## THESE ARE EGGS NOT A FISH STORY

### The Shells Cut in Two Are Used For Mixing Bowls

(Middleton Outlook)

Hens are hens and eggs are eggs, so a small boy told us sometime ago. No doubt he was right. Anyway, at the Lone Tree Ranch in the prosperous Torbrook district which is owned and operated by D. E. Foster, there are hens. These hens are rather peculiar, inasmuch as they seem intelligent. For some time the blooming things wouldn't lay. All kinds of coaxing and unlimited persuasion had no effect whatever. Mr. Foster was getting a bit vexed and somewhat perplexed, but thought that he'd give the critters another chance to do their duty. So he came to town and bought some of George Reagh's best corn and a bunch of oyster shells and began a diet of his own invention for these pesky hens. It was lay or die and the hens realized this so after a couple of days' strenuous dieting the hens began to produce. But, low their product was not of the average. They were real eggs that would make an ostrich blush. Mr. Foster thought it was time that the world knew what his hens were capable of. He brought a sample of the hen fruit to the editor of this paper. This egg measured 8 1/2 inches in circumference, endways and around the side a big 6 1/2 inches. It was some egg and made a handsome breakfast for the editor and spouse. Mr. Foster says he has not convinced Chas. McGill that each egg should bring forth the price of an ordinary dozen. Egg shells of this kind cut in half make two fine mixing bowls. Any better in the country?

## INTERESING PICTURES

Dines at the Primrose Theatre, Bridgetown

William Faversham, long a celebrity of the stage in America and England, has become a star of the screen. He is appearing in a series of Seznick Pictures, the first production being "The Man Who Lost Himself," which will be shown at the Primrose theatre next Monday and Tuesday.

In this romantic mystery drama, the player who once delighted hundreds of thousands as "The Squaw Man" and "The Hawk," appears as an adventurous American who is "up against it" in London. A chance meeting in a hotel throws an opportunity his way which proves to be more than he bargained for. Overnight he becomes an English Earl, a situation which would have been quite pleasant had it not been complicated by the presence in London of the Earl's wife and relatives.

Incident crowds upon incident; the complications pile upon one another, but character wins out, for Victor Jones, of Philadelphia, proves to be a finer and nobler Earl of Rochester than Rochester could hope to be. There's many a dramatic situation, with enough comedy and romance intermingled to please the most fastidious. This photoplay, it is said, reaches as high in quality as any production in which Mr Faversham has appeared during his entire career. It was written by H. de Vere Stacpoole and directed by George D. Baker. The supporting cast includes a number of noted players.

## LONG LAKE SPORTING CLUB

### Annual Meeting Held in Board of Trade Rooms Thursday Evening.

The third annual meeting of the Long Lake Sporting Club held in the Board of Trade Rooms last Thursday evening proved a very interesting event.

The financial statement was read

THE CLUB HOUSE AT LONG LAKE

and on motion ordered to be received and copied into the minutes.

The election of officers resulted as follows:

E. A. Hicks, President.  
Frank Fowler, Vice President.  
A. C. Charlton, Secty-Treas.  
O. S. Dunham, Honary President.

Considerable plans were made for the coming season.

the boats at the Lake painted and made ready for the early spring fishing.

Notice was given of motion to increase the dues and a special meeting will be held next Saturday evening Jan 19th, at 8 o'clock to consider the same at which a full attendance is especially requested.

Mr. Freeman Fitch was unanimously elected a member of the Club. The membership is now about up to the limit. There may possibly be a chance for one or two additions during the coming year.

After the regular business meeting adjourned a social hour was spent during which many good hunting and fishing stories were told by the members.

On the whole it was considered one of the most pleasant evenings in the history of the club and the members are looking forward for another good one next Saturday night.

## A PREACHER FAMINE

One of the most startling disclosures at the recent meeting of the Federal Council of Churches in Boston was the fact that there are 20,000 churches in America without ministers. The Southern Baptists alone reported 3,000 such, the Disciples of Christ 3,200 and the Methodists, with their closer organization and the use of local preachers reported 1,800. Educational institutions which have been boasting of their splendid evangelical record are reporting a decreasing number of ministerial volunteers. Oberlin College, a recognized evangelistic center, reports that not one man from the graduating class entered the ministry. Such a situation is one that cannot be remedied in one or two years, but requires a long period of agitation and education to correct.—EX.

