Bilinguals? No Such Thing Premier Whitney Emphatic

Addressing Great Gathering
at Hagersville, He Declares
English Language is Me-
dium of Instruction "And
That's All There Will Be
to It"—Rowell a "Man of
Putty."

HAGERSVILLE, Nov. 16.—(Staff
Special.)—"Is a man who is like wax or
putty a suitable man to lead a party
which hopes to be entrusted with the
government of this province?"
In this terse way Sir James Whitney,
at a monster meeting in the rink here
to-night, put the question, contrasting
the side-stopping attitude of N. W.
Rowell, the Liberal leader, on impor-
tant political issues, with that of the
government which had tackled so many
problems of import to the people of
Ontario, and actually completed a great
many of them.

Headed by the Caledonia Band and a
torch light procession, Sir James Whit-
ney, accompanied in a motor car from the
station to the rink. The crowds that
gathered inside to see and hear the
premier, taxed the capacity of the
spacious enclosure.

Men, boys and even women crowded
in hundreds into the big skating rink.
One man, elbowing his way thru the
throng, remarked that the whole town
and county were here. "Even the Grits
are here in scores," said he, "but there
won't be any Grits after to-night." D.
Almas presided.

Bouquets of roses were presented both
to Sir James Whitney and to Dr.
Jacques, the Conservative candidate in
the riding of Haldimand.

It Does Things.
Sir James Whitney, after expressing
appreciation of the warmth of his greet-
ing by the people of Haldimand, and
the townspeople of Hagersville, com-
plimented the people of this section of
the province in having such worthy
candidates in the field for the legisla-
ture.

The reason the people of Ontario
elected 89 out of the candidates in the
last election, said Sir James, was be-
cause the government had been doing
things.

"When the present government came
into power, none of us had any experi-
ence as cabinet ministers, also I had
twice been offered a cabinet position
by my opponents."

"There isn't a stronger man in the
public life of Canada, to-day than the
Hon. Frank Cochrane," said Sir James
in commenting on the fact that Mr.
Cochrane had been selected for a cabi-
net position at Ottawa.

The manner in which the liquor li-
cense was enforced by the old govern-
ment was a burning shame, and a dis-
grace. It was never enforced until the
present government came into power.

HYDRO FOR BRANTFORD

Hon. Adam Beck Announces That
Original Offer Still Holds Good.

BRANTFORD, Nov. 16.—(Special.)—
At the opening meeting of the Con-
servative campaign in Brant County
to-night an important announcement
was made by W. S. Brewster, Conser-
vative candidate, on authority of Hon.
Adam Beck, that Brantford, altho not
now using hydro-electric power, would
be admitted on the original terms
power union at any time this city de-
sired, and a power station would be
built on the outskirts of the city. It
is expected that Brantford will vote
in 1912 on another hydro-electric by-
law and the popularity of the people's
power policy was demonstrated by the
reception given the announcement.

Hon. W. H. Hearst, Ontario's new
minister of mines scored the Rowell
platform severely. The Liberal leader,
he said, had condemned the railway
land grants made by the Whitney gov-
ernment in Northern Ontario, but under
the Ross regime, over six million acres
had been given away unconditionally.
The grants made by the present gov-
ernment were conditional and worked
to the advantage of the northern dis-
trict. Mr. Hearst made a splendid im-
pression and created great enthusiasm.
J. W. Westbrook, whose election in
North Brant is conceded, also spoke.
A. A. Sanderson presided as chairman.

Premier at Hagersville

"There is no such thing
as bilingual schools in the
Province of Ontario. The
English language must be
the language of instruction."
"The only instance where
a deviation of this occurred
is in some of the country
schools north of Sudbury,
when the little French-Can-
adian children don't under-
stand English. For a few
months the teachers are
allowed to convey the teach-
ing in the French language
until the children are old
enough to understand En-
glish. That's all there is to
it, and it's all there will be
to it."

Earthquakes in Land of Kaiser

In Frankfurt, Walls Cracked and
People Were Seized With Panic—
Disturbances Widespread.

BERLIN, Nov. 16.—Sharp earth-
quakes occurred to-night at Munich,
Strasbourg, Mayence, Frankfurt and
Stuttgart. The shocks were felt quite
severely at Stuttgart and Frankfurt.
The disturbance took place about half-
past ten o'clock, and at Frankfurt,
where several houses were badly shaken,
half-clad people rushed into the
streets. Big cracks appeared in the
walls of several buildings. At Stutt-
gart household furniture was over-
turned and pictures fell from the walls.
Early in the morning a prolonged
earthquake occurred at Stuttgart and
two lighter shocks at Aix-La-Chapelle
and Bielefeld, but no damage of any
consequence was done.

