BRITISH CAPITAL FOR CANADA

TORONTO, Dec. 16.—I believe that more British capital will come to Canada next year than ever before. The feeling towards this country in Britain is most friendly and a big capitalist is inclined to withdraw his funds invested in Britain and place them here, because he believes that a great future awaits Canadian security owing to the wonderful growth of the country. Canada needs capital, needs a great deal of capital and it seems to me that Britain will supply it as long as the securities sold there are good and are not misrepresented. In making the above statement E. MacKay Edgar, partner in the London banking house of Sperling & Co. said this condition of affairs was not due in any great degree to the budget, which is now the centre of political crisis in Britain. The "Britisher," said Mr. Edgar, who has been accustomed to place his available funds in British securities has come to see that while these are sold enough there is no great future for them. He has also come to see that his money invested in Canadian securities brings him good returns with additional prospect of increase owing to the phenomenal growth of Canada. A good illustration of this is furnished, said Mr. Edgar, in the demand in England for Canadian bank shares. Before I came to Canada a number of jobbers in London signified their anxiety to secure a block of shares from some Canadian bank. I presented their case to Molsons on arrival and told them I could dispose of a block of five thousand shares, valued roughly at a million dollars if they could provide it. The directors took kindly to the proposition and the matter will soon come before the shareholders of the bank. There is no attempt on the part of the Britisher to secure control of this bank. But should the stock be issued the result will be that a million dollars of new capital will have come into the country.

SMALLPOX IN GLOUCESTER FIFTEEN HOUSES QUARANTINED IN AND AROUND TRACADIE

Smallpox, smouldering in Gloucester County for years, has again broken out in the Tracadie District, in and around Tracadie village there are about fifteen families quarantined containing some thirty or forty cases of the dread disease. Col. R. L. Maltby and Councilors L. Doyle and J. W. Vanderbeck, the Board of Health committee for District No. 23, Northumberland County, held a meeting in Newcastle last Thursday morning, and discussed the best means to be adopted to prevent the disease from coming into this county. Mr. Maltby drove to Tracadie Thursday and returned on Saturday. He found smallpox within four miles of the Northumberland County line, and had Notices posted and guards stationed to prevent any one coming from the infected districts without showing a clean bill of health and certificate of successful vaccination. Fourteen cases of smallpox are reported in one of Snowball's camps near Tracadie.

CANADA WILL DEMAND THE RETURN OF KELLY

OTTAWA, Dec. 9.—Unquestionable proof has reached the Ottawa authorities that Kelly, the Canadian arrested by American officers near the international boundary between Maine and New Brunswick, was taken on Canadian territory. The proofs have been submitted to the Department of Justice, and it is understood a demand will be made upon Washington for the return of the man.

Bill Passes its Second Reading

Authorizing Acquisition By Lease of Lines of Railway Connected with Govt. Railways.

OTTAWA, Dec. 16.—In moving the second reading of his bill to authorize the acquisition by lease of lines of railway connected with the government railways, Mr. Graham explained that there were provisions that no line could be taken over unless the chief engineer of the department reported that it was in good order and in safe condition for operation and that no lease should be binding until it had been approved by parliament. Mr. W. F. McLean took it that the bill put an end to stories about giving up control of the I. C. R. Mr. Haggart did not think an act was necessary to do what was proposed. The government could now have a branch road without coming to parliament for authority. Dr. Spry asked if the government proposed to continue the principle of government ownership and operation. If this or any other government deemed it wise in the future to lease or sell the intercolonial fact that any branch lines had been leased under this bill would not interfere with that action. Mr. Crockett said there was no new authority for the government contained in this bill. He regarded it as a meaningless sop to the ex-minister of railways, Mr. Emmerson. Mr. Borden did not agree with this. On general principles the bill was all right, but he wanted more light in the proposals of the government under this bill. Dr. Black Hants, said he would like to know if it was proposed to lease branch lines which were not now paying dividends. There was the Dominion Atlantic Railway which ran through the very best part of Nova Scotia and on which the commission had not reported. Was that excluded from the operation of this act or did the government contemplate acquiring it by lease? Mr. Henderson, of Halifax, said this bill afforded an opportunity for graft in the making of leases. Mr. Fielding replied that there was nothing suspicious of dark in the bill that he could detect. To his mind it merely gave the house's consideration to the principle that in certain cases the government could improve the intercolonial by the acquisition of branch lines, that in such cases the government should go ahead with the negotiations under proper safeguards, and when they had come to an understanding as to the terms on which a branch could be leased the government had to come to parliament and get it ratified before that lease became effective. There was every safeguard against an unwise or corrupt lines in view at the present time. Mr. Foster said that the explanation of the origin of this bill was probably the fact that Hon. Mr. Emmerson had pestered the government to do something toward the first sop to Hon. Mr. Emmerson had been the appointment of the commission to examine and report on was the second sop.

