54,600 Meals Did Him No Good

How One Man Wasted 50 Years of His Life. Thousands Like Him.

"What's the use of eatin', anyhow?" said the shrewish dyspeptic to his rosy, prosperous-looking friend. "Here I've been eatin' three times a day, and sometimes twice a day, for 50 years, and look at me. I'm rawboned, and skinnier than a stick, and I can't get a meal in my life, not even mother's. I don't believe I ever really relished a meal in my life, not even mother's. I was brought along with it darkness and impossibility of success."

"You're right," nodded his companion. "Of course, that isn't always the case. But in this age we must not only 'Trust in the Lord and keep our stomachs full,' but we must swallow sunshine with our food. There's a special while eating, which is the most essential act of man, is as necessary to him as sunshine is to the flowers. Nothing normal can be produced in darkness."

"But this is what you haven't been doing. Mr. Dyspeptic. You've eaten and your stomach, remember, is a pest. You have to treat them accordingly. The damage you've done? It is never too late, you know."

"You mean at my age? And suppose you can't always get the sunshine?"

"Absolutely, yes. Science has made it possible to get the sunshine, the health, and the strength that your stomach needs, all put up together in little tablets. They call them Stuart's Dyspeptic Tablets. The most effective tablets in the world for this very thing. One ingredient in these tablets digests 3000 grains of food without the help of the stomach. The stomach, after each meal can do more work, quicker work and better work, in digesting a heavy meal than the stomach can itself. The stomach need not work at all. Stuart's Dyspeptic Tablets do all the work and gives you a good stomach, a rest, the rest it needs. Meanwhile you cure yourself of indigestion, burning sensation, heartburn, sour stomach, acidity, fermentation, bloating, flatulence, and all the other troubles of indigestion. And then, besides, you can eat all you want, and whenever you want. Then your face will be clearer, you will have more confidence in yourself, you'll be happier, and you'll be yourself again. Your heart will change and you'll feel young. Let's walk down to the drug store and let me introduce you to one of the packages of Stuart's Dyspeptic Tablets. You can get them at any drug store in the world for only 50c a package. It is worth it, Mr. Dyspeptic."

CANADA MUST BE AWAKENED TO SHIPPING POSSIBILITIES

Bristol Man Suggests That Government Commission Investigate and Make Improvements.

"When I think of the great portion of Canadian commerce which is not going thru your own ports, I marvel at your blindness—or perhaps apathy is the better word, for I am sure you know that the ports of Boston, Philadelphia and Baltimore are getting the bulk of Anglo-Canadian traffic that should be handled by your ports alone."

This was a statement made by F. B. Girdlestone, general manager of the Bristol docks, England, before the members of the board of trade yesterday.

Mr. Girdlestone is the general manager of the Bristol docks, which include the older docks, situated within the city itself, and the newer docks at Avonmouth and Portis Head situated a few miles below Bristol at the river mouth. The situation of these docks, commercially, is something akin to that which exists between the port of Quebec and the port of Montreal, that is to say vessels of largest dimensions and berths, discharge their cargoes at Avonmouth and Portis Head, and the smaller vessels, which are retained and are attaining, whilst the smaller trading vessels will always discharge at the Bristol city docks at the head of navigation.

The reason Canada should only boast of three or four lines, said Mr. Girdlestone, was obviously on account of a lack of harbor facilities, and that fact accounted for his visit to Canada. He had been sent out by the Bristol chamber of commerce, with the object of conferring with the railroads, shipping companies and the leading trade associations as to the possibility of establishing a more regular line of steamers, both passenger and cargo, between Canadian ports, and the port of Bristol. To make clear his point he outlined briefly the ups and downs the Bristol people had to contend with in order to possess a harbor which ranked second in the United Kingdom. The increase in the size of boats from time to time and other conditions contingent upon the advancement of progress generally, had necessitated the expenditure of \$30,000,000 by 300,000 people in the last two decades.

"But they had to do something strenuous or drop back to the rear as a shipping centre. The new Royal Edward dock, which the King had asked to open next year, is our latest venture, and is costing \$15,000,000. But it is necessary to keep up with the times, and in the latest facilities and methods for handling traffic, in order to retain the business."

