### SIR WILFRED THINKS ONTARIO SHOULD TOO FRESH Interference in the Waterways Treaty and Canada Life—Bill Unwarranted, He Declares—The Treaty Under Fire.

OTTAWA, May 14.—(Special.)—Clashes between the Ontario Government and the Dominion have been frequent this session. The waterways treaty is the latest cause. A discussion of the treaty was introduced by C. A. Magrath, a prominent western Conservative, who declared that the Canadian commissioners had not been as carefully chosen as they should, and had been "easy marks" for Uncle Sam's negotiators.

Sir Wilfrid Laurier defended the personnel of the commission, declaring that it was preposterous to say that the men were appointed because of their political influence. The commissioners had been entrusted to make a division of the waters of the St. Lawrence basin and everyone had to admit that they had made a fair division. As regards Niagara, some held that they should have got more, but under a treaty it was impossible for one party to get all that it wanted. Concerning the St. Mary and Milk River, the Americans contemplated putting at the head of those streams a dam which would store and would be available during all the summer months. Mr. Magrath and his companions would have the benefit of it. Sir Wilfrid did not care to express an opinion at present on the whole, but the amendments had caused delay in the ratification. Two things were to be considered: (1) What were the physical conditions to be affected by it? and as lucid as one would wish. He had not made up his mind whether the treaty as it stood now, but he was very glad to have the views of those who had spoken.

### MAJOR NOTE ON BLOOR VIADUCT

Ald. Foster Submits Resolution to Test Feeling of People on Need of Great Improvement.

The ratepayers will probably be asked to express their opinion next January on the building of the Bloor viaduct. A resolution which has been more or less of a civic issue for years, and which a substantial majority of the present council has understood to favor strongly. At the meeting of the civic works committee yesterday Ald. Foster submitted the following motion: "That the city engineer and assessment commissioner be instructed to prepare an estimate of the cost of constructing a viaduct connecting Bloor-street with Danforth-avenue for the purpose of submitting a by-law to the duly qualified ratepayers to provide funds to defray the cost thereof." Ald. Foster added that he would like to see a by-law submitted Jan. 1, 1910. It was unanimously agreed to have the reports suggested, after which it will be for the city council to decide as to the submitting of the question to a vote.

### SERIOUS TIMBER FIRE

Extensive District Near Annapolis in Grip of Flames.

HALIFAX, N. S., May 14.—(Special.)—Thousands of dollars' worth of valuable timber lands have been swept away by a fierce forest fire, which is raging in the vicinity of Annapolis. The flames have traversed an area of over three miles since the fire started yesterday afternoon from the remains of a fire left by a fishing party, and fanned by a high wind, has been racing along unchecked. To-night assistance is being forwarded to the scene from Annapolis and surrounding towns. The loss is being very heavy. Owing to the dampness of the underbrush causing a dense smoke, the work of the fighters has been greatly hindered.

### HONOR FOR CANADIAN DAIRY

Price & Sons Compete With the Best in U. S.

CINCINNATI, May 14.—Over eighty of the finest dairy farms in the United States were competitors in the National Certified Milk Contest held here. Price & Sons' Erlingdale Farm, Canada, was among the competitors and was awarded third place, being only one and a half points lower than the winner and only one-half point lower than the farm which received second prize. The Canadian dairy farm was handicapped considerably owing to the long distance their product had to travel to reach here before being judged.

### TO BOOM OTTAWA

Business Men Want to Spend \$20,000 on a Scheme.

OTTAWA, May 14.—Leading business men of the city to-day presented to Mayor Hopewell a big petition asking for the calling of a public meeting at the city hall to discuss a publicity scheme for the capital. The idea is to raise \$20,000 to boom the city along world wide lines.

### MONTREAL STOCK EXCHANGE.

MONTREAL, May 14.—(Special.)—Rodolphe Forget, M.P., having served two years as chairman of the Montreal Stock Exchange, his successor was appointed to-day in the person of W. J. Turpin. George Strathly is secretary-treasurer, while the governors are F. C. Fairbanks, P. P. Cowans, S. B. McDougall and Mr. Forget.

### Australian Delegates.

MELBOURNE, May 15.—(C.A.P.)—Minister of Defence Pearce, Colonel T. T. Bridges, chief of intelligence, and Capt. W. R. Crosswell, director of the naval forces, will attend the defence conference.

### TUES. SUCCEEDS POPE

Assistant Provincial Secretary Goes to Ottawa as Under Secretary of State.

Thomas Mulvey, K.C., assistant provincial secretary, has been offered and accepted the position of under secretary of state at Ottawa, which at present time is filled by Joseph Pope, C.M.G. Mr. Pope has been given another appointment in the public service, as under secretary of the department of external affairs. Hon. W. J. Hanna made the announcement yesterday afternoon. He said: "Mr. Mulvey a few days ago received an offer of the position of under secretary of state at Ottawa at a salary very much in advance of the salaries paid deputies here. After talking the matter over with me, he decided to accept his new duties to commence on the first of June next. "We are all very sorry," he said, "to lose Mr. Mulvey, but we congratulate the government at Ottawa on having secured one of the best officials in the public service to-day."

### MONTREALERS NOT UNIT

ON EMPIRE TRADE IDEA

Board of Trade Will Hold Another Meeting to Reconsider Resolution for Conference.

MONTREAL, May 14.—(Special.)—The attempt of the high protectionist section of the Montreal Board of Trade to recede from the resolution passed at the meeting of May 8 in favor of the ideal of free trade within the empire, is causing more intense feeling among the members than has been exhibited for years, and a meeting on Tuesday next will be an exceedingly interesting one. The following communication, signed by Robert McEwen and Alex. McFee, has been addressed to all the members of the board of trade: "A special meeting of the Montreal Board of Trade was held on May 8, of which proper notice had been given to the members. This meeting was called for the purpose of discussing the resolution to be submitted to the seventh meeting of the chambers of commerce of the empire, which is to take place next September in Australia. "Three resolutions, as prepared by the council of the board, were laid before the meeting, two of them passed without amendment; the third, bearing upon trade relations within the empire, was not accepted, but in its place a resolution embracing all that the council's resolution contained, and, in addition, a step in advance towards imperial unity, was by the meeting deemed preferable and met with almost unanimous approval. "The attendance at the meeting was of an average size and those present were all prominent men of business in Montreal. Inasmuch, however, as the amendment did not meet with the approval of the majority, it is not thought it worth their while to attend the original meeting, a second meeting has been called for Tuesday next, May 18, at 2 p.m., for the purpose of reconsidering the two resolutions."

### POLICEMAN'S BRAVE DEED

Holding Runaway, Picks Up One Little Girl From Path of Death.

NEW YORK, May 14.—Patrolman James Lambert of the Fourth-avenue police station, Brooklyn, was on duty when he came upon a group of children, whom he warned of the dangers of playing in the roadway. In the group was his three-year-old daughter Helen, whom he told to go home. Lambert had walked less than two blocks when he saw two horses plunging madly down the street toward him. Each was attached to a separate rig. The drivers were helpless in front of the animal nearest him, made a grab for the child, caught the animal with his left hand and swung it into the air with his right. As he swept down the block the children whom the officer had warned earlier scattered, with the exception of one tot, who stood as if hypnotized. Lambert saw the tiny animal, and as the frantic horse swept down upon her, at the risk of his life he threw himself forward and grabbed the child in his strong right hand. In reaching for the little one the officer lost his footing and was dragged by the runaway. In the next block the strange group bore down toward the police station. Reserve men ran out to see what the trouble was. Detective Joseph Cossee, seeing it was useless to try to stop the runaway, grabbed the child just as Lambert yelled, "Take the baby!" Two more blocks he was dragged, when he fell exhausted, while the animal ran wild to 37th-street, where a patrolman stopped it. Lambert was picked up unconscious and hurried to the Norwegian Hospital. When he first knew it was his girl's life he had saved.

### FIRE AT TORMENTORS

KILLS INNOCENT YOUTH

Fatality Ends Disgraceful Behavior of Bad Gang Near Ottawa—A Man in Jail.

OTTAWA, May 14.—Ross Beckstead, aged 18, was shot and instantly killed at the McMillan's mill, about four miles from Chesterville, at 9 o'clock last night. Isaac Garlough, aged 40, is in jail. Beckstead's body was not discovered until this morning, when John Ellis, a farmer, found it in the corner of a field by the roadside. Garlough acknowledged having fired off his shotgun to frighten some boys who were bothering him by firing stones at his house. The boys gathered every evening to worry Garlough, who lives in the Township of Williamsburg, breaking his windows and stoning him and his house. Beckstead was not among them and is presumed to have been passing as the gun was fired. He was the only son of a widowed mother.

### TORNADO KILLS THREE

Every Building at Hollis, Kan., Wrecked or Damaged.

KANSAS CITY, Mo., May 14.—Three persons were killed and ten were injured by a tornado which wrecked Hollis, Kansas, to-day. Every building in the town was wrecked or damaged. At Mount Washington, a suburb, 15 were injured.

### THE UNITED STATES DEFICIT

It Will Exceed a Hundred Millions, Including Canal Liabilities.

NEW YORK, May 14.—Secretary of the Treasury MacVeagh during a visit this afternoon to the sub-treasury referred briefly to the condition of the national finances, stating it appeared probable that the deficit for the current fiscal year would exceed \$100,000,000. It should not be lost sight of, however, the secretary added, that owing to the process of financing payments for the Panama Canal the present deficit was in reality only about \$87,000,000, for the reason that money advanced for the construction of the canal was due the treasury, which was to be reimbursed by the proceeds of a bond issue.

