## BRITISH SHIP TRUST THE BIGGEST OF ALL

Combination More Powerful Than  
Morgan's Believed to Be  
Forming.

### SIR ALFRED JONES TO BE ITS HEAD

Well-Defined Impression That the  
Cunard Will Be an Important  
Factor.

New York, June 6.—The Herald says: That Great Britain does not contemplate any surrender of her maritime pre-eminence to American shipping and that peace had not been bought by unnecessary concessions. Mr. Balfour said he believed the terms of peace possessed every element of certainty, permanence and stability, and that a new and happy era had dawned in South Africa.

Trist with 203 Vessels.

Including, then, the Cunard Line, the new ocean steamship trust will be able to show 203 vessels, with an aggregate tonnage of 1,014,400, as against the Morgan combination of 118 steamships with 881,362 tons.

From the best obtainable sources it is believed that the new trust will consist of the five lines listed in the American combination will form the nucleus of the projected British syndicate, which, persistent and now well-credited reports indicate, will be organized to maintain England's mercantile sea power and to oppose, as best it can, the disconcerting invasion of American energy, enterprise and capital.

With an aggregate tonnage of 495,000, the Elder- Dempster Company is said to have obtained as allies the Union Castle Line, with its fleet of 45 vessels; the Allan Line, with its 30 ships; and the Cymru, with its 10 vessels. This list including such pretentious steamships as the Lucania and the Campania.

It is to be seen, as is now alleged, that Sir Alfred L. Jones is to be selected as the head of the trust, and is reported to be an enterprising ally, and is now Company, a line of the great Elder- Dempster Company, between Liverpool and London, and the British West Indies; the Beaver Line, between Montreal and Liverpool; the Compagnie Belge Maritime du Congo, to the Congo Coast of Africa; the Ocean Transport Company, between Quebec and London; the African Steamship Company, between Liverpool and Madeira; Grand Canary and the west and southwest coasts of Africa; the British and African Steam Navigation Company, between Liverpool and African ports; and the Elder- Dempster Shipping Company, Limited.

The tonnage of the various lines is as follows:

American Combination.	Ships.	Tonnage.
Leyland	23	230,000
White Star	23	185,000
Am. and Red Star	28	185,000
Am. and London	8	75,000
Atlantic Transport	12	78,708
Totals	118	881,562

German Lines.

Ships.	Tonnage.	
Hamburg-Amer.	65	492,750
N. German-Lloyd	40	556,178
Totals	105	1,048,928

English Combination.

Ships.	Tonnage.	
Allan	30	140,701
Union Castle	45	232,250
Cunard	18	126,400
Elder-Dempster	110	495,000
Totals	203	1,014,400

It was pointed out here yesterday that while it is probable that the British government will be disposed to lend a strong hand to the new combination in the way of subsidies and concessions, it will still have a hard fight against its powerful American opponents. Mr. Morgan's control of railway lines being a factor that cannot fail to work as disadvantageously to the one as it will work advantageously to the other.

## BALFOUR

Contention That Settlement Might  
Have Been Arrived at a Year  
Ago Untenable.

### BOTHA DEMANDED INDEPENDENCE

To Have Dealt With Kruger Would  
Have Been a Fatal  
Mistake.

London, June 6.—A. J. Balfour, the government leader in the House of Commons, in a speech at a Conservative banquet in London to-night, referred to the South African war. He said the lead was only thereby realized now that it had been removed, and that peace had not been bought by unnecessary concessions. Mr. Balfour said he believed the terms of peace possessed every element of certainty, permanence and stability, and that a new and happy era had dawned in South Africa.

"To have acted on the advice of Lord Rosebery and Sir Henry Campbell-Bannerman," (the Liberal leader in the House), said the speaker, "and bought peace at the price of complete amnesty would have been to put a premium on rebellion, while to have negotiated with Mr. Kruger and his advisers would have been a fatal mistake."

Mr. Balfour said he could respect the fighting burghers, but not those who had deserted the Republic in South Africa. The contention of the Liberals, he continued, that peace might have been secured a year ago, was untenable because Gen. Botha then demanded independence.

"It would have been absolute lunacy," added Mr. Balfour, "to have granted a representative government at once, and had we been able to secure peace on those terms there would have been no security for an enduring peace."

Mr. Balfour devoted the latter part of his speech to ridiculing the divided counsels of the Liberal party.

### CHEERS FOR KING EDWARD.

1154 Boers Lay Down Their Arms—  
No Hitch Anywhere.

London, June 6.—Lord Kitchener, in a despatch from Pretoria, dated to-day, announced that the British Commissioners in the various districts report that 1154 Boers laid down their arms yesterday. Afterwards the Commissioners addressed the Boers, who gave three hearty cheers for King Edward. The best possible reasons exist between the Boers and the British, and there has been no hitch in the proceedings anywhere.

### BROTHER DEWEET'S SPEECH.

Vrededorp Road, Orange River Colony, June 6.—General Christian Dewet, addressing the inmates of the concentration camp here, explained the circumstances leading to the termination of hostilities, and urged the burghers to do their utmost to show Great Britain what good colonists the Boers can make. The speech made a favorable impression. Gen. Dewet's wife will rejoin the General here to-day.

### KING'S FOURTH COURT.

Rain and a Cold Wind Again  
Marred the Spectacle.

London, June 6.—King Edward and Queen Alexandra held the fourth court of the season at Buckingham Palace to-night. Unfortunately, as upon the three previous occasions when court was held, rain and a cold wind again marred the spectacle for the crowd which had assembled outside the palace gates. The scene within, however, was unusually brilliant.

### IN HIS MEMORY.

Sir John A. Macdonald's monument will be decorated to-day, and the thousands who hold the memory of the Grand Old Man dear will be in Atlantic Park at 3 o'clock this afternoon.

### TO SIR JOHN'S MEMORY.

Kingston, June 6.—Sir John A. Macdonald's monument was decorated to-day by local Conservatives.

### LOST A LEG.

Rat Portage, June 6.—Joe Gorman, originally from St. Harding, Ont., lost his leg today while handling a tow line. He will recover.

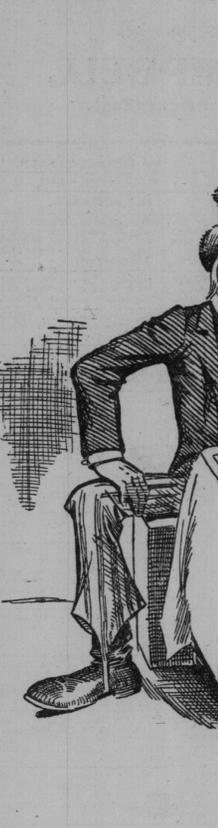

### WILKINSON'S PENALTY.

Quebec, June 6.—Sergt. Wilkinson, who was shot at Hart's River, will get a pension of \$125 a day.