"Now what have you been doing on this point?" "When I landed in Quebec I was expecting to see some great improvement since I visited that harbor last, but found instead a miserable shed, a narrow walk, a muck road along side the vessels where teams drove up to haul away the freight, and an absolute want of every accommodation for either freight or passengers."

"At Montreal, I went to the portion of the wharves reserved for the trade with Bristol, and found a great wooden structure marked 'Bristol' had expected large and convenient accommodation for the enormous exchange of trade, but it must have been the shed that Sebastian had set down in to change his clothes."

The G.T.R. and C.P.R. appeared to be the people who had realized the possibilities, and had endeavored to keep pace.

"It is useless for you to expect us to put capital into ships to run when over here if you don't provide adequate facilities for handling the trade. When you know your country is abundant in timber, minerals, grain, wool, etc., you should take means to get the capital of England interested into your trade," he declared.

Mr. Girdlestone had met Premier Laurier, the cabinet ministers and many Canadian manufacturers.

"The G.T.R. and C.P.R. appeared to be the people who had realized the possibilities, and had endeavored to keep pace."

"Let them study the facts. Then let the government provide the means of making Montreal a port of highest efficiency."

It seemed incredible, he said, that the River St. Lawrence and Montreal harbor should have been left in their present condition. They were absolutely insufficient for large boats. He noticed a lack of tracks at the ship's side, sheds, terminals and above all docks. Canadian commerce was suffering from this want of facilities, not only from the inconvenience, but also the cost of handling, which increased the prices in England.

Accommodation was insufficient for the present requirements, but looking into the vast progress of the country thru the extension of railways, opening of mines and the effect the thousands of immigrants to the northwest was to have in developing that country—who would be the state of affairs in five years? "Would be chaos, if the government didn't get a move on."

Bristolians Are Wise.

It was his belief that the present harbor traffic at Montreal was a mere flea-bite to what it was going to be, when instead of three or four ship lines there would be a dozen.

"Bristol will provide the capital if you don't! Canadian trade has always been dear to Bristolians, and every Britisher realizes the possibilities of this country if your government do not," he asserted.

The members of the board of trade were deeply impressed with Mr. Girdlestone's remarks and a hearty vote of thanks, moved by R. C. Steele and J. D. Allan, was warmly endorsed by all.

Can Restrain Company.

Albany, Oct. 16.—The court of appeals today decided that the supreme court of this state has a right to issue injunctions restraining the Consolidated Gas Company of New York City from cutting off the supply of gas to consumers who refuse to pay more than 30 cents a thousand cubic feet.

THE SLEEP OF DEATH.

Horse Wanders, Man Falls and is Drowned in Boggy Land.

Kirkfield, Oct. 16.—Duncan McCallum, a farmer living near here, was drowned about 4 p.m. yesterday, a mile and a half east of the village, on the flooded land near the Trent Valley Canal West.

He was returning from Lindsay with a box of dynamite, and is supposed to have fallen asleep. The horse turned off the road and walked over the embankment, and he fell over the front of the buggy and is supposed to have hit his head.

He was found shortly after by a Mr. Timney, who was coming to town, but life was extinct.

Back From the West.

Daniel Tulloch has just returned from an extended trip to the Pacific coast. He is representing a well-known Canadian firm and reports favorably as to

the condition of trade in the west. He will be at home to his friends for a few days, after which he goes to the Ottawa Valley and maritime provinces.

House of Industry.

At the regular monthly meeting of the House of Industry board yesterday, Henry O'Hara, president, the reports showed 150 regular inmates, of whom 39 are women. Ten new families were assisted in the outdoor relief, and 38 casuals were given accommodation, totalling 401 nights. The treasurer reported an overdraft of \$341.80.

Fewer "casuals" and outside poor have applied for assistance. The superintendent says the sight of the big pile of unbroken stone in the yard is scaring some away.

THE CORPORATION OF THE TOWNSHIP OF YORK.