### COURTED WOMEN BY MAIL FOR PURPOSES OF ROBBERY.

KANSAS CITY, Mo., May 14.—(Special.)—Charles E. Nord, who copied by mail widows and herons, was arrested from them for the purpose of separating them from their money, and received more than 2000 love letters from three residing in Ontario was sentenced to-day to five years' imprisonment. The prosecuting witness, Mrs. C. Hamilton, a Frankfort, Kansas, milliner, testified to having sold her home and her store and given Nord the proceeds.

## Dividing the Watermelon

A Pretty Raw Deal for Uncle Wilf.

## GIRLS PREFER CO-EDUCATION

Sign Lengthy Statement Disapproving of the Senate Resolution.

Prof. G. M. Wrong and the few associated with him are not meeting with much encouragement in their propaganda advocating a separate college for women at Toronto University. The senate, which has been meeting this week, had the matter again under discussion, but the governors, who will have the final say, have not come to any decision.

There is considerable opposition to the scheme, both from graduates and undergraduates. The following report to the senate from the committee appointed by the senate to enquire in regard to a possible college for women: "We are not dissatisfied with the measure of co-education which exists in Toronto University. "We do not believe that the main reason why so many women take some form of the modern language course is the 'predominance' of men in the other courses. We believe the main reason to be that of practical utility, shown in the way of providing means of earning a living, or of supplying opportunities for pleasure and profit in later life. We do not think that the difference in choice of courses between Toronto University and the average college for women is very great. We cannot compare conditions in the United States, Wellesley and Bryn Mawr, where courses are elective, with those in Toronto University, where courses are fixed.

"We have not been conscious of a lack of justice in the educational facilities afforded us in Toronto University. We do not think that the girls in the province of a university arts faculty to provide for the special needs of women's education. The courses leading to an arts degree are designed in the first instance, as it seems to us, to furnish that liberal education, which we hold to be essential for the education of men and women. Both men and women should, we believe, study for professional careers after their arts course is finished.

"We are told in the report that there are at present almost no women instructors in the arts faculty. We would suggest that women be appointed to the arts faculty in order to remove this handicap of women's education. "We do not see how it would be possible for Victoria or Trinity, if they were to unite with the University in organizing a separate college for women, to retain a free hand in regard to religious and social conditions. "We believe that the best interests of the men and women as a suggested would tend towards a curtailment of library and laboratory privileges in the case of the women, such as prevails at Radcliffe.

"We do not think it would be practicable to have the senior professors duplicate their lectures in a separate college for women. The result would probably be that in such a college the students would ultimately be only the junior professors and lecturers. "The report does not specify how many women would be necessary to secure duplication of lectures in a separate college. If the numbers were not sufficient to warrant duplication, the women would either have to take their work where there was a 'predominance' of men, thereby producing a condition of affairs which a college for women is said above to remedy; or they would have to have access to the necessary instruction. "It would seem to us that the building of an addition to the state college, where the greatest possible advantage could be taken of the available space, would be a better remedy for the present overcrowding than the erection of a college for women. "As far as we have been able to discover, a few women are in the program of the women and many of the men are opposed to the establishment of a college for women as outlined in this report."

### IN-TRUST, GO TO JAIL

Sentenced to Three Months—Heavy Fine Also Imposed.

SAVANNAH, Ga., May 14.—Two of the five men convicted in the "trust" case here, were to-day sentenced to serve three months in jail, while fines ranging from \$2000 to \$5000 were assessed in each case. NEW \$5,000,000 CONCERN.

OTTAWA, May 14.—(Special.)—A Montreal five million dollar company, which has been incorporated, namely, the Western Canada Power Company, the incorporators are: J. W. Burrell, E. P. Wilson, L. R. Ward, H. G. Boyd and Thomas Hood. They will generate light, heat and power. Pharmacy Results Not Ready. The results of the College of Pharmacy examinations were not ready for publication this morning. They will probably be ready to-night.

### CANADIANS IN GOTHAM ENTERTAINED NOTABLES

Prominent Public Men of This Country and U. S. Guests at Annual Club Banquet.

NEW YORK, May 14.—(Special.)—Memories of home and childhood days were recalled in speech and song to the members and friends of the Canadian Club of New York at their annual banquet to-night, which was the most memorable affair of its kind in the history of the organization. More than 500 covers were set at the Hotel Astor and there was a band of ten in Highland costume. Frank Hitchcock, postmaster-general of the United States, made a short talk and the Hon. Rodolphe Lemieux, postmaster-general of Canada, who came on for the banquet, replied. Among the other speakers were: Hon. Frank Oliver, minister of the interior; Hon. Geo. E. Foster, M.P.; Toronto; W. O. Sealey, M.P. of Hamilton; Hugh Guthrie, M.P. of Quebec; Rev. Donald C. MacLeod of Washington, D.C.; Geo. W. Wickham, attorney-general of the United States; Hon. James Bryce, the British ambassador to the United States; Wu Ting Fang, Chinese ambassador to the United States; Jonathan Bourne, Jr., United States senator from Oregon, and the representative from Washington State, Francis W. Cushman. Among those at the guest table were A. E. Fabre, surveyor, president of the Canadian Club of Montreal; Eric Armstrong, vice-president of the Canadian Club of Toronto; Hon. D'Arcy Scott, president of the Canadian Club of Ottawa; K. C. Ramond, president of the Canadian Club of Brantford, Ont.; Jno. B. Davidson, president of the Canadian Club of St. Thomas; George Tate Blackstock, Toronto; Sir James Grant, Ottawa; Senator John V. Ellis, St. John, N.B.; George H. Cowen, Vancouver, B.C.; Alexander B. Graham Bell, the Canadian Club of Boston; W. F. Marshall, president of the Queen's University Society of New York, and Thomas Martindale, president of the Canadian Society of Philadelphia. Mr. Oliver, who was the first speaking, declared that Canadians mean to equip the St. Lawrence shipping route so as to excel that by New York, and to regain for the former way the supremacy it had before the Erie Canal was opened. Canada as a nation standing together with the United States in support of the principle of arbitration in settling international differences was forecasted by the Rev. Donald MacLeod.

NEW PACIFIC TERMINAL IS PLANNED BY C.P.R.

Port Simpson Likely to Be Developed as a Rival to Prince Rupert.

MONTREAL, May 14--(Special).--Announcement was made to-day that engineers are hard at work, not only surveying but locating an extension of the Canadian Pacific Railway from Edmonton right thru the Yellow Head Pass to the harbor of Port Simpson, thus confirming the report of several months ago that the C.P.R. would have a rival of Vancouver on the Pacific coast. It is advertised in London and elsewhere that the Grand Trunk Pacific port at Prince Rupert will be six hundred miles nearer the great ports in the orient than the harbor of Vancouver, and that passengers from Montreal to the Asiatic ports will have of necessity to take the northern route. The action of the C.P.R. gives more or less foundation to the claim of their great rival as to distance, but it appears that Sir Thomas Shaughnessy and his fellow directors are not to be caught napping, for the rumor has it that another great C.P.R. seaport will be built up at Port Simpson, which is about thirty miles northwest of Prince Rupert, and the announcement is also made that a tramway will be built, uniting these two seaports without very much delay. For more than a hundred years the seaport of Port Simpson has been known to the mariners of the Pacific and all have united in claiming it to be one of the finest harbors in the world. The rather close proximity, however, to American territory since the London surrender has, perhaps, injured the standing of the port in imperial eyes. The C.P.R. directors no doubt had this great extension in their minds when they decided upon a practically second trunk line from Winnipeg to Edmonton, which is to be completed this year, while a new railway bridge over the Saskatchewan, uniting Strathcona with the capital of Alberta, will also be well under way. From Edmonton to Port Simpson the distance is from seven to eight hundred miles, or about the same distance as by the Grand Trunk Pacific from Edmonton to the coast. Those who have visited Port Simpson say it is an ideal site for a great seaport and that there are already from fifteen hundred to two thousand people in the place. A New Quaiting Field. The Royal Canadians will open their new quaiting grounds back of the house Saturday afternoon. An invitation is extended to all members and their friends.

Soccer Notes. In an interesting game of football at Ethel, between Fordwich, Maple Leafs and Ethel W.F.A. team, the former won by a close score of 1 to 2. The British United Intermediates club house at 2 o'clock. Lancashire Reserves play Chester at Sunlight Park after the senior game. The following will play for Lancashire: Dave, Acton, Willis, Ogden, Kerr, Sabin, Hickey, Massey, Ware, McGlashan and Clarke. Reserves: Barker, Martin and Wickes. Kick-off at 5.30. Queen and Broadview will represent Lancashire for their league game v. Shamrock at Sunlight Park on Saturday. Ellis, Goal; McDevlin and Gray, backs; Freeman, G. Wright and Alford, half-backs; Turner, Hanson, Hilton, Holders, Mackenzie, forwards. Reserves, Easy, Starkie and Cook. Kick-off at 4 p.m. Referee, J. Dobb. All players are requested to meet at Broadview Hotel outside, corner of Queen and Broadview, at 3 o'clock. Great Day For Irish Sergees. No better estimate of the appreciation gentlemen have for a "good thing" could be had than in the great interest being shown to-day in the special display of fine Irish Sergee Suits made by R. Score & Son, 77 West King-st. These suits are a very special purchase, and are being made up in the firm's faultless manner at twenty-five dollars. Schedule For District No. 5. GALT, May 14--Following is the C. L. A. schedule for District No. 5, as formulated at a meeting to-night: June 11--Galt at Seaforth, Brantford at St. Mary's. June 18--Galt at Brantford. July 1--Seaforth at St. Mary's. July 2--Brantford at Galt. July 7--St. Mary's at Seaforth. July 17--Seaforth at Galt. July 21--Galt at St. Mary's. July 21--St. Mary's at Galt. Seaforth at Brantford. Aug. 4--Brantford at Seaforth. Aug. 14--St. Mary's at Brantford. July 14--Wentworth at Delegates. St. Mary's, Johnston, Seaforth; Martin, Brantford; Ruppel, Galt.