At Constantine, in the Grand Duchy of
Baden, many buildings, including the
postoffice, were badly damaged. The
railway viaduct near Lautlingen, fell
in. There was a panic in the theatre at
Heidelberg.

ITALY MUST WIN

Italy has entered on a struggle with
the Turks and the Arabs, in which
the interests of civilization and hu-
manity also must win. It requires
some stretching of the term humanity
to use it in this case because of the
bloody work that has been credited to
the Italians in the fighting so far; the
only excuse, perhaps, being that it was
only a question who would be first.

Kitchener was forced to do the same
in the Sudan and since that time the
Soudan has been freed of slavery, of a
reign of tyranny, of the most inhuman
and uncalled for sacrifice of the lives
of thousands and thousands of the un-
fortunate natives by Arabs and their
allies. Kitchener by his stern and re-
lentless methods put an end to it all.

Were Italy now forced to withdraw
from Africa there would be a new
conflagration of Arab blood-lust which
might spread to the Sudan, to Egypt,
to the very interior of Europe.

The Turk is the curse of Europe and
the Arab and his kind of Africa. Europe
cannot afford to have the butcher-
ing of Christians renewed, nor of the
helpless blacks of the African con-
tinent, nor can she have jeopardized
the peace and order that has been
established in many parts of the dark
continent. But it is all a ticklish busi-
ness for Great Britain with her mil-
lions of Mohammedan subjects.

Germany is the country that should
be allowed to clean up Turkish rule
in Europe, even if it meant that the
kaiser established his capital at Con-
stantinople, which we believe is one
of his many dreams, we believe his
highest ambition. Why not let Ger-
man enervate move in the direction
of the near east?

If Germany is not allowed to go to
the east she will be forced to go in
some other direction.

NO U. S. CAPITAL FOR TURKEY.

CONSTANTINOPLE, Nov. 16.—The
American syndicate, headed by Dr.
Chester, has withdrawn its guarantee
deposit of \$100,000 from the Ottoman
Bank and has intimated that the gov-
ernment's scheme for railway con-
struction in its present modified form
is not acceptable. The syndicate ob-
jects particularly to the stipulation of
the government for a normal instead
of a narrow gauge road.

DEFEAT OF PACT TO STIMULATE PREFERENCE

Bonar Law at First Public
Meeting Since Appointment
as Unionist Leader, Scores
Radicals for Inconsistent At-
titude Towards Reciprocity
— Lauds Laurier as Father
of Preference.

LONDON, Nov. 16.—(C. A. P.)—Bonar
Law appeared for the first time as
leader of the opposition to-night when
he addressed a tremendous audience
in Leeds Coliseum. After an expres-
sion of his views on the question of
home rule, disestablishment, and re-
ference, he made the following refer-
ence to Canada and the recent elec-
tion:

"That election is, as Mr. Balfour
truly said, not only the most remark-
able event of the year in the political
history of the British Empire, but it
may turn out, as I believe it will
turn out, to be a landmark in the history
of the world. If we are to understand
the full significance of those elections,
let us consider, not what the Radical
speakers and the Radical press now
say, but what they said when they
thought the result would be different.

"We were told that the treaty mark-
ed a great step towards free trade.
If that were true, then the rejection
of the treaty was not a step but a
leap backward from what they call
free trade. We were told the treaty
was a deathblow to the cause of
preference. If that were true, then the
rejection of that treaty gives new life
to the cause—the control of Canada
believed, and I agree that that was
right—when he said that it was a case
of now or never, that their decision
then would settle finally whether
Canada was to continue as an auton-
omous nation becoming more closely
united to empire or whether she
should gradually come under the in-
fluence of a great friendly nation ly-
ing to the south.

Bearing on Preference.
"It is now claimed that the election
has no bearing on the cause of pre-
ference. A more ignorant or more in-
fernal claim was never made for
many years. At every imperial con-
ference the prime ministers of every
self-governing colony have urged upon
us a policy of reciprocal preference
in trade as in everything else, of each
party of the empire, treating every
other part on better terms than those
which were given to the rest of the
world. The Canadian elections are
simply an emphatic reminder that this
is still the aim of our self-governing
dominions.

Words Good For Laurier.
In paying a tribute to Sir Wilfrid
Laurier, Mr. Law said:
"While the result of the elections
was in suspense, I never said a word
in criticism of Laurier's government.
It would have been not only the height
of folly to do so, for we must never
forget that it was the government of
Laurier which gave to the work of our
people at home a preference on the
Canadian market. We are grateful to
him for that, but we are grateful to
him again that the example set by him
has now been followed by every one of
the self-governing dominions. Laurier
defended the reciprocity treaty because
it would not, in his belief, destroy the
preference. I differ from him, but that
difference does not weaken my respect
for him and has not lessened my great
admiration for his intellect and elo-
quence, but now the Canadian people
have decided we have a right to re-
joice in their decision.

