New York, April 2.—The London correspondent of The Tribune says: "The financial year which ended yesterday closed better than was expected. Sir Michael Hicks-Beach, the Chancellor of the Exchequer, has again been lucky. The revenue receipts during the year have exceeded his budget estimate by nearly £1,250,000."

When Trouble Will Begin.

Sir Michael's difficulties will begin, however, when he comes to deal with the budget for the coming year, which will have to be produced soon after the House of Commons meets after the Easter holiday. Owing chiefly to the demands of the Admiralty for new ship building and the increase in the army-votes, the estimated expenditure for the coming year will be nearly £4,000,000 above that of the last twelve-month period.

The Old Expedient.

In view of the fact that Sir Michael Hicks-Beach will again fall back on the expedient of adding something to the income tax, the Cobdenites, who are making a great deal of noise about the proposed increase in the tax, are not to be taken too seriously. But there must be a limit to the portion of the tax which the English middle classes are made to defray so large a portion of the whole English local system has been long under considerable modification.

RELIGIOUS WAR SPREADING

Some Lively Scenes Took Place in Liverpool Protestant Churches on Palm Sunday.

THE ANTI-RITUALISTS ARRESTED

Roman Catholics Delighted at the Tendency of the English Church Towards Their Methods.

London, April 2.—The religious war, which goes on with undiminished vigor, has now spread to Liverpool, where lively scenes took place in a number of Protestant churches on Palm Sunday. There for the first time the services were preceded by processions with palms. When bodies of anti-ritualists rose up and protested in the churches, the ritualists were arrested and led off to jail, while others were proceeded against by summary process.

All last Sunday Liverpool was in a ferment, anti-ritualist leaders striving their utmost to stir up an agitation against what they called idolatry in the Church of England.

Leavenworthy, Roman Catholics are manifesting their delight because the Church of England is drawing closer to the Church of Rome in methods of worship. Religious intolerance is being carried so far that Catholic literature is being banished from certain suburban libraries in London.

ONE ON MANAGER TAIT

The Man Who Makes the Time Bills on the C. P. R. Gets It in the Neck.

Smith's Falls Record: Mr. Tait, manager of the C.P.R., visited Smith's Falls yesterday and while here had an illustration of the precise way orders are carried out by the local officials. He came up in his private car and, after arriving, told Mr. Spencer, the chief dispatcher, to have it turned around and hitched on to No. 4, the east-bound express. In the afternoon Mr. Spencer carried out the manager's orders and the manager's car rolled away at the rear of No. 4. About 20 minutes after the train had gone Mr. Tait walked into Mr. Spencer's office and asked how was No. 4? His appearance there when the chief dispatcher thought he was heading along the rails towards Montreal was something of a surprise to him, and as he had no ticket, he was told that the manager asked for him. When the manager asked for him she was then, "About Kemptonville by this time, I think," answered Mr. Spencer and then explanations followed. At first the manager showed a little plique at being left, but he is too fair a man to be unreasonable and he was able to enjoy a laugh about it before he got away. His orders had been obeyed to the letter, and if he wanted to make sure of getting his train the next time he comes he will see that it is done. Yesterday's incident, however, had a satisfactory termination. The private car was cut off at Kemptonville, much to the delight of the manager's secretary and steward, who were in it, and he and the manager returned to the train where they were going. It was brought back here by the first train coming this way and then sent on to Ottawa and this time the manager was in it.

Yesterday's incident, however, had a satisfactory termination. The private car was cut off at Kemptonville, much to the delight of the manager's secretary and steward, who were in it, and he and the manager returned to the train where they were going. It was brought back here by the first train coming this way and then sent on to Ottawa and this time the manager was in it.

We will soon be having nice weather. Here your clothing orders are carried out by the local officials. He came up in his private car and, after arriving, told Mr. Spencer, the chief dispatcher, to have it turned around and hitched on to No. 4, the east-bound express. In the afternoon Mr. Spencer carried out the manager's orders and the manager's car rolled away at the rear of No. 4. About 20 minutes after the train had gone Mr. Tait walked into Mr. Spencer's office and asked how was No. 4? His appearance there when the chief dispatcher thought he was heading along the rails towards Montreal was something of a surprise to him, and as he had no ticket, he was told that the manager asked for him. When the manager asked for him she was then, "About Kemptonville by this time, I think," answered Mr. Spencer and then explanations followed. At first the manager showed a little plique at being left, but he is too fair a man to be unreasonable and he was able to enjoy a laugh about it before he got away. His orders had been obeyed to the letter, and if he wanted to make sure of getting his train the next time he comes he will see that it is done. Yesterday's incident, however, had a satisfactory termination. The private car was cut off at Kemptonville, much to the delight of the manager's secretary and steward, who were in it, and he and the manager returned to the train where they were going. It was brought back here by the first train coming this way and then sent on to Ottawa and this time the manager was in it.

MEETING OF THE MOULDERS

The Offer of the Employers Was Discussed, But No Decisive Step Was Taken.