## NEW HOTEL MANAGEMENT

### An Important Event Which Will Prove Beneficial for Bridgetown and Vicinity

An important event, which will prove of great interest to this town is the purchase of the St. James Hotel from N. R. Neily, by Mr. O. C. Jones, of Kentville. Mr. Jones, the new proprietor of the hotel, has been connected with the Dominion Atlantic Railway for twenty years and few people are better known with the travelling public.

For the last three years he has been manager of the D. A. R.'s Hotel and Restaurant Department and has recently been given supervision of the Parlor and Sleeping Cars. This large and well known hotel contains nearly fifty rooms. It will be thoroughly re-modelled, re-furnished and made up to date in every respect, operations to start about April 1st. This change of proprietorship is bound to be of great advantage to the town and should be supported by every one of our citizens.

The large quantity of up to date advertising matter, which will be put before the public will open up to motorists that beautiful, but now practically unknown drive from Bridgetown to Victoria Beach, the latter a pretty and progressive fishing village on the east side of the famous Digby Gut. There is no town along the Dominion Atlantic Railway where fishing and hunting can be found so near at its doors as Bridgetown. The hotel under its new management will be a home for commercial, motorists, transit and tourists, who can depend on clean, comfortable rooms with properly cooked good wholesome food. This hotel will be placed on the level with such houses as 'The Cornwallis Inn' at Kentville, 'The Pines,' at Digby and other prominent places throughout the valley. When the repairs have been made and operations fully commenced the change will be greatly appreciated by the entire travelling public, many of whom would have lengthened their visit in Bridgetown during the past few years had we possessed such a hotel, as will be conducted under Mr. Jones' management.

Preparations are being made for a trio of celebrations at Annapolis Royal this coming summer, two of which will mark two events of national importance. The other is of a more local nature but of unusual interest to the literary world. The events to be celebrated are: First, the tercentenary of the grant by King James First, to Sir William Alexander of a charter creating the Baronetries of Nova Scotia and there establishing the Scotland of the new world. Second, the by centenary of the establishment at Annapolis of the First English Court of Civil Law in what is now the Dominion of Canada. Third, the centenary of Thomas Chandler Halliburton's residence at Annapolis Royal. The famous writer and humorist moved to that town in 1821 and while resident there did much of his literary work.

Of these three anniversaries that commemorating the establishment of the English Civil Law is without doubt of exceptional national importance, of interest to the Empire at large and embracing the whole English speaking world. The Scottish anniversary is one of deep significance to Nova Scotians. Although in itself the granting of the charter was an event circumscribed in history by the delay in its fulfillment, yet it was the very foundation that in after years made Nova Scotia forever the Scotland of the new world, a replica in many characteristics of the Old Land.

It is proposed that the celebration of these two anniversaries should take place on the same day and be a joint programme, the date set being the 5th of August.

## MAYOR OF ANnapolis

Saturday's Herald says: B. B. Hardwick left the farm when a young man and started on a road career driving an advertising wagon for James Pyle & Sons of New York. He remained with that firm 43 years until they sold out, after the two first generations had died. About three years after his start with them he was made superintendent and manager of their road force, which numbered at that time from 75 to 100 men covering as his territory the United States, Canada, Mexico, Cuba and Newfoundland. He has been over every state in the Union many times and on every railway that runs from Atlantic to the Pacific. When the firm was introducing new products and had a full force of salesmen and advertisers on the road, to keep in touch with them all he traveled thirty-five and forty thousand miles per year for a number of years. He was in two railway wrecks but escaped unhurt. After leaving the road he settled down in Annapolis Royal and has taken an active part in civic affairs for the past six years.

## CHRISTIAN SCIENCE OF PRAYER

Preaching in St. Mary's Church, Belleisle, and in St. James, Bridgetown, last Sunday afternoon and evening on "The Christian Science of Prayer," after postulating that man is by nature a praying being, the Rector gave the following as fundamentals to effectual prayer:

Personal faith in a living God: A right understanding of what prayer really is,—viz intercourse with God. Thus prayer is a mutual relationship acknowledged, used and valued. This was the first of a series of sermons on this subject to be given this Lent. Next Sunday afternoon and evening the theme will be "Causes of failure and conditions of Success."

