forty per cent. of the agricultural products of Canada are produced in that province, so that we have a large supply of goods near at hand if the city of Toronto or some other central point be selected. Then, the transportation facilities would be a very important factor. The city of Toronto has a good harbor in the summer time; the lake travel is very pleasant, and the people can be brought from the East and from the West not only by our railways, but by handsome steamers that ply at intervals across the lakes and up and down the river St. Lawrence. Those who visit Canada for the first time would have an opportunity of seeing some of the most magnificent scenery the world can afford. Unfortunately, within the sound of Niagara Falls do not regard them with very much wonder; possibly, like the Irishman, our only wonder is that the waters do not fall up instead of down. In any case, we live so close to them that we do not appreciate their wonderful beauty. Niagara Falls can be reached from Toronto within two hours; you have also Lake Ontario, the beautiful river St. Lawrence, the Muskoka lakes, and other points within one hundred or one hundred and fifty miles of the city—points of interest that cannot be rivalled, perhaps, in any other part of Canada.

Then to have the stuff to feed the people with is an important consideration. The high cost of living is increased when you place a large number of people in a city or town that is incapable, in an ordinary way, of looking after their requirements. The city of Toronto is placed in the heart of a great agricultural district that could supply all the wants of all the people who would visit that city on such an occasion, without unduly raising the rates in the hotels. I think the idea which the hon. gentleman has advanced is a good one, but I feel that the exhibition part of it must be considered very carefully. If the Government decides to take up this celebration it must be well supported. Whatever is done must be done well. To attempt a great project of this nature halfheartedly, or in such a way as not to make a success of it, is something that we cannot contemplate. We are all optimists in this respect, that whatever we like hold we believe we are able to do and are prepared to do well. Therefore I approve the suggestion made by the right hon. leader of the House that it would be well if my hon. friend would consent to have the debate adjourned until further consideration can be given to the question; and, if it is in order, I would move now that the debate be adjourned.

BIRTHDAYS Note

FRIDAY, MARCH THIRTEENTH

Sir Hugh John Macdonald, police magistrate of Winnipeg, who was born sixty-four years ago to-day in Kingston, is, as is generally known, the oldest son of the late Sir John A. Macdonald. Like his father, he is a man of very genial personality and a great favorite among a wide circle of friends. On the occasion of Sir Thomas Taylor's retirement from the Bench as Chief Justice of Manitoba, he was present at the Court House along with a number of members of the bar to pay their respects to the retiring Judge. It was a wet day and on leaving the building, Sir Hugh discovered that some one had walked off with his umbrella. When he reached his office, he made out a list of those who had been present and sent each a typewritten note to the effect that his umbrella had been taken, by accident he would presume, if the umbrella was returned, otherwise with malice aforethought. In less than an hour, umbrellas began to arrive and before evening he had a collection of eleven. Sir Hugh now boasts that he has not bought one since.

BRITISH NAVAL ESTIMATES.

(Continued from Page 1.)

assist the French army on the continent, if needed, with a perfectly organized and adequate expeditionary force.

The Sydney correspondent of the Telegraph says that postponement of Canada's naval policy indefinitely is regarded there as a forceful reason for holding a naval defence conference at the earliest possible date with a view to placing on a permanent and coordinate basis the naval forces of the mother country, Australia and New Zealand in the Pacific.

"The little navies" will discuss their grievance in the Commons on Wednesday next when Aubrey Herbert and others will ask for more information.

NOTES AND COMMENTS.

Hon. George Foster contemplates the establishment of a trade museum. Laurier's shattered reciprocity idol ought to be among the exhibits.

The militant suffragettes in the Old Land have now started to mutilate national treasures. As to that they will never be in a like class themselves.

On Monday, March 23rd, Brantfordites will march still further in the matter of municipal ownership by adopting the by-law for the civic purchase of the street railway.

What the Grits most need these days is a leader. Laurier has blown up and there doesn't seem to be even the shadow of a successor on the horizon.

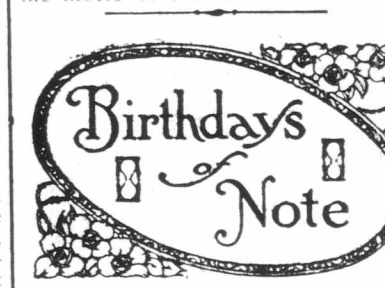

A committee of the New York Legislature has decided to recommend a power plant at the falls on the basis of the Hydro-Electric system in Ontario. If imitation is the sincerest form of flattery, Hon. Adam Beck is entitled to one more bouquet.

Walter Page, United States ambassador in London, has been saying things which have served to arouse the wrath of the Senators assembled at Washington. Now, they are endeavoring to bring him to book which after all seems quite natural in view of his cognomen.

The Ward Six Liberal Association of Toronto has passed a resolution withdrawing from the "Liberal Association of Toronto." They say that the latter organization is no good and that Rowell is foolish when he contemplates asking Bourassa to run in Prescott. As to that the whole party is at sixes and sevens anyway.

The latest Laurierite dodge of seeking to place farm implements on the free list would not only hit the people of Brantford and other industrial centres very hard, but also the surrounding farmers in lessening their income market and the prices received for produce. At that with the barriers down the U. S. combines wouldn't lower the price of agricultural machinery. Not on your life.

The Brantford Examiner talks of the Liberal proposal to abolish the implementation duties and says that such a course would be a "decided mistake." It was the same organ which declared that Laurier's reciprocity proposal was "like a bolt from the blue," and then afterwards declared that it was quite a proper and well thought out paper. In fact the organ hailed with wild acclaim a sausage-cabbage-canned meats procession which was supposed to demonstrate just how much said rec. would do to make life worth living and to bring clunks of joy to the family hearth. Everything by turns and nothing long seems to be the motto of our esteemed cotem.

FRIDAY, MARCH THIRTEENTH

Sir Hugh John Macdonald, police magistrate of Winnipeg, who was born sixty-four years ago to-day in Kingston, is, as is generally known, the oldest son of the late Sir John A. Macdonald. Like his father, he is a man of very genial personality and a great favorite among a wide circle of friends. On the occasion of Sir Thomas Taylor's retirement from the Bench as Chief Justice of Manitoba, he was present at the Court House along with a number of members of the bar to pay their respects to the retiring Judge. It was a wet day and on leaving the building, Sir Hugh discovered that some one had walked off with his umbrella. When he reached his office, he made out a list of those who had been present and sent each a typewritten note to the effect that his umbrella had been taken, by accident he would presume, if the umbrella was returned, otherwise with malice aforethought. In less than an hour, umbrellas began to arrive and before evening he had a collection of eleven. Sir Hugh now boasts that he has not bought one since.

The British navy estimates for 1914 exceeded those of the previous year by \$13,700,000.

Uncle Walt

The Poet Philosopher

GOSIPS.

The gossips are a noisy bunch who play an ugly game; they'd leave the finest Waldorf lunch to mangle some one's fame. They're prone to injure all they touch, with their long tongues and jaws, and yet they cannot hurt you much unless you give them cause. The man whose life is circumspect, who minds the Golden Rule, won't see his reputation wrecked by any prating fool. And those who suffer most from talk uttered often are the guys who hear a tale and walk a block to put the neighbors wise. I often say, with Virtue's true wit, "The gossips I abhor," and then I tell how Sandy Bung ran off with Mandy Dorr. The noxious deeds that others spring we righteously despise, and then we do the self same thing. Had dost our pious eyes! We all are gossips, more or less; with glee we trot along to tell about our fake distress when some good man's gone keeping tabs, and if they make a break, we'll stand around the streets and gab until our windpipes ache. So when we roast the gossip vile woe

deep in scandal delves, 'twere well to pause a little while, and just size up ourselves.

To The Editor

MR. HARTLEY WRITES.

To the Editor of The Courier:

Sir,—Will you kindly publish the following letter in your valuable paper.

In reading the reports of the various committees of the council meeting on Monday night, March 9th, 1914, we noticed that the Board of Works decided to call for new tenders for special castings for the year 1914, and the reason for so doing is because there were only two tenders submitted. The two tenders, I believe were put in in good faith—we can vouch for one of them being genuine and backed up with a marked cheque for \$200.00, and we have no reason to doubt that the other was not less sincere. Last year there was only one tender submitted and the tenderer received the contract. That explodes the first reason for asking for new tenders.

The second objection to first tender as stated in your columns, claimed by the Board of Works report was

that in their advertisement it was stipulated that successful tenderer was to pay minimum Union wages. We complied with everything on the tender form mailed to us from the City Clerk's office. We also enclosed our marked cheque for the full amount as security, which the city asked for. That explodes the second reason for new tenders, and the only ones put forth in the Board of Works report. The time expired at 12 o'clock noon, Thursday, Feb. 19th, 1914 for receiving the first tenders, and the tenders were held up in the last two Council meetings, not because they were not legal or fair. Now we are coming to it.

There have been rumors and rumors for nearly a year of a new foundry company being organized, and it is the common talk of the town, that the two genuine tenders have been held up for an indefinite time. Maybe the boys in the new organization have lost their bellows, and are searching for time to get a larger one, so that it will give a stronger blast. There are also other outside influences at work to knife us. They are being trotted out by parties who would not work when times were good for four dollars per day but when times are dull, beat a laborer out of his job.

To the fair citizens of Brantford you can read between the lines how the majority of one of your commit-

tees, is transacting the city's business, which you have placed in their hands.

Yours respectfully,
HARTLEY FOUNDRY CO.,
Per F. A. Hartley,
Manager.

Stratford May Enter On Local Option Fight

Perth County May Have a Vote on Canada Temperance Act.

STRATFORD, March 13.—The local Temperance and Moral Reform League, in annual session here last night, decided to call a public meeting shortly to decide whether or not a local option campaign will be carried on in the city in the fall, with a vote at the January elections in 1915. County President T. L. Hamilton of Listowel gave an enthusiastic address and Secretary G. W. Heagy was instructed to get into touch with the churches and other moral reform institutions at once, with a view to having the proposed public meeting represent the opinion of the whole city. The league elected the following officers; President, Ald. J. A. Gray; Vice-President, Benj. Leckie; Secretary, G. W. Heagy. A county vote on the Canada temperance act is a possibility.