Notice is hereby given that the Municipal Council of the Corporation of the Township of York, at a meeting to be held on the 17th day of November, 1906, at the Council Chamber, in the City of Toronto, at the hour of 2.30 p.m., consider a by-law for the purpose following, namely: For altering and diverting a portion of Windermere-avenue, in the said township, for stopping up and diverting a portion, as hereinafter described, of said Windermere-avenue, in said township, and for establishing as a highway or part of a highway the parcel of land hereinafter secondly described, all as hereinafter particularly set out, namely:

Firstly—For stopping up that portion of Windermere-avenue described as follows: All and singular, that certain parcel or tract of land situate, lying and being composed of part of the present roadway called Windermere-avenue, as surveyed and diverted from the original road allowance by a certain plan prepared by Peter Gibson, Ontario Land Surveyor, and dated by him Dec. 8th, 1880, and filed with a certain By-law of the Township of York on the 13th of April, 1880; said original road allowance having been located on Plan B. 45, a subdivision of Lot 39, and the east part of 40, in the broken front and first concessions from the Bay of said Windermere-avenue, as surveyed and prepared by John Stinson Dennis, Deputy Surveyor for the Crown Lands Department, and dated by him Feb. 24th, 1840, said parcel being part of that portion of said roadway as diverted from the line between Lots 1 and 2 of said Plan B. 45, to pass through said Lot 1, Plan B. 45, of said Township and County of York, Province of Ontario, and for establishing as a highway or part of a highway the parcel of land hereinafter secondly described, namely: A parcel situate, lying and being composed of part of Lot No. 1, as shown on Plan B. 45, a subdivision of Lot 39, and the east part of 40, in the broken front and first concessions from the Bay of said Windermere-avenue, as surveyed and prepared by John Stinson Best Line of Men's Suits At \$12 Ever Sold in Canada

We're willing to be judged by the quality and style of these suits, together with the tailoring and finish. Made of fine imported wools, by our own tailors, and with new touches of style that make them immediately popular. We don't know how to sell second-rate clothing. We haven't the knack of doing it. Ours is the superb merchant-tailor sort, fine as wit and skill combined with good materials can produce. No tailor in the land so uppish that he wouldn't turn out as good, if he could.

Thanksgiving Overcoats

A big range of all the wanted kinds with a style and dignity about them seldom seen in ready-to-wear clothing. Something extra special in Men's medium weight

Topper Overcoats at \$8.95

that fit in precisely with Thanksgiving needs. Stylish enough and jaunty enough to satisfy swell dressers and crowd the store with young men. Made by our own tailors and guaranteed full first-class.

STREET RAILWAY MUST TELL WHAT CITY WANTS TO KNOW

Judge Winchester so Decides— Radial Entrance Report Goes on to Council.

Property Commissioner Harris yesterday presented his radial report to the board of control. After a short discussion it was sent on to council.

It is the commissioner's opinion that the radial companies should pay a percentage on account of every passenger who transfers from radial to city lines, and a fee of \$2 per radial car, for each trip in and out respectively. That St. Lawrence Market be the only freight terminal within the city limits, the company to pay the corporation such rental for the use of space occupied in said market as may be hereafter agreed upon. That the Toronto Railway Co. pay mileage to the city upon all existing lines requisite for radial entrance and operation.

Controller Hubbard expressed the fear that the placing of a tax on freight coming over the radials would have a tendency to increase the price of milk, eggs, vegetables and kitchen-garden stuff. Controller Jones reminded the committee that the railway commissioners had the power to order the entrance of the radial roads into the city. He did not think it wise to ask too much. The mayor thought it better to ask as much as possible, for the railways would not give anything they didn't have to.

Objects to Third Track. City Engineer Rust put a crimp in the C. N. R. when he reported against the company's application for permission to lay tracks on Esplanade Street from Yonge Street to Shorncliffe Street.

Mr. Rust claims it would make the street too narrow and necessitate level crossings at Trinity, Parliament, Berkeley, Front and Princess streets. There was no good reason why the Canadian Northern could not run their cars over the Grand Trunk tracks.

The Master House Painters and Decorators wrote protesting against the property commissioner having charge of the expenditure of \$60,000 to make the city hall look like a blaze of glory. They claim the work should be done

by tender, so that if the work is not done properly, the city could have someone else for the job.

The commissioner says he can buy material as cheap as the painters; and he can look after the work as well as they can.