### AMERICANS AGAINST IT.

London, June 6.—The statements which have recently appeared in the English press, and which forecasted the formation of an all-British shipping

## GOOD ADVICE.

JACK CANUCK (to Mr. Bull): Now, you know, Da, you're being most unmercifully skinned by a tariff sharp, and your Free Trade cards don't count against his stacked Protection ones. Come and have a Preferential Trade game with your own boys at home.

## MARCONI GRAMS ON THE LAKE

Niagara Navigation Company Will  
Install Wireless Stations at  
Lewiston and Toronto.

### WITH TRANSMITTERS ON THE BOATS

Agreement About Concluded With  
Marconi Co.—Boon to the Traveling Public.

The Marconi Wireless Telegraph Company are arranging to introduce their system on the Great Lakes. John Foy, manager of the Niagara River Line has about concluded an agreement with the Marconi Company, by which stations will be erected at Lewiston and Toronto, with efficient instruments and operators on board the big steamers, Chippewa and Corona. Besides the advantages in being constantly in communication with land, Mr. Foy believes that it will prove a boon to many passengers, who would desire to send telegrams, business or otherwise, en route.

### IRREGULARITIES IN WENTWORTH

The official count of the returning officer in North Wentworth gives Thompson a majority of 31. There will be a recount. There are many irregularities on the part of the deputy returning officers. The ballot box at Orkney was not returned, but the ballots were sealed up and returned. At Aldershot no statement of the poll was filed. The standing of the poll was secured from scrutineers. In a number of divisions forms 11 and 12 were not signed by candidates or agents. The poll book at No. 1, Waterdown, was not sealed, and for No. 2 the deputy returning officer does not know how many tendered ballots he received or were used, so he sealed them all up together. At Lynden a package of 25 ballots, marked "G" was returned. This mark would mean ballots marked for identification, but must be intended for tendered ballots. The work of the deputies seems to have been very carelessly performed. There are good reasons why the Conservatives should have a recount, and also the work of the deputies investigated.

### HEAD OF QUEBEC BAR.

Montreal, June 6.—Simon Beaudin, K. C., has been named attorney-general of the bar of Quebec.

### E. J. Johnson Dead.

The death occurred suddenly last evening at 11 Isabella-street, Toronto, of E. J. Johnson, a well-known and successful business man and undertaker in Whitby, Ont., for a number of years. About a year ago he retired from business and moved to this city. He leaves a widow, one daughter and two sons.

## THIEVES AT NIAGARA FALLS

Two Hardware Stores and Several  
Residences Entered on Thursday Night.

### THREE MEN TAKEN AT OLD NIAGARA

One Got Aboard the Corona and  
Was Arrested on Arrival in  
Toronto.

Four burglars operated in Niagara Falls, Ont., on Thursday night, entering two hardware stores and several residences, including the home of the Town Treasurer. A good description was obtained of the thieves, who reached Queenston yesterday morning, and crossed over to Lewiston, intending to take the Corona to this city. Chief Reid and Provincial Constable Bayne met the boat at Niagara-on-the-Lake and arrested Paul Lange and Frank Schmidt. Leo Mitchell, a third, made a break for liberty, but was recaptured. James Scott, the fourth man got away on the boat, and was gathered in by Detectives Black and Forest, who met the steamer at the Young-street Dock. Scott was taken back for trial on the afternoon boat. In the possession of the three men arrested at Niagara, was found a quantity of spectacles, knives and watches believed to be stolen property. On the way to the Falls, the prisoners threw away \$30 in money, made up of a \$20 bill and two \$5 notes. Ten dollars more was found on Scott. The cash was stolen from the home of the Town Treasurer. The prisoners came up before Magistrate Logan to-day.

### NEWS OF THE CITY.

At Grace Church, Elm-street, thanksgiving will be held to-morrow for the return of peace, at 11 a.m. and 7 p.m.

The 12th convention of the Canadian Y.M.C.A. will be held to-morrow in Quebec on the 11th, 12th and 13th inst.

The opening of St. Luke's new school house, announced to take place to-morrow, has been postponed, owing to the inability of the workmen to complete part of the work.

W. W. Schuch, the singing master, will give a recital of his pupils on Thursday evening next in the public hall of the Normal School. An attractive program has been prepared and a collection will be taken up in aid of Queen's Hospital.

Thanksgiving services for peace are to be held through Great Britain as well as in many parts of Canada, on Sunday, and special thanksgiving services on Sunday morning. Rev. Prof. Hunter will be the preacher on the occasion.

The pulp of Elm-street Methodist Church will be occupied to-morrow at 11 a.m. by Rev. S. H. Edwards and at 7 p.m. by Rev. S. H. Johnson. Selections will be rendered at each service by the choir and quartet, under the direction of Mrs. E. E. Egan.

Church of England services for sailors and dockmen will be held on Yonge-street wharf every Sunday afternoon during the summer at 2.30 o'clock. The opening service to-morrow will be held at the wharf at 2.30 o'clock. The choir will be Captain Wilkison's Men, who is visiting in the city en route to England.

**Labor Notes.**  
The plumbers, steam and gas fitters in the city will be on strike to-morrow from 7.15 to 8.15 an hour. Some of their employers have been paying a higher rate, and the men are agitating for a share of it.

The C.P.R. Board of Arbitration will meet here next week. The committee of Sheet Metal Workers will meet employers on Monday to discuss wage matters.

### LE MISTRAL WON AT PARIS.

Paris, June 6.—William K. Vanderbilt's Le Mistral won the Prix Bezaux at the Mousons La Flite races to-day. Mr. Vanderbilt's ship was placed first in the race for the Prix Long Jumeau, and his Nertie was unplaced in the contest for the Prix Trestreux.

## LENNOX GOES LIBERAL

BY R.O.'S CASTING VOTE  
Because at the Close of the Recount  
at Napanee the Score Was  
a Tie.

### SUSPICION OF BALLOT-SWITCHING

Ballot Marked With O Allowed Made—  
One With Scraggly Cross  
Not Allowed Carcalleen.

Napanee, June 6.—The returning officer cast his vote to-day and elected Madole (Liberal) for Lennox. The recount was resumed this morning and the rejected and spoiled ballots to the number of 34 engaged the attention of the court. An appeal will be taken of the result of the recount, and will be heard some day next week.

The counsel for the Conservative candidate feel confident that an appeal will be favorable to Mr. Carcalleen. Some of the ballots allowed the Liberal by the judge should, in the opinion of counsel, have been disallowed, and some not allowed the Conservative should have been allowed.