CITY SHOULD HELP

To Build Dwellings For Workmen,
Says Trades Council.

At a meeting of the District Labor
Council, held last night at the Labor
Temple, considerable interest was
taken in the report of the municipal
committee regarding the buying of
blocks of land in each district of the
city for the erection of workmen's
dwellings.

A motion that the city council be
approached to assist them in carrying
out a scheme whereby the occupants,
issuing debentures, could become own-
ers, was carried unanimously. Wil-
liam Stevenson put this matter before
the meeting.

The legislative committee reported
that a prosecution of J. P. Murray re-
the employment of labor from England
under false pretences had been with-
drawn. They recommended that the
council take vigorous action and every
effort be made to bring the matter to
an issue in the courts of law, if neces-
sary. This was read to the meeting
and carried without dissent.

THE DELIBERATE SIR JAMES

NEWTON WESLEY: I'll have it before he knows it.

East Toronto Stands By Pyne and Whiteside

The Minister of Education
Comes Out Against Bili-
gual Schools—Jos. Thomp-
son Gives T. R. Whiteside
Close Race—Hon. Dr.
Pyne Unopposed.

Dr. A. R. Pyne was nominated by
East Toronto Conservatives last evening
to contest seat A of East Toronto
riding and T. R. Whiteside to op-
pose seat B.

The bilingual school question was
the subject upon which the meeting
riveted most of its attention. Before
the nominations were made a resolu-
tion was passed in favor of competing
nominations to pledge themselves to vote
and work against bilingualism. One
language for the use of citizens of
Canada, and that to be English, was
the desire of the meeting.

The names suggested for seat A
were Dr. Pyne, Ald. Rowland and W.
J. Sanderson. The second and third
men retired in favor of Dr. Pyne.

For seat B Joseph Thompson, Con-
troller Church, Dr. Charles Sheard, W.
H. Hiltz, W. J. Sanderson and T. R.
Whiteside were nominated. All re-
tired excepting Thompson and Whiteside
and when the vote was taken 352
ballots were cast, of which Whiteside
had the majority.

Pyne Against Bilinguals.
In expressing his appreciation of the
nominations given him, Dr. Pyne stated
that he was strongly against any
language, other than English, being
taught in any primary school, and that
that language should be the mother
tongue of every citizen of this coun-
try, and the only one used between
the teacher and scholar.

Dr. Charles Sheard, ex-medical health
officer for Toronto, stepped into warm
water by declaring that the members
of the last legislature were respon-
sible. By others I mean the public
and the school.

"For the public protection we would
advise the following measures:
"Drive carefully and slowly, passing
street cars, stopping if necessary.
"Use signs when turning to right or
left, or for coming to a standstill. Then
the pedestrian will surely know what
we intend to do.
"We intend to have an expert to ex-
amine members as to their ability to
be behind the wheel, and will give cer-
tificates to duly passed members.
"To protect the public, the public
must co-operate with the chauffeurs
by doing all that is in their power to
avoid accidents. There is no law to
prevent anyone crossing the street, but
in doing so let him be duly careful.
"The object of this association will
be to furnish good reliable men who
not only have tested driving ability,
but who are expert in mechanical work.
This is the only way in which we
can regain the reputation that so
many accidents has taken away from
us."

"I'd like to see every man go down
Yonge street and be taken as a man-
not as a murderer. That is what we
are taken for to-day. We do not want
the whole road, but we want a part of
it. There is a law that compels the
driver to stop to take the inside of the
road, but they don't always do it.
I venture to state that very few of
you have not followed a coal wagon,
frantically towing your horn,
and finally have had to run past on
the other side of the road. I am not
standing here in defence of Brimble,
who is on trial for the criminal assau-
lt—he had to run by on the sidewalk."

Cheap Power for Peterboro

OTTAWA, Nov. 16.—(Special.)—
Hon. Adam Beck, who was in
Ottawa to-day, asking the gov-
ernment to cancel the sale of
Victoria Island and the Chate-
au Falls, to Dan O'Connor, will to-
morrow wait on Hon. Frank
Cochrane, minister of railways
and canals, to ask the govern-
ment to sell to the hydro-
electric commission dam No. 4 on
the Ottawa River, near Lake
Hild.

Mr. Beck is on the same water-
way, if not in the same private
company, and the arrangements
to purchase it by the commis-
sion are practically completed.
If these two dams are acqui-
red by the commission, Peterboro
and other towns in the district
will be supplied with cheap
power.