ACTION POSTPONED FOR A LITTLE

Officers of the International Union Expected to Be on Hand—General News of the City.

Hamilton, April 2.—(Special.)—The Hamilton moulders, to the number of 800, assembled in Sweeney's Hall this afternoon to consider what steps to take in regard to the employers' offer of 10 per cent, instead of 15 per cent, as asked by the men. The reports of the committees that waited on the bosses were received. It was reported that Kerr & Coombs, who own a day shop, had agreed to pay \$2.25 a day. The only firm who has not given an answer are the Garsbore-Thompson Company and the Sawyer-Massey Company. The reports were discussed at length, but as the struggle is not confined to Hamilton, the London and Stratford moulders, acting in accord with the men, it was decided to lay over any further consideration till next Wednesday night, when Mr. J. Keough, second vice-president, and organizer of the International Iron Moulders' Union, will be present and discuss the situation with the men. As Mr. Keough will meet the London and Stratford moulders to-morrow and Tuesday nights, it is expected that the decision arrived at next Wednesday night here will be final, and will dispose of the matter one way or the other in all three cities. It is said here, unofficially of course, that the Hamilton cover-makers are disposed to grant the additional 5 per cent. If the London and Stratford makers will give the 5 per cent, but they claim that without this can-

not compete with the makers of those cities.

Bright But Cold.

The sun shone brightly to-day, but the air was very chilly and most of the fair ones who had bought new hats or bonnets closed their dresses long, there at home for a more favorable opportunity of displaying their finery.

All the churches had the musical services and the congregations were large.

Work for the Commissioners.

The new Board of License Commissioners met yesterday. Dr. Griffith took his seat on the Board and Mr. John Proctor was re-elected chairman. The commissioners decided to make the following license transfers: St. Nicholas Hotel, from Nell McClelland to James E. Hertz; Hotel de la Reine, from J. E. Mathew to J. B. Mathew; Hotel de la Reine, from J. B. Mathew to J. B. Mathew.

Move his hotel from Macnab-street to Market-street.

All the present holders of licenses applied for renewals. There were no new applicants.

Police Points.

Last night Serge Castell and five policemen raided an alleged house of ill-repute at the corner of Jackson-street and Ferguson-avenue, kept by Carrie Austin. Three women and four men were found in the place. The women were arrested, their names being: Mrs. M. J. Wilson, Mrs. Lillian McFarland, inmates. The men were allowed to go.

George Ringland, who was arrested a week ago on suspicion of having stolen a number of chickens, is being held in the city jail on the charge of having stolen a pig.

Daniel Cronin, who has been using three wagons to haul coal without taking out licenses, was given a week to procure the licenses.

Minor Matters.

Mr. E. J. Muir, superintendent of the Canada Colored Cotton Company's mill here, has been transferred to St. Stephen, N.B., to take charge of the mill there.

William Blackbourn, who was the ill-fated Labrador, returned to the city yesterday. Mr. Blackbourn is a passenger on the ship.

There was more trouble at the Hebrew Synagogue, Bay Street, on Hunter-street, yesterday morning. One of the congregation was charged with assault.

Mrs. Rymal, King William-street, was arrested on the charge of having stolen a golden wedding celebration at Dundas on Friday evening. She was held on the charge.

Bandmaster Robinson is confined to his bed by a severe cold.

The annual Home of the Collegiate Institute of Toronto, which is being held at the Hotel de la Reine, will be held on April 14.

Mr. George Allan, who has resigned the post of chief clerk of the Ontario Street Railway Company and Thomas Mitchell, who has resigned his position as chief clerk of the Ontario Street Railway Company, are both expected to return to the city.

THROTTLING THE LEGISLATURE. The Hardy Government has developed an utter disregard for public opinion and public decency in the administration of the public business.

THE ECONOMY OF ABATTOIRS. The economy of killing cattle in properly equipped abattoirs is proved by the expert testimony of the stockyards of Chicago. To such an extent has the utilization of by-products been carried there, that now the only waste in a steer is the gastric juice, and what was formerly the waste is now worth more than the meat.

BOTH BOOTS FOR THE LEFT FOOT.

A Transaction in a Barroom That Led to the Arrest of Two Men Saturday.

It was a case of mistaken identity. Stewart of 250 East Front Street thought he struck on Saturday afternoon, when two men stepped up to him in a barroom and offered to sell a pair of tan boots for 50c.

Stewart examined one of the boots, and thinking it was something new, he paid over the money. The men did not wait to hand over the boots, but they left with the pair on the floor and left quickly.

When Stewart put the boots together he found they were both for the left foot. He didn't laugh.

Police Constable Beatty heard of the transaction and, on Saturday, he went to Stewart's home, got the boots and also a good description of the men who had made the sale.

The men were taken into custody. One of the boots is sewed and the other pegged. They are evidently the work of a football player. The police would like to get an answer for them.

WILL BE INVESTIGATED.

The Pattern Makers' Union held a large and enthusiastic meeting in the West End Y.M.C.A. on Saturday night.

Speeches were delivered by several of the members, in which they urged their fellow-members to continue the fight. It was decided to call all the union workers out this morning.