City's Legal Work. The city solicitor's report of the condition of work in his office at the end of September, and the work transacted during the previous three months shows: Cases disposed of, 5; city successful in 1, unsuccessful in 3, settled 1. Cases still pending, 94; arbitrations disposed of, 40; arbitrations pending, 6; titles search and land claims paid 16, amount so paid \$11,300.44; claims disposed of by claims commission 12; contracts, agreements, bonds and leases drawn 139; bylaws drawn and certified 23; deeds in triplicate 75; conveyances and other charges collected by city \$510.22; costs collected \$1281.96.

Settled at Last. City Solicitor Chisholm has been successful in closing the mileage suit between the company and the city. This suit has taken several years to settle, and ran the complete list of settlements, intersections and track outside the city limits at the time the agreement was executed. On this claim the company paid \$19,000, and the other cheque was for \$4643.53 in full payment of the last claim for arrears. The

Woman's Strength Is Overtaxed

With her strength overtaxed by too much work, many a woman finds herself weak, nervous and exhausted, subject to indigestion and headaches and subject to spells of discouragement and despondency.

Under such circumstances, Dr. Chase's Nerve Food is a blessing of great value, bringing new hope and confidence, and restoring vitality to the blood and nerves. Dizziness, heart disturbances, pale, bloodless appearance, smothering, choking sensations, heavy heart beating and palpitation are some of the symptoms which give way before the persistent use of this great food cure. The appetite is sharpened, digestion improved, the form is rounded out, healthful proportions and gradually and certainly strength and vigor replace weakness and disease.

Dr. Chase's Nerve Food is highly prized by women because of its gentle, yet powerful, restorative influence; 50 cents a box, 6 boxes for \$2.50, at all dealers, or Edmanson, Bates & Co., Toronto.

total amount collected by the city as a result of the litigation on mileage allowance was \$48,795.55.

Railway Must Tell. The City of Toronto is entitled to all the information it has asked from the Street Railway Co. under the clause in the agreement which says: "The purchaser shall furnish to the city engineer annually on Jan. 1 a statement of trucks, cars, and all plant and appliances on hand on that date, together with the value of the same."

In argument, Mr. Laidlaw, for the company, had objected to giving the weight of the rails, date when laid, number of miles welded and number of miles laid on sleepers and number of miles laid on other construction, and date when renewed. He was willing to give the number of miles laid and the value of same. He also objected to giving iron poles and wooden poles, wire, machinery and tools, and the statement as to lands.

In his judgment, however, Judge Winchester says: "After careful consideration of the statute confirming the agreement, and the different portions of the agreement, and conditions attached thereto, as well as a number of cases defining the meaning of the words 'plant and appliances,' I am of the opinion that the city are entitled to the statement as asked for. The weight of the cars was agreed not to be demanded. In my opinion, the city are not entitled to a statement of the lands owned by the company, and I therefore do not require the company to furnish such a statement. Since the argument before me I have had the benefit of hearing an appeal by the defendants from the assessment by the plaintiffs of defendants' trucks, etc., and from what took place before me and the other judges hearing such appeal, I can understand the reasonableness of the request made by the city for the information now sought for, and I can also understand the ability of the defendants to furnish the statements that I now approve of."

THAW MAY NOT BE ALONE.

Jerome intimates two indictments for Stanford Whit Murder.

New York, Oct. 16.—That another person may be indicted with Harry Thaw for the murder of Stanford Whit was intimated by District Attorney Jerome to-day. Mr. Jerome indicated that such an indictment might be found during an argument before Recorder Goff as to the right of the district attorney to issue further grand jury subpoenas in the case.

\$5 REWARD AND A EULOGY FOR SENTRY WHO SHOT GIRL

Gave Good Example to Comrades in Killing Student Who Stood at Window.

St. Petersburg, Oct. 16.—After investigating the killing of Mile, Semenov, the young medical student confined in the Central Prison of St. Petersburg, who was shot dead by a sentry

Sept. 10, when she showed herself at the window of her cell overlooking the courtyard, the commander of the St. Petersburg garrison has thanked the soldier who killed the girl, and has given him a reward of \$5. In addition, the soldier is upheld in the order of the day as an example to his comrades of the faithful performance of duty. The prisoners claimed that the sentry

fired without any warning or provocation, while the sentry said he ordered Mile Semenov four times to leave the window, where she and some of her companions were taunting members of the Semenovskiy Regiment with the part they had taken in the suppression of the revolt at Moscow, which resulted in the assassination of Gen. Min, who was formerly colonel of the regiment.