RECORD FOR SHIMONESE WONDERFUL PLATE TRIAL

Mile and Quarter in 2:12 1-5--Star Wave Reels Off Fast Half--Other Woodbine Gossip

With a fast track and real racing weather at the Woodbine yesterday, numerous trials were pulled off by the trainers who are now hustling along their horses for the meeting. The best work of the morning was a trial that was never commented upon by the press, but which was done by the Hendrie stable. She was worked at the Hendrie stable and a quarter mile faster than any of the others have done and was not all out until 2:12 1-5. She was galloped and breezed in preparation for a work. The trial was never mentioned until yesterday, particularly the back stretch. Two-year-olds were breezing three-eighths in less than 37 seconds with ease. The trial of Shimoneze showed up a couple of platers that can be practically declared out of the race. For she beat them off in such an easy manner that it would be a useless expense to carry a first-class rider to take the mount in this event. There was the usual attendance of rail birds and the trial stood around discussing the prospects of the Guineas and longing for the trial of the Seagram horses.

What was a preliminary running of the mile was pulled off yesterday morning when the mare Shimoneze set up a mark for the others to shoot at for the rest of the training days left. She was worked with two other platers and Glimmer to carry the lot along at the end. In the field that started were Shimoneze, Glimmer, Better Half, Desert Star. The lot broke from the stand and worked the mile and a quarter practically along their best, also Shimoneze had a little left at the end. She set the pace with Glimmer close on her flanks all the way and at the end beating her by a head. For the first six furlongs the others were well up, but from that on Shimoneze opened up a gap and went to the front with her stable companion. This was also a good work for him for the events for Canadian-bred horses. The time for the mile and a quarter was within a second of the record for the plate, being 2:12 1-5. The first half was stepped out in lively time. This was the best work of the spring and shows this mare to be a strong factor. She is Gilbert rode Shimoneze, a stable boy was up on Glimmer, while Charlie Phil rode Desert Star and McCarty on Better Half, who was beaten lengths. The lot had their weight up. The fractions were 1:10 1-2, 2:14 1-2, 3:28 1-2, 4:41 1-2, 5:54 1-2, 7:07 1-2, 8:20 1-2, 9:33 1-2, 10:46 1-2, 11:59 1-2, 13:12 1-2, 14:25 1-2, 15:38 1-2, 16:51 1-2, 18:04 1-2, 19:17 1-2, 20:30 1-2, ### SAYS POLICE PERJURED

To Justify Cruelty in Arresting McGill Students.

MONTREAL, May 14.—(Special.)—Ald. Carter of the police committee created a sensation to-day by charging constables who arrested some McGill students some time with having brutally assaulted the boys and then having perjured themselves to justify their cruelty.

### To Be Dyspeptic Is To Be Miserable.

Dyspepsia is the prevailing malady of civilized life. It is largely due to gross errors in diet, over-eating, too free indulgence in stimulants and over-taxing the stomach with indigestible food, eating too rapidly without chewing the food sufficiently, indulging in hot biscuits, pastry, pickles, confectionery, etc.

I can assure you, Herb, that I don't regret the work I put into that voting, and as Mabel nominated me, she not only sets \$100 in gold, which the World also offered for the nominator of the winner of the first grand prize, but I have decided to turn the property over to her out of my own marriage, because she was largely responsible for my success.

Well, Herb, I must get out of this, as the evening is far spent and I've got to tumble out early in the morning.

The folks are all enjoying excellent health and vigor. "Silver" is still a frolicsome companion. I hope you can get over this autumn to visit us and to see my pretentious home. Give my best wishes to everyone and write as soon as you can.

As ever, your old chum,  
Herbert Glasbury, Charlie,  
Columbus, Ohio.

At Pontiac, Mich., a dying man has requested that his body be cremated, fearing worms will get into his nose and tickle him.

### THE WEATHER

OBSERVATORY, TORONTO, May 14.—(13 Daily.)—Numerous showers, but no snows exist on the continent to-night, and pressure is nowhere above the normal. Showers have been fairly general in the Peninsula of Ontario; elsewhere, with the exception of a few light scattered showers, the weather has been fine.

Probabilities.—Lower Lakes and Georgian Bay—Fresh easterly winds, partly fair; cooler in most localities; showers and local thunderstorms, more especially during the night and on Sunday.

### LETTER WAS FULL OF GOOD NEWS

Looking Ahead and Also Backward  
Young Torontonians Re-  
lates News.

Toronto, Oct. 3, 1909.

Dear Herbert: I suppose you are wondering how we are all getting on. It is a long time since I have written you, but really the summer was such a busy one for me that it seemed impossible to get an opportunity to drop even a brief letter. Now that I have a chance there is lots of good news at hand to tell you.

A little fortune tell to me this season in the form of a beautiful house and lot, situated on a splendid avenue of worth \$4000. From now on I'll feel free to get married and start the home that Mabel and I have been planning about so long.

No doubt you will wonder how such unusual luck came my way. Well, it was not without an effort, but a three months when he can land such a big prize. Perhaps you have already heard everything, but in case you don't know, I'll tell you.

At the beginning of last May The Toronto World, one of the brightest and most progressive papers in Canada, put on a popular voting contest and offered \$15,000 in prizes of various kinds, among which was a house and lot. As you are aware, I have been working pretty faithfully for many years and yet could never get enough ahead to buy even a small house, so I decided to make an effort to get one of the big prizes. Mabel is so interested in all my undertakings that I immediately asked her to nominate me in order that I might try for the district in which I live. Dear girl that she always is, she very gleefully consented to send in my name and promised to work hard to get the vote to help me win. I swore that if I could get one of the valuable prizes I would buy a wee home and settle down at once. Of course I never dreamed at the time that things would come my way so nicely, but I think it was as much the canvassing Mabel did for me as anything else.

Anyway, we got all our friends enthused over the contest. It was one of the most discussed events of the past few months. And throughout the time the contest ran we kept rolling up votes just like a political hustler. When the voting closed and the ballots were all counted, I came out on top of the list and the house and lot were mine. Fancy it, old man! It seems too good to be true. When I read the paper and saw my name at the top of the list it nearly took my breath away and I have been wondering ever since how it all happened. I would win, but then, you know, women have such confidence in chaps, haven't they?

I can assure you, Herb, that I don't regret the work I put into that voting, and as Mabel nominated me, she not only sets \$100 in gold, which the World also offered for the nominator of the winner of the first grand prize, but I have decided to turn the property over to her out of my own marriage, because she was largely responsible for my success.

Well, Herb, I must get out of this, as the evening is far spent and I've got to tumble out early in the morning.

The folks are all enjoying excellent health and vigor. "Silver" is still a frolicsome companion. I hope you can get over this autumn to visit us and to see my pretentious home. Give my best wishes to everyone and write as soon as you can.

As ever, your old chum,

### PETITION AGAINST BUDGET.

LONDON, May 14.—Nearly 40 London bankers and merchants, including the Rothschilds, the Barings, Brown, Shipley and Co., and J. S. Morgan & Co., have signed a joint letter to Premier Asquith protesting against the budget as placing excessive burdens on capital and therefore tending to discourage enterprise.

### ROUNDERS ON RISING RAPIDLY REDUCE REMORSE WITH RADNOR.

A NEW RESTAURANT.  
Still another—and a beauty—a reasonable—De Luxe Restaurant—just where you want it—at King and Yonge Street—Toronto, my regulars—don't like to see 'em standing—waiting for seats—and the way Albert Williams equips his restaurants—is unique—the comfort and taste of his restaurants—the Williams' Popular—oh! yes—well named—try it.

Lunch counters and dining rooms for business men. E. Sullivan, 246.

Ratepayers who own properties in various parts of the city, are urged by the City Treasurer to furnish him with lists not later than June 1st, in order that bills may be furnished on premises throughout the city.

John E. Ewart, K.C., LL.D., formerly of Winnipeg, but now of Ottawa, is leaving for England on the 21st inst. He is engaged by the government on the preparation of the Canadian and Newfoundland Fisheries budget to be submitted to the House of Commons.

### NOT BREACH OF FAITH REAUME TO BRODEUR

Treaty Sacrificing Ontario's Fisheries Public Property Before Given Out Here.

Hon. L. P. Brodeur's strictures in Ottawa on Thursday regarding the alleged breach of confidence on the part of Hon. Dr. Reaume, minister of public works, in publishing the fisheries regulations agreed upon by the International Fisheries Commission, met with a summary denial at the parliament buildings yesterday, when Hon. Dr. Reaume made the following statement:

"The Hon. Louis P. Brodeur, minister of marine and fisheries, is reported in this morning's paper as making certain comments regarding myself, doing this, he hopes to turn attention from the real issue.

"Well, let him explain what it occurred that I am saying fishing commission in the Province of Ontario had in its possession a copy of the draft of the treaty months before the one signed by the fisheries of Ontario. The first copy to reach here from Ottawa came on Jan. 29 after repeated written and verbal requests had been made.

"Certain American newspapers, and The Toronto World, had published the text of the treaty some days before this.

"When the copy of the treaty from Ottawa did reach here, there were no less than three copies that had come here through various channels.

"Mr. Brodeur will recall that I directed his attention to this while in Ottawa a fortnight later at the conference.