**Suspicious Anyway.**  
Many circumstances of the recount point to a strong suspicion of machine tactics.

In one polling sub-division the deputy returning officer and the poll clerk made up the list of ballots as follows: For Carcalleen, 60, and for Madole, 51. When the ballots came before the judge he made the count 59 for Carcalleen, and 42 for Madole. Counsel for the Conservative declare that there is ample evidence here that one ballot was switched.

Another ballot properly marked for Carcalleen had a slight scraggy opposite Madole's name and was not allowed for Carcalleen.

Another ballot properly marked for Carcalleen had another mark opposite Madole's name.

**All at One Place.**  
The irregularities all occurred in one polling sub-division where the deputy returning officer failed to hand his ballot-box to the returning officer till 6 p.m. the day following the election, he came to Napanee at 6 p.m. on the day of the election. He stayed at R. L. Clark 2, Hotel, where the Liberal organizer also stayed. This deputy returning officer, it is said, was a new one, the old one being retired four days before the election.

Another ballot that caused much argument was marked for Carcalleen, but the major part of the cross was below the line separating the two names. This was allowed. Counsel believe this will be allowed Carcalleen on appeal.

Another ballot was properly marked for Carcalleen, but a scroll was made by a different colored pencil under Madole's name. The judge did not allow this ballot.

"Yes, I have heard the result of the recount," said Mr. Whitney to the World yesterday, "and all I have to say at the present juncture is that the decision of the county judge will be appealed against."

Mr. Whitney also added that the Conservatives had confidence of being successful in this appeal.

A telegram was received in the city last night from E. Gus Porter, who was associated with W. D. McPherson in the case that the Conservatives would win in the appeal by a majority of 8. As a sample of the ballots marked, he declared that one ballot marked with round "O" for Madole was allowed by the judge, while a ballot marked with a scraggy cross for Carcalleen was not allowed.

### CAPT. ROBSON MAY WIN.

London, June 6.—The recount of ballots in East Middlesex leaves the issue yet in doubt. Dr. Rossidge's majority was reduced from 34 to 21, while the ballots of two sub-divisions in Westminster Township were objected to on the ground that the deputy returning officers had numbered each ballot on the back. Arrangements will be heard to-morrow on their admission. Should they be thrown out, Capt. Robson will be elected, and Westminster, Dr. Rossidge's township, gave him a large majority in each sub-division.

### RECOUNT IN NORTH GREY.

Owen Sound, June 6.—The official count for North Grey resulted to-day in a majority for A. G. MacKay, Liberal. The vote polled was: MacKay, 292; Boyd, 203. A. G. MacKay has asked for a recount, nominating Judge Morrison as trial judge. The recount takes place next Tuesday morning.

### What a Panama Is.

It's nearly two hundred years since the first Panamas were worn by Europeans and Americans. Up to three years ago, only old men essayed these hats, because of their style. A progressive native of Peru imported some English Alpine and felt hats, and now all Panamas hats, though made in the hot of all hats, and though sold at high figures, it carries its price in wear. Five years is a short life for one. Dineen Company have on sale to-day a complete new assortment of real Panamas, starting at \$5 and going gradually up to \$30. Other Straw Alpines at \$2, \$2.50 and \$3. Don't buy without looking at Dineen's stock. Store open until 10 o'clock to-night.

### PARTLY FAIR AND WARMER.

Meteorological Office, Toronto, June 6.—(8 p.m.)—Showers have occurred today in New Ontario and in portions of the Northwest Territories, while elsewhere in the Dominion the weather has been fair, with a general tendency to higher temperature, except near the coast, in the Maritime Provinces.

Minimum and maximum temperatures: Victoria, 42-60; Kamloops, 48-63; Calgary, 34-54; Prince Albert, 30-52; Qu'Appelle, 28-53; Winnipeg, 46-64; Fort Arthur, 36-52; Pelly, 30-47; Toronto, 38-70; Ottawa, 48-70; Montreal, 46-70; Quebec, 38-72; Halifax, 49-72.

### Probabilities.

Lower Lakes and Georgian Bay—southerly and southwesterly winds; thunderstorms in most places, but partly fair and warmer.

Upper St. Lawrence and Ottawa Valley—southerly and southwesterly winds; partly fair and warmer; thunderstorms in some localities especially towards night.

Lower St. Lawrence—easterly and southerly winds; fair and warmer to-day, followed by showers and thunderstorms to night and on Sunday.

Cole Knocked Out Bennett. Philadelphia, June 6.—George Cole of Trenton knocked Jack Bennett out of the first round last night at the Broadway Athletic Club. The knockout was as sudden as the defeated fighter as to the spectators, and not until Bennett lay on the floor did the crowd know that Cole had secured a punch hard enough to produce a knockout. From the sound of the bell Bennett was the aggressor, and he rushed his back opponent repeatedly to the ropes. Cole appeared to be waiting his chance. Just before the time for the first round was up Jack Bennett came out to fight, but the referee came back with a light to the face, following with a harder punch to the body with his right hand. Cole then stepped back and before he or the spectators had time to react, Bennett shot out on the right with terrific force, catching Bennett on the point of the jaw. He went down with a crash. His seconds could not bring him to his senses before the second round came on.

A Boy Named Henry Ellis Charged With Setting Fire to a Junction Building.

NO FEES IN THE KINDERGARTEN Children Under Six Not Allowed to Attend the Regular School Classes.

Toronto Junction, June 6.—At the Police Court this morning, before Magistrate Ellis, a boy named Henry Ellis was charged with setting fire to a building at No. 81 Davenport-road. The fire was discovered and put out by Constable Harper before serious damage was done. The case was adjourned for a week. The case brought by Grant against Houton was allowed to drop. Houton took a revolver to court and when the two met, they had a wordy dispute. The judge said to have pointed the revolver. Both parties agreed to a settlement.

The local police are rounding up valet dogs. They have taken the names of a number of owners who have not taken out tags, and in a few days several summonses will be issued.

CANADA AND HER COPYRIGHT

Government Urged to Seek Power to Legislate for Herself on the Subject.

AN INSOLVENCY LAW WANTED

Conference of Business Men Suggested in Matter—Stand Taken on Defence Question.

The conference of the boards of trade of the Dominion was brought to a close about 6:30 o'clock last evening, the last record of the proceedings being an expression of thankfulness on the part of the delegates for the hospitality shown them by the Toronto Board, and of satisfaction at the conclusions arrived at upon the various subjects dealt with.

More Independence.

F. X. Perrault, Gaspé, spoke for more independence for Canada. The question, in his mind, was how to establish the permanence of the empire, and, at the same time, do justice to the colony.