on the ground that their services were not at present required. They were within a short time a qualifying for the benefit of the provision fund which required fifteen years service. They were the older men. The bill provided that any man retired after March 31, 1909, could obtain the benefit of the provision fund after ten years service instead of fifteen. That date had been fixed upon as men dropped out of the line for cause which would exclude them from the benefit of the act in any case. The bill was agreed to after discussion. The house went into supply on harbors and rivers in Nova Scotia. In the course of discussion Mr. Jamieson raised the case of the Digby breakwater, where the men employed were informed that if they did not vote Liberal they would not get work. Mr. Fielding said that he would not justify the ordering of the men to vote, but he saw no harm in giving work to Liberals if they were equally good workmen. The Conservatives had done that when they were in power and the Liberals had not complained. Mr. Crockett brought up the excessive prices paid for dredging in New Brunswick, declaring 50c a cubic yard is paid where 10c would be ample and charging that there was fraudulent inspection. He also noted the way in which the A. and N. Loggie Company, close friends of the Minister of Public Works, has gone into the dredging business. Mr. Pugsley declared that there was no foundation for such a statement, and advised Mr. Crockett to be sure of his information before making such a charge. Mr. Crockett said it had been proved that there had been fraud at Dalhousie, and it was well known that close friends of the minister of public works, like A. & R. Loggie, Mr. McAvity and J. E. Moore, had secured contracts at Maquapit Lake and Gaspeaux River. Mr. Crockett added that he intended a reflection on the contractors. Mr. Pugsley pointed out that while Mr. Crockett had alleged that there had been fraudulent dealings in connection with dredging contracts he had stated that he made no reflection upon the contractors. If Mr. Crockett had information of that kind he would be negligent in his duty as a public man if he failed to give the information so that the necessary proceedings might be taken. A. & R. Loggie were not intimate friends of his, they seldom took an active part in politics. They had never secured a contract except as the lowest tenders and neither had any other man. The contract for dredging the St. John harbor had been let to the Maritime Dredging Company after public competition and after tenders had been advertised. As for the Gaspeaux river and Maquapit Lake contracts, tenders had also been called for and the work let to the lowest. He invited the fullest investigation of these transactions in the public accounts committee. Until he had better evidence than the naked word of Mr. Crockett, Dr. Pugsley declined to believe that there had been a graft contractors. The department tried to get honest inspectors, and

NEWCASTLE FORM GOLFING CLUB

At a meeting in the Town Hall, Friday night, Mayor Miller, chairman, Mr. W. H. Belyea, the Secretary, Newcastle Golfing Club was organized. The following were elected officers: President, Customs Collector, W. A. Park; Vice-President, J. Rogers Lawlor; Secretary, Mr. Chas. Sargeant; Chairman, Rev. S. J. MacAvellan; Managing Committee—Chas. J. Morris, Stanley W. Miller, John Russell, James Stables and James P. Whelan. The following committee were appointed to draft bye-laws for the club: W. H. Belyea, C. J. Morrissey and J. R. Lawlor. W. A. Park, J. R. Lawlor, Charles Sargeant and S. W. Miller were appointed a committee with power to make arrangements for the club, with the Rink Association. A resolution passed admitted all the clergymen of the town to honorary membership. Subscribers present at the meeting were: W. A. Park, J. R. Lawlor, J. M. Falconer, Chas. Sargeant, G. G. Stothart, L. B. Murolo, W. H. Belyea, John Russell, C. J. Morrissey, S. W. Miller, J. S. Lewis, J. P. Whalen, J. E. T. Linden, Rev. S. J. MacArthur, H. R. Moodie, Wm. Stables, Jas. Stables. The total membership to date is 35. They purpose to lease space from the Rink Association. BEARINE (from Canadian Bear grease) applied to the roots of the hair, keeps it glossy and prevents its falling out. 50c. a jar.

