ENEMY HAS RESERVES

"God Help Albion," Declares Major Von Olberg in Public Lecture.

New York, Feb. 11.—Open prophecy that Hindenburg would undertake a great general offensive in the west this spring in an endeavor to crush the British, French and American armies and end the war was made in a public lecture by Major von Olberg of the German General Staff before the German Colonial Society at Berlin last month.

THIRTY-SEVEN GERMANS CAPTURED BY RAIDERS

Australians Kill at Least Hundred of Enemy Near Messina.

London, Feb. 11.—The official communication issued by the war office this evening says:

"Thirty-seven prisoners were captured in the raid of the Australians last night south of Messina. Three German machine guns and a trench mortar also were captured. Heavy casualties were inflicted on the enemy."

"In addition to the losses caused by the preliminary bombardment it is estimated that 100 Germans were killed by our raiding party."

"The hostile artillery showed intermittent activity today southwest and west of Cambrai. In this area a number of German working parties were engaged with effect by our batteries."

FRENCH IN FIGHT BEFORE VERDUN

German Attack Near Caen rieres Wood Results in Spirited Engagement.

Paris, Feb. 11.—Heavy artillery fighting in Alsace and on the right bank of the Meuse and a German attack near Caen, are reported in the communication from general headquarters, and left public by the war office tonight.

"On the right bank of the Meuse, after a violent bombardment, the Germans attacked the front of the Caenieres Wood, which resulted in a spirited combat. The enemy was repulsed and left the scene of our victory."

"There was marked artillery activity in Alsace, in the neighborhood of Vielle and Bonhomme."

"Eastern theatre, Feb. 10: The artillery activity on both sides was quiet, but the west bank of the Vardar, and at the Cerna bend, where the enemy violently bombarded our first line, north of Makovo."

Claims That Returned Soldiers Are Not Given a Square Deal

Montreal, Feb. 11.—The Montreal branch of the Great War Veterans' Association at its annual meeting tonight expressed regret that in this city the business men had not given the returned soldiers a fair deal in the matter of providing them with employment.

"There are 1,500,000 Austro-German prisoners in Russia who are in good fighting condition," he said. "These, together with 147 divisions of German fighters, will be thrown against the allies on the western front. This will give Germany an army of more than 4,000,000."

German Government Wireless Despatch Confirms Previous Report.

London, Feb. 11.—A German Government wireless despatch received here this evening confirms despatches received from Amsterdam during the day that Russia has ordered a cessation of war and the demobilization of the Russian armies on all fronts.

FUEL CONTROLLER IS MUCH PLEASED

Ottawa, Feb. 11.—"From the information which has reached me," said Mr. C. A. Magrath, Dominion Fuel controller tonight, "I consider that Canada's heatless days have been a tremendous success. The people, so far as I can learn, have loyally carried out the closing down regulations, and what is particularly gratifying is that they have done so cheerfully and have been so far about it. Our three years of war are gradually moulding us as a people. That means much for Canada's future."

ARGENTINE STRIKE FAILING

Buenos Aires, Feb. 11.—The railway strike apparently is falling thru the refusal of Italians and Britons to quit work. These men have declined to leave their jobs, notwithstanding the threats of Spanish agitators to destroy property.

WAS CATECHIZED ON SUBMARINE

Officer of Torpedoed Ship Was Taken Aboard and Asked Questions.

WINE AND CIGARETS

Vessel Was Former German Ship and Was Interned at Colon.

An Atlantic Port, Feb. 11.—Captain William Johnson, five other officers and the 30 bluejackets who made up the crew of the American steamship Actaon, formerly the German ship Adamsturm, torpedoed off the coast of Spain last Thanksgiving night, arrived here today. Thirty-five members of the crew were left in Spain, but will return to the United States as soon as a ship is available.

Captain Johnson, whose home is in California, said that his ship was torpedoed without warning at 7 o'clock. Within two minutes water reached the engine room and the lights went out. He immediately ordered the men into the four boats, and they put off, apparently in fear of being shelled by the submarine, which, to this time, no one had seen. Captain Johnson's boat reached Camarines, Spain, two days later, and within three days two other boats had landed. The boat commanded by Engineer John Murphy was 12 days at sea before it was picked up by a Spanish ship. The men suffered severely from hunger and cold, and four of them died.

Arthur B. Bordley, of Baltimore, the third served, arrived here from a boat in which were ten men. They pulled away from the sinking ship, and in a few minutes came up alongside the submarine, which turned a searchlight full upon them. Bordley was ordered in perfect English to take six below and closely questioned concerning the land and naval forces of the United States, while half a dozen seamen from the submarine made a peeped trip to the sinking Actaon and carried away all nautical instruments and such stores as they wanted.

The submarine captain, Bordley declared, served him with wine and cigars while questioning him, and when he refused all information, threatened to keep him a prisoner on the submarine. When Bordley persisted in his refusal the captain dismissed him and his boat was pushed off.

The Actaon was interned in the harbor of Colon at the beginning of the war.

Inspectors Meet to Consider Appointment of New Principals

The board of inspectors of the board of education are meeting today to take into consideration the filling of the vacancies in the principalships of Williamson Road and Eyerson public schools thru the appointments of Walter Bryce and N. S. MacDonald to inspectorships. It is stated on good authority that the inspectors will recommend men from the public schools, holding that the public schools are for public school men. There is, however, a strong feeling that a man from one of the colleges has strong support among the trustees, many of whom hold that it is time for change of the policy which has been most frequently followed.

HAGUE CONVENTION PREVENTS PUTTING ALIENS AT WORK

Would Lead to Abuses By Germany—Government to Consider Labor Question at Conference of Premiers.

Ottawa, Feb. 11.—The alien labor question, which has been causing the attention of the government for some time, will be discussed at the conference of the provincial premiers next week. There has been a growing demand, especially from the west, that the alien labor, interned and unemployed, should be put to work at various kinds of employment, especially agriculture, in order to supply to some extent at least the need for labor that exists.

Several difficulties have presented themselves. The chief trouble is that to put interned aliens at work would be to contravene the terms of the Hague convention, and a member of the government today stated that this seemed to be an insurmountable barrier. Were Canada to do so it would lead to abuses by Germany in connection with allied prisoners of war in that country.

It is understood that communications on the subject have passed between Ottawa and Washington. As to putting interned aliens at work, as has been suggested, at military pay, the authorities are convinced that it would work trouble from organized labor, and lead to a much worse situation than exists at present. Meanwhile at any rate aliens who have been showing no disposition to work would be well advised to get into harness.

YESTERDAY THE LAST OF HEATLESS MONDAYS

United States Fuel Administrator Expects to Suspend the Closing Order.

Washington, Feb. 11.—Indication tonight was that today was the last of the heatless Mondays. Fuel Administrator Garfield expects to suspend the closing order tomorrow night in view of better weather and improved railroad traffic conditions.

Reports during the day to the director-general of railroads show that traffic conditions are improving rapidly, despite floods in many parts of the country. Coal mines are receiving empty cars in larger numbers than for weeks past and loaded cars are moving to their destinations. The fuel administration's order giving preference in distribution to household consumers public utilities and preferred war industries consequently is just now really becoming effective.

The fuel administration is planning to prevent a recurrence of the rationing in which domestic consumers thrived to the east found themselves unable to obtain fuel supplies. The administration plans to create reserve supplies of coal in all the consuming centres to be used to meet any emergency that may arise thru breakdown in transportation or from other causes.

MONTREAL ENFORCES CONSCRIPTION ACT

Press Gangs Round Up Every Man Appearing of Military Age.

DESERTERS DRAFTED

Dominion Police Inspector Says System Will Be Continued Till District is Combed.

Montreal, Feb. 11.—Press gangs for the enforcement of the Military Service Act were operating in this city Saturday and today, under instructions from Ottawa that the time had come when a strict enforcement of the act must be made without delay. The press gang consists of Dominion police officers from Inspector Belanger's department, and every man whom the police came across on the street who appeared to be of military age was stopped. If he could not produce satisfactory proof that he was exempt, he was apprehended and taken to the Dominion police offices in the Drummond Building.

It is said that between forty and fifty men were gathered in on Saturday, when they were enjoying the heatless holiday, and those who had been exempted or were married or beyond the military age were held until they obtained their proofs. The deserters were drafted at once to the 1st or 2nd Depot Battalions, and so quickly were they transformed into soldiers they appeared on church parade yesterday in uniform. Today the pick was repeated, but it is not known how many men were taken. Railway stations and pool rooms were popular hunting grounds for the Dominion police.

Inspector Belanger stated that this process would go on, with increasing effectiveness, until every man liable to service under the act would be put into khaki. Inspector Belanger is in charge of No. 4 military district, which includes Montreal, Three Rivers, St. Hyacinthe, Sorel, Sherbrooke, Joliette and Coaticook.

OTTAWA SCHOOLS MAY CLOSE

Ottawa, Feb. 11.—At a meeting of the public school board of Ottawa today it was decided to leave the city schools open this week. In the event of there being no relief in the coal situation the public schools may close next week.

