The market for the past week has been unchanged in nearly every respect. There is hardly an item of special interest to chronicle. Business at some of the sessions of the Board was almost suspended. This dullness led to the adjourning of the Board for the afternoon, from July 13th to August 1st. The week's transactions would bearly constitute a good day's business in ordinary times.

Operations reduced to \$100 par value for all shares traded in, amounted to under 2,200 shares, everything included

Money has ruled easy, 4 per cent. being the rate from Banks to Brokers. From individuals money has been borrowed at a lower rate.

The large amount of money still seeking investment keeps prices up. There has not been a weak spot on the list and Bank shares have all commanded sellers' prices.

MONTREAL STREET RAILWAY.

Montreal Street Railway has shown increased earnings of about \$1,500 for the week, and has declared its 2½ quarterly dividend payable August 1st to shareholders of record 15th inst. 1715 shares have sold this week as compared with 2828 last week. In price it has gained about one per cent. Its friends are as confident as ever of its future prospects.

BANK SHARES.

In Bank shares a peddling trade has been done, 89 in all having been sold, against 343 last week.

BONDS.

Bonds are quiet and scarce, \$10,000 Commercial Cable Coupon Bonds and \$1,000 Halifax Railroad Bonds complete the business of the week.

TELEPHONE STOCKS.

Telephone stocks are dull, 62 shares of Bell sold and a change in holdings of Merchants shares has taken place. From information received it would appear that a more active opposition is contemplated in the near future by the latter company, which will doubtless result in cheaper Telephone rates. London, Ont., has already a second company well installed.

NEW YORK EXCHANGE.

Market Dull and Declining.

METROPOLITAN TRACTION STEADY AT DECLINE.

GRANGERS TENDING DOWN-WARD.

BULLISH WAR NEWS HAS NO EFFECT.

New York, July 16.

Market has been heavy all day and tending downwards. There have been a few steady stocks such as Louisville, Western Union, and Missouri Pacific, New York Central, and some others, but they were very dull. The Coalers were again a point of attack and closed weak at a loss of from

Chicago and North West opened strong but on small sales declined I point only recovering and closing at lowest.

Metropolitan Traction was steady at better than yesterday's lowest prices, but closed same as last night. No good reasons accounting for break are to hand. On announcement some time since of an increase of capital of ten million dollars, the stock rose sharply, a new rumor pointing to the new issue being fifteen millions, makes an excuse for breaking the stock several points. If this last rumor is true it makes the stock all the more valuable, and present prices would represent about 134 on new basis. This stock should be a

The Grangers lose on the day, but can-

not be called weak.

Market is heavy, a good deal unsettled, and looks lower.

New York, 9.55 a.m., July 16.

The movement for Americans in London this morning, shows an advance of 1/8 to % per cent. Speculators in that quarter are showing no alarm at the break in prices in our market yester-day afternoon, and the quiet liquida-tion which had taken place here all day.

Very little attention is paid to London quotations now, and in the case of yesterday, the London prices all came materially higher.

Our market opened lower than the close of the night before. People, who are of a bearish frame of mind, agree that why the market does not respond to such good news as we have had dur-ing the last week, there is only one way for the market to go, and that is

Dispatches from Santiago this morning state there is a hitch in the capitulation proceedings. Sagasta is quoted as saying that Toral alone is responsible for the surrender of the city, and the authorities at Madrid authorized no such move on his part.

General Toral now demands that the Spanish forces be allowed to retain arms, and refuses to make an unconditional surrender, according to the terms which he at first accepted.

It is also said that there are some 8,000 or 10,000 troops, not General Toral's own, which refuse to submit to any terms of surrender just now, and are anxious to continue the fight.

The recent decision on the part of the Spaniards looks as if they were making capital out of the fact that yellow fever has broken out in our ranks, and were trying to exact easier terms than they were at first willing to ac-

It is said that there are something like 300 cases of yellow fever in our hospitals in Santiago, the disease is said to be, however, of a mild form, and the medical authorities claim to have it well in hand.

The presence of the disease, however, is the most serious menace to the healthful condition of our army generally. Aside from the fact mentioned above, there seems to be nothing really new in the situation this morning.

There were several demoralizing influences in yesterday's market, but the volume of real business was very small.

Sensational break in Standard Oil certificates undoubtedly had some effect in causing the decline in yesterday's market.

New York, 10 a.m., July 16.

It is evident that an effort was made in yesterday's stock market, to depress prices and nullify the influence of the news regarding the over-subscription of the war loan, and of the surrender of Santiago.

If the market had been under a manipulation designed to permit un-loading, it is natural to suppose that some attempt would have been made to encourage the disposition shown by London to appreciate the success of the American arms, in an adequate de-

Good observers agree that no liquidation of a serious character too place, the selling being by smaller operators who had loaded up, in anticipation of a victory at Santiago, and those operators who had been contesting any advance in the market for several weeks.

It is not probable that the investment element wid lose sight of the remarkable exhibit of this country's foreign trade, just submitted by the Washington Bureau of Statistics.

Summing up the aggregate merchandise, silver and gold movements, we find that last month left a net credit balance to the United States of a little more than \$444,000,000, against a small net debit balance last year.

Its a popular delusion that plated ware stamped Quadruple has been plated four times.

Its not the case. There is nothing to prevent a dishonest manufacturer from stamping Quadruple on the flimsiest plated ware.

Royal Electric has shown a firm front. At current quotations it pays over 5 per cent.; 291 shares sold during the week. It closed at 1581/4 bid.

RICHELIEU AND ONTARIO.

Richelieu and Ontario has, during the week, held a very important Directors' meeting at which the concluded to cut rates 75 per cent. where opposition has manifested itself on the Kingston-Ogdensburg route. Should the rival line meet this cut rescent Kingston-Ogdensburg route. Should the rival line meet this cut passengers will be bonused to travel on the Ri-cheiieu boats. This is a very pleasant outlook for many, and will doubtless be fully appreciated during the torrid sea-son. The stock is very dull, only 17 shares having sold during the week.

WAR EAGLE.

War Eagle has declared its August dividend of 1½ per cent.; only 7,350 shares sold during the week at firm prices. This gives a yield of nearly 7 per cent. to investors. Buy it.

CANADIAN PACIFIC.

Canadian Pacific has been quiet with light sales; only 945 all told. It has sold throughout the week at practically the same price. No room for even a ly the same price. No room for even a broker's scalp. The rate war situation is unchanged.

WHEAT IRREGULAR.

CORN STEADY - PROVISIONS WEAKER.

TRANSACTIONS SMALL.

Chicago, July 16.

Though wheat showed a firm front at the opening, it ruled erratic all day. July and August were steady but only very and August were steady but only very slight business was done in them. September was the active month and varied little in point of price, but changed frequently from strong to weak and vice versa. Its opening price proved to be the strongest of the day. December followed it in every particular.

Corn has been strong and active and for

it in every particular.

Corn has been strong and active and for a change has led the market, having shown great strength. September has been the active month and promises to remain an interesting issue for the next six weeks.

High prices were some time ago prophesied for it, but the past couple of months have proved weak ones. On quick advances it should be sold for a scalp, and quick profits accepted; there is nothing special to cause any great advance in it yet.