The authorities threaten to close the universities of St. Petersburg and Kiev, as well as the University of Moscow, because of the holding of revolutionary meetings within the buildings, and the participation of non-students in the meetings.

According to a despatch from Yalta, Crimea, a member of the secret police has been arrested there for firing on a dragon patrol with the intention of provoking retaliatory excesses on the part of the soldiery against the Jews.

Lav Was Kind.

Halifax, N.S., Oct. 16.—James B. Lehmann, who was arrested here last week charged with being connected with the recent smuggling of Chinese from Newfoundland into the United States, on the schooner yacht Prolic, has been released. There were no grounds on which to take Lehmann to Boston, owing to the conflicting national laws.

A FRIEND'S ADVICE

SAVED SUFFERING AND BROUGHT BACK HEALTH —DR. AGNEW'S GREAT HEART CURE AND CATARRHAL POWDER DEFY DISEASE AND NEVER FAIL IN THEIR MISSION OF HEALING

"I feel so thankful at the restored health of my daughter that if any use can be made of this I shall be pleased." This is what Mr. George Weeks, of Elora, Ont., says in giving his testimony to the wonderful curative qualities of Dr. Agnew's Cure for the Heart. Mr. Weeks' daughter was a great sufferer from heart disease and nervousness. She was unable to lie on her left side. She ran down in health and her recovery was a source of anxiety. Induced by friends, who had proved its worth, she obtained Dr. Agnew's Cure for the Heart and before one bottle had been taken was able to lie in any position she desired, and when two bottles had been taken, an absolute cure was pronounced. Yes, this great remedy is a cure for all ailments of the heart, stomach and nerves, and the instantaneous relief given by it has snatched thousands from death's jaws. Don't trifle a minute if you have the slightest evidence of heart disorders, such as palpitation, fluttering or uneasiness. This remedy will relieve such troubles immediately and will cure the stomach and nerves.

"When I know a thing is worthy of a recommendation I consider it my duty to tell of it." The Rev. James Murdock, of Harrisburg, Pa., says this after having been cured of a very malignant form of catarrh by Dr. Agnew's Catarrhal Powder. What he can say of its healing powers thousands of others have said and can say it. Don't neglect "only a little cold" in the head. It may lead to chronic catarrh. Dr. Agnew's Catarrhal Powder relieves in 10 minutes and is easily applied. Keep it near you if you are a "cold in the head" subject.

DR. AGNEW'S OINTMENT cures all skin troubles.

THE NEW FRENCH REMEDY. THERAPION

This successful and highly popular remedy, used in the Continental Hospitals by Ricord, Rostan, Robert, Velpeau and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed.

THERAPION No. 1 in a remarkably short time, often a few days only, removes all discharges, suppurating infections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2 for impurity of blood, scurvy, pimples, eruptions, chills, pains and swelling of joints, secondary symptoms, gonorrhea, and all diseases for which there has been too much a fashion to employ mercury, arsenic, etc., to destruction of sufferer's teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 3 for exhaustion, sleeplessness, impaired vitality, and all distressing consequences of dissipation, worry, overwork, late hours, excesses, etc. Hypnotic, surprising power in restoring strength and vigor to those suffering from exhausting influences of long residence in hot, unhealthy climates.

THERAPION is sold by Chemists throughout the world. Price in England 2/6 per packet. In ordering, state which of the three numbers required, and observe above Trade Mark, which is a fac-simile of word "THERAPION" as it appears on British Government Stamp in white letters on a red ground, affixed to every package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

An influx of country people to-day coming to town for over Thanksgiving.

We hope for a chance to show them our Furs. But some won't know just what to do with every fur store in town claiming the "best assortments at the lowest prices." It comes down to a question of faith in the dealer and being careful who you buy from.

This store has been conspicuously faithful for years. The business has grown through deserving to grow. Nothing has come by chance.