The inventor of the threshing machine died only a few days ago. He thought that we are only one lifetime distant from the final calculations to make us reflect upon the rapidity of modern progress. ***** believed they were honest. The contractors were men of high standing. Mr. Crockett reiterated his belief that the public had been defrauded of large sums in connection with the dredging in New Brunswick. He charged that on the A. & R. Loggie contract at Dalhousie, a man named Alleyne has been appointed on Mr. Pugsley's recommendation, as inspector; that Alleyne was paid for day after day when for many days he was absent; that another man, an employe of the contractor, did the inspection and that this man entered suit against Alleyne who drew the money, the suit being settled through the influence of the contractor. Again, referring to Mr. Pugsley's assertion that A. & R. Loggie got no contracts except by tender, Mr. Crockett read the following telegram: Eugene Lafleur, chief engineer, Ottawa, dated Dalhousie, 14th, October, 1908: 'Kindly authorize resident engineer Stead to put dredge Hayward at work at Bathurst at same price as Caraque, to be certified fair and reasonable by Mr. Stead, work not to exceed five thousand dollars.' The Nova Scotia estimates were passed.

DR. COOK IS WELL LOOKED

The North Pole Explorer Gets Big Roasting From Men in His Employ

NEW YORK, Dec. 16.—The New York Times presents to-morrow the remarkable narrative of a man made under oath, declaring that they were employed by Dr. Cook, Cook, to fabricate astronomical and other observations for submission to the University of Copenhagen, which is about to pass upon Dr. Cook's assertion that he discovered the North Pole, on April 21, 1908. These men are George H. Dunkle, an insurance broker, of 31 Nassau Street, New York, and Captain August Widdel Looz, a sea captain of For their labors they were to have received jointly from Dr. Cook \$1,500, with an additional bonus of \$500 to Captain Looz upon the acceptance of the records by the University of Copenhagen. They say that Dr. Cook had paid them only \$500 when he disappeared on the eve of the despatch of his records to Copenhagen, two weeks ago, and his failure to pay the sum remaining due them, they freely acknowledge to be their motive for coming forward with their story.

VERIFIES IT The Times has followed the steps described by these two men and has verified their goings and comings, their purchases of books and charts, and the fact of their intimate relations with Dr. Cook. Whether the observations calculated by Cook, Looz and supplied as he alleged to Dr. Cook were adopted by the latter and made a part of his report to the University of Copenhagen it is, of course, impossible to say, without a comparison of Captain Looz's narrative with that report. The Times has communicated to the University of Copenhagen the main facts of Captain Looz's story and Mr. Dunkle's corroborative documents it has received from these men, and offered to supply to the two men. One of these purports to be Dr. Cook's memorandum directing the preparation of observations from Scartevaag all the Pole. The narratives of Captain Looz and Mr. Dunkle appear below. They constitute one of the most fascinating chapters in all the literature of imposture. Captain Looz, it will be seen, frankly expressed his scorn of Dr. Cook's claims, laughs at his ignorance of the simplest essentials for accurate observations in the Arctic regions and describes at length how, working backward from the pole, he calculated observations that would fit in with Cook's narrative, and coached him on the necessary modification of the latter—as for example, that he must be sure to record that he rose before 4:15 on a certain morning, because it was at that hour that a certain star mentioned in one of Looz's calculations would be visible. Mr. Dunkle describes the acquisition of the enterprise; how from the newspapers they gathered that Dr. Cook was in deep water and inferred that he would be glad to pay for help; how Dunkle got John R. Bradley, Cook's baker, to introduce him; how the subject was led up to delicately and, the bargain finally struck and carried out, and how at last Dr. Cook disappeared after accepting their work and paying only \$500 for it.