CHURCHILL REFER BRIEFLY TO CANADA

Liberal Faction Which is posed to Increased Admiralty Alarmed.

LONDON, March 13.—"In the government has not obtained parliamentary sanction for the proposed to build three armored cruisers of the best modern type at the expense of the Dominion, and the department of the naval policy is consequently in abeyance."

This comprises the only reference to Canada in Mr. Churchill's speech on the naval estimates, were issued last night.

The Liberal group, which formed to check the increase of naval expenditure, view the estimated increase of \$51,550,000 with concern; in fact, they regard the whole statement as exceedingly optimistic and as giving no indication of the government's intention regarding the Canadian position in connection with the Mediterranean.

The question will be fully discussed in the House of Commons on Tuesday next, at the instance of Aubrey and his friends are at the meagre nature of the information provided by the First Lord explanatory statement when the estimates is taken into consideration. Mr. Churchill, they say, is trying to hoodwink parliament. Aubrey will press for fuller information before they assent to estimates has presented."

OGILVIE, LOCHEAD & CO.

Where Fashion and Fashionable Fabrics Were Supreme

For the past three days the store has been thronged with women eager to see the styles created by the leading French modistes for the coming season.

DO YOU KNOW A GOOD CURE FOR THE BLUES? Drop your household work, call up a friend. Don your hat and coat and come down town and look at the new styles in Millinery, Coats, Suits, etc. for Spring. It's a sure cure and you return home refreshed and bubbling over with ideas.

It is next to impossible for the writer to attempt to describe to you the beauty displayed on the second floor.

The Joys of Being a Woman is Exemplified by a Brilliant Array of All That is Newest for Spring.

Spring Tailored Suits FOR WOMEN

Limitations of space prevent full justice being done to this wonderful offering of women's superbly tailored Suits. The styles are magnificent examples of skillful treatment of the latest Parisian creations. That we are able to quote you the extremely low figures of \$16.50 and \$18.00 is a high tribute to our merchandising ability and a forceful demonstration of the truth that the Ogilvie-Lochead store is the one place where authentic styles in women's wear can be procured at a reasonable cost.

Goods Displayed on Main Floor

Pride is taken in the showing of beautiful fabrics for spring and summer. Words of admiration were heard from all parts of the store. In the woollen dress goods are shown checks, broads, cords and plain cloths in a wonderful variety of new colorings. The silks and cotton dress fabrics are truly wonderful; the weaves, colorings, etc., really stagger one when they see what is being produced in cotton fabrics for summer wear. Then, again, there is that all-important lace department, which is more in evidence this season than ever before. Such exquisite laces in flouncing, edging, insertions, etc., all to match.

Call and Inspect This Grand Showing!

Ogilvie, Lochead & Co.

Mainly About the New Millinery

That decided and absolute change is the keynote of the new Millinery for Spring is impressed upon one by a glance at the great array of hats shown this season.

Of chief interest are the exquisite creations copied in our own workrooms, by expert milliners, from leading Paris modistes.

In all a wonderfully complete exposition of what is newest, smartest and best in Millinery, etc., for spring, and one that no woman should miss.

ANNUAL REPORT FROM CHIEF OF POLICE SLEMIN

A Review of the Year Covering Work Of the Department—More Men Are Needed—Various Recommendations Made to the Commissioners.

The annual report of Chief of Police Slemm was submitted to the Police Commissioners yesterday afternoon as follows:

General Remarks.
The following men resigned during the year: D. H. Felker, H. H. Humphreys.

There were appointed: Michael Dowling, Joseph J. Cox and Thomas Blower.

D. H. Felker was appointed to the position of Chief Constable of Edson, Alberta. He rendered good service for over three years during which time he was on the force, and I was sorry to have to let him go.

Second Hand and Junk Shops.
There are nine second-hand stores and one pawn shop in the city, the license fees amounting to \$145.00. During 1913 there were three convictions for breach of the by-law.

Pool Rooms, Etc.
There are six pool rooms licensed in this city. They have been well conducted during the year and the law observed.

Bowling Alleys.
There is one bowling alley and the proprietor has observed the by-law strictly.

Hotels and Licensed Stores.
There are nine hotels licensed in Brantford, and they have been well conducted during the year. Mr. E. J. Eacrett, the license inspector, has done his work well. He laid twenty-nine charges for illegal selling of intoxicating liquor during 1913.

Licensed Shops.
There are three of the above and there have been no complaints against them.

Cigarette By-law.
There were no cases of selling cigarettes or tobacco to minors during 1913.

I have made strenuous efforts to stamp out the practice of boys under age using tobacco, and am glad the result is so good. I trust that storekeepers will continue to cooperate with me. I would feel grateful if any citizens who know of such cases would report the same.

Carters' By-law.
During 1913 there were seventy-one carters licensed representing 215 tags and \$343.00 in fees; also three liveries and five cartage and liveries. There were five convictions during 1913. I hope the carters will get out their licenses promptly by the 1st of May.

Cab By-law.
There are five licensed cabs and two motor taxis in Brantford. During 1913 there was one conviction for breach of the above.
I would strongly recommend a revision in this by-law and an increase in the tariff coupled with a tax-cab by-law. A motor service has been installed in Brantford conveying persons to and from Terrace Hill and other districts, and it seems to be well patronized. The regulations governing motor-bus services might be specified in the revised cab by-law. I think the license for motor buses should be higher than the ordinary cab fees as they carry more passengers.

Doors Found Open.
There were 200 doors found open in 1913. Nineteen less than last year.

"SPOOKY" NOISES INFEST Y. W. C. A.

Building Inspector Called to Locate Disturbances, But Was Not a Success.

(London Free Press.)
Mysterious noises at the Y. W. C. A. residence, at the corner of Wellington street and Princess avenue, have caused the young ladies boarding there sleepless nights, and a committee of men including Building Inspector Piper, Wiring Inspector Lezard, Mr. G. B. King and others remained in the building until midnight Wednesday night endeavoring to discover causes. They have not succeeded, and further investigations will be made.

The noises were first noticed about two weeks ago. It sounded as if a ton of bricks dropped on the roof. It would cease for a time, and then at intervals during the night, the noise would again startle the inmates. Isn't It Awful.
This continued every night, but it did not happen during the day. So unbearable did it become that the matron in charge consulted the committee composed of Mrs. A. T. Edwards, Mrs. C. B. King and others, and it was decided to have the inspectors investigate. Wednesday night the gentlemen mentioned visited the building and remained there until midnight. The noises were heard, but not frequently, and at midnight they left.

TAX REFORM BILL IS INTRODUCED

R. R. Gamey of Manitoulin Fulfills Promise Made at Last Provincial Session.

TORONTO, March 13.—The bill on tax reform, which R. R. Gamey, of Manitoulin promised at last session, made its appearance yesterday afternoon.

On its introduction the member stated that it contained nothing radical and merely expressed some personal views on the Assessment Act. One clause provides for the filing of a sworn statement of personal possessions similar to the system in connection with the income ratings at present. He touched upon the unearned increment in the small way by having assessors value all land within five miles of cities with 20 per cent, out of the sale to revert to the

Ex-President Taft Says Cleveland's Attitude Was a "Bluff"

AMHERST, Mass., March 12.—Ex-President Taft last night delivered the last of his course of lectures at Amherst College, taking "The Monroe Doctrine" as his subject. He strongly supported the retention of this doctrine and said: "We have maintained it for 100 years without firing a shot, and why should we abandon it now when it stands as an

effective warning to bid Europe to keep its land-grabbing out of America."
He referred to President Cleveland and the Venezuela situation, and said that his ultimatum to England was a good deal of a "bluff" for if England had desired she could have sent her fleet into every port of this country, as we had but one high-powered gun to defend our coast.

A WONDERFUL COLD CURE.

Just think of it, a cold cured in ten minutes—that's what happens when you use "Catarrhzone." You inhale its soothing balsams and out goes the cold—sniffles are cured—headache is cured—symptoms of catarrh and grippe disappear at once. It's the healing pine essences and powerful antiseptics in Catarrhzone that enable it to act so quickly. In disease of the nose, for irritable throat, bronchitis, coughs and catarrh it's a marvel. Safe even for children. 25c and \$1.00 sizes at all dealers.

NO RAISE FOR THE CHIEF OR CLERK

Consideration of Request Deferred at Meeting of Commissioners.

The Police Commissioners met the Judges' chambers of the Court House yesterday when the Mayor, Judge Hardy, Magistrate Livings and Chief Slemm formed the quorum. The principal item of business was the chief constable's report and estimates for 1914. The report of chief Slemm advocated an addition to staff of the local force with statistics of many interesting Brantford facts. The report will be found elsewhere in this issue.

Chief Slemm, in a letter to the board, called attention to the number of crooks and thieves wagon during the year. He thought it necessary to have more officers on duty who knew the streets, so that the public might be adequately protected.

A letter was read drawing the attention of the body to the annual convention to be held in Winnipeg during June.

P. C. Cobden was honorably discharged by the commission after having heard his version of a charge preferred by a local woman.

The estimates were then dealt with. The clothing item was this year higher than last year, and this was accounted for by the increased cost of manufacture and also because uniforms would be needed during coming year. It was decided to novate the police wagon during coming spring and \$40 was voted for that purpose. The Simpson-ridge Works sent in a tender for work. About the question of understaffed state of the local constabulary, the Mayor said that new hydro light was so good and fording so much better protection for pedestrians, that he did not think necessary to increase the staff.

At least the hydro light should be a fair chance. In this view he was supported by Magistrate Livings and Judge Hardy. It was generally admitted that for its comparative cost Brantford has fewer police than its population than most cities.

Speaking upon this, the Chief there was a necessity for extra As chief, however, he was willing to do his best. With the coming of spring he was going to install four beats and this, he thought, would help to lighten the duties. He was willing to try with his present staff of the new hydro light.

NO RAISE FOR THE CHIEF OR CLERK

Consideration of Request Was Defeated at Meeting of Commissioners.

The Police Commissioners met in the Judges' chambers of the Court House yesterday when the Mayor, Judge Hardy, Magistrate Livingston and Chief Slemin formed the quorum. The principal items of business were the chief constable's report and the estimates for 1914. The report of the chief constable advocated an addition to the staff of the local force with statistics of many interesting Brantford facts. The report will be found elsewhere in this issue.