"The Province of Ontario would have no apologies to offer had it given out this information. The Davis Commission was being sacrificed by the treaty makers.

"The depleted fishing grounds of Lake Michigan have been accepted in exchange for the world's richest fresh water fishing grounds in the Georgian Bay.

"Americans were given the privilege of taking fish and game from our spawning grounds at Pelee and Long Point for the re-stocking of inland streams in the United States.

"Another of those give and take—we give and the Americans take—clauses, permitting the property, the United States Commission and from which the people of Canada derive a financial benefit.

"Lastly, the federal government's action involved the control by the federal authorities of the Ontario Great Lakes Fisheries, the ownership of which has been pronounced to be in the Province of Ontario by the judicial committee of the privy council of England.

"The draft sent by the Ottawa department, which has since undergone certain qualifications, has never been given out."

### LOOKS LIKE BIG PUBLIC MEETING IN TOWN HALL TO-NIGHT.

NORTH TORONTO, May 14.—(Special.)—Great interest attaches locally to the meeting in the town hall to-night (Saturday) evening under the auspices of the Ratepayers' Association.

The topics for discussion are: "The ratepayers' petition to the Metropolitan Council," and "The ratepayers' petition to the Metropolitan Council."

Markham Township Council has been served with a writ on behalf of Mrs. Emma Ambler of Thornhill, for unpaid damages for negligence in the removal of a dynamite in a gravel pit. Mrs. Ambler, who at the time of the alleged negligence lived on a farm in Markham, claims that her nerves were shattered. The gravel was used on Yonge-street. Council will dispend the action.

Chairman Leitch and Other Members Inspect Metropolitan.

Acting on an application made by T. H. Lennox, K.C., representing a number of municipalities, five in all, the Ontario Railway and Municipal Board on Friday afternoon, after a long session, decided to grant a concession from the C. P. R. crossing to Mullock's Corners, a distance of about 23 miles.

Chairman Leitch and Vice-Chairman Ingram represented the board. T. H. Lennox, the municipalities, while the several foremen in charge of the different districts were also in attendance.

The Metropolitan Railway placed a private car together with an auto for the disposal of the party, and a thorough inspection of the line was made, with a view to arriving at the correctness or otherwise of the several complaints filed respecting the condition of the roadbed, watercourses, and other matters.

The members of the commission on their return, last night, had no state-

### DOVERCOURT TO COME IN ALONG WITH EARLS COURT

Ratepayers Will Ask Board of Control to Fix City Boundary Farther North.

The meeting of the board of control next Thursday to annex them to the city. This was the decision of a meeting of Dovercourt ratepayers in Earl's court school last night. There was a large representation from Earl's court, and the meeting was addressed by Acting Mayor Ward of Toronto, who proposed to do all in his power to see the annexation scheme thru; but, he advised, they should be reasonable in their demands.

The meeting gave Mr. Ward's seal of approval a great boost. The meeting did not look at all harmonious, and it was not until 11 o'clock that the boundary was agreed upon. Some of the Earl's court people threatened to balk the whole thing, but they were cut again, if Dovercourt attempted to cut into their territory.

It was finally agreed that all the territory about 200 feet north of St. Clair-avenue between the "Junction" and the present limits of the city should join the city.

This seemed to some to be too much to ask. "Let Earls court paddle their own canoe," said one, and an amendment was proposed, that the boundary be a line 50 feet north of Davenport-road from west of Shaw-street to the "Junction."

The amendment was lost and the original motion was agreed upon. A deputation, composed of S. K. Correll and H. Cutler, from Dovercourt, J. J. Little and W. A. Robinson, will see the board of control.

W. A. Robinson, president of the Earl's court Ratepayers' Association, assured the meeting that while he had spoken against taking in as far north as St. Clair-avenue, his followers would fall in line.

### WEST TORONTO.

WEST TORONTO, May 14.—Chairman W. J. Irwin presided over a representative meeting of citizens in the town hall to-night to discuss the present Bell Telephone conditions generally in the west ward.

The opinion was generally that the rates for a house and \$80 for a business phone, were too high, and on motion of A. J. Anderson and Ex-Ald. Sam Ryding a committee was named to go to the city hall and interview the board of control with a view to securing some reduction in the rates.

At the close of the meeting Mayor Baird laughingly said: "A conference will be held at the city hall on Tuesday afternoon at 4 o'clock, and if any of you have not yet had a street named after you kindly attend."

### MALVERN.

First Game of Season Opens There This Afternoon.

MALVERN, May 14.—(Special.)—The first game in the Central Footbal League will be played here on Saturday afternoon, May 15, between the locals and Scarborough Junction. Game called at 6.15 p.m.

### NEWMARKET.

Canal, or Something, is Giving Northern Town a Big Boost.

NEWMARKET, May 14.—(Special.)—Prior to the regular meeting of the high school board, Chairman Cody entertained the trustees and teachers to a splendid luncheon. Under the direction of Principal Coombs, Newmarket high school has grown to be a fine educational institution, and it will soon attain the status of a collegiate institute.

The commercial course is very popular and after the midsummer holidays four form work will be taken up. There is no indication of dull times here, and the business and teaching staff of employees. More than forty houses were erected here last year and this season the number will be increased.

Newmarket is taking on all the airs of a lake port town, having already a number of automobiles, and the railway on the way. Dr. Scott is the last townsman to get one.

The body of an infant partially decomposed was found in a ditch near the railway on the way. Dr. Scott is the last townsman to get one.

About forty mechanics are now working on the Friends College, which will be rushed to completion in time for the opening of the fall term.

### YORK COUNTY ESTATE.

William Hemphill, a Vaughan Township farmer, who died on April 14, left an estate valued at \$11,216, of which \$885 is stock in trade, \$2871 in cash and \$8090 in real estate in the 8th and 9th concessions. The sons George and Thomas each receive a farm, they in turn pay an annuity of \$150 each to the mother. Another son, John, gets \$100, while the three daughters, Mary, Margaret and Jane, get \$150 each.

### SERVED WITH WRIT.

Markham Township Council has been served with a writ on behalf of Mrs. Emma Ambler of Thornhill, for unpaid damages for negligence in the removal of a dynamite in a gravel pit. Mrs. Ambler, who at the time of the alleged negligence lived on a farm in Markham, claims that her nerves were shattered. The gravel was used on Yonge-street. Council will dispend the action.

Chairman Leitch and Other Members Inspect Metropolitan.

Acting on an application made by T. H. Lennox, K.C., representing a number of municipalities, five in all, the Ontario Railway and Municipal Board on Friday afternoon, after a long session, decided to grant a concession from the C. P. R. crossing to Mullock's Corners, a distance of about 23 miles.

### ROYAL BAKING POWDER

Absolutely PURE. The only baking powder made from Royal Grape Cream of Tartar.

Royal does not contain phosphoric acid (which is the product of bones digested in sulphuric acid) or alum (which is one-third sulphuric acid), and is a healthful substance adopted for other baking powders because of their cheapness.

ment to make regarding their trip, and an official report will be submitted, later.

No question was raised by the municipalities regarding the rolling stock which is admittedly good, nor was any reference made to the matter of the North Toronto cars or stops.

The party, who were in charge of Mr. Lennox, were afforded every facility by C. L. Wilson, the assistant manager of the company, for a thorough inspection of the system, and on the return trip lunched at Lemor's Hotel at Aurora.

The railway company was represented by H. J. Wright, their solicitor.

### SIR WILFRID THANKS

Continued From Page 1.

condition with regard to the St. Mary's River, a loop of which, about two hundred miles long, runs through Alberta. Sir Wilfrid Macdonell discussed conditions prevailing at Niagara Falls, laying stress on the location of the boundary line, which gives the whole of Canada six-sevenths of the water power, and gets only 64 per cent of the water power, or counting the Chicago drainage basin, only 44 per cent. Allowing value of the American diversion is \$9,285,000 and that of the Canadian diversion is \$16,700,000; on a basis of water supply, the American share should be \$2,500,000 and the Canadian share \$2,500,000.

The Americans had appointed five eminent engineers as commissioners, and another eminent engineer as secretary; whereas in Canada there had been two lawyers, one an astronomer and one engineer, and the secretary a journalist.

Mr. Lennox, who with the situation at Sault Ste. Marie. He admitted that the greater part of Lake Superior water should belong to the United States, but that the greater part of the St. Mary's River belonged to the country.

The waterways commission had divided the waterpowers at St. Mary's river equally between the U. S. and Canada, and an American senate amendment would absolutely nullify this division. He appealed to the premier to advise Great Britain to reject the treaty.

### LOST HEIRS COMPANY QUITS

Manager Gadson Returns Money After Talk With Police.

H. Gadson, local manager of the Lost Heirs Investigation Company, was taken to police headquarters yesterday morning and put over the jumps by Inspector Duncan. Gadson's proposition was to collect a dollar from as many as would fall for his proposition and for this he would see what chance they had for a British estate in Canada. Quite a number of get-rich-quick come-ons have fallen for the game within the last few weeks.

Gadson was a land office business, but after his talk with the inspector he promised to cut it out and the police will see that he does not sign up to him in this connection. He returned to the sender. The sum of \$50 was found in his mail yesterday and turned back to the ready givers who had sent it. To-day the "Nothing Do" sign is up big on the lost heirs business in Toronto.

Gadson's scheme has been held up in New York at the instance of British Consul-General C. W. Bennett, and two arrests were made in this city. There as heretofore men had advertised that over \$8,000,000 lay in English chancery courts to be claimed by lost heirs.