CHURCH PLANS TO CARRY ALL ITS FIRE RISK

Methodists Have in Hand Organization of New Company.

STATISTICS READY

Capital of the Venture Will Amount to Thirty Millions.

Canada is soon to have a thirty million dollar church fire insurance company. It will be one of the greatest, if not the greatest, in the world. It is to be established by the Methodists, who have demonstrated their financial and commercial power by establishing the largest religious publishing house, not only on this continent, but in the world, which annually pays over gigantic profits to certain beneficiary Methodist general conference funds and which erected the million dollar publishing house on West Queen street.

Such progress has already been made with the preparations for establishing a Methodist fire insurance company, that the financial statistics have been compiled and placed in the hands of the general superintendent, Rev. Dr. S. D. Chown.

In support of the establishment of a Methodist church fire insurance company to carry the risks on all property held in Canada, Newfoundland, Japan and China, under the Canadian general conference, Rev. Dr. Chown has prepared a strong statement of the case. In it Dr. Chown says: "Sound insurance companies have begun and carried on business quite successfully upon very limited capital. The value of the property of the Methodist church, as reported to the last general conference, was \$41,905,248. Reducing land values, we have insurable property worth \$31,241,584. Upon this we are carrying insurance to the extent of \$15,729,417 or about 50 per cent. of its estimated value. The manager of many an insurance company would be happy if he could step into a business of such dimensions. It should not be beyond the ability of the Methodist church to provide for intelligent and economic administration of fire insurance as a branch of the church's affairs."

"Fire insurance is in general an unprofitable business. It usually earns dividends for its stockholders. These should be earned and applied to the support of worn-out ministers and other more worthy objects."

In addition to Rev. Dr. Chown's bold proposal for the establishment by the Methodist General Conference of a fire insurance company, the general superintendent favors the appointment of a minister of finance with all the budget duties of a chancellor of the university to coordinate the vast and rapidly increasing funds of the Canadian Methodist church.

AUSTRIANS OPEN ANOTHER ATTACK

Italians Check Two Strong Attempts West of Brenta River.

Italian Headquarters in Northern Italy, Feb. 11.—The Austrians have launched another attack against the Italian positions west of the Brenta River, along the same Frenzela Valley, leading to the plain where the Italians recently defeated them with heavy loss. Their artillery opened fire early yesterday, continuing through the day, first on the west side of the valley, then on the right. Evidently the purpose was to regain the strategic heights of Monte Val Bella and the Col from which the Sassari brigade and Bersaglieri drove them back a fortnight ago.

An intense cannonade was followed by an infantry advance, which was then checked against Monte Val Bella and Col del Rosso, but reconcentration of the Italian batteries checked and finally stopped the advance.

Another drive was made at Massasa-Rossa, further east, where the enemy tried to break into the old trenches here, but the powerful concentration of the Italian batteries checked his progress at the first advanced posts.

ARGENTINE'S HANDS TIED.

Buenos Aires, Feb. 11.—Altho the Argentine steamer Ministro Irrendo was sunk in the Mediterranean Jan. 28 by a German submarine, the foreign ministry says it is still without official information upon which it can take any action against Germany.

NEEDED DEVELOP COAL IN ADJACENT WEST

Alberta Has 50 per Cent. of Dominion. EASY REACH Be Used as Sub Coal in All Instances.

As could be mined and shipped to a price much lower than that paid for Pennsylvania coal, one of the state geologists. Allan of Calgary in interview with a reporter on Saturday night, said that there are deposits of coal in Alberta, 45 per cent. of the Dominion, and that there are deposits of anthracite in the west of Calgary, which have gone unexplored as a result of the fact that the coal is easily accessible. All of it is easily accessible. It requires no large investment.

Deposits of coal in the west of Canada, are at Lethbridge, Coleman, and at two points south of Calgary, deposits of anthracite, which have gone unexplored as a result of the fact that the coal is easily accessible. All of it is easily accessible. It requires no large investment.

Areas have been purchased. One is owned by the millionaire rancher, who is operating the largest coal area in Canada. It is not the greatest, in the world. Special! Misses' and Juniors' Serge and Gabardine Suits, Every Garment Immensely Price-Reduced for One Huge Clearance, Wednesday

Altogether there are about 400 suits---of many kinds there's only one; of others there are several. In each case the price is far and away less than half their usual price---some have been more than four times their Wednesday figure. But we have a big day's business to do, so we gathered together every suit which has been in stock for some time, and despite its former price, reduced all to one low figure---\$6.95---to effect a complete clearance and have a great day's selling. They are mostly of serge, though some are of gabardine in navy, brown and black. Two of the many styles are illustrated; all are well tailored, and the trimmings consist of velvets, braids, and fancy buttons. Sizes 13 to 20. Wednesday, come early, for it's a great chance to make a splendid investment and procure a smart suit Wednesday **\$6.95**

Men's Warm Merino Combinations, Suit 98c

The wool scarcity, the high cost of labor and practically everything entering into the manufacture of good underwear, will have such an effect on next season's prices as to make it well nigh impossible to secure underwear of this quality for anything like 98c a suit. It's a chance for the man of foresight to lay in enough for next season at a saving. The combinations are made of fairly heavy merino of a fine flat knit. They're natural color, have single breast, closed crotch and ribbed cuffs and ankles. Sizes 40 to 44. Extra special Wednesday, suit **.98**

Boys' Grey Sweater Coats, Each 39c
An extraordinarily low price indeed for sweater coats of this kind. They're of medium weight, plain cardigan stitch with military collar, two pockets and ribbed cuffs. Plain grey only. Sizes 28 to 32. Special, each **.39**

Good Special in Men's Work Shirts, Each 39c
It's a clearing of odd lots, English Oxfords in stripes of blue and white, grey and white and pink and white. All are made with attached soft turn-down collar, soft cuffs, breast pocket and roomy bodies. Sizes 14 to 17. Special, each **.39**

Men's Coat Style Shirts, Special 79c Each
It's an exceptional value, so if you're in need of shirts, secure some of these. They're made of fine shirting materials in single and cluster stripe designs of blue, black and helio. Have attached laundered or soft cuffs. Sizes 14 to 17 1/2. Special, each **.79**

Savings in Sweater Coats at \$1.98
They're good cosy coats, most of them made in plain cardigan stitch with shawl, storm or V neck collars, two pockets and close-fitting cuffs. Colors are plain grey, slate or brown. Sizes 38 to 42. Special, each **1.98**

Men's Suspenders, 25c Pair
"Cross backs" with leather ends, "Pulleys" with cord ends—both with medium weight lisle webbings. Also "Police" braces with heavy webbings and leather ends. Pair **.25**

Men's Worsted and Tweed Suits at \$10.75
Also Bannockburn Tweed Trousers. Special **\$2.60**
Suits for the man who wants style and snap. Suits for the man of conservative taste.

Here's a solution to the problem of "high cost" of clothing—a problem brought about by scarcity of wool, labor and all that goes to make a suit—a condition of affairs that has made a \$10.75 suit—and a \$2.60 pair of trousers—an unusually good "buy." Hence one has to depend on such low prices and savings, on special purchases (such as this offer)—and odd lots, such as the tweed trousers at \$2.60.

The greater part of the clearance consists of suits, in "pinch-back" and "form-fitting" models, and belted style; models that the young figure demands and wears to such an advantage.

There are only three or four suits of a pattern or color, in greys and browns, in many shades, small checks, fancy weaves, stripes and mixtures. Some are in blues with 1/4-inch wide chalkline stripe; some of the greys have wider chalkline stripes. Then for the man of conservative taste there are three-button sac suits, in the same patterns and mixtures. Sizes 33 to 44. Wednesday **10.75**

Men's Reliable Trousers, Bannockburn tweed, heather mixed tweeds and grey tweeds, a warm lasting material, woven for strenuous service, well-styled and neatly-tailored, with strong and durable pockets. Sizes 32 to 42. Special **2.60** (See Window Display.)

Black Satin de Chine Greatly Reduced, Yard .97c

For this item we cannot take phone or mail orders, the quantity being limited.

In the piping times of peace black satin at this price was most unusual; the more remarkable, therefore, is this offering at a time when prices have risen to an unprecedented height. It is a good heavy quality, 36 inches wide, splendidly woven, and the sort of silk that is very smart just now, whether for whole dresses or to combine with serge. It should wear splendidly, too. It would be well to come early if you wish to secure some, for such value is bound to attract early shoppers. See Queen Street window. 8.30 a.m. special, per yard **.97**

Paris and New York Evening Gowns at \$35.00 On Sale at 10.30

In the Evening Gown Section of the Women's Dress Department every evening dress still remaining from the winter's stock is to be marked at \$35.00. Included in the collection are a few French creations from Callot, Cheruit and Jenny, besides charming New York frocks of taffeta, satin, brocade, lace and all the filmy, glistening fabrics particularly suitable to evening wear. In color they are in exquisite shades of rose and shell pink, peacock and turquoise blue, pale primrose yellow, and the ever-popular black. In a Jenny model silver tissue and black net embroidered in sequins forms the skirt, with a girde of peacock blue and gold brocade, and long-waisted bodice of silver embroidered net—making a most alluring whole. Others are every one distinctive in design, and beautiful of fabric, whether they be elaborate affairs or youthful and unsophisticated. And they were formerly marked at prices very much greater than their present figure of **35.00**

(To be placed on sale promptly at 10.30 Wednesday morning.)