President Ames requested Dr. Masson to take the chair, while he said a few words in support of the Montreal Board's resolution, the adoption of which was moved at Thursday afternoon's session.

Mr. Ames said that the time had come when Canada should take a self-reliant and dignified position. The resolution called for no support of aggressiveness on the part of the empire; it referred simply to defence.

Englishmen would agree that Canada had done well in South Africa, but, if Englishmen were a little cynical about Canada's full manhood, they could, perhaps, be pardoned. They looked on Canada as a favored child, a boyish nation, but not as a full participant in the affairs of the empire.

Mr. Heaton, Goderich, believed in Canadians paying their own way and insisting on being men.

W. F. Hattey, St. John, N. B., thought that militarism was too paramount in Canada. He doubted the propriety of discussing the matter of defence, remarking that it was significant that both Mr. Tarte and Mr. G. W. Ross made no allusion to the question in their splendid speeches at the banquet the evening previous.

One of the delegates undertook to read an extract from The Toronto World, quoting an American paper on the hostile feeling in the United States against Canada, but the chairman called him to order, ruling that his remarks were irrelevant, supported the Peterboro Board's resolution, which had been offered as an amendment.

The question of the right to introduce further amendments then came to be discussed, and, in this connection, President Ames allowed a generous latitude.

A vote upon the question was reached shortly after 1 o'clock. Mr. Evans' amendment to the amendment, stipulating, simply, that Canada should provide for the defence of its own interests, was lost, on a standing vote.

Then the Peterboro amendment was put, and it met the same fate. An amendment by A. E. Kemp and

Hugh Blain was afterwards made, and, on division, was also lost.

Mr. Patullo tried his hand with an amendment, which, when stripped of a lengthy preamble, set forth "that this conference suggest that the government of Canada keep itself in communication on the subject of defence, by correspondence and conference, with the governments of other British colonies and with the Imperial authorities in order that the development of our policy of defence may more adequately provide for the protection and promotion of colonial interests and contribute in times of common danger to the strength and integrity of the whole British Empire."

This was lost by a vote of 36 to 34, and the main motion was afterwards adopted by 40 yeas and 32 nays, the announcement being received with hearty applause.

The resolution adopted is: "That, in the opinion of this conference, it is the duty of this Dominion, as an important division of the empire, to participate in the cost of the defence of said empire, and, in preference, that an annual appropriation should be provided in the Dominion budget for this purpose, to be applied to the Dominion government may direct."

During the session, Mayor Howland presided as the chairman, and was given a warm reception. His Worship acknowledged the ovation with a few appropriate remarks in English and French. Hon. Mr. Masson, who was in the chair at the time, reported logically and in his native tongue, and the incident seemed to tickle the ears of the members in attendance.

The afternoon session was opened by the reading of a letter from R. L. Borden, leader of the opposition in the House of Commons, in which he expressed his regret at being unable to attend the banquet tendered by the Toronto board, the conference, stating that, in his opinion, nothing could contribute more to disarm prejudice, disperse the suspicions and enable conclusions to be reached on issues of interest to the country as a whole.

Copyright questions. The question of Canadian copyright was then taken up. In lieu of a lengthy resolution upon this subject from the Toronto Board of Trade, Mr. Thomson submitted the following: "That this conference, respectfully, but strongly, urges the Premier of the Dominion and his colleagues to take up with the law officers of the Crown in England the right of Canada to make its own laws in the subject of copyright, without which its rights as a self-governing colony are incomplete, and the splendid paper by Sir John Thompson upon that subject, just before his death. After reading that no one could doubt that Canadians had the right to legislate for themselves on this matter of copyright. There was no other logical stand but that we should be allowed to manage our own internal affairs."

J. D. Allan seconded the motion. He said that to refuse Canadians the right to legislate in copyright was to introduce a colonial system of a very offensive form. The present conditions in regard to copyright were intolerable, and he urged the Premier to take prompt action in regard to this matter.

Mr. Thomson denied that the government had the right, stating that for years past leading statesmen had been seeking it.

After some further discussion the motion was carried with an almost unanimous vote.

Trade Relations. C. H. Catello, La Chambre de Commerce, Montreal, next spoke on the question of trade relations between the colonies. He submitted a resolution through his chamber, hoping that the Imperial government would favor any preferential treaty made by the colonies between themselves.

Owing to the existence of a doubt that we already had the right, Mr. Catello withdrew the motion.

Burk, Port Arthur, Sault Ste Marie; D. F. McKay, Sault Ste Marie; D. F. McKay, Sault Ste Marie, next spoke, and Mr. Dyke, Port William, next did, and the importance of development of our mineral districts, after which

Flannels

I have used PEARLINE a number of years, and like it very much for all kinds of flannel garments. They are soft and nice after washing. Mrs. Rev. C. T.

One of the Millions.

A resolution was unanimously carried that the conference would submit that the usual government subsidies, both from the Dominion and respective provinces, should be granted to approved mineral colonization railways.

Railway Commission. Hugh Blain then moved the adoption of the resolution of the Toronto board on the subject of a railway commission, as follows: "That the conference desires to place itself on record as holding the opinion that a properly constituted commission should be created, with power necessary to deal with any questions affecting the relations of all common carriers to the people."

In support of the motion, Mr. Blain remarked that either the railway companies were unreasonable in their treatment of the public or else the public were unreasonable in their demands on the companies. He was inclined to think that both conditions existed, and there was ample justification under the circumstances for the establishment of an independent tribunal that would adjust any differences arising and assure a better feeling between the companies and the public. As to government ownership of railways he believed it was a question that would be received with a great deal of public and hearty approval by the conference were it to come before them.

Mr. Elliott, Galt, seconded the motion, and it was carried without discussion.

Extension of Wires. Resolutions from five boards of trade upon the question of postal and telegraph communication were then passed without discussion. They all advocated extension of our postal and telegraph communication, as a means for the promotion of trade through the empire.

Deepen the Canals. On motion of Capt. Donnelly, Kingston, the conference placed itself on record as follows: "That, in the interests of the whole Dominion, and to lessen the cost of transportation between the Great Lakes and the seaboard, the canals between Montreal and Lakes Erie, and the channel between Montreal and the seaboard, should be deepened, and to good work without delay, and would also give our cordial support to government assistance to the shipbuilding industries of this country, believing that such help is much needed, and would be of benefit to the country at large."

On the question of Insolvency Law, the resolution of the Goderich Board was adopted, urging upon the Dominion parliament to enact an insolvency law at the earliest possible date. A clause was added, recommending that the Dominion government assemble at some place, say Ottawa, one or more representatives of the different provinces, to assist in drafting such an act as to provide for the proper management of estates by creditors, with as small legal expense as possible.