Consul-General Bennett declares that there are not more than one million pounds sterling awaiting disposition in the chancery courts of England, and there are on hand already nearly four thousand claims therefor, which would more than consume the total, even the \$8,000,000. Any one having any rights in the premises, he added, might apply directly to the assistant paymaster-general of the royal court of justice.

### BANQUET TO GOIN.

MONTREAL, May 14.—(Special.)—The Montreal Reform Club will banquet Sir Lomer Gouin and his colleagues at the Windsor on June 1st.

### HE GOT RELIEF RIGHT AWAY

Dodd's Kidney Pills Cure Kidney Disease of Eight Years Standing.

That's What they did for William O. Cain, and now he says "Dodd's Kidney Pills Are Great medicine."

Mapleton, Albert Co., N.B., May 14.—(Special.)—When I began taking Dodd's Kidney Pills I got relief right away. I have found Dodd's Kidney Pills a great medicine. So says William O. Cain, well known and highly respected in this neighborhood.

Mr. Cain has a very good reason for making so emphatic a statement. For eight years he was a sufferer from kidney disease, and did not seem to be able to get relief.

"Why, I was so bad," Mr. Cain goes on to state, "that my kidneys bothered me so that if I would go to pick anything off the ground, I would fall." But Dodd's Kidney Pills cured him just as they have cured thousands of other sufferers all over Canada. They never fail to cure Kidney Disease of any kind. Not once, but scores of times, they have cured cases of Bright's Disease, the most deadly of all kidney troubles, while every day brings stories of cures of Rheumatism, Lumbago, Dropsy, and Heart Disease from various parts of the Dominion. Other kidney medicines may cure. Dodd's Kidney Pills always cure.

The \$8,000,000 cash of Abdul Hamid found in the Yildiz palace will be used to pay the expenses of mobilizing the troops.

# Want An Investment or a Home Which? You Can Get Both in the Purchase of a Building Lot in the Nairn & Parsons' Estate

**Description** This property is a lovely, rolling, picturesque ground—many fine trees scattered over it; ground is cleared, soil is good and sanitary, lots are surveyed, roads laid out and finished into smooth, level streets, 66 feet wide; some of the streets are in charming crescents and ovals, others in straightaway, dignified boulevards. Already there are stores, churches and a school there, and 300 families living there. This is an ideal property for a home or for an investment. At the prices we are asking, \$3 to \$8 per foot, the chance is a snap. The terms we sell on are the easiest that any truly desirable property can be sold on, viz., \$10 down and \$5 per month. 35 lots have been sold since Saturday. If you will ring us up, Phone Main 7281, we will make an appointment to take you out and show the lots to you. If you don't buy you are the loser, and we shall feel well paid in having given you the opportunity.

Office Open Evenings—Friday and Monday until 9 p.m.  
UP-STAIRS—24 ADELAIDE STREET EAST

**OURS IS THE BEST OFFER YOU WILL EVER GET**

Come and See the Plans and Descriptions in the Office, or come to the Nairn & Parsons' Estate Saturday Afternoon and Our Representatives will tell you all about it and show it to you

**THE PROPERTY LIES IN THE LINE OF GROWTH**

## The Dovercourt Land, Building and Savings Company, Limited

OWNERS AND VENDORS OF THE NAIRN & PARSONS' ESTATE

Office: 24 Adelaide Street East, FIRST FLOOR UP

Telephone: Main 7281

**Location** This property is located Three Blocks North of Dufferin St. and St. Clair Ave. You reach the property by getting off the street cars at the Dovercourt terminus and from there it is only a few minutes' easy walk.

**Attractions** The Nairn & Parsons' Estate is partly improved, streets being laid out and roadways in good condition. The site is delightful, being 300 feet above the lake, in the high, pure air. Surroundings are beautiful and healthful. There are no restrictions as to building, and no matter how simple the first structure of your home may be, in few years all settlers will have enlarged and beautified their dwellings, making the Nairn & Parsons' Estate one of the prettiest and most homelike in the country.

**Prices** The prices are only introductory, as they may be advanced at any time. They are the lowest prices such intrinsically good property was ever offered for. Just think of getting a home site and an investment combined for

**\$3.00 TO \$8.00 PER FOOT**

**Terms** The easiest possible terms, so easy that anyone, even if he has not the ready money, can buy a lot and pay for it out of his wages as he goes along. Look at them.

**\$10 Down and \$5 Per Month**

TO HOUSEHOLDERS IN THE NORTHERN CITY AND SUBURBAN DISTRICT.

We have many enquiries from people who like rooms with or without board in this locality. If you would like your rooms well rented, see us.

### AN ATTRACTIVE SUBURB

Located Halfway Between Oakville and Toronto, Bids For Popularity.

About ten miles from Toronto, near Port Credit, there is an ideal location for business men desiring of living in the country, with all the advantages of the city.

Adjoining, as this plot does, the Village of Port Credit, the advantages of such a location can be readily distinguished.

Port Credit has churches, schools, stores, telephone and telegraph service and trolley and railroad service. An attraction about it is that the property is high ground, overlooking the lake, with boating and bathing facilities, and is just halfway between Toronto and Oakville.

It is easily reached by the lake shore and Dundas-street roads, which are excellent for automobilizing.

Reasonable building restrictions will be placed on the dwellings erected.

Child Burned by Fire.

Victor Day, aged 6, was badly burned yesterday while playing with a tin of lye her father had left on the top of the house at 283 College-street. She was taken to Grace Hospital. No serious results are anticipated.

### Real Estate and Building News

YORK MASONIC HALL, EGLINTON.  
—J. W. Siddall, Architect.

The above is a drawing of the new York Masonic Hall, corner of Eglinton-avenue and Yonge-street, which is to be formally opened on the evening of the 21st inst. It is the property of a company who are members of York lodge and is exclusively for Masonic purposes. The structural elements are red brick and Canadian art stone. A full basement underneath is adapted as a furnace room and kitchen. The first or ground floor has a large banquet room, ante rooms and lavatories. On the top floor is the lodge room proper, candidates' members' and cloak rooms. The lodge room is a parallelogram 33 x 41 feet, with high arched ceiling effected by supporting the roof on a series of semicircular ribs starting with the floor line, and thereby accomplishing a great economy of space.

The furnishings of this room are as elaborate as any lodge room in Canada, not excepting the far-famed blue room in the Temple Building. In this, too, the color effect is blue, with finest imported English plush upholstery and carpets, and silk drapings for the windows to match.

### ATTRACTIVE SUBURBS DRAWING THE PEOPLE

Davisville and Eglinton and Riverdale Are Being Rapidly Peopled

There appears to be an exodus this spring to the suburbs. This phase of home-seeking plainly suggests that Toronto is growing. Its limits are broadening and there is no doubt about it that in a few years time the northern part of the city, more properly referred to as Davisville and Eglinton, will expand perceptibly. As is well known, this city is of oblong design, thru which Yonge-street runs north and south and also thru Davisville and Eglinton. In these districts, property is valued at \$40 a foot and is worth it, but on streets running east and west across Yonge-street, in

this same district, land can be bought at \$5 a foot. A distinct advantage is the easy access to the city on the Metropolitan cars. People who live there say they can get to the city limits in five minutes, and if fortunate, can reach the downtown section in another ten. In all, fifteen minutes is a fair standard of the time it takes to get from Davisville or Eglinton into the heart of the city.

**Riverdale Section.** Across the Don River is another section of the city that is attracting the people. Excellent locations are being sought there and a whole lot of building is being carried on.

**FREIGHT WRECK AT SCHAW.**  
GALT, May 14.—(Special.)—There was a head-on collision at Schaw Station on the C.P.R. last night, between two freight, and both engines were badly damaged. The crews were unhurt.

The wreck is said to be the fault of the driver failing to deliver a train order.

At London—Robert Kirkpatrick, a resident for half a century, aged 77.

### NEW ROSEDALE CHURCH FOR PRESBYTERIANS

Carnegie Library at Dundas and Other Large Jobs by Chapman and McGiffin

Architects Chapman and McGiffin have in hand the following work just starting or about to start: Alterations to R. S. Williams Piano Company's store, Yonge-street; Rosedale Presbyterian Church, for which the foundations have been begun; the Carnegie public library, Dundas, Ont., \$10,000; residence on Spadina-road for G. A. Chapman, manager of Grenadier Ice Company, \$10,000; two semi-detached houses on Poplar Plains-road for G. Long, for \$7,000 each; a brick residence for H. C. Schofield, manager of the Guelph branch of the Dominion Bank, Guelph, \$5,000.

Eustace G. Bird, architect, let the contract yesterday for a new bank and office building in Winnipeg, owned by the Royal Bank. It will be much the same style of building as the new Royal Bank on East King-street, with Italian marble exterior, gorgeously carved and fitted. The cost is about \$200,000. Nucross Bros. of Boston have the general contract.

The same architect designed and supervised the banking room of the new Dominion Bank at Hamilton, which has just been moved into. The interior finish of this building is considered as fine as anything of like proportion in Canada, displaying an abundance of foreign marbles, mahogany counters and bronze grill and metallic work, executed by the Canada Foundry Company of Toronto.

The new Dominion branch bank in Windsor, which is just completed, is also one of Mr. Bird's creations and makes the finest corner in Windsor.

### SON BORN IN STATION

Coming to Canada with her husband, his mother and father, who will take up a farm, Mrs. Emma Van Amburg of French River, Minnesota, gave birth to a bouncing 10-pound boy at one of the stations en route early yesterday morning. The urged to remain over, Mrs. Van Amburg pluckily continued her journey and reached Toronto. She was attended by a physician in the ladies' waiting room of the Union Station and was afterwards taken to a rooming house.