Many non-union pattern makers have also agreed to leave their work and join in the fight.

The matter is looked upon by the different firms as an unnecessary step, and all strive to make an amicable arrangement.

"HOPE SPRINGS ETERNAL."

Easter Sunday Fittingly Remembered in the City Churches by Songs and Sermons.

'T WAS MADE A HOLIDAY BY SOME

And Outlying Towns Were Visited by Sons and Daughters Living in Toronto.

The brightness of the weather did not compensate for the coolness of the air yesterday, and the spring-like geniality generally associated with Easter was absent. There was no deterrer from church attendance, though the freedsie was by many deemed preferable to down-town or country streets.

In the afternoon, there was less than the average patronage of Sunday cars, and the number of cyclists in evidence was by no means large.

Forbidding without, the churches were all warm and joyous. The Roman Catholic, Anglican, and some of the Methodist and Presbyterian churches had more or less ornate services.

At many of the churches the decorations were as chaste as extensive. The greenery, so pleasing to the eye, was relieved with choice flowers, white roses and lilies of the valley being the favorite.

At St. James' Cathedral and a number of other Anglican churches there were several choruses of early communion, and at all the exercises of the day special Easter offerings were made.

And Out of Town, Too. Easter was chosen by many persons to revisit their parents' homes. The country trains on Saturday were crowded by Torontonians, who in twos and threes left the city for their homes.

Easter to many homes was made a day of cheer for festive services had been sung away, or the daughter had been greatly missed. Mother would herself in preparing for the day's work.

The old village church was attended, and the young folks in city clothes and in the centre attraction for many admiring eyes, while the pretty gown of the bright-eyed girl who had just returned from the country, out of very envy.

But the holiday was not all of the kind that is usually associated with the festival. The fresh breeze and new aims for the future.

In St. Mary's Church. The singing in St. Mary's Church on Easter Sunday morning reached a climax when the choir sang the "Messe Solenne".

The precision and shading of the voices rendered the service a most average and showed able and intelligent direction.

The effective interpretation of the tender words of the Creed, the solemnity of the Sanctus, the sonorous ringing of the Hosanna in excelsis, and the final pathetic "Agnus Dei" were all of the highest quality.

Success With Carpets and Draperies.

We use both to talk of housefurnishings. A guarantee is security if the maker's responsible. We put our responsibility back of every article we sell. If it isn't right, you get your money back. That's the guarantee we give.

In carpets it has got abroad that our prices are low. This is not by accident. There are several reasons—more than you care to listen to. The fact remains, however—our prices are as little as honest work and honest materials and honest dye will permit.

In upholstery—adornment, use, beauty. Some new Irish Point Lace Curtains nudge us to write about them. They're worth it, but the writing up of one would seem like a reflection of the whole. At every point draperies take on equal worth, because each is the best dollar's worth to be had.

Dress Goods If you are the stylish and fashionable spring merchandise the prices quoted here will show you the most conclusive reasons why you should buy your goods at our store.

OTTAWA'S TRADE INCREASED. As Shown by the Customs Returns for the Month of March. Ottawa, April 2.—The customs duties collected at the port of Ottawa for the month of March amount to \$40,496.73. In view of the fact that six outposts have not yet handed in their returns, and that there was one holiday, Good Friday, in the month, this amount is considered large. It shows a decided increase over the returns for March last year, and the year before. The duty collected in March, 1898, was \$47,861.62, and in 1897, \$41,047.76. The duty collected for the quarter ending March, 1899, amounts to \$125,600.40; for the same period in 1898 was \$119,006.54.

THE HOUSE IS PROLOGUED.

Graphic Sketch of the Scene in the Legislative Assembly on Saturday Afternoon.

LIEUTENANT-GOVERNOR'S SPEECH.

Mr. Hardy Rushes a Railway Bill Through the House—Few Spectators at the Function.

The night hours had been bright, the moonlight was nothing incongruous in the lively strains of the High-landers' band, which headed the procession of thirty great-coated Kilties.

The Gallant Kilties. The moonlight was nothing incongruous in the lively strains of the High-landers' band, which headed the procession of thirty great-coated Kilties.

The Scene Changed. But now a stroke of 8 o'clock, a change came over the spirit of the scene; piercing cold wind blew and for a brief space the snow scurried past most unpleasantly.

In the Chamber. Here the scene was little more inspiring than the one on the opposite side of the House.

The Attorney-General wished an alteration in the resolution re Aids to Railways.

Mr. Hardy's speech was a long one, and he wished the grant made on the previous day to the Ontario and Rainy River Railway.

The State Entry. Then, all smiles, the loyal Mr. Hardy proceeded to the Chamber commenced.

Mr. Speaker's Speech. With graceful deference the Speaker addressed the House on the subject of the bill.

The Prologation Speech. His Excellency the Governor then, in a clear voice, read the following speech: Mr. Speaker and Gentlemen of the Legislative Assembly.

Aid to Railways. I assent with much pleasure to the act respecting aid to certain railways.