Mr. Dyke, Port William, submitted a motion, recommending to the government the importance of additional railway facilities in the country, deeper waterways, longer navigation, extended harbor facilities and increased shipping tonnage. The motion carried.

Metric System Favored. A resolution, favoring the immediate establishment of the metric system of weights and measures, carried unanimously.

mously. Mr. Perrault, Gaspé, wanted a clause, urging upon England to adopt the decimal system of money, but the other delegates thought it would be useless.

A discussion ensued upon the question of marine insurance, introduced by Mr. Dobson, North Sydney, with a view of securing lower rates, which resulted in the passing of a motion to the effect that the question of discriminating rates of insurance in Canadian ports, be brought to the attention of the ministers at the coming conference.

It was also resolved, on motion of Mr. Robertson, St. John, N. B., seconded by Mr. Jarvis, that in view of the vast importance of the above objects to the whole Dominion, the members of this conference would earnestly recommend the Federal government to grant all necessary assistance towards the building up, on improved equipment of Canadian national ports.

A few of the other resolutions, the purport of which was more or less embodied in ones adopted, were withdrawn for want of time.

Mr. Russell, Manitoba, seconded by Mr. Jarvis, St. John, moved a hearty vote of thanks to the Board of Trade for their kindness to the delegates. The motion was carried by a standing vote, and the delegates with cheers for Mr. Ames, Mr. Allan and Secretary Jarvis.

Prayers were replied in neat terms, stating that the co-operation of the different boards in the Dominion was a sign of the times. The success of the venture was due to that co-operation.

On adjourning, the delegates joined in the singing of the National Anthem.

Funeral of the Late John Ryan. Many citizens were present at the funeral of the late John Ryan, Esq., a merchant, which took place at St. Michael's Cemetery yesterday morning. At a family residence, 1407 West King street, a private service was held, after which the funeral cortege proceeded to the church. There mass was celebrated over the remains. The pall bearers were: Hector Charlesworth, Ernest J. Lawlor, Wood's Fred Woods, William McCormack, cousin, Amos J. McCormack, brother-in-law, and Edward McCormack, brother-in-law.

Decorations To-Day. The committee from the Toronto Liberal-Conservative Club having in charge the decoration of Sir John Macdonald's monument have completed all arrangements. The ceremony will take place at 3 p. m. to-day, and the speakers will be Hon. J. J. Foy, M.L.A., and Dr. Eastie Nesbitt, M.L.A. The public are invited to attend the celebration. The decoration of the monument is in charge of Miller & Son of Brockville, and in addition to the flowers, in addition to roses will be distributed to every lady and gentleman present.

In every town and village may be had the "Mica Axle Grease" that makes your horses glad.

DR. BARRICK WRITES. Editor World: In your issue of to-day, in a report of the meeting of the Ontario Medical Association, the following appears: "Dr. Knoppes of New York, one of the most eminent authorities on the subject of tuberculosis, who gave an address, spoke in the strongest possible terms against the resolution adopted by the Congress of Tuberculosis in New York, and proposed by Dr. E. J. Barrick, Toronto, that tuberculosis was an acute infectious disease. Dr. Knoppes said that nothing could do more harm to the movement for the prevention of the disease than the teaching of any such erroneous doctrine. He said that he was suffering from 'phthisis' and the publication of any such statement would do nothing but harm. Dr. Knoppes said that phthisis was spread by the sputum, and it was not an acute infectious disease."

I cannot believe that Dr. Knoppes was correctly reported, because, if so, it would be the greatest humiliation to science to find so eminent an exponent coming to conclusions and calling for action without examining more closely into the facts upon which his conclusions are based.

That it is the duty of every government, municipality and individual citizen to adopt organized methods for lessening the spread of a disease, which is causing, directly or indirectly, probably one-fifth of the total deaths in almost every country in the world.

This resolution was discussed at length, and supported by every speaker, and unanimously endorsed by the congress. E. J. Barrick.

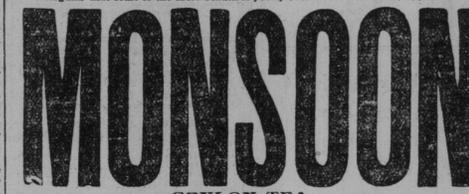

Changes in E.C.C. Staff. At Upper Canada College yesterday Dr. Parkin announced that there would be important changes in the staff next term, as follows: Mr. E. B. Johnston, Mr. A. W. Playfair, Mr. W. L. Grant and Mr. G. Matthews were leaving at the end of the term. Dr. Parkin spoke warmly of the work done for the college by these gentlemen in the few years. He remarked that the college prospects were better now than at any time of its existence, and also he might be given credit for some of the men who had supported him so faithfully.

**IMPERIAL PREFERENCE**

The retention by Sir Michael Hicks Beach of the grain tax arrangement, the Imperial budget schemes will be welcomed by all advocates of an Imperial differential tariff. The maintenance of the impost, despite the conclusion of peace, may possibly be due to the fact that Britain has to meet vast expenditures in South Africa; but it will be heretofore in other quarters as clear proof that Mr. Chamberlain's hand was to be seen in the suggestion of the tax in the first place, and that the real object of the measure was the placing of Motherland in a position to give the colonies a trade preference if they asked for it.

In any event, the existence of the impost enables Great Britain's delegates to approach the pending Colonial Conference with a strong trump card for Imperial unity in their possession.

As a result of the Boards of Trade Conference, just concluded in this city, Postmaster-General Mulock will go to the London conference thoroughly impressed with the fact that the whole Dominion tariff preference, towards an Imperial tariff preference, from Australia, New Zealand and Cape Colony will go to London with somewhat similar inclinations.

**PINK-PONGING.**

Whether the street railway conductors who have been arrested are guilty is not for us to say; they must go before the court for trial. But their case is a warning to all who are tempted either to their own accord or by others to go into any kind of wrong-doing. Apparently the conductors either went into a conspiracy to defraud the company or they were tempted into wrongdoing by the man who manufactured and sold to them the "diggers" and who probably shared in the spoils. Apparently also they thought there was no danger of discovery. How they were discovered will probably never be really told. Enough will be disclosed, however, to show that it is possible, but the full part the Pinkertons played in it will be known only to a very few. What really happened, we imagine, was this: that the officials of the company suspected wrongdoing, that they brought in the Pinkertons, that the Pinkertons got on a clue and put one or more of their men as conductors, that these detective-conductors went in and out among the men, frequented the hotel which was the resort of the men arrested, were in and about with them all the time, or, as the slang expression is, were "next" to them, and that the men who are now charged with wrongdoing knew nothing about their friends. And the crime is happening every day to numbers of young men. If for no other reason, it is foolish to do wrong for this reason, that if anyone is associated with a party in wrongdoing, or is a party to it himself, in nine cases out of ten it happens that there is somebody in the know of the whole transaction who will either give it away or is expressly put there to expose the wrongdoing when the proper time comes. The unfortunate conductors who are now in jail, when they begin to turn over their recent acquaintances and their associates in the wrongdoing, if there was any wrongdoing, may be able to find out who were the Pinkertons men that got "next" to them, and who either drank heavily with them or were ready to stand for higher pay. It is best to be honest and to keep out of bad company, and especially not to make a confidant of every chap who comes along and who wants to be "in" with you.

