SASKATCHEWAN HOUSE IS TO POROQUE TODAY

Premier Scott Announces That No Person is Empowered by Government to Secure Contract for New Parliament Building. Question of Prison Labor Discussed.

Regina, June 11.—The Saskatchewan Legislature was occupied almost entirely today in committee work, which is so far advanced that proceedings are likely to take place tomorrow.

The Premier announced in the House that he had information from a Montreal contractor to the effect that some person in Regina had sent word east claiming that he was acting for the government and could be of assistance to the contractor in obtaining the contract for the legislature and other buildings.

The Premier said that he was not sure that any person who had professed to have authority to act for the government in any way had done so. He said that if it was proved that any person made such profession of influence or authority the government would take action against such person and have him punished with the extreme rigor of law.

On motion for a second reading of a resolution from the Committee of Ways and Means, J. H. Wellington (Conservative, Moose Jaw City) moved an amendment approving of the government proposal to employ prison labor in the public works of the province at any time, and that especially at a time when there was so many unemployed in various parts of the province.

ANARCHY IN PERSIA.

Persians Are Much Dissatisfied With Russians.

St. Petersburg, June 11.—The growing state of anarchy in Persia is reported in advices received here, for while there is an attempt to maintain the attitude of optimism officially, there is apprehension of a serious turn of events, and in some quarters fears are entertained for the safety of the Russian minister at Teheran.

A dispatch from Tabriz says that a strong anti-Russian movement had broken out in northern Persia. The bazaars at Tabriz, according to the dispatch, are closed, and the public is in a state of excitement. An eight day strike of the local council recently was held, in which demands were framed for secession, and a declaration of independence. In Azerbaijan province the Russian colony is leaving in large numbers in the direction of Russia.

Robinson, a delegate from Grace Church, also returned...

PERSONAL: Miss Ethel Peart was the hostess of a jolly little party last evening in honor of her guest, Miss M. Stewart. The following gentlemen were present in a most enjoyable manner and all present spent most enjoyable evening.

PERSONAL: C. Peterson, proprietor of the Clayton House at Regina and president of the Licensee's Association of Saskatchewan is on his first visit to Edmonton this week and speaks in glowing terms of the future of the city. "When the paving of the principal streets is completed," said he, "it will tend to centralize the town and will make property which is situated along these streets more valuable." In the opinion of Mr. Peterson, Edmonton will be the largest city between Winnipeg and the coast.

PERSONAL: When interviewed regarding the Liquor Act which has been passed by the Saskatchewan legislature, Mr. Peterson stated that it would be very difficult to enforce the local option law which is carried on a majority vote based on the provincial lists.

PERSONAL: Mr. Peterson says that the amount of capital invested in the liquor business in Saskatchewan is over \$7,000,000. He says that it is particularly desirable that good hotel accommodations should be given to the travelling public, and the best way to insure this in any community is by the licensed liquor system under government supervision.

PERSONAL: Among the visitors to Edmonton several months ago was Frank Callahan, of Watsburg, Washington. In an interesting article to the Times, his local paper, descriptive of Edmonton and the province of Alberta. In the course of the letter he says: "I left Spokane May 10th in the morning on the 'Soe line' and had a very interesting trip passing through the Rocky Mountains and on east and north until we were 800 miles from home in 'Sunny Alberta,' a name from Spokane to Macleod it is mostly mountain scenery, timber and water. The trip was very interesting. From Macleod north 300 miles is a level prairie country with heavy prairie grass supporting a large number of cattle and horses. It is also well watered and some timber. From Lake Superior it is still quiet in evidence, having stores in the large towns, and owning one and three-quarter sections of land in every township. Many buildings, such as grain elevators, and some houses are covered all over on the outside with galvanized tin or sheet iron. The bones of dead cattle are seen, showing that there has been great loss of stock and suffering two years ago, but that need not have occurred, as there is plenty of feed if it had been put up. This country has great diversified resources in flux, hay, grass, stock, coal, wood, gas, oil, mines, etc. There are many lakes with great numbers of fish and ducks. Paper money is the only kind in use. I have not seen a piece of gold here. Edmonton and Calgary are making great improvements, also many other smaller places, but this is all making of a great country. But what I miss most of all is something to eat; the fruits and vegetables are not like ours. If I had come from Iowa I would never have known the difference—very few of these people ever lived in the country. I am glad to see that you are not so well satisfied. They have no vegetables, especially apples. We also need the coal that is here in such great quantities."