A Coat Sale That Will Make a Great Stir

Smart New Models, Made of Velours, Tweeds and Cheviots, Very Desirable Coats That Are Regularly \$22.50 to \$27.50, at \$10

Perhaps you haven't bought yourself a new coat this winter—a fact which you very much regret each time you read of the soaring wool prices, that are daily becoming more alarming.

Of course you've heard of Murray-Kay Coat Sales—they are a household word the length and breadth of Toronto.

So You'll Appreciate This Best of Good News for Today

We've made a remarkable purchase of some of the most attractive Women's Coats that we've seen this season, and we'll place them on sale today at \$10.00 each.

They're desirable coats in every respect—that is to say, the wool cloths of which they are made are of splendid quality, and the cut in each case is absolutely up-to-the-minute. These models combine comfort and style in a manner that challenges criticism—so you will judge when you see them in our windows today.

There are COATS OF VELOURS, TWEED AND CHEVIOT, all cloths of finest finish; the colors black, navy, grey and heather mixtures. They're made on the smartest lines, with big cape collars, belts and patch pockets, and each coat is lined to the waist. Sizes 36, 38 and 40. Regular prices \$22.50 to \$27.50. Come at 8.30 a.m. for this sale. \$10.00. The best values of the season at today's price, each.

John S. Brown's Damask Table Napkins All Pure Linen, \$15 a Dozen Regularly, for \$8.50

Gather ye linens while ye may! The next few years' famine will make you rejoice greatly if you've done a bit of "hoarding" in this direction, and your powers of discernment will show you clearly the wisdom of sharing in such a sale as this:

JOHN S. BROWN & SONS' DOUBLE DAMASK TABLE NAPKINS, numbers that we've been selling at \$15.00 a dozen, and that would sell at \$18.00 if bought from Brown today. They are designs of which the cloths have been sold—hence the striking reduction. The size is 27 x 27; the regular price per dozen is \$15.00. Today's clearance price, per dozen \$8.50. Limit, one dozen to a customer. No phone or mail orders.

OFFICER HOME ON LEAVE. Capt. G. L. Magann Has Been in France Nearly Three Years.

Capt. G. L. Magann, who went overseas with the first contingent, is home on leave after nearly three years in France. His parents reside at 10 Dowling avenue and with them he will spend his short leave of three months. Captain Magann has been mentioned in despatches twice, once in June, 1917, and again in December, 1917. He was wounded there by a long range naval gun.

He said everyone in France was glad to hear conscription had carried. He said that Canada seemed to be realizing the war, as he noticed there was no grumbling about food supplies being curtailed. Optimism reigned at the front, he said.

Good Roads in Winter.

Ontario is embarking on good roads. We have some now. But in these ten weeks of winter stretch they've been badly blocked.

The biggest men in the operating department of our railways are out on the right of way day and night directing the plows and the shovelers.

We haven't read of any of the engineers and superintendents of the good roads in York being out on the job before seven in the morning.

The World yesterday told how one private firm kept over a mile of good road on the Don road open for teams and motors every day of the storm by four treatments.

Surely this is a subject well worth the attention of the provincial department in charge of highways.

With the unaccountable backwardness that overtakes the Canadian Government at times the daylight saving bill is said to have a poor chance of adoption at Ottawa.

Will He Run or Stand?

President Wilson's speech comes at a moment when it will brace everybody up to hear the principles once more enunciated which make the war the justifiable occupation of the civilized world today.

The Kaiser's speech on peace and his impressions, for they are nothing less, should not deceive anyone. The Germans have only one move left.

President Wilson practically refuses to recognize any of the little confidence deals that the Huns are trying to arrange with the Simple Simons of eastern Europe.

Meanwhile, the war must go on. The United States is only beginning, and the British army never was fitter.

Sir Adam Beck and Railway Nationalization

With paired surprise The World noted that Sir Adam Beck had to say about railway nationalization at London Friday night.

Sir Adam sees many good reasons why the Grand Trunk and the Canadian Northern should be nationalized.

The medicine he prescribes for the Grand Trunk he says must not be given to the Canadian Pacific.

But all such discussion is mere camouflage. We must get the roads first and hire a man to run them afterwards.

We have good reports of what has been accomplished by the Canadian Railway War Board.

Every being roused at the Canadian Railway War Board has been compelled temporarily to abandon their competitive methods.

Perhaps Sir Adam will clear the air when he addresses his friends at the city hall today.

The fact is that public ownership and private ownership have diverse ends in view.

True, the Canadian Pacific is self-sustaining, but how is it going to compete with the national system in which all the other roads are included?

Following the custom inaugurated by other addresses of its kind, President Wilson's words today were principal capitals of the world.

Senator Reed, Democrat, thought the speech a "shrewd move to dissolve Germany and Austria."

In this peroration the president said: I would not be a true spokesman of the people of the United States if I did not say once more that we entered this war upon no small occasion.

It is hard to understand Sir Adam Beck's tender solicitude for the Canadian Pacific.

President George Wanda of the nationalistic nations' board must have Lord Shaftesbury at the head.

But what has all this to do with the subject before us? Let us shoot the bear before we decide who is to have the meat and who is to carry off the hide.

Lord Shaftesbury is a successful railway man, but as railway men go he is past his prime.

But what has all this to do with the subject before us? Let us shoot the bear before we decide who is to have the meat and who is to carry off the hide.

Clifton Crawford is a host in himself, but with such clever support as charming Marilyn Miller, and Harry Conroy afford, 'Fancy Free' is the strongest musical comedy company that has appeared this season. Nor is this all, for Ray Raymond is second only to Mr. Crawford as an attraction, his singing and dancing with exceptional good, while Marjorie Gately is another clever girl with musical ability beyond the ordinary. With Miss Miller being the first 'big name' in the piece, her voice blending exquisitely with Miss Miller's mezzosoprano. Miss Gately has an excellent voice and a good sense of rhythm. Miss Miller's appearance is an event to remember. No more graceful, sybilike and accomplished dancer has appeared on the local stage and in her performance, 'Sweet Seventeen,' her rare attainments are not surpassed by any premiere danseuse. She dances with such verve and spirit and evident enjoyment, her steps are so graceful and her numbers, including the excellent duet, 'Rat-tat-tat,' with Mr. Crawford. Of course, it is Mr. Crawford who gets the laughter of the audience, whether in song or dance or story telling or dialog, his quaint humor keeps the house in roars. No more beautiful costumes in design, color or fabric could be seen in the theatre. The girls who wear them add the charm of grace and youth and beauty to the scenes.

Byron Don Keller, a peculiarly.....Robert J. Tommy Tommie, boy from the United States.....Dodie Lemon Mrs. Maggie Mahoney, mother.....Maureen Gaudin Mrs. Mahoney's daughter.....Blanche Newcombe Theodore.....Madeline Grey Gus Hill's third serial of the cartoon character, 'Bringing Up Father,' presented at the Grand last evening, was appreciated to the limit by a large audience, and was a whirl of laughs from start to finish. John E. Cain as Jiggs could not have been more natural or more irresistibly funny, in fact his perfect naturalness was one of the features of the comedy. And comedy it certainly is, as Ben Byron Dirty Moore and Robert Rice as Don Keller, the peculiarity, supporting the happy-go-lucky Irishman to the hilt, as did all the other members of the cast. The past Mrs. Mahoney, taken by Marion Benson, reminded one at once of the cartoons so well presented in the newspapers. Maureen Gaudin, who is the young States, as did Blanche Newcombe as Maureen, the daughter, and the character, Theodore Gayne, taken by James Gray, the new friend to some of those present, was played with fine taste. The chorus danced and sang a number of old and delightful Irish ensembles, and they did not forget Scotland and England, either. The stage setting was very pretty and embraced a number of old and delightful Irish ensembles, and they did not forget Scotland and England, either. MAJOR WILLIAM TATE.

MRS. WILLIAM TATE.