CHAUFFEURS ORGANIZE TO PREVENT ACCIDENTS

Rules Will Be Drawn Up That Are
Expected to Protect Both
Drivers and Public.

Following the many recent motor
accidents, nearly 200 chauffeurs met
last evening in Victoria Hall for
the purpose of organizing an association
to be known as "the Toronto Chauffeurs'
Protective Association." J. W.
Curry, K.C., acted as chairman of the
meeting.

"There have been a number of motor
accidents in the streets of Toronto
lately, and something should be done
by the chauffeurs to remedy it," de-
clared J. Curry, the newly elected
president. "It is up to the chauffeur
to protect himself by protecting others.
By others I mean the public
and the school."

"For the public protection we would
advise the following measures:
"Drive carefully and slowly, passing
street cars, stopping if necessary.
"Use signs when turning to right or
left, or for coming to a standstill. Then
the pedestrian will surely know what

BIG U.S. RAILWAYS ACCUSED OF REBATING

Thirteen Indictments Include
Officials of Baltimore &
Ohio, and Lehigh Valley and
a Number of Business Men
of New York and Chicago.

NEW YORK, Nov. 16.—Thirteen in-
dictments were returned this afternoon
by the federal grand jury which has
been investigating charges of rebating
against several railway freight officials
and members of firms in this city and
Chicago. The enquiry has been con-
ducted with unusual secrecy.

Six of the indictments are against
Robert B. Ways, foreign freight agent
of the Baltimore and Ohio Railroad
Co., for giving rebates to the following
parties:

Bernard Judas & Co., Gallagher &
Co., and Maurice Ascher of Galla-
gher & Ascher of New York; Oscar E.
Kosche, trading as Charles D. Stone &
Co., Albert F. Grazer, president of the
American Shipping Co., and August
Bohio K. President International For-
warding Co.

Others are against Thomas N. Jarvis,
vice-president, and Clarence A. Blood,
freight traffic manager, of the Lehigh
Valley Railroad Co., for giving re-
bates to George W. Sheldon & Co. of
New York and Chicago.

Other indictments are against the
following parties for receiving rebates
from the Baltimore and Ohio Railroad
Co.:

Jules E. Bernard of Bernard, Judas
& Co., and Maurice Ascher of Galla-
gher & Ascher of New York; Oscar E.
Kosche, trading as Charles D. Stone &
Co., Albert F. Grazer, president of the
American Shipping Co., and August
Bohio K. President International For-
warding Co.

Large Amounts Involved.
Tentative pleas of not guilty were
entered to the indictments by Vice-
President Jarvis and Freight Traffic
Manager Blood of the Lehigh Valley
Railroad. Judge Martin gave them un-
til Dec. 4 to withdraw their pleas or
make any motion for their defence that
they may deem necessary. Bail in the
sum of \$5000 each was furnished by
the defendants.

Assistant District Attorney John H.
Crim, in the statement to the court, as-
serted that while the amounts men-
tioned in the different counts seemed
small, this was so because they con-
cerned but single car shipments. The
total amounts involved in rebating, he
added, would approximate ten per cent
of the total freight earnings of the Le-
high Valley and the Baltimore and
Ohio Railroad companies.

This N. Jarvis had his early experi-
ences as a railroad man in Canada
with the Grand Trunk.

PORCUPINE BULLETIN.

PORCUPINE, Nov. 16.—(Special.)—
The weather moderated to-day follow-
ing one of the coldest nights since last
March. The mercury went down to 20
below zero. Three inches of snow fell
during the night and to-day sleighing
is fairly good. Teams now travel
across the lake. Nearly all the min-
ing is now confined to shaft work.

ROYAL DIGNITY FOR HOUSE OPENING

Stately Ceremonials Such as
Ottawa Has Never Before
Known, Made Occasion Re-
splendent One—Address
Followed Closely Lines Fore-
shadowed—May Reorgan-
ize Committees.

OTTAWA, Nov. 16.—(Special.)—With
all the eclat and distinction which the
presence of royalty and the inaugura-
tion of a new government, enhanced
by the brilliant sunshine of a clear
winter's day, could lend to the occa-
sion, His Royal Highness the Duke of
Connaught this afternoon met the as-
sembled members and members of the
house of commons and opened his first
Canadian parliament. In the opinion
of all who witnessed it, it was the most
brilliant function of the kind that has
ever graced the halls of the great go-
thic pile on Parliament Hill.