MEET AT THE WALDRUPP Both Charles L. Looz and Mr. Dunkle had offices in the shops of Waldrupp and Company at 128 Front Street, and of publishing for Dr. Cook various nautical and astronomical works besides the charts of Smith Sound and the Polar regions. Robert Flight, who sold the books and charts, told of a reporter of the Times that he recalled the visit and that the purchase was made as described. The charts he sold, Mr. Flight said, were numbered 209, 214 and 275. He knew Captain Looz intimately and recalled having sold him when the charts were bought by the captain. He said that he had seen the captain at a dinner in New York, and that he had known of the charges ever since as a matter of course, and his acquaintance with everything pertaining to the expedition, and that he would not let the University of Copenhagen be deceived by the story of the discovery of the North Pole. Captain Looz's narrative is as follows: I was employed by Dr. Cook to calculate astronomical observations for his report to the University of Copenhagen. I was to receive \$1,500 for my services, and an additional \$500 to Captain Looz upon the acceptance of the records by the University of Copenhagen. I was to receive the sum remaining due them, they freely acknowledge to be their motive for coming forward with their story.

was he stayed at the Gramatan Hotel from November 16 to November 19, working observations for Dr. Cook, and that he and the doctor had a number of conferences. Mr. Dunkle went with him on November 16, leaving the next day, he and the captain having connecting rooms, numbers 126 and 128. Mr. Dunkle registered for them. The hotel registers show the arrival on Nov. 16 of George H. Dunkle and Andrew H. Lewis, the fictitious name agreed on for Captain Looz. They were assigned to rooms 126 and 128. A L. Constock, one of the desk clerks, and another named Kelly, told a Times reporter that they recalled the day Lewis arrived because he had asked for Dr. Cook, and when told that the doctor had not arrived, became angry, thinking they were trying to deceive him. Lewis started for the railroad station, to go back to the city, but was called back to the hotel, and waited in a private room until Dr. Cook arrived. Capt. Looz tells the same incident. Capt. Looz says he remained secluded in his room during his stay in the hotel so as to run no chance of having the doctor found out. All the time he worked hard on the Polar calculations, giving them to Dr. Cook as they were completed. On the last day of his stay at the hotel, Captain Looz says he gave Dr. Cook the final set of observations he had made for him, and the doctor thanked him profusely, declaring that he now felt confident that his records would be accepted at Copenhagen.

WHAT IS ITCH DIRT?

It is the old Anglo-Saxon name for Dandruff and it's a good one. If you have dandruff you have itchy dirt and the little microbes that itch part and parcel of dandruff are working persistently night and day and sooner or later will reach the very life of your hair and destroy its vitality. Then you'll be bald—Bald to stay—for not even the wonderful rejuvenating properties in Parisian Sage can grow hair after the hair bulb or root is dead. Parisian Sage cures Dandruff. T. J. Durick, the druggist, sells it—recommends it and guarantees it; only 50 cents a large bottle and your money back if it fails to cure Dandruff, Falling Hair and Itching of the Scalp.

A MISTAKE

Claude Macdonnell's sensible resolution in favor of abolishing the unjust law which demands from every Federal candidate a deposit of \$200.00, which he forfeits if he receives less than half as many votes as his successful opponent, has again been given the six months' hoist in the Canadian Commons and, therefore, killed for the present session.

WHEN APPETITE FAILS... SEIGEL'S SYRUP... It is because your food does not digest properly.

under the present system, with the candidates who are not elected... THE UNION ADVOCATE... THE UNION ADVOCATE...

And each candidate has been required to poll a majority of votes instead of a mere plurality in order to win his seat, the Conservatives, who elected 37 of their 42 candidates in the recent British Columbia elections, might not have obtained even half the seats in the legislature.

At the last Dominion election it was the Conservative party that was caught by the unequal system. The Liberals polled about 24,000 more votes than the Conservatives, but other parties polled 25,000, thus placing the Liberals in a minority of about 1,000, but, whereas their rightful share of the new House of Commons would have been only about 110 members to 109 for the Conservatives and 2 for the other parties, the Government elected about two-thirds of the whole number of members.

In most countries of Europe there is a second ballot for all cases in which no candidate receives a clear majority at first. The second contest is between the two leading parties alone, the defeated parties then having an opportunity to cast their vote for what they consider the least objectionable of the other two.

There it is so arranged that each political party elects just as many members as its popular vote entitles it to elect. Thus the party that secures 60 per cent. of the votes cast also obtains 60 per cent. of the legislative seats; the party having 30 per cent. of the votes gets 30 per cent. of the members; and the smallest party or parties get the one or more members to which their proportion of popular support entitles them.