Chief Slemin, in a letter to the board, called attention to the matter of crooks and thieves who might visit the city during the old home week. He thought it necessary to have extra officers on duty who knew all the streets and that the public might be adequately protected.

A letter was read drawing the attention of the body to the annual convention to be held in Winnipeg during June.

P. C. Cobden was honorably discharged by the commission after it had heard his version of a charge preferred by a local woman.

The estimates were then dealt with. The clothing item was this year heavier than last year, and this was accounted for by the increased cost of manufacture and also because new uniforms would be needed during the coming year. It was decided to renovate the police wagon during the coming spring, and \$40 was voted for that purpose. The Simpson Carriage Works sent in a tender for the work. About the question of the understated state of the local constabulary, the Mayor said that the new hydro light was so good and affording so much better protection for pedestrians, that he did not think it necessary to increase the staff. At least the hydro light should be given a fair chance. In this view he was supported by Magistrate Livingston and Judge Hardy. It was generally admitted that for its comparative size that Brantford has fewer policemen to its population than most cities.

Speaking upon this, the Chief said there was a necessity for extra men. As chief, however, he was willing to do his best. With the coming spring he was going to instal four bicycle beats and this, he thought, would help to lighten the duties. He was willing to try with his present staff, in view of the new hydro light. They

could very probably manage under the circumstances. He did not differ with the opinion of the commission. It was decided not to increase the staff at the present time, and the hydro will be given a trial as a public protector.

The question of salaries was next dealt with, and as the name of the chief was mentioned along with the name of J. P. Browning, these two officials retired. Judge Hardy thought that the salaries of these two members might be increased, especially so as they were the only two left out of the general raise given last year. He was of the opinion that both men were worth additions to their present rates of remuneration. Magistrate Livingston also took this view. The Mayor, however, could not see his way to fall in line with their suggestions, which had been put at a time of financial stringency. He knew the worthiness of both men, but he could not conscientiously agree to add to the expenditure from the municipal purse. The cost of living has gone up considerably, and taxpayers already had to put their hands deep into their pockets. The commission will reconsider the matter at a later period, when circumstances may perhaps favor the granting of extra remuneration.

The sergeants bonus was passed, as it had been practically already a promised measure. Thus the estimates for the coming year went through without an alteration, and an item of \$19,011.63 will be required to furnish the police department of Brantford with funds for the coming year.

HAMILTON CITY IS TO BUY QUARRY

A Special Legislation Had to be Secured From the Provincial House.

TORONTO, March 13.—In the private bills committee to-day Hamilton's bill to authorize that city to raise \$75,000 on debentures for the purchase of a stone quarry, after a vigorous discussion in which City Solicitor Waddell for Hamilton and John C. Farmer for Barton Township, took part, was partially approved.

Mr. Waddell showed by figures that the city would save \$40,000 per year by the purchase of a quarry, as the quarry owners held the city up for \$1.25, and when special legislation was sought the quarrymen reduced the price per ton to 95 cents. Last year Hamilton spent \$135,080 for stone for road purposes. This property in question could be purchased for \$45,000.

The act went through with some changes. The property is to be purchased without a vote of the people, but must have a 75 per cent vote in the council. The property is to have a fixed assessment of \$25,000 so long as it is used for quarry purposes.

That portion of the act respecting the exemption of the cricket grounds did not come up.

COMPETENT. Barber—Do you shave yourself? Victim—Yes, I also talk to myself.

CHILDREN HATE OIL, CAMOMEL AND PILLS

"California Syrup of Figs" best for tender stomach, liver, bowels.

Look back at your childhood days. Remember the "dise" mother insisted on—castor oil, camomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing give only delicate "California Syrup of Figs." Its action is positive but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels, and sweeten the stomach, and that a teaspoonful given to-day saves a sick child to-morrow.

Ask your druggist for a 50 cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and grown-ups plainly on each bottle. Beware of counterfeiters sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

Headquarters for Travelling Goods

Tarzan of The Apes

By EDGAR RICE BURROUGHS

Copyright, 1912, by the Frank A. Munsey Company.

But after the first outburst of grief Tarzan controlled himself and questioning the members of the tribe who had witnessed the killing of Kala, he learned all their messenger vocabulary could vouchsafe him. It was enough, however, for his needs. He told him of a strange, hairless, black ape with feathers growing upon its head, who launched death from a slender branch and then ran with the fleetness of Bara, the deer, toward the rising sun. Tarzan waited no longer; but, leaping into the branches of the trees, sped rapidly through the forest. He knew the windings of the elephant trail along which Kala's murderer had flown, and he cut straight through the jungle to intercept the black warrior, who was evidently following the tortuous detours of the trail.

At his side was the hunting knife of his unknown sire, and across his shoulders the coils of his own long rope. In an hour he struck the trail again and, coming to earth, examined the soil minutely.

In the soft mud on the bank of a tiny rivulet he found footprints such as he alone in all the jungle had ever made, but much larger than his. His heart beat fast. Could it be that he was trailing a man—one of his own race?

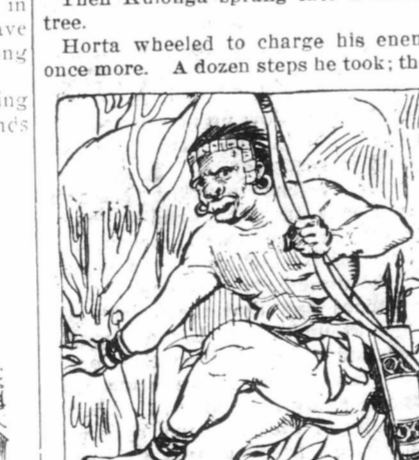

There were two sets of imprints pointing in opposite directions. So his quarry had already passed on his return along the trail. As he examined the newer spoor a tiny particle of earth toppled from the outer edge of one of the footprints to the bottom of its shallow depression—ah, the trail was very fresh, his prey must have but recently passed.

Tarzan had covered barely a mile more when he came upon the black warrior standing in a little open space. In his hand was his slender bow, to which he had fitted one of his death dealing arrows.

Opposite him across the little clearing stood Horta, the bear, with lowered head and foam flecked tusks, ready to charge.

The black released the poisoned arrow, and Tarzan saw it fly with the quickness of thought and lodge in the bristling neck. Scarcely had the shaft left his bow ere Kulonga had fitted another to it, but Horta, the bear, was upon him so quickly that he had no time to discharge it. With a bound the black leaped entirely over the rushing beast and, turning with incredible swiftness, planted a second arrow in Horta's back.

Then Kulonga sprang into a nearby tree. Horta wheeled to charge his enemy once more. A dozen steps he took; then

With a Bound the Black Leaped Entirely Over the Rushing Beast.

He staggered and fell upon his side. For a moment his muscles stiffened and relaxed convulsively; then he lay still. Kulonga came down from his tree. With the knife that hung at his side he cut several large pieces from the bear's body, and in the center of the trail he built a fire, cooking and eating as much as he wanted. The rest he left where it had fallen.

Tarzan was an interested spectator. His desire to kill burned fiercely in his wild breast, but his desire to learn was even greater. He would follow this savage creature for awhile and know whence he came. He could kill him at his leisure later, when the bow and deadly arrows were laid aside.

When Kulonga had finished his repast and disappeared beyond a near turning of the path Tarzan dropped quietly to the ground. With his knife he severed many strips of meat from Horta's carcass, but he did not cook them.

He had seen fire, but only when the lightning had destroyed some great tree. That any creature of the jungle could produce the red and yellow fangs which devoured wood and left nothing but fine dust, surprised Tarzan greatly.

(To be continued.)

A choir of Toronto Public school children will participate in an international musical contest in San Francisco.

Temple Building - Dalhousie St.

Execution of Man Convicted Of The Liverpool Murder

George Ball, alias Sumner, was executed in Walton Prison, Liverpool, on Thursday morning for the murder of Miss Bradford, whose body was found in a sack in the canal. The executioners were Ellis and Willis, and there was no hitch. Ball submitted quietly to the pinning and walked steadily to the scaffold. He was only twenty-two.

As early as 7 o'clock a crowd of morbid-minded people had assembled outside the prison, but all they saw was the posting, by a warder who emerged from a small doorway of the huge gate, of a notice formally announcing that the death sentence had been duly carried out.

At the subsequent inquest it was stated that the drop was 7 ft. 6 in. and that death was instantaneous. Remarkable evidence of the public interest in the crime is furnished by the fact that hundreds of applications were received from persons anxious to serve on the jury.

Ball on Wednesday admitted his guilt to the Bishop of Liverpool, and he repeated the confession to relatives who saw him in Walton goal in the afternoon, these visitors being his father, brother, sister and brother-in-law.

The father was the first to speak. "How are you lad?" he asked in husky tones. The doomed man looked up and in a voice so feeble that it could scarcely be heard, he answered that he felt all right. There was a pause, and he did it with the following dramatic words: "I have confessed, father." The father tried to speak, but could not.

Then showing full contrition, Ball said: "Forgive me, father." They were the last words that were to pass between this wretched man and his broken-hearted parent. The father made no answer, but, with bowed head, turned away, and brought to an abrupt end this farewell interview with his son.

The condemned man's sister said: "Now you have confessed, George, I suppose you will settle yourself." "Yes, I have done," was the man's reply. Ball went on to say that he had confessed to the bishop that morning, after which his lordship confirmed him.

Another of the relatives then said: "Perhaps you will feel happier now that this has happened?" "Yes," replied Ball. The sister added, "You may be better off, George, in the next world." Ball's answer was "In the next world." Then his thoughts seemed to turn

THE PROBS

TORONTO, March 13.—Pressure is lowest over the Western Provinces and highest in the middle and Southern States. The weather in Canada is everywhere fair, and in the West quite mild.

Forecast: Fair to-day and on Saturday, Saturday a little milder.

FIND WOMAN'S ARM IN A TORONTO HOUSE

The Police Are Now at Work on a V. J. M. terious Case Admittedly Puzzling.

TORONTO, March 13.—Discovery of a woman's left arm and shoulder blade in the cellar of the residence of Mrs. Viener 189 Baldwin street yesterday morning may be followed by revelations of a hideous crime. A few years ago the house had an evil reputation and the former occupants were forced to leave on account of the activity of the police.