Schr. Ronald C. Longmire, Capt. Trahan, arrived at Hamilton, Bermuda last Friday from Digby, N. S.

## SLEEPING SICKNESS Baffles Science

### N. Y. Health Commissioner Has No Fear of Epidemic, Says Malady Not Contagious.

NEW YORK, Thursday Feb 10—In this city about to follow the example of London now nodding in the thrall of "sleepy head," deadly lethargic ancephalitis, which still baffles science?

According to a statement issued today by Dr. Royal S. Copeland, health commissioner, New York may go its way with no fear of the drowsiness which few ever shake off, despite the fact that sixty six cases are under treatment here at present.

In New York State the disease, which physicians say will not become an epidemic, was responsible for the death at Hornell of Barber Eldridge, forty five, who has lain in a coma for two months. At least six more cases are reported at Hornell.

Dr. Copeland's statement explains that the great danger of the disease lies in its complete mystery. Neither what causes it nor what cure has yet been discovered; the only sure bit of knowledge is that it differs from the "sleeping sickness" of Africa, by the bite of the tsetse fly.

## MALADY NOT CONTAGIOUS

However, the many cases following influenza epidemics indicate it relates to that infection, Dr. Copeland said. He continued: "Report of the department shows at this time a year ago we had 149 cases under treatment. There was a gradual decrease to October. In the entire year there were 565 cases, of which 238, more than 50 per cent, proved fatal.

"I do not think the sickness is contagious or communicable, for we never have found two cases in a single house."

He said that he expects cases reported here during the next two months to equal the number of those of a year ago. In March 1920, there were 116 cases and sixty deaths. Thirty-one cases were reported last week alone.

One of the most spectacular in the history of the disease here is that of Miss Yetta Lehman, who lay unconscious more than a month, to be awakened the day before that set for her wedding by the voice of her fiancé, Edward Roth.

Describing her sensations as she awakened, Miss Lehman, who is twenty three said:

"His voice seemed to come to me from unbelievable distances. I realized, as one does in a dream, that it was a call I wanted to answer, and made a desperate effort to shake off the things that held me.

"As he kept on talking I seemed to feel his own confidence. Finally I could see people about me and hear what they said."

## HEADACHE EARLY SYMPTOMS

Among the symptoms of lethargic ancephalitis, all of which also are indications, are drooping eyelids, stupor, wavering memory coma, delirium, nausea. Headaches is one of the early symptoms.

"Encephalitis" as defined by Dr. Osler, is a diffuse inflammation of the brain substance.

It is said cases often have been diagnosed as typhoid. The disease occurs in convalescence from fevers, but most often follows influenza.

## THE DISEASE IN LONDON

A London despatch says: Reports of new cases of sleeping sickness have been made by physicians in this city and throughout the country, quite an alarming spread of the disease being shown.

There are now more than 100 cases in London and 321 in England and Wales.

AIDING WOMEN IMMIGRANTS

In the midst of the city of Montreal, half-way between the uptown and downtown business districts, on the corner of two of the best residential streets, there stands, surrounded by large shade-trees, a substantial and comfortable old-fashioned stone dwelling-house, such one of the pillars of the wide hospitable looking entrance is a brass plate announcing the house to be Dorchester House, the Canadian Women's Hostel of Montreal.

INGLISVILLE

Miss Clara Miles is visiting her cousin, H. Chester Beals, and wife at Bear River.

The farmers are getting out large quantities of wood as the weather and sledding have been ideal for a couple of weeks.

Mrs. Cassie Armstrong, now a trained nurse, of Boston, has returned after visiting her sisters and other friends.

Miss Pearl Chute, nurse of the schools of Annapolis and Digby counties visited the Inglisville school on Tuesday.

Mr. Victor Chute and sister Pearl, of Clarence, were guests of Mrs. A. Beals and Mr. and Mrs. Vernon D. Beals recently.

Mr. Currie, a colleger from Wolfville, occupied the pulpit on Sunday, Feb 13th. Mr. Currie is very much appreciated in this place.

Mrs. Lavenia Taylor, of Clementsvale, has been a guest of Mr. and Mrs. Carmon Bishop and Mrs. Ann's Lynn, and other relatives during last week.

The young people have enjoyed several parties. The 3rd, a sledding party went to Albany and was hospitably entertained at the home of Mr. and Mrs. Harry Mailman.