Promptly upon the stroke of 1 o'clock
the royal carriages, accompanied by a
mounted escort of 35 men of the Prin-
cess Louise Dragoon Guards, the pres-
ents of their majesties, the duke and
duchess, and under the command of Captain W.
A. Blue and Lieut. James Langley
and O. J. H. Ferguson, swept thru the
gate by the eastern block, and at the
same time the royal standard was
flung to the breeze from the flagstaff
on the great central tower, from which
the Union Jack had been lowered a
moment before.

Salute the Duke.
As the carriages drew up under the
great archway the guard of honor,
consisting of 35 men of the Govern-
ment's Foot Guards, under com-
mand of Major G. T. B. Gilmore, came
smartly to the salute, and as the band
struck up the national anthem, every
head in the great crowd was rever-
ently bowed. At the same time was
heard the booming of the royal salute
of 21 guns from Nepesin Point, for the
first time since the accustomed
honouring salute of 19 guns. The 3rd
Field Battery furnished the firing
party.

Within the red chamber the beauty
and fashion of Ottawa and other Cana-
dian cities had been gathering since
noon, and, if further touches of color
were needed, they were furnished by
the scarlet robes of the supreme court
judges, and the military uniforms, with
which not only the floor of the senate
but the galleries as well were plenti-
fully befringed.

Summons to Senate.
Meanwhile the commons had met in
their own chamber and awaited the
summons to proceed to the senate,
which soon came, with the three caps
on the door by the gentleman master
of the black rod. Headed by the
Speaker and preceded by the mace,
they trooped across to the bar of the
upper house.

His Royal Highness wore the uni-
form of a field marshal, and beside
him on the dais sat the Duchess, at-
tired in an exquisite gown of gold
tulle, with a long court train of gold
and white brocade, which was borne
by two ladies.

JOHN D. AND LABOR.

BRANTFORD, Nov. 16.—(Special.)—
Madison Hicks, president of the newly
organized Independent Labor League
here, announced to-day that he had
received a promise of a \$10,000 dona-
tion from John D. Rockefeller, towards
building a labor temple on condition
that the labor interests which he re-
presented raised similar amount.
Plans for extension of the league thro-
out Canada are being made by Mr.
Hicks and headquarters are proposed
for Brantford.

Following Frohman Stars.
Following a long list of Frohman
stars who have been seen this season
at the Princess Theatre, will come
Frances Starr next week, under the
management of David Belasco, in "The
Case of Becky." In this play Miss
Starr assumes a dual role in a manner
never before attempted by an actress.

CANADIAN MINK IS BEST.
Canada produces a great many
things outside of wheat and inspira-
tion for "Empire building." There is
Canadian mink. Canadian mink is the
very best article in the fur catalogue
bar none. In Paris a mink coat is
even a neoplace and mink minks one
as possessing something of rare value
and quality. In Canada mink is one
hundred per cent. cheaper than in
Europe and it is of darker color and
of better quality because we have here
the first choice. The Dineen Company
is showing some splendid lines of mink
received from the traders in Northern
Canada.

HAMILTON HAPPENINGS

REFUSED REQUESTS FOR AMUSEMENT LICENSES

Moving Picture Show and Pool Room Arouse Antagonism—Preparing For Duke.

HAMILTON, Nov. 16.—(Special)—The property and license committee of the city council have refused the application of Fox and Mennblatt for a moving picture license on Barton-street East, and also turned down the application for a pool room license at 645 Barton East.

Both licenses were strenuously opposed by a delegation representing ratepayers of the section where the proposed enterprises were to be located.

During the discussion of the pool room license it was discovered that the pool room is being run at present without a license. Inspector Erick explained that the place had been there for a number of years, and as the applicant was ready to pay in the license fee, he allowed it to continue pending the action of the committee.

W. J. McDonald applied for a bowling alley license, which was granted. Decorating City Hall.

The tenders and plans of T. C. Watkins, Ltd., for decorating the city hall for the visit of the Duke and Duchess of Connaught were accepted.

At Odds With School Board.—The board of control and a deputation from the board of education squabbled for some time this morning over the library building which the school trustees want for the use of the board of education, but for which they are not willing to pay the price asked by the board of control. The board of education wants the building for \$25,000 while the board of control thinks \$40,000 is the proper figure. The matter was left over for week.

The board of control decided to issue debentures to the extent of \$100,000 for the purchase of the building in accordance with the request of the board of education.

Football Player Sues.—The high court case of Tommie Stinson, the football player, his brother John, and cousin, Miss Thompson, against their grandmother, Mrs. Emma C. McDevlin, in which she claimed as their interests in the income from the original estate of Tommie Stinson, who died in 1891, was settled out of court this morning at the suggestion of Chief Justice Falconbridge. Each of the plaintiffs will receive \$100 and each party will pay his own costs in the action.