LICENSES GRANTED.

W. A. Deyl, provincial license inspector, has returned from attending adjourned meetings of the license board at Brasseur and Vermilion. A license for a license has been granted to J. St. Hilaire and J. B. Atreer by being granted a license for the liquor hotel at Vermilion.

Mr. Deyl reports that H. E. Radd, provincial detective, has secured a conviction against a Chinese restaurant keeper at Calgary for keeping liquor for sale and selling liquor without a license. On the first visit to the restaurant the detective secured some staff which was reported to be Chinese gin and wine, but on analysis by Dr. Havel, provincial bacteriologist, it was found to be intoxicating liquor with a large percentage of alcohol.

Mr. Radd, of the License Department, attended a meeting of the license commissioners of Calgary, which was adjourned from May 9th. At this meeting a license was released to the Rocky Mountain View hotel, at Stettler, and the license for the Ardrie hotel at Ardrie was recommended for a period of five months. James Watson, who recommended to John Jacques, of Gleichen, and Freeman Walker, at High River.

SOCIETY OF EQUITY. The Canadian Society of Equity held an organization meeting on Friday at their office on McDougall avenue. Among those in attendance were R. C. Owens, T. Pasmore, W. Pasmore, J. J. Woods, C. W. Springford, J. Hindle, J. H. Turner, E. M. Morris, E. Johnson, L. E. Ellerman and others. After some discussion the organization of a local union was proceeded with and the following officers chosen: President, L. S. Ellerman, vice-president, C. W. Springford, secretary-treasurer, E. H. Harris. It was decided to call the branch the Edmonton unit and the first meeting will be held at the Alberta Colonization Office on June 17th, when all interested are requested to be present.

The matter of a local union was brought up and arrangements are being made for all farmers adjacent to the city to secure their vines, which they can do at Equity prices by joining the Edmonton local union. Any information on this matter can be had by applying to Mr. Ellerman, of the Alberta Colonization Company, 221 First Street, west, or to Mr. E. H. Harris. It is to be hoped all farmers will take advantage of this opportunity as very satisfactory arrangements have been made. One of the most reliable binder twine companies in America, namely, the Plymouth Cordage Company, Special inducements have been given the Canadian Society of Equity by these people and satisfaction is guaranteed.

SUICIDE NEAR STONEY PLAINS. On Friday afternoon the body of a man named John McCabe, of Stoney Plain, who suicided several days previously was found at Mink Lake, about eight miles west of Stoney Plain. McCabe had been drinking some time, and went to Mink Lake, where there is a construction camp. He walked out on a raft and after jumping into the water and sank to the bottom. The body was found by some number of men, who were powerless to save the unfortunate man. Coroner Dr. Fortin was called for some time, but as there was a number of witnesses, and there was no doubt of it being a suicide, he decided that an inquest was unnecessary.

The serious illness is reported of Miss Nellie Gordon, who has been residing in Strathcona for some time. Miss Gordon has been removed to the Edmonton hospital.

STEPS FOR THE PROTECTION OF THE RIVER MILLS LUMBER.

The Matter Discussed and a Strong Resolution Passed. Forwarded to the Members at Ottawa.—Boon Suggested at Big Island.

A special meeting of the Board of Trade was held yesterday afternoon in the office of the board to consider the losses occasioned by the lumbermen by the flood tides on the river and to take some steps to prevent such losses if possible.

The president, J. M. Douglas, was in the chair, and among those in attendance were Dr. Fether, John Walter, Fred Suck, J. F. Wray, Dr. Archibald, O. Bush, Scott Blackwood, J. Fraser, Robert Ritchie, W. J. Cliff, John Gainer, T. M. Willingham and A. S. Bantlin.