Mrs. Viener had only occupied the house a couple of weeks and it was while his wife was clearing up the cellar which had been in a state of great disorder that she made the gruesome find. She immediately notified the detective department and two men were sent down to the house. So far they have not been able to throw any light on the mystery.

THEY WERE RELEASED
NEW WESTMINSTER, B. C., March 13.—George Miller and John Smith, held on suspicion in connection with the Abbotsford bank robbery have been released.

Beauty is only skin deep, but the rhinoceros never blows his own horn about it.

THE JOHN HILL GRANITE & MARBLE CO.—Importers of all foreign granites and marbles; lettering a specialty; building work, etc. Alex. Markle, representative, 95 Colborne St., Brantford. Phone 1553 or 1554.

PRAYER WAS SUBJECT OF GOOD ADDRESS

Archdeacon Davidson of Guelph Gave Address at Grace Church Last Night.

At Grace Church, Thursday evening, after shortened evensong, rendered by an almost full choir of men, women and boys, Archdeacon Davidson of Guelph preached a forcible sermon on prayer. Friends came into the vestry to thank the Archdeacon for his admirable address. The Archdeacon is a fluent and graceful extempore preacher, his language always chaste and in the purest English, illustrations drawn from Scripture and always pointed and applicable. In thanking the choir he remarked that he had visited many churches in week evenings, but he seldom, or never, enjoyed so beautifully rendered an evensong.

Local News

Mr. and Mrs. M. Minter announce the engagement of their third daughter, Ariel Dorothy, to Mr. Thomas Deever Switzer, Toronto. The marriage is to take place in April.

Meet to-day
The Governing Board of the Y. W. C. A. meets this afternoon in that institution, to transact current business.

To Entertain Choir
Mr. Baily, sexton of First Baptist Church, is entertaining the choir of First Baptist Church in the church to-night.

An Increase
Police expenditure this year asked for is \$19,811.63, last year it was \$18,241.96. Last year salaries amounted to \$14,283 and this year \$16,716.

Joint Meeting Saturday
There will be a joint meeting of the Publicity and Invitation Committees of the Old Home Week celebration in the Temple Building Saturday night.

We are Baptized
A number of young people of the congregation of Trinity Presbyterian church Eagle Place were baptized last evening at a beautiful service held by the Rev. Mr. Latimer.

Asking for Information
The Canada Bond Corporation of Toronto has forwarded a blank form to the city for information regarding the city's debentures. They also apply for a share of the bonds to sell.

New Sewers Commenced
The city has commenced to dig two new sewers on Grant St., one between Oxford and Winnet, streets, and the other between Richardson and Oxford streets.

Oranges Advance
Beginning in about two weeks the price of oranges will go up on the wholesale price. The advance will be about 25 cents a crate, but that will not materially affect the retail price.

Close of Motor Show
The automobile show in Hamilton will come to a close to-morrow evening. The show, which was Hamilton's first motor show, was fairly successful. R. M. Jaffray, Toronto, was the manager.

Brant Medical Association
The Brant Medical Association held their regular meeting in the Brantford Club last night at which Dr. H. B. Anderson of Toronto read a paper on "The value of a social luncheon" during the meeting an informal luncheon was held on the premises.

Applicants Examined
The three applicants for the position of electrical inspector of the city have been examined by F. A. Electric Power Commission, but the results of the examination will not be made public until all the applicants have been examined. A man named Farquharson has written the city engineer, who in turn has written the city clerk, asking if his application has been made to the city.

Sad Death in Detroit
William J. Jaffray met with a tragic fate in Detroit yesterday, when he was the victim of a fire in a garage. He is just a young man of 21, and came out from the old country about two years ago, coming to Brantford, and made a number of friends. Last spring he departed for the other side, and he obtained employment in the motor city. News came this morning of the distressing fatality, and the remains are to be sent on to this city. When they arrive, Messrs Reid and Brown will take charge of them, and the funeral will take place to-morrow to Greenwood cemetery.

MISSIS BLACK SAFE
LONDON, March 13.—The safety of the two Misses Black, of the British China Inland Mission who were reported missing after the burning and looting by brigands of the town of Lo Ho-Kow, Hu-Peh, was confirmed in an official despatch from Peking to the foreign office.

STILL SEARCH FOR THE GUNMEN
All Montreal Forces Are Armed to the Teeth Just Now in Search For Them.

MONTREAL, March 13.—Outwitted last night by the three bandits who fatally shot the two constables Bourdon and Guyon, at St. Laurent on Wednesday morning the whole of the city detective force and dozens of policemen early to-day scoured the country in the neighborhood of the armed shack from which the wanted men, Foucault, Beauchamp and Boule escaped last night just as the police were gathering around them.

Neighbors say that they slept all day, but at night the house would awaken and sleighs call at the door. The interior of the house presented a strange study in contrasts. There was a copy of the Madonna, by a famous painter, hanging over the bed, while just across from it was a gallery of nude pictures shamelessly displayed. On one side of the room there was a cross bearing the words "Temperance," in gold letters, while a few yards away there were whiskey and beer bottles in heaps. The house was dirty, and shells of the same size as the bullets that killed Constable Bourdon were found on the floor, behind the bureau.

Alphonse Foucault, the driver of the red carole, in which the gunmen escaped after Wednesday's fatal shooting, who was arrested last night will be arraigned some time to-day or to-morrow.

Mrs. Beauchamp, wife of one of the wanted men, detained as a material witness, was clothed with Chief of Detectives Charpentier this morning and it is said gave out a lot of valuable information.

Throughout the morning the police force was engaged in following up reports of the appearance of gunmen but at 1:30 no sign of them had been found.

Chief of Detectives Charpentier announced that he was not at all low-cast at the apparent escape of the bandits. He said that the men had had no sleep for probably 48 hours and that sooner or later they must find some place to get rest. The men would also soon be starving and this would bring them out of cover.

In the meantime every avenue of escape from the city to the country districts is being watched by detectives and police instructed to "shoot to kill" if the murderers showed the slightest inclination to resist arrest.

Experience is the best school, but some of us never get beyond the kindergarten stage.

We are all attracted by our opposites. That may explain why a woman always likes a man who is a good liar.

We should all do unto others as we would have others do unto us, but we generally wait for them to do it first.

KINGSTON CRIME REPORT IS OUT

Temperate, Intemperate and Abstainers Number About the Same.

[By Special Wire to The Courier] KINGSTON, Ont., March 13.—An interesting document is the annual report of the penitentiary just published. It shows that among its inmates are 48 persons sent up for life, of whom two are females. The total number of inmates is 516, including 11 women. The nationalities of the prisoners are as follows: 205 English 55 Wales 2, Scotland 11, Ireland 22, France 5, Sweden 1, United States 5, Italy 34, Austria 10, India 1, Germany 5, Russia 2, Turkey 1, Denmark 1, Australia 2, Greece 1, Newfoundland 1. "Toronto the Good" contributes the largest number of inmates, 90 having been sent from there, which is more than any two whole counties. According to social relations, 193 are married, 8 are widowers, and 315 are single. Six prisoners are over 70 years of age, while 36 are under 20. Classified according to habits, 184 are temperate, 118 are total abstainers and 206 are intemperate. This portion of the return is regarded as remarkable in the light of the oft-repeated statement that drink is the cause of so much crime. The return shows the percentage of intemperate men and women can read and write well; 60 men and nine women are wholly illiterate, and one male prisoner can read only.

In the list of occupations nearly every trade and profession is represented, there being even a newspaper reporter.

There are 42 farmers, 24 clerks, 21 last figures are remarkable when compared with the small percentage of the total population which cooks form.

POURED GASOLINE ON A REAL STOVE

Consequently There Was a Fire Alarm Turned in This Morning.

At 10:45 this morning the fire department received a call from P. H. Secord & Sons office at Lornebridge. When the firemen arrived on the scene, they found the tool room in the rear of the office on fire, which was quickly extinguished by the use of chemicals.

The building is a three roomed shack, and in the front is the office and behind that again is the toolroom which has a stove in it. One of the workmen was trying to build a fire in the stove, and as it would not burn at first, he poured some gasoline on it with the result that an explosion followed. The flames spread rapidly, and for a time some valuable suction hose was in danger of being ruined at a great loss but the firemen checked the fire in time. The man in charge of the stove disappeared for some time, and it was feared he was severely hurt, but he eventually turned up with only his trousers burned, otherwise uninjured.

The damage done will be very slight, the boards on the walls remaining unharmed.

BRANTFORD, CANADA, FRIDAY, MARCH 13, 1914

RICHIE-WOLGAST MELEE A DRAW

Morning Newspapers Give This Decision After Milwaukee Battle.

MILWAUKEE, March 13.—Willie Ritchie, lightweight champion of the world, earned a shade over Ad Wolgast, former champion, in their 10-round bout here last night. The champion outboxed the Michigan boy in five rounds and in the seventh had Wolgast backing away from his punches. Wolgast sank to one knee when Ritchie landed a shower of blows on his stomach and took the count of four. He rushed at the champion but Ritchie danced away the first time. Wolgast was fouled in this round when the champion delivered a hard blow to the Michigan boy's groin, according to a statement of Dr. C. A. Monterer, a member of the state boxing commission, after which Wolgast went to his dressing-room and underwent an examination.

Newspapers Say Draw.

As it is against the Wisconsin law to render a decision the result can only be decided by the newspaper writers. Two Milwaukee morning papers call the contest a draw, while all the sporting writers of the Chicago morning papers, with one exception, gave Ritchie a shade. The single Chicago paper called it a draw.

When the champion and the challenger came to the center of the ring for the first round they wasted little time in sparring for openings. Wolgast bored into close quarters at once and found the champion willing to meet him at that game. Wolgast secured a shade the better of the first round, playing largely for Ritchie's body.

The champion's left jab was much in evidence, but Ad covered well. Ritchie increased the pace in the second, which was his round, and had the Michigan boy's mouth bleeding at the close when he landed a right swing to the jaw and followed with right and left to the face. Wolgast broke ground. The third was even with Ritchie standing over. Short jabs

to Ad's face and the former champion playing for the body.

Wolgast Crowds.

Wolgast, crowding to close quarters, had the better of the fourth and fifth rounds. Ritchie's jabs and hooks to the head did not stop him, and he landed several hard rights and lefts to the Californian's body, and varied with an occasional jab to the face. Ritchie, however, had the sixth round several hard swings and the champion smothered his rival with a volley of snappy punches to the head, ending the round with a stinging right swing to Ad's nose.