GOMPERS BARS DOOR TO SUPERFLUOUS HAIR APPEAL FOR McNAMARA

Moral Support of A. F. of L. Alone in Sight—Bitter Attack on Capitalists.

ATLANTA, Ga., Nov. 16.—That President Gompers of the American Federation of Labor is opposed to the federal appropriation of \$50,000 for the McNamara defense was indicated at the convention of the organization today. It is understood Mr. Gompers favors aiding the brothers charged with the Los Angeles Times' disaster, but thinks the money to be used to that end should be raised by private subscription.

President Gompers discussed the McNamara brothers' case in the annual report, on which a committee is now working. To-day Delegate A. J. Gallagher of California announced a resolution bearing on the McNamara case, but did not wish to introduce it until the committee had reported on the president's address, indicating it might cause friction in the convention.

Gallagher asked the chair if his resolution could be introduced if the committee was not satisfactory to him. "It cannot," answered Mr. Gompers. The delegate asked the chair if the delegates could not move to substitute a resolution for a portion of a committee report. Mr. Gompers replied in the affirmative.

To Quit Civic Federation. Before the convention is over Mr. Gompers and four other labor leaders who are heads of various unions may be asked to sever their connection with the National Civic Federation, which, according to a resolution offered today by the United Mine Workers, is largely composed of and financed by employers of labor, many of whom are the most bitter enemies of organized labor.

The resolution recites that the conflict between the employing and working classes is constantly becoming more intense and that the former is constantly becoming more brutal in their treatment of workers, as is evidenced by the desperate attempts to throttle organized labor by use of the injunction, the blacklist, and the more recent method of kidnapping the officers of labor organizations.

To-day delegates directed to addresses by J. C. Cronin and G. H. Roberts, fraternal delegates from the British Trades Union Congress; Wm. Gooking, fraternal delegate from the Canadian Trades and Labor Congress, and Mrs. Raymond Robins of Chicago, president of the National Women's Trades Union League.

Summerhill-ave, from Glen-rd, to north, changed to Glen-rd. Golden Gate-ave, changed to Clendenan-ave. Pleasant-ave, changed to Pleasant-boulevard. Campbell-ave, from Brandon-ave to Connolly-st, changed to Wiltshire-ave. Brandon-ave, from Cooper to Campbell-st, changed to Adrian-ave. Ashdale-ave, changed to Aldergrove-ave. Ferguson-ave, from Woodbine-ave to 300 feet west, changed to Aldergrove-ave.

"TAKE THE CAR BEHIND"

Saying Is Not Popular With West Toronto People—Strong Protest.

A large delegation from West Toronto waited upon the board of control yesterday morning, to urge the members to take measures to relieve the conditions existing by which passengers are being dumped out of Toronto railway cars which are overcrowded, leaving them to take the cars.

J. Noble Scott led the deputation. With him were R. L. McCormack, director of the Concor Coal Co.; W. A. Skeans, barrister; P. S. Ewens, of the Methodist Book Room; W. H. Scott, of Livingstone & Scott; and H. R. Glass, among the ladies were: Mrs. (Dr.) Clendenan, Mrs. McCormack, Mrs. Skilton, wife of the manager of the Bank of British North America; Mrs. Hertzberg, wife of the C. P. R.'s chief engineer, and Mrs. Alexander, wife of the university professor.

Many suggestions were offered as methods of relief. The deputation did not seem united on what course they wished taken.

Mr. Skeans and a couple of others will meet with Corporation Counsel Drayton to-day, and explain the situation. An application to the Ontario Railway Board will be drafted accordingly.

Horse's Kick Fatal. MILLBROOK, Nov. 16.—While delivering a horse to a buyer yesterday afternoon, the leg horse got his foot entangled in a hind wheel of the buggy, tumbled forward and throwing Edward West against the heels of the driven horse, which kicked him and bruised his skull. Mr. Wallis seemed unaware of injury, not consulting a doctor.

At tea time his stomach was unable to retain food, and he became unconscious. A doctor was summoned and found that the case was serious one, and he was obliged to return for surgical instruction, but before again leaving his office a telephone message came that Mr. Wallis was dead.