The husband, Charles Van Amburg, was delighted with the news, and he went into ecstasies over his future home. "People on the other side," he said, "talk about God's country, here it is. I never saw such fine farms before." He was glad his first son was Canadian born.

**Socialists Show Strength.**  
WELLINGTON, N.Z., May 14.—(Special.)—The Socialists and single-taxers showed much bitter opposition at a large meeting, preventing the carrying of a resolution in favor of compulsory military training.

# Choice Residential Suburban Property

## Situation

ADJOINS PORT CREDIT (ON THE EAST). Port Credit is about ten miles from Toronto and less than half way to Oakville.

## Property

HAS A LAKE FRONTAGE OF OVER HALF MILE, and has been subdivided into building lots of convenient size for those erecting residences. A boulevard of about one hundred feet in width extends along the water front. This is an ideal location for city business men, being convenient to Toronto, with all the advantages of a country surroundings, and will rapidly rise in value.

## Advantages

Port Credit has churches, schools, stores, physicians, telephone, telegraph, trolley and railway service.

## Attractions

This property is high ground overlooking Lake Ontario, with boating, bathing and fishing facilities.

The property is easily reached by the Lake Shore and Dundas Street roads, which are excellent for motoring, in addition to a frequent trolley and railway service.

## Conditions And Terms

Reasonable prospective building restrictions. Prices of Lots range from \$5.00 to \$15.00 per foot on reasonable terms of payment.

Plans and other particulars can be obtained from us.

### TRUE PROPHETIC POWER THAT LIFTS THOUSANDS

'Tis Gipsy Smith's Early Life That Binds Him to Galilean Gospel of Open Air.

Only the pure in heart can break up the bread of life as Gipsy Smith has broken it for the thronging thousands in Massey Hall during this week. Last night the depth of reverence, the profound earnestness, the fatherless tenderness of his appeal surpassed that of any previous evening, and the great audience, scarcely diminished by the wet weather, yielded its tithes to the garnerers of the Lord.

No one can say just what it is that makes Gipsy Smith differ from all other modern evangelists. His early life has much to do with it. It binds him to the stern but sweet simplicity of the Galilean gospel of the open air. As you listen to him, by some strange magic, modern civilization loses its reality. It ceases to be necessary. Its pleasures and its ambitions, its toils and its achievements cease to possess importance. He commences with the eternal ages. He seeks, like Amos, Him who maketh the seven stars and Orion, and turneth the shadow of death into morning. It is the true prophetic power only that can lift these thousands of people out of their own age and circumstances and give them the vision of the Lamb slain from the foundation of the world. He is but a gipsy boy, but in the deep heart of him flows the mystic stream that joins him with the Faithful and True.

### SON BORN IN STATION

Coming to Canada with her husband, his mother and father, who will take up a farm, Mrs. Emma Van Amburg of French River, Minnesota, gave birth to a bouncing 10-pound boy at one of the stations en route early yesterday morning. The urged to remain over, Mrs. Van Amburg pluckily continued her journey and reached Toronto. She was attended by a physician in the ladies' waiting room of the Union Station and was afterwards taken to a rooming house.

The husband, Charles Van Amburg, was delighted with the news, and he went into ecstasies over his future home. "People on the other side," he said, "talk about God's country, here it is. I never saw such fine farms before." He was glad his first son was Canadian born.

**Socialists Show Strength.**  
WELLINGTON, N.Z., May 14.—(Special.)—The Socialists and single-taxers showed much bitter opposition at a large meeting, preventing the carrying of a resolution in favor of compulsory military training.

### WELSH CHOR ASSISTANTS

So he sung last night while the Welsh choir of the Welsh Sunday School in Bathurst-street, joined in softest chorus. This was the hymn that meant so much in the Welsh revival, and they followed it with Bryan Calhara and the stirring "Aberystwith," all from Gipsy Smith's supplement, "Hallowed Hymns."

Then he sang as solo "Over the River Faces I See," the hymn made familiar by C. M. Alexander. Nothing could excel the melting sweetness of his voice as he slowly repeated the verse of Wats' glorious hymn, "See From His love, His hands, His feet, sorrow and low flow mingled down." The charm of his presence, his graceful and striking and uncountable gestures, added to his speech and song never pall. The emanations of an abounding charity visit every heart as he speaks and sings.

Last night he turned once more to the text of the previous evening, Mark v. 30. "I wish to talk about the woman who suffered many things of many physicians and who was nothing better and the growing worse, but then Luke leaves that bit out about the doctors and the growing worse, but then Luke was a doctor himself. Mark has no scruples."

In some such way Gipsy Smith always gets on good terms with his audience in the beginning, and before they know he has captured their sympathies.

### TREATMENT OF SIN

He went on to speak of the hellish and damning character of sin. "Your disease, my friend, sin-sin, can only be dealt with by infinite fingers. The sooner you face that truth and the sooner you believe it, the sooner you will get deliverance from it. "I can write your name down in a church register, but it takes the Holy Ghost to make you a child of God. This Book won't do it. You say, I've read it; I've gone thru it. "I wish you'd let it go thru you. It is not this moon or this Book that can heal you.—None but Jesus will do. "When you want to get rid of sin you must come God's way. That's a poor lost sinner at the foot of the cross. "You don't need me. Go into your own room. Turn the key and get down on your knees humbly before God and have a definite interview with Jesus."

The afternoon address followed a Rueset of suggestions from Prof. Gilmour of McMaster, on Romans 1, 16, 17. There were four great words in it—salvation, gospel, power and not ashamed, said Prof. Gilmour. "Every man transformed by the gos-

### FELL FROM SCAFFOLD

Fatal Ending to the Recent Dupont Street Accident.

Donald McKay, the young carpenter, who fell twelve feet from a scaffold on Dupont-street, succumbed to internal injuries yesterday. At the time of the accident he was taken to the Western Hospital. He had no relatives in Canada, and boarded at Mrs. Dickson's, Simcoe-street. He came from Scotland two years ago. The funeral will take place this afternoon from D. B. Humphrey's to St. James' Cemetery.

### I. P. B. S. MEETING

At the monthly meeting of the Irish Protestant Benevolent Society last night, President George B. Sweetnam in the chair, the photo of the late S. E. Windrum, a former president of the society, was added to the collection of past presidents. Seven new members were elected.

The question of erecting a building suitable to the needs of the society was discussed, and will be taken up again after the summer recess. Those present, Major Sloan, R. H. Bowes, ex-Ald. Lytle and others gave addresses.

### ONE FRUIT OF LOCAL OPTION

GRIMSBY, May 14.—Summons have been issued by Magistrate Kidd for the appearance of three men, who are believed to be selling liquor illegally. The wet stuff has been brought in here in such quantities lately by men who come down from Hamilton, that decent citizens are disgusted with the present state of affairs, and the fighting and nightly carousing on the streets.

### GRACE FAYNE'S HOMESTEAD, A HOLSTEIN-FRIESIAN COW VALUED AT \$8,000, IS SEEN AT HARVEY A. MOYER'S FARM, JUST NORTH OF SYRACUSE, N.Y.

The "devil car," propelled by a steel mannikin, in which President Grant and King Edward rode, and which scared western Indians into submission, is to contest with a modern automobile.

### OMINOUS RESOLUTIONS BUT STRIKE COLLAPSING

Representatives of Workmen's Organizations Promise Postmen Support "to the Death"

PARIS, May 14.—The striking postal employees at a meeting this afternoon adopted resolutions appealing to the workmen's organizations to make common cause with them.

The meeting was attended by M. Fataud, secretary of the electrical union; M. Guerdard of the railroad men's organization, and other representatives of the workmen, who delivered inflammatory speeches, promising the postal employees immediate support, and threatened, if necessary, to place themselves under the direction of the revolutionary general federation of labor.

The resolution as passed pledged that the postal employees and the workmen's organizations would unite for a battle to the death "in order to obtain liberty of thought and speech and the right for all employees of the state to form syndicates."

These threats produced a big scare, but there is a strong suspicion here that the leaders in the movement are bluffing.

The strike of the postmen itself apparently has lost ground. The rank and file of the men seemingly are convinced that the agitators are acting for their personal ends and as the tools of revolutionary proletarian organization, and they hesitate to lose their permanent situations and pensions. At Chartres and Dijon today the strikers, in view of the attitude taken by parliament in connection with the strike, voted to return to work.

The government officials here continue to express confidence that the losing movement is collapsing. It is pointed out by them that only 48,000 out of the 300,000 railroad men whose support was pledged the strikers today by M. Guerdard belong to the union and that these members are mostly trackmen and artisans employed in the shops. It is reported to-night that the strikers in their desperation again are cutting the telegraph wires in Paris and the provinces.

### A Pleasant Surprise

NORTH BAY, May 14.—(Special.)—The quiet marriage on May 1 in Montreal of Duncan McIntyre Ferguson, son of John Ferguson, a leading citizen of North Bay, and Margaret Catherine Brady, eldest daughter of F. P. Brady, intercolonial railway commissioner, formerly general superintendent of Lake Superior division C.P.R., is announced.

# Exp--Expansion of the North a Source of National Pride--Gowganda

## PRODUCERS OF WOOLS HAVE THEIR TROUBLES

Canada Exports Seventy-Five Per Cent. of Her Wool, and Foreign Wools Are Brought in—John Campbell, Woodville, Has Been to Ottawa About it and Toronto Dealers Talk on the Situation.

Only for revenue needs Canadiana wool is not a million dollars ahead, while the wool mills were closed. —John Campbell.

"The wool question is full of intricacies and so few men understand it as to be able to give a correct opinion on it." —E. T. Carter & Co.