Apparently the conductors thought they were playing a game of pink-

**Canada Should Aid in Defense**

Canadians everywhere will be pleased that the Dominion Boards of Trade Conference, after a full and careful consideration of the question, has decided in favor of Canada, as an important division of the empire, to participate in the cost of the defence of the empire, and, therefore, that an annual appropriation should be provided in the Dominion budget for this purpose.

The recommendation of the conference is that the said annual appropriation should be expended as the government at Ottawa may see fit, and it is probable, if the suggestion is carried out, that the money thus voted will be spent in establishing land and sea forces here at home.

The best way of helping the empire is no doubt to prepare to take care of ourselves. By being ready for all emergencies at home Canada will be in a position to ally itself to the aid of the empire elsewhere as occasion demands it and the government of the day orders.

It is about time that Canada put off her swaddling clothes. She has now arrived at the stage when she should take the sting out of the word "colonial," as someone has said, by holding her own in doing her part. Let Canadians henceforth be men, and pay their own way. Thus they will fitly aid in upholding the honor and integrity of Canada and the empire.

**ONTARIO IN CLOVER.**

Anyone who is riding to and from the city these days in a railway train or who happens to be speeding along in a suburban trolley or taking a walk or drive thru the country, as he looks over the fields, is struck by one of the remarkable clover crops that is now under way in the Province of Ontario, and especially in the midland counties surrounding the County of York. Unless the observer is posted he is apt to wonder what this thickest crop is, dark green in color, very prolific and luxuriant in its growth and which has a look beyond the usual look of the fields at the time of the year. If he knows anything of farming of course he recognizes that the field is a clover field, and from observation he will soon arrive at the conclusion that this is an abnormal year, that the crop promises to be one ahead of any other year of record. Just why there should be this remarkable clover crop this year few can tell, but the fact is that the prospects now are that those who are fortunate enough to have a clover field will reap a handsome return later on.

There are more than thirty varieties of clover now grown in the Province of Ontario, the two principal ones being the ordinary red clover, known to seedsmen and dealers as Lucerne, and the other Alsike, and of each of these there are several varieties. The blossom of the Lucerne is much the larger and is dark red, while the blossom of the Alsike is more pinkish in color and smaller. The Alsike is grown here mainly for its seed, and finds a ready market in the clover crop. The red clover is grown mainly for fodder. Another difference between the two is that Alsike is not nearly so bulky in its growth and is much more easily handled.

The way that the farmers hereabout grow clover is substantially this: When they find that they have a field which has become dirty, or when they think that clover can be raised to advantage, they summer fallow, manure well and in the following spring they sow barley and clover seed at one and the same time. After the barley is harvested in the summer the clover, which has been lying very close to the ground, begins to come forward among the stubble, when it may be used for pasture or otherwise as the season and prospects of the crop happen to be. Then comes the winter, when one of the risks that clover runs is that it may be winter-killed. If it escapes the frost, and a suitable spring comes in the following year, the clover begins to assert itself and to advance with that thick-set appearance that clover can be raised to advantage of the fields in Ontario, and which happens to be a delight to every farmer who has a field of it this year. With this fine crop of clover he can do several things. He can have it cut now and use it for green fodder, and loads of it can now be seen on the way to the city, where it is ready sale to carters, milkmen, drovers, teamsters and others. At the end of June or early in July he can cut it for curing purposes for consumption by his own cattle or for sale in the market. With the red variety he can even make an early harvest of it in June, and if the season thereafter proves favorable and is sufficiently damp, he will get a second crop, not as heavy as the first, but generally good for seed. The farmers hereabout, in the County of York, say that their country is especially adapted to clover. If any of our readers wish to see a magnificent clover field at the very height of its verdure and luxuriance they ought to take a nine-mile trip up the Metropolitan Railway to-day to the farm of Mr. Samuel Francis, a mile this side of Thornhill, on the east side of the street

**HEAD-ACHE**

Is only one form of the suffering resulting from a diseased condition of the sensitive womanly organism. The only way to cure the headache is to cure the diseases which cause it.

The use of Dr. Pierce's Favorite Prescription has been the means of curing thousands of women of headache, backache, female weakness and other forms of disease peculiar to women. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures bearing-down pains.

"I think if it were not for your 'Favorite Prescription' I would have been in my grave," writes Mrs. Edwin J. Gardner of East Weymouth, Mass., Box 12. "I had pain all over me, and a weakness feeling if I could not do my house work. I had to sit down so sick I did not care to live and prayed many times that God would take me. One day I thought I would write to Dr. Pierce. In a few days I received an answer. I decided to try his medicine, and today I am a well woman. I have no headache, no pain at all. I used always to have headaches and to-day I feel every two weeks, and I would be very weak afterward. I was in pain all over. My feet would crawl under me when I would try to go across the room, and I could not walk any distance without being in pain. I took three bottles of 'Favorite Prescription' and three vials of 'Golden Medical Discovery,' and was completely cured. Dr. Pierce's Pellets stimulate the liver.

**I Coughed**

It's the experience of every one. Sooner or later we all take cold. Colds naturally tend downward, that's the trouble. Ayer's Cherry Pectoral stops this downward tendency and quickly cures these early colds. Ask your doctor. If he says this isn't so, don't believe us.

**AN OLD LINE COMPANY.**

The Mutual Reserve Life Insurance Company—Most Grati-  
fying Report.

The Mutual Reserve Fund Life Association will from this time forth be known under its new title, The Mutual Reserve Life Insurance Company. The change, which has been authorized by the State Insurance Department, marks the consummation of President Burnham's plans, and places the company among the leading corporations of the kind in the world.

Before this change could be brought about it was absolutely necessary that the condition of the company, financially and otherwise, should be ascertained. For over three months the Department of the Insurance Department have been at work, conducting this examination, which was of the most rigid and exhaustive character. Every detail of the company's business was closely scrutinized, and as a result it is found that the condition of the company is in every way highly satisfactory, that its business is exceedingly flourishing, and that it possesses a surplus, in excess of all liabilities, including the full statutory reserve of about half a million of dollars.