SOCIETY CONDUCTED BY
MRS. EDMUND PHILLIPS

The marriage took place at 2 o'clock on the 9th of February at the Church of St. Michael, Golden Square, London, of Dorothy, daughter of Mr. and Mrs. Harton Walker, Toronto, to Major William Tate, 2nd Pioneer. The pretty, graceful bride was married in her traveling dress, and Major Tate left for Aldershot, where the groom is taking a colonel's course. Mr. and Mrs. Charles Wright held a reception after the ceremony, when Col. Charles Nelles, R.C.D., and Mrs. Nelles were among those present, the former giving away the bride. The marriage of Captain H. D. Burk, Toronto, to Miss Olga Malnikoff, Ashforth, Kent, England, took place in England on the 20th of December. Capt. Burk is serving in France as paymaster to the 12th Battalion Royal Grenadiers, under the command of Lt.-Col. W. B. Kingsmill. Mrs. Burk is living with her father at Ashworth. Major Bishop, V.C., D.S.O. and bar, M.C., and Mrs. Bishop have arrived safely in England. Mrs. Page, who has been visiting Mrs. Willis Chipman since Christmas, returned to her home in Brockville on Saturday. Mrs. Arthur Hills gave a small tea of thirty yesterday afternoon in honor of Mrs. Yoris Byerson's guest, Miss Elaine Casgrain, Montreal, when the hostess looked very smart in black. Mr. and Mrs. Woodbridge Dickenson, St. Joseph, Mich., and Boston, are the guests of Col. and Mrs. George this week. Mr. Paul Sheard, lieutenant, A.S.C., left for Ottawa last night. The ladies curling for the trophy will not take place today owing to the change in the weather, and has been postponed until next Tuesday. Major T. H. Clarkson Jones has returned from overseas. Mrs. Mowburn, who has been spending a week with General Newburn at the Roxborough, Ottawa, returned to Hamilton yesterday.

with sable, diamonds, and a bouquet of violets and freesias; Mrs. Scott Waddell, mauve and silver. The wedding took place at St. Paul's Church, Chichester (the Rev. E. H. Nasr, vicar, officiating), on Monday the 14th January, 1918, Piper John Paterson, 184th Canadian Infantry Battalion (48th Highlanders, Toronto), eldest son of Mr. and Mrs. William Paterson, Toronto, late of Edinburgh, Scotland, to Doris Nellie, eldest daughter of Mr. and Mrs. Glazier, Chichester, Sussex, England, late of Midhurst. The bride looked so charming in white silk trimmed with swansdown and pearls, with wreath of orange blossom and veil. The bridesmaids were the Misses Hilda and Gladys Glazier, sisters of the bride, and Miss Violet Leggett, and Master Stanley Glazier acted as page.

The bridesmaids wore pink dresses with black hats trimmed with pink. The bride was given away by her father, and Piper Donald Shepherd of the same regiment, as the bridegroom, acted as best man, assisted by Mr. Harry S. Jeffs. Among the guests were Mrs. and Miss Brumwell, Portmouth, Mrs. Strudwick, Mrs. and Miss Walder, Grayshott, and Mr. Leslie Glazier, brother of the bride. After the ceremony a reception was held at the home of the bride, and later Mr. and Mrs. Paterson left for Bognor to spend the honeymoon. Several presents and congratulatory telegrams from the post office staff and also from the bridegroom's battalion, were received during the day. The bride carried a beautiful bouquet of blossoms, carnations, azaleas, and maiden hair fern. As the bride and bridegroom left the church "Highland" in white silk trimmed with swansdown and pearls, with wreath of orange blossom and veil. The bridesmaids were the Misses Hilda and Gladys Glazier, sisters of the bride, and Miss Violet Leggett, and Master Stanley Glazier acted as page.

J. Harvey Douglas has left for New York, where his marriage to Miss Helen Holister takes place today. Mr. and Mrs. W. M. Douglas, and their daughter, Mrs. J. H. Symons, and her little son, have also gone to New York for the wedding. Mrs. A. P. C. Proctor is giving a party for Mischa Levitzki, the Russian pianist, after the concert this evening. Mrs. D. L. McCarthy was the hostess of a dinner dance at the Hunt Club on Saturday night, the guests going out in sleighs. Major McSloy and a party from St. Catharines spent Sunday in Toronto. Col. James George is giving a luncheon on Wednesday for Dr. Bruce Taylor, who is addressing the Women's Canadian Club in the afternoon.

ST. VALENTINE'S DAY COMES NEXT THURSDAY

The war still going on, and all morally bound to observe the laws for conservation of food, wool and money to help win that war, yet none should forget the other side, the giving of all towards the youth of the land and remember that it is not necessary to conserve sunshine, gladness and smiles. It is necessary to observe and recognize some holidays for the sake of the youth of the land. Among these days which meant so much to the younger generation in pre-war days was the 14th of February—St. Valentine's Day. Thursday is St. Valentine's Day! Once it was a real red letter day! Now it has almost been forgotten. Let the little god of love reign as usual on Thursday, for after all—love is king. Cupid's Day. It is rather a pity St. Valentine's Day is not observed as it used to be a generation ago. Still it is not too late for those who have neglected its observance to "mend" their ways. Many a Valentine box is speeding its way to the trenches, and many a Valentine gift will find its way to the military hospitals in Toronto. A package of cigars is a very welcome Valentine gift to a wounded soldier, and still more welcome if accompanied with a valentine.

OGILVIE'S STANDARD SPRING WHEAT FLOUR

THIS is the WAR FLOUR of the OGILVIE MILLS—a loyal product to conserve Canada's resources and, at the same time, give the public the best possible flour that can be milled according to the Government standard.

This War Flour is excellent in quality and flavour—but it is slightly darker in color than "ROYAL HOUSEHOLD" to which you have been accustomed.

It is just as hard for us to give up milling "ROYAL HOUSEHOLD" as it will be for you to forego your favorite brand; but our "STANDARD" Flour will nevertheless make delicious bread, rolls, biscuits, cake, pies and pastry. If you have any difficulty—just drop us a line; we have a staff of expert chemists and bakers, whose experience is at your service.

Just as soon as the Food Controller will allow us to mill "ROYAL HOUSEHOLD" again, we will tell you of this happy fact.

In the meantime, the new regulations—being in the best interests of Canada and the British Empire—demand the whole-hearted support of the Millers and the Public.

Certain stores and dealers have stocks of "ROYAL HOUSEHOLD" still on hand. In order to avoid any confusion or misunderstanding, all "STANDARD" FLOUR will be plainly branded as such.

When all your "ROYAL HOUSEHOLD" is gone, make sure of getting the next best grade by ordering

OGILVIE'S STANDARD

Grocers everywhere have it—don't forget to stipulate, "OGILVIE'S". It will be your surest guarantee of the highest grade obtainable.

LOGGES ENGINEERS' CLUB MEETING.

Affairs Found Satisfactory and Officers Are Elected. At the annual meeting of the Engineers' Club reports were presented showing its affairs to be in a very satisfactory condition, altho a large number of the members are serving their country at the front. The following are the officers and directors for the year 1918: President, L. V. Rorke; first vice-president, J. E. W. Ambrose; second vice-president, M. P. White; third vice-president, T. D. Lesday; committee, H. G. Acres, W. A. Bucke, A. Burton, J. E. Carwell, E. L. Cousins, Arthur Hewitt, G. Hewson, C. H. Heye, W. F. McRae, T. H. Stevens, T. S. Young; secretary-treasurer, R. B. Wolsey.

MEMBERS IN GOOD HEALTH.

The Heart of Oak Benefit Society Medical Agency held its monthly meeting in the S.O.E. Hall, when reports were given showing very few members on the sick list. Considering the hard winter the society feels it is to be congratulated. An at-home will be held for the next meeting, April 2.

ENTERTAIN THE SOLDIERS.

A splendid evening's enjoyment was given to the returned soldiers at the Military Orthopaedic Hospital at the North Toronto last night, when the York Chapter I.O.D.E. gave the musical entertainment. "The Merry Entertainers," which takes a company of 35 players, was organized by the Imperial Good Cheer Club, being the young women of the Imperial Oil Company. A full house greeted the entertainers, and the men appreciated the efforts.

VINEGAR CAKE.

One pound flour, 6 ounces lard or butter, ½ pound brown sugar, ½ pound dried fruit, raisins, currants, etc., 2 teaspoons bicarbonate of soda, 2 tablespoons vinegar, ¼ pint milk. Mix all the dry ingredients together,

FROZEN CHEESE.

Frozen cheese is delicious to serve with a salad course. Rub 2 Neufchâtel cheeses to a paste, add 1 cup of whipped cream, ¼ cup of finely chopped olives, ¼ cup of finely chopped pimientos, and season with salt, cayenne, lemon juice or vinegar to taste. Soften 1 teaspoon of granulated gelatine in 1 tablespoon of cold water, dissolve over hot water, cool, and add to cheese. Mix well, and turn into half-pound baking powder cans previously wet with cold water. Cover with a piece of white paper, add the covers, and pack in ice and salt. Let stand several hours. Serve with the salad course, with toasted water crackers.

BAKED BANANAS.

With a sharp knife open and peel down one section of the skin of the banana. Carefully loosen the pulp from the skin, and remove, scrape off the threads and strings and cut off any brown spots. Replace the pulp in its original shape in the skin, and bake in a moderate oven until the skins are black (from 10 to 15 minutes). Remove the pulp from the skins to the serving platter, curve them slightly, and pour a sweet sauce over them.

FACTS OF INTEREST ABOUT THE GREATEST SUCCESS IN HISTORY OF MEDICINE

MORE THAN NINE MILLION bottles sold in three years. OVER TWENTY-TWO THOUSAND BOTTLES SOLD by Tamblin's Drug Stores at retail since July 15, 1917.