As a matter of fact few stores know the fur business in all its ramifications, and fewer yet provide the protection that you are entitled to.

NOVELTIES IN FUR STYLES

It will pay you to buy Dineen Furs, because our styles are correct and distinctive. Our most popular models are adapted to Canadian taste and requirements, and have been much admired. Our customers have the comfortable feeling that they are wearing the best furs that money can buy.

THE DINEEN GUARANTEE

We guarantee all our furs to be the best in their respective grades, and exactly as represented by us. Ordinary dealers cannot guarantee their furs because they do not know them. Very often they buy imitations and poor qualities because they are cheaper. Furs may be manipulated to represent costly kinds in a way that you cannot discover by the closest examination. The only safe way is to buy from a house you know to be absolutely reliable and that doesn't play tricks.

DINEEN HATS

A wide range of just the styles you want for Thanksgiving—fine texture, glossy deep black and qualities that mean perfection. We get the best in all the wanted grades and offer

under the best selling conditions we ever knew. The Dineen label in a hat is a guarantee of excellence and more people are wearing them than ever before.

REPORT OF MOLSONS BANK VERY SATISFACTORY YEAR

Business Increases, and \$500,000 New Stock Will Be Issued to Shareholders.

Montreal, Oct. 16.—The fifty-first annual general meeting of the Molsons Bank was held in the Board Room of that institution at 3 o'clock yesterday afternoon. The president, Wm. Molson Macpherson, occupied the chair.

Report of Directors.
The general manager, James Elliot, read the annual report of the directors for the year ending Sept. 29, 1906. The business of the bank, it was noted by the president, has been prosperous and shows a steady growth. The profits for the year, after providing for bad and doubtful debts, amount to \$424,684, which, together with \$1,117,839 brought over from last year, have been appropriated: to payment of four quarterly dividends of 1 1/2 per cent. each; to business taxes, \$12,706.49; to officers' pension fund, \$10,000; and to expenditure on bank premises at branches, \$115,389.56, leaving at credit profit and loss \$36,987.23. Since our last meeting eight branches have been opened in Ontario and Quebec at points which seemed to offer business advantages, or to protect our existing interests, and at Edmonton, Alberta, it was thought advisable to establish one in view of the prospect of great increase of population and wealth in that district. All the branches have been, as usual, carefully inspected, and the officers of the bank have faithfully discharged their duties.

OFF TO TORONTO TO BUY FALL SUITS AND FURS

Every train brings holiday visitors to Toronto. Most of them will do their fall buying of Suits, Coats and Furs while here. We wish to emphasize the importance of our store. It is only fair self-appreciation to say that we have a genius for putting a smart, attractive, aristocratic stamp of STYLE into our garments, whether of fur or cloth. We do so abhor the "skimping" and pinching process of making up furs with a fair outside but full of hidden faults, that we go to the other extreme of giving extra QUALITY. Search as you may, from store to store, the permanent sense of satisfaction and comfort found only in serviceable and attractive apparel is to be found by purchasing here. You are asked to look around freely. Only buy if you feel like it.

The President's Address.
The president, in his address, said: "The result of our year's work carries the assurance of most satisfactory conditions and of expanding business. The statement, which has been submitted to you, is, I think, a gratifying one. "Banks are providing capital and means of expansion, and building up business in all parts of the country. The general conditions of the country were touched upon, and, in conclusion, the statement was made: "As you will see by the bank's statement to 29th ult., its business continues to increase. Your directors therefore ask your assent to a further issue of new stock, say \$500,000, at such time (perhaps soon) as they think advisable. They feel that the funds can be employed safely as calls are made, in same manner as in former issues. "Discussion on the Report."
J. W. Molson: What is the idea of the directors as to the premium at which the new stock shall be issued? Have they taken it into consideration? The President: We have considered that the proper price would be 200. This is rather over what the former issue was made at; it was 180. A. G. Watson: The very fact of the statement showing that we are only \$5000 worse off in profit and loss than we were last year, after allowing \$115,000 for bank premises at branches and pension fund, is, I think, very gratifying to every shareholder, small or large. I am quite pleased to give my vote to the officers' fund. H. Markland Molson: Our rest stands at 100 per cent of the capital; and the issue is in proportion of rest to capital. The stock is selling at 223 to 225, and the new stock will be at 200. The Vice-President: It will be one share in six. The General Manager: Some years ago the capital was authorized to be increased to \$5,000,000, and when getting the assent of the shareholders to that application to parliament, we were last year, after allowing portions of, probably, \$500,000 at a time, but the directors promised that it would not be issued without getting the assent of the shareholders, and