It is a matter of pride to the company that its real estate holdings have been increased by the department.

Superintendent Hendricks, under whose direction the examination was conducted, expresses himself as thoroughly satisfied that the company is amply able to comply with all the requirements of the law for re-incorporation as a legal reserve, or old line, mutual life insurance company, and a charter has been granted to the company, permitting it to transact business in the future upon that basis. This is not only a great thing for the policyholders, but is the achievement of President Burnham's pledge to place the Mutual Reserve under the regular law without depriving the policyholders of any part of their ownership in the institution. The report of the Insurance Department, and its action in permitting the company to transact business in the regular law, is a complete vindication of the managerial policy of President Burnham, as well as a high endorsement of the company as advised and accomplished. Established in 1851 by Mr. Harper, the company has had a most useful and prosperous career. Since and during that time, embracing a period of twenty-one years, it has paid in death claims to its members fifty millions of dollars. It has thousands of members in nearly every State in the Union, and its influence extends to Europe, where its interests are of the most important character.

Under the new condition of affairs, the Mutual Reserve Life Insurance Company is certain not only to maintain its present prestige and prosperity, but to greatly augment the same and to prove a still more important factor in the insurance world.

**Grand Coffee Coupons Are Valuable**

A Beautiful Spot for Excursions.

An ideal spot for picnic and excursion parties is situated on the brow of the magnificent Grand Coffee, overlooking the city, with the beautiful scenery of Mount Royal and the blue waters of Lake Ontario stretching away in the distance. The Grand Coffee has been made into a park, and a large pavilion, recently erected, is now open to the public. It is a most beautiful and interesting spot, and a splendid place for a picnic. The Hamilton Steamboat Company give special rates to Sunday-school children and other societies, including street railway fare and including the Hamilton and privileges of the park, and already have quite a number of dates filed.

NO ONE TOO OLD

KIDNEY DISEASE CAN BE CURED AT THE MOST ADVANCED AGE.

No One Should Abandon Hope Because This Enemy Has Come Upon Them Late in Life—Years No Barrier to a Perfect Cure.

Plattsville, Ont., June 6.—(Special).—Mr. Thomas Lake of this village is now 77 years of age. About one year ago he was very ill.

For some time previous he had been suffering more or less with kidney disease, which ultimately terminated in such severe pains in his back that he could hardly sit up.

He read many testimonials in the newspapers of how Dodd's Kidney Pills had cured other men and women, and at last became convinced that it would be worth his while to give them a trial.

He purchased one box, and the moment he commenced to use them he noticed an improvement in his condition. The pain in his back became less severe, and before he had finished the box it had entirely gone.

His kidneys recovered their normal condition, and he has since had no recurrence of the disease.

His general health since then has been much improved, and in answer to an inquiry on March 22nd, 1902, he says:

"What I have said of Dodd's Kidney Pills is perfectly true. One box cured me, and I have had no more pain in my back since. I thank God for Dodd's Kidney Pills."

A case like Mr. Lake's proves beyond a shadow of a doubt that Dodd's Kidney Pills are the greatest medicine in the world for aged men and women.

THE GRANDEST

The Most Satisfactory and Safest Medicine any Sick Woman Can Take.

Thus Does a Prominent Brooklyn, N.Y., Woman, Speak of Lydia E. Pinkham's Vegetable Compound.

When a woman of the prominence and social standing of Mrs. Atherton whose portrait we are herewith permitted to reproduce, voluntarily furnishes us with a letter of such unqualified endorsement as the following, we feel that we not only owe her a debt of gratitude, but all women who are ill should feel under deep obligations to her, for she tells them in unmistakable words where they may look for a cure and not be disappointed.

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women; all ovarian troubles; inflammations; ulceration, falling and displacements of the womb; backache; irregular, suppressed or painful menstruation. Surely the volume and character of the testimonial letters we are daily printing in the newspapers can leave no room for doubt. Truly it is Lydia E. Pinkham's Vegetable Compound that is curing so many women, and no other medicine.

MRS. FLORENCE ATHERTON,

Vice-President Societe Francaise de Bienfaisance, Brooklyn, N. Y.

"DEAR MRS. PINKHAM:—For the benefit of suffering women I want to testify to the fact that I have by personal experience and by friends who have been cured by using Lydia E. Pinkham's Vegetable Compound come to the conclusion that it is the safest, the grandest and the most satisfactory medicine any sick woman can take. Life was a burden to me five years ago, I felt so miserable with female troubles and irregular menstruation; to-day it is all different, for I am perfectly well. Dozens of my lady friends join me in singing your praise. Yours, FLORENCE ATHERTON, 4 Hoyt St., Brooklyn, N. Y."

"A Boston Woman's Experience."

"DEAR MRS. PINKHAM:—I cannot praise Lydia E. Pinkham's Vegetable Compound enough. I was a sick woman when I commenced to take it. My trouble was female disease, and I had pain in my back and sides. The doctor said I was going into consumption; I had been married eight years, but had no children. I had some of the best doctors in the city, but none seemed to cure me, so I decided to take your medicine, and it has made me a new woman, and I now have a lovely little baby boy. I would advise all sick and weak women to take Lydia E. Pinkham's Vegetable Compound."—MRS. ALPHEUS CHURCH, 15 Rockingham Place, Roxbury District, Boston, Mass.

Remember every woman is cordially invited to write to Mrs. Pinkham if there is anything about her symptoms she does not understand. Her address is Lynn, Mass., her advice is free and cheerfully given to every ailing woman who asks for it.

\$5000 REWARD.—Whoever deposited with the National City Bank of Lynn, \$5000, which was paid to any person who can find that the above testimonial letters are not genuine, or were published before obtaining the writer's special permission. Lydia E. Pinkham Medicine Co., Lynn, Mass.

London, June 6.—The organ of Colonial Secretary Chamberlain, The Birmingham Post, says to-day that on account of his age and infirmities the British government has waived its claim for the acknowledgment by Mr. Kruger of British sovereignty over the Transvaal, and has guaranteed to all the Boer delegates in Europe the safe conduct to their homes in South Africa.

Independent Forestry.

A cable has been received at the Temple Building, announcing the safe arrival of Doctor Ornyhatekha, the Supreme Chief Ranger, in England, where he will devote some weeks to the furtherance of the Order's interests in Europe.

The Supreme Chief has issued a special circular, calling upon the membership the world over to observe Sunday, June 22, which marks the Order's 28th anniversary, as a special day of thanksgiving, and they are to assemble themselves that day in some place of worship, to return thanks to Almighty God for His many mercies, and to pray for the continuance of His great kindness.