Superfluous Hair Completely Removed Without One Moment's Pain

No longer need women suffer the terrible humiliation and embarrassment of a repulsive, hairy growth on the face, neck or hands, which gives the feminine face such a coarse, heavy, masculine and oftentimes positively repulsive appearance. For years I searched for a painless, simple and satisfactory way to remove superfluous hair from the skin, so that it need never return. Endless experiments and the experience of thousands of women who have undergone the barbarous torture of the electric needle, burning paste and powdered treatments were for the most part dangerous in the extreme, and seldom satisfactory in their results. Usually the unsightly growth returns in greatly increased force, and sometimes the victim's face is horribly scarred for life. Yet, I determined there must be a way and that I should find it. At last a happy thought came to me and after many long, wakeful hours I emerged triumphant with a wonderful new mode of treatment, different from all others I had ever known, simple and practical, it seems strange it had never been discovered before. A friend tested my discovery, with instant success. A noted French chemist, to whom I showed it, said it contained ingredients for dissolving the hair-root and all. One lady who tried it said: "A single application sufficed to destroy the hair instantly." "Removed every trace of the undesirable growth. I did not suffer one second," said another lady. "Hair completely disappeared, leaving my skin soft and white," said still another woman. I have put my discovery to the hardest possible tests. I have seen this remarkable preparation put on an arm hairy with itching, and after one application it was completely removed, and positively, painlessly, and with perfect safety.

Every lady reader of this paper who has the slightest doubt in her mind of the wonderful discovery is urged to write to her without delay, for, as she has said, the information is free, and she has everything to gain and nothing to lose."

AGAINST WIDE PAVEMENTS

St. Clair Avenue Owners Object to Paying All Cost.

St. Clair-ave. property owners have petitioned against the laying of a 34 foot wide pavement on the street, on the ground that their properties do not require such a wide pavement, and the taxes required, which would mean that the city should pay a large part of the cost.

The city engineer stated that the cost will probably be 94 cents per foot frontage for ten years. He opposes the proposition that the city pay part of the cost, as it would mean that there should be a vote of 394 polled, but the board of trade contend the majority vote carried the bill.

The Ontario legislature will be appealed to on the matter. The board of trade worked hard for the bill, which met strong opposition in some quarters, a committee being sued warning the ratepayers not to vote for it at the last moment. The two newspapers here favored the scheme.

Debarred From Toronto. NIAGARA FALLS, Ont., Nov. 16.—(Special)—When Haymen Schelling, a Russian Jew, attempted to enter Canada to-day to enter the employ of his cousin, Wm. Black, 11 Clinton-st., Toronto, he was arrested because he had no money, and was ordered deported by Magistrate Fraser.

You Need A Tonic. Mr. Business or Professional Man! Excessive and constant mental occupation, protracted anxiety or care, continual work in the stuffy atmosphere of the office, causes rapid loss of nervous power, mental gloom and depression. YOU need a tonic and the very best preparation to be had on this market is

WILSON'S INVALIDS' PORT. (A la Quina du Perou) It will promptly relieve prostration, nervousness and debility, renew energy, vigour and activity—it is the first and simplest preparation to tone up the entire system.

Called Man a Vile Name. Policeman Martin was reprimanded by the chief constable for calling Edgar Bullman a vile name after he had arrested him on a charge of being disorderly, which he could not make good in police court yesterday morning. He did prove that after he had called Bullman what he had called him, Bullman had struck him, which Bullman admitted in the street. Magistrate Ellis explained to him that it is the custom in Toronto to let the ladies speak first and sent him home to preach the gospel of restraint.

Ladies First. John Stewart, a village cut-up from Warton, came to town with his lady-killer clothes on. He stopped a waiting car of ladies in the street. Magistrate Ellis explained to him that it is the custom in Toronto to let the ladies speak first and sent him home to preach the gospel of restraint.

WILSON'S INVALIDS' PORT. I have used "Wilson's Invalids' Port" and have pleasure in recommending it as a tonic of rare quality for debilitated patients. It gives tone to the stomach by increasing the appetite and very greatly assisting digestion. I believe that it would also cure many cases of "run-down" constitutions unaided by any other means.

W. R. TRAVERS TESTIFIES IN FARMERS' BANK CASES Late Manager Tells of Early History of Institution—Others Give Evidence.

"I should say that the subscription list would contain names representing \$100,000, which were of no value," declared W. R. Travers, late manager of the defunct Farmers' Bank, testifying in the trial of Hon. J. R. Stratton and J. L. Warren, charged with conspiracy, before Judge Winchester, in the county court yesterday.

"You apparently had great difficulty in getting your certificate, owing to promised subscribers not coming," he remarked. E. A. DuVernet, crown counsel.

"Yes, I had considerable difficulty. The list of subscribers that went to Ottawa contained names of several people who had been paid back their money."

Mr. Travers told the court that he first became manager of the bank in March, 1906. He had thirty-two years' experience in banking.

Had to Retain \$100,000 An extension of six months was made, he said, in order to get a stock list and sufficient money provided. He got enough subscriptions, but could not secure the necessary sum of money before the extension expired.

