Increased Dividends Are Without Expected Influence—Local Speculation Continues of a Light Order.

World Office, Saturday, July 22.

The subtleties of Wall Street have this week again proved unavailing in securing the ear of the public trader. The market promoters have been unable to get their message across and extra dividends have been declared upon Union Pacific, Illinois Central and Amalgamated Copper. The fact that neither of these dividends were made to regularize the conclusion that the drooping market is unwilling to stake their reputations upon a continuance of the present payments.

The same remarks cannot be said to apply to the Copper. The market has been very active in this respect, and the price of the metal has advanced to 11 1/2 cents. WHERE IS JOHN HOUSER? HAS DROPPED FROM SIGHT

Cousin of Switzerland's President Cannot Be Located—Money Awaiting Him in Hamilton.

John Houser's disappearance is still a mystery. Yesterday's investigation has failed to throw any light upon the man's whereabouts, tho the police officials of two cities—Hamilton and Toronto—are making every endeavor to trace his movements. Not even the slightest detail of his actions since he left the little cottage in Bartonville have come to light.

Around the disappearance of the man are many singular circumstances which those who knew him have reason to believe might have been the cause of his being done away with. His friends are of the opinion that he was murdered, and that it happened while Houser was on a trip to Toronto, to attend a mental aberration they scout; he was too genial and too well-balanced a man for such a thing to be possible.

Houser was 51 years of age and lived with the family of George Pickering, a well-to-do market gardener, near Bartonville. Prior to going there three years ago, he lived with a farmer named Little, near Ganouque. He fell in love with one of the farmer's daughters, Maggie Little, who is a school teacher. He went back there to Ganouque about last October to marry the young woman, but some trouble over the adjustment of the marriage led to the young man's departure from Bartonville. It was then he wrote to a cousin, who is M. Ruchel, president of the Confederacy of Switzerland, asking for financial aid, that he might be independent of the generosity of the bride's family.

The money, \$3,000 francs, recently arrived at the Hamilton branch of the Bank of Montreal. So far it has been unclaimed. It is this large sum of money that may have excited the curiosity of some person who knew Houser expected it, and may have caused the murder of the man.

Party of Railroad Officials Visit the Junction—Hopes Raised That New Depot Will Result

Toronto Junction, July 23.—General Manager Hays and other prominent Grand Trunk Railway officials inspected the Toronto Junction depot, and yards yesterday. It is believed that one of the results of the visit will be the early disappearance of the antiquated station and the erection of a building which will provide proper accommodation for the travelling public, as well as better facilities for the staff employed in connection therewith.

While William Reid was absent from his room at 23 May-street yesterday, a man stole his new suit of clothes, valued at \$100. Reid was sufficiently annoyed in regard to the loss to return to his home and report the matter to the police.

Following was Woodbridge's triumph. Burton, goal; Conroy, point; J. Wallace, centre; Poulter, Ashby and Fawcett, defence; Haystead, centre; home; Clifford, inside home; Hart, outside home.

Weston. Weston, July 23.—Upwards of one thousand people witnessed the lacrosse match between the Shamrocks of Toronto Junction and the home team Saturday afternoon. Five hundred visitors came from Toronto Junction to see the match.

Feeling ran high among the spectators. The game started rather roughly, but Referee Gillespie shut down on it with a firm hand, and the last three quarters were marked by clean, swift lacrosse. East in the first quarter, three of the Shamrocks were sent to the first goal. Afterward the Shamrocks got the ball, and by one of the prettiest and swiftest bits of combination work ever seen in the district, the sphere was passed to McGraw, who scored. Then the Shamrocks scored the second goal for the first time. The first quarter ended by 3 to 1 in favor of the Shamrocks.

The Shamrocks in the second quarter, and Joe Gilbert added two more goals. The Shamrocks led by 5 to 1 at the end of the second quarter. The fourth quarter, the match resulting in a 10 to 0 victory for the Shamrocks by a goal to 1. The Weston team put up a good match, but Charbonneau was not up to his usual good form in goal. The Shamrocks were strong at every point, and their combination work was superb.