DEMAND FOR PREPARATION has broken all world's records for the sale of a proprietary medicine in the same length of time, and is constantly increasing.

LARGE AND MODERN LABORATORIES at Dayton, Ohio, occupy 60,000 square feet of floor space. Capacity of plant recently doubled to take care of rapidly increasing business. Present capacity 30,000 bottles daily.

BRANCH PLANT RECENTLY ESTABLISHED at Windsor, Canada, with a capacity of 8,000 bottles daily to supply the tremendous demand in the Dominion of Canada.

PUBLICLY INDORSED THROUGH THE DAILY PRESS by men of prominence throughout the United States and Canada, including Supreme Court Judges, Mayors of leading cities, Lawyers, Doctors, Bankers, State and Government Officials, Prominent Educators and Ministers of the Gospel.

FAME OF MEDICINE has spread over entire American Continent and it is now a household word from coast to coast, from the Gulf of Mexico to the Great Lakes throughout the United States and Canada.

TANLAC IS PURELY VEGETABLE and is composed of the most beneficial roots and herbs known to science. Formula complies with all National and State Pure Food and Health laws of the United States and Canada.

ABSOLUTE MERIT responsible for phenomenal and unprecedented success, the greatest proof of which is the fact that dealers who bought Tanlac three years ago when it was first placed on the market are still buying it in car-load lots.

LIKE ALL OTHER GREAT SUCCESSES, Tanlac has its imitators, and although there are now on the market over one hundred preparations claiming similar therapeutic value, many of whom are copying the original Tanlac advertising, the popularity of this preparation continues to grow and it is now unquestionably the most widely-talked-of medicine in the world today.

CATHOLIC POLICE ASK FAIR HEARING

Claim Attempt is Being Made to Prejudice the Case.

TWO FALLACIES STATED

Unfair to Compare Catholics With All Protestants, Says Letter.

The following letter, bearing on the question of the composition of members of the police force, has been received for publication:

Toronto Feb. 11, 1918. To the Editor of The World:

Sir—An attempt is now being made in certain quarters to misrepresent and prejudice the case, which we made before the board of control, Toronto, in regard to the unjust discrimination against Irish Catholic constables of the force under the M. S. A. When the case comes before the appeal tribunal, we shall be prepared to establish our claim to fair treatment at the hands of the authorities.

In the meantime, we ask for an opportunity to reply to the misrepresentations that have appeared in a Toronto newspaper, which evidently is inspired to write as it does. When the full facts are before the public it will be shown that there is no reasonable ground for the assertion that Catholic members of the Toronto police force failed to volunteer for overseas service in the same proportion as the Protestant members of the force. There are two fallacies underlying this charge.

First, it is unfair to compare the Catholics with all the Protestant denominations. If the number of volunteer recruits from the force is analyzed on the basis of race and creed, it will be found that the Catholics will compare very favorably with some of the Irish Protestant denominations represented in the police force. In the second place, it is not necessary to do any work out in the way our opponents suggest where, as in the case of the police force, the Protestants form such an overwhelming majority, and the Catholics such a very small minority. It is unreasonable to expect any small body of men to show as large a percentage of recruits as a body of men ten times the number.

It is not necessary to introduce the question of sectarianism to prove the absurdity of the contention, that the Catholic members of the force, who numbered 74, should be compared with the same proportion as to total strength as the remaining Protestants, who numbered over 600. But apart from the fallacious application of the law of averages to the case, the fact that the Catholics should not be put against the remainder of the force, but that in fairness, the figures for voluntary recruiting should be set out according to the denominations represented in the force. If this were applied, the Catholics in civil life, as well as in the police force, would compare favorably with the other Protestant denominations to be found in Canada.

How many Irish Protestants on the force volunteered? Out of 100 Irish Protestants on the force only three were volunteered, as compared with six Irish Catholics out of a total of 18. We are confident that Canadian-born citizens will share our claim to fair and impartial treatment of our case. The trouble is that Canadian-born have little to say in the control of the municipal affairs of Toronto. Lodge influence is supreme and the police force is controlled by police force as to those other civic departments which have earned an unsavory reputation as being under the control of the sectarian machine that dominates the public life of the city. In support of this, we desire to cite the case of No. 4 division, in which a Canadian Protestant is the inspector. To his credit, he is said, Inspector Allison refused to resign from the force and retained in his division the only Irish Catholic now remaining who is liable under the M. S. A. Other inspectors of the number ten, compare the sectarian and party politics which is responsible for this unfair treatment meted out to their Catholic countrymen who hail from Ireland. It is somewhat significant, and the Canadian public may be relied upon to see this matter in its true light, that these inspectors represent the worst sectarianism associated with Ulster sectarianism which has bred such strife in the old land.

In the statement issued by the police department, the number of men volunteered is given as 18. As the selection of 20 men, it may be pertinent to inquire where the missing two have gone. When the force was now 74 Catholics on the force, there were now 79. Yours faithfully, A. Drury, John Kelly.

GRIM RACE WITH DEATH.

Lieut. W. R. Adams Arrives Home To Late To See Wife.

It was a grim race with death that Lieut. W. R. Adams had in his attempt to reach the sick bed of his wife, but the stern reaper arrived first. Returning from France after being wounded during the advance at Passchendaele, Lieut. Adams arrived with the party of officers at Halifax Sunday, and hearing of the serious illness of his wife, he secured leave, but arrived only to find that his wife had died last Thursday, while he was on the sea on his way to Canada. The funeral was held privately from the family residence, 2044 Bloor street, yesterday afternoon at Mount Pleasant Cemetery. Lieut. Adams, who is manager of Youngs' Leather Goods Co., 300 Yonge street, went overseas about a year ago with the 24th Battalion. He graduated at the Royal School of Cavalry, and is an old Parkdale Collegiate boy.

VETERANS ARRIVE AT NORTH TORONTO

Men From Toronto and London Districts Given Welcome Yesterday.

Yesterday morning 53 men from the Toronto district and 21 for the London district arrived at North Toronto on the C.P.R. train from Montreal. There was a large crowd of relatives and friends at the station to welcome the men from overseas, when the 2nd Battalion 1st C.O.R. band played "O Canada" and supplied the guard of honor as the train pulled into the station. The guard of 15 men was in charge of Capt. G. S. Kirkpatrick, while Bandmaster McNeil, former of the 95th, had charge of the band.

The men were quickly conveyed to the Central Y.M.C.A., where pay and passes were issued to them. From there they were conveyed to the Red Triangle Club, where breakfast was served. Hon. W. D. McPherson, on behalf of the Soldiers' Aid Commission, extended a welcome to them at the Y.M.C.A., stating that the country could never express its pride in them for what they had done.

"In the name of our God we thank you," said Major (Rev.) Canon Dixon, for the church and the chaplains, and the Church extended a welcome for the city.

One prominent figure was Corp. T. Pundfield, who wore the Military Medal. He is a former invalided home with wounds in the leg, arm, nose and neck received by shrapnel in August last. Among them was also Pte. A. "Gus" Hogan, who left the "Bringing Up Father" company in 1915 and joined up with "A" Company of the 36th Battalion. Pte. Hogan had two wound stripes, having been hit first by a sniper on Dec. 12, 1916. His parents live at Brantford.

Pte. A. J. Tovey, 228 Oler avenue, was wounded in the shoulder in June last. Pte. Ambrose Greenwood, who enlisted at Uxbridge, was wounded in the hip at the battle of Fresnoy, Corp. Blakely, who enlisted at Uxbridge, where he was rejected, Sgt. E. W. Urwin, who was in charge of the party that returned yesterday, lives in "The Maple" Bldg., avenue, and went overseas with the 180th Sportsmen's Battalion. Pte. N. S. Tyrrell, of 124 Amelia street, was wounded in the right arm on August 21 while receiving a bullet in the paracet at Lens. He went overseas in October, 1916.

BUDGET SPEECH TODAY WILL START BUSY WEEK

Ontario Legislature Will Have Plenty of Work to do in Final Session Before Easter.

With restless days past, for the present at least, and the speech from the throne, the reply and debate on the way, the Ontario Legislature is due to receive the budget when the session resumes at 10 o'clock this afternoon. Saturday morning and all day Monday saw only those who, of absolute necessity, had to carry on the business of the province. The interruption is expected to be the last if all the business is to be transacted by Easter.

Today Hon. T. W. McGarry, provincial treasurer, will make a budget speech and bring down the estimates, thus commencing what is expected to be a busy week. The debate may be concluded by Friday, or it may continue into next week if the critics are many and keen.

SHROVE TUESDAY TODAY; LENT BEGINS TOMORROW

Name Comes From the Penitential Preparation of Confession and Pardon of Sin.

Shrove Tuesday is movable as to date but stationary as to position, occurring always on the day preceding Ash Wednesday. This year it falls on Feb. 12—today—the Lenten season begins tomorrow. Shrove Tuesday got its name from the penitential preparation of confession and pardon of sin, as a worthy beginning by the Christian world, for the proper observance of Lent.