Mr. Sydney Bayers noticed water running from one of his cow's mouth and he inspected the cow's mouth and found there a broken hatpin in its tongue. Getting a neighbor to help him they extracted it. It caused the animal a lot of suffering.

WORSE THINGS THAN RYE HIGH A MONITOR subscriber writes: I have received a card all the way from Bernstein's Marine Grotto, 121, Powell Street, San Francisco, and judging by the text inscribed on the back they are peddling worse things than Rye High there. On one side of the card is a high brow gent and above his head is inscribed: "The Fisherman Speaks." On the other side is what he says. Here goes: "Man comes into the world with out his consent and leaves it against his will. During his stay on earth his time is spent in one continuous round of contraries and misunderstandings. In his infancy he is an angel; in his boyhood he is a devil; in his manhood he is everything from a lizard up; in his dotage he is a damn fool. If he raises a family he is a chump; if he raises a cheque he is a thief and then the law raises hell with him. If he is a poor man he is a poor manager and has no sense; if he is rich he is dishonest, but is considered smart. If he is in politics he is a grafter and a crook; if he is out of politics he is considered plain, as he is an "undesirable citizen." If he goes to church he is a hypocrite; if he stays away he is a sinner. If he donates to foreign missions he does it for show; if he doesn't he is stingy and a tight wad." When he first comes into the world everybody wants to kiss him; before he goes out they all want to kick him. If he dies young there was a great future before him; if he lives to a ripe old age he is in the way, only living to save funeral expenses. Life is a very funny proposition after all."

TORRHOOK On Feb 14, the ladies held a Valentine supper at the vestry. Mrs. M. A. Spurr spent the week end with her niece, Mrs. E. Jefferson at Tremont.

Miss Winnie Newhook came home with her sister, Mrs. Waterman, to spend a few weeks.

The Lend a Hand Society held a pantry sale and ice cream at the home of Mrs. A. S. Jefferson's on Friday night. Proceeds \$15.00. All report a good time.

Sorry to report quite a number on our sick list. Among them are Mrs. Leota Banks, Little Phyllis Banks, Margaret Spurr, Robie Barteaux and Wynona Charlton, all have colds.

BRIDGETOWN'S NEW MAYOR

Wednesday's Halifax Herald which contains a picture of our Chief Magistrate says: W. A. Warren, Mayor of Bridgetown, was born at Yarmouth on December 12th, 1873, the son of the late Rev. W. H. Warren, Baptist clergyman. The family moved to Bridgetown in 1877, where all his school days till 1888 were spent. The young man entered Mt. Allison Academy in 1887, matriculating into the university the following year. He began his apprenticeship to the drug business with Johnson and Johnson, Charlottetown, in 1894, and was manager of Dr. Derrach's drug store, Kensington, P. E. I., in 1897. He graduated from the Ontario College of Pharmacy, Toronto, in 1899, and received the degree of Bachelor of Pharmacy from the University of Toronto the same year. He entered business on his own account at Backville, N. B., in 1899 where he remained until 1902. In November of that year he opened the present business stand in Bridgetown, which shows seventeen years of reasonably successful effort. He was elected a member of the Bridgetown town council in 1916, and re-elected in 1918. This year he was elected mayor.

TUXIS BOYS' PUBLIC DEBATE

Much interest is being aroused in the coming public debate between the Tuxis Boys of Middleton and Bridgetown. We hope to give full particulars in our next issue. Meanwhile we may say the date fixed is Saturday, the 26th inst., and that Bridgetown will be represented by Mr. James Fay (leader), Mr. Maurice Armstrong and Mr. Chas. L. Rennie. It is hoped this trio will give such a good account of themselves against Middleton as to win the opportunity of trying conclusions with Digby at a later date. The question for discussion is "Resolved that a Legislative Union of the Maritime Provinces is advisable." The local boys have to argue "Negative".

OUR PUBLIC HEALTH

In an interview with Dr. H. A. Chisholm, of the Public Health Department, Halifax, the MONITOR learns that there are a few very mild cases of small pox in Bridgetown, which are at present under proper control and if the Health Officer and Board of Health have the backing of the general public it is not probable that any new cases will develop. We regret to state, however, that there are several serious cases at Victoria Beach on the East side of Digby Gut, which will require more than ordinary caution to prevent the spread of this much dreaded disease in that vicinity. Dr. Chisholm left Bridgetown for Digby yesterday.