YORK COUNTY AND SUBURBS

HOGATE'S HORSE SALE GOOD PRICES REALIZED

Clyde Fillies Sell the Best—Only a Few Shires Sold—Stallions Cheaper.

The sale of J. B. Hogate's registered Clyde and Shire fillies and stallions, as advertised in The World, came off successfully yesterday. A large tent had been erected beside the barns, and a fair crowd of horse-lovers and breeders were present. The fillies were just out from Scotland, and they must have had a quiet trip, as none of them showed any signs of hardships. They were not fat and fed for sale purposes, but they were in an ordinary fair condition. Some really choice future prize-winners were sold at living prices. As one retired farmer said, any man could make money with such animals. The highest-priced filly was Lady Fashion, a Clydesdale filly, by Royal Fashion, at \$1250. She was secured by E. Parlow of Montreal. The Shires came close upon this figure in Tarnace Flower, a 3-year-old, purchased by E. Brown of Montreal at \$225.

An extra fine team of 3-year-old Clydes, well matched, sold for \$750. These auctioneers took turns in the selling, and the best of good feeling prevailed throughout the sale. The ring was crowded, and it was lucky there were no more spectators, as they would have had to stand behind. Many local buyers were present, and it is a good sign to see these really choice brood mares going into our Ontario stables. The prices for horses of the past year warrant our farmers in stocking up with these good ones when they can secure them at such figures. Mr. Hogate thanked the crowd at the conclusion of the sale, and announced another sale of fillies about Dec. 20. The following were the prices paid, and the purchasers:

The 22 Clyde fillies sold aggregated \$465, a good average of \$205.40. The four Shire fillies aggregated \$1285, an average of \$323.25. Only four Clyde stallions were sold, and these brought \$125, an average of \$31.25.

Deer Park.
Dr. Armstrong sold 200 feet of land, fronting on East St. Clair-avenue, for \$20 a foot to Mr. Doney, Toronto. Anniversary services will be held next Sunday at the Presbyterian Church. Rev. Dr. Briggs will preach in the morning, and the pastor, Rev. D. C. Thomas, in the evening. The following Tuesday evening an illustrated lecture on Scotland will be given by Rev. A. L. Geggie of Parkdale.

At the meeting of the Deer Park Public Library Board, ways and means were discussed to augment the number of books for the library. It was decided to hold an entertainment, and use the proceeds towards the purchase of new books. The board also considered that a light on St. Clair-avenue, leading to the library, would be of great benefit to the public, and a petition will be presented to the township council.

Wychwood.
Instead of each of the three churches holding Thanksgiving services, the congregations combined, and the services will be held at the Presbyterian Church. Rev. D. Dick of the Church of Christ will conduct the service, and Rev. Mr. Dinnick of Zion Methodist Church will preach.

North Toronto.
T. A. Gibson presided at the Young People's Society meeting of the Evangelical Presbyterian Church, at which papers on Africa were contributed by Messrs. Kyles, Urquhart and Miss Nisbet. A program of music was also rendered. John Subbarth complained several times to Chief Morris that his orchard is getting rifled, and the chief yesterday caught half a dozen boys in the trees. They will see Magistrate Ellis on Friday.

The second of the season's entertainments, in connection with the St. Clement's Literary and Musical Society, was held at 10 p. m. in the school room. The paper read by F. G. Bowers, M. A., dealt with the coming of the English to Britain. The musical program was an exceptionally well-selected one, and those who took part in it were the Misses Ivy Atkins, Boutbee, Grundy, Hill, Calhoun, Hyman and Heath, Mrs. Heath and M. A. N. Langstreet. Tax Collector Whaley reports that \$10,000 of this year's taxes have been paid in so far. Aleso Dolg offered \$50 for the timber