What was at first an annual religious commemoration became in the passage of time a partial holiday in the lighter sense of the word, the human craving for pleasure seeming to desire to crowd in all the recreations and amusements possible before the six weeks of fasting and prayer by which the forty days' fast of the Saviour in the desert is commemorated. This is the origin of the name, because of the practice of eating pancakes on this day, and "Mardi Gras," the last day of a festive season by which the southern countries of Europe and their descendants on this continent in the City of New Orleans precede Lent. The literal meaning of parading a fat ox thru the streets, which is the custom of the French, and the name is said to have arisen from the custom in some parts of France of parading a fat ox thru the streets, which is the custom of the French, and the name is said to have arisen from the custom in some parts of France of parading a fat ox thru the streets, which is the custom of the French.

When we get back to the religious observance in the Scotch name Fastern-ec or Fastday, which occurs tomorrow, is so called because of the custom, now confined to the Catholic Church but once common to the whole Christian world, of the placing of ashes on the heads of the congregation by the priest, who says at the same time: "Remember, man, thou art dust and into dust thou shalt return." The ashes have been previously blessed at the altar, and carry with them the grace of a sacramental act, the reminder of the humility which the Christian should approach the Lenten season.

WAR-TIME PROFITS AND PROFITS BOTH ARE TITANIC

Vicious Tendencies Toward Business Life—Need of Fair Play—Farmers, Manufacturers and Other Producers and Their Products—Danger of Strangling Industry and Drying Up the Sources of Our Wealth—Taxation and Expansion—Unworthy Socialism

Being the Text of an Address Delivered Before the Canadian Club of Orillia by S. R. Parsons, President of the Canadian Manufacturers' Association, and Published Under the Sanction of the Executive Committee of the Association, as Being of Interest to All Canadians at This Time.

"Canadians, let us know each other better—let us understand and sympathize with each other's problems—for in that knowledge lies increased production, good feeling between city and country, prosperity in reason and fair play for all."

"The men were quickly conveyed to the Central Y.M.C.A., where pay and passes were issued to them. From there they were conveyed to the Red Triangle Club, where breakfast was served. Hon. W. D. McPherson, on behalf of the Soldiers' Aid Commission, extended a welcome to them at the Y.M.C.A., stating that the country could never express its pride in them for what they had done. "It should surely be possible to discuss dispassionately, and with fairness to all interests, some present tendencies in our public mind toward the business life of the country. If present conditions were unavailing, ever we needed calm deliberation and need be no antagonisms. 'Now, there should be no antagonism whatever between the farmer and the manufacturer or trader. They are all necessary to the country's well-being and prosperity, despite the erroneous impression of some people to the contrary and it would be better if they exercised more confidence in and good-will towards each other. It should be a matter for congratulation if the farmer, manufacturer, mine operator and all other producers are prosperous. It is a belief held very widely by men of lengthened and varied experience that the average farmer in Canada, over a series of years, makes as large a return upon his invested capital as the average trader or manufacturer. One thing is certain, and that is that seldom does a farmer fall to the cost of raw materials, Government taxes and railway charges, increasing and threatening extinction of the workers, not withstanding heretofore unheard of wages, are aggregated at the same time to pay for all supplies, and therefore grumble at all and sundry. 'Tennyson tells us:

"In wars of freedom and defence the glory and grief of battle was our soldier's race together. If so the surface signs of unity of thought and purpose of working are certainly lacking in Canada. City and Country in Same Boat. 'One curious phase of our disturbed mental condition is that it leads some people to believe that the most part live in the country and all the opposite kind are to be found in the towns and cities and engaged in the same life. The one who has been appearing in the same number of a religious weekly, published in Toronto, and detailed with evident approval and satisfaction the case of a farmer in Saskatchewan, who had agreed to pay over twenty-one thousand dollars, and upon which was made but a trifling payment. The end of the matter, he stated, was that he had about twenty-five thousand dollars in returns for the wheat crop, or—to quote from the editorial—'more than enough to pay for the whole farm.' The other editorial, referring quite evidently to war-time conditions, denounced the making of money in war time and condemned in unmeasured terms those who are helping up to an average business man it would appear that a little consideration should show that the farmer referred to in the article stated a profit on account of war prices on wheat; in other words, if there is any profit on the part of the farmer, it is a war profit, and anything like his upon the actual capital invested were never heard of in the making of munitions, the curbing of bacon, or any other line; yet a value of about double as compared with the same month as year ago, largely on account of higher prices of other fields as well outside of munitions, and to the fishermen. 'It is quite clear that this war is a contest of productive power—the power of the armies in the field backed by the power of men in fields, factories and elsewhere. 'He certainly is very short-sighted who sees only the incomparable sacrifices our brave boys are making at the front, but overlooks the essential aid that producers and others at home are rendering in the great war. A graduate of Toronto University, a well-known editor, now an officer on active service in France, wrote the following in a letter to me, and speaker recently and magnanimously having used one that was in every sense a war profit, he went to the manufacturer and asked if another could be supplied of the same than ours.' Criticism of Manufacturers. 'Now, in connection with the pro-

duction of the lines enumerated there seems to be little criticism on the part of the public against prices obtained and profits made except in the case of the farmer, that a deplorable ought, however, to be remembered that in addition to the question of ethics involved in this criticism altogether from the magnificent condition, financially and commercially, without her great manufacturing industries during the war—said the farmer that he was quite sure that your father paid for this new buggy for one hundred dollars, but by giving me a hundred bushels of wheat. Now, Allice, Nor should it be overlooked that in 1914-15 there were heavy losses in many of the lines, notwithstanding this, employers were in most cases holding on to their men and obligating themselves in connection with those who were employed, contributing largely to all patriotic funds. Of course it is quite easy to understand that the farmers of the Northwest or elsewhere can hardly object to a price being fixed for wheat that enables them to make such large profits—profits on a scale that they would take strong exception to if made in ordinary manufacturing. It should also be borne in mind that these high prices for farm products are sure to apply for some years—war or no war. The present prosperity of many manufacturers, and especially in the case of the automobile, is largely due to an end when war was over. Curbing Manufacturers' Profits. 'Is it not possible, though, that the Government, in yielding to the popular cry for curbing of the profits of manufacturing in one particular, would be doing a wrong and unwise in singling out any industry for its control? In limiting the profits of an industry to a maximum of eleven per cent, the question is, if it will not have the opposite effect to that desired? In the first place, such limitation is likely to do away with that which is the incentive so necessary to the success of all undertakings. In the next place, as interest on investments, in general, has been at a high rate, over and above what they could make in simply investing their means here and there within the channels of safety. Aside from the special risks involved in manufacturing, it is well known to all business men that any rapidly expanding manufacturing company to properly extend its operations, provide for additional plant, larger stocks of raw materials, value of raw and finished products, increased accounts receivable, and more working capital, all of which are essential. This is a situation that has its resources in a liquid form and whose working capital is largely supplied by a continuing public. 'A manufacturer, generally speaking, has very little, if any, cash, but has his assets in the form of real estate, buildings, plant, book debts, materials finished and unfinished, etc. Further, manufacturers in this country have no surplus of capital and, therefore, depend upon the banks for a line of credit to enable them to conduct their business through the busy seasons. Now, it is quite conceivable, in fact, altogether likely, that a company, limited as indicated, might go to a bank and apply for a line of credit, say a million or several million dollars, according to the capital, turnover, and seasons of the year. A banker, naturally, would ascertain whether the company would be able, out of its sales and earnings, to pay back the money borrowed in addition to providing for necessary expansion. If there was not a fair prospect of doing so, the Government, or other limitations, the money would not be loaned and the business would be crippled or might even be ruined. Big Profits, But No Cash. 'Taking a hypothetical case, it is, therefore, probable that the nine per cent, spoken of recently, which the Government think they will get back at the end of the year from company said to be making eighty per cent, profits, could at best only be largely, if not wholly, in sets of one kind and another other than the latter would compel the company to liquidate. If winding up were not advisable or possible the Government might very properly be called upon to assume the share of the liabilities which a growing and rapidly developing business forces especially in the transportation field. 'This is no fancy picture, as any experienced manufacturer or banker will declare; in fact, confirmation is contained in a despatch from New

York to The Toronto Globe of November 29th, telling of prosperous industries being short of working capital to meet current bills, owing to present conditions and the well-earned dividends, as well as trying to devise plans to borrow the money to meet excess profits taxes, two and one-half billions paid in 1917. A very important consideration also is that conditions such as outlined profits will be deducted from next year's earnings, and unless there are other initial products of an expanded profits and expanded favorable market, such as they now have, for their products. It is, of course, a fact that it is sure to limit the money to meet excess profits taxes, two and one-half billions paid in 1917. CHARGED WITH SEDITION: Other Men Are on Trial at the Kitchener Assizes. Kitchener, Ont., Feb. 11.—At the spring assizes which opened here this afternoon, I. Neuber, Herman Odberg of Kitchener, and Paul Leinster of Hepler are charged with sedition. The charge against Neuber is based on a statement he is alleged to have made in the auditorium here at the political meeting when the crowd refused to listen to Sir Robert Eggen. He is alleged to have said that would sooner be under the Kaiser than under Borden. Herman Odberg is charged with having made statements to justify the sinking of the Lusitania. Paul Leinster is charged with having said he would not give money to defeat his nation. In charging the grand jury Justice Masten declared that in his opinion he did not consider the charges as coming within the scope of sedition. He advised the jury that they were in no way bound by his opinion.