The membership, on May 1, stood at 290,121, and the surplus on June 1, \$5,925,411.78. A special campaign has been inaugurated for the months of June, July and August by the Supreme Executive, and large accessions to the Order's membership are looked for in these months.

FINANCES IN GOOD SHAPE.

Britain's Credit Unimpaired Even After a Costly War.

London, June 6.—Prior to the second reading of the loan bill in the House of Lords, to-day, Lord Goschen (Liberal) and a former Chancellor of the Exchequer announced that he desired to say a few words on the financial position of the country. Consols, which were now paying only 2-1/2 per cent., stood at 97. Before the conversion of 1888, 3-per-cent. consols stood at 101. If they had been converted then, they would have been worth only 52, so that now the stock was really 50 points higher, and that after a costly war, and the borrowing of £150,000,000 (\$750,000,000). The country might well congratulate itself on a situation which showed such economic stamina he said.

The Premier, Lord Salisbury, said such words, coming from such a high authority, were very gratifying and would be widely read.

WILL FIGHT THE INDICTMENT

Works Committee Discusses the Situation in Regard to Dundas and Yonge-St. Pavements.

WILL APPLY FOR LEGISLATION

To Compel Property Owners to Have Proper Pavements—Notes From the City Hall.

The indictment against the city in regard to the condition of Dundas-street and Yonge-street pavements was discussed by the Works Committee yesterday afternoon, after some private correspondence had been read in connection with it.

Ald. Lamb moved that the city seek legislation to enable the Council, on a two-thirds majority, to order pavements to be laid where the Engineer said it was necessary, whether the property owners desire it or not. Ald. Curry was strongly opposed to it, but he was the only dissenter. He did not believe in compelling anyone to pay for local improvements if he did not want them.

Ald. Hubbard suggested that the track allowance should be paid, in any event, on both streets. He thought the city had done all it could legally do when it had twice recommended that the pavement be laid under the Local Improvement Act. It was not the city's fault that the streets were in such bad shape. The property owners were the parties upon whom to lay the blame.

Ald. Curry criticized very warmly the Local Improvement Act. He said it was all wrong and a burden on the people who owned property. He said, further, that both the streets under discussion were main arteries to the city. They were used by hundreds of farmers, and he was strongly of the opinion it would be very unfair to compel the people who own the property to build a road, if they did not want it.

The City Solicitor was instructed to defend the city's position, in connection with the purchase of the Sewage Disposal.

The committee authorized the City Engineer to recommend a separate sewage disposal system for the city east of Woodbine-avenue, at a cost of \$40,000. The system will utilize septic tanks.

Will Renumer Houses. Ald. Fleming says that every citizen has a right to be paid for his house. The question arose, because there is a duplication of house numbers on the streets of College-street, from Yonge to Elizabeth-street, which causes considerable annoyance to the residents of the city. Someone from the Engineer's Department interviewed the householders, and found that they objected to any change; but, as houses are being erected, which can have no numbers unless a change is made, it is looked on as a public necessity, and the Engineer was authorized to go on with the work of changing the numbers.

That Asphalt Plant. The Engineer's recommendation in regard to the purchase of an asphalt plant was referred back to him for further information as to the workings of municipal asphalt plants elsewhere, and the kind of asphalt they use. The Engineer reported that the city could save 10 per cent. on the cost of pavements, with a municipal plant.

After the Company. As the Toronto Railway Company has shown no disposition to extend the street car tracks on Parliament-street, north of Wellington-street, the matter was referred to the City Solicitor, with instructions to take immediate action to compel the company to carry the work to completion.

Asphalt for Dufferin-St. The City Engineer will report on Ald. Hall's suggestion, that an asphalt pavement and concrete sidewalk be laid on Dufferin-street, north of the Exhibition Grounds. He wants the work done right away.

Rough on the Watters. The fire at the Pavilion was mentioned by Ald. Foster, who said there had been a lamentable lack of fire protection, because there was sufficient water power. He had been informed that the same condition of affairs existed at the Exhibition Grounds, and now was the time to remedy it. Ald. Hubbard said that Ald. Foster's remarks were entirely correct, and that the fire was due to the carelessness of the caretaker of the Pavilion. "Any caretaker who would leave his building unprotected during a fire, is a man of water, who, by that time, would naturally be pretty full, should be removed from office," said Ald. Hubbard.

Garbage Collection. Garbage collection was discussed yesterday afternoon by sub-committee of the Works Committee, and several communications from other cities were read, and showed that Toronto was collecting garbage cheaper and better than any other city of a similar size. Ashes are collected under contract, for removal of garbage, and, in addition, that city spends between \$70,000 and \$80,000 a year for removing ashes and dry rubbish. The total cost in Toronto is only about \$100,000 a year, says Ald. Foster.

Wabash Railroad. Special excursions to Denver, Colorado Springs, Pueblo, Glenwood Springs, Col., Salt Lake City, Ogden, Utah, Hot Springs and Deadwood, South Dakota. Lowest round trip rates ever made from Canada to the above points.

Special excursion to New York. Once contracted, hard to break, shortest and best route to New York. Cures Drukards Secretly

Free Package of the Only Successful Cure Known for Drunkenness. Sent to All Who Send Name and Address.

It Can Be Put Secretly Into Food or Coffee and Quickly Cures the Nervous Habit.

Few men become drunkards from choice or inclination—all welcome from the awful habit. Golden Specific will cure the worst habitual drunkard. This wonderful remedy can be administered by wife or daughter, in food, tea, coffee or milk, without causing the slightest suspicion. Its

Mr. and Mrs. Harry Burnside. cure is sure, without harmful results to the system. Many a home is now happy by the use of Golden Specific. "My husband got into a habit of taking drinks with the boys on his way home," says Mrs. Harry Burnside. "After a while he came home drunk frequently. He soon lost his position and I had to make a living for both of us and the little children. At times he tried to sober up, but the habit was too strong for him and then he would drink harder than ever. I heard of Golden Specific and sent for a free package. The treatment cured him. I put it in his coffee and he never knew it at all. He regained his old position and now we are happy in our little home again. I hope you will send Golden Specific to every woman that has suffered as I have, and save her loved ones from the drunkard's curse."

Send your name and address to Dr. J. W. Haines, 3543 Glenn Building, Cincinnati, Ohio, and he will mail you a free package of Golden Specific in a plain wrapper, accompanied by full directions how to use it. Enough of the remedy is sent in each free package to give you an opportunity to witness its marvelous effect on those who are slaves to drink.

Do not delay. You cannot tell what may happen to the man who drinks, and you will never forgive yourself for waiting.