The Digby Courier says: On petition to repeal the Croft Act, no names have come in from Bear River, Smith's Cove, Bay Shore, Sandy Cove or Waterford, although the date set is now nearly two weeks past. Further lists are due from places that have made partial reports. Dr. Grant is now arranging for the circulation of a petition in the municipality of Clare.

Saturday morning we had the worst blustering snow storm of the season. Sunday the weather was delightful, Monday morning, at 8 o'clock was the coldest of the season for that hour in the morning—6 below zero.

Why not pay your MONITOR subscription. How would you like to have people owe you a year and in some cases several years? We expect to hear from you before Saturday night. There was a limit even to jobs patience.

Next Sunday, Feb 20th, Rev. M. S. Richardson will preach in the First Baptist Church in Truro. He leaves for that town Friday, accompanied by Mrs. Richardson. Rev. Dr. Spidle will preach in the Bridgetown Baptist Church next Sunday morning and evening.

LOCAL DEATH ROLL

MRS. MARIA NEILY

Our Belleisle Correspondent writes: At an early hour Thursday morning death entered our community and claimed as its victim Maria, widow of the late Abner P. Neily, at the age of 70 years and 9 months. Mrs. Neily had been a great sufferer from Cancer for the last three years, therefore her death was not unexpected. She went to the Halifax Infirmary last November accompanied by her daughter, Mrs. Ernest M. Bent where she underwent a second operation which for a time seemed to relieve her suffering. She returned to her home just before Christmas and for a few days seemed to be holding her own. All that medical skill good nursing and loving care could do was done to relieve her sufferings, but of no avail she continued to fall until the end came as stated above. Mrs. Neily was a woman of sterling worth always taking a motherly interest in all the young folks of the neighborhood. She was very kind, generous and devoted to her mother. She has the sincere sympathy of the entire community in this her double affliction her father's death, only occurring last September. Thus depriving her of a few short months of both parents. Mrs. Neily also leaves four brothers, Mr. Abram Young, of Bridgetown, Mr. Howard Young, of Granville Centre, Mr. George Young, of Roxbury, Mass., and Mr. John Young, of Massachusetts and three sisters, Mrs. Samuel Reed, of Roxbury, Mass., Mrs. (Rev.) Will Wallace of New York and Miss Parrella, who resided at home. Beside a wide circle of friends. The funeral which took place from her late home Saturday P. M. was very largely attended being conducted by her pastor, Rev. Mr. Gibson of the Baptist Church of which the deceased was faithful member. The floral tributes were beautiful. Interment took place at Granville Centre besides her late husband and only son who died in childhood. At the close of the service the choir sang "We Are Passing Down The Valley One By One."

### Quaker Minister Is Grateful to Tanlac

Rev. Parker Moon

Nearly everybody in Southwest Missouri either knows or has heard of the Rev. Parker Moon, who for a full half century has devoted his life and talents to Sunday school and organization work for the Society of Friends or Quakers, as he is more familiarly known, came from fine old rugged Quaker stock, and there is not a better known or more highly respected citizen in that part of the state. In referring to his remarkable restoration to health by Tanlac he said:

"About five years ago I suffered a general breakdown. My principal trouble was nervous indigestion. My appetite was very poor and my food seldom agreed with me, and I had to live on a very restricted diet. I suffered a great deal from headaches and dizzy spells; I had severe pains across the small of my back and was badly constipated most of the time. In fact, I was so weak and rundown I was not able to attend to my duties.

"This condition made me very nervous and I could not sleep at night. Frequently I would be awake most all night and was in that condition more or less for five years. My physician said he could not do anything for me and suggested a change of climate. I then moved to Texas and did not get the relief I had hoped for. Finally, I got so bad off I was not able to get around with any degree of comfort. I was also told I had heart trouble.

"I had read about Tanlac and, as it had been very highly recommended to me, I decided to try it. I got a bottle and had taken only a few doses until I could notice a marked improvement in my condition. I noticed especially that I was not troubled any more with sour stomach after eating, which was a great relief.