RINK OPEN CHRISTMAS EVE

The skating rink is progressing favorably. The floor was flooded on Saturday. The whole building will be finished and opened to the public by Christmas Eve. The skating space is 50 x 150 feet. There are two curling rinks, 18 x 150, besides promenade all round the rink, and two dressing rooms. The electric wiring was begun on Saturday. There will be four arc lights and some 40 or 50 incandescents. Richard Gremley, Jr., has the contract. The cost has been \$2500 to date, and when finished will have cost about \$3000.

Care in Preparing Food.

In recent years scientists have proved that the value of food is measured largely by its purity; the result is the most stringent pure food laws that have ever been known. One food that has stood out prominently as a perfectly clean and pure food and which was as pure before the enactment of these laws as it could possibly be is Quaker Oats; conceded by the experts to be the ideal food for making strength of muscle and brain. The best and cheapest of all foods. The superiority of Quaker Oats over all other oatmeals is due to two things: the greatest care in the selection of the finest oats obtainable and the special machinery by which this oats is cleaned, rolled and packed. The Quaker Oats Company is the only manufacturer of oatmeal that has satisfactorily solved the problem of removing the husks and black specks which are so annoying when other brands are eaten.

ADVOCATE MANAGEMENT

At the last meeting of the Advocate Publishing Company, Ltd., L. B. McMurdo was chosen managing director and W. N. Duchemin manager. Under the new arrangements, the UNION ADVOCATE will be greatly improved. It is now issued twice each week, but at the old price of \$1.00 a year. The editions consist of from four to eight pages. Business men will find the UNION ADVOCATE one of the best advertising mediums in the province. The office is well equipped for job work, and orders for all kinds of printing are solicited. Subscribers who are in arrears will kindly assist the management by paying up promptly that is due.

BIG GAME KILLED THIS SEASON

The report of Chief Game Warden A. E. O'Leary for the counties of Kent Westmorland, Kings and Albert for the past season shows that the big game killed in District No. 2 was 233 moose, 233 deer and 4 caribou. The report by counties is as follows: Westmorland—Deer, 99; moose, 62; caribou, 2. Albert County—Deer, 65; moose 44. Kings County—Deer, 77; moose, 60. Kent—Deer, 52; moose, 58; caribou, 2. Total—Moose, 233, deer, 233, caribou, 4. In 1908 the game killed in the four counties was: Westmorland—Moose, 67; deer, 76. Kent—Moose, 90; deer, 46; caribou 8. Albert—Moose, 60; deer 67. Kings—Moose, 35; caribou, 6; deer 46. Total—Moose, 232; deer, 263; caribou, 14. Decrease in caribou killed, 10; increase in deer killed, 28; decrease in moose killed, 19. Best spread reported on from Kings, 1009, 54 inches. Largest spread in District No. 2, 611 inches, taken at St. Charles, Kent Co., by Maxine Comeau. The smallest head in 13 from woods at Harcourt, Kent Co., measured 45 inches.

HON. PUGSLEY INTERVIEWED

Interviewed at New York on Thursday, Hon. Mr. Pugsley said: "Of course I cannot reveal the exact nature of my mission to Washington, but I am deeply interested in the mutual interest of our two countries, and can say that the boundary questions will be settled amicably and with entire satisfaction to both Canadians and Americans. There is no doubt in my mind that all these boundary problems, in many cases somewhat intricate, will be solved most satisfactorily. Everything is tending toward a unity of interest between our two countries. Nothing can give our Canadian people more pleasure than the message of President Taft. It is an able document, radical, broad-minded, yet conservative, with the interests of the whole country kept in view. 'I am sure it will surmise the most sanguine believers in the prosperity of our two countries to learn of the wonderful transformation that is going on in the Western provinces of Canada.' In the short space of four months, more than sixty thousand Americans have gone into Western Canada and taken up homes there."

STRUCK HANDS

Eighteen special struck a sledge when it was being used to clear a path in St. John. Wednesday. The men have returned to their homes.

SILVER ORE

During the month of November just closed 1,895,250 lbs. of silver ore were shipped out of the mines at Cobalt over the Temiskaming and Northern Ontario Railway, according to the official report received by the department of lands, forests and mines.

LOTS OF SMELT AT HUNTON

A good quantity of smelt were caught on the Richibucto river last week. All were fishing in open water as there was very little ice in the river. The price of smelt stood up to 100 cents per pound. There is a large number of buyers in the neighborhood and prices are very likely to keep up.