"I am a free trader, but the wool men evidently need more protection than they are to continue. As for myself, I feel that I can do what any other man can do, and if England produces goods for our use, we must produce goods for their use, and if we do not, we must be prepared to pay for the goods we import." —John Hallam.

Prices for Canadiana wool are 10c to 12c per lb. Prices for the same goods in Montana and other western states are 12c to 14c. The duty on our wools which go to Boston is 12c a lb. Who pays the duty?

"The question of wool growing in Ontario has been on the tapis for our farmers for some time. Canada does not grow enough wool to meet her requirements. It is a serious question. A writer from Fort William in The World last April 12, stated that a duty on wools coming into Canada. His arguments have had much force and today we have some other opinions. The following letter from John Campbell of Woodville, a former president of the Woolgrowers' Association, and together with Col. Meade of Guelph, a special representative to Ottawa, is being read with interest by many. He says:

"Manufacturers of woolen goods have for years past been clamoring for an increase of duty on such productions. They are to be found in the majority of them—have been crying out, 'more duty, or closed up mills in Canada.' They have been wonderful supporters of the wool growers during the past year or two, and, of course, fully as anxious to have the consumers of the cloth of goods they make continue not only to pay to them the present toll, but have the same very largely increased. They want wool feed, and lots of it, at the lowest possible price, for their cow so that they can get large quantities of solid butter-fat, but at whose expense? Through one of the cloth of goods Toronto the manufacturers were pressing for a conference with wool-growers, in order to ascertain each other's needs and desires.

"The Dominion Sheep Breeders' Association at their two past annual meetings appointed a committee to look into the existing conditions and find out the hows and whys of all the demands made by woolen goods makers. A sub-committee, Lt.-Col. McCrae of Guelph and myself, were instructed to see our minister of agriculture at Ottawa, that we might learn something of the duties collected on goods we want in 1908, and discovered the astonishing fact that only \$8.00 duty had been collected on the millions of pounds of wool brought in from Canada from abroad. At the same time for years we (the growers of wools) were led to believe by politicians and others, as they happened to be interested, that a duty of three cents per pound was levied on all such wools as were grown in Canada. And yet some five millions of such wool were brought in, and only six dollars collected.

"In other words, the manufacturers evaded the duty, pocketed the \$150,000 annually, and intended to be given to the wool growers as a small share of protection, while it was going so free in our country. It was interesting to me the information as to how the wool was got in free. Wools, such as we grow, were put through a very slight process of manufacture and brought in as 'tops and noils' and thereby the opening was made for free admission, and wool-growers suffered the loss, while at the same time the consumers had to pay right up to the possible limit, which is the 30 per cent. duty on finished goods allowed manufacturers to charge.

"Starting with the evasion of duty to the amount of some \$150,000 and at the other end with 30 per cent. protection, they cry out, 'Closed mills or we can't live.' The same sub-committee was reappointed for 1909. Another interview was had with the minister of agriculture first and later with him and the minister of customs, when the whole situation was gone into as thoroughly as the meeting of the whole committee, with representatives of the manufacturers, was arranged for and held at Toronto last month. The sheep-breeders' representatives were out in full force, but only one maker of wools was put in an appearance. When a South Kenton and one interested in a woolen mill would state, as he did on the floor of parliament, that in one year a woolen manufacturing concern by him and others made to pay a dividend of 25 per cent., what conclusion can we arrive at but that with good machinery and capable management the manufacturing of Canadian wools into goods used by our Canadian people can be made to yield very profitable returns.

**WHY CATARRH IS DANGEROUS**  
Usually it comes with a cold. Being slight it is neglected—but the seed of a dangerous disease is sown. Perhaps consumption. To cure at once, take Catarrhine. It destroys the germ of Catarrh, clears the passages for colds, catarrh of the nose and throat. The hacking cough and sneezing soon disappear, and health is yours again. Nothing known for colds, catarrh of the throat and nose is so curative as Catarrhine. It cures by a new method that never failed. At all dealers 25c and \$1.00. Get Catarrhine now, to-day.

### EXPANSION OF THE NORTH.

The people of the United States and Canada, living in the congested cities or following their varied occupations in the older settled areas of the continent, have at best only second hand impressions of the development that is going on in the vast silverland of Northern Ontario. The expansion in the west has become a source of national pride to Canadians and of astonishment to the citizens of the United States. But while the west is adding to its population and the whole country is feeling the effects of the resulting commercial expansion, the silver districts have been growing silently but tremendously. Cobalt, Halleybury and New Liskeard are growing rapidly and buildings of all sorts are being erected. Latchford, the gateway to the Montreal River country, is becoming the base of an extensive traffic. North Bay and Sudbury are alive with the spirit of the new life coursing thru the northland. Elk City has developed into a thriving town with the aspirations of a city. Gowganda, which sprang into existence almost in a night, finds itself the base of operations to a country farther west. At Wapoose a little group of tents and shacks to-day is the embryo of the larger community to be. The country is being flooded with prospectors. The shores of the inland lakes are dotted with tents and canoes. The detonation of exploding dynamite has become a part of the new life and no longer excites comment. New steam plants labor by day and men cease work when the whistles blow. Out of all this development mines are being created which will give employment to thousands and enrich all lines of business.

"The making of woolen goods has been one of our very earliest industries. The spinning wheels in pioneer homes, the hand-loom and the taking of cloths to be filled and dressed in our local mills are all fresh in the memories of many. As years passed, the demand has changed. The hand spinning and weaving, and the once useful finishing mills, are all gone. Increased wealth demands better looking goods in lines of clothing. Among the woolen mills it has simply come to be a 'survival of the fittest'.

"There are splendid opportunities in Canada to grow the wools we need, and we are growing now quantities which our manufacturers allow to cross the lines into the States, where the demand has been given. The wool of our local mills is all fresh in the memories of many. As years passed, the demand has changed. The hand spinning and weaving, and the once useful finishing mills, are all gone. Increased wealth demands better looking goods in lines of clothing. Among the woolen mills it has simply come to be a 'survival of the fittest'.

### MARKETING OF WOOLS.

"The chief reason for 'poor wool' is the careless methods of feeding and protection given sheep. Some farmers do not feed, lack of shelter from storms, allowing chaff and straw to fall on the backs of the sheep instead of feeding in racks. The wool is badly matted and lacking in lustre. The process of removing the wool from the sheep is difficult and expensive. This wool is often discarded for the work it is grown for. Another factor is the presence of burrs in their pastures. These are very troublesome when they get in the fleeces.

### CLIMATE CONDITIONS CHANGE FIBRE.

"Each country produces a wool peculiar to itself and which is used for different purposes," continued our informant as he sat on the porch of his home. "The wool of the north is grown in one of the northern provinces of which I am not informed of which I have just ordered a carload. This wool is used for felting purposes, in the making of felt shoes, and in the structure of the individual fibre explains this. Each fibre of wool is covered with a series of scales which overlap like the scales of a fish and which vary in different wools. These scales pull one against the other and when rubbed together the points of the scales extend beyond the surface of the wool to a certain extent break off and this renders this wool unfit for felting purposes. Other wools cling together by rubbing and so felts are made. The study of wools is a most interesting one to the man who cares to read the literature and make the investigation."

### SOME WOOLEN MILLS THRIVE.

Notwithstanding the 30 per cent. tariff on wools goods, our manufacturers seem to be dwindling in numbers. That the imposition of a higher tariff would remedy the matter is problematical to a great many. Mr. John Hallam, who handles wool in Ontario, said that the prejudice in favor of imported goods, and the small population in Canada, were important factors in the present status of the woolen industry. "In England where there are big woolen mills, the machines are kept busy in many cases on one line of goods, both night and day for months together. These firms then send their travelers over to all the parts of the world and the goods can be put out at a very low margin.

"In Canada, mills often have to manufacture up to fifteen kinds of cloth and when the machines have to be stopped and changed with a limited market for each cloth it can be easily seen that the cost of production is large in this particular mill. Cheaper labor in the old lands is also a factor. "But there are some big factories in Canada that are doing well. These run largely to one grade of goods and they seem to be making money. The whole question is a vexed one and it is hard to see how to be agreed on the remedy of the situation. One would naturally think that with free raw material and a 30 per cent. protection we ought to be able to hold our own, but we are apparently losing our woolen industry, and the lack of money-making in it, must be the cause."

### BOSTON WOOL MARKET.

BOSTON, Mass.—The upward tendency of values continues to be the

# OPPORTUNITY

You have perhaps been misguided in your investments. The record of success shows that failures are inevitable. Failure is the harbinger of Success, as it stirs up determination and discrimination, which ultimately leads to that end.

We have presented many money-making propositions to our clients in the past, but the one we are now putting before their notice offers the biggest and surest returns on the investment of any that has ever come into our hands. We have had many enquiries asking us to point out opportunities for making money.

Well, the opportunity has come, and we would remind those who wish to take advantage of it of that memorable poem of John J. Ingalls:

**OPPORTUNITY.**  
Master of human destinies am I!  
Fame, Love and Fortune on my footsteps wait.  
Cities and fields I walk; I penetrate  
Deserts and seas remote, and, passing by  
Hovel and mart and palace, soon or late  
I knock unbidden once at every gate!  
If sleeping, wake!—if feasting, rise before  
I turn away! It is the hour of Fate!  
And they who follow me reach every state  
Mortals desire, and conquer every foe  
Save death; but those who doubt or hesitate,  
Condemned to Failure, Penury and Woe,  
Seek me in vain and uselessly implore—  
I answer not and I return no more!