Ritchie checked Wolgast's rush in the seventh with a hard left, a terrific right swing to the face and a left to the solar plexus, which sent Wolgast down for the count of four. He showed Wolgast with swings in an effort to put him out.

Ritchie Leads.

Ritchie also took the eighth, opening with the usual left jabs and jolting Wolgast with a hard right and left to the ribs. Ritchie continued to hold the lead in the ninth. His blows were the cleaner and he landed oftener than Wolgast, who was warned for rough work in the clinches.

Wolgast made a desperate effort in the tenth and held the champion even on points, but his blows seemed to lack steam. Ritchie staggered him with a right uppercut.

At Training Camps

Houston Beat Yankees.

HOUSTON, Texas, March 13.—The Houston Texas League team defeated the New York Yankees, 8 to 6 in a slugging match yesterday.

To See the Quakers.

PHILADELPHIA, March 13.—A party of officials, stockholders and rooters of the Philadelphia National League Baseball club left last night on a special car to visit the club's training grounds at Wilmington, N. C. John B. Lobert, the third baseman, who was a member of the world's tourists, accompanied them. Governor John K. Tener, president of the National League, and his private secretary, Walter Gaither, will join the party at Washington.

Eddie Holly, who leads the Toronto Canadian League club this season, was the third best shortstop in the International last year.

SOCCER LEAGUE GAMES PLAYED

Rangers Played Rings Around Swindon in Southern League.

(By Special Wire to The Courier)

NEW YORK, March 13.—A London cable to The Tribune says: Two important soccer league games took place here yesterday, the results of which make the race for promotion, in second league and leadership of the Southern League most interesting.

Queen's Park Rangers entertained Swindon, in the Southern League, at Park Royal, and made rings round the present leaders, beating them by a score of 4 to 2. Hull City had to journey to Lincoln to play the city team, where a draw resulted, which now enables Hull City to tie with Woolwich Arsenal for second place in the table.

Sheffield Wednesday now removed from the cup competition, played a postponed game with Derby county, and each side scored once.

A sensation was caused by Blackburn Rovers securing the transfer of Heart of Midlothian Club, for \$15,000, who together with Shea and Simpson, have cost the famous Rovers \$35,000.

Record Making

The business men's physical class broke all bounds yesterday, when a record number of members attended. Instructor Roper is extremely gratified by the results. At the present time Mr. Harley's team are champions of the league class schedule.

DETROIT MAN TO HEAD THE A.B.C.

Edward J. Ryan to Succeed Judge Howard, Who Served Fifteen Years.

BUFFALO, March 13.—At a meeting of the executive committee of the American Bowling Congress here yesterday, Edward J. Ryan, of Detroit, was nominated for president to succeed Judge Howard, who resigns after 15 years of active service. Secretary A. L. Langtry, of Milwaukee, was renominated for another year.

Only one name was mentioned for each office and will be likely elected as recommended by the board of delegates and alternates to-day.

Robt. W. Brown of Louisville, was nominated for first vice-president; Wm. Agnew of Cleveland, second vice-president; and Frank L. Pasdeloup, of Chicago, as treasurer.

Among those recommended for the executive committee was A. G. Rupert Darling of Montreal.

Paris Champs

Screeners Defeated the Sacred Heart Club by 2-0.

The championship of Paris Town Ice Hockey League was held on the arena there on Wednesday night, when the Screeners were successful in overcoming the Sacred Heart club by two goals to nothing. As both clubs presented a good fast lineup a great game resulted. One goal was obtained in the first half and another just before the close of the game by the victors, and the score denotes the closeness of the match. Walters in the Screener's goal, played a wonderful game and saved the situation many times for his team. The victory of the Screeners was more meritorious, when it is considered that they had no practice before the encounter whilst their opponents had this benefit. Line-up: Sacred Heart—Tobin, goal; McLoughlin, point; Ferguson, cover point; R. Murphy, rover; Flax, centre; McDonald, left wing; A. Murphy, r. wing. Screeners—Walters, goal; Marla; p.; Pickering, cp.; C. Newstead, r.; R. Cassidy, l. w. Percy Gill was an impartial referee. A. Murphy was on the bench for 20 minutes.

SUDDEN DEATH GAME FOR THE ALLAN CUP.

WINNIPEG, March 13.—Claire Robinson, local representative of the Allan Cup trustees, has been instructed to order a sudden death game between the Western holders and the Eastern challengers. Grand Mere, should it seem in his opinion that the ice will not hold out.

He stated that this game would take place on the Monday night in Winnipeg if the Monarchs retain the cup in Regina should the challengers be victorious.

ART. ROSS DID NOT SUIT QUEBEC FANS

VANCOUVER DEFEATED QUEBEC WHEN LATTER WERE MINUS MUMMERY'S SERVICES.

QUEBEC, March 13.—In one of the best and most exciting exhibitions of the winter game ever seen in Quebec, Vancouver defeated last night's N. H. A. champions last night by a score of 7 to 5 in the last two or three minutes of play. There was nothing to choose between the two teams and the issue was always in doubt until Art Ross, whose decisions were received with the greatest unpopularity all through the game, sent Mummery off for what was apparently a fair body check in the last five minutes and left Quebec with only six men on the ice against Vancouver's seven. Harris soon put the visitors in the lead and fifteen seconds later Taylor came through and made it impossible for Quebec to catch up.

Ross was continually hooted during the game and one of the more excited spectators punched him after it. In the opinion of the spectators, his exhibition of refereeing was easily the worst seen here since the days of Nicholson. It took a squad of policemen to keep the infuriated fans from slugging him.

Chief Garlow, the Hamilton pitcher whom Knotty Lee unloaded on the Boston Red Sox, is already down south hurling fine ball—to the hitters.—Ottawa Free Press.

"NEWSY" LALONDE HAS HIS ALIBI

Trying to Explain the Reason for His Poor Showing at Toronto.

MONTREAL, March 13.—"Newsy" Lalonde, the centre player of the Canadiens played the last period of the game in Toronto with his shoulder partly dislocated, so it developed yesterday.

On the train coming back to Montreal, Lalonde complained to the club physician that his right shoulder, which was dislocated in the Canadian-Citizens game here a few weeks ago, was very painful. Examination proved that the shoulder was partially dislocated.

"It was feeling just that way when I started the last period," said Lalonde, "so I guess it must have been that way all through."

Lalonde thinks that his shoulder was put out by a check into the fence in the second period. "Newsy" will probably spend the spring in Bermuda.

Frank Dolan and Shag Shaughnessy start indoor work to-day, and will play handball until it is time to hike in a southerly direction for training camp. Dolan, who has spent the winter in Ottawa, is looking fine, and will have to build up rather than take off anything. A strenuous catch-as-catch-can session with hockey management has relieved Shag of any superfluous weight.

RED SOX SIGNED FOR 1914 SEASON

Deneau is Moulding Team Together With Material Gathered From Far And Wide—Soon Time to Look 'em Over.

Here they are! Some you know and some you don't. They are the 1914 Red Sox, and they have all signed. Their signatures respose on the president's war chest. They may make good, and they may not. Anyway, they will make a brand new outfit, and that is the first step. When the spring training trip comes it will be a case of show something to Brantford fans. The loyal bunch of rooters this year are from Missouri:

Catchers—Lamond, Harvey Price, Meriden, Conn.
Pitchers—Gero, L. Gehring (Southern League), Deneau, Raymond Connell (Rochester); 1 lefthander from Chicago and two from St. Louis Nationals.

First Base—Ivers, Deneau. Second base—Wagner, Roy Lattime, Rochester.
Short Stop—Albert Honeck, Rochester, N.Y.
Third Base—Lloyd Pitchart, Tiffin, O., Nelson, (1913 Red Sox).

Outfielders—Fred Sandusky, Rochester, Albert Houeck, Rochester, Ernest Halback, Meriden.
The above is the complete list signed to date, and it will be seen that the team is about filled up, their being candidates for every job. Deneau is chiefly concerned about his pitchers. He wants that department to be fit for any emergency, and is therefore expecting to land additional strength from St. Louis and Chicago.

torial player was penalized fifteen times during the season for a total of 47 minutes. Lester Patrick captain and manager of the champions did not draw a penalty.
Hamby Shore is after a bonus of \$200 from the Ottawa Club. Shore claims that he was promised this amount provided he played good hockey and kept the training rules. The club has refused him the bonus, claiming he did not fulfil his agreement.

Hockey Gossip

Fred Taylor led the Coast League scorers with 24 goals and 5 assists. He finished well down the penalty list with only eighteen minutes spent on the bench.
"Skinner" Poulin was the Joe Hall of the Pacific Coast League. The Vic-

BROTHERHOOD BANQUET HELD AT COLBORNE STREET CHURCH

—REV. WOODSIDE SPEAKS— Annual Function Last Night Drew Out Representative Men of the Congregation—Addresses Delivered Were of an Inspiring Nature.

About two hundred members and friends of the Brotherhood of the Colborne Street Methodist Church, last night sat down to a banquet prepared by the Ladies Aid of the church.

Roofing Slate, Felt and Gravel, Asbestos and General Roofing of all kinds. Repair Work and Re-Roofing attended to promptly. Brown-Jarvis Roofing Co. (Formerly Brown Bros.) Telephone 590 Office: 9 George St.

Mann's Coal We Have Plenty of Coal Have You? Bell Phone 560 Automatic 560 The Gentlemen's Valet Cleaning, Pressing, Dyeing and Repairing Ladies' Work a Specialty Goods called for and delivered on the shortest notice. G. H. W. BECK, 132 Market St.

call and unite themselves more closely with her. Mr. Woodside went on to say that no man could afford to stay away from church for business reasons, and this fact has been proved.

"We have abolished the idea that a man should think our theories in religion," said Mr. Woodside. "The man who is true in his outlook is the broadest man in religion and to his fellowmen."

"The day is dawning," said Mr. Woodside in closing, "when men will realize the fact that Christianity represents a true religion. The day comes when we will all be sick of this world and we will cry for our home and we will turn and walk in the right way of life."

Mr. H. J. Bassett responded on behalf of the Young People's Societies of the church. One of the great factors of a church is the bringing up and holding together her young people, and in this respect the Young People's Societies were benefiting the church.