The question of taking steps to make the river safer for logs was discussed. The river question was discussed by Dr. Fether, John Walter, Fred Suck, J. F. Wray, Dr. Archibald, O. Bush, Scott Blackwood and John Walter. Mr. Walter said that the river is a great nuisance to the lumbermen and that the government and an engineer had been sent up who did some surveying at a place near the mill where a dam had been put up. Mr. Walter said that the dam was a dead loss and that the floods greatly lessened the lumber supply here and increased the price of lumber.

Mr. Walter said that all the available timber in Alberta at the present was being cut by the lumbermen and that the lumbermen were being ruined by the floods. The following resolution, moved by Dr. Fether and seconded by Dr. Archibald, was then unanimously carried and copies ordered to be sent to the Hon. Mr. Dr. McIntyre, M.P., and T. A. Burrows, M.P.

Whereas the North Saskatchewan river from Edmonton west is one of the chief highways for the transportation of timber in Alberta; And whereas owing to the liability to sudden and heavy flood and the difficulties of holding logs at such flood times it is an extremely precarious and hazardous mode of transport, resulting in the loss of large quantities of timber annually—amounting in 1907 to some 2,000,000 feet and in 1908 to some 10,000,000 feet (both measured) or a total of two years of approximately \$1,500,000.

And whereas the areas of timber land in Alberta are very limited and such losses result in an increased cost of a necessary commodity, causing a burden on the people and a great waste of the province's resources; And whereas, owing to such heavy and repeated losses the local lumbermen are being ruined; Therefore be it resolved, that the Dominion government be memorialized to promptly make such improvements on the river and take such steps as may be necessary to prevent further losses.

REPAIRS TO REID'S YACHT. Conservative Member Had His Yacht Repaired in Government Shipyard. Ottawa, June 10.—The public accounts committee held its first afternoon sitting to-day, when the inquiry into the repairs made to a yacht owned by J. D. Reid, Conservative for Grenville, was continued. Ship's Carpenter Offspring, of the government shipyard at Prescott, was the witness. To Dr. Reid he said he could not remember that he (Dr. Reid) had ever told him that he did not work for government employees to work on his boat. In reply to further questions by Dr. Reid, the witness said that about four weeks ago, Hon. Mr. Brodeur's private secretary had questioned him as to the work done on Reid's yacht.

GERMANY WATCHING THE KING AND CZAR. Berlin, June 11.—Every incident of King Edward's meeting with the Czar of Russia at Reval is closely followed by the German public. The newspapers publish comprehensive reports which neglect no detail, no matter how trifling. These, with columns of comment translated from English and French papers, afford abundance of evidence of the interest with which King Edward's latest venture in diplomacy is being watched. The official world, as is usual in such an instance, is silent. Much of the public comment is reserved and non-committal in tone. While the idea that the meeting fore-shadows anything like an actual alliance between England and Russia is generally received with skepticism there is a growing belief that Britain may be on the point of scoring another diplomatic victory by adding the last important link to the chain of the anti-German entente. This belief finds utterance in frequent expressions of dissatisfaction and distrust, and of fresh criticism of Germany's foreign policy, which is characterized as inadequate. The unfriendly tone, lately adopted by the Russian press, has done much to heighten this uneasiness, which is leading some of the more influential organs to exhort the government to increased vigilance in protecting the fatherland's interests, reminding that "Germany has two frontiers to defend."

TRADE WITH ANTIPODES. Canada's Trade With Antipodean Port of Empire Shows Gratifying Increase. Ottawa, June 11.—The growth of Canada's trade with the Antipodes was gratifyingly reflected in the reports received by the Department of Trade and Commerce. J. S. Lark, of Sydney, who reports upon a visit to New Zealand, that business has increased from £32,374 in 1902 to £157,838 in 1906 and to £206,639 in 1907. The report shows that our purchases from New Zealand rose from £7,286 in 1902 to £29,815 in 1906 and to £78,015 in 1907. This growth is ascribed altogether to the reciprocal agreement between the two Dominions, and is likely to continue to develop steadily. Lark also reports upon the trade between Canada and New South Wales, the imports from Canada into New South Wales having increased from £78,443 in 1905 to £150,122 in 1906, and £208,173 in 1907, while the exports of New South Wales to Canada in 1905 were £41,455, 1906 £72,398, and 1907 £105,592.