## A. J. BARR & CO., 43 SCOTT ST., TORONTO, Members Standard Stock Exchange

The following information concerning the proposed Company is given pursuant to the Ontario Companies Act: The names, descriptions and addresses of the original incorporators and the number of shares subscribed for, respectively are: William Everett McCarthy, Insurance Broker, Toronto, 500 shares; Francis C. Burnett, Electrical Engineer, Toronto, 500 shares; William Henry Hodgson, Electrician, Toronto, 500 shares. A. J. Barr & Co. have an agreement with C. P. Little to turn over to the company three claims known as G3 319, G3 320 and G3 321, in Gowganda dis-

tributed for \$2500 cash and 125,000 shares of the capital stock of the company. The usual brokerage will be paid for the sale of the stock. The estimated amount of preliminary expenses \$500. To cash of stock or other consideration will be paid any promoter. The agreement between C. P. Little and A. J. Barr & Co. can be inspected at any time at the office of A. J. Barr & Co. The auditors of the proposed Company will be Wilton C. Eddis & Co., Continental Life Building, Toronto. The Company shall proceed to allotment when and so soon as the sum of \$25,000 has been received in addition to the amount necessary to pay for the properties at which time the Company will be incorporated.

**Wool Prices in Toronto.**  
This year prices are considerably better than last year in Ontario. Toronto merchants quote 10c to 12c on unwashed fleeces, with 14c to 18c for washed fleeces. Slightly higher values might be obtained for choice selected lots.

### AUSTRALIAN SHEEP RAISING.

U. S. Consul-General J. P. Bray of Sydney recently made the following report on the wool and mutton production in Australia. New Zealand and South America to the last two London sales, and now to the present time, has been in a state of depression. The wool market is marked by a steady withdrawal of the Australian merinos set all double as great. So far there is not the slightest sign of weakness, but, on the other hand, the tendency is slightly upward, and the price step-up from the early purchases in Australia, New Zealand and South America to the last two London sales, and now to the present time, has been in a state of depression. The wool market is marked by a steady withdrawal of the Australian merinos set all double as great. So far there is not the slightest sign of weakness, but, on the other hand, the tendency is slightly upward, and the price step-up from the early purchases in Australia, New Zealand and South America to the last two London sales, and now to the present time, has been in a state of depression.

### Was Troubled With Weak Back For Years.

Could Not Perform Household Duties, Doctors Attended Without Avail.  
Mrs. Arch. Schaefer, Black Point, N.B., writes: "For years I was troubled with weak back. Often times I have lain in bed for days, being scarcely able to turn myself, and I have also been a great sufferer while trying to perform my household duties. I had doctors attending me without avail and tried liniment and plasters, but nothing seemed to do me any good. I was about to give up in despair when my husband induced me to try Doan's Kidney Pills, and after using two boxes I am now well and able to do my work. I am positive Doan's Kidney Pills are all that you claim for them, and I would advise all kidney sufferers to give them a fair trial." Doan's Kidney Pills are a purely vegetable medicine, containing quick, permanent relief, without any other ill effects. A medicine that strengthens the kidneys so that they are enabled to extract the poisonous uric acid from the blood and prevent the chief cause of Rheumatism. Price 50 cents per box, or 3 for \$1.25, at all dealers or The T. Millburn Co., Limited, Toronto, Ont.

### Free Receipt For Weak Men

Gentleman Will Send It Confidentially, Free and Sealed, to Every Weak and Unable Man Who Writes for It.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, falling memory and lame back, brought on by excess, unnatural drains or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manhood, vigor and vitality, quickly and quietly, should have a copy. So I have determined to send a copy of this prescription, free of charge, in a plain, ordinary sealed envelope, to any man who will write me for it. This prescription comes from a physician, who has made a long and convincing it is the surest acting combination for the cure of debility, manhood and vigor-failure ever put together. I think I owe it to my fellow men to send them a copy in confidence, as the any man, anywhere, who is weak and discouraged with repeated failures may stop dragging himself with harmful patent medicines, secure what I believe, is the quick, sure, and permanent relief, by using SPOT-TOUCHING remedy ever devised, and so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 232 1/2 Bldg., Detroit, Mich., and I will send you a copy of this splendid remedy, in a plain, ordinary sealed envelope, free of charge.

The opportunity is here. Seize it, and with thousands of others participate in the natural wealth of New Ontario.

**PROSPECTORS' EXPLORATION AND DEVELOPMENT COMPANY** will undertake to do all the drudgery of mineral hunting for you. Properties will be staked and tested at first cost, and one good claim alone will return many times the present investment. The company has already secured three claims. These will be developed, and in the meantime the company's prospectors will seek out other claims in the rich silver districts of the north.

To pay for these claims and to put prospectors in the field, 100,000 shares of the company's stock is now offering at 10 cents a share, par value \$1 per share.

The entire capitalization of the company is only \$350,000 in 350,000 shares. Compare this with buying into companies with capitalizations of \$3,000,000, and with one claim of forty acres.

The next issue of stock shares of the **Prospectors' Exploration and Development Company** is expected to be at a very much higher price, and intending buyers should make immediate application for the amount of shares they desire to take up.

### JAIL OVERCROWDED

But Well Kept, Says Grand Jury—Compliments to Warden Gilmour.

Grand Jury Presentment.  
In their presentment yesterday made to Justice Magee the grand jury of the criminal assizes offered many compliments to Warden Gilmour and to the Central Prison, which institution they spoke of as a hive of industry where prisoners appeared to enjoy their work at their various trades. The jails of the country they believe should be run on the same plan. The only complaint against Frank L. Gaffey, three charges of false pretences; John Ba'our, one charge of theft and one of receiving stolen property, and John Moffatt, shopbreaking.

### Free Bills in Sessions.

True Bills were returned yesterday by the grand jury of the sessions against Frank L. Gaffey, three charges of false pretences; John Ba'our, one charge of theft and one of receiving stolen property, and John Moffatt, shopbreaking.

### FOUR DREADNOUGHTS FOR ITALY.

ROME, May 14.—The minister of marine, Admiral Mirabelli, has obtained the approval of the cabinet to a naval program that provides for the construction within three years of four dreadnaughts and a number of fast torpedo boats.

### NEW YORKERS IN THE YUKON.

VANCOUVER, B. C., May 14.—(Special.)—It is understood that the Dawson City Waterworks and Electric Light Company, with the Sourdoughs as well as other mining-interests in the Klondike, have been acquired by a New York syndicate for about half a million dollars.

### ONE OF THE PRINCIPAL VENDORS IS DAN MCCARTHY.

OTTAWA, May 14.—(Special.)—Kung Kien Chao, the new Chinese consul-general for Canada, sails by the Empress of Ireland from Liverpool for Canada on June 18, accompanied by his wife and family and secretary. Mr. Kung will make his headquarters in Ottawa or upon the Pacific Coast.

### BRAMPTON, May 14.—(Special.)—A young man, Eugene Lockwood, of Leine Park, under arrest for some time on a charge of horse stealing, was this afternoon found guilty by Magistrate Shaver of Cooksville and sentenced to one year in the Central Prison.

Lockwood broke into a stable and stole a horse, and was found guilty of the charge, altho he had previously admitted that he was guilty of theft on another charge.

SHARP BREAK IN NEW YORK BUT MARKET RALLIES LATER

Local Exchange Little Affected—Prices Hold Well—Buying Orders Heavier Than for Some Time.

World Office, Friday Evening, May 14. Despite a sharp break at the New York Stock Exchange to-day, local securities held their advances remarkably well.

Buying orders were much heavier than has been lately the case in this market and but for the fact that professionals are working for small turns prices would have responded more to-day than they did.

Twin City sold at a further advance to-day, but was under the influence of a sharp break at the New York market.

Mackay was somewhat similarly affected but both of these issues demonstrated that they had a responsible undertone on the reactions.

Among the inactive stocks, City Dairy was the feature with sales as high as 32 1/8.

Both the investment and the speculative departments of the market are in an excellent condition.

Further rumors of 6 per cent. dividend on Reading common.

Next corn crop may yield 3,250,000,000 bushels in view of largely increased acreage.

U. S. Steel earnings current year not expected to fall below \$100,000,000.

London market strong with further improvement in consols and gains in copper group.

James J. Hill believes business will boom when tariff bill is out of the way.

Twenty-seven roads for first week in May show gross increase 14.09 per cent.

Every railroad in Pittsburg district reports decided improvement in number of cars handled during first twelve days of May.

CHICAGO—Official forecast of the Aitchison annual report is nearer 13-2 than 12 per cent.

No. 13—Dutch Hand-Printed Draperies HOLLAND has developed decorative industrial design to a point which puts her in the forefront of all the world.

The fabrics we are attempting to describe embody some of the very richest work of the Dutch designers. The motives are frequently taken from ancient work such as you see in Persian rugs and draperies, but the charm is fresh, quaint, delightful, and decidedly Dutch.

These beautifully colored designs are engraved by the artists themselves on wood and printed a color at a time by hand. It is the old enthusiasm for handicraft revived once more.

What is the result? Beauty without question, art without material distractions.

For the design prints beautifully on the hard cotton surface, and the colors glow as softly as those of old-time banners. You can take these curtains and couch covers and BOIL them with soap and soda if you like. It won't hurt them. The light won't fade them.

If you want art with practicality, you have it here in those Dutch Fabrics we show this spring.

Dutch Hand-Printed Curtains, Table Covers, Bed Spreads, Cushion Tops, etc., etc. Each one complete in itself, with borders, medallions and centres in exquisite harmonies of color, and in charmingly original Dutch designs. Prices from 25c up to \$6.00 per pair. Special exhibition Monday, May 17th.

HOUSEFURNISHING DEPT., FOURTH FLOOR.