LEFT LARGE AMOUNT

In the York report, some 150 lbs. of administration have been sent to the late Herbert H. Gunter, lumberman, who was run over and killed by an I. R. C. train at Campbellton several weeks ago. Mrs. Eliza Gunter, the widow and William Gunter, deceased's eldest son. The estate was sworn at at \$192,000, of which is personal property.

A DESPERATE ACT

Angus McLean, of No. 3 Colliery, a native of North Shore, St. Amos, narrowly escaped being shot dead Wednesday night while on his way from Glace Bay to McKay's Corner. He was sitting in a wagon with two other men when a shot was fired from the side of the road which struck McLean on the side of the head, inflicting a serious wound, which bled freely. He was attended to by a physician. No clue to the perpetrators has as yet been found.

LEFT A FORTUNE

By the death of his uncle, also named Petronus Hodges, a wealthy cutlery manufacturer of Sheffield, England, Mr. Hodges, of Glace Bay, was left a fortune of \$50,000. A brother and a sister of his were also left a like amount. Unfortunately the young lady died a few weeks ago before she could benefit from her late uncle's bequest. The sister's estate is to be divided between the brothers, which will increase their legacy by at least \$25,000 each. Mr. Hodges worked at one of the collieries of the Dominion Coal Co., and his fortune came as a great surprise to him.

COMMITTED SUICIDE

Henry F. Heenan, one of the best known musicians in the city of St. John and book-keeper and cashier of the local office of the Dominion Fire Insurance Company, committed suicide on Thursday afternoon by drinking carbolic acid. The motive is apparently found in the fact that he was short in his accounts. A widow and six orphaned children mourn the husband and father. Mr. Heenan was about 44 years of age, a member of Harrison's orchestra, director of St. Peter's orchestra in North End, and since the death of Prof. Williams, bandmaster of the City Cornet Band. He came here from Halifax about seven years ago.

HONOR CON. SPROUL

A Sussex despatch says:—The reception this evening in the institute hall in honor of Con. J. H. Sproul was well attended by citizens and friends. Mayor McLean in the chair. The Mayor read a message from the minister of public works expressing his great pleasure in joining with friends in expressing appreciation of the faithful manner in which Con. Sproul had discharged his duties. G. W. Fowler read the address and presented the guest with a beautiful leather arm chair, also a leather arm chair for Mrs. Sproul. Among the speakers were Judge A. S. White, Coun. A. Gilbert, Rothesay; J. A. MacArthur, Con. Henderson and Judge McIntyre. Dr. Sproul of this town is the son of the above gentleman.

GUNTER ESTATE

The real estate of Mr. Gunter has been enumerated as including the following values: Residence on University avenue, Fredericton, formerly occupied as Government House, \$5,000; lots on Waterloo Row Fredericton, purchased from Miss Mary Rainford \$1,500; interest in farm at Maple Grove, Stanley, \$2,500; store office and land at Ladlow Northumberland county, \$1000. The personal estate includes a half interest of the late Mrs. Annie F. Richards. Under the law as Mr. Gunter died intestate, the estate will be divided so that one-third will go to the widow, and the remainder two thirds, will be divided evenly among the children, which means that the widow and the two sons, William and Ralph, will each be entitled to one third of the estate or about \$64,000 each.

DEATH OF THOMAS DONAHUE

Thomas Donahue, who for about fifty years had been a resident on castle street and was well known throughout the town and country, passed away on Saturday afternoon, after a short illness of pneumonia. Deceased was sixty years of age, and was a native of St. John. His married life was well spent in the early days of his life, and over forty years ago he was married to a Miss Bilson of St. John's, then at Chatham, and finally in Newcastle, where he resided for many years. He was in the employ of the Newcastle Harbour Trust, and for some time acted as a messenger for the St. John's Harbour Trust. His wife died in St. John's a few days ago. His nephew, a James, Mr. and Mrs. Bilson, of St. John's were present at the funeral, which took place yesterday afternoon. Rev. Father Vincent officiating. The pallbearers were Messrs. Alan McPherson, David Neil, John Gaffney, Wm. Wright, Wm. Hogan, and Andrew Cobb. The funeral arrangements were in the hands of Mr. E. J. Murray.