"I kept on taking Tanlac until I fully regained my health. My appetite is splendid; I enjoy my meals and I do not find it necessary now to take any laxative medicine of any kind. I can sleep much better and am not nearly so nervous.

"I take great pleasure in recommending Tanlac to anyone who needs a good system builder, or who suffers with stomach trouble. I have recommended Tanlac to a great many of my friends and am pleased to reach others by giving this statement for publication."

Tanlac is sold in Bridgetown by S. N. Wearie in Middleton by Clifford A. Mumford and in Bear River by L. V. Harris.

To be School Commissioner for the Town of Bridgetown, Dr. M. E. Armstrong. To be Justice of the Peace in and for the County of Annapolis: Joseph L. Cleveland, of Margaretsville; in and for the County of Digby: Leopold Blinn, of Grosses Coques.

#### CARE OF VEGETABLES IN STORAGE

(Experimental Farms Note)

There is always much loss of vegetables from rotting or drying up during the winter, but with a little watchfulness and care much of this could be prevented.

This year the late blight of potatoes caused much rot, and many tubers were stored with the disease in them. It will be found to pay well to look over the potatoes before stored and remove those which show the disease or are rotting so that others will not be infected. It will not be long before the potatoes will begin to sprout, and if the sprouts are removed promptly the tubers will remain in much better condition than if they are allowed to grow long. It will be necessary to go over them two or three times or more before spring to remove sprouts. If potatoes are in boxes or bins where sprouts can be readily seen, one is more likely to remove the sprouts in 1001 time than if they are kept in bags.

If onions are rotting, put them in a drier place and spread out well. For best results they need to be kept very dry.

If carrots, beets, parsnips and turnips are withering, a good plan is to put them in boxes and keep a damp bag or piece of sacking over the top of the box. To keep well all these vegetables should, however, be stored where it is cool but not very dry.

If cabbages are rotting, keep the heads apart so they will not touch one another and so there will be a good circulation of air about them. While they should not be in a very dry place, yet one that is fairly dry is better than one that is inclined to be damp particularly if it is rather warm and not well ventilated. They should be kept cool, but will not stand many degrees of frost.

Squash and pumpkins if kept in a cool place may have rotted by this time but if they are still in good condition they will keep much longer if put in a room where the temperature is above 50 Fahr.

If celery has begun to rot, the plants should be all gone over and diseased parts or plants removed, and when replanted see that the tops are kept dry as long as the plants last and if there is room have a small space between the top of each plant. To keep celery in good condition during the winter the tops should be dry but the roots in moist soil, hence if watering is necessary great care should be taken not to wet the tops.

It is not difficult for a farmer to care for his vegetables in winter as he has, as a rule, a good cool cellar but in cities cellars are usually too warm for most vegetables, hence where the main cellar is too warm wherever possible a part of it where cool air can be admitted should be partitioned off from the rest for a vegetable room.

#### THE VALUE OF ABSORBENTS IN THE STABLE

(Experimental Farms Note)

The amount of excrement voided by animals depends upon the amount of feed given and the capacity of the animal. It has been found at the Experimental Station, Kentville that 1000 pounds steers will average 38 pounds manure per day including the bedding which amounted to 19 pounds for each steer per day. This amount of bedding, on first thought, would seem to be excessive, but when it is considered that approximately one third of the excrement is liquid and must be absorbed by some material to be retained, the wisdom of using that amount will be apparent. It is found that 1 pound of straw will absorb in 24 hours from 2 1/2 to 3 1/2 pounds of liquid according to the quality of the straw. Oat straw is a better absorbent than wheat straw, probably largely because of having more and larger leaves. If 20 to 25 pounds of urine is to be absorbed per day it will be seen therefore that 10 pounds of straw is not an excessive amount.

One pound of well dried peat will absorb from 5 to 6 lbs of liquid, thoroughly dried saw dust 4 to 4 1/2 pounds and dried leaves 1 1/2 to 2 pounds. Of all absorbents, everything considered, straw is the best. The trouble with the other absorbents is to get them dry and provide satisfactory storage.

The importance of using an abundance is still more fully apparent when it is known that two thirds of the fertilizer constituents in the voidings of animals is in the liquid, and that in this liquid there is twice as much nitrogen and four times as much potash as there is in the solid excreta. The only alternative therefore, to prevent waste is to do everything possible by the use of absorbents to retain these liquids so that the valuable fertilizing constituents they contain may be retained.