All three speakers spoke highly of Rev. T. E. Holling's connection with all the organizations of the church. "Our Religious Fraternities" was the next toast proposed by Mr. Thomas Millman who outlined the work of the Brotherhood in every department.

Ambassador Was Called Down By Senate in London

LONDON, March 12.—Walter Hines Page, the United States Ambassador, was much surprised when told today of the resolution passed by the senate in connection with his speech last night at the dinner of the Association of Chambers of Commerce.

BUSINESS MEN HOLD BANQUET

Y. M. C. A. Hall Was the Scene of Enjoyable Function Last Night—Winners vs. Losers

Right royally were the victors of the recent membership campaign entertained to a banquet by the losing four sections of the Men's Club at the Y. M. C. A. last night.

Fancies of Fashion Flowers Add Last Touch to Neckwear

By MADGE MARVEL

SEE the simple
bow of black
tulle used for
the neck chain for
many houses. It
also appears on
some of the fichus
that are worn out-
side the gown as a
surprise crossover.
Embroidery on net
is not difficult, and
I have seen several noticeable attractive
fichus with yellow lace used with
the white net. This is usually Vcl, and
used as narrow frills to outline white
insertions. The cream lisse lace collars
are exquisite.

Another most practical dress trans-
formation for the woman who counts
cost is the adjustable tunic, which may
be found ready-made or can be made at
home at a reasonable cost and with
very little knowledge of sewing. The
one thing to remember in choosing the
tunic is to have it appear as if it had a
right to existence, and was not simply
slapped on to make a show of smart-
ness. Harmony is the one important
thing to remember when you make over
a frock or brighten one up, or when you
plan a new one. It is the word that
draws the line between style and dowd-
iness.

There is a plain shade and goods to
match almost all the embroidered fab-
rics, and I am assured the coat of strong
color will be a part of the most desir-
able summer frocks of lighter shad-
ings and fabric.

There are new finess, too, but even
they are not the same linen we once
knew. They have taken on a suppleness
and softness which is due to silken
threads and figures of different kinds,
and the creases which I actually saw
in the purchased one of white with yel-
low corded embroidery in solid f-
f. The coat was to be of yellow
city duxetine in the same shade of
gold and closely resembling ribbed
cotton.

The young woman for whom the gown
was intended was tall and dark with a
fair complexion and hazel eyes with
yellow tints. She hesitated between
the duxetine and the satin and which
"a smaller new fabric which is quite like
satin velvet in appearance.

The Winning Power of a Smile

By Jeannette Young Norton

It is the "cheery man with a smile
that gets the job every time." It is
said, so young woman take notice
and smile on your would-be employer.
Walk into the office with head and
shoulders erect, simply and suitably
dressed, impressing the fact that you
are energetic, ambitious, capable, with
"time enough for business and none for
idleness, and really want the job. Two
or three you will get it.

Willie Rites on Animals

DOMESTICK animals are animals
that hang around the house such
as horses, clothes horses, cats,
rats an mice and dogs, oxen an
an they wuz ont a man who had a
hoarse wich he kep grazin in a
here his barn. wun day he wanted to
know how smart he wuz in ketchin his
hoarse without goan after him an he
jest took a oat measur an went out
in the lott an chucked a bluff that he
wuz goan to give the hoarse sum otes.
An the hoarse he kem over on a hop,
skip an jump but he found out
him. Then not long after the wise guy
wanted to gitt the hoarse rite bad to
ride over tew a ballgame an he tride
the same trick but there was nothin
doing this time an the hoarse wuz cum
so close to the fresh guy that he
jest almost tech him. An then the
hoarse wud say neigh neigh an bet the
man cud ketch the hoarse the bawl
game wuz over.

Yew must allus be kind to dum an

CALLING IN A SPECIALIST :: :: By Michelson

WHEN the world stops looking as it should; when spring
and the birds and blossoms look a long way off, and
summer seems like the most unreal and impossible hap-
pening; when sound is out of tune, perfume a mockery, friends
a delusion, the future a blank—THEN the Master Wizard is
sorely needed.

When all other doctors fail, call Dr. Cupid. Let HIM
prescribe. Let him diagnose the situation in his keen, searching

way. HE knows how some maladies begin, and how unreachable
they are by any stuff in a bottle. HE is adept in the greatest
medicine ever discovered. And he shows the most wonderful
delicacy and ingenuity in writing his prescriptions. His medi-
cine is delightful to take—THAT'S his strong point. His patients
are with him from the start. His confidence is magnetic. HE is
SURE they're going to get well quickly.

His bills? That's easy. You only have to give him a
PROMISSORY note!

Advice to Girls

By Annie Laurie

Love is the flower that grows along
the pathway of life. The only flower
that is worth the picking. Little girl—
never forget that for one minute if
your particular little plant turns out
to have more thorns than blossoms,
that is your misfortune. But at least
you stopped a moment when the dust
lay thick in the road and smiled to
see the flower springing there—for
you.

And, as long as you live, you will
remember.
I saw her at the cemetery the other
day, a little, withered, plain, old
woman. She rose from the side of a
low grave, and her eyes were like
stars as she turned to go away.
I looked at the name on the simple
headstone, "Thomas Riley, beloved
husband of Mary." I wonder if he
was worth it all—Thomas Riley—the
love, the faith, the trust, the deep
devotion in that tired little woman's
face. But that was worth the joy it
brought her.

Being loved is all well enough, little
girl, but, dear me, it isn't a patch on
loving.
Let the girl with the mean little
mind and the starved little heart
marry for money. She wouldn't know what love was
anyway. Money is all she'll ever get.

Queer Creatures on Land and Sea

Why a Flounder Is Flat

FLOUNDERS are not born flat.
Mother Flounder lays her eggs
way out at sea. The tide carries
them on the surface of the water, and
they develop, and by and by all the
eggs that have not been gobbled down
by hungry fish hunters hatch out
baby flounders.

Secrets of Health and Happiness

Sane Clothing Makes Tonic of Winter's Cold

By Dr. LEONARD KEENE HIRSHBERG

A. B. M. A., M. D. (Johns Hopkins).
Copyright, 1914, by L. K. Hirschberg.

Wearing of bare arms and sanely clothed men! Of the
cold, not "colds," I must speak. The effect of extreme
cold upon the human body plays a vitally important
part with regard to health. Look about you and judge,
even a with your non-medical, common sense. Observe the
sk-sward mount of sickness, incapacity, decreased earn-
ing power, defective physical and mental powers in these
Boreas days of blustful winter.

Extreme days of lingering frigidly may, true enough,
drive disease and death into many a human nook and
corner, but the influence of cold itself for a reasonable
time, no matter how severe, is actually an accessory to
physical endeavor.

While this is true for robust individuals, who obtain
the sleep of the just, the plain victuals of the Pythagoreans
American homes, and who imbibe the temperate nectar of the Great
White Wayites, the night owls and the
scurie and double shirts are worn, their
cumbersome weight become a burden
a Pantagruel could scarcely mistake.

Cold calms the changing cheek, it cools
the scorching vein, restores sanity to
the maddened brain, tempers the venge-
ful steel and inspires to daring deeds.

Cold is Anesthetic.
Cold is, medically speaking, like love.
It is like a dizziness that "winna let a
poor body gang about its business." If
that business be bad for the "pair body."

Dr. Thomas Darlington, the former
head of the New York department of
health, has emphasized the fact that
cold lowers your susceptibility to im-
pressions. Even extreme degrees of cold
some degrees below zero, if transient in
character, increase muscular adeptness.

Curious to relate, cold actually re-
moves heat in your living tissues. The
freezing blasts which drive the blood
from your skin really burn up food and
tissue juices within you. It increases
the chemical goings-on inside of you,
and this enhances your power to do
and to dare and to hold.

This temporary exposure to inordinate
degrees of cold, if it is the result of
care by inducing sleep.

Long years of physiological dissection,
however, are necessary to decide just
how little cold Jane may safely with-
stand, and how much Roger can endure.

The pseudo intelligence which tries cold
first is like the old saw of "after meat
the mustard, and after death the doc-
tor."

For stern winter loves a dirge-like
sound, and in this manner, to lock the
door after the ass has gone, cold
proves only too often a sad truth. Cold
really makes severe inroads upon the
healthy stamina and vitality of any one
not physically fit.

Since there be few, indeed, who may
like Hercules, do what they may; since
those earthborn creatures who are 100
per cent, healthful are few and far be-
tween, an intense desire to go beyond the
limits of frozen tissue elasticity can only
result in catastrophes.

Victims Are Many.
The efficiency brought about by occa-
sional sals of Aurora blasts is soon
metamorphosed to debility and ineffi-
ciency when feelings of cold and dis-
comfort show themselves.

The benumbing effects of an icy at-
mosphere, the very dulling of the senses,
so sought when the sensation of pain or
absent somnolence indicates it, make for
sluggish perception and mental inaction,
cold winter, with the strength of its
sunbeam, touches the flesh and the soul
awakes. If heavy, clumsy, overpow-
er-

ing, and in this manner, to lock the
door after the ass has gone, cold
proves only too often a sad truth. Cold
really makes severe inroads upon the
healthy stamina and vitality of any one
not physically fit.

DR. HIRSHBERG

Answers to Health Questions

C. R.—What is Jaborandi hair tonic?
Jaborandi tonic is made thus:
Oulaine sulphate..... 20 grains
Tincture of cayenne..... 10 drops
Field extract of Jaborandi..... 2 fluid drams
Glycerine..... 1 fluid ounce
Rosewater..... 6 fluid ounces
The outline should be dissolved in the
alcoholic fluids by warming slightly,
then the other ingredients added, and
the whole filtered.

This is widely recommended by re-
spected prima donnas and beauty special-
ists for the scalp, but it is a very bad
mixture, and has done lots of harm to
the hair of beautiful women. Avoid it.

B. E.—I have some boarders in my
house who never clean their hair brushes
and they often use each others. What
shall I do?
Post a written sheet under each board-
er's breakfast plate. Upon it write
"Baldness comes from the sevens which
hide in your neighbor's hair. Hair
brushes are full of microbes."
The hair brush is usually in need of
cleaning once a week. Ammonia in
water will cleanse the brush. Do not
let the back of the brush get into the
solution. When all of the dirt is re-
moved, rinse the bristles with clean
water. Then place the brush, bristles
down, to dry.

