follows: Summing up the facts concerning Mr. Mercier, I find as follows:

1. The note signed by Pacaud and endorsed by Mercier and other political friends for elections were paid out of the \$100,000 received by Pacaud from Armstrong, but the responsibility can in no wise be imputed to him. 2. The \$5000 sent to Mercier on May 15 west on deposit for that purpose with Pacaud at that date and were not taken, as far as Mr. Mercier was concerned, from the Baides Chaleurs money. 3. The sum of \$5000 sent to Mr. Mercier was concerned by Pacaud out of the funds arising from a mount of th

The Baby Davidson report takes issue completely with the Jette findings and is just as pronounced in the opposite direction.

In a carefully worded editorial to-day The Star, while not exactly condemning Judge Jette for his findings, inclines to the opinion that his deductions are wrong in principal and fact. It says:

Wilson further said that he was an American and in a polite manner asked Betts to meet him in the street and he prepared for slaughter. Betts said he could take care of himself.

The greatest sufferers are those who supped soup all at this place: they are now in the soup, as the rule of the house was "pay strictly in advance."

That Judges Baby and Davidson have also kept slent speaks volumes for their patience and dignity. The feeling in political circles here, both Liberal and Conservative, is one of intense astonishment at the Jetter report. While it was generally believed that it would be a little favorable to Mercier, yet it was not expected that it would give the coat of whitewash it did.

The Conservatives are feeling sure of carrying the province as things look at present and are conceding about 25 seats only to Mercier. It is by no means certain that he will be able to carry his own county of Benaventure.

Mr. Balfour, in a speech, said that besides their inability to define their Irish policy the Gladstonians were in a dilemma.

They had made one set of promises to the English electors and another to the Irish electors. The question was: Who would be elected? Who would be the dupes? He believed that the general election would show that the patience of the English electors whad been exhausted. If the Home Rule would be so many soldiers of fortune supporting any government willing to extend the already undue limits granted by the bill to an Irish Parliament. The tors had been exhausted. If the Home Rule bill was carried the Irish members would be so many soldiers of fortune supporting any government willing to extend the already undue limits granted by the bill to an Irish Parliament. The Gladstonians brought no pressure upon the Government to dissolve Parliament. In fact they dreaded nothing more than a return to power with a majority dependent on the Irish party.

Hev. Prof. Farmer spoke of the proposals to establish a Carey centennial fund, and the proposal to establish a Carey contennial fund and the proposal to establish a memorial fund of \$10,000 to establish new stations in India.

The centenary memorial project was discussed in the Royal Commission appointed to investigate the Mercier letters of credit and the Whalen charge.

A "Hard Times" Smoker. The Wanderers' Bicycle Club will hold a "Hard limes" smoker at their club rooms to-night. Every person attending must wear an old worn our suit, hat and shoes. Shirt collars are strictly prohibited. There should be any amount of fun.

Although not having held their informal me ing, it is well understood that Mr. Sage Hart the well-known baseball enthusiast of the Edd, will manage the team. The following ple rers have been secured for the season: Humphries, G. Blanchard, M. D. Whelan, Schnaupoff, A. Winterberry, B. McGarry, Wilson, J. Chambers, E. Lawson, S. Ewing a C. Synge. With the above talent and Manag Harris' well-known ability, I have no doubt as who the coming champions will be.

After six lively rounds the contest was declared a draw. About 200 persons were present. The snowstorm which began again yes in Wales and the highlands of Scotland 1 in Wales and the highlands of Scotland has be-come general throughout the country. Tele-graphic communication is badly crippled. The snow is so deep and the weather so cold that the coursing for the Waterloo Cup, one of the great sporting events of Great Britain, has been sus-pended, as have also the races at Sandown Park.

An Awful Tragedy! Thousands of lives have been sacrificed, thousands of homes made desolate by the fatal mistake of the "old-school" physicians, still persisted in by some, notwithstanding the light thrown upon the subject by modern research, that Consumption is incurable. It is not. Consumption is a scrofulous disease of the lungs, and any remedy which strikes right at the seat of the complaint must and will cure it. Such a remedy is Dr. Pierce's Golden Medical Discovery. It is a certain specific for all scrofulous complaints. It was never known to fall if given a fair trial, and that is why the manufacturers sell it under a positive guarantee that if it does not benefit or cure the money paid for it will be refunded. The only lung remedy possessed of such remarkable curative properties as to warrant its makers in selling it on trial! The program for to-day will be carried out at the Victoria Rink. The semi-final starts at 9 a.m. Two friendly matches were afterwards played at the Victoria Rink, with the following results:

BOOTS AND SHOES. There is no material change. Nearly all the business now doing is on spring account and not much is being done of a sorting-up character. Travelers orders are coming in fairly well. Payments are fairly good for the season

Trade fairly brisk, but without any marked features. Sundries are quiet and there is not the same rush for influenza medicines as formerly. Quinine firm, but quotably unchanged. Gum, arabic is a little easier. Money is coming in fairly well.