Following was the lineup: Weston (C)—Charbonneau, goal; Ed, Rae, point; Ellerby, cover point; Gary Leungman, John Slobos, outside home; Chapelle, defence; Reaman, centre; Garret Rowntree, Jack Conkey and Geo. Slobos, outside home; Stubbs, inside home.

Lighting Just Misses. Dr. Drummond and Editor Farr Have Close Call—Torontonians Battle With Waves.

Halleybury, July 23.—(Special.)—A frightful thunderstorm struck this section Tuesday night. Dr. Drummond of the "Habitant" fame, and Editor C. C. Farr of The Halleybury narrowly escaped sudden death. They were standing on the verandah of Mr. Farr's house, watching the storm, when a terrific peal of thunder was followed by a vivid flash of lightning. The bolt seemed to fly in the very faces of the men, but passed between them and struck a corner of the house. Both Mr. Farr and the doctor were slightly stunned, and look upon their escape as miraculous.

At the same time Eric Armour, the well-known Toronto barrister, and Joe Thompson of Argonaut fame were being for their lives on Lake Pelee. ERASURES BY CHEMICALS

One of Paul Morton's Startling Discoveries—Big Suits Are Pending.

New York, July 23.—The American says: It developed yesterday that Paul Morton in his delving into the books of the Equitable Society discovered that they had been extensively tampered with, that chemicals had been employed to erase entries within the pastures had been changed within the past fortnight. This sinister fact has been kept a secret as possible. The attention of the Equitable Society was called to the books of the office of Comptroller Jordan, who was removed by Morton. Mr. Jordan refused to make any comment on the discovery or to discuss any other phase of the insurance situation.

The exact cause of his dismissal was also learned when it was divulged that Morton had applied to him for information regarding the fire insurance office of the Equitable, which was under the control of Jordan's son, and that the son had refused to answer any question about it.

While these startling things are being told in New York, word comes from Albany of the intention of the state authorities, at last, to take drastic measures against the Equitable. Attorney General Mayer is about to bring suit in the name of the state against the Equitable, which has a capital of \$100,000,000 in the Dewey Realty Company. Other directors are Alexander Hyde, Alexander and all others of the directors who participated in the syndicate profits.

While these suits are being prepared the joint legislative investigation committee is now up to the eyes in the only of the Equitable, but other insurance companies as well. This committee will be used for stock and insurance will be reformed, and will revolutionize the insurance situation in this state.

Among the provisions to be asked for is the fixing of insurance salaries in the hands of the state department of insurance—which would mean a salary of \$10,000 for the chief of some of the companies have been given the other way only.

Still more important is the demand for a law that will limit the investment of insurance funds to government bonds and real estate, thus making it impossible for the money of policyholders to be used for stock and other speculative rigging. If this ever becomes a law, the million dollars will be taken out of Wall-street, with an effect on the sort of finance that is practiced there that cannot be estimated.

A Notable Decision by the Roman Propaganda Ratified by the Pope. The American papers have recently been very full of a famous marriage case, which was decided by the ecclesiastical tribunal of Rome. The case was a divorce case, and the tribunal decided in favor of the divorce. The case was a divorce case, and the tribunal decided in favor of the divorce.

The facts are these: Some years ago a Catholic girl of the diocese of Baltimore became engaged to a Mr. E. J. Mr. Y. on the subject of the divorce, she then proceeded to marry a Protestant, and she was free to marry again.

Shortly after she made the acquaintance of Prince X., and she sprang up between them. The prince was duly informed of the tangled situation, but, to make a long story short, he decided to marry her.

Anything seemed to have gone wrong with the birth of an heir, and the prince, and then his next of kin declared that they would dispute the legitimacy of the latter as an heir. The prince and princess determined to put to rest the matter, and they did so by having the prince marry the princess.