Dr. Hirschberg will answer ques-
tions for readers of this paper on
medical, hygienic and scientific sub-
jects that are of general interest. He
will not undertake to prescribe or
offer advice for individual cases.
Where the subject is not of general
interest letters will be answered per-
sonally if a stamped and addressed
envelope is enclosed. Address all in-
quiries to Dr. L. K. Hirschberg, care
this office.

Sayings of Children

Willie—Grandpa, tell me a story.
Grandpa—Once upon a time before
people thought of marrying for money—
Willie—Oh, I don't mean a fairy story.

Phyllis accidentally discovered a doll
that her mother had hidden in a can-
trunk in readiness for the little lady's
birthday. The following day at dinner
she surprised the family by remarking
"I'm trying so hard to forget something
I want to remember that I don't feel
very hungry."

A little Boston girl, who had been at-
tending one of the public kindergartens,
fell from a ladder. Her mother caught
her up from the ground in terror, ex-
claiming: "Oh, darling, how did you
fall?"
"Vertically," replied the child, without
a second's hesitation.

Daddy's Good Night Story

By GEORGE HENRY SMITH

WHAT'S the matter with you?" asked Brer Rabbit of Mister Squirrel.
"My wife won't tell me a secret I want to know and I am very sad."
"Hat ha!" laughed Brer Rabbit. "I'll tell you what to do. My wife
put my hand in water one night. She thought I was asleep, but I wasn't.
I told her a lot of things."
"That's a good idea," said Mister Squirrel. "When my wife goes to sleep
tonight I'll put her hand in water and she will tell me where she put
my pipe."
"She hid it because she thought I set the house on fire. Good-by," and
away scampered Mister Squirrel.
That night, when all was quiet and Mrs. Squirrel was asleep (as her
husband thought), he put her hand in water and she began to talk.
"What a dear, dear husband I have. He is so good and kind to me,
I don't know what I would do without him."
"Where's my pipe?"
"The boys hid it," said Mrs. Squirrel.
"That was all she said, and Mister Squirrel went to sleep without learn-
ing where his pipe was.
The next day Mrs. Squirrel met Mrs. Rabbit. "I am very much obli-
gated to you for telling me about Brer Rabbit putting your hand in water,"
Squirrel did that to me last night."
"What did you tell him?"
"I told him he was the dearest, sweetest husband in the world."
"No."
"No, indeed. When the correspond-
ent general says for the war correspond-
ent to go, the writer goes."

Why He Wobbled.

"He does not seem to walk as straight
as he formerly did."
"No. He lost his balance at the bank."

Safe and Certain.

"I always make money at Monte
Carlo," said the traveller.
"Got a system to it?"
"Yes, and stick to it."
"Tell me about it."
"I never play."

His Limit.

"It's a good artist."
"Well, he can draw a fine crowd when
working on the street."

Disproven.

"The pen is not mightier than a
sword."
"No."
"No, indeed. When the correspond-
ent general says for the war correspond-
ent to go, the writer goes."

FRIDAY

ANNUAL REPORT FROM CHIEF OF POLICE SLEMIN

Continued from Page Six
The proprietors of the above places have up to the present time, shown a desire to observe the regulations.

Street Traffic
There were eight cases and five convictions for breach of this by-law, against 32 cases and 23 convictions last year.

Motor Vehicles Act
There were forty-eight cases and 32 convictions under this act in 1913, against thirteen convictions last year.

Provincial Secretary marked "Important," calling the attention of the police to a more stringent enforcement of the regulations governing motor vehicles.

Traunt Officer's Report
The following is Traunt Officer's Boylan's report for the year 1913. It will be seen that we had no traunts in 1913.

Traunt Officer's Report for 1913
No. of pupils of all ages enrolled in the public schools, 3,721. No. of pupils between the age of 8 and 14 years in the public school, 2,572.

No. of pupils of all ages enrolled in each school during the year: Central, 1,024; Alexandra, 741; Victoria, 660; King Edward, 703; Ryerson, 306; Dufferin, 186; Grand View for the city, 11. Total for the public schools, 3,721; St. Basil's, 273; St. Joseph, 106. Total for the separate schools, 379.

Total number of pupils of all ages for the whole city, 4,100. During the absence of families from the city during the summer and fall, we had 111 vacant houses under our

care. Nothing was stolen and none broken into. The following letter from Mr. E. E. C. Kilmer, speaks for itself: Feb. 17, 1914. To the Police Commissioners of Brantford: Gentlemen—I desire to bear testimony to the splendid services of Traunt Officer Boylan in connection with our schools, also to the improvement in attendance since we have had the services of a traunt officer for the entire day.

E. E. C. KILMER, Inspector Brantford Schools. The License Board
The license board is composed of His Worship, the Mayor, the chairman of the finance committee, and the City Clerk.

During the year 1913 the amount of fees under the various licenses granted is as follows: 1,000; Auctioneers, 5 at \$15; \$75; billiards, 6, \$70; cigarettes, 36, \$450; cirruses, 7, \$25; hawkers and pedlars, 7, \$55; intelligence office, 1, \$2; jewellery board, 1, \$2.50; bowling alley, 2, \$120; laundries, 16, \$160; milk, 31, \$31; plumbers, 15, \$75; pawnbrokers, 1, \$60; restaurants, 15, \$38; shooting, 1, \$2.50; theatre and picture shows, 4, \$25; transient trader, 3, \$300. Total, \$2,881.

Detective Department
Detective Chapman reports that during 1913 he took thirty-one fingerprints of criminals or prisoners charged with criminal offences. In several cases this has been the means of locating criminals for this and other police departments, or getting their criminal records where they have served terms in prison from several cities. There have been 600 important cases investigated by this department, the majority being from outside places. I wish here to express my acknowledgments for the kindness and assistance shown to me in this department by Lt.-Col. Sherwood, C. M. C., Chief Commissioner of Dominion Police, Ottawa, and his staff. I would strongly recommend all Chief Constables throughout the Dominion to co-operate with Col. Sherwood in inaugurating the fingerprint system in their departments. The work of Detective Chapman of this department during the year has been very satisfactory to me.

Children's Aid Society
The cases coming before the Juvenile Court are steadily decreasing in number as will be seen from "Schedule A", there being only fifty cases against children in 1913 of which fifteen were neglected children. Four years ago in 1909 we had 174 cases. Our policy is, if possible to keep boys and young children out of Court by notifying their parents, whose duty it is to see that their home training is not neglected, and this has had the effect of reducing the percentage.

The Children's Protection Act as revised during the year now prohibits boys under 10 and girls under 16 from being employed on the streets, and also other children under 16 from loitering in public places except when accompanied by parents or guardians. The result has been that juvenile delinquency has decreased. The Shelter for the Children's Aid Society has had the effect of educating many persons in charge of dumb animals to show more consideration and kindness towards them. We are sorry to lose our president, Major Robertson, who always took a great interest in the society, as he has gone to reside in Woodstock, but we are fortunate in having the consent of Dr. Charles Leeming to fill the position for 1914. I wish to thank those ladies and gentlemen who have taken an interest in our work in the past, and I should appreciate it if any persons who know of cases of cruelty to dumb animals, would report the same to me. Dr. Cutcliffe, V.S., has also rendered much assistance during the year.

Report of Patrol Drivers for 1914
There were 389 arrested prisoners brought to the station in 1913 by the patrol wagon against 631 in 1912. Prisoners conveyed to the gaol 264, and from the gaol 141. There were 348 calls by phone for the patrol wagon. Fire alarm calls responded to 72. Miles travelled 662. The wagon was used as an ambulance to the hospital on six occasions for sick or injured persons. Total number of persons carried 1000, against 1200 last year.

The patrol drivers, P. C. Cara and P. C. Rutherford have shown themselves very efficient in connection with the patrol wagon. In addition to this duty they assist in the sergeants office by taking reports from the public and answering telephone calls, day and night. The patrol wagon has been in constant use for over three years. It needs repairs and painting.

The horse is still in good condition and has rendered good service. The cost of up-keep for 1913 is as follows: Feed, \$101.51; Saddler, 6.05; Shoeing, etc., 32.90. \$140.46

Chief Constables Association of Canada
The above association is being reorganized more and more every year as forming a link between Chief Constables in the Dominion from the Atlantic to the Pacific Oceans, thus in a way, connecting the various municipalities which they represent.

I am glad to see the Dominion Government has recognized the importance of this association, when the recommendation of the Minister of Justice they made an Annual Grant to the society. "The Canadian Police Bulletin" has been issued, and I have now the second number. The articles and comments on police matters and efficiency and work are very well written. Deputy Chief Constable Stark of Toronto is entitled to great credit for the interest he has taken and the exertions he has made in advocating just and fair treatment of police officials.

Recommendations
Brantford has now a population of 26,454 and the suburban districts contains about 5000 which makes a total

of nearly 32,000, which we are called upon to police.

The population of Brantford is now beyond the power of the force to protect as it should be in the interests of property and of life. I would again bring before your Hon. Board the great urgency of more police being added immediately to the force. We have had no addition for nearly two years, and the force as it is at present quite inadequate to cope with the large and growing population and valuable property we have to look after.

The population and value of property by wards is as follows: Ward 1—Population, 5222; assessed value of property \$3,549,763. Ward 2—Population, 5776; assessed value of property \$2,347,850.

Ward 3—Population 4018; assessed value of property \$3,362,700. Ward 4—Population 5002; assessed value of property \$2,382,525.

Ward 5—Population 6,458; assessed value of property \$3,614,725. Total population 26,454; total assessed value of property \$13,257,563. I have only ten constables to cover beats extending to more than 70 miles of streets and the two patrol drivers work twelve hours a day, and the two sergeants and detective sergeant work a full day. The traunt officer's time is all taken up with his school work, therefore I cannot be counted on for regular police work. I have endeavored to submit this important matter for your consideration and would point out the great responsibility devolving upon the authorities in this respect.

Patrol Boxes
We have now six patrol boxes in operation, which have rendered valuable service to the department. We are still in need of three boxes in the outlying districts. I would recommend that the same be added to meet the increasing calls. I desire to thank the citizens who allow the police to use their phones in outlying points of the city.