PAINTS AND OILS. A quiet, steady trade continues to be done. Linssed oil is a shade easier in sympathy with the English market. Turpentine continues irregular, the ½c decline of a week or so ago having been changed into Ic advance. Not much is being done in glass. Payments fair.

Export trade is over and local has not yet developed. There is not much doing in consequence. Alsike is somewhat lower, being quoted at \$6 to \$6.75. There is no timothy offering. Dealers would pay \$5.50 to \$5.70 for red clover. There are evidences that the bulk of alsike and red clover has been marketed.

LEATHER, HIDES AND SKINS. A fair business is doing and orders while not large are numerous. Prices are thought to be at rock-bottom, and dealers are taking a more hopeful view of the situation. Sele leather is still going forward to England. Hides continue quiet and unchanged. There are not many skins coming forward.

DRYGOODS.

A few customers have been in the city during the week and an improved house trade is reported in consequence. Travelers have nearly finished their trips and orders through that source have fallen off in consequence, although they are yet fairly good. Demand for the heavier quality of spring dress goods is moderate. Payments fairly good. A number of customers are expected in the city during the next week or two. There is a good deal of activity around the warehouses, shipping goods and preparing for the coming season. Goods are coming in fairly well and by next week a large proportion of the spring orders will be forwarded.

HARDWARE. DRYGOODS.

HARDWARE.

Trade this week shows a marked improvement over last, and while it cannot be said that business is lively there is every indication of a healthy condition of affairs; purchasers are entering into actual consumption, customers not buying more than is absolutely necessary. Stocks are light and the general impression is that the spring business will show a marked improvement over last year. Reports from European centres indicate that in heavy goods prices still favor buyers and that in view of the present. conjugers and that in view of the present.

the feature of the market this week, the result of which is a little more activity in that article. All the houses quote granulated at 4½c., at which price it is considered a good purchase. Higher prices are looked for with an increased demand. This particularly applies to yellows, which refiners claim they are now manufacturing at a loss. Fruits are only moving slowly at unchanged prices. Syrups and molasses quiet. The best value in bright syrups for years is reported, a very bright article being offered at 5c. Coffees quiet. Stocks here, particularly of Rios, are not large and only a small portion is of fine quality. Demand for teas is only fair. Good Japans are worth ISc and stocks of them are getting light. Canned goods firm; peas, corn and tomatoes continue in good demand. Some brands are getting scarcer and higher. More enquiry is reported for peaches, plums and pears. The Edwardsburg and St. Lawrence starch factories notified the trade to-day of a reduction of ½c a pound and that freight will be pre-paid on 10-box 10st and over to any station in Ontario. A discount of 2½ per cent. Will be allowed on 25-box lots.

Prepared Prunes.

Advices received here yesterday from a lew York house state that owing to the nort crop there are no prospects of lower rices for prepared prunes. Importations on a New York market thus far this season ave been exceedingly small and an increase the demand is likely to be followed by learn prices.

The Guillotine's Shadow Once More. The sub-committee of the Board of Health met yesterday afternoon. The members communed with themselves for some time, but on the Mayor being forced to leave no business was transacted. Dr. Allen could do with about four more men, but the committee thought different and that there were too many doctors on the staff. In 1891 the estimates were \$22,700; the board expect to reduce that amount this year about \$4000.

TRADE AND FINANCIAL TOPICS.

After an indifference of some weeks local After an indifference of some weeks local exporters of grain are again falling into line. Numerous cable enquiries for grain are being received, and it looks as if Englishmen would be pretty free buyers if speculators in Chicago would only allow the markets to follow their natural course for a while. But the trouble is that just as n early everybody fancies the markets have settled down to a steady basis some manipulator gats control. -Canadian Eggs-Toronto Coal Imports
-Business Embarrassments.

No material change has developed in local wholesale circles during the week. In some lines, notably in drygoods, it is what is termed between the seasons. Business, however, if anything, is a little brisker. This ever, if anything is a little brisker. This applies nectionally the hardware which

polics particular, shows a marked improvement week. Wool also shows some slight indication of emerging from the lethargy which has surrounded it for some time.

Payments are gradually getting more Edwardsburg and St. Lawrence factories announcing a decline of %c a pound and that freight would be prepaid on 10-box lots and over to any station in Ontario.