GET AN ABERY IN THE WOODS

A very serious accident occurred in the lumber woods of the Little South West Miramichi a fortnight ago, to William Murchie, a young man of Hardwick, who was working for D. J. Ritchie & Co. in one of Wallace Johnston's camps about thirty miles above Redbank. Mr. Murchie cut his left foot with an axe, severing the artery in his instep. Before his comrades could get the leg sufficiently bound to prevent the flow of blood, the sufferer was much weakened. He and two others who were with him, tried to get the blood with flour and released the ankle from its coils, but several times it had to be rebound. A week after the accident Mr. Murchie was taken to the camp superintended by Harry Bryenton of Redbank. There they corded the ankle tightly, and on Thursday Mr. Bryenton brought the poor man, now delirious from loss of blood, to Redbank, where Dr. Coleman attended to the wound. Friday Mr. Bryenton proceeded to the Hotel Eden, Chatham where he left the patient in the care of the good sisters. The ankle had been so tightly bound that the circulation had been stopped, and there are grave fears that the foot will have to be amputated. The Mr. Murchie is twenty-three years of age and unmarried.

WHITNEYVILLE

Whitneyville, Dec. 10—On Thursday, the 7th of December, Mr. Adam Hill crossed the river in a canoe, quite an unusual thing in this part of the country. On Wednesday about eight inches of snow fell and the people are all hailing with gladness this first appearance of winter; especially those who are doing post office work. Mr. and Mrs. P. A. Forsyth spent Wednesday evening at Redbank, the guests of Rev. and Mrs. E. E. Mowatt. Rev. H. W. Worden, who was ill for a few days the first of the week, is able to be out again. Willie Parker who was in the woods with Mr. David Stuart, came home last week with a cut foot. Rev. Robert and Mrs. Mutch of Central Norton, who have been visiting friends and relatives in this place, expect to go to Lytleton shortly to visit the former's brother, Mr. Jas. Mutch. On Friday evening Dec. 3rd, a Missionary entertainment under the auspices of the U. B. W. M. A. Society was given in the Baptist Church here. Although the evening was rainy and roads bad a very good number was present. The silver offering taken goes towards Missionary work. The offering amounted to \$1.90. At the close of the entertainment home-made candy was served. The program of the Miss. Entertainment was as follows:—By Choir, Chorus—Are You Helping? Address by Rev. H. D. Worden. Recitation—Somebody Else, Miss Mable Sinclair. Rec.—Why Didn't You Tell us? Miss Olive Mutch. Solo—India, by Agatha Forsythe. Rec. The Little Widow, by Kathleen Dummett. Dialogue—How Aunt Polly joins the Missionary Society, by five young ladies—Miss Marjorie Curtis—M. Lillian Forsythe, Olive Hare, Maggie Stuart and Mary Whitney. Chorus—Is It Nothing to You? Rec.—Who Will go for us? by Mary Whitney. Rec.—A Little Girl in Indian Costume, by Grace Curtis. Rec.—Little Maiden and Little Men, by Francis McKay. Chorus—Lend a Hand. Rec.—How Prayer was Answered, by Marjorie Curtis. Address—Rev. Robt. Mutch. Offering. Chorus—Far, Far Away. Benediction—By Rev. H. D. Worden. Much praise is due those who took part for the excellent manner in which they performed their part in the program. On account of the President Mrs. Worden being indisposed the meeting was presided over by Miss A. E. Forsythe, District Secretary.

Only Medicine That Did Any Good

After Suffering Tortures For Years, This Lady Found Happy Relief In "Fruit-a-tives".

Frankville, Ont., June 11th, 1903.
"I have received most wonderful benefit from taking 'Fruit-a-tives.' I suffered for years from headaches and pain in the back, and I consulted doctors and took every remedy obtainable without any relief. Then I began taking 'Fruit-a-tives' and this was the only medicine that ever did me any real good. I took several boxes altogether, and now I am entirely well of all my dreadful headaches and backaches.

MRS. FRANK EATON

I take "Fruit-a-tives" occasionally still, but I am quite cured of a trouble that was said to be incurable. I give this testimony voluntarily, in order that others who suffer as I suffered may try this wonderful medicine and be cured."
(Signed) MRS. FRANK EATON.
"Fruit-a-tives" are sold by all dealers at 50c a box, 6 for \$2.50 or trial box, 25c or sent post-paid on receipt of price by Fruit-a-tives Limited, Ottawa.