MANITOBA HAS OPTION... Purchase Whole System as... Going Concern in Nine...-Twenty-Nine... Hanna Values Them at Fifty... Cents on the Dollar... Last September... Two important facts were brought... on yesterday when the C. N. R. arbi... trial proceedings resumed in the... of the Hall before the commission... of Sir William Meredith... Mr. Hanna... and Justice... Mr. Hanna... and the other was the... of the Manitoba Government... an option to purchase the entire... C. N. R. system as a going concern... in 1912... The price of the common stock of the... C. N. R. at \$100 par value were... worth per share 50 cents on the dollar... on September 30, 1917, was the opin... of the company, third vice-president... of the company, when he continued... evidence and this information... came out in answer to the examina... of Mr. Hanna by Pierce, Butler... counsel representing Mackenzie, Mann... Co., who asked Mr. Hanna from all... knowledge of the property from... the question to the present day, if... would sell the value of common... stock at \$100 on Sept. 30, 1917... "What that be from the standpoint... of a vice-president of the road, or a... probable purchaser?" asked Sir Wil... Meredith... "What should Mr. Hanna be asked... to qualify his statements?" asked W... N. Tilley, K.C., counsel for the gov... ernment... Personal Intimate Knowledge... Mr. Hanna stated that he had a... personal intimate knowledge of the... whole property extending over a pe... riod of twenty years, and that in... obtaining the value, in his opin... ion, of the property, three important... facts should be taken into con... sideration. First, was the... railway built to meet the need of its... service resulting from the territory... of the Northwest... the property designed to perform its... duty, and thirdly, would it be pos... sible in pre-war conditions to build... a railway which could be operated... by the C. N. R. by the ex... penditure of reasonable cost. Referring... to the first, Mr. Hanna produced... a lengthy list of figures showing the... main service, the numerous towns... served, and the settlers that had... clustered to the territory, to support his... claim that the road was a necessity... not just that the actual develop... ment had been properly shown... in the report, "I say that the ex... penditure of the common stock in September... 1917, was not less than fifty cents... on the dollar... "I only wonder why there was... no one to buy it," remarked Sir Wil... liam Meredith. "We have been told... by Mr. Elphinstone that this stock had... no market value... Mr. Hanna started to state that Sir... William Meredith had had an offer... for \$10,000,000 worth of the shares... which was jumped by W. N. Tilley, K.C.,... counsel for the Dominion Government... "I object to that," he said, "let... that statement be made by Sir Wil... liam Meredith himself, and it is only... also fair that the person who made... that offer should be willing... "I thought I was only giving a... few figures in a friendly way to Sir... William Meredith and the rest of the... board," said Mr. Hanna... "Mr. Hanna Hobson's choice," replied... Mr. Hanna... "Mr. Tilley sprung a mine when he... drew attention to the fact that the... Manitoba Government had an option... to purchase the C. N. R. system in 1912... Mr. Tilley: "You acquired the lease... of the Northern Pacific in 1901, and... that lease was first given by the rail... road company to the Manitoba Govern... ment, and the government assigned... it to you... Mr. Hanna: "Yes... Mr. Tilley: "At the end of the as... signed term of the lease a provision was... made regarding an option to purchase... between the Manitoba Government and... the C. N. R. for the government to... purchase the C. N. R. system... "No, the whole system," said Mr. Tilley... and read an extract from the... Manitoba statutes of 1901 to substantiate... his statement. "That will make... your property the less value to take... the value of it out of Manitoba... "I intended to apply only to the... Manitoba system," persisted Mr. Tilley... "It would be ridiculous to... think the Manitoba Government would... purchase the whole of the C. N. R.... "You mean to say the meaning of... Government can take over the whole... system, Mr. Tilley?" asked Justice... Harris... "Certainly," said Mr. Tilley... "What effect do you think that will... have on the property?"... "I should think it will make the... stock of the company less desirable... say, eleven years before that option,"... replied Mr. Tilley... Further facts were given by Mr. Tilley... showing reasons for the de... feat in 1914 shown in the financial... statement already presented. The net... revenue of the company up to 1916... had not all fixed charges with a sub... stantial surplus to the good, he pointed... out. At that time the company... had certain negotiations pending with... the Dominion Government in respect... to the guaranteeing of the \$45,000,000... of the contemplated con... sideration. Sir William Meredith... stated that the contemplated con... sideration was for the sale of... these securities with a London firm... and the first issue of £300,000 (about... \$1,000,000) was brought out in July... 1914, and before the war broke out, still

later the London market was closed... entirely, thus giving the company its... first financial blow, and it was neces... sary to resort to short term notes in... New York. A slow down in the con... struction work was instituted and the... program as outlined early in 1914 was... partially abandoned. In consequence... the line between Edmonton and Ver... covour was not really opened until... late in 1915. A delay was also oc... casioned on the line between Port... Arthur and Sudbury. Certain other... negotiations were carried on, but were... dropped when the Drayton-Acworth... report came out... Hanna's Report... Mr. Hanna purchased into trade... against the Drayton-Acworth report... "Had the company supplied erroneous... information," he stated, "or if it could... be charged with having kept back cer... tain facts, then there might be some... excuse for any excusable omission... feel sure that the government has no... desire that it should go abroad that... there were no assets in this company... "Put it as strong as you like," said... Sir William Meredith, "but I do not... think it is right for you to give ex... cuses for any of these omissions... "I do not understand the meaning of... correct procedure here," said Mr. Hanna... "But I certainly do understand... certain figures when I see them," stat... ing that he had another bone to... pick with the Drayton-Acworth re... port. Mr. Hanna read the following... extract, "Without desiring to cast any... reflection on the Canadian Northern... Co., we think that those responsible... for its management have taken and... still continue to take an unjustifi... ably sanguine view of its possibili... ties... "Justice Harris: "It simply means... that your estimates were made on... certain things, including the comple... tion of the various lines... "The estimates were based on cer... tain information given to the govern... ment, and that the transportation... railway work had been completed in... 1916," said Mr. Hanna. Speaking of... estimates made in January, 1916, for... the ending June 30, 1916, and... 1917, he said they had more than... realized the expectation conveyed in his... estimates. His estimated losses for... 1916 were \$814,800, and the actual... figures were \$248,157... Sold Ocean Boats... In answer to the question put by... Pierce-Butler, counsel for Mackenzie... and Mann, as to the traffic arrange... ments for the future, Mr. Hanna stated... that the C. N. R. sold its ocean boats... to the Canadian Government in May, 1915... but, according to an agreement enter... ed into between the C. N. R. and the... Canadian Government, the latter company... was obligated to put on an oriental... steamer line between Vancouver and... other ports and was also obligated... to act as agent for the C. N. R. in all... ports in the United Kingdom and the... Empire... "The Canadian trade will be very... much developed after the war," point... ed out Mr. Hanna, "and the Canadian... Northern places a great deal of... strength on that agreement... "W. N. Tilley asked if Mr. Hanna... could compare the freight rates re... ceived in the earlier days to the rates... received today and the following... figures were given by Mr. Hanna... showing the earnings per ten miles... in 1902, 78¢ of a cent; 1904, 81¢ of a... cent; 1905, 79¢; 1906, 81¢; 1907, 87¢;... 1908, 77¢; 1909, 78¢; 1910, 74¢; 1911... 74¢; 1912, 73¢; 1913, 72¢; 1914, 74¢;... and in 1915, when the first consolida... tion balance was issued by the company... it had risen to 83¢; in 1916 it fell to... 67¢, and in 1917, the last figures, it... was 68¢... "Before 1903, didn't you have rates... that went up to one cent?" asked Mr... Tilley, but Mr. Hanna said he had no... figures to show this... "The thing with the matter of the sur... plus that was stated to have been paid... out for the improvement of the prop... erty," Mr. Hanna said they were sim... ply book figures... "You have never been in a position... to pay anything to the share... holders?" asked Mr. Tilley... "They could have got it if they had... help," he answered in an affirmative... "What is the interest and discount on... bond issues charged to?" asked Mr... Tilley... "To capital," said Mr. Hanna... "You get, say, \$90 for \$100 bor... rowed. Why not add the other ten to... the rate of interest... "Let me see where the money comes... from," Mr. Hanna asked... "According to the figures you gave... the deficit for 1917 was partly ac... counted for because you opened up... 1300 miles of road that year," said... Mr. Tilley... "Mr. Hanna pointed out that the... 1300 miles referred to was based upon... the average mileage of 1916 and 1917... Earnings Belong to D. W. & P... The earnings of the Duluth, Winni... peg and Pacific line were \$10,000... gross per mile, and the traffic over... that pointed out by Mr. Hanna, who... stated as much as 11,000,000 bushels... of grain in one year had been hand... led... The earnings of the Duluth Co. be... long to the Duluth Co.," asked Mr... Tilley... Mr. Hanna: "Certainly... Mr. Tilley: "Then is it fair to turn... the earnings over to the C. N. R. system?"... Mr. Hanna: "Surely... Mr. Tilley: "Will that mean then... that this arbitration is over the 49... per cent of the capital stock owned... by Mackenzie, Mann & Co. will have... to be paid back by the C. N. R.?"... Mr. Hanna: "But it will be a very small... amount... "Does that condition apply to all... other countries where there is a... minority interest?"... Mr. Hanna: "I do not know of any... other country in the same position... Mr. Tilley: "Dealing with another... company, the Minnesota Railway, about... 44 miles long, which is a Maine... corporation, the C. N. R. holds all the... stock... Mr. Hanna: "Yes... Mr. Tilley: "What bonded indebtedness... is there?"... "If I think it is \$226,000," answered... Mr. Hanna.