One ton of oat straw contains 12.4 lbs of nitrogen 4 pounds of phosphorus, and 24 pounds of potash. These different elements cost in commercial fertilizers at the present time approximately per pound 30 cents for nitrogen, 11 cents for phosphorus and 8 cents for potash. This would make a ton of straw worth \$6.08 for the fertilizing constituents it contains.

Investigation shows that cow urine contains 21 pounds of nitrogen and 7 pounds of potash in one ton, and the solids, 8.6 pounds nitrogen, 2.4 pounds of phosphorus and 1 pound of potash. At the price for these materials as given above a ton of the urine would be worth \$6.85 and the solids \$2.90. It will be seen, therefore, to save the ton of liquid worth \$6.86, two tons of straw having a fertilizer value of \$6.08 per ton would be used, making a total of 3 tons of manure worth \$18.92. This does not take into account the value of the humus furnished in the straw which is an exceedingly valuable factor not only in soil till, but in the development of important soil organisms which are abundant only where humus is present.

#### CHURCH NOTES

Two eloquent sermons, together with a special programme of music marked the third anniversary of the Ayleford Church. (N. S.) Rev. Woffard M. Ryan, B. A., was the preacher, his father the veteran of eighty eight years, taking part in the service. It was on the spot where this church stands, Woffard Ryan was converted, and here consecrated his life to the service of God as a minister of the Gospel. Rev. K. H. McNeill presided at the service and announced at the close of the day that the church was now clear of debt. The congregation sang the doxology.

**BAPTIST**  
Rev. L. J. Tingley, pastor at large, is assisting Rev. R. Osgood Morse in a series of special meetings at Grand Harbor, Grand Manan. The revival is widespread; more than thirty have already professed conversion and the work continues. Dr. Tingley is a convincing speaker.

**PRESBYTERIAN**  
Dr. A. M. Hill, maritime secretary of the Brotherhood movement, addressed the congregation of St. Andrew's church St. John, last Sunday evening.

"California Syrup of Figs" is Child's Best Laxative

Beware! Say "California" or you may not get the genuine "California Syrup of Figs" which doctors recommend for babies and children of all ages. Nothing else cleans the little bowels and regulates the child's stomach and liver so gently, so thoroughly. Directions on each bottle. But you must say "California". Don't be talked into an imitation fig syrup which hasn't the delicious, fruity taste or the perfect "laxative physic" action.

### The Path to Health

For many thousands of women the Path to Health has certainly been through Lydia E. Pinkham's Vegetable Compound. When this great remedy was first introduced, and for many years after, skeptics frowned upon its curative claims, but as year after year has rolled by and the little group of women who had been cured by it has since grown into a vast army of hundreds of thousands—doubt and skepticism have been swept away as by a mighty tidal wave, until today this purely vegetable medicine is recognized as the greatest remedy for woman's special ills in the world. This is because it is a wonderful tonic and reconstructer which acts directly and favorably upon the feminine organization and is a specific for that purpose.

### STORMY WEATHER HARD ON BABY

The stormy, blustery weather which we have during February and March is extremely hard on children. Conditions make it necessary for the mother to keep them in the house. They are often confined to overheated badly ventilated rooms and catch colds which rack their whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will not fail to break up colds and keep the health of the baby in good condition till the brighter days come along. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### DIDN'T LEAK OUT

It isn't easy living up to the reputation of being a wit, but Jimkins did his best.

Meeting a friend one morning, he said suddenly: "Say, old fellow, have you heard about that girl who poured a jug of water into her fiancé's hat?"

"No," replied his friend, getting ready to hear an excellent little anecdote.

"Neither have I," answered Jimkins, as he began to walk away quietly. "It hasn't leaked out yet."

### A WOMAN'S RIGHT TO GOOD HEALTH

Most Troubles Afflicting Women Are Due to Poor Blood.

To every woman belongs the right to enjoy a healthy, active life; yet nine out of ten suffer from some form of bloodlessness. That is why one sees on every side pale, thin cheeks, dull eyes and drooping figures—sure signs of headaches, weak backs, aching limbs and uncertain health. All weak women should win the right to be well by refreshing their weary bodies with the new, rich, red blood that promptly transforms them into healthy attractive women. This new, red blood is supplied by Dr. Williams' Pink Pills, which reaches every organ and every nerve in the body. Through the use of these pills thousands of women have found benefit when suffering from anaemia, indigestion, general weakness and those ailments from which women alone suffer.