Requirements
The magistrates office is not properly heated and I would recommend that a gas stove be placed there. The woodwork on the outside of the station requires painting badly, it has not been painted for years.

Complaints From Citizens Not Ventilated in the Police Court
There were 379 reports from citizens during 1913, against 319 last year investigated privately by the police without causing unnecessary inconvenience or publication of the names of citizens, thus arranging difficulties satisfactorily to all concerned.

Telephone Calls
The calls to the office through telephone from the city and outside places numbered 14,180, and were duly attended to by the police.

Brant Humane Society
There were 11 cases of cruelty to animals disposed of in the police court, consisting of 10 convictions; 2 being allowed to go as first offenders, and one withdrawn. Of these one person was arrested in the act, one arrested on a warrant, and nine summoned. The work of the officers of the Brant Humane Society has had the effect of educating many persons in charge of dumb animals to show more consideration and kindness towards them. We are sorry to lose our president, Major Robertson, who always took a great interest in the society, as he has gone to reside in Woodstock, but we are fortunate in having the consent of Dr. Charles Leeming to fill the position for 1914.

I wish to thank those ladies and gentlemen who have taken an interest in our work in the past, and I should appreciate it if any persons who know of cases of cruelty to dumb animals, would report the same to me. Dr. Cutcliffe, V.S., has also rendered much assistance during the year.

Short Review of the Work of the Department for 1913
There were all told, 1883 cases tried in the police court in 1913. There were 1485 reports from citizens investigated by the police of which 1273 were cleared up. The drunken persons arrested numbered 52, of whom 331 lived in Brantford

and 241 who gave their addresses from outside places. There were 10 accidents to persons, 12 sudden deaths, 10 inquests held, 3 deaths from drowning, 75 children lost who were found by the police and returned to their parents. There were 166 cases of theft in 1913 against 133 last year, which shows a slight increase. In the early morning of the 24th of December about 2.30 a.m., William Murray (colored) had been reported as shooting at several people in the East ward with a gun, and Sergt. Donnelly, P. C. Stewart and Colben responded immediately, and found that he had shot a colored woman, and on arriving at the scene he shot at the officers, wounding P. C. Colben, who had to be conveyed to the hospital. I ordered all available men to turn out and his arrest was effected shortly after. I was very pleased with the way the officers and men behaved on this occasion. I had and all concerned got off so well. For this offence, for which he pleaded guilty, he was sent to Kingston Penitentiary for 5 years. It will be

seen that his Worship, W. C. Livingston, the Police Magistrate, had a large amount of work on his hands. He devoted a great deal of time to the service of the department, both day and night. The officers and men have done their duty well during 1913, and have very often had to turn out on sudden cases in their own time, which they did without a murmur. In conclusion, I must thank your honorable board for the courtesy shown to me and the advice and assistance given by you at all times. I have the honor to be, gentlemen, Your obedient servant, CHARLES SLEMIN, Chief Constable.

INDIGESTION, GAS OR SICK, SOUR STOMACH
Time "Pape's Diapepsin" in five minutes All Stomach Misery Is Gone. "Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and your head is dizzy and aches; breath foul, tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapepsin" comes into contact with the stomach all such distress vanishes. It's truly astonishing almost marvellous, and the joy is its harmlessness. A large fifty-cent case of Pape's Diapepsin will give you a hundred dollar's worth of satisfaction or your druggist hands you your money back. It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach. Quickest, surest and most harmless stomach doctor in the world.

We offer the unsold balance of \$200,000.00 The Electric Steel and Metals Co., Limited WELLAND - CANADA (INCORPORATED UNDER THE ONTARIO COMPANIES ACT) 7% CUMULATIVE PREFERENCE STOCK
Subject to redemption at any time after five years from the date of issue, upon three months' notice, and payment of accrued dividends, at \$110.00 per share.
Price: Par, with a bonus of 50% Common Stock
Fractional shares of Common Stock will be dealt in at \$50 per share
The Electric Steel and Metals Company, Limited, will manufacture the following articles:—Light-weight, high-grade steel castings; manganese and other alloy steel castings; bar steel suitable for rifles; bar steel for rock drills, boring machines, etc.; ingots for forging shops; ingots for tool-steel manufacturers.
After careful study of conditions existing in Canada by Mr. David Carnegie, Consulting Engineer, of London, England, the following conditions were found to exist:— That light, high-grade steel castings were mostly imported from the United States and Great Britain. That manganese and other alloy steel castings were not made in Canada. Such ingots enter the United States duty free. And that all steel castings are subject to a duty of 27 1/2% ad valorem.
CAPITAL EXPENDITURE
Our plant in Welland will be ready for operation about May 1st, 1914, and will have a capacity of 4,000 tons of steel castings per annum. The total cost of this first plant, including organization, site, foundry equipment, electrical furnace, all buildings, labor and engineer's charges, will be under \$130,000 by contracts already made by the company. Seventy thousand dollars will be reserved for working capital, making a total outlay of \$200,000 for the production above mentioned.
ESTIMATED EARNINGS
Hydro-electric power is available at fourteen dollars per horsepower per annum, this price being subject to reduction as the load increases. The Company is also favored with a fixed assessment of \$10,000 for a period of twenty years, the taxes on which will not exceed \$500 per annum. The five-ton electric furnace which we are installing will handle five heats per day, and on this basis the plant will produce 4,000 tons of finished castings per annum. In the following estimate of earnings we have based our calculations on a production of three-quarters this capacity, namely, 3,000 tons. Our earnings are estimated as follows:—
3,000 tons steel castings, selling at \$120.00 per ton \$360,000.00
Less cost of production, at \$83.00 per ton \$249,000.00
Less depreciation on plant and machinery \$16,000.00
\$95,000.00
Less 7% dividend on \$200,000 Preferred Stock \$14,000.00
Leaving available for Common Stock \$81,000.00
The above costs of production and basis of selling prices have all been carefully prepared under the advice of Mr. David Carnegie, and detailed statements may be inspected at the Company's office in Welland.
DIRECTORS: MR. ROBERT TURNBULL, MR. J. H. LE FEVRE, MR. DAVID CARNEGIE, MR. W. L. RENTON, MR. EBENEZER CARNEGIE, SIR CHARLES ROSS
AUDITOR: C. S. SCOTT, F.C.A., Hamilton, Ont.
SOLICITORS: J. F. GROSS, Esq., Welland, Ont.
CONSULTING ENGINEER: DAVID CARNEGIE, M.I.C.E., 33-35 Charterhouse Square, London, Eng.
CAPITALIZATION Authorized \$200,000 Issued \$200,000
PREFERENCE STOCK \$225,000.00
COMMON STOCK \$225,000.00
The Electric Steel and Metals Company, Limited, will supply a demand that has hitherto been met almost entirely by American and British manufacturers. Of the total issue of \$200,000 Cumulative Preference Stock over 50% has already been subscribed for, allowing the Company to go to the allotment and proceed with the building operations and other details preparatory to the opening of the plant in the spring.

MR. BALFOUR AT 66 IN A TENNIS TOURNAMENT
FORMER PREMIER OF GREAT BRITAIN SHOWS REMARKABLE AGILITY. NICE, France, March 13.—Craig Biddle, of Philadelphia, with Mme. M. Gondoin as a partner, yesterday defeated Arthur J. Balfour, former British premier, and Mrs. Lambert Chambers in the first round of the mixed doubles in the international lawn tennis tournament. Mr. Balfour, despite his 66 years, was remarkably alert, and played with great judgment. He earned the enthusiastic applause of the large and fashionable assemblage that had come to see him play. Six hundred new rural mail routes were established during the past year in Canada.

Better Than Ever THE 1914 design of the HAPPY THOUGHT RANGE is now on the market with all its latest improvements. We have them in all sizes and prices and invite your inspection. W. S. STERNE, 120 MARKET ST. Machine Phone 788 Bell Phone 1857

First News Section FORTY-FOURTH YEAR COUNTY COUNCIL AGAINST TOLL ROAD Present Methods Would Have Acquired Desired Results
That to acquire the two toll roads in Brant County, under the present system of road maintenance, is theoretically attractive, would be a step backwards at the present time from the standpoint of utility to the state of affairs before the subject cropped up many times in 1913. More than that, while there would be no improvement in the keep of the roads; in fact the maintenance would not be as good, it would be put under a tremendous heavy financial burden capital expenditure. Good roads are desirable, and in recent years the automobile and other manufacturers as well as other interests generally have advanced economic arguments therefore. Brant County's case is looked upon as one of the most interesting of the arguments of the members of the Brant County Council perhaps to an individual will of the expenditure looms up big under present conditions. What are the conditions in the county? As a total road of 130 miles, he toll roads are 12 miles of this total. To buy would involve an outlay of \$50,000. All portions of county would be asked to contribute while it is well known to a study the map of Brant County that the districts would receive scarcely a cent from the millage. The county is a total road of 130 miles, he toll roads are 12 miles of this total. To buy would involve an outlay of \$50,000. All portions of county would be asked to contribute while it is well known to a study the map of Brant County that the districts would receive scarcely a cent from the millage. There are two toll roads in the county, the Paris and Cockshutt highways and the last financial will of the owners of these roads will be of interest. The return of the Paris and Brantford January last showed that it cost \$353. The paid up cap

THE END OF FAR DISTANCE Crimes Are Now Nearly All of "Wh and Mouse" Act Further Legislation LONDON, March 14.—The Mail prints what it calls "a considered statement obtained high official sources in reference to the Government's attitude towards the militant Suffragettes." It states subsequent statements "same paper to the effect that the "Mouse Act" is steadily a militant movement, and "The Women's Social and Union is no longer able to the activities of more than few militants. The days of conspiracy and big raids are year ago there was fifty women ready to commit crimes. Nearly all of them have been forced to abandon the final activities by repeated ment. Militant crimes are confined to about a dozen women whom seven are well known of them are paid servants. "We are rapidly approaching the residue of these fanatics." remaining militants continue near and appear in connected fresh crimes. Reference is made to the suggestions sent to the Hon. The most usual one of these women should be allowed in jail. The Daily Mail says responsibility the government not at present assume. The "settle leaders are undoubtedly for the death of one of the in order to regain public which the movement has lost objections apply to placing lunatics in an asylum. In deportation of the women, who is going to feed the