U. S. RAILWAY EARNINGS MAKE POOR SHOWING
With Advent of Better Weather Revenue is Expected to Improve
The railroads making weekly returns of gross earnings are unusually slow in issuing their statements, the total of all United States railroads so far received by Dun's Review for three weeks in January amounting to only \$19,482,899, a decrease of 4.3 per cent as compared with the corresponding period a year ago. Intense cold and heavy snows in many sections, congestion at terminals and insufficient equipment are given as the cause for this construction in traffic, and while there are occasional instances where indications of improving conditions appear, particularly in the south and southwest, losses are still the rule and on some important lines the situation is particularly unfavorable. Receipts are generally satisfactory comparisons with those of a year ago.

CANADIAN RAILWAY EARNINGS IMPROVE
C.P.R. and C.N.R. Show Substantial Gains for First Week in February.
Substantial increases in earnings for both the C. P. R. and C. N. R. are shown by the earnings for the week ending Feb. 11, this year, as compared with the corresponding week of the previous year. The C. P. R. earnings for the week total \$2,096,000, a gain of \$206,000, or 10.8 per cent. The C. N. R. earnings for the week total \$684,000, an increase of \$141,000, or 25.6 per cent. The improvement in earnings is strikingly noticeable when comparison is made with January figures, when the C. P. R. earnings amounted to \$1,670,000, an increase of only \$77,000, while C. N. R. earnings amounted to \$2,715,900, exhibiting a decrease of \$117,300.

WORKING ON PROPERTY NEAR PAINKILLER LAKE
May Unite With Beaver In Operating Kirkland Lake
Cobalt, Feb. 11.—Work on the property of the Hill City Mines Company near Painkiller Lake, in Munro Township and near the Kirkland Lake, has resulted in the discovery of a rich deposit of silver. The property is owned by the Hill City Mines Company, which is being operated by the Kirkland Lake Silver Mining Company. The property is situated on the north side of Painkiller Lake, and is bounded by the Kirkland Lake and the Hill City Mines Company. LONDON STOCK MARKET
London, Feb. 11.—Talk has been resumed in banking circles of the possibility of an early cessation of treasury bills and the resumption of operations to consolidate the floating debt. This probably accounts for the present dullness of gilt-edged securities, and with the possibility of fresh taxation, helps to restrict activity. Business on the stock exchange, which today was confined to a few speculative shares and iron, steel and rubber stocks. The latter were made with the commodity. Russian issues were flat. Money conditions were easy and discount rates were steady.

Year of Great Activity Outlook in United States
J. S. Bachue and Company say: "Whatever course prices may take as regards speculative ups and downs, the long outlook, barring only extremely unfavorable war developments, is for a prosperous year of enormous business activity, high wages, and complete employment for the working classes, and good net profits all of which should accrue favorably to security values and security prices."

EARNINGS OF ABTIBI
Montreal, Feb. 11.—The annual meeting of the Abtibi Power & Paper Company, Limited, was held at noon today at the Windsor Hotel. The company reported a net profit of \$271,122, or 5.4 per cent on the \$5,000,000 issue. Surplus at Jan. 1, 1917, amounted to \$860,225, making a total credit of profit and loss on Jan. 1, 1918, of \$682,047. Directors and officers were re-elected.

GRAIN SHIPMENTS WILL LOOSEN UP
Prospect of Eastbound Movement from Chicago Strengthens Corn Market.
(Chicago, Feb. 11.—Prospects of a steady increase in shipments of grain from Chicago strengthened the corn market today after prices had sagged owing to a decided enlargement of receipts. The close was firm at a shade to 1/4c and 1/2c not advance, with March \$1.27 to \$1.27 1/2 and May \$1.25 1/2. Oats gained 1/4c to 1/2c. Provisions lost 7/8c to 1c. Encouragement shown in regard to likelihood that corn would soon begin to move east from here in considerable amounts was reached on sudden notice that orders at Chicago elevators had been withdrawn. The notice meant that grain brought in lines from here could be loaded at once on eastern cars, instead of being piled up in Chicago, and the bearing effect of liberal arrivals here was soon felt in the trading arena. The general tenor of the president's speech became known. Oats were governed by the same conditions which affected the corn market. Receipts showed a material increase, but demand was slow from elevator interests and shippers. Big receipts of hogs and a falling off in exports weakened provisions.

GRAIN AT WINNIPEG
Winnipeg, Feb. 11.—The demand for cash oats was somewhat indifferent to the extent of the embargo of cars from the west. Winnipeg oats closed 1/4c higher for May, at 57c; July 1/4c higher at 54 1/2c. Flax closed 1/4c higher for May at \$1.64 1/2. Flax closed 1/4c higher for May at \$1.64 1/2. Old contract—May, closed 3/4c. New contract—May, closed 3/4c; July, closed 3/4c. No. 2 C. W., closed 3/4c; No. 3 C. W., closed 3/4c. No. 4 C. W., closed 3/4c. No. 5 C. W., closed 3/4c.

BUSINESS FAILURES
R. G. Dun's report issued on Saturday, says: Commercial failures this week in the United States are 261 against 264 last week, 775 7/8th preceding week and 796 1/2th preceding week last year. Failures in Canada number 26, against 21 last week, 23 the preceding week, and 26 last year. Of failures this week in the United States, 10 were in the food, oil, and drug lines, and 48 in the textile, and 91 reported liabilities of \$6000 or more, against 80 last week.

WHOLESALE FRUIT AND VEGETABLES
The wholesale fruit and vegetable markets again observed the holiday, only being open in the morning, chiefly for the purpose of unloading fresh arrivals. Oranges—Navel oranges are again scarce, and are likely to be nearly exhausted for this season; so prices are quite firm, and a slight advance in some quarters. A car of Ontario cabbage is quite plentiful just now, and varies in price according to quality, from \$3.50 to \$4.50 per case. Carrots—The World has been trying to boost the buying of carrots for winter use, and now the food controller is asking them to do so, so, Mr. Retailer, it looks as if it was up to you to buy and sell. Chas. S. Simpson had two cars of Florida oranges, selling at \$6 to \$6.50 per case; a car of Ontario cabbage is quite plentiful just now, and varies in price according to quality, from \$3.50 to \$4.50 per case.

PAPERS OF SWIFT HELD AS EVIDENCE
Judge Landis Denies Motion to Quash Search Warrant.
Chicago, Feb. 11.—Judge Landis, in the United States District Court today, denied a motion to quash the search-warrant issued to agents of the federal trade commission last Tuesday, authorizing the seizure of books and papers alleged to contain the results of Henry Veeder, general counsel for Swift & Co. At the same time the court held constitutional the search and seizure section of the federal espionage act, under which the writ was issued. Judge Landis, in his decision, overruled every objection to the validity of the writ advanced by counsel for the packers, and upheld the government in its demand to search the Veeder vault for evidence wanted in the trade commission's enquiry into the packing industries. Counsel for Veeder were prepared for an unfavorable decision, and by a series of formal motions perfected the record in the case so that an immediate appeal could be taken to the United States Court of Appeals. Upon the application for a writ of error to the upper court, Judge Landis entered a temporary order staying further execution of the search warrant until 11 o'clock tomorrow morning. District Attorney Charles F. Clyne vigorously opposed the granting of the temporary stay order, and declared that the government would demand an immediate hearing on the appeal. "The felonies complained of in the affidavit on which the search warrant was issued have been committed continuously since 1905, and are being carried on in the name of Swift & Co. and their agents, and in defiance of law, according to our information and belief," said District Attorney Clyne, in objecting to the entering of the stay order. "Delay will seriously embarrass the government in its investigation of these charges."

An outstanding feature of this Furniture Sale is that the specially priced articles are the everyday, practical kinds that most people want for their homes—the kind of furniture that is to the furniture business what sugar and flour are to the grocery business. Another feature is that these low sale prices may be taken advantage of by any responsible person on the deferred payment plan, by joining our Home-Lovers' Club. There is no interest to pay on deferred payments.