Inspector on Stand. The purpose of the visit to Toronto of J. P. Knight, accountant, and inspector of the Bankers' Association, of which he testified in the morning, was not clear to the counsel.

"That was to throw dust into the eyes of Mr. Knight," suggested the counsel. "Yes, that was the effect of it."

Argos Hold Good Daylight Practice Rugby Gossip

The Argonauts had a great daylight practice yesterday afternoon at Rosedale, in which every member of the team, both regulars and substitutes took part.

The wing line were kept on the run and are in great shape. Every effort toward increased speed, and it is wonderful how some of the wing men have developed recently.

The field was covered with snow, but probabilities for today are for rain and snow and higher temperatures.

WANT TO LIMIT SALARIES OF MINOR LEAGUE CLUBS

Texas League President Wants a Board to Look After It—National Commission Doings.

SAN ANTONIO, Tex., Nov. 16.—The salary limit every league except the major will be cut to the quick next season if a movement started today at the convention of the National Association of Professional Baseball Leagues by Wilbur F. Allen, president of the Texas league, were true.

The Texas league plan is for a central board to fix a salary limit for every league of a certain classification and to prevent the power of fixing salaries away from the individual leagues.

Players Will Wear a Number on Their Arms—The Ban List—Hockey Gossip.

An Ottawa despatch says: There will be many innovations in N.H.A. hockey this winter, the most important of which will be the playing of six men instead of seven.

Other changes will include the wearing of arm numbers by the various players so that they can be identified by the spectators.

A distinctive color will be worn by the six clubs in the league. Ottawa, Wanderers and Quebec will retain their same colors.

On Athenaeum Alleys

The Athenaeum by some good bowling and a whole lot of luck managed to land the entire series from Bert Short's Bowling Club last night in the Athenaeum. A Lesca, the first winner, the middle string by 18 pins, while the margin in the last was only 12. Eddie Sutherland with 324 was high for the night, while Adams with 265 was best for the losers.

The doubleheader in the B League resulted in the Night Owls and Seldoms Inns No. 1 winning the odd game from the Seldoms Inns No. 2 and C.C.U. respectively. R. Madigan with 549 was high man, while his big brother was next just ten pins behind. Following are the scores:

A Distinguished Guest

An informal reception was tendered the Marquis of Queensbury, who is a visitor in Toronto, at the Toronto Bowling Club last night, when a number of representatives of athletic clubs and civic dignitaries were on hand to greet the visitor. The Marquis was much impressed with the ten-pin game and also the club in general characterizing it as something above the ordinary in its line, while the same itself appealed to him as one that should have the charity co-operation of every athlete. In the club parlors the

The Lozier Car—The Result of the Right Engineering Idea

The Lozier car has won its position of admitted supremacy because it has always had right engineering ideas behind it. It has embodied, from the first, those principles of design, those details of finish, those qualities of power, speed and safety which appeal to discriminating buyers.

Radical changes in design have never been made for the Lozier designers looked far ahead. They anticipated—as far back as 1896—many features now being adopted generally.

The Lozier was the first American stock car equipped with fore-doors and the now universally used Bosch magneto. From the beginning Lozier cars were built with 36-inch wheels, long wheel base, double ignition, ball bearings and nickel steel axles—features now standard on nearly all cars.

Lozier was among the first to build six-cylinder cars, to employ the multiple disc clutch, four-speed selective transmission, ball bearing crank shaft and other desirable features not yet found or only now being introduced on other high-class cars.

Time and again Lozier principles, which others at first questioned, have later become the accepted practice.

As a result, Lozier is to-day the car to satisfy the man who knows—the man who has driven many cars. Such men are quick to recognize that in this car you get as near perfection as the present art of motor building permits.

You get safety; we guarantee you can't break a Lozier under any driving conditions a human being can stand, anywhere on any kind of road.

You get dependability. Of all the Lozier owners taking their cars to Europe last year, none had to open the box of repair parts.

You get speed. Its victories and successful finishes in all the big events of recent years prove Lozier speed and consistency. At Indianapolis, May 30, Mulford, in a Lozier, drove the fastest 500 miles ever driven by one man.

You get comfort, elegance, quality—that quality which has always gone into every product of the house of Lozier.

To sum it all up—in owning a Lozier car you get the satisfaction of knowing that no one whom you meet at the club or on the road has a higher-class car than your own—no one except the other Lozier owners.

Call or write Albert Street Garage, and let us show you the 1912 Lozier car.

marquis and guests partook of the hospitality of the club and then entered into a conversation on athletics in general, and after all had made the thorough acquaintance of the marquis, which was in a very short period of time, everyone felt in taking their leave they had met one of the finest sports in the world.