Among the many women who tell of the good Dr. Williams' Pink Pills have done them is Mrs. L. Hicks, Round Hill, N. S., who says: "I became very much run down in health; my blood seemed weak and watery, my strength failed, and I was so easily tired that my work was a burden. I had often read about Dr. Williams' Pink Pills and decided to try them, and I can truly say that after using three boxes I found myself gaining, and under a further use of the pills all my old-time energy and vitality was restored. Out of my own experience I can strongly recommend this medicine."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### WORLD SHORTAGE OF MEATS

It is estimated that the world requires fifty billion pounds of meat annually and that while the population increased by 85,000,000 that is from 510,000,000 to 595,000,000 between the years 1901 to 1914, cattle, sheep and hogs combined only increased 40,000,000 (that is from 1,065,000,000 to 1,105,000,000). This of course indicates that there is not only a shortage of meats in the world now, but that as the years go by it must become greater and greater. Dealing with this subject in an illuminative article in the December number of The Agricultural Gazette of Canada, Mr. P. E. Light, Chief of the Markets Intelligence Division, Ottawa, points out that general economic progress as well as the increase of human population and the status of living in the consuming world, makes fresh demands upon available lands and tends to bring about a relative decline in the output of animal produce. This decline must be offset by an extension in life stock production sufficient to meet increased consumptive demand. Any great augmentation of population in Canada at the present time would find us in a situation where we would either be severely taxed to provide for the total domestic demand, or else compelled to curtail our export trade.

### OUR COUNTY HOME

(Windsor Tribune)

Thursday Chief McDonald accompanied Wm. Allen to the Bridgetown County Home. Mr. McDonald speaks in highest terms of the Home and the condition in which it is kept. We cannot think that William will ever want to leave such a comfortable home where he will receive the best of care. Before sending the man there the civic authorities clothed him in new and suitable garments, and he went away quite satisfied with the prospect. At the same time it would not be a surprise to see him appear again in Windsor with the flowers that bloom in the spring.

### TESTED IN ENGLISH

"There isn't much I don't know about the English language," boasted the longhaired man in the club.

"I'll test you," replied a friend, "I'll dictate a paragraph to you."

With an assured air, the boaster seized his pencil, but his jaw dropped as he heard the following:

"As Hugh Hughes was hewing a yule log from a yew tree, a man dressed in clothes of a dark hue came up to Hugh and said, 'Have you seen my ewes?' 'If you will wait until I hew this yew tree, I will go with you anywhere in Europe to look for your ewes,' said Hughes."

### CANON ON WORLD'S END

In a sermon on "Christian Doctrines in the Light of Evolution" at Westminster Abbey, Canon Barnes said it was certain that, just as life began on this earth, so it would at some time cease to exist.

"The whole solar system is cooling, and like a gigantic top is gradually slowing down," he said. "The heat of the sun and of the earth is slowly growing less. Water on the top of the earth will be absorbed by rocks; the atmosphere, if we can judge by the moon will vanish, and the whole process of the biological evolution of the earth will become extinct."

### TUXIS NEWS

During the past weeks, as many of readers know, inter square debates have been held among the Tuxis boys of the town for the purpose of selecting three of the best speakers to debate with the squares of Middleton and Digby, i. e., if the Bridgetown boys are successful when debating with Middleton.

The subject is "Resolved that a legislative Union of the Maritime Provinces would be advisable" The last debate, which took place in the G. P. United School room, was exceptionally interesting. The judges decided in favor of the negative and James Fay, Maurice Armstrong and Charles Longmire, were selected to "sigh" for Bridgetown. The fact that the negative won is encouraging because it is the negative side which Bridgetown has to uphold.

Although perhaps unofficial, it is rumored that Herbert Davidson, Carl Messenger and Cyril Jodry are to uphold the affirmative for Middleton.

Our boys have spent much time and labor in preparing themselves for the coming event, and I am sure the interested citizens of the town wish them every success.

Altho nothing definite has been arranged it is proposed to hold the debates in Bridgetown between the 25th and 28th of February, but further notice will be given of the time and place.
